 Karlene Fine

Memorandum

TO: Outdoor Heritage Fund Advisory Board

FR: Karlene Fine, Industrial Commission Executive Director

DT: April 22, 2016

RE: Request for live streaming of meetings

Following the Advisory Board's November 30, 2015 meeting the Board received a request from a constituent asking that the Advisory Board consider streaming its meetings so interested citizens could observe the meeting without traveling to Bismarck. At the March 15, 2016 meeting I was asked to provide information on whether there would be any costs involved in streaming the meetings.

The Department of Mineral Resources (DMR) Conference Room that the Advisory Board is using does have audio streaming capabilities. Brock Wahl who assists us with the recording and IT needs of our meetings also handles the audio streaming of DMR Oil and Gas Division hearings so it could be an additional responsibility we would ask him to take on. Currently the end user streamer interface is launched from the Oil and Gas/hearing page - "Listen to the live hearing" link. The DMR IT staff has indicated that they could temporarily add a link to the OHF website that would direct people to the streamer.

The DMR staff has looked into integrating video into the audio system that is in the DMR Hearing Room and the estimate for doing that was approximately \$12,000. If that was done it could require additional staffing depending whether any cameras would need to be directed to whoever was speaking, etc.

If you have any questions or want me to get additional information, please let me know.
