The 2022 and 2021 Annual Comprehensive Financial Reports were issued separately.

March 29, 2023

Honorable Doug Burgum
Governor, State of North Dakota

Members of the Legislative Assembly
of the State of North Dakota

Mr. Joe Morrisette, Director
Office of Management and Budget

We are pleased to submit the single audit of the State of North Dakota, covering the fiscal years ended June 30, 2022 and 2021.

This report complies with the State's audit requirements, including those placed upon the State as a condition for the receipt of federal funds for fiscal years 2022 and 2021. The audit meets the requirements of Chapter 54-10 of the North Dakota Century Code, the Single Audit Act Amendments of 1996, and the provisions of the Office of Management and Budget (OMB) *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (contained in Title 2 of the U.S. Code of Federal Regulations Part 200)*.

We issued separate reports on the State of North Dakota's financial statements for fiscal years 2022 and 2021. These reports are included in the State of North Dakota's Annual *Comprehensive Financial Report* issued under separate cover for each of the two fiscal years ended June 30, 2022 and 2021 and are available upon request.

Respectfully submitted,

/S/

Joshua C. Gallion
State Auditor

Office of the
State Auditor

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with Government Auditing Standards

Independent Auditor's Report

The Honorable Doug Burgum, Governor of North Dakota
Members of the North Dakota Legislative Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of North Dakota as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the state's basic financial statements and have issued our report thereon dated January 13, 2023.

Our report includes a reference to other auditors who audited the following entities, as described in our report on the state of North Dakota's financial statements:

Addiction Counselor Internship	Job Service North Dakota
Loan Program	Mandan Remediation Trust
Bank of North Dakota	Medical Facility Infrastructure Loan Program
Beginning Farmer Revolving Loan Fund	PACE and AG PACE Funds
Building Authority	Public Employees Retirement System
Clean Sustainable Energy Authority	Public Finance Authority
College SAVE	Rebuilders Permanent Loan Program
Comprehensive Health Association of North Dakota	Retirement and Investment Office
Covid Pace Recovery Program	School Construction Assistance Revolving Loan Fund
Department of Trust Lands	State Fair Association
North Dakota Development Fund	State Historical Society of North Dakota Foundation
Guaranteed Student Loan Program	Student Loan Trust
Housing Finance Agency	Water Infrastructure Revolving Loan Fund
Housing Incentive Fund	Workforce Safety and Insurance
Infrastructure Revolving Loan Fund	
Innovation Technology Fund	

This report includes our consideration of the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of other auditors. The financial statements of the North Dakota University System's foundations and the State Historical Society of North Dakota Foundation, that are reported as discretely presented component units, were not audited in accordance with Government Auditing Standards, and accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with the North Dakota University's foundations and State Historical Society of North Dakota Foundation by those auditors who audited the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the state of North Dakota's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the state of North Dakota's internal control. Accordingly, we do not express an opinion on the effectiveness of the state of North Dakota's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we and the other auditors did not identify any deficiencies in internal control that we consider to be material weaknesses. We and the other auditors identified certain deficiencies in internal control, described in the accompanying *Schedule of Findings and Recommendations* as item 2022-01 which is considered a significant deficiency.

REPORT ON COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the state of North Dakota's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests and those of the other auditors disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of North Dakota's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of North Dakota's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Internal Control and Compliance

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with Government Auditing Standards

The Honorable Doug Burgum, Governor of North Dakota
Members of the North Dakota Legislative Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of North Dakota as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the state's basic financial statements and have issued our report thereon dated December 16, 2021.

Our report includes a reference to other auditors who audited the following entities, as described in our report on the state of North Dakota's financial statements:

Addiction Counselor Internship	Job Service North Dakota
Loan Program	Mandan Remediation Trust
Bank of North Dakota	Medical Facility Infrastructure Loan Program
Beginning Farmer Revolving Loan Fund	PACE and AG PACE Funds
Building Authority	Public Employees Retirement System
College SAVE	Public Finance Authority
Community Water Facility Loan Fund	Rebuilders Loan Program
Comprehensive Health Association of North Dakota	Retirement and Investment Office
Covid Pace Recovery Program	School Construction Assistance Revolving Loan Fund
Department of Trust Lands	Small Employer Loan Fund
North Dakota Development Fund	State Fair Association
Guaranteed Student Loan Program	State Historical Society of North Dakota Foundation
Housing Finance Agency	Student Loan Trust
Housing Incentive Fund	Workforce Safety and Insurance
Infrastructure Revolving Loan Fund	
Innovation Technology Fund	

This report includes our consideration of the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of other auditors. The financial statements of the North Dakota University System's foundations and the State Historical Society of North Dakota Foundation, that are reported as discretely presented component units, were not audited in

accordance with Government Auditing Standards, and accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with the North Dakota University's foundations and State Historical Society of North Dakota Foundation.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the state of North Dakota's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the state of North Dakota's internal control. Accordingly, we do not express an opinion on the effectiveness of the state of North Dakota's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we and the other auditors did not identify any deficiencies in internal control that we consider to be material weaknesses or significant deficiencies. However, material weaknesses or significant deficiencies may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the state of North Dakota's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests and those of the other auditors disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of North Dakota's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the state of North Dakota's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON
INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS REQUIRED BY UNIFORM GUIDANCE**

Independent Auditor's Report

The Honorable Doug Burgum, Governor
of the State of North Dakota

Members of the Legislative Assembly
of the State of North Dakota

Mr. Joe Morrisette, Director
Office of Management and Budget

Report on Compliance for Each Major Federal Program

Qualified and Unmodified Opinions

We have audited the State of North Dakota's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the State of North Dakota's major federal programs for the years ended June 30, 2022 and 2021. The State of North Dakota's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Qualified Opinion on the Coronavirus Relief Fund, Supporting Effective Instruction State Grants, Child Nutrition Cluster Programs

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the State of North Dakota complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Coronavirus Relief Fund, Supporting Effective Instruction and Child Nutrition Cluster programs for the years ended June 30, 2022 and 2021.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of North Dakota complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the years ended June 30, 2022 and 2021.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit*

Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the State of North Dakota and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the State of North Dakota's compliance with the compliance requirements referred to above.

Matter's Giving Rise to Qualified Opinion on Coronavirus Relief Fund, Supporting Effective Instruction State Grants, Child Nutrition Cluster Programs

As described in the accompanying schedule of findings and questioned costs, the State of North Dakota did not comply with the requirements regarding requirements included in table below.

<u>Finding</u>	<u>Assistance Listing Number</u>	<u>Program/Cluster Title</u>	<u>Compliance Requirement</u>
2022-034	21.019	COVID-19-Coronavirus Relief Fund	Reporting
2022-005 2022-006 2022-036	21.019	COVID-19-Coronavirus Relief Fund	Subrecipient Monitoring
2022-022	10.553 10.555 10.556 10.559 10.582	Child Nutrition Cluster	Reporting
2022-030	84.367	Supporting Effective Instruction State Grants	Reporting

Compliance with such requirements is necessary, in our opinion, for the State of North Dakota to comply with the requirements applicable to that program.

Other Matter – Federal Expenditures Not Included in the Compliance Audit

The State of North Dakota's basic financial statements include the operations of Housing Finance Agency, Job Service North Dakota, Bank of North Dakota, and Public Finance Authority which expended federal awards which are not included in the State of North Dakota's schedule of expenditures of federal awards during the years ended June 30, 2022 and 2021. Our compliance audit, described in the "Opinion on Each Major Federal Program," does not include the operations of Housing Finance Agency, Job Service North Dakota, Bank of North Dakota, and Public Finance Authority because the organization units engaged other auditors to perform an audit of compliance.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the State of North Dakota's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the State of North Dakota's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the State of North Dakota's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- exercise professional judgement and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the State of North Dakota's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the State of North Dakota's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the State of North Dakota's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2022-001, 2022-002, 2022-003, 2022-004, 2022-007, 2022-008, 2022-009, 2022-010, 2022-012, 2022-013, 2022-014, 2022-015, 2022-016, 2022-017, 2022-018, 2022-019, 2022-020, 2022-021, 2022-023, 2022-024, 2022-026, 2022-027, 2022-028, 2022-029, 2022-031, 2022-032, 2022-033, 2022-035, and 2022-037. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the State of North Dakota's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The State of North Dakota's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The State of North Dakota is responsible for preparing a corrective action plan to address each audit finding included in our auditor's report. The State of North Dakota's corrective action plan was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2022-005, 2022-022, 2022-030, 2022-034, and 2022-036 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2022-001, 2022-002, 2022-004, 2022-006, 2022-007, 2022-008, 2022-009, 2022-010, 2022-011, 2022-012, 2022-013, 2022-014, 2022-015, 2022-016, 2022-017, 2022-018, 2022-019, 2022-020, 2022-021, 2022-023, 2022-024, 2022-025, 2022-026, 2022-027, 2022-028, 2022-029, 2022-031, 2022-032, 2022-033, 2022-035, and 2022-037 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the State of North Dakota's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The State of North Dakota's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for the State of North Dakota as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the State of North Dakota's basic financial statements. We issued our reports thereon dated January 13, 2023 and December 16, 2021, respectively, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

State of North Dakota

Schedule of Financial Statement Findings

Fiscal Years Ended June 30, 2021 and 2022

Office of Management and Budget

FINDING TYPE: Financial Statement

Finding F22-1

Finding Title: Errors in Reporting Information as Required by GASB 87

CONDITION

The office of Management and Budget implemented Government Accounting Standards Board Statement 87 for Leases for fiscal year 2022. Each state agency was required to enter their individual leases and lease terms into the Peoplesoft Lease Administration module. The Lease Administration module calculates the amounts for the accounting entries based on the information entered. During our audit, we selected a sample of leases to determine whether the correct lease terms were entered and the calculation of the accounting entries was accurate. Our testing identified errors in lease terms and/or calculations for 22 leases or 57.89% of our sample. The total amount of errors identified are included in the Governance Communication booked adjustment number 12 and unbooked adjustment number 7.

CRITERIA

Government Accounting Standards Board Statement 87 Paragraph 12 requires that leases be measured for the period for which the lessee has a noncancellable right to use the underlying asset plus any options to extend that they are reasonably certain to exercise.

Government Accounting Standards Board Statement 87 Paragraph 13 states that a fiscal funding or cancellation clause allows governmental lessees to cancel a lease, typically on an annual basis, if the government does not appropriate funds for the lease payments. This type of clause should affect the lease term only if it is reasonably certain that the clause will be exercised.

Government Accounting Standards Board Statement 87 Paragraph 23 states that future leases payments should be discounted using the interest rate the lessor charges the lessee, which may be the interest rate implicit in the lease. If the interest rate cannot be readily determined by the lessee, the lessee's incremental borrowing rate should be used.

Standards for Internal Control in the Federal Government (GAO-14-704G) Paragraph 10.03 states management designs appropriate types of control activities for the entity's internal control system. Control activities help management fulfill responsibilities and address identified risk responses in the internal control system. Control activities ensure complete, accurate, and valid transactions.

CAUSE

There was a lack of understanding across state agencies of the detailed requirements of Government Accounting Standards Board Statement 87. The Office of Management and Budget provided training for all state agencies for the implementation. However, they did not have procedures to review the lease information entered into the Lease Administration module.

State of North Dakota

Schedule of Financial Statement Findings

Fiscal Years Ended June 30, 2021 and 2022

EFFECT

A correction was made to account for three of the leases found in error as a result of the audit. The additional remaining errors will continue to cause misstatements each year for the duration of the lease term if uncorrected. Based on the error rate and projection, there are likely unidentified errors in lease information that would result in continued misstatements.

RECOMMENDATION

We recommend the Office of Management and Budget identify areas to improve state agencies understanding of Government Accounting Standards Board Statement 87. In addition, we recommend they implement procedures to confirm lease information reported in the Lease Administration module is correct in order to ensure accuracy of financial reporting.

OFFICE OF MANAGEMENT AND BUDGET RESPONSE

The Office of Management and Budget agrees with the recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Department of Commerce

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-001
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013, SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$174,422

CONDITION

The Department of Commerce issued eight duplicate grant payments totaling \$174,422.48. Since we reviewed the entire population for potential duplicate payments, this amount is considered the total known questioned costs. However, two of the payments, totaling, \$64,164.66 are still outstanding and Department is working with other state agencies to stop the payments from clearing.

CRITERIA

Per the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Title VI, Sec. 601 (d), payments from the Fund may only be used to cover costs that:

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 31, 2021.

Duplicate payments are neither necessary nor reasonable.

Federal regulation, 2 CFR 200.303, requires non-Federal entities to establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

Internal controls did not prevent these payments from being issued.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

EFFECT

The Department of Commerce is not in compliance with Federal regulations as the duplicate payments were not an allowable use of Federal funds.

CONTEXT

The Department of Commerce utilized Coronavirus Relief Funds to provide approximately \$81.7 million of net grants beginning July 1, 2020, and ending December 31, 2021. We identified eight duplicate grant payments totaling \$174,422.48 out of \$82,387,566 (6,139 payments) processed as one-time payments in the state's Peoplesoft system general ledger. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Commerce enhance internal controls to ensure duplicate payments are not made to recipients of Federal funds.

DEPARTMENT OF COMMERCE RESPONSE

The Department of Commerce agrees with this finding.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-002
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013, SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$434,568

CONDITION

The 67th Legislative Assembly in 2021 Session Law, Senate Bill 2018, Section 8, appropriated \$434,568 from the Coronavirus Relief Fund to the Department of Commerce for the tourism transportation improvement grant program for a grant to be provided to an organization dedicated to preserving and promoting a historic, tourism destination North Dakota city. We reviewed supporting documentation that showed the organization used the grant to defray the costs of adding a high-capacity elevator at an amphitheater. Such a capital improvement project is not considered a necessary expenditure incurred due to the COVID-19 public health emergency. In addition, the Department was unable to provide documentation the organization was impacted by the public health emergency and eligible for the CRF funds. This \$434,568 grant is considered the total known questioned costs. This error was considered an isolated instance and was not projected to the sampled population.

CRITERIA

Per the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Title VI, Sec. 601 (d), payments from the Fund may only be used to cover costs that:

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 31, 2021.

The Federal Register dated January 15, 2021 (Vol. 86, No.10), states that if capital improvement projects are not necessary expenditures incurred due to the COVID-19 public health emergency, then Fund payments may not be used for such projects. However, payment for expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures, would be allowable. There was no documentation supporting any costs of business interruption.

In addition, the Federal Register states the prime recipient is responsible for determining the level and detail of documentation needed from the subrecipient of small business assistance to satisfy the requirements of section

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

601 (d) of the Social Security Act, however, there would need to be some proof that the small business was impacted by the public health emergency and was thus eligible for the CRF funds.

Federal regulation, 2 CFR 200.303, requires non-Federal entities to establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. The "Standards for Internal Control in the Federal Government" published by the United States Government Accountability Office states that management obtains relevant data from reliable internal and external sources in a timely manner based on the identified information requirements. (GAO-14-704G para.13.04).

CAUSE

While the Department of Commerce complied with legislative intent by providing a grant to an organization dedicated to preserving and promoting a historic, tourism destination North Dakota city, the Department did not review available guidelines published by the U.S. Treasury Department for allowable costs under the Coronavirus Relief Fund.

EFFECT

The Department of Commerce is not in compliance with Federal regulations. The funded capital improvement project was not a necessary expenditure incurred due to the COVID-19 public health emergency.

CONTEXT

The Department of Commerce utilized Coronavirus Relief Funds to provide approximately \$81.7 million in grants beginning July 1, 2020, and ending December 31, 2021. This \$434,568 grant was the only grant identified at this location earmarked to a specific organization by the ND Legislative Assembly. The Department of Commerce processed payments through the state's accounting system (Peoplesoft) accounts payable and general ledger payment methods. The error was identified within the accounts payable payment population of \$9,274,447 (77 payments) where individually significant payments totaled \$4,295,314 (2 payments) and sampled payments totaled \$4,973,554 (57 payments). The error was not projected within the sampled payments. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Commerce:

- A) Review available guidelines published by the U.S. Treasury Department for allowable costs under the Coronavirus Relief Fund,
- B) Obtain some proof that the organization was impacted by the public health emergency, and
- C) Request support from the organization for allowable expenditures incurred during the period beginning March 1, 2020, and ending on December 31, 2021, to offset the questioned costs; OR
- D) Recoup the money from the organization and refund the Department of the Treasury.

DEPARTMENT OF COMMERCE RESPONSE

The Department of Commerce utilized the funds made available to it by the 67th Legislative Assembly to accomplish the intent of said legislative body.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Other Noncompliance

Finding	2022-003
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013, SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$4,880

CONDITION

The Department of Commerce awarded a \$4,879.94 grant to an applicant based on the estimated costs listed in the grant application. The Department subsequently requested proof of payment from the applicant and the applicant did not respond. As a result, the Department has requested a full refund and turned the matter over to the ND Attorney General's Office for collection. The amount of the grant award is considered the total known questioned costs. This error, projected to the entire population, results in an additional possible error of \$690,025.74.

CRITERIA

Per the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Title VI, Sec. 601 (d), payments from the Fund may only be used to cover costs that:

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 31, 2021.

In addition, the Federal Register dated January 15, 2021, indicates the direct recipient of payments from the Fund is ultimately responsible for subrecipient compliance on the use of payments from the Fund.

CAUSE

The Department of Commerce did perform application reviews before awarding funding and performed audits of randomly selected businesses during the program period. However, the beneficiary has not cooperated with the Department's requests.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

EFFECT

The Department of Commerce is not in compliance with Federal regulations. Without proper support, there is no way to determine if the beneficiary used the payment from the Fund on necessary expenditures incurred due to the public health emergency with respect to COVID-19.

CONTEXT

The Department of Commerce utilized Coronavirus Relief Funds to provide approximately \$81.7 million in grants beginning July 1, 2020, and ending December 31, 2021. Where sampling was performed, the audit used a non-statistical sampling method.

In a non-statistical sample of 40 of the 6,139 grant payments processed as one-time payments in the state's Peoplesoft general ledger, we identified one business that was not cooperative with the Department's requests for additional support and/or refund. Eight other beneficiaries selected for testing refunded the Department upon request.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Commerce continue its efforts to:

- A) Obtain support from the beneficiary for allowable expenditures under the Fund; or
- B) Recoup the grant award from the beneficiary and refund the U.S. Department of the Treasury.

DEPARTMENT OF COMMERCE RESPONSE

The Department of Commerce agrees with this finding.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-004
Federal Program:	Low-Income Home Energy Assistance
ALN #:	93.568
Federal Award Number(s) and Year(s):	2001NDLIEA and 2001NDE5C3 (2020) 2101NDLIEA and 2101NDE5C6 (2021) 2201NDLIEA (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Administration for Children and Families
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

Department of Commerce did not complete a risk assessment for subawards to Community Action Agencies and, therefore, risk assessments are not being used to determine the nature and extent of subrecipient monitoring.

CRITERIA

Pass-through entities are required (45 CFR 75.352(b)) to evaluate each subrecipients risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring described in paragraphs (d) and (e) of this section, which may include consideration of such factors as:

- (1) The subrecipients prior experience with the same or similar subawards;
- (2) The results of previous audits including whether or not the subrecipient receives a Single Audit in accordance with subpart F, and the extent to which the same or similar subaward has been audited as a major program;
- (3) Whether the subrecipient has new personnel or new or substantially changed systems; and
- (4) The extent and results of HHS awarding agency monitoring (e.g., if the subrecipient also receives Federal awards directly from an HHS awarding agency).

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

The Department of Commerce did not complete risk assessments during the audit period due to COVID-19 as the Department was unable to go on-site to assess the risk at each Community Action Agency.

EFFECT

Department of Commerce may be performing insufficient subrecipient monitoring of high-risk subrecipients.

CONTEXT

Payments to the 7 Community Action Agencies that received payment as subrecipients under the LIHEAP program totaled \$12,171,758 during fiscal years 2021 and 2022. The Department of Commerce did not complete risk assessments during the audit period due to COVID-19 as the Department was unable to go on-site and assess the risk at each Community Action Agency. The Department did continue to monitor the Community Action Agencies through monitoring and ensuring that the Community Action Agencies received their Federal Single Audits. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Commerce ensure subrecipient risk assessments are completed and used to determine the nature and extent of subrecipient monitoring.

DEPARTMENT OF COMMERCE RESPONSE

The Department of Commerce agrees with this finding.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Department of Health

FINDING TYPE: Material Weakness - Material Noncompliance

Finding	2022-005
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013, SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Health did not ensure all required grant award information for Coronavirus Relief Funds (CRF) was provided to subrecipients. In addition, the Department's internal controls were insufficient to ensure that subrecipients received communication regarding the necessary items. Required information not communicated included:

- Subrecipient's unique entity identifier,
- Federal Award Identification Number,
- Total amount of Federal funds obligated to the subrecipient by the pass-through entity including the current financial obligation,
- Name of awarding agency,
- Assistance Listing Number; and,
- Indirect cost rate for Federal award including if the de minimis rate is charged.

CRITERIA

Federal regulation, 2 CFR 200.332(a), requires pass-through entities to communicate specific required information to subrecipients.

Federal regulation, 2 CFR 200.303, requires non-Federal entities, in part, to establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

The Department of Health did not utilize its traditional grant template agreement to extend CRF dollars to ambulance, fire, school districts, and hospitals. Instead, the Department used a CARES Act Coronavirus Relief Fund Eligibility Certification form which did not contain all required items.

EFFECT

These required communications are intended to help subrecipients meet all their reporting requirements and to meet all award terms. Subrecipients subject to Single Audits also need this information for their audits.

CONTEXT

The Department of Health utilized its traditional grant template agreement for \$31.7 million in grants provided to 28 local public health units which included the best information available to describe the Federal award and subaward. However, the Department did not utilize its traditional grant template agreement to extend up to \$29.8 million of CRF dollars to 121 other entities, including ambulance, fire, and school districts and hospitals. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Health:

- A) Communicate all required information of 2 CFR 200.332(a) to subrecipients.
- B) Develop procedures to ensure that all Coronavirus Relief Fund award information is communicated to subrecipients.

DEPARTMENT OF HEALTH RESPONSE

The Public Health Division of the Department of Health and Human Services (formerly Department of Health) agrees with the recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Material Noncompliance	
Finding	2022-006
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013, SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Health did not evaluate each subrecipient's risk of noncompliance.

CRITERIA

Federal regulation, 2 CFR 200.303, requires non-Federal entities, in part, to establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Per 2 CFR 200.332, all pass-through entities must evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved.

Per 2 CFR 200.332(d)(2), pass through entities are required to ensure that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award provided to the subrecipient from the pass-through entity detected through audits, on-site reviews, and written confirmation from the subrecipient, highlighting the status of actions planned or taken to address Single Audit findings related to the particular subaward.

CAUSE

The Department of Health primarily relied on risk assessments previously conducted for entities that had entered into other traditional grant agreements with the agency. Risk assessments were not conducted on all entities that only received CRF dollars and had not entered into other traditional grant agreements.

The Department of Health indicated that prior to COVID-19, all subrecipients were subjected to sampling for a desk review. However, during COVID-19, the Department focused monitoring efforts on the 28 local public health units and pulled one random month to review expenditures being charged.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

EFFECT

Monitoring activities conducted during our audit period were not determined based on subrecipient risk of noncompliance.

CONTEXT

The Department of Health provided \$61.5M of CRF dollars to 149 subrecipients as follows:

- \$31.7M to 28 local public health units
- \$25M to 7 hospitals and related organizations
- \$4.8M to 114 other entities, primarily ambulance districts

We tested 15 of the 149 subrecipients (13 randomly selected and 2 individually significant items). Based on our testing and information provided by the Department of Health, we identified the following:

- Department of Health performed adequate during the award monitoring on 6 of the 15 subrecipients selected.
- Department of Health monitored 4 subrecipients not required to have a Single Audit. Six subrecipients selected had Single Audits while the remaining five subrecipients, which received less than \$100,000 in CRF funding, were not monitored nor had a Single Audit.
- Department of Health did not conduct risk assessments on 4 of the 15 subrecipients selected, mostly ambulance districts that only received CRF dollars.

The Department of Health acknowledged subjecting the 28 local public health units to subrecipient monitoring sampling. The Department tested \$919,816 out of \$61,521,414 of CRF payments to subrecipients or 1.5%. In addition, we noted the Department had assigned a risk level to the local public health units and hospitals selected for testing, as well as 53 ambulance districts.

Lastly, the subrecipients (local public health units, hospitals, and ambulance districts) were known to be impacted by the COVID-19 pandemic, which could make such entities low risk for noncompliance.

Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Health conduct during-the-award monitoring activities as required for pass-through entities in accordance with 2 CFR 200.332.

DEPARTMENT OF HEALTH RESPONSE

The Public Health Division of the Department of Health and Human Services (formerly Department of Health) agrees with the recommendation.

See "Management's Response and Corrective Action" section of this report.

CONDITION

The Health Department did not receive audit reports for all subrecipients that received greater than \$750,000 or verify that all subrecipients receiving less than \$750,000 from the Health Department were not subject to requirements under 2 CFR 200 Subpart F. One subrecipient received over \$980,000 and the Health Department did not receive an audit report from this entity. There were 6 additional subrecipients that received less than \$750,000 but there were no verifications to ensure additional Federal funds weren't received from another source. Any of these entities that received greater than \$750,000 in Federal funds from all sources would be required to receive an audit under 2 CFR 200 Subpart F.

CRITERIA

2 CFR 200.332(f) states that a pass-through entity must verify that every subrecipient is audited as required by 2 CFR 200 Subpart F.

CAUSE

The tracking spreadsheet for subrecipient audit reports is not being used to verify that all subrecipients received an audit or a certification that an audit is not required.

EFFECT

The Health Department is not meeting the requirements of a pass through entity required by 2 CFR 200 Subpart F.

CONTEXT

There were 27 subrecipients that received Federal funds from the Health Department which were subject to monitoring during our audit period. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Health Department ensure all subrecipients obtain audits or a certification that an audit is not required in accordance with 2 CFR 200 Subpart F.

DEPARTMENT OF HEALTH RESPONSE

The Public Health Division of the Department of Health and Human Services (formerly the Department of Health) agrees with this recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Department of Human Services

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-008
Federal Program:	Medicaid Cluster
ALN #:	93.777, 93.778
Federal Award Number(s) and Year(s):	2005ND5001, 2005ND5ADM, 2005ND5MAP (2020) 2105ND5001, 2105ND5MAP, 2105ND5ADM (2021) 2205ND5MAP, 2205ND5ADM (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Centers for Medicare and Medicaid Services
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$6,622

CONDITION

Medicaid providers did not submit proper documentation to support the services billed in 12 of 456 claims tested by the auditors. This resulted in improper payments of \$6,622. When projected against the entire population, the additional likely Federal questioned costs total \$17,735,959.

CRITERIA

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

42 CFR 431.960 (c) (1) states a medical review error is an error resulting in an overpayment or underpayment that is determined from a review of the provider's medical record or other documentation supporting the service(s) claimed, Code of Federal Regulations that are applicable to conditions of payment, the State's written policies, and a comparison between the documentation and written policies and the information presented on the claim resulting in Federal and/or State improper payments.

42 CFR 431.960 (c) (3) states medical review errors include, but are not limited to, the following: (i) Lack of documentation, (ii) Insufficient documentation, and (iii) procedure coding errors.

CAUSE

Medicaid providers did not submit proper documentation to support Medicaid claims.

EFFECT

Unallowable or inaccurate payments were made to providers who later did not submit proper documentation when selected for audit.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CONTEXT

There were 10,698,524 Medicaid claims that occurred during our audit period of July 1, 2020, through June 30, 2022. The Federal Medical Assistance Percentages were used to calculate the Federal portion of the projected likely questioned costs. Where sampling was performed, the audit used a non-statistical sampling method.

The Department provided the Centers for Medicare and Medicaid Services Notification of Improper Payment Rates for North Dakota dated 11/15/22. The target rate for fee-for-service payment errors was 14.88% with an estimated rate of 3.04% based on 387 sampled claims identified through the Payment Error Rate Measurement Program (PERM). The error rate of the claims audited by the ND State Auditor's Office is 2.63% which is below this threshold.

IDENTIFICATION AS A REPEAT FINDING

Finding 2020-005 was reported in the immediate prior year. The prior audit finding was reported as implemented on the summary schedule of prior audit findings. This materially misrepresents the status of the finding.

RECOMMENDATION

We recommend the Department of Human Services develop a corrective action plan to address the errors identified in the audit and recover payments made on unsupported claims.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees to recover payments made on unsupported claims.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-009
Federal Program:	Medicaid Cluster
ALN #:	93.777, 93.778
Federal Award Number(s) and Year(s):	2005ND5001, 2005ND5ADM, 2005ND5MAP (2020) 2105ND5001, 2105ND5MAP, 2105ND5ADM (2021) 2205ND5MAP, 2205ND5ADM (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Centers for Medicare and Medicaid Services
Compliance Requirement:	Special Tests
Questioned Cost:	\$0

CONDITION

The Department of Human Services has not completed a risk analysis and security review of the Medicaid Management Information System (MMIS) since 2019.

CRITERIA

45 CFR 95.621(f)(3) states that state agencies shall review the Automatic Data Processing (ADP) system security of installations involved in the administration of Health and Human Services (HHS) programs on a biennial basis.

45 CFR 95.621(f)(6) states that the state agency shall maintain reports of their biennial ADP system security reviews, together with pertinent supporting documentation, for HHS on-site review.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

A risk analysis and security review was not completed in 2020 and 2021 due to resources being dedicated to the developing of new software. This new software will automate many of the processes surrounding the risk analysis and security review as well as user access reviews and will save personnel time.

EFFECT

The risk analysis has not been completed regularly and there is the possibility the security over different areas of the system can become compromised bringing into question the validity of the data contained within the system.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CONTEXT

There were \$2,496,097,225 of Medicaid payments that were processed in the MMIS and eligibility systems during our audit period of July 1, 2020, through June 30, 2022. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services complete a risk analysis and security review of MMIS biennially.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-010
Federal Program:	Medicaid Cluster
ALN #:	93.777, 93.778
Federal Award Number(s) and Year(s):	2005ND5001, 2005ND5ADM, 2005ND5MAP (2020) 2105ND5001, 2105ND5MAP, 2105ND5ADM (2021) 2205ND5MAP, 2205ND5ADM (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Centers for Medicare and Medicaid Services
Compliance Requirement:	Special Tests
Questioned Cost:	\$0

CONDITION

The medical loss ratio report for reporting calendar year 2020 did not contain the minimum Federal regulation required elements. DHS did not maintain the required attestation statement to address accuracy for reporting year 2020. As of March 2, 2023, the medical loss ratio report for reporting year 2021, which was due in November 2022, has not been finalized as outlined in the Sanford Health Plan contract. The contract required completion prior to 11 months following the applicable MLR reporting year or a mutually agreed upon alternative date.

CRITERIA

Effective January 1, 2020, Sanford Health Plan Contract states, prior to 11 months following the applicable MLR reporting year or a mutually agreed upon alternative date, STATE shall finalize the MLR (Medical Loss Ratio) reporting year with any balance due to STATE as required in paragraph (G) of this section within 60 days.

42 CFR 438.8 (n) MCOs, PIHPs, and PAHPs must attest to the accuracy of the calculation of the MLR in accordance with requirements of this section when submitting the report required under paragraph (k) of this section.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The attestation statement to address accuracy was not provided to the auditor. The Department indicated the statement was obtained by an employee no longer with the Department and it was not shared with other team members.

The Medical Loss Ratio report for reporting year 2021 was not finalized as outlined in the Sanford Health Plan Contract, "Prior to 11 months following the applicable MLR reporting year or a mutually agreed upon alternative date, STATE shall finalize the MLR reporting year with any balance due to STATE as required in paragraph (G)

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

of this section within 60 days". This was due to a large reconciliation taking longer than normal to complete. A mutually agreed upon alternative date was not determined due to research needing to be done on both sides, sometimes not knowing how long it would take.

EFFECT

Absent the inclusion of all required medical loss ratio information, the Department cannot demonstrate compliance with Federal regulations.

CONTEXT

During our audit period of July 1, 2020, through June 30, 2022, the Department of Human Services contracted with one MCO health plan that was subject to MLR Federal reporting requirements. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services ensures the medical loss ratio report is finalized as outlined in the contract and all required documentation is properly maintained.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the finding.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency

Finding	2022-011
Federal Program:	Medicaid Cluster
ALN #:	93.777, 93.778
Federal Award Number(s) and Year(s):	2005ND5001, 2005ND5ADM, 2005ND5MAP (2020) 2105ND5001, 2105ND5MAP, 2105ND5ADM (2021) 2205ND5MAP, 2205ND5ADM (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Centers for Medicare and Medicaid Services
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$0

CONDITION

The Department of Human Services did not complete an access review of the Medicaid Management Information System (MMIS) fee schedule for 2020 or 2021. The Department also did not complete a security review of all major Medicaid information systems for 2021 or 2022.

CRITERIA

Standards for Internal Control in the Federal Government requires management designs other control activities to promptly update access rights when employees change job functions or leave the entity. Management also designs control activities for access rights when different information technology elements are connected to each other. (GAO-14-704G para 11.14).

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The MMIS fee schedule access review was not completed in 2020 and 2021 and review of access rights for the major Medicaid information systems was not completed in 2021 and 2022 due to resources being dedicated to the developing of new software. The new software being developed may automate many of the processes surrounding the risk analysis and security review as well as user access reviews.

EFFECT

There is a risk that employees whose job duties have changed still have access to confidential information.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CONTEXT

There were \$2,496,097,225 of Medicaid payments that were processed in the MMIS and eligibility systems during our audit period of July 1, 2020, through June 30, 2022. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services review access rights to the Medicaid Management Information System (MMIS) fee schedule and all major Medicaid information systems on a regular basis.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the recommendations.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-012
Federal Program:	CCDF Cluster
ALN #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2001NDCCDF, 2001NDCCC3 (2020) 2101NDCDC6, 2101NDCCC5, 2101NDCSC6, 2101NDCCDF (2021) 2201NDCCDD (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families
Compliance Requirement:	Special Tests
Questioned Cost:	\$0

CONDITION

The Department of Human Services is not properly monitoring corrective orders issued to child care providers and performing re-inspections of identified deficiencies within specified time frames. 5 of 586 corrective orders issued during our audit period did not identify a date the orders were corrected. 187 of 586 (32%) corrective orders were not re-inspected within the 24-hour, 20-day, or 60-day time frame allowed for correction. 8 of 586 (1%) correction orders indicated correction before the violation date which potentially could mean inaccurate dates were being tracked.

CRITERIA

North Dakota Century Code (NDCC) section 50-11.1-07.2 requires that the Department or the Department's authorized agency issue a correction order whenever it is determined upon inspection that a program or premises is not in compliance with this chapter or rules adopted under this chapter.

NDCC section 50-11.1-07.3 requires the Department or the Department's authorized agency shall re-inspect an early childhood program issued a correction order under NDCC section 50-11.1-07.2, at the end of the period allowed for correction.

45 CFR 98.41 requires that lead agencies must certify that procedures are in effect to ensure that providers serving children who receive subsidies comply with all applicable health and safety requirements.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

The Department's procedures for monitoring the resolution of corrective orders is ineffective. Due to employee turnover and the lack of guidance, corrective orders and dates are not consistently documented on the tracking sheet.

EFFECT

Child care providers are operating without proper follow-up of corrective orders potentially jeopardizing the health and safety of children.

CONTEXT

During fiscal years 2021 and 2022, there were 1,170 licensed providers in North Dakota receiving payments from the Child Care Assistance program.

The following list is the number of corrective orders issued by calendar year:

2022 - 152 (through July)

2021 - 291

2020 - 143 (July through December)

Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Finding 2020-011 was reported in the immediate prior year. Findings 2018-013 and 2016-026 were made in previous years.

RECOMMENDATION

We recommend the Department of Human Service improve procedures to ensure child care correction orders are resolved before the end of each allowed correction period with accurate tracking of dates.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department of Health and Human Service agrees with this recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-013
Federal Program:	CCDF Cluster
ALN #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2001NDCCDF, 2001NDCCC3 (2020) 2101NDCDC6, 2101NDCCC5, 2101NDCSC6, 2101NDCCDF (2021) 2201NDCCDD (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Administration for Children and Families
Compliance Requirement:	Special Tests
Questioned Cost:	\$0

CONDITION

The Department of Human Services is not performing annual unannounced inspections of child care providers in operation. An annual unannounced inspection was not completed on 9 of 71 providers that were tested.

CRITERIA

45 CFR 98.42(b)(2)(B) requires that not less than annually, an unannounced inspection for compliance with all child care licensing standards, which shall include an inspection for compliance with health and safety and fire standards, shall be completed.

Department policy 620-01-116 states, the authorized agent is required to perform an unannounced review at least annually for each licensed or self-declared child care provider.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The Department's procedures for ensuring unannounced visits are performed annually is ineffective.

EFFECT

Child care providers are operating child care facilities without proper monitoring of whether health and safety conditions have been met.

CONTEXT

During fiscal years 2021 and 2022 there were 1,871 providers from the Child Care Assistance program. The 12.7% error rate applied to the population would result in an estimated 237 providers not receiving unannounced

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

visits. Errors were found within group, center, and self-declared providers. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Finding 2020-015 was reported in the immediate prior year. Findings 2018-017 and 2016-027 were made in previous years.

RECOMMENDATION

We recommend the Department of Human Services develop corrective action and perform annual unannounced inspections of child care providers in operation in accordance with 45 CFR 98.42(b)(2)(B) and Department policy.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-014
Federal Program:	Low-Income Home Energy Assistance
ALN #:	93.568
Federal Award Number(s) and Year(s):	2001NDLIEA, 2001NDE5C3 (2020) 2101NDLIEA, 2101NDE5C6 (2021) 2201NDLIEA (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Administration for Children and Families
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CONDITION

The Department of Human Services (DHS) is incorrectly identifying the ND Department of Commerce (Commerce) as a subrecipient for reporting purposes. DHS entered into \$8,900,000 worth of subcontracts for the audit period 7/1/20-6/30/22. \$8,000,000 was contracted with the Department of Commerce (4 contracts), who then subawarded 27 contracts worth \$7,890,001 to 7 different Community Action Agencies. The other \$900,000 was correctly subawarded by DHS through 2 contracts to Community Options for outreach services.

DHS entered into contracts with Commerce, which Commerce then subawarded to Community Action Agencies for Weatherization and Emergency Furnace programs under the Low-Income Home Energy Assistance Program (LIHEAP). DHS reported the 4 contracts with Commerce for FFATA. All 27 contracts with the Community Action Agencies by Commerce were not correctly identified as subawards for FFATA reporting. Because of this, the FFATA reporting does not accurately show the subawards of the state. In addition, by incorrectly reporting the Department of Commerce as a subrecipient, DHS overstated the total amount subawarded by \$109,999 as the Department of Commerce used this amount for administrative expenses.

Transactions Tested	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
33 contracts	27	0	27	0
Dollar Amount of Tested Transactions	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
\$8,900,000	\$7,890,001	\$0	\$109,999	\$0

CRITERIA

Non-federal entities are required to submit FFATA reporting according to 45 CFR 75.300(b). Per Part 3 of the Compliance Supplement, Subrecipient Monitoring section, "Transfers of Federal awards to another component of the same auditee under 2 CFR Part 200, Subpart F, do not constitute a subrecipient or contractor relationship".

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

The ND Department of Commerce, receiving Federal funds from the ND Department of Human Services to subaward to the Community Action Agencies, is a pass-through entity according to the following definitions.

- 45 CFR 75.2 Pass-through Entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.
- 45 CFR 75.2 Subrecipient means an entity, usually but not limited to non-Federal entities, that receives a subaward from a pass-through entity to carry out part of a Federal award; but does not include an individual that is a beneficiary of such award. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.
- 45 CFR 75.2 Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

DHS did not properly distinguish another state agency (Commerce) as a pass-through entity in subrecipient tracking methods and failed to identify the subawards to Community Action Agencies.

EFFECT

DHS incorrectly identified funds passed through to Commerce as a subrecipient relationship and reported subawards paid to Commerce in FFATA reporting. Subawards that the ND has with Community Action Agencies were not reported in the Federal Funds Accountability and Transparency Act (FFATA) reporting. In doing so, DHS and Commerce did not report 27 subawards to Community Action Agencies. Since DHS did report subaward amounts with Commerce, the net error amount is \$109,999 for the audit period 7/1/20 - 6/30/22.

CONTEXT

The North Dakota Department of Human Services administers the LIHEAP program and contracts with the Department of Commerce to administer the Weatherization and Emergency Furnace programs under the LIHEAP program. Commerce entered into 27 contracts between 7 Community Action Agencies for a total amount of \$7,890,001 during the audit period 7/1/20-6/30/22. The Community Action Agencies were not identified as the recipients of the subawards for LIHEAP. This resulted in a qualitative reporting error and a net reporting amount error of \$109,999. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services coordinate with the Department of Commerce to properly report subawards of the state under the LIHEAP program for FFATA reporting.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-015
Federal Program:	Low-Income Home Energy Assistance
ALN #:	93.568
Federal Award Number(s) and Year(s):	2001NDLIEA, 2001NDE5C3 (2020) 2101NDLIEA, 2101NDE5C6 (2021) 2201NDLIEA (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Administration for Children and Families
Compliance Requirement:	Eligibility
Questioned Cost:	\$749

CONDITION

We identified an individual receiving LIHEAP benefits when they were living at one of their parents' houses rent-free. There was no rental contract on file or adequate documentation to allow this individual to receive LIHEAP benefits. We identified a known error of \$749.37. When projected against the population, the remaining likely projected error is \$302,293.17.

CRITERIA

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

DHS LIHEAP policy 415-20-10-35, "Households that receive rent-free housing including fuel as a required condition of part of an employment agreement, or as a gift, or through legal action (separation/divorce), are NOT vulnerable to the rising cost of heat and are therefore not eligible for heating assistance from LIHEAP."

CAUSE

County eligibility workers did not obtain enough documentation to confirm that the case was in compliance with DHS LIHEAP policy 415-20-10-35.

EFFECT

Improper overpayment of LIHEAP benefits.

CONTEXT

During state fiscal years, approximately 189,548 payments, totaling \$34 million, were processed through the Department of Human Services' Legacy and SPACES eligibility systems. From the SPACES system there were 88,917 payments totaling \$15.5 million and from the LEGACY system there were 100,631 payments totaling \$18.4 million. The State Auditor's office performed a test of 80 payments, 40 from LEGACY and 40 from SPACES. The

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

SPACES sample of payments was stratified with 66,548 payments under \$200 (13 tested); 21,606 payments from \$200-\$999 (tested 24); and 763 payments with amount over \$1,000 (tested 3). The error was identified in eligibility testing of payment records from the SPACES system which were approximately \$15.5 million, and projected within stratified payments individually less than \$200 (\$5.28 million, 66,548 payments). Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services ensure adequate rental documentation is on file and proper eligibility determinations of the Low-Income Home Energy Assistance Program (LIHEAP) are made.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-016
Federal Program:	Low-Income Heating Energy Assistance
ALN #:	93.568
Federal Award Number(s) and Year(s):	2001NDLIEA, 2001NDE5C3 (2020) 2101NDLIEA, 2101NDE5C6 (2021) 2201NDLIEA (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Administration for Children and Families
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$1,943

CONDITION

The Department of Human Services (DHS) did not prevent duplicate LIHEAP benefit payments. Potential duplicate payments made during the audit period were identified by analyzing cases with combinations of the same case number (SPACES system) or Social Security Number (SSN) (Legacy system), Fuel Type, Benefit Month, Provider, and Amount. In addition, duplicate SSNs were analyzed to identify individuals in more than one case meaning that individuals would be counted in the number of persons in more than one household for calculating LIHEAP benefit payments. The duplicate payment test identified a known duplicate payments error of \$1,415 and, projected to the population, a remaining likely questioned cost of \$181,183. The duplicate SSN test identified a known overpayment of \$528 and, projected to the population, a remaining likely questioned cost of \$2,961. There was a 35% (7 of 20 tested) error rate in duplicate payments and a 90% (18 of 20 tested) error rate in duplicate SSNs.

CRITERIA

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

DHS policy 415-15-10-20 for verification of eligibility states verification of the applicant's statement of resources, or any other factor of eligibility and benefit determination, may be required whenever it is questionable in the judgment of the county social service board representative. If the required verification is refused, the application may be denied. In addition to the household income, eligibility and/or benefit determination factors include, but are not limited to identity, location and size of home, type of fuel, various dates, household composition, vulnerability, etc. If there is a court order or legal agreement form that indicates that both parents have 50% custody of their children, each parent can count the children in their household.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

The DHS does not have proper procedures in place to detect and prevent duplicate or improper payments from being issued. Legacy and SPACES automatically calculate benefit payments. DHS is also able to make manual payments in addition to the calculated benefit payments. In addition, Case files lacked adequate documentation such as custody agreements and court orders at the time of eligibility determination for children in split custody arrangements. DHS does not have a policy to define 50% custody when a custody agreement or court order is not provided.

EFFECT

Overpayment of LIHEAP benefits.

CONTEXT

The LIHEAP program had approximately 189,548 benefit payments to individuals totaling \$34 million for fiscal years 2021 and 2022. Out of those payments our office identified 12,689 potential duplicate payments totaling \$1,437,329 and a separate 263 payments with duplicate SSNs indicating the same individual in multiple households/cases totaling \$70,110. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services ensure policies and procedures prevent duplicate payments from being applied to LIHEAP cases. We also recommend the Department of Human Services ensure required documentation is obtained for individuals appearing in multiple cases in accordance with state LIHEAP Policy.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the finding.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-017
Federal Program:	Low-Income Home Heating Assistance
ALN #:	93.568
Federal Award Number(s) and Year(s):	2001NDLIEA, 2001NDE5C3 (2020) 2101NDLIEA, 2101NDE5C6 (2021) 2201NDLIEA (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Administration for Children and Families
Compliance Requirement:	Eligibility
Questioned Cost:	\$0

CONDITION

We found that, of the 40 cases tested from the Department of Human Services' (DHS) Legacy system for proper eligibility, 17 cases were processed as eligible without a worker verifying eligibility information through the State NDVerify system. Under the LIHEAP FFY 2021 and FFY 2022 Detailed Model Plan (SF-424) of the State Plan, Monitoring section, NDVerify is identified as the monitoring schedule and protocol under section 10.6. This section in the State Plan is the response for covering 45 CFR § 75.342, Monitoring and Reporting Program Performance. The Department implemented a new SPACES eligibility system for LIHEAP which was used for the 2022 heating season. NDVerify is integrated into the SPACES system and there were no errors in testing that NDVerify in SPACES was searched for the 2022 heating season eligibility.

CRITERIA

45 CFR 75.342(a), Monitoring by the Non-Federal Entity, states the non-Federal entity is responsible for oversight of the operations of the Federal award supported activities. The non-Federal entity must monitor its activities under Federal awards to assure compliance with applicable Federal requirements and performance expectations are being achieved. Monitoring by the non-Federal entity must cover each program, function or activity.

Within the Detailed Model Plan (SF-424), section 10.6 (Monitoring), of the FFY 2021 and FFY 2022 State Plans, DHS submitted monitoring schedule and protocol using NDVerify. "The North Dakota Department of Human Services has built a web-based verification system called NDVerify that streamlines the search of different interfaces/sources to obtain verification electronically. NDVerify allows eligibility workers to search multiple interfaces/sources for all household members included in a LIHEAP case at the same time. NDVerify also stores the search based on the date completed for historical purposes."

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

NDVerify was not integrated with the Legacy System. The DHS does not have a policy specifically requiring workers to perform NDVerify checks for all applications. While the Detailed Model Plan (SF-424) of the State Plan identifies several eligibility checks to integrated information through NDVerify, the DHS considers the use of NDVerify as optional and an available resource rather than a requirement.

EFFECT

Without verifying information with available state interfaces, there is no way to tell if the applicant is providing all the necessary information and this could impact eligibility determinations.

The following sources/interfaces are included with NDVerify:

- Birth/Death Records (ND Vital Records)
- Health Insurance (DEERS)
- ND Child Support
- ND Department of Corrections
- ND Motor Vehicle/Watercraft (Motor Vehicle/Game & Fish)
- ND State Directory of New Hire
- ND State Hospital Admission/Discharge
- ND Unemployment Insurance Benefits (Job Service)
- ND Wages (Job Service)
- Other Benefit Information (SSA)
- SNAP Intentional Program Violations
- WSI Medical Claims Status
- Request UPA
- Request 40 Quarters
- Systematic Alien Verification for Entitlements (SAVE)

CONTEXT

The Department utilized the Legacy system for the 2021 heating season. Per the FFY 2021 Household report, there were 14,282 applications and \$18,407,731.73 in payments for the LIHEAP Program. DHS implemented the SPACES system for the 2022 heating season. NDVerify is integrated with SPACES and there were no errors in testing that NDVerify was used within SPACES. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services ensure eligibility is verified through the State NDVerify system prior to approval of all LIHEAP applications or revise the State Plan to identify the use of NDVerify as optional for approval by the Federal awarding agency.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department disagrees with this finding.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

AUDITOR'S CONCLUDING COMMENTS

DHS informed the Federal agency of their procedures for Program Integrity in Section 17 of the state plan, "All sources and types of income that exceed \$500 per year must be verified." DHS also, outlines under their monitoring procedures in the State plan that the eligibility workers have access to the NDVerify system to verify identification and income. NDVerify allows DHS to obtain identification and income records such as birth/death records, health insurance, child support, new hire information, unemployment insurance benefits, social security administration, supplemental nutrition assistance program benefits, etc. Relying solely on hard copies from the applicant to determine eligibility and not cross-checking the information for accuracy is not verifying all sources nor following procedures that were identified to the Federal agency in the state plan.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-018
Federal Program:	Emergency Rental Assistance Program
ALN #:	21.023
Federal Award Number(s) and Year(s):	ERA-2101122971 and ERA2-0190 (2022)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Eligibility
Questioned Cost:	\$977

CONDITION

The Department of Human Services, Emergency Rental Assistance (ERA) program, incorrectly calculated monthly rental assistance amounts by using the incorrect monthly rent amount and transition percentage for the applicable month of assistance. More specifically, 1 out of the 60 households sampled received monthly assistance in excess of the proper calculated payment amounts resulting in total overpayments of \$977 and total likely projected questioned costs of \$155,267.

CRITERIA

2 CFR 200.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

ND ERA Policies & Procedures states that, "North Dakota will implement a payment coverage structure that provides applicants with rental assistance required while supporting their transition from relying on rental assistance. Availability of assistance will be structured as follows: Months one (1) through six (6): 100% of rent will be eligible, Months seven (7) through ten (10): 85% of rent will be eligible, Months (11) through eighteen (18): 70% of rent will be eligible". The outlined policy allows for an individual to receive up to twelve months of total rental assistance including 100% of their monthly rent for the first 6 months, 85% of their monthly rent for the next four months, and 70% of their monthly rent for the final two months.

CAUSE

The Department of Human Services, Emergency Rental Assistance (ERA) program, review did not identify correct monthly rent amounts and applied incorrect assistance percentages used to calculate the monthly ERA payments.

EFFECT

The Department issued payments that were not allowable under the Emergency Rental Assistance program.

CONTEXT

During state fiscal years, approximately 11,178 applications, totaling \$46 million were processed by the Department. The State Auditor's office performed a test of sixty applications with one error that resulted in an

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

overpayment of \$977 and projected to additional likely questioned costs of \$155,267. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services (ERA Program) ensure monthly payment amounts are calculated correctly and reviewed for accuracy. Additionally, we recommend the Department ensure the improper payments are recouped through the ERA program's refunding process.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department of Human Services agrees with the recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-019
Federal Program:	Children's Health Insurance Program
ALN #:	93.767
Federal Award Number(s) and Year(s):	2005ND5021 (2020) 2105ND5021 (2021) 2205ND5021 (2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Centers for Medicare and Medicaid Services
Compliance Requirement:	Eligibility
Questioned Cost:	\$498

CONDITION

During our testing of eligibility, we noted that eligibility was not properly determined by the Department of Human Services (DHS) for 1 of 60 CHIP cases that were tested. For this case, the income exceeded the Federal Poverty Line (FPL) threshold for CHIP. This resulted in a known Federal error for this case of \$498 with a likely additional federal questioned cost of \$52,643.

CRITERIA

42 CFR 457.965 states the State must include in each applicant's record facts to support the State's determination of the applicant's eligibility for Children's Health Insurance Program (CHIP).

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

42 CFR 431.804 "Eligibility error" is an error resulting from the States' improper application of Federal rules and the State's documented policies and procedures that causes a beneficiary to be determined eligible when he or she is ineligible for Medicaid or CHIP, causes a beneficiary to be determined eligible for the incorrect type of assistance, causes applications for Medicaid or CHIP to be improperly denied by the State, or causes existing cases to be improperly terminated from Medicaid or CHIP by the State. An eligibility error may also be caused when a redetermination did not occur timely or a required element of the eligibility determination process (for example income) cannot be verified as being performed/completed by the state.

42 CFR 431.960(b)(1) A data processing error is an error resulting in an overpayment or underpayment that is determined from a review of the claim and other information available in the State's Medicaid Management Information System, related systems, or outside sources of provider verification resulting in Federal and/or State improper payments.)

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

Since the income was over the FPL for CHIP, the Department stated that state's system, SPACES, should have sustained benefits under the existing coverage which, in this one case was Medicaid (Affordable Care Act Child). The Department stated the SPACES system failed to sustain the benefits under Medicaid. Both Medicaid and CHIP are fee-for-service programs and the total payment amount was not impacted.)

EFFECT

The Department incorrectly claimed the FMAP rate for CHIP rather than Medicaid based on the child's category of eligibility.

CONTEXT

There were 18,177 payments totaling \$26.2 million made during the audit period from CHIP. The individual case was from a stratified population of \$17,965,913 for individual payment amounts between \$1,000 to \$49,999. The payment of \$4,134 was projected to this stratified population of CHIP payments. The FMAP rates were then applied to the payment and the projection amount to determine the Federal amount in error which were calculated as the difference between the CHIP FMAP rate (71.85%) and Medicaid FMAP rate (59.79%). Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Finding 2020-002 was reported in the immediate prior year. Findings 2018-002 and 2016-004 were reported in previous years. The prior audit finding was reported as implemented on the summary schedule of prior audit findings. This materially misrepresents the status of the finding for CHIP.

RECOMMENDATION

We recommend the Department of Human Services review the SPACES system edit checks and ensure eligibility determinations made for the CHIP programs are proper. We also recommend corrections to payments and Federal reimbursement of CHIP.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with this recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-020
Federal Program:	Block Grants for Prevention and Treatment of Substance Abuse
ALN #:	93.959
Federal Award Number(s) and Year(s):	TB08TI010033-19, 6B088TI083051-01M001, 6B08TI083469-01M002, 1B08TI084664-01 (2019, 2020, 2021, 2022)
Federal Agency:	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
	Substance Abuse and Mental Health Services Administration
Compliance Requirement:	Level of Effort
Questioned Cost:	\$509,330

CONDITION

The Department of Human Services did not meet the level of effort requirement for pregnant women and women with dependent children as they were unable to provide tracking information on the expenditures for the related services provided during the audit for the 2019 and 2020 grant awards. At a minimum, the Department was required to maintain a level of effort of the 1994 base amount which was \$254,665. Since the Department was unable to identify expenditures for the 2019 and 2020 grant awards, the known error is \$509,330.

CRITERIA

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Per 45 CFR 96.124(c):

- (1) The State for fiscal year 1993 shall expend not less than five percent of the grant to increase (relative to fiscal year 1992) the availability of treatment services designed for pregnant women and women with dependent children (either by establishing new programs or expanding the capacity of existing programs). The base for fiscal year 1993 shall be an amount equal to the fiscal year 1992 alcohol and drug services Block Grant expenditures and State expenditures for pregnant women and women with dependent children as described in paragraph (e) of this section, and to this base shall be added at least 5 percent of the 1993 Block Grant allotment. The base shall be calculated using Generally Accepted Accounting Principles and the composition of the base shall be applied consistently from year to year. States shall report the methods used to calculate their base for fiscal year 1992 expenditures on treatment for pregnant women and women with dependent children.
- (2) For fiscal year 1994, the State shall, consistent with paragraph (c)(1) of this section, expend not less than five percent of the grant to increase (relative to fiscal year 1993) the availability of such services to pregnant women and women with dependent children.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

(3) For grants beyond fiscal year 1994, the States shall expend no less than an amount equal to the amount expended by the State for fiscal year 1994.

CAUSE

The Department indicated there are no providers offering these specialized treatment services for pregnant women and women with dependent children.

EFFECT

Noncompliance with 45 CFR 96.124(c) to provide treatment services designed for pregnant women and women with dependent children at no less than an amount equal to the amount expended by the State for fiscal year 1994.

Pregnant women addicted to drugs or alcohol face significant risks. The drug rehab programs for pregnant women and women with children provide specific services and support.

CONTEXT

The 2019 and 2020 grant years were the only grants to close during the audit period. The 1994 base amount is \$254,655 per grant year. The substance abuse program expenditures for SFY 2021 were \$10,447,419 and SFY 2022 were \$6,310,633 as reported on the SFY 2021, 2022 Schedule of Expenditures of Federal Awards for CFDA 93.959. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Human Services develop corrective action and expend, at a minimum, the amount expended by the State for fiscal year 1994, for the availability of treatment services designed for pregnant women and women with dependent children either by establishing new programs or expanding the capacity of existing programs

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department agrees with the recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-021
Federal Program:	Rehabilitation Services Vocational Rehabilitation Grants to States
ALN #:	84.126
Federal Award Number(s) and Year(s):	H126A190051 (2019)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Period of Performance
Questioned Cost:	\$2,454

CONDITION

The Department of Human Services made payments under the Vocational Rehabilitation program outside of the period of performance for the 2019 grant award which had a period of performance of 10/1/18 - 9/30/19 with an allowable liquidation period through 1/31/2021. More specifically, the program charged \$2,454 to the 2019 grant award when the underlying obligations actually occurred during the 2020 grant award period of performance.

CRITERIA

The following criteria note that Federal funds must be obligated by the end of the two-year period of performance window and those obligations must be liquidated within 120 days after the end date of period of performance.

2 CFR 200.344 requires:

" Unless the Federal awarding agency or pass-through entity authorizes an extension, a non-Federal entity must liquidate all obligations incurred under the Federal award not later than 120 calendar days after the end date of the period of performance as specified in the terms and conditions of the Federal award."

34 CFR 361.64 requires:

" (a) Except as provided in paragraph (b) of this section, any Federal funds, including reallocated funds, that are appropriated for a fiscal year to carry out a program under this part that are not obligated by the State by the beginning of the succeeding fiscal year and any program income received during a fiscal year that is not obligated by the State by the beginning of the succeeding fiscal year remain available for obligation by the State during that succeeding fiscal year.

(b) Federal funds appropriated for a fiscal year remain available for obligation in the succeeding fiscal year only to the extent that the State met the matching requirement for those Federal funds by obligating, in accordance with 34 CFR 76.707, the non-Federal share in the fiscal year for which the funds were appropriated."

The following criteria pertains to the establishment and maintenance of effective internal control to ensure payments are made within the correct period of performance.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

2 CFR 200.303 states the non-Federal entity must, "establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

CAUSE

The Department of Human Services, Vocational Rehabilitation Program, review of the expenditure period of performance, as outlined in its period of performance procedures, were not followed. Therefore, the grant award monitoring procedures were unable to detect payments made outside of the period of performance.

EFFECT

Unallowable costs totaling \$2,454 were charged to the 2019 grant award with a total projected questioned cost amount of \$41,717.

CONTEXT

The Department of Human Services, Vocational Rehabilitation program, had expenditures of \$412,720 after the obligation period for the 2019 and 2020 awards. Of this amount, one payment totaling \$2,454 was identified by sampling as an error. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Finding 2020-019 was reported in the immediate prior year. Findings 2018-031 and 2016-053 were reported in previous years.

The prior audit finding was reported as implemented on the summary schedule of prior audit findings. This materially misrepresents the status of the finding.

RECOMMENDATION

We recommend the Department of Human Services follow its procedures to prevent and detect Vocational Rehabilitation payments from occurring outside the period of performance.

DEPARTMENT OF HUMAN SERVICES RESPONSE

The Department of Health and Human Services agrees with the recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Department of Public Instruction

FINDING TYPE: Material Weakness - Material Noncompliance

Finding	2022-022
Federal Program:	Child Nutrition Cluster
ALN #:	10.553, 10.555, 10.556, 10.559, 10.582
Federal Award Number(s) and Year(s):	3ND300309 (2021 and 2022) 3ND310378 (2022)
Federal Agency:	U.S. DEPARTMENT OF AGRICULTURE
	Food and Nutrition Service
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not report Child Nutrition Cluster subawards to the Federal Funding Accountability and Transparency Act (FFATA) correctly. After testing FFATA reporting for the Child Nutrition Cluster, it was discovered that there were FFATA errors in the following three areas:

1. The Department of Public Instruction did not report the subaward information for the Fresh Fruit and Vegetable program (Assistance Listing number 10.582) for the 2021 grant year which runs from October 2020-September 2021. After an analysis of grant awards for that grant year, it was discovered that 14 subawards should have been reported to FFATA, totaling \$1,593,654.

Transactions Tested	Subaward reported	not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
14	14	0	0	0	0
Dollar Amount of Tested Transactions	Subaward reported	not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
\$1,593,654	\$1,593,654	\$0	\$0	\$0	\$0

2. The Department of Public Instruction did not report the subaward information timely for the Fresh Fruit and Vegetable program (Assistance Listing number 10.582) for the 2022 grant year awards (October 2021-September 2022) awarded in October 2021. After an analysis of grant awards awarded in October 2021, we tested 5 of 13 awards and found all 5 were not submitted timely to FFATA. Four (4) of the tested awards should have been reported to FFATA by 1/31/2022. The fifth award should have been reported to FFATA by 2/28/2022. They were all reported to FFATA on 7/28/2022. Those grant awards totaled \$623,000.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Transactions Tested	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
5	0	5	0	0
Dollar Amount of Tested Transactions	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
\$623,000	\$0	\$623,000	\$0	\$0

3. FFATA isn't being submitted for the following Assistance Listing numbers: 10.553, 10.555, 10.556 and 10.559. Because these Assistance Listing numbers are all included in one grant award, therefore, one FAIN number, they would all be reported in one FFATA report. The Department of Public Instruction did not report the subaward information for FAIN 223ND309N1099. After an analysis of these grant awards, 206 sponsors receiving total Federal grant payments over \$30,000 should have been reported. Those grant payments totaled \$168,897,721. The \$169 million is based on payments made from 7/1/2020 - 6/30/2022.

Transactions Tested	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
206	206	0	0	0
Dollar Amount of Tested Transactions	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
\$168,897,721	\$168,897,721	\$0	\$0	\$0

CRITERIA

Federal regulation 2 CFR 170, Appendix A requires a Federal Financial Assistance Transparency Act (FFATA) report for each subaward that equals or exceeds \$30,000 no later than the end of the month following the month in which the obligation was made.

The subaward information is then available to the public on the USA Spending website for transparency.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

Based on discussion with staff, a lack of understanding of FFATA reporting requirements resulted in the FFATA reporting errors. The Department of Public Instruction is only reporting FFATA for the Fresh Fruit and Vegetable program because the amounts given to sponsors is predetermined and not reimbursement based. For the other programs in the Child Nutrition Cluster, DPI does not report FFATA because they are meal count grants and amounts are not predetermined. There is no waiver or statement in the grant terms and conditions for the meal count grants saying that FFATA doesn't need to be completed for these programs. The Department also couldn't find a waiver or any information from their USDA contact saying that FFATA doesn't need to be completed. Therefore, the FFATA should have been completed for all programs in the Child Nutrition Cluster. Because the

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

awards to sponsors are not predetermined, the auditor is reporting grant payments during the audit period instead of award amounts.

EFFECT

Not meeting the FFATA requirements increases the likelihood that the public will not have access to transparent and accurate information regarding expenditures of Federal awards. Additionally, Federal regulations address actions that Federal agencies may impose if a state entity does not comply with the U.S. Constitution, Federal statutes, regulations, or the terms and conditions of a Federal award. According to 2 CFR 200.208(c), "Specific conditions," these actions may include

- requiring reimbursement instead of advance payments;
- not allowing the agency to proceed to the next phase until it submits evidence of acceptable performance;
- requiring additional, more detailed financial reports or additional project monitoring;
- requiring the agency to obtain technical or management assistance; or
- establishing other prior approvals.

If the Federal agency determines the state agency cannot remedy its noncompliance through the above actions, 2 CFR 200.339, "Remedies for noncompliance," outlines additional actions the Federal agency may take. Depending on the circumstances, these actions may include

- temporarily withholding payments until the noncompliance has been corrected,
- denying the use of funds,
- partly or fully suspending or terminating the Federal award,
- suspending or debarring the agency,
- withholding further awards for the project or program, or
- pursuing other available legal remedies.

CONTEXT

There were 539 sponsors receiving Federal grant awards during our audit period totaling \$174,653,181. Of those 539 sponsors, 233 (43%) were over the \$30,000 threshold and should have been reported to FFATA, for a total of \$172,004,887 (98%). Of the 233 sponsors over the \$30,000 threshold, only 13 sponsors (6%) were reported to FFATA, totaling \$1,513,512 (1%). This results in 220 sponsors receiving Federal grant awards (94%) not reported to FFATA, totaling \$170,491,375 (99%). Where sampling was performed, the audit used a non-statistical sampling method.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Public Instruction ensures timely and accurate submission of FFATA reports in accordance with Federal regulations and retain further instructions or waiver from the Federal agency.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

We agree with the finding.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-023
Federal Program:	Child Nutrition Cluster
ALN #:	10.553, 10.555, 10.556, 10.559
Federal Award Number(s) and Year(s):	3ND300309 (2021)
Federal Agency:	U.S. DEPARTMENT OF AGRICULTURE
	Food and Nutrition Service
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not make subrecipients aware of all required grant award information for the Child Nutrition Cluster program prior to February of 2021.

CRITERIA

31 U.S.C. 7502(f)(2)(A) states that each pass-through entity shall provide subrecipient the Federal requirements which govern the use of such awards.

2 CFR 200.332 states the required information that pass-through entities must disclose. This includes information related to Federal award identification, requirements imposed by the pass-through entity on the subrecipient, any additional requirements, approved federally recognized indirect cost rate, requirement that the subrecipient allow access to records, and appropriate terms and conditions concerning closeout of the subaward.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The prior audit finding corrective action wasn't implemented until February of 2021. Therefore, the grant templates were still missing information as was documented during the 2019-2020 single audit.

EFFECT

Subrecipients may not have been aware of all necessary grant information and requirements.

CONTEXT

During our audit period, there were 412 subrecipients receiving Federal grant agreements for the Child Nutrition Cluster program. During 2021, there were 215 subrecipients and 197 in 2022. As there was a similar finding in our prior audit that was not implemented until February of 2021, only grants obligated after this date and before the end of our audit period of 6/30/2022 were considered in our testing. Grants made prior to February 2021 were

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

considered to have missing information. During our testing, no missing information was noted in grants made after February 2021. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Finding 2020-022 was reported in the immediate prior year. Finding 2018-042 and 2016-068 were made in previous years.

The prior audit finding was reported as implemented on the summary schedule of prior audit findings. This materially misrepresents the status of the finding.

RECOMMENDATION

We recommend the Department of Public Instruction continue the corrective action that was implemented in February of 2021 to ensure subrecipients are made aware of all required grant award information for the Child Nutrition Cluster program.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the recommendation

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-024
Federal Program:	Child and Adult Care Food Program
ALN #:	10.558
Federal Award Number(s) and Year(s):	3ND300309 (2021)
Federal Agency:	U.S. DEPARTMENT OF AGRICULTURE
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not make subrecipients aware of all required grant award information for the Child and Adult Care Food program prior to February of 2021.

CRITERIA

31 U.S.C. 7502(f)(2)(A) states that each pass-through entity shall provide subrecipient the Federal requirements which govern the use of such awards.

2 CFR 200.332 states the required information that pass-through entities must disclose. This includes information related to Federal award identification, requirements imposed by the pass-through entity on the subrecipient, any additional requirements, approved federally recognized indirect cost rate, requirement that the subrecipient allow access to records, and appropriate terms and conditions concerning closeout of the subaward.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The prior audit finding corrective action wasn't implemented until February of 2021. Therefore, grant templates were still missing information as was documented during the 2019-2020 single audit.

EFFECT

Subrecipients may not have been aware of all necessary grant information and requirements.

CONTEXT

During our audit period, there were 236 subrecipients receiving Federal grant agreements for the Child and Adult Care Food program. During 2021, there were 126 subrecipients and 110 in 2022. As there was a similar finding in our prior audit that was not implemented until February of 2021, only grants obligated after this date and before the end of our audit period of 6/30/2022 were considered in our testing. Grants made prior to February of 2021 were considered to have missing information. During our testing, no missing information was noted in grants made after February of 2021. Where sampling was performed, the audit used a non-statistical sampling method.

The prior audit finding was reported as implemented on the summary schedule of prior audit findings. This materially misrepresents the status of the finding.

RECOMMENDATION

We recommend the Department of Public Instruction continue the corrective action that was implemented in February of 2021 to ensure subrecipients are made aware of all required grant award information for the Child and Adult Care Food program.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the recommendation

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency

Finding	2022-025
Federal Program:	Education Stabilization Fund
ALN #:	84.425D
Federal Award Number(s) and Year(s):	S425D200007 (2020)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Special Tests
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not formally track that letters of intent were received from all non-public schools.

CRITERIA

18005(a) CARES Act:

Section 18005(a) of the CARES Act requires a Local Educational Agency (LEA) that receives funds under the ESSER Fund to provide equitable services in the same manner as provided under section 1117 of the Elementary and Secondary Education Act of 1965 (ESEA) to students and teachers in non-public schools, as determined in consultation with representatives of non-public schools.

1117(b)(1) of the ESEA:

(b)CONSULTATION.

— (1) IN GENERAL.—To ensure timely and meaningful consultation, a local educational agency shall consult with appropriate private school officials during the design and development of such agency's programs under this part. Such agency and private school officials shall both have the goal of reaching agreement on how to provide equitable and effective programs for eligible private school children, the results of which agreement shall be transmitted to the ombudsman designated under subsection (a)(3)(B).

34 CFR 76.665(b)(1):

An LEA must promptly consult with representatives of non-public elementary and secondary schools during the design and development of the LEA's plans to spend funds from a CARES Act program and before the LEA makes any decision affecting the opportunities of students and teachers in non-public schools to benefit from those funds. As provided in section 1117(b)(1) of the ESEA, the LEA and non-public school officials shall both have the goal of reaching timely agreement on how to provide equitable and effective programs for non-public school students and teachers.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

The Department of Public Instruction stated that they manually tracked the letters of intent but did not retain a record of this process to support that all letters of intent were received.

EFFECT

The lack of adequate procedures for tracking non-public school letters of intent increase the risk of non-public schools not participating in the program.

CONTEXT

The Department of Public Instruction (DPI) is responsible for initiating the consulting process by contacting representatives in all non-public schools in the state to notify them of the opportunity for their students and teachers to obtain equitable services. If non-public school officials want equitable services for their students and teachers, DPI must consult with those officials before DPI makes any decision that affects the opportunity of non-public school to participate in the activities funded under the CARES Act programs. If a non-public school declines to participate in the CARES Act programs or does not respond to DPI's good-faith effort to make contact, DPI has no further responsibility to provide equitable services to students or teachers in that school. However, DPI must be able to demonstrate that it made a good faith effort to contact all the nonpublic schools in the state. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Public Instruction improve procedures for tracking to ensure all Education Stabilization program letters of intent from non-public schools are received in order to verify all of them were contacted.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with this finding.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-026
Federal Program:	Education Stabilization Fund
ALN #:	84.425
Federal Award Number(s) and Year(s):	S425D200007, S425D210007, S425U210007 (2020 and 2021)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not report accurate information for the Education Stabilization Fund program Federal Funding Accountability and Transparency Act (FFATA) reporting.

Transactions Tested	Subawards Not Reported	Reports Not Timely	Subaward Amount Incorrect	Subawards Missing Key Elements
25	2	22	10	0
Dollar Amount of Tested Transactions	Subaward Not Reported	Report Not Timely	Subaward Amount Incorrect	Subaward Missing Key Elements
\$9,055,389.69	\$53,165	\$8,763,195.69	\$3,307,063	\$0

CRITERIA

Per Federal regulation, 2 CFR 170, Appendix A: prime awardees are required to submit a Federal Financial Assistance Transparency Act (FFATA) report for each subaward made no later than the end of the month following the month in which an obligation was made. Also, according to this regulation, prime awardees must report information about each obligating action per the instructions posted in the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) website. The FSRS website also has a data definition guide that defines what is supposed to be submitted in each available field. Per this definition guide: the sub-award obligation action date is "the date of the sub-award obligation." The amount of the sub-award is "the amount of the sub-contract award for this sub-awardee" and the data model also states that the amount of the sub-award is "The net dollar amount of Federal funds awarded to the Sub-awardee including modifications".

Title 2 of the Code of Federal Regulations was updated to increase the subaward reporting requirement for grants from \$25,000 to \$30,000. Only subawards \$30,000 or above require reports for prime grant awards as of November 12, 2020 as seen on the Final Registry - Guidance for Grants and Agreements - OMB Rule 85 FR 49506.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

North Dakota Department of Public Instruction (DPI) submitted inaccurate information and amounts based on the instructions and data definitions found at the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) website. DPI also had a misunderstanding of the reporting threshold.

EFFECT

Subaward information that was reported was inaccurate and published later than required by Federal regulations. Subawards for ESSER I discretionary funds were not reported and two ESSER I awards were not reported.

