INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

School Board
Nedrose Public School District No. 4
Minot, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Nedrose Public School District No. 4, Minot, North Dakota, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Nedrose Public School District No. 4, Minot, North Dakota's basic financial statements and have issued our report thereon dated November 18, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Nedrose Public School District No. 4, Minot, North Dakota's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Nedrose Public School District No. 4, Minot, North Dakota's internal control. Accordingly, we do not express an opinion on the effectiveness of Nedrose Public School District No. 4, Minot, North Dakota's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses, item 20-1, to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Nedrose Public School District No. 4, Minot, North Dakota's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Nedrose Public School District No. 4's Response to Findings

Nedrose Public School District No. 4, Minot, North Dakota's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Nedrose Public School District No. 4, Minot, North Dakota's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

NEDROSE PUBLIC SCHOOL DISTRICT NO. 4
Minot, North Dakota

SCHEDULE OF FINDINGS AND RESPONSES
For the Year Ended June 30, 2020

Our audit of Nedrose Public School District No. 4, Minot, North Dakota found the following material weakness:

20-1 Segregation of Duties

Condition:

The Nedrose Public School District No. 4, Minot, North Dakota, has one person responsible for most accounting functions.

Criteria:

There should be sufficient accounting personnel so duties of employees are segregated. The segregation of duties would provide better control over the assets of the school.

Effect:

There is no segregation of duties as one employee is responsible to collect monies, deposit monies, issue checks, send checks to vendors, record receipts and disbursements in journals, maintain the general ledger, and prepare financial statements. This increases the risk of misstatement of the school's financial condition.

Recommendation:

To mitigate the risk associated with this lack of segregation of duties, we recommend the following:

- Financial statements, credit memos, and payroll registers should be reviewed, analyzed, and spot-checked by a responsible official.
- Where possible, segregate the functions of approval, posting, custody of assets, and reconciliation as they relate to any amounts which impact the financial statements.

Client Response:

Agree. Nedrose Public School District No. 4 does not have adequate resources to obtain proper internal controls to properly segregate duties. We will segregate duties to the extent possible.

INDEPENDENT AUDITOR'S REPORT

School Board
Nedrose Public School District No. 4
Minot, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Nedrose Public School District No. 4, Minot, North Dakota, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Nedrose Public School District No. 4, Minot, North Dakota, as of June 30, 2020, and the respective changes in financial position in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Nedrose Public School District's basic financial statements. The supplementary information is presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule and pension information on pages 7-11 and 33-36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financials statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2020, on our consideration of Nedrose Public School District No. 4's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Nedrose Public School District No. 4's internal control over financial reporting and compliance.

NEDROSE PUBLIC SCHOOL DISTRICT NO. 4
MINOT, NORTH DAKOTA

Management's Discussion and Analysis

The Management's Discussion and Analysis (MD&A) of Nedrose Public School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of the MD&A is to look at the District's financial performance as a whole. It should, therefore, be read in conjunction with the basic financial statements, which can be found on pages 12-18 of this report.

Financial Highlights

Key financial highlights for the fiscal year 2019-2020 are as follows:

- Net position of the Nedrose Public School increased (decreased) \$637,845 as a result of the current years operations. This compares to an increase (decrease) of \$780,750 for the prior year.
- Governmental net position as of the end of the fiscal year totaled \$4,221,304. Of this amount, \$(1,392,950) was unrestricted. For the prior year, governmental net assets totaled \$3,583,459 and of this amount \$(1,275,580) was unrestricted.
- Total revenues from all sources were \$9,204,032 compared to \$8,717,746 for the prior year.
- Total expenditures from all sources were \$8,566,187 compared to \$7,936,996 for the prior year.
- At the end of the current fiscal year, the unreserved fund balance for the general fund was \$2,484,712 or 38% of total general fund expenditures. For the prior year, the unreserved fund balance was \$1,953,834, or 32% of total general fund expenditures.
- The District's general fund had \$7,072,400 in total revenues and \$6,466,522 in total expenditures. There was a total of \$(75,000) from other financing sources. Overall, the general fund balance increased (decreased) by \$530,878 for the year ended June 30, 2020. For the prior year, the District's general fund had \$6,627,502 in total revenues and \$6,149,327 in total expenditures. There was a total of \$(50,000) from other financing sources. Overall, the general fund balance increased (decreased) by \$428,175 for the year ended June 30, 2019.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Nedrose Public School District's basic financial statements. The Nedrose Public School District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Nedrose Public School District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Nedrose Public School District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Nedrose Public School District is improving or deteriorating.

