

Career Clusters and You

Log on to: www.RUReadyND.com. Sign in to  .

Go to the  tab on your toolbar.

Look at the  side of this page.

Go to [Find matching career clusters](#). Learn how the activities you like, your personal qualities and your favorite subjects are related to the North Dakota Career Clusters.

If you have not taken the Cluster Finder, click .

If you have previously completed the Cluster Finder go to; [See your results now](#). Look at your top cluster and your ranking. Scroll down to see what you listed for the:

[Activities You Like](#)

[Personal Qualities](#)

[School Subjects](#)

If what you chose doesn't seem to fit you anymore you may want to retake the Cluster Finder.

Look at your top three clusters, for each cluster click on:

- [View careers in this cluster](#) - Add interesting careers to your portfolio to explore later.
- [View programs in this cluster](#) - Look at the programs listed. Add any interesting ones to your portfolio to look at later.
- [View school course plan](#) - Look the plans of study to see what classes you should be taking in high school for each cluster.

For the cluster that you are most interested in, click on:

[Use this cluster for your school course plan](#)

Look at what is recommended for this cluster. Also consider what classes your school offers (you can get a high school list from your School Counselor or high School Principal) and compare the two.

Look at the [North Dakota Plan of Study](#) given for the cluster you chose. Either print the Plan of Study sheet or save it as a file you can add later to

Here is how to save a file to your portfolio:

Go to the  tab.

Go to  **Your Activities**, click on [Your Activities](#).

Click on [Add a File](#), then choose and find your saved document.

Choose a title for your document, for example: ND Hospitality Plan of Study.

Click on [Upload this file and return to Your Activities](#).

Now the ND Cluster Plan of Study has been saved to your portfolio. Keep this for future reference.

Question of the Day

How does knowing what courses you should take in high school help you to prepare for your chosen career? Discuss as a group.
