Independent Auditor's Report

The School Board of
West Fargo Public Schools
West Fargo, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of West Fargo Public Schools, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the general and special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 13 to the financial statements, the District determined that the Capital Projects Fund inaccurately excluded retainage payable related to ongoing construction related to 2019. This has resulted in a restatement of the fund balance of the Capital Projects Fund as of July 1, 2019. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of employer's share of net OPEB liability and related ratios, schedule of employer's share of net pension liability and schedule of employer's contributions, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The School Board and Administration list and combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual fund schedules and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

The School Board and administration list has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2020, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Fargo, North Dakota
December 8, 2020

This section of Independent School District No. 6 – West Fargo Public Schools' annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2020. Please read it in conjunction with the District's financial statements, which immediately follow this section.

Financial Highlights

Key financial highlights for the 2019-2020 fiscal year include the following:

General Fund – The overall revenues were \$143,755,979 while the overall expenditures were \$140,805,002 , and other financing uses were \$2,509,997 , increasing the fund balance by \$440,980 .

Debt Service Fund – The revenues were \$17,118,364 while the overall expenditures were \$19,166,987 and other financing sources were \$3,843,740 , increasing fund balance by \$1,795,117 .

Capital Projects Fund – The revenues were \$6,042,766 while the overall expenditures were \$52,082,169 and other financing sources were \$83,241,801 , increasing fund balance by \$37,202,398 .

Special Reserve Fund – The revenues were \$1,297,312 while the expenditures were \$0, increasing the fund balance by \$1,297,312 .

Food Service Fund – The revenues were \$5,786,495 while the expenditures were \$6,076,032 and other financing uses were \$73,700 , decreasing the fund balance by \$363,237 .

Co-curricular Fund – The revenues were \$365,917 while the expenditures were \$2,989,260 and other financing sources were \$2,623,343 , changing the fund balance by \$0.

Overview of the Financial Statements

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements, report the District's net position and how they have changed. Net position - the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources - is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.

- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statement the District's activities are shown in one category:

Governmental Activities – All of the District's basic services are included here, such as regular and special education, transportation, administration, food service, and community education. Property taxes and state aids finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds—focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using revenues (e.g., federal grants).

The District has three kinds of funds:

Governmental Funds – All of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information following the governmental funds statements that explains the relationship (or differences) between them.

Proprietary Fund – The District has a self-insured health plan designed as an internal service fund. The fund is used to record the premiums received, and claims paid related to the participants employed by the District's governmental funds.

Fiduciary Funds – These funds are used to account for resources held for the benefit of students and parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the School District's own programs.

Financial Analysis of the District as a Whole

Net Position

The District's combined net deficit was \$3,162,706 as of June 30, 2020.

Statement of Net Position
June 30, 2020 and 2019

	2020	2019
Assets		
Current and non-current assets	\$ 134,243,229	\$ 83,699,532
Capital assets, net of accumulated depreciation	304,278,032	270,729,517
Total assets	438,521,261	354,429,049
Deferred Outflows of Resources	39,444,902	39,803,141
Liabilities		
Current liabilities	16,757,969	8,060,992
Long-term liabilities	448,849,298	384,724,602
Total liabilities	465,607,267	392,785,594
Deferred Inflows of Resources	15,521,602	5,234,150
Net Position (Deficit)		
Net investment in capital assets	22,409,620	56,438,679
Restricted for specific purposes	89,059,732	50,324,919
Unrestricted	(114,632,058)	(110,551,152)
Total net deficit	\$ (3,162,706)	\$ (3,787,554)

Current assets increased mostly due to the additional cash resulting from bond proceeds for the capital projects the School District has in progress. Capital assets increased mainly as a result of completed construction and construction in progress, which showed an increase of \$12,245,378 over the previous year. The projects that were completed were the Artificial Turf projects at the two high schools, the Central Kitchen remodel, Cheney Middle School Addition, Deer Creek Elementary, and Harwood Elementary. Construction in progress included Heritage Middle School, Horace Athletic Complex, Horace High School, and various security improvements and other improvement projects.

The School District's net position is segregated into three separate categories: net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets (e.g., land, buildings, vehicles, equipment, improvements, and construction in progress); less any related debt used to acquire those assets that are still outstanding. The School District uses these capital assets to provide services to citizens, and consequently these assets are not available for future spending. The resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted net position reflects the School District’s resources which are subject to external restrictions on how they must be spent in the debt service funds and for construction. The majority of this category can be attributed to the bond indentures for the remaining building projects from the bond referendum passed on September 25, 2018.

Unrestricted net position totaling \$(114,292,779) represents the remainder of the School District’s resources. The large negative unrestricted net position balance was primarily due to the net pension and OPEB liability, and related deferred inflows and outflows of resources derived from pension and OPEB. The pension and OPEB obligations are long term obligations that are not likely to ever be liquidated from unrestricted net position and are not obligated out of current resources to pay upcoming obligations. Not considering the effects of pension and OPEB items, unrestricted net position would be \$11,491,707. This amount of unrestricted net position is available to actually meet the district’s ongoing obligations. We believe that amount of unrestricted net position, not considering the effects of pension and OPEB items, is sufficient to meet our ongoing obligations.

For the Future and Next Year’s Budget and Tax Rates

The school district projects continued growth into the future. The internal enrollment projections indicate anticipated total enrollments for the next 5 years are as follows:

2020-2021 Actual	2021-2022 Projected	2022-2023 Projected	2023-2024 Projected	2024-2025 Projected	2025-2026 Projected
11,615	12,022	12,362	12,701	12,873	13,027

The school district’s enrollment increased by 187 students from 11,298 on 9/30/19 to 11,485 on 9/30/20. This represents an increase of 1.70% over the prior year.

West Fargo Public Schools
Management's Discussion and Analysis
Year Ended June 30, 2020

The school district's total mill levy has increased from 137.26 in 2019-2020 to 139.45 in 2020-2021. The levy is composed of 63.16 mills for general fund purposes, 43.20 mills for debt service to repay bonds for the construction of buildings, 10.00 mills for its Building Fund to maintain existing buildings and repay school construction loans, 2.64 mills for Special Assessments, 5.45 mills for tuition, 3.00 mills for the Special Reserve Fund and 12.00 mills for other purposes. The following chart provides a 5-year history of the district's mill levy.

Purpose	2016-17	2017-18	2018-19	2019-20	2020-21
General	54.3	54.97	58.29	60.4	63.16
Tuition (Grades 7 - 12)	4.29	5.64	6.04	5.48	5.45
Miscellaneous	12	12	12	12	12
Sinking & Interest	42.81	38.62	41.06	43.25	43.2
Special Assessments	6.89	5.04	2.92	3.13	2.64
Building	10	10	10	10	10
Special Reserve	3	3	3	3	3
Total	133.29	129.27	133.31	137.26	139.45

The original General Fund budget includes estimated revenues of \$145,064,840 and appropriated expenditures of \$143,082,280, which represents a projected surplus of \$1,982,560. The School Board has updated its policy regarding General Fund Ending Balance with a preferred range of 10% - 14%, but not less than 9%. The current projected budget would meet this policy by attaining a projected general fund balance of 9.91%.

The following table provides a summary of the original budget adopted by the School Board on July 27, 2020.