The *Statement of activities* presents information showing how the school's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused annual leave).

Both of the government-wide financial statements distinguish functions of the Nedrose Public School District that are principally supported by taxes and intergovernmental revenues (government activities).

The governmental activities of the Nedrose Public School District include regular instruction, special education, vocational education, technology services, library media services, district wide services, administration, school food services, buildings and grounds operations and maintenance, student transportation, co curricular activities, rental payments, capital outlay and debt services.

The government-wide financial statements can be found on pages 12-13 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Nedrose Public School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Nedrose Public School District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the governments near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Nedrose Public School District maintains 4 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, food service fund, and building fund all of which are considered to be major funds.

The Nedrose Public School District adopts an annual appropriated budget for its general fund a budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 14-17 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Nedrose Public School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 18 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19-31 of this report.

Government-wide Financial analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Nedrose Public School District, assets exceeded liabilities by \$4,221,304 at the close of the most recent fiscal year.

A large portion of the Nedrose Public Schools District's net position \$4,928,212 reflects its investment in capital assets (e.g., land, buildings, and improvements, buildings and infrastructure, machinery and equipment, and construction in progress); less any related debt used to acquire those assets that are still outstanding. The Nedrose Public School District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Nedrose Public School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Nedrose Public School District's net position \$686,042 represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position \$-1,392,950 may be used to meet the school's ongoing obligations to citizens and creditors.

The school's net position increased (decreased) by \$637,845 during the current fiscal year.

Financial Analysis of the Government's Funds

As noted earlier, the Nedrose Public School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Nedrose Public School District's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Nedrose Public School Districts financing requirements. In particular, *unreserved* fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Nedrose Public School District's governmental funds reported combined ending fund balances of \$3,170,754, an increase (decrease) of \$483,913 in comparison with the prior year.

The general fund is the chief operating fund of the Nedrose Public School District. At the end of the current fiscal year, unreserved fund of the general fund was \$2,484,712 while total fund balance totaled \$2,484,712. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 38% of the total general fund expenditures, while total fund balance represents 38% of that same amount.

The fund balance of the Nedrose Public School District's general fund increased (decreased) by \$530,878 during the current fiscal year. The Nedrose Public School District budgeted an anticipated increase (decrease) in fund balance of \$124,356.

General Fund Budgetary Highlights

During the year, revenues were greater than (less than) budgetary estimates by \$(135,704), expenditures were (greater than) less than budgetary estimates by \$567,226, other financing sources and uses were greater than (less than) budgetary estimates by \$(25,000), and ending fund balance exceeded (was less than) budgetary estimates by \$406,522.

During the prior year, revenues were greater than (less than) budgetary estimates by \$(155,351), expenditures were (greater than) less than budgetary estimates by \$363,728, other financing sources and uses were greater than (less than) budgetary estimates by \$(5,000), and ending fund balance exceeded (was less than) budgetary estimates by \$203,377.

Capital Assets

As of June 30, 2020, the Nedrose Public School District had \$25,206,856 invested in capital assets.

Nedrose Public School District's Capital Assets (net of depreciation) Government activities		
	<u>June 30, 2020</u>	<u>June 30, 2019</u>
Land	\$ 1,076,441	\$ 1,076,441
Buildings and Improvements	23,572,676	23,777,435
Equipment	341,841	369,992
Vehicle	<u>215,898</u>	<u>258,212</u>
Total	\$ 25,206,856	\$ 25,482,080

Additional information on the Nedrose Public School District's capital assets can be found in note 4 on page 24 of this report.

