INFORMATION ON THE PRIMARY CARE PROVIDER PROGRAM

Did you know that a strong doctor-patient relationship is good for your health? Now you can have your own personal doctor, someone who knows you and your health history and understands your health care needs. The Medicaid Primary Care Provider Program makes this possible.

The basic feature of the primary care provider program is to have a single medical professional to provide your primary care. When you are feeling ill or need to schedule an annual exam, call your doctor's office. Your doctor will provide health care services. He or she will also refer you, if needed, to other doctors who specialize in specific health issues.

Services that are paid by Medicaid and that require a referral from your primary care provider are explained on pages 10-11 of this booklet. There are many covered services, and while some services require you to get a referral before receiving the services, many services require no referral.

This guide explains the services which are covered under the Medicaid Primary Care Provider Program. It also explains your responsibilities as a participant in the Primary

Care Provider Program and provides answers to commonly asked questions. PLEASE KEEP THIS BOOKLET AS A RESOURCE.

Interpretation Services

Oral interpretation services available free of charge, at your county social service agency, clinics, physician's office, and hospitals. Go to these agencies or medical care providers to better understand Medicaid services in your language.

Enrollee Satisfaction

A 2002 enrollee satisfaction survey reported:

- 75.7% are satisfied overall with the Medicaid program
- 85.2% were satisfied overall with their doctor, nurse, or clinic.
- Of those enrollees surveyed and responding they had received a referral for specialty care, 81% reported having no problems.

If you have questions, please contact your county social service office (see page 14) or the North Dakota Medicaid Office at (800) 755-2604.

ENROLLMENT

The Services Area for the primary care provider program is the entire state of North Dakota. This means that if you live in the state and fall into one of the below eligible categories, you must select a primary care provider. Your county social service office will inform you that you need to select a primary care provider.

If you are Medicaid eligible by one of the following, you must select a primary care provider:

- Categorically needy. This includes Family Coverage Group, and Transitional (extended) Medicaid
- Optionally Categorically Needy. This includes the Medically Needy nonexempt
- Poverty Level. Includes Pregnant women, Children to age 6, and Children ages 6 to 19.

If you are Medicaid eligible by one of the following, you do not select a primary care provider:

- Enrollees under age 19 with special needs that are eligible for SSI, or eligible under section 1902(e)(3) of the Act or eligible under a maternal child Health Services Block Grant.
- Enrollees enrolled in Medicare
- Individuals residing in nursing facility
- Individuals residing in an ICF/MR
- Enrollees receiving home and community based services
- Disabled enrollees
- Blind enrollees
- Aged enrollees
- Residents of the State Hospital
- Enrollees receiving foster care, IV-E and non IV-E
- Enrollees receiving adoption assistance, IV-E and non IV-E
- Enrollees receiving refugee assistance
- Enrollees having a retroactive eligibility period
- Enrollees in non IV-E tribal foster care

CHOOSING A PRIMARY CARE PROVIDER

Selecting your primary care provider:

When you apply for Medicaid in your county social service office, you must select a primary care provider for each eligible member of your family. **If you do not choose a primary care provider, you will be responsible for the cost of medical services.**

A primary care provider may be a doctor who specializes in:

- Family Practice / General Practice
- Internal Medicine
- Pediatrics

You may also select a Rural Health Clinic, Federally Qualified Health Center, or an Indian Health Services Clinic as your primary care provider.

You must choose a provider who works in your community. If a primary care provider is not available in your community, you should select one in your county or in the surrounding area where you live. The primary care provider you choose could be a health care professional who has cared for you or your family before or who meets your current health needs.

If you need help choosing a primary care provider, a county eligibility worker can give you a list of providers in your community, county, or area. An eligibility worker can only give you information. You are responsible for choosing a primary care provider.

Changing your primary care provider:

You have the right to request a change or transfer your PCP selection. You must submit your request either in person or in writing to your county social service agency.