CONTEXT

With 3 Federal grants, the Department of Public Instruction issued a total of 496 awards to 170 unique subrecipients for a total amount of \$435,446,613.83 during our audit period of 7/1/2020-6/30/2022 that were susceptible to FFATA reporting.

While it appears all required reports were submitted for ESSER II and ESSER III related awards, ESSER I discretionary fund awards did not get reported as well as any subrecipients that received more than \$25,000 but less than \$30,000. The ESSER I Federal Award also states that grants funded at \$25,000 or more that meet the reporting conditions are to be reported.

DPI did report the information directly from their grant awards, but DPI did not report all of the subawards within the required time based on when they were originally awarded. With ESSER III funds, DPI had to do some redistribution of funds causing their FFATA reporting to be overstated. DPI double-reported their awards instead of reporting the adjustment from the redistribution since the initial allocation was already reported. In our testing, the overstatement was \$3,278,598.

Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Public Instruction ensure FFATA reports are submitted timely and accurately according to the instructions and definitions posted on the FSRS website and in the grant award.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the Recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-027
Federal Program:	Comprehensive Literacy Development
ALN #:	84.371
Federal Award Number(s) and Year(s):	S371C190005 and S371C170011 (2021 and 2022)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not complete any risk assessments for 3 of 5 subrecipients sampled and only completed a risk assessment once during our audit period for the other 2 sampled even though they received separate grants during each fiscal year.

CRITERIA

2 CFR 200.332 (b) states "All pass-through entities must: Evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring described in paragraphs (d) and (e) of this section, which may include consideration of such factors as:

- (1) The subrecipient's prior experience with the same or similar subawards;
- (2) The results of previous audits including whether or not the subrecipient receives a Single Audit in accordance with Subpart F of this part, and the extent to which the same or similar subaward has been audited as a major program;
- (3) Whether the subrecipient has new personnel or new or substantially changed systems; and
- (4) The extent and results of Federal awarding agency monitoring (e.g., if the subrecipient also receives Federal awards directly from a Federal awarding agency)."

Department of Public Instruction awarded grants to subrecipients annually under this program. As such, a risk assessment should be completed annually for each subrecipient in which a new grant was awarded to them.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

The Department of Public Instruction did not complete risk assessments for subrecipients as the Comprehensive Literacy program had a high turnover of staff that were administering the program and the Department did not have this responsibility assigned to someone during parts of our audit period.

EFFECT

The Department of Public Instruction is not adjusting their subrecipient monitoring based on risk assessments completed for the subrecipients in compliance with Federal regulations.

CONTEXT

The Department of Public Instruction distributed approximately \$23,250,000 in Federal funds under the Comprehensive Literacy program to 25 different local education agency subrecipients. While these subrecipients did receive monitoring procedures no adjustments were made to individual subrecipients based on results of risk assessments. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Public Instruction ensure risk assessments are completed for each grant their subrecipients receive and adjust monitoring procedures as necessary based on the results of these assessments.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the recommendation.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-028
Federal Program:	Comprehensive Literacy Development
ALN #:	84.371
Federal Award Number(s) and Year(s):	S371C170011 and S371C190005 (2022)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not make subrecipients aware of all required grant award information for the Comprehensive Literacy program as all grant templates used did not include the subaward budget period start and end date.

CRITERIA

2 CFR 200.332 states required information that pass-through entities must disclose to subrecipients, including paragraph (a)(1)(vi) "Subaward Budget Period State and End Date"

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The Comprehensive Literacy Program did not update their grant templates to include a new requirement that was added to the relevant Federal codes and went into effect January 1, 2021.

EFFECT

Subrecipients may not have been made aware of all necessary grant information and requirements.

CONTEXT

The Comprehensive Literacy program grants subawards annually under each of the Federal grants it received under the program. During our audit period, there were 2 Federal awards granted out to subrecipients a total of 35 times each fiscal year. The grant agreements shared a template each year and it was found that all were missing a newly required piece of information after the relevant CFR was modified and an update went into effect on January 1, 2021. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

RECOMMENDATION

We recommend the Department of Public Instruction ensure that subrecipients are made aware of all required grant award information.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-029
Federal Program:	Comprehensive Literacy Development
ALN #:	84.371
Federal Award Number(s) and Year(s):	S371C170011 and S371C19000 (2021 and 2022)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not report accurate information for the Comprehensive Literacy program in the 5 subawards tested out of a total 35 subawards issued during our audit period. 3 of the subawards tested were also submitted a month later than required by Federal regulations after funds were originally obligated in November of 2020 and the reports were not made until January of 2021.

Transactions Tested	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
5	-	3	2	0
Dollar Amount of Tested Transactions	Subaward not reported	Report not timely	Subaward amount incorrect	Subaward missing key elements
\$7,972,662.03	\$0	\$2,453,202.03	\$556,708	\$0

CRITERIA

Per Federal regulation, 2 CFR 170, Appendix A, prime awardees are required to submit a Federal Financial Assistance Transparency Act (FFATA) report for each subaward made no later than the end of the month following the month in which an obligation was made. Also according to this regulation, prime awardees must report information about each obligating action per the instructions posted on the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) website. The FSRS website also has a data definition guide that defines what is supposed to be submitted in each available field. Per this definition guide: the sub-award project description "Describes the sub-award project" with an added note to "be precise as possible" and "not use any abbreviations or acronyms." The sub-award number is defined as "This is the number used by the prime award to uniquely track the sub-award (their own numbering system for the sub-award)." The sub-award obligation action date is "the date of the sub-award obligation." The amount of the sub-award is "the amount of the sub-contract award for this sub-awardee".

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CAUSE

North Dakota Department of Public Instruction submitted inaccurate information based on the instructions and data definitions found at the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) website.

The Department also did not submit FFATA reports in a timely manner due to not recognizing that obligations were not made to subawardees until a month after reimbursement payments were made against the obligations.

EFFECT

Subaward information that is published to the USAspending.gov website was inaccurate and published later than required by Federal regulations.

CONTEXT

During our audit period the Department of Public Instruction (DPI) issued a total of 35 subawards to 20 unique subrecipients under the Comprehensive Literacy Program for sub-awardees that had obligations of \$30,000 or more. DPI reported all of these sub-awards, totaling of \$25.2 million, to the FSRS system. While it appears all required reports were submitted and DPI did report the information directly from their grant awards, some of the fields were reported using the wrong information in error for all of the sub-awards tested. DPI also did not report all of the subawards within the required time based on when they were originally awarded. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Public Instruction ensure FFATA reports are submitted timely and accurately according to the instructions and definitions posted on the FSRS website.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the Recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Material Weakness - Material Noncompliance

Finding	2022-030
Federal Program:	Supporting Effective Instruction State Grants
ALN #:	84.367
Federal Award Number(s) and Year(s):	S367A210033 (2021)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Level of Effort
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not meet the maintenance of effort requirement for the 2021-2022 school year for the Supporting Effective Instruction program during the audit period.

CRITERIA

34 CFR section 299.5a General. An LEA receiving funds under an applicable program listed in paragraph (b) of this section may receive its full allocation of funds only if the SEA finds that either the combined fiscal effort per student or the aggregate expenditures of State and local funds with respect to the provision of free public education in the LEA for the preceding fiscal year was not less than 90 percent of the combined fiscal effort per student or the aggregate expenditures for the second preceding fiscal year.

SEC. 8521 of the Elementary and Secondary Education Act of 1965 (ESEA) (20 U.S.C. 7901) MAINTENANCE OF EFFORT. (a) IN GENERAL. — A local educational agency may receive funds under a covered program for any fiscal year only if the State educational agency finds that either the combined fiscal effort per student or the aggregate expenditures of the agency and the State with respect to the provision of free public education by the agency for the preceding fiscal year was not less than 90 percent of the combined fiscal effort or aggregate expenditures for the second preceding fiscal year, subject to the requirements of subsection (b).

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The Department of Public Instruction indicated that a waiver for the maintenance of effort requirement for the 2021-2022 school year was received. However, they were unable to locate any documentation supporting the waiver.

EFFECT

The Department of Public Instruction is not in compliance with the 90% maintenance of effort requirement for the 2021-2022 school year.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

CONTEXT

The Department of Public Instruction distributed \$9,575,000 in Federal funds under the Supporting Effective Instruction program to 159 different school districts during the 2021-2022 school year. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Public Instruction ensure the maintenance of effort requirement is met in accordance with the Supporting Effective Instruction program guidelines.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the finding.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Federal Program:	Supporting Effective Instruction State Grants
ALN #:	84.367
Federal Award Number(s) and Year(s):	S367A200033 and S367A210033 (2020 and 2021)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not complete a risk assessment for any awards to subrecipients of the Supporting Effective Instruction program during the audit period.

CRITERIA

2 CFR 200.332 – states that all pass-through entities must:

(b) Evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The Department of Public Instruction overlooked completing subrecipient risk assessments due to the continued response of the COVID-19 pandemic.

EFFECT

Department of Public Instruction is not able to verify that subrecipients are compliant with Federal statutes, regulations, and terms and conditions of the subaward because there was no risk assessment completed for subrecipients in order to determine appropriate monitoring.

CONTEXT

The Department of Public Instruction distributed approximately \$19,000,000 in Federal funds under the Supporting Effective Instruction program to 168 different subrecipients. While these subrecipients did receive monitoring procedures, no adjustments were made to individual subrecipients based on the results of risk assessments.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-032
Federal Program:	Supporting Effective Instruction State Grants
ALN #:	84.367
Federal Award Number(s) and Year(s):	S367A200033 and S367A210033 (2021 and 2022)
Federal Agency:	U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Eligibility
Questioned Cost:	\$62,547

CONDITION

The Department of Public Instruction (DPI) incorrectly included neglected or delinquent facilities as part of their Title IIA allocation to Local Educational Agencies (LEA). We selected a sample of 36 and identified a 100% error rate. The total known allocation error identified was \$62,546.99. When projected against the population, the total projected error is \$115,041.65.

CRITERIA

The Elementary and Secondary Education Act of 1965 (ESEA Section 2102(a)(1)) states, the State, acting through the State educational agency (DPI), shall award subgrants to eligible local educational agencies.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The Department of Public Instruction was unaware that neglected and delinquent facilities could not be included in their Title IIA allocation calculations and on subrecipient's grant awards.

EFFECT

The Department did not comply with the allocation requirements to LEAs for Title IIA grants.

CONTEXT

The Department of Public Instruction allocated \$9,503,744 in Federal funds to 183 school districts during the 2020-2021 school year and \$9,603,024 in Federal funds to 170 school districts during the 2021-2022 school year. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Department of Public Instruction ensure the Title IIA allocations are calculated based on the Federal requirements.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The NDDPI agrees with the recommendation.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-033
Federal Program:	Child Nutrition Cluster, Child and Adult Care Food Program, Title I Grants to Local Educational Agencies, Special Education Cluster, Twenty-First Century Community Learning Centers, Supporting Effective Instruction State Grants, Comprehensive Literacy Development, and Education Stabilization Fund
ALN #:	10.553, 10.555, 10.556, 10.558, 10.559, 10.579, 10.582, 84.010, 84.027, 84.173, 84.287, 84.367, 84.371, 84.425
Federal Award Number(s) and Year(s):	3ND300309 and 3ND300606 (2021) S010A180034, S010A190034, and S010A200034 (2019, 2020, and 2021) H027A180049, H173A180094, H027A190049, H173A190094, H173A200094, and H027A200049 (2019, 2020, 2021) S287C180034, S287C190034, and S287C200034 (2019, 2020, 2021) S367A190033 and S367A200033 (2021) S371C170011 and S371C190005 (2021) S425C200044, S425D200007, S425D210007, S425R210051, S425U210007, and S425W210035 (2021)
Federal Agency:	U.S. DEPARTMENT OF AGRICULTURE U.S. DEPARTMENT OF EDUCATION
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The Department of Public Instruction did not ensure all subrecipients either submitted a Single Audit report or certification form identifying a Single Audit is not required. In addition, the Department did not issue management decisions on auditing findings within 6 months or ensure that timely and appropriate corrective action was taken in all applicable instances.

We selected a sample of 60 subrecipients of the total 795 in our population for testing. During our testing, 6 of the 60 subrecipients did not submit a certification form identifying whether a Single Audit was required. The Department indicated that a Single Audit report was not received but we are unable to determine whether one was required. For 4 additional subrecipients, the Department did not receive a Single Audit, issue management decisions on auditing findings within 6 months, or ensure appropriate corrective action was taken.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

The Department did track all of their subrecipients in a spreadsheet that captured information relating to when their certified Federal expenditure information was received as well as if a single audit is required of them. However, due to the errors noted in receiving this information as well as following up with completed single audits in a timely manner in our sample tested, it was determined that this spreadsheet was not being fully utilized.

CRITERIA

2 CFR 200.331(f) states that a pass-through entity must verify that every subrecipient is audited as required by 2 CFR 200 Subpart F.

2 CFR 200.331(d)(2) states that a pass-through entity must ensure subrecipients take timely and appropriate action on all deficiencies pertaining to the Federal award provided to the subrecipient from the pass-through entity through audits, on-site reviews, and other means.

2 CFR 200.521(d) states that a pass-through entity must issue a management decision within six months of acceptance of the audit report by the Federal Audit Clearinghouse.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The Department of Public Instruction maintains a spreadsheet to track all subrecipient audit report monitoring. However, they did not ensure that everyone on the spreadsheet provided a Single Audit report or certification of total federal expenditures.

EFFECT

Subrecipients spending more than \$750,000 from all Federal sources may not be obtaining audits as required or implementing a corrective action plan in a timely manner if findings are noted in audits that were completed.

CONTEXT

The 4 subrecipients that did not provide a Single Audit report received approximately \$9.9 million dollars in Federal expenditures. The additional 6 entities that did not provide certifications indicating their total Federal awards received approximately \$1.5 million dollars. We did verify that the 6 entities that failed to provide certifications did not have Single Audit reports submitted to the clearing house. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Finding 2020-021 was reported in the immediate prior year. Finding 2018-041 was reported in a previous year.

The prior audit finding was reported as implemented on the summary schedule of prior audit findings. This materially misrepresents the status of the finding.

RECOMMENDATION

We recommend the Department of Public Instruction:

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

- Ensure all subrecipients obtain audits in accordance with 2 CFR 200 Subpart F if they meet the requirements;
- Issue management decisions within a timely manner;
- Ensure subrecipients took timely corrective action on deficiencies identified in the audits.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE

The Department of Public Instruction agrees with the finding.

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Office of Management and Budget

FINDING TYPE: Material Weakness - Material Noncompliance

Finding	2022-034
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013 and SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CONDITION

We identified Coronavirus Relief Fund (CRF) quarterly financial progress reports were incomplete, inaccurate and did not reconcile to the state's accounting system.

CRITERIA

Federal regulation, 2 CFR 200.303, requires non-Federal entities, in part, to establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Office of Management and Budget, 2 CFR Part 200, Appendix XI, 2021 and 2022 Compliance Supplements, for Assistance Listing 21.019 Coronavirus Relief Fund, states in part: Each prime recipient of the Fund shall provide a quarterly Financial Progress Report that contains COVID-19 related costs incurred during the covered period (the period beginning on March 1, 2020; and ending on December 31, 2021) to Treasury OIG. Each prime recipient shall report this quarterly information mentioned above into the Grant Solutions portal. The prime recipient's quarterly Financial Progress Report submissions should be supported by the data in the prime recipient's accounting system.

Key Line Items – The following line items from the reporting contain critical information:

- (1) The total amount of payments from the Fund received from Treasury.
- (2) The amount of funds received that were expended or obligated for each project or activity.
- (3) A detailed list of all projects or activities for which funds were expended or obligated, including: a. The name of the project or activity b. A description of the project or activity
- (4) Detailed information on any loans issued; contracts and grants awarded; transfers made to other government entities; and direct payments made by the prime recipient that are greater than \$50,000. For amounts less than \$50,000, the prime recipient must report in the aggregate for these expenditure categories. For direct payments to individuals, aggregate reporting is required to be reported regardless of amount.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Beginning September 21, 2020, prime recipients were required to submit via the Grant Solutions portal the first detailed quarterly Financial Progress Report, which cover the period March 1 through June 30, 2020 (with exception to the September 21 first quarter deadline and the October 13 second quarter reporting deadlines for those prime recipients using Grant Solutions' upload feature, which was available December 1, 2020). Thereafter, quarterly reporting will be due no later than ten days after each calendar quarter. If the 10th calendar day falls on a weekend or a Federal holiday, the due date will be the next working day. Reporting shall end with either the calendar quarter after the COVID-19 related costs and expenditures have been liquidated and paid or the calendar quarter ending September 30, 2022, whichever comes first. The prime recipient's quarterly Financial Progress Report submission should be supported by the data in the prime recipient's accounting system.

Department of the Treasury Office of Inspector General Coronavirus Relief Frequently Asked Questions Related to Reporting and Recordkeeping (OIG-CA-20-028R), if an error is identified or a modification needs to be made after a report is already approved by the Treasury OIG, the prime recipient will need to make the modification or correction in the next quarterly reporting cycle.

CAUSE

There was a lack of understanding across state agencies of the detailed requirements of Coronavirus Relief Fund reporting. The North Dakota Office of Management and Budget (OMB) provided the CRF Report Template, Data Upload Service Data Dictionary, Coronavirus Relief Fund Frequently Asked Questions, and instructions to all state agencies. However, OMB's procedures to review the information submitted by state agencies did not detect all material errors and omissions within the reporting cycle. In addition, the short turnaround time for reporting deadlines contributed to reporting errors and omissions.

EFFECT

Inaccurate Federal reporting reduces transparency and may impair the Federal oversight agency's ability to properly oversee the program.

CONTEXT

State agencies prepared and submitted CRF report templates to the ND Office of Management and Budget (OMB). OMB compiled the information into a master CRF report template for submission.

We randomly selected the quarters ending December 30, 2020, and December 31, 2021, to test across 11 state agencies. One agency did not have expenditures in the quarter ending December 31, 2021; therefore, we judgmentally selected the quarter ending March 31, 2021, to test. Another agency did not have expenditures in either of the quarters randomly selected; therefore, we judgmentally selected the quarters ending September 30, 2021, and March 31, 2022, to test.

In total, we attempted to reconcile the 22 agency prepared CRF report templates to data in the state's accounting system. We also attempted to reconcile the agency prepared CRF report template information to OMB's master CRF report template and/or final submission. Lastly, we randomly sampled CRF expenditures from the agency prepared CRF report templates to test the categorical breakdown.

Based on our testing, we identified:

- Approximately \$61.1 million of CRF expenditures were not reported by various agencies to OMB in the proper quarter.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Because material errors and omissions impacted total expenditures reported, the amounts reported by category will also be misstated.

Lastly, if an error was identified or a modification needed to be made after a report was already approved by the Treasury OIG, the prime recipient was allowed to make the modification or correction in the next quarterly reporting cycle.

Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Office of Management and Budget strengthen procedures to ensure Federal reports are complete, accurate and reconcile to the state's accounting system.

OFFICE OF MANAGEMENT AND BUDGET RESPONSE

The Office of Management and Budget agrees with this finding and the auditor's recommendation. We agree with the auditor's finding that certain agency expenditures were not reported in the proper quarter and that quarterly reports did not reconcile to the state accounting system. However, the Federal report was required to be submitted ten days after the close of the period. The state accounting system was not closed by the time the Federal reports were required to be submitted. The U.S. Department of Treasury recognized this and directed reporting agencies to correct and revise prior submissions when each subsequent report was submitted. OMB made these revisions as required and all expenditures were reported appropriately as the final Coronavirus Relief Funds reports were submitted.

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-035
Federal Program:	Coronavirus State and Local Fiscal Recovery Funds
ALN #:	21.027
Federal Award Number(s) and Year(s):	SLFRP1964 (2022)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CONDITION

The Office of Management and Budget underreported both current period and cumulative expenditures by at least \$117,366,999 on the project and expenditure report to the Department of Treasury covering the period of January 2022-March 2022. These expenditures were subsequently reported in the period of April 2022-June 2022.

CRITERIA

The interim final rule, issued May 17, 2021, states "The quarterly Project and Expenditure reports will include financial data, information on contracts and subawards over \$50,000, types of projects funded, and other information regarding a recipient's utilization of the award funds..... Treasury will provide additional guidance and instructions on the reporting requirements outlined above for the Fiscal Recovery Funds at a later date." (Federal Register Vol. 96, No.93 pgs. 26814-26815). The final rule published January 27, 2022 which amended the interim rule also stated "Recipients are advised to also consult Treasury's Reporting and Compliance Guidance for additional information on program administration processes and requirements, including applicability of the Uniform Guidance". Federal Register Vol. 87, No.18 pg. 4340). Per this guidance which was first published June 17, 2021, recipients were required to submit Project and Expenditure reports that included current period expenditures and cumulative expenditures for reporting periods covering March 2021-December 2021 and January 2022-March 2022. (Compliance and Reporting Guidance - State and Local Fiscal Recovery Funds, V5.0 pg.17-19). The FY 2022 compliance supplement also states that the SEFA should report all aggregate expenditures for all four eligible use categories, not just the results of the revenue loss calculation or standard allowance.

2 CFR 200.303(a) states that non-Federal entities must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

Individual agencies paid SLFRF expenditures through the state's accounting system. OMB transferred reimbursement of expenditures to the individual agencies upon request. OMB reported information on the Federal project and expenditure reports based on OMB's transfers out to agencies. OMB tracked these transfers and reported the amount tracked as current period and cumulative period expenditures for their Project and Expenditure report. Expenditures may be reported on a cash or accrual basis. Some agencies did not request a transfer for paid expenditures or provide information relating to incurred expenditures to OMB prior to the

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

reporting period end. The State Treasurer paid approximately \$92 million and the Department of Human Services paid approximately \$25 million during the period that was not transferred to these agencies until after the reporting period and not reported in the period January 2022-March 2022.

EFFECT

The timing of expenditures made using State and Local Fiscal Recovery Funds (SLFRF) was reported inaccurately to the Department of Treasury.

CONTEXT

In March 2021, the Federal Department of Treasury obligated funds to all 50 states under the State Local and Fiscal Recovery Fund to help states mitigate negative economic impacts caused by the COVID-19 pandemic. In November 2021, the special session of the 67th legislature obligated use of these funds to various agencies across the state. As the state was able to show that the revenue lost in years 2020 and 2021 exceeded the amount of the obligation from the Department of Treasury, the state was able to claim use of these funds under revenue replacement which allowed the state to utilize them for 'government operations' in addition to other specific uses and also allowing the state to report use of these funds under a single 'revenue replacement' project. The agencies began using the funds for purposes after they were obligated by the state legislature and began recording expenditures against the grant throughout our audit period. When these funds were initially disbursed to the state in March 2021, the funds were received by OMB and OMB then transferred reimbursement to agencies on request.

North Dakota's project description on the reports was consistent and based on legislative appropriation. As reported, "Due to its extraordinary revenue loss during the pandemic, North Dakota's entire SFRF allocation is dedicated to project expenditure category group 6 – Revenue Replacement. Consequently, all expenditures will fall under project expenditure category 6.1 – Provision of Government Services. Government services, as defined by the North Dakota legislature, includes economic development and workforce development initiatives, infrastructure and deferred maintenance initiatives, state service delivery and information technology improvements, and healthcare and emergency response initiatives."

Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Office of Management and Budget develop corrective action and properly report the state's SLFRF current period expenditures and cumulative expenditures to the Department of Treasury as accumulated from each agency's records within the state's accounting system.

OFFICE OF MANAGEMENT AND BUDGET RESPONSE

The Office of Management and Budget agrees with this finding. The expenditures referenced in this audit finding were incurred by agencies prior to the period in which the Federal funds were included in the quarterly expenditure reports for the State and Local Fiscal Recovery Fund. Because OMB is responsible for the state reporting under this program, it is necessary to maintain some level of control over these funds. Consequently, OMB manages the funds centrally and developed a process to reimburse agencies for their eligible expenditures once expenditures were incurred and agencies requested reimbursement. As a result, reimbursement from the state's allocation of SLFRF moneys always occurs after the agency expenditure. Funds are included in the Federal

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

report for the period in which reimbursement from the SLFRF occurs. In some cases, this results in the agency expenditure occurring in a period prior to the period covered under the quarterly SLFRF report in which the reimbursement is reported. However, until reimbursement occurs, the expenditure is charged to a funding source other than SLFRF. All expenditures reimbursed through SLFRF are included in Federal reports for the period in which the reimbursement occurred.

See “Management’s Response and Corrective Action” section of this report.

AUDITOR’S CONCLUDING COMMENTS

While the Office of Management and Budget agrees with the finding, continuing Federal reporting based on the timing of reimbursed expenditures will likely cause further inaccurate SLFRF reporting. In addition, amounts transferred to agencies are not confirmed to not exceed incurred expenditures to ensure a reimbursement process is in place.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Office of the State Treasurer

FINDING TYPE: Material Weakness - Material Noncompliance

Finding	2022-036
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013 and SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CONDITION

The State Treasurer's Office did not ensure all required information was provided to subrecipients of Coronavirus Relief Funds (CRF). In addition, the Office's internal controls were insufficient to ensure that subrecipients received communication regarding the necessary items. Required information not communicated included:

- Subrecipient's unique entity identifier,
- Federal award identification number,
- Federal award date,
- Subaward budget period start and end date,
- Total amount of Federal funds obligated to the subrecipient by the pass-through entity including the current financial obligation,
- Total amount of Federal award committed to the subrecipient by the pass-through entity,
- Name of awarding agency,
- Assistance listing number; and,
- Indirect cost rate for Federal award including if the de minimis rate is charged.

CRITERIA

Federal regulation, 2 CFR 200.332(a), requires pass-through entities to communicate specific required information to subrecipients.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

Federal regulation, 2 CFR 200.303, requires non-Federal entities, in part, to establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CAUSE

The documents used to communicate award information to subrecipients did not contain all required items.

EFFECT

These required communications are intended to help subrecipients meet all their reporting requirements, and to meet all award terms. Subrecipients subject to Single Audits also need this information for their audits.

CONTEXT

The State Treasurer's Office was appropriated approximately \$123.3 million of funds from the Coronavirus Relief Fund (CRF) to be distributed to local governments. Almost all the funding was allocated to cities and counties based on salary and benefit expenses for licensed law enforcement officers since Federal guidance allowed for CRF funding to be used to reimburse law enforcement payroll costs.

The Director of the Office of Management and Budget sent out an email to the North Dakota Association of Counties and to the North Dakota League of Cities to be forwarded to city and county leaders that indicated such funding was available. A Certification Law Enforcement Payroll Reimbursement Form was attached to the email. The combined information provided in the body of the email and the certification form did not contain all required items.

Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the State Treasurer's Office:

- A) Communicate all required information of 2 CFR 200.332(a) to subrecipients.
- B) Develop procedures to ensure that all Coronavirus Relief Fund award information is communicated to subrecipients.

OFFICE OF STATE TREASURER RESPONSE

The Office of State Treasurer does agree with finding that we were not in compliance with Federal regulations related to providing required information to subrecipients of Coronavirus Relief Funds (CRF).

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2022-037
Federal Program:	Coronavirus Relief Fund
ALN #:	21.019
Federal Award Number(s) and Year(s):	SLT0013 and SLT0079 (2020)
Federal Agency:	U.S. DEPARTMENT OF THE TREASURY
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$4,000

CONDITION

The Office of State Treasurer over-reimbursed a county for law enforcement payroll by \$4,000. The amount of the overpayment is considered the total known questioned cost. This overpayment error, projected to the entire population, results in an additional possible error of \$29,603.

CRITERIA

According to the Federal Register dated January 15, 2021, The CARES Act provides that payments from the Fund may only be used to cover costs that:

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 31, 2021.

In addition, Federal Register indicates the Treasury has provided, as an administrative accommodation, that a State, local, or tribal government may presume that public health and safety employees meet the substantially dedicated test unless the relevant government determines that specific circumstances indicate otherwise. All costs of such employees may be covered using payments for services provided during the period that begins on March 1, 2020, and ends on December 31, 2021.

CAUSE

A county overstated its payroll costs by \$4,000 on the CARES Act Coronavirus Relief Fund Eligibility Certification Law Enforcement Payroll Reimbursement form submitted to the ND Office of Management and Budget. In addition, subrecipient monitoring procedures did not identify this subrecipient as high risk (steady monthly payroll and immaterial amount provided in total to the subrecipient).

State of North Dakota

Schedule of Findings and Questioned Costs

Fiscal Years Ended June 30, 2021 and 2022

EFFECT

The Office of State Treasurer was not in compliance with Federal regulations as an overpayment is not an allowable use of Federal funds.

CONTEXT

The Office of State Treasurer was appropriated Coronavirus Relief Fund monies to provide payments to cities, counties, and other political subdivisions. Such payments were primarily related to reimbursing cities and counties for law enforcement payroll costs incurred between March 1, 2020 to December 31, 2020. Our testing of Coronavirus Relief Fund program expenditures, identified one error from a sample size of 40 out of a possible 461 payments. The error was an overpayment to a county of \$4,000 for law enforcement payroll costs. This overpayment, projected to the entire population of \$123,322,297, resulted in an additional possible error of \$29,603. However, since the State's program ended December 31, 2020, the cities and counties with known or projected likely questioned costs would have until December 31, 2021, to incur allowable program expenditures to offset any questions costs. Where sampling was performed, the audit used a non-statistical sampling method.

IDENTIFICATION AS A REPEAT FINDING

Not a repeat finding.

RECOMMENDATION

We recommend the Office of State Treasurer:

- A) Request support from the county for allowable expenditures incurred during the period beginning March 1, 2020, and ending on December 31, 2021, to offset the overpayment; or
- B) Recoup the overpayment from the county and refund the Department of the Treasury.

OFFICE OF STATE TREASURER RESPONSE

The Office of State Treasurer does agree with finding that we were not in compliance with Federal regulations as an overpayment to the county for reimbursement for law enforcement payroll is not an allowable use of Federal funds.

See "Management's Response and Corrective Action" section of this report.

STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Years Ended June 30, 2022 and 2021

NOTE 1. PURPOSE OF THE SCHEDULE

The Schedule of Expenditures of Federal Awards (Schedule) is a supplementary schedule to the State's basic financial statements (BFS) and is presented for the purposes of additional analysis. The Schedule is required by Office of Management and Budget (OMB) Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

Federal Financial Assistance – Pursuant to the Single Audit Act of 1984 (Public Law 98-502), the Single Audit Act Amendments of 1996 (Public Law 104-156), and OMB Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, that non-federal entities receive or administer, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property interest subsidies, insurance, or direct appropriations. Accordingly, nonmonetary federal assistance, including food commodities, food stamps, vaccines, and donated surplus property is included in federal financial assistance and, therefore, is reported on the Schedule. Federal financial assistance does not include direct federal cash assistance to individuals. Contracts between the state and federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

Assistance Listing Numbers– Uniform Guidance requires the Schedule to show the total expenditures for each of the State's federal financial assistance programs as identified in the Assistance Listing Number (ALN). The ALN is a government-wide compendium of individual federal programs.

Each program included in the ALN is assigned a five-digit program identification number (ALN). The first two digits designate the federal agency and the last three digits designate the federal assistance program within the federal agency.

Federal financial assistance programs that have not been assigned an ALN are indicated using the federal agency's two digit code as the prefix and using a "U" followed by a two-digit number (e.g., U01, U02, etc.) for the last three digits. If the Federal program is part of the Research and Development (R&D) cluster, "RD" is used as the ALN extension.

Clusters of Programs – Closely related programs with different ALN's that share common compliance requirements are to be considered a cluster of programs. The only program clusters presented on the Schedule are those mandated by OMB in the 2 CFR Part 200, Appendix XI, *Compliance Supplement*.

STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Years Ended June 30, 2022 and 2021

B. Type A and Type B Programs

The Uniform Guidance establishes the levels of expenditures to be used in defining Type A and Type B federal financial assistance programs. Type A assistance programs for the State of North Dakota are those programs that exceeded \$20,050,456 in federal expenditures, distributions, or issuances for the two-year period ended June 30, 2022.

C. Reporting Entity

The Schedule includes all federal financial assistance programs administered by those State departments and entities included in the State's Annual Comprehensive Financial Report, except the departments audited by independent public accounting firms that file their own single audit with the federal clearinghouse. The departments not included in the Schedule are: Housing Finance Authority, Bank of North Dakota, Job Service North Dakota, and Public Finance Authority.

D. Basis of Accounting

Federal financial assistance expenditures included in the Schedule are reported using the modified accrual basis of accounting, except for the following: colleges, universities, and enterprise entities reported expenditures on the accrual basis; the Adjutant General, Office of Administrative Hearings, Attorney General's Office, State Auditor's Office, Historical Society, Department of Human Services, Insurance Department, Department of Labor, Legislative Assembly, Legislative Council, Office of Management and Budget, Department of Public Instruction, School for the Blind, Secretary of State and the State Treasurer's Office reported expenditures on the cash basis.

Indirect Costs – The State has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance except for the following four agencies:

Department of Veterans Affairs
Aeronautics Commission
State Auditor's Office
Valley City State University

Matching Costs – The Schedule does not include matching expenditures.

Nonmonetary Assistance – The Schedule contains values for several nonmonetary assistance programs. The Commodities and Vaccine programs are presented at the federally assigned values of the products distributed by the state. The Surplus Property program is presented at the fair market value of property received. The fair market value was estimated to be 23.34% of the property's original federal acquisition value.

Loan and Loan Guarantee Programs – Information on federal loan and federal loan guarantee programs is included in the Notes to the Schedule instead of on the Schedule itself.

STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Years Ended June 30, 2022 and 2021

Federal Transactions Between State Entities – Some state entities transfer federal assistance to other state entities (i.e., a pass-through of funds by the primary recipient state entity to a subrecipient state entity). In this case, the expenditures are recognized by the primary state entity on the Schedule of Expenditures of Federal Awards. Purchases of services between state entities using federal moneys are reported as expenditures by the purchasing entity and as revenues for services rendered by the providing entity.

Supplemental Nutrition Assistance Program (SNAP) Expenditures – The Supplemental Nutrition Assistance Program (SNAP) is presented at the dollar value of food stamp electronic benefit transfers authorized and used by recipients.

North Dakota Department of Emergency Services – The FY22 SEFA for the NDDDES includes \$3,308,230 in expenditures under ALN #97.036 that are recognized FY22 but were incurred in prior years. Of this total \$1,531,588 were payments to subrecipients and were included in the payments to subrecipients column.

Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3. NONMONETARY ASSISTANCE INVENTORY

As described previously in Note 2, nonmonetary assistance is reported in the Schedule based on the amount disbursed. At June 30, 2022 and 2021, the inventory balances of nonmonetary assistance were as follows:

Nonmonetary Assistance	June 30, 2021	June 30, 2022
Food Commodities	\$ 1,629,671	\$ 1,563,454
Donated Surplus Property	2,474,267	2,500,972
Vaccines	10,092,649	9,395,546
Total Inventory Balance	<u>\$ 14,196,587</u>	<u>\$ 13,459,972</u>

NOTE 4. LOAN PROGRAMS

The state administers two loan programs with continuing compliance requirements other than Student Financial Aid. At June 30, 2022 and 2021, the amount of loans receivable for each loan program were as follows:

Loan Program	CFDA #	FY21	FY22
Community Development Block Grants/State's Program	14.228	\$ 2,258,018	\$ 2,061,364
HOME Investment Partnerships Program	14.239	10,281,776	0
Total Loans Receivable		<u>\$ 12,539,794</u>	<u>\$ 2,061,364</u>

STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Years Ended June 30, 2022 and 2021

The HOME Program was transferred to the North Dakota Housing Finance Agency in FY22.

NOTE 5. STUDENT FINANCIAL AID PROGRAMS

Expenditures as included on the Schedule of Expenditures of Federal Awards for student financial assistance programs include refunds to grantors, administrative expenses, collection costs, litigation costs, etc.

Advances to students, loans receivable, and federal capital contributions for applicable loan programs for the fiscal years ended June 30, 2022 and 2021 are identified below:

Student Financial Aid Program	ALN #	FY21	FY22
Loan Advances:			
Federal Direct Student Loans	84.268	\$ 160,035,117	\$ 155,249,170
Nurse Faculty Loan Program (NFLP)	93.264	0	50,402
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	105,000	152,748
Nursing Student Loans	93.364	447,161	612,189
Total Loan Advances		<u>\$ 160,587,278</u>	<u>\$ 156,064,509</u>
Loans Receivable:			
Federal Perkins Loan Program	84.038	\$ 15,443,807	\$ 10,037,901
Nurse Faculty Loan Program (NFLP)	93.264	92,603	121,193
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	244,543	381,276
Nursing Student Loans	93.364	2,468,995	2,643,283
Total Loans Receivable		<u>\$ 18,249,948</u>	<u>\$ 13,183,653</u>

Loan advances represent new loans made directly by the institution for the Perkins, Nursing, and Health Professions loan programs. The colleges and universities are responsible for completing portions of the loan application, verifying student eligibility, filing enrollment verification reports, refunding money to lenders, and disbursing loan checks received from the lending institutions for Federal Family Education Loans.

Loans receivables are shown at gross and are derived from the financial records of the applicable college or university.

State Auditor

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2021 and 2022

Department of Commerce

Finding: 2022-001

Department of Commerce Response/Corrective Action Plan:

The Department of Commerce agrees with this finding.

These grants were conducted outside of our normal scope of operations and new grant processes had to be designed and implemented to manage this grant programmatically and fiscally. These grant payments were paid by a batch file process through the Office of Management and Budget and not fiscally managed by the agency's fiscal department. The agency does not intend to manage grant processes programmatically or fiscally with these processes again.

Of the eight duplicate grant payments identified two of the payments were voided, two payments have been returned to the department and turned back to the Office of Management and Budget, and the remaining payments the department has either been in contact with the beneficiary on returning the funds or the beneficiaries have been turned over to the Attorney General's Office for further follow-up. The department will turn over the remainder of the beneficiaries to the Attorney's General's Office if payment is not made timely.

Contact Person Shawn Kessel, COO/Deputy Commissioner

Anticipated Completion Date There is no anticipated completion date for enhancing our internal controls to ensure duplicated payments are not made to the recipients of federal funds due to the fact the agency does not intend to manage a grant within our department programmatically or fiscally with these processes again.

Finding: 2022-002

Department of Commerce Response/Corrective Action Plan:

The Department of Commerce agrees with this finding.

The Department of Commerce utilized the funds made available to it by the 67th Legislative Assembly to accomplish the intent of said legislative body.

The Agency is working with the current legislative body and the North Dakota Office of Management and Budget to resolve this finding.

Contact Person: Shawn Kessel, COO/Deputy Commissioner

Anticipated Completion Date: On or before July 1, 2023

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2021 and 2022

Finding: 2022-003

Department of Commerce Response/Corrective Action Plan:

The Department of Commerce agrees with this finding.

The agency has attempted several times to obtain allowable expenditures under the fund with no cooperation from the beneficiary. The beneficiary was turned over to the North Dakota Attorney General Office on August 13, 2020, to recoup the grant award and refund the U.S. Department of the Treasury.

Contact Person: Shawn Kessel, COO/Deputy Commissioner

Anticipated Completion Date: December 2024 is the anticipated completion date for this finding as the beneficiary has been turned over to the North Dakota Attorney General's Office to recoup the grant award.

Finding: 2022-004

Department of Commerce Response/Corrective Action Plan:

The Department of Commerce agrees with this finding.

Risk assessments were not completed during the audit period because we were unable to go on site to assess the risk at each Community Action Agency due to the global pandemic and COVID-19 restrictions.

The Department of Commerce is in the process of implementing this recommendation as we are now able to perform onsite monitoring to assess the risk at each Community Action Agency due to COVID-19 restrictions having subsequently been lifted.

DHS acknowledges that the Department of Commerce subawards their pass-through Federal LIHEAP funds out to multiple Community Action Agencies and therefore, should be reported as subawards in the Federal Funds Accountability and Transparency Act (FFATA) reporting.

Going forward, the Department will coordinate with the Department of Commerce to ensure proper reporting of these subawards.

Contact Person: Rachel Iverson Schafer Director of Program Administration

Anticipated Completion Date: October 2023

Finding: 2022-015

Department of Human Services Response/Corrective Action Plan:

The Department agrees with the recommendation.

The Department will ensure eligibility workers are properly trained to determine and verify eligibility for households that are NOT vulnerable as they are receiving rent-free housing that includes the cost of fuel (for heating).

Contact Person: Rachel Iverson Schafer Director of Program Administration

Anticipated Completion Date: Update policy for FY2024 heating season and include in the FY2024 training. Updated policy by October 1, 2023. Training to be completed by October 29, 2023.

Finding: 2022-016

Department of Human Services Response/Corrective Action Plan:

The Department agrees with the recommendation.

The Department receives a monthly report of all payments made during the heating season. The report contains the case number, read/delivery date, and service code, allowing staff to identify potential duplicate payments. Staff will research potential duplicates, maintain a log and notes on each situation and any necessary follow-up with Human Service Zone eligibility workers.

The Department does allow a child to be in two separate cases at the same time due to joint custody arrangements. A SPACES system enhancement will be implemented in December 2022, providing a warning edit when adding an individual that is known in another LIHEAP case. The edit serves as a notification to eligibility workers to verify that joint custody is appropriate in the case and to alert them to instances of a duplicate child when they may not have been aware.

Contact Person: Rachel Iverson Schafer Director of Program Administration

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2021 and 2022

March 20, 2023

Page 5

Anticipated Completion Date: Effective January 18, 2023, the system will give a warning if a client is active in another case. This will give the worker an opportunity to research and use policy to determine which case(s) the client should be in.

Finding: 2022-017

Department of Human Services Response/Corrective Action Plan:

The Department disagrees with the recommendation.

NDVerify allows eligibility workers to search multiple interfaces/sources for all household members included in a LIHEAP case at the same time, however, the Department does allow for other means, such as hard copy verification from the applicant or a third-party, to support eligibility determinations.

It is important to note, since fully transitioning to SPACES, no errors have been noted.

Contact Person: Rachel Iverson Schafer Director of Program Administration

Anticipated Completion Date ND Verify will continue to be a source for workers to utilize. FY2024 LIHEAP training will continue to train on the value of using this interface.

Finding: 2022-018

Department of Human Services Response/Corrective Action Plan:

The Department of Human Services agrees with the recommendation.

The Department will ensure rent changes are accurately reflected in Service Now and therefore the monthly amount is calculated accurately. If a payment is issued in excess of what the household is eligible to receive, it is standard practice for DHS to request refunds or apply payments to future months of the renter's direct rental obligation or direct utility assistance (as per the state's program/policy manual).

Contact Person: Nikki Aden, Director Housing Stability

Anticipated Completion Date: Complete.

Finding: 2022-019

Department of Human Services Response/Corrective Action Plan:

The Department agrees with the recommendation.

Due to Medicaid continuous enrollment requirements ending on March 30, 2023, the SPACES system will be converted back to its normal rules and this issue should not happen again.

The Department will do a review of CHIP eligibility to ensure incorrect claims are identified and corrected. Claims paid in error will be adjusted to reflect the proper category of eligibility, so the applicable fund code is applied, which will apply the correct FMAP.

Contact Person: Erik Elkins, Assistant Director, Medical Services

Anticipated Completion Date: April 30, 2023

Finding: 2022-020

Department of Human Services Response/Corrective Action Plan:

The Department agrees with the recommendation.

These services were provided by a contracted vendor in two separate sites in different cities for over ten years. In October 2018, due to staffing performance concerns and licensing investigations, the state ended the contract with this vendor in one city. In April 2019 the vendor ended the contract in the second city. Three Requests for Proposals have been issued since that date and no proposals were received. Market research was conducted with several potential providers and due to lack of interest, capacity concerns, workforce issues as well as the effects of the COVID-19 pandemic, the department has been unable to meet the expenditure requirements. The Department has met several times with the Federal Substance Abuse and Mental Health Services Administration regarding this issue.

Currently the Department is requesting funding from the North Dakota Legislative Assembly to develop of a Pregnant and Parenting Women's Residential Treatment Program within the Department. If approved, the Department will work to secure locations and renovate spaces that is not allowable with the Federal Funds.

Contact Person: Lacresha Graham, Manager Addiction Treatment and Recovery Program and Policy

Anticipated Completion Date: September 2023

Finding: 2022-021

Department of Human Services Response/Corrective Action Plan:

The Department of Health and Human Services agrees with the recommendation.

The Department will run reports from AWARE quarterly to identify any payments made from the system that were charged to the incorrect period of performance.

Contact Person: April Haring, Program Accountant for Vocational Rehabilitation

Anticipated Completion Date: The Department began running the report in December 2022.

Department of Public Instruction
Finding: 2022-022

Department of Public Instruction Response/Corrective Action Plan:
We agree with the finding.

Currently, USDA and DOE sub-awards are reported after the obligation or sub-award has been approved by all parties according to the requirements established by FSRS's website.

The Block Award, or the federal award which reimburses for meals claimed, will be reported after the meals have been claimed in NDFoods and paid in Peoplesoft. NDDPI will report the payments already made for FY 2023 and will work with our NDIT programmers to allow us to create an auto-generated report from NDFoods that will upload into the FSRS website according to FSRS's template.

To enter expenditure data by month in FSRS, Awardees are encouraged to complete a template to upload the required data. Unfortunately, NDDPI is aware of an issue with this template caused by the need for a 4-digit extension number. The lack of 4-digit zip code extensions with our rural sub-recipients is responsible for throwing this error in the upload. To complete a successful upload, NDDPI will omit any sub-recipients missing the 4-digit zip code extension from the monthly data or template and add them to the report with a manual entry on the website.

The Director of CN and the CN Technology Coordinator will work with NDIT to program the needed reports from NDFoods. The Administrative Officer and the Account/Budget Specialist from the Fiscal Management office will be responsible for completing the upload and entering any manual data.

After we have a defined set of steps to follow, we will create a written process and edit as needed.

Contact Person

Linda Schloer, Director, Child Nutrition and Food Distribution Programs
Scott Egge, Technology Coordinator, Child Nutrition
Kim Vega, Administrative Officer III, Fiscal Management
Leon Rauser, Account/Budget Specialist, Fiscal Management

Anticipated Completion Date

Begin manual process procedure, 04/01/2023, enter sub-recipient data monthly from October 2022 forward until an automated process can be obtained.

Autogenerated process date is uncertain, NDDPI will work with NDIT to establish an automated process as soon as IT's schedule allows and testing is completed.

Audit Findings Corrective Action Plan

Finding: F22-1

The Office of Management and Budget (OMB) agrees with the recommendation. OMB will continue to train and work with the agencies to improve their understanding of the new accounting requirements for leases, as established in GASB 87. OMB will develop procedures to review the lease information input into the Lease Administration Module to ensure accounting entries are accurate.

Contact Person: Crystal Hoggarth, ACFR Accounting Manager

Anticipated Completion Date: 6/30/2023

Finding: 2022-034

OMB agrees with this finding and the auditor's recommendation. We agree with the auditor's finding that certain agency expenditures were not reported in the proper quarter and that quarterly reports did not reconcile to the state accounting system. However, the federal report was required to be submitted ten days after the close of the period. The state accounting system was not closed by the time the federal reports were required to be submitted. The U.S. Department of Treasury recognized this and directed reporting agencies to correct and revise prior submissions when each subsequent report was submitted. OMB made these revisions as required and all expenditures were reported appropriately as the final Coronavirus Relief Funds reports were submitted.

Although the CRF program is completed, in the future the Office of Management and Budget will review existing procedures to take whatever steps are reasonable to ensure federal reports are complete, accurate and reconcile to the state's accounting system.

Contact Person: Joe Goplin, Director of State Financial Services

Anticipated Completion Date: Not Applicable. The program is complete.

Finding: 2022-035

OMB agrees with this finding. The expenditures referenced in this audit finding were incurred by agencies prior to the period in which the federal funds were included in the quarterly expenditure reports for the State and Local Fiscal Recovery Fund. Because OMB is responsible for the state reporting under this program, it is necessary to maintain some level of control over these funds. Consequently, OMB manages the funds centrally and developed a process to reimburse agencies for their eligible expenditures once expenditures were incurred and agencies requested reimbursement. As a result, reimbursement from the state's allocation of SLFRF moneys always occurs after the agency expenditure. Funds are included in the federal report for the period in which reimbursement from the SLFRF occurs. In some cases, this results in the agency

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2021 and 2022

expenditure occurring in a period prior to the period covered under the quarterly SLFRF report in which the reimbursement is reported. However, until reimbursement occurs, the expenditure is charged to a funding source other than SLFRF. All expenditures reimbursed through SLFRF are included in federal reports for the period in which the reimbursement occurred.

The Office of Management and Budget does not feel a corrective action plan is necessary and plans to continue federal reporting based on the timing of reimbursed expenditures for the duration of the SLFRF reporting to ensure all expenditures of SFLRF funding are accurately included in reports covering the period of reimbursement.

OFFICE OF STATE TREASURER
Thomas Beadle, State Treasurer

Office of State Treasurer

Finding: 2022-0036

Office of State Treasurer Response/Corrective Action Plan:

The Office of State Treasurer does agree with finding that we were not in compliance with federal regulations related to providing required information to subrecipients of Coronavirus Relief Funds (CRF).

Corrective action planned:

1. The Office of State Treasurer will work with ND Office of Management and Budget (OMB) to communicate to subrecipients timely and create a template for future use that includes the required information that was missed as detailed on the schedule of federal findings and questions costs.
2. The Office of State Treasurer has discussed with OMB that the information will not be recommunicated to the subrecipients as OMB has been in contact with subrecipients in guiding them to necessary information and assisting with any needs. It has been determined that communicating the information retroactively would cause more confusion and issues among the subrecipients.

Bismarck, ND 58505

RE: Summary Schedule of Prior Audit Findings
North Dakota Single Audit Report
For Fiscal Years Ended June 30, 2022 and 2021

Dear Mr. Gallion:

In accordance with OMB's final guidance located in Title 2 of the Code of Federal Regulations, the state of North Dakota is responsible for follow-up and corrective action on all audit findings identified in the North Dakota Single Audit Report. As part of this responsibility, the state is required to prepare a summary schedule reporting the status of all audit findings included in the prior audit's schedule of findings and questioned costs relative to the federal awards. The Office of Management and Budget compiles this information on behalf of the state and oversees the implementation status of these audit findings.

Attached is the State of North Dakota's Summary Schedule of Prior Audit Findings for the two fiscal years ended June 30, 2022 and 2021. This summary identifies the implementation status of all prior audit findings, except for those findings that have been fully corrected, are no longer valid, or do not warrant further action on the part of the state.

Sincerely,

Joe Goplin
Director of State Financial Services

For the fiscal years ended June 30, 2022 and 2021
By State Agency

Finding 2020-006 Page D-16

Recurring: Year of initial finding was 2012 - 2011

CFDA # 93.767 U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
Centers for Medicare & Medicaid Services
Medicaid Cluster

Questioned Cost: Unknown

Recommendation: We recommend the Department of Human Services ensure the Program Integrity Unit fully executes their Audit Oversight policy.

Status: This recommendation was implemented. The Program Integrity Unit revised the language in the Audit Overview Oversight document to better reflect the new rehabilitation provider process. It is not a formal audit but rather an educational review process meant to assist the providers in billing correctly.
The Program Integrity Unit reassigned the layperson ambulance reviews to the Utilization Review team due to no longer having a layperson in the PIU. The PIU will pull the applicable claims data for the UR team to conduct the review. Prior to reassigning to the UR team, a temporary enrollment staff helped get the late ambulance claim reviews caught up.

Finding 2020-007 Page D-18

CFDA # 93.777 U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
93.778 Centers for Medicare and Medicaid Services
Medicaid Cluster

Questioned Cost: Unknown

Recommendation: We recommend the Department of Human Services ensure a confidentiality agreement is in place with Cotiviti in regards to National Correct Coding Initiative.

Status: This recommendation was implemented. An agreement between Cotiviti and the Department was signed 2/23/21.

Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services ensures SOC reports are obtained on all outside service organizations on a regular, consistent basis.
Status:	This recommendation was implemented. SOC reports have been obtained on all outside service organizations on a regular, consistent basis.

Finding 2020-009	Page D-21
Recurring:	Year of initial finding was 2018 - 2017
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services develop procedures to ensure required child care records are maintained by the child care provider.
Status:	This recommendation was implemented. Early Childhood Services has received Technical Assistance from the regional office (OCC) regarding childcare records. Their recommendations according to CCDF requirements, were to update our compliance checklist (see below) and to eliminate the childcare record (SFN 1426) which is not a required form. All specialists have been using the updated compliance checklist since May of 2021.

For the fiscal years ended June 30, 2022 and 2021
By State Agency

Finding 2020-010	Page D-23
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$34,782
Recommendation:	We recommend the Department of Human Services ensure that child care providers have met all necessary licensing requirements prior to issuing Child Care Assistance payments.
Status:	This recommendation was partially implemented. In June 2020 all Licensing Specialists reverted back to using the full-length Compliance Checklists to assure all Health and Safety standards are being met. In September 2020 DHS began the work of implementing a comprehensive Early Childhood Licensing database that will greatly improve the ability to properly license providers. The database will be live August 2022. In January 2022 Early Childhood Rules (NDAC) updated the definition of "application" for all license types: "Application" means all forms the department requires when applying or reapplying for a license.

Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services develop procedures to monitor and ensure the resolution of corrective orders including that resolution occurs within specified time frames.
Status:	This recommendation was not implemented due to staffing issues. The Department is working on developing procedures to monitor and ensure the resolution of correction orders within specific time frames. As part of the Early Childhood Services Redesign, all Licensing Specialists are assigned specific caseloads, which helps them keep track of any correction orders. The Licensing Specialists consistently follow up on all corrective orders by performing rechecks and collecting the appropriate paperwork and signatures as part of this process. All current provider files are now accessible by all Licensing Specialists, Licensing Supervisors and Licensing Administrators so Licensing Supervisors and Licensing Administrators can review current corrective orders. A new database is planned for August 2022 which will give notifications to the Licensing Specialists when a reinspection is necessary and notifications to the Licensing Supervisor if the reinspection is not done.

Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$1,347
Recommendation:	We recommend the Department of Human Services develop and implement procedures to detect and prevent duplicate and other improper payments from being issued under the Child Care Assistance program.
Status:	This recommendation was implemented. SPACES has validation checks in place to ensure payments do not exceed the state maximum rate. An additional warning message is in place and is received when a payment already exists for the child and provider for a service month and a new payment with the same criteria is entered. Workers are able to by-pass this warning message as there are instances where a second payment may be needed. A system enhancement went into SPACES in March 2022 so workers now receive a pop-up letting them know of an already approved payment.

Recurring:	Year of initial finding was 2008 - 2007
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$1,698
Recommendation:	We recommend the Department of Human Services: 1. Development and implement controls to ensure that all eligibility workers are collecting and maintaining all applicable information for Child Care Assistance eligibility determinations, and 2. Properly determine eligibility for individuals receiving Child Care Assistance and issue payments that comply with requirements set in the Code of Federal Regulations for Child Care Development Funds.
Status:	This recommendation has not been implemented. DHS provides policy and system trainings, tips and tricks and policy and processing reminders as needed through periodic statewide trainings, monthly newsletters and online help resources. This effort is done in collaboration with the Policy and System Support (PaSS) Training unit in Economic Assistance. The training unit will begin conducting CCAP New Worker Training annually beginning the summer of 2022. The training will cover all aspects of CCAP eligibility.

CFDA # 93.575 U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
93.596 Administration for Children and Families
CCDF Cluster

Questioned Cost: \$0

Recommendation: We recommend the Department of Human Services:
1. Update the licensing study to include requirements for all necessary health and safety standards for child care centers, self-declared, group, preschool and school-age providers, and;
2 Ensure providers meet all health and safety standards required to be licensed.

Status: This recommendation was implemented. As of May 2021, monitoring checklists do include all health and safety standards.

Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services perform annual unannounced inspections of self-declared child care providers in operation as required by the Code of Federal Regulations and Department policy.
Status:	This recommendation was partially implemented. As of May 2021, annual unannounced visits are completed consistently throughout the state. Self-Declaration Certificates are not approved unless an unannounced visit is completed and placed in the provider's file. The Child Care Licensing Database will be complete by August 2022. Once the database is complete all provider files will be on the database and dates for unannounced visits will automatically generate based self-declaration certification dates.

Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services perform effective monitoring procedures to ensure all functions of the Child Care Assistance program are properly completed including monitoring correction orders, completing unannounced visits, and properly licensing providers.
Status:	This recommendation was implemented. The quality assurance form SFN 116 was updated to ensure that the licensing supervisors were reviewing the licensing specialist. This form was used throughout the state in 2021. Supervisors reviewed Specialists during a home visit and a center visit, reviewed provider files to ensure all proper paperwork was in the file and filled out the quality assurance form and reviewed with the Specialist.

Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services ensure subrecipient risk assessments are used to determine the nature and extent of subrecipient monitoring.
Status:	This recommendation was implemented. The Child and Family Services (CFS) policy Foster Care Eligibility Quality Assurance Reviews 447-10-18 has been revised to accommodate the changes of the eligibility unit implementation and how to apply review for high risk of agencies. FCSEA Eligibility Unit continues to monitor overpayments and authorized payments to providers monthly. In addition, on December 27, 2021 (PI 21-26) was created to highlight the quality assurance phases (Phase 1: Initial eligibility, Phase 2: monthly payments, Phase 3: Peer File Review). The phases are detailed in the policy. The phases will ensure such decisions were made successfully by the assigned worker with secondary over sight by a lead worker and overall administration by the Children and Family Services Division. CFS will continue to engage in analysis and review as per established policy.

	20.509	Priority Safety Programs, Highway Planning and Construction, Formula
		Grants for Rural Areas and Tribal Transit Program

Questioned Cost: Unknown

Recommendation: We recommend the Department of Transportation identify annually, based on the subrecipient's fiscal year, all subrecipients that spent \$750,000 or more in Federal awards from all sources through developed certification procedures. We also recommend the Department of Transportation ensure the certification tracking method is completed, to ensure all required audits are completed within nine months of the subrecipient's fiscal year end, management decisions are issued within six months of receiving the audit report, and timely and appropriate correction action of all findings.

Status: The finding was implemented in accordance with the corrective action plan. NDDOT's Quality Assurance and Internal Review Division has implemented a continuous screening process for subrecipient audit reports and will be working with the program managers to ensure adequate tracking and enforcement of audit requirements and follow up on management decisions to ensure accountability of subrecipients with timely and appropriate corrective action.

Introductory Section

(This page left blank intentionally.)

December 16, 2021

To the governor, legislators and citizens of the state of North Dakota:

In accordance with North Dakota Century Code (NDCC) section 54-44-04(14), we are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the state of North Dakota for the fiscal year ended June 30, 2021. This report has been prepared by the Office of Management and Budget. The financial statements contained in the ACFR have been prepared in accordance with generally accepted accounting principles (GAAP) applicable to state and local governments, as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the state's management. To the best of our knowledge and belief, the information contained in the ACFR is accurate in all material respects, and reported in a manner that presents fairly the financial position and results of operations of the state's primary government and the component units for which it is financially accountable. All disclosures necessary to enable the reader to gain an understanding of the state of North Dakota's financial affairs have been included.

The state's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the U.S. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the costs of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

In compliance with state statute, the Office of the State Auditor audited the state's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the state for the fiscal year ended June 30, 2021 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and evaluating the overall financial statement presentation. Their examination was conducted in accordance with GAAP and the standards applicable to financial audits contained in *Government Auditing Standards* as published by the Comptroller General of the United States. The Office of the State Auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the state's financial statements for the fiscal year ended June 30, 2021, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The state of North Dakota is also required to undergo a single audit in conformity with the provision of the Single Audit Act Amendments of 1996 and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (contained in Title 2 U.S. Code of Federal Regulations Part 200). Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs, are included in a separately issued biennial single audit report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. This letter of transmittal is intended to complement the MD&A and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The state of North Dakota provides for a full range of services, including education, health and social services, highway maintenance and construction, law enforcement, judicial, public safety, business regulation, community and economic development, and natural resource development. The state's reporting entity reflected in the ACFR includes all the funds of the state as legally defined, as well as all of its component units in conformity with the requirements of GASB Statement No. 61. Statement No. 61 provides that the financial statements should emphasize the primary government and permit financial statement users to distinguish between the primary government and its component units. Consequently, the transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position. The state's reporting entity is described more fully in Note 1A to the basic financial statements.

The state operates through a biennial appropriation, which represents agency appropriations recommended by the governor and presented to the legislative assembly at the beginning of each legislative session. The budget is legally required to be adopted through passage of appropriation bills by the legislative assembly and signed by the governor. The governor has line-item veto powers over all appropriations subject to legislative override. Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action.

The state does not budget by fund nor does it formally budget revenues. The legal level of budgetary control is at the agency, appropriation authority and expenditure line-item level. The state's budgetary policies and procedures are further explained in Note 1D on the notes to the basic financial statements.

LOCAL ECONOMY

Although North Dakota's economy is increasingly diversified, the agricultural industry continues to play a key role in the state's economy. The North Dakota Agricultural Statistics report states: North Dakota led the nation in the production of all wheat, spring wheat, Durum wheat, all dry edible beans, pinto beans, canola, flaxseed, all sunflowers, non-oil sunflowers, rye and honey for 2020. North Dakota also ranked second in the production of black beans, navy beans, pink beans, small red beans, lentils and all dry edible peas.

The energy industry plays an important role in the state's economy. The development of wind and coal resources, the production of ethanol and bio diesel, and oil and natural gas extraction all contribute to the state's economy. North Dakota reached an all-time high for oil production which averaged over 1.52 million barrels of oil produced per day in November 2019. North Dakota's current crude oil production ranks third in the nation, behind first-ranked Texas and second-ranked New Mexico. Oil prices have rebounded since the crash at the end of fiscal year 2020 when North Dakota producers were receiving prices below \$15 per barrel. Prices are averaging around \$65 per barrel to start off the 2021-23 biennium which is above the estimated price of \$50 used for budgeting purposes.

According to the United States Census Bureau, the state's resident population for 2020 was approximately 779,000 people, which is an all-time high. Health care and social assistance jobs account for the highest percent of employment in the state. Other leading areas of employment are retail trade, accommodation and food services, educational services, construction and manufacturing. The unemployment rate for the state in September 2021 was 2.6%, compared to 4.6% for the U.S.

A listing of the state's 20 largest employers demonstrates the diversity of the economy. Top employers include: health care providers, educational services, social assistance, the U.S. military, manufacturers, financial and banking companies, U.S. postal service and retail companies.

Uncertainty within international markets, resulted in a decrease in exporting in North Dakota in 2020. The United States Census Bureau showed that North Dakota's exports were down overall by about \$1.8 billion for a total of \$5.2 billion in 2020. This represents a decrease of 25.6% over 2019.

LONG-TERM FINANCIAL PLANNING

The long-term financial plan for the state of North Dakota was outlined by Governor Burgum as part of the 2021-23 executive budget address, presented to the legislature in December 2020. The governor's long-term financial plan includes the following key components:-

- Limiting growth in general fund spending.
- Maintaining healthy reserves.
- Avoiding any tax increases.
- Investing in priorities, like technology, education, and behavioral health.
- Ensuring solvency for the state pension fund.

North Dakota is required by its constitution to have a balanced budget. However, ongoing revenues and ongoing expenses have not always been in balance. In those instances where ongoing revenues did not meet the obligations of ongoing expenses of state government, one-time transfers from accumulated reserves and fund balances were used to fill the gap. In nearly all cases, those accumulated reserves and fund balances were directly attributable to oil and natural gas extraction and production tax revenue. In the 2021-23 biennium executive budget, the governor laid out a financial plan that not only balanced ongoing revenues and expenses, but did so by adding transparency to the use of oil tax revenue. In the executive budget, the state general fund allocation of oil and gas taxes increased from \$400 million to \$500 million per biennium.

The legislature did not approve the proposed transfer of \$500 million per biennium from oil tax revenues to the general fund, opting to continue it at the level of \$400 million per biennium. The legislature instead chose to balance the general fund budget with transfers from accumulated oil tax revenues. Although this approach provides less transparency, it ensures overall revenue sources are adequate to fund ongoing government expenses. It provides a conservative approach to funding the budget as the accumulated balances transferred to the general fund are balances on hand at the start of the biennium and not dependent on forecasted tax revenues.

The state's rainy-day fund, the Budget Stabilization Fund, was nearly depleted during the 2015-17 biennium economic downturn. The fund has been refilled to the maximum balance allowed by law. Due to conservative budget management and strong revenues, the fund was not used during the COVID-19 pandemic which began during the 2019-21 biennium. A critical component of ensuring the long-term financial well being of the state of North Dakota is a well-funded Budget Stabilization Fund that provides a necessary buffer against volatile commodity prices that drive ups and downs in the state's economy.

Another component of the state's long-term financial plan is ensuring the solvency of the state's pension fund. The governor proposed restoring solvency to the fund through an increase in employer and employee contributions. The legislature did not endorse this proposal but recognized the need to address the state's unfunded pension liability through a study that will develop proposals for the 2023 legislature.

The backbone of the state's financial plan is a revenue forecasting process that is accurate, conservative, and credible. The state utilizes a Revenue Forecasting Advisory Committee, comprised of representatives of the major industries in the state and the legislative and executive branches of government, along with the expertise of a national economic forecasting consultant. With the assistance of these experts, the Office of State Tax Commissioner and Office of Management and Budget develop a conservative revenue forecast for use in the budgeting process.

The budgeting process begins with the development of a biennial budget proposal reflecting the governor's priorities for the next two years. The budget is submitted to the legislature for their consideration and eventual enactment. With a biennial budget cycle, each revenue forecast and budget proposal provides a three-year plan for the revenues and expenditures of state government.

RELEVANT FINANCIAL POLICIES

North Dakota's financial policies ensure that in the event of an economic downturn, North Dakota state government will be able to continue to provide its citizens with necessary services. Should North Dakota experience a significant revenue shortfall, the state is able to access funds in the budget stabilization fund.

North Dakota experienced a significant revenue shortfall during the 2015-17 biennium due to decreases in oil and agriculture prices, resulting in a transfer of nearly the entire balance of the budget stabilization fund to the general fund prior to June 30, 2017. The 2017 legislature established an ongoing allocation of \$75 million per biennium from oil and gas tax revenues to the budget stabilization fund. North Dakota Century Code requires the transfer to the budget stabilization fund of any end-of-biennium general fund balance in excess of \$65 million. Pursuant to Section 54-27.2-01, the fund is limited to no more than 15% of current biennium general fund appropriations. Any deposits or interest that would otherwise be deposited or retained in the fund must instead be deposited in the general fund once the maximum balance is reached. The current cap on the fund is \$752 million.

The 2019-21 biennium ended with the budget stabilization fund meeting the cap so no general fund transfer was made to the fund.

In addition to accessing the budget stabilization fund, in the event of an economic downturn the governor can reduce general fund expenditure authority uniformly across state agencies through a process known as allotment. In the event of an allotment, the foundation aid stabilization fund was established to protect the state school aid program. Dollars from this fund would replace the amount of general fund dollars allotted, thus K-12 education would not experience a reduction in funding. The passage of Measure 2 in the 2016 general election allowed money in the fund to be appropriated for education-related purposes. Funding for the foundation aid stabilization fund comes from 10% of oil extraction tax collections. The foundation aid stabilization fund is expected to have a June 30, 2023 balance in excess of \$397 million.

MAJOR INITIATIVES

Major initiatives proposed by Governor Burgum and approved by the legislature for the 2021-23 biennium include the following:

- Investing in infrastructure and other priorities.
- Supporting K-12 education.
- Investing in behavioral health issues.
- Investing in cybersecurity and upgrading technology.
- Maintaining reserves and the rainy-day fund.

INFRASTRUCTURE INVESTMENTS

The 2021-23 biennial budget includes funding to rebuild and repair roads throughout the state, for water supply and flood control and capital projects for state parks. Funding for infrastructure improvements includes the following:

- \$1.13 billion to rebuild and repair state highways.
- \$220.0 million for city road projects.
- \$145.5 million dedicated to the repair and rebuilding of county and township roads.
- \$7.9 million for projects across the state park system.
- \$540.8 million for water-related projects, including \$125.0 million for water supply, \$59.6 million for rural water supply, \$48.0 million for flood control, \$14.2 million for general water projects, \$148.5 million for state-owned water projects and \$6.0 million for other new projects.

TECHNOLOGY UPDATES

The governor's budget included support for replacing outdated technology to better serve the citizens of the state and provide the most efficient use of resources.

- \$111.2 million for technology projects across numerous agencies for the 2021-23 biennium.
- \$19.5 million to enhance the state's cybersecurity program; and
- 29.0 FTE to support the growing need for cybersecurity.

EDUCATION

K-12 education initiatives include the following:

- \$2.13 billion in state funding for K-12 schools through integrated funding formula;
- \$58.1 million to assist districts in the provision of transportation services;
- \$27 million to go towards special education contracts.

Higher Education initiatives include the following:

- \$11.2 million in state funding to continue the North Dakota Higher Education Challenge Grant Program, to encourage philanthropy by providing a state match for private contributions to the state's colleges and universities.
- \$64.9 million to be invested for capital projects across the system, with funding from revenue bonds, private donations, capital building funds and carryover authority.

RESERVES

It is anticipated that by June 30, 2023, there will be a total ending balance of approximately \$1.63 billion in the budget stabilization fund, foundation aid stabilization fund, strategic investment and improvements fund, and tax relief fund. The general fund budget for the 2021-23 biennium totals \$4.99 billion.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the state of North Dakota for its ACFR for the fiscal year ended June 30, 2020. This was the 30th consecutive year that North Dakota has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the state of North Dakota received the GFOA's Award for Distinguished Budget Presentation for its 2021-2023 budget. In order to qualify for the Distinguished Budget Presentation Award, the state's budget document was judged to be proficient in several categories, including policy documentation, financial planning and organization.

This report was prepared by staff members of the Fiscal Management Division of the Office of Management and Budget. Their dedication and efforts are greatly appreciated. We also extend our gratitude to the numerous individuals from virtually all the state agencies and institutions, especially the Office of the State Auditor, for their assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Morrisette", with a stylized, flowing script.

Independent Auditor's Report

The Honorable Doug Burgum, Governor
of the State of North Dakota

Members of the Legislative Assembly
of the State of North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the following state entities and discretely presented component units:

Addiction Counselor Internship Loan Program	Job Service North Dakota
Bank of North Dakota	Mandan Remediation Trust
Beginning Farmer Revolving Loan Fund	Medical Facility Infrastructure Loan Program
Building Authority	PACE and AG PACE Funds
College SAVE	Public Employees Retirement System
Community Water Facility Loan Fund	Public Finance Authority
Comprehensive Health Association of North Dakota	Rebuilders Loan Program
Covid Pace Recovery Program	Retirement and Investment Office
Department of Trust Lands	School Construction Assistance Revolving Loan Fund
North Dakota Development Fund	Small Employer Loan Fund
Guaranteed Student Loan Program	State Fair Association
Housing Finance Agency	State Historical Society of North Dakota Foundation
Housing Incentive Fund	Student Loan Trust
Infrastructure Revolving Loan Fund	Workforce Safety and Insurance
Innovation Technology Fund	

The financial statements of the above entities reflect total assets, net position or fund balance, and revenues of the government-wide financial statements and fund financial statements as follows:

	<u>Percent of Assets</u>	<u>Percent of Net Position or Fund Balance</u>	<u>Percent of Revenues</u>
<u>Government-Wide Financial Statements</u>			
Governmental Activities	27%	29%	22%
Business-Type Activities	81%	65%	60%
Aggregate Discretely Presented Component Units	100%	100%	100%
<u>Fund Financial Statements</u>			
Major Governmental Funds			
General Fund	1%	0%	0%
Federal Fund	2%	93%	1%
State Special Revenue Fund	76%	79%	55%
Major Enterprise Funds			
Bank of North Dakota	100%	100%	100%
Housing Finance Agency	100%	100%	100%
University System	0%	0%	0%
Workforce Safety and Insurance	100%	100%	100%
Unemployment Compensation	100%	100%	100%
Aggregate Remaining Fund Statements	99%	100%	87%

The financial statements for these entities were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for these entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the North Dakota University System's discretely presented component units (foundations) were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but

not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The actuary for the North Dakota Public Employees Retirement System has determined that the Fund's unfunded actuarial accrued liability is approximately \$1.44 billion as of July 1, 2021. The funding for the actuarial accrued liability is predicated on employer and employee funding rates mandated by North Dakota statutes. The actuary has determined that the current statutory rates are insufficient compared to the actuarially determined contribution rate needed to fund the actuarial accrued liability. Note 6 to the basic financial statements identifies the net pension liability as calculated using GASB 67 and 68 requirements. Our opinion is not modified with respect to this matter.

As discussed in Note 17 to the basic financial statements, the Bank of North Dakota elected to present an unclassified statement of net position because current assets were not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Our opinion is not modified with respect to this matter.

As described in Note 21 to the basic financial statements, the State of North Dakota adopted the provisions of GASB 84 *Fiduciary Activities*, GASB 89 *Accounting for Interest Cost Incurred Before the End of a Construction Period*, GASB 90 *Majority Equity Interests*, and GASB 98 *The Annual Comprehensive Financial Report*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules and related reconciliations and notes, information about the state of North Dakota's pension plans and other post-retirement benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the

United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of North Dakota's basic financial statements. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections, as listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2021 on our consideration of the State of North Dakota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of North Dakota's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of North Dakota's internal control over financial reporting and compliance.

Joshua C. Gallion
State Auditor
Bismarck, North Dakota
December 16, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the State of North Dakota's (the State's) Annual Comprehensive Financial Report presents a discussion and analysis of the State's financial performance, providing an overview of the activities for the fiscal year ended June 30, 2021. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Government-wide:

Total assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at fiscal year-end by \$29.6 billion (reported as net position), an increase of \$3.5 billion from the previous year. The net position of governmental activities increased by 14.6% while the net position of the business-type activities showed an increase of 7.8%.

