Project Schedule – 7 months
Contract Date – January 10, 2011
Start Date – January 1, 2011
Final Report – July 31, 2011
Final Report: July 31, 2011

OBJECTIVE/STATEMENT OF WORK:
The objective of the project is to provide credible, scientific data on emissions from comprehensive sources associated with the exploration and production of oil and natural gas. The data will enable regulators and industry to identify sources of air emissions in order to determine high-value, efficient means to reduce those emissions and develop better environmental practices particular to the Williston Basin. This information for the Williston Basin will be available on a website.

STATUS
Contract has been signed. Work has begun.