2020-2021 Fiscal Year
Statement of Revenue Budget, Expenditure Budget and Projected Fund Balance
Preliminary Budget as of July 27, 2020

Fund	Fund Account Name	Est. Beg. Balance 1-Jul-20	Revenue Budget 2020-2021	Expense Budget 2020-2021	Revenue versus Expenditures	Projected Balance 30-Jun-21	Fund Balance Percent
10	General Fund	\$13,495,431.02	\$156,185,570.00	\$155,180,220.00	\$1,005,350.00	\$14,500,781.02	9.34%

Statement of Revenues, Expenses and Changes in Net Position
June 30, 2020 and 2019

	2020	2019
Revenues		
Program revenues		
Charges for service	\$ 4,145,835	\$ 5,458,236
Operating grants and contributions	14,920,655	14,909,840
General		
Property taxes	53,105,041	47,384,106
Aids and payments from state and other	99,240,981	94,595,174
Miscellaneous revenues	2,554,634	2,705,360
Total revenues	173,967,146	165,052,716
Expenses		
Regular Instruction	89,604,350	82,062,144
Federal Programs	4,399,956	4,758,270
Special Education	29,390,045	27,560,738
Career and Technical Education	3,135,776	2,677,200
School Administration	6,745,296	6,382,873
General Administration	4,264,038	3,966,607
Operations and Maintenance	15,828,821	14,926,676
Student Transportation	4,416,198	4,855,675
Co-curricular Activities	3,414,282	3,450,024
Other Programs and Services	19,105	3,383,321
School Food Services	6,069,556	6,299,095
Interest and Fees on Long-Term Debt	6,054,875	4,764,439
Total expenses	173,342,298	165,087,062
Changes in Net Position (Deficit)	624,848	(34,346)
Net Deficit - Beginning	(3,787,554)	(3,753,208)
Net Deficit - Ending	\$ (3,162,706)	\$ (3,787,554)

Changes in Net Position (Deficit) – The District's total revenues were \$173,967,146 for the year ended June 30, 2020. Property taxes and state formula aid accounted for 87.6 % of total revenue for the year. Another 12.4 % came from other program revenue and miscellaneous revenues.

The total cost of all programs and services was \$173,342,298 . The District's expenses are predominantly related to educating and caring for students. The purely administrative activities of the District accounted for just 6.0% of total costs.

The total revenues exceeded expenses, decreasing the net deficit by \$624,848 for fiscal year 2020.

General Fund

The General Fund includes the primary operations of the District in providing educational services to students from kindergarten through grade 12, including pupil transportation activities, buildings and grounds, and capital outlay projects.

The following schedule presents a summary of General Fund Revenues.

	Year Ended June 30,		Amount of Increase (Decrease)	Percent Increase (Decrease)
	2020	2019		
Local sources	\$ 33,168,280	\$ 29,793,118	\$ 3,375,162	11.3%
State sources	101,845,237	97,587,181	4,258,056	4.4%
Federal sources	8,035,399	8,097,771	(62,372)	-0.8%
Other sources	707,063	1,179,010	(471,947)	-40.0%
Total General Fund revenues	<u>\$ 143,755,979</u>	<u>\$ 136,657,080</u>	<u>\$ 7,098,899</u>	5.2%

Total General Fund revenue increased by \$7,098,899 or 5.2 % from the previous year. Basic general education revenue is determined by a state per student funding formula and consists of an equalized mix of property tax and state aid revenue. The mix of property tax and state aid can change significantly from year to year without any net change on revenue.

The following schedule presents a summary of General Fund expenditures.

	Year Ended June 30,		Amount of Increase (Decrease)	Percent Increase (Decrease)
	2020	2019		
Salaries and benefits	\$ 119,696,700	\$ 114,167,137	\$ 5,529,563	4.8%
Purchased services	9,675,437	9,869,515	(194,078)	-2.0%
Supplies and materials	6,171,626	7,102,447	(930,821)	-13.1%
Capital expenditures	4,725,594	2,366,284	2,359,310	99.7%
Other expenditures	535,645	533,749	1,896	0.4%
Total General Fund expenditures	<u>\$ 140,805,002</u>	<u>\$ 134,039,132</u>	<u>\$ 6,765,870</u>	5.0%

Total General Fund expenditures increased by \$6,765,870 or 5.0 % from the previous year. The overall increase in the current fiscal year resulted from an increase in salaries and benefits related to additional staff hired and approved wage increases for existing staff. Both purchased services and supplies and materials costs decreased due to COVID impacts from school closures during the last quarter of the school year.

General Fund Budgetary Highlights

The District's general fund results when compared to the final budget are:

- Actual revenues were \$2,826,551 *less than* budget. This was attributed to reduced actual federal grant expenditures from planned activities, thus offsetting federal revenue due to COVID impacts from school closures during the last quarter of the school year.
- Actual expenditures were \$2,173,478 *less than* budget due to decreased federal grant expenditures from planned activities due to COVID impacts from school closures during the last quarter of the school year.

Debt Service Fund

The Debt Service Fund revenues were \$17,118,364 , expenditures were \$19,166,987 , and transfers in totaled \$3,843,740 . This increased fund balance by \$1,795,117 which is the result of a transfer in from the capital projects fund.

Capital Projects Fund

The Capital Projects Fund revenues were \$6,042,766 , expenditures were \$52,082,169 , and other financing sources were \$83,241,801 . Fund balance increased by \$37,202,398 . The increase is a result of bond proceeds received during fiscal year 2020.

Special Reserve Fund

The Special Reserve Fund revenues were \$1,297,312 , expenditures were \$0. This increased fund balance by \$1,297,312 .

Other Non-Major Funds

The Food Service Fund incurred a decrease in the fund balance of \$363,237 . The decrease is a result of proportionately less revenue from meals served due to COVID impacts from school closures during the last quarter of the school year. The Co-curricular Fund incurred no change in fund balance during fiscal year 2020.

Capital Assets and Debt Administration

Capital Assets

By the end of 2020, the District had invested \$372,949,668 in a broad range of capital assets, including school buildings, land, athletic facilities, school vehicles, parking lots, and computer and audio-visual equipment. Total depreciation expense for the year was \$7,613,220 . Note 5 presents the detail of the District's capital assets.

	2020	2019
Land	\$ 14,624,001	\$ 14,186,376
Construction in progress	35,976,967	21,545,794

Long-Term Debt

As of June 30, 2020, the School District had \$448,849,297 in outstanding long-term liabilities, of that \$11,522,962 was due within one year. Total long-term liabilities outstanding as of **June 30, 2019** was \$384,724,602. The net increase of \$64,124,696 (16.67 %) was attributed to the issuance of \$79,660,000 in bonds to be used in the construction of future projects. The remaining difference is offset by scheduled debt retirement on outstanding debt.

Factors Bearing on the District's Future

With the onset of the COVID-19 Pandemic in March 2020, the District experienced some revenue shortfalls and considerable reductions in expenditures due to the closing of educational facilities and the loss of public program income during the period of closure. As a result, the district was able to reduce the utilization of its special reserve fund to cover allowable expenses for FY20. Looking ahead to FY21, most of those non-transferred reserve dollars will be utilized to offset the added inefficiencies arising from the hybrid instructional model and the unique needs of educating through a pandemic. The district anticipates significant federal support in the variety of grants that will also be used to offset unique expenses arising from the COVID-19 pandemic. The district's overall reserve balance will remain strong, at levels near its pre-pandemic balance.

Contacting the District's Financial Management

This financial report is designed to provide our parents, taxpayers, and creditors with a general overview of West Fargo Public School District's finances and to show the School District's accountability for the money it receives to provide the best possible education to all students enrolled in West Fargo Public Schools. Anyone who has questions about information contained in this report or who is interested in receiving additional information is encouraged to contact Levi Bachmeier, Business Manager, West Fargo Public Schools, 207 Main Avenue West, West Fargo, ND 58078-1793; phone 701-356-2002, fax 701-356-2009, or email lbachmeier@westfargo.k12.nd.us.

