MINOT PUBLIC SCHOOL DISTRICT NO. 1
MINOT, NORTH DAKOTA

AUDITED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

TABLE OF CONTENTS

INDEPENDENT AUDITOR'S REPORT

To the Board of Education
Minot Public School District No. 1
Minot, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Minot Public School District No. 1 (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Minot Public School District No. 1 as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 18 to the financial statements, the District adopted the provisions of Governmental Accounting Standards Board Statement No. 84, *Accounting and Financial Reporting for Fiduciary Activities*. As discussed in Note 18 to the financial statements, the District has retroactively restated the previously reported Net Position and Fund Balances in accordance with this statement. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of employer contributions – pension, schedule of employer contributions – OPEB, schedule of employer's proportionate share of net pension liability, schedule of employer's share of net OPEB liability, and notes to required supplementary information, as listed on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards and notes to the schedule of expenditures of federal awards are presented for purposes of additional analysis, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and are not a required part of the basic financial statements.

The schedule of expenditures of federal awards and notes to the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and notes to the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 1, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

BISMARCK, NORTH DAKOTA

February 1, 2022

The discussion and analysis of Minot Public School District No. 1's financial performance provides an overall review of the District's financial activities for the year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the basic financial statements and related notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights MPSD#1 including component unit MAFB PSD#160 for 2021 are as follows:

* Net Position of the District increased by $8,041,111.
* Governmental net position totaled $41,702,892.
* The District's general fund had $114,908,649 in total revenues and $112,654,630 in expenditures before any other financing sources or uses. Overall, without the GASB 84 adjustment factored in, the general fund balance increased by $2,050,790 for the year ended June 30, 2021, and now totals $26,112,864.

This annual report consists of a series of financial statements and related footnotes. These statements are organized so the reader can understand Minot Public School District No. 1 as a financial whole. The statements then proceed to provide an increasingly detailed look at specific financial activities. The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did the District do financially during the year ended June 30, 2021?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported. They include, but are not limited to the following: instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

These two statements report the District's net position and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the District's property tax base, current property tax laws in North Dakota, facility condition, required educational programs, changing enrollment, other factors and COVID-19 pandemic related factors.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General Fund, Capital Projects Fund, and Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Financial Analysis of the District as a Whole

Recall that the Statement of Net Position provides the perspective of the District as a whole.

Table 1 provides a summary of the District's net position (including component unit MAFB PSD#160) as of June 30, 2021. As the table illustrates, net position increase by 23.9% during the past fiscal year. As indicated in the financial highlights, the District's net position increased by $8,041,111 for the year ended June 30, 2021. Of that increase, $1,309,554 was due to the prior period adjustment to implement GASB 84. Net position may serve over time as a useful indicator of the District's financial position.

The District's June 30, 2021 net position of $41,702,892 is segregated into three separate categories: 1) net position invested in Capital Assets (net of related debt), 2) restricted net position (resources that are subject to external restrictions on how they must be spent) and 3) unrestricted net position. Table 1 shows a comparison of assets, deferred inflows/outflows liabilities and net position between fiscal year ended June 30, 2021 and fiscal year ended June 30, 2020.

Table 1 Net Position Including Component Unit

	2021	2020	% Change 2021-2020
Assets			
Current assets	$ 48,930,702	$ 46,597,450	5.0%

Business services	818,746	701,225	117,521
Operations and maintenance	10,350,497	7,557,181	2,793,316
Pupil transportation	2,632,302	2,062,939	569,363
Head start	4,376,825	3,850,084	526,741
Adult learning center	496,197	521,666	(25,469)
Interest expense	1,565,267	1,317,821	247,446
Non education services:			
Enterprise services	438,021	459,610	(21,589)
Food services	5,683,914	5,188,290	495,624
Community services	2,380,087	2,426,930	(46,843)
Extracurricular activities	2,681,177	1,726,752	954,425
Services provided another LEA	109,705	124,858	(15,153)
Other facilities costs	1,864,796	539,244	1,325,552
Total expenses	141,495,603	122,430,339	19,065,264
Component Unit Expenses	8,784,701	9,440,363	(655,662)
Increase (Decrease) in Net Position	6,731,557	(1,933,109)	8,664,666
Net position - beginning of year	33,661,781	35,594,890	(1,933,109)
GASB 84 adjustment - see note 18	1,309,554	-	1,309,554
Net position - beginning of year, restated	34,971,335	35,594,890	(623,555)
Net position - ending	$ 41,702,892	$ 33,661,781	$ 8,041,111

As indicated in table 2, revenue for year ended June 30, 2021 was $157,011,861 compared to $129,937,593 for year ended June 30, 2020. The difference, $27,074,268 constituted an increase of approximately 20.8%.

Property taxes constituted 15.1%, state aid 44.3%, federal aid 14.6%, program revenue 25.6% and other sources 0.4% of the total revenues of governmental activities of the District for fiscal year 2021. A comparison of the year ended June 30, 2021 and June 30, 2020 is shown below.

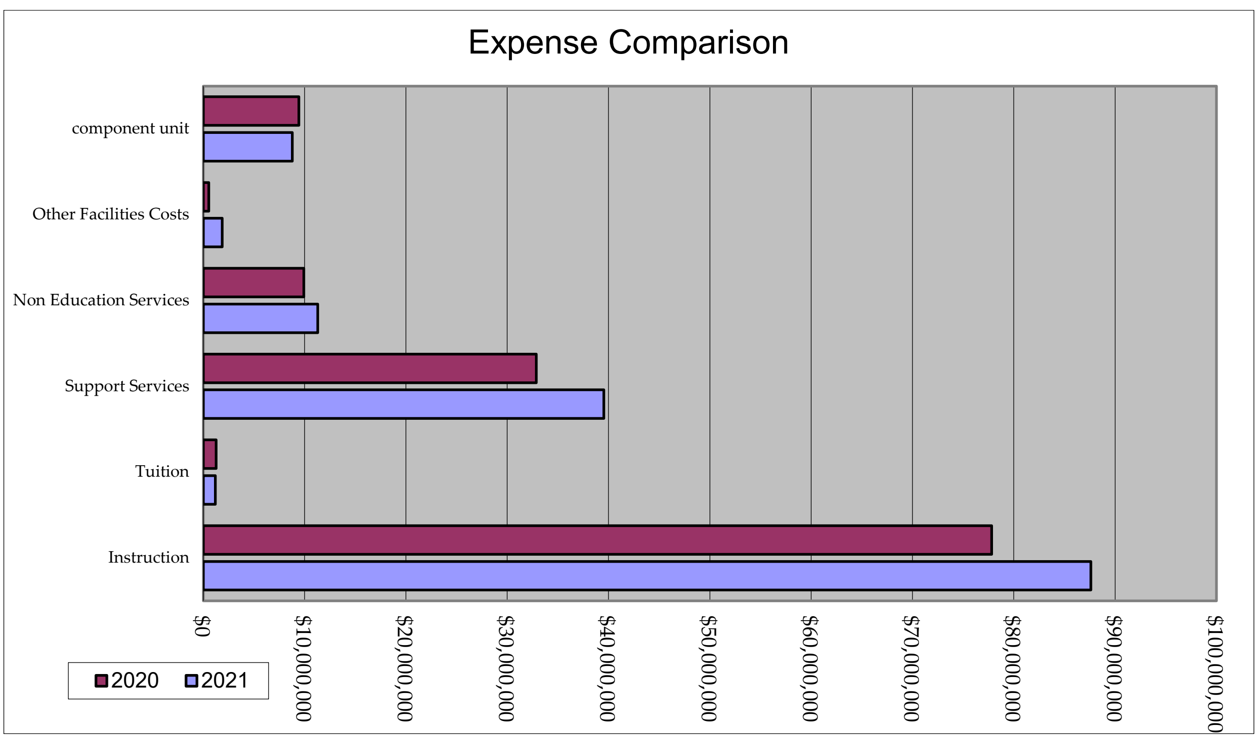
	Other Sources	Property Taxes	Program Revenue	Federal Aid	State Aid
2021	0.4%	15.1%	25.6%	14.6%	44.3%
2020	0.4%	16.8%	17.7%	12.3%	52.7%

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services including the component unit. That is, it identifies the cost of these services supported by tax revenue and other unrestricted revenues.

