

Developmental Screenings and Brief Behavioral Assessments

CPT® Code: 96110

Developmental screen (e.g., developmental milestone survey, speech and language delay screen), with scoring and documentation, per standardized instrument

CPT® Code: 96127

Brief emotional/behavioral assessment (e.g., depression inventory, attention-deficit/hyperactivity disorder [ADHD] scale), with scoring and documentation, per standardized instrument

Criteria for Coverage

ND Medicaid allows these services when billed in conjunction with a preventative medicine service, Evaluation and Management service, or EPSDT service. Code 96110 should be used to report screening for healthy, physical development (speech and language development, physical growth). Code 96127 should be used to report a brief assessment for ADHD, depression, suicidal risk, anxiety, substance abuse, eating disorders, etc. This code was created in response to the Affordable Care Act's federal mandate to include mental health services as part of the essential benefits that must be included in all insurance plans offered in individual and small group markets. The mandate covers services such as depression screening for adolescents, alcohol and drug use in adolescents, and behavioral assessments in children and adolescents.

Instrument	Abbreviation	CPT code
Ages and Stages Questionnaire - Third Edition	ASQ	96110
Ages and Stages Questionnaire: Social-Emotional	ASQ:SE	96127
Australian Scale for Asperger's Syndrome	ASAS	96127
