Re: Tribal Consultation on the Revised Statewide 1915 (c) Medicaid Waiver Transition Plan. Plan includes information on the following: Autism Spectrum Disorder Birth through Seven waiver, Children's Hospice waiver, Medicaid waiver for HCBS (serves aged and disabled), Medicaid waiver for Medicaid Fragile Children, Traditional IID/DD HCBS waiver, and Technology Dependent waiver.

Dear Mr. Scott Davis:

This letter is regarding the Tribal Consultation Policy established between the North Dakota Department of Human Services and the North Dakota Indian Tribes. This consultation process was established to ensure Tribal governments are included in the decision making processes when changes in the Medicaid or Children's Health Insurance Program (s) will affect items such as cost or reductions and additions to the program. The North Dakota Department of Human Services engages Tribal consultation when a State Plan Amendment, waiver proposal or amendment, or demonstration project proposal directly impacts the North Dakota Tribes and/or their Tribal members.

This letter is specific to the revised Statewide Transition Plan that is now open for public comment through March 20, 2016.

On March 17, 2014, the Center for Medicare and Medicaid Services (CMS) issued a final rule for home and community based services that require states to review and evaluate Home and Community-Based Services (HCBS) Settings, including residential and nonresidential settings. States are required to ensure all HCBS Settings comply with the new requirements, and analyze all settings where HCBS participants receive services to determine if current settings comply with the Final Rule. The ND Department of Human Services (Department) created a draft Statewide Transition Plan to assess compliance with the HCBS Settings Rule and to identify strategies and timelines for coming into compliance with the new rule. After receiving additional questions from CMS, the Department has developed a revised Statewide Transition Plan.
