#### **Independent Auditor's Report**

The Board of City Commissioners City of Valley City, North Dakota

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Valley City, North Dakota (the City), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2019 and the respective changes in financial position and, where applicable, cash flows thereof and the General Fund Budgetary Schedule for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Management has omitted the management's discussion and analysis that the accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The listing of elected and appointed officials and combining and individual fund schedules are presented for purpose of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the financial statements.

The combining and individual fund schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The listing of elected and appointed officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on this listing.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 3, 2020 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**Governmental Funds** 

Reconciliation of the Balance Sheet to the Statement of Net Position

| Total Fund Balances – Governmental Funds  | \$<br>6,126,197  |
|---|------------------|
| Amounts reported for governmental activities in the statement of net position are different because:  |                  |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.                                     | 74,625,985       |
| Other assets are not available to pay for current-period expenditures and, therefore, are either not recognized as a receivable or are deferred in the funds. | 8,134,451        |
| Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds. In the current period these amounts are:   |                  |
| Special assessment bonds  | (10,805,677)     |
| Sales tax revenue bonds   | (7,124,445)      |
| PFA loan  | (395,851)        |
| Capital lease payable   | (356,031)        |
| Compensated absences  | (128,406)        |
| Accrued interest  | <br>(109,573)    |
| Total net position – governmental activities  | \$<br>69,966,650 |

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance to the Statement of Activities

Year Ended December 31, 2019

| Net Change in Fund Balances - Total Governmental Funds  | \$<br>(1,914,628)         |
|---|---------------------------|
| Amounts reported for governmental activities in the statement of activities are different because:  |                           |
| Capital outlays are reported as expenditures in governmental funds.  However, in the statement of activities the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period these amounts are:  |                           |
| Capital outlay Depreciation expense   | 10,588,547<br>(1,410,330) |
| The net effect of the disposal of capital assets is to decrease net position  | (11,796)                  |
| Revenues in the statement of activities that do not provide current financial resources are deferred and not reported as revenues in the funds  | 25,510                    |
| In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used   | 19,292                    |
| Interest payable is reported in the government wide statement of net position but is not recorded in the governmental funds   | (6,295)                   |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds Neither transaction, however, has any effect on net position. In the current period these amounts are: |                           |
| Debt issued   | (395,851)                 |
| Capital lease retirement Bond principal retirement  | 24,706<br>1,319,899       |
| Change in Net Position of Governmental Activities   | \$<br>8,239,054           |

#### Note 1 - Summary of Significant Accounting Policies

The City of Valley City was incorporated in 1883 and operates under a commission form of government. In 1991, the City passed a resolution for the City of Valley City to adopt a home rule charter. The accounting policies of the City conform to generally accepted accounting principles applicable to governmental units. The water, sewer, and electrical activities of the Valley City Public Works (VCPW) are nonregulated. The more significant of the government's accounting policies are described below.

The basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). The City's significant accounting policies are described below:

#### **Reporting Entity**

The City's financial statements include all funds for which the City is financially accountable.

The City is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Additionally, the City is not included in any other governmental reporting entity.

Component units are legally separate organizations for which elected officials of the primary government are financially accountable. The City is financially accountable if it appoints a voting majority of the organization's governing body and is either:

- 1. able to impose its will on that organization or
- there is potential for the organization to provide specific financial benefits to or impose financial burdens on the City. The City may be financially accountable if an organization is fiscally dependent on the City.

There are no component units reported within these financial statements.

#### **Government-Wide and Fund Financial Statements**

The goal of government-wide financial statements is to present a broad overview of government's finances. The basic statements that form the government-wide financial statements are the statement of net position and the statement of activities. These two statements report information on all of the non-fiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this rule are charges from the City's electric, water and sewer utilities, and other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported from the various functions concerned. Governmental activities, which are normally financed through taxes and intergovernmental revenues, are reported separately from business-type activities, which are normally financed through user fees and charges for goods or services.