Governmental Funds
Reconciliation of the Balance Sheet to the Statement of Net Position
June 30, 2020

Total Fund Balances - Governmental Funds	\$ 106,813,693
Amounts reported for governmental activities in the statement of net position is different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	
Cost of Capital Assets	372,949,668
Less Accumulated Depreciation	(68,671,636)
Internal service funds are used by the District to charge the costs of the self-insured health insurance plan. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.	
	9,606,599
Delinquent property taxes and pledge receivable are not considered available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds.	
	3,302,212
Net pension obligations and OPEB are not due and payable in the current period, and therefore are not reported in the governmental funds.	
	(149,707,786)
Deferred outflows and inflows of resources related to pensions and OPEB plans are applicable to future periods and, therefore, are not reported in the funds.	
	23,923,300
Long-term liabilities applicable to the district's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities-both current and long-term are reported in the statement of net position. Balances at year end is made up of the following liabilities:	
Long Term Debt, net of bond premium and discount	(298,226,977)
Capital Lease Payable	(6,312)
Interest Payable	(2,237,244)
Compensated Absences	(908,223)
	(3,162,706)
Total Net Deficit- Governmental Activities	\$ (3,162,706)

Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances to the Statement of Activities

Year Ended June 30, 2020

Net Change in Fund Balances - Total Governmental Funds	\$ 40,372,570
<p>Amounts reported for governmental activities in the statement of activities are different because:</p>	
<p>Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities the cost of capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense and net disposals in the current period.</p>	33,548,515
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>	334,340
<p>In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used.</p>	(205,731)
<p>In the statement of activities OPEB liabilities are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used.</p>	65,131
<p>In the statement of activities the cost of pension benefits earned net of employee contributions is reported as pension expense. In the governmental funds, however, the contributions are reported as expense.</p>	(11,445,102)
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principle of long-term debt consumes the current financial resources of governmental funds. Neither transactions, however, has any effect on net position. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>	(63,958,354)
<p>Internal service funds are used by the District to charge the costs of the self-insured health insurance pool. The net revenue of the internal service fund is reported in governmental activities.</p>	<u>1,913,479</u>
Change in Net Deficit of Governmental Activities	<u><u>\$ 624,848</u></u>

Note 1 - Summary of Significant Accounting Policies

A. Organization

Independent School District No. 6, West Fargo Public Schools, West Fargo, North Dakota (the District) was formed and operates pursuant to applicable North Dakota laws and statutes. The District is governed by a School Board elected by voters of the District. The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

The accompanying financial statements include all funds, departments, agencies, boards, commissions, and other organizations that comprise the District, along with any component units.

Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit include whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial burden or benefit with the potential component unit, or is fiscally depended upon by the potential component unit.

Based on these criteria, there are no organizations considered to be component units of the District.

C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. The fiduciary funds are reported in the Statement of Fiduciary Net Position at the fund financial statement level. Generally, the effect of interfund activity has been removed from the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory “tax shift” described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

The District applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available. For capital assets that can be specifically identified with, or allocated to functional areas, depreciation expense is included as a direct expense in the functional areas that utilize the related capital assets. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Fund Financial Statement Presentation

Major individual governmental funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements.

Fiduciary funds are presented in the fiduciary fund financial statements by type: pension (or other benefit) trust, private-purpose trust, and agency. Since, by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the government-wide statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

Revenue Recognition – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District generally considers revenues to be available if they are collected within 60 days after year-end. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. State revenue is recognized in the year to which it applies. Federal revenue is recorded in the year in which the related expenditure is made. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Recording of Expenditures – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt, severance and healthcare benefits, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are included within the applicable functional areas.

Fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as described earlier in these notes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is receipts from participants. Operating expenses for the internal service fund includes payments for insurance claims and administration. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Description of Funds

Each fund is accounted for as an independent entity. A description of the funds included in this report are as follows:

Major Governmental Funds

General Fund – This is the School District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund – This fund is used to account for financial resources to be used for payment of long-term debt principal, interest and related costs.

Capital Projects Fund – This fund is used to account for financial resources to be used for acquisition or construction of major capital facilities.

Special Reserve Fund – This fund is used to account for the accumulation of resources from the special reserve levy. The special reserve is designed to provide cash flow to the School District when general fund reserves are spent. This traditionally happens at the end of December, before the next year taxes are collected. If the special reserve is not needed for cash flow, there is a provision in the law that allows the School Board to transfer up to half of the balance to the general fund to be used for any allowable purpose. In accordance with NDCC 57-19-01, the ending fund balance is limited to the amount generated by fifteen (15) mills times the taxable valuation of the School District. The School District has recently been using these funds to offset costs associated with the opening of new school buildings. In the first year of operation, up to 40% of the estimated costs of the new facility are transferred to the general fund and in the second year of operation, up to 20% of the estimated costs are transferred.

Proprietary Fund

Internal Service Fund – This fund accounts for medical insurance provided to other departments on a cost-reimbursement basis.

Fiduciary Funds

Agency Fund – These fund accounts for assets by the School District in a custodial capacity as an agent on behalf of others. The School District’s agency funds are used to account for various deposits of the student activity funds.

With respect to proprietary activities, the District has adopted GASB Statement No. 62 “Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.”

Amounts reported as program revenues include the following: amounts received from those who purchase, use, or directly benefit from a program; amounts received from parties outside the District that are restricted to one or more specific programs; and earnings on investments that are legally restricted for a specific program. Revenues that do not meet the previous criteria are reported as general revenues.

Proprietary funds report operating revenues and expenses separately from nonoperating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the District’s proprietary fund are charges to participants for health insurance plans. Operating expenses for proprietary funds include the cost of health insurance and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

E. Other Significant Accounting Policies

Budgeting

An operating budget is adopted by July 1 of each fiscal year for all governmental funds on the same modified accrual basis used to reflect actual revenues and expenditures. The superintendent is authorized to transfer budget amounts within line items; however, supplemental appropriations that amend total appropriations of any fund require a board resolution. Reported budgeted amounts are as originally adopted or as amended by board resolution. Unencumbered appropriations lapse at year-end.

Cash and Investments

Cash includes amounts in demand deposits and money market accounts. Cash equivalents on the statement of cash flows consist of certificates of deposit with a maturity of 3 months or more. Deposits must either be deposited with the Bank of North Dakota or in other financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the uninsured balance.

Investments consist of certificates of deposits stated at cost and U.S. government-backed securities stated at fair market value.

Restricted Cash and Cash Equivalents

The district has amounts held in a bond sinking fund within the Debt Service Fund. These funds will be held as restricted cash until they are used to pay off the related bonds.

Receivables

All receivables are shown net of any allowance for uncollectibles. No allowances for uncollectibles have been recorded. The only receivables not expected to be collected within one year are property taxes receivable and pledges.

Inventories

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method. Surplus commodities are stated at standardized costs, as determined by the U.S. Department of Agriculture.

Property Taxes

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments and the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount on property taxes is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Taxes which remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is deferred in the fund financial statements because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes is considered necessary.

Capital Assets

Capital assets are capitalized at historical cost or estimated historical cost for assets where actual historic cost is not available. Donated assets are recorded as capital assets at acquisition value at the date of donation. The District maintains a threshold level of \$5,000 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statements but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purposes by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 5 to 50 years.

Capital assets not being depreciated include land and construction in progress.

Buses are assumed to have a salvage value of \$1,500 each. Other vehicles are assumed to have a salvage value of 5% of cost basis. Copy machines are assumed to have a salvage value of 2% of cost basis.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures and expensed when incurred.

Compensated Absences Payable

Vested or accumulated vacation and personal leave for qualified employees is reported in the government-wide statement of net position. Upon termination of employment with the School District, compensation for unused vacation and personal leave earned and available is administered as follows:

Classified Staff – Vacation is earned by staff who work at least 30 hours per week, 12 months per year at the rate of 12, 15, 18, 21 or 24 days per year based on years of service. The employee's vacation leave that is earned between July 1 and June 30th of each fiscal year must be used by the following June 30, or it is forfeited. Compensation for all earned and available vacation is paid to the classified employee upon termination of employment with the district.

Personal leave is available to all classified employees who do not qualify for vacation leave with the exception of administrators or employees who are designated as temporary staff. Qualified employees who earn personal leave must work a regular schedule of at least nine months and earn two days (based on their assigned workday) per year of personal leave. Earned personal leave is not made available for use until the employee has been in the employ of the School District for at least 60 days. Requests to use personal leave must be made two days in advance and are subject to supervisory approval. If unused, up to four days of personal leave may be carried forward into the next fiscal year. Compensation for all earned and available personal leave is paid to the classified employee upon termination of employment with the district.

Licensed Staff – Personal leave is available to all licensed employees with the exception of administrators or employees who are designated as temporary staff. Employees earn two days per year (based on their assigned work day) of personal leave, with a maximum accumulation of five days. Earned personal leave is made available for use by the licensed employee immediately upon employment. Requests to use personal leave must be made 48 hours in advance and must be approved by the building principals subject to limits set forth in the master contract. If unused at the end of a fiscal year, three days of personal leave may be carried forward into the next fiscal year. Compensation for all earned and available personal leave is paid to the licensed employee upon termination of employment with the district.

