INDEPENDENT AUDITOR'S REPORT

To the President and Board Members
Rugby Public School District No. 5
Rugby, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the Rugby Public School District No. 5, which comprise the governmental activities, each major fund, and the remaining fund information as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the remaining fund information of the Rugby Public School District No. 5, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information for the general fund and food service fund, schedule of District's contributions to the TFFR and NDPERS pension plans, schedule of District's contributions to the NDPERS OPEB plan, schedule of District's proportionate share of net pension liability and schedule of District's proportionate share of net OPEB liability as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The roster of school officials and budgetary comparison information for the capital projects fund and debt service fund listed in the table of contents as supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison schedule of the capital projects fund and the debt service fund are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the budgetary comparison schedule of the capital projects fund and the debt service fund are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The roster of school officials on page 1 has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

November 8, 2019

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE YEAR ENDED JUNE 30, 2019

The discussion and analysis of Rugby Public School District's financial performance provides an overall review of the District's financial activities for the year ended June 30, 2019. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the basic financial statements and related notes to enhance their understanding of the District's financial performance.

▪ **Financial Highlights**

Key financial highlights for the 2018-2019 fiscal years are as follows:

- Net position of the District increased \$404,263 over the prior year.
- Governmental net position totaled \$2,731,899.
- Total revenues from all sources at the fund level were \$9,406,337.
- Total expenses at the fund level were \$8,613,114.
- The District's general fund had \$7,611,925 total revenues, \$7,521,931 in expenditures and \$24,208 in transfers out. Overall, the general fund balance increased by \$65,786 for the year ended June 30, 2019, compared to an increase of \$76,840 in the previous year.

▪ **Using this Annual Report**

This annual report consists of a series of financial statements and related footnotes. These statements are organized so the reader can understand Rugby Public School District No. 5 as a financial whole. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term, as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column.

▪ **Reporting the School District as a Whole**

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did the District do financially during the year ended June 30, 2019?" The Statement of Net Position and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) - CONTINUED
FOR THE YEAR ENDED JUNE 30, 2019

District's property tax base, current property tax laws in North Dakota, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

▪ **Reporting the School District's Most Significant Funds**

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General Fund, Food Service Fund, Capital Projects Fund and Debt Service Fund.

Governmental Funds

The District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

▪ **Financial Analysis of the District as a Whole**

Recall that the Statement of Net Position provides the perspective of the District as a whole.

Table 1 provides a summary of the District's net position as of June 30, 2019 and 2018.

As indicated in the financial highlights, the District's net position increased by \$404,263. Long term liabilities decreased by \$348,780 for the year ended June 30, 2019 primarily due to scheduled debt payments. Net position may serve over time as a useful indicator of the District's financial position.

The District's net position of \$2,731,899 is segregated into three separate categories. Net investment in capital assets represents 97% of the District's entire net position. It should be noted that these assets are not available for future spending. Restricted net position represents 174% of the District's net position. Restricted net position represents resources that are subject to external restrictions on how they must be spent. The remaining unrestricted net position represents (172%) of the District's net position. The unrestricted net position is available to meet the District's ongoing obligations.

Business support services and administration include expenses associated with administrative and financial supervision of the District.

Instructional support services include the activities involved with assisting staff with the content and process of teaching to pupils.

Operation and maintenance of plant activities involve maintaining the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil.

Special education includes costs that support the education of students with other needs.

Vocational education includes expenditures that support the teaching of vocational type instruction.

Extracurricular activities include expenses related to student activities provided by the District, which are designed to provide opportunities for pupils to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Food Services include expenses directly dealing with providing breakfast and lunch service to students and staff of the District.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) - CONTINUED
FOR THE YEAR ENDED JUNE 30, 2019

Interest on long-term debt involves the transactions associated with the payment of interest and other related charges to debt of the District.

Financial Analysis of the District's Governmental Funds

The focus of the District's governmental funds is to provide information on the near-term inflows, outflows, and balances of available resources. Unassigned fund balance generally may be used as a measure of the District's net resources available for spending at the end of the fiscal year. These funds are accounted for using the modified accrual basis of accounting. The District's governmental funds had total revenues of \$9,406,337 and \$8,779,591 and expenditures of \$8,613,114 and \$8,183,791 for the years ended June 30, 2019 and 2018, respectively. As of June 30, 2019 and 2018, the unassigned fund balance of the District's general fund was \$1,992,029 and \$1,926,243 and total fund balance for all the District's governmental funds were \$6,759,796 and \$5,966,573, respectively.

General Fund Budgeting Highlights

Over the course of the year, the District did not revise the annual operating budget.

Actual revenues were \$158,262 lower than expected and actual expenditures were \$124,044 under the budget in the general fund primarily due to lower property tax revenues than expected and lower regular instruction expenditures than expected.

Capital Assets

As of June 30, 2019 and 2018, the District had \$10,100,902 and \$10,424,614, respectively, invested in net capital assets. Table 4 shows capital asset balances as of June 30, 2019 and 2018. See Note 4 for details.