Table 3

	Total Cost for Year Ended 6/30/2021	Net Cost for Year Ended 6/30/2021
Instruction	$ 87,603,849	$ 53,514,984
Tuition	1,198,472	1,198,472
Support services	39,535,582	26,966,709
Non education services	11,292,904	2,674,379
Other facilities costs	1,864,796	1,828,787
Component Unit	8,784,701	8,784,701
Total expenses	$ 150,280,304	$ 94,968,032

The following chart shows a comparison of cost of services for years ended June 30, 2021 and June 30, 2020. Total expenses increased to $150,280,304 for year ended June 30, 2021 from $131,870,702 for year ended June 30, 2020, an increase of approximately 14%.



Instruction expenses include activities dealing directly with the teaching of pupils and the interaction between teacher and pupil including regular education, special education, career and technical education and federal programs. Instruction comprised 58.3% of district expenses in 2021 compared to 59.0% in 2020.

Tuition expenses are the costs to reimburse other educational agencies for instructional services to students residing in the Minot Public School District's legal boundaries.

Support Services includes pupil's services, instructional staff services, general administration services, school administration services, business services, operation and maintenance of plant, pupil transportation services, Head Start, Adult Learning Center and interest expense.

Non Education Services include Enterprise Services, Food Services, Community Services, Extracurricular activities and Services provided another LEA.

Other facilities costs include costs associated with construction services provided by contractors hired by the District.

Financial Analysis of the District's Governmental Funds

The focus of the District's governmental funds is to provide information on the near-term inflows, outflows, and balances of available resources. Unassigned fund balance generally may be used as a measure of the District's net resources available for spending at the end of the fiscal year. These funds are accounted for using the modified accrual basis of accounting. The District's governmental funds had total revenues of $132,017,512 and expenditures of $150,523,081 for the year ended June 30, 2021. As of June 30, 2021, the unassigned fund balance of the District's general fund was $25,576,413 and total fund balance for all the District's governmental funds was $26,047,312. There was an increase of $3,389,799 in the unassigned fund balance for all the District's governmental funds without the GASB 84 adjustment.

The most significant variance in any one individual fund took place in the General Fund.

For the 2020-2021 school year there was a projected deficit of $3,394,000 (expenditures exceed revenue) with anticipated Revenue of $114,752,000 and anticipated Expenditures of $118,146,000. In actuality, the General Fund experienced a surplus totaling $619,901 for year ended June 30, 2021.

General Fund Budgeting Highlights

The most significant variation between the original and final budget was in the Other Sources category. The most significant variations between the final budget amounts and the actual budget amounts were in the following areas:

	Final Budget	Actual	Reason
REVENUE:			
State Revenue	$70,825,000	$69,480,968	Lower than expected state aid, Sp. Ed. contract reimb & delay in CTE reimb
EXPENDITURE:			
Regular Instruction	$46,758,732	$43,636,326	Lower than expected payroll costs. Impact of pandemic

With total variances between budget and actual of approximately 5% in expenditures and 1.65% in revenue, it can be accurately stated that the District was impacted by the pandemic.

The actual revenue for the year ended June 30, 2021 was under budget projections by approximately $1.9 million. The actual expenditures for the year ended June 30, 2021 were under budget by approximately $5.9 million.

Capital Assets

As of June 30, 2021, the District had $169,358,878 invested in capital assets. Table 4 shows balances as of June 30, 2021 and June 30, 2020. The third column shows the variances between those years. See note 7 to the financial statements.

Table 4

Capital Assets (Net of Depreciation) at June 30th

	2021	2020	Variance
Land	$ 8,240,466	$ 4,468,680	$ 3,771,786
Construction in progress	-	85,855	(85,855)
Land improvements	17,575,635	18,319,019	(743,384)
Buildings and improvements	141,952,869	130,396,428	11,556,441
Furniture and equipment	2,766,471	2,744,259	22,212
Totals	$ 170,535,441	$ 156,014,241	$ 14,521,200

As indicated in Table 4, the District's Net Capital Assets for Governmental Activities increased $14,541,200 or 9.3%. The largest change was in buildings and improvements.

Debt Administration

As of June 30, 2021, the District had $45,875,278 in outstanding long-term debt compared to $50,258,480 as of June 30, 2020. Of the $45,875,278 in outstanding debt, $3,468,665 is due within one year in comparison to $3,748,371, in the previous year. The District refinanced the debt from the GO bonds in 2011, 2012, and 2014 school construction loan debt in order to save interest costs in the fiscal year which ended June 30, 2021. The bond rates for the existing debt instruments range from 1.75% to 2.85% for the 2011 Refunding issuance, 2.0% to 3.125% for the 2011 G.O. issuance, 1.72% for the 2014B G.O. issuance, 2.0% to 4.0% for the 2015 G.O. issuance, 2%-3% for the 2016 G.O. issuance, 2% for the 2016B Lease Revenue Refunding issuance, 2%-5% for 2021B Refunding Bond issuance and 1.45%-2.00% for the 2021 Refunding Bond issuance. See note 9 to the financial statements.

Table 5

Outstanding Debt at June 30, 2021

2011 Lease revenue refunding bonds	$ 560,000
2011 General obligation bonds	455,000
2014B General obligation bonds	13,750,278
2015 General obligation bonds	4,940,000
2016A General obligation bonds	3,335,000
2016B Lease revenue refunding bonds	2,060,000
2021B General obligation bonds	5,420,000
2021 General obligation bonds	15,355,000
Total	$ 45,875,278

For the Future

The 2021-2022 preliminary budget includes a projected deficit of $4.985 million which is attributable to a variety of factors: 1) a small increase in the school district's taxable valuation which is the basis for all local property tax revenue, 2) a modest increase in the state foundation aid formula 3) an increase in employee wage and benefit costs and 4) the cost of additional staff needed to meet the needs of the students. With over 83% of the General Fund Budget comprised of wages and benefits, wage and benefit increases are the most influential factor on budget projections. The School Board and Administration continues to keep a very close eye on student enrollment in the District and the taxable valuation of the District. Enrollment has increased slightly for the past two school years and the taxable valuation of the District also increased slightly this past year. Since many of the District's major revenue sources, state aid and federal aid just to name two, are based on average daily membership, enrollment or average daily attendance, any substantial change in student numbers significantly impacts those major sources of revenue and with the volatile price of oil, the population in the area will likely vary and as a result, so could student enrollment and taxable valuations. The District passed $109 million bond referendum in December 7, 2021. The resulting future bond sales will add to the district's long-term debt and the patrons' tax burden. The addition of a second high school and a third downtown middle school will also result in increased future operating & staffing costs. The board will also need to monitor the impact of the COVID-19 pandemic.