Long-Term Debt. At the end of the current fiscal year, the Nedrose Public School District had bonds payable outstanding of \$20,278,644 and a net pension liability of \$6,031,238. Additional information on the Nedrose Public School District long-term debt can be found in note 5 on pages 24-25 of this report.

For The Future

The Nedrose Public School District has benefited from an adequate student population base. The School District has also benefited from continued funding from the State of North Dakota. These elements have enabled the District to meet many of its staffing and building maintenance needs.

Requests for Information

This financial report is designed to provide a general overview of the Nedrose Public School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Business Manager, Address, Nedrose Public School District, 5705 15th Ave. NE, Minot, ND 58701.

MINOT, NORTH DAKOTA

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS
JUNE 30, 2020

2020

Total Fund Balances - Governmental Funds \$ 3,170,754

Amounts reported for governmental activities in the statement
of net position are different because:

Capital assets used in governmental activities are not
financial resources and therefore are not reported in
the funds. 25,206,856

Assets such as Deferred Outflows are not available
to pay for current period expenditures and therefore
are deferred in the funds. 2,073,287

Liabilities such as Deferred Inflows are not due and
payable in the current period and therefore are not
reported in the funds. (217,670)

Net pension liability for the Teachers Fund for Retirement
are not due and payable in the current period and
therefore are not reported in the funds. (6,031,238)

Long-term liabilities, including bonds payable and accrued
leave payable are not due and payable in the current
period and therefore are not reported in the funds. (20,278,644)

Assets such as taxes receivable and special assessment
receivable are not available to pay for current period
expenditures and therefore are deferred in the funds. 297,959

Net Position - Governmental Funds \$ 4,221,304

NEDROSE PUBLIC SCHOOL DISTRICT NO. 4
NEDROSE, NORTH DAKOTA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND
BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2020

2020

Net Change in Fund Balances - Total Governmental Funds \$ 483,913

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. (275,224)

Government funds report deferred outflows as expenditures however, in the statement of activities these costs do not require the use or provide a source of financial resources. 63,971

Government funds report deferred inflows as revenue however, in the statement of activities these inflows do not require the use or provide a source of financial resources. (52,044)

Reduction or Increase of the Net Pension Liability does not require the use or provide a source of financial resources. (628,279)

Governmental funds report debt retirement as expenditures however, in the statement of activities this cash outlay is not an expenditure but a reduction to a liability on the statement of net position. 1,077,404

Revenue from property taxes is deferred in the fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when levied in the government-wide financial statements. (31,896)

Change in Net Position of Governmental Activities \$ 637,845

NEDROSE PUBLIC SCHOOL DISTRICT NO. 4
MINOT, NORTH DAKOTA

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below:

A. Reporting Entity

The School Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. Generally accepted accounting principles require that the financial statements of the reporting entity include those of the School District (the primary government) and its component units. A component unit would be included in the School District's reporting entity because of the significance of their operational or financial relationship with the School District. The criteria established by GSAB Statement No. 14 in determining financial accountability includes appointing a voting majority of an organization's governing body and (1) the ability of the school district to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the school district. The School District has the following component unit as defined in GASB Statement No. 14 which should be included in the reporting entity.

Nedrose Public School Building Authority - The building authority was created by the school board as a legally separate entity. Its purpose is to promote the educational system of the district by providing financing for use by the school in altering, repairing, maintaining, or constructing buildings and making any improvements connected to school buildings. The school board is the governing board of the building authority.

B. Basis of Presentation

Government-wide Financial Statements: The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all the School District's nonfiduciary activities with most interfund activities removed. *Governmental Activities* include programs supported primarily by taxes, State foundation aid, grants, and other intergovernmental revenues. The School District has no business type activities that rely, to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to recipients of goods and services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported as general revenues.

Fund Financial Statements: The fund financial statements provide information for governmental funds and fiduciary funds. Separate statements are presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The School District considers all governmental funds as major funds.

