Introduction to the Summary of Benefits for Group MedicareBlue Rx (NDPERS)

Plan Years Beginning in 2009

Nationwide

Thank you for your interest in Group MedicareBlue Rx. This plan is offered by Blue Cross and Blue Shield, a Medicare Prescription Drug Plan that contracts with the Federal government. This Summary of Benefits tells you some features of this plan. It doesn't list every drug covered, every limitation, or exclusion. For a complete list of benefits, please call Group MedicareBlue Rx at the number listed at the end of this introduction and ask for the Evidence of Coverage.

Who is eligible to join?

You can join this plan if you are entitled to Medicare Part A and/or enrolled in Medicare Part B. You must also be identified as an eligible participant by your employer. Eligible individuals may only enroll in one Medicare Prescription Drug Plan at a time and may not be enrolled in a Medicare Advantage Plan (HMO, PPO), unless they are a member of a Medicare Private-Fee-For-Service plan that does not offer Medicare prescription drug coverage or are enrolled in an 1876 Cost Plan.

Does this plan cover Medicare Part B or Part D drugs?

Group MedicareBlue Rx does not cover drugs that are covered under Medicare Part B as prescribed and dispensed. Generally, the plan will only cover drugs, vaccines, biological products and medical supplies that are covered under the Medicare Prescription Drug Benefit (Part D) and that are on the plan's formulary.

Where can I get my prescriptions?

Group MedicareBlue Rx has formed a contracted network of pharmacies. You must use a network pharmacy to receive plan benefits. The plan will not pay for your prescriptions if you use an out-of-network pharmacy, except in certain cases.

The pharmacies in the network can change at any time. For an up-to-date list, or to find a pharmacy in the network, visit www.YourMedicareSolutions.com or call Group MedicareBlue Rx at the number listed at the end of this introduction.

Can I get 90-day supplies?

You can get 90-day supplies through the plan's mail order program or at certain retail pharmacies in the network. Mail service pharmacy services are through PrimeMail offered by Prime Therapeutics.* PrimeMail Pharmacy offers convenient, discreet and secure delivery of prescription medications to your home or work. To find out more about PrimeMail, visit www.YourMedicareSolutions.com or call Group MedicareBlue Rx at the number listed at the end of this introduction.

Some network retail pharmacies offer 90-day supplies at the mail order reimbursement rate of the same coinsurance or two times the regular copayment. This is called Preferred Extended Supply. For more information on 90-day supplies, please contact Group MedicareBlue Rx at the number listed at the end of this introduction.

*PrimeMail Pharmacy is from Prime Therapeutics, Inc., an independent company providing pharmacy benefit management services.

What is a prescription drug formulary?

Group MedicareBlue Rx uses a formulary. A formulary is a list of drugs covered by the plan to meet patient needs. Blue Cross and Blue Shield may periodically add, remove, or make changes to coverage limitations on certain drugs, or change how much you pay for a drug. If a formulary change limits your ability to fill prescriptions, you will be notified before the change is made. You can also view the complete formulary online at www.YourMedicareSolutions.com or call Group MedicareBlue Rx to see if the drugs you take are on the formulary.

If you are currently taking a drug that is not on the formulary or subject to additional requirements or limits, you may be able to get a temporary supply of the drug. You can contact Group MedicareBlue Rx to request an exception or switch to an alternative drug listed on the formulary with your physician's help. Call Group MedicareBlue Rx to see if you can get a temporary supply of the drug or for more details about the plan's drug transition policy.

How can I get help with my drug plan costs?

If you qualify for extra help with your Medicare Prescription Drug Plan costs, your premium and costs at the pharmacy will be lower. When you join Group MedicareBlue Rx, Medicare will tell the plan how much extra help you are getting and the plan will let you know the amount you will pay. If you are not getting this extra help, you can see if you qualify by calling 1-800-MEDICARE (1-800-633-4227). You can call this number 24 hours a day, 7 days a week. TTY/TDD users should call 1-877-486-2048.

What are my protections in this plan?

All Medicare Prescription Drug Plans agree to stay in the program for a full year at a time. Each year, the plans decide whether to continue for another year. Even if a Medicare Prescription Drug Plan leaves the program, you will not lose Medicare prescription drug coverage. If a plan decides not to continue, it must send you a letter at least 90 days before your coverage will end. The letter will explain your options for Medicare coverage in your area.

As a member of Group MedicareBlue Rx, you have the right to request a coverage determination, which includes the right to request an exception, the right to file an appeal if coverage is denied for a prescription drug, and the right to file a grievance. You have the right to request a coverage determination if you want the plan to cover a Part D drug that you believe should be covered. An exception is a type of coverage determination. You may ask the plan for an exception if you believe you need a drug that is not on the list of covered drugs or believe you should get a non-preferred drug at a lower out-of-pocket cost. You can also ask for an exception to cost utilization rules, such as a limit on the quantity of a drug. If you think you need an exception, you should contact the plan before you try to fill your prescription at a pharmacy. Your doctor must provide a statement to support your exception request. If your coverage for prescription drug(s) is denied, you have the right to appeal and ask the plan to review the decision. Finally, you have the right to file a grievance if you have any type of problem with the plan or network pharmacies that does not involve coverage for a prescription drug.

What is a Medication Therapy Management (MTM) program?

A Medication Therapy Management (MTM) program is a free service the plan may offer. You may be invited to participate in a program designed for your specific health and pharmacy needs. You may decide not to participate but it is recommended that you take full advantage of this covered service if you qualify. Contact Group MedicareBlue Rx for more details.

What information will I receive once I enroll?

After you enroll, you will receive a member ID card and welcome kit. The welcome kit contains an Evidence of Coverage, a Schedule of Copayments and Limitations, a formulary, a pharmacy listing and information on how to use the mail service pharmacy.

Benefit Category	Original Medicare	Group MedicareBlue Rx
Out-of-Network		<p>No coverage.</p> <p>Plan drugs may be covered in special circumstances, for instance, illness while traveling outside of the plan’s service area where there is no network pharmacy. You may have to pay more than your normal cost-sharing amount if you get your drugs at an out-of-network pharmacy. In addition, you will likely have to pay the pharmacy’s full charge for the drug and submit documentation to receive reimbursement from Group MedicareBlue Rx. Please contact Group MedicareBlue Rx for details.</p>
Supplemental Drugs		<p>Group MedicareBlue Rx provides coverage for a number of drugs that are excluded from the Medicare Part D program. You will pay a 25% coinsurance for these drugs. Because they are excluded from the Part D program, they will not count toward your annual out-of-pocket maximum. Please contact Group MedicareBlue Rx for details.</p>