As a result of implementing GASB Statement 68, *Accounting and Financial Reporting for Pensions*, the State recorded \$31 million net pension asset, \$1 billion deferred outflows of resources, \$1.7 billion net pension liability, and \$268.7 million deferred inflows of resources for the primary government. The State increased its net pension liability by \$1.07 billion during the year. The increase in the pension liability is due to the fact that beginning in FY21 the state is no longer on a path to fully fund the pension plan. As long as the state is not on a path to fully fund the pension plan we are required to use a blended discount rate instead of our longer term rate of return.

Fund Level:

As of the close of fiscal year 2021 the State's governmental funds reported combined ending fund balances of \$19.7 billion, an increase of \$3.2 billion. Of this amount, \$144.1 million is non-spendable, primarily for Permanent Trust Funds. Spendable fund balance consists of \$7.5 billion restricted for specific purposes such as common schools, highway projects, and state education aid, \$2 billion committed and \$386.3 million assigned for specific functional expenditures such as education and health and human service operations, with the unassigned fund balance making up the remaining amount of \$9.7 billion, which is primarily made up of the legacy fund with a balance of \$8.2 billion.

The enterprise funds reported net position at year-end of \$4.9 billion, an increase of \$358.1 million during the year.

Long-term Debt:

The State's total debt (bonds, certificates of participation, and notes payable) decreased approximately 13.4% during the fiscal year to \$2.1 billion, a decrease of 329 million, which represents the net difference between new issuances and payments. During the year the State issued \$386.6 million in bonds, \$2.7 thousand in certificates of participation, and \$1.14 billion in notes.

More detailed information regarding these activities and funds is included in Note 3L.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the State's basic financial statements, which consists of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Statements

The government-wide financial statements provide a broad view of the State's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the State's financial position, which assists in assessing the State's economic condition at the end of the fiscal year. These statements include all non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents all of the State's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the two reported as "net position". Over time, increases and decreases in net position is an indicator of whether the State's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both statements report three activities:

Governmental Activities – The activities in this section are primarily supported by taxes and intergovernmental revenue. Most of the State's basic services, such as education, health and human services and transportation, are reported under this category.

Business-type Activities – These functions are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The Bank of North Dakota, Housing Finance Agency and the University System are examples of the State's business-type activities.

Discretely Presented Component Units – These are operations for which the State has financial accountability but they have certain independent qualities as well. These entities operate similar to private- sector business and the business-type activities described above. The State has 4 discretely presented component units. Financial information for these entities is presented separately from the financial information presented for the primary government.

The government-wide financial statements can be found immediately following this discussion and analysis.

Fund Financial Statements

A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

The basic fund financial statements begin after the Component Unit FASB basis statements and provide more detail about the major individual funds. The State's funds are divided into three categories – governmental, proprietary, and fiduciary. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental funds - Most of the State's basic services are reported in the governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on the near-term inflows and outflows of spendable resources. They also focus on the balances left at year-end that are available for future spending. Such information may be useful in evaluating whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

Governmental funds include the General Fund, special revenue, debt service, and permanent funds. The State has several governmental funds, of which three (3) are considered major individual funds. These three are the General Fund, the Federal Fund, and the State Special Revenue Fund. Each of these major funds is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance. The remaining governmental funds are combined in a single aggregated column on the basic fund statements. Individual fund data for each of these non-major governmental funds can be found in the other supplementary information section of this report.

Proprietary funds – Services for which the State charges customers a fee are generally reported in proprietary funds. The state maintains two different types of proprietary funds, enterprise funds and internal service funds. Enterprise funds report activities that provide supplies and services to the general public. Internal service funds report activities that provide supplies and services for the State's other programs and activities. Like the government-wide statements, proprietary funds use the accrual basis of accounting. Although the basis of accounting is the same for the government-wide and proprietary fund statements, reconciliation between these statements is presented because of the allocation of internal service funds' net income.

The State has four (4) major enterprise funds: The Bank of North Dakota, Housing Finance, University System, and Workforce Safety and Insurance. These four funds are each presented in separate columns on the basic proprietary fund financial statements. The remaining enterprise funds are combined in a single total column on these statements. Individual fund data for each of the non-major enterprise funds can be found in the other supplementary information section of this report.

The State's internal service funds are reported as governmental activities on the government-wide statements, because the services they provide predominantly benefit governmental activities. The State's four (4) internal service funds are reported on the basic proprietary fund financial statements in a single combined column. Individual fund data for the internal service funds is provided in the form of combining statements found in the other supplementary information section of this report.

Fiduciary funds - The State acts as a trustee, or fiduciary, for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These funds, which include pension (and other employee benefit) trust, investment trust, private-purpose trust, and agency funds, are reported using accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because the State cannot use these assets to finance its operations.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements. The notes to the financial statements can be found immediately following component units' financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes a budgetary comparison schedule, which includes reconciliation between the statutory fund balances for budgetary purposes and the fund balances for the General Fund, the Federal Fund and the State Special Revenue Fund as presented in the governmental fund financial statements. In addition, the required supplementary information includes up to ten years of information on the State's pension and Other Post Employment Benefit (OPEB) plans, including schedules on the employer proportionate share of the net pension liability and net OPEB liability, changes in the net pension liability and OPEB liability, and employer contributions.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, internal service, and fiduciary funds. These funds are added together, by fund type, and presented in single columns in the basic financial statements.

FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE

As noted previously, net position may serve over time as a useful indicator of a government's financial position. The State's combined net position (governmental and business-type activities) totaled \$29.6 billion at the end of fiscal year 2021. Net position increased \$3.5 billion from the prior fiscal year.

State of North Dakota's Net Position (Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2021	2020	2021	2020	2021	2020
Current and Other Assets	\$ 22,565,246	\$ 18,654,826	\$ 12,569,352	\$ 11,623,390	\$ 35,134,598	\$ 27,051,115

Deferred Inflows of Resources	204,200	252,367	69,260	96,983	273,461	349,350
Net Position						
Net Investment in						
Capital Assets	5,558,197	5,427,965	1,339,863	1,243,098	6,898,060	6,671,063
Restricted	7,676,069	6,543,042	1,670,770	1,374,339	9,346,838	7,917,381
Unrestricted	11,474,698	9,578,050	1,905,178	1,952,266	13,379,876	11,530,316
Total Net Position	\$ 24,708,964	\$ 21,549,057	\$ 4,915,810	\$ 4,569,703	\$ 29,624,775	\$ 26,118,760

The largest component (45%) of the State's net position is unrestricted net position. Unrestricted net position may be used at the State's discretion, but often have limitations on use based on State statutes. Restricted net position makes up thirty-two percent (32%) of the state's net position. Restricted net position represents resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used.

Twenty-three percent (23%) of the State's net position reflects its investment in capital assets such as land, buildings, equipment, intangibles (software), and infrastructure (roads, bridges and other immovable assets) less any related debt outstanding that was needed to acquire or construct the assets. The State uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The condensed financial information below was derived from the government-wide Statement of Activities and reflects how the State's net position changed during the fiscal year:

* More detailed information regarding the prior period adjustments can be found in Note 2.

Governmental Activities

Governmental Activities increased the State's net position by \$3.1 billion. Revenues increased 48.8%, with the largest dollar increases in the State's revenues for fiscal year 2021 coming from operating grants and contributions with an increase of \$2.1 billion. This increase is mainly due to an increase in federal grants to the state due to the Covid-19 pandemic. The State did also see some slight increases in Individual and Corporate income taxes due to a change in the due date for 2019 tax returns from April 15th to July 15th, 2020 as a federal and state response to the global pandemic. This tax revenue would have been less in FY20 and made up for in FY21. We saw decreases in Sales and Use Tax as well as Oil, Gas and Coal Taxes. These decreases were primarily due to the nationwide recession caused by the global pandemic.

Expenses for governmental activities remained relatively consistent.

The following chart depicts revenues of the governmental activities for the fiscal year:

The chart on the following page depicts expenses of the governmental activities for the fiscal year:

Business-type Activities

Net position of the business-type activities increased by \$357.4 million during the fiscal year.

Workforce Safety and Insurance's (WSI) net position increased \$225.4 million. Fiscal year 2021 shows decreases in earned premiums, incurred losses, and the number of filed claims. There was a slight increase in the number of policy holders. Policyholder count increased by 204 policies in fiscal year 2021. WSI's financial position remains stable. Earned premium net of discounts and reinsurance totaled \$176 million, \$221 million, and \$238 million for fiscal years 2021, 2020, and 2019, respectively. Total claims filed for fiscal year 2021 is 17,845. This is a decrease of 968 from the previous fiscal year 2020 total of 18,813. A dividend credit of 50% was declared in fiscal year 2021, 2020 and 2019. Net earned premium from fiscal year 2021 of \$176 million is down from the fiscal year 2020 total of \$221 million. The strong investment return in the past three years contributed to the positive change in net position.

The Bank of North Dakota net position increased \$17.6 million. The loan portfolio increased by \$205 million to \$4.6 billion at December 31, 2020. Interest-bearing deposits totaled \$5 billion at December 31, 2020 compared to \$4.5 billion at December 31, 2019. The increase in 2020 was primarily attributable to \$1.25 billion of Federal CARES Act dollars, higher bank deposits related to PPP loans and government issued COVID-19 relief payments. The Bank has a tier one capital leverage ratio of 11.97% as of December 31, 2020. The leverage ratio is a measure of strength. Well capitalized per federal regulations requires this percentage to be a minimum of 5%.

The University System's net position increased \$90.5 million. The increase in current assets is mainly attributed to increases in cash of \$55.3 million, current investments of \$12.6 million and grants and contracts receivable of \$44.7 million. Capital assets also increased due to several different building projects going on at the campuses. Grants and contracts revenue (operating revenues) increased mainly due to an increase in federal grants and contracts revenue associated with the unmanned aircraft system program at UND and an overall increase in grant revenue at NDSU spread over various programs. Non-operating federal grants and contracts increased as a result of the Covid related Higher Education Emergency Relief Act (HEERF) grants received by the institution.

Housing Finance net position increase of \$6.2 million as a result of the year's program operations and financing activities. Operating revenues in FY21 were down as a result of lower mortgage and investment rates than in prior years. In addition, prepayments on the outstanding mortgage loans have been at a very high rate. Between new loans funded and older loans paying off, the agency's portfolio stayed fairly even from last year to this year, however the interest rates are substantially lower on the new loans than those that are paying off early. Operating expenses were up from prior year operating expenses as a result of higher pension expense, bond admin expenses and higher SRP amortization expenses than incurred in the prior year.

Unemployment Compensation net position decreased by \$961.9 thousand. As of June 30, 2021 charges for service revenue increased by \$225.83 million over the prior year due to an increase of \$114.77 million in Federal Benefit Reimbursements for the Federal UI programs in the CARES Act. These are offset by a \$24.08 million decrease in Unemployment Insurance contribution, an increase of \$.42 million Unemployment Insurance Overpayments interest, and an increase of \$19.56 million increase of unemployment insurance relief funding for certain non-profits and state/local governments. The unemployment insurance contribution decrease is due to a decrease in the average unemployment insurance tax rates to employers. As of June 30, 2021 operating grants decreased by \$28 million due in large part due to a decrease in transfer of funds from the Coronavirus Relief Fund to mitigate the impact on employers for increased unemployment insurance claims due to the COVID-19 pandemic.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

Governmental Funds

As the State completed the year, its governmental funds reported combined fund balances of \$19.7 billion, an increase of \$3.2 billion from the prior fiscal year. Of the \$19.7 billion in net position, \$144.1 million is non-spendable, \$7.5 billion is restricted, \$2 billion is committed, \$386.3 million is assigned, and \$9.7 billion is unassigned. These fund balance categories are a result of GASB Statement 54. Note 1U provides definitions for these categories. The following analysis of funds provides the explanation for the overall change in net position for governmental funds.

The General Fund is the chief operating fund of the State. At the end of current fiscal year, unassigned fund balance of the General Fund was \$9.7 billion, non-spendable was \$7.6 million, and \$1 billion was committed for expenditure by various governmental functions.

Total General Fund balance increased during the fiscal year by \$2 billion. Revenues increased approximately 27.2%, due to an increase in interest and investment income of \$1.3 billion. This increase was primarily due to an increase in investment returns for the legacy fund which is part of the general fund in the governmental fund statements. The legacy fund was created by a constitutional amendment in 2010. The amendment provides that 30% of oil and gas gross production and oil extraction taxes on oil produced after June 30, 2011, be transferred to the legacy fund. The State Investment Board is responsible for the investment of the fund. This fund continues to grow with a current fund balance of \$8.2 billion. The state also saw increases in individual and corporate income taxes and decreases in sales and use taxes and oil, gas and coal taxes as previously discussed in the Governmental Activities Net Pension increase explanation.

General fund expenditures decreased by \$169.3 million or 8.3% with the largest decrease in Health and Human Services. However, total expenditures for the general fund and special revenue fund remained relatively consistent from FY20. The decrease in Health and Human Services was due to reallocating more expenses to the special revenue fund in the second year of the biennium as their overall expenses had a slight increase from FY20.

The State Special Revenue ending fund balance increased by \$1.1 billion resulting in \$8.8 billion fund balance. Revenues increased by 78.2% in the state special revenue fund primarily due to an increase in interest and investment income. This increase is primarily due to increased investment income as a result of a strong market rally after the country reopened following COVID restrictions as we saw with investments previously discussed in the general fund. Special fund expenditures increased by 11.2% primarily due to a increase in Health and Human Services spending. Increases to the special fund expenditures were previously discussed under the general fund expenditures.

The Federal Fund balance of \$31.9 million consists primarily of non-spendable items such as prepaids and inventory. Revenues increased by \$1 billion and expenditures increased by \$1 billion primarily due to the increase in federal funding for the global pandemic. The federal fund balance increased by \$20.0 million due to additional funding for the state to combat the global pandemic.

Proprietary Funds

The State's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The increases in the net position of the proprietary funds are discussed under "Business-type Activities" above.

General Fund Budgetary Highlights:

The general fund budgetary revenues and other financing sources were \$5.8 billion or 19.3% higher than the final budget, primarily because of actual legacy fund transfer was more than the final budgeted amount. The State has a biennial appropriated budget. The fiscal year ending June 30, 2021, was the second year of the 2019-21 budget cycle. The original budget increased \$251.9 million. The increases to the beginning appropriated budget are from authorized carryover of general fund appropriation authority and legislative changes of which the larger ones are noted below.

Several state agencies were authorized by appropriation laws to carryover a portion or all of their general fund appropriation for various purposes, including the University System, \$55.1 million, the Department of Human Services, \$5.8 million, Secretary of State, \$1.3 million, the Department of Commerce, \$30.8 million, the Parks and Recreation department, \$2.1 million, the Department of Transportation, \$13 million, Legislative Council and Assembly, \$4.7 million, and Office of Management & Budget, \$3.6 million.

Of the \$6.4 million in capital construction carryover dollars, \$5.5 million was for the Department of Human Services and \$804 thousand for the Department of Transportation.

During the 2021 Legislative Session the legislature increased budgets by \$123.2 million in several agencies for different reasons. The Office of Management and Budget received an increase in general fund budget of \$100 million in order to transfer \$100 million to the highway fund. The highway fund was to use the \$100 million for the purpose of matching federal discretionary funds received in excess of the regular federal funding amounts. The Bank of ND received an increase in general fund budget of \$17.5 million for a loan repayment for the Theodore Roosevelt presidential library endowment fund. Other increases were the Tax Commissioner of \$4 million for the homestead tax and disabled veterans tax credit and Mayville State of \$1.6 million for a natural gas boiler project.

There were no expenditures in excess of general fund authority.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets: At the end of the fiscal year 2021, the State had invested \$6.9 billion, net of accumulated depreciation, in a broad range of capital assets. Depreciation charges for this fiscal year totaled \$283 million.

(Net of Depreciation, Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2021	2020	2021	2020	2021	2020
Land and Land Improvements	\$ 162,417	\$ 163,127	\$ 25,710	\$ 25,552	\$ 188,127	\$ 188,679

Total	\$ 5,672,796	\$ 5,462,055	\$ 1,831,512	\$ 1,683,761	\$ 7,504,308	\$ 7,145,816

* Beginning capital asset balances were adjusted for certain reclassifications for FY2020 in the Governmental activities.

The total increase in the State's investments in capital assets for the current fiscal year was 5% in terms of net book value. However, actual expenditures to purchase or construct capital assets were approximately \$2 billion for the year. A major portion of this amount was used to construct or reconstruct assets for highway construction. More detailed information on the State's capital assets can be found in Note 3H to the financial statements.

Long-term Debt: Article X, Section 13 of the Constitution of North Dakota provides that the state may issue or guarantee the payment of bonds provided that all bonds in excess of \$2 million are: secured by first mortgage upon property and no further indebtedness may be incurred by the state unless evidenced by a bond issue; authorized by law, for a certain purpose; provisioned to pay the interest semiannually, and pay the principal within 30 years. The law authorized the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond. The State has no general obligation bonds outstanding at June 30, 2021.

The State does have a number of revenue bonds outstanding at June 30, 2021. Current state statutes empower certain state agencies and the Building Authority, a component unit of the State, to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on revenue bonds issued by state agencies is payable from designated revenue sources. The Building Authority's bonds generate revenue to finance the construction and improvements of State buildings. Revenues derived from leases on the buildings fund the debt service requirements.

The Bank of North Dakota has advances from the Federal Home Loan Bank in the amounts of \$186 million. The advances have a fixed rate of interest, ranging from 2.22 % to 5.56 %.

More detailed information regarding the State's long-term obligations is presented in Note 3L to the financial statements.

State of North Dakota's Outstanding Debt
(Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2021	2020	2021	2020	2021	2020
Revenue Bonds	\$ 112,488	\$ 19,730	\$ 1,692,519	\$ 1,666,599	\$ 1,805,007	\$ 1,686,329

Notes Payable	16,405	14,817,054	198,740	648,266	215,145	663,083
Total	<u>\$ 128,893</u>	<u>\$ 34,547</u>	<u>\$ 1,995,382</u>	<u>\$ 2,418,985</u>	<u>\$ 2,124,275</u>	<u>\$ 2,453,532</u>

The State's total debt decreased approximately 13.4% during the current fiscal year.

ECONOMIC CONDITION AND OUTLOOK

Moody's Analytics recently completed an analysis of the North Dakota economy for its *Précis U.S. State* October 2021 publication. The report depicts an economy in recovery, still coming out of the COVID-19 recession. The progress in the oil industry will help drive the recovery forward.

North Dakota's outlook is linked tightly to two major industries, energy and agriculture. The rebound in oil prices has stimulated oil drilling and led to high productivity per rig in the Bakken where the current active rig count is 29. The most recent North Dakota average price per barrel of oil was at \$64.97, which is above the estimated price of \$50.00 used for budgeting purposes. On the agriculture side, the transportation woes across the country have had an impact, but higher crop prices and the reopening of global chains will lead to increased farm income.

North Dakota's employment growth has slowed and continues to lag the national pace, but the pace is expected to pick up and match the national average by the end of the year. The unemployment rate in North Dakota hit a high in 2020 that hadn't been seen in decades, but is currently at 3.8% and is expected to continue to improve. Even though there has been a decline in the labor force the expectation for above-average population growth will help alleviate worker supply issues.

Per capita income for North Dakota remains slightly ahead of the national average while the median household income currently lags and saw a 9% decrease from 2020. For 2021, median household income in North Dakota was at \$63,657 compared to \$67,521 for the U.S. Per capita income for 2020 was \$61,530 for North Dakota, while \$59,510 for the U.S.

CONTACTING THE STATE'S OFFICE OF FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. Questions about this report or additional financial information should be addressed to the State of North Dakota, Office of Management and Budget, 600 E. Boulevard, Dept. 110, Bismarck, ND 58505.

STATE OF NORTH DAKOTA

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position

June 30, 2021

Total Fund Balances-Governmental Funds \$ 19,719,275,485

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets is \$9,489,750,758 and the accumulated depreciation is \$3,909,941,289. 5,579,809,469

Other assets not available in the current period and therefore are not reported in the governmental funds:

Net Pension Asset 31,122,000

Deferred outflows of resources are not reported in the governmental funds:

Loss on bond refunding	1,189,000	
Related to OPEB	10,926,762	
Related to pensions	755,188,351	
Total Deferred Outflows		767,304,113

Some of the state's revenues will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are unavailable in the funds. 120,665,362

Internal service funds are used to charge the costs of certain activities to individual funds.

The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the statement of net position. 89,574,280

Deferred inflows of resources are not reported in the governmental funds:

Unpaid penalty and interest	893,634	
Related to OPEB	(2,832,236)	
Related to pensions	(189,515,167)	(191,453,769)

Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported as liabilities in the funds. Those liabilities consist of:

Bonds Payable	(112,488,000)	
Notes Payable	(16,405,610)	
Accrued Interest on Long-Term Liabilities	(471,300)	
Compensated Absences	(49,117,376)	
Intergovernmental Payable	—	
Capital Leases	(1,320,264)	
Other Post-employment Benefit Obligation	(29,934,733)	
Net Pension Liability	(1,196,238,886)	
Claims and Judgments	(1,353,479)	
Total Long-Term Liabilities		(1,407,329,648)

Net Position of Governmental Activities \$ 24,708,967,292

The Accompanying Notes are an Integral Part of the Financial Statements

The Accompanying Notes are an Integral Part of the Financial Statements

STATE OF NORTH DAKOTA

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Fiscal Year Ended June 30, 2021

Net Change in Fund Balances-Total Governmental Funds \$ 3,207,961,022

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	397,294,269	
Depreciation expense	(184,444,075)	
Excess of capital outlay over depreciation expense		212,850,194

In the statement of activities, only the gain(loss) on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the assets sold. (2,340,006)

Donations of capital assets increase net position in the statement of activities but do not appear in the governmental funds because they are not financial resources. 37,195

Some of the assets acquired this year were financed through capital leases. The amount financed is reported in the governmental funds as a source of financing. However, capital leases are reported as long-term liabilities in the statement of net position. (2,838,150)

Based on receipt dates, some revenues are not considered "available" revenues and are unavailable in the governmental funds. Unavailable revenues increased/decreased by this amount this year. 6,185,333

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of internal service funds is reported with governmental activities (7,459,560)

Bonds proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. (97,715,000)

Note proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. (2,463,261)

The pension assets resulting from contributions in excess of annual required contribution are not financial resources and, therefore, are not reported in the funds. 115,694

Deferred outflows of resources do not provide current financial resources		
Amortization of deferred loss on bond refunding	(578,000)	
Related to OPEB	2,202,300	
Related to pension	550,985,390	
Total deferred outflows		552,609,690

Deferred pension inflows are not considered current cash expenses and are not reported as an expenditure in the funds		
Unpaid penalty and interest	269,560	
Related to OPEB	(445,500)	
Related to pension	46,267,517	
Total deferred outflows		46,091,577

The net OPEB liability relating to retirement plans (1,161,097)

The net pension liability relating to retirement plans (772,582,207)

Repayment of long-term debt is reported as an expenditure in governmental funds but the repayment reduces long-term liabilities in the statement of net position.

In the current year, these amounts consist of:

Bond principal retirement	4,957,000	
Note payments	874,705	
Capital lease payments	744,310	
Total long-term debt repayment		6,576,015

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This adjustment combines the net changes of the following:

Accrued Interest	(245,017)	
Compensated Absences	761,768	
Claims and Judgments	364,778	
Total additional expenditures		881,529

Change in Net Position of Governmental Activities \$ 3,146,748,968

STATE OF NORTH DAKOTA

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The primary authority for the State's accounting and reporting requirements is the Office of Management and Budget. The Office of Management and Budget has adopted the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the State's accounting policies are as follows:

A. REPORTING ENTITY

For financial reporting purposes, the State of North Dakota has included all funds, organizations, agencies, boards and commissions that make up its legal entity. The State has also included all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State.

As required by accounting principles generally accepted in the United States of America, these financial statements present the State of North Dakota (the primary government) and its component units. The component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State.

BLENDED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are so intertwined with the State that they are, in substance, the same as the State. The following entity is included as a blended component unit, as the State has the ability to impose its will on this organization and the organization provides services entirely to the State. They are reported as part of the State and blended into the appropriate fund types.

Building Authority (Debt Service Fund and Capital Projects Fund) - The Building Authority was created by the Legislature as a separate instrumentality of the State. Its purpose is to promote the general welfare of the citizens of the State by providing financing for use by the State in altering, repairing, maintaining or constructing buildings and making any improvements connected to State buildings. The Industrial Commission, which consists of the governor, the attorney general, and the commissioner of agriculture, is the governing board of the Building Authority. The funds of the Building Authority were audited by other independent auditors for the fiscal year ended June 30, 2021, and their report has been previously issued under a separate cover.

DISCRETELY PRESENTED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are financially accountable to the State. The following entities are included as blended component units, as the State has the ability to impose its will on this organization, however the State has no financial obligation to these organizations. The component units' columns of government-wide financial statements include the financial data of these entities.

MAJOR COMPONENT UNITS

Comprehensive Health Association (Proprietary Fund Type) – The Association was established by the Legislature with participating membership consisting of those insurance companies, licensed or authorized to do business in the State. It provides low cost access to health insurance coverage for residents of the State who are denied adequate health insurance and are considered uninsurable. Under North Dakota Century Code, the Majority Leader of the Senate appoints one member of the Senate and the House of Representatives appoints one member of the House to the eight-member board. The Association was audited by other independent auditors for the calendar year ended December 31, 2020, and their report has been previously issued under a separate cover.

Public Finance Authority (Proprietary Fund Type) – The Finance Authority was created by the Legislature as a separate agency of the State. The purpose of the Finance Authority is to make funds available for borrowing by North Dakota political subdivisions through the issuance of its bonds and the purchase of municipal securities of the political subdivisions. The Finance Authority has been granted all powers required in order to accomplish this purpose and is under the control and management of the Industrial Commission. The Fund was audited by other independent auditors for the calendar year ended December 31, 2020, and their report has been previously issued under a separate cover.

STATE OF NORTH DAKOTA

North Dakota Development Fund, Inc. (Proprietary Fund Type) – The Development Fund was established as a statewide nonprofit development corporation with the authority to take equity positions in; to provide loans to; or to use other innovative financing mechanisms to provide capital for new or expanding businesses in North Dakota or relocating businesses to North Dakota. A board of directors consisting of eight members, all of whom are appointed by the governor, manages the corporation. The deputy director of the Department of Commerce (a State agency) is the corporation's chief executive officer. The director of the Department of Commerce (governor-appointed cabinet position) is responsible for developing rules, subject to the approval of the board of directors, necessary to implement the administration of the corporation. The Fund was audited by other independent auditors for the fiscal year ended June 30, 2021, and their report has been previously issued under a separate cover.

North Dakota State Fair Foundation – The mission of the North Dakota State Fair Foundation is to develop lifelong relationships with donors to secure philanthropic gifts that will enhance and support the work of the North Dakota State Fair. The Fund of the North Dakota State Fair Foundation were audited by other independent auditors for the fiscal year ended September 30, 2020, and their report has been previously issued under a separate cover.

Major and Non-major University System Foundations (Proprietary Fund Type) – The foundations are legally separate, tax-exempt organizations providing support and recognition to their respective colleges and universities through a variety of programs and activities. The foundations are normally managed by a board of directors made up primarily of alumni, friends or leading members of the communities. The component unit financial statements are presented under Financial Accounting Standards Board (FASB) standards. As such, certain disclosures are not reflected for the Major University System Foundation in the major component unit disclosures and no disclosures are included for the Non-major University System Foundation. A complete set of financial statements can be obtained at the North Dakota University System office at 600 E. Boulevard Avenue, #10, Bismarck, ND 58505.

Non-major State Historical Society of North Dakota Foundation – The mission of the State Historical Society of North Dakota Foundation is to provide fundraising and membership development activities to support the State Historical Society of North Dakota which preserves and promotes the heritage of North Dakota and its people. The Fund of the State Historical Society of North Dakota Foundation were audited by other independent auditors for the fiscal year ended June 30, 2021, and their report has been previously issued under a separate cover. The component unit financial statements are presented under Financial Accounting Standards Board (FASB) standards. As such, certain disclosures are not reflected for the Foundation and no disclosures are included for the Foundation.

Complete financial statements for each of the other individual component units may be obtained at the entity's administrative offices as follows:

Building Authority
600 E. Boulevard Ave., 14th Floor
Bismarck, ND 58505-0840

Public Finance Authority

Minot, ND 58702-1796

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities.

Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

STATE OF NORTH DAKOTA

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation. Net position restricted by enabling legislation are subject to change by a majority vote of the Legislative Assembly.

Unrestricted net position consist of net position that do not meet the definition of the two preceding categories. Unrestricted net position often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net position often have constraints on resources which are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

FUND FINANCIAL STATEMENTS

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund (custodial funds are excluded as they have no measurement focus) financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

The State follows the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing accounting principles generally accepted in the United States of America for governmental entities.

Governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period.

The State considers tax revenues to be available if they are collected within 60 days of the end of the current fiscal year end. Other revenues are considered to be available if received within one year after the fiscal year end. Major revenues that are determined to be susceptible to accrual include interest, federal grants-in-aid, and taxpayer-assessed taxes such as income, sales, corporate, excise, motor fuel taxes and unemployment compensation contributions. Revenues earned under the terms of reimbursement agreements with other governments or private sources are recorded at the time the related expenditures are made if other eligibility requirements have been met. Sales and use taxes are accrued based upon filings received and an estimate of filings due by June 30. Net income taxes from individuals and corporations are accrued based on current income earned by the taxpayer before June 30. Quarterly filings, withholding statements, and other historical data are used to estimate income. The revenue is accrued net of an allowance for uncollectible taxes. Unearned revenue is recorded for receivables that are measurable but not available at year-end.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to debt service, compensated absences, and claims and judgments, are recorded only when payment is due and payable.

STATE OF NORTH DAKOTA

FINANCIAL STATEMENT PRESENTATION

The State reports the following major governmental funds:

The General Fund is the principal operating fund of the State.

The Federal Fund accounts for all the financial resources from the federal government.

The State Special Revenue Fund accounts for activities from state sources, which are restricted legally or administratively for the particular costs of an agency or program.

The State reports the following major enterprise funds:

The Bank of North Dakota Fund finances economic development throughout the state, participates in loans with North Dakota financial institutions, and holds interest-bearing deposit accounts for state and political subdivisions of North Dakota.

The Housing Finance Agency Fund is authorized to issue bonds to make loans to mortgage lenders for qualified residential mortgage loans and to make mortgage and construction loans for multi-family housing within the State of North Dakota.

The University System Fund accounts for all financial transactions of the colleges and universities that compose the University System of North Dakota.

The Workforce Safety & Insurance Fund is financed entirely by premiums assessed to the employers of North Dakota and provides no-fault medical and disability insurance to all North Dakota employees.

The Unemployment Compensation Fund accounts for State unemployment taxes collected from employers and federal funds for the purpose of paying unemployment benefits.

Additionally, the State reports the following fund types:

GOVERNMENTAL FUND TYPES

General Fund accounts for all governmental financial resources, except for those required to be accounted for in other funds.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Permanent Funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry, such as the common schools within the state.

PROPRIETARY FUND TYPES

Enterprise Funds account for those business-like State activities that provide goods/services to the public, financed primarily through user charges. They are also used to account for operations where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability and other purposes. The State's loan programs, Mill and Elevator, and Fair are reported in this type.

Internal Service Funds account for the financing of goods and/or services provided by one department or agency to another department or agency of a government, or to other governments, on a cost-reimbursement basis. These goods and services include motor pool services; printing, reproduction and mailing services; information technology; and risk management services. In the government-wide statements, internal service funds are included with governmental activities.

STATE OF NORTH DAKOTA

FIDUCIARY FUND TYPES

Pension and Other Employee Benefits Trust Funds account for resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plans, defined contribution plan, deferred compensation plan, pretax benefits program, and other post-employment benefit plans.

Investment Trust Funds account for the transactions, assets, liabilities, and fund equity of the external pool participants (City of Bismarck, City of Grand Forks, City of Grand Forks Park District, ND Association of Counties, City of Fargo Fargodome, North Dakota State Board of Medicine, Petroleum Tank Release Compensation Fund, Lewis and Clark Interpretive Center Endowment Fund, Veteran's Cemetery Trust Fund and Retirement and Investment Office Investments). The State Investment Board (SIB) provides administrative services for the external pool participants. SIB issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 3442 East Century Avenue, Bismarck, North Dakota 58503. Investment Trust Funds are accounted for in essentially the same manner as Proprietary Funds.

Private Purpose Trust Funds account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. Examples include student donations, the State's college savings plan, and a remediation trust.

Custodial Funds account for assets held by the State as an agent for other governmental units, or other organizations, and do not involve measurement of results of operations. Examples of funds in this category include state custodial funds for bonding, tax collection, child support disbursement, and funds held for others.

D. GENERAL BUDGETARY POLICIES AND PROCEDURES

The State operates through a biennial appropriation that represents departmental appropriations recommended by the governor and presented to the Legislative Assembly at the beginning of each legislative session. The Legislative Assembly enacts the budgets of the various state departments through passage of specific appropriation bills. The governor has line item veto powers over all appropriations subject to legislative override.

Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action. The Emergency Commission can authorize receipt of federal or other moneys not appropriated by the Assembly if the Assembly did not indicate intent to reject the money. The Emergency Commission may authorize pass-through federal funds from one state agency to another. The Emergency Commission may authorize the transfer of expenditure authority between appropriated line items. The Legislature has also passed appropriation laws that authorize directors of certain state agencies to transfer appropriation authority among the various divisions of their specific agency, subject to the Budget Section of the North Dakota Legislative Council's approval. Unexpended appropriations lapse at the end of each biennium, except certain capital expenditures covered under the North Dakota Century Code (NDCC) section 54-44.1-11 and the University System's unexpended general fund appropriation authority.

The State's biennial budget is prepared primarily on a cash basis. The State does not use encumbrance accounting. The legal level of budgetary control is at the agency, appropriation, funding source and expenditure line item level, with administrative controls established at lower levels of detail in certain instances. The State does not formally budget revenues, and it does not budget by fund. The State appropriation is defined through the use of specific expenditure line items. Capital appropriations are generally made at the agency and project level.

North Dakota's Appropriation Act does not present budgets by GAAP fund. Instead, it authorizes General Fund appropriation authority by agency and Other Budgeted Income appropriation authority by agency. Other budgeted income includes all budgeted resources, other than the General Fund, and includes some governmental, proprietary, and fiduciary fund activities.

During the 2019-2021 biennium, there were general, federal and other funds supplemental appropriations totaling \$3,966,192,100.

E. CASH AND CASH EQUIVALENTS

Cash and cash equivalents for reporting purposes includes cash and short-term, highly liquid investments that are readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. This includes investments with original maturity of three months or less. Also cash, as reported, may be under the control of the State Treasurer or by other administrative bodies as determined by law. Cash and cash equivalents are presented on the fund balance sheets as "Cash Deposits at the Bank of North Dakota" and "Cash and Cash Equivalents" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

STATE OF NORTH DAKOTA

Cash Deposits at the Bank of North Dakota – State agency cash balances, as required by law, are pooled by the State Treasurer and deposited in the Bank of North Dakota, an enterprise fund. These cash balances, in addition to other agency cash deposited at the Bank of North Dakota, are included on the fund balance sheets as "Cash Deposits at the Bank of North Dakota". For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Cash and Cash Equivalents – All cash and cash equivalents, (other than cash deposits at the Bank of North Dakota), as permitted by the North Dakota Century Code, are included on the Government-wide Statement of Net Position as "Cash and Cash Equivalents".

The State had no cash overdrafts from pooled cash and investments at June 30, 2021.

All interest revenue is allocated to the General Fund unless state law (as outlined in the North Dakota Century Code) requires allocations of interest to other funds.

F. INVESTMENTS

Investments are reported at fair value. Quoted market prices, when available, have been used to value investments. The fair value for securities that have no quoted market price represent estimated fair value. International securities are valued based upon quoted foreign market prices and translated into U.S. dollars at the exchange rate in effect at June 30. In general, corporate debt securities have been valued at quoted market prices or, if not available, values are based on yields currently available on comparable securities of issuers with similar credit ratings. Mortgages have been valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar instruments. The fair value of real estate investment securities, including timberland, is based on appraisals plus fiscal year-to-date capital transactions. Publicly traded alternative investments are valued based on quoted market prices. When not readily available, alternative investment securities are valued using current estimates of fair value from the investment manager. Such valuations consider variables such as financial performance of the issuer, comparison of comparable companies' earnings multiples, cash flow analysis, recent sales prices of investments, withdrawal restrictions, and other pertinent information. Because of the inherent uncertainty of the valuation for these other alternative investments, the estimated fair value may differ from the values that would have been used had a ready market existed.

The net change in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year. Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold.

Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security transactions are currently accounted for on a trade date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date.

Purchases of other state funds' debt issues by the Bank of North Dakota have been recorded as normal business transactions if they are the result of arms-length transactions.

Investments are presented on the fund balance sheets as "Investments at the Bank of North Dakota" and "Investments" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

Investments at the Bank of North Dakota – State agency investments, primarily certificates of deposits of the Bank of North Dakota, are included on the fund balance sheets as "Investments at the Bank of North Dakota." For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Investments – State agency investments invested at financial institutions other than the Bank of North Dakota are included on the Government-wide Statement of Net Position as "Investments." Differences on the Fund Balance Sheets between the assets, "Cash at the Bank of North Dakota" and "Investments at the Bank of North Dakota," and the liability, "Deposits Held for Other Funds," is attributable to timing differences resulting from the Bank of North Dakota having a different fiscal year end than many of the other state agencies.

G. SECURITIES LENDING

GASB Statement No. 28 "Accounting and Financial Reporting for Securities Lending Transactions," establishes accounting and financial reporting standards for securities lending transactions. The standard requires governmental entities to report securities lent as assets in their statements of net position. Cash received as collateral and investments made with that cash must also be reported as both an asset and a liability. The statement also requires the costs of the securities lending transactions to be reported as expenses separately from income received. In addition, the statement requires disclosures about the transactions and collateral related to them.

STATE OF NORTH DAKOTA

The Agent lends securities of the type on loan at June 30, 2021, for collateral in the form of cash, U.S. government securities and irrevocable letters of credit. U.S. securities are loaned versus collateral valued at 102% of the market value of the securities plus accrued interest. Non-U.S. securities are loaned versus collateral valued at 105% of the market value of the securities plus accrued interest.

Non-cash collateral cannot be pledged or sold unless the borrower defaults. All securities can be terminated on demand by either the lender or the borrower, although the average term of the State's loans was approximately 139 days as of June 30, 2021. Cash open collateral is invested in a short term investment pool, which had an interest sensitivity of 19 days as of this statement date. This pool is valued based on amortized cost. There were no violations of legal or contractual provisions, no borrower or lending agent default losses known to the securities lending agent. There are no dividends or coupon payments owing on the securities lent. Securities lending earnings are credited to participating clients on approximately the fifteenth day of the following month.

Indemnification deals with the situation in which a client's securities are not returned due to the insolvency of a borrower and the Agent has failed to live up to its contractual responsibilities relating to the lending of those securities. The Agent's responsibilities include performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral, and complying with applicable Department of Labor and Federal Financial Institutions Examination Council regulations concerning securities lending.

For securities loaned at fiscal year end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceeds the amounts the borrowers owe the State.

H. INTERFUND ACTIVITY AND BALANCES

INTERFUND ACTIVITY

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets (such as goods or cash) without equivalent flows of assets in return or a requirement for repayment. Residual transfer amounts exist in the Government-wide Statement of Activities due to different fiscal year ends of various agencies included in business-type activities.

INTERFUND BALANCES

Interfund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

I. INVENTORIES AND PREPAID ITEMS

Inventories of Governmental Funds are valued at cost and are recognized principally using the average cost method. Generally, the cost of Governmental Funds' inventories is recorded as an expenditure when consumed rather than when purchased.

Inventories of Proprietary Funds consist primarily of grain inventories from the North Dakota Mill and Elevator Association. Grain inventories are valued at the June 30 Minneapolis grain market values less freight costs to Minneapolis. Flour, feed and resale inventories are valued at ingredient cost plus manufacturing costs incurred in their production. Proprietary Funds expense the cost of consumable supplies when used.

Generally, inventories of University System Funds are valued at the lower of cost or fair market value. Cost is generally determined on the first in/first out, or moving weighted average method. Inventories consist of food, books, and other merchandise held for resale in auxiliaries and unrestricted physical plant supplies.

Prepaid items reflect payments for costs applicable to future accounting periods. The cost of governmental prepaid items are recorded as expenditures when purchased.

Other government fund inventories and prepaid items are reflected as a reservation of fund balance on the balance sheet.

J. BOND PREMIUMS / DISCOUNTS

In the governmental funds, bond discounts and premiums are treated as period costs in the year of issue. Bond discounts and premiums are shown as an "other financing source (use)" in the statement of revenues, expenses and changes in fund balance.

STATE OF NORTH DAKOTA

In the proprietary funds, bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. The unamortized discount is shown on the statement of net position as a reduction of the bonds payable, and the amortization is included in the statement of revenues, expenses and changes in fund balance as interest expense.

K. CAPITAL ASSETS

Capital assets, which include land, buildings, equipment, intangibles (software, easements and other), construction in progress and infrastructure assets, are valued at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their acquisition value on the date of donation. Where necessary, estimates of original cost are derived by factoring price levels from the current period to the time of acquisition. Library books are not capitalized as capital assets except for the University System.

All other capital assets with an original cost of \$5,000 or more per unit and an estimated useful life in excess of one year are capitalized and reported in the applicable government or business-type activities columns in the government-wide financial statements. Exceptions include: infrastructure reported by the Department of Transportation, the threshold is \$100,000 and intangible assets such as easements, water rights, patents and trademarks, the threshold is \$25,000. Capital asset costs include the purchase price or construction cost, plus the costs necessary to place the asset in its intended location and condition for use. In governmental activities. Normal maintenance and repair costs that do not materially add to the value or extend the life of the asset are not capitalized.

Collections of works of art and historical treasures are not capitalized if the following three criteria are met: (1) Held for public exhibition, education, or research in furtherance of public service, rather than financial gain; (2) Protected, kept unencumbered, cared for, and preserved; (3) Subject to organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, and monuments and other art throughout the capital grounds. Assets that do not meet all three criteria, or that were capitalized as of June 30, 1999, are capitalized and included in the government-wide financial statements.

Infrastructure consists of major statewide public systems and items attached thereto such as freeways, freeway lighting systems, freeway drainage systems, freeway signs, bridges, bridge lighting systems, and sewer systems, including those infrastructure assets acquired prior to June 30, 1980. Infrastructure is reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Department of Transportation uses the first-in first-out method to remove the capitalized cost of a replaced road along with corresponding accumulated depreciation.

Capital assets in Governmental Funds are recorded as expenditures in the funds used to acquire or construct them in the governmental fund financial statements. Capital assets, along with accumulated depreciation and depreciation expense, which includes amortization of intangible assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Land and construction in progress are not depreciated. With the exception of infrastructure reported by the Department of Transportation (which uses the composite method), other capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10-50
Infrastructure	10-50
Furniture, Automobiles, and Equipment	3-20
Intangibles	3-99

L. DEFERRED OUTFLOWS OF RESOURCES

Deferred outflow of resources represents a consumption of net position by the government that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources are reported in the applicable governmental or business-type activities columns, or in the component units column on the government-wide Statement of Net Position.

M. LEASE COMMITMENTS

The State leases land, office facilities, office and computer equipment, and other assets. Leases are classified according to GASB 62. Many of these leases have fiscal funding clauses; however, these clauses have no effect on classifying these leases for accounting purposes. Leases which represent acquisitions are classified as capital leases, and the related assets and liabilities

STATE OF NORTH DAKOTA

are recorded in the financial statements at the inception of the lease. Other leases are classified as operating leases with the lease payments recorded as expenditures or expenses during the life of the lease.

N. FEDERAL FUNDS PURCHASED

Federal Funds Purchased represent federal funds borrowed by the Bank of North Dakota from member banks generally on an overnight basis at the federal funds rate.

O. CLAIMS/JUDGMENTS PAYABLE

Claims/Judgments Payable is primarily Workers Compensation Claims Incurred But Not Yet Reported (IBNR) by the claimants as well as claims related to various litigation matters.

P. COMPENSATED ABSENCES

ANNUAL LEAVE

State employees accrue vested annual leave at a variable rate based on years of service. Teachers employed by the State do not receive annual leave. In general, accrued annual leave cannot exceed 30 days at each year end, as set by the agency. The amount of annual leave earned ranges between one and two days per month, and is fixed by the employing unit per section 54-06-14 of the NDCC.

The governmental fund financial statements recognize annual leave when the liability is incurred and payable from available expendable resources. This normally occurs only if an employee has unused reimbursable leave still outstanding at the time of their termination. The government-wide financial statements present the cost of accumulated annual leave as a liability. Proprietary and Fiduciary Funds recognize the expense and accrued liability when the annual leave is earned.

SICK LEAVE

The North Dakota Century Code, section 54-06-14, states employees accrue sick leave at the rate of one to a maximum of one and one-half working days per month of employment without limitation on the amount that can be accumulated. Employees vest at ten years of creditable service, at which time the State is liable for ten percent of the employee's accumulated unused sick leave. The governmental fund financial statements recognize sick leave as it is incurred. The government-wide financial statements present the estimated cost of sick leave as a liability after an employee has been employed by the State for five consecutive years.

Q. DEPOSITS

The following two liability line items are presented in the Government-wide Statement of Net Position and/or fund financial statements:

Deposits Held For Other Funds. "Deposits Held for Other Funds" are those deposits held by the Bank of North Dakota for other funds included in the reporting entity and shown on the fund financial statements. For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Other Deposits. "Other Deposits" are those deposits held by the Bank of North Dakota for non-reporting entity third parties. It also includes deposits held for students of the University System.

Differences on the fund balance sheets between the liability "Deposits Held for Other Funds" and the assets "Cash Deposits and Investments at the Bank of North Dakota" are attributable to timing differences resulting from the Bank of North Dakota having a different accounting year end than many other state agencies.

R. NET PENSION LIABILITY (ASSET)

For purposes of measuring the net pension liability (asset) and deferred outflows/inflows related to pension, and pension expense, information about the fiduciary net position of the North Dakota Public Employee Retirement System (PERS), North Dakota Highway Patrolmen's Retirement System (NDHPRS), Retirement Plan for the Employees of Job Service North Dakota (JSND) and North Dakota Teachers' Fund for Retirement (TFFR) and additions to / deductions from PERS, NDHPRS, JSND and TFFR's fiduciary net position have been determined on the same basis as they are reported for PERS, NDHPRS, JSND and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The primary government's proportionate share of pension amounts were further reallocated to the propriety funds (business-type activities) based on the amount of employer contributions paid by each proprietary fund. Pension investments are reported at fair value.

STATE OF NORTH DAKOTA

S. NET OTHER POST EMPLOYMENT BENEFITS LIABILITY

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Job Service North Dakota engaged an actuary to determine the net OPEB liability, deferred outflows of resources and deferred inflow of resources related to OPEB and OPEB expense for its Met Life Insurance Benefit plan.

T. DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources represent an acquisition of net position that applies to a future period, and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources are reported in the applicable governmental or business-type activities columns or in the component units column on the government-wide Statement of Net Position. Deferred inflows of resources of governmental funds, proprietary fund, and discrete component units are reported in detail in their respective fund statements.

U. NET POSITION/FUND BALANCE

The difference between fund assets and liabilities is "Net Position" on the government-wide, proprietary, and fiduciary fund statements, and "Fund Balance" on governmental fund statements.

CLASSIFICATIONS

Fund balance classifications for governmental funds are reported in two general classifications, nonspendable and spendable. Nonspendable represents the portion of fund balance that is not in spendable form such as inventories and prepaids. Spendable fund balance is further categorized as restricted, committed, assigned, and unassigned.

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by the State constitution and external parties, such as the federal government, or through enabling legislation.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority, the state's legislature, through legislation, that is not considered as enabling legislation, passed into law.

Assigned fund balance classifications are used when the amounts are to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. The assignment of fund balance is generally initiated by the executive branch and later appropriated by the Legislature for a specific purpose. In governmental funds other than the general fund, assigned fund balance also represents the remaining amount that is not restricted or committed.

Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification would only be used to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The State generally segregates restricted, committed, and assigned resources by individual funds within the governmental funds. When resources meeting more than one of these classifications are comingled within an individual fund, the assumed order of spending is restricted first, committed second, assigned third, and finally, unassigned.

BUDGET STABILIZATION FUND

North Dakota Century Code (NDCC) section 54-27.2-02 requires any amount in the state general fund in excess of sixty-five million dollars at the end of any biennium to be deposited in the Budget Stabilization Fund. Any interest or earnings of the fund must be deposited in the fund per NDCC section 54-27.2-01. However, any amounts provided by law for deposit in the fund and any interest or earnings of the fund which would bring the balance in the fund to an amount greater than fifteen percent of the current biennial state general fund budget, as finally approved by the most recently adjourned special or regular session of the legislative assembly, may not be deposited or retained in the fund but must be deposited instead in the state general fund.

NDCC section 54-27.2-03 states that if general fund revenue projections for the biennium will be at least two and one-half percent less than estimated by the most recently adjourned special or regular session of the legislative assembly, and if the governor orders a transfer, which must be reported to the budget section of the legislative management, the state treasurer shall transfer

STATE OF NORTH DAKOTA

the appropriate funds from the budget stabilization fund to the state general fund to offset the decrease in general fund revenues. The amount transferred upon order of the governor may not exceed the difference between an amount two and one-half percent below the general fund revenue projections for the biennium. The Budget Stabilization Fund, fund balance at June 30, 2021 was \$749,374,748.

V. REVENUES AND EXPENDITURES/EXPENSES

In the Government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g., general government, education, health and human services, etc.). Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes and money from tobacco settlements. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted". General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g., federal grants), available only for specified purposes. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first. In the governmental fund financial statements, expenditures are reported by character: "Current," "Intergovernmental-revenue Sharing," "Capital Outlay," or "Debt Service." Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Capital outlay includes expenditures for real property or infrastructure (e.g., highways). Intergovernmental-revenue sharing accounts for the distribution of certain tax revenues that are shared with local units based upon constitutional and statutory requirements. Debt service includes both interest and principal outlays related to bonds and payments on capitalized leases.

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are sub classified by object (e.g., salaries, depreciation, and purchases for resale). Operating revenues consist of sales of goods and services, quasi- external operating transactions with other funds, grant revenues for specific activities that are considered to be operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. Grants that would qualify as an operating activity are those that do not subsidize an existing program, rather they finance a program the agency would otherwise not undertake. For certain loan and investment programs, revenue that would normally be classified as non-operating should be classified as operating. Examples of this would include interest and investment income. All other revenues that do not meet the above criteria should be classified as non-operating.

W. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - RESTATEMENTS

The changes to beginning net position are summarized in the following table (expressed in thousands):

	Government- wide Governmental Activities	Government- wide Business Type Activities	Governmental Fund - State Fund	Proprietary Funds - University Systems	Proprietary Funds - Other Funds	Custodial Funds
June30,2020, net position,as previously reported	\$ 21,549,057	\$ 4,569,703	\$ 7,682,454	\$ 1,430,582	\$ 828,168	\$ —
Prior period adjustments:						
GASB 84	193	1,635	193	1,635	—	6,207
Change in accounting method	12,965	(12,965)	12,965	—	(12,965)	—
June30,2020, net position, as restated	<u>\$ 21,562,215</u>	<u>\$ 4,558,373</u>	<u>\$ 7,695,612</u>	<u>\$ 1,432,217</u>	<u>\$ 815,203</u>	<u>\$ 6,207</u>

STATE OF NORTH DAKOTA

A. GASB 84 IMPLEMENTATION

As a result of implementing GASB Statement No. 84, *Fiduciary Activities*, the State reclassified funds based on the guidance of GASB 84. The School for Deaf Scholarship Trust fund and School for Deaf Student Trust fund were reclassified to the State Fund. This resulted in an increase of \$193,000 to the State Fund and Governmental Activities. Several Funds were reclassified to the Proprietary Fund - University Systems. The resulted in an increase of \$1,635,000 to the Proprietary Fund - University Systems net position and Government-Wide Business Type Activities net position.

In addition, Agency Funds were reclassified to Custodial Funds. This resulted in an increase of \$6,207,000 to Fiduciary Net Position for the following funds: District Court Collection Fund, Prisoner's Accounts, Youth Correctional Center Student Accounts, Developmental Center Residents' Funds, State Hospital Patients, Veteran's Home-Custodial, School for the Deaf Students.

B. CORRECTION OF ERRORS

The Beginning Farmer Revolving Loan fund was reclassified from a proprietary fund to a governmental fund. This resulted in a decrease in the Proprietary Fund - Other Funds fund balance and Government Wide Business-type Activities net position of \$12,965,000 and an increase in Governmental Fund - State fund balance and Government Wide Governmental Activities net position of \$12,965,000.

NOTE 3 - DETAILED NOTES ON ACCOUNT BALANCES

A. DEPOSITS

CUSTODIAL CREDIT RISK

The State minimizes custodial credit risk by restrictions set forth in state statute. Custodial credit risk is risk associated with the failure of a depository financial institution. In the event of a depository financial institution's failure, the State would not be able to recover its deposits or collateralized securities that are in the possession of the outside parties.

State law generally requires that all State funds be deposited in the Bank of North Dakota. NDCC 21-04-01 provides that public funds belonging to or in the custody of the State shall be deposited in the Bank of North Dakota. Also, NDCC 6-09-07 states, "all state funds . . . must be deposited in the Bank of North Dakota" or must be deposited in accordance with constitutional and statutory provisions. The State does not have a formal policy that addresses custodial credit risk for deposits.

At June 30, 2021, the bank balance of the primary government's deposits was \$1,441,850,614. Of the bank amount, \$954,513,000 was uncollateralized and uninsured.

There were significant concentrations of uninsured and uncollateralized deposits in the Bank of North Dakota and University System at June 30, 2021. Their uninsured and uncollateralized deposits totaled \$954.5 million and \$274 thousand, and their bank deposits totaled \$955.9 million and \$5.8 million, respectively.

At June 30, 2021, the bank balance of the major component units' deposits was \$66,469,908. Of the bank amount, \$64,730,987 was uncollateralized and uninsured.

The internal receivable amount in the governmental activities column in the Statement of Net Position includes Cash and Investments at the Bank of North Dakota for governmental activities. The internal payable amount in the business-type activities column includes deposits the Bank has for governmental activities. Because the Bank has a different fiscal year end, these internal balances do not equal.

B. INVESTMENTS

The investment policies of the State of North Dakota are governed by NDCC 6-09-07, 15-10-12, and 21-04-02, indicating that all public funds must be deposited in the Bank of North Dakota unless there are other constitutional or statutory provisions. If there are no statutory provisions and the funds are invested outside the Bank of North Dakota, the state agency must have the permission of the North Dakota Industrial Commission.

Investments are generally managed by the State Investment Board, the North Dakota Department of Trust Lands, the Bank of North Dakota, and the North Dakota State Treasurer's Office. Management responsibilities and investment instruments as authorized by statute are as follows:

STATE OF NORTH DAKOTA

1. State Investment Board (SIB) – NDCC 21-10 designates the SIB with investment responsibilities for the Public Employees' Retirement System, Bonding Fund, Teachers' Fund for Retirement, Fire and Tornado Fund, Workforce Safety & Insurance Fund, and other specific funds. The Century Code states the SIB shall apply the prudent investor rule in investing funds under its supervision. The retirement funds belonging to the teachers' fund for retirement and the public employees' retirement system must be invested exclusively for the benefit of their members and in accordance with the respective funds' investment goals and objectives.

The State Investment Board's investment policy allows investment managers to use derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments. The SIB had four types of derivative securities at June 30, 2021: futures, options, swaps and currency forwards.

2. North Dakota Department of Trust Lands – The Century Code states that the Department of Trust Lands shall apply the prudent investor rule in investing its funds. The investment policies of the Board allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments.
3. The Bank of North Dakota – NDCC 6-09 authorizes the Bank of North Dakota. The Bank is owned and operated by the State of North Dakota under the supervision of the North Dakota Industrial Commission. The Bank may have investments in anything that any bank lawfully may do, except what is restricted by NDCC 6-09.
4. The North Dakota State Treasurer's Office – The North Dakota Constitution and various sections of the Century Code authorize the State Treasurer to invest all State funds deposited with the State Treasury. However, the State Treasurer must invest the public funds with the Bank of North Dakota unless there is statutory authority to do otherwise. Generally, the State Treasurer pools deposits and invests in money market accounts and Bank of North Dakota certificates of deposit.
5. University System – NDCC 15-55-05 and 15-55-06 govern the investment of proceeds of revenue bonds and revenues pledged to bondholders. Such proceeds must be invested in the Bank of North Dakota, in a separate fund in the State Treasury or in a duly authorized depository for the state funds that is a member of the federal deposit insurance corporation. The University System may invest such funds in direct obligation of, or in obligations where the United States of America guarantees the principal and interest, or obligations of the State of North Dakota or any municipality as defined in NDCC Section 21-03-01.

Agency investments, of the primary government, under management of the State Investment Board are included below with the Pension and Investment Trust funds.

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The price of a debt security typically moves in the opposite direction of the change in interest rates. The State does not have a formal investment policy that limits investment maturities as a means of managing its exposure to potential fair value losses arising from future changes in interest rates. However, North Dakota Housing Finance's respective bond resolutions permit only investments that will not adversely affect the rating quality of the outstanding bonds. Also, the maturity date or the date on which such investment obligations may be redeemed shall coincide as nearly as practicable with the date or dates on which moneys in the funds or accounts for which the investments were made will be required. The Bank of North Dakota's investment policy provides for a duration range of one to four years, which will serve to decrease interest rate risk.

STATE OF NORTH DAKOTA

At June 30, 2021, the following tables show the debt securities of the primary government and major component units by investment type and maturity (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

Investment Type	Total Fair Value	Less Than 1 Year	1 - 6 Years	6 - 10 Years	More Than 10 Years	Maturity Undetermined
Asset Backed Securities	\$ 623,569	\$ 980	\$ 182,079	\$ 158,052	\$ 282,458	\$ —

STATE OF NORTH DAKOTA

The fair values of inflation indexed bonds are reflected in the tables above, based on their stated maturity dates. The principal balances of these bonds are adjusted every six months based on the inflation index for that period.

Some investments are more sensitive to interest rate changes than others. Variable and floating rate collateralized mortgage obligations (CMO's), asset-backed securities (ABS), interest-only and principal-only securities are examples of investments whose fair values may be highly sensitive to interest rate changes.

Interest-only (IO) and principal-only (PO) strips are transactions which involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors, which may result from a decline in interest rates. The State held PO's valued at \$6.5 million and held IOs valued at \$26.4 million. The State has no policy regarding IO or PO strips.

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The State does not have an investment policy that specifically addresses concentrations of credit risk in a single issuer, however the Bank of North Dakota has established asset allocation ranges for investments as a percentage of their total portfolio.

The Bank of North Dakota had the following concentrations at June 30, 2021 (expressed in thousands):

	Amount	Percent
Federal Agency		
Federal Home Loan Bank	\$ 167,666	9.2 %
Small Business Administration	176,672	9.6 %
Farm Credit	277,693	15.1 %
Freddie Mac	20,039	1.1 %
Fannie Mae	45,557	2.5 %
Mortgage-backed		
Fannie Mae	714,495	39.0 %
Freddie Mac	380,364	20.7 %
Others less than 5%	51,213	2.8 %
	<u>\$ 1,833,699</u>	<u>100.0 %</u>

CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The State maintains a highly diversified portfolio of debt securities encompassing a wide range of credit ratings. Although the State has no overall policy regarding credit risk, each debt securities manager is given a specific set of guidelines to invest within based on the mandate for which it was hired. The guidelines specify in which range of credit the manager may invest. These ranges include investment grade and below investment grade categories. The Bank of North Dakota's investment policy provides minimum credit quality ratings for its investments and asset allocation ranges for investments as a percentage of the total portfolio.

STATE OF NORTH DAKOTA

As of June 30, 2021, the following tables present the debt securities of the primary government and major component units and their respective ratings (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds) S&P Credit Rating*

	Total Fair Value	AAA	AA	A	BBB	BB	B	CCC	CC	C	D	Not Rated

US Gov't & Agencies	14,127			
Total Debt Securities	<u>\$ 79,293</u>			

*Ratings are determined in the following order: 1) S&P rating, 2) Moody's rating, 3) Fitch rating, 4) Manager-determined rating (internal rating) and 5) if no ratings are available using steps 1-4, then shown as not rated.

**US government agency securities explicitly guaranteed by the US government are categorized here. Credit ratings of US government agency securities that are only implicitly guaranteed by the US government are categorized accordingly in the main body of this table. Implicitly guaranteed agency securities included in the *Asset Backed*, *Commercial Mortgage Backed*, *Gov't Issued Commercial & Gov't Mortgage Backed*, *Gov't Agencies*, *Gov't Bonds*, *Index Linked Gov't Bonds* and *Short Term Bills and Notes* categories are issued by FNMA, FHLB, FHLMC, and SLMA.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Although the State Investment Board does not have a formal investment policy governing foreign currency risk, the board does manage its exposure to fair value loss by requiring their international securities investment managers to maintain diversified portfolios to limit foreign currency and security risk. The Department of Trust Lands treats currency exposure in two different ways, depending on the type of investment. For the Board's international equity portfolio, the currency exposure is not hedged, as currency exposure is one of the items that adds diversity to the overall portfolio. For foreign bonds, the Board fully hedges the currency exposure, as the purpose of this portfolio is to generate more consistent returns.

STATE OF NORTH DAKOTA

At June 30, 2021, foreign currency risk exposure on investments managed by the Department of Trust Lands and State Investment Board were as follows (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

Currency	Short-Term	Debt	Equity	Real Estate	Total

STATE OF NORTH DAKOTA

Derivative Securities – Derivatives are financial arrangements between two parties whose payments are based on, or “derived” from, the performance of some agreed upon benchmark. The investment policies of the States’ clients allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative instruments. The fair value of all derivative securities is reported in the Statement of Net Position. At June 30, 2021, the State had four types of derivative securities: futures, options, swaps and currency forwards.

Futures – Futures represent commitments to purchase (asset) or sell (liability) securities at a future date and at a specific price. Futures contracts are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty risk. The net change in the futures contracts’ value is settled daily in cash with the exchanges. Net gains or losses resulting from the daily settlements are included in net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$232.5 million for the year ended June 30, 2021. At June 30, 2021, the State investment portfolio had the notional futures shown below (expressed in thousands).

Futures	Notional Value
Cash and cash equivalent derivative futures	
Long	\$ 172,043
Short	(653,875)
Commodity Derivatives Futures	
Long	—
Short	(31,463)
Equity derivative futures	
Long	662,160
Short	—
Fixed income derivative futures	
Long	771,100
Short	(1,213,556)
Total futures	<u>\$ (293,591)</u>

Options – Options represent or give buyers the right, but not the obligation, to buy (call) or sell (put) an asset at a preset price over a specified period. Options are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty credit risk. The option’s price is usually a small percentage of the underlying asset’s value. As a seller of a financial option, the State, through its investment manager, receives a premium at the beginning of the agreement and bears the risk of an unfavorable change in the price of the financial instrument underlying the option. As a buyer of a financial option, the State, through its investment manager, pays a premium at the beginning of the agreement and the counterparty bears the risk of an unfavorable change in the price of the financial instrument underlying the option. Gains and losses on options are determined based on fair values and recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$0.6 million. At June 30, 2021, the State had the following option balances (expressed in thousands):

Options	Fair Value
Cash & Other Options	
Call	\$ 99
Put	767
Fixed Income Options	
Call	(220)
Put	(170)
Total options	<u>\$ 476</u>

Swaps – A swap is a derivative in which counterparties exchange certain benefits of one party’s financial instrument for those of the other party’s financial instrument. Specifically, the two counterparties agree to exchange one stream of cash flows for another stream. The State, through its investment managers, has entered into various swap agreements in an attempt to manage its exposure to interest rate, inflation, credit, currency risk and total return.

STATE OF NORTH DAKOTA

Gains and losses on swaps are determined based on fair values and are recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$(3.0) million for the year ended June 30, 2021. The maximum loss that would be recognized at June 30, 2021, if all counterparties failed to perform as contracted is \$2.3 million. Swap fair values are determined by a third party pricing source.

At June 30, 2021, the States' investment portfolio had the swap fair value balances as shown below (expressed in thousands).

Credit Default Swaps

Counterparty/Moody's Rating	Notional Amount	Expiration Date	Fair Value
Bank of America / Aa2 (3 contracts)	\$ (3,400)	2021	\$ 10
Citibank / Aa3 (27 contracts)	(3,000)	2023 - 2024	(12)
Citigroup Global Markets / A1 (5 contracts)	(6,804)	2024 - 2026	623
Credit Suisse First Boston / A1 (12 contracts)	(18,361)	2022 - 2026	1,505

Inflation Swaps

Counterparty/Moody's Rating	Notional Amount	Expiration Date Range	Fair Value
Citigroup Global Markets / A1 (4 contracts)	\$ 13,240	2026	\$ (402)
JP Morgan Chase / Aa2 (21 contracts)	17,220	2026 - 2031	(369)
Total Interest Rate Swaps	<u>\$ 30,460</u>		<u>\$ (771)</u>

Total Return Swaps

Counterparty/Moody's Rating	Notional Amount	Expiration Date	Fair Value
Credit Suisse International / Aa3 (2 contracts)	\$ 2,764	2041	\$ 7
Total Return Swaps	<u>\$ 2,764</u>		<u>\$ 7</u>

Currency Forwards – Currency forwards represent forward exchange contracts that are entered into in order to manage the exposure to changes in currency exchange rates on the currency denominated portfolio holdings. A forward exchange contract is a commitment to purchase (positive) or sell (negative) a currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts is included in the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled (\$3.9 million). At June 30, 2021, the States' investment portfolio included the currency forwards balances shown below (expressed in thousands).

STATE OF NORTH DAKOTA

Currency	Cost	Purchases	Sales	Fair Value
Australian dollar	\$ (131)	\$ —	\$ (131)	\$ (128)

Total forwards subject to currency risk				<u>\$ 3,828</u>

Derivative Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the value of an interest rate-based derivative investment. The State does not have a formal investment policy regarding such derivative investments. At June 30, 2021, the tables below show the States' derivative investments subject to interest rate risk (expressed in thousands).

	Total Notional Value	3 Months or Less	3 to 6 Months	6 to 12 Months	1-5 Years	Greater Than 5 Years
Futures- interest rate contracts	\$ (924,288)	\$ (675,150)	\$ (403,466)	\$ (17,715)	\$ 172,043	\$ —

Mill and Elevator Derivative Financial Instruments – The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2021, and the changes in fair value of such derivative instruments for the year then ended as reported in the State's financial statements are \$497,650, classified as derivative instrument (one contract equals 5,000 bushels) and \$497,650, classified as deferred inflow of resources – accumulated increase in fair value of hedging derivatives. The fair value of the grain futures contracts was determined on the Minneapolis Grain Exchange. The margin requirement is \$0.60 per bushel, unless the market price changes the limit for two consecutive days, then the margin requirement is \$0.90 per bushel. The Mill has entered into futures contracts for spring wheat to lock in a price for a future delivery or settlement period. These contracts are entered into to protect the Mill against price fluctuation of the commodity. The price protection is needed to cover any long or short positions compared to flour sales. The table below shows the cost and market values of these spring wheat futures as of June 30, 2021.

STATE OF NORTH DAKOTA

Month	# of Contracts Long (Short)	Average Cost	Fair Value	Average Cost	Market Value
Sept 2021	-353	\$ 7.7650	\$ 8.4975	\$ (13,684,038)	\$ (14,998,088)
Dec 2021	193	7.7137	8.4075	7,391,675	8,113,238
Mar 2022	22	7.8850	8.3300	867,350	916,300
May 2022	15	7.6770	8.2475	575,775	618,563
July 2022	1	7.5300	8.1500	37,650	40,750
				<u>\$ (4,811,588)</u>	<u>\$ (5,309,237)</u>

The Mill is exposed to credit risk on hedging derivative instruments that are in asset positions. All grain futures trades are completed using two different national brokerage firms on the Minneapolis Grain Exchange. ADM Investor Services is rated A by the Standard & Poor's Rating Service. RJ O'Brien is a privately held business and is not rated by the Standard & Poor's Rating Service.

The Mill is exposed to rollover risk on grain futures trades whenever the hedge ratio (defined in aggregate of the size across all futures months relative to the underlying net cash position) does not equal 1.0. At June 30, 2021, the table below shows the hedge ratio by futures month going forward:

Period	Hedge Ratio
Sept 2021	1.0
Dec 2021	1.1
Mar 2022	1.0
May 2022	1.0
July 2022	1.2
Net Position	1.0

C. SECURITIES LENDING

The following represents the balances relating to the securities lending transactions at June 30, 2021 (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

	Underlying Securities	Non-Cash Collateral Value	Cash Collateral Investment Value
Securities Lent			
Lent for cash collateral:			
US agency securities	\$ 45,457	\$ —	\$ 46,301
US government securities	125,937	9,525	128,438
US corporate fixed income securities	94,863	2,012	97,221
US equities	72,801	11,018	75,024
Global government fixed income securities	3,551	—	3,781
Global government securities	1,137	—	1,207
Global equities	16,043	—	17,218
Lent for non-cash collateral:			
Fair value of securities on loan against non-cash collateral	231,921	216,842	—
Total	<u>\$ 591,710</u>	<u>\$ 239,397</u>	<u>\$ 369,190</u>

D. ENDOWMENT FUNDS

UNIVERSITY SYSTEMS

The endowment funds reported herein are institutional funds under the terms of the gift instrument and are not wholly expendable by the institution. NDCC Section 59-21, the Uniform Prudent Management of Institutional Funds Act (UPMIFA) applies to the investment of endowments governed by a gift instrument. NDUS SBHE policy 810 stipulates endowment funds shall be invested according to the intent of the donor provided such intent is consistent with applicable laws. Absent terms expressing donor intent

STATE OF NORTH DAKOTA

in a gift instrument, NDUS institution officers initially shall deposit the funds in institution accounts at the Bank of North Dakota. Thereafter, the funds may be invested according to NDCC 59-21. Subject to the intent of the donor, NDUS institution officers are delegated authority to manage and invest these institutional funds as provided by UPMIFA. NDCC Section 59-21-02.5a(7) applies to standard of conduct in the administration of powers to make and retain investments. It states that in managing and investing an institutional fund, the needs of the institution and the fund to make distributions and to preserve capital must be considered. Given the flexibility in NDCC 59-21-02, institutions have differing policies with respect to spending investment income and net appreciation on endowment funds. For UND, distributions for spending endowments each year will be calculated once annually with the quarter ended December 31 unitized fair value and is based on the set spending rate, currently 3.75 percent, applied to the average fair value for the preceding twelve quarter average. All endowment in existence at December 31 for one year will receive a distribution spending allocation. The available amount will be forecast to UND for planning purposes by February 1, and these distributions will be available for spending in the upcoming fiscal year. NDSU determines the spending of endowment earnings based on an annual evaluation.

Net appreciation on investments are available for expenditure and consist of the following at June 30, 2021:

		<u>Reflected in net position as:</u>
North Dakota State University	\$ 566,447	Expendable scholarships & fellowships
University of North Dakota	608,224	Non-expendable scholarships & fellowships
Total NDUS	<u>\$ 1,174,671</u>	

Endowment funds reported herein do not include the Federal Land Grant Fund held by the State Department of Trust Lands. The annual proceeds from assets held by the Commissioner of the State Department of Trust Lands and are deposited into each college/university's operating fund at the State Treasury and are used for current operating purposes. Bismarck State College, Lake Region State College and Williston State College do not participate in the proceeds allocated by the State Land Department. Total assets held by the State Land Department and proceeds for the fiscal year ended June 30, 2021 are approximately \$223.7 million and \$7.3 million respectively.

NORTH DAKOTA STATE FAIR FOUNDATION

The North Dakota State Fair Association Foundation had the following activity in their endowment as of September 30, 2020.

Beginning endowment	\$ 2,155,492
Endowment contributions	—
Ending endowment	<u>\$ 2,155,492</u>

E. RECEIVABLES

F. REVERSE REPURCHASE AGREEMENTS

State statutes permit the State to enter into reverse repurchase agreements, that is, the sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the dealers a margin against a decline in fair value of the securities. All sales of investments under these agreements are for fixed terms. In investing the proceeds of these agreements, State policy is for the term to maturity of the investment to be the same as the term of the agreement. Such matching existed at year end. These agreements are secured by Fed book-entry securities held in the State's name. At June 30, 2021, the State had an average daily balance of \$3,000 of repurchase agreements with a 0.00% interest rate and a 0.00% weighted average interest rate paid during the year.

G. INTERFUND ACCOUNTS AND TRANSFERS

DUE FROM OTHER FUNDS/DUE TO OTHER FUNDS

Interfund balances at June 30, 2021 of the following (expressed in thousands):

Due To General Fund From:	
Federal Fund	\$ 99,524
State Fund	65,394
Bank of North Dakota	506
Nonmajor Enterprise Funds	28,470
All Others	462
Total Due To General Fund	<u>\$ 194,356</u>

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$15,619,484. This is not expected to be repaid within one year.

Due To Federal Fund From:		Due To State Fund From:	
General Fund	\$ 6,074	General Fund	\$ 69,238
State Fund	35,669	Federal Fund	15,503
All Others	627	Internal Service Funds	167
Total Due To Federal Fund	<u>\$ 42,370</u>	Nonmajor Enterprise Funds	687
		All Others	320
		Total Due To State Fund	<u>\$ 85,915</u>

STATE OF NORTH DAKOTA

Due To Internal Service Funds From:		Due To Bank of North Dakota From:	
General Fund	\$ 5,940	State Fund	\$ 14,572
State Fund	4,230	Nonmajor Enterprise Funds	55,815
University System	1,135	University System	2,046
Federal Fund	879	All Others	42
All Others	453	Total Due To Bank of North Dakota	<u>\$ 107,491</u>
	<u>\$ 12,637</u>		

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$3,606,486 of which \$1,890,691 is not expected to be repaid within one year.

