INDEPENDENT AUDITOR'S REPORT

Governing Board St. John Public School District No. 3 St. John, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of St. John Public School District No. 3, St. John, North Dakota, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluation the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activity and the major fund of St. John Public School District No. 3, St. John, North Dakota, as of June 30, 2018 and the respective changes in financial position in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Notes 1 and 16 to the financial statements, St. John Public School District No. 3 adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, which resulted in a restatement of the net position as of July 1, 2017. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 37, the schedule of district's share of net pension liability for the last ten fiscal years on page 38, the schedule of the district's contributions for the last ten fiscal years on page 39, schedules of district's share of net OPEB liability ND public employees' retirement system for the last 10 fiscal years on page 40, schedules of district contributions ND public employees' retirement system for the last 10 fiscal years on page 41, and the related notes on page 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financials statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise St. John Public School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financials statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 14, 2018, on our consideration of St. John Public School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering St. John Public School District's internal control over financial reporting and compliance.

RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION For the Year Ended June 30, 2018

Total Fund Balances for Governmental Funds

\$ 2,978,928.60

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and are not reported in the governmental funds.

Cost of Capital Assets Less Accumulated Depreciation Net Capital Assets

12.915.877.93

(7,054,811.62)

5,861,066.31

Property taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and therefore are reported as deferred inflows of resources in the governmental funds.

26,395.45

Long-term liabilities applicable to the District's governmental activities are not due and payable in the current period and, accordingly, are not reported in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities, both current and long-term, are reported in the Statement of Net Position.

Balances at June 30, 2018 are:

Bonds Payable Capital Leases Payable Net Pension and OPEB Liability Net Amount

(2,582,595.12)(93,886.28) (6,612,109.00)

(9,288,590.40)

Premiums on bonds payable are treated as other financing sources in the governmental funds, but are deferred to future periods in the Statement of Net Position (amortized against interest expense over the life of the bonds).

(14,917.93)

Deferred outflows and inflows of resources related to pensions and OPEB are applicable to future periods and, therefore, are not reported in the funds.

Deferred Outflows of Resources Related to Pensions and OPEB Deferred Inflows of Resources Related to Pensions and OPEB

RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2018

Net Change in Fund Balances-Total Governmental Funds

\$ 151,179.71

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Current Year Capital Outlay
Current Year Depreciation Expense
Net Amount

206,432.82 (409,102.05)

(202,669.23)

Proceeds from issuing noncurrent liabilities provide current financial resources to governmental funds, but issuing debt increases noncurrent liabilities in the Statement of Net Position. Repayment of noncurrent liabilities is an expenditure in the governmental funds, but the repayment reduces noncurrent liabilities in the Statement of Net Position. Additionally, premiums or discounts related to the debt are included in the Statement of Net Position and amortized to interest expense over the life of the debt in the Statement of Activities.

Repayment of Debt and Capital Leases
Amortization of Premium on Bond Payable
Net Amount

215,866.35 1,065.57

216,931.92

Some revenues reported in the Statement of Activities are not reported as revenues in the governmental funds since they do not represent available resources to pay current expenditures. This consists of the increase in taxes receivable.

8,237.54

Governmental funds report district pension and OPEB contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employer contribution is reported as pension and OPEB expense.

(314,651.25)

NOTES TO THE FINANCIAL STATEMENTS June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the school district have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The accompanying financial statements present the activities of the St. John Public School District No. 3. The school district has considered all potential component units for which the school district is financially accountable and other organizations for which the nature and significance of their relationships with the school district are such that exclusion would cause the school district's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes appointing a voting majority of an organization's governing body or an organization being fiscally dependent and (1) the ability of the St. John Public School District No. 3 to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, St. John Public School District No. 3.

Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from this unit is combined with data from the primary government.

Based on these criteria, there is one blended component unit to be included within the St. John Public School District No. 3 reporting entity. This blended component unit is described below:

St. John Public School District Building Authority — the school board as a legally separate entity created the building authority on March 5, 2012. Its purpose is to aid, assist and foster the planning, development, construction, renovation and improvement of school buildings, furnishing, fixtures and equipment and related facilities for the school district. The school board is the governing board of the building authority.

Complete financial statements for this component unit may be obtained by writing to: Kaye Stewart, St. John Public School District No. 3, 100 Foussard Street, P.O. Box 200, St. John, ND 58369.

B. Basis of Presentation, Basis of Accounting

Government-wide financial statements: The Statement of Net Position and the Statement of Activities display information about the primary government, St. John Public School District No. 3. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Net Position presents the school district's nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following categories.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the school district's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including taxes, are presented as general revenues.

