

Jack Dalrymple, Governor
Maggie D. Anderson, Interim Executive Director

Medicaid Trading Partners:

The Department of Human Services (DHS) is beginning the transition to a new Medicaid Management Information System (MMIS). The new MMIS will offer a user friendly self-service web portal that has many new features and benefits. The MMIS web portal will allow trading partners to upload batch transactions and will also offer real time access to member eligibility, claims status, Remittance Advice, payment status and claims history.

The North Dakota MMIS web portal will be implemented in two phases:

- Phase One: Provider/Trading Partner Enrollment
- Phase Two: Claims Payment

Phase One, Provider and Trading Partner Enrollment, has been implemented and the system is ready to accept your enrollment. **All providers and trading partners must re-enroll into the new MMIS.** Enrollment is required to continue participation in the ND Medicaid program and to capture detailed, up-to-date information as the Department transitions to the new MMIS.

Providers and trading partners will have approximately **six months to complete enrollment**; providers and trading partners must be successfully re-enrolled before claims will process in Phase Two, Claims Payment.

The Department offers a training tool kit to assist with the enrollment process. It can be found at: <http://www.nd.gov/dhs/info/mmis.html>

Additional information about the ND MMIS Portal can be found at:
<http://www.nd.gov/dhs/mmis/>

For additional assistance or questions, please contact our trading partner enrollment staff by email at: dhsmmis@nd.gov

The Department is excited to reach this milestone on the MMIS project and we look forward to working with you on the successful implementation of Phase One.

Thank you for your continued partnership with the North Dakota Medicaid program!

Sincerely,

Maggie D. Anderson
Interim Executive Director
