Completion Date –

Project Deliverables:

Status Report: June 15, 2015

Final Report: December 31, 2015

Subsequent Report: December 31, 2016

OBJECTIVE/STATEMENT OF WORK:

The purpose of this project is restoration and stabilization of 1,113 feet of riverbank utilizing bioengineering techniques. This project will also result in improved aquatic biota.

STATUS:

On March 4, 2015 the applicant informed the Commission that they were not going to be able to proceed with the project at this time. Some of the other funding sources were not available and the Park District cannot proceed with the project until additional funding has been approved.