The District's reserves remain strong, but that could be strained should the need to deficit spend continue.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. You may request a copy of this report and/or a copy of the Minot Air Force Base District No. 160 report by contacting Scott Moum, Business Manager, Minot Public School District, 215 2nd St SE, Minot ND 58701, or email at **Scott.Moum@minot.k12.nd.us.**

MINOT PUBLIC SCHOOL DISTRICT NO. 1
RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET TO THE
DISTRICT-WIDE STATEMENT OF NET POSITION
JUNE 30, 2021

Total fund balance, governmental funds	$ 26,047,312
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not current financial resources and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position.	170,535,441
Property taxes receivable will be collected during the year, but are not available soon enough to pay for the current period's expenditures, and, therefore are unavailable in the governmental funds.	1,792,547
The assets and liabilities of internal service funds are not included in the fund financial statement, but are included in the governmental activities of the Statement of Net Position.	3,465,730
Net deferred outflows/(inflows) of resources relating to the cost sharing of defined benefit plans in the governmental activities that are not financial resources, and therefore are not reported as deferred outflows/(inflows) of resources in the governmental funds.	
Cost sharing defined benefit plan deferred inflow - pension	(15,206,365)
Cost sharing defined benefit plan deferred outflow- pension	49,166,680
Cost sharing defined benefit plan deferred inflow - OPEB	(53,295)
Cost sharing defined benefit plan deferred outflow- OPEB	498,280
Certain short-term liabilities are not recognized as an expenditure in the govermental funds until they are due. All liabilities both current and long-term are reported in the Statement of Net Position.	(731,250)
Certain long-term liabilities are not due and payable in the current period, and therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year-end consist of:	
Net pension liability	(150,750,509)
Net OPEB liability	(1,357,996)
Bond Premium	(1,513,122)
Bonds payable and accrued interest	(46,153,426)
Net position of governmental activities in the Statement of Net Position	$ 35,740,027

MINOT PUBLIC SCHOOL DISTRICT NO. 1
RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES WITH THE DISTRICT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2021

Net change in fund balances - total governmental funds:		$ 3,389,799
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		
Capital asset additions	$ 1,240,828	
Current year depreciation	(5,625,193)	
Total		(4,384,365)
Governmental funds do not report donated capital assets as expenditures or revenue. However, in the statement of activities, donations of capital assets are recorded as donation revenue.		18,921,248
Governmental funds report the entire net sales price (proceeds) from the sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain or loss on the sale of the assets. Thus, the change in net position differs from the change in fund balance by the cost of the asset sold.		(15,683)
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned. This amount is the net change in these items which include property taxes receivable and amounts due from FEMA.		(1,785,605)
Repayment of long-term debt is reported as an expenditure in governmental funds. However, the repayment reduces long-term liabilities in the statement of net position.		25,158,202
Issuance of long-term debt is reported as a revenue in governmental funds. However, the issuance increases long-term liabilities in the statement of net position.		(20,775,000)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:		
Net change in accrued interest		83,802
Net change in compensated absences and early retirement obligations		(37,578)
Net change in net pension liability		(42,605,277)
Net change in OPEB liability		(47,834)
Changes in cost sharing defined benefit plan relating to net pension liability		2,463,649
Changes in cost sharing defined benefit plan relating to net pension liability		28,294,012
Changes in cost sharing defined benefit plan relating to OPEB liability		(4,538)
Changes in cost sharing defined benefit plan relating to OPEB liability		45,741
Internal service funds are used by the District to account for its self funded health insurance plan. The net income or loss of the internal service fund is reported with governmental activities.		(180,111)
Governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This is the amount by which current year amortization exceeds premiums and discounts.		(869,481)
Change in net position of governmental activities		$ 7,650,981

NOTE 1 DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Principal Activity

The Minot Public School District operates the public schools in the City of Minot, North Dakota. There are thirteen elementary schools, three middle schools and two high schools. Two elementary schools and one middle school are located on the Minot Air Force Base, a U.S. Air Force installation.

Reporting Entity

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of an organization's governing body and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources. Component units may also include organizations that are fiscally dependent on the District. Fiscal dependence can include the District's approval of the budget, issuance of debt, and/or levying of taxes for the organization.

Based on the above criteria, the Minot Air Force Base District No. 160 is included in the District's reporting entity as a discretely presented component unit, and the Minot School District Building Authority is included as a blended component unit.

The Minot Air Force Base School District No. 160 contracts with the Minot Public School District to provide educational services for the pupils that reside in the Minot Air Force Base District. A copy of the Minot Air Force Base District No. 160 financial statements may be obtained through a request of the District's management.

The Minot School District Building Authority leases various facilities and capital improvements to the Minot Public School District. The Building Authority does not prepare external financial statements.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. Minot Public School District No. 1's significant accounting policies are described below.

Basis of Presentation

The District's basic financial statements consist of government-wide statements and fund financial statements.

Government-wide Financial Statements

The government-wide financial statements consist of a Statement of Net Position and a Statement of Activities. These statements display information about the District as a whole.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end.

The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. The statement identifies the extent to which each governmental function is self-financing or drawing from the general revenues of the District. Direct expenses are expenses that are specifically associated with a service, program or department. The direct expenses are clearly identifiable to a particular function. Program revenues include charges to recipients for goods or services offered by the program, grants, and contributions that are restricted to meet the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements do not include fiduciary funds or component units that are fiduciary in nature.

Fund Financial Statements

In order to aid financial management and to demonstrate legal compliance, the District segregates transactions related to certain functions or activities in separate funds. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The focus of the governmental fund financial statements is on major funds. Each major fund is presented as a separate column in the fund financial statements. Nonmajor funds are aggregated and presented in a single column. The fiduciary fund is reported by type.

Fund accounting – The District's funds consist of the following:

Governmental Funds

Governmental funds are utilized to account for most of the Districts' governmental functions. The reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which the obligation will be paid. Fund balance represents the difference between the governmental fund assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The District's major governmental funds are as follows:

General fund – This fund is the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund.

Capital projects fund – This fund accounts for the acquisition and construction of the District's major capital facilities.

Debt Service fund – This fund accounts for the District's debt issuances and payments.

Proprietary Funds

The reporting focus of proprietary funds is on the determination of net income, financial position, and changes in financial position (economic resources). These funds are used to account for activities which are similar to those found in the private sector. The funds are maintained on the accrual basis of accounting.

The District has one fund that qualifies for reporting under this category which is also an internal service fund. The reporting focus of internal service funds is on services provided by one fund of the District to another fund on a cost reimbursement basis. The District's internal service fund is as follows:

Self-funded Health Insurance Fund – The fund accounts for the financial transactions related to the District's self-funded health insurance plan.

Fiduciary Funds

The reporting focus of fiduciary funds is on net position and changes in net position. The District's only fiduciary fund is a custodial fund. The custodial fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations. The District's custodial fund consists of the following:

Starbase Fund – The fund accounts for the financial transactions related to the Starbase programs.

Measurement Focus and Basis of Accounting

Measurement Focus

Government-wide Financial Statements:

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, liabilities, and deferred outflows/inflows of resources associated with the operation of the District are included in the Statement of Net Position.

Fund Financial Statements:

The governmental funds are accounted for using a flow of current financial resources measurement focus. Under this measurement focus, only current assets, current liabilities and current deferred outflows/inflows of resources are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balance reports on the sources and uses of current financial resources.

The current financial resources measurement focus differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Due to the difference, the District's financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for government funds.

Fiduciary funds also use the economic resources measurement focus.

Basis of Accounting

The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

Government-wide financial statements are prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The District's internal service fund also uses the accrual basis of accounting.

The District's governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of its fiscal year. Expenditures are generally recorded as the related fund liability is incurred.

Revenues-Exchange and Non-Exchange Transactions

Exchange transactions are transactions in which each party gives and receives essentially equal value. Under the accrual basis of accounting, revenue for exchange transactions is recorded when the exchange takes place. Under the modified accrual basis of accounting, revenue for exchange transactions is recorded when the resources are measurable and available.

Non-exchange transactions include transactions in which the District receives value without directly providing value in return. Non-exchange transactions include property taxes, grants, entitlements, and donations.

Under the accrual basis of accounting, property taxes are recorded as revenue in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recorded in the fiscal year in which all eligibility requirements have been satisfied. Under the modified accrual basis of accounting, revenue from non-exchange transactions must also be available before it is recorded in the financial records of the District.

Major revenue sources susceptible to accrual include: property taxes, intergovernmental revenues and investment income.

