March 17, 2021

Honorable Doug Burgum
Governor, State of North Dakota

Members of the Legislative Assembly
of the State of North Dakota

Mr. Joe Morrissette, Director
Office of Management and Budget

We are pleased to submit the single audit of the State of North Dakota, covering the fiscal years ended June 30, 2020 and 2019.

This report complies with the State's audit requirements, including those placed upon the State as a condition for the receipt of federal funds for fiscal years 2020 and 2019. The audit meets the requirements of Chapter 54-10 of the North Dakota Century Code, the Single Audit Act Amendments of 1996, and the provisions of the Office of Management and Budget (OMB) *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (contained in Title 2 of the U.S. Code of Federal Regulations Part 200)*.

We issued separate reports on the State of North Dakota's financial statements for fiscal years 2020 and 2019. These reports are included in the State of North Dakota's *Comprehensive Annual Financial Report* issued under separate cover for each of the two fiscal years ended June 30, 2020 and 2019 and are available upon request.

Respectfully submitted,

/S/

Joshua C. Gallion

Report on Internal Control and Compliance

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards*

The Honorable Doug Burgum, Governor of North Dakota
Members of the North Dakota Legislative Assembly

We have audited, in accordance with auditing standards general accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of North Dakota as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the state's basic financial statements and have issued our report thereon dated December 10, 2020.

Our report includes a reference to other auditors who audited the following entities, as described in our report on the state of North Dakota's financial statements:

Addiction Counselor Internship Loan Program	Job Service North Dakota
Bank of North Dakota	Mandan Remediation Trust
Beginning Farmer Revolving Loan Fund	Medical Facility Infrastructure Loan Program
Building Authority	PACE and AG PACE Funds
College SAVE	Public Employees Retirement System
Community Water Facility Loan Fund	Public Finance Authority
Comprehensive Health Association of North Dakota	Rebuilders Loan Program
Covid Pace Recovery Program	Retirement and Investment Office
Department of Trust Lands	School Construction Assistance Revolving Loan Fund
North Dakota Development Fund	Small Employer Loan Fund
Guaranteed Student Loan Program	State Fair Association
Housing Finance Agency	State Historical Society of North Dakota Foundation
Housing Incentive Fund	Student Loan Trust
Infrastructure Revolving Loan Fund	Workforce Safety and Insurance
Innovation Technology Fund	

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the North Dakota University System's foundations, that are reported as discretely presented component units, were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the state of North Dakota's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the state of North Dakota's internal control. Accordingly, we do not express an opinion on the effectiveness of the state of North Dakota's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control described in the accompanying *Schedule of Findings, Recommendations, and Responses* as item 2020-01 that we consider to be a material weakness.

Responses to Findings

The Office of Management and Budget's response to the finding identified in our audit is described in the accompanying *Schedule of Findings, Recommendations, and Responses*. This response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the state of North Dakota's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of North Dakota's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of North Dakota's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those

auditors. The financial statements of the North Dakota University System's foundations, that are reported as discretely presented component units, were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the state of North Dakota's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the state of North Dakota's internal control. Accordingly, we do not express an opinion on the effectiveness of the state of North Dakota's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control described in the accompanying *Schedule of Findings, Recommendations, and Responses* as item 2019-01 that we consider to be a significant weakness. We noted another deficiency involving internal control that we have reported to the management of the Office of Management and Budget in a letter dated December 11, 2019.

Responses to Findings

The Office of Management and Budget's responses to the findings identified in our audit are described in the accompanying *Schedule of Findings, Recommendations, and Responses*. These responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the state of North Dakota's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of North Dakota's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of North Dakota's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON
INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS REQUIRED BY UNIFORM GUIDANCE**

Independent Auditor's Report

The Honorable Doug Burgum, Governor
of the state of North Dakota

Members of the Legislative Assembly
of the state of North Dakota

Mr. Joe Morrissette, Director
Office of Management and Budget

Report on Compliance for Each Major Federal Program

We have audited the State of North Dakota's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the State of North Dakota's major Federal programs for the years ended June 30, 2020 and 2019. The State of North Dakota's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State of North Dakota's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State of North Dakota's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for each major federal program. However, our audit does not provide a legal determination of the State of North Dakota's compliance.

Basis for Qualified Opinion on the Child Care Development Fund (CCDF) Cluster

As described in the accompanying schedule of findings and questioned costs, the State of North Dakota did not comply with certain compliance requirements that are applicable to the major federal programs listed below. Compliance with such requirements is necessary, in our opinion, for the State of North Dakota to comply with the requirements applicable to that program.

<u>Program/Cluster Title</u>	<u>Compliance Requirement</u>	<u>Finding Number</u>
CCDF Cluster (CFDA's 93.575 and 93.596)	Special Tests and Provisions	2020-009 2020-014

Qualified Opinion on the CCDF Cluster

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the State of North Dakota complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the CCDF Cluster for the years ended June 30, 2020 and 2019.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of North Dakota complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the years ended June 30, 2020 and 2019.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2020-001, 2020-002, 2020-004, 2020-005, 2020-006, 2020-007, 2020-010, 2020-011, 2020-012, 2020-013, 2020-015, 2020-017, 2020-018, 2020-019, 2020-020, 2020-021, 2020-022, 2020-023, 2020-024, 2020-025, 2020-026, 2020-027, and 2020-028. Our opinion on each major federal program is not modified with respect to these matters.

The State of North Dakota's response to the noncompliance findings identified in our audit is described in the accompanying management's response and corrective action. The State of North Dakota's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the State of North Dakota is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State of North Dakota's internal control over compliance with the type of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the State of North Dakota's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of North Dakota's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2020-009 and 2020-014 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2020-001, 2020-002, 2020-003, 2020-004, 2020-008, 2020-010, 2020-011, 2020-012, 2020-013, 2020-016, 2020-017, 2020-018, 2020-019, 2020-020, 2020-021, 2020-024, 2020-025, and 2020-027 to be significant deficiencies.

The State of North Dakota's responses to the internal control over compliance findings identified in our audit are described in the accompanying management's response and corrective action. The State of North Dakota's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for the State of North Dakota as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the State of North Dakota's basic financial statements. We issued our reports thereon dated December 10, 2020 and December 11, 2019, respectively, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information

has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

CRITERIA

According to the “Standards for Internal Control in the Federal Government”, management should identify, analyze, and respond to significant changes that could impact the internal control system. Management should also design control activities in response to the entity’s objectives and risks to achieve an effective internal control system. (Green Book, GAO-14-704G para 9.01, 10.02)

GASB Statement 88, paragraph 5, states “a government should disclose in notes to financial statements summarized information about assets pledged as collateral for debt.”

GASB Statement 62, paragraph 22, states that interest cost should be disclosed in the notes to the financial statements. For an accounting period in which some interest cost is capitalized, the total amount of interest cost incurred during the period and the amount thereof that has been capitalized should be disclosed.

CONDITION

The Office of Management and Budget does not have adequate procedures in place to ensure inclusion of required disclosures from component auditor reports in the Comprehensive Annual Financial Reports (CAFR). The Bank of North Dakota audit report contained a note disclosure identifying \$1.47 billion of securities assigned as collateral for debt which was not included in the CAFR note disclosures as required by Governmental Accounting Standards Board (GASB) statement 88. In addition, the North Dakota University System audit report disclosed \$4 million of capitalized interest as required by GASB statement 62 which was not included in the CAFR note disclosures.

CAUSE

The Office of Management and Budget has not designed adequate procedures to ensure the inclusion of required items from component auditor reports.

EFFECT

There is potential for incomplete note disclosure and non-compliance with GASB requirements. The Office of Management and Budget revised the note disclosures to include the identified errors of this finding.

RECOMMENDATION

We recommend the Office of Management and Budget improve procedures to ensure disclosure of GASB reporting requirements from component audit reports are included in the CAFR.

OFFICE OF MANAGEMENT AND BUDGET RESPONSE/CORRECTIVE ACTION PLAN

See “Management’s Response and Corrective Action” section of this report.

State of North Dakota

Schedule of Financial Statement Findings

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Financial Statement

Finding

F20-1

Finding Title:

Untimely Capitalization and Depreciation of Transportation Projects

CRITERIA

Construction of assets that are substantially complete and available for use on June 30 are not construction in progress. When assets are substantially complete and meet the state's capitalized threshold, the construction in progress status needs to be removed and an asset needs to be added to asset records. This cost to acquire, construct or improve a capital asset is not recognized immediately as expense when occurred, but instead capitalized and allocated over the asset's estimated useful life in the form of depreciation expense. The purpose of recognizing depreciation expense is to allocate a proportionate share of the cost of the capital asset to each period that receives a benefit. No benefit is received until the capital asset is substantially ready to be placed into service.

Standards for internal control require that transactions are promptly recorded to maintain their relevance and value to management in controlling operation and making decisions. Also, management should design control activities so that all transactions are completely and accurately recorded.

U.S. Government Accountability Office (GAO), "Standards for Internal Control in the Federal Government." Design of Appropriate Control Activities. (GAO-14-704G para 10.03). September 2014.

CONDITION

The Department of Transportation did not capitalize and depreciate state oil impact projects that were substantially complete and in use. These projects were still included in construction in progress at June 30, 2020. Considering the Department's fiscal review period for project closeout which determines accurate project costs, the audit identified projects without financial activity since June 30, 2017 and 2018 for calculating capitalizable costs and depreciation, respectively. Total costs for these projects was \$332,139,681. These projects should have

State of North Dakota

Schedule of Financial Statement Findings

Fiscal Years Ended June 30, 2019 and 2020

been reclassified from non-depreciable to depreciable capital assets for reporting on the Government-wide Statement of Net Position and accrued depreciation expense of \$3,727,377 during the audit period.

CAUSE

The Department of Transportation does not capitalize projects until a final fiscal review is completed which may take multiple years. The capitalization of a project may be delayed if there is a backlog of projects for a final fiscal review. A reporting process has not been established for the preparation of the CAFR to identify projects that are substantially complete, but not yet capitalized in the asset management records.

EFFECT

Potential for a material misstatement on the Statement of Net Position for Capital Assets, Depreciable (Net) and Nondepreciable. Depreciation expense is not recorded timely to be accrued for each period that the state benefits from use of the capital assets.

RECOMMENDATION

We recommend Office of Management and Budget ensure Department of Transportation infrastructure projects are capitalized and depreciated timely after the project is substantially complete and available for use.

OFFICE OF MANAGEMENT AND BUDGET RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

Department of Commerce

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-001
Federal Program:	Community Development Block Grants, Community Services Block Grant, HOME Investment Partnerships Program, Weatherization Assistance for Low-Income Persons
CFDA #:	14.228, 14.239, 81.042, 93.569
Federal Award Number(s) and Year(s):	B-13-DC-38-0001, B-14-DC-38-0001, B-15-DC-38-0001, B-16-DC-38-0001, B-17-DC-38-0001, B-18-DC-38-0001, B-19-DC-38-0001 (2013, 2014, 2015, 2016, 2017, 2018, 2019) 2017G994002, 2018G994002ACF, 2019G994002ACF, 2020G994002, 2020G990915 (2017, 2018, 2019, 2020) HOME 12: M12-SG380100, HOME 13: M13-SG380100, HOME 14: M14-SG380100, HOME 15: M15-SG380100, HOME 16: M16-SG380100, HOME 17: M17-SG380100, HOME 18: M18-SG380100, HOME 19: M19-SG380100, HOME 20: M20-SG380100 (2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020) DOE 17-19: DE-EE0007940 (2017, 2018, 2019, 2020)
Federal Agency:	U.S. Department of Housing and Urban Development U.S. Department of Energy U.S. Department of Health and Human Services
Compliance Requirement:	Other
Questioned Cost:	\$0

CRITERIA

2 CFR 200.510(b)(1-6), states that the grantee is responsible for the accurate preparation of the Schedule of Federal Awards.

According to "Standards for Internal Control in the Federal Government" quality information needs to be communicated to enable personnel to perform key roles in achieving the entities objectives. (GAO-14.704G paragraphs 14.02 and 14.03)

CONDITION

The Department of Commerce does not have proper controls in place to ensure accuracy of the data that is included on the Schedule of Expenditures of Federal Awards (SEFA). The following was noted on the fiscal year 2019 SEFA:

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

- An independent review was not performed on the Schedule of Expenditures of Federal Awards.
- The total amount of expenditures was overstated by \$11.2 million. Of that amount:
 - The Community Development Block Grant program was overstated by \$5.5 million.
 - The Community Services Block Grant program was overstated by \$3.2 million.
 - The HOME Investment Partnerships Program was overstated by \$3.1 million.
 - The Weatherization Assistance for Low-Income Persons was overstated by \$2.5 million

CAUSE

Due to employee turnover, inexperienced staff prepared the SEFA without supervisory review

EFFECT

Inaccurate information was initially reported in the Schedule of Expenditures of Federal Awards and detected and corrected through the audit.

CONTEXT

Incorrect expenditures reported on the fiscal year 2019 SEFA totaled \$11.2 million and affected 14 programs. For fiscal year 2019, 100% (2 out of 2) of the Federal programs reviewed as major programs had incorrect expenditure amounts reported on the SEFA. These 2 programs made up 53% (\$8.2 million) of the overall total corrected Federal expenditures (\$14.7 million) listed on the Department of Commerce's SEFA for fiscal year 2019.

RECOMMENDATION

We recommend the Department of Commerce accurately prepare and perform an independent review of the Schedule of Expenditures of Federal Awards.

DEPARTMENT OF COMMERCE RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

Department of Human Services

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-002
Federal Program:	Medicaid Cluster and Children's Health Insurance Program
CFDA #:	93.777, 93.778, 93.767
Federal Award Number(s) and Year(s):	1905ND5ADM, 1905ND5MAP, 1905ND5021 (2019) 2005ND5ADM, 2005ND5MAP, 2005ND5021 (2020)
Federal Agency:	U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services
Compliance Requirement:	Eligibility
Questioned Cost:	\$4,782

CRITERIA

42 CFR 431.10 states the State Medicaid Agency or its designee is required to determine client eligibility in accordance with eligibility requirements defined in the approved State plan.

42 CFR 435.603 (a)(2) states that the agency must apply the financial methodologies set forth in this section in determining the financial eligibility of all individuals for Medicaid.

42 CFR 457.965 states the State must include in each applicant's record facts to support the State's determination of the applicant's eligibility for CHIP.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

During our testing of eligibility, we noted that eligibility was not properly determined by the Department of Human Services (DHS) in the Children's Health Insurance Program and Medicaid.

DHS did not properly determine eligibility in 4 of 60 Children's Health Insurance Program (CHIP) cases reviewed. Each of the cases were missing either income verifications, a narrative to support determinations, or both. The errors resulted in improper payments totaling \$4,659. When projected against the entire population, the likely questioned costs total \$1,119,228.

DHS did not properly determine eligibility in 1 of the 60 Medicaid cases reviewed due to a lack of updated income information on the individual. As a result, auditor was unable to determine if the individual should have been eligible for Medicaid or not. The error resulted in an improper payment totaling \$123. When projected against the entire population, the likely questioned costs total \$695,468.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

The Department's Quality Control Unit did their own review and also identified eligibility determination errors as noted below.

The eligibility testing required by Center for Medicare and Medicaid Services (CMS) performed by the Department's Quality Control Unit for the calendar year 2019 for the Medicaid program identified 14 of the 200 active cases tested had eligibility determination errors, an error rate of 7%. While 35 out of the 200 negative cases tested had eligibility determination errors, an error rate of 17.5%.

The eligibility testing required by Center for Medicare and Medicaid Services (CMS) performed by the Department's Quality Control Unit for the calendar year 2019 for the Children's Health Insurance Program (CHIP) identified 27 of the 200 active cases tested had eligibility determination errors, an error rate of 13.5%. While 28 out of the 200 negative cases tested had eligibility determination errors, an error rate of 14%.

Due to the public health emergency (Covid-19) CMS has changed its requirements for the payment review portion of active cases. It is no longer required to determine payment error amounts. As a result, we are unable to identify improper Federal payment amounts for the eligibility errors of the Department's Quality Control Unit testing.

CAUSE

The Department is not documenting how the amount of income was determined. Also, the Department is relying on applicants to provide updated income when there are changes in employment status. These employment changes are not communicated timely to the Department. The Department verifies income with North Dakota Job Service periodically, but between income verifications the applicant is required to provide updated information when income changes.

EFFECT

Unallowable payments were made to providers on behalf of individuals whose eligibility for the CHIP and Medicaid was not proper.

CONTEXT

There were 126,060 CHIP and Medicaid cases that received over \$2.6 billion in payments for fiscal years ended June 30, 2019 and 2020.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-002 and 2018-006 were reported in the immediate prior year. Finding 2016-004 and 2016-016 were made in previous years.

RECOMMENDATION

We recommend the Department of Human Services ensure eligibility determinations made for the Medicaid and CHIP programs are proper.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Significant Deficiency

Finding	2020-003
Federal Program:	Medicaid Cluster and Children's Health Insurance Program
CFDA #:	93.777, 93.778, 93.767
Federal Award Number(s) and Year(s):	1905ND5ADM, 1905ND5MAP, 1905ND5021 (2019) 2005ND5ADM, 2005ND5MAP, 2005ND5021 (2020)
Federal Agency:	U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CRITERIA

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

The Department of Human Services (DHS) is not completing a reconciliation between PeopleSoft, the state's accounting system, and the Quarterly Children's Health Insurance Program Statement of Expenditures for Title XXI report (CMS-21 Report). DHS also did not complete a reconciliation between PeopleSoft and the grant expenditures reported on the Quarterly Statement of Expenditures for the Medical Assistance Program (CMS-64 Report).

For both of these reports, the two quarters tested for each report did not have reconciliations completed.

CAUSE

The reconciliations were not completed primarily due to turnover in staff.

EFFECT

There is risk of fiscal year-end financial reporting being inaccurate if reconciliations between the Federal report and PeopleSoft are not completed as it could potentially misstate the reporting on the Schedule of Expenditures of Federal Awards. The auditors' testing of CMS reports did not identify any significant errors in financial reporting.

CONTEXT

CHIP expenditures were \$46,531,367 during the audit period. After the auditor inquired about reconciliations, DHS did complete reconciliations for both grant and admin expenditures. No errors were noted.

Medicaid grant expenditures were \$1,451,818,930 during the audit period. Admin expenditures were reconciled and are not included in this expenditure amount.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

RECOMMENDATION

We recommend the Department of Human Services perform reconciliations between the Federal reports and PeopleSoft on a consistent basis.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-004
Federal Program:	Medicaid Cluster
CFDA #:	93.777, 93.778
Federal Award Number(s) and Year(s):	1905ND5ADM, 1905ND5MAP (2019) 2005ND5ADM, 2005ND5MAP (2020)
Federal Agency:	U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$8,460

CRITERIA

45 CFR 75.403 states that in order to be allowable under Federal awards, a cost must be necessary and reasonable for the performance of the Federal award. Duplicate payments are neither necessary nor reasonable.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

Sixty potential duplicate payments were tested from the Medicaid Management Information System (MMIS). Testing identified 10 of these were duplicate payments from MMIS.

CAUSE

The Department does not have proper procedures in place to detect and prevent duplicate or improper payments from being issued

EFFECT

The known unallowable costs charged to the program were \$8,460 and when projected against the entire population, the likely questioned costs were \$74,776.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONTEXT

632 sets of duplicates totaling \$2.1 million were identified as potential duplicate payments.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-005 was reported in the immediate prior year. Finding 2016-008 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services strengthen procedures and controls to prevent duplicate payments.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Other Noncompliance

Finding	2020-005
Federal Program:	Medicaid Cluster
CFDA #:	93.777, 93.778
Federal Award Number(s) and Year(s):	1905ND5ADM, 1905ND5MAP (2019) 2005ND5ADM, 2005ND5MAP (2020)
Federal Agency:	U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$493

CRITERIA

42 CFR 431.960 (c) (1) states a medical review error is an error resulting in an overpayment or underpayment that is determined from a review of the provider's medical record or other documentation supporting the service(s) claimed, Code of Federal Regulations that are applicable to conditions of payment, the State's written policies, and a comparison between the documentation and written policies and the information presented on the claim resulting in Federal and/or State improper payments.

42 CFR 431.960 (c) (3) states medical review errors include, but are not limited to, the following: (i) lack of documentation, (ii) insufficient documentation, and (iii) procedure coding errors.

CONDITION

Medicaid providers submitted claims for payments for which the provider did not retain the required documentation to support the service billed in 6 of 382 claims tested. This resulted in improper payments of \$231. When projected against the entire population, the likely questioned costs totaled \$4,999,047.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

The Department of Human Service completed Medicaid adjustments that were not coded correctly in 2 of the 120 claim adjustments tested. This resulted in improper adjustments of \$262. When projected against the entire population, the likely questioned costs totaled \$101,665.

CAUSE

Medicaid providers did not retain proper documentation to support Medicaid claims and claim adjustments. In addition, the Department did not ensure providers were coding claims and adjustments properly.

EFFECT

Unallowable or inaccurate payments and adjustments were made to providers without proper documentation.

CONTEXT

There were 121,684 individuals that were Medicaid eligible during our audit period of July 1, 2018, through June 30, 2020.

RECOMMENDATION

We recommend Department of Human Services ensure providers retain the proper documentation and are coding claims correctly for Medicaid claims and adjustments.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Other Noncompliance

Finding	2020-006
Federal Program:	Medicaid Cluster
CFDA #:	93.777, 93.778
Federal Award Number(s) and Year(s):	1905ND5ADM, 1905ND5MAP (2019) 2005ND5ADM, 2005ND5MAP (2020)
Federal Agency:	U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	Unknown

CRITERIA

42 CFR 456.5 The agency must establish and use written criteria for evaluating the appropriateness and quality of Medicaid services. This section does not apply to services in hospitals and mental hospitals. For these facilities, see the following sections: 456.122 and 456.132 of subpart C; and 456.232 of subpart D.

The North Dakota Program Integrity Unit Audit Oversight outlines the type and frequency of audits to be performed.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONDITION

The Department of Human Services Program Integrity Unit did not fully execute their audit oversight document for the Medicaid Program. Per the audit oversight document the new rehabilitation provider audit and the recipient analysis are to be completed semi-annually. The new rehabilitation provider audit was scheduled to start in the first quarter of calendar year 2019, however, it was never completed and it was determined to discontinue these audits. While the recipient analysis was completed during the second half of calendar year 2018 and all of calendar year 2019, it had not been completed yet for calendar year 2020. Additionally, the ambulance audits are to be conducted on a weekly basis. While the ambulance audits were completed for most of calendar years 2018 and 2019, there were no reviews completed for December 2018 and audits stopped after February 2020.

CAUSE

The new rehabilitation provider audit was not completed due to the lack of time and resources as well as upper management's decision to focus on audits that have a bigger fiscal impact. The semi-annual recipient analysis was not completed for 2020 as the compliance technician was new to the position and due to a lack of communication did not realize they needed to complete the analysis. The ambulance reviews have not been completed since February 2020 due to the changing of staff and procedures.

EFFECT

The audits completed as required by the Audit Oversight document are the primary process to identify improper use of Medicaid funds. If the audits are not being completed timely, individuals could be misusing Medicaid funds.

CONTEXT

The Recipient Analysis and New Rehabilitation Provider Audits are required, by the Audit Oversight document, to be performed once every six months. Additionally, Ambulance Audits are required by the Audit Oversight document to be performed weekly. The Department did not perform all of these required reviews timely during the audit period.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-003 was reported in the immediate prior year. Findings 2016-003, 2014-002, 2012-003 were made in previous years.

RECOMMENDATION

We recommend the Department of Human Services ensure the Program Integrity Unit fully executes their Audit Oversight policy.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Other Noncompliance

Finding	2020-007
Federal Program:	Medicaid Cluster
CFDA #:	93.777, 93.778
Federal Award Number(s) and Year(s):	2005ND5ADM, 2005ND5MAP (2020)
Federal Agency:	U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	Unknown

CRITERIA

NCCI Medicaid Technical Guidance Manual Section 7.1.2 states at a minimum, the following elements must be included in the confidentiality agreements for any contracted party using the Medicaid NCCI files posted to the Medicaid Integrity Institute:

- Disclosure shall be limited to only those responsible for the implementation of the quarterly state Medicaid NCCI edit files. Disclosure shall not be made prior to the start of the new calendar quarter.
- After the start of the new calendar quarter, a Contracted Party may disclose only non-confidential information contained in the Medicaid NCCI edit files that is also available to the general public found on the Medicaid NCCI webpage.
- The Contracted Party agrees to use any non-public information from the quarterly state Medicaid NCCI edit files only for any business purposes directly related to the implementation of the Medicaid NCCI methodologies in the particular state.
- New, revised, or deleted Medicaid NCCI edits shall not be published or otherwise shared with individuals, medical societies, or any other entities unless it is a Contracted Party prior to the posting of the Medicaid NCCI edits on the Medicaid NCCI webpage.
- Implementation of New, revised, or deleted Medicaid NCCI edits shall not occur prior to the first day of the calendar quarter.
- Only a state Medicaid agency has the discretion to release additional information for selected individual edits or limited ranges of edits from the files posted on the Medicaid Integrity Institute.
- State Medicaid agencies must impose penalties, up to and including loss of contract, for violations of any confidentiality agreement relating to use of the MII edit files.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONDITION

The Department of Human Services does not have a confidentiality agreement in place with Cotiviti in regards to the NCCI. Medicaid National Correct Coding Initiative (NCCI) methodologies must be applied to Medicaid fee-for-service claims submitted with, and reimbursed on the basis of, Healthcare Common Procedure Coding System codes and Current Procedural Terminology codes. The NCCI files are to be updated on a quarterly basis as required by the Medicaid Integrity Institute. The Department of Human Services contracts with Cotiviti to implement the correct quarterly files from Medicaid Integrity Institute. The NCCI Medicaid Technical Guidance Manual requires a confidentiality agreement to be in place for any contracted party using the Medicaid NCCI files.

CAUSE

The Department of Human Services was unaware of the requirement to have a confidentiality agreement

EFFECT

The lack of a confidentiality agreement with Cotiviti could result in Cotiviti using non-public information from the quarterly state Medicaid NCCI edit files for non-business purposes without any penalties being imposed. Additionally, the lack of a confidentiality agreement with Cotiviti could lead to Cotiviti not updating the quarterly files timely.

CONTEXT

There were 121,684 individuals that were Medicaid eligible during our audit period of July 1, 2018, through June 30, 2020 that had claims being processed by the Department of Human Services through Cotiviti.

RECOMMENDATION

We recommend the Department of Human Services ensure a confidentiality agreement is in place with Cotiviti in regards to National Correct Coding Initiative.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Significant Deficiency

Finding	2020-008
Federal Program:	Medicaid Cluster and Child Support Enforcement
CFDA #:	93.777, 93.778, 93.563
Federal Award Number(s) and Year(s):	1905ND5ADM, 1905ND5MAP, 1901NDCEST, 1901NDCSES (2019) 2005ND5ADM, 2005ND5MAP, 2001NDCEST, 2001NDCSES (2020)
Federal Agency:	U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$0

CRITERIA

Standards for Internal Control in the Federal Government (Green Book) requires management to monitor the effectiveness of internal control over the assigned processes performed by service organizations. Monitoring activities related to service organizations may include the use of work performed by external parties. (GAO-14-704G para 16.08)

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

2 CFR 200.303(e) states that the non-Federal entity must take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or pass-through entity designates as sensitive or the non-Federal entity considers sensitive consistent with applicable Federal, state, local, and tribal laws regarding privacy and obligations of confidentiality.

AU-C Section 402.08 "Audit Considerations Relating to an Entity Using a Service Organization" defines a services organization as an organization that provides services to user entities that are relevant to those user entities' internal control over financial reporting.

CONDITION

The Department of Human Services contracts with Health Management Systems to exchange Medicaid recipients information to inquire if those recipients maintain third party liability/health insurance coverage. The Department of Human Services exchanges personal recipient information, however, has not received a System and Organization Controls (SOC) report for Health Management System (HMS) since 2018, which was for the time frame of March 1, 2017 to February 28, 2018. The Child Support Division also participates in the contract with HMS to look for hits in the national health insurance database applicable to eligible child support individuals for potential 3rd party liability.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CAUSE

The HMS contract expired on September 30, 2017. Following procurement procedures, the new contract was established with HMS. After the contract was reprocured, there was miscommunication among Department of Human Services personnel on whether a SOC report was required or not with the current contract.

EFFECT

The lack of a SOC report for HMS, could lead to the Department of Human Services exchanging Medicaid recipients' and eligible child support individuals' information with an outside service organization with potential control weaknesses to protect personal information.

CONTEXT

There were 121,684 individuals that were Medicaid eligible during our audit period of July 1, 2018, through June 30, 2020. In addition, the Child Support Division submits a monthly extract file to HMS which contains approximately 50,000 children for whom there is an order for support. This extract file could include social security numbers for the children, custodial parents, and noncustodial parents.

RECOMMENDATION

We recommend the Department of Human Services ensures SOC reports are obtained on all outside service organizations on a regular, consistent basis.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Material Weakness - Material Noncompliance

Finding	2020-009
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2018G996005, 2018G999004, G2018G999005 (2018) 2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	\$0

CRITERIA

45 CFR 98.41(1)(i)(A) states lead agencies shall assure that children receiving services under the CCDF are age-appropriately immunized. Those health and safety provisions shall incorporate the latest recommendation for childhood immunization of the respective state. Lead agencies may exempt: (1) Children who are cared for by relatives, provided there are no other unrelated children who are cared for in the same setting. (2) Children who

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

receive care in their own homes, provided there are no other unrelated children who are cared for in the home. (3) Children whose parents object to immunization on religious grounds. (4) Children whose medical condition contraindicates immunization.

45 CFR 98.41(iv) requires prevention and response to emergencies due to food and allergic reactions. Allergic reactions are identified on the Statement of Health for each individual child.

45 CFR 98.41 states that lead agencies must certify that procedures are in effect to ensure that child care providers, for which assistance is provided under the Child Care Assistance Program, comply with all applicable health and safety requirements.

North Dakota Century Code section 50-11.1-07 requires a licensee to maintain records as the Department prescribes regarding each child, and shall report to the Department or the Department's authorized agent, when requested, upon forms furnished by the Department, facts the Department may require with reference to each child.

CONDITION

The Department of Human Services does not ensure that child care providers have records for enrolled children as identified by Federal health and safety requirements. Required records include immunization records and a statement of health for each child enrolled with the provider. Of 83 licenses tested, 27 were either missing records or did not have documentation identifying records were reviewed during the licensing process resulting in a 33% error rate.

CAUSE

Department approval of child care licenses does not include verification that county licensors reviewed required child care records and ensured missing documentation was obtained.

EFFECT

Children could be at risk due to unidentified health concerns.

CONTEXT

During fiscal year 2017 and 2018, there were 2,174 licensed providers that received payments totaling \$29.4 million.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-007 was reported in the immediate prior year.

RECOMMENDATION

We recommend the Department of Human Services develop procedures to ensure required child care records are maintained by the child care provider.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-010
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2018G996005, 2018G999004, G2018G999005 (2018) 2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$34,782

CRITERIA

North Dakota Administrative Code 75-02-01.3-10 states that the caretaker of each eligible child who receives or is offered child care services for which financial assistance is provided through the child care and development fund may choose the approved relative provider, registrant, holder of a self-declaration, or licensed provider of services to that child.

Department of Human Services Child Care Assistance Policy Manual section 400-28-105-25 states that the household's provider must be licensed (including military, tribal and out-of state), self-declared, or an approved relative provider. The license must be current and have an expiration date later than the date of the Child Care Assistance Provider's application.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

The Department of Human Services issued Child Care Assistance payments to providers that were improperly licensed. The Department requires that an individual is either an approved relative, self-declared, or licensed child care provider in order to receive payments. 27 of 83 provider licenses reviewed were determined to be improperly licensed, an error rate of 33%. These providers received \$34,782 in payments during the period of improper licensure. These known questioned costs were not projected to the population as not all improperly licensed providers received child care assistance payments during the period of being improperly licensed.

CAUSE

The Department has not designed consistent procedures to ensure licensing applications include all required documents. In addition, they rely on the licensing process and do not perform sufficient independent verifications that payments are issued to properly licensed providers.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

EFFECT

Payments are being issued to child care providers that may not be eligible to receive them.

CONTEXT

During fiscal year 2017 and 2018, there were 2,174 licensed providers that received payments totaling \$29.4 million.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-010 was reported in the immediate prior year. Finding 2016-021 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services ensure that child care providers have met all necessary licensing requirements prior to issuing Child Care Assistance payments.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-011
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2018G996005, 2018G999004, G2018G999005 (2018) 2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	\$0

CRITERIA

North Dakota Century Code (NDCC) section 50-11.1-07.2 requires that the Department or the Department's authorized agency issue a correction order whenever it is determined upon inspection that a program or premises is not in compliance with this chapter or rules adopted under this chapter.

NDCC section 50-11.1-07.3 requires the Department or the Department's authorized agent shall re-inspect an early childhood program issued a correction order under NDCC section 50-11.1-07.2, at the end of the period allowed for correction.

45 CFR 98.41 requires that lead agencies must certify that procedures are in effect to ensure that providers serving children who receive subsidies comply with all applicable health and safety requirements.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

The Department of Human Services is not properly monitoring corrective orders issued to child care providers and performing re-inspections of identified deficiencies within specified time frames. Fifty-two of 520 (10%) corrective orders issued during our audit period did not identify a date the orders were determined to be corrected. In addition, 163 of 520 (31%) corrective orders were not re-inspected within the 24 hour, 20 day, or 60 day time frame allowed for correction.

CAUSE

The Department's procedures for monitoring the resolution of corrective orders is ineffective.

EFFECT

Child care providers are operating without proper follow up of corrective orders jeopardizing the health and safety of children. In addition, the Department is not ensuring providers are meeting health and safety requirements as required by 45 CFR section 98.41.

CONTEXT

During fiscal years 2019 and 2020, there were 1,944 licensed providers receiving payments from the Child Care Assistance program.

The following list is the number of corrective orders issued by calendar year:

2020 - 70 (through July)

2019 - 314

2018 - 136

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-013 was reported in the immediate prior year. Finding 2016-026 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services develop procedures to monitor and ensure the resolution of corrective orders including that resolution occurs within specified time frames.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-012
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2018G996005, 2018G999004, G2018G999005 (2018) 2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Activities Allowed or Unallowed Allowable Costs/Cost Principles
Questioned Cost:	\$1,347

CRITERIA

45 CFR 75.403 states that in order to be allowable under Federal awards, a cost must be necessary and reasonable for the performance of the Federal award. Duplicate payments are neither necessary nor reasonable.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

The Department of Human Services issued duplicate and other improper payments to child care providers receiving payments from the Child Care Assistance program. We tested 60 payments and identified \$1,347 of improper payments. These errors projected to the remaining population of potential duplicate payments, would result in additional likely questioned costs of \$4,113.

The identified circumstances are as follows:

- 3 Duplicate payments were made due to a system defect in SPACES that caused a second payment to be paid for 3 cases. This resulted in duplicate payments of \$859.
- 7 Duplicate payment were made when a case worker did not notice that a payment had already been sent out. This resulted in duplicate payment of \$488.

CAUSE

The Department does not have proper procedures in place to detect and prevent duplicate or improper payments from being issued.

EFFECT

The Department issued payments that were not allowable under the Child Care Development Block Grant.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONTEXT

The audit identified 1,031 potential duplicate payments totaling \$147,251 during the audit period. 10 out of the 60 potential duplicate payments tested were errors totaling \$1,347.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-011 was reported in the immediate prior year. Finding 2016-022 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services develop and implement procedures to detect and prevent duplicate and other improper payments from being issued under the Child Care Assistance program.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-013
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Eligibility
Questioned Cost:	\$1,698

CRITERIA

45 CFR 98.68(c) states that lead agencies must have procedures in place for documenting and verifying eligibility.

45 CFR 98.45(k) states that lead agencies shall establish a sliding fee scale, based on family size, income, and other appropriate factors, that provides for cost sharing by families that receive CCDF child care services.

45 CFR 98.20(a) states that children must be under age 13, reside with a family whose income does not exceed 85 percent of State/territorial/tribal median income for a family of the same size, and reside with a parent who is working or attending a job training or education program; or are in need of, or are receiving protective services. Lead agencies may choose to provide services during period of job search.

CONDITION

The Department of Human Services did not properly determine eligibility in 5 of 60 child care assistance cases tested by the auditor. Each of the cases had one or more of the following errors: improperly calculated household

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

income, missing birth records, and missing income verifications. The errors resulted in improper payments totaling \$1,698. When projected against the entire population, the projected error is \$873,187.

CAUSE

The Department did not collect or maintain proper documentation to determine eligibility. In addition, data entry and income calculations were not being completed consistently and accurately.

EFFECT

Unallowable payments were made to providers on behalf of individuals whose eligibility for the Child Care Assistance Program were not proper.

CONTEXT

There were 5,694 cases that received over \$29.3 million in payments for fiscal years ended June 30, 2019 and 2020.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-012 was reported in the immediate prior year. Findings 2016-018, 2016-028, 2014-020, 2014-017, 2012-018, 2012-024, 2010-022, 2008-006 were made in previous years.

RECOMMENDATION

We recommend the Department of Human Services:

1. Develop and implement controls to ensure that all eligibility workers are collecting and maintaining all applicable information for Child Care Assistance eligibility determinations, and
2. Properly determine eligibility for individuals receiving Child Care Assistance and issue payments that comply with requirements set in the Code of Federal Regulations for Child Care Development Funds.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Material Weakness - Material Noncompliance

Finding	2020-014
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2018G996005, 2018G999004, G2018G999005 (2018) 2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	\$0

CRITERIA

45 CFR 98.41 states that lead agencies must certify that procedures are in effect to ensure that child care providers, for which assistance is provided under the Child Care Assistance Program, comply with all applicable health and safety requirements.

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

The Department of Human Services is not ensuring child care centers, self-declared, group, preschool, and school-age providers comply with all health and safety standards as defined by North Dakota Administrative Code. The checklists used by county licensors, when conducting annual on-site licensing studies, do not contain all necessary health and safety requirements. The licensing study does not include items related to the following health and safety standard requirements: prevention and control of infectious diseases; prevention of sudden infant death syndrome and use of safe sleeping practices; administration of medication, consistent with standards of parental consent; prevention and responses to emergencies due to food and allergic reaction; building and physical premises safety, including identification and protection from hazards, bodies of water, and vehicular traffic; prevention of shaken baby syndrome, abusive head trauma, and child maltreatment; emergency preparedness and response planning; appropriate precautions if transporting children; pediatric first aid and cardiopulmonary resuscitation; and recognition of child abuse & neglect.

CAUSE

The Department did not update licensing materials to include verification that all required health and safety standards were met prior to licensing.

EFFECT

Child care providers may be operating without complying with health and safety requirements, potentially jeopardizing the health and safety of children.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONTEXT

Disbursements for the fiscal years ended June 30, 2019 and 2020 totaled \$29,366,169 for the CCDF program. The State of North Dakota had 1,944 licensed providers and 230 self declared providers during the audit period.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-014 was reported in the immediate prior year. Finding 2016-029 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services:

1. Update the licensing study to include requirements for all necessary health and safety standards for child care centers, self-declared, group, preschool, and school-age providers, and
2. Ensure providers meet all health and safety standards required to be licensed.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Other Noncompliance

Finding	2020-015
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2018G996005, 2018G999004, G2018G999005 (2018) 2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	\$0

CRITERIA

45 CFR 98.42 requires that not less than annually, an unannounced inspection for compliance with child care licensing standards, which shall include an inspection for compliance with health and safety and fire standards, shall be completed.

Department policy 620-01-116 states, the authorized agent is required to perform an unannounced review at least annually for each licensed or self-declared child care provider.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONDITION

The Department of Human Services is not performing annual unannounced inspections of self-declared child care providers in operation. An annual unannounced inspection was not completed on 10 of 23 self-declared providers that were tested.

CAUSE

The Department's procedures for ensuring unannounced visits are performed annually by county licensors are ineffective.

EFFECT

Child care providers are operating child care facilities without proper monitoring of whether health and safety conditions have been met.

CONTEXT

During fiscal years 2019 and 2020, there were 230 self-declared providers from the Child Care Assistance program.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-017 was reported in the immediate prior year. Finding 2016-027 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services perform annual unannounced inspections of self-declared child care providers in operation as required by the Code of Federal Regulations and Department policy.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Significant Deficiency

Finding	2020-016
Federal Program:	CCDF Cluster
CFDA #:	93.575, 93.596
Federal Award Number(s) and Year(s):	2018G996005, 2018G999004, G2018G999005 (2018) 2019G996005, 2019G999004, G2019G999005 (2019) 2020G996005, 2020G999004, 2020G999005 (2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	\$0

CRITERIA

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

The Department's Early Childhood Services Quality Assurance Policy (620-01-20-20) requires the regional office to perform random provider reviews on an annual basis with the authorized agent.

CONDITION

The Department of Human Services' monitoring procedures of the county licensors of child care providers is ineffective. The Department's Early Childhood Services supervisors perform procedural reviews of county licensor activities. The selection procedures do not include assurance that activities of all county licensors are reviewed. In addition, errors identified during our testing indicate these reviews are clearly ineffective at identifying material weaknesses and inconsistencies. These errors include nonperformance of unannounced visits, lack of monitoring of corrective orders, and improperly licensed providers.

CAUSE

The Department has not designed monitoring procedures to carry out the purpose of licensing early childhood service providers to safeguard the health, safety, and development of children.

EFFECT

Child care providers are operating without complying with licensing requirements and proper monitoring of health and safety conditions which may jeopardize the health and safety of children.

CONTEXT

The Child Care Assistance program has 5 regional representatives. DHS has created county zone areas throughout the State. This structure has not been fully implemented by assigning zones and responsibilities and, until it is, this finding applies to the regional supervisor responsibilities according to DHS policy.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-018 was reported in the immediate prior year. Finding 2016-025 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services perform effective monitoring procedures to ensure all functions of the Child Care Assistance program are properly completed including monitoring correction orders, completing unannounced visits, and properly licensing providers.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Significant Deficiency - Other Noncompliance	
Finding	2020-017
Federal Program:	TANF Cluster
CFDA #:	93.558
Federal Award Number(s) and Year(s):	1901NDTANF, 2001NDTANF (2019, 2020)
Federal Agency:	U.S. Department of Health and Human Services
Compliance Requirement:	Special Tests and Provisions
Questioned Cost:	Unknown

CRITERIA

45 CFR §261.60 states: (a) A State must report the actual hours that an individual participates in an activity, subject to the qualifications in paragraphs (b) and (c) of this section and §261.61(c). It is not sufficient to report the hours an individual is scheduled to participate in an activity.

45 CFR §261.61 states: (a) A State must support each individual's hours of participation through documentation in the case file. In accordance with §261.62, a State must describe in its Work Verification Plan the documentation it uses to verify hours of participation in each activity.

North Dakota's Work Verification Plan outlines the use of JOBS Employment Contractors to determine the individual's hours of participation. The process includes sampling of the JOBS Employment Contractor work to ensure accuracy.

45 CFR §261.20 states: (c) If the data show that a State met both participation rates in a fiscal year, then the percentage of historic State expenditures that it must expend under TANF, pursuant to §263.1 of this chapter, decreases from 80 percent to 75 percent for that fiscal year. This is also known as the State's TANF "maintenance-of-effort" (MOE) requirement.(d) If the data show that a State did not meet a minimum work participation rate for a fiscal year, a State could be subject to a financial penalty.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONDITION

The Department of Human Services (DHS) is not in compliance with the Work Verification Plan in regards to monitoring data used to calculate the work participation rate.

The work participation rate effects the maintenance-of-effort requirement and could result in sanctions if minimum work participation rates are not met.

DHS contracts with Job Opportunities and Basic Skills (JOBS) Employment Contractors to verify work verification documents provided by the client in meeting their work participation hours requirements. This sampling was halted during SPACES implementation.

DHS uses this information to report data on their State Work Participation Rates on the ACF-199 report.

CAUSE

Since SPACES went live, DHS has fallen behind on sending cases to the JOBS work contractors for audit and therefore audits and results thereof are not available.

EFFECT

DHS's reported Work Participation Rates could be incorrectly calculated which could result in additional maintenance-of-effort requirements and Federal sanctions.

CONTEXT

No sampling was provided by the Department of Human Services to the JOBS contractors following the March 2019 implementation of the SPACES eligibility system (February 2019 was last monthly sample).

RECOMMENDATION

We recommend the Department of Human Services ensure compliance with the Work Verification Plan. This includes the JOBS verification of TANF cases and maintenance of results for work participation status accuracy.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-018
Federal Program:	Foster Care - Title IV-E
CFDA #:	93.658
Federal Award Number(s) and Year(s):	2019G994107, 2020G994107 (2019, 2020)
Federal Agency:	U.S. Department of Health and Human Services Administration for Children and Families
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CRITERIA

Per Title 2 CFR 200.331, pass-through entities are required to "(b) Evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring described in paragraphs (d) and (e) of this section, which may include consideration of such factors as:

- (1) The subrecipient's prior experience with the same or similar subawards;
- (2) The results of previous audits including whether or not the subrecipient receives a Single Audit in accordance with Subpart F - Audit Requirements of this part, and the extent to which the same or similar subaward has been audited as a major program;
- (3) Whether the subrecipient has new personnel or new or substantially changed systems; and
- (4) The extent and results of Federal awarding agency monitoring (eg. if the subrecipient also receives Federal awards directly from a Federal awarding agency)."

45 CFR 75.303 states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

The Department of Human Services (DHS) risk assessment process of subrecipients is insufficient. DHS did complete a risk assessment for every subrecipient, but the risk assessments are not being used to determine the nature and extent of subrecipient monitoring.

CAUSE

The Department of Human Services has developed policies and procedures to determine the nature and extent of subrecipient monitoring to be performed but the policies and procedures do not take into account the results of the risk assessments performed.

EFFECT

DHS may be performing insufficient subrecipient monitoring of high risk subrecipients.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONTEXT

Payments to subrecipients under the Foster Care program totaled \$10,160,284 during fiscal years 2019 and 2020.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-035 was reported in the immediate prior year. Finding 2016-060 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services ensure subrecipient risk assessments are used to determine the nature and extent of subrecipient monitoring.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-019
Federal Program:	Rehabilitation Services - Vocational Rehabilitation Grants to States
CFDA #:	84.126
Federal Award Number(s) and Year(s):	H126A180051 (2018)
Federal Agency:	U.S. Department of Education
Compliance Requirement:	Period of Performance
Questioned Cost:	\$94,081

CRITERIA

The following criteria note that Federal funds must be obligated by the end of the two-year period of performance window and those obligations must be liquidated within 90 days after the end date of period of performance.

2 CFR 200.343 requires:

" Unless the Federal awarding agency or pass-through entity authorizes an extension, a non-Federal entity must liquidate all obligations incurred under the Federal award not later than 90 calendar days after the end date of the period of performance as specified in the terms and conditions of the Federal award.

34 CFR 361.64 requires:

" (a) Except as provided in paragraph (b) of this section, any Federal funds, including reallocated funds, that are appropriated for a fiscal year to carry out a program under this part that are not obligated by the State by the beginning of the succeeding fiscal year and any program income received during a fiscal year that is not obligated by the State by the beginning of the succeeding fiscal year remain available for obligation by the State during that succeeding fiscal year.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

(b) Federal funds appropriated for a fiscal year remain available for obligation in the succeeding fiscal year only to the extent that the State met the matching requirement for those Federal funds by obligating, in accordance with 34 CFR 76.707, the non-Federal share in the fiscal year for which the funds were appropriated."

The following criteria pertains to the establishment and maintenance of effective internal control to ensure payments are made within the correct period of performance.

45 CFR 75.303 states the non-Federal entity must, "establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

CONDITION

The Department of Human Services made payments under the Vocational Rehabilitation program outside of the 2018 grant award period of performance which was 10/1/17 - 9/30/19 with an allowable liquidation period, to pay for obligations, through 12/31/19. Payments made after the liquidation period totaled \$94,081 for the 2018 grant.

CAUSE

The Department of Human Services, Vocational Rehabilitation Program, did not properly update speedcharts, which provide for automated coding within the State's accounting system, at its Regional Human Service Centers. This issue was noted in three of the four errors found in sampling and permitted unallowable costs to be charged to the 2018 Federal grant. The final error was due to improper coding when the payment was entered into the system. In addition, review of the program's internal controls regarding period of performance proved inadequate to detect payments made outside of the period of performance as documentation of the review to ensure expenditures are applied to the correct period of performance was not maintained.

EFFECT

Unallowable costs totaling \$94,081 were charged to the grant and are questioned costs.

CONTEXT

The Department of Human Services, Vocational Rehabilitation program, had expenditures of approximately \$7.6 million from the 2018 grant award during the audit period. Of this amount, \$94,081 was identified as a known questioned cost from 66 payments. These are all payments after the period of performance.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-031 was reported in the immediate prior year. Finding 2016-053 was made in the previous year.

RECOMMENDATION

We recommend the Department of Human Services implement procedures to prevent and detect Vocational Rehabilitation payments from occurring outside the period of performance.

DEPARTMENT OF HUMAN SERVICES RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

Department of Public Instruction

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-020
Federal Program:	Special Education Cluster
CFDA #:	84.027, 84.173
Federal Award Number(s) and Year(s):	H027A150049, H027A160049, H027A170049, H027A180049, H173A150094, H173A160094, H173A170094, H173A180094 (2016, 2017, 2018, 2019)
Federal Agency:	U.S. Department of Education
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CRITERIA

2 CFR 200.331(d) states that all pass through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward. Pass through entity monitoring of the subrecipient must include following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award provided to the subrecipient from the pass-through entity detected through audits.

Standards for Internal Control in the Federal Government (Green Book) require management to establish and operate monitoring activities to monitor the internal control system and evaluate the results. (GAO-14-704G para 16.01)

CONDITION

The Department of Public Instruction is not ensuring timely and appropriate action was taken on deficiencies noted during fiscal subrecipient monitoring of the Special Education Cluster. During testing of subrecipient monitoring, we noted 3 of the 8 subrecipients tested each had one monitoring finding, but no timely follow-up procedures were completed by the Department to ensure the findings were resolved.

CAUSE

The tracking spreadsheet for fiscal subrecipient monitoring only includes when the audit was completed or when it is planned. There is no tracking of the results, if there were recommendations, and if any follow-up was completed on those recommendations.

EFFECT

If deficiencies are not resolved, subrecipients receiving Federal funds may not be in compliance with Federal statutes, regulations, and the terms and conditions of the subaward.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONTEXT

The Department of Public Instruction paid approximately \$59 million in Federal funds between 07/01/2018-06/30/2020 to over 30 Special Education Cluster subrecipients. During the audit period 23 subrecipients received fiscal monitoring procedures.

RECOMMENDATION

We recommend the Department of Public Instruction strengthen fiscal subrecipient monitoring procedures for the Special Education Cluster to ensure timely and appropriate action is taken on deficiencies noted during the fiscal review.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Significant Deficiency - Other Noncompliance	
Finding	2020-021
Federal Program:	Commodity Supplemental Food Program, Emergency Food Assistance Program (Administrative Costs), School Breakfast Program, National School Lunch Program, Child and Adult Care Food Program, Summer Food Services Program for Children, Fresh Fruit and Vegetable Program
CFDA #:	10.565, 10.568, 10.553, 10.555, 10.558, 10.559, 10.560, 10.582
Federal Award Number(s) and Year(s):	3ND810817, 3ND810827, 3ND300309, 3ND310378 (2017, 2018)
Federal Agency:	U.S. Department of Agriculture (USDA)
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CRITERIA

2 CFR 200.331(f) states that a pass-through entity must verify that every subrecipient is audited as required by 2 CFR 200 Subpart F.

2 CFR 200.331(d)(2) states that a pass-through entity must ensure subrecipients take timely and appropriate action on all deficiencies pertaining to the Federal award provided to the subrecipient from the pass-through entity through audits, on-site reviews, and other means.

2 CFR 200.521(d) states that a pass-through entity must issue a management decision within six months of acceptance of the audit report by the Federal Audit Clearinghouse (FAC).

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

Standards for Internal Control in the Federal Government (Green Book) require management to establish and operate monitoring activities to monitor the internal control system and evaluate the results. (GAO-14-704G para 16.01)

CONDITION

The Department of Public Instruction did not ensure that all subrecipients were audited under 2 CFR 200 Subpart F as applicable.

For two subrecipients who received a total of \$2,288,238 in Federal funds from the Department of Public Instruction during Fiscal Year 2018, the Department did not ensure that the necessary audits were completed, issue management decisions within a timely manner, or ensure corrective action was taken on any deficiencies identified. One of these subrecipients did submit an audit into the Federal audit clearinghouse and there were five recommendations to review. The other subrecipient never had an audit completed.

For three subrecipients who received a total of \$625,464 in Federal funds from the Department of Public Instruction during Fiscal Year 2018, the Department did not issue management decisions within a timely manner or ensure corrective action was taken on any deficiencies identified. All three subrecipients submitted an audit to the Federal audit clearinghouse and one of the three subrecipients had a total of 14 audit recommendations. The remaining two subrecipients did not have any audit recommendations.

CAUSE

The Department of Public Instruction is not completing all elements of the tracking spreadsheet or reviewing the spreadsheet to ensure all subrecipients are included, management decisions are done within six months, and that appropriate and timely corrective action is being taken by the subrecipients.

EFFECT

Subrecipients spending more than \$750,000 from all Federal sources may not be obtaining audits as required or implementing a corrective action plan in a timely manner if findings are noted in audits that were completed.

CONTEXT

The Department of Public Instruction disbursed Federal dollars to a total of 258 subrecipients during Fiscal Year 2018 that received \$25,000 or more in Federal funds. We sampled 60 of these subrecipients which resulted in 5 errors for an error rate of 8.3%.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-041 was reported in the immediate prior year.

RECOMMENDATION

We recommend the Department of Public Instruction:

- Ensure all subrecipients obtain audits in accordance with 2 CFR 200 Subpart F if they meet the requirements,
- Issue management decisions within a timely manner, and,
- Ensure subrecipients took timely corrective action on deficiencies identified in the audits.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Other Noncompliance	
Finding	2020-022
Federal Program:	Title I Grants to Local Educations Agencies, Twenty-First Century Community Learning Centers, Special Education Cluster, Child Nutrition Cluster, Child and Adult Care Food Program, Supporting Effective Instruction State Grant
CFDA #:	84.010, 84.287, 84.027, 84.173, 10.553, 10.555, 10.556, 10.559, 10.558, 84.367
Federal Award Number(s) and Year(s):	S010A180034, S010A180034 - 18A, S287C180034, H027A180049, H027A180049 - 18A, H173A180094 (2018) S010A190034, S010A190034 - 19A, S287C190034, H027A190049, H027A190049 - 19A, H173A190094, S367A190033, S367A190033 - 19A (2019) 3ND300309 (2020)
Federal Agency:	U.S. Department of Education U.S. Department of Agriculture (USDA)
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CRITERIA

31 U.S.C 7502(f)(2)(A) states that each pass-through entity shall provide subrecipients the Federal requirements which govern the use of such awards.

2 CFR 200.332 states the required information that pass-through entities must disclose. This includes information related to Federal award identification, requirements imposed by the pass-through entity on the subrecipient, any additional requirements, approved Federally recognized indirect cost rate, requirements that the subrecipient allow access to records, and appropriate terms and conditions concerning closeout of the subaward.

CONDITION

The Department of Public Instruction did not make subrecipients aware of all required grant award information for the Title I Grants to Local Education Agencies, Twenty-First Century Community Learning Centers, Special Education Cluster, Child Nutrition Cluster, Child and Adult Care Food Program, and Supporting Effective Instruction State Grant.

- Title I Errors
 - Missing information for all 40 tested grant awards:
 - Identification of whether the award is R&D,

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

- Whether there were any additional requirements that the pass-through entity imposes on the subrecipient in order for the pass-through entity to meet its own responsibility to the Federal awarding agency including identification of any required financial and performance reports,
 - Appropriate terms and conditions concerning closeout of the subaward.
- 1 out of the 40 in the sample had an incorrect DUNS number on the grant award.
- 21st Century Errors:
 - Missing information on 2 of 3 tested grant awards:
 - 1 instance of incorrect Subrecipient name (which must match the name associated with its unique entity identifier);
 - 2 instances of missing Federal Award Date of award to the recipient by the Federal agency;
- Special Ed Errors
 - Missing information for all 15 tested grant awards:
 - Federal Award Date of award to the recipient by the Federal agency
 - CFDA Number and Name; the pass-through entity must identify the dollar amount made available under each Federal award and the CFDA number at time of disbursement
 - 1 out of the 15 in the sample had a DUNS number error.
- Child Nutrition Cluster and Child and Adult Care Food Program Errors:
 - Missing information for all 14 tested grant awards:
 - Federal Award Identification Number (FAIN),
 - Subaward Period of Performance Start and End Date,
 - Amount of Federal Funds Obligated by this action by the pass-through entity to the subrecipient,
 - Total Amount of Federal Funds Obligated to the subrecipient by the pass-through entity including the current obligation,
 - Total Amount of the Federal Award committed to the subrecipient by the pass-through entity,
 - Name of Federal awarding agency, pass-through entity, and contact information for awarding official of the Pass-through entity,

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

- Identification of whether the award is R&D,
 - Indirect cost rate for the Federal award (including if the de minimis rate is charged),
 - Whether there are any additional requirements that the pass-through entity imposes on the subrecipient in order for the pass-through entity to meet its own responsibility to the Federal awarding agency including identification of any required financial and performance reports,
 - An approved Federally recognized indirect cost rate negotiated between the subrecipient and the Federal Government or, if no such rate exists, either a rate negotiated between the pass-through entity and the subrecipient, or a de minimis indirect cost rate, and
 - Appropriate terms and conditions concerning closeout of the subaward.
- Supporting Effective Instruction State Grant Errors
 - Missing information for all 11 tested grant awards:
 - Identification of whether the award is R&D,
 - Whether there are any additional requirements that the pass-through entity imposes on the subrecipient in order for the pass-through entity to meet its own responsibility to the Federal awarding agency including identification of any required financial and performance reports, and
 - Appropriate terms and conditions concerning closeout of the subaward.

CAUSE

For the Child Nutrition Cluster and Child and Adult Care Food Program, the program agreement or NDFoods system were not updated following the prior audit finding. The individual responsible for updating the program agreement and NDFoods system indicated they were not aware that changes were to be made from the prior audit finding.

For the Title I Grants to Local Education Agencies and Supporting Effective Instruction State Grant, the consolidated application in STARS system was not updated for all required grant award information. The R & D field was missed when requesting updates to the consolidated application in STARS following the prior audit finding. Also, the program staff indicated they were not aware the consolidated application was being cut-off from view in STARS so the entire application and award information could not be seen.