Sick leave is earned by classified employees at the rate of one working day per month and by licensed employees at the rate of twelve days per contract year. The District does provide a payout of up to 45 days at \$100 per eight-hour workday for unused sick leave for employees who meet the following requirements;

- 1) 10 years of employment with the District
- 2) Employees are TFFR or PERS eligible
- 3) Employees declare their intention to retire no later than May 1, or four weeks in advance of the retirement date

Unearned Revenue

The District receives donations from several organizations and the amount that is not spent in the fiscal year is reported as unearned revenue. The donations will be spent in the subsequent fiscal year for miscellaneous projects throughout the District.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and the North Dakota Teacher's Fund for Retirement (NDTFFR) and additions to/deductions from NDPERS and NDTFFR fiduciary net position have been determined on the same basis as they are reported by NDPERS and NDTFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS), and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has one item that qualifies for reporting in this category. It is the contributions made to pension plans after the measurement date and prior to the fiscal year-end, and changes in the net pension liability not included in pension expense reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has four types of items that qualify for reporting in this category. The District reports unavailable revenues from property taxes and pledges receivable on the government-wide statement of net position and the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other two items are changes in the total other postemployment benefits liability, and net pension liability reported in the government-wide statement of net position.

Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in the District's insurance coverage in fiscal year 2020.

Interfund Transactions

In the governmental fund statements, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions, except reimbursements, are reported as transfers. In the government-wide financial statements, interfund transactions have been eliminated.

Net Position

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the District's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any long-term debt attributable to the acquisition, construction, or improvement of those assets. Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Fund Balance

The following classifications describe the relative strength of spending constraints:

- Nonspendable fund balance amounts are comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. They include items that are inherently unspendable, such as, but not limited to, inventories, prepaid items, long-term receivables, non-financial assets held for resale, or the permanent principal of endowment funds.
- Restricted fund balance amounts are comprised of funds that have legally enforceable constraints placed on their use that are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.
- Committed fund balance amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the School Board and that remain binding unless removed by the School Board by subsequent formal action. The formal action to commit a fund balance must occur prior to fiscal year end; however, the specific amounts actually committed can be determined in the subsequent fiscal year. A committed fund balance cannot be a negative number. A majority vote of the School Board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.
- Assigned fund balance amounts are comprised of unrestricted funds constrained by the school District's intent that they be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the general fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the school district's intended use of those resources. The action to assign a fund balance may be taken after the end of the fiscal year. An assigned fund balance cannot be a negative number. A School Board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: Superintendent and Assistant Superintendent. Assignments so made shall be reported to the School Board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the School Board.

- Unassigned fund balance amounts are comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

The first priority is to utilize the balance as restricted fund balance. Committed funds will be considered second with assigned fund balance third when expenditures is incurred for purposes for which amounts in any of those unrestricted fund balance classification could be used like assigned or unassigned.

Fund Balance Spending Policy – It is the policy of the School District to spend restricted resources first, followed by unrestricted resources. It is also the policy of the School District to spend unrestricted resources of funds in the following order: committed, assigned and then unassigned.

Minimum Fund Balance Policy – The School Board adopted a policy that establishes a 10-14% general fund carryover balance target to help with financial stability. The 10-14% fund balance range is a part of the budget recommendation adopted by the School Board each fiscal year. This level provides sufficient unassigned resources to avoid short-term cash flow borrowing for the School District.

Budget Stabilization Policy – Replenishing deficiencies – when fund balance falls below the minimum 10 percent range, the District will replenish shortages/deficiencies using the budget strategies and timeframes described as follows.

The following budgetary strategies shall be utilized by the School District to replenish funding deficiencies:

- The School District will reduce recurring expenditures to eliminate any structural deficit; or
- The School District will increase revenues or pursue other funding sources; or
- Some combination of the two options above.

Note 2 - Deposits and Investments

In accordance with North Dakota statutes, the School District maintains deposits at the depository banks designated by the governing board. All depositories are members of the Federal Reserve System.

Deposits must either be deposited with the Bank of North Dakota or in other financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes, or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, federal land bank bonds, bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investment companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the state of North Dakota, its boards, agencies or instrumentalities or by any county, city, township, school district, park district, or other political subdivision of the state of North Dakota. Whether payable from special revenues or supported by the full faith and credit of the issuing body and bonds issued by any other state of the United States or such other securities approved by the banking board.

At year end June 30, 2020, the School District's carrying amount of deposits was \$125,830,618, and the bank balances totaled \$126,498,710. Of the bank balances, \$115,358,412 was covered by Federal Depository Insurance or Securities Investor Protection Corporation Insurance, and \$17,937,123 was invested in Federal Home Loan Bank and Federal National Mortgage Association, which are fully backed by the federal government. The remaining bank balances that required pledges were collateralized with securities held by the pledging financial institution's agent in the government's name.

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of bank failure, the District's deposits may be lost. The District does not have an investment policy for credit risk.

Credit Risk – The School District may invest idle funds as authorized in North Dakota Statutes, as follows:

- a) Bonds, treasury bills and notes, or other securities that are a direct obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of congress.
- b) Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are the type listed above.
- c) Certificates of deposit fully insured by the federal deposit insurance corporation.
- d) Obligations of the state.

As of June 30, 2020, the School District had certificates of deposit totaling \$10,000,000.

Interest Rate Risk – The School District does not have a formal deposit policy that limits maturities as a means of managing exposure to fair-value losses arising from increasing interest rates.

Concentration of Credit Risk – The School District does not have a limit on the amount it may invest in any one issuer.

The following table presents the District's deposit and investment balances at June 30, 2020:

Type	Fair Value	Investment Maturities (in Years)	
		N/A	< 1
Cash and cash equivalents			
Deposits	\$ 100,067,427	\$ 100,067,427	\$ -
Certificates of Deposit	10,000,000	10,000,000	-
Money market	15,757,311	15,757,311	-
Petty cash	5,880	5,880	-
Investments			
Fixed income	3,168,467	-	3,168,467
	<u>\$ 128,999,085</u>	<u>\$ 125,830,618</u>	<u>\$ 3,168,467</u>

Cash and investments are included on the basic financial statements as follows:

Cash and Investments - Statement of Net Position	\$ 124,448,839
Restricted Cash and Cash Equivalents - Statement of Net Position	3,168,882
Cash and Investments - Statement of Fiduciary Net Position	<u>1,381,364</u>
	<u>\$ 128,999,085</u>

Note 3 - Fair Value of Instruments

In accordance with GASB Statement No. 72, assets, deferred outflows of resources, liabilities and deferred inflows of resources are grouped at fair value in three levels, based on the markets in which the assets and liabilities are traded, and the reliability of the assumptions used to determine fair value. These levels are:

Level 1 – Valuation is based upon quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 – Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

US Treasury bonds totaling \$3,168,467 were classified as Level 2 inputs as of June 30, 2020.

Note 4 - Due from Other Governmental Units

Amounts receivable from other governments as of June 30, 2020, include:

<u>Fund</u>	<u>Federal</u>	<u>State</u>	<u>Total</u>
Major funds			
General	\$ 1,323,934	\$ 885,312	\$ 2,209,246
Non-major funds	136,549	-	136,549
	<u>\$ 1,460,483</u>	<u>\$ 885,312</u>	<u>\$ 2,345,795</u>

Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2020 is as follows:

	<u>Balance July 1, 2019</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance June 30, 2020</u>
Capital assets not being depreciated				
Land	\$ 14,186,376	\$ 437,625	\$ -	\$ 14,624,001
Construction in progress	21,545,794	40,106,478	(25,675,305)	35,976,967
Total capital assets, not being depreciated	<u>35,732,170</u>	<u>40,544,103</u>	<u>(25,675,305)</u>	<u>50,600,968</u>
Capital assets being depreciated				
Buildings	276,566,448	25,480,253	-	302,046,701
Equipment	4,501,485	293,540	(522,188)	4,272,837
Vehicles	5,049,832	544,800	(317,935)	5,276,697
Parking Lots	1,013,831	-	-	1,013,831
Land Improvements	9,738,634	-	-	9,738,634
Total capital assets being depreciated	<u>296,870,230</u>	<u>26,318,593</u>	<u>(840,123)</u>	<u>322,348,700</u>
Less accumulated depreciation for

