

North Dakota 2016 EAS TEST SCHEDULE

Ensuring a safe and secure homeland for all North Dakotans

This is the 2016 Required Monthly Test (RMT) schedule for the North Dakota Emergency Alert System (EAS). The State Emergency Operations Center (SEOC) has now implemented the Integrated Public Alert and Warning System (IPAWS) to disseminate alert and warning messages to commercial radio and television broadcasters simultaneously across EAS. IPAWS is a modernization and integration of the nation's alert and warning infrastructure, replacing the analog daisy-chain dissemination system formerly used for distribution of EAS alerts. As such, EAS RMTs will no longer be disseminated across the North Dakota State Radio **154.935 MHz** frequency and LP-1 stations are no longer required to monitor this frequency.

RMTs initiated by the state will be disseminated through IPAWS – <https://apps.fema.gov>. Stations monitoring analog broadcasts can receive re-broadcast of EAS tests and alerts by continued monitoring of assigned LP-1 stations and/or through digital IPAWS CAP communications.

On-air, cable and satellite radio and television stations must ensure their equipment is programmed to process the following non-weather emergency codes used by state and local Public Safety Answering Points (PSAPs) authorized to disseminate non-weather emergency and warning codes using the IPAWS system.

Non-Weather Event Codes

EAS Test Codes

RWT - Required Weekly Test
RMT – Required Monthly Test

Emergency Codes

LAE – Local Area Emergency
CEM – Civil Emergency Msg
TOE – Telephone Outage (911)
CAE – Child Abduction Emergency

Evacuation Codes

EVI – Evacuation Immediate
SPW – Shelter-In-Place Warning

Warning Codes

CDW – Civil Danger Warning
FRW – Fire Warning
HMW – Hazardous Materials
LEW – Law Enforcement
RHW – Radiological Hazard Warning

Upon reception of an RMT, commercial radio and television stations have 60 minutes to re-transmit the alert. The RMT is scheduled for the first Wednesday of each month. Odd months are during the daylight hours. Even months are at night. If the first Wednesday falls on a holiday, the test will be conducted on the second Wednesday of the month. ***If the local PSAP is unable to initiate a local monthly test, the local primary broadcast station should activate the RMT.***

If there are technical problems with an RMT, it should be sent again the following week on the same day and time period.