For the Twenty-First Century Community Learning Centers program and the Special Education Cluster, data entry errors caused incorrect award information to be entered into the award agreement.

EFFECT

Subrecipients may not have been aware of all necessary grant information and requirements.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CONTEXT

The number of grant agreements during the time period analyzed is listed below. The time period was July 1, 2018 to June 30, 2020 for all programs listed except for programs D - F. For these programs, the number of grant agreements below are for the time period of July 1, 2019 to June 30, 2020.

- A. The Title I Grants to Local Education Agencies: 274
- B. The Twenty-First Century Community Learning Centers: 11
- C. The Special Education Cluster program: 123
- D. The Child Nutrition Cluster: 203
- E. The Child and Adult Care Food Program: 104
- F. The Supporting Effective Instruction State Grant: 117

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-042 was reported in the immediate prior year. Finding 2016-068 was made in the previous year.

RECOMMENDATION

We recommend the Department of Public Instruction ensure that subrecipients are made aware of all required grant award information.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Other Noncompliance

Finding	2020-023
Federal Program:	Child Nutrition Cluster
CFDA #:	10.553, 10.555, 10.559
Federal Award Number(s) and Year(s):	3ND300309 (2018)
Federal Agency:	U.S. Department of Agriculture (USDA) Food and Nutrition Service
Compliance Requirement:	Period of Performance
Questioned Cost:	\$32,523

CRITERIA

2 CFR 200.343(b) states unless the Federal awarding agency or pass-through entity authorizes an extension, a non-Federal entity must liquidate all obligations incurred under the Federal award not later than 90 calendar days after the end date of the period of performance as specified in the terms and conditions of the Federal award.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

2 CFR 200.309 states a non-Federal entity may charge to the Federal award only allowable costs incurred during the period of performance.

CONDITION

The Department of Public Instruction made payments after the period of performance. Although the underlying obligations occurred within the period of performance, payments totaling \$19,684 did not comply with the Federal period of performance requirements for the Child Nutrition Cluster. These payments were made after the 90 day payment period following the end of the applicable grant awards. There is also a payment of \$12,839 which lacked documentation to determine if the underlying obligations occurred within the period of performance and did not comply with the Federal period of performance liquidation period requirements for the Child Nutrition Cluster. The projection on the known questioned costs of \$32,523 is an additional \$1,153 in payments made after the period of performance.

CAUSE

For 2 out of 5 items tested, the Department of Public Instruction's system, NDFoods, and PeopleSoft, the state's accounting system, did not properly communicate payment of claims. Two separate payments of the 5 items tested were in error due to untimely identification of an incorrect reimbursement rate being applied to meals which lead to a subsequent correction payment made after the period of performance. Finally, 1 additional payment separate from the errors already identified, was an error due to a lack of documentation of the transaction.

EFFECT

The Department of Public Instruction charged unallowable costs to the grant.

CONTEXT

26 of the 6,636 disbursements that were made by the Department of Public Instruction for the Child Nutrition Cluster for grants that ended during fiscal years 2019 and 2020 were paid outside of the 90 day period of performance.

IDENTIFICATION AS A REPEAT FINDING

Finding 2018-039 was reported in the immediate prior year.

RECOMMENDATION

We recommend the Department of Public Instruction ensure Child Nutrition Cluster obligations occur within the period of performance and that payments are not made after the period of performance.

DEPARTMENT OF PUBLIC INSTRUCTION RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

Department of Transportation

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-024
Federal Program:	Enhanced Mobility of Seniors and Individuals with Disabilities, Metropolitan Transportation Planning and State and Non-Metropolitan Planning and Research, Buses and Bus Facilities Formula, Competitive, and Low or No Emissions Programs, State and Community Highway Safety, National Priority Safety Programs, Highway Planning and Construction, Formula Grants for Rural Areas and Tribal Transit Program
CFDA #:	20.513, 20.505, 20.526, 20.600, 20.616, 20.205, 20.509
Federal Award Number(s) and Year(s):	ND-2016-009, ND-2016-001, ND-2016-008 (2016) ND-2017-007, 2017002, ND-2017-004, ND-2017-012, ND-2017-009, ND-2017-008, 8984154 (2017) 2018004, ND-2018-008, ND-2018-006, ND-2018-007 (2018) 69A37518300004020ND0, 69A3751830000405bNDL, 69A3751830000405dNDH (2019)
Federal Agency:	U.S. Department of Transportation Federal Transit Administration
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	Unknown

CRITERIA

2 CFR 200.332(f) requires a pass-through entity to verify that every subrecipient is audited as required by 2 CFR 200 Subpart F and (g) consider whether the results of the subrecipient's audits necessitate adjustments to the pass-through entity's own records and (h) consider taking enforcement action against noncompliant subrecipients.

Standards for Internal Control in the Federal Government" (Green Book) requires management assign responsibilities and perform ongoing monitoring of the design and operating effectiveness of the internal control as part of the normal course of operations. Management must also communicate policies and procedures to personnel so that personnel can implement the control activities for their assigned responsibilities and ensure corrective actions. (Green Book, para. 3.07, 12.02, 12.04, 16.05, 17.05)

CONDITION

The North Dakota Department of Transportation failed to adequately track which subrecipients required Uniform Guidance audits and review audit reports for findings within 6 months.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

CAUSE

The client inadvertently failed adequately follow-up with subrecipients to determine if a Single Audit report was required and also failed to adequately review the reports that were reported for any issues related to Department grants.

EFFECT

Subrecipients spending more than \$750,000 from all sources including the Department of Transportation may not be obtaining audits as required and issues related to Department of Transportation funding may be unresolved.

CONTEXT

The Department of Transportation's subrecipient audit tracking spreadsheets following state fiscal years 2018 and 2019, the Department identified 131 and 117 subrecipients, respectively, each year. The Department's tracking for fiscal year 2018 identified certifications and all further audit documentation was not received for 9 subrecipients as well as 4 additional audits which were noted to have been completed, but no review by the Department of Transportation's Audit Services was completed within 6 months. For fiscal year 2019, certifications and all further audit documentation was not received for 11 subrecipients as well as 10 additional audits which were noted to have been completed but no review by the Department of Transportation's Audit Services was completed within 6 months.

RECOMMENDATION

We recommend the Department of Transportation identify annually, based on the subrecipient's fiscal year, all subrecipients that spent \$750,000 or more in Federal awards from all sources through developed certification procedures. We also recommend the Department of Transportation ensure the certification tracking method is completed, to ensure all required audits are completed within nine months of the subrecipient's fiscal year end, management decisions are issued within six months of receiving the audit report, and timely and appropriate corrective action of all findings.

DEPARTMENT OF TRANSPORTATION RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-025
Federal Program:	Formula Grants for Rural Areas
CFDA #:	20.509
Federal Award Number(s) and Year(s):	ND-2018-007-00, ND-2019-008-00, ND-2020-004-00 (2018, 2019, 2020)
Federal Agency:	U.S. Department of Transportation Federal Transit Administration
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CRITERIA

2 CFR 200.332 (b) states that all pass-through entities must evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring.

Standards for Internal Control in the Federal Government" (Green Book) requires management identify, analyze, and respond to risks related to achieving the defined objectives. (Green Book, para. 7.01)

CONDITION

The Department of Transportation is not evaluating each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining appropriate subrecipient monitoring.

CAUSE

The Department of Transportation indicated the cause was client oversight due to the fact the requirement was not included in the previous state plan. However, the Department has since developed a risk assessment tool to evaluate subrecipient's risk of noncompliance starting in 2021.

EFFECT

High-risk subrecipients may not be subjected to adequate monitoring procedures to ensure Federal funds were used for authorized purposes in compliance with Federal statutes, regulations, and the terms and conditions of the subaward.

CONTEXT

The Formula Grants for Rural Areas had 30 subrecipients in the audit period.

RECOMMENDATION

We recommend the Department of Transportation evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

DEPARTMENT OF TRANSPORTATION RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

FINDING TYPE: Other Noncompliance

Finding	2020-026
Federal Program:	Formula Grants for Rural Areas
CFDA #:	20.509
Federal Award Number(s) and Year(s):	ND-2018-007-00, ND-2019-008-00, ND-2020-004-00 (2018, 2019, 2020)
Federal Agency:	U.S. Department of Transportation Federal Transit Administration
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CRITERIA

2 CFR §200.332 Requirements for pass-through entities.

All pass-through entities must:

(a) Ensure that every subaward is clearly identified to the subrecipient as a subaward and includes the following information at the time of the subaward and if any of these data elements change, include the changes in subsequent subaward modification. When some of this information is not available, the pass-through entity must provide the best information available to describe the Federal award and subaward. Required information includes:

(1) Federal award identification.

- (i) Subrecipient name (which must match the name associated with its unique entity identifier);
- (ii) Subrecipient's unique entity identifier;
- (iii) Federal Award Identification Number (FAIN);
- (iv) Federal Award Date (see the definition of Federal award date in §200.1 of this part) of award to the recipient by the Federal agency;
- (v) Subaward Period of Performance Start and End Date;
- (vi) Subaward Budget Period Start and End Date;
- (vii) Amount of Federal Funds Obligated by this action by the pass-through entity to the subrecipient;
- (viii) Total Amount of Federal Funds Obligated to the subrecipient by the pass-through entity including the current financial obligation;
- (ix) Total Amount of the Federal Award committed to the subrecipient by the pass-through entity;
- (x) Federal award project description, as required to be responsive to the Federal Funding Accountability and Transparency Act (FFATA);

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

- (xi) Name of Federal awarding agency, pass-through entity, and contact information for awarding official of the Pass-through entity;
- (xii) Assistance Listings number and Title; the pass-through entity must identify the dollar amount made available under each Federal award and the Assistance Listings Number at time of disbursement;
- (xiii) Identification of whether the award is R&D; and
- (xiv) Indirect cost rate for the Federal award (including if the de minimis rate is charged) per §200.414.

CONDITION

The Department of Transportation did not provide the subrecipient unique entity identifier, Federal award identification number, and Federal award date as required by 2 CFR 200.332(a) related to Federal award identification to subrecipients.

CAUSE

The previous grant agreements used for the Formula Grants for Other than Urbanized Areas program did not contain the necessary information.

EFFECT

Subrecipients may not have the required information.

CONTEXT

The Formula Grants for Rural Areas had 30 subrecipients in the audit period.

RECOMMENDATION

We recommend the Department of Transportation ensure subrecipients are provided all required information related to Federal award identification.

DEPARTMENT OF TRANSPORTATION RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

State Treasurer's Office

FINDING TYPE: Significant Deficiency - Other Noncompliance

Finding	2020-027
Federal Program:	Flood Control Act Lands and Minerals Leasing Act
CFDA #:	15.433, 15.437
Federal Award Number(s) and Year(s):	Certification by ND SAO Mineral Royalty Audits (2018 and 2019)
Federal Agency:	U.S. Department of the Interior
Compliance Requirement:	Subrecipient Monitoring
Questioned Cost:	\$0

CRITERIA

2 CFR 200.332(f) states that a pass-through entity must verify that every subrecipient is audited as required by 2 CFR 200 Subpart F.

2 CFR 200.332(d)(2) states that a pass-through entity must ensure subrecipients take timely and appropriate action on all deficiencies detected through audits pertaining to the Federal award provided to the subrecipient from the pass-through entity.

2 CFR 200.512 states that all audit reports must be completed and submitted within nine months of the end of the audit period.

2 CFR 200.521 (d) states that a pass-through entity must issue a management decision within six months of acceptance of the audit report by the Federal Audit Clearinghouse (FAC).

2 CFR 200.303 (a) states that the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

CONDITION

The State Treasurer's Office (STO) did not ensure that all subrecipients were audited under OMB 2 CFR 200 Subpart F as applicable.

For three of the four subrecipients tested who received a total of \$18,978,662 in Federal funds from the State Treasurer's Office during Fiscal Year 2018, the STO did not ensure that the necessary audits were completed, issue management decisions within a timely manner, or ensure corrective action was taken on any deficiencies identified.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

For three of the four subrecipients tested who received a total of \$45,815,902 in Federal funds from the State Treasurer's Office during Fiscal Year 2019, the STO did not ensure that the necessary audits were completed, issue management decisions within a timely manner, or ensure corrective action was taken on any deficiencies identified.

CAUSE

The State Treasurer's Office does not have all the necessary monitoring procedures in place to ensure all the subrecipient audit requirements are being met. The annual certification form that the State Treasurer's Office utilizes does not have the subrecipient indicate if they spent \$750,000 or more in Federal awards from all sources during their fiscal year.

EFFECT

Subrecipients spending more than \$750,000 from all Federal sources including the State Treasurer's Office may not be obtaining audits as required or implementing a corrective action plan in a timely manner if findings are noted in audits that were completed.

CONTEXT

The State Treasurer's Office (STO) did not receive audits for subrecipients that received a significant amount of Federal funds from the STO. The State Treasurer's Office disbursed Federal dollars to a total of 26 subrecipients during Fiscal Year 2018 and 21 subrecipients during Fiscal Year 2019 for a total of 47 subrecipients given \$86,704,892 for the two years. We sampled the audit report monitoring of 8 of these subrecipients. We found noncompliance with monitoring for 6 of the 8 subrecipients tested for an error rate of 75%. These six subrecipients that were missing audit reports had received \$64,794,564 from the STO which is 75% of all dollars paid out to all subrecipients for the 2 years ($\$64,794,564 / \$86,704,892 = 75\%$).

RECOMMENDATION

We recommend the State Treasurer's Office identify annually, through a certification process, all subrecipients that spent \$750,000 or more in Federal awards from all sources during their fiscal year. We also recommend the State Treasurer's Office enhance their existing tracking procedures to ensure all required audits are completed within nine months of the subrecipient's fiscal year end, management decisions are issued within six months of receiving the audit report, and timely and appropriate corrective action is taken on all applicable findings.

STATE TREASURERS OFFICE RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

University System

FINDING TYPE: Other Noncompliance	
Finding	2020-028
Federal Program:	Higher Education Emergency Relief Fund
CFDA #:	84.425
Federal Award Number(s) and Year(s):	LRSC - P425E202511, MASU - P425E204366, NDSCS - P425E202841, WSC - P425E203267 (2020)
Federal Agency:	U.S. Department of Education
Compliance Requirement:	Reporting
Questioned Cost:	\$0

CRITERIA

Part 4 Section C of the Certification and Agreement states in part: "Recipient shall promptly comply with section 18004(e) of the CARES Act and (i) report to the Secretary thirty (30) days from the date of this certification and agreement".

A May 6th Electronic Announcement from the Office of Post Secondary Education Regarding the Higher Education Emergency Relief Funds Reporting states in part: "The Certification and Agreement directs each institution applying for HEERF funds to comply with Section 18004(e) of the CARES Act and submit an initial report (the "30-day Fund Report") to the Secretary thirty (30) days from the date of the institution's Certification and Agreement to the Department. The Department will provide instructions for providing the required information to the Secretary in the near future. In the meantime, each HEERF participating institution must post the information listed below on the institution's primary website. The Department would like to receive the most current information from the date when the institution received its allocation for emergency financial aid grants to students, and the institution should have received its allocation within a few days after submitting the Certification and Agreement. Accordingly, the following information must appear in a format and location that is easily accessible to the public 30 days after the date when the institution received its allocation under 18004(a)(1)".

CONDITION

Lake Region State College, Mayville State University and North Dakota State College of Science did not submit their 30 day fund report to their web site within the required 30 days for the Higher Education Emergency Relief Funds. Williston State College did not complete a 30 day fund report for the Higher Education Emergency Relief Funds.

CAUSE

There was a lack of guidance regarding what information is to be reported and where to report.

State of North Dakota

Schedule of Federal Findings and Questioned Costs

Fiscal Years Ended June 30, 2019 and 2020

EFFECT

Information was not reported in a timely matter.

CONTEXT

Lake Region State College was three days late in reporting the \$29,062 that had been distributed to date. Mayville State University was nine days late in reporting the \$35,500 that had been distributed to date. North Dakota State College of Science was seven days late in reporting the \$351,282 that had been distributed to date. Williston State College did not report that they had not distributed any money to date.

RECOMMENDATION

We recommend that Lake Region State College, Mayville State University, North Dakota State College of Science, and Williston State College comply with the reporting requirements of the Higher Education Emergency Relief Fund.

UNIVERSITY SYSTEM RESPONSE/CORRECTIVE ACTION PLAN

See "Management's Response and Corrective Action" section of this report.

STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Years Ended June 30, 2020 and 2019

NOTE 1. PURPOSE OF THE SCHEDULE

The Schedule of Expenditures of Federal Awards (Schedule) is a supplementary schedule to the State's basic financial statements (BFS) and is presented for the purposes of additional analysis. The Schedule is required by Office of Management and Budget (OMB) Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

Federal Financial Assistance – Pursuant to the Single Audit Act of 1984 (Public Law 98-502), the Single Audit Act Amendments of 1996 (Public Law 104-156), and OMB Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, that non-federal entities receive or administer, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property interest subsidies, insurance, or direct appropriations. Accordingly, nonmonetary federal assistance, including food commodities, food stamps, vaccines, and donated surplus property is included in federal financial assistance and, therefore, is reported on the Schedule. Federal financial assistance does not include direct federal cash assistance to individuals. Contracts between the state and federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

Catalog of Federal Domestic Assistance – Uniform Guidance requires the Schedule to show the total expenditures for each of the State's federal financial assistance programs as identified in the Catalog of Federal Domestic Assistance (CFDA). The CFDA is a government-wide compendium of individual federal programs.

Each program included in the CFDA is assigned a five-digit program identification number (CFDA number), the first two digits designate the federal agency and the last three digits designate the federal assistance program within the federal agency.

Federal financial assistance programs that have not been assigned a CFDA number are indicated using the federal agency's two digit code as the prefix and using a "U" followed by a two-digit number (e.g., U01, U02, etc.) for the last three digits. If the Federal program is part of the Research and Development (R&D) cluster, "RD" is used as the CFDA extension.

Clusters of Programs – Closely related programs with different CFDA numbers that share common compliance requirements are to be considered a cluster of programs. The only program clusters presented on the Schedule are those mandated by OMB in the 2 CFR Part 200, Appendix XI, *Compliance Supplement*.

STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Years Ended June 30, 2020 and 2019

B. Type A and Type B Programs

The Uniform Guidance establishes the levels of expenditures to be used in defining Type A and Type B federal financial assistance programs. Type A assistance programs for the State of North Dakota are those programs that exceeded \$13,255,999 in federal expenditures, distributions, or issuances for the two-year period ended June 30, 2020.

C. Reporting Entity

The Schedule includes all federal financial assistance programs administered by those State departments and entities included in the State's Comprehensive Annual Financial Report, except the departments audited by independent public accounting firms that file their own single audit with the federal clearinghouse. The departments not included in the Schedule are: Housing Finance Authority, Bank of North Dakota, Job Service North Dakota, and Public Finance Authority.

D. Basis of Accounting

Federal financial assistance expenditures included in the Schedule are reported using the modified accrual basis of accounting, except for the following: colleges, universities, and enterprise entities reported expenditures on the accrual basis; the Department of Public Instruction, Division of Emergency Services, Secretary of State, Information Technology Department, Insurance Department, State Historical Society, Council on the Arts, Attorney General's Office, State Auditor's Office, Industrial Commission, Department of Labor, School for the Blind, State Water Commission, State Treasurer, Governor's Office, Office of Management and Budget, and the Department of Human Services reported expenditures on the cash basis; and the Health Department reported expenditures on the cash basis plus accrued payroll and accrued indirect costs.

Indirect Costs – The State has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance except for the following three agencies:

Department of Veterans Affairs
Aeronautics Commission
State Auditor's Office (2020)
Valley City State University

Matching Costs – The Schedule does not include matching expenditures.

Nonmonetary Assistance – The Schedule contains values for several nonmonetary assistance programs. The Commodities and Vaccine programs are presented at the federally assigned values of the products distributed by the state. The Surplus Property program is presented at the fair market value of property received. The fair market value was estimated to be 23.34% of the property's original federal acquisition value.

STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Years Ended June 30, 2020 and 2019

Loan and Loan Guarantee Programs – Information on federal loan and federal loan guarantee programs is included in the Notes to the Schedule instead of on the Schedule itself.

Federal Transactions Between State Entities – Some state entities transfer federal assistance to other state entities (i.e., a pass-through of funds by the primary recipient state entity to a subrecipient state entity). In this case, the expenditures are recognized by the primary state entity on the Schedule of Expenditures of Federal Awards. Purchases of services between state entities using federal moneys are reported as expenditures by the purchasing entity and as revenues for services rendered by the providing entity.

Supplemental Nutrition Assistance Program (SNAP) Expenditures – The Supplemental Nutrition Assistance Program (SNAP) is presented at the dollar value of food stamp electronic benefit transfers authorized and used by recipients.

Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3. NONMONETARY ASSISTANCE INVENTORY

As described previously in Note 2, nonmonetary assistance is reported in the Schedule based on the amount disbursed. At June 30, 2020 and 2019, the inventory balances of nonmonetary assistance were as follows:

Nonmonetary Assistance	June 30, 2019	June 30, 2020
Food Commodities	\$ 1,425,573	\$ 1,496,645
Donated Surplus Property	2,481,853	2,315,585
Vaccines	3,081,065	5,092,070
Total Inventory Balance	<u>\$ 6,988,491</u>	<u>\$ 8,904,300</u>

NOTE 4. LOAN PROGRAMS

The state administers two loan programs with continuing compliance requirements other than Student Financial Aid. At June 30, 2020 and 2019, the amount of loans receivable for each loan program were as follows:

Loan Program	CFDA #	FY19	FY20
Community Development Block Grants/State's Program	14.228	\$ 1,502,969	\$ 1,662,077
HOME Investment Partnerships Program	14.239	8,560,637	9,690,186
Total Loans Receivable		<u>\$ 10,063,606</u>	<u>\$ 11,352,263</u>

**STATE OF NORTH DAKOTA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

For the Fiscal Years Ended June 30, 2020 and 2019

NOTE 5. STUDENT FINANCIAL AID PROGRAMS

Expenditures as included on the Schedule of Expenditures of Federal Awards for student financial assistance programs include refunds to grantors, administrative expenses, collection costs, litigation costs, etc.

Advances to students, loans receivable, and federal capital contributions for applicable loan programs for the fiscal years ended June 30, 2020 and 2019 are identified below:

Student Financial Aid Program	CFDA #	FY19	FY20
Loan Advances:			
Federal Direct Student Loans	84.268	\$ 161,272,912	\$ 161,331,786
Nurse Faculty Loan Program (NFLP)	93.264	23,432	10,492
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	34,500	60,100
Nursing Student Loans	93.364	569,123	478,315
Total Loan Advances		<u>\$ 161,899,967</u>	<u>\$ 161,880,693</u>
Loans Receivable:			
Federal Perkins Loan Program	84.038	\$ 25,803,731	\$ 20,391,605
Nurse Faculty Loan Program (NFLP)	93.264	108,934	113,960
Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	93.342	390,996	257,991
Nursing Student Loans	93.364	2,586,530	2,488,563
Total Loans Receivable		<u>\$ 28,890,191</u>	<u>\$ 23,252,119</u>

Loan advances represent new loans made directly by the institution for the Perkins, Nursing, and Health Professions loan programs. The colleges and universities are responsible for completing portions of the loan application, verifying student eligibility, filing enrollment verification reports, refunding money to lenders, and disbursing loan checks received from the lending institutions for Federal Family Education Loans.

Loans receivable are shown at gross and are derived from the financial records of the applicable college or university.

Office of the
State Auditor

March 1, 2021

Mr. Josh Gallion
State Auditor
600 E Boulevard Avenue, Dept. 117
Bismarck, ND 58505

Dear Mr. Gallion:

In accordance with Uniform Guidance requirements, we have prepared the accompanying corrective action plans. For each finding, we are providing you with the contact people responsible for corrective action, the corrective action planned, and the anticipated completion date.

Sincerely,

Jeff Larshus
Director of State Financial Services

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

FINANCIAL STATEMENT FINDINGS

Office of Management and Budget

Finding: F19-1

Office of Management and Budget Response/Corrective Action Plan: Although we agree with the auditors that the two disclosures were inadvertently not included in the notes to the financial statements and subsequently added after being brought to our attention, we do not feel the missing disclosures qualitatively affect the user's ability to understand the State's financial position and results of operation. Furthermore, we do not agree that the missing note disclosures constitute a significant deficiency in internal controls. OMB will continue to work with the component units and their auditor reports to ensure all necessary note disclosures are included in the CAFR.

Contact Person: Rachel Kmetz, Accounting Manager, Fiscal Management Division

Anticipated Completion Date: June 30, 2020

Auditor's Concluding Remarks: Annually, the Office of Management and Budget identifies in the CAFR the new GASB pronouncements that have been implemented including GASB 62 and GASB 88. Lack of procedures for including required disclosures resulted in incomplete application of the GASB pronouncements and failure to provide essential information related to debt to taxpayers, public officials, and others who use the CAFR and accompanying notes.

Office of Management and Budget

Finding: F20-1

Office of Management and Budget Response/Corrective Action Plan: OMB agrees with the recommendation. OMB will work with the Department of Transportation to ensure they are capitalizing and depreciating infrastructure projects timely after the project is substantially complete according to current policies.

Contact Person: Rachel Kmetz, Accounting Manager, Fiscal Management Division

February 9, 2021

Joshua C. Gallion
State Auditor
600 E Boulevard Ave
Bismarck, ND 58505

Dear Mr. Gallion,

We have prepared the accompanying correction action plan as required by the standards applicable to financial audits contained in the *Government Auditing Standards* and by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Specifically, for the finding we are providing you with our responsible officials' views, the name of the contact person responsible for corrective action, the corrective action planned, and the anticipated completion date.

Sincerely,

Celeste Engelhard
Lead Fiscal Officer

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Department of Commerce

Finding: 2020-001

Department of Commerce Response/Corrective Action Plan: The Department of Commerce agrees with the recommendation and will ensure accurate preparation of the Schedule of Expenditures of Federal Awards and the schedule will be reviewed by the Lead Fiscal Officer before being submitted.

Contact Person: Celeste Engelhard, Lead Fiscal Officer

Anticipated Completion Date: We immediately put our corrective action plan into place. The 2020 SEFA was completed and reviewed before being submitted to the Office of Management and Budget.

March 1, 2021

Josh Gallion
State Auditor
600 E Boulevard Ave Dept 117
Bismarck, ND 58505

Dear Mr. Gallion:

We have prepared the accompanying corrective action plan as required by the standards applicable to financial audits contained in *Government Auditing Standards* and by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Specifically, for each finding we are providing you with our responsible officials' views, the names of the contact people responsible for the corrective action, the corrective action planned, and the anticipated completion date.

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Department of Human Services

Finding: 2020-002

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. The Medicaid Policy Unit has implemented ELearning training that is mandatory for all Medicaid Eligibility Workers.

- The Training Modules are as follows:
- Electronic Data Sources
- Documentation & Narratives
- Common Eligibility Errors: Income
- Common Eligibility Errors: Household Composition
- Non-ACA Reviews
- TPL

The system error related to Defect 158460 has since been implemented which fixed the issue in SPACES.

The PaSS Unit provides ongoing training for eligibility workers.

Contact Person: Joyce Johnson, Medical Policy Director and Juli Johnson, Medicaid Policy Administrator

Anticipated Completion Date: Completed

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-003

Department of Human Services Response/Corrective Action Plan: The Department of Human Services (DHS) agrees with the recommendation. DHS has now filled the vacant Medicaid Accountant position. This position will be responsible to complete the administrative portion of the Quarterly Children's Health Insurance Program Statement of Expenditures for Title XXI report (CMS-21 Report). Part of the quarterly reporting process will be to reconcile the amounts reported to PeopleSoft, as the PeopleSoft system is the system of record for DHS administrative expenses. As noted above DHS did not perform the reconciliation's timely due to turnover in staff but reconciliations were provided once requested and no errors were noted. DHS anticipates reconciliation's will be done timely since the position has been filled.

The Medical Assistance expenditures reported on the Quarterly Statement of Expenditures for the Medical Assistance Program (MAP) (CMS-64 Report) are based on payment data from MMIS. This data is summarized and grouped according to CMS reporting requirements. MAP expenditure data at this detail does not exist in PeopleSoft, therefore the PeopleSoft system is not used for federal reporting, however part of the federal reporting process includes balancing PeopleSoft check write amounts to MMIS 64 reports generated from MMIS.

DHS wishes to clarify that there is not a risk of federal reporting being inaccurate for the MAP if reconciliations between the federal report and PeopleSoft are not completed. MMIS is the system of record for federal reporting and calculations for collection adjustment are part of the federal reporting process and can only made in PeopleSoft once the federal reporting process is complete. DHS will ensure timely adjustments are made to PeopleSoft to ensure MAP expenditure amounts reported on the CMS-64 are properly reflected in PeopleSoft, this will also ensure that fiscal year-end financial reporting is reflective of what has been reported, and therefore reduce the risk of misstatement on the Schedule of Expenditures of Federal Awards.

Contact Person: Rhonda Obrigewitch, Assistant CFO

Anticipated Completion Date: September 2021

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-004

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. The Department will implement additional editing in MMIS during the claim adjudication process prior to claims payment to enhance the identification of potential duplicate payments. During the next year, the Department will review at least quarterly whether additional editing may be necessary to enhance the identification of potential duplicate payments.

Contact Person: Caprice Knapp, Medicaid Director

Anticipated Completion Date: March 31, 2022

Finding: 2020-005

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. The Department will provide education to providers on the requirement to retain documentation to support the services billed. The Department will also provide education to providers on the necessity to provide the requested documentation for a records request.

Contact Person: Caprice Knapp, Medicaid Director

Anticipated Completion Date: June 30, 2021

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-006

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. The Program Integrity Unit has revised the language in the Audit Overview Oversight document to better reflect the new rehabilitation provider process. It is not a formal audit but rather an educational review process meant to assist the providers in billing correctly.

The Program Integrity Unit has reassigned the layperson ambulance reviews to the Utilization Review team due to no longer having a layperson in the PIU. The PIU will pull the applicable claims data for the UR team to conduct the review. Prior to reassigning to the UR team, a temporary enrollment staff helped get the late ambulance claim reviews caught up. Requests for the sample of ambulance claims for 4th quarter 2020 went out and we are currently receiving responses and are current with the reviews. The semi-annual recipient analysis for first half of 2020 was completed in October of 2020. The second half of 2020 will be reviewed this month.

Due to the declaration of the Public Health Emergency as of March 2020, State Medicaid Agencies were encouraged to halt auditing to allow healthcare facilities to focus on treating patients associated with the pandemic.

Contact Person: Dawn Mock, Medicaid Program Integrity Administrator

Anticipated Completion Date: Completed

Finding: 2020-007

Department of Human Services Response/Corrective Action Plan: The Department agrees with the recommendation and will sign an amendment to the Cotiviti contract which will meet the requirements of the confidentiality agreement in Section 7.1.2 of the Medicaid National Correct Coding Initiative Technical Guidance Manual, revised 01/01/2020.

Contact Person: Caprice Knapp, Medicaid Director

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-008

Department of Human Services Response/Corrective Action Plan: The Department agrees with the recommendation. The Department's Program will continue to request a SOC audit from HMS.

Contact Person: Cody Hedge, Paralegal at Child Support

Anticipated Completion Date: January 2021

Finding: 2020-009

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. Early Childhood Services has received Technical Assistance from the regional office (OCC) regarding childcare records. Their recommendations according to CCDF requirements, were to update our compliance checklist (see below) and to eliminate the childcare record (SFN 1426) which is not a required form. All specialists will be using the updated compliance checklist by May of 2021.

CHILD CARE RECORDS WORKSHEET

Review of no less than 30 files must be conducted on site. If the abbreviated review reveals incomplete records, an additional 30 files must be reviewed. This process will continue, 30 files at a time, until no incomplete records are found or until all files have been reviewed.

For facilities will less than 30 children enrolled, all files will be reviewed.

Contact Person: Carmen Traeholt, Early Childhood Services Statewide Manager

Anticipated Completion Date: May 2021

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-010

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. The State initiated a process redesign for early childhood licensing in August 2019. The redesign was intended to improve consistency of reviews, ongoing monitoring, and corrective action across all 19 Human Service Zones. The bulk of the redesign work took place in advance of the former county-employed early childhood licensors becoming state employees (January 2020).

As part of Redesign, DHS piloted the use of a streamlined on-site visit checklist to identify opportunities for efficiencies. Thirteen counties utilized the abbreviated form during pilot, the remaining counties continued to utilize the existing form. It was determined that the abbreviated form would not adequately capture information needed so, in June 2020 all licensors reverted to utilization of the full-length Compliance Checklist to assure all Health and Safety standards are being met.

In September 2020 DHS began the work of implementing a comprehensive Early Childhood Licensing database that will greatly improve the ability to properly license providers. The system is anticipated to be complete by March 2022.

Contact Person: Carmen Traeholt, Early Childhood Services Statewide Manager

Anticipated Completion Date: March 2022

Finding: 2020-011

Department of Human Services Response/Corrective Action Plan: The Department agrees with the recommendation. During the audit timeframe, County Licensors were inconsistent in how they followed up on corrective orders. As part of Early Childhood Services Redesign (completed by March 2020), all Licensing Specialists are assigned a specific provider case load, which will help Licensing Specialists keep track of any correction orders and follow-up expectations that affect providers they are assigned to work with.

Contact Person: Carmen Traeholt, Early Childhood Services Statewide Manager

Anticipated Completion Date: March 2021

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-012

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. The Lead Agency receives a monthly report that contains payments that could be considered duplicate that were made for three months prior to the current month. The report contains payments that meet the following criteria:

- Same child
- Same caretaker
- Same provider
- Same service month

Department staff reviews identified payments on this report and maintains a log and notes on each situation and any follow up that was completed with Eligibility workers.

The consolidated eligibility system, SPACES, where payments are issued, does have checks validations in place to ensure payments to no exceed the state maximum rate. An additional warning message is in place and is received when a payment already exists for the child and provider for a service month and a new payment with the same criteria is entered. Workers are able to by-pass this warning message as there are instances where a second payment may be needed. The department will explore a system enhancement to make this warning message more prominent in an effort to reduce duplicate payment situations.

Contact Person: Emily Hakanson, Child Care Assistance Program Administrator

Anticipated Completion Date: There is no anticipated completion date for system enhancements as all enhancements have to be prioritized and scheduled based on need.

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-013

Department of Human Services Response/Corrective Action Plan: The Department agrees with the recommendation. DHS provides policy and system trainings, tips and tricks and policy and processing reminders as needed through periodic statewide trainings, monthly newsletters and online help resources. This effort is done in collaboration with the Policy and System Support (PaSS) unit in Economic Assistance. The PaSS unit will begin conducting CCAP New Worker Training annually beginning the winter of 2022. The training will cover all aspects of CCAP eligibility.

In March 2019, the department implemented a new eligibility system, SPACES. The implementation of this new system has made processing of cases less error prone as the system calculates all aspects of CCAP eligibility such as countable income amounts, countable households members, allowable child care hours, etc. The department is continually making improvements to the system through change requests.

Quality Assurance reviews are completed monthly and the results of those reviews are used to determine training needs, corrective active, etc. to mitigate errors.

Contact Person: Emily Hakanson, Child Care Assistance Program Administrator

Anticipated Completion Date: CCAP New Worker training will begin annually starting winter 2022. System enhancements and other trainings, reminders, etc. are completed as needed.

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-014

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. The State initiated a process redesign for early childhood licensing in August 2019. The redesign was intended to improve consistency of reviews, ongoing monitoring, and corrective action across all 19 Human Service Zones. The bulk of the redesign work took place in advance of the former county-employed early childhood licensors becoming state employees (January 2020).

As part of Redesign, DHS piloted the use of a streamlined on-site visit checklist to identify opportunities for efficiencies. Thirteen counties utilized the abbreviated form during pilot (August 2019 – March 2020); the remaining counties continued to utilize the existing form. It was determined that the abbreviated form would not adequately capture information needed so, in August 2020 all licensors reverted to utilization of the full-length Compliance Checklist to assure all Health and Safety standards are being met.

As part of North Dakota's regular federal review, the current compliance checklist was reviewed by Regional OCS and all recommendations will be implemented in May 2021.

Contact Person: Carmen Traeholt, Early Childhood Services Statewide Manager

Anticipated Completion Date: May 2021

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-015

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with the recommendation. During the audit timeframe County Licensors were inconsistent in rates of completion for unannounced visits. This was due, in part, to the difference in how each County chose to administer and staff this function; licensors were not consistently required to maintain certain caseloads which contributed to uneven application of this part of the regulation.

A major focus of the redesign effort was to ensure that the system was structured to ensure early childhood specialists time was organized to maximize time spent on visits. As part of redesign all Licensing Specialists are assigned a specific case load so they can schedule and follow through with unannounced visits for their assigned providers. This new distribution of work accompanied the transition from county to state employment (Jan 2020) and was being implemented by mid-2020.

Early Childhood Services is currently in the process of designing a database to ensure all required documents and licensing visits are complete prior to issuing licenses and certificates to providers. The data base will be complete in April of 2022.

Contact Person: Carmen Traeholt, Early Childhood Services Statewide Manager

Anticipated Completion Date: April 2022

Finding: 2020-016

Department of Human Services Response/Corrective Action Plan: The Department agrees with the recommendation. Early Childhood Services Redesign moved all County Licensors to State employment (Jan 2020) and Early Childhood Services Regional Representatives to a Supervisor status (March 2020). These steps will change how a QA visit is completed. QA visits starting in 2021 will include both standard performance reviews of licensors as well as quality assurance review of outputs and outcomes. This includes review of how licensors conduct visits and complete their core work related to license compliance and health and safety practices of child care programs.

Anticipated Completion Date: June 2021

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-017

Department of Human Services Response/Corrective Action Plan: The Department agrees with the recommendation. DHS acknowledges that due to SPACES implementation, the sampling sent to JOBS contractors was put on hold and not provided. Effective February 2021, all future Random Sampling Reports will be sent out monthly.

The following monthly Random Sampling Reports have been provided to the Employment Contractors:

- October, November and December 2019 were provided in May 2020
- April, May and June 2019 were provide in June 2020
- January, February and March 2020 were provided in June 2020
- July, August and September 2019 were provided in August 2020
- April, May and June 2020 were provided in August 2020
- July, August and September 2020 were provided in December 2020
- October and November 2020 were provided on January 4, 2021
- December 2020 will be sent out in February 2021

Contact Person: Joan Schatz, TANF/JOBS Program Administrator

Anticipated Completion Date: February 2021

State of North Dakota

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-018

Department of Human Services Response/Corrective Action Plan: The Department of Human Services agrees with this recommendation. The Child and Family Services (CFS) policy Foster Care Eligibility Quality Assurance Reviews 447-10-18 is under revision to accommodate the changes of eligibility unit implementation and how to apply review for high risk of agencies.

The fiscal office compiles the county/zone risk assessment on a yearly basis. CFS sends NDDHS Fiscal the required information (results of Foster Care reviews, OCR reviews, etc). The request to take the results of that combined risk assessment into account when selecting foster care reviews is embedded into the new draft policy. For example: If a zone is deemed high risk during the risk assessment and is not due for a file review, the high-risk knowledge will be considered in future sampling.

It is imperative to mention that the North Dakota Department of Human Services, the North Dakota Association of Counties, and local human service zone leaders, with the support of Gov. Doug Burgum and state lawmakers continue to redesign social services. This collaborative effort began with the passage of Senate Bill 2206 in 2017, continued with the passage of Senate Bill 2124 in 2019 and is currently being heard as Senate Bill 2086 during the 2021 legislative assembly. Due to redesign efforts, the Centralized Foster Care & Subsidized Adoption Eligibility Unit, absorbed as a function of Children and Family Services (CFS), went live February 1, 2021. The overall goals are to implement standardized procedures which offer consistency and efficiencies for workers, providers, and families, while reducing financial errors and overpayments for the state. The unit will manage the

- Eligibility determinations for foster care cases, while authorizing eligible foster care payments.
- Eligibility determinations for children seeking prevention services, also known as candidates for foster care.
- Sub-adopt negotiation process, while authorizing all eligible subsidy payments.
- Opening and closing of ND Medicaid for all foster and sub-adopt cases.

Effective, February 1, 2021 much of the review is about our own NDDHS employees and error rate with payments or eligibility determinations. However, we will be able to notify the Zones/agencies if they are not getting information to the unit timely resulting in fiscal error.

Management's Response and Corrective Action

Fiscal Years Ended June 30, 2019 and 2020

Finding: 2020-019

Department of Human Services Response/Corrective Action Plan: The Department agrees with the recommendation. Program Accountant plans on creating a procedure manual for the end of the period of performance, to identify charges that need to be applied to the appropriate grant year. Currently there is not written procedure manual or documentation that outlines the steps needed to ensure proper period of performance.

This procedure manual to be created will outline the steps the Program Accountant needs to take in order to check all transactions posting to Peoplesoft from the AWARE case management system, check Peoplesoft speedcharts for both VR central office and the VR regional offices located in the Human Service Centers, and checking the history database for any errors on to ensure a comprehensive review of all transactions between the AWARE system and Peoplesoft.

Department of Transportation

Finding: 2020-024

Department of Transportation Response/Corrective Action Plan:

ND DOT agrees with the finding.

Part 1: NDDOT's Quality Assurance & Internal Review Division has implemented a continuous screening process for subrecipient audit reports and will be working with the program managers to ensure adequate tracking and enforcement of audit requirements and follow up on management decisions to ensure accountability of subrecipients with timely and appropriate corrective action.

Part 2: Program managers have been assigned the responsibility to ensure that all subrecipient certifications are obtained and reviewed, all required audits are completed and provided to NDDOT and/or the audit clearinghouse in accordance with established time requirements, all management decisions are issued as required, as corrective action plan is developed and implemented, and follow up occurs as necessary.

Contact Person: Part 1: Jody Isaak, Audit Services Director; Part 2: Paul Benning, Local Government Engineer

Anticipated Completion Date: March 1, 2021

Finding: 2020-025

Department of Transportation Response/Corrective Action Plan:

NDDOT agrees with the finding. An internal control questionnaire has been created and each agency is required to fill out and return the questionnaire annually. A risk assessment matrix has also been created and is filled out based on the internal control questionnaire in order to determine appropriate subrecipient monitoring based on overall risk.

State Treasurer Office

Finding: 2020-027

State Treasurer Office Response/Corrective Action Plan: The Office of State Treasurer agrees with the finding and subsequent recommendation made by the State Auditor's Office. The Office of State Treasurer will enhance its subrecipient monitoring processes by modifying the annual certifications we send out to subrecipients to require an affirmative response as to whether the subrecipients are required to complete an audit and, if required, that it was completed timely. We will ensure required subrecipient audits are completed and posted to the Federal Audit Clearinghouse timely and, if not, will follow up with the subrecipient to seek resolution. We will also review posted audits for all subrecipients to ensure there are no deficiencies detected for Federal awards passed through by our office and, if there are, appropriate action is taken to remedy said deficiencies.

RE: Summary Schedule of Prior Audit Findings
North Dakota Single Audit Report
For Fiscal Years Ended June 30, 2020 and 2019

Dear Mr. Gallion:

In accordance with OMB's final guidance located in Title 2 of the Code of Federal Regulations, the state of North Dakota is responsible for follow-up and corrective action on all audit findings identified in the North Dakota Single Audit Report. As part of this responsibility, the state is required to prepare a summary schedule reporting the status of all audit findings included in the prior audit's schedule of findings and questioned costs relative to the federal awards. The Office of Management and Budget compiles this information on behalf of the state and oversees the implementation status of these audit findings.

Attached is the State of North Dakota's Summary Schedule of Prior Audit Findings for the two fiscal years ended June 30, 2020 and 2019. This summary identifies the implementation status of all prior audit findings, except for those findings that have been fully corrected, are no longer valid, or do not warrant further action on the part of the state.

Sincerely,

Jeff Larshus
Director of State Financial Services

600 E Boulevard Ave, Dept 110 | Bismarck, ND 58505-0400 | nd.gov/omb

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

DEPARTMENT OF HUMAN SERVICES

Finding 2018-001	Page D-9
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.777 93.778	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Centers for Medicare and Medicaid Services Medicaid Cluster
Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services complete the CMS-64 report no later than 30 days after the end of each quarter.
Status:	This recommendation is implemented. The backlog has been cleared and the reports have been completed timely since September 30, 2018. CMS has reviewed and agreed with this.

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-002	Page D-10
Recurring:	Year of initial finding was 2016-2015
CFDA # 93.777 93.778	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Centers for Medicare and Medicaid Services Medicaid Cluster
Questioned Cost:	\$6,617
Recommendation:	We recommend the Department of Human Services develop system edit checks and improve system functionality to ensure eligibility determinations made for the Medicaid program are proper.
Status:	<p>This recommendation is partially implemented. The Medicaid Policy Unit has implemented ELearning training that is mandatory for all Medicaid Eligibility Workers.</p> <ul style="list-style-type: none">- The Training Modules are as follows:- Electronic Data Sources- Documentation & Narratives- Common Eligibility Errors: Income- Common Eligibility Errors: Household Composition- Non-ACA Reviews- TPL <p>The system error related to Defect 158460 has since been implemented which fixed the issue in SPACES.</p> <p>The PaSS Unit provides ongoing training for eligibility workers. Money was returned in July 2019.</p>

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-003	Page D-11
Recurring:	Year of initial finding was 2012 - 2011
CFDA # 93.777 93.778	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Centers for Medicare and Medicaid Services Medicaid Cluster
Questioned Cost:	Unknown
Recommendation:	We recommend the Department of Human Services ensure the Program Integrity Unit fully executes their sampling plan.
Status:	<p>This recommendation was partially implemented. The Program Integrity Unit has revised the language in the Audit Overview Oversight document to better reflect the new rehabilitation provider process. It is not a formal audit but rather an educational review process meant to assist the providers in billing correctly.</p> <p>The Program Integrity Unit has reassigned the layperson ambulance reviews to the Utilization Review team due to no longer having a layperson in the PIU. The PIU will pull the applicable claims data for the UR team to conduct the review. Prior to reassigning to the UR team, a temporary enrollment staff helped get the late ambulance claim reviews caught up. Requests for the sample of ambulance claims for 4th quarter 2020 went out and we are currently receiving responses and are current with the reviews. The semi-annual recipient analysis for first half of 2020 was completed in October of 2020. The second half of 2020 will be reviewed this month.</p> <p>Due to the declaration of the Public Health Emergency as of March 2020, State Medicaid Agencies were encouraged to halt auditing to allow healthcare facilities to focus on treating patients associated with the pandemic.</p>

**STATE OF NORTH DAKOTA

93.778	Centers for Medicare and Medicaid Services
93.767	Medicaid Cluster and Children's Health Insurance Program
Questioned Cost:	Unknown
Recommendation:	We recommend the Department of Human Services develop system edit checks within the SPACES system to ensure verifications are used in the eligibility determination process.
Status:	This recommendation was implemented. Verification procedures were enhanced in SPACES release 2, which was implemented in 2019. Eligibility workers received tasks related to interface information received from various sources such as Social Security Administration, Internal Revenue Services, Job Service North Dakota, etc. In addition, system fixes for verification notices including data and due dates, due date for requested verification, and added selection options for verification of identity types were implemented in 2016 and 2017. Information regarding training on policy and SPACES were provided to eligibility workers.

Finding 2018-007 Page D-16

CFDA # 93.575 U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
93.596 Administration for Children and Families
CCDF Cluster

Questioned Cost: \$0

Recommendation: We recommend the Department of Human Services develop procedures to ensure required child care records are maintained by the child care provider.

Status: This recommendation was not implemented. Early Childhood Services has received Technical Assistance from the regional office (OCC) regarding childcare records. Their recommendations according to CCDF requirements, were to update our compliance checklist (see below) and to eliminate the childcare record (SFN 1426) which is not a required form. All specialists will be using the updated compliance checklist by May of 2021.

CHILD CARE RECORDS WORKSHEET

Review of no less than 30 files must be conducted on site. If the abbreviated review reveals incomplete records, an additional 30 files must be reviewed. This process will continue, 30 files at a time, until no incomplete records are found or until all files have been reviewed.

For facilities with less than 30 children enrolled, all files will be reviewed.

By State Agency

Finding 2018-008	Page D-18
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services develop adequate sampling methods for the selection of Child Care Assistance eligibility case files. Methods should include addressing identified risks, ensuring each county is reviewed over a specified time, and determining sample size based on prior errors.
Status:	This recommendation was implemented. On the first working day of each month, ITD generates a data extract containing child care subsidy payments for the three months prior. Using an analytics software, ITD generates a random sample by dividing the number of cases listed in the monthly sampling frame by the number of cases to be selected for the sample. Prior to the end of the federal fiscal year, AQ staff review sampled cases and creates a listing of the 53 counties in ND not yet represented in any of the monthly samples. Utilizing the entire universe created for the fiscal year, cases from the missing counties are selected for review using a simple random sample from the analytics software.

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-009	Page D-20
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$682,531
Recommendation:	We recommend the Department of Human Services develop procedures to detect and prevent Child Care Assistance Program payments from being made outside of the grant award's period of performance.
Status:	This recommendation was implemented. The Department uses speed charts to determine coding for each expenditure. As of October 10 (this date is used so that payroll for September clears before the speed chart is changed) all speed charts are updated to the new grant coding. Any expenditures received related to the prior year are manually coded to the correct grant year. Both of these grants in question have a 90 day window to get expenditures paid after the grant closes. Correspondence was sent to all program accountants to ensure that the speed charts were updated in a timely manner.

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-010	Page D-21
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$529,160
Recommendation:	We recommend the Department of Human Services ensure that child care providers have met all necessary licensing requirements prior to issuing Child Care Assistance payments.
Status:	<p>The recommendation was partially implemented. The State initiated a process redesign for early childhood licensing in August 2019. The redesign was intended to improve consistency of reviews, ongoing monitoring, and corrective action across all 19 Human Service Zones. The bulk of the redesign work took place in advance of the former county-employed early childhood licensors becoming state employees (January 2020).</p> <p>As part of Redesign, DHS piloted the use of a streamlined on-site visit checklist to identify opportunities for efficiencies. Thirteen counties utilized the abbreviated form during pilot, the remaining counties continued to utilize the existing form. It was determined that the abbreviated form would not adequately capture information needed so, in June 2020 all licensors reverted to utilization of the full-length Compliance Checklist to assure all Health and Safety standards are being met.</p> <p>In September 2020 DHS began the work of implementing a comprehensive Early Childhood Licensing database that will greatly improve the ability to properly license providers. The system is anticipated to be complete by March 2022.</p>

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-011	Page D-22
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$1,843
Recommendation:	We recommend the Department of Human Services develop and implement procedures to detect and prevent duplicate and other improper payments from being issued under the Child Care Assistance program.
Status:	<p>The recommendation was partially implemented. The Lead Agency receives a monthly report that contains payments that could be considered duplicate that were made for three months prior to the current month. The report contains payments that meet the following criteria:</p> <ul style="list-style-type: none">- Same child- Same caretaker- Same provider- Same service month <p>Department staff reviews identified payments on this report and maintains a log and notes on each situation and any follow up that was completed with Eligibility workers.</p> <p>The consolidated eligibility system, SPACES, where payments are issued, does have checks validations in place to ensure payments to no exceed the state maximum rate. An additional warning message is in place and is received when a payment already exists for the child and provider for a service month and a new payment with the same criteria is entered. Workers are able to by-pass this warning message as there are instances where a second payment may be needed. The department will explore a system enhancement to make this warning message more prominent in an effort to reduce duplicate payment situations.</p>

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-012	Page D-24
Recurring:	Year of initial finding was 2008 - 2007
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$216
Recommendation:	We recommend the Department of Human Services: 1. Develop and implement controls to ensure that all eligibility workers are collecting and maintaining all applicable information for Child Care Assistance eligibility determinations, and; 2. Properly determine eligibility for individuals receiving Child Care Assistance and issue payments that comply with requirements set in the Code of Federal Regulations for Child Care Development Funds.
Status:	This recommendation was partially implemented. DHS provides policy and system trainings, tips and tricks and policy and processing reminders as needed through periodic statewide trainings, monthly newsletters and online help resources. This effort is done in collaboration with the Policy and System Support (PaSS) unit in Economic Assistance. The PaSS unit will begin conducting CCAP New Worker Training annually beginning the winter of 2022. The training will cover all aspects of CCAP eligibility. In March 2019, the department implemented a new eligibility system, SPACES. The implementation of this new system has made processing of cases less error prone as the system calculates all aspects of CCAP eligibility such as countable income amounts, countable households members, allowable child care hours, etc. The department is continually making improvements to the system through change requests. Quality Assurance reviews are completed monthly and the results of those reviews are used to determine training needs, corrective active, etc. to mitigate errors.

**STATE OF NORTH DAKOTA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-013	Page D-26
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services develop procedures to monitor and ensure the resolution of corrective orders including that resolution occurs within specified time frames.
Status:	This recommendation was not implemented. During the audit timeframe, County Licensors were inconsistent in how they followed up on corrective orders. As part of Early Childhood Services Redesign (completed by March 2020), all Licensing Specialists are assigned a specific provider case load, which will help Licensing Specialists keep track of any correction orders and follow-up expectations that affect providers they are assigned to work with.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-015	Page D-29
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	Unknown
Recommendation:	We recommend the Department of Human Services develop a centralized tracking mechanism for all reports of irregularities and deficiencies of the Child Care Assistance Program. In addition, we recommend the Department develop procedures for monitoring the timely and proper determination of fraudulent activity.
Status:	This recommendation was implemented. The Department continues to use the Department's Fraud Log to track reports that are received by the state office. When these reports are received, state policy staff review the information and forward the information on to the appropriate county as necessary. The Department has reached out to their federal technical assistance partner, the National Center on Subsidy Innovation and Accountability (NCSIA), for assistance in strengthening and implementing procedures. After NCSIA reviews the Department's Intentional Program Violation (IPV) e-learning, they will provide feedback and suggestions of various types of red flag reports implemented by other states that help to identify potential instances of fraud. The Department continues to utilize existing reports, such as a duplicate payment report and a duplicate SSN report. The Department implemented a new integrated eligibility system in March 2019. With the implementation, eligibility information and verifications are shared across multiple programs in one system. This will further help to ensure that reported information is being evaluated for CCAP when the information is reported for a different program.

Questioned Cost:	Unknown
Recommendation:	We recommend the Department of Human Services develop a centralized tracking mechanism to properly monitor subrecipient corrective actions and deficiencies identified in the Quality Control eligibility reviews.
Status:	This recommendation was implemented. Child Care Assistance policy staff are included on all case finding emails that Quality Assurance/Control sends to counties. Additionally, policy staff receive a copy of the case findings review report used by Quality Assurance/Control. Policy then reviews the report and will follow up with counties when a corrective action, such as establishing a claim, is appropriate. Review of this report began in September 2018 for the review month of July 2018.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS**

For the fiscal years ended June 30, 2020 and 2019

By State Agency

Finding 2018-017	Page D-32
Recurring:	Year of initial finding was 2016-2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services perform annual unannounced inspections of licensed and self-declared child care providers in operation as required by the Code of Federal Regulations and Department policy.
Status:	<p>This recommendation was partially implemented. During the audit timeframe County Licensors were inconsistent in rates of completion for unannounced visits. This was due, in part, to the difference in how each County chose to administer and staff this function; licensors were not consistently required to maintain certain caseloads which contributed to uneven application of this part of the regulation.</p> <p>A major focus of the redesign effort was to ensure that the system was structured to ensure early childhood specialists time was organized to maximize time spent on visits. As part of redesign all Licensing Specialists are assigned a specific case load so they can schedule and follow through with unannounced visits for their assigned providers. This new distribution of work accompanied the transition from county to state employment (Jan 2020) and was being implemented by mid-2020.</p> <p>Early Childhood Services is currently in the process of designing a database to ensure all required documents and licensing visits are complete prior to issuing licenses and certificates to providers. The data base will be complete in April of 2022.</p>

By State Agency

Finding 2018-018	Page D-33
Recurring:	Year of initial finding is 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	Unknown
Recommendation:	We recommend the Department of Human Services perform effective monitoring procedures to ensure all functions of the Child Care Assistance program are properly completed including monitoring correction orders, completing unannounced visits, and properly licensing providers.
Status:	This recommendation was partially implemented. Early Childhood Services Redesign moved all County Licensors to State employment (Jan 2020) and Early Childhood Services Regional Representatives to a Supervisor status (March 2020). These steps will change how a QA visit is completed. Starting in March 2020, regional supervisors were beginning to conduct both standard performance reviews of licensors as well as quality assurance review of outputs and outcomes. This includes review of how licensors conduct visits and complete their core work related to license compliance and health and safety practices of child care programs.

Finding 2018-019	Page D-34
Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.575 93.596	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families CCDF Cluster
Questioned Cost:	\$0
Recommendation:	We recommend the Department of Human Services develop additional methods to detect instances that could result in fraudulent Child Care Assistance payments.
Status:	<p>This recommendation was implemented. The Child Care Assistance Administrator receives a monthly report of potential duplicate payments made for three months prior to the current month. The report contains payments that meet the following criteria:</p> <ul style="list-style-type: none">Same childSame caretakerSame providerSame service month <p>Child Care Assistance staff review all payments on this report and maintains a log of notes on each situation and any follow up that was completed with Eligibility workers. In many instances, the second payment to a child in the same case was due to an underpayment being issued. Underpayments are issued when it was determined that the family was entitled to more assistance than was first determined.</p> <p>Child Care Assistance Policy does allow a child to be in two separate cases at the same time due to joint custody arrangements. The system notifies a worker when they have entered a child with the same SSN or identifying number in a case when the child is already known to another case. However, due to the allowance of a child in two cases, the workers can bypass the edit. The edit serves as a notification to workers to verify that joint custody is appropriate in the case and to alert them to instances of a duplicate child when they may not have been aware.</p> <p>Child Care Assistance applies a state maximum rate per child, per provider in each case a child is receiving assistance. The state maximum rate is based on the determined level of care, age of child and provider type. A</p>

By State Agency

child is allowed to have more than one provider and each provider is subject to their own state maximum rate. Payments cannot exceed the state maximum rate for each provider, per case. More than one payment may be issued per provider in a case, however, the system contains checks and balances to ensure that all total amounts paid do not exceed the maximum state rate per provider in a service month. In addition, the new eligibility system will be additional controls in place to help detect and prevent duplicate and other improper payments.