Vehicles	2,416,695	346,302	(292,279)	2,470,718
Parking Lots	679,710	72,893	-	752,603
Land Improvements	3,464,097	486,932	-	3,951,029
Total accumulated depreciation	<u>61,872,883</u>	<u>7,613,220</u>	<u>(814,467)</u>	<u>68,671,636</u>
Net capital assets, depreciated	<u>234,997,347</u>	<u>18,705,373</u>	<u>(25,656)</u>	<u>253,677,064</u>
Total capital assets, net	<u>\$ 270,729,517</u>	<u>\$ 59,249,476</u>	<u>\$ (25,700,961)</u>	<u>\$ 304,278,032</u>

Depreciation expense for the year ended June 30, 2020 was charged to the following functions/programs:

Regular instruction	\$ 126,309
Special education	1,162
Career and Technical education	8,082
General administration	83,064
Food service	58,654
Operations and maintenance	6,558,897
Transportation	352,030
Co-Curricular	425,022
	<u>425,022</u>
Total depreciation expense	<u>\$ 7,613,220</u>

Construction in progress is for Heritage Middle School, the Horace Athletic Complex, Horace High School, as well as various school remodel and security upgrades.

Note 6 - Long-Term Liabilities

Changes in long-term liabilities during the year ended June 30, 2020 are as follows:

	Balance July 1, 2019	Additions	Deletions	Balance June 30, 2020	Due Within One Year
Bonds payable	\$ 214,281,826	\$ 79,660,000	\$ 12,079,726	\$ 281,862,100	\$ 9,637,046
Direct borrowings, capital leases	-	-	2,700	6,312	2,764
Special assessments payable	10,583,015	943,880	11,526,895	-	-
Unamortized premium on bond issuance	10,757,104	7,425,541	1,283,945	16,898,700	1,023,459
Unamortized discount on bond issuance	(582,353)	-	(48,530)	(533,823)	(48,530)
Compensated absences **	702,492	205,731	-	908,223	908,223
	<u>\$ 235,751,096</u>	<u>\$ 88,235,152</u>	<u>\$ 24,844,736</u>	<u>\$ 299,141,512</u>	<u>\$ 11,522,962</u>

** The change in compensated absences is shown as a net change for the year.

Following is a summary of outstanding debt as of June 30, 2020:

General Obligation and Lease Revenue Bonds	Final	Interest Rate	Original Principal	Outstanding Balance
General Obligation School Building Bonds, Series 2002B	6/22	1.00%	\$ 2,500,000	\$ 272,975
Limited Tax School Building Bonds, Series 2010B	6/22	5.75%	5,000,000	5,000,000
General Obligation School Building Bonds, Series 2009	5/31	1.00%	2,500,000	672,386
General Obligation State School Bonds, Series 2011	5/31	3.00%- 4.00%	67,200,000	48,515,000
General Obligation State School Construction Bonds, Series 2011	5/33	1.97%	4,000,000	2,391,279
General Obligation State School Construction Bonds, Series 2013A	5/33	4.00%	2,260,000	1,610,000
School Building Bonds Limited Tax , Series 2013/2015	5/33	1.23%	9,400,000	6,662,801
General Obligation State School Construction Bonds, Series 2015	5/33	1.00%	9,040,000	6,077,659
General Obligation School Building Bonds, Series 2015B	5/35	3.00%	7,650,000	7,650,000
General Obligation School Building Bonds, Series 2017A	11/36	2.00%- 4.00%	45,000,000	37,885,000
General Obligation School Building Refunding Bonds, Series 2017	8/36	2.00%- 3.25%	45,450,000	42,160,000
Limited Tax School Building Bonds, Series 2018	8/38	4.00%- 5.00%	10,155,000	9,905,000
General Obligation School Building Bonds, Series 2019	8/38	4.00%- 5.00%	33,400,000	33,400,000
General Obligation State School Construction Fund Bonds, Series 2020A	6/40	2.00%	10,000,000	10,000,000
General Obligation School Building Bonds, Series 2020B	8/39	3.00%- 5.00%	59,145,000	59,145,000
General Obligation Special Assessment Prepayment Bonds 2020C	8/35	2.25%- 4.00%	10,515,000	10,515,000
				<u>\$ 281,862,100</u>

During the year ended June 30, 2020, the district issued \$10,000,000 of State School Construction Fund Bonds 2020A to construct additions to school buildings, renovate, remodel, and improve school buildings. The bond bears an interest rate of 2.00% and require annual interest and principal payments commencing June 2021 through June 2040.

During the year ended June 30, 2020, the district issued \$59,145,000 of General Obligation School Building Bonds 2020B to finance the renovation, remodeling, and improvement of various school facilities. The bond bears an interest rate of 3.00 to 5.00% and require annual interest and principal payments commencing August 2021 through August 2039.

During the year ended June 30, 2020, the district issued \$10,515,000 of General Obligation Special Assessment Prepayment Bonds 2020C to prepay outstanding special assessments against the property owned by the school district. The bond bears an interest rate of 2.25 to 4.00% and require annual interest and principal payments commencing August 2021 through August 2035.

Bonds Payable – These are for the acquisition and betterment of school sites and facilities, as well as facility improvements. Payments are made out of the debt service and capital projects funds.

Special Assessments Payable totaling \$11,526,895 represented special assessment taxes levied by the City of Fargo, ND, City of West Fargo, ND, City of Horace, ND, and the City of Harwood, ND against the school district for the district’s share of the benefit derived from city funded improvements. The special assessments payable were due in varying annual installments through 2043 with interest at 3.0% to 7.0%. Principal and interest payments were made by the capital projects fund. The special assessments were paid off with proceeds from the General obligation Special Assessment Prepayment bonds 2020C during the current year.

Capital Lease Payable totaling \$6,312 is for a postage machine lease through September 2022 due in monthly installments of \$240 with interest at 2.37%. Total costs of the capital assets as of June 30, 2020 was \$13,584, and total accumulated depreciation of \$8,313. Payments on the capital leases are made out of the general fund. Remaining principal and interest payments on long-term debt are as follows:

Years Ending June 30,	Bonds Payable		Direct Borrowings, Capital Lease Payable		Unamortized Bond	Unamortized Bond
	Principal	Interest	Principal	Interest	Premium	Discount
2021	\$ 9,637,046	\$ 8,966,578	\$ 2,764	\$ 120	\$ 1,023,459	\$ (48,530)
2022	13,167,085	9,440,674	2,830	53	1,023,459	(48,530)
2023	13,678,971	8,957,975	718	3	1,023,459	(48,530)
2024	14,293,399	8,441,397	-	-	1,023,459	(48,530)
2025	19,978,210	8,495,988	-	-	1,023,459	(48,530)
2026 - 2030	85,405,391	29,272,341	-	-	5,110,797	(242,648)
2031 - 2035	80,994,401	13,760,074	-	-	4,451,164	(48,530)
2036 - 2040	44,707,597	2,977,727	-	-	2,219,444	-
	<u>\$ 281,862,100</u>	<u>\$ 90,312,754</u>	<u>\$ 6,312</u>	<u>\$ 176</u>	<u>\$ 16,898,700</u>	<u>\$ (533,828)</u>

Note 7 - Transfers

The following is a reconciliation of transfers in and transfers out as reported in the government fund financial statements for the year ended June 30, 2020:

Fund	Transfers In	Transfers Out
Major funds		
General	\$ 73,700	\$ (2,623,343)
Capital Projects	-	(3,843,740)
Debt Service	3,843,740	-
Non-major funds	2,623,343	(73,700)
	\$ 6,540,783	\$ (6,540,783)

As of June 30, 2020, the general fund transferred funds to the \$2,623,343 to the co-curricular fund to cover their expenditures. The capital projects fund transferred \$3,843,740 to the debt service fund to cover debt payments. The food service fund transferred \$73,700 to the general fund for building rent.