FOR THE YEAR ENDED JUNE 30, 2019

Outstanding Debt

As of June 30, 2019 and 2018, the District had \$15,180,303 in outstanding debt. The District decreased its overall debt by \$326,011 from June 30, 2018. See below and Note 5 for a description of the District's debt.

	Balance at Beginning of Year	Increase	Decrease	Balance at End of Year	Due Within One Year
Qualified School Construction

	<u>\$ 15,506,314</u>	<u>\$ 2,213,379</u>	<u>\$ 2,539,390</u>	<u>\$ 15,180,303</u>	<u>\$ 174,038</u>

For the Future

The District's revenue is highly dependent on student enrollment. The level of the State's per pupil rate is unknown for the future. Without an increase to the rate, the District could deficit spend to offset increases in salaries and student needs; however, if enrollment increases, the District could maintain a balanced budget. Renovations to the Elementary School are being investigated due to the lack of space and the increasing enrollment in the elementary grades. In addition, the District's Building Fund may be used for improvements that are needed at the high school athletic complex.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. You may request a copy of this report by contacting Dawn Hauck, Business Manager, Rugby Public School District, 1123 South Main Ave, Rugby, ND 58368, or email at dawn.hauck@k12.nd.us

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2019

Net change in fund balances - total governmental funds: \$ 793,223

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital Outlay	\$ 51,020	
Depreciation Expense	<u>(374,732)</u>	(323,712)

Changes in deferred outflows and inflows of resources related to net pension liability (452,917)

Change in net OPEB liability 3,062

Change in net pension liability 221,106

Governmental funds report the effects of premiums, discounts, and similar items when debt is first issued. In contrast, these amounts are deferred and amortized in the Statement of Activities. This is the amount of current year amortization of bond discounts. (5,465)

Changes in special assessments 12,267

Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. These items consisted of the (increase)/decrease in:

Early Retirement		(24,308)
Compensated Absences		(5,651)

Some revenues will not be collected for several months after the District's fiscal year end. These revenues are not considered "available" revenues in the governmental funds. These consist of:

Net change in unavailable property taxes		59,764
--	--	--------

Repayment of long-term debt is reported as an expenditure in governmental funds. However, the repayment reduces long-term liabilities in the statement of net position. 125,000

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. Accrued interest decreased by \$1,894 1,894

Change in net position of governmental activities \$ 404,263

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS
AS OF JUNE 30, 2019

NOTE 1 DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Rugby Public School District No. 5 operates the public schools in the City of Rugby, North Dakota. The District's basic financial statements include the accounts of all of the District's operations.

Reporting entity - Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of an organization's governing body and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources. Component units may also include organizations that are fiscally dependent on the District. Fiscal dependence can include the District's approval of the budget, issuance of debt, and/or levying of taxes for the organization.

Based on the above criteria, there are no component units included in the District's reporting entity.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's financial statements are presented in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

Basis of Presentation

The District's basic financial statements consist of government-wide statements and fund financial statements.

Government-wide Financial Statements:

The government-wide financial statements consist of a Statement of Net Position and a Statement of Activities. These statements display information about the District as a whole.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end.

The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. The statement identifies the extent to which each governmental function is self-financing or drawing from the general revenues of the District. Direct expenses are expenses that are specifically associated with a service, program or department. The direct expenses are clearly identifiable to a particular function. Program revenues include charges to recipients for goods or services offered by the program, or grants and contributions that are restricted to meet the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District.

As a general rule, the effect of inter-fund activity has been eliminated from the district-wide statements.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

The government-wide financial statements do not include fiduciary funds or component units that are fiduciary in nature.

Fund Financial Statements:

In order to aid financial management and to demonstrate legal compliance, the District segregates transactions related to certain functions or activities in separate funds. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The focus of the governmental fund financial statements is on major funds. Each major fund is presented as a separate column in the fund financial statements. Nonmajor funds are aggregated and presented in a single column. The fiduciary fund is reported by type.

Fund Accounting

The District's funds consist of the following:

Governmental Funds:

Governmental funds are utilized to account for most of the District's governmental functions. The reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which the obligation will be paid. Fund balance represents the difference between the governmental fund assets, deferred outflows and inflows of resources, and liabilities. The District's major governmental funds are as follows:

General Fund:

This fund is the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund.

Food Service:

This fund accounts for the financial resources associated with the District's hot lunch program.

Capital Projects:

This fund accounts for the financial resources associated with the District's capital projects.

Debt Service:

This fund is used to account for the accumulation of resources that are restricted for the payment of principal and interest on long-term obligations of governmental funds.

Additionally, the District reports the following funds:

Fiduciary Funds:

The District's only fiduciary fund is an agency fund. The agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations. The District's agency fund consists of the following:

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Student Activity Fund:

This fund accounts for the financial transactions related to the District's student activity programs.