Recurring:	Year of initial finding was 2016 - 2015
CFDA # 93.568	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families Low-Income Home Energy Assistance
Questioned Cost:	\$40,994
Recommendation:	We recommend the Department of Human Services implement controls to detect and prevent LIHEAP payments from being made outside of the grant award's period of performance.
Status:	This recommendation was implemented. Except for DHS 2019 and 2020 LIHEAP State Plans, all previous state plans contained language that stated: "LIHEAP funded services would be available ... until the obligated funds have been expended." Section O(1), 2018 State Plan. This language was in violation of 31 USC § 1552 (a) which states that all fixed appropriation accounts end on September 30 th of the 5 th fiscal year after the period of availability for obligation of the funds ends. However, this language was not in violation of state law, as state law clearly establishes that expenditures of federal funds must comply with all mandatory federal laws. NDAC § 4-12-01-05. and under Section 2605(d) of P.L.97-35 states are required to expend funds in accordance with their state plan. Prior to 2019, DHS was expending funds according to the state plan as written. Once it was discovered that the state plan was in error, the default would be federal law 31 USC § 1552(a) to establish the length of time for expenditure of obligated funds. This default determination by DHS is authorized under NDAC § 4-12-01-05(2), as state agencies are permitted to comply with the terms and conditions of federal grants, and 31 USC § 1552(a) is a general term applicable to all federal grants unless otherwise indicated. This determination is also allowed under state law, as OMB is allowed to determine the terms of contracts and nothing in state law prohibits DHS from following all applicable federals to the grant funds. NDAC §§ 4-12-13-01(2); 4-12-01-05 (2).

By State Agency

Finding 2018-023	Page D-40
CFDA # 93.568	U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES Administration for Children and Families Low-Income Home Energy Assistance
Questioned Cost:	\$20,478
Recommendation:	We recommend the Department properly account for subrecipient and contractor administrative costs when tracking compliance with administrative cost limits.
Status:	This recommendation was implemented. The Department has adopted TANF rules in determining administrative costs and has applied these rules to contracts with the ND Department of Commerce, Division of Community Services. 45 CFR 263.0 (b)(1) excludes from administration costs the direct costs of providing program services, whether by the state or contracts devoted entirely to such activities. It also excludes salaries and benefit costs for staff providing program services and direct administrative costs associated with providing the services such as the costs for supplies, equipment, travel, postage, rental and maintenance of office space. The Department's contract with DCS requires the grantee (DCS) to provide weatherization services to Low Income Home Energy Assistance Program eligible households. The costs associated with this contract are solely for providing a weatherization program in the state and absent such costs a program of this nature would not exist. General Administration of this contract and program is performed in the state offices and any costs incurred by the state for this purpose are tracked and reported toward the 10% allowable funds for administration.

CFDA # 93.777 U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
93.778 Centers for Medicare and Medicaid Services
Medicaid Cluster

Questioned Cost: \$0

Recommendation: We recommend the State of North Dakota establish a Medicaid Fraud Control Unit that is separate and distinct from the Department of Human Services.

Status: This recommendation has been fully implemented. The Governor's Executive Budget that was released on December 5, 2018 included a recommendation and funding for establishing a Medicaid Fraud Control Unit to be housed within the Attorney General's Office. This unit was to include 5 additional employees with the sole purpose of Medicaid Fraud investigations. The final budget that was approved by the 66th Legislative Assembly and signed by the Governor on May 1, 2019 included 6 additional employees including 1 attorney, 2 auditors, 2 criminal investigators and 1 administrative assistant. The Medicaid Fraud Control unit is established as a division of the Attorney General's office and is under the supervision and control of the Attorney General. The staff in this unit are responsible for investigating any reported Medicaid Fraud. Additional information and the relevant law for this unit can be found on the Attorney General's website at: <https://attorneygeneral.nd.gov/attorney-generals-office/medicaid-fraud>.

Introductory Section

(This page left blank intentionally.)

December 11, 2019

To the Governor, Legislators and Citizens of the State of North Dakota:

In accordance with North Dakota Century Code (NDCC) section 54-44-04(14), we are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the State of North Dakota for the fiscal year ended June 30, 2019. This report has been prepared by the Office of Management and Budget. The financial statements contained in the CAFR have been prepared in accordance with generally accepted accounting principles (GAAP) applicable to state and local governments, as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the state's management. To the best of our knowledge and belief, the information contained in the CAFR is accurate in all material respects and reported in a manner that presents fairly the financial position and results of operations of the State's primary government and the component units for which it is financially accountable. All disclosures necessary to enable the reader to gain an understanding of the State of North Dakota's financial affairs have been included.

The state's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the costs of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

In compliance with state statute, the Office of the State Auditor (SAO) audited the State's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the State for the fiscal year ended June 30, 2019 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and evaluating the overall financial statement presentation. Their examination was conducted in accordance with GAAP and the standards applicable to financial audits contained in *Government Auditing Standards* as published by the Comptroller General of the United States. The SAO concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the State's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report

The State of North Dakota is also required to undergo a single audit in conformity with the provision of the Single Audit Act Amendments of 1996 and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (contained in Title 2 U.S. Code of Federal Regulations Part 200). Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs, are included in a separately issued biennial single audit report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The State of North Dakota provides for a full range of services, including education, health and social services, highway maintenance and construction, law enforcement, judicial, public safety, business regulation, community and economic development, and natural resource development. The State's reporting entity reflected in the CAFR includes all the funds of the state as legally defined, as well as all of its component units in conformity with the requirements of GASB Statement No. 61. Statement No. 61 provides that the financial statements should emphasize the primary government and permit financial statement users to distinguish between the primary government and its component units. Consequently, the transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position. The State's reporting entity is described more fully in Note 1A to the basic financial statements.

The State operates through a biennial appropriation, which represents agency appropriations recommended by the governor and presented to the Legislative Assembly at the beginning of each legislative session. The budget is legally required to be adopted through passage of appropriation bills by the Legislative Assembly and signed by the governor. The governor has line item veto powers over all appropriations subject to legislative override. Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action.

The State does not budget by fund nor does it formally budget revenues. The legal level of budgetary control is at the agency, appropriation authority and expenditure line item level. The State's budgetary policies and procedures are further explained in Note 1D on the notes to the basic financial statements.

LOCAL ECONOMY

Although North Dakota's economy is increasingly diversified, the agricultural industry continues to play a key role in the state's economy. The USDA's National Agricultural Statistics Service reports that for 2018 crop production, North Dakota is the nation's leading producer of durum wheat, spring wheat, canola, flaxseed, oats, dry edible beans and peas, navy beans, pinto beans and honey. North Dakota also ranked second in the production of black beans, lentils, and sunflowers.

The energy industry plays an important role in the state's economy. The development of wind and coal resources, the production of ethanol and bio-diesel, and oil and natural gas extraction all contribute to the state's economy. North Dakota reached an all-time high for oil production which averaged over 1.48 million barrels of oil produced per day in August 2019. North Dakota's current crude oil production ranks second in the nation, behind first-ranked Texas. Oil prices have rebounded significantly from the 2016 lows when North Dakota producers were receiving prices below \$25 per barrel. Prices have averaged around \$50 per barrel at the start of the 2019-21 biennium. In September 2019, the actual average price per barrel for North Dakota oil was \$50.25, slightly over the estimated price of \$48.50 used for budgeting purposes. The long-term outlook remains strong for oil globally as well as here in North Dakota.

According to the United States Census Bureau, the state's estimated population for 2018 was approximately 760,000 people, which is an all-time high. Health care and social assistance jobs account for nearly 21% of the employment in the state. Other leading areas of employment are retail trade, educational services, construction and manufacturing. The unemployment rate for the state in October 2019 was 2.5%, compared to 3.6% for the United States.

A listing of the state's 20 largest employers demonstrates the diversity of the economy. Top employers include: the U.S. military, the state university system, health care providers, manufacturers, financial and insurance companies, information technology companies, energy producers, and retail companies.

Despite uncertainty within international markets, North Dakota achieved positive export growth in 2018. The United States Census Bureau showed that North Dakota's exports were up overall by \$1 billion for a total of \$6.8 billion in 2018. This represents an increase of 16.2% over 2017.

LONG-TERM FINANCIAL PLANNING

The long-term financial plan for the state of North Dakota was outlined by Governor Burgum as part of the 2019-21 executive budget address, presented to the legislature in December 2018. The Governor's long-term financial plan includes the following key components:

- Balancing ongoing revenues and expenses of state government
- Rebuilding reserves.
- Ensuring solvency for the state pension fund.

North Dakota is required by its Constitution to have a balanced budget. However, ongoing revenues and ongoing expenses have not always been in balance. In those instances where ongoing revenues did not meet the obligations of ongoing expenses of state government, one-time transfers from accumulated reserves and fund balances were used to fill the gap. In nearly all cases, those accumulated reserves and fund balances were directly attributable to oil and natural gas extraction and production tax revenue. In the 2019-21 biennium executive budget, the governor laid out a financial plan that not only balanced ongoing revenues and expenses but did so by adding transparency to the use of oil tax revenue. In the executive budget, the state general fund allocation of oil and gas taxes increased from \$400 million to \$1 billion per biennium, but no additional transfers from accumulated fund balances were proposed. Both the 2013-15 and 2015-17 biennium budgets included general fund revenues and transfers in excess of \$1 billion that were directly funded from oil and gas tax revenue.

The legislature did not approve the proposed transfer of \$1 billion per biennium from oil tax revenues to the general fund, opting to continue it at the level of \$400 million per biennium. The legislature instead chose to balance the general fund budget with transfers from accumulated oil tax revenues. Although this approach provides less transparency and obscures the state's ongoing revenue and expense structure, it ensures overall revenue sources are adequate to fund ongoing government expenses. It provides a conservative approach to funding the budget as the accumulated balances transferred to the general fund are balances on hand at the start of the biennium and not dependent on forecasted tax revenues.

The state's rainy-day fund, the Budget Stabilization Fund, was nearly depleted during the 2015-17 biennium economic downturn. The 2019-21 executive budget proposed to fully replenish this fund to its maximum balance allowed by law, which is 15% of general fund appropriations. This included a proposed transfer of over \$300 million from the Strategic Investment and Improvements Fund. A critical component of ensuring the long-term financial well-being of the state of North Dakota is a well-funded Budget Stabilization Fund that provides a necessary buffer against volatile commodity prices that drive ups and downs in the state's economy.

The legislature did not approve the transfer of \$300 million to the Budget Stabilization Fund. However, the revenue forecast adopted by the legislature proved so conservative that actual revenues ended the biennium \$250 million higher than predicted. North Dakota law requires any end of biennium balance in the general fund in excess of \$65 million to be transferred to the Budget Stabilization Fund. As a result, \$548 million was transferred to the Budget Stabilization Fund, pushing the balance above \$660 million. It is expected to reach its \$726 million cap by the end of the 2019-21 biennium.

Another component of the state's long-term financial plan is ensuring the solvency of the state's pension fund. The governor proposed restoring solvency to the fund through a combination of policy proposals that reformed the benefit and funding structure, along with a one-time cash infusion into the fund. The proposed one-time cash infusion was a transfer of \$265 million at the beginning of the 2019-21 biennium from the Strategic Investment and Improvements Fund to the Public Employees Retirement Fund.

Although the legislature did not approve the proposed cash infusion of \$265 million, the legislature did adopt separate proposals that reformed the benefit structure and had a positive impact on the long-term actuarial projections for the fund.

The backbone of the state's financial plan is a revenue forecasting process that is accurate, conservative, and credible. The state utilizes a Revenue Forecasting Advisory Committee, comprised of representatives of the major industries in the state and the legislative and executive branches of government, along with the expertise of a national economic forecasting consultant. With the assistance of these experts, the state's Tax Department and Office of Management and Budget develop a conservative revenue forecast for use in the budgeting process.

The budgeting process begins with the development of a biennial budget proposal reflecting the Governor's priorities for the next two years. The budget is submitted to the legislature for their consideration and eventual enactment. With a biennial budget cycle, each revenue forecast and budget proposal provides a three-year plan for the revenues and expenditures of state government.

RELEVANT FINANCIAL POLICIES

North Dakota's financial policies ensure that in the event of an economic downturn, North Dakota state government will be able to continue to provide its citizens with necessary services. Should North Dakota experience a significant revenue shortfall, the state is able to access funds in the budget stabilization fund. The statutory maximum balance for the budget stabilization fund is 15.0 percent of the state general fund budget.

North Dakota experienced a significant revenue shortfall during the 2015-17 biennium due to decreases in oil and agriculture prices, resulting in a transfer of nearly the entire balance of the budget stabilization fund to the general fund prior to June 30, 2017. The 2017 legislature established an ongoing allocation of \$75 million per biennium from oil and gas tax revenues to the budget stabilization fund. North Dakota Century Code requires the transfer to the budget stabilization fund of any end-of-biennium general fund balance in excess of \$65 million. The 2017-19 biennium ended with revenues exceeding the forecast and resulted in the transfer of \$548 million to the budget stabilization fund. The balance of the budget stabilization fund is estimated to be over \$726 million by June 30, 2021 due to a combination of existing fund balance and additional oil tax revenue allocations.

In addition to accessing the budget stabilization fund, in the event of an economic downturn the Governor can reduce general fund expenditure authority uniformly across state agencies through a process known as allotment. In the event of an allotment, the foundation aid stabilization fund was established to protect the state school aid program. Dollars from this fund would replace the amount of general fund dollars allotted, thus K-12 education would not experience a reduction in funding. The passage of Measure 2 in the 2016 general election allowed money in the fund to be appropriated for education-related purposes. Funding for the foundation aid stabilization fund comes from 10 percent of oil extraction tax collections. The foundation aid stabilization fund is expected to have a June 30, 2021 balance in excess of \$443 million.

MAJOR INITIATIVES

Major initiatives proposed by Governor Doug Burgum and approved by the legislature for the 2017-19 biennium include:

- Investing in infrastructure and in other priorities;
- Continued funding of Medicaid expansion;
- Investing in behavioral health issues; and
- Transitioning the cost of county social services to the state.

INFRASTRUCTURE INVESTMENTS

The 2017-19 biennial budget includes funding to rebuild and repair roads throughout the state, for water supply and flood control, and grants for airports. Funding for infrastructure improvements includes:

- \$612.9 million to rebuild and repair state highways;
- \$97.1 million for city road projects;
- \$51.1 million dedicated to the repair and rebuilding of county and township roads;
- \$40 million in grant funds to two communities in oil country for airports; and
- \$722.2 million for water-related projects, including \$120.1 million for water supply, \$27.0 million for rural water supply, \$136.0 million for flood control and \$15.8 million for general water projects.

TAX RELIEF

The legislature approved, and the Governor signed into law, a tax relief package that provides:

- \$160.7 million for a state-paid economic assistance and social services pilot program for the 2017-19 biennium;
- \$23.3 million to continue state funding for certain county costs of child welfare and service payments for elderly and disabled services; and
- \$14.8 million for the homestead tax credit program; and
- \$8.1 million for the disabled veteran's property tax credit.

EDUCATION

K-12 education initiatives include:

- \$1.94 billion in state funding for K-12 schools through integrated funding formula;
- \$6 million in grants to districts experiencing rapid enrollment growth;
- \$55.4 million to assist districts in the provision of transportation services;
- \$19.3 million to go towards special education contracts; and
- Almost \$33 million will be provided to schools during the 2017-19 biennium to support CTE offerings, providing more educational opportunities for students and important job skills for those students entering the workforce.

Higher Education initiatives include:

- \$15.2 million for UND Medical School Residency Programs.
- \$ 2.0 million in state funding to continue the North Dakota Higher Education Challenge Grant Program, to encourage philanthropy by providing a state match for private contributions to the state's colleges and universities.
- \$168.5 million is slated to be invested for capital projects across the system, with funding from revenue bonds and private donations.
- \$22.5 million in bonding authority to construct an Integrated Carbon Plant at Valley City State University

RESERVES

It is anticipated that by June 30, 2019, there will be a total ending balance of approximately \$1.58 billion in the budget stabilization fund, foundation aid stabilization fund, strategic investment and improvements fund, and tax relief fund. The general fund budget for the 2017-19 biennium totals \$4.31 billion.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of North Dakota for its comprehensive annual financial report for the fiscal year ended June 30, 2018. This was the 27th consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the State of North Dakota received the GFOA's Award for Distinguished Budget Presentation for its 2017-2019 budget. In order to qualify for the Distinguished Budget Presentation Award, the State's budget document was judged to be proficient in several categories, including policy documentation, financial planning, and organization.

This report was prepared by staff members of the Fiscal Management Division of the Office of Management and Budget. Their dedication and efforts are greatly appreciated. We also extend our gratitude to the numerous individuals from virtually all the state agencies and institutions, especially the Office of the State Auditor, for their assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Morrissette", written in a cursive style.

Independent Auditor's Report

The Honorable Doug Burgum, Governor
of the State of North Dakota

Members of the Legislative Assembly
of the State of North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the following state entities and discretely presented component units:

Addiction Counselor Internship Loan Program	Job Service North Dakota
Bank of North Dakota	Mandan Remediation Trust
Beginning Farmer Revolving Loan Fund	Medical Facility Infrastructure Loan Program
Building Authority	PACE and AG PACE Funds
College SAVE	Public Employees Retirement System
Community Water Facility Loan Fund	Public Finance Authority
Comprehensive Health Association of North Dakota	Rebuilders Loan Program
Department of Trust Lands	Retirement and Investment Office
North Dakota Development Fund	School Construction Assistance Revolving Loan Fund
Guaranteed Student Loan Program	State Fair Association
Housing Finance Agency	State Historical Society of North Dakota Foundation
Housing Incentive Fund	Student Loan Trust
Infrastructure Revolving Loan Fund	Workforce Safety and Insurance

The financial statements of the above entities reflect total assets, net position or fund balance, and revenues of the government-wide financial statements and fund financial statements as follows:

	<u>Percent of Assets</u>	<u>Percent of Net Position or Fund Balance</u>	<u>Percent of Revenues</u>
<u>Government-Wide Financial Statements</u>			
Governmental Activities	29%	30%	18%
Business-Type Activities	82%	61%	51%
Aggregate Discretely Presented Component Units	100%	100%	100%
<u>Fund Financial Statements</u>			
<u>Major Governmental Funds</u>			
General Fund	0%	0%	0%
Federal Fund	1%	0%	1%
State Special Revenue Fund	74%	76%	46%
<u>Major Enterprise Funds</u>			
Bank of North Dakota	100%	100%	100%
Housing Finance Agency	100%	100%	100%
University System	0%	0%	0%
Workforce Safety and Insurance	100%	100%	100%
Aggregate Remaining Fund Statements	94%	97%	76%

The financial statements for these entities were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for these entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the North Dakota University System's discretely presented component units (foundations) were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, the 2019 financial statements have been restated to correct misstatements. Our opinion is not modified with respect this matter.

As discussed in Note 2 to the financial statements, Housing Finance changed its method of accounting for bond premiums and discounts from the straight-line method to the effective interest rate method. Our opinion is not modified with respect to this matter.

The actuary for the North Dakota Public Employees Retirement System has determined that the Fund's unfunded actuarial accrued liability is approximately \$1.187 billion as of July 1, 2019. The funding for the actuarial accrued liability is predicated on employer and employee funding rates mandated by North Dakota statutes. The actuary has determined that the current statutory rates are insufficient compared to the actuarially determined contribution rate needed to fund the actuarial accrued liability. Note 6 identifies the net pension liability as calculated using GASB 67 and 68 requirements. Our opinion is not modified with respect to this matter.

As discussed in Note 17 to the basic financial statements, the Bank of North Dakota elected to present an unclassified statement of net position because current assets are not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Our opinion is not modified with respect to this matter.

As described in Note 22 to the financial statements, the State of North Dakota adopted the provisions of GASB 83 *Certain Asset Retirement Obligations* and GASB 88 *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules and related reconciliations and notes, information about the state of North Dakota's pension plans and other post-retirement benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required

supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of North Dakota's basic financial statements. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections, as listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2019 on our consideration of the State of North Dakota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of North Dakota's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of North Dakota's internal control over financial reporting and compliance.

Joshua C. Gallion
State Auditor
Bismarck, North Dakota
December 11, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the State of North Dakota's (the State's) Comprehensive Annual Financial Report presents a discussion and analysis of the State's financial performance, providing an overview of the activities for the fiscal year ended June 30, 2019. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Government-wide:

Total assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at fiscal year-end by \$24.7 billion (reported as net position), an increase of \$2.3 billion from the previous year. The net position of governmental activities increased by 11.4% while the net position of the business-type activities showed an increase of 5.2%.

As a result of implementing GASB Statement 68, *Accounting and Financial Reporting for Pensions*, the State recorded \$27.5 million net pension asset, \$380.3 million deferred outflows of resources, \$887.5 million net pension liability, and \$82.5 million deferred inflows of resources for the primary government. The State had a slight increase in net pension liability during the year of \$24.6 million or 2.9%.

Fund Level:

As of the close of fiscal year 2019 the State's governmental funds reported combined ending fund balances of \$15.7 billion, an increase of \$1.96 billion. Of this amount, \$108.4 million is non-spendable, primarily for Permanent Trust Funds. Spendable fund balance consists of \$6.5 billion restricted for specific purposes such as common schools, highway projects, and state education aid, \$1.5 billion committed and \$374.6 million assigned for specific functional expenditures such as education and health and human service operations, with the unassigned fund balance making up the remaining amount of \$7.2 billion, which is primarily made up of the legacy fund with a balance of \$6.2 billion.

The enterprise funds reported net position at year-end of \$4.1 billion, an increase of \$201.8 million during the year.

Long-term Debt:

The State's total debt (bonds, certificates of participation, and notes payable) increased approximately 7.8% during the fiscal year to \$2.8 billion, an increase of \$200 million, which represents the net difference between new issuances and payments. During the year the State issued \$389 million in bonds, \$97 million in certificates of participation, and \$6.4 billion in notes.

More detailed information regarding these activities and funds is included in Note 3L.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the State's basic financial statements, which consists of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Statements

The government-wide financial statements provide a broad view of the State's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the State's financial position, which assists in assessing the State's economic condition at the end of the fiscal year. These statements include all non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents all of the State's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the two reported as "net position". Over time, increases and decreases in net position is an indicator of whether the State's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both statements report three activities:

Governmental Activities – The activities in this section are primarily supported by taxes and intergovernmental revenue. Most of the State's basic services, such as education, health and human services and transportation, are reported under this category.

Business-type Activities – These functions are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The Bank of North Dakota, Housing Finance Agency and the University System are examples of the State's business-type activities.

Discretely Presented Component Units – These are operations for which the State has financial accountability but they have certain independent qualities as well. These entities operate similar to private-sector business and the business-type activities described above. The State has 5 discretely presented component units. Financial information for these entities is presented separately from the financial information presented for the primary government.

The government-wide financial statements can be found immediately following this discussion and analysis.

Fund Financial Statements

A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

The basic fund financial statements begin after the Component Unit FASB basis statements and provide more detail about the major individual funds. The State's funds are divided into three categories – governmental, proprietary, and fiduciary. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental funds - Most of the State's basic services are reported in the governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on the near-term inflows and outflows of spendable resources. They also focus on the balances left at year-end that are available for future spending. Such information may be useful in evaluating whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds

and the governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

Governmental funds include the General Fund, special revenue, debt service, and permanent funds. The State has several governmental funds, of which three (3) are considered major individual funds. These three are the General Fund, the Federal Fund, and the State Special Revenue Fund. Each of these major funds is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance. The remaining governmental funds are combined in a single aggregated column on the basic fund statements. Individual fund data for each of these non-major governmental funds can be found in the other supplementary information section of this report.

Proprietary funds – Services for which the State charges customers a fee are generally reported in proprietary funds. The state maintains two different types of proprietary funds, enterprise funds and internal service funds. Enterprise funds report activities that provide supplies and services to the general public. Internal service funds report activities that provide supplies and services for the State's other programs and activities. Like the government-wide statements, proprietary funds use the accrual basis of accounting. Although the basis of accounting is the same for the government-wide and proprietary fund statements, reconciliation between these statements is presented because of the allocation of internal service funds' net income.

The State has four (4) major enterprise funds: The Bank of North Dakota, Housing Finance, University System, and Workforce Safety and Insurance. These four funds are each presented in separate columns on the basic proprietary fund financial statements. The remaining enterprise funds are combined in a single total column on these statements. Individual fund data for each of the non-major enterprise funds can be found in the other supplementary information section of this report.

The State's internal service funds are reported as governmental activities on the government-wide statements, because the services they provide predominantly benefit governmental activities. The State's four (4) internal service funds are reported on the basic proprietary fund financial statements in a single combined column. Individual fund data for the internal service funds is provided in the form of combining statements found in the other supplementary information section of this report.

Fiduciary funds - The State acts as a trustee, or fiduciary, for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These funds, which include pension (and other employee benefit) trust, investment trust, private-purpose trust, and agency funds, are reported using accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because the State cannot use these assets to finance its operations.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements. The notes to the financial statements can be found immediately following component units' financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes a budgetary comparison schedule, which includes reconciliation between the statutory fund balances for budgetary purposes and the fund balances for the General Fund, the Federal Fund and the State Special Revenue Fund as presented in the governmental fund financial statements. In addition, the required supplementary information includes up to ten years of information on the State's pension and Other Post Employment Benefit (OPEB) plans, including schedules on the employer proportionate share of the net pension liability and net OPEB liability, changes in the net pension liability and OPEB liability, and employer contributions.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, internal service, and fiduciary funds. These funds are added together, by fund type, and presented in single columns in the basic financial statements.

FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE

As noted previously, net position may serve over time as a useful indicator of a government's financial position. The State's combined net position (governmental and business-type activities) totaled \$24.7 billion at the end of fiscal year 2019. Net position increased \$2.3 billion from the prior fiscal year.

State of North Dakota's Net Position (Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2019	2018	2019	2018	2019	2018
Current and Other Assets	\$16,972,671	\$14,981,436	11,346,654	\$10,822,219	25,434,033	\$22,897,146

Total Assets	22,209,731	20,009,259	12,977,954	12,350,231	32,302,393	29,452,980
Deferred Outflows of Resources	293,718	330,883	114,216	121,445	407,934	452,328
Long-Term Liabilities						
Outstanding	798,562	796,635	4,245,686	3,966,548	5,044,248	4,763,183
Other Liabilities	1,029,509	984,009	4,687,353	4,564,120	2,831,570	2,641,620
Total Liabilities	1,828,071	1,780,644	8,933,039	8,530,668	7,875,818	7,404,803
Deferred Inflows of Resources	63,215	43,280	35,002	23,066	98,217	66,346
Net Position						
Net Investment in						
Capital Assets	5,185,682	4,988,839	1,246,741	1,214,133	6,432,423	6,202,972
Restricted	6,639,786	6,355,103	972,887	924,611	7,612,673	7,279,713
Unrestricted	8,786,695	7,172,276	1,904,501	1,779,198	10,691,196	8,951,474
Total Net Position	\$20,612,163	\$18,516,218	\$4,124,129	\$3,917,942	24,736,292	\$22,434,159

The largest component (43%) of the State's net position is unrestricted net position. Unrestricted net position may be used at the State's discretion, but often have limitations on use based on State statutes. Restricted net position makes up thirty-one percent (31%) of the state's net position. Restricted net position represents resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used.

Twenty-six percent (26%) of the State's net position reflects its investment in capital assets such as land, buildings, equipment, intangibles (software), and infrastructure (roads, bridges and other immovable assets) less any related debt outstanding that was needed to acquire or construct the assets. The State uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The condensed financial information below was derived from the government-wide Statement of Activities and reflects how the State's net position changed during the fiscal year:

Governmental Activities

Governmental Activities increased the State's net position by \$2.1 billion. Revenues increased 9.4%, with the largest dollar increase in the State's revenues for fiscal year 2019 coming from oil, gas, and coal, taxes, an increase of \$390 million. The increase in sales and use tax is due to growth in taxable sales and purchases as a result of a strong economy and the taxation of internet sales as a result of the US Supreme Court decision. Corporation and Individual Income Tax both increased showing growth in the economy, growth in oil activity, and increased wages and salaries. Oil and Gas production tax and Oil Extraction tax increased due to strong oil prices leading to production growth.

Expenses for governmental activities remained relatively consistent.

The following chart depicts revenues of the governmental activities for the fiscal year:

The chart on the following page depicts expenses of the governmental activities for the fiscal year:

**Expenditures - Governmental Activities
Fiscal Year Ending June 30, 2019**

Business-type Activities

Net position of the business-type activities increased by \$202 million during the fiscal year.

Workforce Safety and Insurance's (WSI) net position increased \$89.4 million. Policyholder count increased by 319 policies in fiscal year 2019. WSI's financial position remains stable. Earned premium net of discounts and reinsurance totaled \$238 million, \$232 million, and \$233 million for fiscal years 2019, 2018, and 2017, respectively. WSI re-entered the Securities Lending arena in fiscal year 2016. Total income for fiscal year 2019 was \$145 thousand, compared to fiscal year 2018 which had earnings of \$200 thousand with related expense of \$40 thousand. Total claims filed for fiscal year 2019 totaled 19,913. This is an increase of 83 from previous fiscal year 2018 total of 19,830. A strong investment return in the past three years has contributed to the positive change in net position.

The Bank of North Dakota net position increased \$27.6 million. The loan portfolio decreased by \$332,000 to \$4.5 million at December 31, 2018. Total assets increased by .2% to \$7 million. The increase was largely attributable to investment purchases offset by the sale of federal student loan portfolio. Interest-bearing deposits totaled \$4.2 billion at December 31, 2018 compared to \$4.1 billion at December 31, 2017. This fluctuation is due to state deposits and the economic status of the state. The Bank has a tier one capital leverage ratio of 12.48% as of December 31, 2018. The leverage ratio is a measure of strength. Well capitalized per federal regulations requires this percentage to be a minimum of 5%.

The University System's net position increased \$8.5 million. Net position increased due to a 3% increase in grants and contracts and a 7% increase in total assets. Increases in non-current assets was due primarily to an increase of \$45.1 million in other long-term investments as well as an increase of \$37.8 million in restricted cash which represents unspent certificate of participation proceeds for the new steam plant and infrastructure improvements at UND.

Housing Finance net position increase of \$12.1 million as a result of the year's program operations and financing activities. Included in this number is an increase in the prior year's net position of \$4.1 million due to a prior period adjustment with regards to implementing the effective interest method in amortizing bond premium.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

Governmental Funds

As the State completed the year, its governmental funds reported combined fund balances of \$15.7 billion, an increase of \$2 billion from the prior fiscal year. Of the \$15.7 billion in net position, \$108 million is non-spendable, \$6.5 billion is restricted, \$1.5 billion is committed, \$375 million is assigned, and \$7.2 billion is unassigned. These fund balance categories are a result of GASB Statement 54. Note 1U provides definitions for these categories. The following analysis of funds provides the explanation for the overall change in net position for governmental funds.

The General Fund is the chief operating fund of the State. At the end of current fiscal year, unassigned fund balance of the General Fund was \$7.2 billion, non-spendable was \$6.6 million, \$279 thousand was restricted, and \$348 million was committed for expenditure by various governmental functions.

Total General Fund balance increased during the fiscal year by \$917 million. Revenues decreased approximately 7.6%, largely due to a decrease in oil, gas, and coal taxes of \$477 million. Increases of revenue were individual and corporate income tax of \$135 million and sales and use tax of \$121 million. As there was a slight decrease in the general fund revenues, revenues for the overall state had increased and was previously explained with the increase in net position for governmental activities.

General fund expenditures remained relatively consistent with a slight overall decrease of \$2 million.

The State Special Revenue ending fund balance increased by \$1 billion resulting in \$8.1 billion fund balance. Revenues increased by 38.5% in the state special revenue fund primarily due to an increase in oil, gas, and coal taxes due to strong oil prices leading to production growth as previously discussed. Special fund expenditures increased by 6.4% primarily due to an increase in Health and Human Services spending, as they received additional funding for Medicaid expansion in their special fund.

The June 30 Federal Fund balance of \$10.7 million consists primarily of non-spendable items such as prepaids and inventory and unavailable revenue for those revenues to be received later than the time period used for revenue recognition. Expenditures and revenues in the federal fund remained relatively consistent from prior years with an increase of 5% in expenditures and a 3% increase in revenues with no significant changes in FY19 from prior year. The federal fund balance decreased by \$5.5 million due to a larger increase in federal fund expenditures than revenues.

Proprietary Funds

The State's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The increases in the net position of the proprietary funds are discussed under "Business-type Activities" above.

General Fund Budgetary Highlights:

The State has a biennial appropriated budget. The fiscal year ending June 30, 2019, was the second year of the 2017-19 budget cycle. The original budget increased \$205.4 million. The increases to the beginning appropriated budget are from authorized carryover of general fund appropriation authority and legislative changes of which the larger ones are noted below.

At the beginning of the 2017-19 budget cycle, there was an increase in the original budget of \$79.9 million due to the authorized carryover of general fund appropriation authority from the 2015-17 biennium, a \$7.2 million increase for capital construction carryover, and a \$11.4 million increase for Theodore Roosevelt Presidential Library carryover.

Several state agencies were authorized by appropriation laws to carryover a portion or all of their general fund appropriation for various purposes, including the University System, \$21 million, the Department of

Transportation, \$25 million, the Industrial Commission, \$2.4 million, the Department of Human Services, \$11.7 million, Legislative Council, \$4.6 million, the Department of Commerce, \$2.9 million, the Adjutant General, \$2 million and Office of Management & Budget, \$3.7 million.

Of the \$7.2 million in capital construction carryover dollars, \$1.3 million was for the Attorney General; \$2.2 million was for the Secretary of State; \$3.7 million was for the Parks and Recreation and various smaller amounts for several other state agencies.

During the 2019 Legislative Session the legislature increased budgets by \$19.2 million in several agencies for different reasons. The Governor's office received an increase in general fund budget of \$15 million to deposit into a fund to establish funding for the Theodore Roosevelt Presidential Library and Museum. Other increases were \$1 million for the Bank of North Dakota for Loan interest payments in relation to protest costs and the Tax Department of \$1.3 million for the Homestead tax and disabled veterans credit.

Also, during the Legislative Session and increase of \$52.6 million was for several Universities with the largest being for North Dakota State University of \$28 million, University of North Dakota for \$9 million, Bismarck State College of \$8.9 million for different capital projects at each university.

Other items appropriated during the 2019 legislative session was \$13 million for the Department of Transportation for the purpose of road maintenance and \$28 million for the Department of Commerce to defray the expenses relating to the beyond visual line of sight unmanned aircraft system program.

There were no expenditures in excess of general fund authority. The difference between the final amended budget and actual spending was \$51.9 million below final budgeted estimates.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets: At the end of the fiscal year 2019, the State had invested \$6.4 billion, net of accumulated depreciation, in a broad range of capital assets. Depreciation charges for this fiscal year totaled \$226 million.

(Net of Depreciation, Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government

* Beginning capital asset balances were adjusted for certain reclassifications.

The total increase in the State's investments in capital assets for the current fiscal year was 4.8% in terms of net book value. However, actual expenditures to purchase or construct capital assets were approximately \$1.3 billion for the year. A major portion of this amount was used to construct or reconstruct assets for highway construction. More detailed information on the State's capital assets can be found in Note 3H to the financial statements.

Long-term Debt: Article X, Section 13 of the Constitution of North Dakota provides that the state may issue or guarantee the payment of bonds provided that all bonds in excess of \$2 million are: secured by first

mortgage upon property and no further indebtedness may be incurred by the state unless evidenced by a bond issue; authorized by law, for a certain purpose; provisioned to pay the interest semiannually, and pay the principal within 30 years. The law authorized the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond. The State has no general obligation bonds outstanding at June 30, 2019.

The State does have a number of revenue bonds outstanding at June 30, 2019. Current state statutes empower certain state agencies and the Building Authority, a component unit of the State, to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on revenue bonds issued by state agencies is payable from designated revenue sources. The Building Authority's bonds generate revenue to finance the construction and improvements of State buildings. Revenues derived from leases on the buildings fund the debt service requirements.

The Bank of North Dakota has advances from the Federal Home Loan Bank in the amounts of \$1.1 billion. The advances have a fixed rate of interest, ranging from 1.61 percent to 5.56 percent.

More detailed information regarding the State's long-term obligations is presented in Note 3L to the financial statements.

The State's total debt increased approximately 7.8% during the current fiscal year.

ECONOMIC CONDITION AND OUTLOOK

Moody's Analytics recently completed an analysis of the North Dakota economy for its *Précis U.S. State* October 2019 publication. The report depicts an economy in recovery, but at a slow pace due to low commodity prices and slow employment growth.

North Dakota's outlook is linked tightly to two major industries, energy and agriculture. Oil production per rig has risen by more than 25 percent per rig in the last year. Additionally, overall production is at an all-time high averaging over 1.44 million barrels per day. This nation-leading gain has put the Bakken at the forefront among all shale oil plays for output per rig. The higher productivity will lift output and improve profits. The most recent average price per barrel of oil was at \$50.25, which is slightly over the estimated price of \$48.50 used for budgeting purposes.

The trade war with China has had an adverse impact on commodity prices in North Dakota, but the cancellation of a round a of tariff hikes will lead to an increase in the purchase of farm commodities and will lift prices.

North Dakota's job growth dropped slightly from the national level in year-to-date growth, but still grew by a modest 0.3%. Unemployment is still low in North Dakota with the jobless rate at a historic low of 2.4%. Although employment is declining slightly in the mining industry due to increased productivity, the

construction and manufacturing industries continue to increase their hiring and goods employment is at a more than three year high.

Median household income and per capita income for North Dakota are both ahead of the national average. For 2019, median household income in North Dakota was \$66,605 compared to \$63,179 for the U.S. Per capita income for 2019 was \$55,452 for North Dakota, while \$54,446 for the U.S.

CONTACTING THE STATE'S OFFICE OF FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. Questions about this report or additional financial information should be addressed to the State of North Dakota, Office of Management and Budget, 600 E. Boulevard, Dept. 110, Bismarck, ND 58505.

STATE OF NORTH DAKOTA

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2019

Total Fund Balances-Governmental Funds			\$ 15,737,720,874
Amounts reported for governmental activities in the statement of net position are different because:			
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets is \$8,727,933,679 and the accumulated depreciation is \$3,585,109,020.			
			5,142,824,659
Other assets not available in the current period and therefore are not reported in the governmental funds:			
Net Pension Asset			27,458,900
Deferred outflows of resources are not reported in the governmental funds:			
Loss on bond refunding	2,130,000		
Related to OPEB	7,783,323		
Related to pensions	268,166,879		
Total Deferred Outflows			278,080,202
Some of the state's revenues will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are unavailable in the funds.			
			135,552,289
Internal service funds are used to charge the costs of certain activities to individual funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the statement of net position.			
			99,423,127
Voluntary termination benefits for employees are accrued in the statement of net position.			
			(252,229)
Deferred inflows of resources are not reported in the governmental funds:			
Unpaid penalty and interest	821,125		
Related to OPEB	(1,948,438)		
Related to pensions	(58,110,438)		
			(59,237,751)
Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported as liabilities in the funds. Those liabilities consist of:			
Bonds Payable	(29,950,302)		
Notes Payable	(21,897,374)		
Accrued Interest on Long-Term Liabilities	(327,217)		
Compensated Absences	(43,820,507)		
Capital Leases	(1,100,140)		
Other Postemployment Benefit Obligation, net	(29,612,684)		
Net Pension Liability	(621,722,680)		
Claims and Judgments	(976,015)		
Total Long-Term Liabilities			(749,406,919)
Net Position of Governmental Activities			<u>\$ 20,612,163,152</u>

STATE OF NORTH DAKOTA

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2019

Net Change in Fund Balances-Total Governmental Funds \$ 1,955,024,987

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	341,419,925	
Depreciation expense	(130,992,989)	
Excess of capital outlay over depreciation expense		210,426,936

In the statement of activities, only the gain(loss) on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the assets sold.

(410,695)

Donations of capital assets increase net position in the statement of activities but do not appear in the governmental funds because they are not financial resources.

20,000

Some of the assets acquired this year were financed through capital leases. The amount financed is reported in the governmental funds as a source of financing. However, capital leases are reported as long-term liabilities in the statement of net position.

(184,258)

Based on receipt dates, some revenues are not considered "available" revenues and are unavailable in the governmental funds. Unavailable revenues increased/decreased by this amount this year.

(4,274,800)

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of internal service funds is reported with governmental activities

1,720,272

Bonds proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

-

Note proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

-

Voluntary termination benefits do not require current financial resources and therefore are not reported as expenditures in the governmental funds.

(57,423)

The pension assets resulting from contributions in excess of annual required contribution are not financial resources and, therefore, are not reported in the funds.

(6,177,042)

Deferred outflows of resources do not provide current financial resources

Amortization of deferred loss on bond refunding	(489,000)	
Related to OPEB	367,864	
Related to pension	(34,253,261)	
Total deferred outflows		(34,374,397)

Deferred pension inflows are not considered current cash expenses and are not reported as an expenditure in the funds

Unpaid penalty and interest	172,661	
Related to OPEB	(117,623)	
Related to pension	(18,538,387)	
Total deferred outflows		(18,483,349)

The net OPEB liability relating to retirement plans

770,605

The net pension liability relating to retirement plans

(14,112,165)

Repayment of long-term debt is reported as an expenditure in governmental funds but the repayment reduces long-term liabilities in the statement of net position. In the current year, these amounts consist of:

Bond principal retirement	10,478,700	
Note payments	349,665	
Capital lease payments	469,356	
Total long-term debt repayment		11,297,721

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This adjustment combines the net changes of the following:

Accrued Interest	86,183	
Compensated Absences	187,416	
Claims and Judgments	440,099	
Total additional expenditures		713,698

Change in Net Position of Governmental Activities \$ 2,101,900,090

STATE OF NORTH DAKOTA

NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The primary authority for the State's accounting and reporting requirements is the Office of Management and Budget. The Office of Management and Budget has adopted the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the State's accounting policies are as follows:

A. REPORTING ENTITY

For financial reporting purposes, the State of North Dakota has included all funds, organizations, agencies, boards and commissions that make up its legal entity. The State has also included all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State.

As required by accounting principles generally accepted in the United States of America, these financial statements present the State of North Dakota (the primary government) and its component units. The component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State.

BLENDED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are so intertwined with the State that they are, in substance, the same as the State. They are reported as part of the State and blended into the appropriate fund types.

Building Authority (Debt Service Fund and Capital Projects Fund) - The Building Authority was created by the Legislature as a separate instrumentality of the State. Its purpose is to promote the general welfare of the citizens of the State by providing financing for use by the State in altering, repairing, maintaining or constructing buildings and making any improvements connected to State buildings. The Industrial Commission, which consists of the governor, the attorney general, and the commissioner of agriculture, is the governing board of the Building Authority. The funds of the Building Authority were audited by other independent auditors for the fiscal year ended June 30, 2019, and their report has been previously issued under a separate cover.

DISCRETELY PRESENTED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are financially accountable to the State. The component units' columns of government-wide financial statements include the financial data of these entities.

MAJOR COMPONENT UNITS

Comprehensive Health Association (Proprietary Fund Type) – The Association was established by the Legislature with participating membership consisting of those insurance companies, licensed or authorized to do business in the State. It provides low cost access to health insurance coverage for residents of the State who are denied adequate health insurance and are considered uninsurable. Under North Dakota Century Code, the Majority Leader of the Senate appoints one member of the Senate and the House of Representatives appoints one member of the House to the eight-member board. The Association was audited by other independent auditors for the calendar year ended December 31, 2018, and their report has been previously issued under a separate cover.

State Historical Society of North Dakota Foundation – The mission of the State Historical Society of North Dakota Foundation is to provide fundraising and membership development activities to support the State Historical Society of North Dakota which preserves and promotes the heritage of North Dakota and its people. The Fund of the State Historical Society of North Dakota Foundation were audited by other independent auditors for the fiscal year ended June 30, 2019, and their report has been previously issued under a separate cover.

STATE OF NORTH DAKOTA

Public Finance Authority (Proprietary Fund Type) – The Finance Authority was created by the Legislature as a separate agency of the State. The purpose of the Finance Authority is to make funds available for borrowing by North Dakota political subdivisions through the issuance of its bonds and the purchase of municipal securities of the political subdivisions. The Finance Authority has been granted all powers required in order to accomplish this purpose and is under the control and management of the Industrial Commission. The Fund was audited by other independent auditors for the calendar year ended December 31, 2018, and their report has been previously issued under a separate cover.

North Dakota Development Fund, Inc. (Proprietary Fund Type) – The Development Fund was established as a statewide nonprofit development corporation with the authority to take equity positions in; to provide loans to; or to use other innovative financing mechanisms to provide capital for new or expanding businesses in North Dakota or relocating businesses to North Dakota. A board of directors consisting of eight members, all of whom are appointed by the governor, manages the corporation. The deputy director of the Department of Commerce (a State agency) is the corporation's chief executive officer. The director of the Department of Commerce (governor-appointed cabinet position) is responsible for developing rules, subject to the approval of the board of directors, necessary to implement the administration of the corporation. The Fund was audited by other independent auditors for the fiscal year ended June 30, 2019, and their report has been previously issued under a separate cover.

North Dakota State Fair Foundation – The mission of the North Dakota State Fair Foundation is to develop lifelong relationships with donors to secure philanthropic gifts that will enhance and support the work of the North Dakota State Fair. The Fund of the North Dakota State Fair Foundation were audited by other independent auditors for the fiscal year ended September 30, 2018, and their report has been previously issued under a separate cover.

Major and Non-major University System Foundations (Proprietary Fund Type) – The foundations are legally separate, tax-exempt organizations providing support and recognition to the respective colleges and universities through a variety of programs and activities. The foundations are normally managed by a board of directors made up primarily of alumni, friends or leading members of the communities. The component unit financial statements are presented under Financial Accounting Standards Board (FASB) standards. As such, certain disclosures are not reflected for the Major University System Foundation in the major component unit disclosures and no disclosures are included for the Non-major University System Foundation. A complete set of financial statements can be obtained at the North Dakota University System office at 600 E. Boulevard Avenue, #10, Bismarck, ND 58505.

Complete financial statements for each of the other individual component units may be obtained at the entity's administrative offices as follows:

Building Authority
600 E. Boulevard Ave., 14th Floor
Bismarck, ND 58505-0840

Public Finance Authority
1200 Memorial Highway
Bismarck ND 58504

Comprehensive Health Associations
4510 13th Ave. South
 Fargo, ND 58121

North Dakota Development Fund, Inc.

Bismarck, ND 58503

State Historical Society of North Dakota Foundation
P.O. Box 1976
Bismarck, ND 58502-1976

North Dakota State Fair Foundation
P.O. Box 1796
Minot, ND 58702-1796

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities.

Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

STATE OF NORTH DAKOTA

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation. Net position restricted by enabling legislation are subject to change by a majority vote of the Legislative Assembly.

Unrestricted net position consist of net position that do not meet the definition of the two preceding categories. Unrestricted net position often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net position often have constraints on resources which are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

FUND FINANCIAL STATEMENTS

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

MESUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund (agency funds are excluded as they have no measurement focus) financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

The State follows the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing accounting principles generally accepted in the United States of America for governmental entities.

Governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period.

The State considers tax revenues to be available if they are collected within 60 days of the end of the current fiscal year end. Other revenues are considered to be available if received within one year after the fiscal year end. Major revenues that are determined to be susceptible to accrual include interest, federal grants-in-aid, and taxpayer-assessed taxes such as income, sales, corporate, excise, motor fuel taxes and unemployment compensation contributions. Revenues earned under the terms of reimbursement agreements with other governments or private sources are recorded at the time the related expenditures are made if other eligibility requirements have been met. Sales and use taxes are accrued based upon filings received and an estimate of filings due by June 30. Net income taxes from individuals and corporations are accrued based on current income earned by the taxpayer before June 30. Quarterly filings, withholding statements, and other historical data are used to estimate income. The revenue is accrued net of an allowance for uncollectible taxes. Unearned revenue is recorded for receivables that are measurable but not available at year-end.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to debt service, compensated absences, and claims and judgments, are recorded only when payment is due and payable.

STATE OF NORTH DAKOTA

FINANCIAL STATEMENT PRESENTATION

The State reports the following major governmental funds:

The General Fund is the principal operating fund of the State.

The Federal Fund accounts for all the financial resources from the federal government.

The State Special Revenue Fund accounts for activities from state sources, which are restricted legally or administratively for the particular costs of an agency or program.

The State reports the following major enterprise funds:

The Bank of North Dakota Fund finances economic development throughout the state, participates in loans with North Dakota financial institutions, and holds interest-bearing deposit accounts for state and political subdivisions of North Dakota.

The Housing Finance Agency Fund is authorized to issue bonds to make loans to mortgage lenders for qualified residential mortgage loans and to make mortgage and construction loans for multi-family housing within the State of North Dakota.

The University System Fund accounts for all financial transactions of the colleges and universities that compose the University System of North Dakota.

The Workforce Safety & Insurance Fund is financed entirely by premiums assessed to the employers of North Dakota and provides no-fault medical and disability insurance to all North Dakota employees.

Additionally, the State reports the following fund types:

GOVERNMENTAL FUND TYPES

General Fund accounts for all governmental financial resources, except for those required to be accounted for in other funds.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Permanent Funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry, such as the common schools within the state.

PROPRIETARY FUND TYPES

Enterprise Funds account for those business-like State activities that provide goods/services to the public, financed primarily through user charges. They are also used to account for operations where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability and other purposes. The State's loan programs, Mill and Elevator, and Fair are reported in this type.

Internal Service Funds account for the financing of goods and/or services provided by one department or agency to another department or agency of a government, or to other governments, on a cost-reimbursement basis. These goods and services include motor pool services; printing, reproduction and mailing services; information technology; and risk management services. In the government-wide statements, internal service funds are included with governmental activities.

STATE OF NORTH DAKOTA

FIDUCIARY FUND TYPES

Pension and Other Employee Benefits Trust Funds account for resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plans, defined contribution plan, deferred compensation plan, flexcomp plan, and other post-employment benefit plans.

Investment Trust Funds account for the transactions, assets, liabilities, and fund equity of the external pool participants (City of Bismarck, City of Grand Forks, City of Grand Forks Park District, ND Association of Counties, City of Fargo Fargodome, North Dakota State Board of Medicine, Petroleum Tank Release Compensation Fund, Lewis and Clark Interpretive Center Endowment Fund and Retirement and Investment Office Investments). The State Investment Board (SIB) provides administrative services for the external pool participants. SIB issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 3442 East Century Avenue, Bismarck, North Dakota 58503. Investment Trust Funds are accounted for in essentially the same manner as Proprietary Funds.

Private Purpose Trust Funds account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. Examples include student donations, the State's college savings plan, and a remediation trust.

Agency Funds account for assets held by the State as an agent for other governmental units, or other organizations, and do not involve measurement of results of operations. Examples of funds in this category include state agency funds for bonding, tax collection, child support disbursement, and funds held for others.

D. GENERAL BUDGETARY POLICIES AND PROCEDURES

The State operates through a biennial appropriation that represents departmental appropriations recommended by the governor and presented to the Legislative Assembly at the beginning of each legislative session. The Legislative Assembly enacts the budgets of the various state departments through passage of specific appropriation bills. The governor has line item veto powers over all appropriations subject to legislative override.

Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action. The Emergency Commission can authorize receipt of federal or other moneys not appropriated by the Assembly if the Assembly did not indicate intent to reject the money. The Emergency Commission may authorize pass-through federal funds from one state agency to another. The Emergency Commission may authorize the transfer of expenditure authority between appropriated line items. The Legislature has also passed appropriation laws that authorize directors of certain state agencies to transfer appropriation authority among the various divisions of their specific agency, subject to the Budget Section of the North Dakota Legislative Council's approval. Unexpended appropriations lapse at the end of each biennium, except certain capital expenditures covered under the North Dakota Century Code (NDCC) section 54-44.1-11 and the University System's unexpended general fund appropriation authority.

The State's biennial budget is prepared primarily on a cash basis. The State does not use encumbrance accounting. The legal level of budgetary control is at the agency, appropriation, funding source and expenditure line item level, with administrative controls established at lower levels of detail in certain instances. The State does not formally budget revenues, and it does not budget by fund. The State appropriation is defined through the use of specific expenditure line items. Capital appropriations are generally made at the agency and project level.

North Dakota's Appropriation Act does not present budgets by GAAP fund. Instead, it authorizes General Fund appropriation authority by agency and Other Budgeted Income appropriation authority by agency. Other budgeted income includes all budgeted resources, other than the General Fund, and includes some governmental, proprietary, and fiduciary fund activities.

During the 2017-2019 biennium, there were general, federal and other funds supplemental appropriations totaling \$790,712,092.

E. CASH AND CASH EQUIVALENTS

Cash and cash equivalents for reporting purposes includes cash and short-term, highly liquid investments that are readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. This includes investments with original maturity of three months or less. Also cash, as reported, may be under the control of the State Treasurer or by other administrative bodies as determined by law. Cash and cash equivalents are presented on the fund balance sheets as "Cash Deposits at the Bank of North Dakota" and "Cash and Cash Equivalents" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

STATE OF NORTH DAKOTA

Cash Deposits at the Bank of North Dakota – State agency cash balances, as required by law, are pooled by the State Treasurer and deposited in the Bank of North Dakota, an enterprise fund. These cash balances, in addition to other agency cash deposited at the Bank of North Dakota, are included on the fund balance sheets as "Cash Deposits at the Bank of North Dakota". For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Cash and Cash Equivalents – All cash and cash equivalents, (other than cash deposits at the Bank of North Dakota), as permitted by the North Dakota Century Code, are included on the Government-wide Statement of Net Position as "Cash and Cash Equivalents".

The State had no cash overdrafts from pooled cash and investments at June 30, 2019.

All interest revenue is allocated to the General Fund unless state law (as outlined in the North Dakota Century Code) requires allocations of interest to other funds.

F. INVESTMENTS

Investments are reported at fair value. Quoted market prices, when available, have been used to value investments. The fair value for securities that have no quoted market price represent estimated fair value. International securities are valued based upon quoted foreign market prices and translated into U.S. dollars at the exchange rate in effect at June 30. In general, corporate debt securities have been valued at quoted market prices or, if not available, values are based on yields currently available on comparable securities of issuers with similar credit ratings. Mortgages have been valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar instruments. The fair value of real estate investment securities, including timberland, is based on appraisals plus fiscal year-to-date capital transactions. Publicly traded alternative investments are valued based on quoted market prices. When not readily available, alternative investment securities are valued using current estimates of fair value from the investment manager. Such valuations consider variables such as financial performance of the issuer, comparison of comparable companies' earnings multiples, cash flow analysis, recent sales prices of investments, withdrawal restrictions, and other pertinent information. Because of the inherent uncertainty of the valuation for these other alternative investments, the estimated fair value may differ from the values that would have been used had a ready market existed.

The net change in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year. Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold.

Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security transactions are currently accounted for on a trade date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date.

Purchases of other state funds' debt issues by the Bank of North Dakota have been recorded as normal business transactions if they are the result of arms-length transactions.

Investments are presented on the fund balance sheets as "Investments at the Bank of North Dakota" and "Investments" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

Investments at the Bank of North Dakota – State agency investments, primarily certificates of deposits of the Bank of North Dakota, are included on the fund balance sheets as "Investments at the Bank of North Dakota." For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Investments – State agency investments invested at financial institutions other than the Bank of North Dakota are included on the Government-wide Statement of Net Position as "Investments." Differences on the Fund Balance Sheets between the assets, "Cash at the Bank of North Dakota" and "Investments at the Bank of North Dakota," and the liability, "Deposits Held for Other Funds," is attributable to timing differences resulting from the Bank of North Dakota having a different fiscal year end than many of the other state agencies.

STATE OF NORTH DAKOTA

G. SECURITIES LENDING

GASB Statement No. 28 "Accounting and Financial Reporting for Securities Lending Transactions," establishes accounting and financial reporting standards for securities lending transactions. The standard requires governmental entities to report securities lent as assets in their statements of net position. Cash received as collateral and investments made with that cash must also be reported as both an asset and a liability. The statement also requires the costs of the securities lending transactions to be reported as expenses separately from income received. In addition, the statement requires disclosures about the transactions and collateral related to them.

The Agent lends securities of the type on loan at June 30, 2019, for collateral in the form of cash, U.S. government securities and irrevocable letters of credit. U.S. securities are loaned versus collateral valued at 102% of the market value of the securities plus accrued interest. Non-U.S. securities are loaned versus collateral valued at 105% of the market value of the securities plus accrued interest.

Non-cash collateral cannot be pledged or sold unless the borrower defaults. All securities can be terminated on demand by either the lender or the borrower, although the average term of the loans State's loans was approximately 71 days as of June 30, 2019. Cash open collateral is invested in a short term investment pool, which had an interest sensitivity of 3 days as of this statement date. This pool is valued based on amortized cost. There were no violations of legal or contractual provisions, no borrower or lending agent default losses known to the securities lending agent. There are no dividends or coupon payments owing on the securities lent. Securities lending earnings are credited to participating clients on approximately the fifteenth day of the following month.

Indemnification deals with the situation in which a client's securities are not returned due to the insolvency of a borrower and the Agent has failed to live up to its contractual responsibilities relating to the lending of those securities. The Agent's responsibilities include performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral, and complying with applicable Department of Labor and Federal Financial Institutions Examination Council regulations concerning securities lending.

For securities loaned at fiscal year end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceeds the amounts the borrowers owe the State.

H. INTERFUND ACTIVITY AND BALANCES

INTERFUND ACTIVITY

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets (such as goods or cash) without equivalent flows of assets in return or a requirement for repayment. Residual transfer amounts exist in the Government-wide Statement of Activities due to different fiscal year ends of various agencies included in business-type activities.

INTERFUND BALANCES

Interfund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

I. INVENTORIES AND PREPAID ITEMS

Inventories of Governmental Funds are valued at cost and are recognized principally using the average cost method. Generally, the cost of Governmental Funds' inventories is recorded as an expenditure when consumed rather than when purchased.

Inventories of Proprietary Funds consist primarily of grain inventories from the North Dakota Mill and Elevator Association. Grain inventories are valued at the June 30 Minneapolis grain market values less freight costs to Minneapolis. Flour, feed and resale inventories are valued at ingredient cost plus manufacturing costs incurred in their production. Proprietary Funds expense the cost of consumable supplies when used.

STATE OF NORTH DAKOTA

Generally, inventories of University System Funds are valued at the lower of cost or fair market value. Cost is generally determined on the first in/first out, or moving weighted average method. Inventories consist of food, books, and other merchandise held for resale in auxiliaries and unrestricted physical plant supplies.

Prepaid items reflect payments for costs applicable to future accounting periods. The cost of governmental prepaid items are recorded as expenditures when purchased.

Other government fund inventories and prepaid items are reflected as a reservation of fund balance on the balance sheet.