Note 8 - Defined Benefit Pension Plans

1. General Information about the TFFR Pension Plan

North Dakota Teachers' Fund for Retirement (TFFR)

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65 or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65 or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the School District reported a liability of \$126,602,640 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The district's proportion of the net pension liability was based on the district's share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At June 30, 2019, the School District's proportion was 9.1924%, which was an increase of 0.2870% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the district recognized net pension expense of \$16,678,112. At June 30, 2020, the district reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 180,774	\$ 4,569,136
Changes in actuarial assumptions	4,499,671	-
Difference between projected and actual investment earnings	1,782,075	-
Change in proportion and differences between contributions made and District's proportionate share of contributions	11,417,005	-
District's contributions to TFFR subsequent to the measurement date	8,574,923	-
Total	\$ 26,454,448	\$ 4,569,136

\$8,574,923 reported as deferred outflows of resources and deferred inflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ended June 30,	Pension Expense Amount
2021	\$ 5,941,082
2022	2,936,348
2023	2,010,417
2024	1,972,160
2025	227,335
Thereafter	223,047

Actuarial Assumptions

The total pension liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

<u>Assumptions</u>	<u>TFFR</u>
Inflation	2.75%
Salary Increases	4.25% to 14.50%, varying by service, including inflation and productivity
Investment Rate of Return	7.75%, net of investment expenses
Cost-Of-Living Adjustments	None

For active and inactive members, mortality rates were based on the RP-2014 Employee Mortality Table, projected generationally using Scale MP-2014. For healthy retirees, mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table set back one year, multiplied by 50% for ages under 75 and grading up to 100% by age 80, projected generationally using Scale MP-2014. For disabled retirees, mortality rates were based on the RP-2014 Disabled Mortality Table set forward four years.

The actuarial assumptions used were based on the results of an actuarial experience study dated April 30, 2015. They are the same as the assumptions used in the July 1, 2019, funding actuarial valuation for TFFR.

As a result of the April 30, 2015 actuarial experience study, the TFFR Board adopted several assumption changes, including The TFFR Board is responsible for establishing investment policy for the fund assets under NDCC 15-39.1-05.2. Benefit payments are projected to occur over a long period of time. This allows TFFR to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. This asset-liability analysis considers both sides of the plan balance sheet, utilizing both quantitative and qualitative inputs, in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting estimated impact of funded status and contribution rates.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2019 are summarized in the following table:

Asset Class	Target Allocations	Long-Term Expected Real Rate of Return
Global Equity	58%	6.90%
Global Fixed Income	23%	2.10%
Global Real Assets	18%	5.40%
Cash Equivalents	1%	0.00%
	100%	

Discount Rate

The discount rate used to measure the total pension liability was 7.75 % percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2019, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2019. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount rate.

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	1% Decrease in Discount Rate	Discount Rate	1% Increase in Discount Rate
TFFR discount rate	6.75%	7.75%	8.75%
District's proportionate share of the TFFR net pension liability	\$ 170,978,149	\$ 126,602,640	\$ 89,725,456

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TFFR financial report. TFFR's Comprehensive Annual Financial Report (CAFR) is located at <http://www.nd.gov/rio/sib/publications/cafr/default.htm>.

2. PENSION PLANS - ND PERS

General Information about the NDPERS Pension Plan

North Dakota Public Employees Retirement System (NDPERS) (Main System)

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

Pension Benefits

Benefits are set by statute. NDPERS has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Member of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of salaries and wages. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25, and the maximum may not exceed the following:

1 to 12 months of service	Greater of one percent of monthly salary or \$25
13 to 24 months of service	Greater of two percent of monthly salary or \$25
25 to 36 months of service	Greater of three percent of monthly salary or \$25
Longer than 36 months of service	Greater of four percent of monthly salary or \$25

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the School District reported a liability of \$21,717,833 for its proportionate share of net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The district's proportion of the net pension liability was based on the district's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2019, the district's proportion was 1.8529%, which is an increase of 0.1342% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized net pension expense of \$4,839,783. At June 30, 2020, the district reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 12,861	\$ 3,941,372
Changes in actuarial assumptions	8,115,383	6,967,759
Difference between projected and actual investment earnings	378,377	-
Change in proportion and differences between contributions made and District's proportionate share of contributions	2,487,314	(3)
District's contributions to NDPERS subsequent to the measurement date	1,461,403	-
Total	\$ 12,455,338	\$ 10,909,128

\$1,461,403 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows.

Years Ended June 30,	Pension Expense Amount
2021	\$ 1,604,452
2022	941,609
2023	(281,184)
2024	(1,639,241)
2025	(540,829)
Thereafter	-

Actuarial Assumptions

The total pension liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Assumptions	NDPERS
Inflation	2.50% per year
Salary Increases	4.00% to 20.00% including inflation
Investment Rate of Return	7.50%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table set back one year for males (no setback for females) multiplied by 125%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocations	Long-Term Expected Real Rate of Return
Domestic Equity	30%	6.25%
International Equity	21%	6.95%
Private Equity	7%	10.15%
Domestic Fixed Income	23%	2.11%
Global Real Assets	19%	5.41%
Cash Equivalents	0%	0.00%
	100%	

Discount Rate

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, which is the case for the PERS plan, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.50%; the municipal bond rate is 3.13%; and the resulting Single Discount Rate is 7.50%.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount rate

The following presents the School District’s proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the School District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate.

	<u>1% Decrease in Discount Rate</u>	<u>Discount Rate</u>	<u>1% Increase in Discount Rate</u>
NDPERS discount rate	6.50%	7.50%	8.50%
District’s proportionate share of the NDPERS net pension liability	\$ 31,138,697	\$ 21,717,833	\$ 13,802,660

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report.

NDPERS issues a publicly available financial report that includes financial statements and required supplementary information for PERS. That report may be obtained on the internet at www.nd.gov/ndpers, or by writing to NDPERS at PO Box 1657, Bismarck, ND 58502.

Note 9 - Other Post-Employment Benefits (OPEB) – ND PERS

General Information about the OPEB Plan

North Dakota Public Employees Retirement System OPEB Plan

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDAC Chapter 71-06 for more complete information.

NDPERS OPEB plan is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits from the PERS, the HPRS, and Judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. Effective August 1, 2019 the benefit may be used for any eligible health, prescription drug plan, dental, vision, or long term care plan premium expense. The Retiree Health Insurance Credit Fund is advance funded on an actuarially determined basis.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

OPEB Benefits

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. The employer contribution for employees of the state board of career and technical education is 2.99% of covered compensation for a period of eight years ending October 1, 2015. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "*prefunded credit applied*" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

Retiree health insurance credit benefits and death and disability benefits are set by statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the PERS, the HPRS, the Defined Contribution Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving a surviving spouse benefit or if the member selected a joint and survivor option are eligible to receive a credit toward their monthly health insurance premium under the state health plan.

Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. The benefits are equal to \$5.00 for each of the employee's, or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health insurance credit is also available for early retirement with reduced benefits.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the School District reported a liability of \$1,387,313 for its proportionate share of net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The district's proportion of the net OPEB liability was based on the district's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2019, the district's proportion was 1.727260 percent.

For the year ended June 30, 2020, the School District recognized OPEB expense of \$205,760. At June 30, 2020, the district reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 34,259	\$ 43,338
Changes in assumptions	165,344	-
Difference between projected and actual investment earnings	1,546	-
Change in proportion and differences between contributions made and District's proportionate share of contributions	103,685	-
Employer contributions subsequent to the measurement date	230,282	-
	\$ 535,116	\$ 43,338

\$230,282 reported as deferred outflows of resources related to OPEB resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows.

Years Ended June 30,	Pension Expense Amount
2021	\$ 42,635
2022	42,635
2023	55,549
2024	53,180
2025	38,610
Thereafter	28,887

Actuarial Assumptions

The total OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases	Not applicable
Investment rate of return	7.25%, net of investment expenses
Cost of living adjustment	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table set back one year for males (no setback for females) multiplied by 125%.