You may request a change:

- Any time during the first ninety days;
- Every six months; or
- If they have good cause. Good cause reasons include if you relocated, if you have a significant changes in your health that requires a primary care provider with a different specialty, if the primary care provider relocates, if the primary care provider refuses to act or continue to act as your primary care provider, at your redetermination of Medicaid eligibility, or to change to a managed care organization.

When a good cause request is made, your county eligibility worker will determine if good cause exists and document the reason and decision. You will be sent a letter informing you of the approved change or denial. Voluntary disenrollment from a PCP is effective the day the request is received.

You should contact the provider that you want as your primary care provider to make sure the provider is accepting new patients. If you need a provider that speaks a non-English language, you should also contact the provider you want as your primary care provider.

You should always try to see your primary care provider first for your health care needs. If your primary care provider is not available or you cannot wait until he or she is available, you may see a colleague or an assistant of your primary care provider **But remember**, if you need a referral for specialty care, the referral must come from your primary care provider.

COPAYMENTS

Under the North Dakota Primary Care Provider Program, you may have to pay part of the cost of your health care. The amount you are responsible for paying is called a copayment. Each time you receive one of the following services, you may have to pay a copayment (*NOTE the exceptions below*). Ask the clinic or hospital if they require you to pay the copayment at the time you receive the service.

Copayment Amounts

\$1 for spinal manipulation received during a chiropractic appointment

\$1 for each outpatient speech therapy visit

\$2 for each office visit. This includes all Medical Doctors, Nurse Practitioners and Physician Assistant Certified

\$2 for each dental clinic appointment

\$2 for each outpatient physical therapy visit

\$2 for each outpatient occupational therapy visit

\$2 for each optometry appointment

\$2 for each outpatient psychological appointment

\$2 for each outpatient hearing test visit

\$3 for each hearing aid supplied

\$3 for each clinic appointment to a Rural Health Clinic or Federally Qualified Health Center

\$3 for each Podiatry office appointment

\$3 for Brand name prescription drugs

\$6 for each emergency room visits that are not emergencies

\$75 for each inpatient hospital stay

EXCEPTIONS TO COPAYMENTS

You **do not** have to pay the copayment amount if:

- You use a generic prescription drug rather than a brand name prescription drug; or
- You are living in a nursing home facility, swing bed facility, the State Hospital; or
- You are younger than 21 years of age; or
- You are pregnant and have verified your pregnancy to your eligibility worker; or
- It is an emergency; or
- It is for family planning clinic services

REFERRALS

In North Dakota

If you need specialty services, your primary care provider will authorize (refer) you to see another doctor, hospital, laboratory, or other health care provider. **Before** you receive specialty services, you **must** receive a referral from your primary care provider. Your primary care provider's office may be able to help you make an appointment with the specialist.

Emergency medical services and family planning services do not require a referral from your primary care provider. Emergency care is covered, if it is for medical conditions which most non-medical people think of as life-threatening, or which could cause death or severe, permanent damage or injury to a person or unborn baby if not treated immediately.

Out-of-state

If you need specialty care from a provider in another state, see your primary care provider. First, he or she will determine if you need care or services that cannot be provided in North Dakota. You will first be sent to a specialist in North Dakota. The North Dakota specialist will recommend to your primary care provider and to North Dakota Medicaid if you need to be referred to an out-of-state provider. Your primary care provider and specialist must submit a written request to North Dakota Medicaid that includes medical and other information. North Dakota Medicaid will approve or deny the out-of-state referral based on medical need and if the services are available in the state.

FAIR HEARINGS

If you do not agree with a decision made regarding your care, you have the right to ask for a fair hearing. This request must be in writing and must be made within 30 days of the decision about your care. Contact your eligibility worker for specific information on how to request a fair hearing.