J. BOND PREMIUMS / DISCOUNTS

In the governmental funds, bond discounts and premiums are treated as period costs in the year of issue. Bond discounts and premiums are shown as an "other financing source (use)" in the statement of revenues, expenses and changes in fund balance.

In the proprietary funds, bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. The unamortized discount is shown on the statement of net position as a reduction of the bonds payable, and the amortization is included in the statement of revenues, expenses and changes in fund balance as interest expense.

K. CAPITAL ASSETS

Capital assets, which include land, buildings, equipment, intangibles (software, easements and other), construction in progress and infrastructure assets, are valued at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their acquisition value on the date of donation. Where necessary, estimates of original cost are derived by factoring price levels from the current period to the time of acquisition. Library books are not capitalized as capital assets except for the University System.

All other capital assets with an original cost of \$5,000 or more per unit and an estimated useful life in excess of one year are capitalized and reported in the applicable government or business-type activities columns in the government-wide financial statements. Exceptions include: infrastructure reported by the Department of Transportation, the threshold is \$100,000 and intangible assets such as easements, water rights, patents and trademarks, the threshold is \$25,000. Capital asset costs include the purchase price or construction cost, plus the costs necessary to place the asset in its intended location and condition for use. In governmental activities, interest costs on self-constructed assets are not capitalized. In business-type activities, interest costs (if material) on self-constructed assets are also included in the cost. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period. Capitalized interest is amortized on the straight-line basis over the estimated useful life of the asset. Normal maintenance and repair costs that do not materially add to the value or extend the life of the asset are not capitalized.

Collections of works of art and historical treasures are not capitalized if the following three criteria are met: (1) Held for public exhibition, education, or research in furtherance of public service, rather than financial gain; (2) Protected, kept unencumbered, cared for, and preserved; (3) Subject to organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, and monuments and other art throughout the capital grounds. Assets that do not meet all three criteria, or that were capitalized as of June 30, 1999, are capitalized and included in the government-wide financial statements.

Infrastructure consists of major statewide public systems and items attached thereto such as freeways, freeway lighting systems, freeway drainage systems, freeway signs, bridges, bridge lighting systems, and sewer systems, including those infrastructure assets acquired prior to June 30, 1980. Infrastructure is reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Department of Transportation uses the first-in first-out method to remove the capitalized cost of a replaced road along with corresponding accumulated depreciation.

Capital assets in Governmental Funds are recorded as expenditures in the funds used to acquire or construct them in the governmental fund financial statements. Capital assets, along with accumulated depreciation and depreciation expense, which includes amortization of intangible assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

STATE OF NORTH DAKOTA

Land and construction in progress are not depreciated. With the exception of infrastructure reported by the Department of Transportation (which uses the composite method), other capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10-50
Infrastructure	10-50
Furniture, Automobiles, and Equipment	3-20
Intangibles	3-99

L. DEFERRED OUTFLOWS OF RESOURCES

Deferred outflow of resources represents a consumption of net position by the government that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources are reported in the applicable governmental or business-type activities columns, or in the component units column on the government-wide Statement of Net Position.

M. LEASE COMMITMENTS

The State leases land, office facilities, office and computer equipment, and other assets. Leases are classified according to GASB 62. Many of these leases have fiscal funding clauses; however, these clauses have no effect on classifying these leases for accounting purposes. Leases which represent acquisitions are classified as capital leases, and the related assets and liabilities are recorded in the financial statements at the inception of the lease. Other leases are classified as operating leases with the lease payments recorded as expenditures or expenses during the life of the lease.

N. FEDERAL FUNDS PURCHASED

Federal Funds Purchased represent federal funds borrowed by the Bank of North Dakota from member banks generally on an overnight basis at the federal funds rate.

O. CLAIMS/JUDGMENTS PAYABLE

Claims/Judgments Payable is primarily Workers Compensation Claims Incurred But Not Yet Reported (IBNR) by the claimants as well as claims related to various litigation matters.

P. COMPENSATED ABSENCES

ANNUAL LEAVE

State employees accrue vested annual leave at a variable rate based on years of service. Teachers employed by the State do not receive annual leave. In general, accrued annual leave cannot exceed 30 days at each year end, as set by the agency. The amount of annual leave earned ranges between one and two days per month, and is fixed by the employing unit per section 54-06-14 of the NDCC.

The governmental fund financial statements recognize annual leave when the liability is incurred and payable from available expendable resources. This normally occurs only if an employee has unused reimbursable leave still outstanding at the time of their termination. The government-wide financial statements present the cost of accumulated annual leave as a liability. Proprietary and Fiduciary Funds recognize the expense and accrued liability when the annual leave is earned.

SICK LEAVE

The North Dakota Century Code, section 54-06-14, states employees accrue sick leave at the rate of one to a maximum of one and one-half working days per month of employment without limitation on the amount that can be accumulated. Employees vest at ten years of creditable service, at which time the State is liable for ten percent of the employee's accumulated unused sick leave. The governmental fund financial statements recognize sick leave as it is incurred. The government-wide financial statements present the estimated cost of sick leave as a liability after an employee has been employed by the State for five consecutive years.

Q. DEPOSITS

The following two liability line items are presented in the Government-wide Statement of Net Position and/or fund financial statements:

STATE OF NORTH DAKOTA

Deposits Held For Other Funds. "Deposits Held for Other Funds" are those deposits held by the Bank of North Dakota for other funds included in the reporting entity and shown on the fund financial statements. For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Other Deposits. "Other Deposits" are those deposits held by the Bank of North Dakota for non-reporting entity third parties. It also includes deposits held for students of the University System.

Differences on the fund balance sheets between the liability "Deposits Held for Other Funds" and the assets "Cash Deposits and Investments at the Bank of North Dakota" are attributable to timing differences resulting from the Bank of North Dakota having a different accounting year end than many other state agencies.

R. NET PENSION LIABILITY

For purposes of measuring the net pension liability and deferred outflows/inflows related to pension, and pension expense, information about the fiduciary net position of the North Dakota Public Employee Retirement System (PERS), North Dakota Highway Patrolmen's Retirement System (NHPRS), Retirement Plan for the Employees of Job Service North Dakota (JSND) and North Dakota Teachers' Fund for Retirement (TFFR) and additions to / deductions from PERS, NDHPRS, JSND and TFFR's fiduciary net position have been determined on the same basis as they are reported for PERS, NDHPRS, JSND and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The primary government's proportionate share of pension amounts were further reallocated to the proprietary funds (business-type activities) based on the amount of employer contributions paid by each proprietary fund. Pension investments are reported at fair value.

S. NET OTHER POST EMPLOYMENT BENEFITS LIABILITY

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Job Service North Dakota engaged an actuary to determine the net OPEB liability, deferred outflows of resources and deferred inflow of resources related to OPEB and OPEB expense for its Met Life Insurance Benefit plan.

T. DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources represent an acquisition of net position that applies to a future period, and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources are reported in the applicable governmental or business-type activities columns or in the component units column on the government-wide Statement of Net Position. Deferred inflows of resources of governmental funds, proprietary fund, and discrete component units are reported in detail in their respective fund statements.

U. NET POSITION/FUND BALANCE

The difference between fund assets and liabilities is "Net Position" on the government-wide, proprietary, and fiduciary fund statements, and "Fund Balance" on governmental fund statements.

CLASSIFICATIONS

Fund balance classifications for governmental funds are reported in two general classifications, nonspendable and spendable. Nonspendable represents the portion of fund balance that is not in spendable form such as inventories and prepaids. Spendable fund balance is further categorized as restricted, committed, assigned, and unassigned.

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by the State constitution and external parties, such as the federal government, or through enabling legislation.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority, the state's legislature, through legislation, that is not considered as enabling legislation, passed into law.

STATE OF NORTH DAKOTA

Assigned fund balance classifications are used when the amounts are to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. The assignment of fund balance is generally initiated by the executive branch and later appropriated by the Legislature for a specific purpose. In governmental funds other than the general fund, assigned fund balance also represents the remaining amount that is not restricted or committed.

Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification would only be used to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The State generally segregates restricted, committed, and assigned resources by individual funds within the governmental funds. When resources meeting more than one of these classifications are comingled within an individual fund, the assumed order of spending is restricted first, committed second, assigned third, and finally, unassigned.

BUDGET STABILIZATION FUND

North Dakota Century Code (NDCC) section 54-27.2-02 requires any amount in the state general fund in excess of sixty-five million dollars at the end of any biennium to be deposited in the Budget Stabilization Fund. Any interest or earnings of the fund must be deposited in the fund per NDCC section 54-27.2-01. However, any amounts provided by law for deposit in the fund and any interest or earning of the fund which would bring the balance in the fund to an amount greater than nine and half percent of the current biennial state general fund budget, as finally approved by the most recently adjourned special or regular session of the legislative assembly, may not be deposited or retained in the fund but must be deposited instead in the state general fund.

NDCC section 54-27.2-03 states that if general fund revenue projections for the biennium will be at least two and one-half percent less than estimated by the most recently adjourned special or regular session of the legislative assembly, and if the governor orders a transfer, which must be reported to the budget section of the legislative management, the state treasurer shall transfer the appropriate funds from the budget stabilization fund to the state general fund to offset the decrease in general fund revenues. The amount transferred upon order of the governor may not exceed the difference between an amount two and one-half percent below the general fund revenue projections for the biennium. The Budget Stabilization Fund, fund balance at June 30, 2019 was \$118,647,704.

V. REVENUES AND EXPENDITURES/EXPENSES

In the Government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g., general government, education, health and human services, etc.). Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes and money from tobacco settlements. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted". General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g., federal grants), available only for specified purposes. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first. In the governmental fund financial statements, expenditures are reported by character: "Current," "Intergovernmental-revenue Sharing," "Capital Outlay," or "Debt Service." Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Capital outlay includes expenditures for real property or infrastructure (e.g., highways). Intergovernmental-revenue sharing accounts for the distribution of certain tax revenues that are shared with local units based upon constitutional and statutory requirements. Debt service includes both interest and principal outlays related to bonds and payments on capitalized leases.

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are sub classified by object (e.g., salaries, depreciation, and purchases for resale). Operating revenues consist of sales of goods and services, quasi-external operating transactions with other funds, grant revenues for specific activities that are considered to be operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. Grants that would qualify as an operating activity are those that do not subsidize an existing program, rather they finance a program the agency would otherwise not undertake. For certain loan and investment programs, revenue that would normally be classified as non-operating should be classified

STATE OF NORTH DAKOTA

as operating. Examples of this would include interest and investment income. All other revenues that do not meet the above criteria should be classified as non-operating.

W. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - RESTATEMENTS

The changes to beginning net position are summarized in the following table (expressed in thousands):

	Government-wide Gov't Activities	Business-type Activities	Internal Service Funds
June 30, 2018, net position, as previously reported	\$ 18,516,218	\$ 3,917,941	\$ 103,786
Prior period adjustments:			
Correction of Errors	(5,955)	-	3,951
Change in Accounting Method:			
Housing Finance	-	4,103	-
June 30, 2018, net position, as restated	<u>\$ 18,510,263</u>	<u>\$ 3,922,044</u>	<u>\$ 107,737</u>

A. CORRECTION OF ERRORS

The beginning net position of the Government-wide governmental activities were restated due to an understatement of expenses of \$3.431 million and an overstatement of construction in progress of \$2.524 million in the prior year. The Internal Service funds were restated for an overstatement of expenses of \$3.951 million in the prior year.

B. CHANGE IN ACCOUNTING METHOD

In previous years, Housing Finance accounted for bond premiums and discounts under the straight-line method. In 2019, Housing Finance changed its method of accounting for bond premiums and discounts to the effective interest rate method. As a result of the differences in methods, a prior period adjustment of \$4.103 million was recorded to the Business-type activities to decrease premiums on bond funds and increase net position as of July 1, 2018.

NOTE 3 - DETAILED NOTES ON ACCOUNT BALANCES

A. DEPOSITS

CUSTODIAL CREDIT RISK

The State minimizes custodial credit risk by restrictions set forth in state statute. Custodial credit risk is risk associated with the failure of a depository financial institution. In the event of a depository financial institution's failure, the State would not be able to recover its deposits or collateralized securities that are in the possession of the outside parties.

State law generally requires that all State funds be deposited in the Bank of North Dakota. NDCC 21-04-01 provides that public funds belonging to or in the custody of the State shall be deposited in the Bank of North Dakota. Also, NDCC 6-09-07 states, "all state funds . . . must be deposited in the Bank of North Dakota" or must be deposited in accordance with constitutional and statutory provisions. The State does not have a formal policy that addresses custodial credit risk for deposits.

At June 30, 2019, the bank balance of the primary government's deposits was \$510,777,595. Of the bank amount, \$195,278,000 was uncollateralized and uninsured.

STATE OF NORTH DAKOTA

There were significant concentrations of uninsured and uncollateralized deposits in the Bank of North Dakota and University System at June 30, 2019. Their uninsured and uncollateralized deposits totaled \$195.3 million and \$23 thousand, and their bank deposits totaled \$196.1 million and \$11.4 million, respectively.

At June 30, 2019, the bank balance of the major component units' deposits was \$96,472,725. Of the bank amount, \$93,328,141 was uncollateralized and uninsured.

The internal receivable amount in the governmental activities column in the Statement of Net Position includes Cash and Investments at the Bank of North Dakota for governmental activities. The internal payable amount in the business-type activities column includes deposits the Bank has for governmental activities. Because the Bank has a different fiscal year end, these internal balances do not equal.

B. INVESTMENTS

The investment policies of the State of North Dakota are governed by NDCC 6-09-07, 15-10-12, and 21-04-02, indicating that all public funds must be deposited in the Bank of North Dakota unless there are other constitutional or statutory provisions. If there are no statutory provisions and the funds are invested outside the Bank of North Dakota, the state agency must have the permission of the North Dakota Industrial Commission.

Investments are generally managed by the State Investment Board, the North Dakota Department of Trust Lands, the Bank of North Dakota, and the North Dakota State Treasurer's Office. Management responsibilities and investment instruments as authorized by statute are as follows:

1. State Investment Board (SIB) – NDCC 21-10 designates the SIB with investment responsibilities for the Public Employees' Retirement System, Bonding Fund, Teachers' Fund for Retirement, Fire and Tornado Fund, Workforce Safety & Insurance Fund, and other specific funds. The Century Code states the SIB shall apply the prudent investor rule in investing funds under its supervision. The retirement funds belonging to the teachers' fund for retirement and the public employees' retirement system must be invested exclusively for the benefit of their members and in accordance with the respective funds' investment goals and objectives.

The State Investment Board's investment policy allows investment managers to use derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments. The SIB had four types of derivative securities at June 30, 2019: futures, options, swaps and currency forwards.

2. North Dakota Department of Trust Lands – The Century Code states that the Department of Trust Lands shall apply the prudent investor rule in investing its funds. The investment policies of the Board allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments.
3. The Bank of North Dakota – NDCC 6-09 authorizes the Bank of North Dakota. The Bank is owned and operated by the State of North Dakota under the supervision of the North Dakota Industrial Commission. The Bank may have investments in anything that any bank lawfully may do, except what is restricted by NDCC 6-09.
4. The North Dakota State Treasurer's Office – The North Dakota Constitution and various sections of the Century Code authorize the State Treasurer to invest all State funds deposited with the State Treasury. However, the State Treasurer must invest the public funds with the Bank of North Dakota unless there is statutory authority to do otherwise. Generally, the State Treasurer pools deposits and invests in money market accounts and Bank of North Dakota certificates of deposit.
5. University System – NDCC 15-55-05 and 15-55-06 govern the investment of proceeds of revenue bonds and revenues pledged to bondholders. Such proceeds must be invested in the Bank of North Dakota, in a separate fund in the State Treasury or in a duly authorized depository for the state funds that is a member of the federal deposit insurance corporation. The University System may invest such funds in direct obligation of, or in obligations where the United States of America guarantees the principal and interest, or obligations of the State of North Dakota or any municipality as defined in NDCC Section 21-03-01.

Agency investments, of the primary government, under management of the State Investment Board are included below with the Pension and Investment Trust funds.

STATE OF NORTH DAKOTA

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The price of a debt security typically moves in the opposite direction of the change in interest rates. The State does not have a formal investment policy that limits investment maturities as a means of managing its exposure to potential fair value losses arising from future changes in interest rates. However, North Dakota Housing Finance's respective bond resolutions permit only investments that will not adversely affect the rating quality of the outstanding bonds. Also, the maturity date or the date on which such investment obligations may be redeemed shall coincide as nearly as practicable with the date or dates on which moneys in the funds or accounts for which the investments were made will be required. The Bank of North Dakota's investment policy provides for a duration range of one to four years, which will serve to decrease interest rate risk.

At June 30, 2019, the following tables show the debt securities of the primary government and major component units by investment type and maturity (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

Investment Type	Total Fair Value	Less Than 1 Year	1 - 6 Years	6 - 10 Years	More Than 10 Years
Asset Backed Securities	\$ 446,612	\$ 347	\$ 71,850	\$ 200,301	\$ 174,114

STATE OF NORTH DAKOTA

The fair values of inflation indexed bonds are reflected in the tables above, based on their stated maturity dates. The principal balances of these bonds are adjusted every six months based on the inflation index for that period.

Some investments are more sensitive to interest rate changes than others. Variable and floating rate collateralized mortgage obligations (CMO's), asset-backed securities (ABS), interest-only and principal-only securities are examples of investments whose fair values may be highly sensitive to interest rate changes.

Interest-only (IO) and principal-only (PO) strips are transactions which involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors, which may result from a decline in interest rates. The State held IOs valued at \$18.8 million and POs valued at \$0.0 million. The State has no policy regarding IO or PO strips.

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The State does not have an investment policy that specifically addresses concentrations of credit risk in a single issuer, however the Bank of North Dakota has established asset allocation ranges for investments as a percentage of their total portfolio.

The Bank of North Dakota had the following concentrations at June 30, 2019 (expressed in thousands):

	<u>Amount</u>	<u>Percent</u>
Federal Agency		
Federal Home Loan Bank	\$ 353,171	19.1%
Small Business Administration	269,264	14.5%
Farm Credit	267,650	14.4%
Freddie Mac	165,635	8.9%
Fannie Mae	79,707	4.3%
Mortgage-backed		
Fannie Mae	344,003	18.6%
Freddie Mac	313,416	16.9%
Others less than 5%	60,960	3.3%
	<u>\$ 1,853,806</u>	<u>100.0%</u>

CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The State maintains a highly diversified portfolio of debt securities encompassing a wide range of credit ratings. Although the State has no overall policy regarding credit risk, each debt securities manager is given a specific set of guidelines to invest within based on the mandate for which it was hired. The guidelines specify in which range of credit the manager may invest. These ranges include investment grade and below investment grade categories. The Bank of North Dakota's investment policy provides minimum credit quality ratings for its investments and asset allocation ranges for investments as a percentage of the total portfolio.

STATE OF NORTH DAKOTA

As of June 30, 2019, the following tables present the debt securities of the primary government and major component units and their respective ratings (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds) S&P Credit Rating*

Total Debt Securities	\$ 98,481				

*Ratings are determined in the following order: 1) S&P rating, 2) Moody's rating, 3) Fitch rating, 4) Manager-determined rating (internal rating) and 5) if no ratings are available using steps 1-4, then shown as not rated.

**US government agency securities explicitly guaranteed by the US government are categorized here. Credit ratings of US government agency securities that are only implicitly guaranteed by the US government are categorized accordingly in the main body of this table. Implicitly guaranteed agency securities included in the *Asset Backed, Commercial Mortgage Backed, Gov't Issued Commercial & Gov't Mortgage Backed, Gov't Agencies, Gov't Bonds, Index Linked Gov't Bonds and Short Term Bills and Notes* categories are issued by FNMA, FHLB, FHLMC, FAMC and TVA.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Although the State Investment Board does not have a formal investment policy governing foreign currency risk, the board does manage its exposure to fair value loss by requiring their international securities investment managers to maintain diversified portfolios to limit foreign currency and security risk. The Department of Trust Lands treats currency exposure in two different ways, depending on the type of investment. For the Board's international equity portfolio, the currency exposure is not hedged, as currency exposure is one of the items that adds diversity to the overall portfolio. For foreign bonds, the Board fully hedges the currency exposure, as the purpose of this portfolio is to generate more consistent returns.

STATE OF NORTH DAKOTA

At June 30, 2019, foreign currency risk exposure on investments managed by the Department of Trust Lands and State Investment Board were as follows (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

Currency	Short-Term	Debt	Equity	Real Estate	Total

STATE OF NORTH DAKOTA

Derivative Securities – Derivatives are financial arrangements between two parties whose payments are based on, or “derived” from, the performance of some agreed upon benchmark. The investment policies of the States’ clients allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative instruments. The fair value of all derivative securities is reported in the Statement of Net Position. At June 30, 2019, the State had four types of derivative securities: futures, options, swaps and currency forwards.

Futures – Futures represent commitments to purchase (asset) or sell (liability) securities at a future date and at a specific price. Futures contracts are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty risk. The net change in the futures contracts’ value is settled daily in cash with the exchanges. Net gains or losses resulting from the daily settlements are included in net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$17.0 million for the year ended June 30, 2019. At June 30, 2019, the State investment portfolio had the notional futures shown below (expressed in thousands).

<u>Futures</u>	<u>Notional Value</u>
Cash and cash equivalent derivative futures	
Long	\$ 188,152
Short	(657,304)
Equity derivative futures	
Long	808,005
Short	-
Fixed income derivative futures	
Long	352,611
Short	(141,400)
Total futures	<u>\$ 550,064</u>

Options – Options represent or give buyers the right, but not the obligation, to buy (call) or sell (put) an asset at a preset price over a specified period. Options are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty credit risk. The option’s price is usually a small percentage of the underlying asset’s value. As a seller of a financial option, the State, through its investment manager, receives a premium at the beginning of the agreement and bears the risk of an unfavorable change in the price of the financial instrument underlying the option. As a buyer of a financial option, the State, through its investment manager, pays a premium at the beginning of the agreement and the counterparty bears the risk of an unfavorable change in the price of the financial instrument underlying the option. Gains and losses on options are determined based on fair values and recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$3.3 million. At June 30, 2019, the State had the following option balances (expressed in thousands):

<u>Options</u>	<u>Fair Value</u>
Cash & Other Options	
Call	\$ (10)
Put	1
Fixed Income Options	
Call	(38)
Put	(241)
Total options	<u>\$ (288)</u>

Swaps – A swap is a derivative in which counterparties exchange certain benefits of one party’s financial instrument for those of the other party’s financial instrument. Specifically, the two counterparties agree to exchange one stream of cash flows for another stream. The State, through its investment managers, has entered into various swap agreements in an attempt to manage its exposure to interest rate, inflation, credit, currency risk and total return.

Gains and losses on swaps are determined based on fair values and are recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$(18.6) million for the year ended June 30, 2019. The maximum loss that would be recognized at June 30, 2019, if all counterparties failed to perform as contracted is \$3.0 million. Swap fair values are determined by a third party pricing source. At June 30, 2019, the States’ investment portfolio had the swap fair value balances as shown below (expressed in thousands).

STATE OF NORTH DAKOTA

Credit Default Swaps

Counterparty/Moody's Rating	Notional Amount	Expiration Date	Fair Value
Bank of America/Aa2 (2 contracts)	\$ (430)	2021 - 2025	\$ (32)

Currency Forwards – Currency forwards represent forward exchange contracts that are entered into in order to manage the exposure to changes in currency exchange rates on the currency denominated portfolio holdings. A forward exchange contract is a commitment to purchase (positive) or sell (negative) a currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts is included in the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$91 thousand. At June 30, 2019, the States' investment portfolio included the currency forwards balances shown below (expressed in thousands).

Currency	Cost	Purchases	Sales	Fair Value
Argentine peso	\$ 15	\$ 15	\$ -	\$ 15
Australian dollar	(1,472)	-	(1,472)	(1,484)
Brazilian real	(18)	-	(18)	(30)
British pound sterling	(8,241)	15,387	(23,628)	(8,279)
Canadian dollar	(8,460)	9,960	(18,420)	(8,491)
Columbian peso	186	186	-	195
Euro	(61,622)	37,046	(98,668)	(62,411)

Total forwards subject to currency risk				<u>\$ (1,265)</u>

STATE OF NORTH DAKOTA

Derivative Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the value of an interest rate-based derivative investment. The State does not have a formal investment policy regarding such derivative investments. At June 30, 2019, the tables below show the States' derivative investments subject to interest rate risk (expressed in thousands).

	Total Notional Value	3 Months or Less	3 to 6 Months	6 to 12 Months	1-5 Years	Greater Than 5 Years
Futures- interest rate contracts	\$ (257,941)	\$ 162,528	\$ (525,813)	\$ 105,344	\$ -	\$ -
Total	\$ (257,941)	\$ 162,528	\$ (525,813)	\$ 105,344	\$ -	\$ -

	Total Fair Value	3 Months or Less	3 to 6 Months	6 to 12 Months	1-5 Years	Greater Than 5 Years
Options on futures	\$ (279)	\$ (279)	\$ -	\$ -	\$ -	\$ -
Swaps - interest rate contracts	(18,130)	-	5	293	(536)	(17,892)

Total	\$ (17,721)	\$ (280)	\$ 7	\$ 298	\$ 240	\$ (17,986)

Mill and Elevator Derivative Financial Instruments – The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2019, and the changes in fair value of such derivative instruments for the year then ended as reported in the State's financial statements are \$15,750, classified as derivative instrument (one contract equals 5,000 bushels) and \$15,750, classified as deferred inflow of resources – accumulated increase in fair value of hedging derivatives. The fair value of the grain futures contracts was determined on the Minneapolis Grain Exchange. The margin requirement is \$0.60 per bushel, unless the market price changes the limit for two consecutive days, then the margin requirement is \$0.90 per bushel. The Mill has entered into futures contracts for spring wheat to lock in a price for a future delivery or settlement period. These contracts are entered into to protect the Mill against price fluctuation of the commodity. The price protection is needed to cover any long or short positions compared to flour sales. The table below shows the cost and market values of these spring wheat futures as of June 30, 2019.

Month	Number of Contracts	Average Cost	Fair Value	Average Cost	Market Value
Sept 2019	-5	\$ 5.5288	\$ 5.5425	\$ (142,062)	\$ (138,562)
Dec 2019	286	5.7122	5.6750	8,186,301	8,115,250
Mar 2020	133	5.7949	5.8100	3,850,638	3,863,650
May 2020	73	5.6847	5.8875	2,076,900	2,148,938
July 2020	10	6.0000	5.9650	300,000	298,250
				\$ 14,271,777	\$ 14,287,526

The Mill is exposed to credit risk on hedging derivative instruments that are in asset positions. All grain futures trades are completed using two different national brokerage firms on the Minneapolis Grain Exchange. ADM Investor Services is rate A by the Standard & Poor's Rating Service. RJ O'Brien is a privately held business and is not rated by the Standard & Poor's Rating Service.

STATE OF NORTH DAKOTA

The Mill is exposed to rollover risk on grain futures trades whenever the hedge ratio (defined in aggregate of the size across all futures months relative to the underlying net cash position) does not equal 1.0. At June 30, 2019, the table below shows the hedge ratio by futures month going forward:

<u>Period</u>	<u>Hedge Ratio</u>
Sept 2019	1.0
Dec 2019	1.0
Mar 2020	1.0
May 2020	1.1
July 2020	1.0
Net Position	1.0

C. SECURITIES LENDING

The following represents the balances relating to the securities lending transactions at June 30, 2019 (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

<u>Securities Lent</u>	<u>Underlying Securities</u>	<u>Non-Cash Collateral Value</u>	<u>Cash Collateral Investment Value</u>
Lent for cash collateral:			
US agency securities	\$ 13,215	\$ -	\$ 13,513

Total	\$ 1,033,395	\$ 761,803	\$ 290,887

D. ENDOWMENT FUNDS

UNIVERSITY SYSTEMS

The endowment funds reported herein are institutional funds under the terms of the gift instrument and are not wholly expendable by the institution. NDCC Section 59-21, the Uniform Prudent Management of Institutional Funds Act (UPMIFA) applies to the investment of endowments governed by a gift instrument. NDUS SBHE policy 810 stipulates endowment funds shall be invested according to the intent of the donor provided such intent is consistent with applicable laws. Absent terms expressing donor intent in a gift instrument, NDUS institution officers initially shall deposit the funds in institution accounts at the Bank of North Dakota. Thereafter, the funds may be invested according to NDCC 59-21. Subject to the intent of the donor, NDUS institution officers are delegated authority to manage and invest these institutional funds as provided by UPMIFA. NDCC Section 59-21-02.5a(7) applies to standard of conduct in the administration of powers to make and retain investments. It states that in managing and investing an institutional fund,

STATE OF NORTH DAKOTA

the needs of the institution and the fund to make distributions and to preserve capital must be considered. Given the flexibility in NDCC 59-21-02, institutions have differing policies with respect to spending investment income and net appreciation on endowment funds. For UND, distributions for spending endowments each year will be calculated once annually with the quarter ended December 31 unitized market value and is based on the set spending rate, currently four percent, applied to the average market value for the preceding twelve quarter average. All endowment in existence at December 31 for one year will receive a distribution spending allocation. The available amount will be forecast to UND for planning purposes by February 1, and these distributions will be available for spending in the upcoming fiscal year. NDSU determines the spending of endowment earnings based on an annual evaluation. WSC give departments authority to spend all investment income earned on the endowment funds. Net appreciation on investments are available for expenditure and consist of the following at June 30, 2019:

North Dakota State University	\$ 233,027	Reflected in net position as:
University of North Dakota	937,935	Expendable scholarships & fellowships
Williston State College	2,731	Non-expendable scholarships & fellowships
Total NDUS	<u>\$ 1,173,693</u>	Non-expendable scholarships & fellowships

Endowment funds reported herein do not include the Federal Land Grant Fund held by the State Department of Trust Lands. The annual proceeds from assets held by the Commissioner of the State Department of Trust Lands and are deposited into each college/university's operating fund at the State Treasury and are used for current operating purposes. Bismarck State College, Lake Region State College and Williston State College do not participate in the proceeds allocated by the State Land Department. Total assets held by the State Land Department and proceeds for the fiscal year ended June 30, 2019 are approximately \$185.2 million and \$6.1 million respectively.

NORTH DAKOTA STATE FAIR FOUNDATION

The North Dakota State Fair Association Foundation had the following activity in their endowment as of September 30, 2018.

Beginning endowment	\$ 2,149,492
Endowment contributions	6,000
Ending endowment	<u>\$ 2,155,492</u>

E. RECEIVABLES

F. REVERSE REPURCHASE AGREEMENTS

State statutes permit the State to enter into reverse repurchase agreements, that is, the sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the dealers a margin against a decline in fair value of the securities. All sales of investments under these agreements are for fixed terms. In investing the proceeds of these agreements, State policy is for the term to maturity of the investment to be the same as the term of the agreement. Such matching existed at year end. These agreements are secured by Fed book-entry securities held in the State's name. At June 30, 2019, the State had no reverse repurchase agreements outstanding and did not participate in reverse repurchase agreements during the fiscal year.

G. INTERFUND ACCOUNTS AND TRANSFERS

DUE FROM OTHER FUNDS/DUE TO OTHER FUNDS

Interfund balances at June 30, 2019, consist of the following (expressed in thousands):

Due To General Fund From:	
Federal Fund	\$ 73,490
State Fund	28,357
Bank of North Dakota	821
Nonmajor Enterprise Funds	31,336
All Others	751
Total Due To General Fund	<u>\$ 134,755</u>

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$15,153,282. This is not expected to be repaid within one year.

Due To Federal Fund From:		Due To State Fund From:	
General Fund	\$ 7,032	General Fund	\$ 5,140
State Fund	26,129	Federal Fund	11,184
All Others	17	Internal Service Funds	191
Total Due To Federal Fund	<u>\$ 33,178</u>	Nonmajor Enterprise Funds	531
		All Others	236
		Total Due To State Fund	<u>\$ 17,282</u>

STATE OF NORTH DAKOTA

Due To Internal Service Funds From:		Due To Bank of North Dakota From:	
General Fund	\$ 3,992	State Fund	\$ 52,081
State Fund	2,541	Nonmajor Enterprise Funds	62,969
University System	1,186	University System	2,229
All Others	1,226	All Others	80
	<u>\$ 8,945</u>	Total Due To Bank of North Dakota	<u>\$ 117,359</u>

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$10,288,000, of which \$8,410,000 is not expected to be repaid within one year.

Due To University System From:	
General Fund	\$ 12,192
Federal Fund	2,493
State Fund	3,122
Nonmajor Enterprise Funds	756
All Others	88
Total Due To University System	<u>\$ 18,651</u>
Due To All Other Funds From:	
All Other	<u>\$ 1,095</u>

Included in this category are all other enterprise funds and fiduciary funds.

These balances are a result of a time lag between the dates that (1) services are provided and goods received or reimbursable expenditures occur, (2) the payments are made, (3) the transactions are entered into the accounting system, and (4) because of transactions occurring between funds with a fiscal year other than June 30, 2019.

A reconciliation of Due From's and Due To's is presented below (expressed in thousands):

Due From's	\$ 331,265
General Fund/Bank of ND	634
Bank of ND/ Mill and Elevator	(7,812)
Bank of ND/Rebuilder's Loan	(952)
Bank of ND/University System	(756)
Bank of ND/Guaranteed Student Loan	(171)
Governmental Agencies/Bank of ND	(37,606)
Bank of ND/Enterprise Funds	57
Total Differences	<u>(46,606)</u>
Due To's	<u>\$ 284,659</u>

The previous table represents timing differences between agencies as a result of different fiscal year ends. Those agencies with a different fiscal year end include: Bank of North Dakota and the following Nonmajor Enterprise Funds: Guaranteed Student Loan, Beginning Farmer Revolving Loan and Community Water Facility Loan, all of which have a December year end and State Fair, which has a September year end.

STATE OF NORTH DAKOTA

INTERFUND TRANSFERS

A summary of interfund transfers for the fiscal year ended June 30, 2019, follows (expressed in thousands):

	General	Special Revenue Federal	Special Revenue State	Non-major Governmental	Housing Finance	University System	Non-major Enterprise	Total
Transfers Out								
General	\$ -	\$ 1,399	\$ 3,719	\$ 2,172	\$ -	\$ 383,016	\$ 258	\$ 390,564
Special Revenue - Federal	253	-	38,288	281	-	-	-	38,822
Special Revenue - State	130,260	18	-	1,253	168	13,114	200	145,013
Non-major Governmental	953	-	1,104	-	-	-	-	2,057
Bank of North Dakota	70,000	-	12,403	-	-	-	42,750	125,153
Housing Finance	-	-	38	-	-	-	-	38
University System	-	-	214	3,599	-	-	96	3,909
Non-major Enterprise	16,168	-	1,315	-	-	-	-	17,483
Total	\$ 217,634	\$ 1,417	\$ 57,081	\$ 7,305	\$ 168	\$ 396,130	\$ 43,304	\$ 723,039

(Transfers In do not agree to the statements due to the timing differences noted below.)

Transfers are used for the following purposes:

- Move general fund appropriation amounts to certain agencies.
- Move revenues from the fund that statute requires to collect them to the fund authorized to spend them.
- Move certain excess revenues collected in other funds to the general fund.
- Move receipts restricted for debt service from the funds collected to the debt service funds as payments become due, and move capital project funds paying the construction costs.

For the year ended June 30, 2019, legislatively-mandated transfers were made to the general fund of \$8,600,000 from the State Lottery, \$7,568,325 from Mill and Elevator, \$4,824,460 from the Insurance Regulatory Trust Fund, \$124,000,000 from the Tax Relief fund, \$124,000,000 from Strategic Investment and Improvement Fund, \$70,000,000 from the Bank of North Dakota, \$455,263,216 from the Legacy Fund and \$1,249,063 from the multi-state tax audit fund.

A reconciliation of Transfers In and Transfers Out is presented below (expressed in thousands):

	\$ (709,339)
Differences:	
Special Rev - Ag PACE / Bank of North Dakota	1,500
Special Rev - PACE / Bank of North Dakota	(700)
PACE / Beginning Farmer Revolving Loan	1,500
Infrastructure Revolving Loan Fund / Bank of North Dakota	<u>(16,000)</u>
Total Differences	<u>(13,700)</u>
Transfers Out	<u>\$ (723,039)</u>

The above timing differences of \$13,700,000 result from transactions between agencies that have different fiscal year ends. Those agencies with a different fiscal year end include: Bank of North Dakota, and Nonmajor Enterprise Fund Beginning Farmer Revolving Loan fund, both of which have a December year end. This difference is also the total net transfers on the Government-wide Statement of Activities.

STATE OF NORTH DAKOTA

H. CAPITAL ASSETS

*Interest expense related to capital asset debt was approximately \$15.4 million in fiscal year 2019, of which approximately \$4.0 million was capitalized and included in construction in progress.

STATE OF NORTH DAKOTA

I. OPERATING LEASES

PAYMENTS ON OPERATING LEASES

The State is obligated under certain leases accounted for as operating leases. Operating leases do not give rise to property rights or lease obligations, and therefore, the resulting expenditures are recognized as incurred. Lease expenditures for the year ended June 30, 2019, amounted to \$20.9 million for governmental activities and \$17.1 million for business-type activities.

Future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of June 30, 2019, for all fund types are as follows (expressed in thousands):

Year Ending June 30	Governmental Activities	Business-type Activities
2020	\$ 11,496	\$ 11,633
2021	8,907	9,410
2022	4,709	5,985
2023	4,065	3,880
2024	2,773	1,561
2025-2029	4,876	1,503
2030-2034	749	473
2035-2039	-	47
Total Minimum Lease Payments	<u>\$ 37,575</u>	<u>\$ 34,492</u>

J. CAPITAL LEASES

The State is obligated under certain leases accounted for as capital leases. In the government-wide and proprietary fund statements, capital assets and a corresponding liability are recorded at the inception of the lease. The liability is reduced by payments of principal, with a portion of the payment allocated to interest expense. For capital leases in governmental funds, other financing sources and expenditures are recorded at lease inception. Lease payments are recorded as debt service expenditures.

The schedule below lists the future minimum lease payments under these capital leases and the present value of the net minimum lease payments at June 30, 2019 (expressed in thousands):

Year Ending June 30	Governmental Activities	Business- type Activities	Major Component Units
2020	\$ 527	\$ 7,123	\$ 128
2021	457	6,577	128
2022	136	6,279	128
2023	70	5,948	127
2024	16	5,544	127
2025-2029	-	16,422	638
2030-2034	-	12,111	574
2035-2039	-	5,143	-
2040-2044	-	3,239	-
2045-2049	-	2,594	-
2050-2054	-	825	-
Total Minimum Lease Payments	1,206	71,805	1,850
Less: Amount Representing Interest	(87)	(17,445)	(533)
Present Value of Future Minimum Lease Payments	<u>\$ 1,119</u>	<u>\$ 54,360</u>	<u>\$ 1,317</u>

STATE OF NORTH DAKOTA

The historical costs of assets acquired under capital leases, and included as capital assets on the government-wide Statement of Net Position at June 30, 2019, is as follows (expressed in thousands):

	Governmental Activities	Business- Type Activities	Major Component Units
Infrastructure	\$ -	\$ 60	\$ -
Buildings	-	52,430	1,979
Intangibles	-	156	-
Equipment	2,381	16,204	-
Less: Accumulated Depreciation	(1,755)	(18,247)	(1,027)
Total	<u>\$ 626</u>	<u>\$ 50,603</u>	<u>\$ 952</u>

K. DEFERRED OUTFLOWS OF RESOURCES

FINANCIAL DERIVATIVE INSTRUMENT

The State enters into interest rate swap agreements to modify interest rates on certain liabilities. The fair values of both hedging derivatives and investment derivatives (if any) are presented on the Statement of Net Position, either as a derivative liability (negative fair value) or as a derivative asset (positive fair value). The change in the total fair value of derivatives that are determined to be effective hedges is recorded as a deferred inflow or outflow of resources on the Statement of Net Position. If a derivative were determined to be an ineffective hedge, it would be classified as an investment derivative, and the change in the total fair value would be presented as part of investment earnings.

DEFERRED LOSS ON BOND REFUNDING

A deferred charge on refunded debts results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

L. LONG-TERM DEBT

Debt authorized is generally limited by the state constitution. The Constitution of North Dakota provides that the State may issue or guarantee the payment of bonds, provided that all bonds in excess of \$2 million are: (1) secured by first mortgage upon property and no further indebtedness may be incurred by the State unless evidenced by a bond issue; (2) authorized by law; (3) for a certain purpose; (4) provisioned to pay the interest semiannually; and (5) the principal is paid within 30 years. Additionally, the law authorizing the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond.

1. REVENUE BONDS

Bonds payable at June 30, 2019, consisted of bonds issued by the State and are accounted for by the respective state agencies in the government-wide financial statements that issued the bonds.

Current state statutes empower certain state agencies to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on such bonds shall be payable only from the applicable agency's program income.

Primary Government

Building Authority

The 2010 Series A and B, the 2012 Series A and the 2017 Series A bonds have interest payable semiannually on June 1 and December 1 of each year. The 2010 Series A bonds are subject to optional redemption in whole or in part. The 2010 Series B, the 2012 Series A and the 2017 Series A bonds are not subject to optional and/or extraordinary optional redemption prior to maturity upon the occurrence of certain events. The bonds are independently secured by the funds, certain mortgaged property, and all rights, titles, and interests of the Building Authority as lessor, including all basic rent payments, investment earnings on the funds and any other income derived by the Building Authority with respect to the lease. Total net revenue pledges for fiscal year 2019 were \$6.3 million. For fiscal year 2019, principal and interest paid by the Authority on the bonds was \$6.3 million. The total principal and interest remaining to be paid as of June 30, 2019, is \$30.8 million payable through December 2030.

STATE OF NORTH DAKOTA

The 2010 bond agreements require the establishment and maintenance of reserve funds to be used for debt service payments if amounts in the bond funds are insufficient to make payments. Funds are also required for any positive arbitration due to the Federal government.

Department of Transportation

The North Dakota Department of Transportation (NDDOT) is authorized pursuant to NDCC 24-02-40.1, to issue grant and revenue anticipation bonds for the purpose of financing certain qualified federal aid transportation projects. The Series 2005 Bonds are limited obligations of NDDOT, payable solely from the Trust Estate, consisting primarily of federal transportation funds and pledged state highway funds. The Series 2005 Bonds will not be deemed or construed as creating an indebtedness of the State within the meaning of the State Constitution or laws of the State concerning or limiting the creation of indebtedness of the State. The total principal and interest remaining to be paid on the bonds is \$5.3 million payable through June 2020. For the current year principal and interest paid and total net pledged revenues before interest expense were \$5.3 million and \$5.3 million, respectively. The funds pledged for the NDDOT 2005 bond issue consist of state funds in the State Highway Fund from the following sources: Highway Tax Distribution Fund, fee and permit revenues, interest revenue and miscellaneous sales of scrap materials and obsolete equipment. The pledged funds do not include any funding deposited into the State Highway Fund from the State General Fund. The proportion of the specific revenue stream pledged was 98.5% in 2019.

Interest on the Series 2005 Bonds is payable on June 1 and December 1, of each year. Bonds maturing on or after June 1, 2016, are subject to redemption prior to maturity at the option of NDDOT, at a redemption price equal to 100% of the principal amount plus accrued interest.

Student Loan Trust

Interest is payable semiannually on June 1 and December 1 of each year. The 2004 Series A Bonds are variable rate bonds. The rate of interest is determined based on one-month LIBOR plus 0.7%. The maximum rate of interest is 12% per annum. Details of the terms and provisions of the variable rate bonds are outlined in Section 2.1 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution. Section 2.2 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution has deemed these to be Federally Taxable Bonds. The Series 2004 Bonds are subject to redemption prior to maturity at the option of the Commission from any source of funds, in whole or in part, on any date at a redemption price equal to 100% of the principal amount plus accrued interest to date of redemption.

The total principal and interest remaining to be paid on the outstanding bond is \$1 million payable through June 2029. For fiscal year 2019, revenue pledged and total principal and interest paid by Student Loan Trust were \$46,000 and \$30,000, respectively.

Housing Finance

Housing Finance Bonds were issued to provide financing to purchase mortgage loans to finance multifamily housing projects. The bonds are the direct obligation of the Housing Finance Agency and are secured by the mortgage loans purchased under the applicable resolutions; the revenues, prepayments, insurance and foreclosure proceeds received related to the mortgage loans; and certain funds and accounts established pursuant to the applicable bond resolution.

Revenues Pledged – The agency has homeownership bonds outstanding in the amount of \$1.25 billion maturing at various times from July 1, 2019 through January 1, 2050. The bonds have been issued to provide financing to purchase mortgage loans. Annual principal and interest payments on the bonds are expected to require 98 percent of net revenues. Principal and interest paid for the current year and total customer net revenues were \$104.1 million and \$23.5 million, respectively. Bond principal was reduced through customer revenues and the refunding of older bonds with proceeds from new bond issues.

Pursuant to the Series Resolutions adopted to date and under the 1994 and 2009 General Resolutions, the revenues generated by the Program Loans (but not the Program Loans themselves) are pledged to secure the Bonds. The Agency is permitted by terms of the General Resolutions to issue Bonds and pledge Revenues pursuant to the Series Resolution which exceed the amount required to meet the obligations of that Series of Bonds. In such event, it is likely that any such Series of bonds would produce excess Revenues which could be available to redeem the related Series of bonds or any other Series of Bonds prior to the state maturities thereof.

The Agency also had multifamily revenue bonds in the amount of \$9.25 million that mature on August 1, 2020. The bonds have been issued to pay a portion of the cost of acquiring, rehabilitation and equipping a 186 unit multifamily residential rental property located in Fargo, North Dakota. The bonds will be payable solely from the revenues and other

STATE OF NORTH DAKOTA

money assigned to secure that payment, which include payments required by the loan agreement. Such payment shall cover the entire principal and interest payment for the bond.

University System

Revenue bonds are limited obligations of the University System. The principal and interest on the bonds are payable generally from the net income of specific auxiliary activities, designated student fees, interest subsidies and debt service reserve funds. These revenues are generally pledged to the payment of bonds in accordance with the specific terms of the specific indenture. Net pledged revenues for fiscal year 2019 were \$19.4 million. Principal and interest paid for the current fiscal year were \$19.4 million, with total remaining principal and interest of \$357.88 million payable through fiscal year 2044.

State Fair Association

Capital Financing Program Bonds Series 2015 – Interest is payable semi-annually on June 1 and December 1 of each year. The bonds maturing on June 1, 2029 are not subject to optional redemption prior to maturity except under extraordinary circumstances. The bonds are secured by the Association's net revenues and by the lodging tax proceeds from the City of Minot, North Dakota.

Major Component Units

Public Finance Authority

The bonds of the Public Finance Authority were issued to provide financing to purchase municipal securities in order to provide local political subdivisions with funds to finance local projects. The bonds are direct obligations of the Public Finance Authority and are secured by municipal securities purchased under the applicable resolutions, interest earnings and certain accounts established pursuant to the applicable bond resolutions. Net pledged revenues for fiscal year 2019 were \$24.7 million. Principal and interest paid for the current fiscal year were \$44.4 million, with total remaining principal and interest of \$734.0 million payable through June 2045.

Major Component Units

	<u>Maturities</u>	<u>Interest Rates</u>	<u>Balance 6/30/19</u>
University System Foundation	2020-2036	2.43-4.35	\$ 9,995
State Fair Foundation	2020-2022	4.22	<u>79</u>
Total Revenue Bonds Payable— Major Component Units			<u>\$ 10,074</u>

- ¹⁾ These notes payable represent FHLB long-term advances. The advances must be secured by minimum qualifying collateral maintenance levels. Residential, student, agriculture and commercial loans with carrying values of \$1.47 billion are currently being used as security to meet these minimum levels.

Short Term Borrowings:

The Bank of North Dakota issued short-term debt to fund loans on a short-term basis.

The ND Housing Finance Agency maintains a collateral pledge agreement with the FHLB covering secured advances whereby the Agency has agreed to retain residential real estate loans and marketable securities, free of all other pledges, liens and encumbrances. The pledged loans and securities are discounted by FHLB when determining their borrowing capacity. The aggregate borrowing capacity of eligible collateral was approximately \$85,066 as of June 30, 2019. In addition, borrowings are collateralized by \$30,673 of loans receivable and \$136 of cash and investments. The Agency borrowed and paid back \$37.3 million during the year ended June 30, 2019.

Debt service requirements to maturity for notes payable for the fiscal years ending June 30 are summarized below (expressed in thousands):

3. CERTIFICATES OF PARTICIPATION

Primary Government

University System

On September 1, 2018, the University of North Dakota (UND) entered into a lease-purchase agreement with Johnson Controls PI Project Site Operations, LLC (Johnson Controls) to construct and operate a new steam plant and make other energy conservation improvements. To fund the project, UND issued Series 2018A and 2018B Certificates of Participation through Trust Agreement with the Bank of North Dakota, as the Trustee. The certificates have interest rates ranging from 3.55 to 5.0 percent and are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

The Series 2018A certificates were issued at a par value of \$76.6 million, with a net premium of \$3.8 million. Beginning in fiscal year 2019, UND will make semi-annual interest-only payments through fiscal year 2040. The semi-annual interest-only payments in fiscal years 2019 and 2020 are for capitalized interest paid with bond proceeds. The first principal payment will be due in fiscal year 2041. The certificates mature in fiscal year 2057.

The Series 2018B certificates were issued at a par value of \$16.5 million, with no premium or original issue discount. Beginning in fiscal year 2019, UND will make semi-annual interest-only payments through fiscal year 2023. The semi-annual interest-only payments in fiscal years 2019 and 2020 are for capitalized interest paid with bond proceeds. The first principal payment will be due in 2024. The certificates mature in fiscal year 2041.

The following is a schedule of certificates of participation outstanding at June 30, 2019 (expressed in thousands):

Primary Government

	Maturities	Interest Rates	Balance 6/30/19
<u>Proprietary Activities:</u>			
University System	2024-2057	3.55 – 5.00	\$ 96,843

Debt service requirements to maturity on the certificates of participation for the fiscal years ending June 30 are summarized below (expressed in thousands):

Primary Government

* Bonds payable reductions include amortization of premium and discount. Payments of long term debt (notes payable, bonds payable and capital leases payable) for governmental activities includes payments on capital leases payable for internal service funds of \$11,324 and amortization of bond premiums of \$459.

**Included above are amounts classified as Due to Component Units in the Statement of Net Position for the University System as follows, expressed in the thousands.

	Business-Type Activities		Major Component Units	
	Total	Current	Total	Current
Notes Payable	\$ 160	\$ 56	\$ 9,995	\$ 817
Bonds Payable	18,495	1,765	46,230	3,412
Capital Leases Payable	17,392	1,522	1,317	64
Intergovernmental Payable	-	-	621	32
Total	\$ 36,047	\$ 3,343	\$ 58,163	\$ 4,325

STATE OF NORTH DAKOTA

Internal service funds predominately serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, internal service funds included in the above amounts consist of \$18,287 of capital leases payable, \$2,435,298 of compensated absences and \$8,125,638 of claims and judgments. Other governmental activities compensated absences generally have been liquidated by the General Fund (66.4%), the Highway Fund (15.5%), the Federal Fund (7.5%), and other various funds. Other governmental activities claims and judgments have all been liquidated by the Petroleum Release Compensation Fund.

M. ARBITRAGE REBATE PAYABLE

Arbitrage as it applies to government financing refers to the ability of state governments to obtain funds at a tax-exempt rate of interest and to then invest those funds in investments which earn a higher yield, resulting in a profit to the issuer.

The arbitrage rebate rules require that any earnings from the investment of the tax-exempt bond proceeds which exceed the yield on the bonds be remitted to the federal government.

The State has an arbitrage rebate payable to the federal government of approximately \$93,000 at June 30, 2019. These amounts are reported in the Government-wide and Proprietary Fund Type financial statements as an intergovernmental payable.

N. DEFERRED INFLOWS OF RESOURCES

GRANTS RECEIVED PRIOR TO TIME REQUIREMENTS

This amount represents unavailable revenue. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available

INCREASE IN FAIR VALUE OF HEDGING DERIVATIVES

This amount represents the changes in fair value of futures.

O. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value measurements are used to record fair value adjustments to certain assets, deferred outflows of resources, liabilities and deferred inflows of resources to determine fair value disclosures.

FAIR VALUE HIERARCHY

In accordance with GASB Statement No. 72, assets, deferred outflows of resources, liabilities and deferred inflows of resources are grouped at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1: Valuation is based upon quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3: Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as practical expedient are not classified in the fair value hierarchy.

STATE OF NORTH DAKOTA

DETERMINATION OF FAIR VALUE

In accordance with GASB Statement No. 72, fair values are based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the State's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy.

The following is a description of the methodologies used for instruments measured at fair value.

Securities classified in Level 1 are valued using quoted prices in active markets for those securities. Securities classified in Level 2 and Level 3 are valued using methodologies such as various bid evaluations, market averages and other matrix pricing techniques as well as values derived from associated traded securities or last trade data. In instances where inputs used to measure fair value fall into different levels, the fair value is categorized based on the lowest level input that is significant to the valuation.

Investments valued at the net asset value (NAV) per share (or its equivalent) have been classified separately in the table below and include investments considered to be *alternative investments* as defined by the AICPA. The definition includes investments for which a readily determinable fair value does not exist (that is, investments not listed on national exchanges or over-the-counter markets, or for which quoted market prices are not available from sources such as financial publications, the exchanges, or NASDAQ). These types of investments can be held within any of the asset classes used by the State based on underlying portfolio holdings and analysis of risk and return relationships. These investments can be structured in different ways, including limited partnerships, limited liability companies, common trusts and mutual funds. Some are closed-ended with a specific life and capital commitment while others are open-ended with opportunity for ad hoc contributions or withdrawals and termination upon proper notice.

Commingled/Mutual Funds – These types of funds are generally open-ended funds and may be utilized in equities or fixed income asset classes. They are funds made up of underlying securities that have readily available fair values (publicly traded stocks or bonds). The State owns units of these funds rather than the individual securities. Contributions or withdrawals from these funds can be made as needed, generally with daily or monthly liquidity, with a notice period of one to fifteen days. Because they are liquid funds, there are no unfunded commitments for these types of investments.

Private Credit – These investments include loans to private companies, privately placed debt of public companies, or loans backed by real assets. Loan repayment can be derived from either cash flows from an operating company or cash flows generated by a physical or esoteric asset. Private debt is typically secured and has various protections/covenants in place. The debt is customized to the borrower's requirement, thus rendering it illiquid. The State includes these strategies within its global fixed income allocation through limited partnership-type structures. Private credit issuers may be investment grade but are typically below-investment grade and similar in some respect to the syndicated bank loan and high yield markets. The State employs two senior private debt funds, commonly referred to as direct lenders, which are structured as custom managed accounts that are not eligible for redemptions during remaining investment lives of 2 to 3 years, and the unfunded commitments totaled \$146.2 million as of June 30, 2019.

Private Equity - Private Equity investments are typically private interests in corporations across different areas of the capital structure and in different stages of the corporations' development via limited partnership vehicles. Private Equity investments are illiquid and long term in nature (10-12 years), typically held until maturity. Private Equity portfolios generally have a "J-Curve Effect" whereby there are low to negative returns in the initial years due to the payment of investment management fees and initial funding of investments made by the General Partner during a period when investments are typically carried at cost and returns have not been realized. To diversify the program, Private Equity investments are made across business cycles, vintage years, and different strategies. The State has a dedicated sub-asset class for private equity investments within its global equity allocation in the pension pool. The State does not the option to request redemptions from its private equity funds. The General Partner distributes earnings and proceeds from the sale of the underlying investments as transactions occur. The State has \$339.9 million in unfunded private equity commitments as of June 30, 2019.

Venture Capital – These include investments in companies in a range of stages of development from start-up/seed stage, early stage, and later/expansion stage. Investments are typically made in years one through six and returns typically occur in years four through ten.

Buyouts – These include investments in funds that seek out and purchase underperforming or undervalued companies in order to improve them and sell them or take them public many years later. These funds are also often involved in management buyouts, which are buyouts conducted by the management of the company being purchased, and they often play key roles in leveraged buyouts, which are buyouts that are funded with borrowed money.

STATE OF NORTH DAKOTA

Distressed Debt – These include investments in the debt instruments of companies which may be publicly traded or privately held that are financially distressed and are either in bankruptcy or likely candidates for bankruptcy. Typical holdings are senior and subordinated debt instruments, mortgages and bank loans. The State includes these types of investments in its private equity asset class. As of June 30, 2019, unfunded commitments in one of its two distressed debt funds totaled \$76.9 million. The fund is not eligible for redemptions. The other fund is eligible for redemptions with quarterly liquidity and 60 days notice, and has no unfunded commitment.

Mezzanine Debt – This strategy is a hybrid of debt and equity financing. It is basically debt capital that gives the lender the rights to convert to an ownership or equity interest in the company if the loan is not paid back in time and in full. It is generally subordinated to senior debt. The State utilizes this strategy, through a limited partnership structure, in its global fixed income allocation. The two funds in this category are not eligible for redemptions, have remaining lives of 2-5 years, and unfunded commitments of \$8.5 million as of June 30, 2019.

Equity Long/Short – This strategy is a combination of long and short positions, primarily in publicly traded equities. The State utilizes this strategy, through a limited partnership structure, with its global equity allocations. This is an open-ended fund with monthly liquidity with a notice period of 15 days. There was no unfunded commitment as of June 30, 2019.

Real Assets – These investments are intended to provide allocations to tangible assets that are expected to be inflation protected and provide performance above the inflation rate as indicated by the CPI. Investments are generally structured as limited partnerships or limited liability companies. Investments in Real Estate Assets include Real Estate, Timberland and Infrastructure, as discussed below.

Real Estate – includes investments in private vehicles through limited partnerships or commingled vehicles that have an ownership interest in direct real estate properties. The investment strategies may include “value added” strategies, which derive their return from both income and appreciation, “opportunistic”, which derive their return primarily through appreciation, and “alternative” which invest in less traditional types of property. Both domestic and international real estate funds are utilized. The State has a dedicated sub-asset class for these types of investments within global real assets. There are currently 10 different real estate funds in the portfolio. Three of those funds are open-ended vehicles that accept redemption requests quarterly with a 30-90 day notification period. The remaining seven funds are closed-ended limited partnerships that are not eligible for redemptions. Those seven funds have a combined unfunded commitment of \$114.4 million as of June 30, 2019.

Timberland – includes investments in limited liability companies that have an ownership interest in properties where the value of the property is derived mainly from income-producing timber but also from the “higher and better use” value of the underlying land. The State includes these assets within its global real asset allocations. There are three funds in the portfolio and they have no unfunded commitments. The funds are not eligible for redemption other than distributions of income and/or proceeds as determined by the investment manager. The funds have remaining lives of 2-7 years.