Measurement Focus and Basis of Accounting

Measurement Focus:

Government-wide Financial Statements:

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred inflows and outflows of resources, and liabilities associated with the operations of the District are included in the Statement of Net Position.

Fund Financial Statements:

The governmental funds are accounted for using a flow of current financial resources measurement focus. Under this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balance reports on the sources and uses of current financial resources.

The current financial resources measurement focus differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Due to these differences, the District's financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for government funds.

Basis of Accounting:

The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

Government-wide financial statements are prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The District's governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of its fiscal year. Expenditures are generally recorded as the related fund liability is incurred.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Revenues-Exchange and Non-Exchange Transactions:

Exchange transactions are transactions in which each party gives and receives essentially equal value. Under the accrual basis of accounting, revenue for exchange transactions is recorded when the exchange takes place. Under the modified accrual basis of accounting, revenue for exchange transactions is recorded when the resources are measurable and available.

Non-exchange transactions include transactions in which the District receives value without directly providing value in return. Non-exchange transactions include property taxes, grants, entitlements, and donations.

Under the accrual basis of accounting, property taxes are recorded as revenue in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recorded in the fiscal year in which all eligibility requirements have been satisfied. Under the modified accrual basis of accounting, revenue from non-exchange transactions must also be available before it is recorded in the financial records of the District.

Major revenue sources susceptible to accrual include: property taxes, intergovernmental revenues and investment income.

Unearned Revenues:

Unearned revenue arises when assets are recognized in the financial statements before the revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenues.

On the governmental fund financial statements, receivables that will not be collected during the availability period have been reported as unearned revenue.

Expenses and Expenditures:

Governmental funds accounting measurement focus is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recorded in the fiscal year in which the related fund liability is incurred. Under the accrual basis of accounting, expenses are recorded when incurred.

Budgets and Budgetary Accounting:

The District's board follows the procedures established by North Dakota law for the budgetary process. The governing body of each School District, annually on or before the last day of July, must levy taxes. The governing body of the School District may amend its tax levy and budget for the current fiscal year on or before the tenth day of October of each year. Taxes for School District purposes must be based upon an itemized budget statement which must show the complete expenditure by program of the District for the current fiscal year and the sources of the revenue from which it is to be financed. The School Board, in levying taxes, is limited by the amount necessary to be raised for the purpose of meeting the appropriations included in the school budget of the current fiscal year, and the sum necessary to be provided as an interim fund, together with a tax sufficient in amount to pay the interest on the bonded debt of the District and to provide a sinking fund to pay and discharge the principal thereon at maturity.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The administration prepares the District's budget. The budget includes proposed expenditures and the means of financing them. The budget is prepared on the modified accrual basis of accounting.
2. The Board reviews the budget, may make revisions, and adopts the final budget on or before August 10 of each year. The budget is then filed with the county auditor by August 25 of each year.
3. The budget may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared, except no amendment changing the taxes levied can be made after October 10 of each year. The budget amounts shown in the financial statements are the final authorized amounts.
4. All appropriations lapse at the close of the District's fiscal year. The balance of the appropriation reverts back to each respective fund and is available for future appropriation.

Cash and Cash Equivalents:

The District considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Investments:

Investments are certificates of deposit with maturities of more than three months and federal agency bonds. North Dakota state statute authorizes school districts to invest their surplus funds in: a) Bonds, treasury bills and notes, or other securities that are a direct obligation of, or an obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of Congress, b) Securities sold under agreements to repurchase, written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above, c) Certificates of deposit fully insured by the Federal Deposit Insurance Corporation of the state, d) Obligations of the state.

Fair Value Measurements:

The Organization accounts for all assets and liabilities that are being measured and reported on a fair value basis in accordance with GAAP. GAAP defines fair value, establishes a framework for measuring fair value and expands disclosure about fair value measurements.

When fair value measurements are required, various data is used in determining those values. This statement requires that assets and liabilities that are carried at fair value must be classified and disclosed in the following levels based on the nature of the data used.

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Capital Assets:

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported as assets in the fund financial statements. All capital assets are recorded at cost (or estimated historical cost). The assets are updated for additions and retirements during the District's fiscal year. The District has established a capitalization threshold of \$5,000. Donated fixed assets are recorded at their fair market values at the date received. The District does not have any infrastructure assets. Improvements that significantly extend the useful life of the asset are also capitalized.

The District's land is capitalized but is not depreciated. All the remaining capital assets are depreciated over their estimated useful lives on a straight-line basis. The District has established the following useful lives:

Land Improvements	15 to 20 years
Buildings	20 to 50 years
Equipment and Furniture	5 to 20 years
Vehicles	8 years

Accrued Liabilities and Long-Term Obligations:

All payables, accrued liabilities and long-term obligations are reported in the District's government wide financial statements. The District's governmental fund financials report only those obligations that will be paid from current financial resources.