EMERGENCY CARE

You have the right to use any hospital for an emergency medical condition. If you need emergency care, go immediately to the nearest hospital emergency room. If possible, you should contact your primary care provider for advice on your medical condition. In almost all areas of the state, you can call 911 to help you with your emergency. In the very few areas of the state where 911 is not available, you should call your primary care provider or nearest medical facility.

You do not need a referral or prior authorization for an emergency medical condition.

If you can, you should let the emergency room staff know the name of your primary care provider. The emergency room staff can contact your primary care provider for relevant health information in order to help the emergency room doctor care for you. **If you need care after an emergency, contact your primary care provider to schedule an appointment with him or her. If necessary, your primary care provider will refer you for care after an emergency with a specialist.**

Emergency care and the need to evaluate or stabilize an emergency

An emergency medical condition is a medical condition of recent onset and severity, including severe pain, that would lead a prudent layperson acting reasonably and possessing an average knowledge of health and medicine to believe that the absence of immediate medical attention could reasonably be expected to result in serious impairment to bodily function, serious dysfunction of any bodily organ or part, or would place the person's health, or with respect to a pregnant woman the health of the woman or her unborn child, in serious jeopardy.

Post-stabilization care services means covered services, related to an emergency medical condition, that are provided after an enrollee is stabilized in order to maintain the stabilized condition, or to improve or resolve the enrollee's condition.

Medicaid will pay for ambulance services if it is a medical emergency. You will be responsible for the cost of non-emergency ambulance services.

SERVICE LIMITS

Beginning January 1, 2004, the following limits apply to all Medicaid recipients, with exceptions noted.

- Chiropractic manipulation visits ~ 12 per year;
- Chiropractic x-rays ~ 2 per year;
- Occupational Therapy Evaluation ~ 1 per year
- Occupational therapy ~ 20 visits per year; (*applies to services delivered in a clinic or outpatient hospital setting. This limit does not apply to school-based services for children.*)
- Psychological Evaluation ~ 1 per year
- Psychological therapy visits ~ 40 per year;
- Psychological testing ~ four units (hours) per year
- Speech therapy visits ~ 20 visits per year; (*applies to services delivered in a clinic or outpatient hospital setting. This limit does not apply to school-based services for children.*)
- Speech evaluation ~ 1 per year
- Physical therapy evaluation ~ 1 per year
- Physical therapy visits ~ 15 per year (*applies to services delivered in a clinic or outpatient hospital setting. This limit does not apply to school-based services for children.*)
- Vision testing and prescriptions for glasses ~ under 21 years of age - 1 exam & 1 set of glasses per year; 21 and older - 1 exam & 1 set of glasses every 2 years

Authorization in excess of the above limits may be granted by the Medicaid Utilization staff when medically necessary.

RIGHTS & RESPONSIBILITIES

Your responsibilities as a North Dakota Medicaid participant include:

1. Following North Dakota Medicaid's procedures and policies;
2. Calling your primary care provider for medical services;
3. Keeping your medical appointments and calling your primary care provide if you cannot make it to the appointment;
4. Carrying your North Dakota Medicaid ID Card with you and showing it when you receive health care services;
5. Contacting your eligibility worker about any changes in your case or if you have questions.
6. Using the emergency room for emergency care ONLY. It is a good idea to call your primary care provider for advice or a referral before you go to the emergency room. Emergency care is covered, if it is for a medical emergency. You could be responsible for paying for non-emergency services received in a hospital emergency room.

Your rights as an enrollee in the Primary Care Provider program include:

- Receive information and instructional materials and the right to request additional information and material.
- Be treated with respect and with due consideration for your dignity and privacy.
- Receive information on available treatment options and alternatives, in a manner appropriate to your condition and ability to understand.
- Participate in decisions regarding your health care, including the right to refuse treatment.
- Be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience or retaliation.
- Request and receive a copy of his or her medical records, and request that they be amended or corrected.