Fund Financial Statements: Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Any remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The school district reports the following major governmental funds:

General Fund. This is the school district's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Revenue Fund. This is the school district's hot lunch operating fund. It accounts for all financial resources related to food service.

Capital Projects Funds. This the school district's financial resources fund. It accounts for the acquisition, construction, maintenance and insurance of major facilities.

The school district does not have any nonmajor governmental funds.

The school district reports the following fiduciary fund types:

Agency Fund. This fund accounts for assets held by the school district in a custodial capacity as an agent on behalf of others. The school district's agency fund is used to account for various deposits of the student activity funds.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the school district gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Under the terms of grant agreements, the school district funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the school district's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the school district considers revenues to be available if they are collected within 60 days after year end. All revenues are considered to be susceptible to accrual.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recorded as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the school district's policy is to pay the expenditure from restricted fund balance and then from less-restrictive classifications - committed, assigned and then unassigned fund balances. The school district has not established a policy for its use of unrestricted fund balance amounts. As such, it considers committed amounts to be reduced first, followed by assigned amounts, and then by unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

D. Budgets

Based upon available financial information and requests by the school board, the superintendent and business manager prepare the school district budget. The budget is prepared for the general fund on the modified accrual basis of accounting. The budget includes the proposed expenditures and the means of financing them. The school district does not prepare a budget for the special revenue or capital projects funds, as state law does not require a budget for those funds. Since budgets were not prepared, the statements comparing budget and actual results could not be prepared. All annual appropriations lapse at year-end.

School district taxes must be levied by the governing board on or before the fifteenth day of August. The taxes levied must be certified to the county by August 25. The governing body of the school district may amend its tax levy and budget of the current fiscal year on or before the tenth day of October of each year, but the certification must be filed with the county auditor by October 10. The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared.

E. Cash, Cash Equivalents and Investments

Cash and cash equivalents includes amounts in demand deposits, money market accounts and commercial paper. These amounts must be deposited with the Bank of North Dakota or in a financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the uninsured balance.

State statutes authorize the school district to invest in:

- a. Bonds, treasury bills and notes, or other securities that are a direct obligation of, or an obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of Congress.
- b. Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above.
- c. Certificates of Deposit fully insured by the Federal Deposit Insurance Corporation or by the state.
- d. Obligations of the state.

F. Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

All other interfund transactions, except reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

In the government-wide financial statements, interfund transactions have been eliminated.

G. Capital Assets

Capital assets include plant and equipment, and are reported in the government-wide financial statements. Capital assets are defined by the school district as assets with an initial, individual cost of \$5,000 or more. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is not capitalized.

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Buildings	7	to	30	years
Equipment	8	to	25	years
Vehicles	3	to	15	years
Improvements	20	to	30	years

H. Noncurrent Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums or discounts are capitalized and amortized over the term of the related obligation. Bond issuance costs are recorded as expenditures when paid.

Long-Term Debt

In the governmental fund financial statements, the face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Fund for Retirement (TFFR) and the North Dakota Public Employees Retirement System (NDPERS), and additions to/deductions from TFFR's and NDPERS' fiduciary net position have been determined on the same basis as they are reported by TFFR and NDPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post Employment Benefit (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

I. Fund Equity

Governmental funds utilize a fund balance presentation for equity. Fund balance is categorized as non-spendable, restricted, committed, assigned or unassigned.

Non-spendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaids) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts with external constraints placed on the use of these resources (such as debt covenants, grantors, other governments, etc.) or imposed by enabling legislation.

Committed Fund Balance - represents amounts that can only be used for specific purposes imposed by a formal action of the school district's highest level of decision-making authority, the school board. Committed resources cannot be used for any other purpose unless the school board removes or changes the specified use by the same type of action previously used to commit those amounts, either by resolution or by ordinance.

Assigned Fund Balance - represents amounts the school district intends to use for specific purposes as expressed by the school board or an official delegated the authority to assign amounts. This is the residual classification for all governmental funds other than the general fund. As of June 30, 2018, the school board has not granted any official the right to assign amounts to a specific purpose.

J. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

K. New Accounting Pronouncements

As of July 1, 2017, the school district adopted GASB No 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. The implementation of this standard requires governments to calculate and report the costs and obligations associated with postemployment benefits other than pensions in their basic financial statements. Employers are required to recognize the entire OPEB liability and a more comprehensive measure of OPEB expense. The effect of the implementation of these standards on beginning net position is disclosed in Note 18 and the additional disclosures required by these standards are included in Note 16 and supplemental schedules.

