School Board
employees of the District

INTRODUCTION

The Comprehensive Annual Financial Report of the Board of Education of the City of Fargo, included as part of this report, presents the financial position of the school district at June 30, 2019, and the results of operations for fiscal year 2019. This report was prepared in accordance with United States generally accepted accounting principles (GAAP). The district administration accepts total responsibility for the accuracy, completeness and fairness in presentation. The Office of the State Auditor of the State of North Dakota audits this report.

REPORT FORMAT

This Annual Financial Report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, an organizational chart, and a list of the School Board Members, Administrators, and Audit Personnel. The financial section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), basic financial statements, and the combined individual fund statements and schedules. The statistical section includes financial and demographic information, generally presented on a multi-year comparative basis.

United States generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and to be read in conjunction with it. The MD&A of the Board of Education of the City of Fargo can be found immediately following the report of the independent auditor.

FEDERAL SINGLE AUDIT

The district is required to undergo an annual single audit in conformity with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). An independent auditor's report and a Schedule of Expenditures of Federal Awards are in separately issued documents.

REPORTING ENTITY AND ITS SERVICES

The financial reporting entity includes all the funds of the primary government (Board of Education of the City of Fargo). Component units are legally separate entities for which the district (primary government) is financially accountable. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. The criteria include appointing a voting majority of an organization's governing body and (1) the ability of the Board of Education of the City of Fargo to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the Board of Education of the City of Fargo. Based on these criteria, there is one component unit to be included within the Board of Education of the City of Fargo. This component unit, The Fargo School District Building Authority, was created by the school board as a legally separate entity. Its purpose is to promote the educational system of the district by providing financing for use by the district in altering, repairing, maintaining or constructing buildings and making improvements connected to school buildings. The school board is the governing board of the building authority.

The Fargo Public School District provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through grade 12. These include regular and enriched academic education, special education and career/vocational education. Food service and transportation are provided as supporting programs. The district's community education programs include Early Childhood and Family Education, Adult Basic Education and a myriad of classes for lifelong learning experiences for children and adults.

The Board of Education of the City of Fargo was organized in 1873 and serves the Fargo area, which is bordered on the east by the Red River of the North, which separates North Dakota and Minnesota and the cities of Fargo and Moorhead. The District enrolled 11,420 students in 2018-2019 from an estimated population of 124,844 in the city of Fargo, and the projected enrollment is expected to remain stable or grow. The District employs approximately 2,016 people, including 1,018 teachers. The school district encompasses 57 square miles, and in terms of number of students, is North Dakota's second largest school district.

During the 2018-19 school year, the district operated 28 school buildings: three comprehensive (grades 10-12) high schools, one alternative (grade 9-12) high school, three middle schools (grades 6-8), 16 elementary schools (K through grade 5), including one early childhood Special Education learning center, one performing arts school and three regional treatment facilities. With 28 different buildings, the age of these structures varies from 108 years old to an operations center which opened in the fall of 2017. Our oldest building had approximately \$2.9 million dollars in renovations in the past five years and the remaining buildings average 42 years old. The community also benefits from six post-secondary institutions that serve the educational needs of the entire community.

MAJOR INITIATIVES

The Board of Education of the City of Fargo uses a Long-Range Facility Plan as a road map for the District's financial well-being and as a plan to help us achieve our educational results by combing financial projections along with financial strategizing. This plan can be used as a tool to identify financial opportunities and obstructions while creating an avenue for discussion among the District's stakeholders. Projections are an important element of the financial review and planning process. As the District looks forward, there are several major factors that will need to be considered in both short and long-term financial planning. They include:

- The construction and operation of a Setting D Program.
- Renovations to accommodate growth in the Early Childhood Special Education Program.
- Renovations to provide secure entrances at various schools.
- Construction and operation of a fourth middle school which will initially serve as an 8th – 9th grade center.
- Special Education, English language learner, workforce readiness, language immersion, and other emerging educational needs will require additional financial resources.
- Continuing to offer competitive wages and employee benefit packages to attract and retain highly qualified employees.
- Legislation from the 2009 session requires the District to hold an election to continue the current mill levy at a level above the state mill levy cap. This election will need to occur prior to the 2027 tax year.

Careful planning and prioritizing will be necessary to maintain financial stability and a fund balance that provides the resources to cash flow operations without the need to borrow funds to finance those operations.

ECONOMIC CONDITION AND OUTLOOK OF THE LOCAL ECONOMY

Fargo is the economic center of southeastern North Dakota and a portion of Northwestern Minnesota. Fargo is a cultural, manufacturing, health care and education hub for the region and is the primary population center of the state of North Dakota. According to federal census data, during the decade of 2000-2010, the population of the City of Fargo increased 16.5 percent. In 2009, the unemployment rate was 4.8%. During the past ten years, unemployment in Fargo remained relatively stable, and is now at one of the lowest rates in the United States, at 2.4%. Unemployment is expected either to remain stable or decrease in the near future because overall construction in the Fargo metro area continues to be robust. In the 2018 building permit report, Fargo issued 1,706 permits and exceeded \$374 million dollars in projected construction.

STRATEGIC PLANNING

On June 9, 2015, The Board of Education approved the Fargo Public Schools Strategic Plan. The Strategic Plan is a contract between the Fargo Public School District and its owners – the residents of the Fargo School District. The District began work on its first Strategic plan in 2000. During the 2014-2015 school year, a 54 member Strategic Planning Steering Committee created a new Strategic Plan. The committee met over a series of meetings throughout the winter

and spring. The planning was far reaching and multifaceted, engaging our constituents through surveys and forums for feedback.

The Strategic Plan provides the District with new mission and vision statements, a values statement, and seven strategic initiatives, including:

1. Student Achievement and Growth
2. STEAM (Science, Technology, Engineering, Arts and Mathematics)
3. Positive School Culture
4. Engagement and Experiences in Co-Curricular Activities
5. Community Outreach and Communication
6. Equitable Resources and Planning
7. Continuous Improvement and Accountability

The new Strategic Plan is proactive and provides a road map to create the kind of educational experiences we want for our children. A balanced mix of current practice and new initiatives can be found throughout the plan, which is comprehensive and reaches all corners of the District. Both the academic and operational branches of the District are melded together to create consistency in practice. The plan makes our priorities clear, ensures full transparency and uses measurable outcomes to hold us accountable for maintaining focus on what benefits our students. To see the detailed Strategic Plan visit: www.fargo.k12.nd.us/StrategicPlan

The Board of Education, elected by the citizens, believes the strategic plan is the district's blueprint for the future. They base their decisions on a set of common beliefs and values.

The Fargo Public Schools are committed to...

- The Belief that all students can learn and grow.
- Creating a supportive and positive school climate.
- Ensuring that all students receive effective, rigorous and relevant instruction from highly qualified teachers.
- Engaging leadership in all student, parent and community partnerships.
- Making data-driven decisions for continuous improvement.

OUR VISION

Fargo Public Schools is committed to excellence through a student-centered learning environment supported by positive collaborations with students, staff, parents, school and community.

A Fargo Public Schools education will provide students with a broad knowledge base by engaging in a standards-based curriculum with co-curricular opportunities. Graduates will possess sound character and the 21st Century skills in communication, critical thinking, collaboration and creativity necessary to participate in an ever-changing and culturally diverse world.

Equitable opportunities will ensure a quality educational experience to stimulate and support all students in their intellectual, social and personal growth.

OUR VALUES

The Fargo Public Schools are committed to:

- Believing that all students can learn and grow.
- Creating a supportive and positive school climate.
- Ensuring that all students receive effective, rigorous, and relevant instruction from highly qualified teachers.
- Engaging leadership in all student, parent and community partnerships.
- Making data-driven decisions for continuous improvement.

DISTRICT'S MISSION STATEMENT

Achieving excellence by educating and empowering all students to succeed.

STUDENT ASSESSMENT AND TESTING

The district uses a variety of tests to measure student achievement, performance, abilities and to evaluate curriculum.

North Dakota State Assessment (NDSA):

North Dakota's State Assessment is an augmented norm-referenced test instrument that is aligned to state content standards in reading, language arts and mathematics. The reading, language arts and math assessments are given to district students in grades 3 through 8. Beginning in 2017-2018, grade 11 students were approved to substitute the NDSA with the ACT as being their state assessment. A science assessment for grades 4, 8 and 10 is given in the fall.

In 2018-2019, the district students scored above the state norms in reading, science, language arts, and mathematics. Their achievement is consistent with the district's mission of educating students to achieve high academic skills.

ACCESS Test:

In the spring, all students in the English Learners program are tested on their understanding of speech, listening, reading, writing, oral language, literacy and comprehension.

aimsPlus:

aimsPlus is a benchmark and progress monitoring system based on a set of standardized, individually administered measures of early literacy development. Tests are designed to measure fluency and monitor the development of pre-reading and early reading skills. These tests are given to students in grades K-5 and some special needs students in the fall, winter and spring. The goal is to show valid indicators of early literacy development and predict later reading proficiency and provide early identification of students who are not progressing as expected.