To help your Primary Care Provider give you the best health care possible:

1. Tell your doctor about your medical problems;
2. Help your doctor get your past medical records;
3. Call ahead for appointments whenever possible;
4. Keep your appointments and be on time. *Call your primary care provider's office if you are going to be late or can't keep your appointment;*
5. Treat your doctor with respect

Transportation to medical appointments <i>(Non-emergency non-ambulance)</i>	Yes			No
Workers Compensation Services		No		
If you need counseling or referral service which are not covered because of moral or religious objections, contact your social service agency or the state Medicaid agency for assistance.				

QUESTIONS & ANSWERS

- **How do I receive medical care?**

First select a primary care provider. Call your primary care provider and make an appointment if you need medical care. If you cannot keep an appointment, call your primary care provider immediately.

If you need emergency services, go to the nearest hospital. You do not need to contact your primary care provider in an emergency. **If you need follow-up care (example: stitches removed), call your primary care provider to schedule an appointment.** If medically appropriate, your doctor may refer you for follow-up care.

- **How do I use my Medicaid Identification (ID) Card?**

Show your Medicaid ID Card every time you receive health care services or have a prescription filled or refilled. Because emergencies can happen at any time, you should carry your North Dakota Medicaid ID Card with you at all times.

- **When does a newborn baby need a primary care provider?**

You must choose a primary care provider for your baby and notify your eligibility worker no later than 48 hours (2 days) after your baby's birth.

- **What happens if I need medical care when I'm away from home?**

If you need emergency services, go to the nearest hospital. Otherwise, you should call a doctor's office or clinic and explain the problem. If you must seek medical services when you are away from home, show your Medicaid ID Card and tell the doctor the name of your primary care provider. In order for North Dakota Medicaid to assist in paying for the services, that doctor's office should contact your primary care provider to arrange for a referral. It is a good idea to verify that the doctor has contacted your primary care provider.

- **What if I have other health insurance in addition to Medicaid?**

Your other health insurance is the first source of payment. The doctor, clinic, or hospital must bill your insurance first, before billing Medicaid. You are responsible for reporting insurance to your eligibility worker and the doctor, clinic, or hospital where you receive medical care.

- **Should my Medicaid primary care provider and my primary care provider under my other insurance be the same person?**

Yes you should select the same doctor. Medicaid requires that you follow your private insurance company's guidelines first.

QUESTIONS & ANSWERS

- **What if I receive a bill for services I thought were covered by Medicaid?**

First you should contact the doctor's office, clinic, hospital, or other provider. Ask them to explain exactly which services you are being billed for. Did you forget to pay a copayment, or are you responsible for part of this bill because of your recipient liability? If the charges are for services you received without a referral from your primary care provider, or for services not covered by North Dakota Medicaid, you will be responsible for the bill. Information about coverage of services appears on pages 10-12 in this booklet. If you still have questions about your bill, contact your eligibility worker and explain the situation.

- **Does Medicaid pay for transportation to my doctor's office?**

Transportation problems should not keep people from receiving medical care. If possible, ask family members, friends, or volunteers for a ride, or use other free transportation services to get to your medical appointments. When free rides are not available, transportation may be approved by county social service agencies. If you have questions, contact your eligibility worker.

- **What prescription drugs, and medical equipment and supplies are covered by Medicaid?**

Most prescription drugs, family planning products (*example: birth control pills*), and medical equipment and supplies prescribed by a primary care provider are covered by Medicaid. If in doubt, ask your pharmacist. Don't forget to show your Medicaid ID Card when you have a prescription filled.

- **Are drugs to help me stop smoking covered by Medicaid?**

Yes, the drug Zyban used with nicotine patches is covered by Medicaid for up to two 90 day periods with prior approval. There is a lifetime limit of two 90 day periods. Nicorette gum is also covered with a lifetime benefit of twelve boxes. For Medicaid to cover these items, they must be prescribed by your primary care provider.

- **I have CHAMPUS. Do I need to use only CHAMPUS providers?**

You must follow the requirements of the CHAMPUS Plan.