Due To University System From:	
General Fund	\$ 25,818
Federal Fund	7,291
State Fund	5,316
Bank of North Dakota	784
Building Authority	5,796
All Others	85
Total Due To University System	<u>\$ 45,090</u>

Due To All Other Funds From:	
All Other	<u>\$ 807</u>

Included in this category are all other enterprise funds and fiduciary funds.

These balances are a result of a time lag between the dates that (1) services are provided and goods received or reimbursable expenditures occur, (2) the payments are made, (3) the transactions are entered into the accounting system, and (4) because of transactions occurring between funds with a fiscal year other than June 30, 2021.

A reconciliation of Due From's and Due To's is presented below (expressed in thousands):

Due From's	\$ 488,666
General Fund/Bank of ND	(18,022)
Bank of ND/ Mill and Elevator	12,200
Bank of ND/Rebuilder's Loan	(1,380)
Bank of ND/University System	(861)
Bank of ND/Guaranteed Student Loan	97
Governmental Agencies/Bank of ND	45
Bank of ND/Enterprise Funds	107
Total Differences	(7,814)
Due To's	<u>\$ 480,852</u>

The previous table represents timing differences between agencies as a result of different fiscal year ends. Those agencies with a different fiscal year end include: Bank of North Dakota and the following Nonmajor Enterprise Funds: Guaranteed Student Loan and Community Water Facility Loan, which have a December year end and State Fair, which has a September year end.

STATE OF NORTH DAKOTA

INTERFUND TRANSFERS

A summary of interfund transfers for the fiscal year ended June 30, 2021, follows (expressed in thousands):

	General	Special Revenue Federal	Special Revenue State	Bank Of North Dakota	University System	Housing Finance	Non- major Governmental	Non- major Enterprise	Internal Service Fund	Total
Transfers Out										
General	\$ —	\$ 1,798	\$ 170,823	\$ —	\$ 399,590	\$ —	\$ 1,784	\$ —	\$ —	\$ 573,995
Special Revenue- Federal	15,574	—	40,454	—	—	—	285	—	—	56,313
Special Revenue- State	399,258	24	—	4,704	25,589	9	264	—	222	430,070
Non-major Governmental	800	—	1,028	—	46,443	—	52	—	—	48,323
Bank of North Dakota	70,000	—	18,860	—	3,790	—	—	44,900	—	137,550
Housing Finance	—	—	33	—	—	—	—	—	—	33
University System	—	—	—	—	—	—	2,924	—	—	2,924
Non-Major Enterprise	12,694	—	1,840	1,300	—	—	—	—	—	15,834
Total	\$ 498,325	\$ 1,822	\$ 233,038	\$ 6,004	\$ 475,412	\$ 9	\$ 5,309	\$ 44,900	\$ 222	\$ 1,265,042

(Transfers In do not agree to the statements due to the timing differences noted below.)

Transfers are used for the following purposes:

- Move general fund appropriation amounts to certain agencies.
- Move revenues from the fund that statute requires to collect them to the fund authorized to spend them.
- Move certain excess revenues collected in other funds to the general fund.
- Move receipts restricted for debt service from the funds collected to the debt service funds as payments become due, and move capital project funds paying the construction costs.

For the year ended June 30, 2021, legislatively-mandated transfers were made to the general fund of \$6,300,000 from the State Lottery, \$6,393,652 from Mill and Elevator, \$4,716,224 from the Insurance Regulatory Trust Fund, \$382,200,000 from Strategic Investment and Improvement Fund, \$70,000,000 from BND, \$2,240,479 from the Multistate Audit Fund, \$871,687,384 from the Legacy Fund, \$5,944,245 from the Budget Stabilization Fund, \$90,275,000 from the Tax Relief Fund and \$9,052,998 from the Securities Dept. Special Fund.

A reconciliation of Transfers In and Transfers Out is presented below (expressed in thousands):

		\$ (1,233,311)
Differences:		
Special Rev - Housing Finance Agency	(20)	
Special Rev - Ag PACE / Bank of North Dakota	250	
Special Rev - PACE / Bank of North Dakota	1,200	
Beginning Farmer Revolving Loan Fund / Bank of North Dakota	1,000	
Ag PACE / Beginning Farmer Revolving Loan Fund	1,740	
Small Employer Loan Fund (SELF) / Bank of North Dakota	(20,000)	
Innovation Loan Fund / Bank of North Dakota	(9,900)	
School Construction Assistance Loan Fund / Bank of North Dakota	(1,300)	
State Water Commission Revolving Loan Fund / Bank of North Dakota	(4,704)	
Federal fund	3	
Total Differences		(31,731)
Transfers Out		\$ (1,265,042)

STATE OF NORTH DAKOTA

The above timing differences of (31,730,837) result from transactions between agencies that have different fiscal year ends. The Bank of North Dakota (BND) has a different fiscal year end, they have a December year end. This difference is also the total net transfers on the Government-wide Statement of Activities.

H. CAPITAL ASSETS

I. OPERATING LEASES

PAYMENTS ON OPERATING LEASES

The State is obligated under certain leases accounted for as operating leases. Operating leases do not give rise to property rights or lease obligations, and therefore, the resulting expenditures are recognized as incurred. Lease expenditures for the year ended June 30, 2021, amounted to \$23.3 million for governmental activities and \$17.4 million for business-type activities.

STATE OF NORTH DAKOTA

Future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of June 30, 2021, for all fund types are as follows (expressed in thousands):

Year Ending June 30	Governmental Activities	Business-type Activities
2022	\$ 10,603	\$ 10,583
2023	8,773	8,063
2024	5,160	4,772
2025	4,667	2,883
2026	2,447	1,675
2027-2031	4,809	1,950
2032-2036	3,138	646
2037-2041	—	—
Total Minimum Lease Payments	<u>\$ 39,597</u>	<u>\$ 30,572</u>

J. CAPITAL LEASES

The State is obligated under certain leases accounted for as capital leases. In the government-wide and proprietary fund statements, capital assets and a corresponding liability are recorded at the inception of the lease. The liability is reduced by payments of principal, with a portion of the payment allocated to interest expense. For capital leases in governmental funds, other financing sources and expenditures are recorded at lease inception. Lease payments are recorded as debt service expenditures.

The schedule below lists the future minimum lease payments under these capital leases and the present value of the net minimum lease payments at June 30, 2021 (expressed in thousands):

Year Ending June 30	Governmental Activities	Business-type Activities	Major Component Units
2022	\$ 1,354	\$ 7,011	\$ 128
2023	1,245	6,680	128
2024	416	6,335	128

2027-2031	23	17,776	638
2032-2036	—	8,162	319
2037-2041	—	2,104	—
2042-2046	—	1,711	—
2047-2051	—	1,983	—
2052-2056	—	9	—
Total Minimum Lease Payments	<u>3,587</u>	<u>63,534</u>	<u>1,597</u>
Less: Amount Representing Interest	<u>(286)</u>	<u>(13,584)</u>	<u>(410)</u>
Present Value of Future Minimum Lease Payments	<u>\$ 3,301</u>	<u>\$ 49,950</u>	<u>\$ 1,187</u>

STATE OF NORTH DAKOTA

The historical costs of assets acquired under capital leases, and included as capital assets on the government-wide Statement of Net Position at June 30, 2021, is as follows (expressed in thousands):

	Governmental Activities	Business-Type Activities	Major Component Units
Infrastructure	\$ —	\$ 60	\$ —
Buildings	—	52,438	1,979
Intangibles	24	188	—
Equipment	7,453	19,667	—
Less: Accumulated Depreciation	(2,844)	(22,402)	(1,159)
Total	<u>\$ 4,633</u>	<u>\$ 49,951</u>	<u>\$ 820</u>

K. DEFERRED OUTFLOWS OF RESOURCES

FINANCIAL DERIVATIVE INSTRUMENT

The State enters into interest rate swap agreements to modify interest rates on certain liabilities. The fair values of both hedging derivatives and investment derivatives (if any) are presented on the Statement of Net Position, either as a derivative liability (negative fair value) or as a derivative asset (positive fair value). The change in the total fair value of derivatives that are determined to be effective hedges is recorded as a deferred inflow or outflow of resources on the Statement of Net Position. If a derivative were determined to be an ineffective hedge, it would be classified as an investment derivative, and the change in the total fair value would be presented as part of investment earnings.

DEFERRED LOSS ON BOND REFUNDING

A deferred charge on refunded debts results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

L. LONG-TERM DEBT

Debt authorized is generally limited by the state constitution. The Constitution of North Dakota provides that the State may issue or guarantee the payment of bonds, provided that all bonds in excess of \$2 million are: (1) secured by first mortgage upon property and no further indebtedness may be incurred by the State unless evidenced by a bond issue; (2) authorized by law; (3) for a certain purpose; (4) provisioned to pay the interest semiannually; and (5) the principal is paid within 30 years. Additionally, the law authorizing the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond.

1. REVENUE BONDS

Bonds payable at June 30, 2021, consisted of bonds issued by the State and are accounted for by the respective state agencies in the government-wide financial statements that issued the bonds.

Current state statutes empower certain state agencies to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on such bonds shall be payable only from the applicable agency's program income.

Primary Government

Building Authority

The 2010 Series A and B, the 2012 Series A, the 2017 Series A bonds and the 2020 Series A have interest payable semiannually on June 1 and December 1 of each year. The 2010 Series A bonds are subject to optional redemption in whole or in part. The 2010 Series B, the 2012 Series A, the 2017 Series A bonds and the 2020 Series A are not subject to optional and/or extraordinary optional redemption prior to maturity upon the occurrence of certain events. The Authority shall issue bonds to refund the note on or before maturity. All bonds are independently secured by the funds, certain mortgaged property, and all rights, titles, and interests of the Building Authority as lessor, including all basic rent payments, investment earnings on the funds and any other income derived by the Building Authority with respect to the lease. Total net revenue pledges for fiscal year 2021 were \$101.6 million. For fiscal year 2021, principal and interest paid by the Authority on the bonds was \$16.1 million. The total principal and interest remaining to be paid as of June 30, 2021, is \$153.2 million payable through December 2040.

STATE OF NORTH DAKOTA

The 2010 bond agreements require the establishment and maintenance of reserve funds to be used for debt service payments if amounts in the bond funds are insufficient to make payments. Fund are also required for any positive arbitration due to the Federal government.

Student Loan Trust

Interest is payable semiannually on June 1 and December 1 of each year. The 2004 Series A Bonds are variable rate bonds. The rate of interest is determined based on one-month LIBOR plus 0.7%. The maximum rate of interest is 12% per annum. Details of the terms and provisions of the variable rate bonds are outlined in Section 2.1 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution. Section 2.2 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution has deemed these to be Federally Taxable Bonds. The Series 2004 Bonds are subject to redemption prior to maturity at the option of the Commission from any source of funds, in whole or in part, on any date at a redemption price equal to 100% of the principal amount plus accrued interest to date of redemption.

The total principal and interest remaining to be paid on the outstanding bond is \$1 million payable through June 2029. For fiscal year 2021, revenue pledged and total principal and interest paid by Student Loan Trust were \$30,000 and \$8,000, respectively.

Housing Finance

Housing Finance Bonds were issued to provide financing to purchase mortgage loans to finance multifamily housing projects. The bonds are the direct obligation of the Housing Finance Agency and are secured by the mortgage loans purchased under the applicable resolutions; the revenues, prepayments, insurance and foreclosure proceeds received related to the mortgage loans; and certain funds and accounts established pursuant to the applicable bond resolution.

Revenues Pledged – The agency has homeownership bonds outstanding in the amount of \$1.35 billion maturing at various times from July 1, 2021 through January 1, 2052. The bonds have been issued to provide financing to purchase mortgage loans. Annual principal and interest payments on the bonds are expected to require 98 percent of net revenues. Principal and interest paid for the current year and total customer net revenues were \$100.5 million and \$30.0 million, respectively. Bond principal was reduced through customer revenues and the refunding of older bonds with proceeds from new bond issues.

Pursuant to the Series Resolutions adopted to date and under the 1994 and 2009 General Resolutions, the revenues generated by the Program Loans (but not the Program Loans themselves) are pledged to secure the Bonds. The Agency is permitted by terms of the General Resolutions to issue Bonds and pledge Revenues pursuant to the Series Resolution which exceed the amount required to meet the obligations of that Series of Bonds. In such event, it is likely that any such Series of bonds would produce excess Revenues which could be available to redeem the related Series of bonds or any other Series of Bonds prior to the state maturities thereof.

University System

Revenue bonds are limited obligations of the University System. The principal and interest on the bonds are payable generally from the net income of specific auxiliary activities, designated student fees, interest subsidies and debt service reserve funds. These revenues are generally pledged to the payment of bonds in accordance with the specific terms of the specific indenture. Net pledged revenues for fiscal year 2021 were \$30.2 million. Principal and interest paid for the current fiscal year were \$30.2 million, with total remaining principal and interest of \$423.63 million payable through fiscal year 2050.

State Fair Association

Capital Financing Program Bonds Series 2015 – Interest is payable semi-annually on June 1 and December 1 of each year. The bonds maturing on June 1, 2029 are not subject to optional redemption prior to maturity except under extraordinary circumstances. The bonds are secured by the Association's net revenues and by the lodging tax proceeds from the City of Minot, North Dakota.

Major Component Units

Public Finance Authority

The bonds of the Public Finance Authority were issued to provide financing to purchase municipal securities in order to provide local political subdivisions with funds to finance local projects. The bonds are direct obligations of the Public Finance Authority and are secured by municipal securities purchased under the applicable resolutions, interest earnings and certain accounts established pursuant to the applicable bond resolutions. Net pledged revenues for fiscal year 2021 were \$21.2 million. Principal and interest paid for the current fiscal year were \$49.0 million, with total remaining principal and interest of \$634.7 million payable through June 2045.

Total Revenue Bonds Payable— Primary Government			<u>\$ 1,805,006</u>

¹⁾ Entire amount of bonds payable are not associated with capital assets of the State.

²⁾ At June 30, 2021, NDSU had pledged \$12.0 million of assets as collateral for bonds payable issued at the Research I and Research II buildings.

The MiSU and VCSU bonds as well as the BSC 2012 bond issue contain a provision that in the event of default, outstanding amounts become immediately due if the institutions are unable to make payment.

The BSC 2012 and the MISU bond issues are subject to redemption in the event of any loss, damage or destruction.

The MiSU 2010 bonds contain an additional provision that bonds are subject to extraordinary redemption at a redemption price equal to 104 percent of the outstanding principal amount plus accrued interest on or after the occurrence of a determination of ineligibility.

The MaSU, NDSCS, NDSU, UND and WSC bonds contain a provision that the bond owners or a court appointed trustee may pursue any available legal remedy.

The NDSU bonds payable to component units are payable through the monies received from the operating lease between the component unit and NDSU. In the event of NDSU's failure to pay the rent under the lease, the component unit may declare all rent due and payable for the remaining term of the lease, subject to available appropriations. The component unit may take possession of the facilities.

MiSU 2010 bond issue contains a provision that terminates the bond issue at a redemption price equal to 104 percent of the outstanding principal amount plus accrued interest upon the occurrence of one or more of the following events:

- Enactment of legislation or the adoption of final regulations that would deem or render the bonds not qualified for Build America Bonds.
- The federal government discontinues the Build America Bond program retroactively applied to bonds issued prior to determination.
- A written opinion by bond counsel that the bonds aren't qualified Build America Bonds.

Refunding and Defeased Bonds

Valley City State University

VCSU issued \$3.2 million of Housing and Auxiliary Facilities bonds with an interest rate of 6.98 percent. The bonds were used to recall \$3.125 million of outstanding 2010 Housing and Auxiliary Facilities bonds. The bonds were refunded to reduce total debt service payments over the next twelve years by \$50,000. The economic gain realized as a result of the refunding was \$63,000.

Williston State College

WSC issued \$5.3 million of Housing and Auxiliary Facilities bonds with an interest rate of 6.33 percent. The bonds were used to recall \$7.2 million of outstanding 2010 Housing and Auxiliary Facilities bonds. The bonds were refunded to reduce total debt service payments over the next twenty years by \$578,000. The economic gain realized as a result of the refunding was \$578,000.

State Fair Foundation	2022-2022	4.22	70
Total Revenue Bonds Payable— Major Component Units			<u>\$ 17,489</u>

- ¹⁾ These notes payable represent FHLB long-term advances. The advances must be secured by minimum qualifying collateral maintenance levels. Residential, agriculture and commercial loans with carrying values of \$1.3 billion are currently being used as security to meet these minimum levels.

Short Term Borrowings:

The Bank of North Dakota issued short-term debt to fund loans on a short-term basis.

The ND Housing Finance Agency maintains a collateral pledge agreement with the FHLB covering secured advances whereby the Agency has agreed to retain residential real estate loans and marketable securities, free of all other pledges, liens and encumbrances. The pledged loans and securities are discounted by FHLB when determining their borrowing capacity. The aggregate borrowing capacity of eligible collateral was approximately \$21.3 million as of June 30, 2021. In addition, borrowings are collateralized by \$30.56 million of loans receivable and \$145,000 of cash and investments.

3. CERTIFICATES OF PARTICIPATION

Primary Government

University System

On September 1, 2018, the University of North Dakota (UND) entered into a lease-purchase agreement with Johnson Controls PI Project Site Operations, LLC (Johnson Controls) to construct and operate a new steam plant and make other energy conservation improvements. To fund the project, UND issued Series 2018A and 2018B Certificates of Participation through Trust Agreement with the Bank of North Dakota, as the Trustee. The certificates are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

The Series 2018A certificates were issued at a par value of \$76.6 million, with a net premium of \$3.8 million. In fiscal year 2019, UND began making semi-annual interest-only payments through fiscal year 2040. The first principal payment will be due in fiscal year 2041. The certificates mature in fiscal year 2057.

The Series 2018B certificates were issued at a par value of \$16.5 million, with no premium or original issue discount. In fiscal year 2019, UND began making semi-annual interest-only payments through fiscal year 2023. The first principal payment will be due in 2024. The certificates mature in fiscal year 2041.

On August 22, 2019, Williston State College (WSC) entered into a lease-purchase agreement with Johnson Controls, Inc., to fund the costs of certain energy conservation improvements including, but not limited to, renovations to existing heating, ventilation, and air conditioning systems and controls, deferred maintenance improvements. To fund the project, WSC issued Series 2019 Certificates of Participation through the Bank of North Dakota. The certificates have interest rates ranging from 3.0 to 5.0 percent and are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

STATE OF NORTH DAKOTA

The Series 2019 certificates were issued at a par value of \$7.4 million, with a net discount of \$78,000. WSC will make an interest semi-annual principal and interest payment beginning FY2021 through FY2048.

The following is a schedule of certificates of participation outstanding at June 30, 2021 (expressed in thousands):

Primary Government

	Maturities	Interest Rates	Balance 6/30/21
<u>Proprietary Activities:</u>			
University System	2022-2057	3.55 – 5.00	<u>\$104,123</u>

Debt service requirements to maturity on the certificates of participation for the fiscal years ending June 30 are summarized below (expressed in thousands):

STATE OF NORTH DAKOTA

Internal service funds predominately serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, internal service funds included in the above amounts consist of \$1,980,506 of capital leases payable, \$3,895,749 of compensated absences and \$7,211,280 of claims and judgments. In addition, payments on long term debt (notes payable, bonds payable and capital leases payable) for capital leases payable for internal service funds of \$57,982 is included above along with additions to capital leases for internal service funds of \$1,958,783.

Other governmental activities compensated absences generally have been liquidated by the General Fund (64.4%), the Highway Fund (13.5%), the Federal Fund (10.7%), and other various funds. Other governmental activities claims and judgments have all been liquidated by the Petroleum Release Compensation Fund.

The General Fund, federal fund, state fund, and internal service funds that account for the salaries, wages, and employer pension contributions of the related employees will liquidate the net pension and other post-employment benefit liabilities.

M. ARBITRAGE REBATE PAYABLE

Arbitrage as it applies to government financing refers to the ability of state governments to obtain funds at a tax-exempt rate of interest and to then invest those funds in investments which earn a higher yield, resulting in a profit to the issuer.

The arbitrage rebate rules require that any earnings from the investment of the tax-exempt bond proceeds which exceed the yield on the bonds be remitted to the federal government.

The State had no arbitrage rebate payable to the federal government as of June 30, 2021.

N. DEFERRED INFLOWS OF RESOURCES

GRANTS RECEIVED PRIOR TO TIME REQUIREMENTS

This amount represents unavailable revenue. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

INCREASE IN FAIR VALUE OF HEDGING DERIVATIVES

This amount represents the changes in fair value of futures.

O. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value measurements are used to record fair value adjustments to certain assets, deferred outflows of resources, liabilities and deferred inflows of resources to determine fair value disclosures.

FAIR VALUE HIERARCHY

In accordance with GASB Statement No. 72, assets, deferred outflows of resources, liabilities and deferred inflows of resources are grouped at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1: Valuation is based upon quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3: Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as practical expedient are not classified in the fair value hierarchy.

STATE OF NORTH DAKOTA

DETERMINATION OF FAIR VALUE

In accordance with GASB Statement No. 72, fair values are based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the State's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy.

The following is a description of the methodologies used for instruments measured at fair value.

Securities classified in Level 1 are valued using quoted prices in active markets for those securities. Securities classified in Level 2 and Level 3 are valued using methodologies such as various bid evaluations, market averages and other matrix pricing techniques as well as values derived from associated traded securities or last trade data. In instances where inputs used to measure fair value fall into different levels, the fair value is categorized based on the lowest level input that is significant to the valuation.

Investments valued at the net asset value (NAV) per share (or its equivalent) have been classified separately in the table below and include investments considered to be *alternative investments* as defined by the AICPA. The definition includes investments for which a readily determinable fair value does not exist (that is, investments not listed on national exchanges or over-the-counter markets, or for which quoted market prices are not available from sources such as financial publications, the exchanges, or NASDAQ). These types of investments can be held within any of the asset classes used by the State based on underlying portfolio holdings and analysis of risk and return relationships. These investments can be structured in different ways, including limited partnerships, limited liability companies, common trusts and mutual funds. Some are closed-ended with a specific life and capital commitment while others are open-ended with opportunity for ad hoc contributions or withdrawals and termination upon proper notice.

Commingled/Mutual Funds – These types of funds are generally open-ended funds and may be utilized in equities or fixed income asset classes. They are funds made up of underlying securities that have readily available fair values (publicly traded stocks or bonds). The State owns units of these funds rather than the individual securities. Contributions or withdrawals from these funds can be made as needed, generally with daily or monthly liquidity, with a notice period of one to fifteen days. Because they are liquid funds, there are no unfunded commitments for these types of investments.

Distressed Debt — These include investments in the debt instruments of companies which may be publicly traded or privately held that are financially distressed and are either in bankruptcy or likely candidates for bankruptcy. Typical holdings are senior and subordinated debt instruments, mortgages and bank loans. The State is including these types of investments in its global fixed income allocations. As of June 30, 2021, unfunded commitments in one of its two distressed debt funds totaled \$75.0 million. This fund is not eligible for redemptions. The other fund is eligible for redemptions with quarterly liquidity and 60 days notice, and has no unfunded commitment.

Equity Long/Short — This strategy is a combination of long and short positions, primarily in publicly traded equities. The State utilizes this strategy, through a limited partnership structure, within its global equity allocations. This is an open-ended fund with monthly liquidity with a notice period of 15 days. There was no unfunded commitment as of June 30, 2021.

Mezzanine Debt — This strategy is a hybrid of debt and equity financing. It is essentially debt capital that gives the lender the rights to convert to an ownership or equity interest in the company if the loan is not paid back in time and in full. It is generally subordinated to senior debt. The State utilizes this strategy, through a limited partnership structure, in its global fixed income allocation. The two funds in this category are not eligible for redemptions, have remaining lives of 1-2 years, and unfunded commitments of \$8.5 million as of June 30, 2021.

Private Credit – These investments include loans to private companies, privately placed debt of public companies, or loans backed by real assets. Loan repayment can be derived from either cash flows from an operating company or cash flows generated by a physical or esoteric asset. Private debt is typically secured and has various protections/covenants in place. The debt is customized to the borrower's requirement, thus rendering it illiquid. The State includes these strategies within its global fixed income allocation through limited partnership-type structures. Private credit issuers may be investment grade but are typically below-investment grade and similar in some respect to the syndicated bank loan and high yield markets. The State participates in two senior private credit funds, commonly referred to as direct lenders, which are structured as custom managed accounts that are not eligible for redemptions during remaining investment lives, and the unfunded commitments totaled \$181.2 million as of June 30, 2021.

Private Equity - Private Equity investments are typically private interests in corporations across different areas of the capital structure and in different stages of the corporations' development via limited partnership vehicles. Private Equity investments are illiquid and long term in nature (10-12 years), typically held until maturity. Private Equity portfolios generally have a "J-Curve

STATE OF NORTH DAKOTA

Effect” whereby there are low to negative returns in the initial years due to the payment of investment management fees and initial funding of investments made by the General Partner during a period when investments are typically carried at cost and returns have not been realized. To diversify the program, Private Equity investments are made across business cycles, vintage years, and different strategies. The State has a dedicated sub-asset class for private equity investments within its global equity allocation in the pension pool. The State does not have the option to request redemptions from its private equity funds. The General Partner distributes earnings and proceeds from the sale of the underlying investments as transactions occur. The State has \$862.0 million in unfunded private equity commitments as of June 30, 2021.

Venture Capital – These include investments in companies in a range of stages of development from start-up/seed stage, early stage, and later/expansion stage. Investments are typically made in years one through six and returns typically occur in years four through ten.

Buyouts – These include investments in funds that seek out and purchase underperforming or undervalued companies in order to improve them and sell them or take them public many years later. These funds are also often involved in management buyouts, which are buyouts conducted by the management of the company being purchased, and they often play key roles in leveraged buyouts, which are buyouts that are funded with borrowed money.

Real Assets – These investments are intended to provide allocations to tangible assets that are expected to be inflation protected and provide performance above the inflation rate as indicated by the CPI. Investments are generally structured as limited partnerships or limited liability companies. Investments in Real Estate Assets include Real Estate, Timberland and Infrastructure, as discussed below.

Real Estate – includes investments in private vehicles through limited partnerships or commingled vehicles that have an ownership interest in direct real estate properties. The investment strategies may include “value added” strategies, which derive their return from both income and appreciation, “opportunistic”, which derive their return primarily through appreciation, and “alternative” which invest in less traditional types of property. Both domestic and international real estate funds are utilized. The State has a dedicated sub-asset class for these types of investments within global real assets. There are currently 10 different real estate funds in the portfolio. Four of those funds are open-ended vehicles that accept redemption requests quarterly with a 30-90 day notification period. There were no unfunded commitments in the open-ended funds as of June 30, 2021. Two of the four open-ended funds had unfunded commitments totaling \$45 million as of June 30, 2021. The remaining five funds are closed-ended limited partnerships that are not eligible for redemptions. Those five funds have a combined unfunded commitment of \$263.3 million as of June 30, 2021.

Timberland – includes investments in limited liability companies that have an ownership interest in properties where the value of the property is derived mainly from income-producing timber but also from the “higher and better use” value of the underlying land. The State includes these assets within its global real asset allocations. There are three funds in the portfolio and they have no unfunded commitments. The funds are not eligible for redemption other than distributions of income and/or proceeds as determined by the investment manager. The funds have remaining lives of 1-5 years.

Infrastructure – includes investments in limited partnerships that have an ownership interest in transportation assets such as toll roads, tunnels and bridges; and regulated assets such as electricity transmission, gas and oil distribution and wastewater collection. Other possible investments would include communication assets and social infrastructure. The State includes these assets within its global real assets allocations. The infrastructure investments in the portfolio as of June 30, 2021, include both open and closed-ended funds. The open-ended funds have no unfunded commitments and are eligible for redemptions quarterly with 90 days notice. There may be a 3-12 month queue for receiving redemptions. The closed- ended funds have unfunded commitments of \$167.1 million at June 30, 2021 and are not eligible for redemptions.

Interest Rate Swap Agreements – Fair values for interest rate swap agreements are based upon the settlement value adjusted by estimated nonperformance risk.

Derivative Instruments – Fair values of the grain future contracts are determined on the Minneapolis Grain Exchange.

STATE OF NORTH DAKOTA

Fair Value

The following table shows the fair value leveling of the State's assets and liabilities at June 30 (expressed in thousands).

NOTE 4 - NET POSITION

The government-wide Governmental Activities Statement of Net Position reports \$7,673,701,786 of restricted net position, of which \$947,491,232 is restricted by enabling legislation.

NOTE 5 - FUND BALANCE

The following table on the next page presents further display the fund balances by major purpose.

Included in the General Fund, unassigned fund balance is \$8,215,164,936 for the North Dakota Legacy Fund. The Legacy Fund was established with thirty percent of total revenue derived from taxes on oil and gas production or extraction. The principal and earnings of the Legacy Fund may not be spent until after June 30, 2017, and an expenditure of principal after that date requires a vote of at least two-thirds of the members elected of each house of the legislative assembly. No more than fifteen percent of the principal of the Legacy Fund can be expended during a biennium.

NOTE 6 - RETIREMENT SYSTEMS

A. DESCRIPTION OF PLANS

The State of North Dakota administers four major retirement systems: North Dakota Public Employees' Retirement System, North Dakota Highway Patrolmen's Retirement System, Retirement Plan for the Employees of Job Service North Dakota and the Teachers' Fund for Retirement. The State also administers the North Dakota Defined Contribution Retirement Plan, which was established January 1, 2000. Certain state employees may also participate in a privately administered retirement system: Teachers' Insurance Annuity Association. The following is a brief description of each plan. More detailed information can be found in the plan agreements and the related legislation.

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM (PERS)

The North Dakota Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan covering substantially all employees of the State of North Dakota, its agencies, and various participating political subdivisions (Main System). It also covers Supreme and District Court judges, the National Guard Security Officers and Firefighters, peace officers and correctional officers employed by political subdivisions and as of August 1, 2017, firefighters employed by participating political subdivisions. Effective August 1, 2015, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System. It is not subject to the provisions of the Employee Retirement Security Act of 1974. PERS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

At June 30, 2021 number of participating political subdivisions in PERS was:

Cities	98
Counties	51
School Districts	131
Other	88
Total Participating Local Political Subdivisions	<u>368</u>

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of PERS. Benefit and contribution provisions are administered in accordance with chapter 54-52 of the North Dakota Century Code.

STATE OF NORTH DAKOTA

Responsibility for administration of the three defined benefit pension plans and the defined contribution plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; two members of the legislative assembly appointed by a chairman of the legislative management, three members elected by the active membership of the NDPERS system; and one member elected by the retired public employees.

The costs of administering the plan are financed through the contributions and investment earnings of each plan.

Benefits

Pension benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equals or exceeds 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The annual pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. For members hired on or after January 1, 2020 the annual pension benefit is equal to 1.75% of their average monthly salary, using the three highest periods of twelve consecutive months employed during the last one hundred eighty months of employment. The Plan permits early retirement at ages 55-64 with three or more years of service.

Supreme and district court judges are entitled to unreduced monthly pension benefits beginning at the normal retirement age (65) or Rule of 85. The monthly pension benefit for Supreme and district court judges is equal to a percentage of average monthly salary using the highest 36 consecutive months out of the last 180 months of service. The percentage is equal to 3.5% of final average monthly salary multiplied by the first 10 years of service, plus 2.80% of the average monthly salary times the second 10 years of service, plus 1.25% of average monthly salary times years of service in excess of 20 years. The judicial retirement formula is only applied to eligible judicial service. Non-judicial service benefits are calculated using the 2.00% multiplier. The plan permits early retirement at ages 55-64, with five or more years of service.

The monthly pension benefit for National Guard at normal retirement age (55). Effective August 1, 2015, the National Guard System will become part of the Law Enforcement System. Members of the Law Enforcement are entitled to unreduced monthly pension benefits at normal retirement age (55) or the rule of 85. The monthly pension benefit for the National Guard/Law Enforcement is equal to 2.00 percent of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 50-55 with three or more years of service for members.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the employee's accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active employee dies with less than three years of service for the Main System and Public Safety, or less than five years of service for Supreme and district court judges, a death benefit equal to the value of the employee's accumulated contributions, plus interest, is paid to the employee's beneficiary. If the employee has earned more than three years of service for the Main System and Public Safety, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the employee's accrued normal retirement benefit, or monthly payments in an amount equal to the employees' accrued 100% joint and survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the employee's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

For judges only who have earned five years of credited service, the death benefit is changed to the greater of (i) lump sum payment of accumulated contributions, and (ii) 100% of the member's accrued benefit (not reduced on account of age), payable for the spouse's lifetime.

Eligible members who become totally disabled after a minimum of 180 days of service receive monthly disability benefits that are equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for "disabled" is set by the Board in the North Dakota Administrative Code.

For Judges only, the disability benefit formula is changed to 70% of final average salary minus social security and workers compensation benefits.

STATE OF NORTH DAKOTA

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 65 or does not have three years of service for the Main System and National Guard/Law Enforcement, or five years of service for the Supreme and district court judges, credited for PERS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates are set by state statute and are a percentage of salaries and wages.

Members that made a qualifying election under Senate Bill 2015 to move from the Defined Contribution Plan back to the Defined Benefit Plan have a 2% increase on employee contributions. The 2019 Legislative Assembly passed legislation that ended the RHIC plan for new hires after January 1, 2020 and redirected the 1.14% RHIC employer contribution to the retirement account for both the PERS plan as well as the defined contribution plan.

Member contributions are set by state statute and are a percentage of salaries and wages. During the 1983-1985 biennium, the State implemented the employer pickup provision of the IRS code, whereby a portion or all of the required member contributions are made by the employer. The State is paying 4% of the full member contribution. Some of the political subdivisions are paying all or part of the member contributions. Employer contributions are set by statute except the contribution rates for the National Guard/Law Enforcement Plans which are set by the Board. Contribution rates are established as a percent of covered compensation as follows:

	Member Contributions	Employer Contributions
PERS		
Members first enrolled prior to 1/1/20	7.00 %	7.12 %
Members first enrolled after to 1/1/20	7.00 %	8.26 %
Members returning to the Defined Benefit Plan as a result of Senate Bill 2015	9.00 %	7.12 %
Judges Retirement System	8.00 %	17.52 %
Law Enforcement with previous service		
State – BCI Plan	6.00 %	9.81 %
State – National Guard	5.50 %	9.81 %
Political subdivisions	5.50 %	9.81 %
Law Enforcement without previous service	5.50 %	7.93 %

The member's account balance includes employee contributions, interest, and the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. Members of the Supreme and District Court Judges are not eligible to vest in the employer contributions if contributing to the deferred compensation plan.

The minimum monthly member contribution is \$25, and the maximum may not exceed certain parameters based upon years of service.

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

The North Dakota Highway Patrolmen's Retirement System is a single-employer defined benefit pension plan covering substantially all sworn officers of the Highway Patrol of the State of North Dakota. It is not subject to the provisions of the Employee Retirement Income Security Act of 1974. NDHPRS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of NDHPRS. See PERS Administration note for composition of the Retirement Board. Benefit and contribution provisions are administered in accordance with chapter 39-03 of the North Dakota Century Code.

STATE OF NORTH DAKOTA

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

Benefits

Pension benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced pension benefits upon attainment of age 55 and 10 years of eligible employment or when the sum of age and years of credited service equals or exceeds 80. The annual pension benefit is equal to a percentage of average monthly salary using the highest 36 months out of the last 180 months of service. The percentage is equal to the sum of the first 25 years of service multiplied by 3.60% and 1.75% multiplied by years of service in excess of 25, if any. The plan permits early retirement at ages 50-54, with ten or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than 10 years of credited service, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than 10 years of credited service, the surviving spouse, if any, will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50 percent of the member's accrued normal retirement benefit. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to any designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days service receive monthly disability benefits that are up to 70 percent of their final average salary, reduced by workers compensation with a minimum benefit of \$100. To qualify under this section, the member must meet the criteria established by the Retirement Board for being totally disabled and apply for benefits within one year of termination.

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 60 or does not have ten years of service credited for NDHPRS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates for NDHPRS are set by state statute and are a percentage of covered compensation. The State is paying 4.0% of the member contribution. The member contribution rate is 13.3% and the employer rate is 19.7%. Both the member and the employer contribution rate will increase by 0.5% in January 2022, 2023, 2024 and 2025.

RETIREMENT PLAN FOR THE EMPLOYEES OF JOB SERVICE NORTH DAKOTA (JSND)

The retirement plan for employees of Job Service North Dakota is a single-employer defined benefit public employee retirement plan administered by PERS. The plan is established under NDCC 52-11-01 with benefit provisions established through the plan document, as amended by the Board. This plan document, as amended, is authorized by the Plan Administrator, who is the Executive Director of the agency. JSND issues a publicly available financial report that may be obtained by writing to Job Service North Dakota, PO Box 5507, Bismarck, North Dakota 58506-5507.

Participation in the plan is limited to employees participating in the plan as of September 30, 1980.

Administration

On August 1, 2003, the administrative authority and the net position of the Retirement Plan for Employees of Job Service North Dakota were transferred from the agency to the Public Employees Retirement System Board. This action was based on the passage of House Bill 1064 by the Fifty-eighth Legislative Assembly of North Dakota. The Retirement Plan for Employees of Job

STATE OF NORTH DAKOTA

Service has an Actuarial Valuation Report produced annually. Requests to obtain or review this report should be addressed to the Executive Director, NDPERS, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

Benefits

Benefits are established through the plan document, as amended by the Board. The System provides a post-retirement cost-of-living adjustment each year based on the Consumer Price Index. Employees are entitled to annual pension benefits beginning at normal retirement age (65). Employees may elect optional retirement eligibility at age 62 with 5 years of credited service, at age 60 with 20 years of credited service, or at age 55 with 30 years of credited service. Pension benefits are calculated based on the final average earnings (basic monthly earnings averaged over the highest three consecutive years of basic earnings) of the employee multiplied by the sum of:

- 1.5% times years of credited service up to 5 plus;
- 1.75% times years of credited service between 6 and 10 plus;
- 2.0% times years of credited service in excess of 10.

Death and Disability Benefits

The plan provides retirement, disability and death benefits. If death of a participant occurs prior to their annuity starting date, the surviving spouse who has been married at least two years prior to the participant's death or, if married less than two years is a parent of a child of this marriage, then the spouse shall receive monthly benefits. The amount is the greater of the benefit had the participant retired on the day before they died and elected the Contingent Annuitant Option with 55% of their retirement benefit continued to their spouse or 55% of the smaller of 40% of the deceased participant's average monthly earnings or the deceased participant's normal retirement benefit obtained by increasing their credited service by the period of time between their date of death and the date they would have attained age 60. Upon remarriage of the surviving spouse before age 60, the death benefit will cease.

If a participant becomes totally disabled, they will be eligible for a monthly disability benefit which shall be equal to the greater of 40% of the participant's average annual earnings or the accrued benefit determined as of their date of disability.

Refunds of Member Contributions

Upon termination, if a member of the JSND System terminates employment before retirement payments begin, participation in the retirement plan will cease. No further additions to retirement income will accrue on the member's behalf, and the member may be paid under one of the following options.

- The member may be paid an amount of retirement income with payments starting at Normal, Optional, or Early Retirement Date. The amount of that income will be equal to the amount provided under the formula according to the member's years of credited service and earnings.
- The member may receive a cash withdrawal benefit equal to the total of the member's contributions and employer contributions made on their behalf, plus 4 percent interest compounded annually. The member may elect this option at any time after withdrawal and before Normal, Optional, or Early Retirement Date, but such benefit shall be in place of all other benefits under the retirement benefits section.

Contributions

Member contributions are 3% and employer contributions are 4% of covered compensation. The funding policy of the plan provides for employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. Effective July 1, 1999, the "scheduled contribution" will be zero as long as the plan's actuarial value of assets exceeds the actuarial present value of projected benefits. The "scheduled contribution" and amortization will be determined when the plan is not in surplus and will be based on a funding policy adopted by the Employer.

TEACHERS' FUND FOR RETIREMENT (TFFR)

The North Dakota Teachers' Fund for Retirement is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

STATE OF NORTH DAKOTA

Teachers' Fund for Retirement issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 3442 East Century Avenue, P.O. Box 7100, Bismarck, North Dakota 58507-7100.

At June 30, 2021, the number of participating employer units in TFFR was:

Type	Number
Public School Districts	173
County Superintendents	6
Special Education Units	20
Vocational Education Units	4
Other	9
Total	212

Administration

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contributions rates.

Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered – A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or the sum of age and years of service equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered – A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher, and the member has reached the age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55-64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2 – A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with

STATE OF NORTH DAKOTA

benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting twelve months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Contributions

Member and employer contributions paid to TFFR are set by NDCC 15-39.1-09. Every eligible teacher in the state of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% or defer payment until eligible for pension benefits. A nonvested member who terminates covered employment must claim a refund of contributions paid before 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstance defined by state statute.

EMPLOYEE MEMBERSHIP DATA

The following table summarizes employee membership information by plan at the actuarial valuation date:

	PERS	NDHPRS	JSND	TFFR
Retirees and beneficiaries currently receiving benefits:	13,575	135	177	9,262
Terminated Employees:				
Vested	7,877	28	—	1,754
Inactive	7,094	21	—	1,213
Active Employees:				
Vested	17,160	73	3	8,306
Nonvested	7,434	78	—	3,321
Total plan membership	53,140	335	180	23,856
Date of annual valuation	July 1, 2021	July 1, 2021	July 1, 2021	July 1, 2021

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

BASIS OF ACCOUNTING

The public employee retirement systems described above are considered part of the State of North Dakota's reporting entity and are included in the State's financial statements as pension trust funds. The financial statements of these systems are prepared using the accrual basis of accounting. Employee contributions are recognized as revenues in the period in which they are due.

STATE OF NORTH DAKOTA

Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

INVESTMENT POLICY

The System's Board is responsible for establishing the investment policy for the fund assets, which includes setting investment goals and specifying the percentage of assets to be invested in various types of investments for PERS, NDHPRS and JSND. The investment goals are viewed over the long term. The Board recognizes the plans' performance objectives, benefit projections, and capital market expectations when determining the asset allocation. The SIB is responsible for managing the System's investments in accordance with the investment policy.

The TFFR Board is responsible for establishing investment policy for the fund assets under NDCC 15-39.1-05.2. Benefit payments are projected to occur over a long period of time. This allows TFFR to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. This asset-liability analysis considers both sides of the plan balance sheet, utilizing both quantitative and qualitative inputs, in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting established impact of funded status and contribution rates.

The following was the asset allocation policy as of June 30, 2021:

	Target Allocation			
	PERS and NDHPRS	JSND	TFFR	RHIC*
Domestic equities	30.0 %	2.0 %	— %	39.0 %
International equities	21.0 %	18.0 %	— %	26.0 %
Private equity	7.0 %	6.0 %	— %	— %
Domestic fixed income	23.0 %	74.0 %	— %	35.0 %
International fixed income	— %	— %	— %	— %
Global real assets	19.0 %	— %	18.0 %	— %
Global equity	— %	— %	55.0 %	— %
Global fixed income	— %	— %	26.0 %	— %
Cash equivalents	— %	— %	1.0 %	— %
Total	100.0 %	100.0 %	100.0 %	100.0 %

*See note 7 for further details of the RHIC OPEB Plan.

INVESTMENT RATE OF RETURN

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan and OPEB plan investments, net of pension plan and OPEB plan investment expense, was as follows for June 30, 2021:

PERS	27.43 %
NDHPRS	23.90 %
JSND	6.81 %
TFFR	26.36 %
RHIC*	25.58 %

*See note 7 for further details of the RHIC OPEB Plan.

METHOD USED TO VALUE INVESTMENTS

Investments are recorded at fair value determined by reference to published market data for publicly traded securities and through the use of independent valuation services and appraisals for other investments. The net increase in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year.

STATE OF NORTH DAKOTA

Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current fiscal year were included as a change in the fair value of investments reported in the prior year(s) and the current year. Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security transactions are accounted for on a trade date basis. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date.

REALIZED GAINS AND LOSSES

Realized gains and losses on sales of investments are components of net change in fair value of investments and are computed as described in note 1. For the year ended June 30, 2021, the following are the net realized gains (losses):

PERS	\$301,304,554
NDHPRS	7,191,804
JSND	2,375,571
TFFR	236,376,522
Retiree Health Insurance Credit (RHIC)	6,384,582
Defined Contribution Plan	401,039
Deferred Compensation Plan	7,861,634

C. FUNDING STATUS AND PROGRESS

NET PENSION LIABILITY OF THE PLANS

The components of the net pension liability of the Plans at June 30, 2021 were as follows (expressed in thousands):

	PERS	NDHPRS	JSND	TFFR
Total pension liability	\$ 4,991,543	\$ 123,371	\$ 64,844	\$ 4,336,060
Plan fiduciary net position	(3,949,723)	(100,076)	(96,603)	(3,282,405)
Net pension liability (asset)	<u>\$ 1,041,820</u>	<u>\$ 23,295</u>	<u>\$ (31,759)</u>	<u>\$ 1,053,655</u>
Plan fiduciary net position as a percentage of the total pension liability	79.13 %	81.12 %	148.98 %	75.70 %

ACTUARIAL ASSUMPTIONS

PERS

The total pension liability was determined by an actuarial valuation as of July 1, 2021, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: 5-Year smoothed marked

Inflation: 2.25%

Salary Increase: 3.50% to 17.75% including inflation

Retirement Age: Age-based table of rates that specify to the type of eligible condition

Mortality Rates: Sex-distinct Pub-2010 tables for General Employees, with scaling based on actual experience. Respective corresponding tables were used for healthy retirees, disabled retirees and active members.

Other Notes: The benefit accrual rate for members first enrolled on or after January 1, 2020 in the Main and Public Safety Systems is 1.75% (compared to 2.00% for members enrolled before January 1, 2020).

STATE OF NORTH DAKOTA

The employer rates to the System are the statutory/Board approved contribution rates of 7.12% of payroll for the Main System (8.26% for members enrolled on or after January 1, 2020), 17.52% for the Judges System, 9.81% for the Public Safety with prior Main System, and 7.93% for the Public Safety without prior Main System service System.

The actuarial assumptions used in the actuarial valuation as of July 1, 2021 were based on an experience review for the period from July 1, 2014 to July 1, 2019, and were adopted for use commencing with the actuarial valuation as of July 1, 2020.

HPRS

The total pension liability was determined by an actuarial valuation as of July 1, 2021, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.25%

Salary Increase: Service-based table for members with less than five years of service and age-based table for members with more than five years of service.

Retirement Age: Age-based table of rates that specify to the type of eligible condition.

Mortality Rates: Pub 2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using MP-2019 scale.

Other Notes: There were no benefit changes during the year.

The assumptions were updated beginning with the actuarial valuation as of July 1, 2020 based on an experience study covering the period July 1, 2014 through July 1, 2019.

The employer rate to the System is the statutory contribution rate of 19.70% of payroll. The statutory employer and employee contributions will each increase by 0.5% of pay every year from January 1, 2022 to January 1, 2025, ultimately increasing both by 2.0% of pay.

JSND

The total pension liability was determined by an actuarial valuation as of July 1, 2021, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.25%

Salary Increase: 3.50%

Retirement Age: Age-based table of rates that specify to the type of eligible condition. Investment Rate of Return: 4.25%

Cost of Living Adjustment: 2.25%

Mortality Rates: Pub-2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

Other Notes: There were no benefit changes during the year.

STATE OF NORTH DAKOTA

The assumptions were updated beginning with the actuarial valuation as of July 1, 2020 based on an experience study covering the period July 1, 2014 through July 1, 2019. The Board approved lowering the investment return assumption from 4.25% to 3.75%, first effective July 1, 2021.

The System has assets in excess of the present value of future benefits. Therefore, no employer contributions are being made.

TFFR

The total pension liability was determined by an actuarial valuation as of July 1, 2021, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: 5 year smoothed market

Inflation: 2.30%

Salary Increase (Payroll Growth): 3.80% - 14.80%; varying by service, including inflation and productivity.

Retirement Age: In the 2020 and 2015 valuations, rates of retirement were changed to better reflect anticipated future experience.

Investment Rate of Return: 7.25%, net of investments expense.

Cost of Living Adjustment: None

Mortality Rates: For the July 1, 2020, valuation, the post-retirement healthy mortality table was updated to 104% of the PubT-2010 Retiree table for retirees and to 95% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019. The disabled mortality was updated to the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019. The pre-retirement mortality table was updated to the Pub T-2010 Employee table projected with generational improvement using Scale MP- 2019. The actuarial assumptions used were based on the results of an experience study dated March 19, 2020.

INVESTMENT RATE OF RETURN

The long-term expected rate of return on investments was determined using a building-block method in which best- estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates to return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the pension plan's target asset allocation as of July 1, 2021 is summarized in the following tables:

PERS and NDHPRS Asset Class	Long-Term Expected Real Rate of Return	JSND Asset Class	Long-Term Expected Real Rate of Return	TFFR Asset Class	Long-Term Expected Real Rate of Return
Domestic equity	6.00 %	Domestic equities	5.50 %	Global equity	6.90 %
International equity	6.70 %	Core fixed income	0.07 %	Global fixed income	0.70 %
Private equity	9.50 %	Limited duration fixed income	(0.34)%	Global real assets	4.80 %
Domestic fixed income	0.73 %	Global equity	5.24 %	Cash equivalents	(1.00)%
International fixed income	0.00 %	Diversified short- term fixed income	(0.21)%		
Global real assets	4.77 %	Short-term corporate fixed income	(0.89)%		
Cash equivalents	0.00 %	US high yield	3.11 %		
		Emerging market debt	5.26 %		

STATE OF NORTH DAKOTA

DISCOUNT RATE

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 1.92%; and the resulting Single Discount Rate is 7.00%.

For HPRS, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 1.92%; and the resulting Single Discount Rate is 7.00%.

For JSND, the discount rate was 3.75% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2021 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions (for JSND it is assumed no future contribution will be made), the pension plans' fiduciary net position were projected to be available to make all projected future benefit payments for current plan members as of June 30, 2021. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2021.

For TFFR, the discount rate was 7.25% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2021 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions TFFR's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2021. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2021.

STATE OF NORTH DAKOTA

SENSITIVITY OF NET PENSION LIABILITY

The following presents the net pension liability of the Plans as of June 30, 2021, calculated using the discount rate of 7.00% for PERS, 7.00% for NDHPRS, 3.75% for JSND and 7.25% for TFFR, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate

Net Pension Liability (Asset) As of June 30, 2021	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
PERS	\$ 1,686,774,453	\$ 1,041,820,297	\$ 505,489,341

*The 2021 information presented has a measurement date of June 30, 2020.

JOB SERVICE NORTH DAKOTA (JSND)

Net Pension Asset

At June 30, 2021, the State recorded a net pension asset of \$31,122,000 for all of the Job Service North Dakota pension plan. The net pension asset was measured as of June 30, 2020 and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date.

STATE OF NORTH DAKOTA

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2021 the State recognized pension expense of (\$865,905). At June 30, 2021 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ —	\$ —	\$ —	\$ —
Changes of assumptions	—	—	—	—
Net difference between projected and actual earnings on pension plan investments	1,703,699	—	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	—	—	—	—
Employer contributions subsequent to the measurement date	—	—	—	—
Total	<u>\$ 1,703,699</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2022	\$ 790,196	\$ —
2023	517,517	—
2024	18,243	—
2025	377,743	—
Total	<u>\$ 1,703,699</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension asset calculated using the discount rate of 4.25 percent, as well as what the State's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (3.25 percent) or 1-percentage-point higher (5.25 percent) than the current rate:

	1% Decrease (3.25%)	Current Discount Rate (4.25%)	1% Increase (5.25%)
State's proportionate share of the net pension asset	(24,661,696)	(31,122,000)	(36,644,730)

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

Net Pension Liability

At June 30, 2021, the State recorded a net pension liability of \$96,044,891 for all of the North Dakota Highway Patrolmen's Retirement System pension plan. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date.

STATE OF NORTH DAKOTA

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2021 the State recognized pension expense of \$17,728,227. At June 30, 2021 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 791,647	\$ (365,625)	\$ —	\$ —
Changes of assumptions	57,689,027	—	—	—
Net difference between projected and actual earnings on pension plan investments	2,690,731	—	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	—	—	—	—
Employer contributions subsequent to the measurement date	2,292,521	—	—	—
Total	<u>\$ 63,463,926</u>	<u>\$ (365,625)</u>	<u>\$ —</u>	<u>\$ —</u>

\$2,292,521 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2022	\$ 13,671,438	\$ —
2023	14,013,115	—
2024	13,619,206	—
2025	13,150,967	—
2026	6,351,054	—
Total	<u>\$ 60,805,780</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 4.09 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.09 percent) or 1-percentage-point higher (5.09 percent) than the current rate:

	1% Decrease (3.09%)	Current Discount Rate (4.09%)	1% Increase (5.09%)
State's proportionate share of the net pension liability	\$ 127,280,387	\$ 96,044,891	\$ 71,396,917

STATE OF NORTH DAKOTA

E. COST SHARING EMPLOYER PENSION PLANS

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM

Proportionate Share of Net Pension Liability

The North Dakota Public Employees' Retirement System (PERS) provides retirement benefits to employees of the primary government and its discrete component units as well as to other political subdivision subdivisions (Main System). It also covers Supreme and district court judges, the National Guard Security Officers and Firefighters, and as of August 1, 2003, peace officers and correctional officers employed by political subdivisions. Effective August 1, 2017, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System.

At June 30, 2021, the State recorded a net pension liability of \$1,566,154,858 for all of the PERS system. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2020 the State's proportion was 49.782089 percent, which is an increase of 1.14209 percent from the prior year.

The State's discrete component unit, North Dakota Public Finance Authority, also participates in the PERS system. At June 30, 2021, the discrete component units recorded a net pension liability of \$431,000 for all of the PERS system. The net pension liability was measured as of June 30, 2020 and the total pension liability and asset used to calculate the net pension liability was determined by an actuarial valuation as of that date. The discrete component units' proportion of the net pension liability was based on their share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2020 the discrete component unit's proportion was 0.013698 percent, which is a decrease of 0.002611 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2021 the State recognized pension expense of \$272,302,193 and the component unit recognized pension expense of \$67,000. At June 30, 2021 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 6,685,783	\$ (79,664,147)	\$ 2,000	\$ (21,000)
Changes of assumptions	850,885,274	(140,410,251)	231,000	(39,000)
Net difference between projected and actual earnings on pension plan investments	52,176,289	—	14,000	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	25,691,112	(46,885,612)	—	(31,000)
Employer contributions subsequent to the measurement date	42,131,183	—	11,000	—
Total	<u>\$ 977,569,641</u>	<u>\$ (266,960,010)</u>	<u>\$ 258,000</u>	<u>\$ (91,000)</u>

\$42,131,183 and \$11,000 reported as deferred outflows of resources related to pensions resulting from State and component unit contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

STATE OF NORTH DAKOTA

Year ended June 30:

	Primary Government	Component Units
2022	\$ 195,440,803	\$ 46,000
2023	170,970,192	40,000
2024	140,798,699	32,000
2025	160,281,996	38,000
2026	869,238	—
Thereafter	117,520	—
Total	<u>\$ 668,478,448</u>	<u>\$ 156,000</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 4.64 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.64 percent) or 1-percentage-point higher (5.64 percent) than the current rate:

	1% Decrease (3.64%)	Current Discount Rate (4.64%)	1% Increase (5.64%)
State's proportionate share of the net pension liability	\$ 2,037,570,604	\$ 1,566,154,858	\$ 1,180,336,929
Component's proportionate share of the net pension liability	559,000	431,000	326,000

NORTH DAKOTA TEACHERS' FUND FOR RETIREMENT

Proportionate Share of Net Pension Liability

The North Dakota Teachers' Fund for Retirement (TFFR) provides retirement benefits to North Dakota public teachers and certain other teachers who meet various requirements. At June 30, 2021, the State recorded a net pension liability of \$9,064,521 for all of the TFFR. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the TFFR pension plan relative to the covered payroll of all participating employers. At June 30, 2020 the State's proportion was 0.59226 percent, which is a decrease of 0.0344 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2021 the State recognized pension expense of \$894,408. At June 30, 2021 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,869	\$ (340,172)	\$ —	\$ —
Changes of assumptions	407,982	—	—	—
Net difference between projected and actual earnings on pension plan investments	559,564	—	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	361,370	(1,038,857)	—	—
Employer contributions subsequent to the measurement date	543,169	—	—	—
Total	<u>\$ 1,873,954</u>	<u>\$ (1,379,029)</u>	<u>\$ —</u>	<u>\$ —</u>

STATE OF NORTH DAKOTA

\$543,169 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2022	\$ 104,633	\$ —
2023	(22,363)	—
2024	40,146	—
2025	2,525	—
2026	(132,737)	—
Thereafter	(40,448)	—
Total	<u>\$ (48,244)</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
State's proportionate share of the net pension liability	\$ 12,073,455	\$ 9,064,521	\$ 6,563,943

F. PENSION SUMMARY

The following is a summary of the pension related items for all plans of the State as of and for the year ended June 30, 2021.

Pension Plan	Net Pension Asset	Deferred Outflows of Resources Pension	Net Pension Liability	Deferred Inflows of Resources Pension	Pension Expense
Job Service ND	\$ (31,122,000)	\$ 1,703,699	\$ —	\$ —	\$ (865,905)
ND Highway Patrolmen's Retirement System	—	63,463,926	96,044,891	365,625	17,728,227
ND Public Employees' Retirement System	—	977,569,641	1,566,154,858	266,960,010	272,302,193
ND Teachers' Fund for Retirement	—	1,873,954	9,064,521	1,379,029	894,408
Total	<u>\$ (31,122,000)</u>	<u>\$ 1,044,611,220</u>	<u>\$ 1,671,264,270</u>	<u>\$ 268,704,664</u>	<u>\$ 290,058,923</u>

G. DEFINED CONTRIBUTION PLAN

The North Dakota Defined Contribution Retirement Plan was established on January 1, 2000, and is administered in accordance with chapter 54-52.6 of the North Dakota Century Code. The Defined Contribution Plan was available to state employees who are in positions not classified by the Human Resource Management Services division of the State of North Dakota. Employees under the judicial branch or the Board of Higher Education and State Institutional under jurisdiction of the Board of Higher Education are not eligible to participate in the plan. The 2013 Legislative Assembly passed legislation to expand eligibility to the plan to include all new state employees hired on or after October 1, 2013 through July 31, 2017. The Defined Contribution Plan had 89 participants as of June 30, 2021.

The administrative costs of the Defined Contribution Plan are funded by forfeitures of non-vested employee contributions and administrative fees charged to individual participant accounts.

STATE OF NORTH DAKOTA

Benefits

Benefits are set by statute. Members are entitled to their vested account balance. A participating member is immediately 100% vested in the employee's contributions. A participating member vests in the employer contributions made on the member's behalf as follows:

Upon completion of two years of service	50 %
Upon completion of three years of service	75 %
Upon completion of four years of service	100 %

Members may elect to receive their account balance in a lump sum, lump sum direct rollover, or periodic distribution.

Death and Disability Benefits

Death and disability benefits are set by statute. Upon the death of a participating member or former participating member, the vested account balance of that deceased participant is available to the participant's designated beneficiary(ies). A member who becomes totally and permanently disabled while employed by the State is eligible to receive a distribution of the vested account balance. To qualify under this section, the member must meet the criteria established by the System for being totally disabled.

Contributions

Contributions are set by state statute and are a percentage of covered compensation. The State is paying 4% of the member contribution. The member contribution rate is 7.00% and the employer rate is 7.12% for members first enrolled prior to January 1, 2020. For members first enrolled after January 1, 2020 the member contribution rate is 7.00% and the employer rate is 8.26%. Pension expense totaled \$481,934 for the year ended June 30, 2021.

The Board, or vendors contracted by the Board, has exclusive authority to invest and manage the assets of the Defined Contribution Retirement Plan. State statute allows each participating employee to direct the investment of the individual's employer and employee contributions and earnings to one or more investment options within the available categories of investment as established by the Board.

H. TEACHERS' INSURANCE ANNUITY ASSOCIATION

The Teachers' Insurance and Annuity Association (TIAA-CREF), a privately-administered defined contribution retirement plan, provides individual retirement fund contracts for eligible employees as defined by the Board of Higher Education in its approved TIAA-CREF retirement resolution. Further information can be obtained by writing to TIAA-CREF, Denver Regional Office, 1700 Broadway, Suite 770, Denver, Colorado 80290 or by calling 800-842-2009.

All benefits vest immediately to the participant. The plan requires employee and employer contributions be based on a classification system and years of service based on the schedule shown below.

Employment Class	Years Of Service	By The Participant	By The Institution	Total
I and III	0 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
II	0 thru 2	3.50%	7.50%	11.00%
	3 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
IV	Closed to new participants	4.00%	12.00%	16.00%
President/Chancellor (additional employer contribution)	less than 3	0.00%	0.00%	0.00%
	3 to less than 6	0.00%	4.00%	4.00%
	6 and over	0.00%	8.00%	8.00%

Plan contributions are made on a tax-deferred basis in accordance with section 414(h)(2) of the Internal Revenue Code. All contributions are applied as premiums to retirement annuity contracts owned by the participant. The State has no further liability once annual contributions are made. The State contributed \$44.1 million to TIAA-CREF during the fiscal year ending June 30, 2021.

STATE OF NORTH DAKOTA

NOTE 7 - POST-RETIREMENT

A. RETIREE HEALTH INSURANCE CREDIT – PLAN INFORMATION

The Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer other post-employment plan, is administered by the North Dakota Retirement Board (the Board) to provide members that were first enrolled in the plan prior to January 1, 2020 and are receiving retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System and judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit will also be available to apply towards monthly premiums under the state dental, vision and long term care plan and any other health insurance. Effective August 1, 2019, the credit is expanded to also include any dental, vision, and long term care plan. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Regular employees hired under the Retirement Plan for Employees of Job Service North Dakota prior to October 1, 1980 are eligible to participate in the Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer plan, as administered by the Public Employees Retirement Board. The retired employee is provided a credit toward their monthly health insurance premium under a qualifying plan based upon their years of credited service. In accordance with NDCC 54-52.1-03.2, Job Service North Dakota reimburses the Retiree Health Insurance Credit Fund monthly for credit received by members of the retirement plan established by Job Service North Dakota.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

Employee membership is as follows:

Retirees receiving benefit	13,697
Active participants	21,067
Total Membership	<u>34,764</u>

OPEB Contributions

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "*prefunded credit applied*" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

OPEB Benefits

Retiree health insurance credit benefits and death and disability benefits are set by state statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System, or the Defined Contribution Retirement Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving the surviving spouse benefit of if the member selected a joint and survivor option are eligible to receive credit toward their monthly health insurance premium under the state health plan.

The benefits are equal to \$5.00 for each of the employee's , or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health benefit is also available for early retirement with reduced benefits.

STATE OF NORTH DAKOTA

Net OPEB Liability of the Plan

The components of the net OPEB liability of the plan at June 30, 2021 is as follows (expressed in thousands):

	RHIC
Total OPEB liability	\$ 237,952
Plan fiduciary net position	(182,335)
Net OPEB liability (asset)	<u>\$ 55,617</u>
RHIC fiduciary net position as a percentage of the total OPEB liability	<u>73.63 %</u>

Actuarial Assumptions

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no asset smoothing)

RHIC Inflation: 2.25%

Salary Increase: Not applicable

Investment Rate of Return: 6.50%.

Mortality Rates: Pub-2010 Health Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

Other Notes: RHIC is for the most part a closed plan. There were no benefit changes during the year. The employer rate to the System is the statutory contribution rate of 1.14% of payroll.

Investment Rate of Return

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of RHIC investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2021 is summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Large Cap Domestic Equities	5.85 %
Small Cap Domestic Equities	6.75 %
International equities	6.25 %
Core-Plus Fixed Income	0.50 %

Discount Rate

The discount rate used to measure the total OPEB liability was 6.5%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2021 PERS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

STATE OF NORTH DAKOTA

Sensitivity of Net OPEB Liability

The following presents the net OPEB liability of the Plan as of June 30, 2021, calculated using the single discount rate of 6.50%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Net OPEB Liability (Asset) As of June 30, 2021	1% Decrease (5.50%)	Current Discount Rate (6.50%)	1% Increase (7.50%)
RHIC	\$ 82,487,616	\$ 55,617,289	\$ 32,880,996

The benefit provided by the North Dakota Retiree Health Insurance Credit Fund is a fixed dollar subsidy and is not affected by healthcare cost trend. Therefore, a healthcare trend rate was not performed.

B. RETIREE HEALTH INSURANCE CREDIT – STATE'S SHARE

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Proportionate Share of Net OPEB Liability

At June 30, 2021, the State reported a liability of \$40,900,219 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The State's proportion of the net OPEB liability was based on the State's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2020, the State's proportion was 51.92239 percent, which is an increase of 2.14404 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2021 the State recognized OPEB expense of \$5,677,788. At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 907,898	\$ (980,444)	\$ —	\$ —
Changes of assumptions	5,465,669	—	—	—
Net difference between projected and actual earnings on OPEB plan investments	1,405,879	—	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	1,262,075	(2,828,366)	—	—
Employer contributions subsequent to the measurement date	6,393,257	—	—	—
Total	<u>\$ 15,434,778</u>	<u>\$ (3,808,810)</u>	<u>\$ —</u>	<u>\$ —</u>

\$6,393,257 reported as deferred outflows of resources related to OPEB resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022.

STATE OF NORTH DAKOTA

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Year ended June 30:

	Primary Government	Component Units
2022	\$ 1,069,778	\$ —
2023	1,396,074	—
2024	1,338,380	—
2025	990,994	—
2026	400,344	—
Thereafter	37,141	—
Total	<u>\$ 5,232,711</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2021, calculated using the discount rate of 6.50%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50 percent) or 1-percentage-point higher (7.50 percent) than the current rate:

	1% Decrease (5.50%)	Current Discount Rate (6.50%)	1% Increase (7.50%)
State's proportionate share of the net OPEB liability	\$ 51,843,221	\$ 40,891,219	\$ 31,542,244

C. JOB SERVICE NORTH DAKOTA – MET LIFE INSURANCE BENEFIT

MET LIFE INSURANCE BENEFIT

Job Service North Dakota engaged an actuary to determine the Agency's liability for post-employment benefits other than pensions as of July 1, 2020. The actuary determined the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense the Agency has to record as of June 30, 2021. Requests to obtain or review the actuary report should be addressed to the Finance Manager – P.O. Box 5507 Bismarck, North Dakota, 58506-5507.

Plan Description

Job Service North Dakota employees who had a Met Life Insurance policy in effect on December 1, 1999, when the Met Life Insurance benefit plan, a single-employer plan, was discontinued for new employees, receive the following benefits: Job Service North Dakota pays 33% of the monthly Basic Met Life Insurance premium of current employees with a Met Life Insurance policy and upon retirement the employees Basic Met Life Insurance premiums are covered 100% by Job Service North Dakota. The Basic Life Insurance Benefits are equal to the employees' annual salary rounded up to the nearest thousand plus two thousand up to a maximum of \$45,000 and are decreased at a rate of 2% per month at age 65 until the benefit is 25% of the original amount but no less than \$10,000. The actuary report of the Met Life Insurance Benefit is the only financial report produced for this benefit and is available as indicated above. Job Service North Dakota has authority to change the funding and benefit policy of this plan.

Membership of the Other Post Retirement Benefit plan consisted of the following at July 1, 2020, the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	155
Terminated employees entitled to benefits but not yet receiving them	—
Current vested employees	5
Total	<u>160</u>

STATE OF NORTH DAKOTA

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The Employer reported a liability of \$1,215,321 at June 30, 2021 for its net OPEB liability. The net OPEB liability was measured as of July 1, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

For the year ended June 30, 2021, the Employer recognized OPEB expense of \$32,352. The Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ —	\$ —
Changes of assumptions	—	—
Net difference between projected and actual earnings on OPEB plan investments	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	—	—
Total	<u>\$ —</u>	<u>\$ —</u>

Actuarial Assumptions

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>July 1, 2021</u>
Inflation	none
Salary increases	5%
Discount rate	2.66% per annum

Mortality rates were based on the RP-2014 Total Dataset Mortality Table adjusted to based year 2006, projected with Scale MP-2019.

Sensitivity of the State's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2021, calculated using the discount rate of 2.66%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.66 percent) or 1-percentage-point higher (3.66 percent) than the current rate:

Net OPEB Liability As of June 30, 2021	1% Decrease (1.66%)	Current Discount Rate (2.66%)	1% Increase (3.66%)
Met Life	\$ 1,351,583	\$ 1,215,321	\$ 1,100,247

STATE OF NORTH DAKOTA

Schedule of Changes in Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability	Plan Net Position	Net OPEB Liability
	(a)	(b)	(a) - (b)
Balances at 7/1/20	\$ 1,265,603	\$ —	\$ 1,265,603
Changes for the Year:			
Service cost	862	—	862
Interest	31,490	—	31,490
Benefit changes	—	—	—
Experience losses (gains)	—	—	—
Changes of assumptions	—	—	—
Contributions - Employer	—	82,634	82,634
Benefits paid	(82,634)	(82,634)	(165,268)
Administrative expenses	—	—	—
Net changes	(50,282)	—	(50,282)
Balances at 6/30/21	\$ 1,215,321	\$ —	\$ 1,215,321

The plan provisions used in the measurement of the net OPEB liability are the same as those used in the Actuarial Valuation as of July 1, 2020.

D. OPEB SUMMARY

The following is a summary of the OPEB related items for all plans of the State as of and for the year ended June 30, 2021.

OPEB Plan	Deferred Outflows of Resources - OPEB	Net OPEB Liability	Deferred Inflows of Resources - OPEB	OPEB Expense
ND Public Employees' Retirement System	\$ 15,434,778	\$ 40,900,219	\$ 3,808,810	\$ 5,677,788
JSND Met Life Insurance Benefit	—	1,215,321	—	(32,352)
Total	\$ 15,434,778	\$ 42,115,540	\$ 3,808,810	\$ 5,645,436

NOTE 8 - DEFERRED COMPENSATION PLAN

The ND Public Employees Retirement System was given authority by Chapter 54-52.2 to administer an employee deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan allows employees of the State of North Dakota or any of its political subdivisions, institutions, departments, or agencies to participate, providing that the employee has signed a participation agreement, which permits them to defer a portion of their current salary until future years. Each participant may defer the lesser of \$19,500 or 100% of gross annual compensation for calendar year 2021. Participation in the plan is optional. The deferred compensation is not available to the employees until termination, retirement, death or unforeseeable emergency.

All compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights, are held in trust for the exclusive use of the employee or their beneficiary.

The minimum monthly member contribution to the deferred compensation plan is \$25 and the maximum vesting in the employer contributions ranges from 1% to 4% of the monthly salary, or \$25, depending the employees months of service.

The deferred compensation plan had 14,559 active participants as of June 30, 2021.

STATE OF NORTH DAKOTA

The related assets of the plan, held in trust, are reported at fair value as follows (expressed in thousands):

Plan Participation By:		
State of North Dakota	\$ 173,169	93 %
Other Jurisdictions	13,397	7 %
Total Value	<u>\$ 186,566</u>	<u>100 %</u>

NOTE 9 - PERS UNIFORM GROUP INSURANCE PROGRAM

The PERS Uniform Group Insurance Program, an enterprise fund, contracts with Sanford Health Plan to provide health care insurance to the employees of the State of North Dakota, or any of its political subdivision, institutions, departments or agencies. The contract for the 2019-2021 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2019-2021 biennium will occur in 2023 with an initial settlement coming in 2022. In the event of a loss, the system does not have any risk. For this period claims exceed premiums, therefore, no gain is being returned to the State.

The State again entered into a similar contract with Sanford Health Plan for the 2021-2023 biennium. The contract for the 2021-2023 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2021-2023 biennium will occur in 2025. In the event of a loss, the system does not have any risk. No other insurance contracts have a gain sharing provision.

STATE OF NORTH DAKOTA

NOTE 10 - SEGMENT INFORMATION

North Dakota Housing Finance Agency maintains two separate funds which account for general agency operations and provide loans to finance construction of rental residential housing and single-family ownership. The two funds are accounted for in a single fund, but investors in home ownership bonds rely solely on the revenue generated by the mortgage loans and assets acquired for repayment. Segment information for the year ended June 30, 2021, was as follows (expressed in thousands):

	Home-Ownership Bond Funds
Condensed Statement of Net Position	
Current assets – other	\$ 323,826
Noncurrent assets – other	1,242,287
Total Assets	1,566,113
Deferred outflow of resources	10,361
Current liabilities – other	56,314
Noncurrent liabilities – other	1,319,044
Total Liabilities	1,375,358

Cash and cash equivalents, beginning of year	216,924
Cash and cash equivalents, end of year	\$ 284,851

NOTE 11 - MAJOR COMPONENT UNIT TRANSACTIONS

BISMARCK STATE COLLEGE AND BISMARCK STATE COLLEGE FOUNDATION

On January 25, 2007, BSC and BSC Foundation entered into a 15-year lease agreement to facilitate the construction of a Mechanical Maintenance building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$1.4 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100. On August 15, 2013, an addendum was made to the lease agreement to facilitate an addition to the facility.

On October 19, 2007, BSC and BSC Foundation entered into a 25-year lease agreement to facilitate the construction of the National Energy Center of Excellence building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$5.0 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100.

STATE OF NORTH DAKOTA

BSC Foundation's financial statements include these transactions as a receivable from BSC and a long-term liability. BSC's financial statements include the capitalized asset and a long-term liability due to BSC Foundation.