Cash and Cash Equivalents

The District considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Due from Other Governmental Agencies

Intergovernmental receivables consist of reimbursements due for expenses in the operation of various programs, credits from the State and federal dollars in regards to flood reimbursements. The amount consists of a mix of state and federal dollars. No allowance is recorded as management considers all accounts are collectible.

Inventories

Inventories in governmental funds consist of expendable supplies held for consumption. They are stated at cost determined on a first-in, first-out basis. They are recorded as expenditures at the time individual inventory items are used.

Other Assets

The District's other assets as of June 30, 2021 consist of construction houses and associated lots built by students which are held for sale.

Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities' column of the government-wide statement of net position but are not reported as assets in the fund financial statements. All capital assets are recorded at cost (or estimated historical cost). The assets are updated for additions and retirements during the District's fiscal year.

The District has established a capitalization threshold of $5,000. Donated fixed assets are recorded at their acquisition values at the date received. The District does not have any infrastructure assets. Improvements that significantly extend the useful life of the asset are also capitalized.

The District's land and construction in progress costs are capitalized but are not depreciated. Interest associated with construction in progress is capitalized as part of the asset's original cost. All the remaining capital assets are depreciated over their estimated useful lives on a straight-line basis. The District has established the following useful lives:

Land Improvements	20 years
Buildings and Improvements	50 years
Equipment and Furniture	5 to 20 years

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. Although employees accrue sick leave on an annual basis, this accrual vests only if the employee is eligible for and elects to take advantage of the District's early retirement policy. The liability includes the employees who are currently eligible to receive termination benefits. The amount is based on accumulated sick leave and employees wage rates at fiscal year-end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave upon notification of the employee's election for early retirement. These liabilities qualify for recognition on both the fund and government wide statements, and are shown under accounts payable and accrued liabilities.

Unearned Revenue

Unearned revenue amounts represent funds received by the food service fund for which the obligation to provide meals to children has not yet been met.

Long-Term Debt

In the District-wide financial statements, long-term debt and other long-term debt obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Pension Liability

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the North Dakota Public Employee Retirement System (NDPERS) and Teachers' Fund for Retirement (TFFR) and additions to/deductions from NDPERS and TFFR's fiduciary net position have been determined on the same basis as they are reported by NDPERS and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net OPEB Liability

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expenses, information about the fiduciary net position of the North Dakota Public Employee Retirement System (NDPERS) and additions to/deduction from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items reported on the statement of net position as deferred pension outflows, one which represents the actuarial differences within the NDPERS and TFFR pension plans, and another that represents the actuarial differences within the NDPERS OPEB liability. See notes 10 and 11 for further details.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items which qualify for reporting in this category. One of the items, unavailable revenue – delinquent taxes, is reported only in the governmental funds balance sheet. This amount, which is from delinquent property taxes, is deferred and recognized as an inflow of resources in the period that the amount becomes available. The other item is reported on the statement of net position as deferred pension inflows, which represents the actuarial differences within the NDPERS and TFFR pensions as well as amounts paid to the plan after the measurement date. The last item is reported on the statement of net position as deferred OPEB inflows, which represents the actuarial differences within the NDPERS OPEB liability. See notes 10 and 11 for further details.

Net Position

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the District's financial statements. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any long-term debt attributable to the acquisition, construction, or improvement of those assets. Restricted Net Position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted Net Position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable - consists of amounts that are not in spendable form, such as inventory.

Restricted - consists of amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions and administered by the North Dakota Department of Public Instruction.

Committed - consists of internally imposed constraints. These constraints are established by Resolution of the School Board.

Assigned - consists of internally imposed constraints. These constraints reflect the specific purpose for which it is the District's intended use. These constraints are established by the School Board and/or management.

Unassigned - is the residual classification for the general fund and also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, and then use unrestricted resources as they are needed.

When committed, assigned or unassigned resources are available for use, it is the District's policy to use resources in the following order; 1) committed, 2) assigned and 3) unassigned.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Interfund activities within the District's governmental activities and its business–type activities are eliminated in the Statement of Activities.

Revenue Recognition

Taxes receivable consists of current and delinquent uncollected taxes at June 30, 2021.

Property taxes attach as an enforceable lien on property January 1. A five percent reduction is allowed if paid by February 15. Penalty and interest are added March 15 if the first half of the taxes has not been paid. Additional penalties are added October 15, if not paid. Taxes are collected by the county and usually remitted monthly to the school district.

Property tax revenue in the governmental funds is recognized in compliance with National Council of Government Accounting (NCGA) Interpretation 3, "Revenue Recognition - Property Taxes". This interpretation states that property tax revenue is recorded when it becomes available. Available means when due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Property tax revenue is recorded as revenue in the year the tax is levied in the government - wide financial statements. Property taxes are limited by state laws. All school district tax levies are in compliance with state laws.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is charges to other funds for health insurance premiums. Operating expenses for the internal service fund include the cost of claims and related administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expense.

Expenses and Expenditures

Governmental funds accounting measurement focus is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recorded in the fiscal year in which the related fund liability is incurred. Under the accrual basis of accounting, expenses are recorded when incurred.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

As discussed in Note 13, the District has established a self-funded health insurance plan. Because of the inherent uncertainties associated with estimating the accrued liability for claims, it is at least reasonably possible that the estimate used will change within the near term.

NOTE 3 DEPOSITS

Custodial Credit Risk:
This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its deposits, investments, or collateral securities that are in possession of an outside party.

According to state statutes, deposits must be deposited with the Bank of North Dakota or in other financial institutions situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

The District has a deposit policy which requires all cash accounts to be kept at local banks.

The District maintains cash on deposit at various financial institutions. The amounts on deposit were insured by the FDIC up to $250,000 per applicable financial institution. At June 30, 2021, all of the District's deposits were covered by FDIC coverage or pledged collateral from local financial institutions.

NOTE 4 DUE FROM OTHER GOVERNMENTAL AGENCIES

The following table represents a detailed breakdown of the amounts due from other governmental agencies as shown on the Statement of Net Position as of June 30, 2021:

Minot Public School District No. 1

General fund	
In-state LEAs	$ 1,580
Department of Public Instruction	3,989,685
Department of Career & Tech	635,675
Other	64,127
Total general fund	4,691,067
Other governmental funds	
Department of Public Instruction	207,467
Headstart	194,553
Other	2,138
Total other governmental funds	404,158
Total due from other governmental agencies	$ 5,095,225

Minot Air Force Base District No. 160 (Component Unit)

Department of Defense	$ 403,031
Total due from other governmental agencies	$ 403,031

NOTE 5 INTERFUND RECEIVABLES/PAYABLES

The District's interfund receivables and payables consisted of the following as of June 30, 2021:

Fund	Due From	Due To	
General Fund	$ 5,654,127	$ 10,046	
Capital Projects Fund	-	5,364,288	(1)
Other Governmental Funds	10,046	289,839	(2)
	$ 5,664,173	$ 5,664,173	

(1) The General Fund has recorded a due from the Capital Projects Fund for $5,364,288 to offset a negative cash balance. This is not expected to be repaid within the next year.

(2) The General Fund has recorded a due from the Special Revenue Fund for $289,839 to offset a negative cash balance and a due to the Special Revenue Fund for $10,046 for checks held until after year end. This is expected to be repaid within a couple months after year end.

NOTE 6 FUND DEFICITS

The following funds were in a deficit position as of June 30, 2021:

Governmental Funds:		
Capital Projects - MPSD	$	(5,431,151)
Head Start and Adult Learning Center		(45,450)

These deficits are anticipated to be remediated by future revenues and/or fund transfers.