- **Whom do I contact if I have questions?**

If you have questions, please contact your eligibility worker or the North Dakota Medicaid Office at (800) 755-2604.

OTHER SERVICES

Offered by the North Dakota Department of Human Services

Children's Special Health Services

Services: Children's Special Health Services (CSHS) may help pay for diagnostic services to identify children with disabilities or chronic conditions. This division may also help pay for treatment if a child has an eligible condition and meets financial guidelines. Staff also assist with care coordination and provide information and referral services.

Intended for: This program serves children (birth through age 21) with certain disabilities or chronic conditions and their families. Cerebral palsy, cleft lip and palate, diabetes, hearing loss, heart conditions, scoliosis, and spina bifida are just a few of the many qualifying medical conditions.

***For information:* Contact the local county social services office or call (701) 328-2436 or 1-800-755-2714, TTY: 1-800-366-6888.**

Healthy Steps — North Dakota's Children's Health Insurance Program

Services: This health insurance plan is intended to provide insurance for uninsured eligible children from working families in North Dakota. Covered services include inpatient and outpatient services, clinic services, psychiatric and substance abuse services, prescription medications, routine preventive services such as shots and well-baby check-ups, preventive dental and vision services, and prenatal services.

Intended for: A child may be eligible if he or she is 18 years or younger, is not covered by health insurance, does not qualify for Medicaid, is a North Dakota resident or qualified non-resident, and lives in a family whose income after subtracting child care costs and payroll taxes is at or below 140% of poverty. (ANNUAL Net Income Examples: 2-person family — \$17,496; 3-person family — \$21,948; 4-person family — \$26,400.)

***For information:* Call 1-800-755-2604.**

Health Tracks (formerly EPSDT)

Services: This is a health program that can pay for counseling, hearing and vision care, developmental tests, shots and lab tests, medicine, dental care, and specialists. Health Tracks services are available in every county in North Dakota.

Intended for: Health Tracks serves children (birth through age 21) who fit the eligibility criteria for North Dakota Medicaid.

***For information:* Call 1-800-755-2604.**

Targeted Case Management

Intended for: This program is for pregnant women who are eligible for the North Dakota Medicaid Program and their babies (up to 6 months of age).

Services: A case manager will help arrange appointments for medical care; help link participants to other services like prenatal education, parenting resources, job training, transportation, and financial assistance; help plan for baby's in-home needs (*i.e. arranging for home visits by a nurse, help selecting child care, finding baby clothes, etc.*)

***For information:* Call 1-800-755-2604.**

Partnership Program — Mental Health Services for Children & Youth

Services: The Partnership Program involves families, the schools, juvenile services, and others. Working together, these partners develop a plan to meet individual and family needs. The services offered are flexible and vary with needs.

Intended for: The program serves children and youth who have a serious emotional disturbance such as depression, schizophrenia, bi-polar disorder, etc.; who are experiencing difficulty at home, in school, or in the community; and who are at risk of out-of-home placement.

***For information:* Call the ND Department of Human Services' Human Service Center nearest you. (Human Service Centers are located in Bismarck, Devils Lake, Dickinson, Fargo, Grand Forks, Jamestown, Minot, and Williston.)**

OTHER SERVICES

Human Service Centers

Services:

- Alcohol and drug abuse services including assessment, treatment and aftercare;
- Counseling for individuals and families;
- Developmental disabilities services;
- Intensive in-home services;
- Psychiatric and medical services;
- Community services;
- Crisis intervention;
- Infant development services;
- Nursing services;
- Services to seriously mentally ill adults;
- Vocational rehabilitation (Voc Rehab);

FEES: Services are provided on a sliding fee scale based on income. No one is denied services because of inability to pay. There are no fees for Voc Rehab services.

Intended for: Services are available to residents of North Dakota. Eligibility determination for Vocational Rehabilitation services are made without regard to residency requirement.

For information: Call the ND Department of Human Services' Human Service Center nearest you.