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of RHIC investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2019 are summarized in the following table:

Asset Class	Target Allocations	Long-Term Expected Real Rate of Return
Large Cap Domestic Equities	33%	7.31%
Small Cap Domestic Equities	6%	10.40%
U.S. High Yield	4%	6.13%
Emerging Markets Debt	4%	7.45%
Fixed income	32%	4.26%
International equity	21%	7.32%
	100%	

Discount Rate

The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2019, and July 1, 2018, HPRS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the District’s Proportionate Share of the Net OPEB Liability to Changes in the Discount rate

The following presents the district’s proportionate share of the net OPEB liability of the Plans as of June 30, 2019, calculated using the discount rate of 7.25 percent, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate.

	1% Decrease in Discount Rate	Discount Rate	1% Increase in Discount Rate
Discount rate	6.25%	7.25%	8.25%
Net OPEB Liability	\$ 1,770,720	\$ 1,387,313	\$ 1,059,116

Note 10 - Commitments and Contingencies

Federal Revenue

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Contingencies

The District has the usual and customary legal claims pending at year-end. Although the outcomes of these lawsuits are not presently determinable, the District believes that the resolution of these matters will not have a material adverse effect on its financial position.

Management Agreement

The District has a management agreement in place with West Fargo Events to manage the West Fargo Sports Arena through June 30, 2023. The district pays West Fargo Events \$154,500 annually through the end of the agreement term.

Commitment

The District had the following CIP commitments for construction contracts as of June 30, 2020.

Project	Project Cost	Project Costs Spent To Date	Remaining CIP Balance
Art/Music/GATE and Freedom, Independence, Aurora	\$ 3,486,538	\$ 2,003,215	\$ 1,483,323
Horace HS Athletic Complex	1,529,866	1,867	1,527,999
Heritage Middle School	7,882,128	7,057,826	824,302
Horace High School	33,431,289	6,163,007	27,268,282
Horace Elementary	47,413,266	43,630,996	3,782,270
Sheyenne High School Tennis Court	6,800,000	6,792,601	7,399
Security Improvements - Phase 4 & 6	594,192	66,750	527,442
District Wide Flex Seating	2,025,000	1,498,276	526,724
HAC Moisture Mitigation	250,000	228,150	21,850
	93,943	86,568	7,375
	<u>\$ 103,506,222</u>	<u>\$ 67,529,256</u>	<u>\$ 35,976,966</u>

In addition, the district has the following commitments specific to retainage as of June 30, 2020.

Project	Total Contract with Change Orders	Total Completed	Retainage Payable	Remaining Balance
Art/Music/GATE and Freedom, Independence, Aurora	\$ 1,414,055	\$ 1,412,730	\$ 16,219	\$ 17,544
Artificial Turf - SHS	850,906	850,906	-	-
Artificial Turf - WFHS	853,167	853,167	-	-
Berger Secured Entrance	608,699	302,133	24,866	331,432
Central Kitchen	407,583	407,583	-	-
Cheney MS Addition (Music/Theater)	871,981	871,981	-	-
Deer Creek Elementary	12,096,842	12,096,842	-	-
Eastwood Secured Entrance	1,503,004	753,590	47,743	797,157
Harwood Elementary	3,529,457	3,529,457	-	-

	<u>\$ 100,562,050</u>	<u>\$ 50,929,241</u>	<u>\$ 2,185,795</u>	<u>\$ 51,818,604</u>

Note 11 - Tax Abatements

Cass County and certain political subdivisions within the county can negotiate property tax abatement agreements with individuals and various commercial entities/businesses. Cass County and the political subdivisions within have the following types of tax abatement agreements with various individuals and commercial entities at December 31, 2019.

The School District will state individually the parties whom received a benefit of the reduction in taxes of 20% or greater when compared to the total reduction of taxes for all tax abatement programs.

New and Expanding Business

Businesses that are primarily industrial, commercial, retail or service are eligible for property tax incentives for new and expanding businesses if they meet state requirements (NDCC 40.57.1-03) and the guidelines stated below.

The following criteria are only guidelines.

General Criteria – The governing body of the city or county may grant a partial or complete exemption from ad valorem taxation on all buildings, structure, fixtures, and improvements used in or necessary to the operation of a project for period not exceeding five years from the date of commencement of project operations. The governing body may also grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements used in or necessary to the operation of a project that produces or manufactures a product from agricultural commodities for all or part of the sixth year through the tenth year from the date of commencement of project operations. As a result of agreements made by the county and city, the School District had a reduction in taxes as noted.

Reduction in taxes due to agreements with other entities – \$168,285.

Public Charity Exemption

Public charities are eligible for property tax incentives if they meet state requirements (NDCC 57-02-08(8)) and the guidelines stated below. The following criteria are only guidelines.

All buildings belonging to institutions of public charity, including public hospitals and nursing homes licensed pursuant to section 23-16-01 under the control of religious or charitable institutions, used wholly or in part for public charity, together with the land actually occupied by such institutions not leased or otherwise used with a view to profit. The exemption provided by this subsection includes any dormitory, dwelling, or residential-type structure, together with necessary land on which such structure is located, owned by a religious or charitable organization recognized as tax exempt under section 501(c)(3) of the United States Internal Revenue Code which is occupied by members of said organization who are subject to a religious vow of poverty and devote and donate substantially all of their time to the religious or charitable activities of the owner.

Exemption Criteria – Property exempt if the qualified facility is used wholly or in part for public charity, together with the land occupied by such institutions not leased or otherwise used with a view to profit.

As a result of agreements made by the county and city, the School District had a reduction in taxes as noted.

Reduction in taxes due to agreements with other entities – \$1,654,316.

Single Family Residence

Single family property owners are eligible for property tax incentives for the specified property that meet state requirements (NDCC 57-02-08(35)). General Criteria -- Up to one hundred fifty thousand dollars of the true and full value of all new single-family and condominium and townhouse residential property, exclusive of the land on which it is situated, is exempt from taxation for the first two taxable years after the taxable year in which construction is completed and the residence is owned and occupied for the first time if all the following conditions are met:

- a. The governing body of the city, for property within city limits, or the governing body of the county, for property outside city limits, has approved the exemption of the property by resolution. A resolution adopted under this subsection may be rescinded or amended at any time. The governing body of the city or county may limit or impose conditions upon exemptions under this subsection, including limitations on the time during which an exemption is allowed.
- b. Special assessments and taxes on the property upon which the residence is situated are not delinquent.

As a result of agreements made by the county and city, the School District had a reduction in taxes as noted.

Reduction in taxes due to agreements with other entities – \$680,994.

Childhood Service Exemption

A governing body may grant a property tax exemption for the portion of fixtures, buildings, and improvements, used primarily to provide early childhood services by a corporation, limited liability company, or organization licensed under NDCC 50-11.1 or used primarily as an adult day care center. (NDCC 57-02-08(36)).

This exemption is not available for property used as a residence.

As a result of agreements made by the county and city, the School District had a reduction in taxes as noted.

Reduction in taxes due to agreements with other entities – \$112,171.

Commercial and Residential

Commercial and residential property are eligible for property tax incentives if they meet state requirements (NDCC 57-05.2-03) and the guidelines stated below. The following criteria are only guidelines.

Under NDCC 57-02.2-03 improvements to commercial and residential buildings and structures as defined in this chapter may be exempt from assessment and taxation for up to five years from the date of commencement of making the improvements, if the exemption is approved by the governing body of the city, for property within city limits, or the governing body of the county, for property outside city limits. The governing body of the city or county may limit or impose conditions upon exemptions under this section, including limitations on the time during which an exemption is allowed. A resolution adopted by the governing body of the city or county under this section may be rescinded or amended at any time. The exemption provided by this chapter shall apply only to that part of the valuation resulting from the improvements which is over and above the assessed valuation, exclusive of the land, placed upon the building or structure for the last assessment period immediately preceding the date of commencement of the improvements. Any person, corporation, limited liability company, association, or organization owning real property and seeking an exemption under this chapter shall file with the assessor a certificate setting out the facts upon which the claim for exemption is based. The assessor shall determine whether the improvements qualify for the exemption based on the resolution of the governing body of the city or county, and if the assessor determines that the exemption should apply, upon approval of the governing body, the exemption is valid for the prescribed period and shall not terminate upon the sale or exchange of the property but shall be transferable to subsequent owners. If the certificate is not filed as herein provided, the assessor shall regard the improvements as nonexempt and shall assess them as such.