	BSC	BSC Foundation
NECE Building	\$ 9,548,989	\$ 10,846,116
Accumulated Depreciation	(2,797,407)	(3,476,230)
Net Value of NECE Building	<u>\$ 6,751,582</u>	<u>\$ 7,369,886</u>

On September 26, 2014, BSC and Student Housing, LLC (a wholly owned subsidiary of BSC Foundation) entered into a 30-year Ground Lease to facilitate the construction and development of a student apartment housing complex on approximately 4.67 acres of land owned by BSC. Under the agreement, BSC would enter into a separate operating and lease agreement with LLC for the constructed student housing apartment complex for use as a College student housing facility. There are no separate rent payments to be paid by LLC during the term of the Ground Lease agreement in exchange for use of the land.

On August 13, 2015, BSC and Student Housing, LLC entered into a five-year lease agreement to operate student housing services in the two newly constructed housing units (Ritchie Hall and Gate City Bank Hall). On August 28, 2020, an agreement was signed to extend the lease term until August 12, 2025. Under the agreement, BSC is responsible for payment of all rent, maintenance, and daily repair/maintenance of the facility, and restrictions of use of the facility as set forth in the lease. Student Housing, LLC is responsible for major repairs/maintenance and property and liability insurance on the facilities. The lease is classified as an operating lease on BSC financial statements and Student Housing, LLC financial statements includes the capitalized asset.

NORTH DAKOTA STATE UNIVERSITY AND NDSU RESEARCH AND TECHNOLOGY PARK, INC.

On December 30, 1999, North Dakota State University (NDSU), through the State of North Dakota and North Dakota State Board of Higher Education, entered into a ground lease, whereby the NDSU Research and Technology Park (RTP), Inc. (component unit) leases 40 acres of land for \$1 per year for the next seventy-five years.

On July 1, 2002, NDSU and the RTP entered into an agreement for cooperation and assistance between entities. The agreement is an annual agreement, which automatically extends for one-year periods unless cancelled by either party to the agreement.

During fiscal year 2017, NDSU and NDSU RTP entered into renewed agreements, whereby NDSU leases the Research Buildings I and II through June 30, 2032. During fiscal year 2021, total annual rent of \$312,000 was paid by NDSU for these two buildings, in addition to the \$1.78 million of principal and interest paid by NDSU directly to the bond trustee. NDSU reimbursed NDSU RTP \$36,644 for property insurance on the two buildings and directly pays the utility costs under these agreements. The annual rent will be re-adjusted by mutual agreement every two years. These agreements are subject to funding and legislative appropriations.

NDSU FOUNDATION

Fargodome Lease and Improvements

In fiscal year 2006, the Foundation financed the construction and equipping of office space, locker rooms, meetings rooms, and related facilities in the Fargodome for use by NDSU through the sale of revenue bonds issued by Cass County. The Foundation has leased the space in the Fargodome from the City of Fargo and subleased the space, furniture, fixtures and equipment to NDSU. Under the agreement, NDSU will pay rent to the NDSUFAA for use of the premises. The amount of the rent is tied to the \$3.5 million debt service retirement plus the Fargodome annual space rent and all costs incurred by the Foundation incident to the lease, less any contributions received by the Foundation for the project. Under this agreement in fiscal year 2021, the Foundation paid the debt service and other fees on behalf of NDSU in the amount of \$331,567.

The facility is included in long-term investments and the debt is included in long-term liabilities on the financial reports of the Foundation. Since the foundation is a discretely presented component unit of the System and the component unit and the System are reporting the same assets and debt for the Fargodome improvements, a reclassification entry was made to ending balances in the component unit consolidating financial statements to show the appropriate due from primary institution.

Renaissance Hall

The former Northern School Supply building was donated to the Foundation by NDSU alum in December of 2001. During fiscal year 2003 and 2004, the Foundation renovated the building with the intent to lease the facility to NDSU beginning fall 2004. The Foundation transferred nearly the entire ownership of the building to 650 NP Avenue, LLC and Kilbourne Design Group, LLC, for a five-year period in order to achieve tax credits that would ultimately reduce the cost of the building to NDSU. During the five-year tax credit period, NDSU leased the building from the two LLCs, with the lease payments composed of interest and fees. With the five-year tax credit period ending December 31, 2010 (as extended), and the ownership was transferred back to the Foundation,

STATE OF NORTH DAKOTA

permanent financing was put in place on December 17, 2010, with the issuance of \$5.65 million of 20-year University Facilities Lease Revenue Bonds, Series 2010 (Renaissance Hall Project). The financing structure involving the five-year temporary ownership transfer resulted in achieving tax credits of \$4.9 million which directly lowered the leasing cost to NDSU.

Under this refinanced debt issuance and lease agreement, as approved by the SBHE on December 16, 2010, the property is leased to NDSU for rent equal to the semi-annual principal and interest on the bonds, plus all costs incurred by the Foundation incident to ownership of the property. Ownership of the property will transfer to NDSU when the bonds are repaid in full. NDSU paid the Foundation \$414,000 in fiscal year 2021 for debt service under this agreement. As of June 30, 2020, the outstanding balance on the bonds, reflected as "Due to Component Units" by NDSU, is \$3.3 million.

Barry Hall Business Building and Klai Hall Architecture Building

Effective November 28, 2007, NDSU and the Foundation entered into lease agreements for two buildings in downtown Fargo, formerly known as the "Pioneer Mutual Building" and "Lincoln Mutual building". The Foundation financed the construction of the Barry Hall business building and Klai Hall architecture building projects through the sale of \$18.52 million of 20-year University Facilities Revenue Bonds issue by the City of Fargo, North Dakota. The City has loaned the bond proceeds to the Foundation for payments equal to the sum of the semi-annual interest payments and installments of varying principal amounts on the variable rate bonds and the semi-annual principal and interest payments on the fixed-rate bonds. The principal payments on the variable rate bonds will be funded from payments on donor pledges restricted for the project. Under the terms of the loan, the Foundation is responsible for the real estate taxes, insurance, repairs and maintenance, and other costs incident to ownership of the property. The property is included with property in the financial statements and the bonds have been recorded as a direct obligation of the Foundation. Ownership of the property will transfer to NDSU when the bonds are repaid in full. The bonds are guaranteed by the Foundation. This property is leased to NDSU for rental equal to the sum of the semi-annual interest only payments on the variable term bonds plus the semi-annual principal and interest payments on the fixed-rate bonds for the term of the bonds, plus all the costs incurred by the Foundation incident to ownership of the property.

In May 2012, the Foundation refinanced the original bonds issued in November 2007. As a result, new leases were executed. Under the terms of the new leases, NDSU pays and recognizes a liability for entire amount of the previously issued bonds. During fiscal year 2021, NDSU paid \$767,000 to the bond trustee on-behalf of the Foundation under the new leases for debt service on Barry Hall & Klai Hall. NDSU has an option to acquire the property upon full payment of the bonds. As of June 30, 2021, the outstanding balance on the bonds, reflected as "Due to Component Units" by NDSU, is \$7.7 million.

Other Transactions

The Foundation provides meeting space rental and database support service to NDSU for an annually negotiated fee. NDSU paid the foundation \$831,000 for the fiscal year ending December 31, 2020.

In addition to the debt service payments on the Fargodome, Renaissance, Barry and Klai Halls, NDSU reimburses the Foundation for other operating expenses related to those buildings, such as property insurance, flood insurance, boiler inspection fees, real estate taxes and bond administrative fees. Those costs totaled \$115,000 during the fiscal year ending December 31, 2020.

Based on an agreement that began January 1, 2015, and automatically renewed annually since then, NDSU pays \$87,592 of annual building rent to the Foundation for use the Criminal Justice and Public Policy building next to the NDSU main campus. This rent was paid again by NDSU during the fiscal year ending June 30, 2021.

The Foundation's fiscal year end is December 31, NDSU year end is June 30. Timing differences in amounts may occur between entity financial statements, due to different year end dates.

UNIVERSITY OF NORTH DAKOTA AND UND AEROSPACE FOUNDATION

The UND Aerospace Foundation (UND AF) recorded expenses reimbursed to UND for salaries, building rent, aircraft rental, and goods and services under an operating agreement aggregating \$7.3 million in fiscal year 2021. This operating agreement has no specific term and is intended to memorialize various operating agreements, rate structures, duties, and obligations each party has to the other. Expenses reimbursed to UND represent actual costs incurred and are included in training expenses in the consolidated statements of activities.

The UND AF recorded revenue for service and hangar, CRJ, 360-degree tower, and aircraft rental to UND of \$4.7 million in fiscal year 2021, which is included in program and event revenue in the Statement of Revenue, Expenses and Changes in Fund Net Assets for Component Units (FASB Basis) – University System Foundation.

As of June 30, 2021, the UND AF had recorded accounts payable to UND of \$1.8 million for reimbursable costs and services. As of June 30, 2021, the UND AF had recorded accounts receivable from UND of approximately \$1.5 million, which are included in accounts receivable in the statement of net assets for component units (FASB Basis) – University System Foundation.

STATE OF NORTH DAKOTA

The UND AF entered into a sublease with UND to lease the aircraft storage hangar/ground support equipment facility. The lease term is for 20 years, commencing on July 7, 2003, until July 6, 2023. For the first fifteen years of the sublease, UND will pay the Foundation's monthly minimum payment of \$12,672, beginning on October 1, 2003, subject to actual cost adjustments. At the end of the 15 years of the sublease, rent will be adjusted based upon the interest rate adjustments of the debt incurred by the Foundation in the construction of the hangar. Under this noncancellable sublease with UND, UND AF will receive future minimum rentals of \$1.6 million over the next five years.

UNIVERSITY OF NORTH DAKOTA AND RE ARENA, INC.

RE Arena Inc. and UND, enter into an annual operating agreement from July 1, 2017 to June 30, 2020. The operating agreement sets forth the facility usage, fees and services, ticket administration and revenue allocation, sponsorship sales administration and revenue allocation, and net income disposition. In accordance with this agreement: (i) RE Arena Inc. collects all ticket revenue from ticketed UND athletic events (hockey, football, men's and women's basketball, and volleyball), RE Arena, Inc. retains 52 percent of such ticket revenue and remits 48 percent to the UND, and (ii) RE Arena Inc. collects all sponsorship sales revenue from the UND athletic events at the arena, RE Arena, Inc. retains 64 percent of such sponsorship revenue, net of direct costs, and remits 36 percent to the UND net of direct costs. In addition, UND and RE Arena, Inc. jointly utilize the UND and RE Arena Inc. marketing staff to market and promote the UND athletic events.

RE Arena, Inc. may contract with UND for materials and personnel in service, utility and other areas and will reimburse UND based on separate agreements. Revenue and expense arrangements for all other UND events held at the arena will be negotiated on an event-by-event basis.

In fiscal year 2021, gross tickets sales were \$701,000 of which RE Arena, Inc. recognized revenue of \$365,000 with a net due to UND \$337,000.

At the end of the fiscal year 2021 UND owed REA \$776,000 due to the prepayment of their ticket sales allocation. Gross tickets sales for the next athletic season year are recorded in deferred revenue at gross by REA for a total of \$3.5 million.

RE Arena, Inc. recognized net sponsorship (advertising) revenue of approximately \$81,000 and the net due UND in sponsorship (advertising) income of approximately \$45,000. REA allocated \$0 of net income to UND athletic department. REA expensed \$699,000 to UND for utilities, maintenance staff, phone service and other. At the end of the fiscal year REA owed UND \$44,798 for monthly services. At the end of the fiscal year REA, owed UND \$5,600 for revenue for the 50/50 settlement.

Amounts are reported on the accrual basis of accounting, which may or may not be the same as that used by UND. RE Arena Inc.'s fiscal year end is May 31st, UND's fiscal year end is June 30th. Amounts may differ between entity financial statement because of timing differences due to different year ends.

UNIVERSITY OF NORTH DAKOTA AND UNIVERSITY OF NORTH DAKOTA FOUNDATION

UND is leasing space in the Gorecki Alumni Center in the amount of \$75,000 per year. Additional rental payments consisting of UND's share of the operating and maintenance costs for space used in the Gorecki Alumni Center are calculated annually.

During the year ended June 30, 2021, UND provided approximately \$1.5 million of institutional support for event and database support, annual giving campaign and shared positions. The UND Alumni Association and Foundation (Foundation) manages UND's endowment investments and charged them \$251,000 in investment management fees during the year ended June 30, 2021. These fees and support are reported as operations, fees and miscellaneous revenue on the Statement of Revenue, Expenses and Changes in Fund Net Assets for Component Units (FASB Basis) – University System Foundation.

The Foundation has accounts payable due to UND related to miscellaneous services and payments of approximately \$235,000.

The Foundation is leasing 45,000 square feet of land for the Gorecki Alumni Center from UND. Starting in 2016, the rate is \$0.10 per square foot, per year. The cost in fiscal year 2021 was \$4,500.

The UND Foundation has other receivables from UND related to the renovation of an existing building for the Energy and Environmental Research Center (EERC) and the construction of the Minot Center for Family Practice for \$2.9 million and \$1.6 million, respectively.

On July 24, 2002, the UND Foundation issued \$8.6 million of tax-exempt lease revenue bonds to finance the construction of an office building and the renovation of an existing building for the EERC of UND. The UND Foundation recorded a receivable from UND of \$8.6 million due under the direct-financing lease arrangement. On October 18, 2012, the UND Foundation issued Taxable

STATE OF NORTH DAKOTA

Refunding Lease Revenue Bonds, Series 2012 in the amount of \$6.4 million to refund its outstanding Lease Revenue Bonds, Series 2002.

The UND Foundation also amended the related lease agreement with UND. Interest accrues on the bonds at rates from 0.75 percent to 4.20 percent depending upon maturity. Annual principal and semiannual interest payments are due through fiscal year 2027 and as of June 30, 2021 were \$3.4 million. The bonds are secured by a lease with UND. The terms for the repayment are the same as the payment terms of the related bonds. During fiscal year ended June 30, 2021, the UND Foundation recorded payment of principal and interest of \$430,000 and approximately \$132,436, respectively. The interest is included in program and event income on the statement of activities.

On October 24, 2003, the UND Foundation issued \$4.4 million of tax-exempt lease revenue bonds to finance the purchase of land and the construction of a facility for occupancy by the Minot Center for Family Practice in Minot, North Dakota. The center is a department of the School of Medicine & Health Sciences at UND. The UND Foundation recorded a receivable from UND of \$4.4 million due under the direct-financing lease agreement. In June 2008, the \$3.7 million remaining balance of the 2003 bonds was refinanced with Lease Revenue Refunding Bonds, Series 2008. In April 2018, the \$2.2 million remaining balance of the 2008 bonds was refinanced with Lease Revenue Refunding Bonds, Series 2018. The bond matures as of April 1, 2028. The interest rate is fixed at 3.50 percent until 2028. Payments of \$133,333 are required semi-annually through 2028. The bonds are secured by a lease with UND. Annual principal and semiannual interest payments as of June 30, 2021 was \$266,669.

NOTE 12 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

BANK OF NORTH DAKOTA

The State, through the Bank of North Dakota, is a party to credit related financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, financial standby letters of credit and guarantees related to loan programs. Those instruments involve varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the statement of net position. The contract amounts of those instruments reflect the extent of involvement the State has in particular classes of off-balance-sheet financial instruments.

The State's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and financial standby letters of credit is represented by the contractual amount of those instruments. The State uses the same credit policies in making commitments and conditional obligations as it does for on- balance-sheet instruments.

	Contract Amount (in thousands)
Commitments to extend credit	\$ 1,242,214
Financial standby letters of credit	442,641
Guarantees provided	8,515

Commitments to extend credit are agreements to lend as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained by the State upon extension of credit is based on management's credit evaluation of the customer. Collateral held may include accounts receivable, inventory, property, plant and equipment, and income-producing commercial properties.

Financial standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Those letters of credit are primarily issued to support public borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank has segmented this category into three components: (1) letters of credit, (2) confirming letters of credit, and (3) letters of credit pledged for public deposits to North Dakota financial institutions.

Letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party which require this type of facility. The maturities for these letters range from one month to ten years, and the likelihood of funding any of these letters of credit is considered to be remote. The Bank holds collateral supporting those commitments. The Bank also has letters of credit with the North Dakota Public Finance Authority with maturities ranging from seventeen months to twenty nine years. If the letters issued to Public Finance Authority were ever drawn upon, Public Finance Authority is legally obligated to reimburse the Bank from funds legally available, or from any appropriation made available to the Legislative Assembly after

STATE OF NORTH DAKOTA

certification by the Industrial Commission. The likelihood of funding any of these letters of credit is also considered to be remote. Outstanding issued letters of credit as of December 31, 2020 were \$104,150,000.

Confirming letters of credit are issued to North Dakota financial institutions to support letters of credit they have issued but are still in need of backing from an institution with a long-term, high quality bond rating. In the event these letters were to be drawn upon, based on the terms of the agreement, the Bank would immediately withdraw funds from the institution's correspondent bank account held at the Bank to cover the amount drawn. These agreements generally have terms of 12 months or less. The likelihood of funding any of these confirming letters of credit is also considered to be remote. Outstanding issued confirming letters of credit as of December 31, 2020 were \$4,746,000.

Letters of credit pledged for public deposit to North Dakota financial institutions are issued to support public borrowing arrangements. These letters are fully collateralized by a pool of loans pledged to the Bank. These agreement generally have terms of 12 months or less. Financial standby letters for public deposits by North Dakota banks totaled \$333,745,000 at December 31, 2020. The likelihood of funding any of these letters of credit is also considered to be remote. These letters of credit are authorized form of collateral for public deposits per North Dakota Century Code 21-04-09.

The Bank has not recorded a contingent liability related to off-balance sheet activity as of December 31, 2020.

INFRASTRUCTURE REVOLVING LOAN PROGRAM

In the normal course of business, the Loan Fund makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$47,333,000 at June 30, 2021.

MEDICAL FACILITY INFRASTRUCTURE LOAN FUND

The Fund's exposure to loan loss is represented by the contractual amount of these commitments. There was one pending loan commitment totaling \$3,000,000 as of June 30, 2021.

NORTH DAKOTA HOUSING FINANCE AGENCY

In the normal course of business, the Agency makes various commitments that are not reflected in the financial statements. These include commitments to extend credit and the debt reduction required when related loan acquisition funds are not drawn down within prescribed time frames set by the specific bond resolution.

Commitments to extend credit are agreements to fund loans as long as there is no violation of any condition established in the contracts. Commitments require the payment of a reservation fee and generally have a fixed expiration date. Commitments to extend credit total \$90,155,000 at June 30, 2021.

The bond resolutions require that the funds in the loan acquisition accounts be expended within 42 months of the related bond delivery date. Any remaining funds must be used for debt reduction. The loan acquisition funds totaled \$102,833,000 at June 30, 2021.

PUBLIC FINANCE AUTHORITY

In the normal course of business, the Finance Authority (a component unit) makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$187,872,000 at December 31, 2020.

STATE OF NORTH DAKOTA

NOTE 13 - INTEREST RATE SWAP

BANK OF NORTH DAKOTA

The Bank has outstanding interest rate swap agreements with a notional amount \$545,000,000 to convert variable rate federal funds and variable LIBOR-indexed deposits into fixed-rate instruments over the term of the contract. The following table summarizes the terms of the interest rate swap contracts:

Trade Date	Maturity Date	Notional Amount	Pay Fixed	Receive Variable
June 5, 2014	June 1, 2029	\$50,000,000	2.86%	Fed Funds
April 14, 2015	May 1, 2030	\$50,000,000	1.92%	Fed Funds
August 11, 2016	September 1, 2031	\$50,000,000	1.48%	1 Month LIBOR
April 5, 2017	May 1, 2032	\$50,000,000	2.39%	1 Month LIBOR
June 15, 2017	July 1, 2032	\$50,000,000	1.99%	Fed Funds
March 27, 2018	April 1, 2033	\$50,000,000	2.47%	Fed Funds
June 28, 2018	July 1, 2033	\$50,000,000	2.52%	Fed Funds
April 25, 2019	May 1, 2034	\$50,000,000	2.36%	Fed Funds
September 3, 2019	October 1, 2034	\$50,000,000	1.15%	Fed Funds
October 3, 2019	November 1, 2034	\$50,000,000	1.38%	Fed Funds
December 5, 2019	October 1, 2023	\$45,000,000	1.33%	Fed Funds

Either the Bank or its counterparties may terminate the interest rate swap if the other party fails to perform under the terms of the contract. Termination could result in the Bank being required to make a payment of the fair value of the swap to counterparty.

The following table summarizes the derivative financial instrument utilized at December 31, 2020:

Swap	National Amount	Fair Value		Changes in Fair Value	
		Classification	Amount	Classification	Amount
June 2014	\$ 50,000,000	Other liabilities	\$ (9,461,000)	Deferred outflow	\$ (3,993,000)
April 2015	50,000,000	Other liabilities	(5,717,000)	Deferred outflow	(4,439,000)
August 2016	50,000,000	Other liabilities	(3,274,000)	Deferred outflow	(4,996,000)
April 2017	50,000,000	Other liabilities	(8,223,000)	Deferred outflow	(5,050,000)
June 2017	50,000,000	Other liabilities	(6,492,000)	Deferred outflow	(4,892,000)
March 2018	50,000,000	Other liabilities	(9,509,000)	Deferred outflow	(5,016,000)
June 2018	50,000,000	Other liabilities	(9,895,000)	Deferred outflow	(5,069,000)
April 2019	50,000,000	Other liabilities	(9,248,000)	Deferred outflow	(5,247,000)
Sept 2019	50,000,000	Other liabilities	(1,288,000)	Deferred outflow	(5,291,000)
Oct 2019	50,000,000	Other liabilities	(2,851,000)	Deferred outflow	(5,313,000)
Dec 2019	45,000,000	Other liabilities	(1,546,000)	Deferred outflow	(1,740,000)

At December 31, 2020, the Bank was not exposed to material credit risk because each counterparty is required to fully collateralize the fair value of the swaps within \$250 of daily mark-to-market valuations by depositing funds with the other counterparty.

The Bank is exposed to interest rate risk on its swap agreements. On its pay-fixed, receive variable interest rate swaps, the Bank's net payment increases as the USD-FEDERAL FUNDS-H.15 and USD-1 MONTH LIBOR-BBA interest rates decrease.

STATE OF NORTH DAKOTA

Using rates as of December 31, 2020, the interest expense of the variable rate federal funds, variable rate 1 month LIBOR and the net swap payments are as follows. As rates vary, the federal fund and 1 month LIBOR interest expense and the net swap payments will vary.

Year Ended December 31:	Pay Fixed	Receive Variable		Interest Rate Swap, net
	Contract Interest	Federal Fund Interest	1-Month LIBOR Interest	
2021	\$ 10,856,000	\$ 401,000	\$ 154,000	\$ 10,301,000
2022	10,856,000	401,000	154,000	10,301,000
2023	10,706,000	391,000	154,000	10,161,000
2024	10,258,000	360,000	154,000	9,744,000
2025	10,258,000	360,000	154,000	9,744,000
2026-2030	48,474,000	4,934,000	770,000	42,770,000
2031-2035	18,239,000	3,252,000	154,000	14,833,000
	<u>\$ 119,647,000</u>	<u>\$ 10,099,000</u>	<u>\$ 1,694,000</u>	<u>\$ 107,854,000</u>

NORTH DAKOTA HOUSING FINANCE AGENCY

As a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance, the Agency entered into several cash flow hedges or swaps in connection with various variable-rate housing bond series. The Agency cash flow hedges are pay-fixed. All Agency cash flow hedges are pay-fixed. The intention of these swaps was to effectively change the Agency's interest rate on the bonds to a fixed rate. The Agency also has cash flow hedges that were entered into in connection with variable-rate housing bond series that no longer have bonds outstanding as those bonds have been called. The cash flow hedges that are not connected to a specific bond series hedge the risk related to the Agency's other variable-rate housing bonds that are unhedged.

The bonds and the related swap agreements have a stated issuance and maturity date. Some of the swaps have optional termination dates. Under the swaps, the Agency pays the counterparty a fixed payment and receives a variable payment computed as a percent of the London Interbank Offered Rate (LIBOR) plus a fixed percentage on the swap notional amount. On the other hand, the bond's variable-rate coupons are determined by the remarketing agent. If for any reason the remarketing agent fails to act, the rate shall be the lesser of (i) the TBMA Index plus 0.25% or (ii) the Maximum Rate as defined within the applicable series resolution.

As of June 30, 2021, the Agency no swaps with a positive fair value. Of the swaps with negative fair value, the Agency is not exposed to credit risk. However, the swap exposes the Agency to basis risk should the relationship between LIBOR and TBMA converge, changing the synthetic rate on bonds. The swap counterparty has guaranteed all payments and is rated AAa/AA+/AAA by Moody's Investor Services, Standard & Poor's, and Fitch, respectively. To mitigate potential credit risk, the counterparty has entered into Credit Support Agreements with Bank of New York Mellon, the Royal Bank of Canada and Wells Fargo as a credit enhancement.

The Agency has entered into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements netting provisions permit each party to net the transactions' fair values so that a single sum will be owed by, or owed to, the other party. At June 30, 2021, the Agency owed the swap providers a fixed rate on the notional amount of the swaps of \$2,367,000 and the swap providers owed the Agency a variable rate on the notional amounts of \$140,000 making the net payment that the Agency owed the swap providers \$2,227,000.

Due to the difference in the variable rate indices, the swaps had a net negative fair value of \$10,361,000 as of June 30, 2021. Accordingly, the financial derivative instrument is reported as a liability and the accumulated changes in fair value of the swaps are reported as a deferred outflow at June 30, 2021. The coupon on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. All valuations are as of the valuation date indicated. Mid-Market or indicative unwind valuations may be derived from broker quotations or from proprietary models that take into consideration estimates about relevant present and future market conditions as well as the size and liquidity of the position and any related actual or potential hedging transactions. Valuations based on other models or different assumptions may yield different results.

The swap exposes the Agency to basis risk should the relationship between LIBOR and the actual variable rates converge, changing the synthetic rate on the bonds. The effect of this difference in basis is indicated by the difference between the intended synthetic rate and the synthetic rate as of June 30, 2021. If a change occurs that results in the rates' moving to convergence, the expected cost savings may not be realized.

STATE OF NORTH DAKOTA

The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination event." That is, the swap may be terminated if counterparty's credit quality rating falls below "A3" as issued by Moody's Investors Service or "A-" as issued by Fitch Ratings or Standard & Poor's. The swap may be terminated at any time by the Agency or the counterparty with 30 days written notice up to limits specified in the swap agreement. If the swap or swaps were terminated, the variable-rate bonds would no longer carry a synthetic interest rate. Also, if at the time of termination the swap has a negative fair value, the Agency would be liable to the counterparty for payment equal to the swap's fair value, but in the event the fair value is positive, the counterparty would be liable to the Agency.

The Agency is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to maturity of the hedged debt. When these hedging derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, the Agency will be re-exposed to the risks being hedged by the hedging derivative instrument. The Agency also is exposed to rollover risk on the swaps that mature and the Agency does not call the related variable rate debt.

The terms of the interest rate swaps at June 30, 2021 are as follows:

1. Bond Series	2014 B		2015 C		2015 E		2015 F	
2. Issuance Date	6/24/2014		6/23/2015		5/1/2016		12/8/2015	
3. Maturity Date	7/1/2044		1/1/2046		7/1/2036		1/1/2047	
4. Notional Amount	\$	27,055,000	\$	17,700,000	\$	22,410,000	\$	17,435,000
5. Variable-rate Bonds	\$	27,055,000	\$	17,700,000	\$	22,410,000	\$	17,435,000
6. Fixed Rate	2.890 %		2.486 %		2.257 %		2.320 %	
7. LIBOR Percentage	65.80 %		66.20 %		66.40 %		100.00 %	
8. Additional Percentage	0.17 %		0.10 %		0.22 %		0.00 %	
9. Bonds Variable-rate	0.00400 %		0.02000 %		0.02000 %		0.09000 %	
10. Fair Value	\$	(357,000)	\$	(299,000)	\$	(744,000)	\$	(866,000)

STATE OF NORTH DAKOTA

Using rates as of June 30, 2021, debt service requirements of the variable-rate debt and net swap payments are as follows. Interest calculations were based on rates as of June 30, 2021. As rates vary, variable-rate bond interest payments and net swap payments will vary. (Expressed in thousands.)

Fiscal Year Ending June 30	Variable-Rate Bond		Interest Rate Swap, Net	Total
	Principal	Interest		
2022	\$ 1,670	\$ 730	\$ 4,437	\$ 6,837
2023	1,530	728	4,393	6,651

2037-2041	56,825	922	8,747	66,494
2042-2046	35,595	238	2,630	38,463
2047-2051	6,585	14	356	6,955
	<u>\$ 180,015</u>	<u>\$ 9,033</u>	<u>\$ 68,725</u>	<u>\$ 257,773</u>

NOTE 14 - SIGNIFICANT CONCENTRATIONS OF CREDIT RISK

Most of the State's business is with customers within the state. Concentrations of credit are present in the construction and operation of community water facilities, loans to medical facilities for health care construction, loans to students for post-secondary education, loans to owners of homes damaged in the 2011 floods in Barnes, Benson, Burleigh, McHenry, Morton, Ramsey, Renville, Richland and Ward counties, loans to political subdivisions in the state for infrastructure, single-family and multifamily mortgage loans, loans to assist local financial institutions in providing loans to assist very small businesses in their recovery from the impacts caused by the COVID-19 pandemic, loans to provide financing for commercialization of intellectual technology within the State and the agricultural industry. Due to the pervasive nature of agriculture in the economy of the state, all loans, regardless of type, are impacted by agriculture.

NOTE 15 - RISK MANAGEMENT

Several funds accumulate assets to cover risks that the State may incur. Specifically, the State assumes a portion or substantially all risks associated with the following:

THE STATE FIRE AND TORNADO FUND

The State Fire and Tornado Fund, an Enterprise Fund, is financed by premiums charged to the participating funds of the State. All monies collected must be paid into the fund for use only for the purpose outlined in NDCC 26.1-22.02.

All losses occasioned by the hazards provided for in the North Dakota Century Code must be paid out of the fund, with the fund being reimbursed by a third-party insurance carrier for all losses in excess of \$1,000,000 per occurrence. The limit of liability of such reinsurance contract is no less than \$1,000,000 during each twelve month period.

STATE BONDING FUND

The State Bonding Fund, an Enterprise Fund, is financed by premiums charged to each State agency for the bonding of public employees and public officials.

FLEET SERVICES

Fleet Services, an Internal Service Fund, represents the State's fleet of automobiles and is administered by the Department of Transportation. The State is self-insured for substantially all automobile insurance (e.g., comprehensive, collision), with the exception of liability, which is provided by the State's Risk Management Fund (RMF). State agencies are charged premiums to cover Fleet Service's RMF assessment and to pay for those losses that are not covered by RMF. These premium charges are factored into the fees agencies are charged when renting the cars.

STATE OF NORTH DAKOTA

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a State insurance fund and a “no fault” insurance system, covering the State’s employers and employees. WSI is financed by premiums assessed to employers. The rate of such premiums is periodically adjusted to assure the solvency of WSI. The premiums are available primarily for the payment of claims to employees injured in the course of employment. During fiscal year 2021, a total of \$94,913,286 in claims was recognized. The liability of \$1,000,099,000 is the present value of the unpaid claim liability discounted at 4% as determined by the actuarial.

RISK MANAGEMENT FUND

Due to the loss of sovereign immunity, the 1995 Legislature established the Risk Management Fund (RMF) to pay money damages for tort claims for which the State is liable. The statutory liability of the State is limited to a total of \$250,000 per person and \$1,000,000 per occurrence. The State purchases commercial insurance for claims in excess of coverage provided by the Fund and continues to transfer liabilities for medical malpractice and aviation to private insurance carriers. Settlements have not exceeded insurance coverage in any of the past three fiscal years.

Revenues to the RMF are generated from contributions required from state agencies, boards and commissions, and the University System. The need for and amount of funding is determined using a projected cost allocation approach. The premise of this plan is that the agencies with greater expected loss costs should contribute more to the funding of the RMF than those agencies with lesser costs. The underlying logic is that contributions should roughly equal loss costs plus the expenses of administering the program over the long term.

The RMF liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Unpaid claim liabilities are based on an actuarial study of the outstanding loss reserve need for the fund and a forecast of ultimate loss and loss expense. These liabilities were determined on an undiscounted expected level of ultimate loss. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrines, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re- evaluated periodically to take in consideration settled claims, the frequency of claims, and other economic and social factors.

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2021 and 2020:

Fiscal Year	Beginning Balance	Current Year Claims and Changes In Estimates	Claims Payments	Ending Balance
2021	\$ 3,746,363	\$ 641,476	\$ (639,530)	\$ 3,748,309
2020	3,767,002	979,298	(999,937)	3,746,363

The Risk Management Workers Compensation Program (WCP) was established to consolidate all state entities under one workers compensation account, allowing for transitional duty between entities. The statutory liability of the fund is limited to \$100,000 per claim with Workforce Safety & Insurance, providing excess insurance for claims that exceed the \$100,000 cap. WCP pays separately for this coverage. Since the inception of WCP on July 1, 2001, fifty claims exceeded coverage by \$14,982,091.

Revenues to WCP are generated from contributions required from state agencies, boards, commissions, and the University System. The amount contributed from each agency is actuarially determined by Workforce Safety & Insurance and based upon the number of employees, the type of work done, and claims history of each entity. Each entity also pays a deductible of \$250 per claim.

The WCP liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrine, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re- evaluated periodically to take into consideration settled claims, the frequency of claims, and other economic and social factors. An actual study was performed for Workforce Safety & Insurance. The liability estimates are based on that study.

STATE OF NORTH DAKOTA

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2021 and 2020:

Fiscal Year	Beginning Balance	Current Year Claims and Changes In Estimates	Claims Payments	Ending Balance
2021	\$ 4,938,728	\$ 1,248,167	\$ (2,723,924)	\$ 3,462,971
2020	4,358,636	3,669,716	(3,089,624)	4,938,728

NOTE 16 - PUBLIC ENTITY RISK POOLS

A. GENERAL

FIRE AND TORNADO AND BONDING FUND

The Fire and Tornado Fund provides property insurance to state agencies, political subdivisions, the International Peace Garden and the Winter Show. The Fire and Tornado Fund has issued 1,197 policies to participating entities for a total building and content coverage of \$17.4 billion. The Bonding Fund is used to provide fidelity bonding of public employees and officials. The Fund has issued 2,102 policies to participating entities. The total coverage for the Bonding Fund is \$791.9 million. If the assets of these funds were exhausted, fund participants would not be responsible for the funds' liabilities.

The Fire and Tornado and Bonding Fund are accounted for on the accrual basis. The Fire and Tornado Fund establishes claim liabilities based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims incurred but not reported. The Bonding Fund establishes claim liabilities based on actual judgments obtained against the fund but not paid prior to fiscal year end. Liabilities for incurred but not reported losses have not been established based on prior year activity. Neither fund incurred any acquisition costs, which should have been capitalized, nor were any liabilities recognized that were discounted. Investment income was not considered in determining the existence of premium deficiencies.

The Fire and Tornado Fund uses reinsurance agreements to reduce its on covered losses in excess of \$2.0 million. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Fund as direct insurer of the risks that are reinsured. The Fire and Tornado Fund does not report reinsured risks as liabilities unless it is probable that those risks will not be covered by reinsurers. There were no pending losses at June 30, 2021 that would reduce the fund's liability.

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a state insurance fund and a "no fault" insurance system covering the State's employers and employees. At June 30, 2021, coverage extended to the following employers:

Annual Premium	
\$250 - \$5,000	20,269
\$5,001 - \$50,000	3,896
\$50,001 - \$100,000	329
Over \$100,000	284
Total Employers	24,778

WSI is financed by premiums assessed to the employers doing business in North Dakota. The premiums are available primarily for the payment of claims to employees injured in the course of employment.

The operations of WSI are accounted for on the accrual basis. Liability for incurred loss and loss adjustment expense (LAE) is estimated by WSI's actuary. The estimate is developed by WSI's actuary, taking into consideration past experience of WSI in paying claims, and general conditions of the environment in which WSI operates. The liability is based on the estimated ultimate costs to settle both reported and incurred but not report (IBNR) losses and LAE, and includes the effects of inflation and other societal and economic factors. The actuarial computations also include a 4% discount to report this liability at its present value.

Management believes the estimated liability for losses and loss adjustment expense is sufficient to cover the ultimate net cost of incurred losses, but such loss reserves are necessarily based on estimates and the ultimate liability may be greater or less than the amounts estimated. As adjustments to this estimated liability become necessary, such adjustments are reflected in current operations.

STATE OF NORTH DAKOTA

For the year ended June 30, 2021, the consulting actuaries presented an estimate in the form of a range to emphasize the uncertainty for a "long-tailed" liability insurer such as workers' compensation. These ranges are as follows (expressed in thousands):

	Low	Central Value	High
Full value basis, undiscounted	\$ 1,386,532	\$ 1,508,257	\$ 1,602,757
Present value basis, discounted at 4%	922,493	1,000,099	1,060,916

WSI has adjusted the estimated liability for unpaid loss and loss adjustment expense to the actuary's 4 percent discounted expected value of \$1,000,099,000 at June 30, 2021.

While management has recorded amounts that fall within the ranges of estimated liabilities as computed under actuarial assumptions, the high level of uncertainty indicates that actual losses and expenses could be materially higher than the recorded estimated liability.

WSI has entered into a contract with an intermediary for reinsurance coverage for catastrophic coverage. Historically, WSI has had up to four coverage levels, with varying retention limits of \$3 million, \$5 million, \$10 million and \$20 million. Terms, limits and pricing are re-evaluated annually. WSI's current 2021 calendar year has two coverage levels, with retention limits of \$10 million and \$20 million. For the year ended June 30, 2021 WSI recorded ceded losses of \$(8,595,236) and ceded premiums of (\$767,031).

B. RECONCILIATION OF CLAIMS LIABILITIES

The following is a reconciliation of total claims liabilities, including an analysis of changes in aggregate liabilities for claims and claim adjustment expenses for the current fiscal year and the prior year (expressed in thousands):

	Fire And Tornado		Bonding		Workforce Safety & Ins	
	2021	2020	2021	2020	2021	2020
Unpaid claims and claims adjustment expenses at the beginning of the year	\$ 1,031	\$ 678	\$ 134	\$ 98	\$1,029,792	\$1,090,944
Incurring claims and claims adjustment expenses:						
Provision for current fiscal year	3,511	2,576	59	(2)	144,856	176,999
Change in provision for prior fiscal year	(2,645)	30	—	—	(141,790)	(88,508)
Payments and claims and adjustment expenses attributable to:						
Current fiscal year insured events	(3,705)	(2,253)	(193)	136	(32,823)	(41,898)
Prior fiscal years' insured events	—	—	134	(98)	(91,783)	(143,212)
Total Payments	(3,705)	(2,253)	(59)	38	(124,606)	(185,110)
Change in provision for discount	—	—	—	—	91,847	35,467
Total unpaid claims and claims adjustment expenses at the end of the year	<u>\$ (1,808)</u>	<u>\$ 1,031</u>	<u>\$ 134</u>	<u>\$ 134</u>	<u>\$1,000,099</u>	<u>\$1,029,792</u>

NOTE 17 - BANK OF NORTH DAKOTA

GASB Statement No. 34 requires assets and liabilities of enterprise funds be presented in a classified format to distinguish between current and long-term assets and liabilities. The Bank of North Dakota is the only government-owned bank in the United States. Banks do not present a classified statement of net position because current assets are not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Therefore, the statement of net position of the Bank of North Dakota presents assets and liabilities in order of their relative liquidity, rather than in a classified format.

STATE OF NORTH DAKOTA

NOTE 18 - COMMITMENTS AND CONTINGENCIES

A. *LONG-TERM COMMITMENTS*

INDUSTRIAL COMMISSION

The Industrial Commission has entered into various contracts with third parties for the following programs regarding lignite research, oil and gas research, renewable energy and for the outdoor heritage program. As of June 30, 2021, the total outstanding balance on these contracts was \$74.9 million.

MILL AND ELEVATOR

As of June 30, 2021, the Mill had commitments to purchase 4,417,779 bushels of spring wheat and 518,161 bushels of durum.

JOB SERVICE NORTH DAKOTA

As of June 30, 2021, the Agency has commitments to pay \$1,811,978 for purchase orders and contracts awarded for goods, services, software licenses and software support to be provided in future periods, all of which are federally funded.

HOUSING INCENTIVE FUND

The Fund makes various commitments relating to construction projects to meet unmet housing needs across North Dakota. The Fund had \$5,607,792 of signed commitments for construction projects as of June 30, 2021. The Fund had an \$10,265,335 of HIF funds awarded for construction projects as of June 30, 2021. The total paid on these commitments as of June 30, 2020 was \$4,657,543.

DEPARTMENT OF HUMAN SERVICES

As of June 30, 2021, the Department of Human Services had significant commitments for the purchase of various types of services totaling \$701,375,803.

NORTH DAKOTA LOTTERY

The Lottery contracts with a third party to provide an online gaming system and related services through June 30, 2022. Total payment for these services during the year ended June 30, 2021 were \$3.2 million based on 10.473% of ticket sales. The Lottery's future obligation through June 30, 2022 is based on 10.473% of ticket sales, there is no minimum fee or retainer fee.

NORTH DAKOTA DEPARTMENT OF TRANSPORTATION

At June 30, 2021, the North Dakota Department of Transportation (Special Revenue Fund) had non-construction contract commitments of approximately \$79 million. Construction commitments at June 30, 2021 totaled approximately \$277 million, of which \$212 million represents federal programs which are cost reimbursable. These commitments will be funded with future appropriations as work is performed.

NORTH DAKOTA DEVELOPMENT FUND

The board of directors has approved equity investments, loans, grants, and guaranty of collections at June 30, 2021, for which funds have not been disbursed or written agreements entered into in the amount of \$1,783,362.

NORTH DAKOTA SOYBEAN COUNCIL

As of June 30, 2021, the North Dakota Soybean Council had significant commitments of approximately \$2.8 million. This amount mainly consists of grants for the research and development of soybeans.

STATE WATER COMMISSION

As of June 30, 2021, the State Water Commission had long-term commitments of \$288.1 million for various water projects.

STATE OF NORTH DAKOTA

UNIVERSITY SYSTEMS

Contracts for the construction of various projects on behalf of the University System have been let as follows (expressed in thousands):

	Original Issue	Paid To Date	Amount To Be Paid
DCB	\$ 3,283	\$ 1,267	\$ 2,016
DSU	4,274	3,510	764
LRSC	—	—	—
MaSU	651	187	464
MiSU	429	155	274
NDSCS	1,011	660	351
NDSU	101,691	55,333	46,358
UND	246,070	189,948	56,122
VCSU	30,608	19,098	11,510
WSC	8,433	8,432	1
Total	<u>\$ 396,450</u>	<u>\$ 278,590</u>	<u>\$ 117,860</u>

OTHER CONSTRUCTION COMMITMENTS

That State has entered into construction commitments. As of June 30, 2021, the following commitment exists on other construction contracts, in thousands:

Office of Management and Budget	\$ 10
Secretary of State	892
Attorney General	301
School for the Deaf	70
Health Department	843
Department of Human Services	14,751
Industrial Commission	477
Corrections and Rehab	267
Adjutant General	3,704
Game and Fish	983
Parks and Recreation	2,248
Department of Transportation	121,953

B. LITIGATION

The State is liable for two judgements in the amount \$876,000. These judgements will be satisfied by funds appropriated by the 2021 Legislature.

C. QUESTIONED COSTS

The State receives federal financial assistance which is subject to review and audit by the Office of the State Auditor and the federal government. This assistance is generally conditioned upon compliance with certain laws and regulations. Disallowed and questioned costs relating to federal assistance could become a liability to the State. The State estimates that the ultimate disallowances pertaining to federal assistance, if any, will be immaterial to its overall financial condition. The single audit of the State of North Dakota for the two-year period ending June 30, 2020, was completed and issued in March of 2021. As a result of this audit, approximately \$178,000 of identifiable questioned costs were noted. Also, there were several findings which had potentially significant, unknown, questioned costs. The State is cooperating with the federal government to resolve the findings and is optimistic these findings will not have a material impact on the State.

STATE OF NORTH DAKOTA

NOTE 19 – TOBACCO SETTLEMENT

In November 1998, the North Dakota Attorney General joined forty-five other states and five territories in a settlement agreement against the nation's largest tobacco manufacturer. The settlement money is intended to compensate the State for costs it has incurred in providing health and other services to its citizens that were necessitated by the use of tobacco products. The Master Settlement Agreement includes base payments to states totaling \$220.6 billion for the next 25 years, and continues in perpetuity. The State has received total payments of \$539.87 million as of June 30, 2021. The State recognized revenue of \$22.6 million of tobacco settlement revenue during the year ended June 30, 2021. The amount of the annual payment is subject to a number of modifications, including adjustments for inflation and usage volumes. Some of the adjustments may result in increases in the payments (inflation, for example), or other adjustments will likely cause decreases in the payments (e.g., volume adjustments). The net effect of these adjustments on future payments is unclear.

NOTE 20 - SUBSEQUENT EVENTS

PUBLIC FINANCE AUTHORITY

Subsequent to year end, the Authority issued \$2.13 million of capital financing program bonds payable. The bonds have an interest rate ranging from 2.125% to 5.00% and mature between 2022 and 2041.

WATER INFRASTRUCTURE REVOLVING LOAN FUND

As of July 1, 2021, the Community Water Facility Loan Program merged with the State Water Commission Revolving Loan Fund to create the Water Infrastructure Revolving Loan Fund. The outstanding loans total \$35.4 million to 57 borrowers.

MEDICAL FACILITY INFRASTRUCTURE LOAN FUND

The Fund has \$3.0 million of outstanding loan commitments.

FUEL PRODUCTION GUARANTEE PROGRAM

The 2019 legislature approved \$50 million from the Strategic Investment and Improvement Fund to be used to guarantee loans made under this program. The Bank of North Dakota received loan applications from 4 borrowers totaling \$49.9 million due to the impact the pandemic had on ethanol production facilities in North Dakota. The 2021 legislature Special Session approved \$21 million of debt reduction for the 4 borrowers that were provided loans in this program. These funds are to be distributed in December 2021.

UNIVERSITY SYSTEMS

In August 2021, MiSU refunded its Student Services Facilities Revenue Bonds, Series 2010, with a current outstanding principal balance of \$8.4 million. The principal balance for the new Student Services Facilities Revenue Refunding Bonds, Series 2021, is \$7.4 million. In addition, using funds on hand, MiSU established an escrow fund with the Bank of North Dakota sufficient to defease the Student services Facilities Revenue Refunding bonds, Series 2015. The 2015 issue has a current outstanding principal balance of \$2.3 million. The escrow agent will use the funds to pay principal and interest for the 2022 through 2024 maturities and then, redeem the bonds on the optional redemption date of August 1, 2025.

In August, 2021, UND issued Tax Exempt Certificates of Participation, Series 2021A for \$133 million and Taxable Refunding Certificates of Participation, Series 2021B for \$18.3 million.

The proceeds of Series 2021A will be used to fund the cost of major renovations to Brannon Hall, and minor renovations to Noren Hall and Selke Hall; demolition of the following residence halls (based upon student demand): Bek Hall, Hancock Hall, Squires Hall, Walsh Hall, Fulton Hall, Johnston Hall, Smith Hall, McVey Hall, and West Hall; demolition of certain University-owned apartments representing up to 548 total units (based upon student demand), constructing a 400-bed student housing facility to be named McVey Hall, which will replace the existing McVey Hall; and constructing a 477-bed student housing facility to be called West Hall, which will replace the University's existing West Hall. The certificates mature in 2061 with a net interest cost of 2.972 percent.

The proceeds of the Series 2021B will advance refund the outstanding principal and accrued interest of UND's Housing and Auxiliary Facilities Revenue Bonds, Series 2012 (Wellness Center) and Series 2013 bonds (Hamline Square). The 2021B matures in 2023 with a net interest cost of 1.996 percent.

STATE OF NORTH DAKOTA

NOTE 21 - NEW PRONOUNCEMENTS

The State implemented the following new pronouncement for fiscal year 2021:

GASB Statement No. 84, *Fiduciary Activities*, provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

GASB Statement No. 90, *Majority Equity Interests*, provides guidance for reporting when a government has majority equity interest in legally separate organizations. An equity interest is explicit and measurable if the government has a present or future claim to the net resources of the entity and the method for measuring the government's share of the entity's net resources is determinable. If government's holding of that equity interest meets the definition of an investment, as defined by GASB No. 72, the equity interest should be reported as an investment and measured using the equity method and not as a component unit of the government. If a government's holding of a majority interest in a legally separate organization does not meet the definition of an investment, the holding of the majority equity interest results in the government being financially accountable for the organization and therefore, the government should report the legally separate organization as a component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 98, *The Annual Comprehensive Financial Report*, was implemented during fiscal year 2021 by renaming the State's annual report to the "Annual Comprehensive Financial Report" or "ACFR" for short.

Management has not yet determined the effect these Statements will have on the State's financial statements.

The State will implement the following new pronouncements for fiscal years ending after 2021:

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Earlier application is encouraged.

GASB Statement No. 92, *Omnibus 2020*, provides additional guidance to improve consistency of authoritative literature by addressing practice issues identified during the application of certain GASB statements. This statement provides accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activity of public entity risk pools, fair value measurements and derivative instruments. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

STATE OF NORTH DAKOTA

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides guidance to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR), most notable, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. This statement provides exceptions and clarifications regarding hedging derivative instruments for such transactions that result from the replacement of IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The statement provides definitions of PPPs and APAs and provides uniform guidance on accounting and financial reporting for transactions that meet those definitions. A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 96, *Subscription-Based Information Arrangements* provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. Under this Statement, a government generally should recognize a right-to use subscription asset—an intangible asset—and a corresponding subscription liability. The requirements of this Statement will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* provides additional guidance for determining whether a primary government is financially accountable for a potential component unit. This Statement requires that the financial burden criterion in paragraph 7 of Statement No. 84, *Fiduciary Activities*, be applicable to only defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement No. 67, *Financial Reporting for Pension Plans*, or paragraph 3 of Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, respectively. This Statement (1) requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and (2) clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, are effective immediately. The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021.

Required Supplementary Information

STATE OF NORTH DAKOTA

Required Supplemental Information Budgetary Comparison Schedule General Fund For the Biennium Ended June 30, 2021

STATE OF NORTH DAKOTA

Required Supplemental Information Budgetary Comparison Schedule Budget to GAAP Reconciliation General Fund For the Biennium Ended June 30, 2021

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the General Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	5,751,904,322
Backing out 2020 Activity	(2,549,891,716)
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	(882,649,954)
Funds considered General funds for GAAP but not for Budget	2,122,200,523
Certain due from other funds are recorded under GAAP, but not Budget	1,368,459
Reimbursement activity between state agencies is eliminated only for GAAP	(3,619,773)
Proceeds are recorded for new capital leases on GAAP, but not for Budget	110,672
Repayment received on loan receivable are revenue for Budget to GAAP	16,484,426
Total revenues, capital lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 4,455,906,959</u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	4,675,957,248
Backing out Expenditures from FY2020	(2,347,140,466)
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	42,805,752
Funds considered General funds for GAAP but not for Budget	102,335,220
New capital leases are recorded as expenditures for GAAP, but not for Budget	110,672
Certain due to other funds are recorded under GAAP, but not for Budget	(27,204,404)
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,446,864,022</u>

Required Supplemental Information Budgetary Comparison Schedule Budget to GAAP Reconciliation Federal Fund For the Biennium ended June 30, 2021

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the Federal Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	4,850,532,685
Backing out 2020 activity	(1,888,466,071)
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	(17,020,063)
Total revenues, capital lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,945,046,551</u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	4,850,532,685
Backing out Expenditures from FY2020	(1,888,466,071)
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	1,005,221,438
New Loans issued are expenditures for Budget but not for GAAP	(12,683,928)
GAAP, but not Budget expenditures are reduced by year end inventory balances	11,596,697
Intrafund activity eliminated for GAAP	(1,041,747,857)
Certain due to other funds are recorded under GAAP, but not for Budget	569,781
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,925,022,745</u>

New Loans issued are expenditures for Budget but not for GAAP	(8,746,419)
GAAP, but not Budget expenditures are reduced by year end inventory balances	27,709
Intrafund activity eliminated for GAAP	(470,361,568)
Certain due to other funds are recorded under GAAP, but not for Budget	3,917,427
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,396,270,011</u>

STATE OF NORTH DAKOTA

Note To Required Supplemental Information - Budgetary Reporting For the Biennium Ended June 30, 2021

The Budgetary Comparison Schedules present comparisons of the original and revised legally adopted budgets with actual data on a budgetary basis for major funds. The only major fund with a legally adopted budget is the General Fund. All other funds are budgeted together as "Other Budgeted Funds." A budgetary schedule has been done for these other funds because they include budgeted amounts for the Federal Fund and State Funds, which are major special revenue funds. These amounts are reported on the schedules entitled "Federal Funds" and "State Funds".

North Dakota's Appropriation Acts include a dual legal level of budgetary control - one at the General Fund versus Other Budget Income level for each agency and one at the line item level for each agency. Line items are not separate between General Fund and Other Budgeted Income so that control is not presented in our budgetary comparison schedule for major funds. The legal level of control for all agencies is reported in a publication titled "State of North Dakota 2019-2021 Biennium Budget and Actual Detail (Budgetary Basis) For the Biennium Ended June 30, 2021." This budget information is available through the Office of Management and Budget, 600 East Boulevard Ave Dept. 110, Bismarck, ND 58505. For the 2019-2021 biennium there were general, federal, and special fund supplemental appropriations of \$3,966,192,100.

The Budgetary Comparison Schedule reports expenditures on a budgetary basis. The accounting principles applied for purposes of developing data on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. Reconciliations of the three for the Biennium ended June 30, 2021, for the General Fund, Federal Fund, and State Fund is on the previous pages.

STATE OF NORTH DAKOTA

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2021

ND Public Employees Retirement System

Benefit Changes	The interest rate earned on member contributions decreased from 7.00 percent to 6.50 percent effective January 1, 2021 (based on the adopted decrease in the investment return assumption). There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2020.
Changes of Assumptions	All actuarial assumptions used in the July 1, 2021 valuation are the same as the last actuarial valuation as of July 1, 2020.

Highway Patrolmen's Retirement System

Benefit Changes	There were no benefit changes during the year.
Changes of Assumptions	All actuarial assumptions used in the July 1, 2021 valuation are the same as the last actuarial valuation as of July 1, 2020.

Job Service North Dakota

Benefit Changes	There were no changes made in the plan provisions since the prior valuation.
Changes of Assumptions	<p>The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2021 actuarial valuation:</p> <ul style="list-style-type: none">• The investment return assumption was lowered from 4.25 to 3.75 percent for the July 1, 2020 valuation. <p>All other actuarial assumptions used in the July 1, 2021 are the same as the last actuarial valuation as of July 1, 2020.</p>

ND Teachers' Fund for Retirement

Changes of Assumptions	<p>In 2020, amounts reported as changes of assumptions resulted primarily from a decrease in the investment return assumption from 7.75% to 7.25%, the inflation assumption lowered from 2.75% to 2.30%, lower individual salary increases, and an updated mortality improvement scale.</p> <p>In 2015, amounts reported as changes of assumptions resulted primarily from a decrease in the investment return assumption from 8% to 7.75% and an updated mortality improvement scale.</p>
------------------------	--

Retiree Health Insurance Credit Plan

Benefit Changes	Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC.
Changes of Assumptions	All other actuarial assumptions used in the July 1, 2021 are the same as the last actuarial valuation as of July 1, 2020.

STATE OF NORTH DAKOTA

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2021

TFFR:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization Period	22 years
Asset valuation method	5-year smoothed market
Inflation	2.30%; decrease from 2.75% prior to 7/1/2020 and from 3% prior to 7/1/2015.
Salary increases	3.80% - 14.80% including inflation and productivity; 4.25% - 14.5% prior to 7/1/2020; 4.5% - 14.75% prior to 7/1/2015.
Investment rate of return	7.25%, net of investment expenses, including inflation; rate decreased from 7.75 beginning 7/1/2020 and decreased from 8% beginning 7/1/2015.
Retirement age	In the 2020 and 2015 valuation, rates of retirement were changed to better reflect anticipated future experience.
Mortality	<p>In the 2020 valuation, the PubT-2010 pre-retirement, retiree and contingent survivor tables were adopted and for disabled members, PubNS-2010 tables were adopted; all with generational improvement.</p> <p>In the 2015 valuation, assumed life expectancies were adjusted as a result of adopting the RP-2014 mortality tables with generational improvement. In prior years, those assumptions were based on percentages of GRS post termination non-disabled tables and RP-2000 disabled-life tables.</p>

STATE OF NORTH DAKOTA

This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

STATE OF NORTH DAKOTA

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2021

Met Life Insurance Plan:

Actuarial Cost Method	Entry age normal actuarial cost method was used in the valuation.
Changes of Assumptions	<p>The following changes were made to the actuarial assumptions and methods effecting July 1, 2020:</p> <ul style="list-style-type: none">• The discount rate is 2.66 percent based on the S&P Municipal Bond 20 Year High Grade Rate Index as of June 30, 2020, compared to the prior discount rate of 2.98%.• Mortality was updated from table RP-2-14 adjusted to 2006 and projected using scale MP-2017 to table RP-2014 adjusted to 2006 and projected using scale MP-2019.

Combining Financial Statements

Nonmajor Governmental Funds

Permanent Fund

A permanent fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used to for the benefit of the government or its citizens.

956-Coal Development Permanent Fund

The Coal Development Fund reports resources that are constitutionally committed for distribution to other state funds and for making loans to energy impacted entities and school districts.

410-Veterans' Postwar Trust Fund

The Veterans' Postwar Trust Fund reports resources that are constitutionally committed to be utilized for programs which must be of benefit and service to veterans, who are defined by legislative enactment, or their dependents.

Capital Projects Fund

A capital projects fund is used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

BUILDING AUTHORITY

960 - Building Authority Capital Projects Fund Account for the acquisition or construction of buildings primarily for use by the State and making any improvements connected to those buildings.

Debt Service Funds

A debt service fund is used to account for accumulation for resources for, and the payment of, principal and interest on long-term debt.

BUILDING AUTHORITY

919 - Building Authority Debt Service Fund

Account for accumulation of resources for, and the payment of, principal and interest on bonds issued by the North Dakota Building Authority.

STATE OF NORTH DAKOTA

Nonmajor Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises—where the intent of the State is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the State has decided that periodic determination of net income is appropriate for accountability purposes.

BANK OF NORTH DAKOTA

907 – School Construction Assistance Revolving Loan Fund Fund used to provide low-interest school construction loans.

909 – Small Employer Loan Fund (SELF)

The Small Employer Loan Fund was established by Bank of North Dakota to assist local financial institutions and certified development corporations in providing loans to assist very small North Dakota businesses in their recovery from the negative impacts caused by the COVID-19 pandemic.

459 (914) – Innovation Technology Loan Fund (LIFT)

Fund used to provide loans for commercialization of intellectual property within the State of North Dakota. Industries eligible for loans include advanced computing and data management, agriculture technology, autonomous and unmanned vehicles and related technology, energy, health care, value-added agriculture, value added energy, and any other industry or area identified by the committee that will contribute to the diversification of the state's economy.

934 – Infrastructure Revolving Loan Fund

Fund used to provide loans to political subdivisions for essential infrastructure projects.

954 - Addiction Counselor Internship Loan Program

Fund used to provide loans to qualified individuals participating in a paid or unpaid internship at a licensed substance abuse treatment facility in North Dakota in order to obtain licensure as an addiction counselor.

984 – Medical Facility Infrastructure Loan Program

Fund used to make loans to medical facilities to conduct construction that improves the health care infrastructure in the state or improves access to existing nonprofit health care providers in the state.

985 – Rebuilders Loan Program

Fund used to make loans to North Dakota 2011 flood-damaged homeowners to provide financial assistance needed to repair their home.

BONDING

210 (924) - State Bonding Fund

Fund used to maintain the bonding of public employees and officials of the state, county, city or other unit of local government.

COMMUNITY WATER FACILITY LOAN

974 - Community Water Facility Loan Fund

Accounts for supplementary financing in conjunction with federal moneys available to improve adequate water supplies.

FIRE AND TORNADO

211 (923) - State Fire and Tornado Fund

Accounts for state agencies and political subdivisions to insure against loss to the public buildings, fixtures and permanent contents therein, through fire, lightning, windstorm, etc.

GUARANTEED STUDENT LOAN

969 - North Dakota Guaranteed Student Loan

Accounts for the revenues and expenses associated with the administration, development and operation of the guaranteed loan program.

HIT PLANNING LOAN FUND

987 – HIT Planning Loan Fund

Fund to provide low-interest loans to health care entities to improve health information technology infrastructure.

INFORMATION TECHNOLOGY DEPARTMENT

408 (903) - Edutech Fund

Fund used for professional development sessions and presentations by the Information and Technology Department.

476 (908) – SW Interoperable Radio Network Fund

Fund used for a radio broadcasting system for the state that enables seamless interoperable communications from local, state, and federal levels.

MILL AND ELEVATOR

970 – Mill and Elevator

Accounts for revenues and expenditures associated with the operation of the Mill and Elevator.

PERS UNIFORM GROUP INSURANCE

980 - Public Employees Retirement System Group Insurance

Accounts for the administrative revenues and expenses associated with this insurance purchasing pool.

ROUGH RIDER INDUSTRIES

926 - Roughrider Industries

Accounts for the revenues and expenses associated with the operation, manufacture and sale of products made by the prison inmates.

STATE FAIR

601 (977) - State Fair

Accounts for revenues and expenditures associated with the operation of the State Fair.

STATE LOTTERY FUND

966 (292) - State Lottery Fund

Accounts for operations of the North Dakota lottery.

STUDENT LOAN

975 - North Dakota Student Loan Trust

Accounts for loans to students in post secondary education. The trust acquires eligible loans guaranteed or insured by the United States government or the North Dakota Guaranteed Student Loan Program.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the State and to other government units, on a cost reimbursement basis.

790 (927) - Central Services

Accounts for the revenues and expenditures associated with central printing and office supply services to state agencies and the Legislative Assembly; a surplus property program for the acquisition, distribution, and disposition of federal and state surplus property and procurement services for all state agencies not exempt by statute.

700 (918) - Fleet Services

Accounts for costs of operating and maintaining State-owned vehicles. Costs are billed to user agencies and include depreciation on equipment.

780 (929) - Information Technology Department

Accounts used for the procurement and maintenance of data processing equipment and supplies and telecommunications equipment and supplies to provide data processing and telecommunications services to state departments and agencies.

288\275 (912) - Risk Management Fund

Fund provides insurance coverage and loss prevention to all state agencies and the University System for tort liability and employee injury claims. Coverage is provided using an optional combination of self-insurance and private excess insurance.

STATE OF NORTH DAKOTA

Fiduciary Funds

Fiduciary funds account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental organizations.

Pension and Other Employee-Related Benefit Trust Funds

DEFERRED COMPENSATION

981 - Deferred Compensation Fund

Accounts for the activity of the deferred compensation plan adopted under the provisions of Internal Revenue Service Code, Section 457, for State employees.

PERS FLEXCOMP

932 - Flex Program

Accounts for pre-tax premium conversions, a medical spending account and a dependent care spending account according to Section 125 of the Internal Revenue Code.

HIGHWAY PATROLMEN'S RETIREMENT

982 - Highway Patrolmen's Retirement Fund

A single employer defined benefit pension plan covering officers of the State Highway Patrol.

JOB SERVICE RETIREMENT

920 - Job Service Retirement Fund

A single employer defined benefit pension plan for Job Service employees. Participation in this plan is limited to employees participating in the program as of September 30, 1980.

PREFUNDED RETIREE HEALTH PROGRAM

933 - Prefunded Retiree Health Program

Members receiving retirement benefits from NDPERS receive a credit toward their monthly eligible insurance premium.

PUBLIC EMPLOYEES' RETIREMENT

470 (983) - Public Employees Retirement System

Accounts for the financial resources associated with the Public Employees Retirement System.

DEFINED CONTRIBUTION RETIREMENT

930 - Defined Contribution Retirement Plan

Accounts for the financial resources of the Defined Contribution Retirement Plan. Participation in this plan is limited to state employees who are in positions not classified by the Central Personnel Division and who are not employees of the judicial branch or board of higher education.

TEACHERS' RETIREMENT

964 - North Dakota Teachers' Fund For Retirement

Accounts for the financial resources of the Teachers' Retirement Fund.

Investment Trust Funds

911 - ND Association of Counties RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the North Dakota Association of Counties.

913 - City of Bismarck RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Bismarck.

936 - City of Grand Forks RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Grand Forks.

950 - City of Fargo RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Fargo.

Private Purpose Trust Funds

STUDENT AND CULTURAL DONATIONS

928 - Indian Cultural Education Trust Fund

Trust accounts for donations provided for the purpose of generating income to benefit Indian Culture.

COLLEGE SAVE

940 - College SAVE

Program established by the State of North Dakota to encourage the investment of funds to be used for qualified higher education expenses at institutions of higher education.

MANDAN REMEDIATION TRUST

943 - Mandan Remediation Trust

Accounts for the funds obtained from a lawsuit settlement for the remediation efforts of the North Dakota Health Department and the City of Mandan.

Custodial Funds

CHILD SUPPORT

463 - Child Support Disbursement Unit Fund

Accounts for all child support payments received by the state disbursement unit.

STUDENT AND OTHER

946 - District Court Collection Fund

Accounts for collections for third parties.

986 - Developmental Center Residents' Funds

Accounts for funds belonging to patients of the State Developmental Center.

990 - Veteran's Home-Custodial

Accounts for resident's personal funds.

991 - State Hospital Patients

Accounts for patient's personal funds.

STATE OF NORTH DAKOTA

STUDENT AND OTHER cont.

992 - Prisoner Accounts

Accounts for prisoner's personal fund.

993 - Youth Correctional Center Student Accounts

Account for the student's personal funds.

994 - School for the Deaf Students

Account for the students personal funds.

995 - NDUS Fiduciary Fund

Account for the student organization funds.

TAX COLLECTION

434 - City Lodging Tax Suspense

Accounts for city lodging tax collected by the State Tax Commissioner.

435 - City Sales Tax Suspense

Accounts for city sales and use taxes collected by the State Tax Commission.

437 - City Motor Vehicle Rental Tax

Accounts for city motor vehicle rental tax collected by the state tax commissioner.

438 - City Restaurant and Lodge Tax Suspense

A city tax, at a rate not to exceed one percent, upon the gross receipts of retailers on the leasing or renting of hotel, motel, or tourist court accommodations within the city and gross receipts of a restaurant from any sales of prepared food or beverages, not including alcoholic beverages for consumption off the premises where purchased is collected by the State Tax Commissioner. Proceeds, net of a 3% administrative fee which is deposited into the general fund, are remitted quarterly to each city collecting the tax.

Statistical Information

INDEX TO SCHEDULES

Financial Trends – *These schedules contain trend information to help the reader understand how the State's financial performance and well-being have changed over time.*

Schedule 1 – Net Position by Component	218
Schedule 2 – Changes in Net Position	220
Schedule 3 – Fund Balances, Governmental Funds	222
Schedule 4 – Changes in Fund Balances, Governmental Funds	224

Revenue Capacity – *These schedules contain trend information to help the reader assess the State's capacity to raise revenues and the sources of those revenues.*

Schedule 5 – Taxable Sales by Industry	226
Schedule 6 – Sales Tax Revenue Payers by Industry	226

Debt Capacity – *These schedules present information to help the reader assess the affordability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.*

Schedule 7 – Ratios of Outstanding Debt by Type	228
Schedule 8 – Pledged Revenue Coverage	230
Schedule 9 – Legal Debt Limit	232

Demographic and Economic Information – *These schedules contain trend information to help the reader understand the environment in which the State's financial activities occur.*

Schedule 10 – Demographic and Economic Indicators	233
Schedule 11 – Principal Employers	234
Schedule 12 – Employment by Industry	234
Schedule 13 – Education Enrollment	235

Operating Information – *These schedules contain information about the State's operations and resources by the functions it performs.*

Schedule 14 – State Employees by Agency	236
Schedule 15 – Operating Indicators by Function	238
Schedule 16 – Capital Assets by Function	239

Public Entity Risk Pool Claims Information

Schedule 17 – Claims Development Information	240
--	-----

Miscellaneous Statistics – *This information may provide the reader with more insight into the State's financial status.*

Schedule 18 – Agricultural Production	244
---	-----

Pledged revenues include student fees, auxiliary revenues, sales, tax revenue, investment income and debt service grants.

NOTE: Gross revenues include nonoperating interest income. Operating expenses do not include bond interest or depreciation expenses.

Schedule 9**Legal Debt Limit****Fiscal Year Ending June 30, 2021**

The state may issue or guarantee the payment of bonds, provided that all bonds in excess of two million dollars shall be secured by first mortgage upon real estate in amounts not to exceed sixty-five percent of its value; or upon real and personal property of state-owned utilities, enterprises, or industries, in amounts not exceeding its value, and provided further, that the state shall not issue or guarantee bonds upon property of state-owned utilities, enterprises, or industries in excess of ten million dollars.

No further indebtedness shall be incurred by the state unless evidenced by a bond issue, which shall be authorized by law for certain purposes, to be clearly defined. Every law authorizing a bond issue shall provide for levying an annual tax, or make other provision, sufficient to pay the interest semiannually, and the principal within thirty years from the date of the issue of such bonds and shall specially appropriate the proceeds of such tax, or of such other provisions to the payment of said principal and interest, and such appropriation shall not be repealed nor the tax or other provisions discontinued until such debt, both principal and interest, shall have been paid. No debt in excess of the limit named herein shall be incurred except for the purpose of repelling invasion, suppressing insurrection, defending the state in time of war or to provide for the public defense in case of threatened hostilities.

The State is in compliance with the Legal Debt Margin.

Source: North Dakota Constitution, Art. X, Section 13.

The State of North Dakota has had no General Obligation Bonded Debt since Fiscal Year 1998. No Schedule of Ratios of General Bonded Debt is being presented.

Schedule 17
Claims Development Information
Last Ten Fiscal Years

The following tables illustrate how the individual funds' earned revenues and investment income compare to related costs of loss and other expenses assumed by the funds as of the end of each of the last ten years. The rows of the tables are defined as follows: (1) This line shows the total of each fiscal year's earned contribution revenues and investment revenues. (2) This line shows each fiscal year's other operation costs of the fund including overhead and claims expense not allocable to individual claims. (3) This line shows the funds' incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year). (4) This section of 10 columns shows the cumulative amounts paid as of the end of successive years for each policy year. (5) This section of 10 columns shows how each policy year's incurred claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received regarding unknown claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known. (6) This line compares the latest re-estimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the tables show data for successive policy years (expressed in thousands).

Introductory Section

(This page left blank intentionally.)

January 13, 2023

To the governor, legislators, and citizens of the state of North Dakota:

In accordance with North Dakota Century Code (NDCC) section 54-44-04(14), we are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the state of North Dakota for the fiscal year ended June 30, 2022. This report has been prepared by the Office of Management and Budget. The financial statements contained in the ACFR have been prepared in accordance with generally accepted accounting principles (GAAP) applicable to state and local governments, as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the state's management. To the best of our knowledge and belief, the information contained in the ACFR is accurate in all material respects and reported in a manner that presents fairly the financial position and results of operations of the state's primary government and the component units for which it is financially accountable. All disclosures necessary to enable the reader to gain an understanding of the state of North Dakota's financial affairs have been included.

The state's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the U.S. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the costs of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

In compliance with state statute, the Office of the State Auditor audited the state's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the state for the fiscal year ended June 30, 2022 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and evaluating the overall financial statement presentation. Their examination was conducted in accordance with GAAP and the standards applicable to financial audits contained in *Government Auditing Standards* as published by the Comptroller General of the United States.

The Office of the State Auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the state's financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report

The state of North Dakota is also required to undergo a single audit in conformity with the provision of the Single Audit Act Amendments of 1996 and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (contained in Title 2 U.S. Code of Federal Regulations Part 200). Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs, are included in a separately issued biennial single audit report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is intended to complement the MD&A and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The state of North Dakota provides for a full range of services, including education, health and social services, highway maintenance and construction, law enforcement, judicial, public safety, business regulation, community and economic development, and natural resource development. The state's reporting entity reflected in the ACFR includes all the funds of the state as legally defined, as well as all of its component units in conformity with the requirements of GASB Statement No. 61. Statement No. 61 provides that the financial statements should emphasize the primary government and permit financial statement users to distinguish between the primary government and its component units. Consequently, the transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position. The state's reporting entity is described more fully in Note 1A to the basic financial statements.

The state operates through a biennial appropriation, which represents agency appropriations recommended by the governor and presented to the legislative assembly at the beginning of each legislative session. The budget is legally required to be adopted through passage of appropriation bills by the legislative assembly and signed by the governor. The governor has line-item veto powers over all appropriations subject to legislative override. Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action.

The state does not budget by fund nor does it formally budget revenues. The legal level of budgetary control is at the agency, appropriation authority and expenditure line-item level. The state's budgetary policies and procedures are further explained in Note 1D on the notes to the basic financial statements.

LOCAL ECONOMY

Although North Dakota's economy is increasingly diversified, the agricultural industry continues to play a key role in the state's economy. The North Dakota Agricultural Statistics report states: North Dakota led the nation in the production of all dry edible beans, pinto beans, canola, flaxseed, honey, all dry edible peas, durum wheat and spring wheat for 2021. North Dakota also ranked second in the production of pink beans, small red beans, lentils, rye, all sunflowers, and all wheat.