The funds of the financial reporting entity are described below:

GOVERNMENTAL FUNDS:

General Fund - The general fund is the general operating fund of the school district. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds - Capital projects funds are used to account and report financial resources that are *restricted, committed, or assigned* to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

FIDUCIARY FUNDS:

Agency Funds - Agency funds are used to account for assets held by the school district as an agent for individuals, private organizations, other governments and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Following is a list of the major funds:

<u>Fund</u>	<u>Brief Description</u>
General Fund	The General Fund is the general operating fund. It is used to account for all financial resources of the general government except those required to be accounted for in another fund.
Food Service Fund	A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants.
Building Fund	A fund established to meet expenditures involving acquisition of plant and equipment and related costs. This fund is financed by property taxes.

C. Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable. The school district considers property tax as available when they are collected. Property taxes collected within 60 days after year end are not material.

Revenues from local sources consist primarily of property taxes. Revenues received from the Department of Public Instruction are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

D. Cash and Investments

Cash and cash equivalents include amounts in demand deposits, money market accounts, and highly liquid investments with an original maturity of three months or less. Deposits must either be deposited with the Bank of North Dakota or in other financial institutions situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or secured with pledges of securities equal to 110% of the uninsured balance.

State statutes authorize local governments to invest in: a) bonds, treasury bills and notes, or other securities that are a direct obligation of, or an obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of Congress, b) securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above, c) certificates of deposit fully insured by the federal deposit insurance corporation or the state, d) obligations of the state. Investments are stated at cost. The only investments held by the school district are certificates of deposit.

Custodial credit risk for deposits is the risk that in the event of a bank failure, the school's deposits may not be recovered. State law requires local governments to deposit funds in financial institutions carrying federal deposit insurance and a pledge of governmental securities for deposits in excess of deposit insurance coverage. All school district funds were adequately insured or collateralized by government securities.

Credit risk is the risk that the counterparty of an investment will not fulfill its obligations. The district's policy for limiting the credit risk of investment is to only invest in certificates of deposit fully insured or collateralized by pledge of governmental securities.

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The district manages its exposure to declines in fair value by investing only in certificates of deposit that are quite stable in rate of return and relatively short term.

E. Capital Assets

Capital Assets include land, buildings, equipment, vehicles, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment for capital assets depends on whether the assets are reported in the government-wide or fund financial statements.

Government-Wide Statements

All capital assets are valued at actual or estimated historical cost. Donated capital assets are valued at their estimated fair value on the date donated.

Interest costs incurred during the construction of Governmental Activities capital assets are not capitalized along with other capital asset costs.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with net capital assets reflected in the Statement of Net Position. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements are as follows.

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Land	\$ 5,000	Straight-Line	-----
Buildings & Improvements	5,000	Straight-Line	50 years
Equipment	5,000	Straight-Line	10 years
Vehicles	5,000	Straight-Line	10 years

Land is an inexhaustible capital asset and is not depreciated.

Fund Financial Statements

In the fund financial statements, capital assets used in the governmental fund operations are accounted for as capital expenditures of the governmental fund upon acquisition.

F. Long-Term Liabilities

All long-term liabilities to be repaid from governmental resources are reported as liabilities in the government-wide statements. Long-term liabilities for governmental funds are not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest as expenditures.

G. Compensated Absences

In accordance with the provisions of GASB Statement No, 16, a liability is not recorded for nonvesting accumulating rights to receive sick pay benefits.

H. Fund Equity

Nonspendable fund balances will include amounts that cannot be spent because they are either in nonspendable form or they are legally required to be maintained intact.

Restricted fund balances will exist when constraints are placed on those resources that are either externally imposed or imposed by law.

Committed fund balances are amounts that can only be used for specific purposes pursuant to constraints imposed by the school board.

Assigned fund balances will be amounts that are constrained by the school district's intent to be used for specific purposes, but are neither restricted, nor committed.

Unassigned fund balances will represent those funds that have not been assigned, committed, restricted, or considered nonspendable. The general fund will be the only fund that will report an unassigned fund balance except for a deficit fund balance in other funds.