Infrastructure – includes investments in limited partnerships that have an ownership interest in transportation assets such as toll roads, tunnels and bridges; and regulated assets such as electricity transmission, gas and oil distribution and wastewater collection. Other possible investments would include communication assets and social infrastructure. The State includes these assets within its global real assets allocations. The infrastructure investments in the portfolio as of June 30, 2019, include both open and closed-ended funds. The open-ended funds have no unfunded commitments and are eligible for redemptions quarterly with 90 days notice. There may be a 3-12 month queue for receiving redemptions. The closed-ended funds have unfunded commitments of \$243.9 million at June 30, 2019 and are not eligible for redemptions.

Interest Rate Swap Agreements – Fair values for interest rate swap agreements are based upon the settlement value adjusted by estimated nonperformance risk.

Derivative Instruments – Fair values of the grain future contracts are determined on the Minneapolis Grain Exchange.

STATE OF NORTH DAKOTA

Fair Value

The following table shows the fair value leveling of the State's assets and liabilities at June 30 (expressed in thousands).

Primary Government

INVESTMENTS MEASURED AT FAIR VALUE	Fair Value 6/30/19	Level 1	Level 2	Level 3

NOTE 4 - NET POSITION

The government-wide Governmental Activities Statement of Net Position reports \$6,639,785,616 of restricted net position, of which \$1,032,862,011 is restricted by enabling legislation.

NOTE 5 - FUND BALANCE

The following table on the next page presents further display the fund balances by major purpose.

Included in the General Fund, unassigned fund balance is \$6,238,912,872 for the North Dakota Legacy Fund. The Legacy Fund was established with thirty percent of total revenue derived from taxes on oil and gas production or extraction. The principal and earnings of the Legacy Fund may not be spent until after June 30, 2017, and an expenditure of principal after that date requires a vote of at least two-thirds of the members elected of each house of the legislative assembly. No more than fifteen percent of the principal of the Legacy Fund can be expended during a biennium.

STATE OF NORTH DAKOTA

NOTE 6 - RETIREMENT SYSTEMS

A. DESCRIPTION OF PLANS

The State of North Dakota administers four major retirement systems: North Dakota Public Employees' Retirement System, North Dakota Highway Patrolmen's Retirement System, Retirement Plan for the Employees of Job Service North Dakota and the Teachers' Fund for Retirement. The State also administers the North Dakota Defined Contribution Retirement Plan, which was established January 1, 2000. Certain state employees may also participate in a privately administered retirement system: Teachers' Insurance Annuity Association. The following is a brief description of each plan. More detailed information can be found in the plan agreements and the related legislation.

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM (PERS)

The North Dakota Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan covering substantially all employees of the State of North Dakota, its agencies, and various participating political subdivisions (Main System). It also covers Supreme and District Court judges, the National Guard Security Officers and Firefighters, peace officers and correctional officers employed by political subdivisions and as of August 1, 2017, firefighters employed by participating political subdivisions. Effective August 1, 2015, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System. It is not subject to the provisions of the Employee Retirement Security Act of 1974. PERS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

At June 30, 2019, the number of participating political subdivisions in PERS was:

Cities	94
Counties	50
School Districts	125
Other	<u>85</u>
Total Participating Local Political Subdivisions	<u>354</u>

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of PERS. Benefit and contribution provisions are administered in accordance with chapter 54-52 of the North Dakota Century Code.

Responsibility for administration of the three defined benefit pension plans and the defined contribution plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; two members of the legislative assembly appointed by a chairman of the legislative management, three members elected by the active membership of the NDPERS system; and one member elected by the retired public employees.

The costs of administering the plan are financed through the contributions and investment earnings of each plan.

Benefits

Pension benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equals or exceeds 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The annual pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. For members hired on or after January 1, 2020 the annual pension benefit is equal to 1.75% of their average monthly salary, using the three highest periods of twelve consecutive months employed during the last one hundred eighty months of employment. The Plan permits early retirement at ages 55-64 with five or more years of service.

Supreme and district court judges are entitled to unreduced monthly pension benefits beginning at the normal retirement age (65) or Rule of 85. The monthly pension benefit for Supreme and district court judges is equal to a percentage of average monthly salary using the highest 36 consecutive months out of the last 180 months of service. The percentage is

STATE OF NORTH DAKOTA

equal to 3.5% of final average monthly salary multiplied by the first 10 years of service, plus 2.80% of the average monthly salary times the second 10 years of service, plus 1.25% of average monthly salary times years of service in excess of 20 years. The judicial retirement formula is only applied to eligible judicial service. Non-judicial service benefits are calculated using the 2.00% multiplier. The plan permits early retirement at ages 55-64, with five or more years of service.

The monthly pension benefit for National Guard at normal retirement age (55). Effective August 1, 2015, the National Guard System will become part of the Law Enforcement System. Members of the Law Enforcement are entitled to unreduced monthly pension benefits at normal retirement age (55) or the rule of 85. The monthly pension benefit for the National Guard/Law Enforcement is equal to 2.00 percent of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 50-55 with three or more years of service for members.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the employee's accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active employee dies with less than three years of service for the Main System and National Guard/Law Enforcement, or less than five years of service for Supreme and district court judges, a death benefit equal to the value of the employee's accumulated contributions, plus interest, is paid to the employee's beneficiary. If the employee has earned more than three years of service for the Main System and National Guard/Law Enforcement, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the employee's accrued normal retirement benefit, or monthly payments in an amount equal to the employees' accrued 100% joint and survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the employee's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

For judges only who have earned five years of credited service, the death benefit is changed to the greater of (i) lump sum payment of accumulated contributions, and (ii) 100% of the member's accrued benefit (not reduced on account of age), payable for the spouse's lifetime.

Eligible members who become totally disabled after a minimum of 180 days of service receive monthly disability benefits that are equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for "disabled" is set by the Board in the North Dakota Administrative Code.

For Judges only, the disability benefit formula is changed to 70% of final average salary minus social security and workers compensation benefits.

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 65 or does not have three years of service for the Main System and National Guard/Law Enforcement, or five years of service for the Supreme and district court judges, credited for PERS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates are set by state statute and are a percentage of salaries and wages.

Members that made a qualifying election under Senate Bill 2015 to move from the Defined Contribution Plan back to the Defined Benefit Plan have a 2% increase on employee contributions. The 2019 Legislative Assembly passed legislation that ended the RHIC plan for new hires after January 1, 2020 and redirected the 1.14% RHIC employer contribution to the retirement account for both the PERS plan as well as the defined contribution plan.

STATE OF NORTH DAKOTA

Member contributions are set by state statute and are a percentage of salaries and wages. During the 1983-1985 biennium, the State implemented the employer pickup provision of the IRS code, whereby a portion or all of the required member contributions are made by the employer. The State is paying 4% of the full member contribution. Some of the political subdivisions are paying all or part of the member contributions. Employer contributions are set by statute except the contribution rates for the National Guard/Law Enforcement Plans which are set by the Board. Contribution rates are established as a percent of covered compensation as follows:

	<u>Member Contributions</u>	<u>Employer Contributions</u>
PERS*		
Members first enrolled prior to 1/1/20	7.00%	7.12%
Members first enrolled after to 1/1/20	7.00%	8.26%
Members returning to the Defined Benefit Plan as a result of Senate Bill 2015	9.00%	7.12%
Judges Retirement System	8.00%	17.52%
Law Enforcement with previous service		
State – BCI Plan	6.00%	9.81%
State – National Guard	5.50%	9.81%
Political subdivisions	5.50%	9.81%
Law Enforcement without previous service	5.50%	7.93%

*Members making the election to move from the Defined Contribution Plan back to the Defined Benefit Plan as a result of Senate Bill 2015 pay a 9.00% employee contribution.

The member's account balance includes employee contributions, interest, and the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. Members of the Supreme and District Court Judges are not eligible to vest in the employer contributions if contributing to the deferred compensation plan.

The minimum monthly member contribution is \$25, and the maximum may not exceed certain parameters based upon years of service.

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

The North Dakota Highway Patrolmen's Retirement System is a single-employer defined benefit pension plan covering substantially all sworn officers of the Highway Patrol of the State of North Dakota. It is not subject to the provisions of the Employee Retirement Income Security Act of 1974. NDHPRS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of NDHPRS. See PERS Administration note for composition of the Retirement Board. Benefit and contribution provisions are administered in accordance with chapter 39-03 of the North Dakota Century Code.

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

Benefits

Pension benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced pension benefits upon attainment of age 55 and 10 years of eligible employment or when the sum of age and years of credited service equals or exceeds 80. The annual pension benefit is equal to a percentage of average monthly salary using the highest 36 months out of the last 180 months of service. The percentage is equal to the sum of the first 25 years of service multiplied by 3.60% and 1.75% multiplied by years of service in excess of 25, if any. The plan permits early retirement at ages 50-54, with ten or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form

STATE OF NORTH DAKOTA

of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than 10 years of credited service, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than 10 years of credited service, the surviving spouse, if any, will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50 percent of the member's accrued normal retirement benefit. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to any designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days service receive monthly disability benefits that are up to 70 percent of their final average salary, reduced by workers compensation with a minimum benefit of \$100. To qualify under this section, the member must meet the criteria established by the Retirement Board for being totally disabled and apply for benefits within one year of termination.

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 60 or does not have ten years of service credited for NDHPRS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates for NDHPRS are set by state statute and are a percentage of covered compensation. The State is paying 4.0% of the member contribution. The member contribution rate is 13.3% and the employer rate is 19.7%.

RETIREMENT PLAN FOR THE EMPLOYEES OF JOB SERVICE NORTH DAKOTA (JSND)

The retirement plan for employees of Job Service North Dakota is a single-employer defined benefit public employee retirement plan administered by PERS. The plan is established under NDCC 52-11-01 with benefit provisions established through the plan document, as amended by the Board. This plan document, as amended, is authorized by the Plan Administrator, who is the Executive Director of the agency. JSND issues a publicly available financial report that may be obtained by writing to Job Service North Dakota, PO Box 5507, Bismarck, North Dakota 58506-5507.

Participation in the plan is limited to employees participating in the plan as of September 30, 1980.

Administration

On August 1, 2003, the administrative authority and the net position of the Retirement Plan for Employees of Job Service North Dakota were transferred from the agency to the Public Employees Retirement System Board. This action was based on the passage of House Bill 1064 by the Fifty-eighth Legislative Assembly of North Dakota. The Retirement Plan for Employees of Job Service has an Actuarial Valuation Report produced annually. Requests to obtain or review this report should be addressed to the Executive Director, NDPERS, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

Benefits

Benefits are established through the plan document, as amended by the Board. The System provides a post-retirement cost-of living adjustment each year based on the Consumer Price Index. Employees are entitled to annual pension benefits beginning at normal retirement age (65). Employees may elect optional retirement eligibility at age 62 with 5 years of credited service, at age 60 with 20 years of credited service, or at age 55 with 30 years of credited service. Pension benefits are calculated based on the final average earnings (basic monthly earnings averaged over the highest three consecutive years of basic earnings) of the employee multiplied by the sum of:

STATE OF NORTH DAKOTA

1.5% times years of credited service up to 5 plus;

- 1.75% times years of credited service between 6 and 10 plus;
- 2.0% times years of credited service in excess of 10.

Death and Disability Benefits

The plan provides retirement, disability and death benefits. If death of a participant occurs prior to their annuity starting date, the surviving spouse who has been married at least two years prior to the participant's death or, if married less than two years is a parent of a child of this marriage, then the spouse shall receive monthly benefits. The amount is the greater of the benefit had the participant retired on the day before they died and elected the Contingent Annuitant Option with 55% of their retirement benefit continued to their spouse or 55% of the smaller of 40% of the deceased participant's average monthly earnings or the deceased participant's normal retirement benefit obtained by increasing their credited service by the period of time between their date of death, and the date they would have attained age 60. Upon remarriage of the surviving spouse before age 60, the death benefit will cease.

If a participant becomes totally disabled, they will be eligible for a monthly disability benefit which shall be equal to the greater of 40% of the participant's average annual earnings or the accrued benefit determined as of their date of disability.

Refunds of Member Contributions

Upon termination, if a member of the JSND System terminates employment before retirement payments begin, participation in the retirement plan will cease. No further additions to retirement income will accrue on the member's behalf, and the member may be paid under one of the following options.

- * The member may be paid an amount of retirement income with payments starting at Normal, Optional, or Early Retirement Date. The amount of that income will be equal to the amount provided under the formula according to the member's years of credited service and earnings.
- * The member may receive a cash withdrawal benefit equal to the total of the member's contributions and employer contributions made on their behalf, plus 4 percent interest compounded annually. The member may elect this option at any time after withdrawal and before Normal, Optional, or Early Retirement Date, but such benefit shall be in place of all other benefits under the retirement benefits section.

Contributions

Employees' contributions are established at 7% of total compensation. The funding policy of the plan provides for employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. Effective July 1, 1999, the "scheduled contribution" will be zero as long as the plan's actuarial value of assets exceeds the actuarial present value of projected benefits. The "scheduled contribution" and amortization will be determined when the plan is not in surplus and will be based on a funding policy adopted by the Employer.

TEACHERS' FUND FOR RETIREMENT (TFFR)

The North Dakota Teachers' Fund for Retirement is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Teachers' Fund for Retirement issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 3442 East Century Avenue, P.O. Box 7100, Bismarck, North Dakota 58507-7100.

At June 30, 2019, the number of participating employer units in TFFR was:

<u>Type</u>	<u>Number</u>
Public School Districts	175
County Superintendents	6
Special Education Units	19
Vocational Education Units	4
Other	9
Total	<u>213</u>

STATE OF NORTH DAKOTA

Administration

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contributions rates.

Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered – A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or the sum of age and years of service equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered – A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher, and the member has reached the age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55-64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2 – A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

STATE OF NORTH DAKOTA

An active member is eligible to receive disability benefits when: (a) a total disability lasting twelve months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Contributions

Member and employer contributions paid to TFFR are set by NDCC 15-39.1-09. Every eligible teacher in the state of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% or defer payment until eligible for pension benefits. A nonvested member who terminates covered employment must claim a refund of contributions paid before 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstance defined by state statute.

EMPLOYEE MEMBERSHIP DATA

The following table summarizes employee membership information by plan at the actuarial valuation date:

	PERS	NDHPRS	JSND	TFFR
Retirees and beneficiaries currently receiving benefits:	12,300	136	189	8,918
Terminated Employees:				
Vested	6,755	31	1	1,657
Nonvested	6,512	11	-	1,035
Active Employees:				
Vested	17,119	71	7	7,936
Nonvested	6,635	73	-	3,239
Total plan membership	<u>49,321</u>	<u>322</u>	<u>197</u>	<u>22,785</u>
Date of annual valuation	July 1, 2019	July 1, 2019	July 1, 2019	July 1, 2019

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

BASIS OF ACCOUNTING

The public employee retirement systems described above are considered part of the State of North Dakota's reporting entity and are included in the State's financial statements as pension trust funds. The financial statements of these systems are prepared using the accrual basis of accounting. Employee contributions are recognized as revenues in the period in which they are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contribution. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

INVESTMENT POLICY

The System's Board is responsible for establishing the investment policy for the fund assets, which includes setting investment goals and specifying the percentage of assets to be invested in various types of investments for PERS, NDHPRS and JSND. The investment goals are viewed over the long term. The Board recognizes the plans' performance objectives, benefit projections, and capital market expectations when determining the asset allocation. The SIB is responsible for managing the System's investments in accordance with the investment policy.

The TFFR Board is responsible for establishing investment policy for the fund assets under NDCC 15-39.1-05.2. Benefit payments are projected to occur over a long period of time. This allows TFFR to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. This asset-liability analysis considers both sides of the plan balance sheet, utilizing both

STATE OF NORTH DAKOTA

quantitative and qualitative inputs, in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting established impact of funded status and contribution rates.

The following was the asset allocation policy as of June 30, 2019:

	Target Allocation			
	PERS and NDHPRS	JSND	TFFR	RHIC*
Domestic equities	30.0%	6.0%	0.0%	39.0%
International equities	21.0%	14.0%	0.0%	21.0%
Private equity	7.0%	6.0%	0.0%	0.0%
Domestic fixed income	23.0%	74.0%	0.0%	40.0%
International fixed income	0.0%	0.0%	0.0%	0.0%
Global real assets	19.0%	0.0%	18.0%	0.0%
Global equity	0.0%	0.0%	58.0%	0.0%
Global fixed income	0.0%	0.0%	23.0%	0.0%
Cash equivalents	0.0%	0.0%	1.0%	0.0%
Total	100.00%	100.00%	100.00%	100.00%

*See note 7 for further details of the RHIC OPEB Plan.

INVESTMENT RATE OF RETURN

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was as follows for June 30, 2019:

PERS	5.69%
NDHPRS	5.39%
JSND	7.00%
TFFR	5.46%
RHIC*	6.75%

*See note 7 for further details of the RHIC OPEB Plan.

METHOD USED TO VALUE INVESTMENTS

Investments are recorded at fair value determined by reference to published market data for publicly traded securities and through the use of independent valuation services and appraisals for other investments. The net increase in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year. Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current fiscal year were included as a change in the fair value of investments reported in the prior year(s) and the current year. Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security transactions are accounted for on a trade date basis. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date.

REALIZED GAINS AND LOSSES

Realized gains and losses on sales of investments are components of net change in fair value of investments and are computed as described in note 1. For the year ended June 30, 2019, the following are the net realized gains (losses):

PERS	\$78,102,906
NDHPRS	2,079,637
JSND	2,901,971
TFFR	66,548,800
Retiree Health Insurance Credit (RHIC)	7,871,283
Defined Contribution Plan	230,794
Deferred Compensation Plan	6,454,352

STATE OF NORTH DAKOTA

C. FUNDING STATUS AND PROGRESS

NET PENSION LIABILITY OF THE PLANS

The components of the net pension liability of the Plans at June 30, 2019 were as follows (expressed in thousands):

	<u>PERS</u>	<u>NDHPRS</u>	<u>JSND</u>	<u>TFFR</u>
Total pension liability	\$ 4,269,340	\$ 106,315	\$ 66,197	\$ 3,993,424
Plan fiduciary net position	<u>(3,096,731)</u>	<u>(81,415)</u>	<u>(97,203)</u>	<u>(2,616,171)</u>
Net pension liability (asset)	<u>\$ 1,172,609</u>	<u>\$ 24,900</u>	<u>\$ (31,006)</u>	<u>\$ 1,377,253</u>
Plan fiduciary net position as a percentage of the total pension liability	72.53%	76.58%	146.84%	65.50%

ACTUARIAL ASSUMPTIONS

PERS

The total pension liability was determined by an actuarial valuation as of July 1, 2019, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.50%

Salary Increase: 4.00% to 20.00% including inflation

Retirement Age: Age-based table of rates that specify to the type of eligible condition

Investment Rate of Return: 7.75%

Mortality Rates: Mortality rates for active members, inactive members and healthy retirees were based on the RP-2000 Combined Healthy Mortality Table, set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table, set back one year for males (no setback for females) multiplied by 125%.

Other Notes: The calculation of Final Average Salary was changed for members who terminate after December 31, 2019.

The interest rate on member contributions will decrease from 7.25% to 7.00% effective January 1, 2020.

The benefit accrual rate for members first enrolled on or after January 1, 2020 in the Main and Public Safety Systems is 1.75% (compared to 2.00% for members enrolled before January 1, 2020).

The investment return assumption was updated from 7.75% to 7.50% beginning with the actuarial valuation as of July 1, 2019. The economic assumptions (excluding salary increases) were updated beginning with the actuarial valuation as of July 1, 2017 based on a review performed by GRS. All other actuarial assumptions were adopted by the Board based on an experience study covering the period July 1, 2009 through June 30, 2014.

The employer rates to the System are the statutory/Board approved contribution rates of 7.12% of payroll for the Main System (8.26% for members enrolled on or after January 1, 2020), 17.52% for the Judges System, 9.81% for the Public Safety with prior Main System, and 7.93% for the Public Safety without prior Main System service System.

HPRS

The total pension liability was determined by an actuarial valuation as of July 1, 2019, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

STATE OF NORTH DAKOTA

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.50%

Salary Increase: Service-based table for members with less than five years of service and age-based table for members with more than five years of service

Retirement Age: Age-based table of rates that specify to the type of eligible condition

Investment Rate of Return: 7.75%

Mortality Rates: Mortality rates for active members, inactive members and healthy retirees were based on the RP-2000 Combined Healthy Mortality Table, set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table, set back one year for males (no setback for females) multiplied by 125%.

Other Notes: There were no benefit changes during the year.

The economic assumptions (excluding salary increases) were updated beginning with the actuarial valuation as of July 1, 2017 based on a review performed by GRS. The investment return assumption was decreased from 7.75% to 7.50% beginning with the actuarial valuation as of July 1, 2019. All other actuarial assumptions were adopted by the Board based on experience study covering the period July 1, 2009 through June 30, 2014.

The employer rate to the System is the statutory contribution rate of 19.70% payroll.

JSND

The total pension liability was determined by an actuarial valuation as of July 1, 2019, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.50%

Salary Increase: 3.50%

Retirement Age: Age-based table of rates that specify to the type of eligible condition

Investment Rate of Return: 4.75%

Cost of Living Adjustment: 2.50%

Mortality Rates: Mortality rates for active members, inactive members and healthy retirees were based on the RP-2000 Combined Healthy Mortality Table, set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table, set back one year for males, (no setback for females) multiplied by 125%.

Other Notes: There were no benefit changes during the year.

The economic assumptions (excluding salary increases) were updated beginning with the actuarial valuation as of July 1, 2017 based on a review performed by GRS. The investment return assumption was decreased from 5.70% to 4.75% beginning with the actuarial valuation as of July 1, 2018. All other actuarial assumptions were adopted by the Board based on experience study covering the period July 1, 2009 through June 30, 2014.

The System has assets in excess of the present value of future benefits. Therefore, no employer contributions are being made.

STATE OF NORTH DAKOTA

TFFR

The total pension liability was determined by an actuarial valuation as of July 1, 2019, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: 5 year smoothed market

Inflation: 2.75%

Salary Increase (Payroll Growth): 4.25% - 14.50%; varying by service, including inflation and productivity.

Retirement Age: In the 2015 valuation, rates of retirement were changed to better reflect anticipated future experience. In the 2010 valuation, expected retirement ages of plan members were adjusted to more closely reflect actual experience.

Investment Rate of Return: 7.75%, net of investments expense.

Cost of Living Adjustment: None

Mortality Rates: In the 2015 valuation, assumed life expectancies were adjusted as a result of adopting the RP-2014 mortality tables with generational improvement. In prior years, those assumptions were based on percentages of GRS post termination non-disabled tables and RP-2000 disabled-life tables.

INVESTMENT RATE OF RETURN

The long-term expected rate of return on investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates to return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the pension plan's target asset allocation as of July 1, 2019 is summarized in the following tables:

<u>PERS and NDHPRS Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>JSND Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>TFFR Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	6.25%	Domestic equities	4.75%	Global equity	6.90%
International equity	6.95%	Core fixed income	1.91%	Global fixed income	2.10%
Private equity	10.15%	Limited duration fixed income	1.13%	Global real assets	5.40%
Domestic fixed income	2.11%	Global equity	5.31%	Cash equivalents	0.00%
International fixed income	0.00%	Diversified short-term fixed income	1.66%		
Global real assets	5.41%	Short-term corporate fixed income	0.49%		
Cash equivalents	0.00%	US high yield	3.49%		
		Emerging market debt	4.68%		

DISCOUNT RATE

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, the use of a municipal bond rate is required.

STATE OF NORTH DAKOTA

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.50%; the municipal bond rate is 3.13%; and the resulting Single Discount Rate is 7.50%.

For HPRS, the discount rate used to measure the total pension liability was 7.50% as of June 30, 2019.

For JSND, the discount rate was 4.75% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2019 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions (for JSND it is assumed no future contribution will be made), the pension plans' fiduciary net position were projected to be available to make all projected future benefit payments for current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

For TFFR, the discount rate was 7.75% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2019 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions TFFR's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2019. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

SENSITIVITY OF NET PENSION LIABILITY

The following presents the net pension liability of the Plans as of June 30, 2019, calculated using the discount rate of 7.50% for PERS, 7.50% for NDHPRS, 4.75% for JSND and 7.75% for TFFR, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate

Net Pension Liability (Asset) As of June 30, 2019	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
PERS	\$ 1,697,748,658	\$ 1,172,608,884	\$ 731,651,266
Net Pension Liability (Asset) As of June 30, 2019	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
NDHPRS	\$ 38,662,943	\$ 24,899,511	\$ 13,491,914
Net Pension Liability (Asset) As of June 30, 2019	1% Decrease (3.75%)	Current Discount Rate (4.75%)	1% Increase (5.75%)
JSND	\$ (24,292,823)	\$ (31,006,306)	\$ (36,982,989)
Net Pension Liability (Asset) As of June 30, 2019	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
TFFR	\$ 1,859,994,289	\$ 1,377,253,104	\$ 976,082,834

STATE OF NORTH DAKOTA

D. SINGLE EMPLOYER PENSION PLANS

Below are the changes in net pension liability for the State's (primary government) single-employer plans:

	Single-employer Plans Changes in Net Pension Liability Increases (Decreases) For the Year June 30, 2019*	
	<u>JSND</u>	<u>NDHPRS</u>
Total pension liability (asset)		
Service cost	\$ 80,344	\$ 2,738,268
Interest	3,500,344	7,203,350
Change of benefit terms	-	-
Difference between expected and actual experience	(310,124)	(621,359)
Changes of assumptions	5,811,755	-
Benefit payments, including refund of employee contributions	(4,582,577)	(4,981,377)
Net change in total pension liability (asset)	<u>4,499,742</u>	<u>4,338,882</u>
Total pension liability (asset) - beginning	<u>63,629,469</u>	<u>94,047,078</u>

Plan fiduciary net position as a percentage of the total pension liability (asset)	140.30%	80.22%
Covered employee payroll	\$ 416,652	\$ 10,737,297
Plan net pension liability (asset) as a percentage of covered employee payroll	-6590.37%	181.21%

*The 2019 information presented has a measurement date of June 30, 2018.

STATE OF NORTH DAKOTA

JOB SERVICE NORTH DAKOTA (JSND)

Net Pension Asset

At June 30, 2019, the State recorded a net pension asset of \$27,458,900 for all of the Job Service North Dakota pension plan. The net pension asset was measured as of June 30, 2018 and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2019 the State recognized pension expense of \$4,706,520. At June 30, 2019 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -	\$ -	\$ -
Changes of assumptions	-	-	-	-
Net difference between projected and actual earnings on pension plan investments	4,385,421	-	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-	-	-
Employer contributions subsequent to the measurement date	-	-	-	-
Total	\$ 4,385,421	\$ -	\$ -	\$ -

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2020	\$ 1,993,919	\$ -
2021	1,120,271	-
2022	771,955	-
2023	499,276	-
Total	\$ 4,385,421	\$ -

Sensitivity of the State's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension asset calculated using the discount rate of 4.75 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.75 percent) or 1-percentage-point higher (5.75 percent) than the current rate:

	1% Decrease (3.75%)	Current Discount Rate (4.75%)	1% Increase (5.75%)
State's proportionate share of the net pension asset	\$ (20,228,759)	\$ (27,458,900)	\$ (33,588,893)

STATE OF NORTH DAKOTA

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

Net Pension Liability

At June 30, 2019, the State recorded a net pension liability of \$19,456,960 for all of the North Dakota Highway Patrolmen's Retirement System pension plan. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2019 the State recognized pension expense of \$3,195,876. At June 30, 2019 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 482,350	\$ (588,441)	\$ -	\$ -
Changes of assumptions	3,215,897	-	-	-
Net difference between projected and actual earnings on pension plan investments	-	(256,395)	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-	-	-
Employer contributions subsequent to the measurement date	2,091,097	-	-	-
Total	<u>\$ 5,789,344</u>	<u>\$ (844,836)</u>	<u>\$ -</u>	<u>\$ -</u>

\$2,091,097 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2020	\$ 1,539,866	\$ -
2021	992,841	-
2022	17,556	-
2023	359,233	-
2024	(34,678)	-
Thereafter	(21,407)	-
Total	<u>\$ 2,853,411</u>	<u>\$ -</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
State's proportionate share of the net pension liability	\$ 32,041,790	\$ 19,456,960	\$ 8,997,526

STATE OF NORTH DAKOTA

E. COST SHARING EMPLOYER PENSION PLANS

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM

Proportionate Share of Net Pension Liability

The North Dakota Public Employees' Retirement System (PERS) provides retirement benefits to employees of the primary government and its discrete component units as well as to other political subdivision subdivisions (Main System). It also covers Supreme and district court judges, the National Guard Security Officers and Firefighters, and as of August 1, 2003, peace officers and correctional officers employed by political subdivisions. Effective August 1, 2017, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System.

At June 30, 2019, the State recorded a net pension liability of \$859,160,104 for all of the PERS system. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2018 the State's proportion was 50.3787 percent, which is an decrease of 1.5011 percent from the prior year.

The State's discrete component unit, North Dakota Public Finance Authority, also participates in. At June 30, 2019, the discrete component units recorded a net pension liability of \$279,000 for all of the PERS system. The net pension liability was measured as of June 30, 2018 and the total pension liability and asset used to calculate the net pension liability was determined by an actuarial valuation as of that date. The discrete component units' proportion of the net pension liability was based on their share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2018 the discrete component unit's proportion was 0.01655 percent, which is an increase of 0.0003 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2019 the State recognized pension expense of \$136,402,760 and the component unit recognized pension expense of \$44,000. At June 30, 2019 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 2,602,369	\$ (32,189,349)	\$ 1,000	\$ (10,000)
Changes of assumptions	316,975,734	(12,634,626)	101,000	(4,000)
Net difference between projected and actual earnings on pension plan investments	-	(4,461,712)	-	(1,000)
Changes in proportion and differences between employer contributions and proportionate share of contributions	9,550,810	(31,532,267)	1,000	(6,000)
Employer contributions subsequent to the measurement date	39,165,627	-	10,000	-
Total	<u>\$ 368,294,540</u>	<u>\$ (80,817,954)</u>	<u>\$ 113,000</u>	<u>\$ (21,000)</u>

\$39,165,627 and \$10,000 reported as deferred outflows of resources related to pensions resulting from State and component unit contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2020	\$ 82,916,014	\$ 27,000
2021	71,473,057	23,000
2022	58,230,810	19,000
2023	33,405,549	12,000
2024	2,285,529	1,000
Total	<u>\$ 248,310,959</u>	<u>\$ 82,000</u>

STATE OF NORTH DAKOTA

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 6.32 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.32 percent) or 1-percentage-point higher (7.32 percent) than the current rate:

	1% Decrease (5.32%)	Current Discount Rate (6.32%)	1% Increase (7.32%)
State's proportionate share of the net pension liability	\$ 1,174,961,646	\$ 859,160,104	\$ 595,594,274
Component's proportionate share of the net pension liability	380,000	279,000	196,000

NORTH DAKOTA TEACHERS' FUND FOR RETIREMENT

Proportionate Share of Net Pension Liability

The North Dakota Teachers' Fund for Retirement (TFFR) provides retirement benefits to North Dakota public teachers and certain other teachers who meet various requirements. At June 30, 2019, the State recorded a net pension liability of \$8,874,047 for all of the TFFR. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the TFFR pension plan relative to the covered payroll of all participating employers. At June 30, 2018 the State's proportion was 0.66579 percent, which is an increase of 0.01285 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2019 the State recognized pension expense of \$860,981. At June 30, 2019 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 24,084	\$ (241,349)	\$ -	\$ -
Changes of assumptions	488,856	-	-	-
Net difference between projected and actual earnings on pension plan investments	-	(30,681)	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	769,172	(519,700)	-	-
Employer contributions subsequent to the measurement date	542,201	-	-	-
Total	<u>\$ 1,824,313</u>	<u>\$ (791,730)</u>	<u>\$ -</u>	<u>\$ -</u>

\$542,201 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2020	\$ 367,023	\$ -
2021	242,971	-
2022	25,346	-
2023	(104,696)	-
2024	(36,924)	-
Thereafter	(3,338)	-
Total	<u>\$ 490,382</u>	<u>\$ -</u>

STATE OF NORTH DAKOTA

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 8 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
State's proportionate share of the net pension liability	\$ 11,982,530	\$ 8,874,047	\$ 6,288,754

F. PENSION SUMMARY

The following is a summary of the pension related items for all plans of the State as of and for the year ended June 30, 2019.

Pension Plan	Net Pension Asset	Deferred Outflows of Resources of Pension	Net Pension Liability	Deferred Inflows of Resources Pension	Pension Expense
Job Service North Dakota	\$ 27,458,900	\$ 4,385,421	\$ -	\$ -	\$ 4,706,520
ND Highway Patrolmen's Retirement System	-	5,789,344	19,456,960	844,836	3,195,876

Total	<u>\$ 27,458,900</u>	<u>\$ 380,293,618</u>	<u>\$ 887,491,111</u>	<u>\$ 82,454,520</u>	<u>\$ 145,166,137</u>

G. DEFINED CONTRIBUTION PLAN

The North Dakota Defined Contribution Retirement Plan was established on January 1, 2000, and is administered in accordance with chapter 54-52.6 of the North Dakota Century Code. The Defined Contribution Plan was available to state employees who are in positions not classified by the Human Resource Management Services division of the State of North Dakota. Employees under the judicial branch or the Board of Higher Education and State Institutional under jurisdiction of the Board of Higher Education are not eligible to participate in the plan. The 2013 Legislative Assembly passed legislation to expand eligibility to the plan to include all new state employees hired on or after October 1, 2013 through July 31, 2017. The Defined Contribution Plan had 99 participants as of June 30, 2019.

The administrative costs of the Defined Contribution Plan are funded by forfeitures of non-vested employee contributions and administrative fees charged to individual participant accounts.

Benefits

Benefits are set by statute. Members are entitled to their vested account balance. A participating member is immediately 100% vested in the employee's contributions. A participating member vests in the employer contributions made on the member's behalf as follows:

Upon completion of two years of service	50%
Upon completion of three years of service	75%
Upon completion of four years of service	100%

Members may elect to receive their account balance in a lump sum, lump sum direct rollover, or periodic distribution.

Death and Disability Benefits

Death and disability benefits are set by statute. Upon the death of a participating member or former participating member, the vested account balance of that deceased participant is available to the participant's designated beneficiary(ies). A member who becomes totally and permanently disabled while employed by the State is eligible to receive a distribution of the vested account balance. To qualify under this section, the member must meet the criteria established by the System for being totally disabled.

STATE OF NORTH DAKOTA

Contributions

Contributions are set by state statute and are a percentage of covered compensation. The State is paying 4% of the member contribution. The member contribution rate is 7.00% and the employer rate is 7.12% for members first enrolled prior to January 1, 2020. For members first enrolled after January 1, 2020 the member contribution rate is 7.00% and the employer rate is 8.26%. Pension expense totaled \$504,381 for the year ended June 30, 2019.

The Board, or vendors contracted by the Board, has exclusive authority to invest and manage the assets of the Defined Contribution Retirement Plan. State statute allows each participating employee to direct the investment of the individual's employer and employee contributions and earnings to one or more investment options within the available categories of investment as established by the Board.

H. TEACHERS' INSURANCE ANNUITY ASSOCIATION

The Teachers' Insurance and Annuity Association (TIAA-CREF), a privately-administered defined contribution retirement plan, provides individual retirement fund contracts for eligible employees as defined by the Board of Higher Education in its approved TIAA-CREF retirement resolution. Further information can be obtained by writing to TIAA-CREF, Denver Regional Office, 1700 Broadway, Suite 770, Denver, Colorado 80290 or by calling 800-842-2009.

All benefits vest immediately to the participant. The plan requires employee and employer contributions be based on a classification system and years of service based on the schedule shown below.

Employment Class	Years Of Service	By The Participant	By The Institution	Total
I and III	0 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
II	0 thru 2	3.50%	7.50%	11.00%
	3 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
IV	Closed to new participants	4.00%	12.00%	16.00%
President/Chancellor (additional employer contribution)	less than 3	0.00%	0.00%	0.00%
	3 to less than 6	0.00%	4.00%	4.00%
	6 and over	0.00%	8.00%	8.00%

Plan contributions are made on a tax-deferred basis in accordance with section 414(h)(2) of the Internal Revenue Code. All contributions are applied as premiums to retirement annuity contracts owned by the participant. The State has no further liability once annual contributions are made. The State contributed \$42.3 million to TIAA-CREF during the fiscal year ending June 30, 2019.

NOTE 7 - POST-RETIREMENT

A. *IMPLICIT SUBSIDY UNFUNDED PLAN*

The Implicit Subsidy Unfunded Plan provides health insurance coverage to eligible retirees who are not eligible for Medicare. The premiums for this coverage are set under North Dakota Century Code 54-52.1-02 as a percent of the active member single and family plan rates and are paid by the retiree. The premiums for this coverage are not age-rated. Currently, the premiums for this group do not cover the costs of the coverage; therefore, the costs of this group are being subsidized through the active group rates. This subsidy is not funded in advance and there is no guarantee that the subsidy for the 2017-19 biennium will continue in the future.

A retiree must be receiving a retirement allowance from PERS, ND TFFR or TIAA-CREF to be eligible for the retiree health care coverage. Effective July 1, 2015, eligibility for this coverage is limited to employees who retired prior to July 2015 and/or former Legislators.

OPEB Liability

The total net OPEB liability of the plan as of June 30, 2019, determined using a June 30, 2018 measurement date is \$3,604,136.

STATE OF NORTH DAKOTA

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions:

Mortality Rates: RP-2014 using mortality scale MP-2017.

Withdrawal Rates: Rates of withdrawal from active service before retirement other than death, rates of disability and expected retirement ages developed on the basis of an investigation of actual plan experience.

Interest Rate: 6.56% per annum, net of investment expense

Inflation: 3% per annum

Expenses: Prior year expense, adjusted for inflation

B. RETIREE HEALTH INSURANCE CREDIT – PLAN INFORMATION

The Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer other post-employment plan, is administered by the North Dakota Retirement Board (the Board) to provide members that were first enrolled in the plan prior to January 1, 2020 and are receiving retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System and judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit will also be available to apply towards monthly premiums under the state dental, vision and long term care plan and any other health insurance. Effective August 1, 2019, the credit is expanded to also include any dental, vision, and long term care plan. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Regular employees hired under the Retirement Plan for Employees of Job Service North Dakota prior to October 1, 1980 are eligible to participate in the Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer plan, as administered by the Public Employees Retirement Board. The retired employee is provided a credit toward their monthly health insurance premium under a qualifying plan based upon their years of credited service. In accordance with NDCC 54-52.1-03.2, Job Service North Dakota reimburses the Retiree Health Insurance Credit Fund monthly for credit received by members of the retirement plan established by Job Service North Dakota.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

Employee membership is as follows:

Retirees receiving benefit	12,471
Active participants	<u>23,997</u>
Total Membership	<u><u>36,468</u></u>

OPEB Contributions

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "*prefunded credit applied*" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

OPEB Benefits

Retiree health insurance credit benefits and death and disability benefits are set by state statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System, or the Defined Contribution Retirement Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the

STATE OF NORTH DAKOTA

spouse of a deceased annuitant receiving the surviving spouse benefit of if the member selected a joint and survivor option are eligible to receive credit toward their monthly health insurance premium under the state health plan.

The benefits are equal to \$5.00 for each of the employee's , or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health benefit is also available for early retirement with reduced benefits.

Net OPEB Liability of the Plan

The components of the net OPEB liability of the plan at June 30, 2019 is as follows (expressed in thousands):

	<u>RHIC</u>
Total OPEB liability	\$ 217,831
Plan fiduciary net position	<u>(137,512)</u>
Net OPEB liability (asset)	<u>\$ 80,319</u>
RHIC fiduciary net position as a percentage of the total OPEB liability	63.13%

Actuarial Assumptions

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no asset smoothing)

RHIC Inflation: 2.50%

Salary Increase: Not applicable

Investment Rate of Return: 7.25%, net of investments expense, including inflation.

Mortality Rates: Mortality rates for active members, inactive members and healthy retirees were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Retiree Mortality Table set back one year for males (not setback for females), multiplied by 125%.

Other Notes: Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC. Therefore, RHIC will become for the most part a closed plan. There were no benefit changes during the year.

The economic assumptions (excluding salary increases) and the asset smoothing method were updated beginning with the actuarial valuation as of July 1, 2017 based on a review performed by GRS. The investment return assumption was decreased from 7.50% to 7.25% beginning with the actuarial valuation as of July 1, 2019. All other actuarial valuations were adopted by the Board based on an experience study covering the period July 1, 2009 through June 30, 2014.

The employer rate to the System is the statutory contribution rate of 1.14% of payroll.

Investment Rate of Return

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of RHIC investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2019 is summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Large Cap Domestic Equities	6.00%
Small Cap Domestic Equities	7.30%
International equities	6.95%
Core-Plus Fixed Income	2.07%

STATE OF NORTH DAKOTA

Discount Rate

The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2019 HPRS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of Net OPEB Liability

The following presents the net OPEB liability of the Plans as of June 30, 2019, calculated using the single discount rate of 7.25%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Net OPEB Liability (Asset) As of June 30, 2019	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
RHIC	\$ 102,516,136	\$ 80,318,738	\$ 61,317,668

The benefit provided by the North Dakota Retiree Health Insurance Credit Fund is a fixed dollar subsidy and is not affected by healthcare cost trend. Therefore, a healthcare trend rate was not performed.

C. RETIREE HEALTH INSURANCE CREDIT – STATE'S SHARE

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Proportionate Share of Net OPEB Liability

At June 30, 2019, the State reported a liability of \$39,954,215 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The State's proportion of the net OPEB liability was based on the State's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2018, the State's proportion was 50.731122 percent, which is a decrease of 0.814717 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2019 the State recognized OPEB expense of \$4,823,458. At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,194,625	\$ (826,631)	\$ -	\$ -
Changes of assumptions	3,281,357	(13,235)	-	-
Net difference between projected and actual earnings on OPEB plan investments	-	(848,561)	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	248,071	(1,071,456)	-	-
Employer contributions subsequent to the measurement date	6,362,621	-	-	-
Total	<u>\$ 11,086,674</u>	<u>\$ (2,759,883)</u>	<u>\$ -</u>	<u>\$ -</u>

STATE OF NORTH DAKOTA

\$6,362,621 reported as deferred outflows of resources related to OPEB resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Year ended June 30:

	Primary Government	Component Units
2020	\$ 138,742	\$ -
2021	138,742	-
2022	138,742	-
2023	241,891	-
2024	600,348	-
Thereafter	705,705	-
Total	<u>\$ 1,964,170</u>	<u>\$ -</u>

Sensitivity of the State's Proportionate Share of the OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2019, calculated using the discount rate of 7.50%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
State's proportionate share of the net OPEB liability	\$ 50,163,026	\$ 39,954,215	\$ 31,204,243

D. JOB SERVICE NORTH DAKOTA – MET LIFE INSURANCE BENEFIT

MET LIFE INSURANCE BENEFIT

Job Service North Dakota engaged an actuary to determine the Agency's liability for post-employment benefits other than pensions as of July 1, 2019. The actuary determined the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense the Agency has to record as of June 30, 2019. Requests to obtain or review the actuary report should be addressed to the Finance Manager – P.O. Box 5507 Bismarck, North Dakota, 58506-5507.

Plan Description

Job Service North Dakota employees who had a Met Life Insurance policy in effect on December 1, 1999, when the Met Life Insurance benefit plan, a single-employer plan, was discontinued for new employees, receive the following benefits: Job Service North Dakota pays 33% of the monthly Basic Met Life Insurance premium of current employees with a Met Life Insurance policy and upon retirement the employees Basic Met Life Insurance premiums are covered 100% by Job Service North Dakota. The Basic Life Insurance Benefits are equal to the employees' annual salary rounded up to the nearest thousand plus two thousand up to a maximum of \$45,000 and are decreased at a rate of 2% per month at age 65 until the benefit is 25% of the original amount but no less than \$10,000. The actuary report of the Met Life Insurance Benefit is the only financial report produced for this benefit and is available as indicated above. Job Service North Dakota has authority to change the funding and benefit policy of this plan.

Membership of the Other Post Retirement Benefit plan consisted of the following at July 1, 2018, the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	169
Terminated employees entitled to benefits but not yet receiving them	0
Current vested employees	<u>14</u>
Total	<u>183</u>

STATE OF NORTH DAKOTA

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The Employer reported a liability of \$1,452,692 at June 30, 2019 for its net OPEB liability. The net OPEB liability was measured as of July 1, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

For the year ended June 30, 2019, the Employer recognized OPEB expense of \$45,710. The Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Changes of assumptions	-	-
Net difference between projected and actual earnings on OPEB plan investments	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	4,182	-
Total	<u>\$ 4,182</u>	<u>\$ -</u>

Actuarial Assumptions

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>July 1, 2019</u>
Inflation	none
Salary increases	5%
Discount rate	2.98% per annum

Mortality rates were based on the RP-2014 Total Dataset Mortality Table adjusted to based year 2006, projected with Scale MP-2017.

Sensitivity of the State's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2019, calculated using the discount rate of 2.98%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.98 percent) or 1-percentage-point higher (3.98 percent) than the current rate:

Net OPEB Liability As of June 30, 2019	1% Decrease (1.98%)	Current Discount Rate (2.98%)	1% Increase (3.98%)
Met Life	\$ 1,633,126	\$ 1,452,692	\$ 1,302,885

STATE OF NORTH DAKOTA

Schedule of Changes in Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Net Position (b)	Net OPEB Liability (a) - (b)
Balances at 6/30/18	\$ 1,490,632	\$ -	\$ 1,490,632
Changes for the Year:			
Service cost	3,672	-	3,672
Interest	42,038	-	42,038
Benefit changes	-	-	-
Experience losses (gains)	-	-	-
Changes of assumptions	-	-	-
Contributions - Employer		83,650	(83,650)
Benefits paid	(83,650)	(83,650)	-
Administrative expenses	-	-	-
Net changes	<u>(37,940)</u>	<u>-</u>	<u>(37,940)</u>
Balances at 6/30/19	<u>\$ 1,452,692</u>	<u>\$ -</u>	<u>\$ 1,452,692</u>

The plan provisions used in the measurement of the net OPEB liability are the same as those used in the Actuarial Valuation as of July 1, 2018.

E. OPEB SUMMARY

The following is a summary of the OPEB related items for all plans of the State as of and for the year ended June 30, 2019.

OPEB Plan	Deferred Outflows of Resources - OPEB	Net OPEB Liability	Deferred Inflows of Resources - OPEB	OPEB Expense
ND Public Employees' Retirement System	\$ 11,086,674	\$ 39,954,215	\$ 2,759,883	\$ 4,823,458
JSND Met Life Insurance Benefit	4,182	1,452,692	-	45,710
Total	<u>\$ 11,090,856</u>	<u>\$ 41,406,907</u>	<u>\$ 2,759,883</u>	<u>\$ 4,869,168</u>

NOTE 8 - DEFERRED COMPENSATION PLAN

The ND Public Employees Retirement System was given authority by Chapter 54-52.2 to administer an employee deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan allows employees of the State of North Dakota or any of its political subdivisions, institutions, departments, or agencies to participate, providing that the employee has signed a participation agreement, which permits them to defer a portion of their current salary until future years. Each participant may defer the lesser of \$19,000 or 100% of gross annual compensation for calendar year 2019. Participation in the plan is optional. The deferred compensation is not available to the employees until termination, retirement, death or unforeseeable emergency.

All compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights, are held in trust for the exclusive use of the employee or their beneficiary.

The minimum monthly member contribution to the deferred compensation plan is \$25 and the maximum vesting in the employer contributions ranges from 1% to 4% of the monthly salary, or \$25, depending on the employee's months of service.

The related assets of the plan, held in trust, are reported at fair value as follows (expressed in thousands):

Plan Participation By:			
State of North Dakota	\$ 108,758	86%	
Other Jurisdictions	17,635	14%	
Total Value	<u>\$ 126,393</u>	<u>100%</u>	

STATE OF NORTH DAKOTA

The deferred compensation plan had 12,934 participants as of June 30, 2019.

NOTE 9 - PERS UNIFORM GROUP INSURANCE PROGRAM

The PERS Uniform Group Insurance Program, an enterprise fund, contracts with Sanford Health Plan to provide health care insurance to the employees of the State of North Dakota, or any of its political subdivision, institutions, departments or agencies. The contract for the 2017-2019 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2017-2019 biennium will occur in 2021. In the event of a loss, the system does not have any risk.

The System again entered into a similar contract with Sanford Health Plan for the 2019-2021 biennium. The contract for the 2019-2021 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2019-2021 biennium will occur in 2023. In the event of a loss, the system does not have any risk. No other insurance contracts have a gain sharing provision.

NOTE 10 - SEGMENT INFORMATION

North Dakota Housing Finance Agency maintains two separate funds which account for general agency operations and provide loans to finance construction of rental residential housing and single-family ownership. The two funds are accounted for in a single fund, but investors in home ownership bonds rely solely on the revenue generated by the mortgage loans and assets acquired for repayment. Segment information for the year ended June 30, 2019, was as follows (expressed in thousands):

	Home-Ownership Bond Funds
Condensed Statement of Net Position	
Current assets – other	\$ 262,372
Noncurrent assets – other	1,207,583
Total Assets	1,469,955
Deferred outflow of resources	7,886
Current liabilities – other	72,717
Noncurrent liabilities – other	1,221,211
Total Liabilities	1,293,928

STATE OF NORTH DAKOTA

NOTE 11 - MAJOR COMPONENT UNIT TRANSACTIONS

BISMARCK STATE COLLEGE AND BISMARCK STATE COLLEGE FOUNDATION

On January 25, 2007, BSC and BSC Foundation entered into a 15-year lease agreement to facilitate the construction of a Mechanical Maintenance building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$1.4 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100. On August 15, 2013, an addendum was made to the lease agreement to facilitate an addition to the facility.

On October 19, 2007, BSC and BSC Foundation entered into a 25-year lease agreement to facilitate the construction of the National Energy Center of Excellence building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$5.0 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100.

BSC Foundation's financial statements include these transactions as a receivable from BSC and a long-term liability. BSC's financial statements include the capitalized asset and a long-term liability due to BSC Foundation.

	<u>BSC</u>	<u>BSC Foundation</u>
NECE Building	\$ 9,548,989	\$ 10,846,116
Accumulated Depreciation	<u>(2,920,019)</u>	<u>(2,920,019)</u>
Net Value of NECE Building	<u>\$ 6,628,970</u>	<u>\$ 7,926,097</u>

On September 26, 2014, BSC and Student Housing, LLC (a wholly owned subsidiary of BSC Foundation) entered into a 30-year Ground Lease to facilitate the construction and development of a student apartment housing complex on approximately 4.67 acres of land owned by BSC. Under the agreement, BSC would enter into a separate operating and lease agreement with LLC for the constructed student housing apartment complex for use as a College student housing facility. There are no separate rent payments to be paid by LLC during the term of the Ground Lease agreement in exchange for use of the land.

On October 14, 2014, BSC and Student Housing, LLC (a wholly owned subsidiary of BSC Foundation) entered into a Memorandum of Understanding (MOU) which sets forth the essential terms of an Apartment Master Lease agreement to be entered into between LLC and BSC, under which LLC will lease to BSC space in the student housing complex to be constructed by LLC on BSC property according to the terms and conditions of the Ground Lease. The 5-year renewable Apartment Master Lease Agreement will address quarterly rent payments by BSC and responsibilities for maintenance, repairs and insurance of the facilities and improvements during the term of the lease.

On August 13, 2015, BSC and Student Housing, LLC entered into a 5-year lease agreement to operate student housing services in the two newly constructed housing units (Ritchie Hall and Gate City Bank Hall). Under the agreement, BSC is responsible for payment of all rent, maintenance, and daily repair/maintenance of the facility, and restrictions of use of the facility as set forth in the lease. Student Housing, LLC is responsible for major repairs/maintenance and property and liability insurance on the facilities. The lease is classified as an operating lease on BSC financial statements and Student Housing, LLC financial statements includes the capitalized asset.

In fiscal year 2019, BSC purchased a building located in Bismarck, North Dakota from the BSC foundation for \$8.2 million. The building will house the BSC nursing school.

As of July 1, 2018, the BSC Foundation gained control of the Bismarck State College National Alumni Association. The BSC Alumni Association financial statements are included in the consolidated financial statements of the Major University System Foundation component units. The change in reporting entity has been applied retroactively to the July 1, 2018 beginning net assets.

STATE OF NORTH DAKOTA

DICKINSON STATE UNIVERSITY AND DICKINSON STATE UNIVERSITY FOUNDATION

Arbitration - The Dickinson State University Foundation (DSUF) has ownership interest and/or management responsibilities in various real estate projects by way of its membership in Dickinson Investments, LLC (Dickinson Investments) and other entities. DSUF is involved in a dispute with another member of Dickinson Investments, Granville Brinkman and other Brinkman entities (Respondent). An arbitration claim was filed on December 26, 2013. On September 30, 2014, the arbitrator awarded the Respondent a buy-out of their equity interest in the amount of \$1.260 million. The Respondent was also awarded repayment of a note, prejudgment interest and attorneys' fees and costs. DSUF and Dickinson Investments are jointly and severally liable for the buyout amount.

On October 28, 2014, the arbitrator issued a final arbitration award and ordered:

- a) prejudgment interest at 6% would commence December 26, 2013,
- b) the amount of attorney fees and costs to be repaid was \$233,420,
- c) the note prepayment amount was \$133,600
- d) the parties shared responsibility for arbitration fees and expenses totaling \$67,620.

The final award exceeds \$1.7 million. Although DSUF has an equity interest of about 6 percent in Dickinson Investments, the arbitrator has ruled that it is jointly and severally liable for the entire award, except the \$133,600 loan for which Dickinson Investments is responsible.

Receivership - At the request of the NDUS Chancellor, on November 21, 2014, the North Dakota Attorney General petitioned the state district court for the appointment of a receiver. On December 3, 2014, the court appointed a receiver for DSUF. The court order included the following directives:

- The receiver shall take immediate possession, custody, and control of all assets owned or held by DSUF;
- The DSUF board of directors shall be temporarily suspended and have no authority to act on behalf of DSUF;
- The receiver shall gather, protect and oversee DSUF's corporate and charitable assets;
- The receiver shall report to the court; and
- The receiver shall have all the authority necessary to continue the day-to-day activities of the DSUF.

The receiver filed interim reports on a regular basis through September 2016. In the seventh interim report, dated August 31, 2015, the receiver recommended that DSUF be dissolved. This recommendation was based on an inability to negotiate a mutually acceptable settlement of the outstanding Brinkman judgment against DSUF. The report indicates that dissolution should foremost prioritize DSUF obligations to honor restrictions placed on DSUF assets by donors, then address claims made by creditors, employees, and other interested parties. However, DSUF accounting reports indicated that the foundation had total net restricted assets in an amount less than total permanently and temporarily restricted donations.

The Office of Attorney General requested the commencement of dissolution for DSUF. On August 30, 2017, Stark County District Court Judge William Herauf issued an Order that, in part, approved a settlement reached between the Attorney General and the DSUF's major creditors. The Order also resolved all claims against the DSUF, allowing for the distribution of assets and final closure of the issues surrounding the DSUF.

On June 20, 2017, a settlement agreement was signed by the SBHE, DSU and five financial institutions whereby an amount of \$3.1 million will be paid to the financial institutions to repay the outstanding debt related to the Biesiot Activities Center. The 2017 North Dakota Legislative Assembly provided an appropriation to Dickinson State University for the settlement amount. The settlement was paid in July 2017 consistent with the terms of the settlement agreement.

DSUF's Restated Articles of Incorporation state that upon dissolution, remaining assets shall be distributed to the SBHE for the exclusive use and benefit of the Dickinson State University or its direct successors in interest. The receiver recommended that all remaining net assets of DSUF be directed to be turned over to a new 501(c)(3) tax-exempt Foundation in keeping with DSUF's Restated Articles of Incorporation.

There is a cash reserve account remaining in excess of \$300,000 pending the outcomes of resolving claims from the U.S. Internal Revenue Service relating to Charitable Remainder Trusts. All tax returns have been filed by the court appointed Receiver. The U.S. Internal Revenue Service has approved one of the returns and the remainder of the returns are pending review. Once all returns are approved, any remaining cash will be distributed to the DSU Heritage Foundation and a final Receiver's report will be filed to obtain Court approval of the final distribution and closing the receivership dissolution action.

STATE OF NORTH DAKOTA

Financial Audit

In fiscal year 2013, The DSUF's independent auditors issued a qualified opinion on the DSUF financial statements because they were unable to form an opinion regarding the proper amount and classification of unrestricted and temporarily restricted net assets. In fiscal year 2014, the DSUF's independent auditors were unable to issue an audit opinion on the DSUF financial statements as a result of the aforementioned arbitration and the overall condition of the DSUF financial records. An audit has not performed since fiscal year 2014.

Additionally, it has been reported that DSUF may have used endowment funds as collateral to obtain financing and to meet monthly operating expenses of the foundation and one of its real estate projects.

NORTH DAKOTA STATE UNIVERSITY AND NDSU RESEARCH AND TECHNOLOGY PARK, INC.

On December 30, 1999, North Dakota State University (NDSU), through the State of North Dakota and North Dakota State Board of Higher Education, entered into a ground lease, whereby the NDSU Research and Technology Park (RTP), Inc. (component unit) leases 40 acres of land for \$1 per year for the next seventy-five years.

On July 1, 2002, NDSU and the RTP entered into an agreement for cooperation and assistance between entities. The agreement is an annual agreement, which automatically extends for one-year periods unless cancelled by either party to the agreement.

During fiscal year 2017, NDSU and the RTP entered into renewed agreements, whereby NDSU leases the Research Buildings #1 and #2 through June 30, 2032. During fiscal year 2019, total annual rent of \$312,000 was paid by NDSU for these two buildings, in addition to the \$1.8 million of principal and interest paid by NDSU directly to the bond trustee. NDSU reimbursed the RTP \$30,556 for property insurance on the two buildings and directly pays the utility costs under these agreements. The annual rent will be re-adjusted by mutual agreement every two years. These agreements are subject to funding and legislative appropriations.

NDSU FOUNDATION

Fargodome Lease and Improvements

In fiscal year 2006, the Foundation financed the construction and equipping of office space, locker rooms, meetings rooms, and related facilities in the Fargodome for use by NDSU through the sale of revenue bonds issued by Cass County. The Foundation has leased the space in the Fargodome from the City of Fargo and subleased the space, furniture, fixtures and equipment to NDSU. Under the agreement, NDSU will pay rent to the NDSUFAA for use of the premises. The amount of the rent is tied to the \$3.5 million debt service retirement plus the Fargodome annual space rent and all costs incurred by the Foundation incident to the lease, less any contributions received by the Foundation for the project. Under this agreement in fiscal year 2019, the Foundation paid the debt service and other fees on behalf of NDSU in the amount of \$331,606.

