**RED RIVER JOINT WATER RESOURCE DISTRICT**

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds  
to the Statement of Activities  
For the Year Ended December 31, 2020

---

Net Change in *Fund Balances* - Total Governmental Funds \$ 1,596,343

The change in net position reported for governmental activities in the statement of activities is different because:

Some revenues reported on the statement of activities are not reported as revenues in the governmental funds since they do not represent available resources to pay current expenditures. This consists of the change in taxes receivable.

(4,410)

Change in Net Position of Governmental Activities

\$ 1,591,933

The notes to the financial statements are an integral part of this statement.

# RED RIVER JOINT WATER RESOURCE DISTRICT

Notes to the Financial Statements  
For the Year Ended December 31, 2020

---

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Red River Joint Water Resource District (District), West Fargo, North Dakota, a joint venture, have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

### **A. Reporting Entity**

The accompanying financial statements present the activities of the District, a joint venture established in 1978. The District has considered all potential component units for which the District is financially accountable and other organizations for which the nature and significance of their relationships with the district such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. This criteria includes appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the District.

Based on these criteria, there are no component units to be included within the District as a reporting entity.

Membership in the board is voluntary. Each member county elects one board member, having one vote, to serve on the District.

### **B. Basis of Presentation**

*Government-wide statements:* The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes and intergovernmental revenues.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as program revenues, including all taxes and interest, are presented as general revenues.

*Fund Financial Statements:* The fund financial statements provide information about the District's funds.

The District reports the following major governmental fund:

General Fund - This is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

### **C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

*Government-Wide Financial Statements.* The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year when all eligibility requirements have been satisfied.

*Governmental Fund Financial Statements.* Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected sixty days after year-end. All revenues are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on government long-term debt, claims and judgments, and compensated absences, which are reported as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then by general revenues.

**D. Cash, Cash Equivalents and Investments**

Cash and cash equivalents include amounts in demand deposits, money market accounts and highly liquid short-term investments with original maturities of 3 months or less.

Investments consist of certificates of deposits bearing interest with a maturity longer than three months.

**E. Fund Balances**

*Fund Balance Spending Policy.* It is the policy of District to spend restricted resources first, followed by unrestricted resources. It is also the policy of the District to spend unrestricted resources of funds in the following order: committed, assigned and then unassigned.

*Committed Fund Balances.* Committed fund balances exists in the general function and is committed by the highest level of decision making authority (governing board).

*Unassigned Fund Balances.* Unassigned fund balances are reported in the general fund and for negative fund balances at year-end.

**F. Net Position**

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Unrestricted net position is primarily unrestricted amounts related to the general fund and negative fund balances.

**G. Interfund Transactions**

In the governmental fund statements, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

All other transactions, except reimbursements, are reported as transfers.

In the government-wide financial statements, interfund transactions have been eliminated.

**NOTE 2: DISTRICT ESTABLISHMENT**

The District, a joint venture, was established in 1978. The District provides a coordinated and cooperative approach to the planning and implementation of flood prevention projects in the Red River Valley. Water Management Districts are: Ransom County, Richland County, Sargent County, Walsh County, Pembina County, Grand Forks County, Traill County, Maple River WRD, North Cass WRD, Barnes County, Southeast Cass WRD, Rush River WRD, Nelson County and Steele County.

**NOTE 3: DEPOSITS**

**Custodial Credit Risk**

Custodial credit risk is the risk associated with the failure of a depository institution, such that in the event of a depository financial institution's failure, the District would not be able to recover the deposits or collateralized securities that in the possession of the outside parties. The District does not have a formal policy regarding deposits that limits the amount it may invest in any one issuer.

In accordance with North Dakota Statutes, deposits must either be deposited with the Bank of North Dakota or in other financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes, or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, Federal land bank bonds, bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investment companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the State of North Dakota, its boards, agencies or instrumentalities or by any county, city, township, school district, park district, or other political subdivision of the state of North Dakota. Whether payable from special revenues or supported by the full faith and credit of the issuing body and bonds issued by any other state of the United States or such other securities approved by the banking board.