The energy industry plays an important role in the state's economy. The development of wind and coal resources, the production of ethanol and bio-diesel, and oil and natural gas extraction all contribute to the state's economy. North Dakota reached an all-time high for oil production which averaged over 1.52 million barrels of oil produced per day in November 2019. North Dakota's current crude oil production ranks third in the nation, behind first-ranked Texas and second-ranked New Mexico. Oil prices have rebounded since the crash of oil prices at the end of fiscal year 2020 when North Dakota producers were receiving prices below \$15 per barrel. Prices are averaging around \$83 per barrel to start off the 2021-23 biennium which is above the estimated price of \$50.00 used for budgeting purposes.

According to the United States Census Bureau, the state's resident population for 2021 was approximately 775,000 people. Health care and social assistance jobs account for the highest percent of employment in the state. Other leading areas of employment are retail trade, accommodation and food services, educational services, construction, and manufacturing. The unemployment rate for the state in September 2022 was 2.2%, compared to 3.5% for the United States.

A listing of the state's 20 largest employers demonstrates the diversity of the economy. Top employers include health care providers, educational services, social assistance, the U.S military, manufacturers, financial and banking companies, U.S postal service, and retail companies.

North Dakota exporting stayed flat when comparing 2021 to 2020. The United States Census Bureau showed that North Dakota's exports were about \$5.2 billion for both 2020 and 2021.

LONG-TERM FINANCIAL PLANNING

The long-term financial plan for the state of North Dakota was outlined by Governor Burgum as part of the 2023-25 executive budget address, presented to the legislature in December 2022. The Governor's long-term financial plan includes the following key components:

- Maintaining healthy reserves.
- Providing tax relief.
- Investing in priorities, like technology, education, and behavioral health.
- Ensuring solvency for the state pension fund.

The state's rainy-day fund, the Budget Stabilization Fund, was nearly depleted during the 2015-17 biennium economic downturn. The fund has been refilled to the maximum balance allowed by law and, due to conservative budget management and strong revenues, the fund was not used during the COVID-19 pandemic which occurred during the 2019-21 biennium. A critical component of ensuring the long-term financial well-being of the state of North Dakota is a well-funded Budget Stabilization Fund that provides a necessary buffer against volatile commodity

prices that drive ups and downs in the state's economy. Other reserve funds include the state general fund balance, the foundation aid stabilization fund, and the legacy fund.

Another component of the state's long-term financial plan is ensuring the solvency of the state's pension fund. The governor supports a responsible approach to closing the state defined benefit plan, ensuring the solvency of the existing plan, and providing a defined contribution plan for newly-hired state team members. To support this approach, the governor has proposed a \$250 million transfer from the general fund to the Public Employees Retirement Plan to help address the state unfunded liability.

The backbone of the state's financial plan is a revenue forecast that is accurate, conservative, and credible. The state utilizes a Revenue Forecasting Advisory Committee, comprised of representatives of the major industries in the state and the legislative and executive branches of government, along with the expertise of a national economic forecasting consultant. With the assistance of these experts, the state's Tax Department and Office of Management and Budget develop a conservative revenue forecast for use in the budgeting process.

The budgeting process begins with the development of a biennial budget proposal reflecting the Governor's priorities for the next two years. The budget is submitted to the legislature for their consideration and eventual enactment. With a biennial budget cycle, each revenue forecast and budget proposal provides a three-year plan for the revenues and expenditures of state government.

RELEVANT FINANCIAL POLICIES

North Dakota's financial policies ensure that in the event of an economic downturn, North Dakota state government will be able to continue to provide its citizens with necessary services. Should North Dakota experience a significant revenue shortfall, the state is able to access funds in the budget stabilization fund.

The 2017 legislature established an ongoing allocation of \$75 million per biennium from oil and gas tax revenues to the budget stabilization fund. North Dakota Century Code requires the transfer to the budget stabilization fund of any end-of-biennium general fund balance in excess of \$65 million. Pursuant to Section 54-27.2-01, the fund is limited to no more than 15 percent of current biennium General Fund appropriations. Any deposits or interest that would otherwise be deposited or retained in the fund must instead be deposited in the General Fund once the maximum balance is reached. The current cap on the fund is \$752 million.

The 2019-21 biennium ended with the budget stabilization fund meeting the cap, so no general fund transfer was made to the fund.

In addition to accessing the budget stabilization fund, in the event of an economic downturn, the Governor can reduce general fund expenditure authority uniformly across state agencies through a process known as allotment. In the event of an allotment, the foundation aid stabilization fund was established to protect the state school aid program. Dollars from this fund would replace the amount of general fund dollars allotted, thus K-12 education would not experience a reduction in funding. The passage of Measure 2 in the 2016 general election allowed money in the fund to be appropriated for education-related purposes. Funding for the foundation aid stabilization fund comes from 10 percent of oil extraction tax collections.

MAJOR INITIATIVES

Major initiatives proposed by Governor Doug Burgum and approved by the legislature for the 2021-23 biennium include:

- Investing in infrastructure and other priorities;
- Supporting K-12 education.
- Investing in behavioral health issues.
- Investing in cybersecurity and upgrading technology; and
- Maintaining reserves and the rainy-day fund.

INFRASTRUCTURE INVESTMENTS

The 2021-23 biennial budget includes funding to rebuild and repair roads throughout the state, for water supply and flood control and capital projects for state parks. Funding for infrastructure improvements includes:

- \$1.13 billion to rebuild and repair state highways.
- \$220.0 million for city road projects.
- \$145.5 million dedicated to the repair and rebuilding of county and township roads.
- \$7.9 million for projects across the state park system.
- \$540.8 million for water-related projects, including \$125.0 million for water supply, \$59.6 million for rural water supply, \$48.0 million for flood control, \$14.2 million for general water projects, \$148.5 million for state-owned water projects and \$6.0 million for other new projects.

TECHNOLOGY UPDATES

The Governor's budget included support for replacing outdated technology to better serve the citizens of the state and provide the most efficient use of resources.

- \$111.2 million for updated outdated technology projects across numerous agencies for the 2021-23 biennium.
- \$19.5 million to enhance the state's cybersecurity program; and
- 29.0 FTE to support the growing need for cybersecurity.

EDUCATION

K-12 education initiatives include:

- \$2.13 billion in state funding for K-12 schools through integrated funding formula;
- \$58.1 million to assist districts in the provision of transportation services;
- \$27 million to go towards special education contracts; and

Higher Education initiatives include:

- \$11.2 million in state funding to continue the North Dakota Higher Education Challenge Grant Program, to encourage philanthropy by providing a state match for private contributions to the state's colleges and universities.
- \$64.9 million is slated to be invested for capital projects across the system, with funding from revenue bonds, private donations, capital building funds and carryover authority.

RESERVES

It is anticipated that by June 30, 2023, there will be a total ending balance of approximately \$3.88 billion in the general fund, budget stabilization fund, foundation aid stabilization fund,

strategic investment and improvements fund, and tax relief fund. The general fund budget for the 2021-23 biennium totals \$5.01 billion.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the state of North Dakota for its ACFR for the fiscal year ended June 30, 2021. This was the 31st consecutive year that North Dakota has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate. In addition, the state of North Dakota received the GFOA's Award for Distinguished Budget Presentation for its 2021-2023 budget. In order to qualify for the Distinguished Budget Presentation Award, the state's budget document was judged to be proficient in several categories, including policy documentation, financial planning, and organization. This report was prepared by staff members of the Fiscal Management Division of the Office of Management and Budget. Their dedication and efforts are greatly appreciated. We also extend our gratitude to the numerous individuals from virtually all the state agencies and institutions, especially the Office of the State Auditor, for their assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Morrisette", with a stylized flourish at the end.

Independent Auditor's Report

The Honorable Doug Burgum, Governor
of the State of North Dakota

Members of the Legislative Assembly
of the State of North Dakota

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota as of and for the year ended June 30, 2022, and the related notes to the financial statements which collectively comprise the State's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the accompanying financial statements are referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota, as of June 30, 2022, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United State of America.

We did not audit the financial statements listed below.

Addiction Counselor Internship Loan Program	Job Service North Dakota
Bank of North Dakota	Mandan Remediation Trust
Beginning Farmer Revolving Loan Fund	Medical Facility Infrastructure Loan Program
Building Authority	PACE and AG PACE Funds
Clean Sustainable Energy Authority	Public Employees Retirement System
College SAVE	Public Finance Authority
Comprehensive Health Association of North Dakota	Rebuilders Loan Program
Covid Pace Recovery Program	Retirement and Investment Office
Department of Trust Lands	School Construction Assistance Revolving Loan Fund
North Dakota Development Fund	State Fair Association
Guaranteed Student Loan Program	State Historical Society of North Dakota Foundation
Housing Finance Agency	Student Loan Trust
Housing Incentive Fund	Transmission Authority
Infrastructure Revolving Loan Fund	Water Infrastructure Revolving Loan Fund
Innovation Technology Fund	Workforce Safety and Insurance

The financial statements of the above entities represent total assets, net position or fund balance, and revenues of the government-wide financial statements and fund financial statements as of June 30, 2022, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended as follows:

	<u>Percent of Assets</u>	<u>Percent of Net Position or Fund Balance</u>	<u>Percent of Revenues</u>
<u>Government-Wide Financial Statements</u>			
Governmental Activities	28%	30%	12%
Business-Type Activities	82%	62%	34%
Aggregate Discretely Presented Component Units	88%	100%	98%
<u>Fund Financial Statements</u>			
Major Governmental Funds			
General Fund	1%	1%	0%
Federal Fund	2%	36%	1%
State Special Revenue Fund	75%	78%	24%
Major Enterprise Funds			
Bank of North Dakota	100%	100%	100%
Housing Finance Agency	100%	100%	100%
University System	0%	0%	0%
Workforce Safety and Insurance	100%	100%	100%
Aggregate Remaining Fund Statements	93%	97%	33%

Those statements were audited by other auditors whose report has been furnished to us, and our opinions, insofar as it relates to the amounts included for the financial statements of the above entities are based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United State of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the State of North Dakota and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of the North Dakota University System's discretely presented component units (foundations) and the North Dakota Historical Foundation were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matter

The actuary for the North Dakota Public Employees Retirement System has determined that the unfunded actuarial accrued liability is approximately \$1.78 billion as of July 1, 2022. The funding for the actuarial accrued liability is predicted on employer and employee funding rates mandated by the State of North Dakota statutes. The actuary has determined that the current statutory rates are insufficient compared to the actuarial accrued liability. Note 6 identifies the net pension liability as calculated using GASB 67 and 68 requirements. Our opinion is not modified with respect to this matter.

As discussed in Note 17 to the basic financial statements, the Bank of North Dakota elected to present an unclassified statement of net position because current assets were not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Our opinion is not modified with respect to this matter.

As described in Note 21 to the basic financial statements, the State of North Dakota adopted the provisions of GASB 87 *Leases*, GASB 92 *Omnibus 2020*, GASB 93 *Replacement of Interbank Offered Rates*, and GASB 97 *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans - an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No 32*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United State of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of North Dakota's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State of North Dakota's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of North Dakota's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules and related reconciliations and notes, information about the state of North Dakota's pension plans and other post-retirement benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of North Dakota's basic financial statements. The combining and individual fund financial statements are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements and individual fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 13, 2023 on our consideration of the State of North Dakota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of North Dakota's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of North Dakota's internal control over financial reporting and compliance.

Joshua C. Gallion
State Auditor
Bismarck, North Dakota
January 13, 2023

(This page left blank intentionally.)

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the State of North Dakota's (the State's) Annual Comprehensive Financial Report presents a discussion and analysis of the State's financial performance, providing an overview of the activities for the fiscal year ended June 30, 2022. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Government-wide:

Total assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at fiscal year-end by \$30.1 billion (reported as net position), an increase of \$497.5 million from the previous year. The net position of governmental activities increased by 1.9% while the net position of the business-type activities showed an increase of 0.3%.

As a result of implementing GASB Statement 68, *Accounting and Financial Reporting for Pensions*, the State recorded \$32 million net pension asset, \$725 million deferred outflows of resources, \$535.0 million net pension liability, and \$1.1 billion deferred inflows of resources for the primary government. The State decreased its net pension liability by \$1.14 billion during the year. The decrease in the pension liability is due to the fact that beginning in FY22 the state is on a path to fully fund the pension plan. As long as the state is on a path to fully fund the pension plan the expected rate of return is used instead of a discounted rate.

Fund Level:

As of the close of fiscal year 2022 the State's governmental funds reported combined ending fund balances of \$20.5 billion, an increase of \$823.5 million. Of this amount, \$142.8 million is non-spendable, primarily for Permanent Trust Funds. Spendable fund balance consists of \$7.9 billion restricted for specific purposes such as common schools, highway projects, and state education aid, \$2.5 billion committed and \$265.4 million assigned for specific functional expenditures such as education and health and human service operations, with the unassigned fund balance making up the remaining amount of \$9.8 billion, which is primarily made up of the legacy fund with a balance of \$8.1 billion.

The enterprise funds reported net position at year-end of \$4.9 billion, an increase of \$16.9 million during the year.

Long-term Debt:

The State's total debt (bonds, certificates of participation, and notes payable) increased approximately (31.7)% during the fiscal year to \$2.8 billion, an increase of \$570 million, which represents the net difference between new issuances and payments. During the year the State issued \$814.4 million in bonds, \$159.7 million in certificates of participation, and \$22.23 million in notes.

More detailed information regarding these activities and funds is included in Note 3J.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the State's basic financial statements, which consists of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Statements

The government-wide financial statements provide a broad view of the State's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the State's financial position, which assists in assessing the State's economic condition at the end of the fiscal year. These statements include all non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents all of the State's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the two reported as "net position". Over time, increases and decreases in net position is an indicator of whether the State's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both statements report three activities:

Governmental Activities – The activities in this section are primarily supported by taxes and intergovernmental revenue. Most of the State's basic services, such as education, health and human services and transportation, are reported under this category.

Business-type Activities – These functions are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The Bank of North Dakota, Housing Finance Agency and the University System are examples of the State's business-type activities.

Discretely Presented Component Units – These are operations for which the State has financial accountability but they have certain independent qualities as well. These entities operate similar to private- sector business and the business-type activities described above. The State has 5 discretely presented component units. Financial information for these entities is presented separately from the financial information presented for the primary government.

The government-wide financial statements can be found immediately following this discussion and analysis.

Fund Financial Statements

A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

The basic fund financial statements begin after the Component Unit FASB basis statements and provide more detail about the major individual funds. The State's funds are divided into three categories – governmental, proprietary, and fiduciary. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental funds - Most of the State's basic services are reported in the governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on the near-term inflows and outflows of spendable resources. They also focus on the balances left at year-end that are available for future spending. Such information may be useful in evaluating whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

Governmental funds include the General Fund, special revenue, debt service, and permanent funds. The State has several governmental funds, of which three (3) are considered major individual funds. These three are the General Fund, the Federal Fund, and the State Special Revenue Fund. Each of these major funds is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance. The remaining governmental funds are combined in a single aggregated column on the basic fund statements. Individual fund data for each of these non-major governmental funds can be found in the other supplementary information section of this report.

Proprietary funds – Services for which the State charges customers a fee are generally reported in proprietary funds. The state maintains two different types of proprietary funds, enterprise funds and internal service funds. Enterprise funds report activities that provide supplies and services to the general public. Internal service funds report activities that provide supplies and services for the State's other programs and activities. Like the government-wide statements, proprietary funds use the accrual basis of accounting. Although the basis of accounting is the same for the government-wide and proprietary fund statements, reconciliation between these statements is presented because of the allocation of internal service funds' net income.

The State has four (4) major enterprise funds: The Bank of North Dakota, Housing Finance, University System, and Workforce Safety and Insurance. These four funds are each presented in separate columns on the basic proprietary fund financial statements. The remaining enterprise funds are combined in a single total column on these statements. Individual fund data for each of the non-major enterprise funds can be found in the other supplementary information section of this report.

The State's internal service funds are reported as governmental activities on the government-wide statements, because the services they provide predominantly benefit governmental activities. The State's four (4) internal service funds are reported on the basic proprietary fund financial statements in a single combined column. Individual fund data for the internal service funds is provided in the form of combining statements found in the other supplementary information section of this report.

Fiduciary funds - The State acts as a trustee, or fiduciary, for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These funds, which include pension (and other employee benefit) trust, investment trust, private-purpose trust, and agency funds, are reported using accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because the State cannot use these assets to finance its operations.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements. The notes to the financial statements can be found immediately following component units' financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes a budgetary comparison schedule, which includes reconciliation between the statutory fund balances for budgetary purposes and the fund balances for the General Fund, the Federal Fund and the State Special Revenue Fund as presented in the governmental fund financial statements. In addition, the required supplementary information includes up to ten years of information on the State's pension and Other Post Employment Benefit (OPEB) plans, including schedules on the employer proportionate share of the net pension liability and net OPEB liability, changes in the net pension liability and OPEB liability, and employer contributions.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, internal service, and fiduciary funds. These funds are added together, by fund type, and presented in single columns in the basic financial statements.

FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE

As noted previously, net position may serve over time as a useful indicator of a government's financial position. The State's combined net position (governmental and business-type activities) totaled \$30.1 billion at the end of fiscal year 2022. Net position increased \$497.5 million from the prior fiscal year.

State of North Dakota's Net Position (Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2022	2021	2022	2021	2022	2021

Total Net Position	\$ 25,184,434	\$ 24,708,964	\$ 4,944,689	\$ 4,915,810	\$ 30,129,123	\$ 29,624,774

The largest component (44%) of the State's net position is unrestricted net position. Unrestricted net position may be used at the State's discretion, but often have limitations on use based on State statutes. Restricted net position makes up thirty-two percent (32%) of the state's net position. Restricted net position represents resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used.

Twenty-four percent (24%) of the State's net position reflects its investment in capital assets such as land, buildings, equipment, intangibles (software), and infrastructure (roads, bridges and other immovable assets) less any related debt outstanding that was needed to acquire or construct the assets. The State uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The condensed financial information below was derived from the government-wide Statement of Activities and reflects how the State's net position changed during the fiscal year:

* More detailed information regarding the prior period adjustments can be found in Note 2.

Governmental Activities

Governmental Activities increased the State's net position by \$480.4 million. Revenues decreased 21.9%, with the largest decrease in the State's revenues for fiscal year 2022 coming from Unrestricted Investment Losses which saw a decrease of \$2.6 billion. This is primarily due to low investment returns for the Legacy and Budget Stabilization funds. The investments earnings and losses are unrestricted because it is not for a particular function. Operating grants and contributions also saw a decrease of \$1.3 billion. This decrease was primarily due to the change in fair value of investments which saw decreases due to rising inflation, supply chain disruption and other issues stemming from Russia's invasion into Ukraine and the ongoing pandemic. An accelerated tightening of global monetary policy and falling economic growth estimates led to most major indices ending negatively by June. The State saw increases in Oil, Gas, and Coal Taxes due to high oil prices which can be attributed to increased demand, strong economy, and low reserves.

Expenses for governmental activities remained relatively consistent.

The following chart depicts revenues of the governmental activities for the fiscal year:

The chart on the following page depicts expenses of the governmental activities for the fiscal year:

Expenditures - Governmental Activities Fiscal Year Ending June 30, 2022

Business-type Activities

Net position of the business-type activities increased by \$17.1 million during the fiscal year.

Workforce Safety and Insurance's (WSI) net position decreased by \$242.4 million. In fiscal year 2022, WSI's investment portfolio yielded a year to date return of -9.04% (net of fees), with a loss of \$200 million before expenses. WSI's financial position remains stable. Earned premium net of discounts and reinsurance totaled \$163 million, \$176 million, and \$221 million for fiscal years 2022, 2021, and 2020, respectively. The number of total claims filed in fiscal year 2022 is 17,477. This is a decrease of 379 from the previous fiscal year 2021 total of 17,856. The fiscal year 2021 total decreased by 970 from the total claims filed in fiscal year 2020 of 18,826. Net earned premium from fiscal year 2022 of \$163 million is down from the fiscal year 2021 total of \$176 million.

The Bank of North Dakota net position increased \$35.8 million. The loan portfolio decreased by \$68 million to \$4.56 billion at December 31, 2021. Interest-bearing deposits totaled \$7.4 billion at December 31, 2021 compared to \$5 billion at December 31, 2020. The increase in 2021 was primarily attributable to \$1 billion American Rescue Plan Dollars, additional state funds of nearly \$1 billion related to Legacy Fund earnings and additional tax revenue as well as higher correspondent bank deposits. The Bank has a tier one capital leverage ratio of 10.27% as of December 31, 2021. The leverage ratio is a measure of strength. Well capitalized per federal regulations requires this percentage to be a minimum of 5%.

The University System's net position increased \$129.6 million. The increase in current assets is mainly attributed to increases in cash of \$55.1 million and current investments of \$30.3 million. Current investments increased at NDSU by \$11.0 million. Upon maturity, five-year certificates of deposits have been re-invested to one-year certificates of deposits as interest rates remained low in fiscal year 2022. UND's current investments increased by \$25.0 million due to certificate of participation proceeds for a new student housing project that will be spent in fiscal year 2023. The decrease in current notes receivable, net is related to loan repayments and federal loan programs ending in FY2021.

Housing Finance Authority (HFA) net position increase of \$2.0 million as a result of the year's program operations and financing activities. Operating revenues in FY22 were down as a result of lower mortgage and investment income than in prior years. In addition HFA, had a loss on the sale of investments. This was partially offset with

slightly higher fee income. HFA continues to fund mortgage loans at a fast pace. Mortgage rates, along with the interest rate on mortgage revenue bonds, were raising quickly the last few months of FY22. Operating expenses were down as a result of lower bond interest expense, pension expense, SRP amortization expenses and higher bond admin expenses than what was incurred in the prior year. The decrease in Interest Expense was somewhat offset by the increase in Administrative and Operating Expenses.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

Governmental Funds

As the State completed the year, its governmental funds reported combined fund balances of \$20.5 billion, an increase of \$823.5 million from the prior fiscal year. Of the \$20.5 billion in net position, \$142.8 million is non-spendable, \$7.9 billion is restricted, \$2.5 billion is committed, \$265.4 million is assigned, and \$9.8 billion is unassigned. These fund balance categories are a result of GASB Statement 54. Note 1U provides definitions for these categories. The following analysis of funds provides the explanation for the overall change in net position for governmental funds.

The General Fund is the chief operating fund of the State. At the end of current fiscal year, unassigned fund balance of the General Fund was \$9.8 billion, non-spendable was \$8.0 million, and \$1.1 billion was committed for expenditure by various governmental functions.

Total General Fund balance increased during the fiscal year by \$202 million. Revenues decreased approximately 39.1%, due to decreases in interest and investment income of \$776.2 million. This decrease was primarily due to low investment returns for the Legacy and Budget Stabilization funds which are part of the general fund in the governmental fund statements. The legacy fund was created by a constitutional amendment in 2010. The amendment provides that 30% of oil and gas gross production and oil extraction taxes on oil produced after June 30, 2011, be transferred to the Legacy fund. The State Investment Board is responsible for the investment of the fund. This fund has a current fund balance of \$8.1 billion. The state also saw a decrease in individual income taxes caused by the recently enacted Tax Relief Credit, this decrease was offset by the increase in Corporate income taxes. The Corporate Income taxes and Sales and Use taxes increased due to a pent-up demand caused by the impacts of the global pandemic and a strong overall economy. Oil, gas and coal taxes saw increases as previously discussed in the Governmental Activities Net Pension increase explanation.

General fund expenditures increased by \$126.6 million or 6.8% with the largest increase in Health and Human Services. However, total expenditures for the general fund and special revenue fund remained relatively consistent from FY21. The increase in Health and Human Services was due to reallocating more expenses to the General Fund in the first year of the biennium.

The State Special Revenue ending fund balance increased by \$311.8 million resulting in \$9.1 billion fund balance. Revenues decreased by 17.6% in the state special revenue fund primarily due to a decrease in interest and investment income. The decrease is primarily due to low investment returns as we saw with investments previously discussed in the Governmental Activities Net Pension decrease explanation. Special fund expenditures increased by 14.8% primarily due to an increase in Education and Health and Human Services spending.

The Federal Fund balance of \$54.7 million consists primarily of non-spendable items such as prepaids and inventory. Revenues decreased by \$101.8 million and expenditures decreased by \$ 72.8 million primarily due to the decrease in federal funding as the additional funds granted during the global pandemic drop off .The federal fund balance increased by \$22.7 million primarily due to funds remaining in the COVID-19 Pace Recovery Program which is set up to assist local financial institutions in providing low interest loans and grants to support North Dakota businesses in their economic recovery due to negative impacts from the COVID-19 pandemic.

Proprietary Funds

The State's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The increases/decreases in the net position of the proprietary funds are discussed under "Business-type Activities" above.

General Fund Budgetary Highlights:

The general fund budgetary revenues and other financing sources were \$2.6 billion or 24.85% higher than the final budget, primarily because of increased revenue from Mineral Leasing Fees and Individual Income Tax. The State has a biennial appropriated budget. The fiscal year ending June 30, 2022, was the first year of the 2021-23 budget cycle. The original budget increased \$88.6 million. The increases to the beginning appropriated budget are from authorized carryover of general fund appropriation authority and legislative changes of which the larger ones are noted below.

Several state agencies were authorized by appropriation laws to carryover a portion or all of their general fund appropriation for various purposes, including the University System, \$35.3 million, the Department of Human Services, \$5.7 million, the Department of Commerce, \$9.5 million, the Department of Corrections, \$6 million, Legislative Council and Assembly, \$5.5 million, and Office of Management & Budget, \$21.4 million.

Of the \$304 thousand in capital construction carryover dollars, \$267 thousand was for the Department of Corrections.

There were no expenditures in excess of general fund authority.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets: At the end of the fiscal year 2022, the State had invested \$7.1 billion, net of accumulated depreciation, in a broad range of capital assets. Depreciation charges for this fiscal year totaled \$350 million.

(Net of Depreciation, Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2022	2021	2022	2021	2022	2021

* Beginning capital asset balances were adjusted for certain reclassifications for FY2021 in the Business- Type Activities.

The total increase in the State's investments in capital assets for the current fiscal year was 3% in terms of net book value. However, actual expenditures to purchase or construct capital assets were approximately \$1.1 billion for the year. A major portion of this amount was used to construct or reconstruct assets for highway construction. More detailed information on the State's capital assets can be found in Note 3H to the financial statements.

Long-term Debt: Article X, Section 13 of the Constitution of North Dakota provides that the state may issue or guarantee the payment of bonds provided that all bonds in excess of \$2 million are: secured by first mortgage upon property and no further indebtedness may be incurred by the state unless evidenced by a bond issue; authorized by law, for a certain purpose; provisioned to pay the interest semiannually, and pay the principal within 30 years. The law authorized the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond. The State has no general obligation bonds outstanding at June 30, 2022.

The State does have a number of revenue bonds outstanding at June 30, 2022. Current state statutes empower certain state agencies and the Building Authority to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on revenue bonds issued by state agencies is payable from designated revenue sources. The Building Authority's bonds generate revenue to finance the construction and improvements of State buildings. Revenues derived from leases on the buildings fund the debt service requirements. Starting in FY 22 the state issued appropriation bonds through the Legacy Bond Program, these are appropriation bonds issued to provide financing to legislative approved state projects and programs. The bonds are direct obligations of the Public Finance Authority and secured by the State of North Dakota's Legacy Fund earnings, capitalized interest CD's and interest earnings pursuant to the applicable bond resolutions.

The Bank of North Dakota has advances from the Federal Home Loan Bank in the amounts of \$108 million. The advances have a fixed rate of interest, ranging from 2.22 % to 3.32 %.

The state had lease additions for equipment and buildings of \$32.4 million for Business Type Activities and \$14.1 million for Governmental Activities.

More detailed information regarding the State's long-term obligations is presented in Note 3J to the financial statements.

* Beginning Notes Payable balances were adjusted for certain reclassifications for FY2021 in the Business- Type Activities.

The State's total debt increased approximately (31.7)% during the current fiscal year.

ECONOMIC CONDITION AND OUTLOOK

Moody's Analytics recently completed an analysis of the North Dakota economy for its Précis U.S. State October 2022 publication. The report depicts an economy at risk of a growth recession, which means the economy will grow, but at a very slow rate. The energy industry will help prevent North Dakota from feeling the effects of a recession because the robust drilling is driving employment higher.

North Dakota's outlook is linked tightly to two major industries, energy and agriculture. The rebound in oil prices has stimulated oil drilling and led to high productivity per rig in the Bakken where the current active rig count is 43. The most recent North Dakota average price per barrel of oil was at \$83.14, which is above the estimated price of \$50.00 used for budgeting purposes. On the agriculture side, the Russian invasion of Ukraine caused wheat prices to spike, which is one of North Dakota's major commodities, but prices are stabilizing and the yields are low so that suggests that farming will contribute little to growth this year.

North Dakota's employment growth has increased with the mining and shipping industry being a contributing factor by adding jobs at a more rapid pace than the rest of the nation, but overall our growth still continues to lag the national pace. The unemployment rate in North Dakota has improved to 2.5% from the 3.7% seen during the same time frame last year and is a drastic improvement from the high of 5.8% that was seen in 2020. Anticipation is that the labor force growth will keep the labor market adequately supplied with workers.

Per capita income for North Dakota remains slightly ahead of the national average while the median household income currently lags, but saw a 7.6% increase from 2021 numbers. For 2022, median household income in North Dakota was at \$68,882 compared to \$70,784 for the U.S. Per capita income for 2022 was \$64,524 for North Dakota, while \$64,143 for the U.S.

CONTACTING THE STATE'S OFFICE OF FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. Questions about this report or additional financial information should be addressed to the State of North Dakota, Office of Management and Budget, 600 E. Boulevard, Dept. 110, Bismarck, ND 58505.

STATE OF NORTH DAKOTA

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position

June 30, 2022

Total Fund Balances-Governmental Funds \$ 20,536,885,000

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets is \$9,803,508,683 and the accumulated depreciation is \$4,127,516,972. 5,675,991,711

Other assets not available in the current period and therefore are not reported in the governmental funds:

Net Pension Asset 31,759,726

Deferred outflows of resources are not reported in the governmental funds:

Loss on bond refunding	607,000	
Related to OPEB	9,659,058	
Related to pensions	534,314,564	
Total Deferred Outflows		544,580,622

Some of the state's revenues will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are unavailable in the funds. 118,324,995

Internal service funds are used to charge the costs of certain activities to individual funds.

The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the statement of net position. 88,846,653

Deferred inflows of resources are not reported in the governmental funds:

Unpaid penalty and interest	917,824	
Related to OPEB	(8,906,544)	
Related to pensions	(812,351,848)	
Right-to-use leases	1,376,998	(818,963,570)

Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported as liabilities in the funds. Those liabilities consist of:

Bonds Payable	(491,725,000)	
Notes Payable	(15,583,936)	
Accrued Interest on Long-Term Liabilities	(949,397)	
Compensated Absences	(48,027,959)	
Intergovernmental Payable	—	
Leased Assets	(35,554,527)	
Other Post-employment Benefit Obligation	(20,332,063)	
Net Pension Liability	(379,709,369)	
Claims and Judgments	(1,108,500)	
Total Long-Term Liabilities		(992,990,751)

Net Position of Governmental Activities \$ 25,184,434,386

STATE OF NORTH DAKOTA

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Fiscal Year Ended June 30, 2022

Net Change in Fund Balances-Total Governmental Funds		\$ 823,521,203
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay	300,621,280	
Depreciation expense	(228,093,784)	
Excess of capital outlay over depreciation expense		72,527,496
In the statement of activities, only the gain (loss) on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the assets sold.		(3,399,723)
Donations of capital assets increase net position in the statement of activities but do not appear in the governmental funds because they are not financial resources.		2,081,773
Some of the assets acquired this year were financed through leases payable. The amount financed is reported in the governmental funds as a source of financing. However, leases payable are reported as long-term liabilities in the statement of net position.		(12,989,327)
Based on receipt dates, some revenues are not considered "available" revenues and are unavailable in the governmental funds. Unavailable revenues increased/decreased by this amount this year.		(2,340,367)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of internal service funds is reported with governmental activities.		(7,639,886)
Bonds proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.		(387,956,000)
Note proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.		(120,280)
The pension assets resulting from contributions in excess of annual required contribution are not financial resources and, therefore, are not reported in the funds.		637,726
Deferred outflows of resources do not provide current financial resources		
Amortization of deferred loss on bond refunding	(579,000)	
Related to OPEB	(1,267,704)	
Related to pension	(220,873,787)	
Total deferred outflows		(222,720,491)
Deferred pension inflows are not considered current cash expenses and are not reported as an expenditure in the funds.		
Unpaid penalty and interest	24,190	
Related to OPEB	(6,074,308)	
Related to pension	(622,836,681)	
Total deferred inflows		(628,886,799)
The net OPEB liability relating to retirement plans		9,602,670
The net pension liability relating to retirement plans		816,529,517
Repayment of long-term debt is reported as an expenditure in governmental funds but the repayment reduces long-term liabilities in the statement of net position.		
In the current year, these amounts consist of:		
Bond principal retirement	10,605,000	
Note payments	941,954	
Lease payments	9,185,549	
Total long-term debt repayment		20,732,503
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This adjustment combines the net changes of the following:		
Accrued Interest	(478,097)	
Compensated Absences	1,089,417	
Claims and Judgments	244,979	
Total additional expenditures		856,299
Change in Net Position of Governmental Activities		\$ 480,436,314

STATE OF NORTH DAKOTA

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The primary authority for the State's accounting and reporting requirements is the Office of Management and Budget. The Office of Management and Budget has adopted the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the State's accounting policies are as follows:

A. REPORTING ENTITY

For financial reporting purposes, the State of North Dakota has included all funds, organizations, agencies, boards and commissions that make up its legal entity. The State has also included all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State.

As required by accounting principles generally accepted in the United States of America, these financial statements present the State of North Dakota (the primary government) and its component units. The component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State.

BLENDED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are so intertwined with the State that they are, in substance, the same as the State. The following entity is included as a blended component unit, as the State has the ability to impose its will on this organization and the organization provides services entirely to the State. They are reported as part of the State and blended into the appropriate fund types.

Building Authority (Debt Service Fund and Capital Projects Fund) - The Building Authority was created by the Legislature as a separate instrumentality of the State. Its purpose is to promote the general welfare of the citizens of the State by providing financing for use by the State in altering, repairing, maintaining or constructing buildings and making any improvements connected to State buildings. The Industrial Commission, which consists of the governor, the attorney general, and the commissioner of agriculture, is the governing board of the Building Authority. The funds of the Building Authority were audited by other independent auditors for the fiscal year ended June 30, 2022, and their report has been previously issued under a separate cover.

Legacy Bond Program (Debt Service Fund) - The Legacy Bond Program was created by the Legislature as a separate instrumentality of the State. Its purpose is to promote the general welfare of the citizens of the State by providing financing for use by the State for infrastructure projects including: the Fargo Diversion Project, Resources Trust Fund, Infrastructure Revolving loan fund, highway fund and agriculture products development facility at North Dakota State University. The Industrial Commission, which consists of the governor, the attorney general, and the commissioner of agriculture, is the governing board of the Legacy Bond Program. The funds of the Legacy Bond Program were audited by other independent auditors for the fiscal year ended June 30, 2022, and their report has been previously issued under a separate cover.

DISCRETELY PRESENTED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are financially accountable to the State. The following entities are included as discretely presented blended component units, as the State has the ability to impose its will on this organization, however the State has no financial obligation to these organizations. The component units' columns of government-wide financial statements include the financial data of these entities.

MAJOR COMPONENT UNITS

Comprehensive Health Association (Proprietary Fund Type) – The Association was established by the Legislature with participating membership consisting of those insurance companies, licensed or authorized to do business in the State. It provides low cost access to health insurance coverage for residents of the State who are denied adequate health insurance and are considered uninsurable. Under North Dakota Century Code, the Majority Leader of the Senate appoints one member of the Senate and the House of Representatives appoints one member of the House to the eight-member board. The Association was audited by other independent auditors for the calendar year ended December 31, 2021, and their report has been previously issued under a separate cover.

STATE OF NORTH DAKOTA

Public Finance Authority (Proprietary Fund Type) – The Finance Authority was created by the Legislature as a separate agency of the State. The purpose of the Finance Authority is to make funds available for borrowing by North Dakota political subdivisions through the issuance of its bonds and the purchase of municipal securities of the political subdivisions. The Finance Authority has been granted all powers required in order to accomplish this purpose and is under the control and management of the Industrial Commission. The Fund was audited by other independent auditors for the calendar year ended December 31, 2021, and their report has been previously issued under a separate cover.

Transmission Authority (Proprietary Fund Type) – The Transmission Authority was created by the Legislature as a separate agency of the State. The purpose of the Transmission Authority is to make funds available to facilitate the purchase of a transmission line through the issuance of its bonds. The Transmission Authority has been granted all powers required in order to accomplish this purpose and is under the control and management of the Industrial Commission.

North Dakota Development Fund, Inc. (Proprietary Fund Type) – The Development Fund was established as a statewide nonprofit development corporation with the authority to take equity positions in; to provide loans to; or to use other innovative financing mechanisms to provide capital for new or expanding businesses in North Dakota or relocating businesses to North Dakota. A board of directors consisting of eight members, all of whom are appointed by the governor, manages the corporation. The deputy director of the Department of Commerce (a State agency) is the corporation's chief executive officer. The director of the Department of Commerce (governor-appointed cabinet position) is responsible for developing rules, subject to the approval of the board of directors, necessary to implement the administration of the corporation. The Fund was audited by other independent auditors for the fiscal year ended June 30, 2022, and their report has been previously issued under a separate cover.

North Dakota State Fair Foundation – The mission of the North Dakota State Fair Foundation is to develop lifelong relationships with donors to secure philanthropic gifts that will enhance and support the work of the North Dakota State Fair. The Fund of the North Dakota State Fair Foundation were audited by other independent auditors for the fiscal year ended September 30, 2021, and their report has been previously issued under a separate cover.

Major and Non-major University System Foundations (Proprietary Fund Type) – The foundations are legally separate, tax-exempt organizations providing support and recognition to their respective colleges and universities through a variety of programs and activities. The foundations are normally managed by a board of directors made up primarily of alumni, friends or leading members of the communities. The component unit financial statements are presented under Financial Accounting Standards Board (FASB) standards. As such, certain disclosures are not reflected for the Major University System Foundation in the major component unit disclosures and no disclosures are included for the Non-major University System Foundation. A complete set of financial statements can be obtained at the North Dakota University System office at 600 E. Boulevard Avenue, #10, Bismarck, ND 58505.

Non-major State Historical Society of North Dakota Foundation – The mission of the State Historical Society of North Dakota Foundation is to provide fundraising and membership development activities to support the State Historical Society of North Dakota which preserves and promotes the heritage of North Dakota and its people. The Fund of the State Historical Society of North Dakota Foundation were audited by other independent auditors for the fiscal year ended June 30, 2022, and their report has been previously issued under a separate cover. The component unit financial statements are presented under Financial Accounting Standards Board (FASB) standards. As such, certain disclosures are not reflected for the Foundation and no disclosures are included for the Foundation.

Complete financial statements for each of the other individual component units may be obtained at the entity's administrative offices as follows:

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities.

Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets and right-to-use leased capital assets, net of accumulated depreciation and amortization and reduced by outstanding balances for bonds, notes, lease liabilities and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation. Net position restricted by enabling legislation are subject to change by a majority vote of the Legislative Assembly.

Unrestricted net position consist of net position that do not meet the definition of the two preceding categories. Unrestricted net position often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net position often have constraints on resources which are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

FUND FINANCIAL STATEMENTS

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

STATE OF NORTH DAKOTA

The State follows the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing accounting principles generally accepted in the United States of America for governmental entities.

Governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period.

The State considers tax revenues to be available if they are collected within 60 days of the end of the current fiscal year end. Other revenues are considered to be available if received within one year after the fiscal year end. Major revenues that are determined to be susceptible to accrual include interest, federal grants-in-aid, and taxpayer-assessed taxes such as income, sales, corporate, excise, motor fuel taxes and unemployment compensation contributions. Revenues earned under the terms of reimbursement agreements with other governments or private sources are recorded at the time the related expenditures are made if other eligibility requirements have been met. Sales and use taxes are accrued based upon filings received and an estimate of filings due by June 30. Net income taxes from individuals and corporations are accrued based on current income earned by the taxpayer before June 30. Quarterly filings, withholding statements, and other historical data are used to estimate income. The revenue is accrued net of an allowance for uncollectible taxes. Unearned revenue is recorded for receivables that are measurable but not available at year-end.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to debt service, compensated absences, and claims and judgments, are recorded only when payment is due and payable.

FINANCIAL STATEMENT PRESENTATION

The State reports the following major governmental funds:

The General Fund is the principal operating fund of the State.

The Federal Fund accounts for all the financial resources from the federal government.

The State Special Revenue Fund accounts for activities from state sources, which are restricted legally or administratively for the particular costs of an agency or program.

The State reports the following major enterprise funds:

The Bank of North Dakota Fund finances economic development throughout the state, participates in loans with North Dakota financial institutions, and holds interest-bearing deposit accounts for state and political subdivisions of North Dakota.

The Housing Finance Agency Fund is authorized to issue bonds to make loans to mortgage lenders for qualified residential mortgage loans and to make mortgage and construction loans for multi-family housing within the State of North Dakota.

The University System Fund accounts for all financial transactions of the colleges and universities that compose the University System of North Dakota.

The Workforce Safety & Insurance Fund is financed entirely by premiums assessed to the employers of North Dakota and provides no-fault medical and disability insurance to all North Dakota employees.

Additionally, the State reports the following fund types:

GOVERNMENTAL FUND TYPES

General Fund accounts for all governmental financial resources, except for those required to be accounted for in other funds.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

STATE OF NORTH DAKOTA

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Permanent Funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry, such as the common schools within the state.

PROPRIETARY FUND TYPES

Enterprise Funds account for those business-like State activities that provide goods/services to the public, financed primarily through user charges. They are also used to account for operations where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability and other purposes. The State's loan programs, Mill and Elevator, and Fair are reported in this type.

Internal Service Funds account for the financing of goods and/or services provided by one department or agency to another department or agency of a government, or to other governments, on a cost-reimbursement basis. These goods and services include motor pool services; printing, reproduction and mailing services; information technology; and risk management services. In the government-wide statements, internal service funds are included with governmental activities.

FIDUCIARY FUND TYPES

Pension and Other Employee Benefits Trust Funds account for resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plans, defined contribution plan, deferred compensation plan, pretax benefits program, and other post-employment benefit plans.

Investment Trust Funds account for the transactions, assets, liabilities, and fund equity of the external pool participants (City of Bismarck, City of Grand Forks, City of Grand Forks Park District, ND Association of Counties, City of Fargo Fargodome, North Dakota State Board of Medicine, Petroleum Tank Release Compensation Fund, Lewis and Clark Interpretive Center Endowment Fund, Veteran's Cemetery Trust Fund and Retirement and Investment Office Investments). The State Investment Board (SIB) provides administrative services for the external pool participants. SIB issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 1600 East Century Avenue, Suite 3, Bismarck, North Dakota 58503. Investment Trust Funds are accounted for in essentially the same manner as Proprietary Funds.

Private Purpose Trust Funds account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. Examples include student donations, the State's college savings plan, and a remediation trust.

Custodial Funds account for assets held by the State as an agent for other governmental units, or other organizations. Examples of funds in this category include state custodial funds for bonding, tax collection, child support disbursement, and funds held for others.

D. GENERAL BUDGETARY POLICIES AND PROCEDURES

The State operates through a biennial appropriation that represents departmental appropriations recommended by the governor and presented to the Legislative Assembly at the beginning of each legislative session. The Legislative Assembly enacts the budgets of the various state departments through passage of specific appropriation bills. The governor has line item veto powers over all appropriations subject to legislative override.

Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action. The Emergency Commission can authorize receipt of federal or other moneys not appropriated by the Assembly if the Assembly did not indicate intent to reject the money. The Emergency Commission may authorize pass-through federal funds from one state agency to another. The Emergency Commission may authorize the transfer of expenditure authority between appropriated line items. The Legislature has also passed appropriation laws that authorize directors of certain state agencies to transfer appropriation authority among the various divisions of their specific agency, subject to the Budget Section of the North Dakota Legislative Council's approval. Unexpended appropriations lapse at the end of each biennium, except certain capital expenditures covered under the North Dakota Century Code (NDCC) section 54-44.1-11 and the University System's unexpended general fund appropriation authority.

STATE OF NORTH DAKOTA

The State's biennial budget is prepared primarily on a cash basis. The State does not use encumbrance accounting. The legal level of budgetary control is at the agency, appropriation, funding source and expenditure line item level, with administrative controls established at lower levels of detail in certain instances. The State does not formally budget revenues, and it does not budget by fund. The State appropriation is defined through the use of specific expenditure line items. Capital appropriations are generally made at the agency and project level.

North Dakota's Appropriation Act does not present budgets by GAAP fund. Instead, it authorizes General Fund appropriation authority by agency and Other Budgeted Income appropriation authority by agency. Other budgeted income includes all budgeted resources, other than the General Fund, and includes some governmental, proprietary, and fiduciary fund activities.

During the 2021-2023 biennium, there were general, federal and other funds supplemental appropriations totaling \$2,074,846,299.

E. CASH AND CASH EQUIVALENTS

Cash and cash equivalents for reporting purposes includes cash and short-term, highly liquid investments that are readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. This includes investments with original maturity of three months or less. Also cash, as reported, may be under the control of the State Treasurer or by other administrative bodies as determined by law. Cash and cash equivalents are presented on the fund balance sheets as "Cash Deposits at the Bank of North Dakota" and "Cash and Cash Equivalents" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

Cash Deposits at the Bank of North Dakota – State agency cash balances, as required by law, are pooled by the State Treasurer and deposited in the Bank of North Dakota, an enterprise fund. These cash balances, in addition to other agency cash deposited at the Bank of North Dakota, are included on the fund balance sheets as "Cash Deposits at the Bank of North Dakota". For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Cash and Cash Equivalents – All cash and cash equivalents, (other than cash deposits at the Bank of North Dakota), as permitted by the North Dakota Century Code, are included on the Government-wide Statement of Net Position as "Cash and Cash Equivalents".

The State had no cash overdrafts from pooled cash and investments at June 30, 2022.

All interest revenue is allocated to the General Fund unless state law (as outlined in the North Dakota Century Code) requires allocations of interest to other funds.

F. INVESTMENTS

Investments are reported at fair value. Quoted market prices, when available, have been used to value investments. The fair value for securities that have no quoted market price represent estimated fair value. International securities are valued based upon quoted foreign market prices and translated into U.S. dollars at the exchange rate in effect at June 30. In general, corporate debt securities have been valued at quoted market prices or, if not available, values are based on yields currently available on comparable securities of issuers with similar credit ratings. Mortgages have been valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar instruments. The fair value of real estate investment securities, including timberland, is based on appraisals plus fiscal year-to-date capital transactions. Publicly traded alternative investments are valued based on quoted market prices. When not readily available, alternative investment securities are valued using current estimates of fair value from the investment manager. Such valuations consider variables such as financial performance of the issuer, comparison of comparable companies' earnings multiples, cash flow analysis, recent sales prices of investments, withdrawal restrictions, and other pertinent information. Because of the inherent uncertainty of the valuation for these other alternative investments, the estimated fair value may differ from the values that would have been used had a ready market existed.

The net change in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year. Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold.

Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security transactions are currently accounted for on a trade date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date.

Purchases of other state funds' debt issues by the Bank of North Dakota have been recorded as normal business transactions if they are the result of arms-length transactions.

STATE OF NORTH DAKOTA

Investments are presented on the fund balance sheets as "Investments at the Bank of North Dakota" and "Investments" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

Investments at the Bank of North Dakota – State agency investments, primarily certificates of deposits of the Bank of North Dakota, are included on the fund balance sheets as "Investments at the Bank of North Dakota." For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Investments – State agency investments invested at financial institutions other than the Bank of North Dakota are included on the Government-wide Statement of Net Position as "Investments." Differences on the Fund Balance Sheets between the assets, "Cash at the Bank of North Dakota" and "Investments at the Bank of North Dakota," and the liability, "Deposits Held for Other Funds," is attributable to timing differences resulting from the Bank of North Dakota having a different fiscal year end than many of the other state agencies.

G. SECURITIES LENDING

GASB Statement No. 28 "Accounting and Financial Reporting for Securities Lending Transactions," establishes accounting and financial reporting standards for securities lending transactions. The standard requires governmental entities to report securities lent as assets in their balance sheet. Cash received as collateral and investments made with that cash must also be reported as both an asset and a liability. The statement also requires the costs of the securities lending transactions to be reported as expenses separately from income received. In addition, the statement requires disclosures about the transactions and collateral related to them.

The Agent lends securities of the type on loan at June 30, 2022, for collateral in the form of cash, U.S. government securities and irrevocable letters of credit. U.S. securities are loaned versus collateral valued at 102% of the market value of the securities plus accrued interest. Non-U.S. securities are loaned versus collateral valued at 105% of the market value of the securities plus accrued interest.

Non-cash collateral cannot be pledged or sold unless the borrower defaults. All securities can be terminated on demand by either the lender or the borrower, although the average term of the State's loans was approximately 98 days as of June 30, 2022. Cash open collateral is invested in a short term investment pool, which had an interest sensitivity of 1 day as of this statement date. This pool is valued based on amortized cost. There were no violations of legal or contractual provisions, no borrower or lending agent default losses known to the securities lending agent. There are no dividends or coupon payments owing on the securities lent. Securities lending earnings are credited to participating clients on approximately the fifteenth day of the following month.

Indemnification deals with the situation in which a client's securities are not returned due to the insolvency of a borrower and the Agent has failed to live up to its contractual responsibilities relating to the lending of those securities. The Agent's responsibilities include performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral, and complying with applicable Department of Labor and Federal Financial Institutions Examination Council regulations concerning securities lending.

For securities loaned at fiscal year end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceeds the amounts the borrowers owe the State.

H. INTERFUND ACTIVITY AND BALANCES

INTERFUND ACTIVITY

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets (such as goods or cash) without equivalent flows of assets in return or a requirement for repayment. Residual transfer amounts exist in the Government-wide Statement of Activities due to different fiscal year ends of various agencies included in business-type activities.

INTERFUND BALANCES

Interfund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

STATE OF NORTH DAKOTA

I. INVENTORIES AND PREPAID ITEMS

Inventories of Governmental Funds are valued at cost and are recognized principally using the average cost method. Generally, the cost of Governmental Funds' inventories is recorded as an expenditure when consumed rather than when purchased.

Inventories of Proprietary Funds consist primarily of grain inventories from the North Dakota Mill and Elevator Association. Grain inventories are valued at the June 30 Minneapolis grain market values less freight costs to Minneapolis. Flour, feed and resale inventories are valued at ingredient cost plus manufacturing costs incurred in their production. Proprietary Funds expense the cost of consumable supplies when used.

Generally, inventories of University System Funds are valued at the lower of cost or fair market value. Cost is generally determined on the first in/first out, or moving weighted average method. Inventories consist of food, books, and other merchandise held for resale in auxiliaries and unrestricted physical plant supplies.

Prepaid items reflect payments for costs applicable to future accounting periods. The cost of governmental prepaid items are recorded as expenditures when purchased.

J. BOND PREMIUMS / DISCOUNTS

In the governmental funds, bond discounts and premiums are treated as period costs in the year of issue. Bond discounts and premiums are shown as an "other financing source (use)" in the statement of revenues, expenses and changes in fund balance.

In the proprietary funds, bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. The unamortized discount is shown on the statement of net position as a reduction of the bonds payable, and the amortization is included in the statement of revenues, expenses and changes in fund balance as interest expense.

K. CAPITAL ASSETS

Capital assets, which include land, buildings, equipment, intangibles (software, easements and other), construction in progress, infrastructure assets and right to use leased assets, are valued at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their acquisition value on the date of donation. Where necessary, estimates of original cost are derived by factoring price levels from the current period to the time of acquisition. Library books are not capitalized as capital assets except for the University System.

All other capital assets with an original cost of \$5,000 or more per unit and an estimated useful life in excess of one year are capitalized and reported in the applicable government or business-type activities columns in the government-wide financial statements. Exceptions include: infrastructure reported by the Department of Transportation, the threshold is \$100,000 and intangible assets such as easements, water rights, patents and trademarks, the threshold is \$25,000. Capital asset costs include the purchase price or construction cost, plus the costs necessary to place the asset in its intended location and condition for use. In governmental activities. Normal maintenance and repair costs that do not materially add to the value or extend the life of the asset are not capitalized.

Collections of works of art and historical treasures are not capitalized if the following three criteria are met: (1) Held for public exhibition, education, or research in furtherance of public service, rather than financial gain; (2) Protected, kept unencumbered, cared for, and preserved; (3) Subject to organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, and monuments and other art throughout the capital grounds. Assets that do not meet all three criteria, or that were capitalized as of June 30, 1999, are capitalized and included in the government-wide financial statements.

Infrastructure consists of major statewide public systems and items attached thereto such as freeways, freeway lighting systems, freeway drainage systems, freeway signs, bridges, bridge lighting systems, and sewer systems, including those infrastructure assets acquired prior to June 30, 1980. Infrastructure is reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Department of Transportation uses the first-in first-out method to remove the capitalized cost of a replaced road along with corresponding accumulated depreciation.

Capital assets in Governmental Funds are recorded as expenditures in the funds used to acquire or construct them in the governmental fund financial statements. Capital assets, along with accumulated depreciation and depreciation expense, which includes amortization of intangible assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

STATE OF NORTH DAKOTA

Land and construction in progress are not depreciated. With the exception of infrastructure reported by the Department of Transportation (which uses the composite method), other capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>	<u>Assets</u>	<u>Years</u>
Buildings	10-50	Right-to-use Land	20-30
Infrastructure	10-50	Right-to-use Buildings and Improvements	2-52
Furniture, Automobiles, and Equipment	3-20	Right-to-use Furniture, Automobiles, and Equipment	2-7
Intangibles	3-99	Right-to-use Infrastructure	2-30

L. DEFERRED OUTFLOWS OF RESOURCES

Deferred outflow of resources represents a consumption of net assets by the government that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources are reported in the applicable governmental or business-type activities columns, or in the component units column on the government-wide Statement of Net Position.

M. LEASES

The State leases land, office facilities, office and computer equipment, and other assets. Leased right of use assets and the corresponding lease liability are recorded at the present value of future payments over the shorter of the lease term or the assets useful life. The future lease payments are discounted using the implicit rate identified in the lease, or if not identified, then the States incremental borrowing rate is used. The leased right of use assets are amortized on a straight-line basis.

N. FEDERAL FUNDS PURCHASED

Federal Funds Purchased represent federal funds borrowed by the Bank of North Dakota from member banks generally on an overnight basis at the federal funds rate.

O. CLAIMS/JUDGMENTS PAYABLE

Claims/Judgments Payable is primarily Workers Compensation Claims Incurred But Not Yet Reported (IBNR) by the claimants as well as claims related to various litigation matters.

P. COMPENSATED ABSENCES

ANNUAL LEAVE

State employees accrue vested annual leave at a variable rate based on years of service. Teachers employed by the State do not receive annual leave. In general, accrued annual leave cannot exceed 30 days at each year end, as set by the agency. The amount of annual leave earned ranges between one and two days per month, and is fixed by the employing unit per section 54-06-14 of the NDCC.

The governmental fund financial statements recognize annual leave when the liability is incurred and payable from available expendable resources. This normally occurs only if an employee has unused reimbursable leave still outstanding at the time of their termination. The government-wide financial statements present the cost of accumulated annual leave as a liability. Proprietary and Fiduciary Funds recognize the expense and accrued liability when the annual leave is earned.

SICK LEAVE

The North Dakota Century Code, section 54-06-14, states employees accrue sick leave at the rate of one to a maximum of one and one-half working days per month of employment without limitation on the amount that can be accumulated. Employees vest at ten years of creditable service, at which time the State is liable for ten percent of the employee's accumulated unused sick leave. The governmental fund financial statements recognize sick leave as it is incurred. The government-wide financial statements present the estimated cost of sick leave as a liability after an employee has been employed by the State for five consecutive years.

Q. DEPOSITS

The following two liability line items are presented in the Government-wide Statement of Net Position and/or fund financial statements:

STATE OF NORTH DAKOTA

Deposits Held For Other Funds. "Deposits Held for Other Funds" are those deposits held by the Bank of North Dakota for other funds included in the reporting entity and shown on the fund financial statements. For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Other Deposits. "Other Deposits" are those deposits held by the Bank of North Dakota for non-reporting entity third parties. It also includes deposits held for students of the University System.

Differences on the fund balance sheets between the liability "Deposits Held for Other Funds" and the assets "Cash Deposits and Investments at the Bank of North Dakota" are attributable to timing differences resulting from the Bank of North Dakota having a different accounting year end than many other state agencies.

R. NET PENSION LIABILITY (ASSET)

For purposes of measuring the net pension liability (asset) and deferred outflows/inflows related to pension, and pension expense, information about the fiduciary net position of the North Dakota Public Employee Retirement System (PERS), North Dakota Highway Patrolmen's Retirement System (NDHPRS), Retirement Plan for the Employees of Job Service North Dakota (JSND) and North Dakota Teachers' Fund for Retirement (TFFR) and additions to / deductions from PERS, NDHPRS, JSND and TFFR's fiduciary net position have been determined on the same basis as they are reported for PERS, NDHPRS, JSND and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The primary government's proportionate share of pension amounts were further reallocated to the propriety funds (business-type activities) based on the amount of employer contributions paid by each proprietary fund. Pension investments are reported at fair value.

S. NET OTHER POST EMPLOYMENT BENEFITS LIABILITY

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Job Service North Dakota engaged an actuary to determine the net OPEB liability, deferred outflows of resources and deferred inflow of resources related to OPEB and OPEB expense for its Met Life Insurance Benefit plan.

T. DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources represent an acquisition of net assets that applies to a future period, and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources are reported in the applicable governmental or business-type activities columns or in the component units column on the government-wide Statement of Net Position. Deferred inflows of resources of governmental funds, proprietary fund, and discrete component units are reported in detail in their respective fund statements.

Lease-related amounts are recognized at the inception of leases in which the State is the lessor. The deferred inflow of resources is recorded in an amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that related to future periods, less any lease incentives paid to, or on behalf of, the lessee at the commencement of the lease term. The inflow of resources is recognized in a systematic and rationale manner over the lease term.

U. NET POSITION/FUND BALANCE

The difference between fund assets and liabilities is "Net Position" on the government-wide, proprietary, and fiduciary fund statements, and "Fund Balance" on governmental fund statements.

CLASSIFICATIONS

Fund balance classifications for governmental funds are reported in two general classifications, nonspendable and spendable. Nonspendable represents the portion of fund balance that is not in spendable form such as inventories and prepaids. Spendable fund balance is further categorized as restricted, committed, assigned, and unassigned.

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by the State constitution and external parties, such as the federal government, or through enabling legislation.

STATE OF NORTH DAKOTA

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority, the state's legislature, through legislation, that is not considered as enabling legislation, passed into law.

Assigned fund balance classifications are used when the amounts are to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. The assignment of fund balance is generally initiated by the executive branch and later appropriated by the Legislature for a specific purpose. In governmental funds other than the general fund, assigned fund balance also represents the remaining amount that is not restricted or committed.

Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification would only be used to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The State generally segregates restricted, committed, and assigned resources by individual funds within the governmental funds. When resources meeting more than one of these classifications are comingled within an individual fund, the assumed order of spending is restricted first, committed second, assigned third, and finally, unassigned.

BUDGET STABILIZATION FUND

North Dakota Century Code (NDCC) section 54-27.2-02 requires any amount in the state general fund in excess of sixty- five million dollars at the end of any biennium to be deposited in the Budget Stabilization Fund. Any interest or earnings of the fund must be deposited in the fund per NDCC section 54-27.2-01. However, any amounts provided by law for deposit in the fund and any interest or earning of the fund which would bring the balance in the fund to an amount greater than fifteen percent of the current biennial state general fund budget, as finally approved by the most recently adjourned special or regular session of the legislative assembly, may not be deposited or retained in the fund but must be deposited instead in the state general fund.

NDCC section 54-27.2-03 states that if general fund revenue projections for the biennium will be at least two and one-half percent less than estimated by the most recently adjourned special or regular session of the legislative assembly, and if the governor orders a transfer, which must be reported to the budget section of the legislative management, the state treasurer shall transfer the appropriate funds from the budget stabilization fund to the state general fund to offset the decrease in general fund revenues. The amount transferred upon order of the governor may not exceed the difference between an amount two and on-half percent below the general fund revenue projections for the biennium. The Budget Stabilization Fund, fund balance at June 30, 2022 was \$717,359,225.

V. REVENUES AND EXPENDITURES/EXPENSES

In the Government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g., general government, education, health and human services, etc.). Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes and money from tobacco settlements. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted". General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g., federal grants), available only for specified purposes. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first. In the governmental fund financial statements, expenditures are reported by character: "Current," "Intergovernmental-revenue Sharing," "Capital Outlay," or "Debt Service." Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Capital outlay includes expenditures for real property or infrastructure (e.g., highways). Intergovernmental-revenue sharing accounts for the distribution of certain tax revenues that are shared with local units based upon constitutional and statutory requirements. Debt service includes both interest and principal outlays related to bonds and payments on capitalized leases.

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are sub classified by object (e.g., salaries, depreciation, and purchases for resale). Operating revenues consist of sales of goods and services, quasi- external operating transactions with other funds, grant revenues for specific activities that are considered to be operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. Grants that would qualify as an operating activity are those that do not subsidize an existing program, rather they finance a program the agency would otherwise not undertake. For certain loan and investment programs, revenue that

STATE OF NORTH DAKOTA

would normally be classified as non-operating should be classified as operating. Examples of this would include interest and investment income. All other revenues that do not meet the above criteria should be classified as non-operating.

W. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - RESTATEMENTS

The changes to beginning net position are summarized in the following table (expressed in thousands):

	Government-wide Governmental Activities	Government- wide Business Type Activities	Governmental Fund - Special Revenue - State Fund	Proprietary Funds - University Systems
June 30, 2021, net position, as previously reported	\$ 24,708,964	\$ 4,915,810	\$ 8,840,071	\$ 1,522,674
Prior period adjustments:				
GASB 87	945	11,691	—	11,691
Correction of errors	(5,911)	83	(5,911)	83
June 30, 2021, net position, as restated	<u>\$ 24,703,998</u>	<u>\$ 4,927,584</u>	<u>\$ 8,834,160</u>	<u>\$ 1,534,448</u>

A. GASB 87 IMPLEMENTATION

The above prior period adjustment for the implementation of GASB Statement No. 87, *Leases* reflects the removal of assets capitalized under leases and along with the lease liability. In addition, the State also recognized the right-to-use leases assets and leased liabilities of \$28.7 million.

B. CORRECTION OF ERRORS

Correction of errors include writing off uncollectible loans of the HOME program of \$10.6 million and properly recording a transfer of \$4.7 million which resulted in a decrease to fund balance and net position of \$5.9 million.

NOTE 3 - DETAILED NOTES ON ACCOUNT BALANCES

A. DEPOSITS

CUSTODIAL CREDIT RISK

The State minimizes custodial credit risk by restrictions set forth in state statute. Custodial credit risk is risk associated with the failure of a depository financial institution. In the event of a depository financial institution's failure, the State would not be able to recover its deposits or collateralized securities that are in the possession of the outside parties.

State law generally requires that all State funds be deposited in the Bank of North Dakota. NDCC 21-04-01 provides that public funds belonging to or in the custody of the State shall be deposited in the Bank of North Dakota. Also, NDCC 6-09-07 states, "all state funds . . . must be deposited in the Bank of North Dakota" or must be deposited in accordance with constitutional and statutory provisions. The State does not have a formal policy that addresses custodial credit risk for deposits.

At June 30, 2022, the bank balance of the primary government's deposits was \$2,750,716,469. Of the bank amount, \$2,536,607,000 was uncollateralized and uninsured.

There were significant concentrations of uninsured and uncollateralized deposits in the Bank of North Dakota and University System at June 30, 2022. Their uninsured and uncollateralized deposits totaled \$2.5 billion and \$34 thousand, and their bank deposits totaled \$2.5 billion and \$27.8 million, respectively.

STATE OF NORTH DAKOTA

At June 30, 2022, the bank balance of the major component units' deposits was \$106,490,343. Of the bank amount, \$104,857,818 was uncollateralized and uninsured.

The internal receivable amount in the governmental activities column in the Statement of Net Position includes Cash and Investments at the Bank of North Dakota for governmental activities. The internal payable amount in the business-type activities column includes deposits the Bank has for governmental activities. Because the Bank has a different fiscal year end, these internal balances do not equal.

B. INVESTMENTS

The investment policies of the State of North Dakota are governed by NDCC 6-09-07, 15-10-12, and 21-04-02, indicating that all public funds must be deposited in the Bank of North Dakota unless there are other constitutional or statutory provisions. If there are no statutory provisions and the funds are invested outside the Bank of North Dakota, the state agency must have the permission of the North Dakota Industrial Commission.

Investments are generally managed by the State Investment Board, the North Dakota Department of Trust Lands, the Bank of North Dakota, and the North Dakota State Treasurer's Office. Management responsibilities and investment instruments as authorized by statute are as follows:

1. State Investment Board (SIB) – NDCC 21-10 designates the SIB with investment responsibilities for the Public Employees' Retirement System, Bonding Fund, Teachers' Fund for Retirement, Fire and Tornado Fund, Workforce Safety & Insurance Fund, Legacy Fund, and other specific funds. The Century Code states the SIB shall apply the prudent investor rule in investing funds under its supervision. The retirement funds belonging to the teachers' fund for retirement and the public employees' retirement system must be invested exclusively for the benefit of their members and in accordance with the respective funds' investment goals and objectives.

The State Investment Board's investment policy allows investment managers to use derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments. The SIB had four types of derivative securities at June 30, 2022: futures, options, swaps and currency forwards.

2. North Dakota Department of Trust Lands – The Century Code states that the Department of Trust Lands shall apply the prudent investor rule in investing its funds. The investment policies of the Board allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments.
3. The Bank of North Dakota – NDCC 6-09 authorizes the Bank of North Dakota. The Bank is owned and operated by the State of North Dakota under the supervision of the North Dakota Industrial Commission. The Bank may have investments in anything that any bank lawfully may do, except what is restricted by NDCC 6-09.
4. The North Dakota State Treasurer's Office – The North Dakota Constitution and various sections of the Century Code authorize the State Treasurer to invest all State funds deposited with the State Treasury. However, the State Treasurer must invest the public funds with the Bank of North Dakota unless there is statutory authority to do otherwise. Generally, the State Treasurer pools deposits and invests in money market accounts and Bank of North Dakota certificates of deposit.
5. University System – NDCC 15-55-05 and 15-55-06 govern the investment of proceeds of revenue bonds and revenues pledged to bondholders. Such proceeds must be invested in the Bank of North Dakota, in a separate fund in the State Treasury or in a duly authorized depository for the state funds that is a member of the federal deposit insurance corporation. The University System may invest such funds in direct obligation of, or in obligations where the United States of America guarantees the principal and interest, or obligations of the State of North Dakota or any municipality as defined in NDCC Section 21-03-01.

Agency investments, of the primary government, under management of the State Investment Board are included below with the Pension and Investment Trust funds.

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The price of a debt security typically moves in the opposite direction of the change in interest rates. The State does not have a formal investment policy that limits investment maturities as a means of managing its exposure to potential fair value losses arising from future changes in interest rates. However, North Dakota Housing Finance's respective bond resolutions permit only investments that will not adversely affect the rating quality of the outstanding bonds. Also, the maturity date or the date on which such investment obligations may be redeemed shall coincide as nearly as practicable with the date or dates on which moneys in the

STATE OF NORTH DAKOTA

funds or accounts for which the investments were made will be required. The Bank of North Dakota's investment policy provides for a duration range of one to four years, which will serve to decrease interest rate risk.

At June 30, 2022, the following tables show the debt securities of the primary government and major component units by investment type and maturity (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

Investment Type	Total Fair Value	Less Than 1 Year	1 - 6 Years	6 - 10 Years	More Than 10 Years	Maturity Undetermined

STATE OF NORTH DAKOTA

Major Component Units

Investment Type	Total Fair Value	Less Than 1 Year	1 - 6 Years	6 - 10 Years	More Than 10 Years
Commercial Paper	\$ 1,549	\$ 1,549	\$ —	\$ —	\$ —
Corporate Notes	5,848	793	5,055	—	—
Government Agencies	9,829	1,042	8,787	—	—
Government Bonds	33,751	26,418	7,333	—	—
Short Term Bills and Notes	470	470	—	—	—
Total Debt Securities	<u>\$ 51,447</u>	<u>\$ 30,272</u>	<u>\$ 21,175</u>	<u>\$ —</u>	<u>\$ —</u>

The fair values of inflation indexed bonds are reflected in the tables above, based on their stated maturity dates. The principal balances of these bonds are adjusted every six months based on the inflation index for that period.

Some investments are more sensitive to interest rate changes than others. Variable and floating rate collateralized mortgage obligations (CMO's), asset-backed securities (ABS), interest-only and principal-only securities are examples of investments whose fair values may be highly sensitive to interest rate changes.

Interest-only (IO) and principal-only (PO) strips are transactions which involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors, which may result from a decline in interest rates. The State held PO's valued at \$4.9 million and held IOs valued at \$21.4 million. The State has no policy regarding IO or PO strips.

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The State does not have an investment policy that specifically addresses concentrations of credit risk in a single issuer, however the Bank of North Dakota has established asset allocation ranges for investments as a percentage of their total portfolio.

The Bank of North Dakota had the following concentrations at June 30, 2022 (expressed in thousands):

	Amount	Percent
Federal Agency		
U.S. Treasury Securities	\$ 961,389	37.2 %
Federal Home Loan Bank	216,652	8.4 %
Small Business Administration	144,730	5.6 %
Farm Credit	119,229	4.6 %
Freddie Mac	13,412	0.5 %
Fannie Mae	34,666	1.3 %
Mortgage-backed		
Fannie Mae	607,473	23.5 %
Freddie Mac	485,438	18.8 %
Others less than 5%	3,405	0.1 %
	<u>\$ 2,586,394</u>	<u>100.0 %</u>

CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The State maintains a highly diversified portfolio of debt securities encompassing a wide range of credit ratings. Although the State has no overall policy regarding credit risk, each debt securities manager is given a specific set of guidelines to invest within based on the mandate for which it was hired. The guidelines specify in which range of credit the manager may invest. These ranges include investment grade and below investment grade categories. The Bank of North Dakota's investment policy provides minimum credit quality ratings for its investments and asset allocation ranges for investments as a percentage of the total portfolio.

As of June 30, 2022, the following tables present the debt securities of the primary government and major component units and their respective ratings (expressed in thousands).

STATE OF NORTH DAKOTA

*Ratings are determined in the following order: 1) S&P rating, 2) Moody's rating, 3) Fitch rating, 4) Manager-determined rating (internal rating) and 5) if no ratings are available using steps 1-4, then shown as not rated.

**US government agency securities explicitly guaranteed by the US government are categorized here. Credit ratings of US government agency securities that are only implicitly guaranteed by the US government are categorized accordingly in the main body of this table. Implicitly guaranteed agency securities included in the *Gov't Agencies*, *Gov't Bonds*, *Gov't Mortgage Backed*, *Gov't Issued CMB*, *Index Linked Gov't Bonds*, and *Short Term Bills and Notes* categories are issued by FNMA, FHLB, FHLMC, and SLMA.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Although the State Investment Board does not have a formal investment policy governing foreign currency risk, the board does manage its exposure to fair value loss by requiring their international securities investment managers to maintain diversified portfolios to limit foreign currency and security risk. The Department of Trust Lands treats currency exposure in two different ways, depending on the type of investment. For the Board's international equity portfolio, the currency exposure is not hedged, as currency exposure is one of the items that adds diversity to the overall portfolio. For foreign bonds, the Board fully hedges the currency exposure, as the purpose of this portfolio is to generate more consistent returns.

At June 30, 2022, foreign currency risk exposure on investments managed by the Department of Trust Lands and State Investment Board were as follows (expressed in thousands).

STATE OF NORTH DAKOTA

Derivative Securities – Derivatives are financial arrangements between two parties whose payments are based on, or “derived” from, the performance of some agreed upon benchmark. The investment policies of the States’ clients allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative instruments. The fair value of all derivative securities is reported in the Statement of Net Position. At June 30, 2022, the State had four types of derivative securities: futures, options, swaps and currency forwards.

Futures – Futures represent commitments to purchase (asset) or sell (liability) securities at a future date and at a specific price. Futures contracts are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty risk. The net change in the futures contracts’ value is settled daily in cash with the exchanges. Net gains or losses resulting from the daily settlements are included in net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$(68.4) million for the year ended June 30, 2022. At June 30, 2022, the State investment portfolio had the notional futures shown below (expressed in thousands).

Futures	Notional Value
Cash and cash equivalent derivative futures	
Long	\$ 590,720
Short	(83,089)
Commodity Derivatives Futures	
Long	—
Short	(12,092)
Equity derivative futures	
Long	501,730
Short	—
Fixed income derivative futures	
Long	1,050,219
Short	(915,728)
Total futures	<u>\$ 1,131,760</u>

Options – Options represent or give buyers the right, but not the obligation, to buy (call) or sell (put) an asset at a preset price over a specified period. Options are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty credit risk. The option’s price is usually a small percentage of the underlying asset’s value. As a seller of a financial option, the State, through its investment manager, receives a premium at the beginning of the agreement and bears the risk of an unfavorable change in the price of the financial instrument underlying the option. As a buyer of a financial option, the State, through its investment manager, pays a premium at the beginning of the agreement and the counterparty bears the risk of an unfavorable change in the price of the financial instrument underlying the option. Gains and losses on options are determined based on fair values and recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$0.6 million. At June 30, 2022, the State had the following option balances (expressed in thousands):

Options	Fair Value
Cash & Other Options	
Call	\$ (1,033)
Put	(2,834)
Equity Options	
Call	1,074
Fixed Income Options	
Call	(325)
Put	(269)
Total options	<u>\$ (3,387)</u>

STATE OF NORTH DAKOTA

Swaps – A swap is a derivative in which counterparties exchange certain benefits of one party's financial instrument for those of the other party's financial instrument. Specifically, the two counterparties agree to exchange one stream of cash flows for another stream. The State, through its investment managers, has entered into various swap agreements in an attempt to manage its exposure to interest rate, inflation, credit, currency risk and total return.