The facility is included in long-term investments and the debt is included in long-term liabilities on the financial reports of the Foundation. NDSU has also recorded a capital asset and a capital lease payable, reflected as "Due to Component Units" by NDSU, of \$443,947 as of June 30, 2019. Since the foundation is a discretely presented component unit of the University System and the component unit and the University System are reporting the same assets and debt for the Fargodome improvements, a reclassification entry was made to ending balances in the component unit consolidating financial statements to show the appropriate due from primary institution.

Renaissance Hall

The former Northern School Supply building was donated to the Foundation by NDSU alum in December of 2001. During fiscal year 2003 and 2004, the Foundation renovated the building with the intent to lease the facility to NDSU beginning fall 2004. The Foundation transferred nearly the entire ownership of the building to 650 NP Avenue, LLC and Kilbourne Design Group, LLC, for a five-year period in order to achieve tax credits that would ultimately reduce the cost of the building to NDSU. During the five-year tax credit period, NDSU leased the building from the two LLCs, with the lease payments composed of interest and fees. With the five-year tax credit period ending December 31, 2010 (as extended), and the ownership was transferred back to the Foundation, permanent financing was put in place on December 17, 2010, with the issuance of \$5.65 million of 20-year University Facilities Lease Revenue Bonds, Series 2010 (Renaissance Hall Project). The financing structure involving the five-year temporary ownership transfer resulted in achieving tax credits of \$4.9 million which directly lowered the leasing cost to NDSU.

STATE OF NORTH DAKOTA

Under this refinanced debt issuance and lease agreement, as approved by the SBHE on December 16, 2010, the property is leased to NDSU for rent equal to the semi-annual principal and interest on the bonds, plus all costs incurred by the Foundation incident to ownership of the property. Ownership of the property will transfer to NDSU when the bonds are repaid in full. NDSU paid the Foundation \$412,000 in fiscal year 2019 for debt service under this agreement. As of June 30, 2019 the outstanding balance on the bonds, reflected as "Due to Component Units" by NDSU, is \$3.8 million.

Barry Hall Business Building and Klai Hall Architecture Building

Effective November 28, 2007, NDSU and the Foundation entered into lease agreements for two buildings in downtown Fargo, formerly known as the "Pioneer Mutual Building" and "Lincoln Mutual building". The Foundation financed the construction of the Barry Hall business building and Klai Hall architecture building projects through the sale of \$18.52 million of 20-year University Facilities Revenue Bonds issue by the City of Fargo, North Dakota. The City has loaned the bond proceeds to the Foundation for payments equal to the sum of the semi-annual interest payments and installments of varying principal amounts on the variable rate bonds and the semi-annual principal and interest payments on the fixed-rate bonds. The principal payments on the variable rate bonds will be funded from payments on donor pledges restricted for the project. Under the terms of the loan, the Foundation is responsible for the real estate taxes, insurance, repairs and maintenance, and other costs incident to ownership of the property. The property is included with property in the financial statements and the bonds have been recorded as a direct obligation of the Foundation. Ownership of the property will transfer to NDSU when the bonds are repaid in full. The bonds are guaranteed by the Foundation. This property is leased to NDSU for rental equal to the sum of the semi-annual interest only payments on the variable term bonds plus the semi-annual principal and interest payments on the fixed-rate bonds for the term of the bonds, plus all the costs incurred by the Foundation incident to ownership of the property.

In May 2012, the Foundation refinanced the original bonds issued in November 2007. As a result, new leases were executed. Under the terms of the new leases, NDSU pays and recognizes a liability for entire amount of the previously issued bonds. During fiscal year 2019, NDSU paid \$774,000 to the bond trustee on-behalf of the Foundation under the new leases for debt service on Barry Hall & Klai Hall. NDSU has an option to acquire the property upon full payment of the bonds. As of June 30, 2019, the outstanding balance on the bonds, reflected as "Due to Component Units" by NDSU, is \$8.65 million.

Other Transactions

The Foundation provides meeting space rental and database support service to NDSU for an annually negotiated fee. NDSU paid the foundation \$679,000 for the fiscal year ending December 31, 2018.

In addition to the debt service payments on the Fargodome, Renaissance, Barry and Klai Halls, NDSU reimburses the Foundation for other operating expenses related to those buildings, such as property insurance, flood insurance, boiler inspection fees, real estate taxes and bond administrative fees. Those costs totaled \$104,000 during the fiscal year ending December 31, 2018.

The Foundation's fiscal year end is December 31, NDSU year end is June 30. Timing differences in amounts may occur between entity financial statements, due to different year end dates.

UNIVERSITY OF NORTH DAKOTA AND UND AEROSPACE FOUNDATION

The UND Aerospace Foundation (UND AF) recorded expenses reimbursed to UND for salaries, building rent, aircraft rental, and goods and services under an operating agreement aggregating \$13.9 million in fiscal year 2019. This operating agreement has no specific term and is intended to memorialize various operating agreements, rate structures, duties, and obligations each party has to the other. Expenses reimbursed to UND represent actual costs incurred and are included in training expenses in the consolidated statements of activities.

The UND AF recorded revenue for service and hangar, CRJ, 360-degree tower, and aircraft rental to UND of \$3.9 million in fiscal year 2019, which is included in program and event revenue in the Statement of Revenue, Expenses and Changes in Fund Net Assets for Component Units (FASB Basis) – University System Foundation.

As of June 30, 2019, the UND AF had recorded accounts payable to UND of \$2.3 million for reimbursable costs and services. As of June 30, 2019, the UND AF had recorded accounts receivable from UND of approximately \$813,000, which are included in accounts receivable in the statement of net assets for component units (FASB Basis) – University System Foundation.

The UND AF entered into a sublease with UND to lease the aircraft storage hangar/ground support equipment facility. The lease term is for 20 years, commencing on July 7, 2003, until July 6, 2023. For the first fifteen years of the sublease,

STATE OF NORTH DAKOTA

UND will pay the Foundation's monthly minimum payment of \$12,672, beginning on October 1, 2003, subject to actual cost adjustments. At the end of the 15 years of the sublease, rent will be adjusted based upon the interest rate adjustments of the debt incurred by the Foundation in the construction of the hangar. Under this noncancelable sublease with UND, UND AF will receive future minimum rentals of \$1.9 million over the next five years.

UNIVERSITY OF NORTH DAKOTA AND RE ARENA, INC.

RE Arena Inc. and UND, enter into an annual operating agreement from July 1, 2017 to June 30, 2020. The operating agreement sets forth the facility usage, fees and services, ticket administration and revenue allocation, sponsorship sales administration and revenue allocation, and net income disposition. In accordance with this agreement: (i) RE Arena Inc. collects all ticket revenue from ticketed UND athletic events (hockey, football, men's and women's basketball, and volleyball), RE Arena, Inc. retains 52 percent of such ticket revenue and remits 48 percent to the UND, and (ii) RE Arena Inc. collects all sponsorship sales revenue from the UND athletic events at the arena, RE Arena, Inc. retains 64 percent of such sponsorship revenue, net of direct costs, and remits 36 percent to the UND net of direct costs. In addition, UND and RE Arena, Inc. jointly utilize the UND and RE Arena Inc. marketing staff to market and promote the UND athletic events.

RE Arena, Inc. may contract with UND for materials and personnel in service, utility and other areas and will reimburse UND based on separate agreements. Revenue and expense arrangements for all other UND events held at the arena will be negotiated on an event-by-event basis.

In fiscal year 2019, gross tickets sales were \$4.9 million of which RE Arena, Inc. recognized revenue of \$2.5 million with a net due to UND \$2.4 million. Gross ticket sales for the next athletic season year are recorded in deferred revenue at gross by RE Arena, Inc. for a total of \$2.9 million.

RE Arena, Inc. recognized net sponsorship (advertising) revenue of approximately \$746,000 and the net due UND in sponsorship (advertising) income of approximately \$419,000. In addition, RE Arena, Inc. allocated approximately \$670,000 of net income to UND Athletic Department for the year ended May 31, 2019. RE Arena, Inc. expensed \$1.0 million to UND for utilities, maintenance staff, phone service and other expenses.

At the end of the fiscal year RE Arena, Inc. owes UND \$713,000 for the annual operating agreement and monthly services.

Amounts are reported on the accrual basis of accounting, which may or may not be the same as that used by UND. RE Arena Inc.'s fiscal year end is May 31st, UND's fiscal year end is June 30th. Amounts may differ between entity financial statement because of timing differences due to different year ends.

UNIVERSITY OF NORTH DAKOTA AND UNIVERSITY OF NORTH DAKOTA FOUNDATION

UND is leasing space in the Gorecki Alumni Center in the amount of \$75,000 per year. Additional rental payments consisting of UND's share of the operating and maintenance costs for space used in the Gorecki Alumni Center are calculated annually.

During the year ended June 30, 2019, UND provided approximately \$1.5 million of institutional support for event and database support, annual giving campaign and shared positions. The UND Alumni Association and Foundation (Foundation) manages UND's endowment investments and charged them \$387,600 in investment management fees during the year ended June 30, 2019. These fees and support are reported as operations, fees and miscellaneous revenue on the Statement of Revenue, Expenses and Changes in Fund Net Assets for Component Units (FASB Basis) – University System Foundation.

The Foundation has other receivables with UND related to the construction of the EERC and Minot Center for Family Practice for \$3.8 million and \$2.0 million, respectively. The Foundation has accounts payable due to UND related to miscellaneous services and payments of approximately \$463,000.

The Foundation is leasing 45,000 square feet of land for the Gorecki Alumni Center from UND. Starting in 2016, the rate is \$0.10 per square foot, per year. The cost in fiscal year 2019 was \$4,500.

On July 24, 2002, the Foundation issued \$8.6 million of tax exempt lease revenue bonds to finance the construction of an office building and the renovation of an existing building for the Energy and Environmental Research Center (EERC) of UND. The Foundation recorded a receivable from UND of \$8.6 million under the direct-financing lease arrangement. On October 18, 2012, the Foundation issued refunding lease revenue bonds in the amount of \$6.4 million to refund its outstanding Lease Revenue Bonds, Series 2002. The Foundation also amended the related lease agreement with UND. Interest accrues on the bonds at rates from 0.75 percent to 4.20 percent depending upon maturity. Annual and principal

STATE OF NORTH DAKOTA

are due through fiscal year 2027 and as of June 30, 2019 was \$3.8 million. The bonds are secured by a lease with UND. The terms for the repayment are the same as the payment terms of the related bonds. During fiscal year ended June 30, 2019, the Foundation recorded payment of principal and interest of \$405,000 and \$157,000, respectively. The interest is included in operations, fees and miscellaneous income on the statement of activities.

On October 24, 2003, the Foundation issued \$4.4 million of tax-exempt lease revenue bonds to finance the purchase of land and the construction of a facility for the Minot Center for Family Practice in Minot, North Dakota. The center is a department of the School of Medicine & Health Sciences at UND. The Foundation recorded a receivable from UND of \$4.4 million due under the direct-financing lease agreement. In June 2008, the \$3.7 million remaining balance of the 2003 bonds were financed with Lease Revenue Refunding Bonds, series 2008. In April 2018, the \$2.2 million remaining balance of the 2008 bonds was refinanced with Lease Revenue Bonds, Series 2018. The interest rate is fixed at 3.5% until 2028. Payments of \$133,333 are required semi-annually through 2028. The bonds are secured by a lease with UND. Annual principal and semiannual interest payments as of June 30, 2019 was \$2.0 million.

NOTE 12 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

BANK OF NORTH DAKOTA

The State, through the Bank of North Dakota, is a party to credit related financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, financial standby letters of credit and guarantees related to loan programs. Those instruments involve varying degrees of credit, elements of credit risk and interest rate risk in excess of the amount recognized in the statement of net position. The contract amounts of those instruments reflect the extent of involvement the State has in particular classes of off-balance-sheet financial instruments.

The State's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and financial standby letters of credit is represented by the contractual amount of those instruments. The State uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments.

	Contract Amount (in thousands)
Commitments to extend credit	\$ 861,421
Financial standby letters of credit	412,614
Guarantees provided	9,490

Commitments to extend credit are agreements to lend as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained by the State upon extension of credit is based on management's credit evaluation of the customer. Collateral held may include accounts receivable, inventory, property, plant and equipment, and income-producing commercial properties.

Financial standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Those letters of credit are primarily issued to support public borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank has segmented this category into three components: (1) letters of credit, (2) confirming letters of credit, and (3) letters of credit pledged for public deposits to North Dakota financial institutions.

Letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party which require this type of facility. The maturities for these letters range from three months to ten years, and the likelihood of funding any of these letters of credit is considered to be remote. The Bank holds collateral supporting those commitments. The Bank also has letters of credit with the North Dakota Public Finance Authority with maturities ranging from seventeen months to twenty nine years. If the letters issued to Public Finance Authority were ever drawn upon, Public Finance Authority is legally obligated to reimburse the Bank from funds legally available, or from any appropriation made available to the Legislative Assembly after certification by the Industrial Commission. The likelihood of funding any of these letters of credit is also considered to be remote. Outstanding issued letters of credit as of December 31, 2018 were \$106,834,000.

Confirming letters of credit are issued to North Dakota financial institutions to support letters of credit they have issued but are still in need of backing from an institution with a long-term, high quality bond rating. In the event these letters were to be drawn upon, based on the terms of the agreement, the Bank would immediately withdraw funds from the

STATE OF NORTH DAKOTA

institution's correspondent bank account held at the Bank to cover the amount drawn. These agreements generally have terms of 12 months or less. The likelihood of funding any of these confirming letters of credit is also considered to be remote. Outstanding issued confirming letters of credit as of December 31, 2018 were \$3,525,000.

Letters of credit pledged for public deposit to North Dakota financial institutions are issued to support public borrowing arrangements. These letters are fully collateralized by a pool of loans pledged to the Bank. These agreement generally have terms of 12 months or less. Financial standby letters for public deposits by North Dakota banks totaled \$302,255,000 at December 31, 2018. The likelihood of funding any of these letters of credit is also considered to be remote. These letters of credit are authorized form of collateral for public deposits per North Dakota Century Code 21-04-09.

The Bank has not recorded a contingent liability related to off-balance sheet activity as of December 31, 2018.

INFRASTRUCTURE REVOLVNG LOAN PROGRAM

In the normal course of business, the Loan Fund makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$38,955,000 at June 30, 2019.

NORTH DAKOTA HOUSING FINANCE AGENCY

In the normal course of business, the Agency makes various commitments that are not reflected in the financial statements. These include commitments to extend credit and the debt reduction required when related loan acquisition funds are not drawn down within prescribed time frames set by the specific bond resolution.

Commitments to extend credit are agreements to fund loans as long as there is no violation of any condition established in the contracts. Commitments require the payment of a reservation fee and generally have a fixed expiration date. Commitments to extend credit total \$524,000 at June 30, 2019.

The bond resolutions require that the funds in the loan acquisition accounts be expended within 42 months of the related bond delivery date. Any remaining funds must be used for debt reduction. The loan acquisition funds totaled \$53,474,000 at June 30, 2019.

PUBLIC FINANCE AUTHORITY

In the normal course of business, the Finance Authority (a component unit) makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$269,344,000 at December 31, 2018.

NOTE 13 - INTEREST RATE SWAP

BANK OF NORTH DAKOTA

The Bank has an outstanding interest rate swap agreement with a notional amount totaling \$350 million to convert variable rate federal funds into fixed-rate instruments over the term of the contract.

On June 5, 2014 ("June 2014 Swap") the Bank entered into a swap agreement which matures on June 1, 2029, and the swap's notional amount is \$50,000,000. Under the terms of the swap, the Bank pays the counterparty a fixed payment of 2.861% and receives a variable payment based on the USD-FEDERAL FUNDS-H.15 interest rate.

On April 14, 2015 ("April 2015 Swap") the Bank entered into a swap agreement which matures on May 1, 2030, and the swap's notional amount is \$50,000,000. Under the terms of the swap, the Bank pays the counterparty a fixed payment of 1.920% and receives a variable payment based on the USD-FEDERAL FUNDS-H.15 interest rate.

On August 11, 2016 ("August 2016 Swap") the Bank entered into a swap agreement which matures on September 1, 2031, and the swap's notional amount is \$50,000,000. Under the terms of the swap, the Bank pays the counterparty a fixed payment of 1.483% and receives a variable payment based on the USD-1 MONTH LIBOR-BBA interest rate.

On April 5, 2017 ("April 2017 Swap") the Bank entered into a swap agreement which matures on May 1, 2032, and the swap's notional amount is \$50,000,000. Under the terms of the swap, the Bank pays the counterparty a fixed payment of 2.390% and receives a variable payment based on the USD-1 MONTH LIBOR-BBA interest rate.

STATE OF NORTH DAKOTA

On June 15, 2017 (“June 2017 Swap”) the Bank entered into a swap agreement which matures on July 1, 2032, and the swap’s notional amount is \$50,000,000. Under the terms of the swap, the Bank pays the counterparty a fixed payment of 1.985% and receives a variable payment based on the USD-FEDERAL FUNDS-H.15 interest rate.

On March 27, 2018 (“March 2018 Swap”) the Bank entered into a swap agreement which matures on April 1, 2033, and the swap’s notional amount is \$50,000,000. Under the terms of the swap, the Bank pays the counterparty a fixed payment of 2.468% and receives a variable payment based on the USD-FEDERAL FUNDS-H.15 interest rate.

On June 28, 2018 (“June 2018 Swap”) the Bank entered into a swap agreement which matures on July 1, 2033, and the swap’s notional amount is \$50,000,000. Under the terms of the swap, the Bank pays the counterparty a fixed payment of 2.515% and receives a variable payment based on the USD-FEDERAL FUNDS-H.15 interest rate.

At December 31, 2018, the June 2014, March 2018 and June 2018 swaps has a negative fair values of \$2,180,000, \$45,000 and \$320,000, respectively, because interest rates have declined since the swap was executed. The April 2015, August 2016, April 2017 and June 2017 swaps has a positive fair values of \$2,492,000, \$6,240,000, \$1,404,000 and \$2,710,000, respectively, because interest rates have increased since the swap was executed.

At December 31, 2018, the Bank was not exposed to material credit risk because each counterparty is required to fully collateralize the fair value of the swaps within \$250,000 of daily mark-to-market valuations by depositing funds with the other counterparty.

Amongst all swap counterparties for the transactions noted above, the Bank holds a net \$12,150,000 in cash pledged under collateral arrangements related to the interest rate swaps at December 31, 2018, to satisfy the collateral requirements. The Bank is exposed to interest rate risk on its swap agreements.

The Bank is exposed to interest rate risk on its swap agreements. On its pay-fixed, receive variable interest rate swaps, the Bank’s net payment increases as the USD-FEDERAL FUNDS-H.15 and USD-1 MONTH LIBOR-BBA interest rates decrease.

Either the Bank or its counterparties may terminate the interest rate swap if the other party fails to perform under the terms of the contract. Termination could result in the Bank being required to make a payment of the fair value of the swap to counterparty.

The following table summarizes the derivative financial instrument utilized at December 31, 2018:

	Notional Amount	Fair Value		Changes in Fair Value	
		Classification	Amount	Classification	Amount
June 2014 Swap	\$ 50,000,000	Other liabilities	\$ (2,180,000)	Deferred outflow	\$ 1,921,000
April 2015 Swap	50,000,000	Other assets	2,492,000	Deferred inflow	1,598,000
August 2016 Swap	50,000,000	Other assets	6,240,000	Deferred inflow	1,018,000
April 2017 Swap	50,000,000	Other assets	1,404,000	Deferred inflow	1,530,000
June 2017 Swap	50,000,000	Other assets	2,710,000	Deferred inflow	1,930,000
March 2018 Swap	50,000,000	Other liabilities	(45,000)	Deferred outflow	(45,000)
June 2018 Swap	50,000,000	Other liabilities	(320,000)	Deferred outflow	(320,000)

STATE OF NORTH DAKOTA

Using rates as of December 31, 2018, the interest expense of the variable rate federal funds, variable rate 1 month LIBOR and the net swap payments are as follows. As rates vary, the federal fund and 1 month LIBOR interest expense and the net swap payments will vary.

Year Ended December 31:	Pay Fixed	Receive Variable		Interest Rate Swap, net
	Contract Interest	Federal Fund Interest	1-Month LIBOR Interest	
2019	\$ 7,811,000	\$ 6,000,000	\$ 2,520,000	\$ (709,000)
2020	7,811,000	6,000,000	2,520,000	(709,000)
2021	7,811,000	6,000,000	2,520,000	(709,000)
2022	7,811,000	6,000,000	2,520,000	(709,000)
2023	7,811,000	6,000,000	2,520,000	(709,000)
2024-2028	39,065,000	30,000,000	12,600,000	(3,535,000)
2029-2033	22,219,000	16,800,000	7,560,000	(2,141,000)
	<u>\$ 100,339,000</u>	<u>\$ 76,800,000</u>	<u>\$ 32,760,000</u>	<u>\$ (9,221,000)</u>

NORTH DAKOTA HOUSING FINANCE AGENCY

As a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance, the Agency entered into several cash flow hedges or swaps in connection with various variable-rate housing bond series. The Agency cash flow hedges are pay-fixed. All Agency cash flow hedges are pay-fixed. The intention of these swaps was to effectively change the Agency's interest rate on the bonds to a fixed rate. The Agency also has cash flow hedges that were entered into in connection with variable-rate housing bond series that no longer have bonds outstanding as those bonds have been called. The cash flow hedges that are not connected to a specific bond series hedge the risk related to the Agency's other variable-rate housing bonds that are unhedged.

The bonds and the related swap agreements have a stated issuance and maturity date. Some of the swaps have optional termination dates. Under the swaps, the Agency pays the counterparty a fixed payment and receives a variable payment computed as a percent of the London Interbank Offered Rate (LIBOR) plus a fixed percentage on the swap notional amount. On the other hand, the bond's variable-rate coupons are determined by the remarketing agent. If for any reason the remarketing agent fails to act, the rate shall be the lesser of (i) the TBMA Index plus 0.25% or (ii) the Maximum Rate as defined within the applicable series resolution.

As of June 30, 2019, the Agency no swaps with a positive fair value. Of the swaps with negative fair value, the Agency is not exposed to credit risk. However, the swap exposes the Agency to basis risk should the relationship between LIBOR and TBMA converge, changing the synthetic rate on bonds. The swap counterparty has guaranteed all payments and is rated AAa/AA+/AAA by Moody's Investor Services, Standard & Poor's, and Fitch, respectively. To mitigate potential credit risk, the counterparty has entered into Credit Support Agreements with Bank of New York Mellon, the Royal Bank of Canada and Wells Fargo as a credit enhancement.

The Agency has entered into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements netting provisions permit each party to net the transactions' fair values so that a single sum will be owed by, or owed to, the other party. At June 30, 2019, the Agency owed the swap providers a fixed rate on the notional amount of the swaps of \$2,566,000 and the swap providers owed the Agency a variable rate on the notional amounts of \$1657,000 making the net payment that the Agency owed the swap providers \$909,000.

Due to the difference in the variable rate indices, the swaps had a net negative fair value of \$7,886,000 as of June 30, 2019. Accordingly, the financial derivative instrument is reported as a liability and the accumulated changes in fair value of the swaps are reported as a deferred outflow at June 30, 2019. The coupon on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. All valuations are as of the valuation date indicated. Mid-Market or indicative unwind valuations may be derived from broker quotations or from proprietary models that take into consideration estimates about relevant present and future market conditions as well as the size and liquidity of the position and any related actual or potential hedging transactions. Valuations based on other models or different assumptions may yield different results.

The swap exposes the Agency to basis risk should the relationship between LIBOR and the actual variable rates converge, changing the synthetic rate on the bonds. The effect of this difference in basis is indicated by the difference

STATE OF NORTH DAKOTA

between the intended synthetic rate and the synthetic rate as of June 30, 2019. If a change occurs that results in the rates' moving to convergence, the expected cost savings may not be realized.

The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination event." That is, the swap may be terminated if counterparty's credit quality rating falls below "A3" as issued by Moody's Investors Service or "A-" as issued by Fitch Ratings or Standard & Poor's. The swap may be terminated at any time by the Agency or the counterparty with 30 days written notice up to limits specified in the swap agreement. If the swap or swaps were terminated, the variable-rate bonds would no longer carry a synthetic interest rate. Also, if at the time of terminations the swap has a negative fair value, the Agency would be liable to the counterparty for payment equal to the swap's fair value, but in the event the fair value is positive, the counterparty would be liable to the Agency.

The Agency is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to maturity of the hedged debt. When these hedging derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, the Agency will be re-exposed to the risks being hedged by the hedging derivative instrument. The Agency also is exposed to rollover risk on the swaps that mature and the Agency does not call the related variable rate debt.

STATE OF NORTH DAKOTA

The terms of the interest rate swaps at June 30, 2019 are as follows:

1.	Bond Series	2008 B	2014 B	2015 C	2015 E

STATE OF NORTH DAKOTA

Using rates as of June 30, 2019, debt service requirements of the variable-rate debt and net swap payments are as follows. Interest calculations were based on rates as of June 30, 2019. As rates vary, variable-rate bond interest payments and net swap payments will vary. (Expressed in thousands.)

Fiscal Year Ending June 30	Variable-Rate Bond		Interest Rate Swap, Net	Total
	Principal	Interest		
2020	\$ 2,545	\$ 3,694	\$ 1,810	\$ 8,049
2021	2,335	3,637	1,799	7,771
2022	2,130	3,585	1,789	7,504
2023	1,945	3,538	1,780	7,263
2024	1,775	3,495	1,773	7,043
2025-2029	22,865	16,445	8,387	47,697
2030-2034	34,765	14,392	6,586	55,743
2035-2039	61,750	10,067	3,991	75,808
2040-2044	47,005	4,013	1,518	52,536
2045-2049	12,900	665	219	13,784
2050-2054	1,710	14	5	1,729
	<u>\$ 191,725</u>	<u>\$ 63,545</u>	<u>\$ 29,657</u>	<u>\$ 284,927</u>

NOTE 14 - SIGNIFICANT CONCENTRATIONS OF CREDIT RISK

Most of the State's business is with customers within the state. Concentrations of credit are present in the construction and operation of community water facilities, loans to medical facilities for health care construction, loans to students for post-secondary education, loans to owners of homes damaged in the 2011 floods in Barnes, Benson, Burleigh, McHenry, Morton, Ramsey, Renville, Richland and Ward counties, loans to political subdivisions in the state for infrastructure, single-family and multifamily mortgage loans, and the agricultural industry. Due to the pervasive nature of agriculture in the economy of the state, all loans, regardless of type, are impacted by agriculture.

NOTE 15 - RISK MANAGEMENT

Several funds accumulate assets to cover risks that the State may incur. Specifically, the State assumes a portion or substantially all risks associated with the following:

THE STATE FIRE AND TORNADO FUND

The State Fire and Tornado Fund, an Enterprise Fund, is financed by premiums charged to the participating funds of the State. All monies collected must be paid into the fund for use only for the purpose outlined in NDCC 26.1-22.02.

All losses occasioned by the hazards provided for in the North Dakota Century Code must be paid out of the fund, with the fund being reimbursed by a third-party insurance carrier for all losses in excess of \$1,000,000 per occurrence. The limit of liability of such reinsurance contract is no less than \$1,000,000 during each twelve month period.

STATE BONDING FUND

The State Bonding Fund, an Enterprise Fund, is financed by premiums charged to each State agency for the bonding of public employees and public officials.

FLEET SERVICES

Fleet Services, an Internal Service Fund, represents the State's fleet of automobiles and is administered by the Department of Transportation. The State is self-insured for substantially all automobile insurance (e.g., comprehensive, collision), with the exception of liability, which is provided by the State's Risk Management Fund (RMF). State agencies are charged premiums to cover Fleet Service's RMF assessment and to pay for those losses that are not covered by RMF. These premium charges are factored into the fees agencies are charged when renting the cars.

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a State insurance fund and a "no fault" insurance system, covering the State's employers and employees. WSI is financed by premiums assessed to employers. The rate of such premiums is periodically adjusted to assure the solvency of WSI. The premiums are available primarily for the payment of

STATE OF NORTH DAKOTA

claims to employees injured in the course of employment. During fiscal year 2019, a total of \$147,666,582 in claims was recognized. The liability of \$1,090,944,000 is the present value of the unpaid claim liability discounted at 5% as determined by the actuarial.

RISK MANAGEMENT FUND

Due to the loss of sovereign immunity, the 1995 Legislature established the Risk Management Fund (RMF) to pay money damages for tort claims for which the State is liable. The statutory liability of the State is limited to a total of \$250,000 per person and \$1,000,000 per occurrence. The State purchases commercial insurance for claims in excess of coverage provided by the Fund and continues to transfer liabilities for medical malpractice and aviation to private insurance carriers. Settlements have not exceeded insurance coverage in any of the past three fiscal years.

Revenues to the RMF are generated from contributions required from state agencies, boards and commissions, and the University System. The need for and amount of funding is determined using a projected cost allocation approach. The premise of this plan is that the agencies with greater expected loss costs should contribute more to the funding of the RMF than those agencies with lesser costs. The underlying logic is that contributions should roughly equal loss costs plus the expenses of administering the program over the long term.

The RMF liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Unpaid claim liabilities are based on an actuarial study of the outstanding loss reserve need for the fund and a forecast of ultimate loss and loss expense. These liabilities were determined on an undiscounted expected level of ultimate loss. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrines, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re-evaluated periodically to take in consideration settled claims, the frequency of claims, and other economic and social factors.

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2018 and 2019:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims and Changes In Estimates</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2018	\$ 4,076,985	\$ 923,270	\$ (743,861)	\$ 4,256,394
2019	4,256,394	(175,718)	(313,674)	3,767,002

The Risk Management Workers Compensation Program (WCP) was established to consolidate all state entities under one workers compensation account, allowing for transitional duty between entities. The statutory liability of the fund is limited to \$100,000 per claim with Workforce Safety & Insurance, providing excess insurance for claims that exceed the \$100,000 cap. WCP pays separately for this coverage. Since the inception of WCP on July 1, 2001, forty claims exceeded coverage by \$10,687,695.

Revenues to WCP are generated from contributions required from state agencies, boards, commissions, and the University System. The amount contributed from each agency is actuarially determined by Workforce Safety & Insurance and based upon the number of employees, the type of work done, and claims history of each entity. Each entity also pays a deductible of \$250 per claim.

The WCP liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrine, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re-evaluated periodically to take into consideration settled claims, the frequency of claims, and other economic and social factors. An actual study was performed for Workforce Safety & Insurance. The liability estimates are based on that study.

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2018 and 2019:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2018	\$ 5,358,784	\$ 2,945,274	\$ (3,422,372)	\$ 4,861,686
2019	4,861,686	2,639,167	(3,142,217)	4,358,636

STATE OF NORTH DAKOTA

NOTE 16 - PUBLIC ENTITY RISK POOLS

A. GENERAL

FIRE AND TORNADO AND BONDING FUND

The Fire and Tornado Fund provides property insurance to state agencies, political subdivisions, the International Peace Garden and the Winter Show. The Fire and Tornado Fund has issued 1,161 policies to participating entities for a total building and content coverage of \$15.2 billion. The Bonding Fund is used to provide fidelity bonding of public employees and officials. The Fund has issued 1,892 policies to participating entities. The total coverage for the Bonding Fund is \$674.9 million. If the assets of these funds were exhausted, fund participants would not be responsible for the funds' liabilities.

The Fire and Tornado and Bonding Fund are accounted for on the accrual basis. The Fire and Tornado Fund establishes claim liabilities based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims incurred but not reported. The Bonding Fund establishes claim liabilities based on actual judgments obtained against the fund but not paid prior to fiscal year end. Liabilities for incurred but not reported losses have not been established based on prior year activity. Neither fund incurred any acquisition costs, which should have been capitalized, nor were any liabilities recognized that were discounted. Investment income was not considered in determining the existence of premium deficiencies.

The Fire and Tornado Fund uses reinsurance agreements to reduce its on covered losses in excess of \$1.0 million. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Fund as direct insurer of the risks that are reinsured. The Fire and Tornado Fund does not report reinsured risks as liabilities unless it is probable that those risks will not be covered by reinsurers. There were no pending losses at June 30, 2019 that would reduce the fund's liability.

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a state insurance fund and a "no fault" insurance system covering the State's employers and employees. At June 30, 2019, coverage extended to the following employers:

<u>Annual Premium</u>	
\$250 - \$5,000	19,350
\$5,001 - \$50,000	4,312
\$50,001 - \$100,000	424
Over \$100,000	<u>381</u>
Total Employers	<u>24,467</u>

WSI is financed by premiums assessed to the employers doing business in North Dakota. The premiums are available primarily for the payment of claims to employees injured in the course of employment.

The operations of WSI are accounted for on the accrual basis. Liability for incurred loss and loss adjustment expense (LAE) is estimated by WSI's actuary. The estimate is developed by WSI's actuary, taking into consideration past experience of WSI in paying claims, and general conditions of the environment in which WSI operates. The liability is based on the estimated ultimate costs to settle both reported and incurred but not report (IBNR) losses and LAE, and includes the effects of inflation and other societal and economic factors. The actuarial computations also include a 4.5% discount to report this liability at its present value. A 5% discount rate has been used in prior years; however, in 2019, the rate was reduced to 4.5% discount. The result of the discount rate decrease, increased liabilities by \$44.3 million.

Management believes the estimated liability for losses and loss adjustment expense is sufficient to cover the ultimate net cost of incurred losses, but such loss reserves are necessarily based on estimates and the ultimate liability may be greater or less than the amounts estimated. As adjustments to this estimated liability become necessary, such adjustments are reflected in current operations.

For the year ended June 30, 2019, the consulting actuaries presented an estimate in the form of a range to emphasize the uncertainty for a "long-tailed" liability insurer such as workers' compensation. These ranges are as follows (expressed in thousands):

	<u>Low</u>	<u>Central Value</u>	<u>High</u>
Full value basis, undiscounted	\$ 1,602,041	\$ 1,726,416	\$ 1,821,531
Present value basis, discounted at 4.5%	1,013,686	1,090,944	1,151,057

STATE OF NORTH DAKOTA

WSI has adjusted the estimated liability for unpaid loss and loss adjustment expense to the actuary's 4.5 percent discounted expected value of \$1,090,944,000 at June 30, 2019.

While management has recorded amounts that fall within the ranges of estimated liabilities as computed under actuarial assumptions, the high level of uncertainty indicates that actual losses and expenses could be materially higher than the recorded estimated liability.

WSI has entered into a contract with an intermediary for reinsurance coverage for catastrophic coverage. Historically, WSI has had up to four coverage levels, with varying retention limits of \$3 million, \$5 million, \$10 million and \$20 million. Terms, limits and pricing are re-evaluated annually. WSI's current 2019 calendar year has two coverage levels, with retention limits of \$10 million and \$20 million. For the year ended June 30, 2019 WSI recorded ceded losses of \$1,037,258 and ceded premiums of (\$184,860).

For accident years December 1, 1999 to December 1, 2002, Munich Re provided treaty excess of loss reinsurance to WSI. In fiscal year 2019, Munich Re and WSI agreed to commute the remaining liabilities under these treaties. As a result of this commutation, cash increased by \$50.5 million and approximately \$40 million of ceded liabilities were assumed by WSI.

B. RECONCILIATION OF CLAIMS LIABILITIES

The following is a reconciliation of total claims liabilities, including an analysis of changes in aggregate liabilities for claims and claim adjustment expenses for the current fiscal year and the prior year (expressed in thousands):

	Fire And Tornado		Bonding		Workforce Safety & Ins	
	2019	2018	2019	2018	2019	2018
Unpaid claims and claims adjustment expenses at the beginning of the year	\$ 1,879	\$ 1,138	\$ 106	\$ 66	\$ 1,049,386	\$ 1,085,768
Incurring claims and claims adjustment expenses:						
Provision for current fiscal year	2,953	2,352	39	87	186,815	193,275

NOTE 17 - BANK OF NORTH DAKOTA

GASB Statement No. 34 requires assets and liabilities of enterprise funds be presented in a classified format to distinguish between current and long-term assets and liabilities. The Bank of North Dakota is the only government-owned bank in the United States. Banks do not present a classified statement of net position because current assets are not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Therefore, the statement of net position of the Bank of North Dakota presents assets and liabilities in order of their relative liquidity, rather than in a classified format.

STATE OF NORTH DAKOTA

NOTE 18 - COMMITMENTS AND CONTINGENCIES

A. *LONG-TERM COMMITMENTS*

INDUSTRIAL COMMISSION

The Industrial Commission has entered into various contracts with third parties for the following programs. As of June 30, 2019, the total outstanding balance on these contracts was:

Lignite Research Program	\$ 20,567,049
Lignite Vision 21 Program	1,367,678
Oil and Gas Research Program	5,753,306
Renewable Energy Program	2,774,012
Outdoor Heritage Fund Program	24,450,922

In addition to the contracts above, the Commission has authorized projects totaling \$9,945,360 for which there is no signed contract.

MILL AND ELEVATOR

As of June 30, 2019, the Mill had commitments to purchase 4,645,817 bushels of spring wheat and 601,675 bushels of durum.

SCHOOL CONSTRUCTION ASSISTANCE REVOLVING LOAN FUND

As of June 30, 2019, the Fund had five outstanding commitments totaling \$38,910,000 to extend credit.

HOUSING INCENTIVE FUND

The Fund makes various commitments relating to construction projects to meet unmet housing needs across North Dakota. The Fund had \$583,147 of signed commitments for construction projects as of June 30, 2019. The Fund had an \$3,910,047 of HIF funds awarded for construction projects as of June 30, 2019. The total paid on these commitments as of June 30, 2019 was \$3,326,900.

DEPARTMENT OF HUMAN SERVICES

As of June 30, 2019, the Department of Human Services had significant commitments for the purchase of various types of services totaling \$444,725,081.

NORTH DAKOTA LOTTERY

The Lottery contracts with a third party to provide an online gaming system and related services through June 30, 2022. Total payment for these services during the year ended June 30, 2019 were \$3.8 million based on 10.473% of ticket sales. The Lottery's future obligation through June 30, 2022 is based on 10.473% of ticket sales, there is no minimum fee or retainer fee.

NORTH DAKOTA DEPARTMENT OF TRANSPORTATION

At June 30, 2019, the North Dakota Department of Transportation (Special Revenue Fund) had non-construction contract commitments of approximately \$90.6 million. Construction commitments at June 30, 2019, totaled approximately \$372.2 million, of which \$231.7 million represents federal programs which are cost reimbursable. These commitments will be funded with future appropriations as work is performed.

NORTH DAKOTA DEVELOPMENT FUND

The board of directors has approved equity investments, loans, grants, and guaranty of collections at June 30, 2019, for which funds have not been disbursed or written agreements entered into in the amount of \$5,203,735.

NORTH DAKOTA SOYBEAN COUNCIL

As of June 30, 2019, the North Dakota Soybean Council had significant commitments of approximately \$3.3 million. This amount mainly consists of grants for the research and development of soybeans.

STATE OF NORTH DAKOTA

STATE WATER COMMISSION

As of June 30, 2019, the State Water Commission had long-term commitments of \$309,719,281 for various water projects.

UNIVERSITY SYSTEMS

Contracts for the construction of various projects on behalf of the University System have been let as follows (expressed in thousands):

	<u>Original Issue</u>	<u>Paid To Date</u>	<u>Amount To Be Paid</u>
LRSC	\$ 68	\$ 68	\$ -
MaSU	82	-	82
MiSU	9,012	7,943	1,069
NDSCS	13,139	13,130	9
NDSU	61,946	56,203	5,743
UND	112,993	43,594	69,399
VCSU	1,390	891	499
WSC	8,432	321	8,111
Total	<u>\$ 207,062</u>	<u>122,150</u>	<u>\$ 84,912</u>

OTHER CONSTRUCTION COMMITMENTS

That State has entered into construction commitments. As of June 30, 2019, the following commitment exists on other construction contracts, in thousands:

Office of Management and Budget	\$ 15
Secretary of State	643
School for the Deaf	115
State Health Department	65
Department of Human Services	1,897
Industrial Commission	5,403
Financial Institutions	20
Adjutant General	29,539
Game and Fish	893
Parks and Recreation	20
Department of Transportation	244,945

B. LITIGATION

The estimated loss in all of the litigation against the State in which a loss to the State that is reasonably possible to result in an unfavorable outcome is estimated to be \$5 million.

C. QUESTIONED COSTS

The State receives federal financial assistance which is subject to review and audit by the Office of the State Auditor and the federal government. This assistance is generally conditioned upon compliance with certain laws and regulations. Disallowed and questioned costs relating to federal assistance could become a liability to the State. The State estimates that the ultimate disallowances pertaining to federal assistance, if any, will be immaterial to its overall financial condition. The single audit of the State of North Dakota for the two-year period ending June 30, 2018, was completed and issued in March of 2019. As a result of this audit, approximately \$1.9 million of identifiable questioned costs were noted. Also, there were several findings which had potentially significant, unknown, questioned costs. The State is cooperating with the federal government to resolve the findings and is optimistic these findings will not have a material impact on the State.

STATE OF NORTH DAKOTA

NOTE 19 – TOBACCO SETTLEMENT

In November 1998, the North Dakota Attorney General joined forty-five other states and five territories in a settlement agreement against the nation's largest tobacco manufacturer. The settlement money is intended to compensate the State for costs it has incurred in providing health and other services to its citizens that were necessitated by the use of tobacco products. The Master Settlement Agreement includes base payments to states totaling \$220.6 billion for the next 25 years, and continues in perpetuity. The State has received total payments of \$495.93 million as of June 30, 2019. The State recognized revenue of \$20.75 million of tobacco settlement revenue during the year ended June 30, 2019. The amount of the annual payment is subject to a number of modifications, including adjustments for inflation and usage volumes. Some of the adjustments may result in increases in the payments (inflation, for example), or other adjustments will likely cause decreases in the payments (e.g., volume adjustments). The net effect of these adjustments on future payments is unclear.

NOTE 20 – TERMINATION BENEFITS

PRIMARY GOVERNMENT (EXCLUDING UNIVERSITY SYSTEMS)

On June 29, 2018, the State offered a Voluntary Separation Incentive Program (VSIP) to state agencies as a tool to assist them when planning for the 2019-21 biennium budget. Agencies independently determined whether or not it is beneficial to offer the program to their employees. This was determined based on each agency's budget planning process and specific business objectives. Under the VSIP, employees were given two options. The first option was to receive lump sum equal to three (3) month's salary and payment equivalent to three (3) months of health insurance at the actual cost of the current health insurance benefit as of VSIP program start date. Participating part-time employees will receive a pro-rated amount based on their current average monthly rate of pay over the last three months. The second option was to remain on payroll for three (3) months after separation date and receive salary and currently enrolled benefits as if still actively working during this time. Participating part-time employees will receive a pro-rated amount based on their current average monthly rate of pay over the last three months. The separation agreement of program participants must be no later than April 30, 2019. In total, 218 employees from 18 state agencies elected to participate in the VSIP for a total cost of \$4.6 million in fiscal year 2019. The terms for these agreements range a payment one to three months. The State recorded a liability at June 30, 2019 of \$252,000 for future payments.

UNIVERSITY SYSTEMS

Termination benefits are benefits provided to employees who are involuntarily or voluntarily terminated, as a result of budget reductions. Termination benefits agreements may include contract buyouts, retirement incentives, severance lump-sum payouts and continuing healthcare coverage for a designated period of time or a combination of these benefits. The agreement terms vary by institution. The outstanding liability is measured at the discounted present value and projected increases in health insurance rates.

The University Systems entered into voluntary termination agreements with 109 employees for a cost of \$4.2 million in fiscal year 2019. The terms for these agreements range from one month to eighteen months. The University Systems recorded a liability at June 30, 2019 of \$2.1 million for future payments.

During the same time-period, The University Systems entered into involuntary separation agreements with 10 employees for a cost of \$146,000. The payments of benefits were for a one-month time period and there is no future liability for these arrangements at June 30, 2019.

In fiscal year 2019, NDUS incurred \$718,000 in expenses related to voluntary termination agreements entered into in prior fiscal years for 26 employees. The terms for these agreements range from three month to thirty-eight months. At June 30, 2019, the liability for future payments was \$456,000.

NOTE 21 - SUBSEQUENT EVENTS

BANK OF NORTH DAKOTA

In May and October 2019 the Bank entered into interest rate swaps with Goldman Sachs, which resulted in a total fixed rate funding commitment of \$100 million for 15 years. These transactions were completed to hedge fixed rate loan exposure, primarily in mortgage and DEAL loans. The Bank also has seven other interest rate swaps for the same purpose with a notional amount of \$50 million each with Goldman Sachs (3), Wells Fargo (3) and SunTrust Bank (1). As of October 31, 2019, the market value position of all interest rate swap transactions was a net loss of \$35.3 million.

The 2015 Legislature authorized a transfer of up to \$100 million from the Bank to fund an Infrastructure Loan Fund for North Dakota cities and counties. They also transferred an additional \$50 million from the Strategic Investment and

STATE OF NORTH DAKOTA

Improvement Fund to this same revolving loan fund. So far, the Bank has committed to \$186 million of infrastructure loans. The legislation mandated that the money from the Strategic Investment and Improvement Fund be used to fund the initial \$50 million of commitments and the drawdown of up to \$100 million from the Bank to fund activity over the initial \$50 million. As of October 31, 2019, the Bank has transferred \$48 million of its capital to fund its portion of the Infrastructure Loan Fund. In the 2019 Legislature, legislation passed to add up to \$40 million of additional contribution from the Strategic Investment and Improvement Fund should oil tax collections exceed \$755 million. Oil tax collections exceeded \$780 million, which resulted in an additional contribution of \$25 million to the Infrastructure Loan Fund. That \$25 million will be spent prior to drawing the remaining \$52 million from the Bank's retained earnings.

The 2019 Legislature allowed the Reinsurance Association to establish a credit line at the Bank in the amount of \$25 million to provide reimbursements to member insurers. As of October 31, 2019, the Reinsurance Association has not applied for this line of credit.

NORTH DAKOTA HOUSING FINANCE AGENCY

The Agency issued Series 2019F Homeownership Revenue Bonds totaling \$80 million. The bonds have an interest rate ranging from 1.15% to 3.75% and mature between July 1, 2020 and January 1, 2050.

UNIVERSITY SYSTEMS

On August 21, 2019, WSC issued tax exempt certificates of participation series 2019 totaling \$7.3 million. The proceeds will fund an infrastructure and energy improvement project, including renovations to existing heating, ventilation, controls and deferred maintenance improvements to buildings located on WSC's campus. WSC entered into a lease-purchase agreement on August 1, 2019, with Johnson Controls, Inc. (JCI). JCI will construct the project and provide operations and maintenance assistance through August 1, 2048. The certificates of participation were rated BBB by Standard and Poor's.

On October 1, 2019, the University of North Dakota issued \$71.5 million, Series 2019A Housing and Auxiliary Facilities Revenue Bonds. The proceeds will be used to demolish the current student union building and to construct a new student union building. The bond payments commence on April 1, 2020 and mature on April 1, 2050. The security for the bonds is pledged revenues from net housing and auxiliary facilities system and pledged fees. The bonds were issued with a Moody's Investor Services rating of Aa3 with a stable outlook.

PUBLIC FINANCE AUTHORITY

Subsequent to year end, the Agency issued \$2.515 million of bonds payable for its capital financing program. The bonds have an interest rate ranging from 1.75% to 4.0% and mature between 2020 and 2024.

REBUILDERS LOAN PROGRAM

As of October 31, 2019, the outstanding loans total \$25.5 million to 1,184 borrowers. The 2019 legislature allowed an additional \$3.75 million in rebuilders loans for severe flooding in northwestern North Dakota. As a result, an additional 5 loans totaling \$375,000 have been applied for under this program.

NOTE 22 - NEW PRONOUNCEMENTS

The State implemented the following new pronouncement for fiscal year 2019:

GASB Statement No. 83, *Certain Asset Retirement Obligations*, addresses accounting and financial reporting for certain asset retirement obligations (AROs). This Statement establishes criteria for determining the timing and pattern of recognition of a liability and corresponding deferred outflow of resources for AROs. It also establishes disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant

STATE OF NORTH DAKOTA

termination events with finance-related consequences, and significant subjective acceleration clauses. This Statement is effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

The State will implement the following new pronouncements for fiscal years ending after 2019:

GASB Statement No. 84, *Fiduciary Activities*, provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 90, *Majority Equity Interests*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement provides guidance for reporting when a government has majority equity interest in legally separate organizations. An equity interest is explicit and measurable if the government has a present or future claim to the net resources of the entity and the method for measuring the government's share of the entity's net resources is determinable. If government's holding of that equity interest meets the definition of an investment, as defined by GASB No. 72, the equity interest should be reported as an investment and measured using the equity method and not as a component unit of the government. If a government's holding of a majority interest in a legally separate organization does not meet the definition of an investment, the holding of the majority equity interest results in the government being financially accountable for the organization and therefore, the government should report the legally separate organization as a component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

Management has not yet determined the effect these Statements will have on the State's financial statements.

STATE OF NORTH DAKOTA

Required Supplemental Information Budgetary Comparison Schedule Budget to GAAP Reconciliation General Fund For the Biennium Ended June 30, 2019

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the General Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	4,913,448,662
Backing out 2018 activity	(2,348,637,808)
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	(439,454,229)
Funds considered General funds for GAAP but not for Budget	1,061,092,980
Certain due from other funds are recorded under GAAP, but not Budget	2,826,630
Reimbursement activity between state agencies is eliminated only for GAAP	(398,277)
Proceeds are recorded for new capital leases on GAAP, but not for Budget	22,628
Repayment received on loan receivable are revenue for Budget to GAAP	135,906
Total revenues, capital lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 3,189,036,492</u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	4,329,830,171
Backing out Expenditures from FY2018	(2,166,017,840)
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	576,389
Funds considered General funds for GAAP but not for Budget	103,110,583
New capital leases are recorded as expenditures for GAAP, but not for Budget	22,628
Certain due to other funds are recorded under GAAP, but not for Budget	4,128,392
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,271,650,323</u>

STATE OF NORTH DAKOTA

Required Supplemental Information Budgetary Comparison Schedule Budget to GAAP Reconciliation State Fund For the Biennium ended June 30, 2019

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the State Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	2,555,572,232
Backing out 2018 activity	(1,262,622,176)
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	1,942,057,542
Total revenues, capital lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 3,235,007,598</u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	2,555,572,232
Backing out Expenditures from FY2018	(1,262,622,176)
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	1,453,088,464
New Loans issued are expenditures for Budget but not for GAAP	(6,012,616)
GAAP, but not Budget expenditures are reduced by year end inventory balances	(1,240,407)
Intrafund activity eliminated for GAAP	(546,166,097)
Certain due to other funds are recorded under GAAP, but not for Budget	312,414
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,192,931,814</u>

STATE OF NORTH DAKOTA

Note To Required Supplemental Information - Budgetary Reporting For the Biennium Ended June 30, 2019

The Budgetary Comparison Schedules present comparisons of the original and revised legally adopted budgets with actual data on a budgetary basis for major funds. The only major fund with a legally adopted budget is the General Fund. All other funds are budgeted together as "Other Budgeted Funds." A budgetary schedule has been done for these other funds because they include budgeted amounts for the Federal Fund and State Funds, which are major special revenue funds. These amounts are reported on the schedules entitled "Federal Funds" and "State Funds".

North Dakota's Appropriation Acts include a dual legal level of budgetary control - one at the General Fund versus Other Budget Income level for each agency and one at the line item level for each agency. Line items are not separate between General Fund and Other Budgeted Income so that control is not presented in our budgetary comparison schedule for major funds. The legal level of control for all agencies is reported in a publication titled "State of North Dakota 2017-2019 Biennium Budget and Actual Detail (Budgetary Basis) For the Fiscal Year Ended June 30, 2019." This budget information is available through the Office of Management and Budget, 600 East Boulevard Ave Dept. 110, Bismarck, ND 58505. For the 2017-2019 biennium there were general, federal, and special fund supplemental appropriations of \$790,712,092.

The Budgetary Comparison Schedule reports expenditures on a budgetary basis. The accounting principles applied for purposes of developing data on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. Reconciliations of the three for the Fiscal Year ended June 30, 2018, for the General Fund, Federal Fund, and State Fund is on the previous pages.

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2019

PERS

Benefit Changes The interest rate earned on member contributions will decrease from 7.25 percent to 7.00 percent effective January 1, 2020 (based on the adopted decrease in the investment return assumption). New Main System and Public Safety members who are hired on or after January 1, 2020 will have a benefit multiplier of 1.75 percent (compared to the current benefit multiplier of 2.00 percent). The fixed employer contribution for new members of the Main System will increase from 7.12 percent to 8.26 percent. For members who terminate after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019 or the average salary earned in the three highest periods of twelve consecutive months employed during the last 180 months of employment. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2018.

Changes of Assumptions The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 actuarial valuation:

- The investment return assumption was lowered from 7.75 to 7.5 percent for the July 1, 2019 valuation

All other actuarial assumptions used in the July 1, 2019 are the same as the last actuarial valuation as of July 1, 2018.

HPRS

Benefit Changes There were no changes made in the plan provisions since the prior valuation.

Changes of Assumptions The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 actuarial valuation:

- The investment return assumption was lowered from 7.75 to 7.5 percent for the July 1, 2019 valuation

All other actuarial assumptions used in the July 1, 2019 are the same as the last actuarial valuation as of July 1, 2018.

JSND

Benefit Changes There were no changes made in the plan provisions since the prior valuation.

Changes of Assumptions There were no changes made in in the actuarial assumptions since the July 1, 2019 valuation.

RHIC

Benefit Changes Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC

Changes of Assumptions The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 actuarial valuation:

- The investment return assumption was lowered from 7.5 to 7.25 percent for the July 1, 2019 valuation

All other actuarial assumptions used in the July 1, 2019 are the same as the last actuarial valuation as of July 1, 2018.

Other Notes	<p>There were no benefit changes during the year.</p> <p>The economic assumptions (excluding salary increases) were updated beginning with the actuarial valuation as of July 1, 2017 based on a review performed by GRS. The Board approved lowering the investment return assumption from 5.70% to 4.75% beginning with the July 1, 2018, actuarial valuation. All other actuarial assumptions were adopted by the Board based on an experience study covering the period July 1, 2009 through June 30, 2014</p> <p>The System has assets in excess of the present value of future benefits. Therefore, no employer contributions are being made</p>

STATE OF NORTH DAKOTA

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2019

TFFR:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization Period	24 years
Asset valuation method	5-year smoothed market
Inflation	2.75%; decreased from 3% prior to July 1, 2015.
Salary increases	4.25% - 14.5%, including inflation and productivity; 4.5% - 14.75% prior to July 1, 2015.
Investment rate of return	7.75%, net of investment expenses, including inflation. Rate was decreased from 8% beginning July 1, 2015.
Retirement age	In the 2015 valuation, rates of retirement were changed to better reflect anticipated future experience. In the 2010 valuation, expected retirement ages of plan members were adjusted to more closely reflect actual experience.
Mortality	In the 2015 valuation, assumed life expectancies were adjusted as a result of adopting the RP-2014 mortality tables with generational improvement. In prior years, those assumptions were based on percentages of GRS post termination non-disabled tables and RP-2000 disabled-life tables.

RHIC

Valuation Date	July 1, 2019
Actuarial Cost Method	Entry Age Normal Method
Amortization Method	Level Percentage of Payroll, 40-year closed Period (beginning July 1, 1990) for fiscal year 2019 contribution. Assumed annual payroll growth of 3.75%
Remaining Amortization Period	12 years remaining as of July 1, 2018
Asset Valuation Method	5-Year smoothed marked
Inflation	2.50%
Salary Increases	Not Applicable
Investment Rate of Return	7.50%
Retirement Age	Age-based table of rates that are specific to the type of eligibility condition
Mortality	For June 30, 2019 and June 30, 2018, mortality rates for active members, inactive members and healthy retirees were based on the RP-2000 Combined Healthy Mortality Table, set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table, set back one year for males (no setback for females) multiplied by 125%.
Other Notes	There were no benefit changes during the year. The economic assumptions (excluding salary increases) and the asset smoothing method were updated beginning with the actuarial valuation as of July 1, 2017 based on a review

STATE OF NORTH DAKOTA

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2019

performed by GRS. All other actuarial assumptions were adopted by the Board based on an experience study covering the period July 1, 2009, through June 30, 2014.

The employer rate to the System is the statutory contribution rate of 1.14% of payroll.

Schedule of Investment Returns

	Public Employees Retirement System	Highway Patrolmen's Retirement System	Job Service North Dakota	Teachers' Fund for Retirement	Retiree Health Insurance Credit Fund
2019	5.69%	5.39%	7.00%	5.46%	6.75%
2018	9.21%	9.16%	3.32%	9.15%	7.01%
2017	13.01%	12.93%	5.85%	12.81%	11.75%
2016	0.49%	0.48%	5.14%	0.39%	0.83%
2015	3.61%	3.66%	3.41%	3.56%	0.00%
2014	16.29%	16.20%	13.46%	16.35%	0.00%
2013	13.52%	13.38%	12.07%	13.60%	0.00%

This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

Met Life Insurance Plan:

Actuarial cost method Entry age normal actuarial cost method was used in the valuation.

Changes of assumptions The following changes were made to the actuarial assumptions and methods effecting July 1, 2018

- The benefits valued were changed from retiree medical and life benefits to life benefits only.
- The discount rate is 2.98 percent based on the S&P Municipal Bond 20 Year High Grade Rate Index as of June 30, 2018, compared to the prior Statement No. 45 discount rate of 4.5%.
- The funding method was changed from Projected Unit Credit to Entry Age Normal.
- Mortality was updated from table RP-2-14 adjusted to 2006 and projected using scale MP-2015 to table RP-2014 adjusted to 2006 and projected using scale MP-2017.

Combining Financial Statements

STATE OF NORTH DAKOTA

Nonmajor Governmental Funds

Permanent Fund

A permanent fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used to for the benefit of the government or its citizens.

956-Coal Development Permanent Fund

The Coal Development Fund reports resources that are constitutionally committed for distribution to other state funds and for making loans to energy impacted entities and school districts.

410-Veterans' Postwar Trust Fund

The Veterans' Postwar Trust Fund reports resources that are constitutionally committed to be utilized for programs which must be of benefit and service to veterans, who are defined by legislative enactment, or their dependents.