As a result of agreements made by the county and city, the School District had a reduction in taxes as noted.

Reduction in taxes due to agreements with other entities – \$58,836.

Note 12 - Health Self-Insurance

The District is self-insured with respect to health, vision, and dental insurance costs. Terms of the plan include a stop-loss prevention of \$200,000, which limits the District’s liability. The following is the activity for the year ended June 30, 2020:

Claims incurred but not reported at beginning of year	\$ 853,000
Claims incurred	18,728,393
Claims paid	<u>(18,173,792)</u>
Claims incurred but not reported at end of year	<u>\$ 1,407,601</u>

Note 13 - Restatement

As of July 1, 2019, the District determined that the Capital Projects Fund inaccurately excluded retainage payable related to ongoing construction totaling \$1,168,257 related to 2019. This has resulted in a restatement of the fund balance of the Capital Projects Fund as of July 1, 2019. The following table describes the effects of the restatement on beginning fund balance.

Fund Balance - June 30, 2019, as previously reported	\$ 40,150,677
Restatement due to retainage payable	<u>(1,168,257)</u>
Net Position - July 1, 2019, as restated	<u>\$ 38,982,420</u>

Note 14 - Fund Balance

	General	Capital Projects	Debt Service	Special Reserve	Other Government Funds	Totals
Nonspendable Inventories	\$ 17,682	\$ -	\$ -	\$ -	\$ 53,795	\$ 71,477
Restricted						
Capital Projects	-	76,184,818	-	-	-	76,184,818
Debt service	-	-	9,300,294	-	-	9,300,294
Special reserve	-	-	-	5,811,864	-	5,811,864
Total restricted	-	76,184,818	9,300,294	5,811,864	-	91,296,976
Assigned						
Food service	-	-	-	-	1,967,493	1,967,493
Unassigned	13,477,747	-	-	-	-	13,477,747
Total fund balance	\$ 13,495,429	\$ 76,184,818	\$ 9,300,294	\$ 5,811,864	\$ 2,021,288	\$ 106,813,693

Note 15 - Issued But Non-Effective Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued several statements not yet implemented by the District. The first statement issued but not yet implemented that will significantly affect the District is Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. Greater consistency and comparability enhances the value provided by the information reported in financial statements for assessing government accountability and stewardship. This statement will be implemented at the District in the year ended June 30, 2021.

The second statement issued but not yet implemented that will significantly affect the District is Statement No. 90, *Majority Equity Interests*. This statement defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. This statement will be implemented at the District in the year ended June 30, 2021.

The third statement issued but not yet implemented that will affect the District is Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement will increase the usefulness of governments' financial statements by requiring reporting of certain lease liabilities that currently are not reported. It will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model. This Statement also will enhance the decision-usefulness of the information provided to financial statement users by requiring notes to financial statements related to the timing, significance, and purpose of a government's leasing arrangements. This Statement will be implemented at the District in the year ended June 30, 2022.

The fourth statement issued but not yet implemented that will affect the District is Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this Statement will improve financial reporting by providing users of financial statements with more relevant information about capital assets and the cost of borrowing for a reporting period. The resulting information also will enhance the comparability of information about capital assets and the cost of borrowing for a reporting period. This Statement will be implemented at the District in the year ended June 30, 2022.

The fifth statement issued but not yet implemented that will affect the District is Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement will improve financial reporting by establishing the definitions of PPPs and APAs and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. That uniform guidance will provide more relevant and reliable information for financial statement users and create greater consistency in practice. This Statement will enhance the decision usefulness of a government's financial statements by requiring governments to report assets and liabilities related to PPPs consistently and disclose important information about PPP transactions. The required disclosures will allow users to understand the scale and important aspects of a government's PPPs and evaluate a government's future obligations and assets resulting from PPPs. This Statement will be implemented at the District in the year ended June 30, 2023.

The final statement issued but not yet implemented that will affect the District is Statement No. 96, *Subscription-Based Information Technology Arrangements*. The primary objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). The requirements of this Statement will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. That definition and uniform guidance will result in greater consistency in practice. Establishing the capitalization criteria for implementation costs also will reduce diversity and improve comparability in financial reporting by governments. This Statement also will enhance the relevance and reliability of a government's financial statements by requiring a government to report a subscription asset and subscription liability for a SBITA and to disclose essential information about the arrangement. The disclosures will allow users to understand the scale and important aspects of a government's SBITA activities and evaluate a government's obligations and assets resulting from SBITAs. This Statement will be implemented at the District in the year ended June 30, 2023.

Management has not yet determined the effect these pronouncements will have on the District's financial statements.

Note 16 - Subsequent Events

The District has evaluated subsequent events through December 8, 2020, the date which the financial statements were available to be issued. The District was allocated new federal grant funding related to education operations and a specific grant related to the global COVID-19 pandemic. \$1,749,194 was allocated under the Elementary and Secondary School Emergency Relief Fund (ESSER) grant, \$2,508,583 was allocated under the Corps grant, \$42,149 was allocated under the BroadBand Assistance grant, and \$2,892,575 was allocated under the Resiliency grant.

In addition, subsequent to year-end, the District was assessed \$4,914,796 of new special assessments owed to the City of Horace with a tax rate of 4.34% payable over 24 years.

Changes of Assumptions

North Dakota Teachers' Fund for Retirement (TFFR)

Amounts reported in 2016 and later reflect the following actuarial assumption changes based on the results of an actuarial experience study dated April 30, 2015.

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

North Dakota Public Employees Retirement System (NDPERS)

Amounts reported in 2019 reflect actuarial assumption changes effective July 1, 2019 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 valuation:

- The investment return assumption was lowered from 7.50% to 7.25%

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2020. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position or fund balance of the District.

Note 2 - Significant Accounting Policies

Expenditures reported in the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

Note 3 - Indirect Cost Rate

The District has not elected to use the 10% de minimis cost rate.

Note 4 - Food Distribution

Non-monetary assistance is reported in the schedule of expenditures of federal awards at the fair market value of commodities received and disbursed. At June 30, 2020, the district had food commodities totaling \$0 in inventory.

West Fargo Public Schools

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The School Board of
West Fargo Public Schools
West Fargo, North Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of West Fargo Public Schools (The District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 8, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2020-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Responses to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Fargo, North Dakota
December 8, 2020

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance Required by the Uniform Guidance

The School Board of
West Fargo Public Schools
West Fargo, North Dakota

Report on Compliance for Each Major Federal Program

We have audited the District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on the compliance of each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Fargo, North Dakota

Section I – Summary of Auditor’s Results

FINANCIAL STATEMENTS

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	Yes
Noncompliance material to financial statements noted?	No

FEDERAL AWARDS

Internal control over major programs:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	None reported
Type of auditor's report issued on compliance for major programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance 2 CFR 200.516:	No

Identification of major programs:

Name of Federal Program	CFDA Number
Title I Child Nutrition Cluster	84.010 10.553/10.555/10.556/10.559
Dollar threshold used to distinguish between Type A and Type B programs:	\$750,000
Auditee qualified as low-risk auditee?	Yes

Section II – Financial Statement Findings

**2020-001 Preparation of Financial Statements including Proposed Journal Entries and Restatement
Significant Deficiency**

Condition – The District does not have an internal control system designed to provide for the preparation of the financial statements being audited. A restatement was identified, and we proposed audit adjustments that were not identified as a result of the District’s existing internal controls, and therefore could have resulted in a misstatement of the District’s financial statements. The auditors were requested to, and did, draft the financial statements and accompanying notes to the financial statements.

Criteria – A good system of internal accounting control contemplates an adequate system for recording and processing entries material to the financial statements and internally preparing the District’s financial statements.

Effect – This deficiency could result in a misstatement to the financial statements that would not be prevented or detected. The disclosures in the financial statements could also be incomplete.

Cause – The District does not have an internal control system designed to identify all necessary adjustments necessary for preparation of the financial statements being audited.

Recommendation – It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations. A thorough review and reconciliation of accounts in each fund should take place prior to the beginning of the audit. This review should be performed at both the accounting staff and accounting supervisor levels.

Views of Responsible Officials – There is no disagreement with the audit finding.

Section III – Federal Award Findings and Questioned Costs

None