NOTE 7 CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2021 was as follows:

	7/1/2020	Additions	Deductions	6/30/2021
Capital assets not being depreciated:				
Land	$ 4,468,679	$ 3,771,787	$ -	$ 8,240,466
Construction in Progress	85,855	-	(85,855)	-
Total capital assets not being depreciated	4,554,534	3,771,787	(85,855)	8,240,466
Capital assets being depreciated				
Land improvements	30,304,466	708,758	-	31,013,224
Building and improvements	176,875,497	15,149,462	-	192,024,959
Equipment and furniture	13,976,082	617,924	(976,919)	13,617,087
Total capital assets at historical cost	221,156,045	16,476,144	(976,919)	236,655,270
Less accumulated depreciation				
Land improvements	11,985,447	1,452,142	-	13,437,589
Building and improvements	46,479,068	3,593,022	-	50,072,090
Equipment and furniture	11,231,823	580,029	(961,235)	10,850,616
Total accumulated depreciation	69,696,338	5,625,193	(961,235)	74,360,296
Total capital assets being depreciated, net	151,459,707	10,850,951	(15,683)	162,294,975
	$ 156,014,241	$ 14,622,738	$ (101,538)	$ 170,535,441

In the governmental activities section of the Statement of Activities, depreciation was charged to expense in the following governmental functions:

Instruction:	
Regular	$ 5,102,915
Special education	19,995
Support services:	
Instruction staff services	52,499
General administrative services	19,642
Head Start	2,786
Operations and maintenance	158,627
Pupil transportation services	191,278
Non-education services:	
Extracurricular	42,726
Food service	34,725
Total	$ 5,625,193

NOTE 8 ACCOUNTS PAYABLE

The following table represents a detailed breakdown of the amounts in accounts payable and accrued liabilities as shown on the Statement of Net Position as of June 30, 2021:

Trade Payables	
General fund	$ 192,548
Capital projects fund	69,260
Other funds	27,151
Total trade payables	288,959
Accrued Salaries & Benefits	
General fund	9,254,642
Other funds	240,225
Total accrued salaries & benefits	9,494,867
Internal Service Fund	
Incurred but not reported claims	1,504,567
Billing payable	174,030
Total internal service payables	1,678,597
Total accounts payable and accrued liabilities	$ 11,462,423

NOTE 9 LONG TERM DEBT

Changes in Long-Term Liabilities

	Balance July 1, 2020	Increases	Decreases	Balance June 30, 2021	Due Within One Year
Compensated absences *	$ 693,671	$ 519,388	$ (481,809)	$ 731,250	$ 731,250
Net pension liability **	108,145,232	66,264,846	(23,659,569)	150,750,509	-
Net OPEB liability ***	1,310,162	398,435	(350,601)	1,357,996	-
Bonds payable	50,258,480	20,775,000	(25,158,202)	45,875,278	3,468,665
Bond premium	643,642	1,111,108	(241,628)	1,513,122	208,666
Total	$161,051,187	$ 89,068,777	$ (49,891,809)	$ 200,228,155	$ 4,408,581

* The general fund is primarily used to liquidate compensated absences.

** See Note 10 for more information on the net pension liability. The general fund would liquidate any liability owed.

*** See Note 11 for more information on the net OPEB liability. The general fund would liquidate any liability owed.

Lease Revenue Refunding Bonds of 2011 – The bonds were issued to refinance the Lease Revenue Bonds of 2003. The bonds carry interest rates of 1.75% - 2.85% and are scheduled to mature in May 2023. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $560,000.

General Obligation School Building Bonds, Series 2011 – The District issued $6,575,000 of general obligation bonds for the purpose of financing the purchase of land and constructing a new middle school, new additions to Lewis and Clark and Longfellow elementary schools, and to repair, renovate, and improve school buildings and property. The bonds carry interest rates of 2.000% to 3.125% and are scheduled to mature in 2032. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $455,000.

General Obligation School Building Bonds, Series 2014B – The District issued $20,000,000 of general obligation bonds for the purpose of financing school improvement construction projects. The bond carries an interest rate of 1.72% and is scheduled to mature in 2034. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $13,750,278.

General Obligation School Building Bonds, Series 2015 – The District issued $9,205,000 of general obligation bonds for the purpose of financing the construction of a new elementary school, new additions to Edison and Perkett elementary schools, and to repair, renovate and improve school buildings and property. The bond carries an interest rate of 2.00%-4.00% and is scheduled to mature in 2025. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $4,940,000. Includes premium of $237,972.

General Obligation School Building Bonds, Series 2016A – The District issued $5,260,000 of general obligation bonds for the purpose of constructing, repairing, renovating and improving school property resulting from the flood of 2011. The bond carries an interest rate of 2.00%-3.00% and is scheduled to mature in 2026. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $3,335,000. Includes premium of $234,330.

Lease Revenue Refunding Bonds, Series 2016B – The District issued $3,310,000 in bonds to be used for the purpose of refunding the Lease Revenue Bonds of 2007. The bond carries an interest rate of 2.00% and is scheduled to mature in 2026. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $2,060,000. Includes premium of $35,263.

General Obligation School Building Refunding Bonds, Series 2021B – The bonds were issued to refinance the Series 2012B General Obligation School Building Bonds with an original purpose of purchasing land, replacing Erik Ramstad middle school, and funding new additions at various elementary schools. The bonds carry interest rates of 2.00%-5.00% and are scheduled to mature in August 2032. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $5,420,000. Includes premium of $699,786.

General Obligation School Building Refunding Bonds, Taxable Series 2021 – The bonds were issued to refinance the Series 2014 and Series 2011 Bonds. The bonds carry interest rates of 1.45%-2.00% and are scheduled to mature in August 2034. Payments are to be made out of the Sinking and Interest fund. Outstanding obligation as of June 30, 2021 was $15,355,000. Includes premium of $305,772.

Bond Refunding

The District issued $20,775,000 General Obligation Bonds Series 2021 and 2021B on March 4, 2021. The bonds were issued to advance refund the $10,000,000, $7,000,000, and $9,945,000 Series 2012B, 2014 and 2011 General Obligation School Building Bonds, respectively. The transactions resulted in a total economic gain of $1,667,540 and a reduction of $1,813,001 in future debt service payments.

Future Payments

Following is a schedule of the future expected principal and interest requirements to retire the long-term debt obligations as of June 30, 2021:

Fiscal Year Ending June 30,	Principal	Interest	Total
2022	$ 3,468,665	$ 517,509	$ 3,986,174
2023	3,840,068	862,083	4,702,151
2024	3,796,753	842,826	4,639,579
2025	8,104,216	737,154	8,841,370
2026	4,088,043	628,040	4,716,083
2027 - 2031	7,552,533	884,288	8,436,821
2032 - 2036	8,660,000	1,192,705	9,852,705
2037 - 2041	6,365,000	337,336	6,702,336
Premium	1,513,123	(1,513,123)	-
Total	$ 47,388,401	$ 4,488,818	$ 51,877,219

NOTE 10 DEFINED BENEFIT PENSION PLANS - STATEWIDE

Substantially, all employees of the District are required by state law to belong to pension plans administered by Teachers' Fund for Retirement (TFFR) or the North Dakota Public Employee Retirement System (NDPERS), both of which are administered on a statewide basis.

Disclosures relating to these plans follow:

North Dakota Teachers' Fund for Retirement

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of $96,788,786 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net pension liability was based on the Employer's share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At June 30, 2020, the Employer's proportion was 6.32398353 percent, which was a decrease of 0.03905619 percent from its proportionate measured as of June 30, 2019.