Debt Service Funds

A debt service fund is used to account for accumulation for resources for, and the payment of, principal and interest on long-term debt.

BUILDING AUTHORITY

919 - Building Authority Debt Service Fund

Account for accumulation of resources for, and the payment of, principal and interest on bonds issued by the North Dakota Building Authority.

DEPARTMENT OF TRANSPORTATION

949 - Department of Transportation Debt Service Fund

Account for accumulation of resources for, and the payment of, principal and interest on bonds issued by the Department of Transportation.

STATE OF NORTH DAKOTA

Nonmajor Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises—where the intent of the State is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the State has decided that periodic determination of net income is appropriate for accountability purposes.

BANK OF NORTH DAKOTA

907 – School Construction Assistance Revolving Loan Fund

Fund used to provide low-interest school construction loans.

934 – Infrastructure Revolving Loan Fund

Fund used to provide loans to political subdivisions for essential infrastructure projects.

954 - Addiction Counselor Internship Loan Program

Fund used to provide loans to qualified individuals participating in a paid or unpaid internship at a licensed substance abuse treatment facility in North Dakota in order to obtain licensure as an addiction counselor.

984 – Medical Facility Infrastructure Loan Program

Fund used to make loans to medical facilities to conduct construction that improves the health care infrastructure in the state or improves access to existing nonprofit health care providers in the state.

985 – Rebuilders Loan Program

Fund used to make loans to North Dakota 2011 flood-damaged homeowners to provide financial assistance needed to repair their home.

BEGINNING FARMER REVOLVING LOAN

973 - Beginning Farmer Revolving Loan Fund

Fund used to make loans to North Dakota beginning farmers for the purchase of agricultural real estate.

BONDING

210 (924) - State Bonding Fund

Fund used to maintain the bonding of public employees and officials of the state, county, city or other unit of local government.

COMMUNITY WATER FACILITY LOAN

974 - Community Water Facility Loan Fund

Accounts for supplementary financing in conjunction with federal moneys available to improve adequate water supplies.

FIRE AND TORNADO

211 (923) - State Fire and Tornado Fund

Accounts for state agencies and political subdivisions to insure against loss to the public buildings, fixtures and permanent contents therein, through fire, lightning, windstorm, etc.

GUARANTEED STUDENT LOAN

969 - North Dakota Guaranteed Student Loan

Accounts for the revenues and expenses associated with the administration, development and operation of the guaranteed loan program.

HIT PLANNING LOAN FUND

987 – HIT Planning Loan Fund

Fund to provide low-interest loans to health care entities to improve health information technology infrastructure.

INFORMATION TECHNOLOGY DEPARTMENT

408 (903) - Edutech Fund

Fund used for professional development sessions and presentations by the Information and Technology Department.

476 (908) – SW Interoperable Radio Network Fund

Fund used for a radio broadcasting system for the state that enables seamless interoperable communications from local, state, and federal levels.

MILL AND ELEVATOR

970 – Mill and Elevator

Accounts for revenues and expenditures associated with the operation of the Mill and Elevator.

PERS UNIFORM GROUP INSURANCE

980 - Public Employees Retirement System Group Insurance

Accounts for the administrative revenues and expenses associated with this insurance purchasing pool.

ROUGH RIDER INDUSTRIES

926 - Roughrider Industries

Accounts for the revenues and expenses associated with the operation, manufacture and sale of products made by the prison inmates.

STATE FAIR

601 (977) - State Fair

Accounts for revenues and expenditures associated with the operation of the State Fair.

STATE LOTTERY FUND

966 (292) - State Lottery Fund

Accounts for operations of the North Dakota lottery.

STUDENT LOAN

975 - North Dakota Student Loan Trust

Accounts for loans to students in post secondary education. The trust acquires eligible loans guaranteed or insured by the United States government or the North Dakota Guaranteed Student Loan Program.

UNEMPLOYMENT COMPENSATION FUND

967 - Job Service-Expendable Trust Fund

Accounts for State unemployment taxes collected from employers for the purpose of paying unemployment benefits.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the State and to other government units, on a cost reimbursement basis.

790 (927) - Central Services

Accounts for the revenues and expenditures associated with central printing and office supply services to state agencies and the Legislative Assembly; a surplus property program for the acquisition, distribution, and disposition of federal and state surplus property and procurement services for all state agencies not exempt by statute.

700 (918) - Fleet Services

Accounts for costs of operating and maintaining State-owned vehicles. Costs are billed to user agencies and include depreciation on equipment.

780 (929) - Information Technology Department

Accounts used for the procurement and maintenance of data processing equipment and supplies and telecommunications equipment and supplies to provide data processing and telecommunications services to state departments and agencies.

288\275 (912) - Risk Management Fund

Fund provides insurance coverage and loss prevention to all state agencies and the University System for tort liability and employee injury claims. Coverage is provided using an optional combination of self-insurance and private excess insurance.

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the North Dakota Association of Counties.

913 - City of Bismarck RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Bismarck.

936 - City of Grand Forks RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Grand Forks.

950 - City of Fargo RIO Investments

Account for the investment assets held by the State Investment Board in a trustee capacity as an agent for the City of Fargo.

Private Purpose Trust Funds

STUDENT AND CULTURAL DONATIONS

928 - Indian Cultural Education Trust Fund

Trust accounts for donations provided for the purpose of generating income to benefit Indian Culture.

937 - Department of Public Instruction Thordarson Scholarship Trust Fund

Fund used to provide scholarship grants to students enrolled in courses offered by the independent study division.

988 - School for the Deaf Scholarship Trust Fund

Account for funds donated to provide scholarships to deaf students.

989 - School for the Deaf Student Trust Funds

Accounts for funds donated to the School for the Deaf for the benefit of the students.

COLLEGE SAVE

940 - College SAVE

Program established by the State of North Dakota to encourage the investment of funds to be used for qualified higher education expenses at institutions of higher education.

MANDAN REMEDIATION TRUST

943 - Mandan Remediation Trust

Accounts for the funds obtained from a lawsuit settlement for the remediation efforts of the North Dakota Health Department and the City of Mandan.

Agency Funds

BONDING

402 - Sales and Use Tax Deposit Fund

Accounts for cash received in lieu of a surety bond for sales tax permit holders.

403 - Motor Fuel Cash Bond Deposit Fund

Accounts for cash received in lieu of a surety bond for motor vehicle fuel dealers.

STATE OF NORTH DAKOTA

939 - Public Service Commission Trustee Account

Accounts for savings certificates posted in lieu of performance bonds for surface mining activities and grain elevator insolvency cases.

942 - Agriculture Cash and Investment

Accounts for securities or bonds in lieu of a surety bond relating to the operation of livestock dealers, auction markets and dairy plants.

944 - Cash Bonds

Accounts for the financial resources for the plugging of abandoned oil and gas wells and the reclamation of abandoned oil and gas well sites.

945 - Insurance Company Deposits

Accounts for securities of domestic insurance companies required by the NDCC to keep on deposit with the Insurance Commissioner securities in a value equal to the policies they have in force.

947 - District Court Bond Fund

Accounts for bail bonds posted for civil and criminal court cases.

PAYROLL

461 - OMB Unemployment/Payroll Clearing Fund

Accounts for employers and employees payroll taxes and other deductions such as, insurance and credit union deductions, etc.

CHILD SUPPORT

463 - Child Support Disbursement Unit Fund

Accounts for all child support payments received by the state disbursement unit.

STUDENT AND OTHER

406 - Drivers License Trust Fund

Accounts for cash received from a motor vehicle operator involved in an accident and has no automobile liability policy and the driver was negligent.

Statistical Information

INDEX TO SCHEDULES

Financial Trends – *These schedules contain trend information to help the reader understand how the State’s financial performance and well-being have changed over time.*

Schedule 1 – Net Position by Component	217
Schedule 2 – Changes in Net Position	219
Schedule 3 – Fund Balances, Governmental Funds	221
Schedule 4 – Changes in Fund Balances, Governmental Funds	223

Revenue Capacity – *These schedules contain trend information to help the reader assess the State’s capacity to raise revenues and the sources of those revenues.*

Schedule 5 – Taxable Sales by Industry.....	225
Schedule 6 – Sales Tax Revenue Payers by Industry.....	225

Debt Capacity – *These schedules present information to help the reader assess the affordability of the State’s current levels of outstanding debt and the State’s ability to issue additional debt in the future.*

Schedule 7 – Ratios of Outstanding Debt by Type.....	227
Schedule 8 – Pledged Revenue Coverage.....	229
Schedule 9 – Legal Debt Limit	231

Demographic and Economic Information – *These schedules contain trend information to help the reader understand the environment in which the State’s financial activities occur.*

Schedule 10 – Demographic and Economic Indicators	232
Schedule 11 – Principal Employers	233
Schedule 12 – Employment by Industry	233
Schedule 13 – Education Enrollment.....	234

Operating Information – *These schedules contain information about the State’s operations and resources by the functions it performs.*

Schedule 14 – State Employees by Agency.....	235
Schedule 15 – Operating Indicators by Function.....	237
Schedule 16 – Capital Assets by Function	238

Public Entity Risk Pool Claims Information

Schedule 17 – Claims Development Information.....	239
---	-----

Miscellaneous Statistics – *This information may provide the reader with more insight into the State’s financial status.*

Schedule 18 – Agricultural Production.....	243
--	-----

Pledged revenues include student fees, auxiliary revenues, sales, tax revenue, investment income and debt service grants.

NOTE: Gross revenues include nonoperating interest income. Operating expenses do not include bond interest or depreciation expenses.

Schedule 9
Legal Debt Limit
Fiscal Year Ending June 30, 2019

The state may issue or guarantee the payment of bonds, provided that all bonds in excess of two million dollars shall be secured by first mortgage upon real estate in amounts not to exceed sixty-five percent of its value; or upon real and personal property of state-owned utilities, enterprises, or industries, in amounts not exceeding its value, and provided further, that the state shall not issue or guarantee bonds upon property of state-owned utilities, enterprises, or industries in excess of ten million dollars.

No further indebtedness shall be incurred by the state unless evidenced by a bond issue, which shall be authorized by law for certain purposes, to be clearly defined. Every law authorizing a bond issue shall provide for levying an annual tax, or make other provision, sufficient to pay the interest semiannually, and the principal within thirty years from the date of the issue of such bonds and shall specially appropriate the proceeds of such tax, or of such other provisions to the payment of said principal and interest, and such appropriation shall not be repealed nor the tax or other provisions discontinued until such debt, both principal and interest, shall have been paid. No debt in excess of the limit named herein shall be incurred except for the purpose of repelling invasion, suppressing insurrection, defending the state in time of war or to provide for the public defense in case of threatened hostilities.

The State is in compliance with the Legal Debt Margin.

Source: North Dakota Constitution, Art. X, Section 13.

The State of North Dakota has had no General Obligation Bonded Debt since Fiscal Year 1998. No Schedule of Ratios of General Bonded Debt is being presented.

Schedule 17
Claims Development Information
Last Ten Fiscal Years

The following tables illustrate how the individual funds' earned revenues and investment income compare to related costs of loss and other expenses assumed by the funds as of the end of each of the last ten years. The rows of the tables are defined as follows: (1) This line shows the total of each fiscal year's earned contribution revenues and investment revenues. (2) This line shows each fiscal year's other operation costs of the fund including overhead and claims expense not allocable to individual claims. (3) This line shows the funds' incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year). (4) This section of 10 columns shows the cumulative amounts paid as of the end of successive years for each policy year. (5) This section of 10 columns shows how each policy year's incurred claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received regarding unknown claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known. (6) This line compares the latest re-estimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the tables show data for successive policy years (expressed in thousands).

Introductory Section

(This page left blank intentionally.)

December 10, 2020

To the Governor, Legislators and Citizens of the State of North Dakota:

In accordance with North Dakota Century Code (NDCC) section 54-44-04(14), we are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the State of North Dakota for the fiscal year ended June 30, 2020. This report has been prepared by the Office of Management and Budget. The financial statements contained in the CAFR have been prepared in accordance with generally accepted accounting principles (GAAP) applicable to state and local governments, as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the state's management. To the best of our knowledge and belief, the information contained in the CAFR is accurate in all material respects and reported in a manner that presents fairly the financial position and results of operations of the State's primary government and the component units for which it is financially accountable. All disclosures necessary to enable the reader to gain an understanding of the State of North Dakota's financial affairs have been included.

The state's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the costs of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

In compliance with state statute, the Office of the State Auditor (SAO) audited the State's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the State for the fiscal year ended June 30, 2020 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and evaluating the overall financial statement presentation. Their examination was conducted in accordance with GAAP and the standards applicable to financial audits contained in *Government Auditing Standards* as published by the Comptroller General of the United States. The SAO concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the State's financial statements for the fiscal year ended June 30, 2020, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report

The State of North Dakota is also required to undergo a single audit in conformity with the provision of the Single Audit Act Amendments of 1996 and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (contained in Title 2 U.S. Code of Federal Regulations Part 200). Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs, are included in a separately issued biennial single audit report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it.

600 E Boulevard Ave, Dept 110 | Bismarck, ND 58505-0400 | nd.gov/omb

PROFILE OF THE GOVERNMENT

The State of North Dakota provides for a full range of services, including education, health and social services, highway maintenance and construction, law enforcement, judicial, public safety, business regulation, community and economic development, and natural resource development. The State's reporting entity reflected in the CAFR includes all the funds of the state as legally defined, as well as all of its component units in conformity with the requirements of GASB Statement No. 61. Statement No. 61 provides that the financial statements should emphasize the primary government and permit financial statement users to distinguish between the primary government and its component units. Consequently, the transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position. The State's reporting entity is described more fully in Note 1A to the basic financial statements.

The State operates through a biennial appropriation, which represents agency appropriations recommended by the governor and presented to the Legislative Assembly at the beginning of each legislative session. The budget is legally required to be adopted through passage of appropriation bills by the Legislative Assembly and signed by the governor. The governor has line item veto powers over all appropriations subject to legislative override. Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action.

The State does not budget by fund nor does it formally budget revenues. The legal level of budgetary control is at the agency, appropriation authority and expenditure line item level. The State's budgetary policies and procedures are further explained in Note 1D on the notes to the basic financial statements.

LOCAL ECONOMY

Although North Dakota's economy is increasingly diversified, the agricultural industry continues to play a key role in the state's economy. The USDA's National Agricultural Statistics Service reports that for 2019 crop production, North Dakota led the nation in production of all dry edible beans, pinto beans, canola, flaxseed, honey, oats, non-oil sunflower, Durum wheat, and spring wheat. North Dakota also ranked second in the production of black beans, navy beans, lentils, dry edible peas, all sunflowers, oil sunflowers, and all wheat.

The energy industry plays an important role in the state's economy. The development of wind and coal resources, the production of ethanol and bio-diesel, and oil and natural gas extraction all contribute to the state's economy. North Dakota reached an all-time high for oil production which averaged over 1.52 million barrels of oil produced per day in November 2019. North Dakota's current crude oil production ranks second in the nation, behind first-ranked Texas. Oil prices have rebounded since the crash of oil prices at the end of fiscal year 2020 when North Dakota producers were receiving prices below \$15 per barrel. Prices averaged around \$50 per barrel at the start of the 2019-21 biennium before the crash. In September 2020, the actual average price per barrel for North Dakota oil was \$32.83, below the estimated price of \$48.00 used for budgeting purposes.

According to the United States Census Bureau, the state's estimated population for 2019 was approximately 762,000 people, which is an all-time high. Health care and social assistance jobs account for the highest percent of employment in the state. Other leading areas of employment are retail trade, accommodation and food services, educational services, construction and manufacturing. The unemployment rate for the state in October 2020 was 4.0%, compared to 6.6% for the United States.

A listing of the state's 20 largest employers demonstrates the diversity of the economy. Top employers include: health care providers, the state university system, the U.S military, manufacturers, financial and insurance companies, U.S postal service, information technology companies, mining, energy producers, and retail companies.

Uncertainty within international markets, resulted in a decrease in exporting in North Dakota in 2019. The United States Census Bureau showed that North Dakota's exports were down overall by about \$1.1 billion for a total of \$6.7 billion in 2019. This represents a decrease of 14.5% over 2018.

LONG-TERM FINANCIAL PLANNING

The long-term financial plan for the state of North Dakota was outlined by Governor Burgum as part of the 2019-21 executive budget address, presented to the legislature in December 2018. The Governor's long-term financial plan includes the following key components:

- Balancing ongoing revenues and expenses of state government
- Rebuilding reserves.
- Ensuring solvency for the state pension fund.

North Dakota is required by its Constitution to have a balanced budget. However, ongoing revenues and ongoing expenses have not always been in balance. In those instances where ongoing revenues did not meet the obligations of ongoing expenses of state government, one-time transfers from accumulated reserves and fund balances were used to fill the gap. In nearly all cases, those accumulated reserves and fund balances were directly attributable to oil and natural gas extraction and production tax revenue. In the 2019-21 biennium executive budget, the governor laid out a financial plan that not only balanced ongoing revenues and expenses but did so by adding transparency to the use of oil tax revenue. In the executive budget, the state general fund allocation of oil and gas taxes increased from \$400 million to \$1 billion per biennium, but no transfers from accumulated fund balances were proposed. Both the 2013-15 and 2015-17 biennium budgets included general fund revenues and transfers in excess of \$1 billion that were directly funded from oil and gas tax revenue.

The legislature did not approve the proposed transfer of \$1 billion per biennium from oil tax revenues to the general fund, opting to continue it at the level of \$400 million per biennium. The legislature instead chose to balance the general fund budget with transfers from accumulated oil tax revenues. Although this approach provides less transparency and obscures the state's ongoing revenue and expense structure, it ensures overall revenue sources are adequate to fund ongoing government expenses. It provides a conservative approach to funding the budget as the accumulated balances transferred to the general fund are balances on hand at the start of the biennium and not dependent on forecasted tax revenues.

The state's rainy-day fund, the Budget Stabilization Fund, was nearly depleted during the 2015-17 biennium economic downturn. The 2019-21 executive budget proposed to fully replenish this fund to its maximum balance allowed by law, which is 15% of general fund appropriations. This included a proposed transfer of over \$300 million from the Strategic Investment and Improvements Fund. A critical component of ensuring the long-term financial well-being of the state of North Dakota is a well-funded Budget Stabilization Fund that provides a necessary buffer against volatile commodity prices that drive ups and downs in the state's economy.

The legislature did not approve the transfer of \$300 million to the Budget Stabilization Fund. However, the revenue forecast adopted by the legislature proved so conservative that actual revenues ended the biennium \$250 million higher than predicted. North Dakota law requires any end of biennium balance in the general fund in excess of \$65 million to be transferred to the Budget Stabilization Fund. As a result, \$548 million was transferred to the Budget Stabilization Fund, pushing the balance above \$660 million. It reached its \$726 million cap in March 2020 with a statutorily required transfer of oil tax revenues. Although state tax revenues have been negatively impacted by the COVID-19 pandemic, other state revenues such as Legacy fund earnings have been unaffected. It is anticipated the state will finish the 2019-21 biennium with total revenues that exceed the original forecast and without accessing the budget stabilization fund to offset a revenue shortfall.

Another component of the state's long-term financial plan is ensuring the solvency of the state's pension fund. The governor proposed restoring solvency to the fund through a combination of policy proposals that reformed the benefit and funding structure, along with a one-time cash infusion into the fund. The proposed one-time cash infusion was a transfer of \$265 million at the beginning of the 2019-21 biennium from the Strategic Investment and Improvements Fund to the Public Employees Retirement Fund.

Although the legislature did not approve the proposed cash infusion of \$265 million, the legislature did adopt separate proposals that reformed the benefit structure and had a positive impact on the long-term actuarial projections for the fund.

The backbone of the state's financial plan is a revenue forecasting process that is accurate, conservative, and credible. The state utilizes a Revenue Forecasting Advisory Committee, comprised of representatives of the major industries in the state and the legislative and executive branches of government, along with the expertise of a national economic forecasting consultant. With the assistance of these experts, the state's Tax Department and Office of Management and Budget develop a conservative revenue forecast for use in the budgeting process.

The budgeting process begins with the development of a biennial budget proposal reflecting the Governor's priorities for the next two years. The budget is submitted to the legislature for their consideration and eventual enactment. With a biennial budget cycle, each revenue forecast and budget proposal provides a three-year plan for the revenues and expenditures of state government.

RELEVANT FINANCIAL POLICIES

North Dakota's financial policies ensure that in the event of an economic downturn, North Dakota state government will be able to continue to provide its citizens with necessary services. Should North Dakota experience a significant revenue shortfall, the state is able to access funds in the budget stabilization fund. The statutory maximum balance for the budget stabilization fund is 15.0 percent of the state general fund budget.

North Dakota experienced a significant revenue shortfall during the 2015-17 biennium due to decreases in oil and agriculture prices, resulting in a transfer of nearly the entire balance of the budget stabilization fund to the general fund prior to June 30, 2017. The 2017 legislature established an ongoing allocation of \$75 million per biennium from oil and gas tax revenues to the budget stabilization fund. North Dakota Century Code requires the transfer to the budget stabilization fund of any end-of-biennium general fund balance in excess of \$65 million. The 2017-19 biennium ended with revenues exceeding the forecast and resulted in the transfer of \$548 million to the budget stabilization fund. The balance of the budget stabilization fund is estimated to be over \$726 million by June 30, 2021 due to a combination of existing fund balance and additional oil tax revenue allocations.

In addition to accessing the budget stabilization fund, in the event of an economic downturn the Governor can reduce general fund expenditure authority uniformly across state agencies through a process known as allotment. In the event of an allotment, the foundation aid stabilization fund was established to protect the state school aid program. Dollars from this fund would replace the amount of general fund dollars allotted, thus K-12 education would not experience a reduction in funding. The passage of Measure 2 in the 2016 general election allowed money in the fund to be appropriated for education-related purposes. Funding for the foundation aid stabilization fund comes from 10 percent of oil extraction tax collections. The foundation aid stabilization fund is expected to have a June 30, 2021 balance in excess of \$443 million.

MAJOR INITIATIVES

Major initiatives proposed by Governor Doug Burgum and approved by the legislature for the 2019-21 biennium include:

- Investing in infrastructure and other priorities;
- Continued funding of Medicaid expansion;
- Investing in behavioral health issues;
- Transitioning the cost of county social services to the state; and
- Building reserves and filling the rainy-day fund.

INFRASTRUCTURE INVESTMENTS

The 2019-21 biennial budget includes funding to rebuild and repair roads throughout the state, for water supply and flood control, capital projects for state parks and grants for airports. Funding for infrastructure improvements includes:

- \$613.9 million to rebuild and repair state highways;
- \$97.8 million for city road projects;
- \$53.2 million dedicated to the repair and rebuilding of county and township roads;
- \$6.8 million for projects across the state park system;
- \$40 million in grant funds to two communities in oil country for airports; and
- \$968.2 million for water-related projects, including \$128.0 million for water supply, \$37.2 million for rural water supply, \$197.0 million for flood control, \$27.1 million for general water projects, \$65.1 million for state-owned water projects and \$74.0 million for other new projects.

TAX RELIEF

The legislature approved, and the Governor signed into law, a tax relief package that provides:

- \$173.7 million for a state-paid economic assistance and social services pilot program for the 2019-21 biennium;
- \$15.8 million for the homestead tax credit program; and
- \$8.4 million for the disabled veteran's property tax credit.

EDUCATION

K-12 education initiatives include:

- \$2.10 billion in state funding for K-12 schools through integrated funding formula;
- \$3 million in grants to districts experiencing rapid enrollment growth;
- \$56.5 million to assist districts in the provision of transportation services;
- \$24 million to go towards special education contracts; and

Higher Education initiatives include:

- \$10.7 million for the UND Healthcare Workforce Initiative.
- \$9.4 million in state funding to continue the North Dakota Higher Education Challenge Grant Program, to encourage philanthropy by providing a state match for private contributions to the state's colleges and universities.
- \$458.4 million is slated to be invested for capital projects across the system, with funding from revenue bonds, private donations, capital building funds and carryover authority.

RESERVES

It is anticipated that by June 30, 2021, there will be a total ending balance of approximately \$2.36 billion in the budget stabilization fund, foundation aid stabilization fund, strategic investment and improvements fund, and tax relief fund. The general fund budget for the 2019-21 biennium totals \$4.84 billion

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of North Dakota for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was the 28th consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the State of North Dakota received the GFOA's Award for Distinguished Budget Presentation for its 2019-2021 budget. In order to qualify for the Distinguished Budget Presentation Award, the State's budget document was judged to be proficient in several categories, including policy documentation, financial planning, and organization.

This report was prepared by staff members of the Fiscal Management Division of the Office of Management and Budget. Their dedication and efforts are greatly appreciated. We also extend our gratitude to the numerous individuals from virtually all the state agencies and institutions, especially the Office of the State Auditor, for their assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Morrissette", written in a cursive style.

Independent Auditor's Report

The Honorable Doug Burgum, Governor
of the State of North Dakota

Members of the Legislative Assembly
of the State of North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the following state entities and discretely presented component units:

Addiction Counselor Internship Loan Program	Job Service North Dakota
Bank of North Dakota	Mandan Remediation Trust
Beginning Farmer Revolving Loan Fund	Medical Facility Infrastructure Loan Program
Building Authority	PACE and AG PACE Funds
College SAVE	Public Employees Retirement System
Community Water Facility Loan Fund	Public Finance Authority
Comprehensive Health Association of North Dakota	Rebuilders Loan Program
Covid Pace Recovery Program	Retirement and Investment Office
Department of Trust Lands	School Construction Assistance Revolving Loan Fund
North Dakota Development Fund	Small Employer Loan Fund
Guaranteed Student Loan Program	State Fair Association
Housing Finance Agency	State Historical Society of North Dakota Foundation
Housing Incentive Fund	Student Loan Trust
Infrastructure Revolving Loan Fund	Workforce Safety and Insurance
Innovation Technology Fund	

The financial statements of the above entities reflect total assets, net position or fund balance, and revenues of the government-wide financial statements and fund financial statements as follows:

	<u>Percent of Assets</u>	<u>Percent of Net Position or Fund Balance</u>	<u>Percent of Revenues</u>
<u>Government-Wide Financial Statements</u>			
Governmental Activities	25%	27%	4%
Business-Type Activities	81%	64%	62%
Aggregate Discretely Presented Component Units	100%	100%	100%
<u>Fund Financial Statements</u>			
<u>Major Governmental Funds</u>			
General Fund	0%	0%	0%
Federal Fund	1%	51%	1%
State Special Revenue Fund	73%	75%	16%
<u>Major Enterprise Funds</u>			
Bank of North Dakota	100%	100%	100%
Housing Finance Agency	100%	100%	100%
University System	0%	0%	0%
Workforce Safety and Insurance	100%	100%	100%
Aggregate Remaining Fund Statements	93%	97%	83%

The financial statements for these entities were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for these entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the North Dakota University System's discretely presented component units (foundations) were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Dakota, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The actuary for the North Dakota Public Employees Retirement System has determined that the Fund's unfunded actuarial accrued liability is approximately \$1.456 billion as of July 1, 2020. The funding for the actuarial accrued liability is predicated on employer and employee funding rates mandated by North Dakota statutes. The actuary has determined that the current statutory rates are insufficient compared to the actuarially determined contribution rate needed to fund the actuarial accrued liability. Note 6 identifies the net pension liability as calculated using GASB 67 and 68 requirements. Our opinion is not modified with respect to this matter.

As discussed in Note 17 to the basic financial statements, the Bank of North Dakota elected to present an unclassified statement of net position because current assets were not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Our opinion is not modified with respect to this matter.

As described in Note 22 to the financial statements, the State of North Dakota adopted the provisions of GASB 95 *Postponement of the Effective Dates of Certain Authoritative Guidance*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules and related reconciliations and notes, information about the state of North Dakota's pension plans and other post-retirement benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of North Dakota's basic financial statements. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections, as listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2020 on our consideration of the State of North Dakota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of North Dakota's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of North Dakota's internal control over financial reporting and compliance.

Joshua C. Gallion
State Auditor
Bismarck, North Dakota

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the State of North Dakota's (the State's) Comprehensive Annual Financial Report presents a discussion and analysis of the State's financial performance, providing an overview of the activities for the fiscal year ended June 30, 2020. Please read it in conjunction with the transmittal letter at the front of this report and with the State's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Government-wide:

Total assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at fiscal year-end by \$26.1 billion (reported as net position), an increase of \$1.4 billion from the previous year. The net position of governmental activities increased by 4.6% while the net position of the business-type activities showed an increase of 10.8%.

As a result of implementing GASB Statement 68, *Accounting and Financial Reporting for Pensions*, the State recorded \$31 million net pension asset, \$290.1 million deferred outflows of resources, \$603.9 million net pension liability, and \$337.5 million deferred inflows of resources for the primary government. The State decreased its net pension liability by \$283.6 million during the year.

Fund Level:

As of the close of fiscal year 2020 the State's governmental funds reported combined ending fund balances of \$16.5 billion, an increase of \$760 million. Of this amount, \$109.5 million is non-spendable, primarily for Permanent Trust Funds. Spendable fund balance consists of \$6.4 billion restricted for specific purposes such as common schools, highway projects, and state education aid, \$1.9 billion committed and \$419.7 million assigned for specific functional expenditures such as education and health and human service operations, with the unassigned fund balance making up the remaining amount of \$7.7 billion, which is primarily made up of the legacy fund with a balance of \$7 billion.

The enterprise funds reported net position at year-end of \$4.6 billion, an increase of \$446.7 million during the year.

Long-term Debt:

The State's total debt (bonds, certificates of participation, and notes payable) decreased approximately 12.2% during the fiscal year to \$2.5 billion, a decrease of \$341 million, which represents the net difference between new issuances and payments. During the year the State issued \$269 million in bonds, \$7.3 million in certificates of participation, and \$6.3 billion in notes.

More detailed information regarding these activities and funds is included in Note 3L.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the State's basic financial statements, which consists of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Statements

The government-wide financial statements provide a broad view of the State's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the State's financial position, which assists in assessing the State's economic condition at the end of the fiscal year. These statements include all non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents all of the State's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the two reported as "net position". Over time, increases and decreases in net position is an indicator of whether the State's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both statements report three activities:

Governmental Activities – The activities in this section are primarily supported by taxes and intergovernmental revenue. Most of the State's basic services, such as education, health and human services and transportation, are reported under this category.

Business-type Activities – These functions are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The Bank of North Dakota, Housing Finance Agency and the University System are examples of the State's business-type activities.

Discretely Presented Component Units – These are operations for which the State has financial accountability but they have certain independent qualities as well. These entities operate similar to private-sector business and the business-type activities described above. The State has 4 discretely presented component units. Financial information for these entities is presented separately from the financial information presented for the primary government.

The government-wide financial statements can be found immediately following this discussion and analysis.

Fund Financial Statements

A fund is a fiscal and accounting entity with a self-balancing set of accounts that the State uses to keep track of specific sources of funding and spending for a particular purpose. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

The basic fund financial statements begin after the Component Unit FASB basis statements and provide more detail about the major individual funds. The State's funds are divided into three categories – governmental, proprietary, and fiduciary. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental funds - Most of the State's basic services are reported in the governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on the near-term inflows and outflows of spendable resources. They also focus on the balances left at year-end that are available for future spending. Such information may be useful in evaluating whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds

and the governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

Governmental funds include the General Fund, special revenue, debt service, and permanent funds. The State has several governmental funds, of which three (3) are considered major individual funds. These three are the General Fund, the Federal Fund, and the State Special Revenue Fund. Each of these major funds is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance. The remaining governmental funds are combined in a single aggregated column on the basic fund statements. Individual fund data for each of these non-major governmental funds can be found in the other supplementary information section of this report.

Proprietary funds – Services for which the State charges customers a fee are generally reported in proprietary funds. The state maintains two different types of proprietary funds, enterprise funds and internal service funds. Enterprise funds report activities that provide supplies and services to the general public. Internal service funds report activities that provide supplies and services for the State's other programs and activities. Like the government-wide statements, proprietary funds use the accrual basis of accounting. Although the basis of accounting is the same for the government-wide and proprietary fund statements, reconciliation between these statements is presented because of the allocation of internal service funds' net income.

The State has four (4) major enterprise funds: The Bank of North Dakota, Housing Finance, University System, and Workforce Safety and Insurance. These four funds are each presented in separate columns on the basic proprietary fund financial statements. The remaining enterprise funds are combined in a single total column on these statements. Individual fund data for each of the non-major enterprise funds can be found in the other supplementary information section of this report.

The State's internal service funds are reported as governmental activities on the government-wide statements, because the services they provide predominantly benefit governmental activities. The State's four (4) internal service funds are reported on the basic proprietary fund financial statements in a single combined column. Individual fund data for the internal service funds is provided in the form of combining statements found in the other supplementary information section of this report.

Fiduciary funds - The State acts as a trustee, or fiduciary, for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These funds, which include pension (and other employee benefit) trust, investment trust, private-purpose trust, and agency funds, are reported using accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because the State cannot use these assets to finance its operations.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements. The notes to the financial statements can be found immediately following component units' financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes a budgetary comparison schedule, which includes reconciliation between the statutory fund balances for budgetary purposes and the fund balances for the General Fund, the Federal Fund and the State Special Revenue Fund as presented in the governmental fund financial statements. In addition, the required supplementary information includes up to ten years of information on the State's pension and Other Post Employment Benefit (OPEB) plans, including schedules on the employer proportionate share of the net pension liability and net OPEB liability, changes in the net pension liability and OPEB liability, and employer contributions.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, non-major enterprise, internal service, and fiduciary funds. These funds are added together, by fund type, and presented in single columns in the basic financial statements.

FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE

As noted previously, net position may serve over time as a useful indicator of a government's financial position. The State's combined net position (governmental and business-type activities) totaled \$26.1 billion at the end of fiscal year 2020. Net position increased \$1.4 billion from the prior fiscal year.

State of North Dakota's Net Position (Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2020	2019	2020	2019	2020	2019

Unrestricted	9,578,050	8,786,695	1,952,266	1,904,501	11,530,316	10,691,196
Total Net Position	<u>\$21,549,057</u>	<u>\$20,612,163</u>	<u>\$4,569,703</u>	<u>\$4,124,129</u>	<u>\$26,118,760</u>	<u>\$24,736,292</u>

The largest component (44%) of the State's net position is unrestricted net position. Unrestricted net position may be used at the State's discretion, but often have limitations on use based on State statutes. Restricted net position makes up thirty percent (30%) of the state's net position. Restricted net position represents resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used.

Twenty-six percent (26%) of the State's net position reflects its investment in capital assets such as land, buildings, equipment, intangibles (software), and infrastructure (roads, bridges and other immovable assets) less any related debt outstanding that was needed to acquire or construct the assets. The State uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The condensed financial information below was derived from the government-wide Statement of Activities and reflects how the State's net position changed during the fiscal year:

Governmental Activities

Governmental Activities increased the State's net position by \$938 million. Revenues decreased 12.7%, with the largest dollar decrease in the State's revenues for fiscal year 2020 coming from oil, gas, and coal, taxes, a decrease of \$637.5 million. The decrease in individual and corporate income taxes is due to the change in the due date for the 2019 tax returns from April 15 to July 15, 2020 as a federal and state response to the global pandemic. Oil and Gas production tax and Oil Extraction tax decreases due to very weak oil prices and production declines associated with the nationwide recession caused by the global pandemic.

Expenses for governmental activities remained relatively consistent.

The following chart depicts revenues of the governmental activities for the fiscal year:

The chart on the following page depicts expenses of the governmental activities for the fiscal year:

**Expenditures - Governmental Activities
Fiscal Year Ending June 30, 2020**

Business-type Activities

Net position of the business-type activities increased by \$446.7 million during the fiscal year.

Workforce Safety and Insurance’s (WSI) net position increased \$135.6 million. Fiscal year 2020 shows decreases in earned premiums, incurred losses, and the number of filed claims. There was a slight increase in the number of policy holders. Policyholder count increased by 107 policies in fiscal year 2020. WSI’s financial position remains stable. Earned premium net of discounts and reinsurance totaled \$221 million, \$238 million, and \$232 million for fiscal years 2020, 2019, and 2018, respectively. Total claims filed for fiscal year 2020 totaled 18,813. This is a decrease of 1,100 from the previous fiscal year 2019 total of 19,913. A dividend credit of 50% was declared in fiscal year 2020, 2019 and 2018. Net earned premium from fiscal year 2020 of \$221 million is slightly down from the fiscal year 2019 total of \$238 million. The strong investment return in the past three years has contributed to the positive change in net position.

The Bank of North Dakota net position increased \$96.2 million. The loan portfolio decreased by \$55,000 to \$4.4 billion at December 31, 2019. Interest-bearing deposits totaled \$4.5 billion at December 31, 2019 compared to \$4.2 billion at December 31, 2018. This fluctuation is due to state deposits and the economic status of the state. The Bank has a tier one capital leverage ratio of 13.60% as of December 31, 2019. The leverage ratio is a measure of strength. Well capitalized per federal regulations requires this percentage to be a minimum of 5%.

The University System’s net position decreased \$11.6 million. The University system saw a decrease in revenues and an increase in expenditures which attributed to their decrease in net position. Grants and contracts (operating revenues) decreased mainly due to reduced National Science Foundation grants at NDSU and federal awards at UND. The decrease in sales and services of educational department and auxiliary enterprises revenues are attributed to Covid-19 related closures of the institutions in the third and fourth quarters of FY20. The largest increases of operating expenses for the University system was Scholarships and fellowships, CARES act aid to students, and cost of sales and services. Scholarships and fellowships increased primarily due to the implementation of a new waiver for a freshman academic award. CARES act aid was new for FY20 and was used to provide monetary aid to students impacted by the Covid-19 pandemic. Cost of sales and services increased primarily as a result of timing of internal billings to other operating departments at UND.

Housing Finance net position increase of \$15.5 million as a result of the year's program operations and financing activities. Operating revenues in FY20 were up as a result of higher mortgage interest income due to a larger mortgage loan receivable balance. Also, investment interest rates were slightly higher due to debt service reserve funds being invested in mortgage backed securities which have typically earned higher rates of interest than currently available GICs and Money Market accounts. Operating expenses were up from prior year operating expenses due to higher interest expenses with regards to a larger bonds payable balance. Also, administrative and operating expenses were lower than the prior year.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

Governmental Funds

As the State completed the year, its governmental funds reported combined fund balances of \$16.5 billion, an increase of \$760 million from the prior fiscal year. Of the \$16.5 billion in net position, \$109 million is non-spendable, \$6.4 billion is restricted, \$1.9 billion is committed, \$420 million is assigned, and \$7.7 billion is unassigned. These fund balance categories are a result of GASB Statement 54. Note 1U provides definitions for these categories. The following analysis of funds provides the explanation for the overall change in net position for governmental funds.

The General Fund is the chief operating fund of the State. At the end of current fiscal year, unassigned fund balance of the General Fund was \$7.7 billion, non-spendable was \$6.2 million, and \$1.1 billion was committed for expenditure by various governmental functions.

Total General Fund balance increased during the fiscal year by \$1.1 billion. Revenues increased approximately 4.7%, due to an increase in oil, gas, and coal taxes of \$313 million. This increase was due to the way Oil, Gas, and Coal taxes are distributed within the state. Revenue for oil, gas, and coal taxes are distributed first to the general fund and then once the max amount is reached the revenues will then be distributed to the next fund. The reason we saw an increase from FY19 was because in FY19 these general fund distributions would have already been met in FY18 so there would not have been as many revenues in the general fund for FY19. As there was an increase in the general fund revenues, revenues for the overall state had decreased and was previously explained with the increase in net position for governmental activities.

General fund expenditures increased by \$161.1 million or 8.6% with the largest increases in Education and Health and Human Services. However, total expenditures for the Governmental funds remained relatively consistent. The increase in Education primarily came from an increase in state student aid from the general fund in FY20. In the previous biennium these expenses would have been paid for with special funds. The increase in Health and Human Services was also due to reallocating more expenses to the general fund in the first year of the biennium.

The State Special Revenue ending fund balance decreased by \$380 million resulting in \$7.7 billion fund balance. Revenues decreased by 41.6% in the state special revenue fund primarily due to a decrease in oil, gas, and coal taxes of \$949.8 million due to weak oil prices and production decline as previously discussed. This decrease was also due to the increase in the general fund oil, gas, and coal revenues in FY20 as oil gas and coal taxes are first allocated to the general fund as previously explained. Special fund expenditures decreased by 13.7% primarily due to a decrease in Education and Health and Human Services spending. Decreases to the special funds was previously discussed under the general fund expenditures.

The June 30 Federal Fund balance of \$11.9 million consists primarily of non-spendable items such as prepaids and inventory. Revenues increased by \$204.8 million and expenditures increased by \$186.1 million primarily due to the increase in federal funding for the global pandemic. The federal fund balance increased by \$1.2 million due to additional funding for the state to combat the global pandemic.

Proprietary Funds

The State's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The increases in the net position of the proprietary funds are discussed under "Business-type Activities" above.

General Fund Budgetary Highlights:

The general fund budgetary revenues and other financing sources were \$8.2 million or 5.1% higher than the final budget, primarily because of actual sales tax and department collections were more than the final budgeted amount. The State has a biennial appropriated budget. The fiscal year ending June 30, 2020, was the first year of the 2019-21 budget cycle. The original budget increased \$128.6 million. The increases to the beginning appropriated budget are from authorized carryover of general fund appropriation authority and legislative changes of which the larger ones are noted below.

Several state agencies were authorized by appropriation laws to carryover a portion or all of their general fund appropriation for various purposes, including the University System, \$55.1 million, the Department of Human Services, \$5.8 million, Secretary of State, \$1.3 million, the Department of Commerce, \$33.1 million, the Parks and Recreation department, \$2.1 million, the Department of Transportation, \$13 million, Legislative Council and Assembly, \$4.7 million, and Office of Management & Budget, \$3.6 million.

Of the \$6.4 million in capital construction carryover dollars, \$5.5 million was for the Department of Human Services and \$804 thousand for the Department of Transportation.

There were no expenditures in excess of general fund authority.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets: At the end of the fiscal year 2020, the State had invested \$6.7 billion, net of accumulated depreciation, in a broad range of capital assets. Depreciation charges for this fiscal year totaled \$252 million.

(Net of Depreciation, Expressed in Thousands)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2020	2019*	2020	2019	2020	2019*

Total	\$5,462,057	\$5,235,969	\$1,683,761	\$1,631,300	\$7,145,818	\$6,867,269

* Beginning capital asset balances were adjusted for certain reclassifications.

The total increase in the State's investments in capital assets for the current fiscal year was 4.1% in terms of net book value. However, actual expenditures to purchase or construct capital assets were approximately \$1.1 billion for the year. A major portion of this amount was used to construct or reconstruct assets for highway construction. More detailed information on the State's capital assets can be found in Note 3H to the financial statements.

Long-term Debt: Article X, Section 13 of the Constitution of North Dakota provides that the state may issue or guarantee the payment of bonds provided that all bonds in excess of \$2 million are: secured by first mortgage upon property and no further indebtedness may be incurred by the state unless evidenced by a bond issue; authorized by law, for a certain purpose; provisioned to pay the interest semiannually, and pay the principal within 30 years. The law authorized the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond. The State has no general obligation bonds outstanding at June 30, 2020.

The State does have a number of revenue bonds outstanding at June 30, 2020. Current state statutes empower certain state agencies and the Building Authority, a component unit of the State, to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on revenue bonds issued by state agencies is payable from designated revenue sources. The Building Authority's bonds generate revenue to finance the construction and improvements of State buildings. Revenues derived from leases on the buildings fund the debt service requirements.

The Bank of North Dakota has advances from the Federal Home Loan Bank in the amounts of \$631 million. The advances have a fixed rate of interest, ranging from 1.61 percent to 5.56 percent.

More detailed information regarding the State's long-term obligations is presented in Note 3L to the financial statements.

The State's total debt decreased approximately 12.2% during the current fiscal year.

ECONOMIC CONDITION AND OUTLOOK

Moody's Analytics recently completed an analysis of the North Dakota economy for its *Précis U.S. State* October 2020 publication. The report depicts an economy in recovery, coming out of the COVID-19 recession, but at a slow pace mostly due to the effects the massive drop in oil prices had on employment.

North Dakota's outlook is linked tightly to two major industries, energy and agriculture. The oil industry will prove one of the worst economic casualties from the pandemic, which led to the plummet in price and the decrease for demand. Oil production per rig has risen slightly by 3 percent per rig in the last year. The most recent North Dakota average price per barrel of oil was at \$33.00, which is below the estimated price of \$48.00 used for budgeting purposes. On the agriculture side, the demand for crops remained intact throughout the pandemic, but the closure of the U.S./Canada border continues to expound the decline seen in exports and commodity prices are expected to remain low.

North Dakota's job growth has taken a hit because of the pandemic. At the end of September the job count was 7.3% lower than it was in January. Unemployment in North Dakota is at 5.2%, which is more than double what it was for the same time frame in 2019. The positive is that the tight labor market could be an attractive draw to job seekers from other states.

Median household income and per capita income for North Dakota are both ahead of the national average. For 2020, median household income in North Dakota was \$70,031 compared to \$68,703 for the U.S. Per capita income for 2019 was \$57,232 for North Dakota, while \$56,490 for the U.S.

CONTACTING THE STATE'S OFFICE OF FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. Questions about this report or additional financial information should be addressed to the State of North Dakota, Office of Management and Budget, 600 E. Boulevard, Dept. 110, Bismarck, ND 58505.

* An internal receivables balance remains in the Total column because certain Business-Type Activities have different fiscal year ends than the Governmental Activities. As internal balances are reported separately as internal receivables and internal payables, those lines, as well as the total assets and total liabilities, do not crossfoot.

STATE OF NORTH DAKOTA

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2020

Total Fund Balances-Governmental Funds		\$ 16,498,155,860
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets is \$9,106,776,885 and the accumulated depreciation is \$5,369,262,003.		5,369,262,003
Other assets not available in the current period and therefore are not reported in the governmental funds:		
Net Pension Asset		31,006,306
Deferred outflows of resources are not reported in the governmental funds:		
Loss on bond refunding	1,764,000	
Related to OPEB	8,724,462	
Related to pensions	204,202,961	
Total Deferred Outflows	206,731,423	214,691,423
Some of the state's revenues will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are unavailable in the funds.		114,480,029
Prepaid items are paid from current available financial resources in the funds, but are capitalized in the statement of net position.		-
Internal service funds are used to charge the costs of certain activities to individual funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the statement of net position.		96,308,421
Voluntary termination benefits for employees are accrued in the statement of net position.		-
Deferred inflows of resources are not reported in the governmental funds:		
Unpaid penalty and interest	624,074	
Related to OPEB	(2,386,736)	
Related to pensions	(235,782,684)	
	(235,545,346)	(237,545,346)
Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported as liabilities in the funds. Those liabilities consist of:		
Bonds Payable	(19,730,000)	
Notes Payable	(14,817,054)	
Accrued Interest on Long-Term Liabilities	(226,283)	
Compensated Absences	(48,355,608)	
Intergovernmental Payable	-	
Capital Leases	(754,014)	
Other Postemployment Benefit Obligation	(28,773,636)	
Net Pension Liability	(423,656,679)	
Claims and Judgments	(988,701)	
Total Long-Term Liabilities	(937,056,671)	(537,301,975)
Net Position of Governmental Activities		\$ 21,549,056,721

STATE OF NORTH DAKOTA

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2020

Net Change in Fund Balances-Total Governmental Funds \$ 760,434,986

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	385,288,320	
Depreciation expense	<u>(157,280,216)</u>	
Excess of capital outlay over depreciation expense		228,008,104

In the statement of activities, only the gain(loss) on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the assets sold.

(498,854)

Donations of capital assets increase net position in the statement of activities but do not appear in the governmental funds because they are not financial resources.

20,000

Some of the assets acquired this year were financed through capital leases. The amount financed is reported in the governmental funds as a source of financing. However, capital leases are reported as long-term liabilities in the statement of net position.

(145,827)

Based on receipt dates, some revenues are not considered "available" revenues and are unavailable in the governmental funds. Unavailable revenues increased/decreased by this amount this year.

(21,072,260)

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of internal service funds is reported with governmental activities

(3,114,702)

Bonds proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

-

Note proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

(3,344,100)

Voluntary termination benefits do not require current financial resources and therefore are not reported as expenditures in the governmental funds.

252,229

The pension assets resulting from contributions in excess of annual required contribution are not financial resources and, therefore, are not reported in the funds.

3,547,406

Deferred outflows of resources do not provide current financial resources

Amortization of deferred loss on bond refunding	(366,000)	
Related to OPEB	941,139	
Related to pension	<u>(63,963,918)</u>	
Total deferred outflows		(63,388,779)

Deferred pension inflows are not considered current cash expenses and are not reported as an expenditure in the funds

Unpaid penalty and interest	(197,051)	
Related to OPEB	(438,298)	
Related to pension	<u>(177,672,246)</u>	
Total deferred outflows		(178,307,595)

The net OPEB liability relating to retirement plans

839,048

The net pension liability relating to retirement plans

198,066,001

Repayment of long-term debt is reported as an expenditure in governmental funds but the repayment reduces long-term liabilities in the statement of net position. In the current year, these amounts consist of:

Bond principal retirement	10,220,302	
Note payments	10,424,420	
Capital lease payments	<u>491,953</u>	
Total long-term debt repayment		21,136,675

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This adjustment combines the net changes of the following:

Accrued Interest	100,934	
Compensated Absences	(4,535,101)	
Claims and Judgments	<u>(12,686)</u>	
Total additional expenditures		(4,446,853)

Change in Net Position of Governmental Activities \$ 937,985,479

STATE OF NORTH DAKOTA

NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The primary authority for the State's accounting and reporting requirements is the Office of Management and Budget. The Office of Management and Budget has adopted the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the State's accounting policies are as follows:

A. REPORTING ENTITY

For financial reporting purposes, the State of North Dakota has included all funds, organizations, agencies, boards and commissions that make up its legal entity. The State has also included all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State.

As required by accounting principles generally accepted in the United States of America, these financial statements present the State of North Dakota (the primary government) and its component units. The component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State.

BLENDED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are so intertwined with the State that they are, in substance, the same as the State. They are reported as part of the State and blended into the appropriate fund types.

Building Authority (Debt Service Fund and Capital Projects Fund) - The Building Authority was created by the Legislature as a separate instrumentality of the State. Its purpose is to promote the general welfare of the citizens of the State by providing financing for use by the State in altering, repairing, maintaining or constructing buildings and making any improvements connected to State buildings. The Industrial Commission, which consists of the governor, the attorney general, and the commissioner of agriculture, is the governing board of the Building Authority. The funds of the Building Authority were audited by other independent auditors for the fiscal year ended June 30, 2020, and their report has been previously issued under a separate cover.

DISCRETELY PRESENTED COMPONENT UNITS

These component units are entities that are legally separate from the State, but are financially accountable to the State. The component units' columns of government-wide financial statements include the financial data of these entities.

MAJOR COMPONENT UNITS

Comprehensive Health Association (Proprietary Fund Type) – The Association was established by the Legislature with participating membership consisting of those insurance companies, licensed or authorized to do business in the State. It provides low cost access to health insurance coverage for residents of the State who are denied adequate health insurance and are considered uninsurable. Under North Dakota Century Code, the Majority Leader of the Senate appoints one member of the Senate and the House of Representatives appoints one member of the House to the eight-member board. The Association was audited by other independent auditors for the calendar year ended December 31, 2019, and their report has been previously issued under a separate cover.

Public Finance Authority (Proprietary Fund Type) – The Finance Authority was created by the Legislature as a separate agency of the State. The purpose of the Finance Authority is to make funds available for borrowing by North Dakota political subdivisions through the issuance of its bonds and the purchase of municipal securities of the political subdivisions. The Finance Authority has been granted all powers required in order to accomplish this purpose and is under the control and management of the Industrial Commission. The Fund was audited by other independent auditors for the calendar year ended December 31, 2019, and their report has been previously issued under a separate cover.

STATE OF NORTH DAKOTA

North Dakota Development Fund, Inc. (Proprietary Fund Type) – The Development Fund was established as a statewide nonprofit development corporation with the authority to take equity positions in; to provide loans to; or to use other innovative financing mechanisms to provide capital for new or expanding businesses in North Dakota or relocating businesses to North Dakota. A board of directors consisting of eight members, all of whom are appointed by the governor, manages the corporation. The deputy director of the Department of Commerce (a State agency) is the corporation's chief executive officer. The director of the Department of Commerce (governor-appointed cabinet position) is responsible for developing rules, subject to the approval of the board of directors, necessary to implement the administration of the corporation. The Fund was audited by other independent auditors for the fiscal year ended June 30, 2020, and their report has been previously issued under a separate cover.

North Dakota State Fair Foundation – The mission of the North Dakota State Fair Foundation is to develop lifelong relationships with donors to secure philanthropic gifts that will enhance and support the work of the North Dakota State Fair. The Fund of the North Dakota State Fair Foundation were audited by other independent auditors for the fiscal year ended September 30, 2019, and their report has been previously issued under a separate cover.

Major and Non-major University System Foundations (Proprietary Fund Type) – The foundations are legally separate, tax-exempt organizations providing support and recognition to their respective colleges and universities through a variety of programs and activities. The foundations are normally managed by a board of directors made up primarily of alumni, friends or leading members of the communities. The component unit financial statements are presented under Financial Accounting Standards Board (FASB) standards. As such, certain disclosures are not reflected for the Major University System Foundation in the major component unit disclosures and no disclosures are included for the Non-major University System Foundation. A complete set of financial statements can be obtained at the North Dakota University System office at 600 E. Boulevard Avenue, #10, Bismarck, ND 58505.

Non-major State Historical Society of North Dakota Foundation – The mission of the State Historical Society of North Dakota Foundation is to provide fundraising and membership development activities to support the State Historical Society of North Dakota which preserves and promotes the heritage of North Dakota and its people. The Fund of the State Historical Society of North Dakota Foundation were audited by other independent auditors for the fiscal year ended June 30, 2020, and their report has been previously issued under a separate cover. The component unit financial statements are presented under Financial Accounting Standards Board (FASB) standards. As such, certain disclosures are not reflected for the Foundation and no disclosures are included for the Foundation.

Complete financial statements for each of the other individual component units may be obtained at the entity's administrative offices as follows:

Minot, ND 58702-1796

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities.

Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

STATE OF NORTH DAKOTA

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation. Net position restricted by enabling legislation are subject to change by a majority vote of the Legislative Assembly.

Unrestricted net position consist of net position that do not meet the definition of the two preceding categories. Unrestricted net position often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net position often have constraints on resources which are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

FUND FINANCIAL STATEMENTS

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund (agency funds are excluded as they have no measurement focus) financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

The State follows the pronouncements of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard-setting body for establishing accounting principles generally accepted in the United States of America for governmental entities.

Governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period.

The State considers tax revenues to be available if they are collected within 60 days of the end of the current fiscal year end. Other revenues are considered to be available if received within one year after the fiscal year end. Major revenues that are determined to be susceptible to accrual include interest, federal grants-in-aid, and taxpayer-assessed taxes such as income, sales, corporate, excise, motor fuel taxes and unemployment compensation contributions. Revenues earned under the terms of reimbursement agreements with other governments or private sources are recorded at the time the related expenditures are made if other eligibility requirements have been met. Sales and use taxes are accrued based upon filings received and an estimate of filings due by June 30. Net income taxes from individuals and corporations are accrued based on current income earned by the taxpayer before June 30. Quarterly filings, withholding statements, and other historical data are used to estimate income. The revenue is accrued net of an allowance for uncollectible taxes. Unearned revenue is recorded for receivables that are measurable but not available at year-end.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to debt service, compensated absences, and claims and judgments, are recorded only when payment is due and payable.

STATE OF NORTH DAKOTA

FINANCIAL STATEMENT PRESENTATION

The State reports the following major governmental funds:

The General Fund is the principal operating fund of the State.

The Federal Fund accounts for all the financial resources from the federal government.

The State Special Revenue Fund accounts for activities from state sources, which are restricted legally or administratively for the particular costs of an agency or program.

The State reports the following major enterprise funds:

The Bank of North Dakota Fund finances economic development throughout the state, participates in loans with North Dakota financial institutions, and holds interest-bearing deposit accounts for state and political subdivisions of North Dakota.

The Housing Finance Agency Fund is authorized to issue bonds to make loans to mortgage lenders for qualified residential mortgage loans and to make mortgage and construction loans for multi-family housing within the State of North Dakota.

The University System Fund accounts for all financial transactions of the colleges and universities that compose the University System of North Dakota.

The Workforce Safety & Insurance Fund is financed entirely by premiums assessed to the employers of North Dakota and provides no-fault medical and disability insurance to all North Dakota employees.

Additionally, the State reports the following fund types:

GOVERNMENTAL FUND TYPES

General Fund accounts for all governmental financial resources, except for those required to be accounted for in other funds.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Permanent Funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry, such as the common schools within the state.

PROPRIETARY FUND TYPES

Enterprise Funds account for those business-like State activities that provide goods/services to the public, financed primarily through user charges. They are also used to account for operations where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability and other purposes. The State's loan programs, Mill and Elevator, and Fair are reported in this type.

Internal Service Funds account for the financing of goods and/or services provided by one department or agency to another department or agency of a government, or to other governments, on a cost-reimbursement basis. These goods and services include motor pool services; printing, reproduction and mailing services; information technology; and risk management services. In the government-wide statements, internal service funds are included with governmental activities.

STATE OF NORTH DAKOTA

FIDUCIARY FUND TYPES

Pension and Other Employee Benefits Trust Funds account for resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plans, defined contribution plan, deferred compensation plan, pretax benefits program, and other post-employment benefit plans.

Investment Trust Funds account for the transactions, assets, liabilities, and fund equity of the external pool participants (City of Bismarck, City of Grand Forks, City of Grand Forks Park District, ND Association of Counties, City of Fargo Fargodome, North Dakota State Board of Medicine, Petroleum Tank Release Compensation Fund, Lewis and Clark Interpretive Center Endowment Fund, Veteran's Cemetery Trust Fund and Retirement and Investment Office Investments). The State Investment Board (SIB) provides administrative services for the external pool participants. SIB issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 3442 East Century Avenue, Bismarck, North Dakota 58503. Investment Trust Funds are accounted for in essentially the same manner as Proprietary Funds.

Private Purpose Trust Funds account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. Examples include student donations, the State's college savings plan, and a remediation trust.

Agency Funds account for assets held by the State as an agent for other governmental units, or other organizations, and do not involve measurement of results of operations. Examples of funds in this category include state agency funds for bonding, tax collection, child support disbursement, and funds held for others.