Benchmark:

The Benchmark Reading Assessment provides teachers with a method for evaluating two major aspects for reading: accuracy of oral reading and comprehension through reading and retelling of narrative stories. K-5 students are tested in the spring and fall or more often if deemed necessary. The assessments are conducted during one-on-one reading conferences as children read specially selected assessment texts. A set of 20 stories, which increase in difficulty, are used for the assessment.

Measures of Academic Progress (MAP) Testing:

Students in grades 2-9 take the MAP tests in the winter of each year. Students are required to take the tests to measure their academic progress throughout the year. This approach increases the value of the tests as a tool to improve student learning and will enable teachers to recognize areas where students need help. The goal of the MAP tests is to formulate an individual plan for each student to increase their achievement through the year.

North Dakota Alternate Assessment Testing:

The North Dakota Assessment provides for a single, unified statewide tool that measures the performance of all students in terms of the state's challenging content and achievement standards. Alternate Assessment Testing is used for assessing students with significant disabilities. Through the Alternate Assessment, the student's scores are integrated into the schools', districts', and state's overall student achievement database.

American College Test (ACT):

In 2018-2019 the district's high school seniors continued to score above both state and National average composite scores on the American College Test (ACT) entrance exam. The district's students' average composite score of 20.7 compared to a state average of 19.7. Also, in 2018-2019, the State administered a mandatory ACT test for all juniors. The district's average composite score for juniors was 20.6 and the state average was 19.3.

The average composite score of the district's seniors over the past four years continues to outpace both the state and national averages.

ASPIRE Test:

During the 2018-2019 school year, two of our high schools utilized this new assessment test. It is a digitally based, longitudinal assessment designed to connect a student's growth and progress from elementary through high school. It contains both summative and periodic assessments in English, Reading, Writing, Math and Science.

AVMR Test: (Add-Vantage Math Recovery (AVMR) Assessments)

AVMR assessments are research-based assessments designed to determine students' strengths and areas of need in mathematics. Assessments are given one-on-one and are dynamic in nature. Teachers use student responses to determine which tasks will best determine a level of skill or understanding. The information is used to make informed

decisions about next steps in whole class and small group instruction. AVMR assessments are given three times per year to all Fargo Public School students in grades K-2, and to students in grades 3-5 once a building has focused professional development on mathematics.

NATIONAL AWARDS AND RECOGNITION

- The Fargo Public Schools has been named to the NAMM Foundation's (National Association of Music Merchants) best communities for music education. This is the 16th year in a row that the district has been named to the "Best Communities" list.
- U.S. News and World Report ranked Fargo's Davies and North High Schools as the number 2 and 3 high schools in the state of North Dakota based on student performance in English language, arts, math and science.
- The Fargo Public Schools has been named to the 8th Annual Advanced Placement (AP) District Honor Roll for expanding opportunities and improving performance for AP students.
- The Fargo Public Schools were named to the United Way's Most Generous Workplaces List.
- Our three high schools, Davies, North and South have all received the National Athletic Trainers' Association (NATA) safe sports school awards. The award champions safety and recognizes secondary schools that provide safe environments for student athletes.
- Air Force Junior Reserve Officer's Training Corp was awarded the Distinguished Unit Award from the Military Officers Association of America.
- Fargo was voted the 6rd best college town and city below 250,000 in population by the American Institute for Economic Research.
- Forbes Magazine ranked Fargo 12th on a list of the Best Small Metro Areas for Business and Careers. Factors considered included cost of doing business, cost of living, job and income growth, migration trends, educational attainment and quality of life issues such as crime rates and cultural opportunities.

ATTENDANCE, GRADUATION AND EXTRA-CURRICULAR ACTIVITIES

The Board of Education of the City of Fargo has a 94.6% average daily attendance rate and more than 65.0% of student's grade 6-12 participate in extra-curricular activities. 59.4% of our teachers hold a master's degree or higher and approximately 10% of the District's students in grades 1-8 are enrolled in gifted and talented instruction. Nearly 44% of our students in grades 9-12 studied a foreign language and 48.5% our students in grade 9-12 enroll in Advanced Placement courses. The graduation rate is 84.0%.

INTERNAL CONTROL SYSTEM

The district's management assumes full responsibility for establishing and maintaining an internal control structure designed to ensure that the assets of the district are protected from loss, misuse or theft, and to ensure that adequate accounting data are compiled to allow for the preparation of the financial statements in conformity with generally accepted accounting principles (GAAP). We believe that the district's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of all financial transactions. The concept of reasonable assurance recognizes that the cost of these controls should not exceed the anticipated benefits, and the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. The evaluation of these costs and benefits requires estimates and judgments by management.

BUDGETARY CONTROLS

Budgetary control is maintained through an annual budget adopted by the school board. The taxes levied to support the final budget must be certified to the County Auditor by August 25 and filed by the Auditor no later than October 10. Budgetary control is established at the fund level. All financial transactions of the district are accounted for in specific funds. The accounting system provides for complete, self-balancing accounts for each fund of the district. This system provides budgetary control for activities of the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund. The system also provides budgetary control at the sub-function level by the encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors.

DEBT ADMINISTRATION

Total outstanding bonded debt of the district at June 30, 2019 amounted to \$96,718,574. The bonds mature at various dates to the year 2038. The district's bond rating is Aa2 based on Moody's Investors Service. This rating reflects the district's sound financial operations evidenced by healthy reserve and liquidity levels, diverse and expanding regional economy, but above average debt burden.

FINANCIAL PROSPECTS FOR FUTURE YEARS

The district's major revenue source is state aid followed by property tax revenue. Instruction remains the district's largest expenditure and is the expenditure which has seen the greatest favorable budget variances in recent years, due to retiring staff and lower-than anticipated operating expenditure increases. Enrollment trends are relatively stable, but additional growth towards the south end of the city has the potential to increase enrollment in the future. Enrollment is a key factor in calculating state revenue sources, which represent 53.01% of operating revenue. The district expects financial operations to remain healthy due to prudent budgeting, ample reserves and a diverse and expanding regional economy. While the current financial condition of the district is strong, careful planning and financing must be followed to ensure a stable future.

SIGNIFICANT EVENTS

As noted previously, the district is guided by the long-range facility plan. This plan details the long-term configuration of our educational facilities and identifies projects that need short term and long-term changes. Managing the district's investment in facilities is a major area of concern. Renovations and repairs are underway at various locations and construction will start on the Setting D project. The district will continue to maintain the quality and appropriate configuration of its facilities into the future while providing the best educational opportunities available.

REPORTING ACHIEVEMENT

The Association of School Business Officials International (ASBO) awarded the Certificate of Excellence in Financial Reporting to the district for its CAFR for the fiscal year ended June 30, 2018. This award is presented to governmental units that publish a CAFR that is easily readable, efficiently organized, and conforms to the program standards, as well as generally accepted accounting principles and applicable legal requirements. We believe this report will continue to meet those standards and requirements.

ACKNOWLEDGEMENTS

Preparation of this Annual Financial Report requires a great deal of work by many people. I acknowledge the efforts of the entire district office staff for their dedication and to the School Board for their encouragement and leadership.

INDEPENDENT AUDITOR’S REPORT

Board of Education of the City of Fargo
Fargo, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Board of Education of the City of Fargo, North Dakota, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Board of Education’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Board of Education of the City of Fargo, North Dakota, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the Board of Education of the City of Fargo’s 2018 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 19, 2019. In our opinion,

BOARD OF EDUCATION OF THE CITY OF FARGO

Independent Auditor's Report – Continued

the summarized comparative information presented herein as of and for the year ended June 30, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis, budgetary comparison schedule - general fund, schedule of employer's share of net pension liability and employer contributions, schedule of employer's share of net OPEB liability and employer contributions*, and the *notes to the required supplementary information* as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board of Education of the City of Fargo's basic financial statements. The *introductory section, combining and individual fund statements and schedules, schedule of expenditures of federal awards, and statistical section* is presented for purposes of additional analysis and are not a required part of the financial statements.

The *combining and individual fund statements and schedules, schedule of expenditures of federal awards* is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the *combining and individual fund statements and schedules, schedule of expenditures of federal awards*, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The *introductory and statistical sections* have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2019 on our consideration of the Board of Education of the City of Fargo's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board of Education of the City of Fargo's internal control over financial reporting and compliance.

BOARD OF EDUCATION OF THE CITY OF FARGO

Management's Discussion and Analysis
For the Year Ended June 30, 2019

As management of the Board of Education of the City of Fargo (also known as Fargo Public School District), we offer readers of the financial statements this narrative overview and analysis of the financial activities of the Fargo Public Schools for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished. The intent of this discussion and analysis is to look at the district's financial performance as a whole.

