DEPARTMENT FUNCTIONS

It is the mission of the North Dakota Insurance Department to protect the public good by fairly and effectively administering the laws of North Dakota. We are committed to vigorous consumer protection efforts while fostering a strong, competitive marketplace that provides consumers with choices and access to high-quality insurance products and services at competitive prices. In pursuit of our mission, we will treat all of our constituencies with the highest ethical standards and respect they deserve.

The insurance industry in the United States is one that is regulated solely by the states. It is, therefore, vitally important that the North Dakota Insurance Department be as strong as it possibly can be, to ensure North Dakotans have the best protection possible. It is also incumbent upon the Department to adapt to changing market conditions with a changing regulatory environment.

The Department worked hard over the last legislative session to pass numerous bills that have bolstered consumer protection. The penalty for selling unauthorized insurance has been increased from a misdemeanor to a felony. This will protect consumers all across the state from being bilked out of premium dollars. In response to an increase in consumer inquiries and complaints, the Insurance Commissioner is now able to regulate effectively discount medical plans, which are often confused as health insurance. In addition, the Department has worked to regulate how insurance companies use loss history data against insurance consumers. Consumer inquiries into coverage, claims reported but not paid, and any claim over five years old can no longer be taken into account when renewing, extending, or denying coverage.

In addition to these legislative milestones, the Department is committed to its Prescription Connection for ND program which to date has connected an estimated 15,000 individuals with free or reduced cost prescription medications. This represents around $8 million in prescription drugs that have benefitted people all across the state.

Because of the rollout of the new Medicare prescription drug benefit, which begins January 1, 2006, the Department's Senior Health Insurance Counseling (SHIC) program has been busier than ever. A vital mission of the program is to inform Medicare recipients about the new drug benefit and assist in the enrollment process. Program staff, volunteers, and partners have been working throughout the state conducting outreach to seniors and Medicare/Medicaid recipients.

The North Dakota Insurance Department staff consists of professionals who are empowered to help set the direction of the Department. The staff has engaged in thorough strategic planning processes to identify clear goals, which each division within the Department will strive to achieve. These goals are also identified in employees' annual performance evaluations that are conducted each year. The Department will be able to show the taxpayers of North Dakota what the Department has accomplished over the next year.

The North Dakota Insurance Department prides itself in protecting the people of North Dakota while fostering a competitive marketplace for the insurance industry. Any success that is achieved is a cooperative effort between the professionals in the Department, the North Dakota Legislature, and the insurance industry in North Dakota.

THE INSURANCE INDUSTRY IN NORTH DAKOTA

The insurance industry in North Dakota is strong and vital to the economies of our state, our communities, and our families. Over the past biennium, it is estimated that North Dakotans paid around $5.8 billion in premiums for all types of insurance. The industry-generated sales that year resulted in the payment of nearly $61.6 million in insurance premium tax.

This source of revenue has been steady and growing. Today, the insurance industry generates an amount equal to around three percent of the entire general fund. Equally impressive is the total dollar amount paid to North Dakotans in the form of claims paid to their insureds by insurance companies.

Over the past biennium, it is estimated that $4.1 billion in claims and benefits were paid to our residents. When hail destroys a roof, when a car is damaged in an accident, or when a child is rushed to a hospital, claims such as these are paid every day in North Dakota, providing families with needed protection.

There are approximately 33,000 individuals licensed to sell insurance in North Dakota. Of these, nearly 7,000 are North Dakota residents. While the unscrupulous exist in any profession, we are pleased to report that the vast majority of our sales force is comprised of honest professionals who treat their customers fairly.

A strong working relationship exists between the Department and the insurance industry. The insurance industry in our state strongly supports vigilant oversight of the insurance marketplace. In fact, the industry directly pays all the costs associated with the regulation

of insurance in North Dakota. All license fees and fines paid by companies and agents are deposited into the Insurance Regulatory Trust Fund and used to fund the entire cost of the state's regulation of their activity. North Dakota consumers get the protection they deserve in the form of vigilant regulation, and the insurance industry picks up the entire tab.