I. Order of Fund Balance Spending Policy

The school district's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries. First nonspendable amounts are determined. Then restricted balances for specific purposes are determined. Then any remaining fund balance amounts for the non-general funds are classified as restricted fund balance. It is possible for the non-general funds to have negative unassigned fund balances if the fund is in a deficit situation.

NOTE 2: DEPOSITS

At June 30, 2020 the School District had deposits of \$3,155,284.56. District deposits at balance sheet date were covered by federal depository insurance or pledge of governmental securities. Securities pledged were held by the entity or its agent in the entity's name (Category II assets). North Dakota statutes require the market value of collateral pledged must equal 110% of the deposits not covered by FDIC insurance. District deposits were adequately protected.

NOTE 3: TAXES RECEIVABLE

Taxes receivable consist of current taxes and delinquent uncollected taxes for the past three years as of June 30. No allowance has been established for uncollectible taxes receivable.

Property taxes attach as an enforceable lien on property on January 1. The tax levy may be paid in two installments: the first installment includes one-half of the real estate taxes and all the special assessments; the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Property taxes are limited by state laws. All school tax levies are in compliance with state laws.

NOTE 4: CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2020, is as follows:

Capital Assets:	<u>7-01-19</u>	<u>Additions</u>	<u>Retirements</u>	<u>06-30-20</u>
Land	\$ 1,076,441			\$ 1,076,441

	-----	-----	-----	-----
Government Activity				
Net Capital Assets	\$25,482,080	\$(275,224)	\$ -0-	\$25,206,856
	=====	=====	=====	=====

Depreciation was charged to functions as follows:

Governmental Activities:	<u>2020</u>	<u>2019</u>
Support Services	\$ 42,314	\$ 43,959
Depreciation - Unallocated	<u>568,007</u>	<u>560,886</u>
Total Depreciation Expense - Governmental Activities	<u>\$ 610,321</u>	<u>\$ 604,845</u>
	=====	=====

NOTE 5: GENERAL LONG-TERM DEBT

The following is a summary of debt transactions of the school district for the year ended June 30, 2020:

	<u>BONDS</u>
	<u>PAYABLE</u>
Debt Payable July 1	\$21,356,048
Debt Issued	-0-
Debt Retired	1,077,404

Debt Payable June 30	<u>\$20,278,644</u>
	=====
Due within one year	<u>\$ 1,071,643</u>
	=====

Debt payable at June 30, 2020 is comprised of the following individual issues:

BONDS PAYABLE

\$10,000,000 General Obligation School Building Bonds, Series 2015 for construction of a school building. The bonds call for semi-annual payments of \$394,585.24 from April 1, 2016 through October 1, 2035 effective interest at 2%.

\$8,403,644

BONDS PAYABLE

\$8,000,000 General Obligation School Building Bonds, Series 2014 for construction of a school building. The bonds call for annual principal payments of \$345,000 to \$520,000 from August 1, 2015 through August 1, 2033 and interest at 2% to 3.625%.

\$6,150,000
=====

\$3,945,000 Nedrose Building Authority Lease Revenue Bonds, Series 2015 for construction of a school building. The bonds call for annual principal payments of \$130,000 to \$265,000 from May 1, 2016 through May 1, 2035 and interest at 3% to 4%.

\$3,185,000
=====

\$3,070,000 General Obligation School Building Bonds, Series 2015A for construction of a school building. The bonds call for annual principal payments of \$115,000 to \$200,000 from August 1, 2016 through August 1, 2034 and interest at 2% to 3.5%.

\$2,540,000
=====

The annual requirements to amortize all debt outstanding as of June 30, 2020 are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	1,071,643	762,052	1,833,695
2022	1,105,458	727,488	1,832,946
2023	1,135,224	691,671	1,826,895
2024	1,170,992	654,060	1,825,052
2025	1,207,811	614,591	1,822,402
2026	1,245,734	573,080	1,818,814
2027	1,294,819	529,521	1,824,340
2028	1,335,122	483,199	1,818,321
2029	1,381,706	432,551	1,814,257
2030	1,439,636	379,753	1,819,389
2031	1,493,980	323,278	1,817,258
2032	1,554,810	263,711	1,818,521
2033	1,612,200	200,158	1,812,358
2034	1,676,231	133,002	1,809,233
2035	1,206,983	61,287	1,268,270
2036	346,295	9,621	355,916
TOTAL	\$ 20,278,644	\$ 6,839,023	\$ 27,117,667

The school district is in compliance with all bond covenants.

