A transition plan is required for all foster youth turning age 18 and must be completed within 90 days prior to their 18th birthday. The transition plan must be developed and personalized at the direction of the youth and made part of their foster care case plan (either attached or embedded). This document will assist the Child and Family Team in developing transition goals and provide required information to a youth aging out of ND foster care. Foster youth should attend and co-facilitate their CFT meetings upon transition into adulthood.

Transition Goals: Case managers and youth can use the space below to identify goals for each transition area.