The fees assessed to the insurance industry in North Dakota, modest when compared to the fee structure in other states, are also small when compared to the amount of premium collected from North Dakota consumers. During the past biennium, for example, while receiving nearly $6 billion in premium, the industry paid $3.56 million in fees into the Insurance Regulatory Trust Fund to fund the Department's budget. In other words, for every $100 received in premium, only about 6 cents is paid back in fees by the industry to fund its regulation.

Consumer Protection - Property and Casualty Division. This division, along with the Consumer Protection - Life and Health Division, assists consumers who are having difficulty with their insurance company. In 2004, our hotline staff processed 9,669 telephone calls–or approximately 37 calls per day–from North Dakotans who needed help resolving an insurance-related matter. When a formal complaint is received, investigators gather facts and often are able to help the consumer in getting a claim paid. In 2003-2004, the Department helped North Dakotans obtain over $3,535,026 in relief. In addition, analysts in this division review policy form and rate filings for property and casualty insurance products which insurance companies seek to sell in North Dakota.

Consumer Protection - Life and Health Division. This division performs the same functions of rate and form approval, hotline response, and complaint investigation as its property and casualty counterpart, only in the life and health insurance area. The Legislature frequently calls upon the technical expertise within this division to assist in its analysis of issues regarding health insurance. The Senior Health Insurance Counseling (SHIC) and the Prescription Connection for North Dakota Programs (PCND) are included within this division.

Senior Health Insurance Counseling Program. The North Dakota Senior Health Insurance Counseling (SHIC) program was initiated in January 1993 to provide local, volunteer, peer counselors trained in senior health insurance topics. Funding is provided by federal grant from the Centers for Medicare and Medicaid Services.

The SHIC program helps senior adults, or those providing services to them, by providing information and answers to questions related to Medicare, Medicare supplement, long-term care insurance, or other health insurance products available to seniors. Counselors may also assist in applying for available pharmaceutical drug manufacturer programs for low-income patients.

The program is designed as a peer counseling situation. Volunteer counselors, recruited by local sponsoring organizations, receive 20 hours of initial training in Medicare, Medicare supplement, long-term care, and other health insurance products available to seniors. Counselors are available through the sponsoring organization to meet with individual seniors regarding Medicare or health insurance issues, questions, or problems. Counselors help with coverage questions, claims, paperwork, appeals, and policy comparison.

Counselors attend training updates twice a year and receive a mailed self-study packet once. They receive a newsletter every other month and have the resources of the State Insurance Department to call on as well as information on other resources to which clients can be referred when necessary.

Since its inception, SHIC volunteer counselors have had over 7,000 direct contacts with clients. Another 150,000 (estimated) people have received information through outreach contacts and mailings.

There are currently 90 active volunteer counselors and sponsors in 40 communities. The efforts of the volunteers have saved approximately $2,000,000 for Medicare beneficiaries.

SHIC staff and counselors also provide public presentations to groups and organizations. An informational packet on Medicare and related issues is mailed monthly to North Dakotans who will turn 65 in four months.

Prescription Connection for North Dakota Program. The Prescription Connection for North Dakota program was established by the 2003 Legislature and was launched December 1, 2003. It is a program to assist individuals to gain access to prescription medications through prescription drug assistance programs offered by pharmaceutical manufacturers. This program "connects" people with existing programs, is statewide, and is available to people of all ages.

To date Prescription Connection for North Dakota has connected an estimated 15,000 individuals with free or reduced drug prescription medications. This represents around $8 million in prescription drugs that have benefitted people all across the state.

