INDEPENDENT AUDITOR'S REPORT

School Board and Administration

Kenmare Public School District No. 28

Kenmare, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Kenmare Public School District No. 28** (School District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the **Kenmare Public School District No. 28**, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principle

As discussed in Note 1 of the financial statements, **Kenmare Public School District No. 28** adopted new accounting guidance by implementing the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule – General Fund, Schedule of Employer's Share of Net Pension Liability, Schedule of Employer Contributions, Schedule of Employer's Share of Net OPEB Liability, Schedule of Employer OPEB Contributions, and Notes to the Required Supplementary Information, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

The School District officials listing has not been subjected to auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2022, on our consideration of the **Kenmare Public School District No. 28's** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering **Kenmare Public School District No. 28's** internal control over financial reporting and compliance.

Fargo, North Dakota March 23, 2022

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The financial statements of the Kenmare Public School District No. 28 ("School District"), Kenmare, North Dakota, have been prepared in conformity with accounting principles general accepted in the United States of America ("GAAP") as applied to government units. The Government Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

Reporting Entity

The accompanying financial statements present the activities of the Kenmare Public School District No. 28. The School District has considered all potential component units for which the School District is financially accountable and other organizations for which the nature and significance of their relationships with the School District are such that exclusion would cause the School District's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. Their criteria include appointing a voting majority of an organization's governing board and (1) the ability of the School District to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to or imposed financial burdens on the School District.

Based on these criteria, there are no component units to be included within the School District as a reporting entity.

Basis of Presentation

Government-Wide Financial Statements: The statement of net position and the statement of activities report information on all of the non-fiduciary activities of the primary government of the School District. Government activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customer or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Fund Financial Statements: The fund financial statements provide information about the School District's funds. The emphasis of fund financial statements is on major governmental funds, displayed in a separate column. All remaining governmental funds are aggregate and reported as non-major funds.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus. These financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. All revenues are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgements, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

All revenues are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Revenue items are considered to be measurable and available only when cash is received by the government.

The School District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Building Fund: This fund accounts for financial resources dedicated to the construction of new school buildings, additions to old school buildings, the making of major repairs to existing buildings, or to make annual debt service payments on outstanding debt issues related to the building fund.

Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits and money market accounts.

The investments of the School District consist of certificates of deposit stated at cost with maturities in excess of three months.

Capital Assets

Capital assets include property, plant and equipment. Assets are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of \$5,000 or more. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is not capitalized.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements 50 years Equipment and Vehicles 10 years

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has two items that qualify for reporting in this category. They are the contributions made to pension plans after the measurement date and prior to the fiscal year-end, and changes in the net pension and OPEB liability not included in pension expense reported in the government-wide statement of net position.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has three types of items that qualify for reporting in this category. The School District reports unavailable revenues from property taxes and unavailable revenues from local education agencies on the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other item is changes in the net pension and OPEB liability not included in pension expense reported in the government-wide statement of net position.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums, discounts, and issuance costs are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as assets and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums, discounts, and issuance costs in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Financial Statements

Government fund equity is classified as fund balance and may distinguish between "Restricted" and "Unrestricted" components

Restricted and Unrestricted Resources

It is the School District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Fund Balance and Classification Policies and Procedures

The School District classifies governmental fund balances as follows:

Nonspendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end.

Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund balance may be assigned by the business manager.

Unassigned – includes positive fund balance within the general fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The School District uses *restricted* amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the School District would first use *committed*, *then assigned*, *and lastly unassigned amounts* of unrestricted fund balance when expenditures are made.

The School District does not have a formal minimum fund balance policy.

Program Revenues

In the government-wide statement of activities, reported program revenues derive from the program itself or from parties other than the School District's taxpayers or citizenry, as a whole. Program revenues are classified into two categories, as follows:

Charges for services – these arise from charges to customers, applicants, or other who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.

Program-specific operating grants and contributions – these arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.

Property Taxes

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments, and the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount on property taxes is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent, and penalties are assessed.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Accounts Payable

Accounts payable consists of amounts owed for goods and services received prior to June 30 and chargeable to the appropriations for the year then ended but paid subsequent to that date.

Salaries and Benefits Payable

Salaries and benefits payable consists of salaries earned by employees but not paid until after year-end. It also consists of benefits owed to federal, state, and private agencies for amounts withheld from teacher's salaries as of June 30.