NOTE 2: CASH AND CASH EQUIVALENTS

The school district's deposits at year-end were entirely covered by federal depository insurance or by collateral held by the school district's agent in the school district's name.

Restricted Cash Equivalents:

Under the terms of the Series 2012 Lease Revenue Bonds, separate accounts must be maintained related to construction, escrow of Impact Aid funds, and a reserve. These accounts consist of cash equivalents and are maintained at U.S. Bank, National Association (the trustee). Balances restricted for debt service (includes the construction and escrow accounts) totaled \$45,439.33 and the balance restricted for the reserve (as discussed in Note 13) was \$232,210.56 at June 30, 2018. The amount restricted for the reserve was classified as noncurrent, as it is not expected to be used within one year.

Interest rate risk:

In accordance with its investment policy, the school district invests its operating funds primarily in short term certificates of deposit and limits the average maturity in accordance with the school district's cash requirements and to manage exposure to fair value losses arising from interest rate changes.

Credit risk:

State statutes limit the school district's investment choices as listed in Note 1-E.

Custodial credit risk:

Statutes require the market value of collateral pledged must equal 110% of the deposits not covered by insurance or bonds. During the year audited, school deposits were adequately protected by insurance or collateral.

NOTE 3: TAXES RECEIVABLE

The taxes receivable represents the past three years of uncollected current and delinquent taxes. No allowance has been established for uncollectible taxes receivable.

The county treasurer acts as an agent to collect property taxes levied in the county for all taxing authorities. Any material tax collections are distributed after the end of each month.

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments and the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Most property owners choose to pay property taxes and special assessments in a single payment on or before February 15 and receive the discount on the property taxes.

NOTE 4: PREPAID SALARIES AND BENEFITS

Prepaid salaries and benefits consists of amounts paid for employee benefits for services rendered after June 30, 2018.

NOTE 5: DUE FROM LOCAL SOURCES

The amount due from local sources consists of the cash on hand for taxes collected but not remitted to the school district at June 30, as well as amounts due from Peace Garden Special Services.

NOTE 6: DUE FROM STATE GOVERNMENT

The amount due from state government consists of the final reimbursement claims for vocational education.

NOTE 7: DUE FROM FEDERAL GOVERNMENT

The amount due from federal government consists of the final reimbursement claims for Title I, Title I Program Improvement, Title II Part A, Title VI, Title VII and the $21^{\rm st}$ Century Community Learning Centers for the general fund.

NOTE 8: CAPITAL ASSETS

The following is a summary of changes in capital assets for the year ended June 30, 2018:

Governmental Activities:		Balance 7/1/2017		Increases		Deletions		Balance 6/30/2018
Capital Assets Being Depreciated:								
Buildings	\$	10,476,451.79	\$	-	\$	-	\$	
Equipment		1,387,281.32		8,352.10		-		1,395,633.42
Vehicles	-	845,712.00	_	198,080.72	_			1,043,792.72
Total Capital Assets	_	12,709,445.11		206,432.82		-	_	12,915,877.93
Less Accumulated								
Depreciation For:				0511 1042 104				5 007 450 10
Buildings		4,773,419.77		324,032.42		-		5,097,452.19
Equipment		1,276,443.58		19,124.99		-		1,295,568.57
Vehicles		595,846.22		65,944.64	_	-	_	661,790.86
Total Accumulated Depreciation		6,645,709.57		409,102.05		-		7,054,811.62
Total Capital Assets, Net	\$	6,063,735.54	\$	(202,669.23)	\$	-	\$	5,861,066.31

Depreciation expense was charged to functions/programs of the school district as follows:

Governmental Activities:		
Regular Programs	\$	324,688.51
Vocational Education		7,574.07
Operations and Maintenance		5,128.13
Transportation		65,944.65
Student Activities		5,766.69
Total Depreciation-	·	
Governmental Activities	\$	409,102.05

NOTE 9: ACCOUNTS PAYABLE

Accounts payable consists of amounts owed for goods and services received prior to June 30 and chargeable to the appropriations for the year then ended, but paid subsequent to that date.

NOTE 10: DUE FROM AGENCY FUND

The amount due from the agency fund consists of amounts due to the general fund from the Carl Perkins Consortium.

NOTE 11: DUE TO OTHER FUNDS

The amount due to other funds is the amount the general fund owes the capital projects fund for impact aid money for construction purposes.