Financial Highlights

- The assets and deferred outflows of the Fargo Public School District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$20,117,426 (Net Position). Of this amount, (\$114,363,718) (unrestricted net position) being a negative number, it cannot be used to meet ongoing obligations.
- The Fargo Public School District's total net position decreased by \$1,560,194 as a result of the current year's operation.
- The Fargo Public School District's total revenues from all sources were \$185,921,877. Total expenses were \$187,482,071.
- At the close of the current fiscal year, The Fargo Public School District's governmental funds reported combined ending fund balances of \$57,336,642, an increase of \$7,348,469 in comparison with the prior year. Approximately 55.08% or \$31,581,692 is available for spending through an unassigned fund balance.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Fargo Public School District's basic financial statements. The Fargo Public School District's basic financial statements are comprised of three components:

1. Government-Wide Financial Statements
2. Fund Financial Statements
3. Notes to the Financial Statements

These financial statements are organized so the reader can more clearly understand the Fargo Public School District as a whole.

Government-Wide Financial Statements.

The government-wide financial statements are designed to provide readers with a broad overview of the Fargo Public School District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the Fargo Public School District's assets and deferred outflows of resources, and the liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Fargo Public School District is improving or declining.

The Statement of Activities presents information showing how the school district's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the school district that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges.

Figure 1, summarizes the major features of the district's financial statements, including portions of the district's activities covered and the types of information they contain. The remainder of this overview section of Management's Discussion and Analysis highlights the structure and contents of each of the statements.

Fund Financial Statements

A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The Fargo Public School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Fargo Public School District can be divided into three groups: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year.

Proprietary Funds

The Fargo Public School District maintains a proprietary fund to account for the financing of a self-insurance program available to employees. This account is used to accumulate and allocate costs internally on a cost-reimbursement basis

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of specific groups, and are not reflected in the government-wide financial statement because the resources of these funds are not available to support the Fargo Public School District

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the district's financial position. The district's net position is segregated into three categories: Net Investment in capital assets, Restricted and Unrestricted. These assets are not available for future spending. Although the Fargo Public School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets are not used to liquidate these liabilities. Restricted net position represents the district's resources that are subject to external restrictions on how they may be used. Unrestricted net position represents the remaining resources. The large negative unrestricted net position balance is solely due to the net pension and OPEB liability and related deferred inflows and outflows of resources. The pension and OPEB obligations are long term obligations that are not likely to ever be liquidated from unrestricted net position and are not obligated out of current resources to pay upcoming obligations. Not considering the effects of the pension items, the unrestricted net position would have decreased from the prior year and would be \$40,362,505. That amount of unrestricted net position is available to meet the district's ongoing obligations. We believe that amount of unrestricted net position, not considering the effects of pension and OPEB items, is sufficient to meet our ongoing obligations.

Management's Discussion and Analysis – Continued

Current assets increased mainly from an increase in cash from the sale of the 2018 Limited Tax School Building Bond. Capital assets increased because of construction in progress on the Discovery Middle school addition and security upgrades at three elementary schools. The deferred outflows of resources decreased with the change in differences between projected and actual earnings on pension and OPEB investments. Current liabilities increased as a result of higher accounts payable at year end and an increase in bond premiums. Long-term liabilities due within one year increased from higher amounts payable for bonds in the coming year. Long-term liabilities due outside one year increased due to higher payroll liabilities. Deferred inflows of resources increased as a result of the difference between expected and actual experience, difference between projected and actual investment earnings on pension and OPEB plans and the changes in proportion and differences between District contributions and the proportionate share of contributions. Net investment in capital assets decreased primarily from the increase in bond premium from the sale of the 2018 Limited Tax Bond. Restricted net position increased also as a result of the 2018 bond funds needed to complete the construction on the Discovery middle school.

Governmental activities decreased the Fargo Public School District's net position by \$1,560,194. Key elements of this decrease are as follows:

 Management's Discussion and Analysis – Continued

As a result of the 2017 Legislative Session, the district's funding pattern has changed from the prior twenty years, which relied heavily on property taxes rather than state sources. The new funding formula, established in the current biennium, places more emphasis on students rather than property. As a result, state per pupil aid increased while property taxes remained fairly stable. The cost of all governmental activities this year was \$187,482,071 compared to \$180,588,258 for the year ended June 30, 2018.

- Some of the cost was paid for by the users of the district's programs. (\$6,755,070).
- The Federal and State governments subsidized certain programs with grants and contributions (\$17,499,864 for operating purposes) and capital contributions of (1,221,250) were used for new football turf at South High School.
- Most of the district's revenues (\$160,445,693) were funded by district taxpayers and the taxpayers of the State of North Dakota, and is comprised of property taxes (\$60,350,847), state aid based on the statewide education aid formula (\$98,557,816), and with investment earnings and other general revenues (\$1,537,030).

The "Net Cost of Services" column is calculated by subtracting total program revenues from the expenses of each function. If the expenses of the district's functions surpass the program revenues, negative numbers result in the Statement of Activities, representing a net expense or net cost to the general public. These functions are generally dependent upon general-purpose revenues, including tax dollars. When program revenues exceed expenses, the resulting number is positive, representing net revenue to the general public, sometimes available to offset other program costs. The "positive" or "negative" numbers merely indicate whether a particular function relies on general revenues for financing or is a net contributor to the resources of the district. Because the district relies on property taxes and state aid as its primary funding sources, the total net cost of services will be a negative number.

GENERAL FUND

The General Fund includes the primary operations of the district in providing educational services to students from pre-school through grade 12. Over the last five years, the district's total student population has increased from 11,136 to 11,420. Fiscal year 2019 saw a 34 student increase in enrollment. Because of continuing strong development of new residential areas we anticipate that the total number of students will increase slightly or remain stable in the future.

The following schedule presents a summary of General Fund revenues.

	Year Ended June 30, 2019	Year Ended June 30, 2018	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Local Sources	\$ 52,715,159	\$ 49,494,266	\$ 3,220,893	6.51%
State Sources	102,695,246	102,407,881	287,365	.28%

Total General Fund Revenue	\$ 165,139,440	\$ 160,672,265	\$ 4,467,175	2.78%

During fiscal year 2019 the total General Fund revenue increased by \$4,467,175, or 2.78% from the previous year. Basic general education revenue is determined by a state per student funding formula and consists of a mix of property taxes and state aid revenue.

The following schedule presents a summary of General Fund expenditures.

	Year Ended June 30, 2019	Year Ended June 30, 2018	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Instruction	\$ 111,462,112	\$ 106,371,694	\$ 5,090,418	4.79%

Total General Fund Expenditures	\$ 158,494,195	\$ 153,664,001	\$ 4,830,194	3.14%

Total General Fund expenditures increased \$4,830,194 or 3.14% from the previous year. In fiscal year 2019, Instruction costs increased because of negotiated salary increases, along with increases in the required contributions to both TFFR (Teachers fund for Retirement) and the PERS (Public Employees Retirement System).

In fiscal year 2019, General Fund expenditures and other financing sources (uses) exceeded revenues by \$83,411, resulting in a total fund balance of \$31,852,867, compared to a fund balance in 2018 of \$31,936,278.

General Fund Budgetary Highlights

During the year there was a \$1,703,062 increase in appropriations between the original and final revenue (and Other Financing Sources/ Uses) budget and an increase of \$1,703,061 between the original and final expenditure budget. The actual revenue amount was less than the final budget by \$1,085,758. Most of this difference resulted from lower than projected Federal Grant receipts. The actual expenditure amount was less than the final budget by \$1,497,171. The difference in expenditures from the final budget compared to actual was mainly from lower than expected instructional costs.

The following graph shows the General Fund unassigned fund balance as a percentage of expenditures for the last five fiscal years.

The graph above is one of the best measures of overall financial health. The unassigned fund balance of \$31,581,692 at June 30, 2019 represents 19.93% of annual general fund expenditures. The Board of Education of the City of Fargo established a 10% fund balance goal several years ago to help with financial stability. It substantially modified that goal to 15% and has surpassed it since fiscal year 2002. This level provides sufficient unassigned resources to avoid short-term cash flow borrowing for the district.

DEBT SERVICE FUND

The Debt Service fund is included as a major fund for the Board of Education of the City of Fargo. This fund is used to make principal and interest payments on our bonds when due. The use of a debt service fund allows us to report principal, interest and other related costs separate from the ongoing operating activities of the general fund.

The following schedule presents a summary of Debt Service Fund revenues.

	Year Ended June 30, 2019	Year Ended June 30, 2018	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Local Sources	\$ 20	\$ 55	\$ (35)	(63.64)%

Total Debt Service Fund revenues decreased \$(35) or (63.64%) from the previous year. The reason for the decrease during fiscal year 2019 was lower interest earned on bond funds.

The following schedule presents a summary of Debt Service Fund expenditures.