The statement of activities reports gross direct expenses by function reduced by program revenues. This results in a measurement of net revenue or expense for each of the government's activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues are directly associated with the function or business-type activity and include 1) charges for services and 2) operating or capital grants and contributions that are restricted to a particular function. Tax and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are prepared for governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as eligibility requirements imposed by the provider have been met. Although agency funds have no measurement focus, they also use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, special assessments, intergovernmental revenue, permits, charges for services and investment income associated with the current fiscal period are the major revenues that are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent they are collected in 60 days. All other revenue items are considered to be measurable and available only when the City receives cash.

The City reports the following major governmental funds:

General Fund – The general fund is the general operating fund of the City. All financial resources of the general government that are not required to be reported in another fund are accounted for in the general fund.

*Permanent Flood Protection* – This fund accounts for the resources accumulated and payments made for permanent flood protection projects.

Paving Projects – This fund accounts for the resources accumulated and payments made for city paving projects.

*Infrastructure Renewal & Replacement* – This fund accounts for the resources accumulated and payments made for infrastructure projects.

Debt Service Fund – This fund accounts for the resources accumulated and payments made for principal and interest on all general obligation and special assessment bonds of governmental funds.

The City reports the following major proprietary funds:

*Electric* – This fund accounts for the provision of electric service to the residents of the City.

Water – This fund accounts for the provision of water utility service to the residents of the City.

Sewer – This fund accounts for the provision of sanitary sewer service to the residents of the City.

*Garbage* – This fund accounts for the provision of sanitation and garbage removal service to the residents of the City.

Amounts reported as program revenues include the following: amounts received from those who purchase, use or directly benefit from a program; amounts received from parties outside the City that are restricted to one or more specific programs; and earnings on investments that are legally restricted for a specific program. Revenues that do not meet the previous criteria are reported as general revenues, including all taxes.

Proprietary funds report operating revenues and expenses separately from nonoperating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### **Other Significant Accounting Policies**

#### **Budgets and Budgetary Accounting**

An annual budget is adopted only for the general fund. The budget is adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgetary comparisons presented in this report are on this budgetary basis.

Appropriations are authorized by the city commission at the fund level, which is the legal level of budgetary control. Administrative control is maintained through the establishment of more detailed line-item budget.

The budget is legally enacted through passage of a budget ordinance no later than October 1.

All unexpended appropriations lapse at year-end.

Any changes in the total budget of each fund must be approved by a majority vote of the city commission.

#### Cash and Cash Equivalents, and Restricted Cash

Cash balances from all funds are combined and invested to the extent available in authorized investments. Earnings from such investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

The City considers cash equivalents to be certificates of deposit, money market funds, and other highly liquid investments with original maturities of three months or less.

Restricted cash consists of amounts that have been restricted to meet bond reserve requirements or set aside as customer deposits.

#### **Inventories**

The costs of inventory items are recognized as expenditures in governmental funds when purchased and as expenses in proprietary funds when used. Proprietary fund inventories are presented on an average cost basis.

#### **Prepaid Items**

Payments made to vendors for services that will benefit periods beyond December 31, 2019, are recorded as prepaid items in both government-wide and fund financial statements.

#### **Receivable and Credit Policy**

Trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. The receivables are charged a late fee of ½% of the billing amount after 30 days from the invoice date. Payments on trade receivables are applied to the earliest unpaid invoices. The carrying amount of the trade receivables is reduced by an amount that reflects management's best estimate of the amounts that will not be collected.

#### **Capital Assets**

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), mains and lines, and vehicles are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are not capitalized.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

| Buildings and improvements | 10-50 years |
|----------------------------|-------------|
| Infrastructure             | 10-30 years |
| Machinery and equipment    | 5-20 years  |
| Vehicles                   | 5-10 years  |
| Mains and lines            | 3-50 years  |

#### **Compensated Absences**

All regular employees are entitled to vacation time with pay based upon length of continuous service. Annual vacation leave may be accumulated a maximum of four weeks. Upon termination, employees are compensated for unused vacation leave.

