(2)

To merge CJIS and State Radio controlled systems into a single program of systems that provide users with a level of access to the components that they are authorized access to.

Current parts of the system are managed under two agencies (IDT and DES) with providing essential support to the program within their specialities.

Roles will need to be redefined in NDCC. It will be a shared nature with some oversight and focus towards grant and funds management.

The following identifies the specific roles and responsibilities of each.

ITD	DES	BOARD
NETWORK	PROGRAM	FUNCTIONALITY
PROGRAM MANAGEMENT	PROGRAM MANAGEMENT	PROGRAM DEVELOPMENT GUIDANCE
EQUIPMENT HOSTING	PROGRAM DESIGN	PRODUCT DEVELOPMENT GUIDANCE
CONNECTIVITY	EQUIPMENT HOSTING	PRODUCT USABILITY
INTERFACE DESIGN	USER TRAINING & SUPPORT	PRODUCT ADOPTION
OPERATIONS MANAGEMENT	CLEARANCE/ACCESS	
FEES	CREDENTIALING FEES