	Year Ended June 30, 2019	Year Ended June 30, 2018	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Principal	\$ 7,405,749	\$ 6,942,969	\$ 462,780	6.67%
Interest	3,127,129	3,139,442	(12,313)	(.39)%
Total Debt Service Expenditures	\$ 10,532,878	\$ 10,082,411	\$ 450,467	4.47%

Total Debt Service Fund expenditures increased \$450,467 or 4.47% from the previous year. In fiscal year 2019, debt service expenditures increased due to normal debt retirement.

CAPITAL PROJECTS FUND

The Capital Projects fund is also a major fund for the Board of Education of the City of Fargo. This fund is where major capital acquisitions and construction are reported. The use of a capital projects fund allows us to report construction activities financed through bond borrowings separate from the ongoing operating activities of the general fund.

The following schedule presents a summary of Capital Projects Fund revenues and (other Financing Sources).

	Year Ended June 30, 2019	Year Ended June 30, 2018	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Local Revenues and Other Financing Sources	\$ 31,491,932	\$ 15,009,696	\$ 16,482,236	109.81%

Total Capital Projects Fund revenues (and Other Financing Sources/ Uses) increased \$16,482,236 or 109.81% from the previous year. The primary reasons for the increase during fiscal year 2019 was an increase in property tax collections and the sale of the \$14,000,000 2018 Limited Tax Bond.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2019, the Fargo Public School District had \$214,144,360 invested in capital assets, (net of accumulated depreciation). This investment includes land and land improvements, buildings and improvements, equipment and vehicles, and construction in progress.

BOARD OF EDUCATION OF THE CITY OF FARGO
 CAPITAL ASSETS (NET OF DEPRECIATION)

	2019	2018
Land and Land Improvements	\$15,268,098	\$15,268,098
Buildings and Improvements	182,987,183	187,055,760
Equipment and Vehicles	3,910,142	4,026,732
Construction in Progress	12,548,616	1,119,138
Total Capital Assets	\$214,714,039	\$207,469,728

Construction in Progress increased with the ongoing construction at Discovery Middle School and the security entrances at three of our elementary schools. Buildings and Improvements decreased due to depreciation. More detailed information about capital assets can be found in Note 5 to the financial statements.

Long-Term Liabilities

At the end of the current fiscal year, the district had \$281,392,322 in long-term liabilities. Of this amount, \$97,383,968 is long-term debt, \$14,542,047 of which is the current liability due within one year, and consists of bonds payable and special assessments payable. The Fargo Public School District increased its existing debt obligations by \$6,576,354. The key factor for this increase is the sale of the 2018 Limited Tax Bond for \$14,000,000. More detailed information about the district's long-term liabilities is presented in Note 10 to the financial statements

Economic Factors and Next Year's Budget

Fargo Public Schools considered many factors when setting the fiscal year 2019-2020 budget. The district's economic position has remained relatively constant. With a specified mill levy up to 127 mills, of which currently 126.78 mills are levied, taxable property valuation will increase 4.7% from the prior year. The local economy is strong and the City of Fargo continues to grow in population. Demographic analysis of the district's student population displays growth of approximately 85 students for the upcoming year.

One of the district's primary sources of revenue is from the State of North Dakota and is based on a per pupil payment funding formula. While the per pupil funding remained flat the previous three years, the 2019 legislative session provided a 2% increase in the rate for 2020 and 2021, or \$9,839 and \$10,036, respectively. Federal revenues will remain constant.

During fiscal 2019, Community task forces which focused on supporting the behavioral needs of students in a least restrictive environment, early childhood special education programming, and the District's building capacity and usage brought forth many suggestions from our stakeholders regarding the future of the District. There is an increasing need to provide appropriate supports for special needs students, both at the early childhood stage and throughout their elementary and secondary school years. The District will be exploring options to provide these services while keeping a focus on utilizing existing resources, whether through additional buildings or within space available internally.

We will continue to work diligently to focus efforts on efficiencies and strong fiscal stewardship as we look forward to our future of educating and empowering all students to succeed.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position
June 30, 2019

Total Fund balances for Governmental Funds \$ 57,336,642

Total net position reported for government activities in the statement of net position is different because:

Capital assets used in governmental activities are not financial resources and are not reported in the governmental funds.

Cost of Capital Assets	\$ 297,665,697	
Less: Accumulated Depreciation	<u>(82,951,658)</u>	214,714,039

Property taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and therefore are reported as uncollected revenues in the funds.

3,796,211

Contracts receivable are amounts due from the park district which will be collected in future years. They are reported as uncollected revenue in the governmental funds.

1,370,000

Deferred outflows and inflows of resources related to pensions and OPEB are applicable to future periods and, therefore, are not reported in the governmental funds.

Deferred Outflows derived from Pension and OPEB Items	\$ 34,482,379	
Deferred Inflows derived from Pension and OPEB Items	<u>(10,065,028)</u>	24,417,351

Long-term liabilities applicable to the School District's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net position.

Balances at fiscal year end are:

Long-Term Debt (Net)	\$ (101,994,500)	
Interest Payable	(1,229,999)	
Long-Term Payroll Liabilities	(4,864,780)	
Net Pension and OPEB Liability	<u>(179,143,574)</u>	(287,232,853)

An Internal service fund is used by the School District to charge the cost of medical insurance, worker's compensation insurance and unemployment claims to individual functions. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net assets. Internal service fund net position is:

5,716,036

Total Net Position of Governmental Activities \$ 20,117,426

BOARD OF EDUCATION OF THE CITY OF FARGO

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2019

Net Change in Fund Balances - Total Governmental Funds \$ 7,348,469

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current year.

Current Year Capital Outlay	13,168,611	
Current Year Depreciation	(5,911,090)	
Loss on Disposal of Capital Assets	<u>(13,210)</u>	7,244,311

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements
For the Year Ended June 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education of the City of Fargo have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the school district's accounting policies are described below.

A. Reporting Entity

The accompanying financial statements present the activities of the Board of Education of the City of Fargo. The school district has considered all potential component units for which the school district is financially accountable and other organizations for which the nature and significance of their relationships with the school district such that exclusion would cause the school district's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the Board of Education of the City of Fargo to impose its will on the organization or (2) the potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Board of Education of the City of Fargo.

Based on these criteria, there is one component unit to be included within the Board of Education of the City of Fargo as a reporting entity.

BLENDING COMPONENT UNIT

This component unit is a legally separate entity, which provides services exclusively to the school.

Fargo School District Building Authority – The building authority was created by the school board as a legally separate entity. Its purpose is to promote the educational system of the district by providing financing for use by the school in altering, repairing, maintaining or constructing buildings and making improvements connected to school buildings. The School Board, Superintendent and Business Manager make up the governing board of the building authority. Activity of the Building Authority is recorded in the debt service and capital projects funds. Financial statements for the component unit may be obtained at the Fargo Public School District Office.

B. Basis of Presentation, Basis of Accounting

Government-wide statements: The statement of net position and the statement of activities display information about the primary government, the Board of Education of the City of Fargo. These statements include financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the school district's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the school district's funds including fiduciary funds. Separate statements for each fund category: governmental, proprietary and fiduciary are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The school district reports the following governmental funds:

General Fund. This is the school district's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund. This fund is used to account for financial resources that are restricted, committed or assigned for the payment of principal, interest and fees on outstanding bonds.

Capital Projects Fund. This fund is used to account for financial resources that are restricted, committed or assigned for the acquisition or construction of major capital facilities.

Additionally, the school district reports the following fund types:

Internal Service Fund. This fund accounts for medical insurance, workers' compensation insurance and unemployment claims provided to other departments on a cost-reimbursement basis.

Agency Funds. This fund accounts for assets held by the school district in a custodial capacity as an agent on behalf of others. The school district's agency fund is used to account for various deposits of the student activity funds.

C. Measurement Focus and Basis of Accounting

Government-wide, Proprietary and Fiduciary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The fiduciary funds are agency funds. The government-wide, proprietary and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the school district gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The school district considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. All revenues are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the school district funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both a restricted and unrestricted net position available to finance the program. It is the school district's policy to first apply cost-reimbursement grant resources to such programs, and then use general revenues.

D. Budgets

Based upon available financial information and requests by the school board, the business manager prepares the school district budget. The budget is prepared for the general, special revenue, debt service

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

and capital projects funds on the modified accrual basis of accounting. The budget includes the proposed expenditures and the means of financing them. All annual appropriations lapse at year-end.

School district taxes must be levied by the governing board on or before the fifteenth day of August. The taxes levied must be certified to the county auditor by August 25. The governing body of the school district may amend its tax levy and budget for the current fiscal year on or before the tenth day of October of each year, but the certification must be filed with the county auditor by October 10. The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared.

Encumbrance accounting is employed in governmental funds. Encumbrances, which are comprised of purchase orders, outstanding at year-end, are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated during the subsequent fiscal year.