For the year ended June 30, 2021, the Employer recognized pension expense of $9,115,799. At June 30, 2021, the Employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 19,959	$ (3,632,278)
Changes of assumptions	4,356,346	-
Net difference between projected and actual earnings on pension plan investments	5,974,910	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	(3,691,915)
Employer contributions subsequent to the measurement date	5,791,474	-
Total	$ 16,142,689	$ (7,324,193)

$5,791,474 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:		
2022	$	682,709
2023		618,047
2024		1,216,256
2025		651,734
2026		(346,822)
Thereafter		205,098

Actuarial Assumptions

The total pension liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30%
Salary increases	3.80% to 14.80%, varying by service, including inflation and productivity
Investment rate of return	7.25%, net of investment expenses
Cost-of-living adjustments	None

For active and inactive members, mortality rates were based on the PubT-2010 Employee table, projected with generational improvement using Scale MP-2019. For healthy retirees, mortality rates were based on 104% of the PubT-2010 Retiree table for retirees and to 5% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019. For disability retirees, mortality rates were based on the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019.

The actuarial assumptions used were based on the results of an actuarial experience study dated March 19, 2020. They are the same as the assumptions used in the July 1, 2020, funding actuarial valuation for TFFR.

As a result of the March 19, 2020 actuarial experience study, the TFFR Board adopted several assumption changes, including the following:

- Investment return assumption lowered from 7.75% to 7.25%;
- Inflation assumption lowered from 2.75% to 2.30%;
- Individual salary increases were lowered;
- Rates of turnover, retirement, and disability were changed to better reflect anticipated future experience;
- The post-retirement healthy mortality table was updated to 104% of the PubT-2010 Retiree table for retirees and to 95% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019;

- The disabled mortality was updated to the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019; and
- The pre-retirement mortality table was updated to the PubT-2010 Employee table projected with generational improvement using Scale MP-2019.

The TFFR Board is responsible for establishing investment policy for the fund assets under NDCC 15-39.1-05.2. Benefit payments are projected to occur over a long period of time. This allows TFFR to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. This asset-liability analysis considers both sides of the plan balance sheet, utilizing both quantitative and qualitative inputs, in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting estimated impact of funded status and contribution rates.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of July 1, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equities	58%	6.90%
Global Fixed Income	23%	1.30%
Global Real Assets	18%	5.00%
Cash Equivalents	1%	0.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.25 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2020, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2020. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

Pension Liability Sensitivity

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
Employer's proportionate share of net pension liability	$ 128,917,461	$ 96,788,786	$ 70,088,207

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TFFR financial report. Requests to obtain or review this report should be addressed to the North Dakota Retirement and Investment Office, 3442 E Century Ave., Bismarck, ND 58503.

North Dakota Public Employees Retirement System

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system; one member elected by the retired public employees, and two members of the legislative assembly appointed by the chairman of the legislative management.

Pension Benefits

Benefits are set by statute. NDPERS has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The annual pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. For members hired on or after January 1, 2020, the 2.00% multiplier was replaced with a 1.75% multiplier. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of $100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of covered compensation. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation. For members hired on or after January 1, 2020 member contribution rates are 7% and employer contribution rates are 8.26% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is $25 and the maximum may not exceed the following:

1 to 12 months of service – Greater of one percent of monthly salary or $25
13 to 24 months of service – Greater of two percent of monthly salary or $25
25 to 36 months of service – Greater of three percent of monthly salary or $25
Longer than 36 months of service – Greater of four percent of monthly salary or $25

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the Employer reported a liability of $53,961,723 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net pension liability was based on the Employer's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2020, the Employer's proportion was 1.715237 percent which was a decrease of 0.034661 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the Employer recognized pension expense of $9,893,811. At June 30, 2021, the Employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 209,999	$ (2,734,291)
Changes of assumptions	28,926,889	(4,782,330)
Net difference between projected and actual earnings on pension plan investments	1,741,611	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	772,418	(365,553)
Employer contributions subsequent to the measurement date	1,373,074	-
Total	$ 33,023,991	$ (7,882,174)

$1,373,074 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:		
2022	$	7,221,173
2023		6,151,125
2024		4,941,253
2025		5,455,192

Actuarial Assumptions

The total pension liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	3.50% to 17.75% including inflation
Investment rate of return	7.00%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the Sex-distinct Pub-2010 table for General Employees, with scaling based on actual experience. Respective corresponding tables were used for healthy retirees, disabled retirees, and active members. Mortality rates are projected from 2010 using the MP-2019 scale.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	30%	6.30%
International Equity	21%	6.85%
Private Equity	7%	9.75%
Domestic Fixed Income	23%	1.25%
Global Real Assets	19%	5.01%

Discount Rate

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, which is the case for the PERS plan, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00%, the municipal bond rate is 2.45%, and the resulting Single Discount Rate is 4.64%.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 4.64 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.64 percent) or 1-percentage-point higher (5.64 percent) than the current rate:

	1% Decrease 3.64%	Current Discount Rate 4.64%	1% Increase 5.64%
Employer's proportionate share of the net pension liability	$ 70,011,285	$ 53,961,723	$ 40,829,272

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report. Requests to obtain or review this report should be addressed to the Executive Director – NDPERS, P.O. Box 1657, Bismarck, North Dakota 58502-1657.

NOTE 11 OTHER POST EMPLOYMENT BENEFITS

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDAC Chapter 71-06 for more complete information.

NDPERS OPEB plan is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits from the PERS, the HPRS, and Judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. Effective August 1, 2019, the benefit may be used for any eligible health, prescription drug plan, dental, vision, or long term care plan premium expense. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

OPEB Benefits

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. The employer contribution for employees of the state board of career and technical education is 2.99% of covered compensation for a period of eight years ending October 1, 2015. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as *"prefunded credit applied"* on the Statement of Changes in Plan Net Position for the OPEB trust funds. Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC. Therefore, RHIC will become for the most part a closed plan. There were no other benefit changes during the year.

Retiree health insurance credit benefits and death and disability benefits are set by statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the PERS, the HPRS, the Defined Contribution Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving a surviving spouse benefit or if the member selected a joint and survivor option are eligible to receive a credit toward their monthly health insurance premium under the state health plan.

Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. Effective August 1, 2019 the benefit may be used for any eligible health, prescription drug plan, dental, vision, or long-term care plan premium expense. The benefits are equal to $5.00 for each of the employee’s, or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health insurance credit is also available for early retirement with reduced benefits.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the Employer reported a liability of $1,357,996 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net OPEB liability was based on the Employer's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2020, the Employer's proportion was 1.614360 percent, which was a decrease of 0.016844 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the Employer recognized OPEB expense of $200,737. At June 30, 2021, the Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 30,157	$ (32,558)
Changes of assumptions	182,081	-
Net difference between projected and actual earnings on OPEB plan investments	46,700	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	34,934	(20,737)
Employer contributions subsequent to the measurement date	204,408	-
Total	$ 498,280	$ (53,295)

$204,408 reported as deferred outflows of resources related to OPEB resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Year ending June 30:	
2022	$ 49,005
2023	61,075
2024	58,860
2025	46,352
2026	22,330
2027	2,955

Actuarial Assumptions

The total OPEB liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	Not applicable
Investment rate of return	6.50%, net of investment expenses

Cost-of-living adjustments None

For active members, inactive members and healthy retirees, mortality rates were based on the MortalityPub-2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of RHIC investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap Domestic Equities	33%	6.10%
Small Cap Domestic Equities	6%	7.00%
Domestic Fixed Income	40%	1.15%
International Equities	21%	6.45%

Discount Rate

The discount rate used to measure the total OPEB liability was 6.50%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2018, and July 1, 2017, HPRS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Employer's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2020, calculated using the discount rate of 6.50%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50 percent) or 1-percentage-point higher (7.50 percent) than the current rate:

	1% Decrease 5.50%	Current Discount Rate 6.50%	1% Increase 7.50%
Employer's proportionate share of the net OPEB liability	$ 1,781,042	$ 1,357,996	$ 1,000,254

NOTE 12 NONMONETARY TRANSACTIONS

The District receives food commodities from the federal government to subsidize its hot lunch program. The market value of commodities received for the year ended June 30, 2021 was $281,408.

