

Have You Received Your Stimulus Check?

As part of the federal government's COVID-19 response efforts, financial help is available to most Americans – **up to \$1,200 for individuals, \$2,400 for married couples, and more for families with children.** The IRS is working to speed delivery of these Economic Impact Payments or “stimulus checks” to individuals and families, including many recipients of TANF/SNAP/Medicaid. If you did not file federal taxes in 2018 or 2019, sign up at [IRS.gov/EIP](https://www.irs.gov/EIP) to get your check.

This financial help can make a significant difference for individuals and families with financial uncertainty as a result of the impacts of COVID-19.