E. Cash and Investments

Cash includes amounts in demand deposits and money market accounts. Cash equivalents consist of deposits with a maturity of three months or less. Deposits must either be deposited with the Bank of North Dakota or in another financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the uninsured balance. The bank balances of the district, as of the balance sheet date, are entirely insured or collateralized with securities held by the school system or its agent in the school system’s name.

Investments consist of certificates of deposit stated at cost and government securities for the building authority stated at fair value. Although all deposits of the district are categorized as Category 1, readers should be aware of the three categories of disclosure required for investments and deposits.

Category	Investments	Deposits
1	Insured or registered or securities held by the entity or its agent in the entity’s name.	Insured or collateralized, with securities held by the entity or by its agent in the entity’s name.
2	Uninsured and unregistered, with securities held by the counterparty’s trust department or agent in the entity’s name.	Collateralized, with securities held by the pledging financial institution’s trust department or agent in the entity’s name.
3	Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the entity’s name (this includes the portion of the carrying amount of any repurchase agreement that exceeds the market value of the underlying securities).	Uncollateralized (this includes any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the entity’s name).

F. Inventories

The district accounts for the inventory of the general and food service funds using the consumption method. Under this method inventories are initially recorded as assets and the recognition of the expenditure is deferred until the period in which the inventories are consumed. Donated food commodities are reported in the governmental funds as Food Service commodity inventory when received. Inventories are valued on the FIFO (first in first out) cost basis.

The valuation of food service commodity inventory is established by the USDA and provided to the district. Commodity inventory of \$19,821 was reported as unearned revenue at June 30, 2019.

G. Capital Assets

Capital assets, which include land and land improvements, buildings and improvements, vehicles and equipment, and construction in progress, are reported in the applicable governmental or business-type

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Donated capital assets are measured at acquisition value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Buildings and improvements, and vehicles and equipment of the district are depreciated using the straight line method over the following estimated useful lives.

Assets	Years
Permanent Buildings	50
Temporary or Wood Structures	10
Playground Equipment	20
Vehicles - New	15
Vehicles - Used*	
Includes: Generators	
Tractors	
Pallet Stackers	
Exception: Front End Loaders	25
Copy Machines	6
Servers and Computer Hardware	5
Other Equipment	10
Includes: Food Service Equipment,	
Walk in Freezers, Auto	
Scrubbers, and Stage	
Tables	

* Useful life on used vehicles is 15 years less (year of manufacture less year of purchase).

Land and Construction in Progress are not depreciated.

H. Compensated Absences

Vacation:

Vested or accumulated vacation leave is reported in the government-wide statement of net position. Compensation for unused vacation leave is granted to all 12-month employees upon termination of employment with the school district based on their current rate of pay. Twelve-month employees may carry forward unused leave not to exceed 5 days, which will be added to the accumulation for the current year. Vacation leave is earned as follows:

SERVICE	HOURS PER BI-WEEKLY PAY PERIOD	DAYS PER YEAR
0 – 11 Months	3.08	10
1 year through 5 years 11 months	4.31	14
6 years through 11 years 11 months	5.23	17
12 years through 14 years 11 months	6.15	20
15 years and above	6.77	22

Personal Leave:

Teachers and OT/PT's (occupational therapists and physical therapists) will receive three personal days per year which may accumulate to a maximum of six days, prorated to the length of the employee's work day. Other nine and ten month employees are also entitled to three personal days per year, prorated to the length of the employee's work day, which may accumulate to a maximum of six days. Employees may request payment for unused personal leave. Payment will be based on contracted daily hours at their current salary step for each personal day accumulated.

Sick Leave:

Sick leave benefits are provided to all employees who are employed for four or more hours per day. All twelve month employees receive 15 days per year. Teachers, OT/PT's, and all other nine and ten month employees, receive twelve days per year. Sick leave benefits are prorated on the basis of the number of months of employment for employees whose employment starts at other than the normal starting date. Under the prior Teacher and OT/PT contract, two categories of sick leave were established, Legacy Sick Leave and Sick Leave. Any unused accumulated sick leave at the end of the 2010-2011 school year was reclassified as Legacy Sick Leave. Employees who were employed prior to this date may have a balance of Legacy Sick Leave. Legacy Sick Leave benefits could accumulate up to a maximum of 180 days for regular district employees, and 246 days for administrators. Sick days taken during the 2011-2012 fiscal year and forward will be taken from the Legacy Sick Leave balance first, if available. When the employees Legacy Sick Leave balance is reduced to zero, the days will then come off of their Sick Leave balance. Starting with the 2012 contract, an employee's sick leave will be added to their Sick Leave category, not the Legacy Sick Leave. Any unused sick leave can accumulate year after year with unlimited accumulation. In accordance with provisions of Statement of Financial Accounting Standards No. 43, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits for regular employees. A liability has been recorded for Teachers and OT/PT's who have the option to sell back some or all of their next year's sick leave credit (no more than the number of days to be earned) once they have accumulated a minimum of 65 days. Support staff also have this option once a minimum of 90 days, (Legacy and/or Sick Leave combined) has been accumulated. Employees who elect to sell back their coming year's sick leave days, over the 65/90 day minimum, are making an irrevocable election to do so and will be paid for them at 50% of their current daily rate in January of the following year.

Emergency Leave:

Nine and ten month employees working four or more hours per day, earn two days of emergency leave per year. Teachers working half-time or more also accrue two days of emergency leave per year. Teachers working less than half of the annual employment period shall receive one-half of the allotted emergency leave. Twelve month employees earn 3 days of emergency leave per year. Emergency leave will accumulate to a maximum of twelve days for all employees.

I. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Fund for Retirement (TFFR) and the North Dakota Public Employees Retirement System (NDPERS), and additions to/deductions from TFFR's and NDPERS' fiduciary net position have been determined on the same basis as they are reported by TFFR and NDPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

J. Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS), and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefits payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

K. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position and are paid out of the capital projects fund and general fund respectively. Bond premiums and discounts are recognized as long-term and amortized using the straight-line method over the life of the bonds. Bond issuance costs are expensed as they incur.

In the fund financial statements, governmental fund types recognize bond premiums, discounts and issuance costs in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

L. Fund Balance

Fund Balance Spending Policy:

It is the policy of the Board of Education of the City of Fargo to spend restricted resources first, followed by unrestricted resources. It is also the policy of the Board to spend unrestricted resources of funds in the following order: committed, assigned and then unassigned.

Minimum Fund Balance Policy:

The Board of Education of the City of Fargo established a 10% general fund carryover balance goal several years ago to help with financial stability. It substantially modified that goal to 15% and has surpassed it since fiscal year 2002. This level provides sufficient unassigned resources to avoid short-term cash flow borrowing for the district. The unassigned general fund balance of \$31,581,692 at June 30, 2019 represents 19.93% of annual general fund expenditures.

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

CLASSIFICATION	DEFINITION	EXAMPLES
Nonspendable	Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.	Inventories, prepaid amounts (expenses), long-term receivables, permanent principal of endowment funds.
Restricted	Fund balance is reported as restricted when constraints are placed on the use of resources that are either (a) Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments. (b) Imposed by law through constitutional provisions or enabling legislation.	Funds restricted by State Statute, unspent bond proceeds, grants earned but not spent, debt covenants, taxes raised for a specific purpose and revenues restricted by enabling legislation.
Committed	<i>A committed fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the School District Board of Directors. Formal action is required to be taken to establish, modify or rescind a fund balance commitment.</i>	<i>By board action, construction, claims and judgments, retirements of loans and notes payable, capital expenditures and self-insurance.</i>
Assigned	Assigned fund balances are amounts that are constrained by the government's intent to be used for specific purposes, but are under the direction of the business manager.	By business manager action, construction, claims and judgments, retirements of loans and notes payable, capital expenditures and self-insurance.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

Unassigned	Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. (a) The General Fund is the only fund that can report a positive unassigned fund balance. (b) A negative unassigned fund balance may be reported in other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes	Available for any remaining General fund expenditure.
------------	--	---

M. Net Position:

When both restricted and unrestricted resources are available for use, it is the School District’s policy to use restricted resources first, then unrestricted resources as they are needed.

Net investment in capital assets is reported for capital assets less accumulated depreciation, as well as net of any related debt used to purchase or finance capital assets. The resources needed to repay this related debt must be provided from other sources, since the capital assets are not used to liquidate these liabilities. These assets are not available for future spending.

Restrictions of net position, shown in the Statement of Net Position, are due to restricted tax levies and bond indenture requirements for our capital projects and debt service.

Unrestricted net position is primarily unrestricted amounts related to the general fund and the large negative balance of the net pension and OPEB liability and is the portion of that is not restricted or reported as net investment in capital assets.

N. Interfund Transactions

In the governmental fund statements, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transfers are reported as transfers.

In the government-wide financial statements, interfund transactions have been eliminated.