NOTE 13 RISK MANAGEMENT

The District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the mid-1980's, the District was not able to obtain general liability insurance at a cost it considered to be economically justifiable. In 1986, the state and other political subdivisions joined together to form the North Dakota Insurance Reserve Fund (NDIRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions.

All members paid an additional charge the first year they joined to help capitalize the NDIRF. In each of the years from 1991 through 1994, the NDIRF returned 20% of the capitalized amount with a premium reduction or cash payment to the District. The District pays an annual premium to NDIRF for its general, business and auto insurance coverage. The coverage by NDIRF is limited to losses of $2,000,000 per occurrence. In the past three years, no settled claims have exceeded insurance coverage.

In October of 1996, the District entered into a self-funding health insurance plan with Blue Cross Blue Shield. Under the plan, the District is liable for individual claims up to $100,000 stop loss limit per participant. As of June 30, 2021, the District has accrued an estimated claims liability of $1,504,567. The estimated liability is based upon information provided by insurance carrier, which the District believes is a reasonable basis for determining unpaid claims as of June 30, 2021. The following is a recap of the District’s claims:

Claim liability as of July 1, 2020	$ 1,204,000
Claims incurred	11,397,452
Claims paid	(11,096,885)
Claim liability as of June 30, 2021	$ 1,504,567

The District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 14 TRANSFERS

The following is a summary of transfers for the year ended June 30, 2021:

	General Fund	Other Funds - Nonmajor	Total
Transfers in	$ 445,954	$ 658,443	$ 1,104,397
Transfers out	(658,443)	(445,954)	(1,104,397)
	$ (212,489)	$ 212,489	$ -

The transfers were to transfer amounts to be used for capital projects.

NOTE 15 FUND BALANCES

At June 30, 2021, a summary of the governmental fund balance classification is as follows:

	General Fund	Capital Projects - MPSD	Debt Service	Other Nonmajor Governmental Funds	Total Governmental Funds
Non-spendable:					
Inventories	$ -	$ -	$ -	$ 207,616	$ 207,616
Restricted:					
Debt service	-	-	3,218,677	346,405	3,565,082
Food service	-	-	-	544,468	544,468
Student activities	536,451	-	-	-	536,451
Capital projects	-	-	-	1,093,883	1,093,883
Unassigned	25,576,413	(5,431,151)	-	(45,450)	20,099,812
	$ 26,112,864	$ (5,431,151)	$ 3,218,677	$ 2,146,922	$ 26,047,312

NOTE 16 CONTINGENCIES

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with items and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. The District's management believes it has complied with all applicable grant provisions. In the opinion of management, any possible disallowed claim would not have a material adverse effect on the overall financial position of the District as of June 30, 2021.

NOTE 17 ECONOMIC DEPENDENCY

Minot Public School District No. 1 receives a substantial amount of its support from federal and state governments. A significant reduction in the level of this support, if this were to occur, may have a material effect on the District’s programs and therefore on its continued operations.

NOTE 18 CHANGE IN ACCOUNTING PRINCIPLE AND RESTATEMENT OF NET POSITION AND FUND BALANCE

The District implemented GASB Statement No. 84, *Fiduciary Activities*. As a result, beginning net position and general fund balance have been restated as of July 1, 2020 as follows:

Net Position July 1, 2020 as previously reported	$ 26,779,492
Restatement for fiduciary accounting:	
Student Activity fund balance reclassified to the General Fund	1,309,554
Net Position July 1, 2020 as restated	$ 28,089,046

Fund Balances General Fund July 1, 2020 as previously reported	$ 22,752,520
Restatement for fiduciary accounting:	
Student Activity fund balance reclassified to the General Fund	1,309,554
Fund Balances General Fund July 1, 2020 as restated	$ 24,062,074

NOTE 19 FUTURE PRONOUNCEMENTS

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Earlier application is encouraged.

GASB Statement No. 92, *Omnibus 2020*, provides additional guidance to improve consistency of authoritative literature by addressing practice issues identified during the application of certain GASB statements. This statement provides accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activity of public entity risk pools, fair value measurements and derivative instruments. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides guidance to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR), most notable, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. This statement provides exceptions and clarifications regarding hedging derivative instruments for such transactions that result from the replacement of IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The statement provides definitions of PPPs and APAs and provides uniform guidance on accounting and financial reporting for transactions that meet those definitions. A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 96, *Subscription-Based Information* Arrangements provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. Under this Statement, a government generally should recognize a right-to use subscription asset—an intangible asset—and a corresponding subscription liability. The requirements of this Statement will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* provides additional guidance for determining whether a primary government is financially accountable for a potential component unit. This Statement requires that the financial burden criterion in paragraph 7 of Statement No. 84, *Fiduciary Activities,* be applicable to only defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement No. 67, *Financial Reporting for Pension Plans,* or paragraph 3 of Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans,* respectively. This Statement (1) requires that a Section 457 plan be classified as either a pension plan or another employee benefit plan depending on whether the plan meets the definition of a pension plan and (2) clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, are effective immediately. The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021.

Management has not yet determined the effect these Statements will have on the District's financial statements.

NOTE 20 SUBSEQUENT EVENTS

Subsequent to year end, the District approved general obligation bonds in the amount of $109,000,000 for the purpose of remodeling and adding school facilities to create a third middle school and two high schools as well as to add a pool and athletic complex.

Subsequent events have been evaluated through February 1, 2022, which is the date these financial statements were available to be issued.

See Notes to the Required Supplementary Information

NOTE 1 BUDGETS AND BUDGETARY ACCOUNTING

The District's Board follows the procedures established by North Dakota law for the budgetary process. The operating budget includes proposed expenditures and the means of financing them for the upcoming year, along with estimates for the current year and actual data for the preceding year. Formal budgetary integration is employed as a management control device during the year for the general fund. The School Board must adopt the final budget on or before August 15. The final budget must be filed with the county auditor by August 15.

The budget may be amended during the year by the Board; however, no amendment changing the taxes levied can be made after October 10.

All appropriations lapse at the close of the District's fiscal year. The balance of the appropriation reverts back to each respective fund and is available for future appropriation.

NOTE 2 BUDGETARY BASIS OF ACCOUNTING

To provide a meaningful comparison of the District's actual results compared to the budgeted results, the Statements of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual are prepared on the District's budgetary basis. Under the District's budgetary basis of accounting, revenues are budgeted on the cash basis of accounting. Expenditures are also budgeted on the cash basis except for teacher salaries and benefits. The District allows teachers to take their compensation in nineteen or twenty-four payments. The budget is prepared estimating the entire contract cost regardless of when the actual payment is made.

Budgeted Inflows and Outflows

Listed below is a reconciliation between the revenues and expenditures as presented in the District's Statement of Revenues, Expenditures, and Changes in Fund Balance and the budgetary inflows and outflows presented in the District's general fund budget.

	General Fund
Sources/Inflows of resources	
Actual revenues (budgetary basis) presented on the budgetary comparison schedule	$ 112,401,074
Difference - budget to GAAP	
Net effect of June 30, 2020 and 2021 unearned revenue being recognized on the budget statement when collected but not recorded as revenue until earned.	(243,432)
Student activities revenues included in the fund statements but not on the budget statement due to the implementation of GASB 84.	885,757
Net effect of June 30, 2020 and 2021 revenue recorded when measureable and available on the revenue statement but not recorded as revenue on the budget statement until collected.	1,865,250
Total revenue as reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Government Funds.	$ 114,908,649

Uses/outflows of resources

Actual expenditures and transfers (budgetary basis) presented on the budgetary comparison schedule	$ 112,236,386
Difference - budget to GAAP	
Student activities expenses included in the fund statements but not on the budget statement due to the implementation of GASB 84.	888,442
Net effect of June 30, 2020 and 2021 liabilities that are paid from "available resources" and are recognized as an expenditure when the obligation is incurred on the revenue statement but not recorded on the budget statement until paid.	(470,198)
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	$ 112,654,630

NOTE 3 CHANGE OF ASSUMPTIONS AND BENEFIT TERMS

TFFR Pension Plan

Changes of Assumptions

Amounts reported in 2021 and later reflect actuarial assumption changes effective July 1, 2015 based on the results of an actuarial experience study dated March 19, 2020.