Compensated Absences

Compensated absences consist of annual leave which is compensated at termination of employment at the employee's daily pay rate. The liability for the portion of compensated absences related to annual leave is reported in the government-wide statement of net position.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System ("NDPERS") and the North Dakota Teachers' Fund for Retirement ("TFFR") and additions to/deductions from NDPERS's and TFFR's fiduciary net positions have been determined on the same basis as they are reported by NDPERS and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS), and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

New Accounting Pronouncement

During the year ended June 30, 2021, the School District adopted new accounting guidance by implementing the provisions of GASB Statement No. 84, Fiduciary Activities, which establishes criteria for identifying and reporting fiduciary activities. The implementation of this statement has resulted in changing the presentation of the financial statements by recording the student activity funds as a special revenue fund as part of the governmental funds. The student activity funds were not previously reported as governmental funds and as such were not recorded in ending net position of the statement of activities. Beginning net positions on the statement of activities and the fund balance on the statement of revenues, expenditures and changes in fund balance have been restated to reflect this change.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

NOTE 2 – CASH AND CASH EQUIVALENTS

In accordance with North Dakota Statutes, the District maintains deposits at the depository banks designated by the governing board. All depositories are members of the Federal Reserve System.

Deposits must either be deposited with the Bank of North Dakota or in another financial institution situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities of 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes, or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, Federal Land Bank bonds, bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investment companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the State of North Dakota, its boards, agencies or instrumentalities, or by any county, city, township, school district, park district, or other political subdivision of the state of North Dakota, whether payable from special revenues or supported by the full faith and credit of the issuing entity and bonds issued by any other state of the United States or such other securities approved by the banking board.

At year ended June 30, 2021, the District's carrying amount of deposits was \$2,086,670 and the bank balances were \$2,421,382. Of the bank balance, \$250,000 was covered by Federal Depository Insurance. The remaining balance of \$2,171,382 was collateralized with securities held by the pledging financial institution's agent in the government's name.

Interest Rate Risk

The School District does not have a formal investment policy that limits investments as a means of managing its exposure to fair value losses arising from changing interest rates. All investments are certificates of deposit that mature within one year.

Credit Risk

The District may invest idle funds as authorized in North Dakota Statutes, as follows:

- a) Bonds, treasury bills and notes, or other securities that are a direct obligation insured or guaranteed by the Treasury of the United States, or its agencies, instrumentalities, or organizations created by an Act of Congress.
- b) Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are the type listed above.
- c) Certificates of Deposit fully insured by the Federal Deposit Insurance Corporation.
- d) Obligations of the state.

At June 30, 2021 the District held certificates of deposit in the amount of \$250,000 which are all considered deposits and included in the above amount of total deposits.

Concentration of Credit Risk

The School District does not have a policy limiting the amount the School District may invest in any one issuer.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

NOTE 3 – TAXES RECEIVABLE

Taxes receivable consist of current taxes and delinquent uncollected taxes for the past three years as of June 30. No allowance has been established for uncollectible taxes receivable.

Property taxes attach as an enforceable lien on property on January 1. The tax levy may be paid in two installments: the first installment includes one-half of the real estate taxes and all the special assessments; the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent, and penalties are assessed.

NOTE 4 – CAPITAL ASSETS

The following is a summary of changes in capital assets for the year ended June 30, 2021:

	Beginning Balance	Additions	Dispositions	Ending Balance
Capital assets, being depreciated				
Buildings and improvements	\$ 6,943,541	\$ -	\$ -	\$ 6,943,541
Equipment	1,196,667	-	-	1,196,667
Vehicles	1,013,899	142,099		1,155,998
Total capital assets, being				
depreciated	9,154,107	142,099		9,296,206
Less accumulated depreciation for				
Buildings and improvements	3,199,781	156,783	-	3,356,564
Equipment	765,057	16,593	-	781,650
Vehicles	700,957	51,691		752,648
Total accumulated depreciation	4,665,795	225,067		4,890,862
Governmental activities				
capital assets, net	\$ 4,488,312	\$ (82,968)	\$	\$ 4,405,344

Depreciation was charged to functions/programs of the District as follows:

Regular Instruction (School/Student learning)	\$	131,373
Federal Programs		6,498
Instructional Staff Services		3,384
Administration (Business offices)		25,816
Operations & Maintenance		16,436
Student Activities		13,072
Student Transportation		14,492
Food Services (Hot Lunch)		13,996
	\$ _	225,067