At year ended December 31, 2020, the District's carrying amount of deposits and bank balance was \$15,057,232. Of the bank balances, \$1,927,129 was covered by Federal Depository Insurance. The remaining bank balances were collateralized with securities held by the pledging financial institution's agent in the government's name.

**NOTE 4: PROPERTY TAXES**

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1. The tax levy may be paid in two installments: the first installment includes one-half of the real estate taxes and all of the special assessments; the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount is allowed if all taxes are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

**NOTE 5: RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, state agencies and political subdivisions of the state of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDRIF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The District carries commercial insurance for risks of loss considered necessary. The District's property and liability insurance is provided through the NDRIF.

The State Bonding Fund currently provides the District with blanket fidelity bond coverage in the amount of \$2,000,000 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

**NOTE 6: COMMITTED FUND BALANCE**

The District officials have committed the fund balance as follows:

ND River Watch Strategy	\$	85,184
Rush River Watershed Detention Study Phase II		46,031
Upper Maple River Watershed Comp Det Study Ph II		14,835

Contingencies		25,000
<b>Total</b>	<b>\$</b>	<b>1,061,095</b>

**NOTE 7: JOINT VENTURES**

**Red River Retention Authority**

Under authorization of state statutes, the Red River Joint Water Resource District, a North Dakota political subdivision joined the Red River Watershed Management Board, a Minnesota political subdivision to establish and operate a joint exercise of powers agreement for retention located within the Red River Valley. Known as the Red River Retention Authority, the agreement was established for the joint, comprehensive and strategic coordination of retention projects in the Red River of the North watershed; facilitating implementation and construction of retention in the Red River Valley.

The following is a summary of financial information on the joint venture as of and for the year ended December 31, 2020, which is the most current audited information available:

Total Assets and Deferred Outflows of Resources	\$	349,696
Total Liabilities and Deferred Inflows of Resources		907
<b>Net Position</b>	<b>\$</b>	<b>348,788</b>
Revenues		88,472
Expenses		72,337
<b>Change in Net Position</b>	<b>\$</b>	<b>16,135</b>

Complete financial statements for the Red River Retention Authority may be obtained from the Treasurer's office at Red River Joint Water Resource District, 1201 Main Avenue West, West Fargo, ND 58078.

# RED RIVER JOINT WATER RESOURCE DISTRICT

Notes to the Required Supplementary Information  
For the Year Ended December 31, 2020

---

## NOTE 1: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

### Budget

- The District adopts an “appropriated budget” on a basis consistent with accounting principles generally accepted in the United States (GAAP) for the general fund, each special revenue fund and debt service fund of the district.
- The budget includes proposed expenditures and means of financing them.
- The District, on or before the October meeting shall determine the amount of taxes that shall be levied for member county purposes and shall levy all such taxes in specific amounts. NDCC 11-23-05
- Each budget is controlled by the District secretary/treasurer at the revenue and expenditure function/object level.
- The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared. NDCC 57-15-31.1
- All appropriations lapse at year-end.

## NOTE 2: LEGAL COMPLIANCE - BUDGETS

### Budget Amendments

The District managers amended the district budget for 2019 as follows.

Fund	REVENUES & TRANSFERS IN		
	Original Budget	Amendment	Amended Budget
General Fund	\$ 2,496,914	\$ 396,190	\$ 2,893,104

Fund	EXPENDITURES & TRANSFERS OUT		
	Original Budget	Amendment	Amended Budget
General Fund	\$ 2,496,914	\$ 608,690	\$ 3,105,604

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

---

Independent Auditor's Report

Governing Board  
Red River Joint Water Resource District  
West Fargo, North Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of Red River Joint Water Resource District as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise Red River Joint Water Resource District's basic financial statements, and have issued our report thereon dated June 16, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Red River Joint Water Resource District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Red River Joint Water Resource District's internal control. Accordingly, we do not express an opinion on the effectiveness of Red River Joint Water Resource District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying *schedule of audit findings* as item 2020-001 that we consider to be a material weakness.