Gains and losses on swaps are determined based on fair values and are recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$(19.5) million for the year ended June 30, 2022. The maximum loss that would be recognized at June 30, 2022, if all counterparties failed to perform as contracted is \$3 million. Swap fair values are determined by a third party pricing source.

At June 30, 2022, the States' investment portfolio had the swap fair value balances as shown below (expressed in thousands).

Credit Default Swaps

Counterparty/Moody's Rating	Notional Amount	Expiration Date	Fair Value
Bank of America / Aa2 (2 contracts)	\$ (1,105)	2022	\$ 2

Total Interest Rate Swaps	<u>\$ 647,899</u>		<u>\$ (2,569)</u>

Currency Forwards – Currency forwards represent forward exchange contracts that are entered into in order to manage the exposure to changes in currency exchange rates on the currency denominated portfolio holdings. A forward exchange contract is a commitment to purchase (positive) or sell (negative) a currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts is included in the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$17.9million. At June 30, 2022, the States' investment portfolio included the currency forwards balances shown below (expressed in thousands).

Derivative Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the value of an interest rate-based derivative investment. The State does not have a formal investment policy regarding such derivative investments. At June 30, 2022, the tables below show the States' derivative investments subject to interest rate risk (expressed in thousands).

	Total Notional Value	3 Months or Less	3 to 6 Months	6 to 12 Months	1-5 Years	Greater Than 5 Years
Futures- interest rate contracts	\$ 642,122	\$ (681,760)	\$ 1,065,168	\$ 151,913	\$ 106,801	\$ —

Mill and Elevator Derivative Financial Instruments – The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2022, and the changes in fair value of such derivative instruments for the year then ended as reported in the State's financial statements are \$5,747,088, classified as derivative instrument (one contract equals 5,000 bushels) and \$5,747,088, classified as deferred inflow of resources – accumulated increase in fair value of hedging derivatives. The fair value of the grain futures contracts was determined on the Minneapolis Grain Exchange. The margin requirement is \$0.60 per bushel, unless the market price changes the limit for two consecutive days, then the margin requirement is \$0.90 per bushel. The Mill has entered into futures contracts for spring wheat to lock in a price for a future delivery or settlement period. These contracts are entered into to protect the Mill against price fluctuation of the commodity. The price protection is needed to cover any long or short positions compared to flour sales. The table below shows the cost and market values of these spring wheat futures as of June 30, 2022.

Month	# of Contracts Long (Short)	Average Cost	Fair Value	Average Cost	Market Value
Sept 2022	31	\$ 10.7337	\$ 9.9000	\$ 1,676,600	\$ 1,534,500
Dec 2022	737	11.4551	10.0325	42,141,225	36,969,763
Mar 2023	121	10.8364	10.1725	6,482,500	6,154,363
May 2023	69	10.5530	10.2475	3,640,775	3,535,388
				<u>\$ 53,941,100</u>	<u>\$ 48,194,014</u>

The Mill is exposed to credit risk on hedging derivative instruments that are in asset positions. All grain futures trades are completed using two different national brokerage firms on the Minneapolis Grain Exchange. ADM Investor Services is rated A by the Standard & Poor's Rating Service. RJ O'Brien is a privately held business and is not rated by the Standard & Poor's Rating Service.

The Mill is exposed to rollover risk on grain futures trades whenever the hedge ration (defined in aggregate of the size across all futures months relative to the underlying net cash position) does not equal 1.0. At June 30, 2022, the table below shows the hedge ratio by futures month going forward:

Period	Hedge Ratio
Sept 2022	1.0
Dec 2022	1.0
Mar 2023	1.0
May 2023	0.9
Net Position	1.0

STATE OF NORTH DAKOTA

C. SECURITIES LENDING

The following represents the balances relating to the securities lending transactions at June 30, 2022 (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

Securities Lent	Underlying Securities	Non-Cash Collateral Value	Cash Collateral Investment Value
Lent for cash collateral:			
US agency securities	\$ 8,022	\$ —	\$ 8,211
US government securities	202,245	19,528	205,833

Total	\$ 660,087	\$ 186,959	\$ 492,460

D. ENDOWMENT FUNDS

UNIVERSITY SYSTEMS

The endowment funds reported herein are institutional funds under the terms of the gift instrument and are not wholly expendable by the institution. NDCC Section 59-21, the Uniform Prudent Management of Institutional Funds Act (UPMIFA) applies to the investment of endowments governed by a gift instrument. NDUS SBHE policy 810 stipulates endowment funds shall be invested according to the intent of the donor provided such intent is consistent with applicable laws. Absent terms expressing donor intent in a gift instrument, NDUS institution officers initially shall deposit the funds in institution accounts at the Bank of North Dakota. Thereafter, the funds may be invested according to NDCC 59-21. Subject to the intent of the donor, NDUS institution officers are delegated authority to manage and invest these institutional funds as provided by UPMIFA. NDCC Section 59-21-02.5a(7) applies to standard of conduct in the administration of powers to make and retain investments. It states that in managing and investing an institutional fund, the needs of the institution and the fund to make distributions and to preserve capital must be considered. Given the flexibility in NDCC 59-21-02, institutions have differing policies with respect to spending investment income and net appreciation on endowment funds. For UND, distributions for spending endowments each year will be calculated once annually with the quarter ended December 31 unitized fair value and is based on the set spending rate, currently 3.75 percent, applied to the average fair value for the preceding twelve quarter average. All endowment in existence at December 31 for one year will receive a distribution spending allocation. The available amount will be forecast to UND for planning purposes by February 1, and these distributions will be available for spending in the upcoming fiscal year. NDSU determines the spending of endowment earnings based on an annual evaluation.

Net appreciation on investments are available for expenditure and consist of the following at June 30, 2022:

North Dakota State University	\$ 439,776	Reflected in net position as:
University of North Dakota	626,947	Expendable scholarships & fellowships
Total NDUS	\$ 1,066,723	Non-expendable scholarships & fellowships

Endowment funds reported herein do not include the Federal Land Grant Fund held by the State Department of Trust Lands. The annual proceeds from assets held by the Commissioner of the State Department of Trust Lands and are deposited into each college/university's operating fund at the State Treasury and are used for current operating purposes. Bismarck State College, Lake Region State College and Williston State College do not participate in the proceeds allocated by the State Land Department. Total assets held by the State Land Department and proceeds for the fiscal year ended June 30, 2022 are approximately \$223.7 million and \$8.2 million respectively.

STATE OF NORTH DAKOTA

NORTH DAKOTA STATE FAIR FOUNDATION

The North Dakota State Fair Association Foundation had the following activity in their endowment as of September 30, 2021.

Beginning endowment	\$ 2,155,492
Endowment contributions	—
Ending endowment	<u>\$ 2,155,492</u>

STATE OF NORTH DAKOTA

The expected future principal and interest payments on lease receivables if as follows (in thousands):

Year ending:	Principal	Interest
2023	\$ 458	\$ 40
2024	341	23
2025	265	9
2026	8	1
2027	8	—
Thereafter	4	—
Total	<u>\$ 1,084</u>	<u>\$ 73</u>

F. REVERSE REPURCHASE AGREEMENTS

State statutes permit the State to enter into reverse repurchase agreements, that is, the sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the dealers a margin against a decline in fair value of the securities. All sales of investments under these agreements are for fixed terms. In investing the proceeds of these agreements, State policy is for the term to maturity of the investment to be the same as the term of the agreement. Such matching existed at year end. These agreements are secured by Fed book-entry securities held in the State's name. At June 30, 2022, the State had an average daily balance of \$3,000 of repurchase agreements with a 0.00% interest rate and a 0.00% weighted average interest rate paid during the year.

G. INTERFUND ACCOUNTS AND TRANSFERS

DUE FROM OTHER FUNDS/DUE TO OTHER FUNDS

Interfund balances at June 30, 2022 of the following (expressed in thousands):

Due To General Fund From:	
Federal Fund	\$ 59,011
State Fund	30,371
Bank of North Dakota	1,274
Nonmajor Enterprise Funds	28,255
All Others	541
Total Due To General Fund	<u>\$ 119,452</u>

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$15,650,134. This is not expected to be repaid within one year.

Due To Federal Fund From:		Due To State Fund From:	
General Fund	\$ 5,782	General Fund	\$ 1,467
State Fund	36,771	Federal Fund	23,672
All Others	566	Internal Service Funds	450
Total Due To Federal Fund	<u>\$ 43,119</u>	Nonmajor Enterprise Funds	740
		All Others	249
		Total Due To State Fund	<u>\$ 26,578</u>
Due To Internal Service Funds From:		Due To Bank of North Dakota From:	
General Fund	\$ 1,303	State Fund	\$ 13,554
State Fund	5,233	Nonmajor Enterprise Funds	88,360
University System	907	University System	1,895
Federal Fund	5,778	All Others	10,118
All Others	692	Total Due To Bank of North Dakota	<u>\$ 113,927</u>
	<u>\$ 13,913</u>		

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$519,851 which is expected to be repaid within one year.

STATE OF NORTH DAKOTA

Due To University System From:	
General Fund	\$ 11,116
Federal Fund	6,758
State Fund	8,194
Bank of North Dakota	599
Building Authority	1,415
All Others	176
Total Due To University System	<u>\$ 28,258</u>
Due To All Other Funds From:	
All Other	<u>\$ 996</u>

Included in this category are all other enterprise funds and fiduciary funds.

These balances are a result of a time lag between the dates that (1) services are provided and goods received or reimbursable expenditures occur, (2) the payments are made, (3) the transactions are entered into the accounting system, and (4) because of transactions occurring between funds with a fiscal year other than June 30, 2022.

A reconciliation of Due From's and Due To's is presented below (expressed in thousands):

Due From's	\$ 346,241
General Fund/Bank of ND	1,243
Bank of ND/ Mill and Elevator	(16,144)
Bank of ND/Rebuilder's Loan	1,629
Bank of ND/University System	1,895
Bank of ND/Guaranteed Student Loan	232
Governmental Agencies/Bank of ND	(9,994)
Bank of ND/Enterprise Funds	(20,089)
Total Differences	(41,228)
Due To's	<u>\$ 387,469</u>

The previous table represents timing differences between agencies as a result of different fiscal year ends. Those agencies with a different fiscal year end include: Bank of North Dakota and the following Nonmajor Enterprise Funds: Guaranteed Student Loan and Community Water Facility Loan, which have a December year end and State Fair, which has a September year end.

INTERFUND TRANSFERS

A summary of interfund transfers for the fiscal year ended June 30, 2022, follows (expressed in thousands):

	General	Special Revenue Federal	Special Revenue State	Bank Of North Dakota	University System	Housing Finance	Non- major Governmental	Non- major Enterprise	Internal Service Fund	Total
Transfers Out										
General	\$ —	\$ 339	\$ 36,588	\$ —	\$ 415,303	\$ —	\$ 1,764	\$ 10,271	\$ —	\$ 464,265
Special Revenue- Federal	292	—	30,292	—	—	—	191	—	—	30,775
Special Revenue- State	237,224	3,394	3,240	—	45,054	—	387	42,061	—	331,360
Non-major Governmental	—	—	76,153	—	25,284	—	24	—	—	101,461
Bank of North Dakota	35,000	—	23,010	—	16,595	—	—	—	—	74,605
Housing Finance	—	—	22	—	—	—	—	—	—	22
University System	—	—	—	—	—	—	9,603	—	—	9,603
Non-Major Enterprise	12,572	—	4,854	1,050	—	—	—	27,570	—	46,046
Total	<u>\$ 285,088</u>	<u>\$ 3,733</u>	<u>\$ 174,159</u>	<u>\$ 1,050</u>	<u>\$ 502,236</u>	<u>\$ —</u>	<u>\$ 11,968</u>	<u>\$ 79,903</u>	<u>\$ —</u>	<u>\$1,058,137</u>

(Transfers In do not agree to the statements due to the timing differences noted below.)

Transfers are used for the following purposes:

STATE OF NORTH DAKOTA

- Move general fund appropriation amounts to certain agencies.
- Move revenues from the fund that statute requires to collect them to the fund authorized to spend them.
- Move certain excess revenues collected in other funds to the general fund.
- Move receipts restricted for debt service from the funds collected to the debt service funds as payments become due, and move capital project funds paying the construction costs.

For the year ended June 30, 2022, legislatively-mandated transfers were made to the general fund of \$205,000,000 from Strategic Investment and Improvement Fund, \$5,600,000 from the State Lottery, \$6,971,950 from Mill and Elevator, \$6,339,550 from the Insurance Regulatory Trust Fund, \$10,221,598 from the Multistate Audit Fund, \$1,064,863 from the Health & Consolidated Lab Fund, and \$12,835,616 from the Securities Dept. Special Fund

A reconciliation of Transfers In and Transfers Out is presented below (expressed in thousands):

		\$ (1,028,846)
Differences:		
General Fund / Bank of North Dakota	(35,000)	
Spec. Rev. / Legacy Bond Program	2,692	
Bank of North Dakota / Spec. Rev. PACE	4,800	
Spec. Rev. Ag Pace / Bank of North Dakota	(1,000)	
Spec. Rev. Industrial Commission / Bank of North Dakota	(60)	
Spec. Rev. Ag Pace / Spec Rev. Beginning Farmers Loan	(3,240)	
Spec. Rev. Beginning Farmer / Ag Pace	1,500	
School Construction Assistance Loan Fund / Bank of North Dakota	(1,050)	
Infrastructure Revolving Loan Fund / Legacy Bond Program	2,144	
Federal fund	(77)	
Total Differences		(29,291)
Transfers Out		\$ (1,058,137)

The above timing differences of (29,291,263) result from transactions between agencies that have different fiscal year ends. The Bank of North Dakota (BND) has a different fiscal year end, they have a December year end. This difference is also the total net transfers on the Government-wide Statement of Activities.

STATE OF NORTH DAKOTA

I. DEFERRED OUTFLOWS OF RESOURCES

FINANCIAL DERIVATIVE INSTRUMENT

The State enters into interest rate swap agreements to modify interest rates on certain liabilities. The fair values of both hedging derivatives and investment derivatives (if any) are presented on the Statement of Net Position, either as a derivative liability (negative fair value) or as a derivative asset (positive fair value). The change in the total fair value of derivatives that are determined to be effective hedges is recorded as a deferred inflow or outflow of resources on the Statement of Net Position. If a derivative were determined to be an ineffective hedge, it would be classified as an investment derivative, and the change in the total fair value would be presented as part of investment earnings.

DEFERRED LOSS ON BOND REFUNDING

A deferred charge on refunded debts results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

J. LONG-TERM DEBT

Debt authorized is generally limited by the state constitution. The Constitution of North Dakota provides that the State may issue or guarantee the payment of bonds, provided that all bonds in excess of \$2 million are: (1) secured by first mortgage upon property and no further indebtedness may be incurred by the State unless evidenced by a bond issue; (2) authorized by law; (3) for a certain purpose; (4) provisioned to pay the interest semiannually; and (5) the principal is paid within 30 years. Additionally, the law authorizing the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond.

1. REVENUE BONDS

Bonds payable at June 30, 2022, consisted of bonds issued by the State and are accounted for by the respective state agencies in the government-wide financial statements that issued the bonds.

STATE OF NORTH DAKOTA

Current state statutes empower certain state agencies to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on such bonds shall be payable only from the applicable agency's program income.

Primary Government

Building Authority

The 2010 Series A and B, the 2012 Series A, the 2017 Series A bonds and the 2020 Series A have interest payable semiannually on June 1 and December 1 of each year. The 2010 Series A bonds are subject to optional redemption in whole or in part. The 2010 Series B, the 2012 Series A, the 2017 Series A bonds and the 2020 Series A are not subject to optional and/or extraordinary optional redemption prior to maturity upon the occurrence of certain events. The Authority shall issue bonds to refund the note on or before maturity. All bonds are independently secured by the funds, certain mortgaged property, and all rights, titles, and interests of the Building Authority as lessor, including all basic rent payments, investment earnings on the funds and any other income derived by the Building Authority with respect to the lease. Total net revenue pledges for fiscal year 2022 were \$11.97 million. For fiscal year 2022, principal and interest paid by the Authority on the bonds was \$12.03 million. The total principal and interest remaining to be paid as of June 30, 2022, is \$141.1 million payable through December 2040.

The 2010 bond agreements require the establishment and maintenance of reserve funds to be used for debt service payments if amounts in the bond funds are insufficient to make payments. Fund are also required for any positive arbitration due to the Federal government.

Legacy Bond Program

The appropriation bonds have been issued to provided financing to legislative approved state projects and programs. The bonds are direct obligations of the Public finance Authority and secured by the State of North Dakota's Legacy Fund earnings, capitalized interest CD's and interest earnings pursuant to the applicable bond resolutions. The total principal and interest remaining to be paid as of June 30, 2022 is \$586.4 million through June 2041.

Student Loan Trust

Interest is payable semiannually on June 1 and December 1 of each year. The 2004 Series A Bonds are variable rate bonds. The rate of interest is determined based on one-month LIBOR plus 0.7%. The maximum rate of interest is 12% per annum. Details of the terms and provisions of the variable rate bonds are outlined in Section 2.1 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution. Section 2.2 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution has deemed these to be Federally Taxable Bonds. The Series 2004 Bonds are subject to redemption prior to maturity at the option of the Commission from any source of funds, in whole or in part, on any date at a redemption price equal to 100% of the principal amount plus accrued interest to date of redemption.

The total principal and interest remaining to be paid on the outstanding bond is \$1 million payable through June 2029. For fiscal year 2022, revenue pledged and total principal and interest paid by Student Loan Trust were \$21,000 and \$9,000, respectively.

Housing Finance

Housing Finance Bonds were issued to provide financing to purchase mortgage loans to finance rental housing projects. The bonds are the direct obligation of the Housing Finance Agency and are secured by the mortgage loans purchased under the applicable resolutions; the revenues, prepayments, insurance and foreclosure proceeds received related to the mortgage loans; and certain funds and accounts established pursuant to the applicable bond resolution.

Revenues Pledged – The agency has homeownership bonds outstanding in the amount of \$1.48 billion maturing at various times from July 1, 2022 through January 1, 2053. The bonds have been issued to provide financing to purchase mortgage loans. Annual principal and interest payments on the bonds are expected to require 98 percent of net revenues. Principal and interest paid for the current year and total customer net revenues were \$266.5 million and \$29.0 million, respectively. Bond principal was reduced through customer revenues and the refunding of older bonds with proceeds from new bond issues.

Pursuant to the Series Resolutions adopted to date and under the 1994 and 2009 General Resolutions, the revenues generated by the Program Loans (but not the Program Loans themselves) are pledged to secure the Bonds. The Agency is permitted by terms of the General Resolutions to issue Bonds and pledge Revenues pursuant to the Series Resolution which exceed the amount required to meet the obligations of that Series of Bonds. In such event, it is likely that any such Series of bonds would produce excess Revenues which could be available to redeem the related Series of bonds or any other Series of Bonds prior to the state maturities thereof.

STATE OF NORTH DAKOTA

University System

Revenue bonds are limited obligations of the University System. The principal and interest on the bonds are payable generally from the net income of specific auxiliary activities, designated student fees, interest subsidies and debt service reserve funds. These revenues are generally pledged to the payment of bonds in accordance with the specific terms of the specific indenture. Net pledged revenues for fiscal year 2022 were \$20.6 million. Principal and interest paid for the current fiscal year were \$20.6 million, with total remaining principal and interest of \$380.2 million payable through fiscal year 2050.

State Fair Association

Capital Financing Program Bonds Series 2015 – Interest is payable semi-annually on June 1 and December 1 of each year. The bonds maturing on June 1, 2029 are not subject to optional redemption prior to maturity except under extraordinary circumstances. The bonds are secured by the Association's net revenues and by the lodging tax proceeds from the City of Minot, North Dakota.

Major Component Units

Public Finance Authority

The bonds of the Public Finance Authority were issued to provide financing to purchase municipal securities in order to provide local political subdivisions with funds to finance local projects. The bonds are direct obligations of the Public Finance Authority and are secured by municipal securities purchased under the applicable resolutions, interest earnings and certain accounts established pursuant to the applicable bond resolutions. Net pledged revenues for fiscal year 2022 were \$19.9 million. Principal and interest paid for the current fiscal year were \$50.2 million, with total remaining principal and interest of \$510.9 million payable through June 2045.

Transmission Authority

The bonds of the Transmission Authority were issued to provide facilitate the purchase of a transmission line. The bonds are direct obligations of the Transmission Authority and are secured by Nexus Line, LLC. Net pledged revenues for fiscal year 2022 were \$223,000. Principal and interest paid for the current fiscal year was \$887,500, with total remaining principal and interest of \$212.6 million payable through June 2042.

¹⁾ Entire amount of bonds payable are not associated with capital assets of the State.

STATE OF NORTH DAKOTA

- 2) At June 30, 2022, NDSU had pledged \$10.6 million of assets as collateral for bonds payable issued at the Research I and Research II buildings.

The MiSU and VCSU bonds as well as the BSC 2012 bond issue contain a provision that in the event of default, outstanding amounts become immediately due if the institutions are unable to make payment.

DCB and NDSCS contain a provision that the bond owners or a court appointed trustee may pursue any available legal remedy.

The BSC 2012 and the MISU bond issues are subject to redemption in the event of any loss, damage or destruction.

The MaSU, NDSU, UND and WSC bonds contain a provision that the bond owners or a court appointed trustee may pursue any available legal remedy.

The NDSU bonds payable to component units are payable through the monies received from the operating lease between the component unit and NDSU. In the event of NDSU's failure to pay the rent under the lease, the component unit may declare all rent due and payable for the remaining term of the lease, subject to available appropriations. The component unit may take possession of the facilities.

MiSU 2010 bond issue contains a provision that terminates the bond issue at a redemption price equal to 104 percent of the outstanding principal amount plus accrued interest upon the occurrence of one or more of the following events:

- Enactment of legislation or the adoption of final regulations that would deem or render the bonds not qualified for Build America Bonds.
- The federal government discontinues the Build America Bond program retroactively applied to bonds issued prior to determination.
- A written opinion by bond counsel that the bonds aren't qualified Build America Bonds.

Refunding and Defeased Bonds

Minot State University

MiSU refinanced \$7.7 million of Wellness Fund Bonds with an interest rate of 6.389 percent. The bonds were used to recall \$7.4 million of outstanding 2010 Wellness Fund Bonds. The bonds were refunded to reduce total debt service payments over the next nineteen years by \$2.9 million. The economic gain realized as a result of the refunding was \$2.3 million.

North Dakota State College of Science

NDSCS refinanced \$6.7 million of Housing Facilities Bonds with an interest rate of 3.76 percent. The bonds were used to recall \$6.7 million of outstanding 2012 Housing Facilities Bonds. The bonds were refunded to reduce total debt service payments over the next nineteen years by \$1.5 million. The economic gain realized as a result of the refunding was \$439,000.

University of North Dakota

UND issued certificates of participation to advance refund the 2012 Housing and Auxiliary bonds of \$11.4 million and the 2013 Housing and Auxiliary bonds of \$5.9 million with an interest rate of 4.24 percent and 3.86 percent, respectively. The total debt service payments will be reduced by \$1.4 million and \$548,000, respectively over the next twelve years. The economic gain realized on the advance refunding was \$1.39 million and \$385,000, respectively.

STATE OF NORTH DAKOTA

State Fair Foundation	2022	4.22	65
Total Revenue Bonds Payable— Major Component Units			<u>\$ 24,211</u>

- ¹⁾ These notes payable represent FHLB long-term advances. The advances must be secured by minimum qualifying collateral maintenance levels. Residential, agriculture and commercial loans with carrying values of \$1.1 billion are currently being used as security to meet these minimum levels.

Short Term Borrowings:

The Bank of North Dakota issued short-term debt to fund loans on a short-term basis.

The ND Housing Finance Agency maintains a collateral pledge agreement with the FHLB covering secured advances whereby the Agency has agreed to retain residential real estate loans and marketable securities, free of all other pledges, liens and encumbrances. The pledged loans and securities are discounted by FHLB when determining their borrowing capacity. The aggregate borrowing capacity of eligible collateral was approximately \$17.3 million as of June 30, 2022. In addition, borrowings are collateralized by \$61 million of loans receivable and \$146,000 of cash and investments.

3. CERTIFICATES OF PARTICIPATION

Primary Government

University System

On September 1, 2018, the University of North Dakota (UND) entered into a lease-purchase agreement with Johnson Controls PI Project Site Operations, LLC (Johnson Controls) to construct and operate a new steam plant and make other energy conservation improvements. To fund the project, UND issued Series 2018A and 2018B Certificates of Participation through Trust Agreement with the Bank of North Dakota, as the Trustee. The certificates are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

The Series 2018A certificates were issued at a par value of \$76.6 million, with a net premium of \$3.8 million. In fiscal year 2019, UND began making semi-annual interest-only payments through fiscal year 2040. The first principal payment will be due in fiscal year 2041. The certificates mature in fiscal year 2057.

The Series 2018B certificates were issued at a par value of \$16.5 million, with no premium or original issue discount. In fiscal year 2019, UND began making semi-annual interest-only payments through fiscal year 2023. The first principal payment will be due in 2024. The certificates mature in fiscal year 2041.

On July 26, 2021, UND issued tax-exempt Certificates of Participation, Series 2021A, in the amount of \$133,010,000 to fund the costs of a major renovation to student housing facilities; demolition of nine student housing facilities based upon student demand; and the construction of a new 400 and 477-bed student housing facility.

JCP University Housing Services, LLC (JCP USH) and UND entered a lease-purchase agreement in which the institution will initially lease the project from JCP USH. The title to the real estate on which the project is constructed will remain with the institution. The initial term of the lease commences on June 30, 2023, with extensions through June 30, 2061.

STATE OF NORTH DAKOTA

The Series 2021A certificates were issued at a par value of \$133.0 million, with a net premium of \$9.0 million. The certificates have interest rates ranging from 3.00 to 5.0 percent and are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

The first principal and interest payments are due in the fiscal year 2024. The certificates mature in the fiscal year 2061.

On August 22, 2019, Williston State College (WSC) entered into a lease-purchase agreement with Johnson Controls, Inc., to fund the costs of certain energy conservation improvements including, but not limited to, renovations to existing heating, ventilation, and air conditioning systems and controls, deferred maintenance improvements. To fund the project, WSC issued Series 2019 Certificates of Participation through the Bank of North Dakota. The certificates have interest rates ranging from 3.0 to 5.0 percent and are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

The Series 2019 certificates were issued at a par value of \$7.4 million, with a net discount of \$78,000. WSC will make an interest semi-annual principal and interest payment beginning FY2021 through FY2048.

The following is a schedule of certificates of participation outstanding at June 30, 2022 (expressed in thousands):

Primary Government

	Maturities	Interest Rates	Balance 6/30/22

Intergovernmental Payable	—	—	621	40
Total	<u>\$ 27,513</u>	<u>\$ 2,751</u>	<u>\$ 73,992</u>	<u>\$ 5,439</u>

Internal service funds predominately serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, internal service funds included in the above amounts consist of \$1,572,911 of notes payable, \$6,244,531 of leases payable, \$3,774,121 of compensated absences and \$5,881,101 of claims and judgments. In addition, payments on long term debt (notes payable and leases payable) for internal service funds of \$2.5 million is included above along with additions to notes payable and leases payable for internal service funds of \$3.8 million.

STATE OF NORTH DAKOTA

Other governmental activities compensated absences generally have been liquidated by the General Fund (63.4%), the Highway Fund (10.0%), the Federal Fund (14.5%), and other various funds. Other governmental activities claims and judgments have all been liquidated by the Petroleum Release Compensation Fund.

K. ARBITRAGE REBATE PAYABLE

Arbitrage as it applies to government financing refers to the ability of state governments to obtain funds at a tax-exempt rate of interest and to then invest those funds in investments which earn a higher yield, resulting in a profit to the issuer.

The arbitrage rebate rules require that any earnings from the investment of the tax-exempt bond proceeds which exceed the yield on the bonds be remitted to the federal government.

The State had no arbitrage rebate payable to the federal government as of June 30, 2022.

L. DEFERRED INFLOWS OF RESOURCES

GRANTS RECEIVED PRIOR TO TIME REQUIREMENTS

This amount represents unavailable revenue. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

INCREASE IN FAIR VALUE OF HEDGING DERIVATIVES

This amount represents the changes in fair value of futures.

M. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value measurements are used to record fair value adjustments to certain assets, deferred outflows of resources, liabilities and deferred inflows of resources to determine fair value disclosures.

FAIR VALUE HIERARCHY

In accordance with GASB Statement No. 72, assets, deferred outflows of resources, liabilities and deferred inflows of resources are grouped at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1: Valuation is based upon quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3: Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as practical expedient are not classified in the fair value hierarchy.

DETERMINATION OF FAIR VALUE

In accordance with GASB Statement No. 72, fair values are based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the State's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy.

The following is a description of the methodologies used for instruments measured at fair value.

STATE OF NORTH DAKOTA

Securities classified in Level 1 are valued using quoted prices in active markets for those securities. Securities classified in Level 2 and Level 3 are valued using methodologies such as various bid evaluations, market averages and other matrix pricing techniques as well as values derived from associated traded securities or last trade data. In instances where inputs used to measure fair value fall into different levels, the fair value is categorized based on the lowest level input that is significant to the valuation.

Investments valued at the net asset value (NAV) per share (or its equivalent) have been classified separately in the table below and include investments considered to be *alternative investments* as defined by the AICPA. The definition includes investments for which a readily determinable fair value does not exist (that is, investments not listed on national exchanges or over-the-counter markets, or for which quoted market prices are not available from sources such as financial publications, the exchanges, or NASDAQ). These types of investments can be held within any of the asset classes used by the State based on underlying portfolio holdings and analysis of risk and return relationships. These investments can be structured in different ways, including limited partnerships, limited liability companies, common trusts and mutual funds. Some are closed-ended with a specific life and capital commitment while others are open-ended with opportunity for ad hoc contributions or withdrawals and termination upon proper notice.

Commingled/Mutual Funds – These types of funds are generally open-ended funds and may be utilized in equities or fixed income asset classes. They are funds made up of underlying securities that have readily available fair values (publicly traded stocks or bonds). The State owns units of these funds rather than the individual securities. Contributions or withdrawals from these funds can be made as needed, generally with daily or monthly liquidity, with a notice period of one to fifteen days. Because they are liquid funds, there are no unfunded commitments for these types of investments.

Distressed Debt — These include investments in the debt instruments of companies which may be publicly traded or privately held that are financially distressed and are either in bankruptcy or likely candidates for bankruptcy. Typical holdings are senior and subordinated debt instruments, mortgages and bank loans. The State is including these types of investments in its global fixed income allocations. As of June 30, 2022, all unfunded commitments in the State distressed debt portfolios had been released.

Equity Long/Short — This strategy is a combination of long and short positions, primarily in publicly traded equities. The State utilizes this strategy, through a limited partnership structure, within its global equity allocations. This is an open-ended fund with monthly liquidity with a notice period of 15 days. There was no unfunded commitment as of June 30, 2022.

Mezzanine Debt — This strategy is a hybrid of debt and equity financing. It is essentially debt capital that gives the lender the rights to convert to an ownership or equity interest in the company if the loan is not paid back in time and in full. It is generally subordinated to senior debt. The State utilizes this strategy, through a limited partnership structure, in its global fixed income allocation. The two funds in this category are not eligible for redemptions, have remaining lives of 1-2 years, and unfunded commitments of \$8.5 million as of June 30, 2022.

Private Credit – These investments include loans to private companies, privately placed debt of public companies, or loans backed by real assets. Loan repayment can be derived from either cash flows from an operating company or cash flows generated by a physical or esoteric asset. Private debt is typically secured and has various protections/covenants in place. The debt is customized to the borrower's requirement, thus rendering it illiquid. The State includes these strategies within its global fixed income allocation through limited partnership-type structures. Private credit issuers may be investment grade but are typically below-investment grade and similar in some respect to the syndicated bank loan and high yield markets. The State participates in two senior private credit funds, commonly referred to as direct lenders, which are structured as custom managed accounts that are not eligible for redemptions during remaining investment lives, and the unfunded commitments totaled \$130.7 million as of June 30, 2022.

Private Equity - Private Equity investments are typically private interests in corporations across different areas of the capital structure and in different stages of the corporations' development via limited partnership vehicles. Private Equity investments are illiquid and long term in nature (10-12 years), typically held until maturity. Private Equity portfolios generally have a "J-Curve Effect" whereby there are low to negative returns in the initial years due to the payment of investment management fees and initial funding of investments made by the General Partner during a period when investments are typically carried at cost and returns have not been realized. To diversify the program, Private Equity investments are made across business cycles, vintage years, and different strategies. The State has a dedicated sub-asset class for private equity investments within its global equity allocation in the pension pool. The State does not have the option to request redemptions from its private equity funds. The General Partner distributes earnings and proceeds from the sale of the underlying investments as transactions occur. The State has \$768.7 million in unfunded private equity commitments as of June 30, 2022.

Venture Capital – These include investments in companies in a range of stages of development from start-up/seed stage, early stage, and later/expansion stage. Investments are typically made in years one through six and returns typically occur in years four through ten.

STATE OF NORTH DAKOTA

Buyouts – These include investments in funds that seek out and purchase underperforming or undervalued companies in order to improve them and sell them or take them public many years later. These funds are also often involved in management buyouts, which are buyouts conducted by the management of the company being purchased, and they often play key roles in leveraged buyouts, which are buyouts that are funded with borrowed money.

Real Assets – These investments are intended to provide allocations to tangible assets that are expected to be inflation protected and provide performance above the inflation rate as indicated by the CPI. Investments are generally structured as limited partnerships or limited liability companies. Investments in Real Estate Assets include Real Estate, Timberland and Infrastructure, as discussed below.

Real Estate – includes investments in private vehicles through limited partnerships or commingled vehicles that have an ownership interest in direct real estate properties. The investment strategies may include “value added” strategies, which derive their return from both income and appreciation, “opportunistic”, which derive their return primarily through appreciation, and “alternative” which invest in less traditional types of property. Both domestic and international real estate funds are utilized. The State has a dedicated sub-asset class for these types of investments within global real assets. There are currently 11 different real estate funds in the portfolio. Five of those funds are open-ended vehicles that accept redemption requests quarterly with a 30-90 day notification period. There were no unfunded commitments in the open-ended funds as of June 30, 2022. The remaining six funds are closed-ended limited partnerships that are not eligible for redemptions. Those six funds have a combined unfunded commitment of \$250.5 million as of June 30, 2022.

Timberland – includes investments in limited liability companies that have an ownership interest in properties where the value of the property is derived mainly from income-producing timber but also from the “higher and better use” value of the underlying land. The State includes these assets within its global real asset allocations. There are three funds in the portfolio and they have no unfunded commitments. The funds are not eligible for redemption other than distributions of income and/or proceeds as determined by the investment manager. The funds have remaining lives of 1-4 years.

Infrastructure – includes investments in limited partnerships that have an ownership interest in transportation assets such as toll roads, tunnels and bridges; and regulated assets such as electricity transmission, gas and oil distribution and wastewater collection. Other possible investments would include communication assets and social infrastructure. The State includes these assets within its global real assets allocations. The infrastructure investments in the portfolio as of June 30, 2022, include both open and closed-ended funds. The three open-ended funds have no unfunded commitments and are eligible for redemptions quarterly with 90 days notice. The 17 closed-ended funds have unfunded commitments of \$412.4 million at June 30, 2022 and are not eligible for redemptions.

Interest Rate Swap Agreements – Fair values for interest rate swap agreements are based upon the settlement value adjusted by estimated nonperformance risk.

Derivative Instruments – Fair values of the grain future contracts are determined on the Minneapolis Grain Exchange.

STATE OF NORTH DAKOTA

Fair Value

The following table shows the fair value leveling of the State's assets and liabilities at June 30 (expressed in thousands).

NOTE 4 - NET POSITION

The government-wide Governmental Activities Statement of Net Position reports \$8,029,841,388 of restricted net position, of which \$1,074,607,167 is restricted by enabling legislation.

NOTE 5 - FUND BALANCE

The following table on the next page presents further display the fund balances by major purpose.

Included in the General Fund, unassigned fund balance is \$8,126,184,841 for the North Dakota Legacy Fund. The Legacy Fund was established with thirty percent of total revenue derived from taxes on oil and gas production or extraction. The principal and earnings of the Legacy Fund may not be spent until after June 30, 2017, and an expenditure of principal after that date requires a vote of at least two-thirds of the members elected of each house of the legislative assembly. No more than fifteen percent of the principal of the Legacy Fund can be expended during a biennium.

NOTE 6 - RETIREMENT SYSTEMS

A. DESCRIPTION OF PLANS

The State of North Dakota administers four major retirement systems: North Dakota Public Employees' Retirement System, North Dakota Highway Patrolmen's Retirement System, Retirement Plan for the Employees of Job Service North Dakota and the Teachers' Fund for Retirement. The State also administers the North Dakota Defined Contribution Retirement Plan, which was established January 1, 2000. Certain state employees may also participate in a privately administered retirement system: Teachers' Insurance Annuity Association. The following is a brief description of each plan. More detailed information can be found in the plan agreements and the related legislation.

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM (PERS)

The North Dakota Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan covering substantially all employees of the State of North Dakota, its agencies, and various participating political subdivisions (Main System). It also covers Supreme and District Court judges, the National Guard Security Officers and Firefighters, peace officers and correctional officers employed by political subdivisions and as of August 1, 2017, firefighters employed by participating political subdivisions. Effective August 1, 2015, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System. It is not subject to the provisions of the Employee Retirement Security Act of 1974. PERS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

At June 30, 2022 number of participating political subdivisions in PERS was:

Cities	97
Counties	51
School Districts	131
Other	94
Total Participating Local Political Subdivisions	<u>373</u>

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of PERS. Benefit and contribution provisions are administered in accordance with chapter 54-52 of the North Dakota Century Code.

STATE OF NORTH DAKOTA

Responsibility for administration of the three defined benefit pension plans and the defined contribution plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; two members of the legislative assembly appointed by a chairman of the legislative management, three members elected by the active membership of the NDPERS system; and one member elected by the retired public employees.

The costs of administering the plan are financed through the contributions and investment earnings of each plan.

Benefits

Benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equals or exceeds 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The annual pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. For members hired on or after January 1, 2020 the annual pension benefit is equal to 1.75% of their average monthly salary, using the three highest periods of twelve consecutive months employed during the last one hundred eighty months of employment. The Plan permits early retirement at ages 55-64 with three or more years of service.

Supreme and district court judges are entitled to unreduced monthly pension benefits beginning at the normal retirement age (65) or Rule of 85. The monthly pension benefit for Supreme and district court judges is equal to a percentage of average monthly salary using the highest 36 consecutive months out of the last 180 months of service. The percentage is equal to 3.5% of final average monthly salary multiplied by the first 10 years of service, plus 2.80% of the average monthly salary times the second 10 years of service, plus 1.25% of average monthly salary times years of service in excess of 20 years. The judicial retirement formula is only applied to eligible judicial service. Non-judicial service benefits are calculated using the 2.00% multiplier. The plan permits early retirement at ages 55-64, with five or more years of service.

Members of the National Guard System are entitled to unreduced monthly pension benefits at normal retirement age (55). Effective August 1, 2015, the National Guard System will become part of the Law Enforcement System. Members of the Law Enforcement are entitled to unreduced monthly pension benefits at normal retirement age (55) or the rule of 85. The monthly pension benefit for the National Guard/Law Enforcement is equal to 2.00 percent of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 50-55 with three or more years of service for members.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the employee's accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active employee dies with less than three years of service for the Main System and Public Safety, or less than five years of service for Supreme and district court judges, a death benefit equal to the value of the employee's accumulated contributions, plus interest, is paid to the employee's beneficiary. If the employee has earned more than three years of service for the Main System and Public Safety, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the employee's accrued normal retirement benefit, or monthly payments in an amount equal to the employees' accrued 100% joint and survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the employee's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

For judges only who have earned five years of credited service, the death benefit is the greater of (i) lump sum payment of accumulated contributions, or (ii) 100% of the member's accrued benefit (not reduced on account of age), payable for the spouse's lifetime.

Eligible members who become totally disabled after a minimum of 180 days of service receive monthly disability benefits that are equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for "disabled" is set by the System in the North Dakota Administrative Code.

For Judges only, the disability benefit formula is 70% of final average salary minus social security and workers compensation benefits.

STATE OF NORTH DAKOTA

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 65 or does not have three years of service for the Main System and National Guard/Law Enforcement, or five years of service for the Supreme and district court judges, credited for PERS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates are set by state statute and are a percentage of salaries and wages.

Members that made a qualifying election under Senate Bill 2015 to move from the Defined Contribution Plan back to the Defined Benefit Plan have a 2% increase on employee contributions. The 2019 Legislative Assembly passed legislation that ended the RHIC plan for new hires after January 1, 2020 and redirected the 1.14% RHIC employer contribution to the retirement account for both the PERS plan as well as the defined contribution plan.

Member contributions are set by state statute and are a percentage of salaries and wages. During the 1983-1985 biennium, the State implemented the employer pickup provision of the IRS code, whereby a portion or all of the required member contributions are made by the employer. The State is paying 4% of the full member contribution. Some of the political subdivisions are paying all or part of the member contributions. Employer contributions are set by statute except the contribution rates for the National Guard/Law Enforcement Plans which are set by the Board. Contribution rates are established as a percent of covered compensation as follows:

	Member Contributions	Employer Contributions
PERS		
Members first enrolled prior to 1/1/20	7.00 %	7.12 %
Members first enrolled after to 1/1/20	7.00 %	8.26 %
Members returning to the Defined Benefit Plan as a result of Senate Bill 2015	9.00 %	7.12 %
Judges Retirement System	8.00 %	17.52 %
Law Enforcement with previous service		
State – BCI Plan	6.00 %	9.81 %
State – National Guard	5.50 %	9.81 %
Political subdivisions	5.50 %	9.81 %
Law Enforcement without previous service	5.50 %	7.93 %

The member's account balance includes employee contributions, interest, and the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. Members of the Supreme and District Court Judges are not eligible to vest in the employer contributions if contributing to the deferred compensation plan.

The minimum monthly member contribution is \$25, and the maximum may not exceed certain parameters based upon years of service.

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

The North Dakota Highway Patrolmen's Retirement System is a single-employer defined benefit pension plan covering substantially all sworn officers of the Highway Patrol of the State of North Dakota. It is not subject to the provisions of the Employee Retirement Income Security Act of 1974. NDHPRS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of NDHPRS. See PERS Administration note for composition of the Retirement Board. Benefit and contribution provisions are administered in accordance with chapter 39-03 of the North Dakota Century Code.

STATE OF NORTH DAKOTA

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

Benefits

Pension benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced pension benefits upon attainment of age 55 and 10 years of eligible employment or when the sum of age and years of credited service equals or exceeds 80. The annual pension benefit is equal to a percentage of average monthly salary using the highest 36 months out of the last 180 months of service. The percentage is equal to the sum of the first 25 years of service multiplied by 3.60% and 1.75% multiplied by years of service in excess of 25, if any. The plan permits early retirement at ages 50-54, with ten or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than 10 years of credited service, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than 10 years of credited service, the surviving spouse, if any, will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50 percent of the member's accrued normal retirement benefit. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to any designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days service receive monthly disability benefits that are up to 70 percent of their final average salary, reduced by workers compensation with a minimum benefit of \$100. To qualify under this section, the member must meet the criteria established by the Retirement Board for being totally disabled and apply for benefits within one year of termination.

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 60 or does not have ten years of service credited for NDHPRS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates for NDHPRS are set by state statute and are a percentage of covered compensation. The State is paying 4.0% of the member contribution. The member contribution rate is 13.8% and the employer rate is 20.2%. Both the member and the employer contribution rate will increase by 0.5% in January 2023, 2024 and 2025.

RETIREMENT PLAN FOR THE EMPLOYEES OF JOB SERVICE NORTH DAKOTA (JSND)

The retirement plan for employees of Job Service North Dakota is a single-employer defined benefit public employee retirement plan administered by PERS. The plan is established under NDCC 52-11-01 with benefit provisions established through the plan document, as amended by the Board. This plan document, as amended, is authorized by the Plan Administrator, who is the Executive Director of the agency. JSND issues a publicly available financial report that may be obtained by writing to Job Service North Dakota, PO Box 5507, Bismarck, North Dakota 58506-5507.

Participation in the plan is limited to employees participating in the plan as of September 30, 1980.

Administration

On August 1, 2003, the administrative authority and the net position of the Retirement Plan for Employees of Job Service North Dakota were transferred from the agency to the Public Employees Retirement System Board. This action was based on the passage of House Bill 1064 by the Fifty-eighth Legislative Assembly of North Dakota. The Retirement Plan for Employees of Job Service has an Actuarial Valuation Report produced annually. Requests to obtain or review this report should be addressed to the Executive Director, NDPERS, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

STATE OF NORTH DAKOTA

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

Benefits

Benefits are established through the plan document, as amended by the Board. The System provides a post-retirement cost-of-living adjustment each year based on the Consumer Price Index. Employees are entitled to annual pension benefits beginning at normal retirement age (65). Employees may elect optional retirement eligibility at age 62 with 5 years of credited service, at age 60 with 20 years of credited service, or at age 55 with 30 years of credited service. Pension benefits are calculated based on the final average earnings (basic monthly earnings averaged over the highest three consecutive years of basic earnings) of the employee multiplied by the sum of:

- 1.5% times years of credited service up to 5 plus;
- 1.75% times years of credited service between 6 and 10 plus;
- 2.0% times years of credited service in excess of 10.

Death and Disability Benefits

The plan provides retirement, disability and death benefits. If death of a participant occurs prior to their annuity starting date, the surviving spouse who has been married at least two years prior to the participant's death or, if married less than two years is a parent of a child of this marriage, then the spouse shall receive monthly benefits. The amount is the greater of the benefit had the participant retired on the day before they died and elected the Contingent Annuitant Option with 55% of their retirement benefit continued to their spouse or 55% of the smaller of 40% of the deceased participant's average monthly earnings or the deceased participant's normal retirement benefit obtained by increasing their credited service by the period of time between their date of death and the date they would have attained age 60. Upon remarriage of the surviving spouse before age 60, the death benefit will cease.

If a participant becomes totally disabled, they will be eligible for a monthly disability benefit which shall be equal to the greater of 40% of the participant's average annual earnings or the accrued benefit determined as of their date of disability.

Refunds of Member Contributions

Upon termination, if a member of the JSND System terminates employment before retirement payments begin, participation in the retirement plan will cease. No further additions to retirement income will accrue on the member's behalf, and the member may be paid under one of the following options.

- The member may be paid an amount of retirement income with payments starting at Normal, Optional, or Early Retirement Date. The amount of that income will be equal to the amount provided under the formula according to the member's years of credited service and earnings.
- The member may receive a cash withdrawal benefit equal to the total of the member's contributions and employer contributions made on their behalf, plus 4 percent interest compounded annually. The member may elect this option at any time after withdrawal and before Normal, Optional, or Early Retirement Date, but such benefit shall be in place of all other benefits under the retirement benefits section.

Contributions

Member contributions are 3% and employer contributions are 4% of covered compensation. The funding policy of the plan provides for employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. Effective July 1, 1999, the "scheduled contribution" will be zero as long as the plan's actuarial value of assets exceeds the actuarial present value of projected benefits. The "scheduled contribution" and amortization will be determined when the plan is not in surplus and will be based on a funding policy adopted by the Employer.

TEACHERS' FUND FOR RETIREMENT (TFFR)

The North Dakota Teachers' Fund for Retirement is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Teachers' Fund for Retirement issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 1600 East Century Avenue, Suite 3, P.O. Box 7100, Bismarck, North Dakota 58507-7100.

STATE OF NORTH DAKOTA

At June 30, 2022, the number of participating employer units in TFFR was:

Type	Number
Public School Districts	171
County Superintendents	4
Special Education Units	19
Vocational Education Units	4
Other	9
Total	207

Administration

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contributions rates.

Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered – A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or the sum of age and years of service equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered – A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher, and the member has reached the age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55-64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2 – A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

STATE OF NORTH DAKOTA

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting twelve months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Contributions

Member and employer contributions paid to TFFR are set by NDCC 15-39.1-09. Every eligible teacher in the state of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% or defer payment until eligible for pension benefits. A nonvested member who terminates covered employment must claim a refund of contributions paid before 70%. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstance defined by state statute.

EMPLOYEE MEMBERSHIP DATA

The following table summarizes employee membership information by plan at the actuarial valuation date:

	PERS	NDHPRS	JSND	TFFR
Retirees and beneficiaries currently receiving benefits:	14,204	135	175	9,438
Terminated Employees:				
Vested	8,673	35	—	1,827
Inactive	7,610	20	—	1,423
Active Employees:				
Vested	17,247	70	1	8,326
Nonvested	7,532	81	—	3,476
Total plan membership	55,266	341	176	24,490
Date of annual valuation	July 1, 2022	July 1, 2022	July 1, 2022	July 1, 2022

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

BASIS OF ACCOUNTING

The public employee retirement systems described above are considered part of the State of North Dakota's reporting entity and are included in the State's financial statements as pension trust funds. The financial statements of these systems are prepared using the accrual basis of accounting. Employee contributions are recognized as revenues in the period in which they are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

STATE OF NORTH DAKOTA

INVESTMENT POLICY

The System's Board is responsible for establishing the investment policy for the fund assets, which includes setting investment goals and specifying the percentage of assets to be invested in various types of investments for PERS, NDHPRS and JSND. The investment goals are viewed over the long term. The Board recognizes the plans' performance objectives, benefit projections, and capital market expectations when determining the asset allocation. The SIB is responsible for managing the System's investments in accordance with the investment policy.

The TFFR Board is responsible for establishing investment policy for the fund assets under NDCC 15-39.1-05.2. Benefit payments are projected to occur over a long period of time. This allows TFFR to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. This asset-liability analysis considers both sides of the plan balance sheet, utilizing both quantitative and qualitative inputs, in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting established impact of funded status and contribution rates.

The following was the asset allocation policy as of June 30, 2022:

	Target Allocation			
	PERS and NDHPRS	JSND	TFFR	RHIC*
Domestic equities	30.0 %	2.0 %	— %	39.0 %
International equities	21.0 %	18.0 %	— %	26.0 %
Private equity	7.0 %	6.0 %	— %	— %
Domestic fixed income	23.0 %	74.0 %	— %	35.0 %
Global real assets	19.0 %	— %	18.0 %	— %
Global equity	— %	— %	55.0 %	— %
Global fixed income	— %	— %	26.0 %	— %
Cash equivalents	— %	— %	1.0 %	— %
Total	100.0 %	100.0 %	100.0 %	100.0 %

*See note 7 for further details of the RHIC OPEB Plan.

INVESTMENT RATE OF RETURN

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan and OPEB plan investments, net of pension plan and OPEB plan investment expense, was as follows for June 30, 2022:

PERS	(6.32)%
NDHPRS	(6.50)%
JSND	(5.55)%
TFFR	(6.17)%
RHIC*	(14.48)%

*See note 7 for further details of the RHIC OPEB Plan.

METHOD USED TO VALUE INVESTMENTS

Investments are recorded at fair value determined by reference to published market data for publicly traded securities and through the use of independent valuation services and appraisals for other investments. The net increase in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year. Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current fiscal year were included as a change in the fair value of investments reported in the prior year(s) and the current year. Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security

STATE OF NORTH DAKOTA

transactions are accounted for on a trade date basis. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date. The fair value for stable value option within the deferred compensation and defined contributions plans is measured at contract value.

REALIZED GAINS AND LOSSES

Realized gains and losses on sales of investments are components of net change in fair value of investments and are computed as described in note 1. For the year ended June 30, 2022, the following are the net realized gains (losses):

PERS	\$170,740,373
NDHPRS	4,337,609
JSND	2,461,462
TFFR	127,985,911
Retiree Health Insurance Credit (RHIC)	17,279,324
Defined Contribution Plan	195,667
Deferred Compensation Plan	13,843,422

C. FUNDING STATUS AND PROGRESS

NET PENSION LIABILITY OF THE PLANS

The components of the net pension liability of the Plans at June 30, 2022 were as follows (expressed in thousands):

	PERS	NDHPRS	JSND	TFFR
Total pension liability	\$ 6,607,469	\$ 170,663	\$ 70,493	\$ 4,479,973

ACTUARIAL ASSUMPTIONS

PERS

The total pension liability was determined by an actuarial valuation as of July 1, 2022, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: 5-Year smoothed marked

Inflation: 2.25%

Salary Increase: 3.50% to 17.75% including inflation

Retirement Age: Age-based table of rates that specify to the type of eligible condition

Mortality Rates: Sex-distinct Pub-2010 tables for General Employees, with scaling based on actual experience. Respective corresponding tables were used for healthy retirees, disabled retirees and active members.

Other Notes: The employer rates to the System are the statutory/Board approved contribution rates of 7.12% of payroll for the Main System (8.26% for members enrolled on or after January 1, 2020), 17.52% for the Judges System, 9.81% for the Public Safety with prior Main System, and 7.93% for the Public Safety without prior Main System service System.

The benefit accrual rate for members first enrolled on or after January 1, 2020 in the Main and Public Safety Systems is 1.75% (compared to 2.00% for members enrolled before January 1, 2020).

STATE OF NORTH DAKOTA

The investment return assumption was updated from 7.00% to 6.50% beginning with the actuarial valuation as of July 1, 2022. All other actuarial assumptions used in the actuarial valuation as of July 1, 2022 were based on an experience review for the period from July 1, 2014 to July 1, 2019, and were adopted for first use commencing with the actuarial valuation as of July 1, 2020.

HPRS

The total pension liability was determined by an actuarial valuation as of July 1, 2022, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.25%

Salary Increase: Service-based table for members with less than five years of service and age-based table for members with more than five years of service.

Retirement Age: Age-based table of rates that specify to the type of eligible condition.

Mortality Rates: Pub 2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using MP-2019 scale.

Other Notes: There were no benefit changes during the year.

The assumptions were updated beginning with the actuarial valuation as of July 1, 2020 based on an experience study covering the period July 1, 2014 through July 1, 2019.

The employer rate to the System is the statutory contribution rate of 20.20% of payroll. The statutory employer and employee contributions will each increase by 0.5% of pay every year from January 1, 2023 to January 1, 2025, ultimately increasing both by 1.5% of pay.

JSND

The total pension liability was determined by an actuarial valuation as of July 1, 2022, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.25%

Salary Increase: 3.50%

Retirement Age: Age-based table of rates that are specific to the type of eligibility condition.

Investment Rate of Return: 3.00%

Cost of Living Adjustment: 2.25%

Mortality Rates: Pub-2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

Other Notes: There were no benefit changes during the year.

STATE OF NORTH DAKOTA

The assumptions were updated beginning with the actuarial valuation as of July 1, 2020 based on an experience study covering the period July 1, 2014 through July 1, 2019. The Board approved lowering the investment return assumption from 3.75% to 3.00%, first effective July 1, 2022.

The System has assets in excess of the present value of future benefits. Therefore, no employer contributions are being made.

TFFR

The total pension liability was determined by an actuarial valuation as of July 1, 2022, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age

Asset Valuation Method: Level percentage of payroll, closed

Inflation: 2.30%

Salary Increase (Payroll Growth): 3.80% - 14.80%; varying by service, including inflation and productivity.

Retirement Age: In the 2020 and 2015 valuations, rates of retirement were changed to better reflect anticipated future experience.

Investment Rate of Return: 7.25%, net of investments expenses, including inflation

Cost of Living Adjustment: None

Mortality Rates: For the July 1, 2022, valuation, the post-retirement healthy mortality table was updated to 104% of the PubT-2010 Retiree table for retirees and to 95% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019. The disabled mortality was updated to the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019. The pre-retirement mortality table was updated to the Pub T-2010 Employee table projected with generational improvement using Scale MP- 2019. The actuarial assumptions used were based on the results of an experience study dated March 19, 2020.

INVESTMENT RATE OF RETURN

The long-term expected rate of return on investments was determined using a building-block method in which best- estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates to return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the pension plan's target asset allocation as of July 1, 2022 is summarized in the following tables:

PERS and NDHPRS Asset Class	Long-Term Expected Real Rate of Return	JSND Asset Class	Long-Term Expected Real Rate of Return	TFFR Asset Class	Long-Term Expected Real Rate of Return
Domestic equity	5.75 %	Domestic equities	5.37 %	Global equity	6.60 %
International equity	6.45 %	Core fixed income	1.31 %	Global fixed income	0.40 %
Private equity	9.20 %	Limited duration fixed income	0.59 %	Global real assets	4.60 %
Domestic fixed income	0.34 %	Global equity	5.74 %	Cash equivalents	(1.10)%
International fixed income	0.00 %	Diversified short- term fixed income	1.86 %		
Global real assets	4.56 %	Short-term corporate fixed income	0.53 %		
Cash equivalents	0.00 %	US high yield	4.22 %		
		Emerging market debt	4.96 %		

STATE OF NORTH DAKOTA

DISCOUNT RATE

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 6.50%; the municipal bond rate is 3.69%; and the resulting Single Discount Rate is 5.10%.

For HPRS, the expected rate of return on pension plan investments is 6.50%; the municipal bond rate is 3.69%; and the resulting Single Discount Rate is 5.02%.

For JSND, the discount rate was 3.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2022 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions (for JSND it is assumed no future contribution will be made), the pension plans' fiduciary net position were projected to be available to make all projected future benefit payments for current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2022.

For TFFR, the discount rate was 7.25% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2022 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions TFFR's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2022. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2022.

SENSITIVITY OF NET PENSION LIABILITY

The following presents the net pension liability of the Plans as of June 30, 2022, calculated using the discount rate of 5.10% for PERS, 5.02% for NDHPRS, 3.00% for JSND and 7.25% for TFFR, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (expressed in thousands):

STATE OF NORTH DAKOTA

*The 2022 information presented has a measurement date of June 30, 2021. Information is expressed in thousands.

JOB SERVICE NORTH DAKOTA (JSND)

Net Pension Asset

At June 30, 2022, the State recorded a net pension asset of \$31,759,726 for all of the Job Service North Dakota pension plan. The net pension asset was measured as of June 30, 2021 and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date.

STATE OF NORTH DAKOTA

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2022 the State recognized pension expense of \$1,812,767. At June 30, 2022 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ —	\$ —	\$ —	\$ —
Changes of assumptions	—	—	—	—
Net difference between projected and actual earnings on pension plan investments	—	(746,794)	—	—

Employer contributions subsequent to the measurement date	—	—	—	—
Total	<u>\$ —</u>	<u>\$ (746,794)</u>	<u>\$ —</u>	<u>\$ —</u>

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2023	\$ 102,443	\$ —
2024	(396,831)	—
2025	(37,331)	—
2026	(415,075)	—
Total	<u>\$ (746,794)</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension asset calculated using the discount rate of 3.75 percent, as well as what the State's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (2.75 percent) or 1-percentage-point higher (4.75 percent) than the current rate:

	1% Decrease (2.75%)	Current Discount Rate (3.75%)	1% Increase (4.75%)
State's proportionate share of the net pension asset	(25,184,835)	(31,759,726)	(37,379,068)

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

Net Pension Liability

At June 30, 2022, the State recorded a net pension liability of \$23,295,192 for all of the North Dakota Highway Patrolmen's Retirement System pension plan. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date.

STATE OF NORTH DAKOTA

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2022 the State recognized pension expense of \$5,237,670. At June 30, 2022 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 515,653	\$ (2,033,963)	\$ —	\$ —
Changes of assumptions	44,346,775	(49,086,426)	—	—
Net difference between projected and actual earnings on pension plan investments	—	(8,630,224)	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	—	—	—	—
Employer contributions subsequent to the measurement date	2,478,861	—	—	—
Total	<u>\$ 47,341,289</u>	<u>\$ (59,750,613)</u>	<u>\$ —</u>	<u>\$ —</u>

\$2,478,861 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2023	\$ (678,385)	\$ —
2024	(1,072,294)	—
2025	(1,540,533)	—
2026	(8,340,448)	—
2027	(3,256,525)	—
Total	<u>\$ (14,888,185)</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
State's proportionate share of the net pension liability	\$ 40,084,617	\$ 23,295,192	\$ 9,514,031

STATE OF NORTH DAKOTA

E. COST SHARING EMPLOYER PENSION PLANS

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM

Proportionate Share of Net Pension Liability

The North Dakota Public Employees' Retirement System (PERS) provides retirement benefits to employees of the primary government and its discrete component units as well as to other political subdivision subdivisions (Main System). It also covers Supreme and district court judges, the National Guard Security Officers and Firefighters, and as of August 1, 2003, peace officers and correctional officers employed by political subdivisions. Effective August 1, 2017, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System.

At June 30, 2022, the State recorded a net pension liability of \$505,713,200 for all of the PERS system. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2021 the State's proportion was 48.51894235 percent, which is a decrease of 1.2631366 percent from the prior year.

The State's discrete component unit, North Dakota Public Finance Authority, also participates in the PERS system. At June 30, 2022, the discrete component units recorded a net pension liability of \$190,000 for all of the PERS system. The net pension liability was measured as of June 30, 2021 and the total pension liability and asset used to calculate the net pension liability was determined by an actuarial valuation as of that date. The discrete component units' proportion of the net pension liability was based on their share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2021 the discrete component unit's proportion was 0.018251 percent, which is an increase of 0.016881 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2022 the State recognized pension expense of \$76,140,919 and the component unit recognized pension expense of \$38,000. At June 30, 2022 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 11,930,272	\$ (53,359,088)	\$ 3,000	\$ (19,000)
Changes of assumptions	587,101,777	(765,239,023)	210,000	(274,000)
Net difference between projected and actual earnings on pension plan investments	—	(199,213,776)	—	(71,000)
Changes in proportion and differences between employer contributions and proportionate share of contributions	34,436,292	(40,429,716)	63,000	(22,000)
Employer contributions subsequent to the measurement date	42,740,834	—	13,000	—
Total	<u>\$ 676,209,175</u>	<u>\$ (1,058,241,603)</u>	<u>\$ 289,000</u>	<u>\$ (386,000)</u>

\$42,740,834 and \$13,000 reported as deferred outflows of resources related to pensions resulting from State and component unit contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

STATE OF NORTH DAKOTA

Year ended June 30:

	Primary Government	Component Units
2023	\$ (68,853,744)	\$ (13,000)
2024	(96,502,475)	(24,000)

Thereafter	(264,848)	—
Total	<u>\$ (424,773,262)</u>	<u>\$ (110,000)</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
State's proportionate share of the net pension liability	\$ 818,939,462	\$ 505,713,200	\$ 244,814,802
Component's proportionate share of the net pension liability	303,000	190,000	97,000

NORTH DAKOTA TEACHERS' FUND FOR RETIREMENT

Proportionate Share of Net Pension Liability

The North Dakota Teachers' Fund for Retirement (TFFR) provides retirement benefits to North Dakota public teachers and certain other teachers who meet various requirements. At June 30, 2022, the State recorded a net pension liability of \$6,001,425 for all of the TFFR. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the TFFR pension plan relative to the covered payroll of all participating employers. At June 30, 2021 the State's proportion was 0.56958 percent, which is a decrease of 0.0226786 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2022 the State recognized pension expense of \$110,588. At June 30, 2022 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 41,696	\$ (253,095)	\$ —	\$ —
Changes of assumptions	210,797	—	—	—
Net difference between projected and actual earnings on pension plan investments	—	(1,758,504)	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	993,494	(1,896,613)	—	—
Employer contributions subsequent to the measurement date	516,783	—	—	—
Total	<u>\$ 1,762,770</u>	<u>\$ (3,908,212)</u>	<u>\$ —</u>	<u>\$ —</u>

STATE OF NORTH DAKOTA

\$516,783 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2023	\$ (624,663)	\$ —
2024	(563,776)	—
2025	(599,062)	—
2026	(730,036)	—
2027	(75,863)	—
Thereafter	(68,825)	—
Total	<u>\$ (2,662,225)</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
State's proportionate share of the net pension liability	\$ 9,011,362	\$ 6,001,425	\$ 3,501,978

F. PENSION SUMMARY

The following is a summary of the pension related items for all plans of the State as of and for the year ended June 30, 2022.

Pension Plan	Net Pension Asset	Deferred Outflows of Resources Pension	Net Pension Liability	Deferred Inflows of Resources Pension	Pension Expense
Job Service ND	\$ (31,759,726)	\$ —	\$ —	\$ 746,794	\$ 1,812,767
ND Highway Patrolmen's Retirement System	—	47,341,289	23,295,192	59,750,613	5,237,670
ND Public Employees' Retirement System	—	676,209,175	505,713,191	1,058,241,603	76,140,919
ND Teachers' Fund for Retirement	—	1,762,770	6,001,425	3,908,212	110,588
Total	<u>\$ (31,759,726)</u>	<u>\$ 725,313,234</u>	<u>\$ 535,009,808</u>	<u>\$ 1,122,647,222</u>	<u>\$ 83,301,944</u>

G. DEFINED CONTRIBUTION PLAN

The North Dakota Defined Contribution Retirement Plan was established on January 1, 2000, and is administered in accordance with chapter 54-52.6 of the North Dakota Century Code. The Defined Contribution Plan was available to state employees who are in positions not classified by the Human Resource Management Services division of the State of North Dakota. Employees under the judicial branch or the Board of Higher Education and State Institutional under jurisdiction of the Board of Higher Education are not eligible to participate in the plan. The 2013 Legislative Assembly passed legislation to expand eligibility to the plan to include all new state employees hired on or after October 1, 2013 through July 31, 2017. The Defined Contribution Plan had 88 participants as of June 30, 2022.

The administrative costs of the Defined Contribution Plan are funded by forfeitures of non-vested employee contributions and administrative fees charged to individual participant accounts.

STATE OF NORTH DAKOTA

Benefits

Benefits are set by statute. Members are entitled to their vested account balance. A participating member is immediately 100% vested in the employee's contributions. A participating member vests in the employer contributions made on the member's behalf as follows:

Upon completion of two years of service	50 %
Upon completion of three years of service	75 %
Upon completion of four years of service	100 %

Members may elect to receive their account balance in a lump sum, lump sum direct rollover, or periodic distribution.

Death and Disability Benefits

Death and disability benefits are set by statute. Upon the death of a participating member or former participating member, the vested account balance of that deceased participant is available to the participant's designated beneficiary(ies). A member who becomes totally and permanently disabled while employed by the State is eligible to receive a distribution of the vested account balance. To qualify under this section, the member must meet the criteria established by the System for being totally disabled.

Contributions

Contributions are set by state statute and are a percentage of covered compensation. The State is paying 4% of the member contribution. The member contribution rate is 7.00% and the employer rate is 7.12% for members first enrolled prior to January 1, 2020. For members first enrolled after January 1, 2020 the member contribution rate is 7.00% and the employer rate is 8.26%. Pension expense totaled \$503,267 for the year ended June 30, 2022.

H. TEACHERS' INSURANCE ANNUITY ASSOCIATION

The Teachers' Insurance and Annuity Association (TIAA-CREF), a privately-administered defined contribution retirement plan, provides individual retirement fund contracts for eligible employees as defined by the Board of Higher Education in its approved TIAA-CREF retirement resolution. Further information can be obtained by writing to North Dakota University System, 600 E. Blvd, Bismarck, North Dakota 58505.

All benefits vest immediately to the participant. The plan requires employee and employer contributions be based on a classification system and years of service based on the schedule shown below.

Employment Class	Years Of Service	By The Participant	By The Institution	Total
I and III	0 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
II	0 thru 2	3.50%	7.50%	11.00%
	3 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
IV	Closed to new participants	4.00%	12.00%	16.00%
President/Chancellor (additional employer contribution)	less than 3	0.00%	0.00%	0.00%
	3 to less than 6	0.00%	4.00%	4.00%
	6 and over	0.00%	8.00%	8.00%

Plan contributions are made on a tax-deferred basis in accordance with section 414(h)(2) of the Internal Revenue Code. All contributions are applied as premiums to retirement annuity contracts owned by the participant. The State has no further liability once annual contributions are made. The State contributed \$45.2 million to TIAA-CREF during the fiscal year ending June 30, 2022.

STATE OF NORTH DAKOTA

NOTE 7 - POST-RETIREMENT

A. RETIREE HEALTH INSURANCE CREDIT – PLAN INFORMATION

The Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer other post-employment plan, is administered by the North Dakota Retirement Board (the Board) to provide members that were first enrolled in the plan prior to January 1, 2020 and are receiving retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System and judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit will also be available to apply towards monthly premiums under the state dental, vision and long term care plan and any other health insurance. Effective August 1, 2019, the credit is expanded to also include any dental, vision, and long term care plan. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis. PERS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

Regular employees hired under the Retirement Plan for Employees of Job Service North Dakota prior to October 1, 1980 are eligible to participate in the Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer plan, as administered by the Public Employees Retirement Board. The retired employee is provided a credit toward their monthly health insurance premium under a qualifying plan based upon their years of credited service. In accordance with NDCC 54-52.1-03.2, Job Service North Dakota reimburses the Retiree Health Insurance Credit Fund monthly for credit received by members of the retirement plan established by Job Service North Dakota.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

Employee membership is as follows:

Retirees receiving benefit	14,290
Active participants	19,018
Total Membership	<u>33,308</u>

OPEB Contributions

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "*prefunded credit applied*" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

OPEB Benefits

Retiree health insurance credit benefits and death and disability benefits are set by state statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System, or the Defined Contribution Retirement Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving the surviving spouse benefit of if the member selected a joint and survivor option are eligible to receive credit toward their monthly health insurance premium under the state health plan.

The benefits are equal to \$5.00 for each of the employee's, or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health benefit is also available for early retirement with reduced benefits.

STATE OF NORTH DAKOTA

Net OPEB Liability of the Plan

The components of the net OPEB liability of the plan at June 30, 2022 is as follows (expressed in thousands):

	RHIC
Total OPEB liability	\$ 263,968
Plan fiduciary net position	(154,483)
Net OPEB liability (asset)	<u>\$ 109,485</u>
RHIC fiduciary net position as a percentage of the total OPEB liability	58.52 %

Actuarial Assumptions

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no asset smoothing)

RHIC Inflation: 2.25%

Salary Increase: Not applicable

Investment Rate of Return: 5.75%.

Mortality Rates: Pub-2010 Health Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

Other Notes: RHIC is for the most part a closed plan. There were no benefit changes during the year. The investment return assumption was decreased from 6.50% to 5.75% beginning with the actuarial valuation as of July 1, 2022. All other actuarial assumptions were adopted by the Board based on an experience study covering the period July 1, 2015, through June 30, 2019. The employer rate to the System is the statutory contribution rate of 1.14% of payroll.

Investment Rate of Return

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of RHIC investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2022 is summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Large Cap Domestic Equities	5.75 %
Small Cap Domestic Equities	— %
International equities	6.00 %
Core-Plus Fixed Income	0.22 %

Discount Rate

For the purpose of this valuation, the expected rate of return on OPEB plan investments is 5.75%; the municipal bond rate is 3.69%; and the resulting Single Discount Rate is 5.39%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2022 PERS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long

STATE OF NORTH DAKOTA

term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of Net OPEB Liability

The following presents the net OPEB liability of the Plan as of June 30, 2022, calculated using the single discount rate of 5.39%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (expressed in thousands):

Net OPEB Liability (Asset) As of June 30, 2022	1% Decrease (4.39%)	Current Discount Rate (5.39%)	1% Increase (6.39%)
RHIC	\$ 153,212	\$ 120,031	\$ 92,176

The benefit provided by the North Dakota Retiree Health Insurance Credit Fund is a fixed dollar subsidy and is not affected by healthcare cost trend. Therefore, a healthcare trend rate was not performed.

B. RETIREE HEALTH INSURANCE CREDIT – STATE'S SHARE

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Proportionate Share of Net OPEB Liability

At June 30, 2022, the State reported a liability of \$27,400,643 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The State's proportion of the net OPEB liability was based on the State's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2021, the State's proportion was 35.114882 percent, which is a decrease of 16.807508 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2022 the State recognized OPEB expense of \$3,445,238. At June 30, 2022, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,573,391	\$ (745,869)	\$ —	\$ —
Changes of assumptions	4,243,891	—	—	—
Net difference between projected and actual earnings on OPEB plan investments	—	(9,325,827)	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	1,655,536	(2,497,720)	—	—
Employer contributions subsequent to the measurement date	6,079,035	—	—	—
Total	<u>\$ 13,551,853</u>	<u>\$ (12,569,416)</u>	<u>\$ —</u>	<u>\$ —</u>

\$6,079,035 reported as deferred outflows of resources related to OPEB resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022.