All regular full-time or regular part-time employees shall accumulate sick leave, which is not a benefit earned by the employee such as annual leave. Temporary and part-time employees are not eligible to accumulate sick leave. Sick leave is to be used for any illness, injury or other medical reasons. Unused sick leave cannot be converted into annual leave hours. Upon reaching five years of employment, employees voluntarily leaving employment with the City will receive payment for accrued sick leave at the current rate of pay at separation as follows:

| 5+ years of employment  | 5%  |
|-------------------------|-----|
| 10+ years of employment | 10% |
| 15+ years of employment | 20% |
| 20+ years of employment | 40% |
| 25+ years of employment | 50% |

Payments received for sick leave balances will have retirement contributions deducted. Employees accrue one day per month and may accumulate up to 124 days. Historically, employees have not used all sick leave earned.

Accumulated unpaid vested sick leave is accrued when incurred in government-wide proprietary fund financial statements. Such amounts, other than the current portion, are not accrued in governmental funds, but are recorded in the governmental activities in the government-wide statements.

#### **Long-Term Liabilities**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### **Fund Balance**

The following classifications describe the relative strength of spending constraints:

Nonspendable Fund Balance – represents amounts that cannot be spent due to form such as inventories, prepaids, long-term loans, and notes receivable, and property held for resale (unless the proceeds are restricted, committed or assigned).

Restricted Fund Balance – represents amounts that exist when constraints are placed on the use of resources that are either externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments (or) restrictions imposed by law through constitutional provisions or enabling legislation (i.e. Emergency fund).

Committed Fund Balance – represents amounts that can only be used for specific purposes pursuant to the constraints imposed by formal action of the City Commission. These committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it previously employed to commit those amounts. (Example would be legislation, resolution, or ordinance). (ie. Sales tax ordinance, budget ordinance)

Assigned Fund Balance – represents amounts constrained by the City's intent to be used for a specific purpose but are not restricted or committed. The Commission has delegated the authority to assign these amounts to the City Administrator and the City Auditor. Assigned amounts or changes to Assigned amounts will later be presented to the Commission for review.

*Unassigned Fund Balance* – represents the remaining residual balances that have not been restricted, committed, or assigned to specific purposes within the General Fund.

The City Commission establishes fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by City Commission through adoption or amendment of the budget as intended for specific purpose.

When both restricted and unrestricted resources are available for use, it is the City's policy to use nonspendable resources first, restricted second, committed third, assigned fourth and unassigned last.

#### **Net Position**

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the City's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the net amount of assets, deferred inflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

#### Self-Insurance

The City implemented a self-insurance medical plan in March 1985 which includes a stop-loss provision at \$30,000 per year for any one individual. The Aggregate Stop-Loss Attachment Point is \$559,445. Aggregate claims in excess of this amount are paid by the city's insurer. Liabilities are recorded when a determinable claim or loss has been incurred and the amount of the loss can be reasonably estimated.

#### **Risk Management**

The City is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City currently participates in the North Dakota insurance reserve fund, North Dakota fire and tornado fund, state bonding fund and North Dakota Workforce Safety Insurance to cover claims. There have been no settled claims exceeding insurance coverage in any of the past three years.

#### **Deferred Inflows of Resources**

This separate financial statement element is reported in accordance with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which clarifies the use of deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting. Deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, unavailable revenue, reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### Note 2 - Compliance and Stewardship

#### **Deficit Fund Balance**

Fund balance deficits existed in certain individual funds at December 31, 2019, as follows:

| Permanent Flood Protection  | \$<br>431,022 |
|-----------------------------|---------------|
| Paving Projects             | 1,072,544     |
| Nonmajor Governmental Funds |               |
| Emergency                   | 39,658        |
| Storm Sewer Projects        | 1,034,624     |
| DOT Misc Projects           | 361           |
| Underground Construction    | 3,861         |
| NW & West Storm Sewer       | 18,738        |

No formal action is required or anticipated regarding the deficits. These deficits are expected to be eliminated in future years through future special assessment tax collections, transfers, and sale of bonds.

#### **Expenditures in Excess of Appropriations**

Expenditures in the general fund exceeded budget appropriations by \$1,522,280. These excess expenditures were funded by revenues in excess of budget and fund balance.

