Total Funding Expended to Date \$ 2,125.00

Balance of Grant Funds

Match Funding \$ 2,125.00

In-kind Funding \$ 0.00

OHF Funding still to be Requested \$ 2,125.00

Total Funding to be Expended on this Project \$ 44,706.19

Do you anticipate needing to request a grant extension If yes, please explain

Yes No

Work Completed during Period Covered by Report:

(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

11/30/2015: Shoreline work continued however slowly throughout winter months. Debris removed from lake bottom proved to be extremely difficult to move when frozen. 02/01/2016: Removal of excess debris/sediment continued with completion of 300 ft shoreline restored, complete with erosion fabric barrier placed in addition to rip/rap placed approximately 20 ft width of shoreline providing easy fishing access for anglers at this west tributary location. (See Photos attached) A rip/rap with erosion fabric fishing pier was placed along far west end adjacent to rock crossing to provide angler access while simultaneously preventing further erosion from high water flow during spring run off season. A graveled parking /turn out area was placed at the entrance of fishing access sight, along with grass seed and 18 new trees planted of various species. These improvements were implemented to restore recreational sight following construction and to confine further motorized traffic to designated area. Overall this project has become a tremendous asset for the recreational amenities offered at Pheasant Lake County Park. The Dickey County Park Board is extremely grateful and appreciates the assistance and funding the Outdoor Heritage Fund has provided to allow this dream to become a reality. THANK YOU!!

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.

Signature of Responsible Official