Legal Division

General Counsel ..... Charles E. Johnson
Legal Counsel ..... Craig Burns
Market Conduct Examiner ..... vacant
Legal Assistant ..... Nancy Brady

The Legal Division primarily provides counsel and advice to the Commissioner and Department staff. The Legal Division also responds to general questions regarding insurance and insurance law posed by consumers and the insurance industry. In addition to the above, it assists other Department staff in resolving consumer complaints and in drafting and finalizing proposed law and rule changes. When it appears that an agent or company has acted in violation of the law, the Legal Division and the Agent Licensing and Investigations Division initiate the appropriate enforcement proceeding which may result in a fine or a suspended or revoked license. Occasionally, a company's activities may warrant an examination of specific company activities in a "market conduct" examination. The Market Conduct Examiner also conducts periodic comprehensive market conduct examinations of our domestic companies to assure that our domestic companies are engaging in fair business practices and otherwise comply with our laws.

During 2003-2004, the Department collected fines totaling $46,259. During 2003-2004, the Legal Division and Agent Licensing and Investigations Division assisted North Dakotans in obtaining $391,134. This is a result of the resolution of agent complaints and administrative investigations.

The division performs periodic financial audits of North Dakota based companies to make certain they are financially sound and complying with state laws. The Department received its third five-year accreditation for solvency oversight by the National Association of Insurance Commissioners in 2002.

This division also oversees and administers the licensing of approximately 1,500 insurance companies doing business in North Dakota. Any company seeking licensure must undergo a prelicensure review administered by the Department to screen out companies that may be in financial trouble or have a history of regulatory problems in other states.

Special Funds Division

State Insurance Programs Manager ..... Jeff Bitz
Underwriting Examiner ..... Barbara Mehlhoff
Appraiser/Claims Examiner ..... Lee Lunde
Secretary/Receptionist ..... Sharon Gross

Located within the Department are several programs which serve North Dakota residents in a variety of ways:

1. Fire and Tornado Fund. Created in 1919, this Fund provides low-cost insurance coverage to North Dakota governmental entities and political subdivisions for their buildings and contents. The Fund currently serves 1,086 policyholders with a combined insured value of $6.1 billion.

2. State Bonding Fund. Created in 1919, this Fund provides blanket fidelity bond coverage to North Dakota government entities and political subdivisions in the event of employee theft of property and money. This Fund currently serves approximately 2,931 bondholders with a combined insured value of approximately $586 million.

3. Petroleum Tank Release Compensation Fund. Created by the 1989 Legislature, this Fund provides contamination clean-up coverage and third-party liability coverage to petroleum tank owners. Tank owners must be in compliance with all federal and state rules, including rules relating to financial responsibility in order to participate in this Fund. Currently, approximately 1,672 tank owners pay an annual registration fee for approximately 4,600 tanks.

4. Boiler and Pressure Vessel Inspectors. Created by the 1953 Legislature, this safety program ensures that all boilers in North Dakota are inspected annually or biannually depending on the type and use of the boiler. We inspect all new boilers for proper installation. There are 8,739 boilers in North Dakota. Our office inspects approximately 4,544 boilers and oversees that the remaining 4,195 boilers are inspected by their private insurance carrier.

5. Anhydrous Ammonia Facility Inspection. Created by the 1995 Legislature, this safety program is responsible for inspecting approximately 430 permanent anhydrous ammonia storage containers at least every five years, including container appurtenances and nurse tanks. We inspect all new and relocated facilities for proper installation. These inspections are conducted by the Boiler and Pressure Vessel Inspectors. First initiated in 2003, the Anhydrous Ammonia Tank Lock Program started in Williams and McKenzie Counties. In 2005, the Legislature voted to expand the program to Walsh, Pembina, and Cavalier Counties.

Each of these programs are self-funded and do not require an appropriation from either the State General Fund or the Insurance Regulatory Trust Fund.

Permits a county mutual insurance company to write insurance in any city within its authorized territory but, in the case of cities with a population over 10,000, limits the coverage to the policyholder's residence and four rental units. Establishes an aggregate limit of 25% of gross written premiums of the previous year on the amount of insurance written in cities with a population over 10,000.