#### Note 3 - Deposits and Investments

#### **Deposits**

In accordance with the North Dakota Century Code, the City maintains deposits at depository banks covered by Federal Depository Insurance. Century Code requires that all City deposits be protected by insurance, collateral or surety bond. The market value of the collateral pledged must be equal to or greater than 110% of the deposits not covered by insurance or bonds. As of December 31, 2019, the City's deposits include savings accounts, money market funds, and certificates of deposit.

#### **Investments**

Statutes authorize the City to invest in obligations of the U.S. Treasury Investments and U.S. agencies, bankers' acceptances, certain repurchase agreements, and commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record.

#### **Custodial Credit Risk**

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned to it. Beyond what is stated in the Century Code, the City does not have a formal policy to further limit exposure to custodial credit risk. As of December 31, 2019, the City's deposits were either fully insured or properly collateralized, and have no custodial credit risk.

#### Interest Rate Risk - Investments

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The following table presents the City's deposit and investment balances at December 31, 2019

|   |                                   | Maturities (in Years)      |    |                   |  |
|---|-----------------------------------|----------------------------|----|-------------------|--|
| Туре  | Fair Value                        | Fair Value N/A             |    | < 1               |  |
| Cash and cash equivalents Deposits Petty cash Certificates of deposit | \$ 10,203,157<br>1,900<br>225,750 | \$ 10,203,157<br>1,900<br> | \$ | -<br>-<br>225,750 |  |
|   | \$ 10,430,807                     | \$ 10,205,057              | \$ | 225,750           |  |

Cash and investments are included on the basic financial statements as follows:

Cash and cash equivalents - Statement of Net Position
Restricted cash - Statement of Net Position
\$ 9,648,662
782,145
\$ 10,430,807

#### Note 4 - Property Taxes and Special Assessments

#### **Property Taxes**

Property taxes attach as an enforceable lien on property on January 1. The tax levy may be paid in two installments: the first installment includes one-half of the real estate taxes and all the special assessments; the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount is allowed if all taxes are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Taxes which remain unpaid at December 31 are classified as delinquent taxes receivable and the portion not available within 60 days is fully offset by deferred revenue because it is not available to finance current expenditures. The delinquent taxes receivable represents the past five years of uncollected tax levies.

#### **Special Assessments**

Special assessments are levied against the benefited properties for the assessable costs of special assessment improvement projects in accordance with state statutes. The assessments are collectible over a term of years generally consistent with the term of years of the related bond issue. Collection of annual installments (including interest) is handled by the county and remitted to the City at the same time property tax settlements are made. Property owners are allowed to prepay total future installments plus accrued interest without prepayment penalties. Special assessments are generally collected by the county and remitted to the City at the same time the tax settlements are made. Special assessments receivable includes the following components:

Delinquent – amounts billed to property owners but not paid

Deferred – assessment installments that will be billed to property owners in future years

Interfund – assessment installments for proprietary fund owned property not yet paid

Note 5 - Capital Assets

Capital asset activity for the year ended December 31, 2019 was as follows:

| Governmental Activities                    | Beginning<br>Balance | Increases<br>and Transfers | Decreases and Transfers | Ending<br>Balance |
|--|----------------------|----------------------------|-------------------------|-------------------|
| Capital assets, not being depreciated      |                      |                            |                         |                   |
| Land                                       | \$173,800            | \$ -                       | \$ -                    | \$ 173,800        |
| Construction in progress                   | 30,416,079           | 10,131,942                 | 764,641                 | 39,783,380        |
| Total capital assets not being depreciated | 30,589,879           | 10,131,942                 | 764,641                 | 39,957,180        |
| Capital assets, being depreciated          |                      |                            |                         |                   |

| Business-type activity<br>long-term debt                                 | \$ 1,843,898              | \$ 148,669              | \$ 352,965            | \$ 1,639,602                  | \$ 429,602                  |

General obligation bonds are recorded in the governmental activities in the government-wide statement and are backed by the full faith and credit of the City. These bonds are payable from the debt service funds primarily through property tax levies.