NOTE 2: DEPOSITS AND INVESTMENTS

Deposits:

In accordance with North Dakota Statutes, the Fargo Public School District maintains deposits at the depository banks designated by the governing board. All depositories are members of the Federal Reserve System.

Deposits must either be deposited with the Bank of North Dakota or in other financial institutions situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes, or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, Federal Land Bank bonds, bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investment companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the State of North Dakota, its boards, agencies or instrumentalities or by any county,

city, township, school district, park district, or other political subdivision of the State of North Dakota, whether payable from special revenues or supported by the full faith and credit of the issuing body and bonds issued by another state of the United States or such other securities approved by the banking board.

At the year ended June 30, 2019, the Fargo Public School District's carrying amount of all deposits, (less investments of \$20,000,000 and \$1,623 in petty cash held at the schools), was \$47,772,017 and the bank balances were \$48,917,521. Of the bank balances, \$38,146,166 was covered by Federal Depository Insurance. The remaining balances are collateralized with securities held by the pledging financial institution's agent in the school district's name.

Additional information on deposits is located in Note 1E.

Investments:

As of June 30, 2019 the school district had the following investments and maturities:

Investment Type	Fair Value	Rate	Maturity
Repurchase Agreement-Bremer Bank	\$ 5,000,000	2.62%	258 Days
Repurchase Agreement-Bremer Bank	5,000,000	2.58%	73 Days
Repurchase Agreement-Bremer Bank	5,000,000	2.58%	73 Days
Repurchase Agreement-First International Bank	5,000,000	2.50%	74 Days
Total	\$ 20,000,000		

The interest receivable reported is the amount of interest that has been earned, but which has not yet been received in cash, on the certificates of deposit with Bremer Bank and First International Bank.

Cash with Fiscal Agent:

The amount of \$6,244,274 reported in the financial statements at June 30, 2019, consists primarily of debt proceeds placed in an irrevocable trust with US Bank, to refund the 2033 maturity and a portion of the 2032 maturity of the Series 2014 limited tax bond on August 1, 2019, the redemption date.

Interest Rate Risk:

The school district does not have a formal investment policy that limits investments as a means of managing its exposure to fair value losses arising from changing interest rates.

Credit Risk:

State statutes authorize the school district to invest in:

- (1) Bonds, treasury bills and notes, or other securities that are a direct obligation insured or guaranteed by, the Treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of Congress.
- (2) Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above.
- (3) Certificates of deposit fully insured by the Federal Deposit Insurance Corporation or by the state.
- (4) Obligations of the state.
- (5) Certificates of deposit fully insured or guaranteed by the federal deposit insurance corporation and placed for the benefit of the public depositor by a public depository through an appropriate reciprocal deposit placement service as determined by the commissioner of financial institutions.

As of June 30, 2019, the school district had certificates of deposits totaling \$20,000,000.

Concentration of Credit Risk:

The school district does not have a limit on the amount the district may invest in any one issuer.

NOTE 3: TAXES RECEIVABLE

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments and the second installment is the balance of the real estate taxes due. The first installment is due March 1 and the second installment is due by October 15. A 5% discount on property taxes is allowed if all taxes and special assessments are paid by February 15. After the October 15th due date, the bill becomes delinquent and penalties are assessed.

NOTE 4: PREPAID EXPENSES

A prepaid expense is an expense that is paid for in the current accounting period, but for which the underlying asset will not be entirely consumed until a future period. The district accounts for prepayments using the consumption method. The district prepays health, dental and vision insurance premiums.

Donated assets are categorized using the valuation techniques shown below that determine their value using the three fair value hierarchical levels:

Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, we will measure its value using another valuation

technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs.

Although all donated capital assets of the district are categorized as Level 1, readers should be aware of the three categories of disclosure required for the fair value hierarchy.

The Fargo Public School District issued the \$14,000,000 Limited Tax School Building Bonds, Series 2018, dated August 1, 2018, for the purpose of renovating, remodeling and expanding Discovery Middle School. The average bond interest cost is 4.413% with an effective true interest cost of 3.204%. In June of 2019 a good faith deposit of \$180,850 was received on a 2019 Limited Tax Refunding Bond that will be issued in July of 2019. This was recorded as unearned revenue until the entire amount of bond proceeds have been received.

The Fargo Public School District's current bond rating by Moody's is Aa2 based on the District's participation in the North Dakota School District Credit Enhancement Program.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

Prior year defeasance of debt:

In prior years, the school district defeased limited tax bonds by placing the proceeds of advanced refunded bonds in an irrevocable trust with U.S. Bank for the purpose of generating resources for all future debt service payments on the old bonds. Accordingly, the trust assets and liabilities for the defeased bonds are not included in the district’s financial statements. At June 30, 2019, \$6,244,274 remains in trusts at U.S. Bank to advance refund a portion of the August 1, 2032 principal and all of the August 1, 2033 principal due on the 2014 Limited Tax Bond. On August 1, 2019 the funds will be applied to the principal of the 2014 Limited Tax Bond. Any remaining funds will be applied to the 2017 Lease Revenue Refunding bond principal due.

Changes in Long-Term Liabilities

The liability for Compensated absences, Sick leave longevity payable, PTO payable and Paid-leave system payable are generally liquidated by the General Fund and Food Service Funds. Bonds and Special Assessments are paid out of the Debt Service Fund.

NOTE 11: DEFERRED INFLOWS / OUTFLOWS OF RESOURCES

Deferred inflows of resources in the balance sheet represent uncollected taxes receivable and uncollected contracts receivable in the fund financial statements for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, uncollected taxes receivable and uncollected contracts receivable are measurable but not available. Deferred inflows of resources in the Statement of Net Position represent the changes of assumptions, net difference between projected and actual investment earnings on pension plan investments and changes in proportion and differences between District contributions and the proportionate share of contributions. The deferred outflows of resources in the Statement of Net Position represent the differences between expected and actual experience, changes of assumptions, changes in proportion and differences between District contributions and proportionate share of contributions and the District contributions subsequent to the measurement date.

NOTE 12: PENSION PLANS

General Information about the TFFR Pension Plan

North Dakota Teachers' Fund for Retirement (TFFR)

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum

option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65 or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65 or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches a 100% funded ratio on an actuarial basis.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70 ½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Fargo Public Schools reported a liability of \$138,884,706 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The district’s proportion of the net pension liability was based on the district’s share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At June 30, 2018, the district’s proportion was 10.42006522%, which was an increase of .00910287% from its proportion measured as of June 30, 2017.

Thereafter	(399,427)

Actuarial Assumptions

The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary Increases	4.25% to 14.50%, varying by service, including inflation and productivity
Investment Rate of Return	7.75%, net of investment expenses
Cost-Of-Living Adjustments	None

For active and inactive members, mortality rates were based on the RP-2014 Employee Mortality Table, projected generationally using Scale MP-2014. For healthy retirees, mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table set back one year, multiplied by 50% for ages under 75 and grading up to 100% by age 80, projected generationally using Scale MP-2014. For disabled retirees, mortality rates were based on the RP-2014 Disabled Mortality Table set forward four years.

The actuarial assumptions used were based on the results of an actuarial experience study dated April 30, 2015. They are the same as the assumptions used in the July 1, 2018 funding actuarial valuation for TFFR.

As a result of the April 30, 2015 actuarial experience study, the TFFR Board adopted several assumption changes, including the following:

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equities	58%	6.70%
Global Fixed Income	23%	1.50%
Global Real Assets	18%	5.10%
Cash Equivalents	1%	.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2018, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2018. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2018.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount rate.

The following presents the district’s proportionate share of the net pension liability as of June 30, 2018, June 30, 2017, June 30, 2016, June 30, 2015 and June 30, 2014, calculated using the discount rate of 7.75%, as well as what the district’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

District’s Proportionate Share of the Net Pension Liability by Date	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in the separately issued TFFR financial report, located in the North Dakota Retirement and Investments Office’s Comprehensive Annual Financial Report for the fiscal year ended June 30, 2018. Additional financial and actuarial information is available on their website, www.nd.gov/rio/sib/publications/cafr/default.htm, or may be obtained by writing to ND Retirement and Investment Office, 3442 East Century Avenue, PO Box 7100, Bismarck, North Dakota, 58507-7100 or by calling (701) 328-9885.

General Information about the NDPERS Pension Plan

North Dakota Public Employees Retirement System (NDPERS) (Main System)

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to North Dakota Century Code (NDCC) Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired

public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

Pension Benefits

Benefits are set by statute. NDPERS has no provision or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition of disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently re-employed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of salaries and wages. Member contribution rates are 7% and employer contributions rates are 7.12% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25 and the maximum may not exceed the following:

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Board of Education of the City of Fargo reported a liability of \$38,568,989 for its proportionate share of net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The district’s proportion of the net pension liability was based on the district’s share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2018, the district’s proportion was 2.285422 percent, which is an increase of .093102 percent from its proportion measured as of June 30, 2017.