NOTE 12: DEFERRED INFLOWS OF AND OUTFLOWS RESOURCES

Like revenues and expenses, deferrals represent flows of resources into and out of a government during the fiscal year. However, unlike revenues and expenses, which are inflows and outflows of resources related to the period in which they occur, deferrals are related to future periods.

Deferred inflows and outflows on the school district's statement of net position are related to the determination of the school district's net pension and OPEB liability and pension and OPEB expense, as detailed in Note 15 and 16.

Deferred inflows of resources on the fund financial statements consist of amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting such amounts are measurable but not available. The school district's only deferred inflow of financial resources on its fund financial statements is uncollected property taxes, which are not expected to be collected within the allotted 60 day time period after year end in order to qualify as available under the school district's policy.

NOTE 13: NONCURRENT LIABILITIES

The following is a summary of changes in the general long-term debt account group for the year ended June 30, 2018:

		Balance 7/1/2017	Increases	Deletions	Balance 6/30/2018
Bonds Payable Capital Leases	\$	2,738,245.73 154,102.02	\$ -	\$ 155,650.61 60,215.74	\$ 2,582,595.12 93,886.28
	. \$	2,892,347.75	\$ _	\$ 215,866.35	\$ 2,676,481.40

Outstanding debt at June 30, 2018 consists of the following issues:

Bonds Payable
\$200,000.00 general obligation building fund
levy bond of 2001, due in annual installments
of \$11,083.06, including interest, through
June 1, 2021; interest at 1%.

\$ 32,595.12

\$3,320,000.00 lease revenue bonds, series 2012, due in annual installments ranging from \$164,551.11 to \$234,437.50, including interest, through May 1, 2032; interest ranges from 2% to 3.5% and is paid semi-annually. Certain federal Impact Aid funds to be received by the school district have been pledged and assigned to secure the payment of principal and interest. See below for more detail.

2,550,000.00

Total Current Portion 2,582,595.12 (160,757.11)

Net Long-Term Portion

\$2,421,838.01

Lease Revenue Bonds, Series 2012:

The net proceeds of the 2012 Lease Revenue Bonds included a premium of \$21,311.35. During the current year, \$1,065.57 of the premium was amortized against interest expense in the Statement of Activities, resulting in an unamortized premium of \$14,917.93. Additionally, the 2012 Bonds' terms mandate the establishment of a reserve fund with a balance equal to the least of (i) 10% of the aggregate principal amount of the 2012 Bonds, (ii) 125% of the average annual principal and interest due on the 2012 Bonds, or (iii) 100% of the maximum annual debt service on the 2012 Bonds. Refer to Note 2 for further discussion with respect to restricted cash under the terms of the 2012 Bonds.

Capital Leases \$73,700.00 capital lease entered into October 30, 2014, due in monthly installments of \$1,805.00, including interest at 3.35%, through June 15, 2019. \$ 15,851.25 \$84,775.00 capital lease entered into July 17, 2015, due in 45 monthly installments of \$2,099.00, including interest at 3.35%, through May 15, 2020. 34,466.88 \$68,375.00 capital lease entered into August 19, 2016, due in 60 monthly installments of \$1,244.00, including interest at 3.50%, through July 19, 2021. 43,568.15 93,886.28 Total (47,408.55)Current Portion 46,477.73 Net Long-Term Portion

The following is an analysis of the leased property under capital leases by major classes. The assets are being depreciated over their estimated useful lives, as discussed in Note 1.

	June 30,
Asset Class	2018
Vehicles	\$ 226,850.00
Accumulated	
Depreciation	 (82, 392.85)
	\$ 144,457.15

The annual requirements to amortize the long-term debt (including the bonds payable and capital leases) are as follows:

June 30		Principal		Interest	Total
2019	\$	208,165.66	\$	86,878.92	\$ 295,044.58
2020		196,495.89		80,824.08	277,319.97
2021		180,579.10		75,219.46	255,798.56
2022		161,240.75		70,141.12	231,381.87
2023		165,000.00		65,337.50	230,337.50
2024-2028		915,000.00		242,512.50	1,157,512.50
2029-2032	-	850,000.00		75,775.00	 925,775.00
Totals	S	2,676,481.40	s	696,688.58	\$ 3,373,169.98

The school district is in compliance with all bond and debt covenants.

NOTE 14: FUND BALANCE

Fund balance as of June 30, 2018 is as follows:

		General	Special Revenue	Capital Projects		Total
Fund Balances: Restricted:						
Debt Service	s	277,649.89	\$ 180	\$ -	\$	277,649.89

NOTE 15 PENSION PLANS

The school district has two employee pension plans, the North Dakota Teachers' Fund for Retirement (TFFR) and the North Dakota Public Employees Retirement System (NDPERS).