General obligation improvement bonds are also recorded as a liability in the governmental activities in the government-wide statement and are payable from the debt service funds primarily through special assessments levied and collected for local improvements. The City has a commitment relating to a pledge of full faith and credit on the special assessment bonds. The general credit of the City is obligated only to the extent that liens foreclosed against properties involved in the special assessment districts are insufficient to retire outstanding bonds.

General obligation revenue bonds are recorded as a liability in the public utilities fund and are payable from public utility revenues.

The City has pledged future sales tax revenues, net of specified operating expenses, to repay \$2.9 million in sales tax revenue bonds issued in 2013, \$860,614 in sales tax revenue bonds issued in 2016, \$1.39 million in sales tax revenue bonds issued in 2017, and \$3.2894 million in sales tax revenue bonds issued in 2018. Proceeds from the bonds were used for economic development, job creation, and for financing the local share of the Permanent Flood Protection project. Principal and interest paid for the current year was \$476,650. Net sales tax revenue totaled \$2,285,919 for the year.

The \$1.975 million Refunding Improvement Bonds issued in 2018, 2017 Refunding Improvement Bonds, and 2011 Special Assessment Refunding Bonds were special assessment bonds. North Dakota state law requires that these be called refunding bonds because warrants are the first issuance that are refunded with the bond issuance.

During the year ended December 31, 2019, the city was awarded a \$746,000 loan through the North Dakota Public Finance Authority under the Clean Water State Revolving Fund Program to finance construction of a storm sewer system. As of December 31, 2019, the city received \$395,851 in loan funds. The remaining balance will be received as eligible expenses are incurred for the project. The loan bears an interest rate of 1.50%, and requires semiannual interest payments and annual principal payments commencing March 2020. The loan will be paid through the debt service via special assessments levied upon benefitting properties.

The capital lease agreement requires annual lease payments and monthly interest payments, at an interest rate from 3.50%. Payments began June 2014 and will continue through June 2021. Payments are made out of the general fund.

The capital lease consists of a motorgrader for \$509,610 with total accumulated depreciation of \$458,649 as of December 31, 2019. Maturities of principal and interest payments are as follows:

| Years Ending December 31, | Capita            | l lease         |
|---------------------------|-------------------|-----------------|
|                           | Principal         | Interest        |
| 2020<br>2021              | 25,585<br>330,446 | 12,212<br>5,929 |
| Total                     | \$ 356,031        | \$ 18,141       |

There are a number of limitations and restrictions contained in the various bond indentures. The City is in substantial compliance with significant limitations and restrictions.

The annual requirements to amortize all bonded debt and special assessments outstanding as of December 31, 2019, are as follows:

| Years Ending December 31, | Governmental Activities |              | Business-ty  | oe Activities |
|---------------------------|-------------------------|--------------|--------------|---------------|
|                           | Principal               | Interest     | Principal    | Interest      |

#### **Compensated Absences**

Compensated absences for governmental funds is recorded as a liability in the governmental activities in the government-wide statement. This liability matures only upon qualified retirements or terminations and is paid out of the general fund.

#### **Conduit Debt**

From time to time, the City has approved issuance of Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2019, there were series of Industrial Revenue Bonds outstanding; the aggregate principal amount payable is \$2,225,000. Neither the State of North Dakota nor the City of Valley City has a central repository. The only requirement for this type of issue is to request the amount needed for City approval, most times this amount is in excess of the actual amount issued. When completely paid or called they must notify the City of this event.

### Note 7 - Interfund Receivables, Payables, and Transfers

Interfund receivables/payables are used to record accrued obligations between funds.

|  | Due From<br>Other Funds |  | Due To<br>Other Funds |  |
|--|-------------------------|--|-----------------------|--|
| Infrastructure Renewal & Replacement Permanent Flood Protection Paving Projects Other governmental funds Water Sewer | \$ 2                    | 2,240,074<br>-<br>-<br>700,441<br>-<br>211,135 | \$                    | 947,152<br>946,210<br>1,047,153<br>211,135 |
|  | \$ 3                    | 3,151,650                                      | \$                    | 3,151,650                                  |

A summary of the City's interfund special assessment balances at December 31, 2019, is as follows:

|   | Assessme   | Interfund Special<br>Assessments<br>Receivable |    | Interfund Special<br>Assessments<br>Payable |  |
|---|------------|--|----|---|--|
| General Debt Service Electric Water Sewer | \$<br>294, | 400<br>891<br>-<br>-                           | \$ | -<br>25,847<br>260,329<br>5,365             |  |

Transfers are made for funding various projects, operational expenses, and meeting debt service requirements.