Pensions:

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and Teachers' Fund for Retirement (TFFR), information about the fiduciary net position of NDPERS Other Postemployment Benefit Plan (OPEB) and additions to/deductions from NDPERS and TFFR's fiduciary net position and NDPERS OPEB fiduciary net position have been determined on the same basis as they are reported by NDPERS and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balance Classifications:

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable – consists of amounts that are not in spendable form, such as inventory and prepaid items. The District does not have any fund balance classified as nonspendable.

Restricted – consists of amounts related to externally imposed constraints established by creditors, grantors or contributors, or constraints imposed by state statutory provisions and administered by the North Dakota Department of Education.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Committed – consists of internally imposed constraints. These constraints are established by Resolution of the Board of Education. The District does not have any fund balance classified as committed.

Assigned – consists of internally imposed constraints. These constraints reflect the specific purpose for which it is the District's intended use. These constraints are established by the Board of Education and/or management.

Unassigned – is the residual classification for the general fund and also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, and then use unrestricted resources as they are needed.

When committed, assigned, or unassigned resources are available for use, it is the District's policy to use resources in the following order; 1) committed, 2) assigned, and 3) unassigned.

The District has classified the spendable fund balances as Restricted, Assigned, and Unassigned and considers each to have been spent when expenditures are incurred.

Net Position:

Net position represents the difference between assets, deferred inflows of resources, deferred outflows of resources, and liabilities. Net investment in capital assets consists of the remaining undepreciated cost of the asset less the outstanding debt, net of unamortized discounts, associated with the purchase or construction of the related asset. Net position is reported as restricted when external creditors, grantors, or other governmental organizations impose specific restrictions on the District. External restrictions may be imposed through state or local laws, and grant or contract provisions.

Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resource (expense/expenditure) until then. The District has two items reported on the statement of net position as *cost sharing defined benefit pension plan* and *cost sharing defined benefit OPEB plan*, which represents actuarial differences within the TFFR and NDPERS pension plans and NDPERS OPEB plan as well as contributions to the plan made after the measurement date.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue - delinquent taxes*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District also has two items reported on the statement of net position as *cost sharing defined benefit pension plan* and *cost sharing defined benefit OPEB plan*, which represents the actuarial differences within the NDPERS and TFFR pension plans and NDPERS OPEB plan.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Other Post-Employment Benefits (OPEB):

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Inter-fund Activity:

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Extraordinary and Special Items:

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the School Board and are either unusual in nature or infrequent in occurrence.

Estimates:

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Revenue Recognition - Property Taxes:

Taxes receivable consist of current and delinquent uncollected taxes at June 30, 2019.

Property taxes attach as an enforceable lien on property January 1. A five percent reduction is allowed if paid by February 15. Penalty and interest are added March 15 if the first half-of-the taxes have not been paid. Additional penalties are added October 15, if not paid. Taxes are collected by the county and usually remitted monthly to the School District.

Property tax revenue in the governmental funds is recognized in compliance with National Council of Government Accounting (NCGA) Interpretation 3, "Revenue Recognition - Property Taxes". This interpretation states that property tax revenue is recorded when it becomes available. Available means when due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Property tax revenue is recorded as revenue in the year the tax is levied in the government - wide financial statements. Property taxes are limited by state laws. All School District tax levies are in compliance with state laws.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Significant Group Concentrations of Credit Risk:

As of June 30, 2019, the District's receivables consist of amounts due from other governmental units within the State of North Dakota.

NOTE 3 CASH AND INVESTMENTS

Custodial Credit Risk - Deposits

In accordance with North Dakota laws, the District maintains deposits at a depository authorized by the School Board. The depository is a member of the Federal Reserve System.

North Dakota laws require that all public deposits be protected by insurance, surety bond or collateral. The market value of collateral pledged must equal at least 110 percent of the deposits not covered by insurance or bonds.

Authorized collateral includes the legal investments described below, as well as certain first mortgage notes, and certain other state or local government obligations. North Dakota laws require that securities pledged as collateral be held in safekeeping by the District treasurer or in a financial institution other than that furnishing the collateral.

At June 30, 2019, the carrying amount of the District's deposits was \$2,568,690 and the bank balance was \$2,619,341. The entire bank balance was covered by Federal Depository Insurance or by collateral held by the District's Agent in the District's name in amounts sufficient to meet North Dakota legal requirements.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

As of June 30, 2019, the District had the following investments and maturities:

	Fair Value Measurements Using						
	6/30/2019	Less than One Year	1-5 Years	6-10 Years	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level							
Debt Securities							
Federal National Mortgage Assn	\$ 566,941	\$ 102,189	\$ 464,752	\$ -	\$ -	\$ 566,941	\$ -
Federal Home Loan Bank	400,132	-	300,131	100,001	-	400,132	-

Debt and equity securities classified in Level 2 of the fair value hierarchy are valued using prices that are observable for the investment, either directly or indirectly. All investments are rated AAA by Moody's.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Credit Risk

The District may also invest idle funds as authorized by North Dakota laws, as follows:

- a. Bonds, treasury bills and notes, or other securities that are a direct obligation of, or an obligation insured or guaranteed by the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of Congress.
- b. Securities sold under agreements to repurchase, written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above.
- c. Certificates of Deposit fully insured by the Federal Deposit Insurance Corporation or the state.
- d. Obligations of the state.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer.