North Dakota Teachers' Fund for Retirement

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

North Dakota Public Employees Retirement System (Main System)

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system; one member elected by the retired public employees; and two members of the legislative assembly appointed by the chairman of the legislative management.

Pension Benefits

Benefits are set by statute. NDPERS has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Member of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition of disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of salaries and wages. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25 and the maximum may not exceed the following:

- * 1 to 12 months of service Greater of one percent of monthly salary or \$25
- * 13 to 24 months of service Greater of two percent of monthly salary or \$25
- * 25 to 36 months of service Greater of three percent of monthly salary or \$25
- * Longer than 36 months of service Greater of four percent of monthly salary or \$25

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (All Plans)

At June 30, 2018, the school district reported a total liability of \$6,554,970.00 (\$5,324,528.00 for its proportionate share of TFFR's net pension liability and \$1,230,442.00 for its proportionate share of NDPERS' net pension liability). The net pension liabilities for both plans were measured as of July 1, 2017, and the total pension liability used to calculate the net pension liability for each plan was determined by an actuarial valuation as of that date.

For TFFR, the school district's proportion of the net pension liability was based on the school district's share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At July 1, 2017, the school district's proportion related to TFFR was 0.387650 percent, which was an increase of 0.004100 percent from its proportion measured as of July 1, 2016.

Related to NDPERS, the school district's proportion of the net pension liability was based on the school district's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating NDPERS Main System employers. At July 1, 2017, the school district's proportion related to NDPERS was 0.076552 percent, which was an increase of 0.006098 percent from its proportion measured as of July 1, 2016.

For the year ended June 30, 2018 the school district recognized total pension expense of \$704,726.00, (\$503,912.00 related to TFFR and \$200,814.00 related to NDPERS). At June 30, 2018 the school district reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	TFF	R	NDP	ERS	TOTA	AL .
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Diffences between expected and actual experience Changes of assumption Net difference between	\$ 20,423.00 379,512.00	\$ 58,125.00	\$ 7,314.00 504,564.00	\$ 5,995.00 27,752.00	\$ 27,737.00 884,076.00	\$ 64,120.00 27,752.00
projected and actual earnings on pension plan investments Changes in proportion and differences between	73,547.00		16,548.00		90,095.00	- 4
district contributions and proportionate share of contributions District contributions	66,385.00	94,793.00	101,475.00	31,376.00	167,860.00	126,169.00
subsequent to the measurement date Total	337,027.12 \$ 876,894.12	\$ 152,918.00	\$ 685,976.74	\$ 65,123.00	393,102.86 \$ 1,562,870.86	\$ 218,041.00

\$393,102.86 (\$337,027.12 from TFFR and \$56,075.74 from NDPERS) reported as deferred outflows of resources related to pensions resulting from the school district's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	TFFR	NDPERS	TOTAL
Year Ended June 30:			
2017	\$ 83,266.00	\$ 121,830.00	\$ 205,096.00
2018	198,627.00	144,537.00	343,164.00
2019	126,399.00	127,537.00	253,936.00
2020	(315.00)	115,668.00	115,353.00
2021	(22,233.00)	55,206.00	32,973.00
Thereafter	1,207.00	4 <u>=</u> 1	1,207.00

Actuarial assumptions:

The total pension liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	TFFR	NDPERS
Inflation	2.75%	3.50%
Salary Increases	4.25% to 14.50%, varying by service,	See Below
erole is discounted.	including inflation and productivity	
Investment rate of return	7.75%, net of investment expenses	7.75%, net of investment expenses
Cost-of-living adjustments	None	None

*Age-based salary increase rates apply for employees with three or more years of service

TFFR specific actuarial assumptions:

For active and inactive members, mortality rates were based on the RP-2014 Employee Mortality Table, projected generationally using Scale MP-2014. For healthy retirees, mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table set back one year, multiplied by 50% for ages under 75 and grading up to 100% by age 80, projected generationally using Scale MP-2014. For disabled retirees, mortality rates were based on the RP-2014 Disabled Mortality Table set forward four years.

The actuarial assumptions used were based on the results of an actuarial experience study dated April 30, 2015. They are the same as the assumptions used in the July 1, 2017, funding actuarial valuation for TFFR.

As a result of the April 30, 2015 actuarial experience study, the TFFR Board adopted several assumption changes, including the following:

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equities	58%	6.7%
Global Fixed Income	23%	0.8%
Global Real Assets	18%	5.2%
Cash Equivalents	1%	0.0%

Discount rate. The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2017 Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2017. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2017.