#### Note 8 - Pension Plan

The City contributes to the self-administered trusteed money purchase pension plan, a defined contribution profit-sharing plan, for substantially all employees. Benefit terms, including contribution requirements, for the plan are established and may be amended by the City's Board. The City is required to contribute, at a maximum, 10% of the employees' recognized compensation. The contributions by the employer are credited to a separate bookkeeping account for each individual. Pension contributions and expense in 2019 was \$325,087 including Public Works in the amount of \$188,599. The City had a liability to the plan at December 31, 2019, of \$5,575.

#### Note 9 - Self-Insurance

The City implemented a self-insurance medical plan in March 1985 which includes a stop-loss provision at \$30,000 per year for any one individual. All aggregate claims in excess of \$559,445 are paid by the city's insurer. Liabilities are recorded when a determinable claim or loss has been incurred and the amount of the loss can be reasonably estimated. Starting in 2020 the City changed from self-insurance medical plan to a fully insured fund.

|   | 2019 |                               | <br>2018                             |  |

| Claims incurred but not reported at end of year   | \$   | 24,297                        | \$<br>5,974                          |  |

#### Note 10 - Commitments

Litigation and Potential Exposure – In the ordinary course of its business, the City is party to legal proceedings as a plaintiff or defendant. The financial impact of remaining actions is not determinable at December 31, 2019, but in the opinion of management and legal counsel the ultimate disposition of any or all of these proceedings will not have a material effect on the City's financial position.

Wholesale Firm Power – Under its wholesale power agreement, the electric utility is committed to purchase its electric power and energy requirements from the Western Area Power Administration (WAPA) until December 31, 2050. The rates paid therefore are reviewed on an as-required basis as determined by WAPA.

Under a supplemental power agreement, the electric utility is committed to purchase its electric power and energy needs that are over and above that available from WAPA from the Missouri River Energy Services until January 1, 2030. This base term may be extended for successive 10-year periods. The rates paid therefore are subject to review annually.

Construction Commitments – The City has active construction projects as of December 31, 2019. For the ongoing Permanent Flood Protection project throughout Valley City the following commitments are outstanding: Phase III Permanent Flood Protection Construction commitment of \$2,765,758 with a 20% local share of \$553,152.

The City entered into a contract with the NDDOT for 5<sup>th</sup> Ave NW reconstruction project in December 2019 for \$3,852,699 of which \$1,850,000 is funded by NDDOT, \$290,200 funded by SWC with a local share of \$1,712,499.

#### Note 11 - Subsequent Event

Subsequent to year-end, the City has been impacted by the effects of the world-wide coronavirus pandemic. The City is closely monitoring its operations and reserves and is actively working to minimize the current and future impact of this unprecedented situation. As of the date of issuance of these financial statements, the City's management does not expect the pandemic to have a significant impact on operations and reserves.

#### Note 12 - Issued But Non-Effective Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued several statements not yet implemented by the City.

The first statement issued but not yet implemented that will significantly affect the City is statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. Greater consistency and comparability enhances the value provided by the information reported in financial statements for assessing government accountability and stewardship. This statement will be implemented at the City in the year ended December 31, 2020.

The second statement issued but not yet implemented that will significantly affect the City is Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement will increase the usefulness of governments' financial statements by requiring reporting of certain lease liabilities that currently are not reported. It will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model. This Statement also will enhance the decision-usefulness of the information provided to financial statement users by requiring notes to financial statements related to the timing, significance, and purpose of a government's leasing arrangements. This statement will be implemented at the City in the year ended December 31, 2022.

