

Partnership Agreement:

Our work as student performance coaches is focused on improving teacher effectiveness and student achievement in a culture of professional collaboration. We will engage in the adult learning process through consultation, collaboration, implementation, and reflection on research-based educational practices. We will work with you to reach the ultimate goal of raising student achievement.

Our work is
SUPPORTIVE,
not evaluative.

A hundred years from now it will not matter what my bank account was, the sort of house I lived in, or the kind of car I drove... but the world may be different because I was important in the life of a child.