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

NOTE 5 – LONG-TERM LIABILITIES

During the year ended June 30, 2021, the following changes occurred in liabilities reported in the long-term liabilities:

	-	Beginning Balance	-	Increases	_	Decreases	-	Ending Balance	Due Within One Year
Bonds payable	\$	1,590,000	\$	-	\$	85,000	\$	1,505,000	\$ -
Compensated absences		-		24,600		-		24,600	-
Net pension liability		3,949,355		1,164,205		-		5,113,560	-
Net OPEB liability	-	32,742	-		-	3,727	-	29,015	
Total	\$	5,572,097	\$	1,188,805	\$	88,727	\$	6,672,175	\$

Outstanding debt at June 30, 2021 consists of the following issues:

General Obligation Bonds

\$2,000,000 General Obligation School Building Bonds, series 2015. The bonds call for annual principal payments of \$57,000 to \$130,000 from August 1, 2016 to August 1, 2035 and interest at 2.0% to 3.6%.

\$ 1,505,000

Debt service requirements on the general obligation bonds, including interest, at June 30, 2021 are as follows:

	_	Principal	_	Interest	_	Total
2022*	\$	-	\$	47,190	\$	47,190
2023		90,000		45,420		135,420
2024		90,000		43,620		133,620
2025		95,000		41,295		136,295
2026		95,000		38,445		133,445
2027-2031		520,000		146,850		666,850
2032-2036		615,000		55,510	_	670,510
	\$ _	1,505,000	\$ _	418,330	\$ _	1,923,330

^{*}The principal amount due in fiscal year 2022 was paid in fiscal year 2021.

NOTE 6 – PENSION PLANS

General Information about the TFFR Pension Plan

North Dakota Teacher's Fund for Retirement ("TFFR")

The following brief description of TFFR is provided for general information purposes only. Participants should refer to North Dakota Century Code ("NDCC") Chapter 15-39.1 for more complete information.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6.0% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.0% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65 or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8.0% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.0% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65 or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8.0% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.0% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$3,916,876 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. On July 1, 2020, the District's proportion was 0.25592075 percent, which was an increase of .00638173 from its proportion measured as of July 1, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$346,649. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources
Differences between expected and actual experience	\$	808	\$	146,992
Changes of assumptions		176,294		-
Net difference between projected and actual earnings on pension plan investments		241,794		-
Changes in proportion and differences between employer contributions and proportionate share of contributions		91,060		228,599
Employer contributions subsequent to the measurement date	_	256,280	-	
	\$	766,236	\$	375,591

\$256,280 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2021	\$ 5,376	
2022	35,067	
2023	58,649	
2024	26,680	
2025	(15,140)	
Thereafter	23,733	

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Actuarial Assumptions

The total pension liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.30%

Salary increases 3.80% to 14.80%, including inflation Investment rate of return 7.25%, net of investment expenses

Cost-of-living adjustments None

For active and inactive members, mortality rates were based on the PubT-2010 Employee table, projected with generational improvement using Scale MP-2019. For healthy retirees, mortality rates were based on 104% of the PubT-2010 retiree table for retirees and to 95% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019. For disability retirees, mortality rates were based on the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019.

The actuarial assumptions used were based on the results of an actuarial experience study dated March 19, 2020. They are the same as the assumptions used in the July 1, 2020, funding actuarial valuation for TFFR.

As a result of the March 19, 2020, actuarial experience study, the TFFR Board adopted several assumption changes, including the following:

- Investment return assumption lowered from 7.75% to 7.25%.
- Inflation assumption lowered from 2.75% to 2.30%.
- Individual salary increases were lowered.
- Rates of turnover, retirement and disability were changed to better reflect anticipated future experience.
- Updated mortality assumption to the Scale MP-2019 mortality tables with generational improvement.