The third statement issued but not yet implemented that will significantly affect the City is Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this Statement will improve financial reporting by providing users of financial statements with more relevant information about capital assets and the cost of borrowing for a reporting period. The resulting information also will enhance the comparability of information about capital assets and the cost of borrowing for a reporting period. This statement will be implemented at the City in the year ended December 31, 2021.

The final statement issued but not yet implemented that will significantly affect the City is Statement No. 91, Conduit Debt Obligations. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with 1) commitments extended by issuers, 2) arrangements associated with conduit debt obligations, and 3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required noted disclosures. The requirements of this Statement will improve financial reporting by eliminating the existing option for issuers to report conduit debt obligations as their own liabilities, thereby ending significant diversity in practice. The clarified definition will resolve stakeholders' uncertainty as to whether a given financing is, in fact, a conduit debt obligation. Requiring issuers to recognize liabilities associated with additional commitments extended by issuers and to recognized assets and deferred inflows of resources related to certain arrangements associated with conduit debt obligations also will eliminate diversity, thereby improving comparability in reporting by issuers. Revised disclosure requirements will provide financial statement users with better information regarding the commitments issuers extend and the likelihood that they will fulfill those commitments. That information will inform users of the potential impact of such commitments on the financial resources of issuers and help users assess issuers' roles in conduit debt obligations. This statement will be implemented at the City in the year ended December 31, 2022.

Management has not yet determined the effect these pronouncements will have on the City's financial statements.

#### Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal award activity of the City of Valley City, North Dakota (the City) under programs of the federal government for the year ended December 31, 2019. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or fund balance, or cash flows of the City.

#### Note 2 - Significant Accounting Policies

Expenditures reported in the schedule are reported on the modified accrual basis. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

#### Note 3 - Indirect Cost Rate

The City does not draw for indirect administrative expenses and has not elected to use the 10% de minimus cost rate.

Additional Reports December 31, 2019

City of Valley City, North Dakota

# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Mayor and City Council City of Valley City, North Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Valley City, North Dakota (the City), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated August 3, 2020.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2019-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2019-002 to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### City's Response to Finding

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

August 3, 2020

# Independent Auditor's Report on Compliance for the Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Honorable Mayor and City Council City of Valley City, North Dakota

#### Report on Compliance for the Major Federal Program

We have audited the City of Valley City, North Dakota's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended December 31, 2019. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the compliance for the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City's compliance.

#### **Opinion on the Major Federal Program**

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2019.

#### **Report on Internal Control over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Auditee qualified as low-risk auditee?

#### Section II - Financial Statement Findings

# 2019-001 Material Journal Entries Material Weakness

*Criteria* – A good system of internal control contemplates an adequate system for recording and processing entries material to the financial statements.

Condition – During the course of our engagement, we proposed a material audit adjustment, which would not have been identified as a result of the City's existing internal controls, and therefore could have resulted in a material misstatement of the City's financial statements.

*Cause* – The City does not have an internal control system designed to identify all necessary adjustments.

Effect – This control deficiency could result in a material misstatement to the financial statements that would not be prevented or detected.

Recommendation – A thorough review and reconciliation of accounts in each fund should take place prior to the beginning of the audit. This review should be done at both the accounting staff and accounting supervisory levels.

View of Responsible Officials - Management of the City is in agreement with the finding.

#### 2019-002 Preparation of Financial Statements Significant Deficiency

Condition – The City does not have an internal control system designed to provide for the preparation of the financial statements being audited. As auditors, we were requested to draft the financial statements and accompanying notes to the financial statements. This included formulating the proposal of necessary adjusting journal entries to convert the fund financial statements in accordance with GASB Statement No. 34.

*Criteria* – A good system of internal accounting control contemplates an adequate system for recording and processing entries material to the financial statements.

*Effect* – This control deficiency could result in a misstatement to the financial statements that would not be prevented or detected.

Cause – The City does not have an internal control system designed to provide for the preparation of the financial statements being audited.

Recommendation – This circumstance is not unusual in a city of your size. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

*View of Responsible Officials* – Due to cost constraints, the City will continue to have the auditor's draft the financial statements and accompanying notes to the financial statements.