Actuarial Assumptions

The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases:

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost Scale from 2014. For disabled retirees, mortality rates are based on the RP-2000 Disabled Retiree Mortality Table, set back one year for males (no setback for females) multiplied by 125%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic real rates of return, for each major asset class included in the pension plan's target asset allocation are summarized in the following table.

Domestic Equity	30%	6.05%
International Equity	21%	6.71%
Private Equity	7%	10.20%

Discount Rate

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension liability. This rate considers the ability of the System to

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, which is the case for the PERS plan, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.75%; the municipal bond rate is 3.62%; and the resulting Single Discount Rate is 6.32%.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount rate.

The following presents the district’s proportionate share of the net pension liability calculated using the discount rate of 6.32 percent, as well as what the district’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.32 percent) or 1-percentage-point higher (7.32 percent) than the current rate.

General Information about the OPEB Plan

North Dakota Public Employees Retirement System OPEB Plan

The following brief description of NDPERS OPEB plan is provided for general information purposes only. Participants should refer to NDAC Chapter 71-06 for more complete information.

NDPERS OPEB plan is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits from the Public Employees Retirement System (PERS), the Highway Patrol Retirement System (HPRS), and Judges retired under chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

OPEB Benefits

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. The employer contribution for employees of the state board of career and technical education is 2.99% of covered compensation for a period of eight years ending October 1, 2015. Employees participating in the retirement plan as part-time/ temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "prefunded credit applied" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

Retiree health insurance credit benefits and death and disability benefits are set by statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the PERS, the HPRS, the Defined Contribution Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving a surviving spouse benefit or if the member selected a joint and survivor option are eligible to receive a credit toward their monthly health insurance premium under the state health plan.

Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. The benefits are equal to \$5.00 for each of the employee's, or deceased employee's years of credited service not to exceed the premium in effect for select coverage. The retiree health insurance credit is also available for early retirement with reduced benefits.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the Board of Education of the City of Fargo reported a liability of \$1,689,879 for its proportionate share of net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The district's proportion of the net OPEB liability was based on the district's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2018, the district's proportion was 2.145693 percent, which was an increase of .076983 percent from its proportion measured as of June 30, 2017.

Discount Rate

The discount rate used to measure the total OPEB liability was 7.50 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumes that member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2018, and July 1, 2017, HPRS Actuarial Valuation Reports. For this purpose, only district contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected district contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the District’s Proportionate Share of the Net OPEB Liability to Changes in the Discount rate.

The following presents the district’s proportionate share of the net OPEB liability of the Plans as of June 30, 2018, calculated using the discount rate of 7.50 percent, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate.

District’s Proportionate Share of the Net Pension Liability by Date	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
June 30, 2019	\$ 2,138,102	\$ 1,689,879	\$ 1,305,536

NOTE 14: POST-RETIREMENT BENEFITS EARLY RETIREMENT AGREEMENT

EARLY RETIREMENT AGREEMENT

The Board of Education of the City of Fargo offers early retirement payments to employees under Administrative Policy 5452 “Longevity Recognition Payment”. Under Administrative Policy 5452 all full time or part time benefitted employees are eligible for a one-time payment based on the number of accumulated legacy sick leave days the employee has at the time of their termination of employment. The two criteria required for the payment are:

1. The employee will be eligible to participate in this plan after 15 years of continuous service to the Fargo Public Schools in a benefitted position.
2. The employee has been determined eligible for normal retirement benefits as defined by either NDPERS or TFFR. Normal retirement benefits are defined as being age 65 or older, or having met the rule of 85.

The payment will be computed based on the employee’s number of accumulated legacy sick leave days at the time of termination of employment in the following manner:

1. At 15 years of service, assuming all eligibility criteria have been met, the employee will receive 80% of this payment.
2. For each subsequent year, the payment will increase by 2% through the 25th year of service, at which time the employee will receive 100% of this payment.
3. All payments for those with 15 years of service and beyond will be \$50.00 per legacy sick day.
4. Grandfather clause: Any benefitted employee who is eligible for full retirement benefits through NDPERS or TFFR as of 7/1/2013 will have payments calculated at the 2013-2014 level of \$200.00 per day upon retirement from the District.

For the year ended June 30, 2019 the school district had 32 employees who received this benefit at a cost to the school district of \$ 393,603.

NOTE 15: RISK MANAGEMENT

The Board of Education of the City of Fargo is exposed to various risks of loss relating to torts; theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters.

In 1986 state agencies and political subdivisions of the State of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The school district pays an annual premium to NDRF for its general liability, automobile insurance coverage and inland marine. The coverage by NDRF is limited to losses of five million dollars per occurrence for general liability and five million dollars per occurrence for automobile coverage. Mobile contractor’s equipment is limited to losses of \$1,234,519. Computerized business equipment \$4,167,944. Buildings are limited at \$424,929,321, personal property at \$38,116,526 and band equipment at \$ 3,053,238.

The State Bonding Fund currently provides the school district with blanket fidelity bond coverage in the amount of \$2,000,000 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

The school district has worker’s compensation with the Workforce Safety and Insurance and purchases commercial insurance for personal property, building, inland marine, and boiler and machinery.

The school district has retained risk for employee health and dental insurance up to a maximum of \$200,000 per year per individual. They have purchased a stop loss policy for amounts in excess of 120% of expected claims.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Financial Statements – Continued

No reductions in insurance coverage in any major category of risk have occurred and there have been no settlements in excess of insurance coverage in any of the three prior years.

Claims, which have been incurred at year-end but not reported, have been recorded as a claim reserve payable in the amount of \$1,486,000. Blue Cross Blue Shield, the plan administrator, has calculated this reserve requirement. Changes in the claim reserve payable during the past two years are as follows:

	Year Ended 6/30/19	Year Ended 6/30/18
Unpaid Claims July 1	\$ 1,486,000	\$ 1,204,000
Incurred Claims Including IBNR's	15,530,938	14,748,053
Less: Claims Paid	14,943,181	14,466,053
Unpaid Claims June 30	\$ 2,073,757	\$ 1,486,000

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 16: CONSTRUCTION COMMITMENTS

The school district had eight construction projects remaining as of June 30, 2019. Discovery middle school is adding on and remodeling. Lincoln, Clara Barton and Longfellow schools are adding security entrances for the safety of all our students and employees. Centennial elementary is replacing a portion of their roof after a collapse last winter during a snowstorm. South high school and Eagles elementary are a combined reroofing project. Lewis and Clark elementary is replacing millwork and Davies high school is replacing bathroom plumbing.

At year-end the district's commitments with contractors were as follows:

Project	Contract	Completed	Retainage	Commitment
Discovery Addition & Renovation	\$ 12,266,527	\$ 11,009,345	\$ 969,592	\$ 2,226,774
Lincoln Security Entrances	903,677	265,995	20,404	658,086
Clara Barton Security Entrances	1,660,123	121,765	2,022	1,540,380
Longfellow Security Entrances	1,247,518	154,810	4,683	1,097,391

South and Eagles Reroofing	359,131	128,199	5,494	236,426
Lewis and Clark Millwork	136,376	70,402	4,768	70,742
Davies Plumbing Fixtures	59,268	44,508	4,760	19,520
TOTALS	\$ 16,967,476	\$ 12,049,974	\$ 1,026,826	\$ 5,944,328

NOTE 17: TRANSFERS

The following is a reconciliation between transfers in and transfers out as reported in the financial statements for the year ended June 30, 2019:

Fund	Transfers In	Transfers Out	Explanation
Major Funds			
General Fund	\$ 350,000	\$ 7,093,415	To finance programs in other funds and eliminate deficits
Debt Service	10,532,838	-	Bond principal & interest transfers
Capital Projects Fund	5,052,926	12,641,248	Bond principal & interest transfers
Nonmajor Funds			
Student Activities	4,112,039	-	Eliminate deficits
Food Service	36,860	350,000	Reimburse expenses paid by General Fund
Total Transfers	\$ 20,084,663	\$ 20,084,663	

Transfers are used to move revenues from the fund with collection authorization to the debt service funds as principal and interest payments become due, to close out old debt service funds and to move unrestricted fund revenues to finance various programs that the school district must account for in other funds.

NOTE 18: CONTINGENT LIABILITIES

The School District is a defendant in various lawsuits incident to its operations. In the opinion of the School District Counsel and management, such claims against the District not covered by insurance would not materially affect the financial condition of the School District.

NOTE 19: TAX ABATEMENTS

Cass County and certain political subdivisions within the county can negotiate property tax abatement agreements with individuals and various commercial entities/businesses. Cass County and the political subdivisions within have the following types of tax abatement agreements with various individuals and commercial entities at December 31, 2018.

The school district will state individually the parties whom received a benefit of the reduction in taxes of 20% or greater when compared to the total reduction of taxes for all tax abatement programs.