NDPERS specific actuarial assumptions:

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Retiree Mortality Table set back one year for males (no setback for females) multiplied by 125%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31%	6.05%
International Equity	21%	6.70%
Private Equity	5%	10.20%
Domestic Fixed Income	17%	1.43%
International Fixed Income	5%	-0.45%
Global Real Assets	20%	5.16%
Cash Equivalents	1%	0.00%

Discount rate. For NDPERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, which is the case for the NDPERS plan, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

The pension plan's fiduciary net position was projected to be sufficient to make all projected future benefit payments through the year of 2061. Therefore, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2061, and the municipal bond rate was applied to all benefit payments after that date. For the purpose of this valuation, the expected rate of return on pension plan investments is 7.75%; the municipal bond rate is 3.56%; and the resulting Single Discount Rate is 6.44%.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate (All Plans)

The following presents the school district's proportionate share of the net pension liability calculated using the current discount rates for TFFR and NDPERS, as well as what the school district's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	District's Pro	portic	nate Share of Net	Pens:	ion Liability
			Current Discount		
	1% Decrease (6.75	용)	Rate (7.75%)	1%	Increase (8.75%)
TFFR	\$ 7,079,054.	00 \$	5,324,528.00	\$	3,863,937.00
	1% Decrease (5.44	용)	Rate (6.44%)	1%	Increase (7.44%)
NDPERS	\$ 1,670,362.	00 \$	1,230,442.00	\$	864,446.00

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued TFFR and NDPERS financial reports.

TFFR's Comprehensive Annual Financial Report (CAFR) is located at www.nd.gov/rio/sib/publications/cafr/default.htm.

NOTE 16: Other Post Employment Benefits (OPEB)

North Dakota Public Employees Retirement System

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDAC Chapter 71-06 for more complete information.

NDPERS OPEB plan is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits from the PERS, the HPRS, and Judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

OPEB Benefits

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. The employer contribution for employees of the state board of career and technical education is 2.99% of covered compensation for a period of eight years ending October 1, 2015. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "prefunded credit applied" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

Retiree health insurance credit benefits and death and disability benefits are set by statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the PERS, the HPRS, the Defined Contribution Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving a surviving spouse benefit or if the member selected a joint and survivor option are eligible to receive a credit toward their monthly health insurance premium under the state health plan.

Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. The benefits are equal to \$5.00 for each of the employee's, or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health insurance credit is also available for early retirement with reduced benefits.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the school district reported a liability of \$57,139.00 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of July 1, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The school district's proportion of the net OPEB liability was based on the school district's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At July 1, 2017 the school district's proportion was 0.072235 percent.

For the year ended June 30, 2018, the school district recognized OPEB expense of \$6,843.00. At June 30, 2018, the school district reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		OPE	В		
	Ou	Deferred tflows of esources	Ir	Deferred nflows of esources	
Differences between expected and actual	200				
experience	\$	6 7. 400 - 10 (1997) / 1993	\$	1,394.00	
Changes of assumption		5,534.00		_	
Net difference between					
projected and actual					
earnings on OPEB					
plan investments		-		2,160.00	
Changes in proportion and differences between district contributions					
and proportionate				283.00	
share of contributions		:		283.00	
District contributions					
subsequent to the					
measurement date		8,978.43			
Total	\$	14,512.43	\$	3,837.00	

\$8,978.43 reported as deferred outflows of resources related to OPEB resulting from school district contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

	OPEB
Year Ended June 30:	
2018	\$ 64.00
2019	64.00
2020	64.00
2021	64.00
2022	604.00
Thereafter	837.00

Actuarial assumptions:

The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	OPEB
Inflation	2.50%
Salary Increases	Not applicable
Investment rate of return	7.50%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table set back one year for males (no setback for females) multiplied by 125%.

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of RHIC investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap Domestic Equities	37%	5.80%
Small Cap Domestic Equities	9%	7.05%
International Equities	14%	6.20%
Core-Plus Fixed Income	40%	1.56%

Discount rate. The discount rate used to measure the total OPEB liability was 7.75%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2017, and July 1, 2016, HPRS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the school district's proportionate share of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability of the Plans as of June 30, 2017, calculated using the discount rate of 7.50%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

			C	Current Discount		
	1% Dec	rease (6.50%)		Rate (7.50%)	1%	Increase (8.50%)
OPEB	\$	71,531.00	\$	57,139.00	\$	44,802.00

NOTE 17: RISK MANAGEMENT

The St. John Public School District No. 3 is exposed to various risks of loss relating to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, state agencies and political subdivisions of the state of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDIRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The St. John Public School District No. 3 pays an annual premium to NDIRF for its general liability and automobile insurance coverage. The coverage by NDIRF is limited to losses of two million dollars per occurrence for general liability and automobile.