Custodial Credit Risk - Investments

The investments are not subject to the credit risk classifications as noted in paragraph 9 of GASB Statement 40.

NOTE 4 CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2019 was as follows:

	Balance 7/1/2018	Additions	Deductions	Balance 6/30/2019
Capital Assets Not Being Depreciated:				
Land	\$ 103,719	\$ 51,020	\$ -	\$ 154,739

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

In the governmental activities section of the Statement of Activities, depreciation was charged to expenses in the following governmental functions:

Depreciation	
Regular	\$ 348,934
General administration	2,032
Operations and maintenance	6,231
Pupil transportation	7,923
Extracurricular	3,380
Food services	3,822
Instructional	2,410
Total	\$ 374,732

NOTE 5 LONG-TERM DEBT OBLIGATIONS

As of June 30, 2019, long-term debt consists of special assessments, Qualified School Construction Bonds (QSCB), bonds issued to upgrade the District’s heating, ventilation, and air-conditioning systems (HVAC bonds), bonds issued to finance construction and repairs of public school buildings (2013 Bonds), net pension liability and net OPEB liability.

Special Assessments - The District is in the process of paying off several special assessments to the City of Rugby.

Qualified School Construction Bonds – These bonds are general obligations of the District for which the full faith and credit and unlimited taxing powers of the District are pledged. The proceeds of the bonds will be used for the purpose of financing the cost of construction, reconstruction, improvement, equipping, and repair of the public school buildings. The federal government will reimburse a percentage of interest payments and the bonds will be repaid when the sinking fund levy reaches the amount of the bonds. The District is accumulating funds in the debt service fund in order to pay the balloon payment due in fiscal year 2025.

HVAC Bonds – These bonds are special obligations of the District payable solely from a special levy. The proceeds of the bonds will be used for the purpose of financing HVAC improvements, asbestos abatement and required ancillary systems to meet American Society of Heating, Refrigerating and Air Conditioning Engineers, Inc. standards for the Rugby High School.

2013 Bonds – The proceeds of the bonds are to be used for the purpose of providing funds to finance the cost of the construction, reconstruction, improvement, equipping and repair of the public school buildings including energy efficiency improvements.

NOTE 6 FUND BALANCE

A. Classifications

At June 30, 2019, a summary of the governmental fund balance classifications is as follows:

	Capital Projects Fund	Debt Service Fund	Food Service Fund	Total
Restricted for:				
Capital Projects	\$ 185,637	\$ -	\$ -	\$ 185,637
Debt Service	-	4,578,019	-	4,578,019
Assigned for:				
Food Service	-	-	4,111	4,111
Total	<u>\$ 185,637</u>	<u>\$ 4,578,019</u>	<u>\$ 4,111</u>	<u>\$ 4,767,767</u>

Restricted fund balances reflect resources restricted for statutorily defined purposes not accounted for in a separate fund. At June 30, 2019, there were the following accounts:

Restricted for Debt Service:

This account represents funds held by the School District available to service long-term debt.

Restricted for Capital Projects:

This account represents funds held by the School District available to pay for Building projects.

Assigned for Food Service:

This account represents funds held by the School District available for Food Service expenditures.

B. Minimum Fund Balance Policy

The District will strive to maintain a minimum unassigned general fund balance of not less than 10 percent and not more than 25 percent of the annual budget.

NOTE 7 DEFINED BENEFIT PENSION PLANS - STATEWIDE

Substantially, all employees of the District are required by state law to belong to pension plans administered by the Teacher's Fund for Retirement (TFFR) or the North Dakota Public Employees Retirement System (NDPERS), both of which are administered on a statewide basis.

Disclosures relating to these plans follow:

North Dakota Teacher's Fund For Retirement

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Although this footnote only includes the required contribution by the District, the District is also currently contributing the employee share. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$6,551,621 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net pension liability was based on the Employer's share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At July 1, 2018, the Employer's proportion was 0.491547 percent which was a decrease of 0.001142 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the Employer recognized pension expense of \$559,336. At June 30, 2019, the Employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 17,782	\$ 178,186
Changes in actuarial assumptions	360,917	-
Difference between projected and actual investment earnings	-	22,651
Changes in proportion	-	69,597
Contributions paid to TFFR subsequent to the measurement date	445,408	-
Total	<u>\$ 824,107</u>	<u>\$ 270,434</u>

\$445,408 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ending June 30:</u>	<u>Pension Expense Amount</u>
2020	\$ 194,650
2021	103,065
2022	(57,610)
2023	(76,843)
2024	(33,313)
Thereafter	(21,684)

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Actuarial Assumptions

The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	4.25% to 14.50%, varying by service, including inflation and productivity
Investment rate of return	7.75%, net of investment expenses
Cost-of-living adjustments	None

For active and inactive members, mortality rates were based on the RP-2014 Employee Mortality Table, projected generationally using Scale MP-2014. For healthy retirees, mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table set back one year, multiplied by 50% for ages under 75 and grading up to 100% by age 80, projected generationally using Scale MP-2014. For disabled retirees, mortality rates were based on the RP-2014 Disabled Mortality Table set forward four years.