The TFFR Board is responsible for establishing investment policy for the fund assets under NDCC 15-39.1-05.2. Benefit payments are projected to occur over a long period of time. This allows TFFR to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. This asset-liability analysis considers both sides of the plan balance sheet, utilizing both quantitative and qualitative inputs, in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting estimated impact of funded status and contribution rates.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of July 1, 2020 are summarized in the following table:

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global equities	58%	6.9%
Global fixed income	23%	1.3%
Global real assets	18%	5.0%
Cash equivalents	1%	0.0%

Discount Rate

The discount rate used to measure the total pension liability was 7.25 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2020, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2020. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

		Current					
	1% Decrease (6.25%)			Discount Rate (7.25%)		1% Increase (8.25%)	
District's proportionate share of net	_						
pension liability	\$ _	5,217,068	\$_	3,916,876	\$	2,836,349	

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TFFR financial report, located in the North Dakota Retirement and Investments Office's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2021. Additional financial and actuarial information is available on their website www.nd.gov/rio/sib/publications/cafr/default.htm, or may be obtained by writing to ND Retirement and Investment office, 3442 East Century Avenue, PO Box 7100, Bismarck, North Dakota, 58507-7100 or by calling (701) 328-9885.

North Dakota Public Employees Retirement System (Main System)

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

Pension Benefits

Benefits are set by statute. NDPERS has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016, the Rule of 85 was be replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. For members hired on or after January 1, 2020, the 2.0% multiplier was replaced with a 1.75% multiplier. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for disabled is set by the NDPERS in the North Dakota Administrative Code.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of salaries and wages. Member contribution rates are 7.0% and employer contribution rates are 7.12% of covered compensation. For members hired on or after January 1, 2020, member contribution rates are 7.0% and employer contribution rates are 8.26% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25, and the maximum may not exceed the following:

1 to 12 months of service – Greater of one percent of monthly salary or \$25 13 to 24 months of service – Greater of two percent of monthly salary or \$25 25 to 36 months of service – Greater of three percent of monthly salary or \$25 Longer than 36 months of service – Greater of four percent of monthly salary or \$25

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the Employer reported a liability of \$1,196,684 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net pension liability was based on the Employer's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2020, the Employer's proportion was 0.038038 percent, which was an decrease of 0.005694 from its proportion measured as of June 30, 2019.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

For the year ended June 30, 2021, the Employer recognized pension expense of \$194,811. At June 30, 2021, the Employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>o</u>	Deferred Outflows f Resources	<u>-</u>	Deferred Inflows of Resources
Differences between expected and actual experience	\$	4,657	\$	60,637
Changes of assumptions		641,498		106,055
Net difference between projected and actual earnings on pension plan investments		38,623		-
Changes in proportion and differences between employer contributions and proportionate share of contributions		8,004		98,019
District contributions subsequent to the measurement date	_	34,215	-	
	\$ _	726,997	\$ _	264,711

\$34,215 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2021	\$ 129,592
2022	102,977
2023	87,013
2024	108,489
2025	-
Thereafter	-

Actuarial assumptions: The total pension liability in the July 1, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	3.50% to 17.75%, including inflation
Investment rate of return	7.00%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the Sex-distinct Pub-2010 table for General Employees, with scaling based on actual experience. Respective corresponding tables were used for healthy retirees, disabled retirees, and active members. Mortality rates are projected from 2010 using the MP-2019 scale.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return		
Domestic equity	30%	6.30%		
International equity	21%	6.85%

Cash equivalents	0%	0.00%		

Discount rate: For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, which is the case for the PERS plan, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.0%; the municipal bond rate is 2.45%; and the resulting Single Discount Rate is 4.64%.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate: The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 4.64 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.64 percent) or 1-percentage-point higher (5.64 percent) than the current rate:

	Current					
	1	(3.64%)	Ι	Discount Rate (4.64%)		1% Increase (5.64%)
District's proportionate share of net pension liability	\$_	1,552,607	\$ <u>_</u>	1,196,684	\$	905,451

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report.

NOTE 7 – OTHER POST EMPLOYMENT BENEFITS (OPEB) – NDPERS

North Dakota Public Employees Retirement System

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDAC Chapter 71-06 for more complete information.

NDPERS OPEB plan is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits from the PERS, the HPRS, and Judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. Effective August 1, 2019, the benefit may be used for any eligible health, prescription drug plan, dental, vision, or long-term care plan premium expense. The Retiree Health Insurance Credit Fund is advance funded on an actuarially determined basis.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

OPEB Benefits

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. The employer contribution for employees of the state board of career and technical education is 2.99% of covered compensation for a period of eight years ending October 1, 2015. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "prefunded credit applied" on the Statement of Changes in Plan Net Position for the OPEB trust funds. Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC. Therefore, RHIC will become for the most part a closed plan. There were no other benefit changes during the year.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Retiree health insurance credit benefits and death and disability benefits are set by statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the PERS, the HPRS, the Defined Contribution Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving a surviving spouse benefit or if the member selected a joint and survivor option are eligible to receive a credit toward their monthly health insurance premium under the state health plan.

Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. Effective August 1, 2019, the benefit may be used for any eligible health, prescription drug plan, dental, vision, or long-term care plan premium expense. The benefits are equal to \$5.00 for each of the employees, or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health insurance credit is also available for early retirement with reduced benefits.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the Employer reported a liability of \$29,015 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net OPEB liability was based on the Employer's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2020, the Employer's proportion was 0.034492 percent, which was an decrease of 0.006273 from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the Employer recognized OPEB expense of \$2,786. At June 30, 2021, the Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	(Deferred Dutflows Resources	Deferred Inflows Resources
Differences between expected and actual experience	\$	645	\$ 696
Changes of assumptions		3,890	-
Net difference between projected and actual earnings on pension plan investments		998	-
Changes in proportion and differences between employer contributions and proportionate share of contributions		-	6,559
District contributions subsequent to the measurement date		3,883	
	\$	9,416	\$ 7,255

\$3,883 reported as deferred outflows of resources related to OPEB resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Year Ended June 30:	
2021	\$ (455)
2022	(197)
2023	(244)
2024	(504)
2025	(339)
Thereafter	17

Actuarial assumptions: The total OPEB liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.25%
Salary increases Not applicable
Investment rate of return 6.50%, net of investment expenses
Cost-of-living adjustments None

For active members, inactive members and healthy retirees, mortality rates were based on the MortalityPub-2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of RHIC investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Large cap domestic equities	33%	6.10%
Small cap domestic equities	6%	7.00%
Domestic fixed income	40%	1.15%
International equities	21%	6.45%

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

Discount rate: The discount rate used to measure the total OPEB liability was 6.5%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2018, and July 1, 2017, HPRS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Employer's proportionate share of the net OPEB liability to changes in the discount rate: The following presents the net OPEB liability of the Plans as of June 30, 2020, calculated using the discount rate of 6.5%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.5 percent) or 1-percentage-point higher (7.5 percent) than the current rate:

				Current		
	1	.% Decrease (5.50%)	D	Discount Rate (6.50%)		1% Increase (7.50%)
District's proportionate share of net pension liability	Φ.	38,053	Φ.	29,015	Φ.	21.371
pension naturity	\$ _	36,033	\$ _	29,013	\$.	21,371

NOTE 8 – RISK MANAGEMENT

The School District is exposed to various risks of loss relating to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, the state agencies and political subdivisions of the state of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDIRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The School District pays an annual premium to NDIRF for its general liability, automobile, and inland marine insurance coverage. The coverage by NDIRF is limited to losses of \$2,000,000 per occurrence for general liability and automobile; and \$772,421 for public asset coverage.

The School District also participates in the North Dakota Fire and Tornado Fund and the State Bonding Fund. The District pays an annual premium to the Fire and Tornado Fund to cover property damage to buildings and personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The Fire and Tornado Fund is reinsured by a third-party insurance carrier for losses in excess of two million dollars per occurrence during a 12-month period. The State Bonding Fund currently provides the District with blanket fidelity bond coverage in the amount of \$2,000,000 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

The School District has worker's compensation with the Department of Workforce Safety and Insurance. The School District pays part of the health insurance premiums for their employees.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2021

NOTE 1 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

North Dakota Teacher's Fund for Retirement

Changes of Assumptions

Amounts reported in 2021 and later reflect the following actuarial assumption changes based on the results of an actuarial experiences study dated March 19, 2020.

- Investment return assumption lowered from 7.75% to 7.25%.
- Inflation assumption lowered from 2.75% to 2.30%.
- Individual salary increases were lowered.
- Rates of turnover, retirement and disability were changed to better reflect anticipated future experience.
- The post-retirement healthy mortality table was updated to 104% of the PubT-2010 Retiree table for retirees and to 95% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019.
- The disabled mortality was updated to the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019.
- The pre-retirement mortality table was updated to the PubT-2010 Employee table projected with generational improvement using Scale MP-2019.

Amounts reported in the 2016-2020 reflect the following actuarial assumption changes based on the results of an actuarial experience study dated April 30, 2015.