The St. John Public School District No. 3 also participates in the North Dakota Fire and Tornado Fund and the State Bonding Fund. The St. John Public School District No. 3 pays an annual premium to the Fire and Tornado Fund to cover property damage to buildings and personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The Fire and Tornado Fund is reinsured by a third party insurance carrier for losses in excess of one million dollars per occurrence during a 12-month period. The State Bonding Fund currently provides the political subdivision with blanket fidelity bond coverage in the amount of \$2,000,000.00 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

The St. John Public School District No. 3 has insurance with North Dakota Workforce Safety and Insurance and purchases commercial insurance for employee health and accident insurance.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 18: RESTATEMENT DUE TO ADOPTION OF ACCOUNTING STANDARDS

As of July 1, 2017, the school district adopted GASB No 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. The implementation of these standards requires governments to calculate and report the costs and obligations associated with postretirement benefits other than pensions in their financial statements, including additional note disclosure and required supplementary information. Beginning net position was restated to retroactively report the beginning net OPEB liability and deferred outflows of resources related to contributions made after the measurement date as follows:

Net Position at June 30, 2017, as previously reported	\$ 1,103,339.14
Net Other Post Employment Benefits (OPEB) liability at June 30, 2017 Deferred Outflows of Resource related to contributions made	(56,929.00)
during the year ending June 30, 2017	12,948.49
Net Position at July 1, 2017, as restated	\$ 1,059,358.63

*Measurement date of June 30, 2017

NOTE 19: EXCESS OF ACTUAL EXPENDITURES OVER BUDGET

Expenditures exceeded budget in the general fund by \$343,037.46 for June 30, 2018. No remedial action is anticipated or required by the school district regarding these excess expenditures.

NOTE 20: SUBSEQUENT EVENTS

The school district has evaluated subsequent events through December 14, 2018, the date which the financial statements were available to be issued.

BUDGETARY COMPARISON SCHEDULE GENERAL FUND For the Year Ended June 30, 2018

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended June 30, 2018

NOTE 1: BUDGETARY COMPARISON SCHEDULE

Basis of Accounting:

Based upon available financial information and requests by the school board, the business manager prepares the school district budget. The budget is prepared for the general fund on the modified accrual basis of accounting. The budget includes the proposed expenditures and the means of financing them. The school district does not prepare a budget for the special revenue fund or capital projects fund, as state law does not require a budget for those funds. Since a budget was not prepared, the statement comparing budget and actual results could not be prepared. All annual appropriations lapse at year-end.

Relevant Dates:

School district taxes must be levied by the governing board on or before the fifteenth day of August. The taxes levied must be certified to the county auditor by August 25. The governing body of the school district may amend its tax levy and budget of the current fiscal year on or before the tenth day of October of each year, but the certification must be filed with the county auditor by October 10. The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared.

NOTE 2: AMENDED BUDGET

The governing board amended the budget for 2018 as follows:

	Original Budget	Amendments	Amended Budget	
Revenues	\$6,040,953.52	\$307,705.13	\$6,348,658.65	
Expenditures	\$6,040,953.81	(\$ 30,228.81)	\$6,010,725.00	

NOTE 3: EXCESS ACTUAL EXPENDITURES OVER BUDGET

Expenditures exceeded budget by \$343,037.46 in the general fund for the year ended June 30, 2018. No remedial action is anticipated or required by the school district regarding these excess expenditures.

NOTE 4: PENSION PLANS

TFFR Changes of Assumptions. Amounts related to TFFR reported in 2016 and later reflect the following actuarial assumption changes based on the results of an actuarial experience study dated April 30, 2015.