The actuarial assumptions used were based on the results of an actuarial experience study dated April 30, 2015. They are the same as the assumptions used in the July 1, 2018, funding actuarial valuation for TFFR.

As a result of the April 30, 2015 actuarial experience study, the TFFR Board adopted several assumption changes, including the following:

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equities	58.00%	6.70%
Global Fixed Income	23.00%	1.50%
Global Real Assets	18.00%	5.10%
Cash Equivalents	1.00%	0.00%

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2018, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2018. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2018.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease in Discount Rate	Discount Rate	1% Increase in Discount Rate
	6.75%	7.75%	8.75%
District's proportionate share of the TFFR net pension liability:	\$ 8,846,584	\$ 6,551,621	\$ 4,642,925

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TFFR financial report.

North Dakota Public Employees' Retirement System

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Pension Benefits

Benefits are set by statute. NDPERS has no provision or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). The annual pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition of disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of covered compensation. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25 and the maximum may not exceed the following:

- 1 to 12 months of service – Greater of one percent of monthly salary or \$25
- 13 to 24 months of service – Greater of two percent of monthly salary or \$25
- 25 to 36 months of service – Greater of three percent of monthly salary or \$25
- Longer than 36 months of service – Greater of four percent of monthly salary or \$25

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$1,069,522 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2018, the District's proportion was 0.06338 percent, which was a decrease of 0.003509 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$171,709. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 2,831	\$ 36,387
Changes in actuarial assumptions	386,075	15,265
Difference between projected and actual investment earnings	-	5,203
Changes in proportion	35,222	57,727
Contributions paid to NDPERS subsequent to the measurement date	53,969	-
Total	<u>\$ 478,097</u>	<u>\$ 114,582</u>

\$53,969 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ending June 30:</u>	<u>Pension Expense Amount</u>
2020	\$ 105,348
2021	90,995
2022	70,814
2023	42,007
2024	381

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Actuarial Assumptions

The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%		
Salary increases	Service At		
	<u>Beginning of Year</u>	<u>State Employee</u>	<u>Non-State Employee</u>
	0	12.00%	15.00%
	1	9.50%	10.00%
	2	7.25%	8.00%
	<u>Age</u>		
	Under 30	7.25%	10.00%
	30-39	6.50%	7.50%
	40-49	6.25%	6.75%
	50-59	5.75%	6.50%
	60+	5.00%	5.25%

*Age-based salary increase rates apply for employees with three or more years of service

Investment rate of return 7.75%, net of investment expenses
 Cost-of-living adjustments None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table set back one year for males (no setback for females) multiplied by 125%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	30.00%	6.05%
International Equity	21.00%	6.71%
Private Equity	7.00%	10.20%
Domestic Fixed Income	23.00%	1.45%
Global Real Assets	19.00%	5.11%

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Discount Rate

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, which is the case for the PERS plan, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.75%; the municipal bond rate is 3.62%; and the resulting Single Discount Rate is 6.32%.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.32 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.32 percent) or 1-percentage-point higher (7.32 percent) than the current rate:

	1% Decrease in Discount Rate	Discount Rate	1% Increase in Discount Rate
	5.32%	6.32%	7.32%
District's proportionate share of the NDPERS net pension liability:	\$ 1,453,282	\$ 1,069,522	\$ 749,287

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

NOTE 8 DEFINED BENEFIT OPEB PLAN

Defined Benefit OPEB Plan

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDAC Chapter 71-06 for more complete information.

NDPERS OPEB plan is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits from the PERS, the HPRS, and Judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

OPEB Benefits

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. The employer contribution for employees of the state board of career and technical education is 2.99% of covered compensation for a period of eight years ending October 1, 2015. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "*prefunded credit applied*" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

Retiree health insurance credit benefits and death and disability benefits are set by statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the PERS, the HPRS, the Defined Contribution Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving a surviving spouse benefit or if the member selected a joint and survivor option are eligible to receive a credit toward their monthly health insurance premium under the state health plan.

Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. The benefits are equal to \$5.00 for each of the employee's, or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health insurance credit is also available for early retirement with reduced benefits.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability of \$46,861 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net OPEB liability was based on the Employer's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2018, the District's proportion was 0.059501 percent which was a decrease of 0.003612 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized OPEB expense of \$5,420. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,401	\$ 968
Changes of assumptions	3,845	-
Net difference between projected and actual earnings on OPEB plan investments	-	1,008
Changes in proportion and differences between employer contributions and proportionate share of contribution	-	2,303
District contributions subsequent to the measurement date	8,641	-
Total	<u>\$ 13,887</u>	<u>\$ 4,279</u>

\$8,641 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Year Ending June 30:	
2020	\$ 21
2021	21
2022	21
2023	466
2024	385
2025	82
Thereafter	(29)

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Actuarial Assumptions

The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	Not applicable
Investment rate of return	7.50%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table set back one year for males (no setback for females) multiplied by 125%.

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of RHIC investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Large Cap Domestic Equities	37.00%	5.80%
Small Cap Domestic Equities	9.00%	7.05%
International Equities	14.00%	6.20%
Core-Plus Fixed Income	40.00%	1.46%

Discount Rate

The discount rate used to measure the total OPEB liability was 7.50%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2018, and July 1, 2017, HPRS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Sensitivity of the Employer's proportionate share of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability of the Plans as of June 30, 2018, calculated using the discount rate of 7.50 percent, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

	1% Decrease in Discount Rate 6.50%	Discount Rate 7.50%	1% Increase in Discount Rate 8.50%
District's proportionate share of the net OPEB liability	\$ 59,290	\$ 46,861	\$ 36,206

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued OPEB financial report.

NOTE 9 RISK MANAGEMENT

Rugby Public School District No. 5 is exposed to various risks relating to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, state agencies and political subdivisions of the State of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDRIF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The District pays an annual premium to NDRIF for its general liability, auto, and inland marine insurance coverage. The coverage by NDRIF is limited to losses on one million dollars per occurrence.

The District also participates in the North Dakota Fire and Tornado Fund and the State Bonding Fund. The District pays an annual premium to the Fire and Tornado Fund to cover property damage to buildings and personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The Fire and Tornado Fund is reinsured by a third party insurance carrier for losses in excess of one million dollars per occurrence during a 12-month period. The State Bonding Fund currently provides the District with blanket fidelity bond coverage in the amount of \$2,000,000 for its employees. The state Bonding Fund does not currently charge any premium for this coverage.

The District participates in the North Dakota Worker's Compensation Bureau and purchases commercial insurance for employee health and accident insurance. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal periods.

NOTE 10 NONMONETARY TRANSACTIONS

The District received food commodities from the federal government to subsidize its hot lunch program. The market value of commodities received for the year ended June 30, 2019 was \$27,111.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

NOTE 11 EXPENDITURES IN EXCESS OF APPROPRIATIONS

The General Fund had budgeted expenditures in excess of actual appropriations in the amount of \$124,044 for the year ended June 30, 2019.

The Food Service fund had actual expenditures in excess of budgeted appropriations in the amount of \$87,312 for the year ended June 30, 2019.

The Capital Projects fund had actual expenditures in excess of budgeted appropriations in the amount of \$21,459 for the year ended June 30, 2019.

The Debt Service fund had actual expenditures in excess of budgeted appropriations in the amount of \$38,296 for the year ended June 30, 2019.

NOTE 12 CONTINGENT LIABILITIES

The District received financial assistance from federal and state agencies in the form of grants. The expenditures of funds received under these programs generally require compliance with items and conditions specified in the grant agreements and are subject to audit by the grantor agencies. The District's management believes it has complied in all material respects with all applicable grant provisions. In the opinion of management, any possible disallowed claims would not have a material adverse effect on the overall financial position of the District as of June 30, 2019.

NOTE 13 COMMITMENTS

The District has a contract with Hartley's School Bus Service to provide rural route, activities, and winter in-city transportation for students in grades K-12. The term of the contract is from August 19, 2016 through the last day of the 2021-22 school year. The District pays for these services on a per-route or per-mile basis, with periodic adjustments for cost of living increases and fuel price changes. Transportation fees paid under this contract for the year ended June 30, 2019 totaled \$510,488.

NOTE 14 TRANSFERS

The transfers as of June 30, 2019 consist of the following:

<u>Transfers In</u>	<u>Transfers Out</u>	<u>Amount</u>
Food Service Fund	General Fund	<u>\$ 24,208</u>

The transfer was made to support the Food Service Fund for food service expenses exceeding revenues.