NOTE 6: DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources in the balance sheet represent amounts reported for uncollected taxes receivable in the fund financial statements for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, uncollected taxes receivable are measurable but not available.

NOTE 7: EMPLOYEE RETIREMENT SYSTEMS

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of the Teachers' Fund for Retirement (TFFR) and additions to/deductions from TFFR's fiduciary net position have been determined on the same basis as they are reported by TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about North Dakota Teachers' Fund for Retirement

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death, and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has the final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning funded members on or after July 1, 2008.

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions pail plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70 ½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Employer reported a liability of \$6,031,238 (from Exhibit E Column 2 in TFFR GASB Report) for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The Employer's proportion of the net pension liability was based on the Employer's share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At June 30, 2019 the Employer's proportion was .437918%, (from Exhibit E, Column 1 in TFFR GASB Report) which was an increase of .032552 from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020 the Employer recognized pension expense of \$1,019,958 (from Exhibit E, Column 13 of TFFR GASB Report). At June 30, 2020 the Employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (from Exhibit E, Columns 14-22 of TFFR GASB Report with the exception of employer contributions subsequent to the measurement date):

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Differences between expected and actual experience	\$ 8,612	\$ 217,670
Changes of assumptions	214,360	-0-
Net difference between projected and actual earnings on pension plan investments	84,896	-0-
Changes in proportion and differences between employer contributions and proportionate share of contributions	1,361,812	-0-
Employer contributions subsequent to the measurement date (see below)	403,607	-0-
	-----	-----
Total	\$ 2,073,287	\$ 217,670
	=====	=====

\$403,607 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021 (employer's subsequent fiscal year-end).

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (from Exhibit E, Columns 23-28 of TFFR GASB Report - years will need to be rolled forward one year from the dates in the report):

Year ended June 30:	
2021	\$ 508,455
2022	365,314
2023	340,154
2024	122,724
2025	69,763
Thereafter	45,601

Actuarial assumptions

The total pension liability in the July 1 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	4.25%-14.5%, varying by service, including inflation and productivity
Investment rate of return	7.75%, net of investment expenses
Cost-of-living adjustments	None

For active and inactive members, mortality rates were based on the RP-2014 Employee Mortality Table, projected generationally using Scale MP-2014. For healthy retirees, mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table set back one year, multiplied by 50% for ages under 75 and grading up to 100% by age 80, projected generationally using Scale MP-2014. For disabled retirees, mortality rates were based on the RP-2014 Disabled Mortality Table set forward four years.

The actuarial assumptions used were based on the results of an actuarial experience study dated April 30, 2015. They are the same as the assumptions used in the July 1, 2019, funding actuarial valuation for TFFR.

As a result of the April 30, 2015 actuarial experience study, the TFFR Board adopted several assumption changes, including the following:

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%
- Total salary scale lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2019 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equities	58%	6.9%
Global Fixed Income	23%	2.1%
Global Real Assets	18%	5.4%
Cash Equivalents	1%	0.0%

Discount Rate. The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2019, Actuarial Valuation Report. For this purpose, only member contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate. The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate: (from Exhibit E, Columns 4-6 TFFR GASB Report)

	Current Discount		
	1% Decrease(6.75%)	Rate (7.75%)	1% Increase (8.75%)
Employer's proportionate share of the net pension liability	\$8,145,248	\$6,031,238	\$4,274,441

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued TFFR financial report. TFFR's Comprehensive Financial Report (CAFR) is located at www.nd.gov/rio/sib/publications/cafr/default.htm.

NOTE 8: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The following are funds established by the State for risk management issues:

The School District participates in the State Bonding Fund. The State Bonding Fund does not currently charge any premium for this coverage.