New and Expanding Business:

Businesses that are primarily industrial, commercial, retail or service are eligible for property tax incentives for new and expanding businesses if they meet state requirements (NDCC 40.57.1-03) and the guidelines stated below.

The following criteria are only guidelines.

The governing body may also grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements used in or necessary to the operation of a project that produces or manufactures a product from agricultural commodities for all or part of the sixth year through the tenth year from the date of commencement of project operations. As a result of agreements made by the County and City, the school district had a reduction in taxes as noted.

2018 Reduction in Taxes – Due to Agreements with Other Entities:

Total program reduction in taxes – \$115,569

Public Charity Exemption:

Public Charities are eligible for property tax incentives if they meet state requirements (NDCC 57-02-08(8)) and the guidelines stated below. The following criteria are only guidelines.

All buildings belonging to institutions of public charity, including public hospitals and nursing homes licensed pursuant to section 23-16-01 under the control of religious or charitable institutions, used wholly or in part for public charity, together with the land actually occupied by such institutions not leased or otherwise used with a view to profit. The exemption provided by this subsection includes any dormitory, dwelling, or residential-type structure, together with necessary land on which such structure is located, owned by a religious or charitable organization recognized as tax exempt under section 501(c)(3) of the United States Internal Revenue Code which is occupied by members of said organization who are subject to a religious vow of poverty and devote and donate substantially all of their time to the religious or charitable activities of the owner.

Exemption criteria:

Property exempt if the qualified facility is used wholly or in part for public charity, together with the land occupied by such institutions not leased or otherwise used with a view to profit.

As a result of agreements made by the County and City, the school district had a reduction in taxes as noted.

2018 Reduction in Taxes – Due to Agreements with Other Entities:

Total program reduction in taxes – \$3,802,184

Single Family Residence:

Single Family property owners are eligible for property tax incentives for the specified property that meet state requirements (NDCC 57-02-08(35)). General Criteria -- Up to one hundred fifty thousand dollars of the true and full value of all new single-family and condominium and townhouse residential property, exclusive of the land on which it is situated, is exempt from taxation for the first two taxable years after the taxable year in which construction is completed and the residence is owned and occupied for the first time if all the following conditions are met:

a. The governing body of the city, for property within city limits, or the governing body of the county, for property outside city limits, has approved the exemption of the property by resolution. A resolution adopted under this subsection may be rescinded or amended at any time. The governing body of the city or county may limit or impose conditions upon exemptions under this subsection, including limitations on the time during which an exemption is allowed.

b. Special assessments and taxes on the property upon which the residence is situated are not delinquent.

As a result of agreements made by the County and City, the school district had a reduction in taxes as noted.

Changes of Assumptions

Amounts reported in 2016 and later reflect the following actuarial assumption changes based on the results of an actuarial experience study dated April 30, 2015:

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

Changes of Assumptions

Amounts reported in 2018 reflect actuarial assumption changes effective July 1, 2018 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

The notes to the required supplementary information are an integral part of this statement.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Required Supplementary Information
For the Year Ended June 30, 2019

NOTE 1: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information:

The Board of Education adopts an annual budget on a basis consistent with accounting principals generally accepted in the United States for the general fund, special revenue funds, debt service funds and capital project funds.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- The annual budget must be prepared and school district taxes must be levied on or before the fifteenth day of August of each year.
- The taxes levied must be certified to the county auditor by August twenty-fifth. The governing body of the school district may amend its tax levy and budget on or before the tenth day of October of each year but the certification must be filed with the county auditor within the time limitations as outlined in NDCC 57-15-31.1.
- The operating budget includes proposed expenditures and means of financing them.
- Each budget is controlled by the business manager at the revenue and expenditure function/object level.
- The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared.
- All appropriations lapse at year-end.

NOTE 2: LEGAL COMPLIANCE – BUDGETS

BUDGET AMENDMENTS

The school board amended the school district budget for 2019 as follows:

REVENUES			
	Original Budget	Amendment	Amended Budget
General Fund	\$ 164,886,895	\$ 1,703,062	\$ 166,589,957

EXPENDITURES			
	Original Budget	Amendment	Amended Budget
General Fund	\$ 165,381,720	\$ 1,703,061	\$ 167,084,781

NOTE 3: SCHEDULE OF EMPLOYER PENSION AND OPEB LIABILITY AND CONTRIBUTIONS

GASB Statements No. 68 and 75 require ten years of information to be presented in these tables. However, until a full 10-year tread is compiled, the school district will present information for those years for which information is available.

SECTION II - C

SUPPLEMENTARY INFORMATION

Major Governmental Funds

General Fund - The general fund is the school district's primary operating fund. It is used to account for all financial resources of the general government which are not legally or by sound financial management to be accounted for in another fund.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources and payment of long-term principal, interest and related costs.

Capital Projects Fund - The capital projects fund is used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students of the District.

Nonmajor Governmental Funds

Special Revenue Funds

Food Service Fund - This fund is used to account for the food service activities of the school district as required by state and federal law. Financing is provided by local sales to the students for lunch and daily milk programs, along with substantial subsidies from the State of North Dakota and the U.S. Government.

Student Activities Fund - The student activities fund is used to account for revenues and expenditures from school-based operations. The revenues are comprised of student fees, gate receipts and a variety of fund raisers. The expenditures support curricular and extra-curricular student facilities.

BOARD OF EDUCATION OF THE CITY OF FARGO

Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2019

NOTE 1: BASIS OF PRESENTATION / ACCOUNTING

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Board of Education of the City of Fargo under programs of the federal government for the year ended June 30, 2019. The information in the schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Guidance. Because the schedule presents only a selected portion of the operations of the Board of Education of the City of Fargo, it is not intended to and does not present the financial position or changes in net position of the Board of Education of the City of Fargo. Expenditures represent only the federally funded portions of the program. School District records should be consulted to determine amounts expended or matched from non-federal sources.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Subpart E of the *Uniform Guidance*, wherein certain types of expenditures are allowable or are limited as to reimbursement.

NOTE 3: NON-CASH AWARDS

The amount of commodities reported on the schedule is the value of the supplemental food program distributed by the district during the year as priced by the North Dakota Department of Public Instruction.

NOTE 4: PASS-THROUGH GRANT NUMBER

For Federal programs marked "N/A", the Board of Education of the City of Fargo was unable to obtain a pass-through grant number.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor’s Report

Board of Education of the City of Fargo
Fargo, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Board of Education of the City of Fargo, North Dakota, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Board of Education of the City of Fargo’s basic financial statements, and have issued our report thereon dated December 19, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board of Education of the City of Fargo’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board of Education of the City of Fargo’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Board of Education of the City of Fargo’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* - Continued

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education of the City of Fargo 's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

Board of Education of the City of Fargo
Fargo, North Dakota

Report on Compliance for Each Major Federal Program

We have audited the Board of Education of the City of Fargo's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Board of Education of the City of Fargo's major federal programs for the year ended June 30, 2019. The Board of Education of the City of Fargo's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Board of Education of the City of Fargo's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Board of Education of the City of Fargo's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Board of Education of the City of Fargo's compliance.

Opinion on Each Major Federal Program

In our opinion, the Board of Education of the City of Fargo complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the Board of Education of the City of Fargo is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Board of Education of the City of Fargo's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board of Education of the City of Fargo's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weakness or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the Board of Education of the City of Fargo as of and for the year ended June 30, 2019, and have issued our report thereon dated December 19, 2019, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

GOVERNANCE COMMUNICATION

Board of Education of the City of Fargo
Fargo, North Dakota

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Board of Education of the City of Fargo, North Dakota, and the respective changes in financial position for the year ended June 30, 2019 which collectively comprise the School District's basic financial statements, and have issued our report thereon dated December 19, 2019. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility Under Auditing Standards Generally Accepted in the United States of America, Government Auditing Standards

As stated in our engagement letter dated September 26, 2019, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance about whether the basic financial statements are free of material misstatement. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, or fraud may exist and not be detected by us. The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.

In planning and performing our audit, we considered the Board of Education of the City of Fargo's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the effectiveness of internal control over financial reporting.

As part of obtaining reasonable assurance about whether the Board of Education of the City of Fargo's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit.

Significant Accounting Policies/Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Board of Education of the City of Fargo are described in Note 1 to the financial statements. Application of existing policies was not changed during the year ended June 30, 2019. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements presented by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements is useful lives of capital assets.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and report them to the appropriate level of management. None of the misstatements detected as a result of audit procedures were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, or reporting matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 19, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the School District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the School Board and management of the Board of Education of the City of Fargo, is not intended to be, and should not be used for any other purpose. We would be happy to meet with you and any member of your staff to discuss any of the items in this letter in more detail if you so desire.

Thank you and the employees of the Board of Education of the City of Fargo for the courteous and friendly assistance we received during the course of our audit. It is a pleasure for us to be able to serve the Board of Education of the City of Fargo.