NOTE 15 NEW PRONOUNCEMENTS

GASB Statement No. 84, *Fiduciary Activities*, provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
AS OF JUNE 30, 2019

Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 90, *Majority Equity Interests*, provides guidance for reporting when a government has majority equity interest in legally separate organizations. An equity interest is explicit and measurable if the government has a present or future claim to the net resources of the entity and the method for measuring the government's share of the entity's net resources is determinable. If government's holding of that equity interest meets the definition of an investment, as defined by GASB No. 72, the equity interest should be reported as an investment and measured using the equity method and not as a component unit of the government. If a government's holding of a majority interest in a legally separate organization does not meet the definition of an investment, the holding of the majority equity interest results in the government being financially accountable for the organization and therefore, the government should report the legally separate organization as a component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

Management has not yet determined what effect these statements will have on the District's financial statements.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 BUDGETS AND BUDGETARY ACCOUNTING

The District's Board follows the procedures established by North Dakota law for the budgetary process. The governing body of each School District, annually on or before the last day of July must levy taxes. The governing body of the School District may amend its tax levy and budget for the current fiscal year on or before the tenth day of October of each year. Taxes for School District purposes must be based upon an itemized budget statement which must show the complete expenditure by program of the District for the current fiscal year and the sources of the revenue from which it is to be financed. The School Board, in levying taxes, is limited by the amount necessary to be raised for the purpose of meeting the appropriations included in the school budget of the current fiscal year, and the sum necessary to be provided as an interim fund, together with a tax sufficient in an amount to pay the interest on the bonded debt of the District and to provide a sinking fund to pay and discharge the principal thereon at maturity. During the current year in the General Fund, budgeted expenditures in excess of actual expenditures by \$124,044. In addition, the Food Service fund had actual expenditures in excess of budgeted expenditures by \$48,220.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The administration prepares the District's budget. The budget includes proposed expenditures and the means of financing them. The budget is prepared on the modified accrual basis of accounting.
2. The Board reviews the budget, may make revisions, and adopts the final budget on or before August 10th of each year. The budget is then filed with the county auditor by August 25th of each year.
3. The budget may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared, except no amendment changing the taxes levied can be made after October 10th of each year. The budget amounts shown in the financial statements are the final authorized amounts.
4. All appropriations lapse at the close of the District's fiscal year. The balance of the appropriation reverts back to each respective fund and is available for future appropriation.

NOTE 2 CHANGES OF ASSUMPTIONS

TFFR

Amounts reported in 2016 and later reflect the following actuarial assumption changes based on the results of an actuarial experience study dated April 30, 2015.

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION - CONTINUED
FOR THE YEAR ENDED JUNE 30, 2019

NDPERS

Amounts reported in 2019 reflect actuarial assumption changes effective July 1, 2018 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

OPEB

Amounts reported in 2019 reflect actuarial assumption changes effective July 1, 2018 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To The President and Board Members
Rugby Public School District No. 5
Rugby, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the remaining fund information of Rugby Public School District No. 5 as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Rugby Public School District No. 5's basic financial statements, and have issued our report thereon dated November 8, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Rugby Public School District No. 5's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rugby Public School District No. 5's internal control. Accordingly, we do not express an opinion on the effectiveness of Rugby Public School District No. 5's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that are not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2019-001 and 2019-002 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Responses to Findings

Rugby Public School District No. 5's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Rugby Public School District No. 5's responses were not subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BRADY, MARTZ & ASSOCIATES, P.C.
GRAND FORKS, NORTH DAKOTA

November 8, 2019

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2019

2019-001 Finding

Criteria

An appropriate system of internal controls requires that a District make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with accounting principles generally accepted in the United States of America (GAAP). This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures.

Condition

The District's auditors prepared the financial statements as of June 30, 2019. In addition, adjusting entries were proposed to bring the financial statements into compliance with GAAP. An appropriate system of internal controls requires that a District must make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with GAAP. This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America (GAAP).

Cause

The District does not have the resources to prepare full accrual financial statements.

Effect

The District relies on external auditors to prepare their financial statements and related disclosures in compliance with accounting principles generally accepted in the United States of America.

Recommendation

The District should continue to document the annual review of the financial statements, disclosures and schedules.

Management's Response

The District will continue to have the auditor prepare the financial statements; however, the District has established an internal control policy to document the annual review of the financial statements.

RUGBY PUBLIC SCHOOL DISTRICT NO. 5
SCHEDULE OF FINDINGS AND RESPONSES - CONTINUED
FOR THE YEAR ENDED JUNE 30, 2019

2019-002 Finding

Criteria

To provide reasonable assurance that segregation of duties take place while also taking into account the size of the District.

Condition

The District has one employee who is responsible for all accounting functions involved. The employee has access to all income monies, receipt documents, issuance of checks, and bank statements and reconciliations. The employee also maintains the general ledger.

Cause

There is only one business manager and due to the District's size, they are unable to hire more staff.

Effect

Lack of segregation of duties leads to a limited degree of internal control.

Recommendation

The District should separate the duties when it becomes feasible.

Management's Response

The Superintendent reviews and signs off on all bank statements and reconciliations. The Superintendent also reviews and signs off on the payroll direct deposit report prior to releasing payroll to individual's accounts. Procedures have been implemented when feasible to promote the segregation of duties. Funds are counted by individuals in charge of the account prior to being given to the Business Manager or Executive Administrative Assistant to receipt and deposit at the financial institutions. The Board reviews and approves all checks written.