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

North Dakota Public Employees Retirement System

Changes of Benefit Terms

The interest rate earned on member contributions will decrease from 7.0 percent to 6.5 percent effective January 1, 2020 (based on the adopted decrease in the investment return assumption). New Main System members who are hired on or after January 1, 2020 will have a benefit multiplier of 1.75 percent (compared to the current benefit multiplier of 2.00 percent). The fixed employer contribution for new members of the Main System will increase from 7.12 percent to 8.26 percent. For members who terminate after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019 or the average salary earned in the three highest periods of twelve consecutive months employed during the last 180 months of employment. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2019.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2021

Changes of Assumptions

The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 valuation:

- The investment return assumption was lowered from 7.5% to 7.0%.
- The assumed rate of price inflation was lowered from 2.5 to 2.25 percent for the July 1, 2020 valuation.
- The assumed rate of total payroll growth was updated for the July 1, 2020 valuation.
- Mortality table updates were made for the July 1, 2020 valuation.

All other actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2019.

Other Post-Employment Benefit

Changes of Benefit Terms

Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in the RHIC. Therefore, RHIC will become for the most part a closed plan. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2019.

Changes of Assumptions

The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2020 valuation:

• The investment return assumption was lowered from 7.25% to 6.50%.

All other actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2019.

Budgetary Information:

The Board of Education adopts an annual budget on a basis consistent with accounting principles generally accepted in the United States for the general fund, special revenue funds, debt service funds, and capital project funds.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- a) The annual budget must be prepared, and School District taxes must be levied on or before the fifteenth day of August of each year.
- b) The taxes levied must be certified to the county auditor by twenty-fifth of August.
- c) The operating budget includes proposed expenditures and means of financing them.
- d) Each budget is controlled by the business manager at the revenue and expenditure function/object level.
- e) The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared.
- f) All appropriations lapse at year-end.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2021

NOTE 2 – EXPENDITURES IN EXCESS OF BUDGET

The School District overspent its general fund budget by \$266,299. No remedial action is anticipated.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

School Board and Administration **Kenmare Public School District No. 28**Kenmare, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **Kenmare Public School District No. 28** (School District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise **Kenmare Public School District No. 28's** basic financial statements, and have issued our report thereon dated March 23, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered **Kenmare Public School District No. 28's** internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of **Kenmare Public School District No. 28's** internal control. Accordingly, we do not express an opinion on the effectiveness of **Kenmare Public School District No. 28's** internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and responses, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses as items 2021-001, 2021-002, and 2021-003 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses as items 2021-004 and 2021-005 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether **Kenmare Public School District No. 28's** financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Kenmare Public School District No. 28's Response to Findings

Kenmare Public School District No. 28's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Kenmare Public School District No. 28's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Fargo, North Dakota March 23, 2022

SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2021

SECTION I – SUMMARY OF AUDITOR'S RESULTS

	Statements

Type of auditor's report issued:	Unmod	dified		
Internal control over financial reporting:				
Material weakness(es) identified?	X	yes		no
Significant deficiency(ies) identified that are not considered to be				none
material weakness(es)?	X	_ yes		reported
N 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1			***	
Noncompliance material to financial statements noted?		_ yes	<u> X</u>	no

SECTION II – FINANCIAL STATEMENT FINDINGS

2021-001 (MATERIAL WEAKNESS) – GAAP FINANCIAL STATEMENT PREPARATION

Condition

Widmer Roel assists the School District with preparation of its financial statements and related disclosures in accordance with generally accepted accounting principles (GAAP).

Criteria

According to the Committee of Sponsoring Organizations of the Treadway Commission (COSO) elements of internal control, an organization's internal control should include the capability of preparing financial statements in accordance with U.S. GAAP.

Cause

The School District has determined it is more cost-effective to allocate its limited resources to areas other than preparation of financial statements and instead engage its third-party auditor to assist in this process.

Effect

The financial statements could be materially misstated or omit material financial statement disclosures.

Recommendation

We recommend management carefully review the financial statements and note disclosures and be able to understand the purpose and source of all material financial statement amounts and disclosures. We recommend management continue to prepare all requested supporting schedules, understanding their importance to the financial statements.

Views of Responsible Officials

The District recognizes this finding as does not find it to be cost-effective to prepare financial statements in accordance with the Generally Acceptable Accounting Principles and will continue to utilize Widmer Roel for this service and monitor in the future.

SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2021

2021-002 (MATERIAL WEAKNESS) – SEGREGATION OF DUTIES

Condition

The School District has a lack of segregation of duties in certain areas due to a limited number of staff. Specifically, the business manager role is responsible for numerous functions related to financial reporting.

Criteria

To ensure adequate internal control over financial reporting and prevent material misstatements due to errors or fraud, there should be a segregation of the functions of approval, custody of assets, posting and reconciliations.

Cause

The School District has limited staff to be able to adequately segregate duties.

Effect

Inadequate segregation of duties could adversely affect the School District's ability to detect misstatements in the financial statements, whether the cause of the misstatement was due to errors or fraud.

Recommendation

It is not unusual for smaller school districts to have several accounting functions concentrated with the business manager and/or superintendent. We recommend management be aware of the lack of segregation of duties and implement controls wherever possible to mitigate this risk. For example, we recommend the board continue and/or adopt the following:

- Review and approve all significant contracts and disbursements.
- Careful review of budgeted items compared to actual results, investigating unusual discrepancies.
- Dual signatures on all significant checks.
- Periodic review of savings/CD statements and review of completed bank reconciliations.
- Periodic review of School District policies, including consideration of whether district policies are sufficient to mitigate risk of financial statement errors or fraud, or noncompliance with laws, regulations and contracts.

Views of Responsible Officials

The District agrees that additional resources needed to reduce the deficiency would not be cost effective but will continue to monitor processes to ensure that integrity of the financial reporting process is maintained and will continue to look at ways to mitigate the risk with current resources.

SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2021

2021-003 (MATERIAL WEAKNESS) – INCOMPLETE USE OF ACCOUNTING SOFTWARE

Condition

The School District does not currently fully utilize its accounting software. The School District uses RDA School District Accounting software to account for its general fund and student activity fund. Also, the building fund and the special reserve fund are combined as one fund in the software. The food service fund, and all the activity within that fund, are recorded outside the software. Also, the cash balances of the School District are reconciled outside of the accounting software.

Criteria

According to Governmental Accounting Standard Board (GASB) Statement No. 34, governments are required to report information about their most important or "major" funds separately. The building fund is considered major and should not be combined with the special reserve fund for external reporting. Additionally a strong control environment, in terms of transparency for management, the board, and others, should include all of the funds of School District.

Cause

Based on discussion with management, the practice of combing the building fund as the special reserve fund and not recording the food service fund started years ago and just has not been changed.

Effect

If major funds, or in this case, a combination of major and nonmajor funds, are combined internally or are excluded, that can be misleading for external reporting and present a probable chance of material misstatement.

Recommendation

We recommend that all major and nonmajor funds be recorded separately. We also recommend that all School District accounts and funds be included in the accounting software.

Views of Responsible Officials

Management plans on include these items for the future year.

2021-004 (SIGNIFICANT DEFICIENCY) – RECEIVABLES ADJUSTMENT

Condition

The School District did not record a previous audit adjustment in the amount of \$84,125.

Criteria

Generally accepted accounting principles require receivables to be recorded in the financial statements.

Cause

The School District's general practice has been to not record receivables arising from past audits.

SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2021

Effect

The general fund opening fund balance and receivables were understated by \$84,125.

Recommendation

We recommend management consider recording receivables at year-end. If management doesn't record receivables in the internal accounting software, we recommend management prepare a schedule of potential receivables at year-end.

Views of Responsible Officials

Management plans to prepare a schedule of potential receivables at year-end.

2021-005 (SIGNIFICANT DEFICIENCY) - MISSTATED ANNUAL FINANCIAL REPORT

Condition

Every year the School District submits an annual financial report to the State Department of Public Instruction. It was noted that the bond outstanding balance had been overstated at year-end by including both principal and interest amounts.

Criteria

The state form requires the total amount of bonds outstanding be reported. According to generally accepted accounting principles, bonds outstanding includes only the principal amount.

Cause

Management was unaware that only the principal amount of the bonds should be included on the annual financial report.

Effect

The liabilities on the submitted annual financial report were overstated.

Recommendation

We recommend that bonds outstanding should only include principal amounts on the annual financial report.

Views of Responsible Officials

Management understands the error that was made and will make the correct adjustments in future reporting.