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

NDPERS Changes of Assumptions. Amounts related to NDPERS reported in 2018 reflect actuarial assumption changes effective July 1, 2017 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

NOTE 5: OTHER POST EMPLOYMENT BENEFITS (OPEB)

Changes of Assumptions. Amounts reported in 2018 reflect actuarial assumption changes effective July 1, 2017 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2018

NOTE 1: BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of St. John Public School District No. 3, St. John, North Dakota under programs of the federal government for the year ended June 30, 2018. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Because the schedule presents only a selected portion of the operations of the school district, it is not intended to and does not present the financial position or changes in net position of the school district.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on this schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. CFR Part 225, Cost Principles for State, Local and Indian Tribe Governments, wherein certain types of expenditures are allowable or are limited as to reimbursement.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Governing Board

St. John Public School District

St. John, North Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of St. John Public School District, St. John, North Dakota, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise St. John Public School District, St. John, North Dakota's basic financial statements and have issued our report thereon dated December 14, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered St. John Public School District, St. John, North Dakota's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of St. John Public School District, St. John, North Dakota's internal control. Accordingly, we do not express an opinion on the effectiveness of St. John Public School District, St. John, North Dakota's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies, or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a deficiency in internal control over financial reporting that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs, item 18-1, to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether St. John Public School District, St. John, North Dakota's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

St. John Public School District, St. John, North Dakota's Response to Findings

St. John Public School District, St. John, North Dakota's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. St. John Public School District, St. John, North Dakota's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 14, 2018

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Governing Board St. John Public School District St. John, North Dakota

Report on Compliance for Each Major Federal Program

We have audited St. John Public School District, St. John, North Dakota's compliance with the types of compliance requirements described in the OMB Circular Compliance Supplement that could have a direct and material effect on each of St. John Public School District, St. John, North Dakota's major federal programs for the year ended June 30, 2018. St. John Public School District, St. John, North Dakota's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of St. John Public School District, St. John, North Dakota's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about St. John Public School District, St. John, North Dakota's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of St. John Public School District, St. John, North Dakota's compliance.

Opinion on Each Major Federal Program

In our opinion, St. John Public School District, St. John, North Dakota, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of St. John Public School District, St. John, North Dakota, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered St. John Public School District, St. John, North Dakota's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of St. John Public School District, St. John, North Dakota's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 18-1 to be a significant deficiency.

St. John Public School District's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. St. John Public School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

December 14, 2018

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Year Ended June 30, 2018

SUMMARY OF AUDIT RESULTS

- The auditor's report expresses an unmodified opinion on the general purpose financial statements of St. John Public School District No. 3, St. John, North Dakota.
- 2. A deficiency disclosed during the audit of the financial statements is reported in the Report on Internal Control Over Financial Reporting and on Compliance and other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards. The deficiency is reported as a material weakness.
- 3. No instances of noncompliance material to the financial statements of St. John Public School District No. 3, St. John, North Dakota were disclosed during the audit.
- 4. One significant deficiency in internal control over major programs is reported in the Independent Auditor's Report on Compliance Each Major Program and on Internal Control over Compliance required by the Uniform Guidance. The deficiency is not reported as a material weakness.
- 5. The auditor's report on compliance for the major federal award programs for St. John Public School District No. 3, St. John, North Dakota expresses an unmodified opinion on all major federal programs.
- 6. Any audit findings that are required to be reported in accordance with Uniform Guidance-2CFR 200.516(a) for St. John Public School District No. 3, St. John, North Dakota are reported in this schedule.
- The programs tested as major programs are: Impact Aid (CFDA Number 84.041B) and the Title I Grants to Local Educational Agencies (CFDA Number 84.010).
- 8. The threshold for distinguishing Type A and B programs was \$750,000.00.
- 9. St. John Public School District No. 3, St. John, North Dakota was not determined to be a low-risk auditee.

FINDINGS-FINANCIAL STATEMENT AUDIT

MATERIAL WEAKNESS

18-1 Segregation of Duties

Condition:

St. John Public School District No. 3, St. John, North Dakota, has one business manager responsible for most accounting functions.

Criteria:

There should be sufficient accounting personnel so duties of employees are segregated. The segregation of duties would provide better control over the assets of the District.

Effect:

There is no segregation of duties as one employee is responsible to collect monies, deposit monies, issue checks, send checks to vendors, record receipts and disbursements in journals, maintain the general ledger, and prepare financial statements. This increases the risk of misstatement of the District's financial condition.

Recommendation:

Due to the size of the District, it is not feasible to obtain proper separation of duties and no recommendation will be made.

Client Response:

At the present time the St. John Public School District No. 3 has segregated the accounting duties in the most effective manner possible, given its limited staff. Due to cost constraints, there will be no further administrative employees added.

FINDINGS AND QUESTIONED COSTS-MAJOR FEDERAL AWARD PROGRAMS AUDIT

SIGNIFICANT DEFICIENCY

The deficiency described above as Finding 18-1 is a significant deficiency, although not a material weakness, in internal control over major federal programs.