The School District participates in the North Dakota Fire and Tornado Fund (NDFT). The School District pays an annual premium to cover property damage to building and personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The North Dakota Insurance Department (NDID) entered into an agreement effective June 28, 2019 which allows the North Dakota Insurance Reserve Fund (NDRF) to take over many of the administrative operations of the NDFT, including underwriting, premium collection, loss control, and claims administration.

The School District participates in the North Dakota Worker's Compensation Bureau, an Enterprise Fund of the State of North Dakota. The Bureau is a state insurance fund and a "no fault" insurance system covering the State's employers and employees financed for the payment of claims to employees injured in the course of employment.

There have been no significant reductions in insurance coverage from the prior year and settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

During the mid-1980's, the School District was not able to obtain general liability insurance at a cost it considered to be economically justifiable. In 1986, the state and other political subdivisions joined together to form the North Dakota Insurance Reserve Fund (NDRIF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. All members paid an additional charge the first year they joined to help capitalize the NDRIF. In 1991, 1992, 1993, 1994, and 1995, the NDRIF returned 20% each year, for a total of 100%, of the capitalized amount with a premium reduction or cash payment to the School District. The coverage by NDRIF is limited to losses of \$2,000,000 per occurrence.

NOTE 9: INTERFUND TRANSFERS

Interfund transfers for the fiscal year ended June 30, 2020 were as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
General		\$ 75,000
Food Service Fund	\$ 75,000	
	-----	-----
Total	\$ 75,000	\$ 75,000
	=====	=====

Interfund transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization; to segregate and to return money to the fund from which it was originally provided once a project is complete.

NOTE 10: TAX ABATEMENTS

The school district and political subdivisions within the county can negotiate property abatement agreements with individuals and various commercial entities/businesses. The school district and the political subdivisions within have the following types of tax abatement agreements with various individuals and commercial entities at June 30, 2020.

The county will state individually the parties who received a benefit of the reduction in taxes of 20% or greater when compared to the total reduction of taxes for all tax abatement programs.

Public Charity Exemption

Public charities are eligible for property tax incentives if they meet state requirements (NDCC 57-02-08 (8)) and the guidelines stated below. The following criteria are only guidelines.

All buildings belonging to institutions of public charity, including public hospitals and nursing homes licensed pursuant to section 23-16-01 under the control of religious or charitable institutions, used wholly or in part for public charity, together with land occupied by such institutions not leased or otherwise used with a view to profit. The exemption provided by this subsection includes any dormitory, dwelling, or residential-type structure, together with necessary land on which such structure is located, owned by a religious or charitable organization recognized as tax exempt under section 501(c)(3) of the United States Internal Revenue Code which is occupied by members of said organization who are subject to a religious vow of poverty and devote and donate substantially all of their time to the religious or charitable activities of the owner.

Exemption Criteria

Property is exempt if the qualified facility is used wholly or in part for public charity, together with the land occupied by such institutions not leased or otherwise used with a view to profit.

2020 Reduction in Taxes - Due to Agreements with Other Entities

The total program reduction in taxes is not a material amount.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2020

NOTE 1: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information:

The Board of Education adopts an annual budget on a basis consistent with accounting principles generally accepted in the United States for the general fund, special revenue funds, debt service funds, and capital project funds.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- The annual budget must be prepared and school district taxes must be levied on or before the fifteenth day of August of each year.
- The taxes levied must be certified to the county auditor by August twenty-fifth. The governing body of the school district may amend its tax levy and budget on or before the tenth day of October of each year but the certification must be filed with the county auditor within the time limitations as outlined in NDCC section 57-15-31.1.
- The operating budget includes proposed expenditures and means of financing them.
- Each budget is controlled by the business manager at the revenue and expenditure function/object level.
- The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared.
- All appropriations lapse at year-end.

NOTE 2: CHANGES OF ASSUMPTIONS

The ND Teachers' Fund for Retirement amounts reported in 2016 and later reflect actuarial assumption changes based on the results of an actuarial experience study dated April 30, 2015. This includes changes to the investment return, inflation, salary scale, administrative expenses, turnover and retirement rates, and mortality tables.
