

CONNECTIONS

Kari Brandt & Amy Engelbard

DATA WEEKS FINISHED!

REMEMBER TO PROGRESS MONITOR

Students who are not at grade level may be progress monitored in both Rigby and DIBELS. See us if you want assistance!

IMPORTANT...

Dates to Remember

Monday October 21

Super Hero Day & ASSEMBLY

All grades dress like a super hero to gear up for NDSA & grades 3-6 assembly at 2:40 in the gym.

Tuesday October 22

NDSA Begins!

State testing begins for grades 3-6. The window runs until November 5th for 3rd, 5th, and 6th and November 7 for 4th.

October 22-November 7th

NO SYSTEM 44

Because of small group and individual testing needs, there will not be any System 44 during NDSA.

October 22-November 7th

YES READ 180

READ 180 will run on normal before school schedule during NDSA

Checklist from Us

We have made a checklist style of form for you to utilize if you are wanting our support. We are attaching a copy to this newsletter so you can see what it is and for the future, we will keep a stack in our room by the coat rack so they are easily accessible. It's a way of leaving us a stickie note that's a bit more detailed. :) Also, we will be updating this newsletter and putting in your mailboxes to help keep important info from us all in one spot.

NONFICTION WRITING

Explorations in Nonfiction Writing ... we are seeing GREAT things from so many Kindergartners who are reading their very own writing. First graders who know to put feelings after facts in their personal narratives. Second grade teachers getting ready for the inform tab with habitats. Third graders who can do expert writing. Fourth graders who are gearing up to dive in. Fifth graders who are picking topics for their personal narrative. Sixth graders who have finished personal narratives and are working through research and inform writing! Let us know how we can work together with you.

KELLY BOSWELL will be coming back in December. She will be presenting to our parents on the evening of December 9th and then with us all day December 10th, split with grades K-2 and 3-6. So far, her plan is to do a lesson in each split and then have time to meet, debrief, and answer questions. Let's hope we are ready for her to share the next steps of conferencing.