**RED RIVER JOINT WATER RESOURCE DISTRICT**

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* - Continued

---

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Red River Joint Water Resource District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Red River Joint Water Resource District's Response to Findings**

Red River Joint Water Resource District's response to the findings identified in our audit is described in the accompanying *schedule of audit findings*. Red River Joint Water Resource District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## 2020-001 - LACK OF SEGREGATION OF DUTIES – MATERIAL WEAKNESS

### Condition

The Red River Joint Water Resource District has one secretary-treasurer and one accountant responsible for the primary accounting functions. A lack of segregation of duties exists as two employees are responsible to collect monies, deposit monies, issue checks, send checks to vendors, record receipts and disbursements in journals, maintain the general ledger, and perform bank reconciliations.

### Effect

The lack of segregation of duties increases the risk of material misstatement to the Red River Joint Water Resource District's financial condition, whether due to fraud or error.

### Cause

Management has chosen to allocate economic resources to other functions of the Red River Joint Water Resource District.

### Criteria

According to the COSO framework, proper internal control surrounding custody of assets, the recording of transactions, reconciling bank accounts and preparation of financial statements dictates that there should be sufficient accounting personnel, so duties of employees are properly segregated. The segregation of duties would provide better control over the assets of the Red River Joint Water Resource District.

### Repeat Finding

Yes

### Recommendation

To mitigate the risk associated with this lack of segregation of duties, we recommend the following: •

- Financial statements and credit memos should be reviewed by a responsible official. •
- Where possible, segregate the functions of approval, posting, custody of assets, and reconciliation as they relate to any amounts which impact the financial statements. •
- Include the board in reviewing bank reconciliations, credit memos, manual adjustments, etc.

### Red River Joint Water Resource District's Response

We agree that a lack of segregation of duties exists. If the board does hire more administration, duties will be further segregated to the fullest extent possible. We understand that this will be a repeated recommendation due to the limited number of staff employed by the District.

## GOVERNANCE COMMUNICATION

---

Governing Board  
Red River Joint Water Resource District  
West Fargo, North Dakota

We have audited the financial statements of the governmental activities and the major fund of the Red River Joint Water Resource District, North Dakota, for the year ended December 31, 2020 which collectively comprise Red River Joint Water Resource District's basic financial statements, and have issued our report thereon dated June 16, 2021. Professional standards require that we provide you with the following information related to our audit.

### **Our Responsibility Under Auditing Standards Generally Accepted in The United States of America, Government Auditing Standards and by the Uniform Guidance**

As stated in our engagement letter dated April 13, 2021, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance about whether the basic financial statements are free of material misstatement. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, or fraud may exist and not be detected by us.

In planning and performing our audit, we considered Red River Joint Water Resource District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide an opinion on internal control over financial reporting.

As part of obtaining reasonable assurance about whether Red River Joint Water Resource District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit.

### **Significant Accounting Policies/Qualitative Aspects of Accounting Practices**

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Red River Joint Water Resource District are described in Note 1 to the financial statements. Application of existing policies was not changed during the year ended December 31, 2020. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements presented by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements is useful lives of capital assets.

**RED RIVER JOINT WATER RESOURCE DISTRICT**

Governance Communication – Continued

For the Year Ended December 31, 2020

---

**Corrected and Uncorrected Misstatements**

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and report them to the appropriate level of management. None of the misstatements detected as a result of audit procedures were material, either individually or in the aggregate, to the financial statements taken as a whole.

**Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, or reporting matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

**Management Representations**

We have requested certain representations from management that are included in the management representation letter dated June 16, 2021.

**Management Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Red River Joint Water Resource District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

**Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

**Other Audit Findings or Issues**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Governing Board and management of Red River Joint Water Resource District, and is not intended to be, and should not be, used for any other purpose. We would be happy to meet with you and any member of your staff to discuss any of the items in this letter in more detail if you so desire.

Thank you and the employees of Red River Joint Water Resource District for the courteous and friendly assistance we received during the course of our audit. It is a pleasure for us to be able to serve Red River Joint Water Resource District.