STATE OF NORTH DAKOTA

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Year ended June 30:

	Primary Government	Component Units
2023	\$ (826,628)	\$ —
2024	(900,140)	—
2025	(1,352,800)	—
2026	(2,131,762)	—
2027	114,732	—
Total	<u>\$ (5,096,598)</u>	<u>\$ —</u>

Sensitivity of the State's Proportionate Share of the OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2022, calculated using the discount rate of 6.50%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50 percent) or 1-percentage-point higher (7.50 percent) than the current rate:

	1% Decrease (5.50%)	Current Discount Rate (6.50%)	1% Increase (7.50%)
State's proportionate share of the net OPEB liability	\$ 35,965,380	\$ 27,400,643	\$ 20,097,474

C. JOB SERVICE NORTH DAKOTA – MET LIFE INSURANCE BENEFIT

MET LIFE INSURANCE BENEFIT

Job Service North Dakota engaged an actuary to determine the Agency's liability for post-employment benefits other than pensions as of July 1, 2022. The actuary determined the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense the Agency has to record as of June 30, 2022. This plan document, as amended, is authorized by the Plan Administrator, who is the Executive Director of the agency. JSND issues a publicly available financial report that may be obtained by writing to Job Service North Dakota, PO Box 5507, Bismarck, North Dakota 58506-5507..

Plan Description

Job Service North Dakota employees who had a Met Life Insurance policy in effect on December 1, 1999, when the Met Life Insurance benefit plan, a single-employer plan, was discontinued for new employees, receive the following benefits: Job Service North Dakota pays 33% of the monthly Basic Met Life Insurance premium of current employees with a Met Life Insurance policy and upon retirement the employees Basic Met Life Insurance premiums are covered 100% by Job Service North Dakota. The Basic Life Insurance Benefits are equal to the employees' annual salary rounded up to the nearest thousand plus two thousand up to a maximum of \$45,000 and are decreased at a rate of 2% per month at age 65 until the benefit is 25% of the original amount but no less than \$10,000. The actuary report of the Met Life Insurance Benefit is the only financial report produced for this benefit and is available as indicated above. Job Service North Dakota has authority to change the funding and benefit policy of this plan.

Membership of the Other Post Retirement Benefit plan consisted of the following at July 1, 2020, the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	144
Terminated employees entitled to benefits but not yet receiving them	—
Current vested employees	4
Total	<u>148</u>

STATE OF NORTH DAKOTA

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The Employer reported a liability of \$1,001,072 at June 30, 2022 for its net OPEB liability. The net OPEB liability was measured as of July 1, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

For the year ended June 30, 2022, the Employer recognized OPEB expense of \$(125,204). The Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ —	\$ —
Changes of assumptions	—	—
Net difference between projected and actual earnings on OPEB plan investments	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	—	—
Total	<u>\$ —</u>	<u>\$ —</u>

Actuarial Assumptions

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>July 1, 2022</u>
Inflation	none
Salary increases	5%
Discount rate	4.09% per annum

Mortality rates were based on the RP-2014 Total Dataset Mortality Table adjusted to based year 2006, projected with Scale MP-2019.

Sensitivity of the State's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2022, calculated using the discount rate of 4.09%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.09 percent) or 1-percentage-point higher (5.09 percent) than the current rate (expressed in thousands):

Net OPEB Liability As of June 30, 2022	1% Decrease (3.09%)	Current Discount Rate (4.09%)	1% Increase (5.09%)
Met Life	\$ 1,095	\$ 1,001	\$ 920

STATE OF NORTH DAKOTA

Schedule of Changes in Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability	Plan Net Position	Net OPEB Liability
	(a)	(b)	(a) - (b)
Balances at 7/1/21	\$ 1,215,321	\$ —	\$ 1,215,321
Changes for the Year:			
Service cost	281	—	281
Interest	29,966	—	29,966
Benefit changes	—	—	—
Experience losses (gains)	(17,503)	—	(17,503)
Changes of assumptions	(137,948)	—	(137,948)
Contributions - Employer	—	89,045	89,045
Benefits paid	(89,045)	(89,045)	(178,090)
Administrative expenses	—	—	—
Net changes	(214,249)	—	(214,249)
Balances at 6/30/22	\$ 1,001,072	\$ —	\$ 1,001,072

The plan provisions used in the measurement of the net OPEB liability are the same as those used in the Actuarial Valuation as of July 1, 2022.

D. OPEB SUMMARY

The following is a summary of the OPEB related items for all plans of the State as of and for the year ended June 30, 2022.

OPEB Plan	Deferred Outflows of Resources - OPEB	Net OPEB Liability	Deferred Inflows of Resources - OPEB	OPEB Expense
ND Public Employees' Retirement System	\$ 13,551,853	\$ 27,400,643	\$ 12,569,416	\$ 3,445,238
JSND Met Life Insurance Benefit	—	1,001,072	—	(125,204)
Total	\$ 13,551,853	\$ 28,401,715	\$ 12,569,416	\$ 3,320,034

NOTE 8 - DEFERRED COMPENSATION PLAN

The ND Public Employees Retirement System was given authority by Chapter 54-52.2 to administer an employee deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan allows employees of the State of North Dakota or any of its political subdivisions, institutions, departments, or agencies to participate, providing that the employee has signed a participation agreement, which permits them to defer a portion of their current salary until future years. Each participant may defer the lesser of \$20,500 or 100% of gross annual compensation for calendar year 2022. Participation in the plan is optional. The deferred compensation is not available to the employees until termination, retirement, death or unforeseeable emergency.

All compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights, are held in trust for the exclusive use of the employee or their beneficiary.

The minimum monthly member contribution to the deferred compensation plan is \$25 and the maximum vesting in the employer contributions ranges from 1% to 4% of the monthly salary, or \$25, depending the employees months of service.

The deferred compensation plan had 15,567 active participants as of June 30, 2022.

STATE OF NORTH DAKOTA

The related assets of the plan, held in trust, are reported at fair value as follows (expressed in thousands):

Plan Participation By:		
State of North Dakota	\$ 150,768	90 %
Other Jurisdictions	16,550	10 %
Total Value	<u>\$ 167,318</u>	<u>100 %</u>

NOTE 9 - PERS UNIFORM GROUP INSURANCE PROGRAM

The PERS Uniform Group Insurance Program, an enterprise fund, contracts with Sanford Health Plan to provide health care insurance to the employees of the State of North Dakota, or any of its political subdivision, institutions, departments or agencies. The contract for the 2019-2021 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2019-2021 biennium will occur in 2023 with an initial settlement coming in 2022. In the event of a loss, the system does not have any risk. For this period premiums exceeded claims, therefore, a gain of \$26.1 million was returned to the State.

The State again entered into a similar contract with Sanford Health Plan for the 2021-2023 biennium. The contract for the 2021-2023 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2021-2023 biennium will occur in 2025. In the event of a loss, the system does not have any risk. No other insurance contracts have a gain sharing provision.

STATE OF NORTH DAKOTA

NOTE 10 - SEGMENT INFORMATION

North Dakota Housing Finance Agency maintains two separate funds which account for general agency operations and provide loans to finance construction of rental residential housing and single-family ownership. The two funds are accounted for in a single fund, but investors in home ownership bonds rely solely on the revenue generated by the mortgage loans and assets acquired for repayment. Segment information for the year ended June 30, 2022, was as follows (expressed in thousands):

	Home-Ownership Bond Funds
Condensed Statement of Net Position	
Current assets – other	\$ 334,649
Noncurrent assets – other	1,365,379
Total Assets	1,700,028

Cash and cash equivalents, end of year	\$ 295,662

NOTE 11 - MAJOR COMPONENT UNIT TRANSACTIONS

BISMARCK STATE COLLEGE AND BISMARCK STATE COLLEGE FOUNDATION

On January 25, 2007, BSC and BSC Foundation entered into a 15-year lease agreement to facilitate the construction of a Mechanical Maintenance building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$1.4 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100. On August 15, 2013, an addendum was made to the lease agreement to facilitate an addition to the facility.

On October 19, 2007, BSC and BSC Foundation entered into a 25-year lease agreement to facilitate the construction of the National Energy Center of Excellence building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$5.0 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100.

STATE OF NORTH DAKOTA

BSC Foundation's financial statements include these transactions as a receivable from BSC and a long-term liability. BSC's financial statements include the capitalized asset and a long-term liability due to BSC Foundation.

	BSC	BSC Foundation
NECE Building	\$ 9,548,989	\$ 10,846,116
Accumulated Depreciation	(3,280,043)	(3,754,335)
Net Value of NECE Building	<u>\$ 6,268,946</u>	<u>\$ 7,091,781</u>

On September 26, 2014, BSC and Student Housing, LLC (a wholly owned subsidiary of BSC Foundation) entered into a 30-year Ground Lease to facilitate the construction and development of a student apartment housing complex on approximately 4.67 acres of land owned by BSC. Under the agreement, BSC would enter into a separate operating and lease agreement with LLC for the constructed student housing apartment complex for use as a College student housing facility. There are no separate rent payments to be paid by LLC during the term of the Ground Lease agreement in exchange for use of the land.

On August 13, 2015, BSC and Student Housing, LLC entered into a five-year lease agreement to operate student housing services in the two newly constructed housing units (Ritchie Hall and Gate City Bank Hall). On August 28, 2020, an agreement was signed to extend the lease term until August 12, 2025. Under the agreement, BSC is responsible for payment of all rent, maintenance, and daily repair/maintenance of the facility, and restrictions of use of the facility as set forth in the lease. Student Housing, LLC is responsible for major repairs/maintenance and property and liability insurance on the facilities. The lease is classified as an operating lease on BSC financial statements and Student Housing, LLC financial statements includes the capitalized asset.

MiSU DEVELOPMENT FOUNDATION (MiSUDF)

On September 1, 2020, MiSU and MiSUDF entered into a two-year facility and ground lease agreement to facilitate the remodel of the MiSU's Summer Theatre. The lease contains an option to renew with the consent of both parties. During the agreement, MiSU will manage and conduct performances of plays and events. MiSU is also responsible to operate, maintain, and keep in good repair all public and common facilities and services on the grounds and adjacent facilities. The MiSUDF is responsible for the cost of all improvements to the premises. At the conclusion of the lease, MiSUDF will return to MiSU the right and title to the premises and all leasehold improvements.

NORTH DAKOTA STATE COLLEGE OF SCIENCE FOUNDATION (NDSCSF)

For the year ended June 30, 2022, NDSCS paid NDSCSF \$174,000 for the rental of NDSCS Fargo building and \$11,000 for parking lots.

NORTH DAKOTA STATE UNIVERSITY AND NDSU RESEARCH AND TECHNOLOGY PARK, INC.

On December 30, 1999, North Dakota State University (NDSU), through the State of North Dakota and North Dakota State Board of Higher Education, entered into a ground lease, whereby the NDSU Research and Technology Park (RTP), Inc. (component unit) leases 40 acres of land for \$1 per year for the next seventy-five years.

On July 1, 2002, NDSU and the RTP entered into an agreement for cooperation and assistance between entities. The agreement is an annual agreement, which automatically extends for one-year periods unless cancelled by either party to the agreement.

During fiscal year 2017, NDSU and NDSU RTP entered into renewed agreements, whereby NDSU leases the Research Buildings I and II through May 1, 2022 and May 1, 2023. On May 1, 2022, NDSU and NDSU RTP entered into an annual service agreement for Research Building I to continue the services provided as the bonds related to Research Building I have been paid in full and NDSU exercised its option to terminate the Research Building I Lease and purchase Research Building I. During fiscal year 2022, total annual rent of \$327,000 was paid by NDSU for these two buildings, in addition to the \$1.39 million of principal and interest paid by NDSU directly to the bond trustee. The annual rent will be re-adjusted by mutual agreement every two years. These agreements are subject to funding and legislative appropriations.

NDSU FOUNDATION

Renaissance Hall

The former Northern School Supply building was donated to the Foundation by NDSU alum in December of 2001. During fiscal year 2003 and 2004, the Foundation renovated the building with the intent to lease the facility to NDSU beginning fall 2004. The Foundation transferred nearly the entire ownership of the building to 650 NP Avenue, LLC and Kilbourne Design Group, LLC, for a five-year period in order to achieve tax credits that would ultimately reduce the cost of the building to NDSU. During the five-year tax credit period, NDSU leased the building from the two LLCs, with the lease payments composed of interest and fees. With the

STATE OF NORTH DAKOTA

five-year tax credit period ending December 31, 2010 (as extended), and the ownership was transferred back to the Foundation, permanent financing was put in place on December 17, 2010, with the issuance of \$5.65 million of 20-year University Facilities Lease Revenue Bonds, Series 2010 (Renaissance Hall Project). The financing structure involving the five-year temporary ownership transfer resulted in achieving tax credits of \$4.9 million which directly lowered the leasing cost to NDSU.

Under this refinanced debt issuance and lease agreement, as approved by the SBHE on December 16, 2010, the property is leased to NDSU for rent equal to the semi-annual principal and interest on the bonds, plus all costs incurred by the Foundation incident to ownership of the property. Ownership of the property will transfer to NDSU when the bonds are repaid in full. NDSU paid the Foundation \$413,156 in fiscal year 2022 for debt service under this agreement. As of June 30, 2022, the outstanding balance on the bonds are reflected as "Due to Component Units" by NDSU, is \$3.0 million.

Barry Hall Business Building and Klai Hall Architecture Building

Effective November 28, 2007, NDSU and the Foundation entered into lease agreements for two buildings in downtown Fargo, formerly known as the "Pioneer Mutual Building" and "Lincoln Mutual building". The Foundation financed the construction of the Barry Hall business building and Klai Hall architecture building projects through the sale of \$18.52 million of 20-year University Facilities Revenue Bonds issue by the City of Fargo, North Dakota. The City has loaned the bond proceeds to the Foundation for payments equal to the sum of the semi-annual interest payments and installments of varying principal amounts on the variable rate bonds and the semi-annual principal and interest payments on the fixed-rate bonds. The principal payments on the variable rate bonds will be funded from payments on donor pledges restricted for the project. Under the terms of the loan, the Foundation is responsible for the real estate taxes, insurance, repairs and maintenance, and other costs incident to ownership of the property. The property is included with property in the financial statements and the bonds have been recorded as a direct obligation of the Foundation. Ownership of the property will transfer to NDSU when the bonds are repaid in full. The bonds are guaranteed by the Foundation. This property is leased to NDSU for rental equal to the sum of the semi-annual interest only payments on the variable term bonds plus the semi-annual principal and interest payments on the fixed-rate bonds for the term of the bonds, plus all the costs incurred by the Foundation incident to ownership of the property.

In May 2012, the Foundation refinanced the original bonds issued in November 2007. As a result, new leases were executed. Under the terms of the new leases, NDSU pays and recognizes a liability for entire amount of the previously issued bonds. During fiscal year 2022, NDSU paid \$775,000 to the bond trustee on-behalf of the Foundation under the new leases for debt service on Barry Hall & Klai Hall. NDSU has an option to acquire the property upon full payment of the bonds. As of June 30, 2022, the outstanding balance on the bonds, reflected as "Due to Component Units" by NDSU, is \$7.3 million.

Other Transactions

The Foundation provides meeting space rental and database support service to NDSU for an annually negotiated fee. NDSU paid the foundation \$837,000 for the fiscal year ending December 31, 2021.

In addition to the debt service payments on the Fargodome, Renaissance, Barry and Klai Halls, NDSU reimburses the Foundation for other operating expenses related to those buildings, such as property insurance, flood insurance, boiler inspection fees, real estate taxes and bond administrative fees. Those costs totaled \$129,000 during the fiscal year ending December 31, 2021.

Based on an agreement that began January 1, 2015, and automatically renewed annually since then, NDSU pays \$87,592 of annual building rent to the Foundation for use the Criminal Justice and Public Policy building next to the NDSU main campus. This rent was paid again by NDSU during the fiscal year ending June 30, 2022.

The Foundation's fiscal year end is December 31, NDSU year end is June 30. Timing differences in amounts may occur between entity financial statements, due to different year end dates.

UNIVERSITY OF NORTH DAKOTA AND UND AEROSPACE FOUNDATION

The UND Aerospace Foundation (UND AF) recorded expenses reimbursed to UND for salaries, building rent, aircraft rental, and goods and services under an operating agreement aggregating \$8.7 million in fiscal year 2022. This operating agreement has no specific term and is intended to memorialize various operating agreements, rate structures, duties, and obligations each party has to the other. Expenses reimbursed to UND represent actual costs incurred and are included in training expenses in the consolidated statements of activities.

The UND AF recorded revenue for service and hangar, CRJ, 360-degree tower, and aircraft rental to UND of \$5.1 million in fiscal year 2022, which is included in program and event revenue in the Statement of Revenue, Expenses and Changes in Fund Net Assets for Component Units (FASB Basis) – University System Foundation.

STATE OF NORTH DAKOTA

As of June 30, 2022, the UND AF had recorded accounts payable to UND of \$2.0 million for reimbursable costs and services. As of June 30, 2022, the UND AF had recorded accounts receivable from UND of approximately \$798,000, which are included in accounts receivable in the statement of net assets for component units (FASB Basis) – University System Foundation.

The UND AF entered into a sublease with UND to lease the aircraft storage hangar/ground support equipment facility. The lease term is for 20 years, commencing on July 7, 2003, until July 6, 2023. For the first fifteen years of the sublease, UND will pay the Foundation's monthly minimum payment of \$12,672, beginning on October 1, 2003, subject to actual cost adjustments. At the end of the 15 years of the sublease, rent will be adjusted based upon the interest rate adjustments of the debt incurred by the Foundation in the construction of the hangar. Under this noncancellable sublease with UND, UND AF will receive future minimum rentals of \$1.6 million over the next five years.

UNIVERSITY OF NORTH DAKOTA AND RE ARENA, INC.

RE Arena Inc. and UND, enter into an annual operating agreement from July 1, 2020 to September The operating agreement sets forth the facility usage, fees and services, ticket administration and revenue allocation, sponsorship sales administration and revenue allocation, and net income disposition. In accordance with this agreement: (i) RE Arena Inc. collects all ticket revenue from ticketed UND athletic events (hockey, football, men's and women's basketball, and volleyball), RE Arena, Inc. retains 52 percent of such ticket revenue and remits 48 percent to the UND, and (ii) RE Arena Inc. collects all sponsorship sales revenue from the UND athletic events at the arena, RE Arena, Inc. retains 64 percent of such sponsorship revenue, net of direct costs, and remits 36 percent to the UND net of direct costs. In addition, UND and RE Arena, Inc. jointly utilize the UND and RE Arena Inc. marketing staff to market and promote the UND athletic events.

RE Arena, Inc. may contract with UND for materials and personnel in service, utility and other areas and will reimburse UND based on separate agreements. Revenue and expense arrangements for all other UND events held at the arena will be negotiated on an event-by-event basis.

In fiscal year 2022, gross tickets sales were \$5.2 million of which RE Arena, Inc. recognized revenue of \$2.7 million.

Gross tickets sales for the next athletic season year are recorded in deferred revenue at gross by REA for a total of \$3.1 million.

REA recognized net sponsorship (advertising) revenue of \$846,031 and net paid to UND in sponsorship (advertising) income of \$476,000. REA allocated \$500,000 of net income to UND athletic department for the year ended May 31, 2022. REA expensed \$1.2 million to UND for utilities, maintenance staff, phone service and other.

At the end of the fiscal year REA owed UND \$87,000 for monthly services.

Amounts are reported on the accrual basis of accounting, which may or may not be the same as that used by UND. REA fiscal year end is May 31 and UND's fiscal year end is June 30. Amounts may differ between entity financial statements because of timing differences due to different year ends

UNIVERSITY OF NORTH DAKOTA AND UNIVERSITY OF NORTH DAKOTA FOUNDATION

UND is leasing space in the Gorecki Alumni Center in the amount of \$75,000 per year. Additional rental payments consisting of UND's share of the operating and maintenance costs for space used in the Gorecki Alumni Center are calculated annually.

During the year ended June 30, 2022, UND provided approximately \$1.6 million of institutional support for event and database support, annual giving campaign and shared positions. The UND Alumni Association and Foundation (Foundation) manages UND's endowment investments and charged them \$286,000 in investment management fees during the year ended June 30, 2022.

During the year ended June 30, 2022, the Organization paid \$27.3 million to the University of North Dakota for building projects..

The Foundation is leasing 45,000 square feet of land for the Gorecki Alumni Center from UND. Starting in 2016, the rate is \$0.10 per square foot, per year. The cost in fiscal year 2022 was \$4,500.

On July 24, 2002, the UND Foundation issued \$8.6 million of tax-exempt lease revenue bonds to finance the construction of an office building and the renovation of an existing building for the EERC of UND. The UND Foundation recorded a receivable from UND of \$8.6 million due under the direct-financing lease arrangement. On October 18, 2012, the UND Foundation issued Taxable Refunding Lease Revenue Bonds, Series 2012 in the amount of \$6.4 million to refund its outstanding Lease Revenue Bonds, Series 2002.

STATE OF NORTH DAKOTA

The UND Foundation also amended the related lease agreement with UND. Interest accrues on the bonds at rates from 0.75 percent to 4.20 percent depending upon maturity. Annual principal and semiannual interest payments are due through fiscal year 2027 and as of June 30, 2022 were \$2.5 million. The bonds are secured by a lease with UND.

On October 24, 2003, the UND Foundation issued \$4.4 million of tax-exempt lease revenue bonds to finance the purchase of land and the construction of a facility for occupancy by the Minot Center for Family Practice in Minot, North Dakota. The center is a department of the School of Medicine & Health Sciences at UND. The UND Foundation recorded a receivable from UND of \$4.4 million due under the direct-financing lease agreement. In June 2008, the \$3.7 million remaining balance of the 2003 bonds was refinanced with Lease Revenue Refunding Bonds, Series 2008. In April 2018, the \$2.2 million remaining balance of the 2008 bonds was refinanced with Lease Revenue Refunding Bonds, Series 2018. During fiscal year 2022, the Series 2018 bonds were paid in full.

NOTE 12 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

BANK OF NORTH DAKOTA

The State, through the Bank of North Dakota, is a party to credit related financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, financial standby letters of credit and guarantees related to loan programs. Those instruments involve varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the statement of net position. The contract amounts of those instruments reflect the extent of involvement the State has in particular classes of off-balance-sheet financial instruments.

The State's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and financial standby letters of credit is represented by the contractual amount of those instruments. The State uses the same credit policies in making commitments and conditional obligations as it does for on- balance-sheet instruments.

	Contract Amount (in thousands)
Commitments to extend credit	\$ 1,486,164
Financial standby letters of credit	517,094
Guarantees provided	7,601

Commitments to extend credit are agreements to lend as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained by the State upon extension of credit is based on management's credit evaluation of the customer. Collateral held may include accounts receivable, inventory, property, plant and equipment, and income-producing commercial properties.

Financial standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Those letters of credit are primarily issued to support public borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank has segmented this category into three components: (1) letters of credit, (2) confirming letters of credit, and (3) letters of credit pledged for public deposits to North Dakota financial institutions.

Letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party which require this type of facility. The maturities for these letters range from one month to ten years, and the likelihood of funding any of these letters of credit is considered to be remote. The Bank holds collateral supporting those commitments. The Bank also has letters of credit with the North Dakota Public Finance Authority with maturities ranging from seventeen months to twenty nine years. If the letters issued to Public Finance Authority were ever drawn upon, Public Finance Authority is legally obligated to reimburse the Bank from funds legally available, or from any appropriation made available to the Legislative Assembly after certification by the Industrial Commission. The likelihood of funding any of these letters of credit is also considered to be remote. Outstanding issued letters of credit as of December 31, 2021 were \$31,321,000.

Confirming letters of credit are issued to North Dakota financial institutions to support letters of credit they have issued but are still in need of backing from an institution with a long-term, high quality bond rating. In the event these letters were to be drawn upon, based on the terms of the agreement, the Bank would immediately withdraw funds from the institution's correspondent bank account held at the Bank to cover the amount drawn. These agreements generally have terms of 12 months or less. The likelihood

STATE OF NORTH DAKOTA

of funding any of these confirming letters of credit is also considered to be remote. Outstanding issued confirming letters of credit as of December 31, 2021 were \$8,220,000.

Letters of credit pledged for public deposit to North Dakota financial institutions are issued to support public borrowing arrangements. These letters are fully collateralized by a pool of loans pledged to the Bank. These agreement generally have terms of 12 months or less. Financial standby letters for public deposits by North Dakota banks totaled \$300,785,000 at December 31, 2021. The likelihood of funding any of these letters of credit is also considered to be remote. These letters of credit are authorized form of collateral for public deposits per North Dakota Century Code 21-04-09.

The Bank has not recorded a contingent liability related to off-balance sheet activity as of December 31, 2021.

INFRASTRUCTURE REVOLVING LOAN PROGRAM

In the normal course of business, the Loan Fund makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$40,342,000 at June 30, 2022.

MEDICAL FACILITY INFRASTRUCTURE LOAN FUND

The Fund's exposure to loan loss is represented by the contractual amount of these commitments. There were two pending loan commitments totaling \$8,150,000 as of June 30, 2022.

INNOVATION TECHNOLOGY LOAN FUND

In the normal course of business, the Loan Fund makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$4,249,000 at June 30, 2022.

WATER INFRASTRUCTURE REVOLVING LOAN FUND

In the normal course of business, the Loan Fund makes various commitments that are not reflected in the financial statements. These commitments include nine loan commitments for \$40.3 million at June 30, 2022.

NORTH DAKOTA HOUSING FINANCE AGENCY

In the normal course of business, the Agency makes various commitments that are not reflected in the financial statements. These include commitments to extend credit and the debt reduction required when related loan acquisition funds are not drawn down within prescribed time frames set by the specific bond resolution.

Commitments to extend credit are agreements to fund loans as long as there is no violation of any condition established in the contracts. Commitments require the payment of a reservation fee and generally have a fixed expiration date. Commitments to extend credit total \$142,728,000 at June 30, 2022.

The bond resolutions require that the funds in the loan acquisition accounts be expended within 42 months of the related bond delivery date. Any remaining funds must be used for debt reduction. The loan acquisition funds totaled \$202,118,000 at June 30, 2022.

PUBLIC FINANCE AUTHORITY

In the normal course of business, the Finance Authority (a component unit) makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$152,155,000 at December 31, 2021.

STATE OF NORTH DAKOTA

NOTE 13 - INTEREST RATE SWAP

BANK OF NORTH DAKOTA

The Bank has outstanding interest rate swap agreements with a notional amount \$545,000,000 to convert variable rate federal funds and variable LIBOR-indexed deposits into fixed-rate instruments over the term of the contract. The following table summarizes the terms of the interest rate swap contracts:

Trade Date	Maturity Date	Notional Amount	Pay Fixed	Receive Variable
June 5, 2014	June 1, 2029	\$50,000,000	2.86%	Fed Funds
April 14, 2015	May 1, 2030	\$50,000,000	1.92%	Fed Funds
August 11, 2016	September 1, 2031	\$50,000,000	1.48%	1 Month LIBOR
April 5, 2017	May 1, 2032	\$50,000,000	2.39%	1 Month LIBOR
June 15, 2017	July 1, 2032	\$50,000,000	1.99%	Fed Funds
March 27, 2018	April 1, 2033	\$50,000,000	2.47%	Fed Funds
June 28, 2018	July 1, 2033	\$50,000,000	2.52%	Fed Funds
April 25, 2019	May 1, 2034	\$50,000,000	2.36%	Fed Funds
September 3, 2019	October 1, 2034	\$50,000,000	1.15%	Fed Funds
October 3, 2019	November 1, 2034	\$50,000,000	1.38%	Fed Funds
December 5, 2019	October 1, 2023	\$45,000,000	1.33%	Fed Funds

Either the Bank or its counterparties may terminate the interest rate swap if the other party fails to perform under the terms of the contract. Termination could result in the Bank being required to make a payment of the fair value of the swap to counterparty.

The following table summarizes the derivative financial instrument utilized at December 31, 2021:

Swap	National Amount	Fair Value		Changes in Fair Value	
		Classification	Amount	Classification	Amount
June 2014	\$ 50,000,000	Other assets	\$ (5,924,000)	Deferred outflow	\$ 3,537,000
April 2015	50,000,000	Other assets	(2,691,000)	Deferred outflow	3,026,000
August 2016	50,000,000	Other assets	(337,000)	Deferred outflow	2,937,000
April 2017	50,000,000	Other assets	(4,666,000)	Deferred outflow	3,557,000
June 2017	50,000,000	Other assets	(3,355,000)	Deferred outflow	3,137,000
March 2018	50,000,000	Other assets	(6,035,000)	Deferred outflow	3,474,000
June 2018	50,000,000	Other assets	(6,380,000)	Deferred outflow	3,515,000
April 2019	50,000,000	Other assets	(5,806,000)	Deferred outflow	3,442,000
Sept 2019	50,000,000	Other assets	1,330,000	Deferred inflow	2,618,000
Oct 2019	50,000,000	Other assets	(68,000)	Deferred outflow	2,783,000
Dec 2019	45,000,000	Other assets	(519,000)	Deferred outflow	1,027,000

At December 31, 2021, the Bank was not exposed to material credit risk because each counterparty is required to fully collateralize the fair value of the swaps within \$250 of daily mark-to-market valuations by depositing funds with the other counterparty.

The Bank is exposed to interest rate risk on its swap agreements. On its pay-fixed, receive variable interest rate swaps, the Bank's net payment increases as the USD-FEDERAL FUNDS-H.15 and USD-1 MONTH SFOR interest rates decrease.

STATE OF NORTH DAKOTA

Using rates as of December 31, 2021, the interest expense of the variable rate federal funds, variable rate 1 month LIBOR and the net swap payments are as follows. As rates vary, the federal fund and 1 month SFOR interest expense and the net swap payments will vary.

Year Ended December 31:	Pay Fixed	Receive Variable		Interest Rate Swap, net
	Contract Interest	Federal Fund Interest	1-Month LIBOR Interest	
2022	\$ 10,857,000	\$ 356,000	\$ 100,000	\$ 10,401,000
2023	10,707,000	347,000	100,000	10,260,000
2024	10,259,000	320,000	100,000	9,839,000
2025	10,259,000	320,000	100,000	9,839,000
2026	10,259,000	320,000	100,000	9,839,000
2027-2031	45,761,000	4,690,000	483,000	40,588,000
2032-2034	10,619,000	2,294,000	17,000	8,308,000
	<u>\$ 108,721,000</u>	<u>\$ 8,647,000</u>	<u>\$ 1,000,000</u>	<u>\$ 99,074,000</u>

NORTH DAKOTA HOUSING FINANCE AGENCY

As a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance, the Agency entered into several cash flow hedges or swaps in connection with various variable-rate housing bond series. The Agency cash flow hedges are pay-fixed. All Agency cash flow hedges are pay-fixed. The intention of these swaps was to effectively change the Agency's interest rate on the bonds to a fixed rate. The Agency also has cash flow hedges that were entered into in connection with variable-rate housing bond series that no longer have bonds outstanding as those bonds have been called. The cash flow hedges that are not connected to a specific bond series hedge the risk related to the Agency's other variable-rate housing bonds that are unhedged.

The bonds and the related swap agreements have a stated issuance and maturity date. Some of the swaps have optional termination dates. Under the swaps, the Agency pays the counterparty a fixed payment and receives a variable payment computed as a percent of the London Interbank Offered Rate (LIBOR) plus a fixed percentage on the swap notional amount. On the other hand, the bond's variable-rate coupons are determined by the remarketing agent. If for any reason the remarketing agent fails to act, the rate shall be the lesser of (i) the TBMA Index plus 0.25% or (ii) the Maximum Rate as defined within the applicable series resolution.

As of June 30, 2022, the Agency had eight swaps with a positive fair value totaling \$4,569. Of the swaps with negative fair value, the Agency is not exposed to credit risk. However, the swap exposes the Agency to basis risk should the relationship between LIBOR and TBMA converge, changing the synthetic rate on bonds. The swap counterparty has guaranteed all payments and is rated AAa/AA+/AAA by Moody's Investor Services, Standard & Poor's, and Fitch, respectively. To mitigate potential credit risk, the counterparty has entered into Credit Support Agreements with Royal Bank of Canada and Wells Fargo as a credit enhancement.

The Agency has entered into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements netting provisions permit each party to net the transactions' fair values so that a single sum will be owed by, or owed to, the other party. At June 30, 2022, the Agency owed the swap providers a fixed rate on the notional amount of the swaps of \$5,476,000 and the swap providers owed the Agency a variable rate on the notional amounts of \$3,160,000 making the net payment that the Agency owed the swap providers \$2,316,000.

Due to the difference in the variable rate indices, the swaps had a net positive fair value of \$3,668,000 as of June 30, 2022. Accordingly, the financial derivative instrument is reported as a liability and the accumulated changes in fair value of the swaps are reported as a deferred inflow at June 30, 2022. The coupon on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. All valuations are as of the valuation date indicated. Mid-Market or indicative unwind valuations may be derived from broker quotations or from proprietary models that take into consideration estimates about relevant present and future market conditions as well as the size and liquidity of the position and any related actual or potential hedging transactions. Valuations based on other models or different assumptions may yield different results.

The swap exposes the Agency to basis risk should the relationship between LIBOR and the actual variable rates converge, changing the synthetic rate on the bonds. The effect of this difference in basis is indicated by the difference between the intended synthetic rate and the synthetic rate as of June 30, 2022. If a change occurs that results in the rates' moving to convergence, the expected cost savings may not be realized.

STATE OF NORTH DAKOTA

The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination event." That is, the swap may be terminated if counterparty's credit quality rating falls below "A3" as issued by Moody's Investors Service or "A-" as issued by Fitch Ratings or Standard & Poor's. The swap may be terminated at any time by the Agency or the counterparty with 30 days written notice up to limits specified in the swap agreement. If the swap or swaps were terminated, the variable-rate bonds would no longer carry a synthetic interest rate. Also, if at the time of termination the swap has a negative fair value, the Agency would be liable to the counterparty for payment equal to the swap's fair value, but in the event the fair value is positive, the counterparty would be liable to the Agency.

The Agency is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to maturity of the hedged debt. When these hedging derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, the Agency will be re-exposed to the risks being hedged by the hedging derivative instrument. The Agency also is exposed to rollover risk on the swaps that mature and the Agency does not call the related variable rate debt.

The terms of the interest rate swaps at June 30, 2022 are as follows:

1. Bond Series	2015 C		2015 E		2015 F		2017 C	
2. Issuance Date	6/23/2015		5/1/2016		12/8/2015		5/10/2017

14. Change in Fair Value	\$ 1,204,000	\$ (720,000)
15. Optional Termination Date	1/1/2032	1/1/2032

Using rates as of June 30, 2022, debt service requirements of the variable-rate debt and net swap payments are as follows. Interest calculations were based on rates as of June 30, 2022. As rates vary, variable-rate bond interest payments and net swap payments will vary. (Expressed in thousands.)

Fiscal Year Ending June 30	Variable-Rate Bond		Interest Rate Swap, Net	Total
	Principal	Interest		
2023	\$ 780	\$ 2,870	\$ 2,314	\$ 5,964
2024	1,470	2,845	2,306	6,621
2025	2,385	2,808	2,294	7,487
2026	3,175	2,733	2,267	8,175
2027	4,960	2,650	2,230	9,840
2028-2032	36,325	11,737	10,325	58,387
2033-2037	51,370	8,427	8,106	67,903
2038-2042	45,300	5,256	5,315	55,871
2043-2047	22,805	3,048	3,276	29,129
2048-2052	26,815	1,179	1,384	29,378
2053-2057	3,285	6	8	3,299
	<u>\$ 198,670</u>	<u>\$ 43,559</u>	<u>\$ 39,825</u>	<u>\$ 282,054</u>

NOTE 14 - SIGNIFICANT CONCENTRATIONS OF CREDIT RISK

Most of the State's business is with customers within the state. Concentrations of credit are present in the construction and operation of community water facilities, loans to medical facilities for health care construction, loans to students for post-secondary education, loans to owners of homes damaged in the 2011 floods in Barnes, Benson, Burleigh, McHenry, Morton, Ramsey, Renville, Richland and Ward counties, loans to political subdivisions in the state for infrastructure, single- family and multifamily mortgage loans, loans to assist local financial institutions in providing loans to assist very small businesses in their recovery from the impacts caused by the COVID-19 pandemic, loans to provide financing for commercialization of intellectual technology within the State and the agricultural industry. Due to the pervasive nature of agriculture in the economy of the state, all loans, regardless of type, are impacted by agriculture.

NOTE 15 - RISK MANAGEMENT

Several funds accumulate assets to cover risks that the State may incur. Specifically, the State assumes a portion or substantially all risks associated with the following:

STATE OF NORTH DAKOTA

THE STATE FIRE AND TORNADO FUND

The State Fire and Tornado Fund, an Enterprise Fund, is financed by premiums charged to the participating funds of the State. All monies collected must be paid into the fund for use only for the purpose outlined in NDCC 26.1-22.02.

All losses occasioned by the hazards provided for in the North Dakota Century Code must be paid out of the fund, with the fund being reimbursed by a third-party insurance carrier for all losses in excess of \$1,000,000 per occurrence. The limit of liability of such reinsurance contract is no less than \$1,000,000 during each twelve month period.

STATE BONDING FUND

The State Bonding Fund, an Enterprise Fund, is financed by premiums charged to each State agency for the bonding of public employees and public officials.

FLEET SERVICES

Fleet Services, an Internal Service Fund, represents the State's fleet of automobiles and is administered by the Department of Transportation. The State is self-insured for substantially all automobile insurance (e.g., comprehensive, collision), with the exception of liability, which is provided by the State's Risk Management Fund (RMF). State agencies are charged premiums to cover Fleet Service's RMF assessment and to pay for those losses that are not covered by RMF. These premium charges are factored into the fees agencies are charged when renting the cars.

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a State insurance fund and a "no fault" insurance system, covering the State's employers and employees. WSI is financed by premiums assessed to employers. The rate of such premiums is periodically adjusted to assure the solvency of WSI. The premiums are available primarily for the payment of claims to employees injured in the course of employment. During fiscal year 2022, a total of \$111,544,700 in claims was recognized. The liability of \$998,771,000 is the present value of the unpaid claim liability discounted at 4% as determined by the actuarial.

RISK MANAGEMENT FUND

Due to the loss of sovereign immunity, the 1995 Legislature established the Risk Management Fund (RMF) to pay money damages for tort claims for which the State is liable. The statutory liability of the State is limited to a total of \$250,000 per person and \$1,000,000 per occurrence. The State purchases commercial insurance for claims in excess of coverage provided by the Fund and continues to transfer liabilities for medical malpractice and aviation to private insurance carriers. Settlements have not exceeded insurance coverage in any of the past three fiscal years.

Revenues to the RMF are generated from contributions required from state agencies, boards and commissions, and the University System. The need for and amount of funding is determined using a projected cost allocation approach. The premise of this plan is that the agencies with greater expected loss costs should contribute more to the funding of the RMF than those agencies with lesser costs. The underlying logic is that contributions should roughly equal loss costs plus the expenses of administering the program over the long term.

The RMF liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Unpaid claim liabilities are based on an actuarial study of the outstanding loss reserve need for the fund and a forecast of ultimate loss and loss expense. These liabilities were determined on an undiscounted expected level of ultimate loss. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrines, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re-evaluated periodically to take in consideration settled claims, the frequency of claims, and other economic and social factors.

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2022 and 2021:

Fiscal Year	Beginning Balance	Current Year Claims and Changes In Estimates	Claims Payments	Ending Balance
2022	\$ 3,748,309	\$ 520,593	\$ (417,908)	\$ 3,850,994
2021	3,746,363	641,476	(639,530)	3,748,309

STATE OF NORTH DAKOTA

The Risk Management Workers Compensation Program (WCP) was established to consolidate all state entities under one workers compensation account, allowing for transitional duty between entities. The statutory liability of the fund is limited to \$100,000 per claim with Workforce Safety & Insurance, providing excess insurance for claims that exceed the \$100,000 cap. WCP pays separately for this coverage. Since the inception of WCP on July 1, 2001, fifty claims exceeded coverage by \$15,068,511.

Revenues to WCP are generated from contributions required from state agencies, boards, commissions, and the University System. The amount contributed from each agency is actuarially determined by Workforce Safety & Insurance and based upon the number of employees, the type of work done, and claims history of each entity. Each entity also pays a deductible of \$250 per claim.

The WCP liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrine, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re-evaluated periodically to take into consideration settled claims, the frequency of claims, and other economic and social factors. An actual study was performed for Workforce Safety & Insurance. The liability estimates are based on that study.

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2022 and 2021:

Fiscal Year	Beginning Balance	Current Year Claims and Changes In Estimates	Claims Payments	Ending Balance
2022	\$ 3,462,971	\$ 1,930,118	\$ (3,362,982)	\$ 2,030,107
2021	4,938,728	1,248,167	(2,723,924)	3,462,971

NOTE 16 - PUBLIC ENTITY RISK POOLS

A. GENERAL

FIRE AND TORNADO AND BONDING FUND

The Fire and Tornado Fund provides property insurance to state agencies, political subdivisions, the International Peace Garden and the Winter Show. The Fire and Tornado Fund has issued 1,205 policies to participating entities for a total building and content coverage of \$18.8 billion. The Bonding Fund is used to provide fidelity bonding of public employees and officials. The Fund has issued 1,608 policies to participating entities. The total coverage for the Bonding Fund is \$879.7 million. If the assets of these funds were exhausted, fund participants would not be responsible for the funds' liabilities.

The Fire and Tornado and Bonding Fund are accounted for on the accrual basis. The Fire and Tornado Fund establishes claim liabilities based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims incurred but not reported. The Bonding Fund establishes claim liabilities based on actual judgments obtained against the fund but not paid prior to fiscal year end. Liabilities for incurred but not reported losses have not been established based on prior year activity. Neither fund incurred any acquisition costs, which should have been capitalized, nor were any liabilities recognized that were discounted. Investment income was not considered in determining the existence of premium deficiencies.

The Fire and Tornado Fund uses reinsurance agreements to reduce its on covered losses in excess of \$2.0 million. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Fund as direct insurer of the risks that are reinsured. The Fire and Tornado Fund does not report reinsured risks as liabilities unless it is probable that those risks will not be covered by reinsurers. There were no pending losses at June 30, 2022 that would reduce the fund's liability.

STATE OF NORTH DAKOTA

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a state insurance fund and a “no fault” insurance system covering the State’s employers and employees. At June 30, 2022, coverage extended to the following employers:

Annual Premium	
\$250 - \$5,000	20,474
\$5,001 - \$50,000	4,327
\$50,001 - \$100,000	354
Over \$100,000	297
Total Employers	25,452

WSI is financed by premiums assessed to the employers doing business in North Dakota. The premiums are available primarily for the payment of claims to employees injured in the course of employment.

The operations of WSI are accounted for on the accrual basis. Liability for incurred loss and loss adjustment expense (LAE) is estimated by WSI’s actuary. The estimate is developed by WSI’s actuary, taking into consideration past experience of WSI in paying claims, and general conditions of the environment in which WSI operates. The liability is based on the estimated ultimate costs to settle both reported and incurred but not report (IBNR) losses and LAE, and includes the effects of inflation and other societal and economic factors. The actuarial computations also include a 4% discount to report this liability at its present value.

Management believes the estimated liability for losses and loss adjustment expense is sufficient to cover the ultimate net cost of incurred losses, but such loss reserves are necessarily based on estimates and the ultimate liability may be greater or less than the amounts estimated. As adjustments to this estimated liability become necessary, such adjustments are reflected in current operations.

For the year ended June 30, 2022, the consulting actuaries presented an estimate in the form of a range to emphasize the uncertainty for a “long-tailed” liability insurer such as workers’ compensation. These ranges are as follows (expressed in thousands):

	Low	Central Value	High
Full value basis, undiscounted	\$ 1,394,635	\$ 1,501,671	\$ 1,602,757
Present value basis, discounted at 4%	925,389	998,771	1,050,261

WSI has adjusted the estimated liability for unpaid loss and loss adjustment expense to the actuary’s 4 percent discounted expected value of \$998,771,000 at June 30, 2022.

While management has recorded amounts that fall within the ranges of estimated liabilities as computed under actuarial assumptions, the high level of uncertainty indicates that actual losses and expenses could be materially higher than the recorded estimated liability.

WSI has entered into a contract with an intermediary for reinsurance coverage for catastrophic coverage. Historically, WSI has had up to four coverage levels, with varying retention limits of \$3 million, \$5 million, \$10 million and \$20 million. Terms, limits and pricing are re-evaluated annually. WSI’s current 2022 calendar year has two coverage levels, with retention limits of \$10 million and \$20 million. For the year ended June 30, 2022 WSI recorded ceded losses of \$1,679,305 and ceded premiums of \$650,841.

B. RECONCILIATION OF CLAIMS LIABILITIES

The following is a reconciliation of total claims liabilities, including an analysis of changes in aggregate liabilities for claims and claim adjustment expenses for the current fiscal year and the prior year (expressed in thousands):

STATE OF NORTH DAKOTA

	Fire And Tornado		Bonding		Workforce Safety & Ins	
	2022	2021	2022	2021	2022	2021
Unpaid claims and claims adjustment expenses at the beginning of the year	\$ 1,808	\$ 1,031	\$ 134	\$ 134	\$1,000,099	\$1,029,792
Incurring claims and claims adjustment expenses:						
Provision for current fiscal year	1,674	3,511	(3)	59	136,741	144,856
Change in provision for prior fiscal year	1,151	(2,645)	—	—	(30,454)	(141,790)
Payments and claims and adjustment expenses attributable to:						
Current fiscal year insured events	(2,939)	(3,705)	(131)	(193)	(34,397)	(32,823)
Prior fiscal years' insured events	—	—	134	134	(78,476)	(91,783)
Total Payments	(2,939)	(3,705)	3	(59)	(112,873)	(124,606)
Change in provision for discount	—	—	—	—	5,258	91,847
Total unpaid claims and claims adjustment expenses at the end of the year	<u>\$ 1,694</u>	<u>\$ (1,808)</u>	<u>\$ 134</u>	<u>\$ 134</u>	<u>\$ 998,771</u>	<u>\$1,000,099</u>

NOTE 17 - BANK OF NORTH DAKOTA

GASB Statement No. 34 requires assets and liabilities of enterprise funds be presented in a classified format to distinguish between current and long-term assets and liabilities. The Bank of North Dakota is the only government-owned bank in the United States. Banks do not present a classified statement of net position because current assets are not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Therefore, the statement of net position of the Bank of North Dakota presents assets and liabilities in order of their relative liquidity, rather than in a classified format.

NOTE 18 - COMMITMENTS AND CONTINGENCIES

A. LONG-TERM COMMITMENTS

INDUSTRIAL COMMISSION

The Industrial Commission has entered into various contracts with third parties for the following programs regarding lignite research, oil and gas research, renewable energy and for the outdoor heritage program. As of June 30, 2022, the total outstanding balance on these contracts was \$109.7 million.

JUDICIARY SYSTEM

As of June 30, 2022, the Judiciary System had commitments to for juvenile court contracts totaling \$1.8 million, of which \$1.2 millions is left to be paid.

MILL AND ELEVATOR

As of June 30, 2022, the Mill had commitments to purchase 5,507,731 bushels of spring wheat and 784,946 bushels of durum.

JOB SERVICE NORTH DAKOTA

As of June 30, 2022, the Agency has commitments to pay \$713,457 for purchase orders and contracts awarded for goods, services, software licenses and software support to be provided in future periods, all of which are federally funded.

SCHOOL CONSTRUCTION ASSISTANCE REVOLVING LOAN FUND

As of June 30, 2022, the Fund had six outstanding commitments for \$50.8 million.

STATE OF NORTH DAKOTA

HOUSING INCENTIVE FUND

The Fund makes various commitments relating to construction projects to meet unmet housing needs across North Dakota. The Fund had \$8,575,157 of signed commitments for construction projects as of June 30, 2022. The Fund had \$12,498,261 of HIF funds awarded for construction projects as of June 30, 2022. The total paid on these commitments as of June 30, 2022 was \$3,923,104.

DEPARTMENT OF HUMAN SERVICES

As of June 30, 2022, the Department of Human Services had significant commitments for the purchase of various types of services totaling \$737,769,538.

NORTH DAKOTA LOTTERY

The Lottery contracts with a third party to provide an online gaming system and related services through June 30, 2024. Total payment for these services during the year ended June 30, 2022 were \$3.04 million based on 9.573% of ticket sales. The Lottery's future obligation through June 30, 2024 is based on 9.573% of ticket sales. Additionally, the Lottery pays an annual minimum fee of \$325,000 to provide the Player's Club Points for Prizes program.

NORTH DAKOTA DEPARTMENT OF TRANSPORTATION

At June 30, 2022, the North Dakota Department of Transportation (Special Revenue Fund) had non-construction contract commitments of approximately \$139.1 million, of which \$0.1 million represents federal programs which are cost reimbursable. Construction commitments at June 30, 2022 totaled approximately \$407 million, of which \$324 million represents federal programs which are cost reimbursable. These commitments will be funded with future appropriations as work is performed.

NORTH DAKOTA DEVELOPMENT FUND

The board of directors has approved equity investments, loans, grants, and guaranty of collections at June 30, 2022, for which funds have not been disbursed or written agreements entered into in the amount of \$7.3 million.

NORTH DAKOTA SOYBEAN COUNCIL

As of June 30, 2022, the North Dakota Soybean Council had significant commitments of approximately \$3.6 million. This amount mainly consists of grants for the research and development of soybeans.

STATE WATER COMMISSION

As of June 30, 2022, the State Water Commission had long-term commitments of \$349.4 million for various water projects.

UNIVERSITY SYSTEMS

Contracts for the construction of various projects on behalf of the University System have been let as follows (expressed in thousands):

	Original Issue	Paid To Date	Amount To Be Paid
BSC	\$ 38,000	\$ 271	\$ 37,729
DCB	3,769	2,709	1,060
DSU	7,021	174	6,847
LRSC	—	—	—
MaSU	1,903	632	1,271
MiSU	4,333	730	3,603
NDSCS	661	642	19
NDSU	170,869	69,358	101,511
UND	285,509	229,067	56,442
VCSU	27,763	26,059	1,704
Total	<u>\$ 539,828</u>	<u>\$ 329,642</u>	<u>\$ 210,186</u>

STATE OF NORTH DAKOTA

OTHER CONSTRUCTION COMMITMENTS

That State has entered into construction commitments. As of June 30, 2022, the following commitment exists on other construction contracts, in thousands:

Office of Management and Budget	\$	719
Secretary of State		566
Attorney General		625
Health Department		3,076
Veterans Homes		30
Department of Human Services		80,624
State Historical Society		1,385
Game and Fish		172
Department of Transportation		195,578

B. LITIGATION

The estimated loss in all of the litigation against the State in which a loss to the State that is reasonably possible to result in an unfavorably outcome is estimated to be \$266,000.

C. QUESTIONED COSTS

The State receives federal financial assistance which is subject to review and audit by the Office of the State Auditor and the federal government. This assistance is generally conditioned upon compliance with certain laws and regulations. Disallowed and questioned costs relating to federal assistance could become a liability to the State. The State estimates that the ultimate disallowances pertaining to federal assistance, if any, will be immaterial to its overall financial condition. The single audit of the State of North Dakota for the two-year period ending June 30, 2020, was completed and issued in March of 2021. As a result of this audit, approximately \$178,000 of identifiable questioned costs were noted. Also, there were several findings which had potentially significant, unknown, questioned costs. The State is cooperating with the federal government to resolve the findings and is optimistic these findings will not have a material impact on the State.

NOTE 19 – TOBACCO SETTLEMENT

In November 1998, the North Dakota Attorney General joined forty-five other states and five territories in a settlement agreement against the nation's largest tobacco manufacturer. The settlement money is intended to compensate the State for costs it has incurred in providing health and other services to its citizens that were necessitated by the use of tobacco products. The Master Settlement Agreement includes base payments to states totaling \$220.6 billion for the next 25 years, and continues in perpetuity. The State has received total payments of \$563.1 million as of June 30, 2022. The State recognized revenue of \$23.3 million of tobacco settlement revenue during the year ended June 30, 2022. The amount of the annual payment is subject to a number of modifications, including adjustments for inflation and usage volumes. Some of the adjustments may result in increases in the payments (inflation, for example), or other adjustments will likely cause decreases in the payments (e.g., volume adjustments). The net effect of these adjustments on future payments is unclear.

NOTE 20 - SUBSEQUENT EVENTS

BANK OF NORTH DAKOTA

Subsequent to year end, the bank paid off its entire debt balance of \$186 million.

The bank had unrealized losses of \$277 million as of October 31, 2022. The bank strategically increased its portfolio exposure by 2 billion in 2022 as the rising rate environment offered sound investment options. The mark to market variances of some of the available-for-sale portfolios are offset by the pickup the bank has on SWAP gains. As of October 31, 2022, derivative gains are recorded at \$73.5 million.

STATE OF NORTH DAKOTA

PUBLIC FINANCE AUTHORITY

Subsequent to year end, the Authority issued \$320.9 million of legacy fund infrastructure program bonds payable. The bonds have a net interest rate of 4.58% and mature between 2023 and 2041.

HOUSING FINANCE AUTHORITY

The Agency issued Series 2022F Homeownership Revenue Bonds totaling \$75 million in August 2022. The bonds have an interest rate ranging from 1.55% to 5.00% and mature between July 1, 2023 and January 1, 2053. Subsequent events have been evaluated through October 5, 2022, the date these financial statements were available to be issued.

MILL AND ELEVATOR

Subsequent to year end, the Mill and Elevator entered into a contract for \$33 million for the construction of a storage and handling facility.

NORTH DAKOTA DEVELOPMENT FUND

The fund approved loans subsequent to year end totaling \$4,025,000.

UNIVERSITY SYSTEMS

NDSU Foundation has drawn down \$9.8 million on the construction loan for the Nodak Insurance Football Performance Complex subsequent to the audit report date of April 29, 2022. NDSU Foundation has experienced endowment pool losses of 13 percent or \$57 million since April 29, 2022.

NOTE 21 - NEW PRONOUNCEMENTS

The State implemented the following new pronouncement for fiscal year 2022:

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 92, *Omnibus 2020*, provides additional guidance to improve consistency of authoritative literature by addressing practice issues identified during the application of certain GASB statements. This statement provides accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activity of public entity risk pools, fair value measurements and derivative instruments. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides guidance to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR), most notable, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. This statement provides exceptions and clarifications regarding hedging derivative instruments for such transactions that result from the replacement of IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* provides additional guidance for determining whether a primary government is financially accountable for a potential component unit. This Statement requires that the financial burden criterion in paragraph 7 of Statement No. 84, *Fiduciary Activities*, be applicable to only defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement No. 67, *Financial Reporting for Pension Plans*, or paragraph 3 of

STATE OF NORTH DAKOTA

Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, respectively. This Statement (1) requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and (2) clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, are effective immediately. The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021.

The State will implement the following new pronouncements for fiscal years ending after 2022. Management has not yet determined the effect these Statements will have on the State's financial statements.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Earlier application is encouraged.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The statement provides definitions of PPPs and APAs and provides uniform guidance on accounting and financial reporting for transactions that meet those definitions. A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 96, *Subscription-Based Information Arrangements* provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. Under this Statement, a government generally should recognize a right-to use subscription asset—an intangible asset—and a corresponding subscription liability. The requirements of this Statement will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 99, *Omnibus 2022*, provides guidance on the following accounting matters:

- a. Classification and reporting of derivative instruments within the scope of Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument.
- b. Clarification of provisions in Statement No. 87, *Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives.
- c. Clarification of provisions in Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, related to (a) the determination of the public-private and public-public partnership (PPP) term and (b) recognition and measurement of installment payments and the transfer of the underlying PPP asset.
- d. Clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability.

STATE OF NORTH DAKOTA

- e. Extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt.
- f. Accounting for the distribution of benefits as part of the Supplemental Nutrition Assistance Program (SNAP).
- g. Disclosures related to nonmonetary transactions.
- h. Pledges of future revenues when resources are not received by the pledging government.
- i. Clarification of provisions in Statement No. 34, *Basic Financial Statements— and Management's Discussion and Analysis—for State and Local Governments*, as amended, related to the focus of the government-wide financial statement.
- j. Terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*.
- k. Terminology used in Statement 53 to refer to resource flows statements.

The requirements of this statement are effective as follows:

- a. The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to State[1]ment 53 and Statement 63 are effective upon issuance.
- b. The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.
- c. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter.

GASB Statement No. 100, *Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62*, provides guidance on accounting and financial reporting requirements for accounting changes and error corrections. Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. The requirements of this Statement for changes in accounting principles apply to the implementation of a new pronouncement in absence of specific transition provisions in the new pronouncement. This Statement also requires that the aggregate amount of adjustments to and restatements of beginning net position, fund balance, or fund net position, as applicable, be displayed by reporting unit in the financial statements. This Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections, such as their nature. In addition, information about the quantitative effects on beginning balances of each accounting change and error correction should be disclosed by reporting unit in a tabular format to reconcile beginning balances as previously reported to beginning balances as restated. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 101, *Compensated Absences*, provides guidance on the recognition and measurement guidance for compensated absences. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This Statement also requires that a liability for specific types of compensated absences not be recognized until the leave is used. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. A liability for leave that has been used but not yet paid or settled should be measured at the amount of the cash payment or noncash settlement to be made. Certain salary-related payments that are directly and incrementally associated with payments for leave also should be included in the measurement of the liabilities. This Statement amends the existing requirement to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (as long as they identify it as a net change). In addition, governments are no longer required to disclose which governmental funds typically have been used to liquidate the liability for compensated absences. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

STATE OF NORTH DAKOTA

Required Supplemental Information Budgetary Comparison Schedule Budget to GAAP Reconciliation General Fund For the Fiscal Year Ended June 30, 2022

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the General Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	2,595,288,939
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	(21,752,184)
Funds considered General funds for GAAP but not for Budget	99,652,500
Certain due from other funds are recorded under GAAP, but not Budget	91,125
Reimbursement activity between state agencies is eliminated only for GAAP	(277,909)
Proceeds are recorded for new leases on GAAP, but not for Budget	7,177,850
Repayment received on loan receivable are revenue for Budget to GAAP	(14,066,525)
Total revenues, lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,666,113,796</u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	2,320,134,766
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	1,316,814
Funds considered General funds for GAAP but not for Budget	128,353,628
New leases are recorded as expenditures for GAAP, but not for Budget	7,177,850
Certain due to other funds are recorded under GAAP, but not for Budget	6,786,712
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,463,769,770</u>

STATE OF NORTH DAKOTA

Required Supplemental Information Budgetary Comparison Schedule Budget to GAAP Reconciliation State Fund For the Fiscal Year ended June 30, 2022

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the State Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	1,224,002,680
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	1,676,710,513
Total revenues, lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,900,713,193</u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	1,224,002,680
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	1,969,711,870
New Loans issued are expenditures for Budget but not for GAAP	20,422,403
GAAP, but not Budget expenditures are reduced by year end inventory balances	750,273
Intrafund activity eliminated for GAAP	(618,633,936)
Certain due to other funds are recorded under GAAP, but not for Budget	(7,389,473)
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,588,863,817</u>

STATE OF NORTH DAKOTA

Note To Required Supplemental Information - Budgetary Reporting For the Fiscal Year Ended June 30, 2022

The Budgetary Comparison Schedules present comparisons of the original and revised legally adopted budgets with actual data on a budgetary basis for major funds. The only major fund with a legally adopted budget is the General Fund. All other funds are budgeted together as "Other Budgeted Funds." A budgetary schedule has been done for these other funds because they include budgeted amounts for the Federal Fund and State Funds, which are major special revenue funds. These amounts are reported on the schedules entitled "Federal Funds" and "State Funds".

North Dakota's Appropriation Acts include a dual legal level of budgetary control - one at the General Fund versus Other Budget Income level for each agency and one at the line item level for each agency. Line items are not separate between General Fund and Other Budgeted Income so that control is not presented in our budgetary comparison schedule for major funds. The legal level of control for all agencies is reported in a publication titled "State of North Dakota 2021-2023 Biennium Budget and Actual Detail (Budgetary Basis) For the Fiscal Year Ended June 30, 2022." This budget information is available through the Office of Management and Budget, 600 East Boulevard Ave Dept. 110, Bismarck, ND 58505. For the 2021-2023 biennium there were general, federal, and special fund supplemental appropriations of \$2,074,846,299.

The Budgetary Comparison Schedule reports expenditures on a budgetary basis. The accounting principles applied for purposes of developing data on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. Reconciliations of the three for the Fiscal Year ended June 30, 2022, for the General Fund, Federal Fund, and State Fund is on the previous pages.

Combining Financial Statements

Nonmajor Governmental Funds

Permanent Fund

A permanent fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used to for the benefit of the government or its citizens.

956-Coal Development Permanent Fund

The Coal Development Fund reports resources that are constitutionally committed for distribution to other state funds and for making loans to energy impacted entities and school districts.

410-Veterans' Postwar Trust Fund

The Veterans' Postwar Trust Fund reports resources that are constitutionally committed to be utilized for programs which must be of benefit and service to veterans, who are defined by legislative enactment, or their dependents.

Capital Projects Fund

A capital projects fund is used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

960-Building Authority

Account for the acquisition or construction of buildings primarily for use by the State and making any improvements connected to those buildings.

935-Legacy Bond Program

Legacy Bond Program through the Bank of North Dakota to be used for infrastructure projects and programs.

Debt Service Funds

A debt service fund is used to account for accumulation for resources for, and the payment of, principal and interest on long-term debt.

919-Building Authority Debt Service Fund

Account for accumulation of resources for, and the payment of, principal and interest on bonds issued by the North Dakota Building Authority.

STATE OF NORTH DAKOTA

Nonmajor Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises—where the intent of the State is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the State has decided that periodic determination of net income is appropriate for accountability purposes.

BANK OF NORTH DAKOTA

907 – School Construction Assistance Revolving Loan Fund

Fund used to provide low-interest school construction loans.

909 – Small Employer Loan Fund (SELF)

The Small Employer Loan Fund was established by Bank of North Dakota to assist local financial institutions and certified development corporations in providing loans to assist very small North Dakota businesses in their recovery from the negative impacts caused by the COVID-19 pandemic.

459 (914) – Innovation Technology Loan Fund (LIFT)

Fund used to provide loans for commercialization of intellectual property within the State of North Dakota. Industries eligible for loans include advanced computing and data management, agriculture technology, autonomous and unmanned vehicles and related technology, energy, health care, value-added agriculture, value added energy, and any other industry or area identified by the committee that will contribute to the diversification of the state's economy.

934 – Infrastructure Revolving Loan Fund

Fund used to provide loans to political subdivisions for essential infrastructure projects.

954 - Addiction Counselor Internship Loan Program

Fund used to provide loans to qualified individuals participating in a paid or unpaid internship at a licensed substance abuse treatment facility in North Dakota in order to obtain licensure as an addiction counselor.

984 – Medical Facility Infrastructure Loan Program

Fund used to make loans to medical facilities to conduct construction that improves the health care infrastructure in the state or improves access to existing nonprofit health care providers in the state.

985 – Rebuilders Permanent Loan Fund

Fund used to make loans to North Dakota 2011 flood-damaged homeowners to provide financial assistance needed to repair their home.

961-Clean Sustainable Energy Loan Fund

Fund used to enhance the production of clean sustainable energy, to make the state a world leader in the productions of clean sustainable energy, and to diversity and grow the state's economy.

900-Agriculture Diversification and Development Fund

Fund used for loan disbursements, grants, and administrative costs.

BONDING

210 (924) - State Bonding Fund

Fund used to maintain the bonding of public employees and officials of the state, county, city or other unit of local government.

COMMUNITY WATER FACILITY LOAN

974 - Water Infrastructure Revolving Loan Fund

Accounts for supplementary financing in conjunction with federal moneys available to improve adequate water supplies.

FIRE AND TORNADO

211 (923) - State Fire and Tornado Fund

Accounts for state agencies and political subdivisions to insure against loss to the public buildings, fixtures and permanent contents therein, through fire, lightning, windstorm, etc.

GUARANTEED STUDENT LOAN

969 - North Dakota Guaranteed Student Loan

Accounts for the revenues and expenses associated with the administration, development and operation of the guaranteed loan program.

HIT PLANNING LOAN FUND

987 – HIT Planning Loan Fund

Fund to provide low-interest loans to health care entities to improve health information technology infrastructure.

INFORMATION TECHNOLOGY DEPARTMENT

408 (903) - Edutech Fund

Fund used for professional development sessions and presentations by the Information and Technology Department.

476 (908) – SW Interoperable Radio Network Fund

Fund used for a radio broadcasting system for the state that enables seamless interoperable communications from local, state, and federal levels.

MILL AND ELEVATOR

970 – Mill and Elevator

Accounts for revenues and expenditures associated with the operation of the Mill and Elevator.

PERS UNIFORM GROUP INSURANCE

980 - Public Employees Retirement System Group Insurance

Accounts for the administrative revenues and expenses associated with this insurance purchasing pool.

ROUGH RIDER INDUSTRIES

926 - Roughrider Industries

Accounts for the revenues and expenses associated with the operation, manufacture and sale of products made by the prison inmates.

STATE FAIR

601 (977) - State Fair

Accounts for revenues and expenditures associated with the operation of the State Fair.

STATE LOTTERY FUND

966 (292) - State Lottery Fund

Accounts for operations of the North Dakota lottery.

STUDENT LOAN

975 - North Dakota Student Loan Trust

Accounts for loans to students in post secondary education. The trust acquires eligible loans guaranteed or insured by the United States government or the North Dakota Guaranteed Student Loan Program.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the State and to other government units, on a cost reimbursement basis.

790 (927) - Central Services

Accounts for the revenues and expenditures associated with central printing and office supply services to state agencies and the Legislative Assembly; a surplus property program for the acquisition, distribution, and disposition of federal and state surplus property and procurement services for all state agencies not exempt by statute.

700 (918) - Fleet Services

Accounts for costs of operating and maintaining State-owned vehicles. Costs are billed to user agencies and include depreciation on equipment.

780 (929) - Information Technology Department

Accounts used for the procurement and maintenance of data processing equipment and supplies and telecommunications equipment and supplies to provide data processing and telecommunications services to state departments and agencies.

288\275 (912) - Risk Management Fund

Fund provides insurance coverage and loss prevention to all state agencies and the University System for tort liability and employee injury claims. Coverage is provided using an optional combination of self-insurance and private excess insurance.

STATE OF NORTH DAKOTA

Fiduciary Funds

Fiduciary funds account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental organizations.

Pension and Other Employee-Related Benefit Trust Funds

DEFERRED COMPENSATION

981 - Deferred Compensation Fund

Accounts for the activity of the deferred compensation plan adopted under the provisions of Internal Revenue Service Code, Section 457, for State employees.

PERS FLEXCOMP

932 - Flex Program

Accounts for pre-tax premium conversions, a medical spending account and a dependent care spending account according to Section 125 of the Internal Revenue Code.

HIGHWAY PATROLMEN'S RETIREMENT

982 - Highway Patrolmen's Retirement Fund

A single employer defined benefit pension plan covering officers of the State Highway Patrol.

JOB SERVICE RETIREMENT

920 - Job Service Retirement Fund

A single employer defined benefit pension plan for Job Service employees. Participation in this plan is limited to employees participating in the program as of September 30, 1980.

PREFUNDED RETIREE HEALTH PROGRAM

933 - Prefunded Retiree Health Program

Members receiving retirement benefits from NDPERS receive a credit toward their monthly eligible insurance premium.

PUBLIC EMPLOYEES' RETIREMENT

470 (983) - Public Employees Retirement System

Accounts for the financial resources associated with the Public Employees Retirement System.

DEFINED CONTRIBUTION RETIREMENT

930 - Defined Contribution Retirement Plan

Accounts for the financial resources of the Defined Contribution Retirement Plan. Participation in this plan is limited to state employees who are in positions not classified by the Central Personnel Division and who are not employees of the judicial branch or board of higher education.

TEACHERS' RETIREMENT

964 - North Dakota Teachers' Fund For Retirement

Accounts for the financial resources of the Teachers' Retirement Fund.

Investment Trust Funds

911 - ND Association of Counties RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the North Dakota Association of Counties.

913 - City of Bismarck RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Bismarck.

936 - City of Grand Forks RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Grand Forks.

950 - City of Fargo RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Fargo.

Private Purpose Trust Funds

STUDENT AND CULTURAL DONATIONS

928 - Indian Cultural Education Trust Fund

Trust accounts for donations provided for the purpose of generating income to benefit Indian Culture.

COLLEGE SAVE

940 - College SAVE

Program established by the State of North Dakota to encourage the investment of funds to be used for qualified higher education expenses at institutions of higher education.

MANDAN REMEDIATION TRUST

943 - Mandan Remediation Trust

Accounts for the funds obtained from a lawsuit settlement for the remediation efforts of the North Dakota Health Department and the City of Mandan.

Custodial Funds

CHILD SUPPORT

463 - Child Support Disbursement Unit Fund

Accounts for all child support payments received by the state disbursement unit.

STUDENT AND OTHER

946 - District Court Collection Fund

Accounts for collections for third parties.

986 - Developmental Center Residents' Funds

Accounts for funds belonging to patients of the State Developmental Center.

990 - Veteran's Home-Custodial

Accounts for resident's personal funds.

991 - State Hospital Patients

Accounts for patient's personal funds.

STATE OF NORTH DAKOTA

STUDENT AND OTHER cont.

992 - Prisoner Accounts

Accounts for prisoner's personal fund.

993 - Youth Correctional Center Student Accounts

Account for the student's personal funds.

994 - School for the Deaf Students

Account for the students personal funds.

995 - NDUS Fiduciary Fund

Account for the student organization funds.

TAX COLLECTION

434 - City Lodging Tax Suspense

Accounts for city lodging tax collected by the State Tax Commissioner.

435 - City Sales Tax Suspense

Accounts for city sales and use taxes collected by the State Tax Commission.

437 - City Motor Vehicle Rental Tax

Accounts for city motor vehicle rental tax collected by the state tax commissioner.

438 - City Restaurant and Lodge Tax Suspense

A city tax, at a rate not to exceed one percent, upon the gross receipts of retailers on the leasing or renting of hotel, motel, or tourist court accommodations within the city and gross receipts of a restaurant from any sales of prepared food or beverages, not including alcoholic beverages for consumption off the premises where purchased is collected by the State Tax Commissioner. Proceeds, net of a 3% administrative fee which is deposited into the general fund, are remitted quarterly to each city collecting the tax.

Statistical Information

INDEX TO SCHEDULES

Financial Trends – *These schedules contain trend information to help the reader understand how the State's financial performance and well-being have changed over time.*

Schedule 1 – Net Position by Component	226
Schedule 2 – Changes in Net Position	228
Schedule 3 – Fund Balances, Governmental Funds	230
Schedule 4 – Changes in Fund Balances, Governmental Funds	232

Revenue Capacity – *These schedules contain trend information to help the reader assess the State's capacity to raise revenues and the sources of those revenues.*

Schedule 5 – Taxable Sales by Industry	234
Schedule 6 – Sales Tax Revenue Payers by Industry	234

Debt Capacity – *These schedules present information to help the reader assess the affordability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.*

Schedule 7 – Ratios of Outstanding Debt by Type	236
Schedule 8 – Pledged Revenue Coverage	238
Schedule 9 – Legal Debt Limit	240

Demographic and Economic Information – *These schedules contain trend information to help the reader understand the environment in which the State's financial activities occur.*

Schedule 10 – Demographic and Economic Indicators	241
Schedule 11 – Principal Employers	242
Schedule 12 – Employment by Industry	242
Schedule 13 – Education Enrollment	243

Operating Information – *These schedules contain information about the State's operations and resources by the functions it performs.*

Schedule 14 – State Employees by Agency	244
Schedule 15 – Operating Indicators by Function	246
Schedule 16 – Capital Assets by Function	247

Public Entity Risk Pool Claims Information

Schedule 17 – Claims Development Information	248
--	-----

Miscellaneous Statistics – *This information may provide the reader with more insight into the State's financial status.*

Schedule 18 – Agricultural Production	252

Pledged revenues include student fees, auxiliary revenues, sales, tax revenue, investment income and debt service grants.

NOTE: Gross revenues include nonoperating interest income. Operating expenses do not include bond interest or depreciation expenses.

Schedule 9**Legal Debt Limit****Fiscal Year Ending June 30, 2022**

The state may issue or guarantee the payment of bonds, provided that all bonds in excess of two million dollars shall be secured by first mortgage upon real estate in amounts not to exceed sixty-five percent of its value; or upon real and personal property of state-owned utilities, enterprises, or industries, in amounts not exceeding its value, and provided further, that the state shall not issue or guarantee bonds upon property of state-owned utilities, enterprises, or industries in excess of ten million dollars.

No further indebtedness shall be incurred by the state unless evidenced by a bond issue, which shall be authorized by law for certain purposes, to be clearly defined. Every law authorizing a bond issue shall provide for levying an annual tax, or make other provision, sufficient to pay the interest semiannually, and the principal within thirty years from the date of the issue of such bonds and shall specially appropriate the proceeds of such tax, or of such other provisions to the payment of said principal and interest, and such appropriation shall not be repealed nor the tax or other provisions discontinued until such debt, both principal and interest, shall have been paid. No debt in excess of the limit named herein shall be incurred except for the purpose of repelling invasion, suppressing insurrection, defending the state in time of war or to provide for the public defense in case of threatened hostilities.

The State is in compliance with the Legal Debt Margin.

Source: North Dakota Constitution, Art. X, Section 13.

The State of North Dakota has had no General Obligation Bonded Debt since Fiscal Year 1998. No Schedule of Ratios of General Bonded Debt is being presented.

Schedule 17
Claims Development Information
Last Ten Fiscal Years

The following tables illustrate how the individual funds' earned revenues and investment income compare to related costs of loss and other expenses assumed by the funds as of the end of each of the last ten years. The rows of the tables are defined as follows: (1) This line shows the total of each fiscal year's earned contribution revenues and investment revenues. (2) This line shows each fiscal year's other operation costs of the fund including overhead and claims expense not allocable to individual claims. (3) This line shows the funds' incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year). (4) This section of 10 columns shows the cumulative amounts paid as of the end of successive years for each policy year. (5) This section of 10 columns shows how each policy year's incurred claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received regarding unknown claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known. (6) This line compares the latest re-estimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the tables show data for successive policy years (expressed in thousands).
