NDPERS PPO and Basic

This is a grandfathered Benefit Plan under the Patient Protection and Affordable Care Act (PPACA).

An overview of benefits and services provided by this plan.

This benefit plan covers these services and more.

Who is eligible for benefits?

If you have family coverage, benefits are available for you, your spouse and eligible children. Eligible children include:

- Children under age 26. Coverage will be continued until the end of the month in which the child becomes age 26.
- Children placed with you or your covered spouse for adoption or whom you or your covered spouse have legally adopted.
- Children for whom you or your covered spouse have been appointed legal guardian by court order.
- Grandchildren of yours or your covered spouse if:
 - The parent of the grandchild is unmarried.
 - The parent of the grandchild is a covered eligible dependent.
 - The parent and grandchild are primarily dependent on you or your covered spouse for their support.
- Children for whom you or your covered spouse are required by court order to provide health benefits.
- Children incapable of self-support because of mental retardation or a physical handicap that began before they reached 26 years of age and who are primarily dependent on you or your covered spouse.

Outpatient prescription drug benefits.

This benefit plan includes a preferred pharmacy network. When you use this national network, your claims are filed for you. Participating pharmacists also use a computer database to:

- Check for possible interactions between prescriptions.
- Find any drug duplications.
- Identify overuse or underuse of your medication.
- Determine if a generic equivalent is available for your prescription drug and if the medication appears on a list of quality and cost-effective drugs. Drugs on this list, called formulary drugs, are covered at the maximum benefit amount.

Prescription drugs are categorized as formulary, nonformulary, nonpayable or restricted-use drugs. A restricted-use drug may have a dispensing limit and/or require prior approval.

Benefits are available nationwide at any pharmacy participating in the preferred pharmacy network. To locate a participating pharmacy, call the special toll-free number listed on the back of your ID card.

When a generic drug is available but not accepted, the member is responsible for the difference between the cost of the generic and brand name drug. Prescriptions filled at a nonparticipating pharmacy must be paid in full and a paper claim submitted. All costs above the allowance are the member's responsibility.

This chart reflects the cost sharing amounts for each benefit period. PPO and Basic amounts accumulate jointly. Outpatient prescription drug cost sharing amounts do not apply to the out-of-pocket maximum.

Outpatient Prescription Drug Coinsurance Maximum Amount

\$1,000 per member per benefit period

When the prescription drug coinsurance maximum amount has been met, copayment amounts will continue to apply, and formulary drugs will be covered at 100% of the allowed charge for the remainder of the benefit period. Copayment amounts and the nonformulary sanction do not apply to this coinsurance maximum.

Preferred Provider Organization (PPO)

The Preferred Provider Organization (PPO) is a group of hospitals, clinics and physicians who have agreed to discount their services to Members of NDPERs. You have "freedom of choice" in selecting which physician or medical facility to use for services. No referral is needed. If you choose a provider who participates in the PPO program, you will have lower out-of-pocket expenses. PPO benefits are only available in the state of North Dakota, unless the medical facility provides services at a satellite location in another state.

This grid describes what the Plan Administrator believes to be a "grandfathered health plan" under the Patient Protection and Affordable Care Act (Affordable Care Act). As permitted by the Affordable Care Act, a grandfathered health plan can preserve certain basic health coverage that was already in effect when that law was enacted. Being a grandfathered health plan means that the Subscriber's Benefit Plan may not include certain consumer protections of the Affordable Care Act that apply to other plans, for example, the requirement for the provision of preventive health services without any Cost Sharing Amounts. However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act, for example, the elimination of lifetime limits on benefits.

Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to BCBSND at the telephone number and address on the back of the Member's Identification Card. If this Benefit Plan is affected by ERISA, the Member may also contact the Employee Benefits Security Administration, U.S. Department of Labor at 1-866-444-3272 or www.dol.gov/ebsa/healthreform. This website has a table summarizing which protections do and do not apply to grandfathered health plans. Members may also contact the U.S. Department of Health and Human Services at www.healthreform.gov.
