

Professional Goals

Working as a team, I will assist teachers in learning and refining the strategies and skills necessary to improve the academic performance of all students. Grounded on the foundation of best practices, we will collaboratively examine and reflect on instruction, programming, and data. I will support teachers to use data to drive instructional practices and to set and obtain goals based on the data. I will serve as a resource to improve instruction in all classrooms.

**The road to success
is always under
construction**

Lily Tomlin

**The greatest good you can
do for another is not just
to share your riches but to
reveal to him his own.**