- Investment return assumption lowered from 7.75% to 7.25%.
- Inflation assumption lowered from 2.75% to 2.30%.
- Individual salary increases were lowered;
- Rates of turnover, retirement and disability were changed to better reflect anticipated future experience;
- The post-retirement healthy mortality table was updated to 104% of the PubT-2010 Retiree table for retirees and to 95% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019;
- The disabled mortality was updated to the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019; and
- The pre-retirement mortality table was updated to the PubT-2010 Employee table projected with generational improvement using Scale MP-2019.

Amounts reported in 2016-2020 reflect the following actuarial assumption changes based on the results of an actuarial experience study dated April 30, 2015.

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.

- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

NDPERS Pension Plan

Changes of Assumptions

The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 valuation:

- The investment return assumption was lowered from 7.50% to 7.00%
- The assumed rate of price inflation was lowered from 2.50% to 2.25% for the July 1, 2020 valuation
- The assumed rate of total payroll growth was updated for the July 1, 2020 valuation
- Mortality table updates were made for the July 1, 2020 valuation

Changes of Benefit Terms

The interest rate earned on member contributions will decrease from 7.00 percent to 6.50 percent effective January 1, 2021 (based on the adopted decrease in the investment return assumption). New Main System members who are hired on or after January 1, 2020 will have a benefit multiplier of 1.75 percent (compared to the current benefit multiplier of 2.00 percent). The fixed employer contribution for new members of the Main System will increase from 7.12 percent to 8.26 percent. For members who terminate after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019 or the average salary earned in the three highest periods of twelve consecutive months employed during the last 180 months of employment. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2019.

All other actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2019.

NDPERS OPEB

Changes of assumptions

The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2020 valuation:

- The investment return assumption was lowered from 7.25% to 6.50%

Changes of benefit terms

Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC. Therefore, RHIC will become for the most part a closed plan. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2019.

All other actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2019.

See Notes to the Schedule of Expenditures of Federal Awards

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the applicable cost principles contained in Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award*, wherein certain types of expenditures are not allowable or limited as to reimbursement.

NOTE 2 DE MINIMIS COST RATE

Minot Public School District No. 1 has not elected to use the 10-percent de minimis cost rate as allowed under the Uniform Guidance.

NOTE 3 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "schedule") includes the federal award activity of Minot Public School District No. 1 under programs of the federal government for the year ended June 30, 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The amounts reported on the schedule have been reconciled to and are in agreement with amounts recorded in the accounting records from which the financial statements have been reported.

NOTE 4 RECONCILIATION TO FINANCIAL STATEMENTS

The schedule of expenditures of federal awards reports expenditures of federal awards of $22,887,457. Compared to federal revenue reported on the Statement of Revenues, Expenditures and Changes in Fund Balances for Governmental Funds of $23,996,988, there is a difference of $1,109,531. This difference is made up of the following:

Difference in FEMA revenues and expenditures based on compliance reporting requirements	$	1,400,713
Federal revenue in Custodial Fund		(291,182)
	$	1,109,531

BradyMartz

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education
Minot Public School District No. 1
Minot, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States, the financial statements of the government activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Minot Public School District No. 1 as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Minot Public School District No. 1's basic financial statements, and have issued our report thereon dated February 1, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Minot Public School District No. 1's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Minot Public School District No. 1's internal control. Accordingly, we do not express an opinion on the effectiveness of Minot Public School District No. 1's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2021-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Minot Public School District No. 1's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Education
Minot Public School District No. 1
Minot, North Dakota

Report on Compliance for Each Major Federal Program

We have audited Minot Public School District No. 1's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the District's major federal programs for the year ended June 30, 2021. The Minot Public School District No. 1's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The Minot Public School District No. 1's basic financial statements include the operations of the Minot Air Force Base School District #160 as a discretely presented component unit which spent $7,844,142 in federal awards. These awards are not included in the District's schedule of expenditures of federal awards for the year ended June 30, 2021. Our audit described below did not include the operations of the above-mentioned component unit because a separate audit was performed in accordance with Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of Minot Public School District No. 1 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a *material weakness* in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Dollar threshold used to distinguish between Type A and Type B programs:	$ 750,000	
Auditee qualified as a low-risk auditee?	x yes	_____ no

Section II - Financial Statement Findings

2021-001 Financial Statement Preparation – Significant Deficiency

Criteria
An appropriate system of internal controls requires the District to prepare financial statements in compliance with accounting principles generally accepted in the United States of America. This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures. The auditors also assisted with the preparation of the schedule of expenditures of federal awards.

Condition
The District's personnel prepare periodic financial information for internal use that meets the needs of management and the board. However, the entity currently does not prepare financial statements, including the accompanying note disclosures, and the Schedule of Expenditures of Federal Awards, as required by the accounting principles generally accepted in the United States of America. In addition, adjusting journal entries were proposed to bring the financial statements into compliance with accounting principles generally accepted in the United States of America (U.S. GAAP). An appropriate system of internal controls requires that the District must make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with GAAP. The District has elected to have the auditors assist in the preparation of the financial statements, notes, and the Schedule of Expenditures of Federal Awards.

Cause
The District elected to not allocate resources for the preparation of the financial statements.

Effect
There is an increased risk of material misstatement to the District’s financial statements.

Recommendation
We recommend the District consider the additional risk of having the auditors assist in the preparation of the financial statements and note disclosures and consider preparing them in the future. As a compensating control, the District should establish an internal control policy to document the annual review of the financial statements and schedules and to review a financial statement disclosure checklist.

Views of Responsible Officials and Planned Corrective Actions
The School Board has decided to accept the degree of risk associated with the District not preparing its own financial statements due to the time and expense necessary to have staff prepare the statements prior to the annual audit.

Indication of Repeat Finding
This is a repeat of finding 2020-001 from the prior year.

Section III – Federal Award Findings and Questioned Costs

There are no findings which are required to be reported under this section.

2020-001 Financial Statement Preparation – Significant Deficiency

Criteria
An appropriate system of internal controls requires that the District make a determination that the financial statements and the underlying general ledger accounts are properly stated in compliance with accounting principles generally accepted in the United States of America. This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures. The auditors also assisted with the preparation of the schedule of expenditures of federal awards.

Condition
The District's auditors prepared the draft financial statements and provided assistance in the presentation of the Schedule of Expenditures of Federal Awards. In addition, adjusting journal entries were proposed to bring the financial statements into compliance with accounting principles generally accepted in the United States of America (U.S. GAAP). An appropriate system of internal controls requires that the District must make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with GAAP. The District has elected to have the auditors assist in the preparation of the financial statements and notes.

Cause
The District elected to not allocate resources for the preparation of the financial statements.

Effect
There is an increased risk of material misstatement to the District’s financial statements.

Recommendation
We recommend the District review its current training system to determine if it is cost effective for the District to obtain this knowledge internally. As a compensating control, the District should establish an internal control policy to reconcile all accounts timely and document the review of the annual financial statements with a disclosure checklist.

Views of Responsible Officials and Planned Corrective Actions
The School Board has decided to accept the degree of risk associated with the District not preparing its own financial statements due to the time and expense necessary to have staff prepare the statements prior to the annual audit.

Current Status
Based upon our audit testing, the finding was repeated as current year finding 2021-001.

Corrective Action Plan
The Board of Education of Minot Public School District No. 1 has decided to accept the degree of risk associated with the District not preparing its own financial statements due to the time and expense necessary to have staff prepare the financial statements prior to the annual audit.

Completion Date
Minot Public School District No. 1 will implement when it becomes cost effective.