D. GENERAL BUDGETARY POLICIES AND PROCEDURES

The State operates through a biennial appropriation that represents departmental appropriations recommended by the governor and presented to the Legislative Assembly at the beginning of each legislative session. The Legislative Assembly enacts the budgets of the various state departments through passage of specific appropriation bills. The governor has line item veto powers over all appropriations subject to legislative override.

Once passed and signed, the appropriation bill becomes the departments' financial plan for the next two years. Changes to the appropriation are limited to Emergency Commission authorization, initiative, allotment, or referendum action. The Emergency Commission can authorize receipt of federal or other moneys not appropriated by the Assembly if the Assembly did not indicate intent to reject the money. The Emergency Commission may authorize pass-through federal funds from one state agency to another. The Emergency Commission may authorize the transfer of expenditure authority between appropriated line items. The Legislature has also passed appropriation laws that authorize directors of certain state agencies to transfer appropriation authority among the various divisions of their specific agency, subject to the Budget Section of the North Dakota Legislative Council's approval. Unexpended appropriations lapse at the end of each biennium, except certain capital expenditures covered under the North Dakota Century Code (NDCC) section 54-44.1-11 and the University System's unexpended general fund appropriation authority.

The State's biennial budget is prepared primarily on a cash basis. The State does not use encumbrance accounting. The legal level of budgetary control is at the agency, appropriation, funding source and expenditure line item level, with administrative controls established at lower levels of detail in certain instances. The State does not formally budget revenues, and it does not budget by fund. The State appropriation is defined through the use of specific expenditure line items. Capital appropriations are generally made at the agency and project level.

North Dakota's Appropriation Act does not present budgets by GAAP fund. Instead, it authorizes General Fund appropriation authority by agency and Other Budgeted Income appropriation authority by agency. Other budgeted income includes all budgeted resources, other than the General Fund, and includes some governmental, proprietary, and fiduciary fund activities.

During the 2019-2021 biennium, there were general, federal and other funds supplemental appropriations totaling \$1,157,610,655.

E. CASH AND CASH EQUIVALENTS

Cash and cash equivalents for reporting purposes includes cash and short-term, highly liquid investments that are readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. This includes investments with original maturity of three months or less. Also cash, as reported, may be under the control of the State Treasurer or by other administrative bodies as determined by law. Cash and cash equivalents are presented on the fund balance sheets as "Cash Deposits at the Bank of North Dakota" and "Cash

STATE OF NORTH DAKOTA

and Cash Equivalents" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

Cash Deposits at the Bank of North Dakota – State agency cash balances, as required by law, are pooled by the State Treasurer and deposited in the Bank of North Dakota, an enterprise fund. These cash balances, in addition to other agency cash deposited at the Bank of North Dakota, are included on the fund balance sheets as "Cash Deposits at the Bank of North Dakota". For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Cash and Cash Equivalents – All cash and cash equivalents, (other than cash deposits at the Bank of North Dakota), as permitted by the North Dakota Century Code, are included on the Government-wide Statement of Net Position as "Cash and Cash Equivalents".

The State had no cash overdrafts from pooled cash and investments at June 30, 2020.

All interest revenue is allocated to the General Fund unless state law (as outlined in the North Dakota Century Code) requires allocations of interest to other funds.

F. INVESTMENTS

Investments are reported at fair value. Quoted market prices, when available, have been used to value investments. The fair value for securities that have no quoted market price represent estimated fair value. International securities are valued based upon quoted foreign market prices and translated into U.S. dollars at the exchange rate in effect at June 30. In general, corporate debt securities have been valued at quoted market prices or, if not available, values are based on yields currently available on comparable securities of issuers with similar credit ratings. Mortgages have been valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar instruments. The fair value of real estate investment securities, including timberland, is based on appraisals plus fiscal year-to-date capital transactions. Publicly traded alternative investments are valued based on quoted market prices. When not readily available, alternative investment securities are valued using current estimates of fair value from the investment manager. Such valuations consider variables such as financial performance of the issuer, comparison of comparable companies' earnings multiples, cash flow analysis, recent sales prices of investments, withdrawal restrictions, and other pertinent information. Because of the inherent uncertainty of the valuation for these other alternative investments, the estimated fair value may differ from the values that would have been used had a ready market existed.

The net change in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year. Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold.

Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security transactions are currently accounted for on a trade date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date.

Purchases of other state funds' debt issues by the Bank of North Dakota have been recorded as normal business transactions if they are the result of arms-length transactions.

Investments are presented on the fund balance sheets as "Investments at the Bank of North Dakota" and "Investments" to present the unique nature of the relationship between the Bank of North Dakota, an enterprise fund, and other state agencies.

Investments at the Bank of North Dakota – State agency investments, primarily certificates of deposits of the Bank of North Dakota, are included on the fund balance sheets as "Investments at the Bank of North Dakota." For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Investments – State agency investments invested at financial institutions other than the Bank of North Dakota are included on the Government-wide Statement of Net Position as "Investments." Differences on the Fund Balance Sheets between the assets, "Cash at the Bank of North Dakota" and "Investments at the Bank of North Dakota," and the liability, "Deposits Held for Other Funds," is attributable to timing differences resulting from the Bank of North Dakota having a different fiscal year end than many of the other state agencies.

STATE OF NORTH DAKOTA

G. SECURITIES LENDING

GASB Statement No. 28 "Accounting and Financial Reporting for Securities Lending Transactions," establishes accounting and financial reporting standards for securities lending transactions. The standard requires governmental entities to report securities lent as assets in their statements of net position. Cash received as collateral and investments made with that cash must also be reported as both an asset and a liability. The statement also requires the costs of the securities lending transactions to be reported as expenses separately from income received. In addition, the statement requires disclosures about the transactions and collateral related to them.

The Agent lends securities of the type on loan at June 30, 2020, for collateral in the form of cash, U.S. government securities and irrevocable letters of credit. U.S. securities are loaned versus collateral valued at 102% of the market value of the securities plus accrued interest. Non-U.S. securities are loaned versus collateral valued at 105% of the market value of the securities plus accrued interest.

Non-cash collateral cannot be pledged or sold unless the borrower defaults. All securities can be terminated on demand by either the lender or the borrower, although the average term of the loans State's loans was approximately 232 days as of June 30, 2020. Cash open collateral is invested in a short term investment pool, which had an interest sensitivity of 1 day as of this statement date. This pool is valued based on amortized cost. There were no violations of legal or contractual provisions, no borrower or lending agent default losses known to the securities lending agent. There are no dividends or coupon payments owing on the securities lent. Securities lending earnings are credited to participating clients on approximately the fifteenth day of the following month.

Indemnification deals with the situation in which a client's securities are not returned due to the insolvency of a borrower and the Agent has failed to live up to its contractual responsibilities relating to the lending of those securities. The Agent's responsibilities include performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral, and complying with applicable Department of Labor and Federal Financial Institutions Examination Council regulations concerning securities lending.

For securities loaned at fiscal year end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceeds the amounts the borrowers owe the State.

H. INTERFUND ACTIVITY AND BALANCES

INTERFUND ACTIVITY

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets (such as goods or cash) without equivalent flows of assets in return or a requirement for repayment. Residual transfer amounts exist in the Government-wide Statement of Activities due to different fiscal year ends of various agencies included in business-type activities.

INTERFUND BALANCES

Interfund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

I. INVENTORIES AND PREPAID ITEMS

Inventories of Governmental Funds are valued at cost and are recognized principally using the average cost method. Generally, the cost of Governmental Funds' inventories is recorded as an expenditure when consumed rather than when purchased.

Inventories of Proprietary Funds consist primarily of grain inventories from the North Dakota Mill and Elevator Association. Grain inventories are valued at the June 30 Minneapolis grain market values less freight costs to Minneapolis. Flour, feed and resale inventories are valued at ingredient cost plus manufacturing costs incurred in their production. Proprietary Funds expense the cost of consumable supplies when used.

Generally, inventories of University System Funds are valued at the lower of cost or fair market value. Cost is generally determined on the first in/first out, or moving weighted average method. Inventories consist of food, books, and other merchandise held for resale in auxiliaries and unrestricted physical plant supplies.

STATE OF NORTH DAKOTA

Prepaid items reflect payments for costs applicable to future accounting periods. The cost of governmental prepaid items are recorded as expenditures when purchased.

Other government fund inventories and prepaid items are reflected as a reservation of fund balance on the balance sheet.

J. BOND PREMIUMS / DISCOUNTS

In the governmental funds, bond discounts and premiums are treated as period costs in the year of issue. Bond discounts and premiums are shown as an "other financing source (use)" in the statement of revenues, expenses and changes in fund balance.

In the proprietary funds, bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. The unamortized discount is shown on the statement of net position as a reduction of the bonds payable, and the amortization is included in the statement of revenues, expenses and changes in fund balance as interest expense.

K. CAPITAL ASSETS

Capital assets, which include land, buildings, equipment, intangibles (software, easements and other), construction in progress and infrastructure assets, are valued at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their acquisition value on the date of donation. Where necessary, estimates of original cost are derived by factoring price levels from the current period to the time of acquisition. Library books are not capitalized as capital assets except for the University System.

All other capital assets with an original cost of \$5,000 or more per unit and an estimated useful life in excess of one year are capitalized and reported in the applicable government or business-type activities columns in the government-wide financial statements. Exceptions include: infrastructure reported by the Department of Transportation, the threshold is \$100,000 and intangible assets such as easements, water rights, patents and trademarks, the threshold is \$25,000. Capital asset costs include the purchase price or construction cost, plus the costs necessary to place the asset in its intended location and condition for use. In governmental activities, interest costs on self-constructed assets are not capitalized. In business-type activities, interest costs (if material) on self-constructed assets are also included in the cost. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period. Capitalized interest is amortized on the straight-line basis over the estimated useful life of the asset. Normal maintenance and repair costs that do not materially add to the value or extend the life of the asset are not capitalized.

Collections of works of art and historical treasures are not capitalized if the following three criteria are met: (1) Held for public exhibition, education, or research in furtherance of public service, rather than financial gain; (2) Protected, kept unencumbered, cared for, and preserved; (3) Subject to organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, and monuments and other art throughout the capital grounds. Assets that do not meet all three criteria, or that were capitalized as of June 30, 1999, are capitalized and included in the government-wide financial statements.

Infrastructure consists of major statewide public systems and items attached thereto such as freeways, freeway lighting systems, freeway drainage systems, freeway signs, bridges, bridge lighting systems, and sewer systems, including those infrastructure assets acquired prior to June 30, 1980. Infrastructure is reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Department of Transportation uses the first-in first-out method to remove the capitalized cost of a replaced road along with corresponding accumulated depreciation.

Capital assets in Governmental Funds are recorded as expenditures in the funds used to acquire or construct them in the governmental fund financial statements. Capital assets, along with accumulated depreciation and depreciation expense, which includes amortization of intangible assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

STATE OF NORTH DAKOTA

Land and construction in progress are not depreciated. With the exception of infrastructure reported by the Department of Transportation (which uses the composite method), other capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10-50
Infrastructure	10-50
Furniture, Automobiles, and Equipment	3-20
Intangibles	3-99

L. DEFERRED OUTFLOWS OF RESOURCES

Deferred outflow of resources represents a consumption of net position by the government that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources are reported in the applicable governmental or business-type activities columns, or in the component units column on the government-wide Statement of Net Position.

M. LEASE COMMITMENTS

The State leases land, office facilities, office and computer equipment, and other assets. Leases are classified according to GASB 62. Many of these leases have fiscal funding clauses; however, these clauses have no effect on classifying these leases for accounting purposes. Leases which represent acquisitions are classified as capital leases, and the related assets and liabilities are recorded in the financial statements at the inception of the lease. Other leases are classified as operating leases with the lease payments recorded as expenditures or expenses during the life of the lease.

N. FEDERAL FUNDS PURCHASED

Federal Funds Purchased represent federal funds borrowed by the Bank of North Dakota from member banks generally on an overnight basis at the federal funds rate.

O. CLAIMS/JUDGMENTS PAYABLE

Claims/Judgments Payable is primarily Workers Compensation Claims Incurred But Not Yet Reported (IBNR) by the claimants as well as claims related to various litigation matters.

P. COMPENSATED ABSENCES

ANNUAL LEAVE

State employees accrue vested annual leave at a variable rate based on years of service. Teachers employed by the State do not receive annual leave. In general, accrued annual leave cannot exceed 30 days at each year end, as set by the agency. The amount of annual leave earned ranges between one and two days per month, and is fixed by the employing unit per section 54-06-14 of the NDCC.

The governmental fund financial statements recognize annual leave when the liability is incurred and payable from available expendable resources. This normally occurs only if an employee has unused reimbursable leave still outstanding at the time of their termination. The government-wide financial statements present the cost of accumulated annual leave as a liability. Proprietary and Fiduciary Funds recognize the expense and accrued liability when the annual leave is earned.

SICK LEAVE

The North Dakota Century Code, section 54-06-14, states employees accrue sick leave at the rate of one to a maximum of one and one-half working days per month of employment without limitation on the amount that can be accumulated. Employees vest at ten years of creditable service, at which time the State is liable for ten percent of the employee's accumulated unused sick leave. The governmental fund financial statements recognize sick leave as it is incurred. The government-wide financial statements present the estimated cost of sick leave as a liability after an employee has been employed by the State for five consecutive years.

Q. DEPOSITS

The following two liability line items are presented in the Government-wide Statement of Net Position and/or fund financial statements:

STATE OF NORTH DAKOTA

Deposits Held For Other Funds. "Deposits Held for Other Funds" are those deposits held by the Bank of North Dakota for other funds included in the reporting entity and shown on the fund financial statements. For purposes of the Government-wide Statement of Net Position, these amounts have been reclassified to internal balances.

Other Deposits. "Other Deposits" are those deposits held by the Bank of North Dakota for non-reporting entity third parties. It also includes deposits held for students of the University System.

Differences on the fund balance sheets between the liability "Deposits Held for Other Funds" and the assets "Cash Deposits and Investments at the Bank of North Dakota" are attributable to timing differences resulting from the Bank of North Dakota having a different accounting year end than many other state agencies.

R. NET PENSION LIABILITY

For purposes of measuring the net pension liability and deferred outflows/inflows related to pension, and pension expense, information about the fiduciary net position of the North Dakota Public Employee Retirement System (PERS), North Dakota Highway Patrolmen's Retirement System (NDHPRS), Retirement Plan for the Employees of Job Service North Dakota (JSND) and North Dakota Teachers' Fund for Retirement (TFFR) and additions to / deductions from PERS, NDHPRS, JSND and TFFR's fiduciary net position have been determined on the same basis as they are reported for PERS, NDHPRS, JSND and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The primary government's proportionate share of pension amounts were further reallocated to the proprietary funds (business-type activities) based on the amount of employer contributions paid by each proprietary fund. Pension investments are reported at fair value.

S. NET OTHER POST EMPLOYMENT BENEFITS LIABILITY

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Job Service North Dakota engaged an actuary to determine the net OPEB liability, deferred outflows of resources and deferred inflow of resources related to OPEB and OPEB expense for its Met Life Insurance Benefit plan.

T. DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources represent an acquisition of net position that applies to a future period, and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources are reported in the applicable governmental or business-type activities columns or in the component units column on the government-wide Statement of Net Position. Deferred inflows of resources of governmental funds, proprietary fund, and discrete component units are reported in detail in their respective fund statements.

U. NET POSITION/FUND BALANCE

The difference between fund assets and liabilities is "Net Position" on the government-wide, proprietary, and fiduciary fund statements, and "Fund Balance" on governmental fund statements.

CLASSIFICATIONS

Fund balance classifications for governmental funds are reported in two general classifications, nonspendable and spendable. Nonspendable represents the portion of fund balance that is not in spendable form such as inventories and prepaids. Spendable fund balance is further categorized as restricted, committed, assigned, and unassigned.

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by the State constitution and external parties, such as the federal government, or through enabling legislation.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority, the state's legislature, through legislation, that is not considered as enabling legislation, passed into law.

Assigned fund balance classifications are used when the amounts are to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. The assignment of fund balance is generally initiated by the executive branch and later appropriated by the Legislature for a specific purpose. In governmental funds other than the general fund, assigned fund balance also represents the remaining amount that is not restricted or committed.

STATE OF NORTH DAKOTA

Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification would only be used to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The State generally segregates restricted, committed, and assigned resources by individual funds within the governmental funds. When resources meeting more than one of these classifications are comingled within an individual fund, the assumed order of spending is restricted first, committed second, assigned third, and finally, unassigned.

BUDGET STABILIZATION FUND

North Dakota Century Code (NDCC) section 54-27.2-02 requires any amount in the state general fund in excess of sixty-five million dollars at the end of any biennium to be deposited in the Budget Stabilization Fund. Any interest or earnings of the fund must be deposited in the fund per NDCC section 54-27.2-01. However, any amounts provided by law for deposit in the fund and any interest or earning of the fund which would bring the balance in the fund to an amount greater than fifteen percent of the current biennial state general fund budget, as finally approved by the most recently adjourned special or regular session of the legislative assembly, may not be deposited or retained in the fund but must be deposited instead in the state general fund.

NDCC section 54-27.2-03 states that if general fund revenue projections for the biennium will be at least two and one-half percent less than estimated by the most recently adjourned special or regular session of the legislative assembly, and if the governor orders a transfer, which must be reported to the budget section of the legislative management, the state treasurer shall transfer the appropriate funds from the budget stabilization fund to the state general fund to offset the decrease in general fund revenues. The amount transferred upon order of the governor may not exceed the difference between an amount two and one-half percent below the general fund revenue projections for the biennium. The Budget Stabilization Fund, fund balance at June 30, 2020 was \$726,903,611.

V. REVENUES AND EXPENDITURES/EXPENSES

In the Government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g., general government, education, health and human services, etc.). Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes and money from tobacco settlements. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted". General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g., federal grants), available only for specified purposes. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first. In the governmental fund financial statements, expenditures are reported by character: "Current," "Intergovernmental-revenue Sharing," "Capital Outlay," or "Debt Service." Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Capital outlay includes expenditures for real property or infrastructure (e.g., highways). Intergovernmental-revenue sharing accounts for the distribution of certain tax revenues that are shared with local units based upon constitutional and statutory requirements. Debt service includes both interest and principal outlays related to bonds and payments on capitalized leases.

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are sub classified by object (e.g., salaries, depreciation, and purchases for resale). Operating revenues consist of sales of goods and services, quasi-external operating transactions with other funds, grant revenues for specific activities that are considered to be operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. Grants that would qualify as an operating activity are those that do not subsidize an existing program, rather they finance a program the agency would otherwise not undertake. For certain loan and investment programs, revenue that would normally be classified as non-operating should be classified as operating. Examples of this would include interest and investment income. All other revenues that do not meet the above criteria should be classified as non-operating.

STATE OF NORTH DAKOTA

W. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - RESTATEMENTS

The changes to beginning net position are summarized in the following table (expressed in thousands):

	Government-wide Gov't Activities	Component Units (GASB Based)	Component Units (FASB Based) State Historical Society Foundation
June 30, 2019, net position, as previously reported	\$ 20,612,163	\$ 549,583	\$ -
Prior period adjustments:			
Correction of Errors	(1,092)	(1,079)	1,079
June 30, 2019, net position, as restated	\$ 20,611,071	\$ 548,504	\$ 1,079

A. CORRECTION OF ERRORS

The beginning net position of the Government-wide governmental activities were restated due to an overstatement of construction in progress of \$1.092 million. The Component Units (GASB Based) net position was reduced \$1.079 million to reclassify the State Historical Society of North Dakota Foundation from the GASB component units to the FASB component units statements, as the Foundation is accounted for under the FASB basis.

NOTE 3 - DETAILED NOTES ON ACCOUNT BALANCES

A. DEPOSITS

CUSTODIAL CREDIT RISK

The State minimizes custodial credit risk by restrictions set forth in state statute. Custodial credit risk is risk associated with the failure of a depository financial institution. In the event of a depository financial institution's failure, the State would not be able to recover its deposits or collateralized securities that are in the possession of the outside parties.

State law generally requires that all State funds be deposited in the Bank of North Dakota. NDCC 21-04-01 provides that public funds belonging to or in the custody of the State shall be deposited in the Bank of North Dakota. Also, NDCC 6-09-07 states, "all state funds . . . must be deposited in the Bank of North Dakota" or must be deposited in accordance with constitutional and statutory provisions. The State does not have a formal policy that addresses custodial credit risk for deposits.

At June 30, 2020, the bank balance of the primary government's deposits was \$444,521,116. Of the bank amount, \$196,738,000 was uncollateralized and uninsured.

There were significant concentrations of uninsured and uncollateralized deposits in the Bank of North Dakota and University System at June 30, 2020. Their uninsured and uncollateralized deposits totaled \$196.7 million and \$789 thousand, and their bank deposits totaled \$198.3 million and \$18.3 million, respectively.

At June 30, 2020, the bank balance of the major component units' deposits was \$104,790,495. Of the bank amount, \$103,233,156 was uncollateralized and uninsured.

The internal receivable amount in the governmental activities column in the Statement of Net Position includes Cash and Investments at the Bank of North Dakota for governmental activities. The internal payable amount in the business-type activities column includes deposits the Bank has for governmental activities. Because the Bank has a different fiscal year end, these internal balances do not equal.

STATE OF NORTH DAKOTA

B. INVESTMENTS

The investment policies of the State of North Dakota are governed by NDCC 6-09-07, 15-10-12, and 21-04-02, indicating that all public funds must be deposited in the Bank of North Dakota unless there are other constitutional or statutory provisions. If there are no statutory provisions and the funds are invested outside the Bank of North Dakota, the state agency must have the permission of the North Dakota Industrial Commission.

Investments are generally managed by the State Investment Board, the North Dakota Department of Trust Lands, the Bank of North Dakota, and the North Dakota State Treasurer's Office. Management responsibilities and investment instruments as authorized by statute are as follows:

1. State Investment Board (SIB) – NDCC 21-10 designates the SIB with investment responsibilities for the Public Employees' Retirement System, Bonding Fund, Teachers' Fund for Retirement, Fire and Tornado Fund, Workforce Safety & Insurance Fund, and other specific funds. The Century Code states the SIB shall apply the prudent investor rule in investing funds under its supervision. The retirement funds belonging to the teachers' fund for retirement and the public employees' retirement system must be invested exclusively for the benefit of their members and in accordance with the respective funds' investment goals and objectives.

The State Investment Board's investment policy allows investment managers to use derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments. The SIB had four types of derivative securities at June 30, 2020: futures, options, swaps and currency forwards.

2. North Dakota Department of Trust Lands – The Century Code states that the Department of Trust Lands shall apply the prudent investor rule in investing its funds. The investment policies of the Board allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative investments.
3. The Bank of North Dakota – NDCC 6-09 authorizes the Bank of North Dakota. The Bank is owned and operated by the State of North Dakota under the supervision of the North Dakota Industrial Commission. The Bank may have investments in anything that any bank lawfully may do, except what is restricted by NDCC 6-09.
4. The North Dakota State Treasurer's Office – The North Dakota Constitution and various sections of the Century Code authorize the State Treasurer to invest all State funds deposited with the State Treasury. However, the State Treasurer must invest the public funds with the Bank of North Dakota unless there is statutory authority to do otherwise. Generally, the State Treasurer pools deposits and invests in money market accounts and Bank of North Dakota certificates of deposit.
5. University System – NDCC 15-55-05 and 15-55-06 govern the investment of proceeds of revenue bonds and revenues pledged to bondholders. Such proceeds must be invested in the Bank of North Dakota, in a separate fund in the State Treasury or in a duly authorized depository for the state funds that is a member of the federal deposit insurance corporation. The University System may invest such funds in direct obligation of, or in obligations where the United States of America guarantees the principal and interest, or obligations of the State of North Dakota or any municipality as defined in NDCC Section 21-03-01.

Agency investments, of the primary government, under management of the State Investment Board are included below with the Pension and Investment Trust funds.

STATE OF NORTH DAKOTA

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The price of a debt security typically moves in the opposite direction of the change in interest rates. The State does not have a formal investment policy that limits investment maturities as a means of managing its exposure to potential fair value losses arising from future changes in interest rates. However, North Dakota Housing Finance's respective bond resolutions permit only investments that will not adversely affect the rating quality of the outstanding bonds. Also, the maturity date or the date on which such investment obligations may be redeemed shall coincide as nearly as practicable with the date or dates on which moneys in the funds or accounts for which the investments were made will be required. The Bank of North Dakota's investment policy provides for a duration range of one to four years, which will serve to decrease interest rate risk.

At June 30, 2020, the following tables show the debt securities of the primary government and major component units by investment type and maturity (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

Investment Type	Total Fair Value	Less Than 1 Year	1 - 6 Years	6 - 10 Years	More Than 10 Years
Asset Backed Securities	\$ 589,018	\$ 104	\$ 122,916	\$ 224,913	\$ 241,085
Collateralized Bonds	4,629	-	-	217	4,412
Commercial Mortgage-Backed	1,469,713	2,588	1,147,870	9,476	309,779
Commercial Paper	33,978	33,978	-	-	-
Corporate Bonds	2,594,421	77,669	1,506,387	519,710	490,655
Corporate Convertible Bonds	10,372	-	4,709	1,825	3,838
Government Agencies	1,325,176	2,104	1,123,729	14,240	185,103
Government Bonds	744,158	8,206	225,629	260,951	249,372
Government Issued CMB	62,317	-	7,526	36,243	18,548
Government Mortgage-Backed	1,038,933	6	6,682	40,851	991,394
Index-Linked Government Bonds	741,322	-	273,179	235,025	233,118
Municipal/Provincial Bonds	74,929	3,299	39,190	6,448	25,992
Non-Government-Backed CMOs	154,304	-	2,745	7,555	144,004
Short Term Bills and Notes	83,048	83,048	-	-	-
Pooled Investments	1,562,242	27,553	1,029,329	253,684	251,676
Total Debt Securities	<u>\$ 10,488,560</u>	<u>\$ 238,555</u>	<u>\$ 5,489,891</u>	<u>\$ 1,611,138</u>	<u>\$ 3,148,976</u>

Major Component Units

Investment Type	Total Fair Value	Less Than 1 Year	1 - 6 Years	6 - 10 Years	More Than 10 Years
Commercial Paper	\$ 4,799	\$ 4,799	\$ -	\$ -	\$ -
Corporate Notes	17,868	13,321	4,547	-	-
Government Agencies	8,445	4,871	3,574	-	-
Government Bonds	30,239	15,614	14,625	-	-
Short Term Bills and Notes	11,916	11,916	-	-	-
Total Debt Securities	<u>\$ 73,267</u>	<u>\$ 50,521</u>	<u>\$ 22,746</u>	<u>\$ -</u>	<u>\$ -</u>

The fair values of inflation indexed bonds are reflected in the tables above, based on their stated maturity dates. The principal balances of these bonds are adjusted every six months based on the inflation index for that period.

Some investments are more sensitive to interest rate changes than others. Variable and floating rate collateralized mortgage obligations (CMO's), asset-backed securities (ABS), interest-only and principal-only securities are examples of investments whose fair values may be highly sensitive to interest rate changes.

Interest-only (IO) and principal-only (PO) strips are transactions which involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors, which may result from a decline in interest rates. The State held no PO's and held IOs valued at \$24.4 million. The State has no policy regarding IO or PO strips.

STATE OF NORTH DAKOTA

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The State does not have an investment policy that specifically addresses concentrations of credit risk in a single issuer, however the Bank of North Dakota has established asset allocation ranges for investments as a percentage of their total portfolio.

The Bank of North Dakota had the following concentrations at June 30, 2020 (expressed in thousands):

	<u>Amount</u>	<u>Percent</u>
Federal Agency		
Federal Home Loan Bank	\$ 244,471	12.3%
Small Business Administration	221,472	11.2%
Farm Credit	346,450	17.5%
Freddie Mac	30,079	1.5%
Fannie Mae	65,192	3.3%
Mortgage-backed		
Fannie Mae	626,574	31.6%
Freddie Mac	391,742	19.8%
Others less than 5%	56,487	2.8%
	<u>\$ 1,982,467</u>	<u>100.0%</u>

CREDIT RISK

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The State maintains a highly diversified portfolio of debt securities encompassing a wide range of credit ratings. Although the State has no overall policy regarding credit risk, each debt securities manager is given a specific set of guidelines to invest within based on the mandate for which it was hired. The guidelines specify in which range of credit the manager may invest. These ranges include investment grade and below investment grade categories. The Bank of North Dakota's investment policy provides minimum credit quality ratings for its investments and asset allocation ranges for investments as a percentage of the total portfolio.

STATE OF NORTH DAKOTA

As of June 30, 2020, the following tables present the debt securities of the primary government and major component units and their respective ratings (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds) S&P Credit Rating*

	Total Fair Value	AAA	AA	A	BBB	BB	B	CCC	CC	C	D	Not Rated

*Ratings are determined in the following order: 1) S&P rating, 2) Moody's rating, 3) Fitch rating, 4) Manager-determined rating (internal rating) and 5) if no ratings are available using steps 1-4, then shown as not rated.

**US government agency securities explicitly guaranteed by the US government are categorized here. Credit ratings of US government agency securities that are only implicitly guaranteed by the US government are categorized accordingly in the main body of this table. Implicitly guaranteed agency securities included in the *Asset Backed, Commercial Mortgage Backed, Gov't Issued Commercial & Gov't Mortgage Backed, Gov't Agencies, Gov't Bonds, Index Linked Gov't Bonds and Short Term Bills and Notes* categories are issued by FNMA, FHLB, FHLMC, FAMC and TVA.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Although the State Investment Board does not have a formal investment policy governing foreign currency risk, the board does manage its exposure to fair value loss by requiring their international securities investment managers to maintain diversified portfolios to limit foreign currency and security risk. The Department of Trust Lands treats currency exposure in two different ways, depending on the type of investment. For the Board's international equity portfolio, the currency exposure is not hedged, as currency exposure is one of the items that adds diversity to the overall portfolio. For foreign bonds, the Board fully hedges the currency exposure, as the purpose of this portfolio is to generate more consistent returns.

STATE OF NORTH DAKOTA

At June 30, 2020, foreign currency risk exposure on investments managed by the Department of Trust Lands and State Investment Board were as follows (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

STATE OF NORTH DAKOTA

Derivative Securities – Derivatives are financial arrangements between two parties whose payments are based on, or “derived” from, the performance of some agreed upon benchmark. The investment policies of the States’ clients allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative instruments. The fair value of all derivative securities is reported in the Statement of Net Position. At June 30, 2020, the State had four types of derivative securities: futures, options, swaps and currency forwards.

Futures – Futures represent commitments to purchase (asset) or sell (liability) securities at a future date and at a specific price. Futures contracts are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty risk. The net change in the futures contracts’ value is settled daily in cash with the exchanges. Net gains or losses resulting from the daily settlements are included in net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$65.4 million for the year ended June 30, 2020. At June 30, 2020, the State investment portfolio had the notional futures shown below (expressed in thousands).

Futures	Notional Value
Cash and cash equivalent derivative futures	
Long	\$ -
Short	(258,482)
Equity derivative futures	
Long	1,064,665
Short	-
Fixed income derivative futures	
Long	262,374
Short	(1,703,654)
Total futures	<u>\$ (635,097)</u>

Options – Options represent or give buyers the right, but not the obligation, to buy (call) or sell (put) an asset at a preset price over a specified period. Options are traded on organized exchanges (exchange traded) thereby minimizing the States’ counterparty credit risk. The option’s price is usually a small percentage of the underlying asset’s value. As a seller of a financial option, the State, through its investment manager, receives a premium at the beginning of the agreement and bears the risk of an unfavorable change in the price of the financial instrument underlying the option. As a buyer of a financial option, the State, through its investment manager, pays a premium at the beginning of the agreement and the counterparty bears the risk of an unfavorable change in the price of the financial instrument underlying the option. Gains and losses on options are determined based on fair values and recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$5.3 million. At June 30, 2020, the State had the following option balances (expressed in thousands):

Options	Fair Value
Cash & Other Options	
Call	\$ 201
Put	537
Fixed Income Options	
Call	(146)
Put	(70)
Total options	<u>\$ 522</u>

Swaps – A swap is a derivative in which counterparties exchange certain benefits of one party’s financial instrument for those of the other party’s financial instrument. Specifically, the two counterparties agree to exchange one stream of cash flows for another stream. The State, through its investment managers, has entered into various swap agreements in an attempt to manage its exposure to interest rate, inflation, credit, currency risk and total return.

Gains and losses on swaps are determined based on fair values and are recorded with the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$(22.5) million for the year ended June 30, 2020. The maximum loss that would be recognized at June 30, 2020, if all counterparties failed to perform as contracted is \$3.0 million. Swap fair values are determined by a third party pricing source.

STATE OF NORTH DAKOTA

At June 30, 2020, the States' investment portfolio had the swap fair value balances as shown below (expressed in thousands).

Credit Default Swaps

<u>Counterparty/Moody's Rating</u>	<u>Notional Amount</u>	<u>Expiration Date</u>	<u>Fair Value</u>
Bank of America / Aa2 (5 contracts)	\$ (3,730)	2021 - 2025	\$ (71)

Total Return Swaps

<u>Counterparty/Moody's Rating</u>	<u>Notional Amount</u>	<u>Expiration Date</u>	<u>Fair Value</u>
Credit Suisse International / A1 (2 contracts)	\$ 2,764	2041	\$ 2
Total Return Swaps	<u>\$ 2,764</u>		<u>\$ 2</u>

Currency Forwards – Currency forwards represent forward exchange contracts that are entered into in order to manage the exposure to changes in currency exchange rates on the currency denominated portfolio holdings. A forward exchange contract is a commitment to purchase (positive) or sell (negative) a currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts is included in the net change in fair value of investments in the Statement of Changes in Fiduciary Net Position and totaled \$2.0 million. At June 30, 2020, the States' investment portfolio included the currency forwards balances shown below (expressed in thousands).

<u>Currency</u>	<u>Cost</u>	<u>Purchases</u>	<u>Sales</u>	<u>Fair Value</u>
Australian dollar	\$ (722)	\$ -	\$ (722)	\$ (737)
Brazilian real	2	20	(18)	(2)

Total forwards subject to currency risk				<u>\$ (1,412)</u>

STATE OF NORTH DAKOTA

Derivative Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the value of an interest rate-based derivative investment. The State does not have a formal investment policy regarding such derivative investments. At June 30, 2020, the tables below show the States' derivative investments subject to interest rate risk (expressed in thousands).

	Total Notional Value	3 Months or Less	3 to 6 Months	6 to 12 Months	1-5 Years	Greater Than 5 Years
Futures- interest rate contracts	\$ (1,699,762)	\$ (265,954)	\$ (1,175,326)	\$ (86,077)	\$ (172,405)	\$ -
Margined Options - interest rate contracts	(3)	(3)	-	-	-	-

Mill and Elevator Derivative Financial Instruments – The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2020, and the changes in fair value of such derivative instruments for the year then ended as reported in the State's financial statements are \$735,025, classified as derivative instrument (one contract equals 5,000 bushels) and \$735,025, classified as deferred inflow of resources – accumulated increase in fair value of hedging derivatives. The fair value of the grain futures contracts was determined on the Minneapolis Grain Exchange. The margin requirement is \$0.60 per bushel, unless the market price changes the limit for two consecutive days, then the margin requirement is \$0.90 per bushel. The Mill has entered into futures contracts for spring wheat to lock in a price for a future delivery or settlement period. These contracts are entered into to protect the Mill against price fluctuation of the commodity. The price protection is needed to cover any long or short positions compared to flour sales. The table below shows the cost and market values of these spring wheat futures as of June 30, 2020.

Month	Number of Contracts	Average Cost	Fair Value	Average Cost	Market Value
Sept 2020	275	\$ 5.4175	\$ 5.2025	\$ 7,450,163	\$ 7,153,438
Dec 2020	319	5.5250	5.3350	8,816,463	8,509,325
Mar 2021	130	5.6424	5.4700	3,686,663	3,555,500
				<u>\$ 19,953,289</u>	<u>\$ 19,218,263</u>

The Mill is exposed to credit risk on hedging derivative instruments that are in asset positions. All grain futures trades are completed using two different national brokerage firms on the Minneapolis Grain Exchange. ADM Investor Services is rated A by the Standard & Poor's Rating Service. RJ O'Brien is a privately held business and is not rated by the Standard & Poor's Rating Service.

STATE OF NORTH DAKOTA

The Mill is exposed to rollover risk on grain futures trades whenever the hedge ratio (defined in aggregate of the size across all futures months relative to the underlying net cash position) does not equal 1.0. At June 30, 2020, the table below shows the hedge ratio by futures month going forward:

<u>Period</u>	<u>Hedge Ratio</u>
Sept 2020	1.0
Dec 2020	1.1
March 2021	1.0
Net Position	1.1

C. SECURITIES LENDING

The following represents the balances relating to the securities lending transactions at June 30, 2020 (expressed in thousands).

Primary Government (includes Pension and Investment Trust Funds)

<u>Securities Lent</u>	<u>Underlying Securities</u>	<u>Non-Cash Collateral Value</u>	<u>Cash Collateral Investment Value</u>
Lent for cash collateral:			
US agency securities	\$ 11,977	\$ 5,954	\$ 12,222

Global government fixed income securities	205	-	214
Global government securities	827	-	875
Global equities	29,051	116	31,010
Lent for non-cash collateral:			
Market value of securities on loan against non-cash collateral	145,780	121,679	-
Total	\$ 408,220	\$ 148,489	\$ 269,068

D. ENDOWMENT FUNDS

UNIVERSITY SYSTEMS

The endowment funds reported herein are institutional funds under the terms of the gift instrument and are not wholly expendable by the institution. NDCC Section 59-21, the Uniform Prudent Management of Institutional Funds Act (UPMIFA) applies to the investment of endowments governed by a gift instrument. NDUS SBHE policy 810 stipulates endowment funds shall be invested according to the intent of the donor provided such intent is consistent with applicable laws. Absent terms expressing donor intent in a gift instrument, NDUS institution officers initially shall deposit the funds in institution accounts at the Bank of North Dakota. Thereafter, the funds may be invested according to NDCC 59-21. Subject to the intent of the donor, NDUS institution officers are delegated authority to manage and invest these institutional funds as provided by UPMIFA. NDCC Section 59-21-02.5a(7) applies to standard of conduct in the administration of powers to make and retain investments. It states that in managing and investing an institutional fund, the needs of the institution and the fund to make distributions and to preserve capital must be considered. Given the flexibility in NDCC 59-21-02, institutions have differing policies with respect to spending investment income and net appreciation on endowment funds. For UND, distributions for spending endowments each year will be calculated once annually with the quarter ended December 31 unitized market value and is based on the set spending rate, currently four percent, applied to the average market value for the preceding twelve quarter average. All endowment in existence at December 31 for one year will receive a distribution spending allocation. The available amount will be forecast to UND for planning purposes by February 1, and these distributions will be available for spending in the upcoming fiscal year. NDSU determines the spending of endowment earnings based on an annual evaluation. WSC give departments authority to spend all investment income earned on the endowment funds.

STATE OF NORTH DAKOTA

Net appreciation on investments are available for expenditure and consist of the following at June 30, 2020:

		<u>Reflected in net position as:</u>	
North Dakota State University	\$ 294,201	Expendable scholarships & fellowships	
University of North Dakota	911,679	Non-expendable scholarships & fellowships	
Williston State College	<u>4,217</u>	Non-expendable scholarships & fellowships	
Total NDUS	<u>\$ 1,210,097</u>		

Endowment funds reported herein do not include the Federal Land Grant Fund held by the State Department of Trust Lands. The annual proceeds from assets held by the Commissioner of the State Department of Trust Lands and are deposited into each college/university's operating fund at the State Treasury and are used for current operating purposes. Bismarck State College, Lake Region State College and Williston State College do not participate in the proceeds allocated by the State Land Department. Total assets held by the State Land Department and proceeds for the fiscal year ended June 30, 2020 are approximately \$184.6 million and \$7.3 million respectively.

NORTH DAKOTA STATE FAIR FOUNDATION

The North Dakota State Fair Association Foundation had the following activity in their endowment as of September 30, 2019.

Beginning endowment	\$ 2,155,492
Endowment contributions	<u>-</u>
Ending endowment	<u>\$ 2,155,492</u>

F. REVERSE REPURCHASE AGREEMENTS

State statutes permit the State to enter into reverse repurchase agreements, that is, the sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the dealers a margin against a decline in fair value of the securities. All sales of investments under these agreements are for fixed terms. In investing the proceeds of these agreements, State policy is for the term to maturity of the investment to be the same as the term of the agreement. Such matching existed at year end. These agreements are secured by Fed book-entry securities held in the State's name. At June 30, 2020, the State had an average daily balance of \$3,000 of repurchase agreements with a 0.00% interest rate and a 3.04% weighted average interest rate paid during the year.

G. INTERFUND ACCOUNTS AND TRANSFERS

DUE FROM OTHER FUNDS/DUE TO OTHER FUNDS

Interfund balances at June 30, 2020, consist of the following (expressed in thousands):

Due To General Fund From:	
Federal Fund	\$ 61,866
State Fund	18,778
Bank of North Dakota	870
Nonmajor Enterprise Funds	24,888
All Others	223
Total Due To General Fund	<u>\$ 106,625</u>

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$15,302,692. This is not expected to be repaid within one year.

Due To Federal Fund From:		Due To State Fund From:	
General Fund	\$ 5,074	General Fund	\$ 4,170
State Fund	24,390	Federal Fund	16,456
All Others	191	Internal Service Funds	172
Total Due To Federal Fund	<u>\$ 29,655</u>	Nonmajor Enterprise Funds	634
		All Others	231
		Total Due To State Fund	<u>\$ 21,663</u>

STATE OF NORTH DAKOTA

Due To Internal Service Funds From:		Due To Bank of North Dakota From:	
General Fund	\$ 4,389	State Fund	\$ 13,752
State Fund	5,080	Nonmajor Enterprise Funds	56,223
University System	987	University System	2,231
Federal Fund	1,098	All Others	5
All Others	387	Total Due To Bank of North Dakota	<u>\$ 72,211</u>
	<u>\$ 11,941</u>		

Included in the Nonmajor Enterprise Funds amount is a loan to the Rebuilder's Loan Program for \$9,324,000, of which \$7,555,000 is not expected to be repaid within one year.

Due To University System From:	
General Fund	\$ 17,324
Federal Fund	4,206
State Fund	5,354
Bank of North Dakota	1,021
Building Authority	3,278
All Others	69
Total Due To University System	<u>\$ 31,252</u>

Due To All Other Funds From:	
All Other	<u>\$ 83,408</u>

Included in this category are all other enterprise funds and fiduciary funds.

These balances are a result of a time lag between the dates that (1) services are provided and goods received or reimbursable expenditures occur, (2) the payments are made, (3) the transactions are entered into the accounting system, and (4) because of transactions occurring between funds with a fiscal year other than June 30, 2020.

A reconciliation of Due From's and Due To's is presented below (expressed in thousands):

Due From's	\$ 356,755
General Fund/Bank of ND	159
Bank of ND/ Mill and Elevator	1,135
Bank of ND/Rebuilder's Loan	(2,972)
Bank of ND/University System	(1,077)
Bank of ND/Guaranteed Student Loan	1,092
Governmental Agencies/Bank of ND	2,126
Bank of ND/Enterprise Funds	2,079
Total Differences	<u>2,542</u>
Due To's	<u>\$ 359,297</u>

The previous table represents timing differences between agencies as a result of different fiscal year ends. Those agencies with a different fiscal year end include: Bank of North Dakota and the following Nonmajor Enterprise Funds: Guaranteed Student Loan, Beginning Farmer Revolving Loan and Community Water Facility Loan, all of which have a December year end and State Fair, which has a September year end.

STATE OF NORTH DAKOTA

INTERFUND TRANSFERS

A summary of interfund transfers for the fiscal year ended June 30, 2020, follows (expressed in thousands):

	General	Special Revenue Federal	Special Revenue State	Non-major Governmental	Bank of North Dakota	Housing Finance	University System	Workforce Safety & Insurance	Non-major Enterprise	Total
Transfers Out										
General	\$ -	\$ 263	\$ 10,883	\$ 1,800	\$ -	\$ -	\$ 399,511	\$ -	\$ 271	\$ 412,728
Special Revenue - Federal	5,128	-	43,285	286	-	-	671	161	-	49,531
Special Revenue - State	398,290	7	-	1,184	-	9	19,512	-	120,138	539,140
Non-major Governmental	1,082	-	1,084	-	-	-	-	-	-	2,166
Bank of North Dakota	35,000	-	16,753	-	-	-	200	-	12,800	64,753
Housing Finance	-	-	44	-	-	-	-	-	-	44
University System	-	-	-	2,940	-	-	-	-	85	3,025
Non-major Enterprise	9,524	-	3,404	-	2,700	-	-	-	-	15,628
Total	\$ 449,024	\$ 270	\$ 75,453	\$ 6,210	\$ 2,700	\$ 9	\$ 419,894	\$ 161	\$ 133,294	\$ 1,087,015

(Transfers In do not agree to the statements due to the timing differences noted below.)

Transfers are used for the following purposes:

- Move general fund appropriation amounts to certain agencies.
- Move revenues from the fund that statute requires to collect them to the fund authorized to spend them.
- Move certain excess revenues collected in other funds to the general fund.
- Move receipts restricted for debt service from the funds collected to the debt service funds as payments become due, and move capital project funds paying the construction costs.

For the year ended June 30, 2020, legislatively-mandated transfers were made to the general fund of \$4,100,000 from the State Lottery, \$5,423,841 from Mill and Elevator, \$5,247,806 from the Insurance Regulatory Trust Fund, \$8,600,000 from the Tax Relief fund, \$382,200,000 from Strategic Investment and Improvement Fund, \$70,000,000 from the Bank of North Dakota and \$7,754,324 from the Securities Department Special Fund.

A reconciliation of Transfers In and Transfers Out is presented below (expressed in thousands):

	\$ (1,146,702)
Differences:	
General Fund / Bank of North Dakota	35,000
Special Rev - Ag PACE / Bank of North Dakota	250
Special Rev - PACE / Bank of North Dakota	(1,450)
PACE / Beginning Farmer Revolving Loan	(1,200)
Special Revenue / Bank of North Dakota	7
Small Employer Loan Fund / Bank of North Dakota	20,000
Innovation Loan Fund / Bank of North Dakota	9,900
School Construction Assistance Loan Fund / Bank of North Dakota	(2,700)
Federal fund	(120)
Total Differences	59,687
Transfers Out	\$ (1,087,015)

STATE OF NORTH DAKOTA

The above timing differences of \$59,687,000 result from transactions between agencies that have different fiscal year ends. Those agencies with a different fiscal year end include: Bank of North Dakota, and Nonmajor Enterprise Fund Beginning Farmer Revolving Loan fund, both of which have a December year end. This difference is also the total net transfers on the Government-wide Statement of Activities.

H. CAPITAL ASSETS

*Interest expense related to capital asset debt was approximately \$20.5 million in fiscal year 2020, of which approximately \$5.2 million was capitalized and included in construction in progress.

STATE OF NORTH DAKOTA

I. OPERATING LEASES

PAYMENTS ON OPERATING LEASES

The State is obligated under certain leases accounted for as operating leases. Operating leases do not give rise to property rights or lease obligations, and therefore, the resulting expenditures are recognized as incurred. Lease expenditures for the year ended June 30, 2020, amounted to \$17.9 million for governmental activities and \$15.6 million for business-type activities.

Future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of June 30, 2020, for all fund types are as follows (expressed in thousands):

Year Ending June 30	Governmental Activities	Business-type Activities
2021	\$ 14,535	\$ 11,523
2022	6,280	7,639
2023	5,186	5,550
2024	3,363	2,987
2025	3,187	1,270
2026-2030	2,861	1,382
2031-2035	385	473
2036-2040	-	47
Total Minimum Lease Payments	<u>\$ 35,797</u>	<u>\$ 30,871</u>

J. CAPITAL LEASES

The State is obligated under certain leases accounted for as capital leases. In the government-wide and proprietary fund statements, capital assets and a corresponding liability are recorded at the inception of the lease. The liability is reduced by payments of principal, with a portion of the payment allocated to interest expense. For capital leases in governmental funds, other financing sources and expenditures are recorded at lease inception. Lease payments are recorded as debt service expenditures.

The schedule below lists the future minimum lease payments under these capital leases and the present value of the net minimum lease payments at June 30, 2020 (expressed in thousands):

Year Ending June 30	Governmental Activities	Business- type Activities	Major Component Units
2021	\$ 511	\$ 6,847	\$ 128
2022	190	6,607	128

2031-2035	-	9,583	446
2036-2040	-	2,648	-
2041-2045	-	1,609	-
2046-2050	-	1,866	-
2051-2055	-	838	-
Total Minimum Lease Payments	911	67,443	1723
Less: Amount Representing Interest	(77)	(15,781)	(470)
Present Value of Future Minimum Lease Payments	<u>\$ 834</u>	<u>\$ 51,662</u>	<u>\$ 1,253</u>

STATE OF NORTH DAKOTA

The historical costs of assets acquired under capital leases, and included as capital assets on the government-wide Statement of Net Position at June 30, 2020, is as follows (expressed in thousands):

	Governmental Activities	Business- Type Activities	Major Component Units
Infrastructure	\$ -	\$ 60	\$ -
Buildings	-	52,425	1,979
Intangibles	-	156	-
Equipment	2,415	16,050	-
Less: Accumulated Depreciation	(1,805)	(19,451)	(1,093)
Total	<u>\$ 610</u>	<u>\$ 49,240</u>	<u>\$ 886</u>

K. DEFERRED OUTFLOWS OF RESOURCES

FINANCIAL DERIVATIVE INSTRUMENT

The State enters into interest rate swap agreements to modify interest rates on certain liabilities. The fair values of both hedging derivatives and investment derivatives (if any) are presented on the Statement of Net Position, either as a derivative liability (negative fair value) or as a derivative asset (positive fair value). The change in the total fair value of derivatives that are determined to be effective hedges is recorded as a deferred inflow or outflow of resources on the Statement of Net Position. If a derivative were determined to be an ineffective hedge, it would be classified as an investment derivative, and the change in the total fair value would be presented as part of investment earnings.

DEFERRED LOSS ON BOND REFUNDING

A deferred charge on refunded debts results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

L. LONG-TERM DEBT

Debt authorized is generally limited by the state constitution. The Constitution of North Dakota provides that the State may issue or guarantee the payment of bonds, provided that all bonds in excess of \$2 million are: (1) secured by first mortgage upon property and no further indebtedness may be incurred by the State unless evidenced by a bond issue; (2) authorized by law; (3) for a certain purpose; (4) provisioned to pay the interest semiannually; and (5) the principal is paid within 30 years. Additionally, the law authorizing the bond issue must specifically appropriate the provisions to the payment of the principal and interest of the bond.

1. REVENUE BONDS

Bonds payable at June 30, 2020, consisted of bonds issued by the State and are accounted for by the respective state agencies in the government-wide financial statements that issued the bonds.

Current state statutes empower certain state agencies to issue bonds as part of their activities. This debt is not backed by the full faith and credit of the State of North Dakota. The principal and interest on such bonds shall be payable only from the applicable agency's program income.

Primary Government

Building Authority

The 2010 Series A and B, the 2012 Series A and the 2017 Series A bonds have interest payable semiannually on June 1 and December 1 of each year. The 2010 Series A bonds are subject to optional redemption in whole or in part. The 2010 Series B, the 2012 Series A and the 2017 Series A bonds are not subject to optional and/or extraordinary optional redemption prior to maturity upon the occurrence of certain events. The Building Authority issued 2020 Series A Facilities Improvement bonds which principal and interest are payable in semiannual payments. The Authority shall issue bonds to refund the note on or before maturity. All bonds are independently secured by the funds, certain mortgaged property, and all rights, titles, and interests of the Building Authority as lessor, including all basic rent payments, investment earnings on the funds and any other income derived by the Building Authority with respect to the lease. Total net revenue pledges for fiscal year 2020 were \$2.0 million. For fiscal year 2020, principal and interest paid by the Authority on the bonds was \$5.3 million. The total principal and interest remaining to be paid as of June 30, 2020, is \$23.1 million payable through December 2030.

STATE OF NORTH DAKOTA

The 2010 bond agreements require the establishment and maintenance of reserve funds to be used for debt service payments if amounts in the bond funds are insufficient to make payments. Fund are also required for any positive arbitration due to the Federal government.

Student Loan Trust

Interest is payable semiannually on June 1 and December 1 of each year. The 2004 Series A Bonds are variable rate bonds. The rate of interest is determined based on one-month LIBOR plus 0.7% . The maximum rate of interest is 12% per annum. Details of the terms and provisions of the variable rate bonds are outlined in Section 2.1 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution. Section 2.2 of the Fourth Supplemental Resolution to the State of North Dakota Student Loan Revenue Bonds First General Bond Resolution has deemed these to be Federally Taxable Bonds. The Series 2004 Bonds are subject to redemption prior to maturity at the option of the Commission from any source of funds, in whole or in part, on any date at a redemption price equal to 100% of the principal amount plus accrued interest to date of redemption.

The total principal and interest remaining to be paid on the outstanding bond is \$1 million payable through June 2029. For fiscal year 2020, revenue pledged and total principal and interest paid by Student Loan Trust were \$44,000 and \$25,000, respectively

Housing Finance

Housing Finance Bonds were issued to provide financing to purchase mortgage loans to finance multifamily housing projects. The bonds are the direct obligation of the Housing Finance Agency and are secured by the mortgage loans purchased under the applicable resolutions; the revenues, prepayments, insurance and foreclosure proceeds received related to the mortgage loans; and certain funds and accounts established pursuant to the applicable bond resolution.

Revenues Pledged – The agency has homeownership bonds outstanding in the amount of \$1.33 billion maturing at various times from July 1, 2020 through January 1, 2051. The bonds have been issued to provide financing to purchase mortgage loans. Annual principal and interest payments on the bonds are expected to require 98 percent of net revenues. Principal and interest paid for the current year and total customer net revenues were \$100.5 million and \$30.0 million, respectively. Bond principal was reduced through customer revenues and the refunding of older bonds with proceeds from new bond issues.

Pursuant to the Series Resolutions adopted to date and under the 1994 and 2009 General Resolutions, the revenues generated by the Program Loans (but not the Program Loans themselves) are pledged to secure the Bonds. The Agency is permitted by terms of the General Resolutions to issue Bonds and pledge Revenues pursuant to the Series Resolution which exceed the amount required to meet the obligations of that Series of Bonds. In such event, it is likely that any such Series of bonds would produce excess Revenues which could be available to redeem the related Series of bonds or any other Series of Bonds prior to the state maturities thereof.

University System

Revenue bonds are limited obligations of the University System. The principal and interest on the bonds are payable generally from the net income of specific auxiliary activities, designated student fees, interest subsidies and debt service reserve funds. These revenues are generally pledged to the payment of bonds in accordance with the specific terms of the specific indenture. Net pledged revenues for fiscal year 2020 were \$21.7 million. Principal and interest paid for the current fiscal year were \$21.7 million, with total remaining principal and interest of \$452.63 million payable through fiscal year 2047.

State Fair Association

Capital Financing Program Bonds Series 2015 – Interest is payable semi-annually on June 1 and December 1 of each year. The bonds maturing on June 1, 2029 are not subject to optional redemption prior to maturity except under extraordinary circumstances. The bonds are secured by the Association's net revenues and by the lodging tax proceeds from the City of Minot, North Dakota.

Major Component Units

Public Finance Authority

The bonds of the Public Finance Authority were issued to provide financing to purchase municipal securities in order to provide local political subdivisions with funds to finance local projects. The bonds are direct obligations of the Public Finance Authority and are secured by municipal securities purchased under the applicable resolutions, interest earnings and certain accounts established pursuant to the applicable bond resolutions. Net pledged revenues for fiscal year 2020

STATE OF NORTH DAKOTA

were \$27.0 million. Principal and interest paid for the current fiscal year were \$52.2 million, with total remaining principal and interest of \$684.2 million payable through June 2045.

Revenue Bonds outstanding (expressed in thousands):

Total Revenue Bonds Payable— Primary Government			<u>\$ 1,686,329</u>

¹⁾ Entire amount of bonds payable are not associated with capital assets of the State.

²⁾ At June 30, 2020, NDSU had pledged \$13.4 million of assets as collateral for bonds payable issued at the Research I and Research II buildings.

The MiSU and VCSU bonds as well as the BSC 2012 bond issue contain a provision that in the event of default, outstanding amounts become immediately due if the institutions are unable to make payment.

The MaSU, NDSCS, NDSU, UND and WSC bonds contain a provision that the bond owners or a court appointed trustee may pursue any available legal remedy.

The NDSU bonds payable to component units are payable through the monies received from the operating lease between the component unit and NDSU. In the event of NDSU's failure to pay the rent under the lease, the component unit may declare all rent due and payable for the remaining term of the lease, subject to available appropriations. The component unit may take possession of the facilities.

MiSU 2010 bond issue contains a provision that terminates the bond issue at a redemption price equal to 104 percent of the outstanding principal amount plus accrued interest upon the occurrence of one or more of the following events:

- Enactment of legislation or the adoption of final regulations that would deem or render the bonds not qualified for Build America Bonds.
- The federal government discontinues the Build America Bond program retroactively applied to bonds issued prior to determination
- A written opinion by bond counsel that the bonds aren't qualified Build America Bonds

- ¹⁾ These notes payable represent FHLB long-term advances. The advances must be secured by minimum qualifying collateral maintenance levels. Residential, student, agriculture and commercial loans with carrying values of \$1.36 billion are currently being used as security to meet these minimum levels.

Short Term Borrowings:

The Bank of North Dakota issued short-term debt to fund loans on a short-term basis.

The ND Housing Finance Agency maintains a collateral pledge agreement with the FHLB covering secured advances whereby the Agency has agreed to retain residential real estate loans and marketable securities, free of all other pledges, liens and encumbrances. The pledged loans and securities are discounted by FHLB when determining their borrowing capacity. The aggregate borrowing capacity of eligible collateral was approximately \$85.1 million as of June 30, 2020. In addition, borrowings are collateralized by \$46.8 million of loans receivable and \$147,000 of cash and investments. The Agency borrowed and paid back \$13.6 million during the year ended June 30, 2020.

Debt service requirements to maturity for notes payable for the fiscal years ending June 30 are summarized below (expressed in thousands):

3. CERTIFICATES OF PARTICIPATION

Primary Government

University System

On September 1, 2018, the University of North Dakota (UND) entered into a lease-purchase agreement with Johnson Controls PI Project Site Operations, LLC (Johnson Controls) to construct and operate a new steam plant and make other energy conservation improvements. To fund the project, UND issued Series 2018A and 2018B Certificates of Participation through Trust Agreement with the Bank of North Dakota, as the Trustee. The certificates are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

The Series 2018A certificates were issued at a par value of \$76.6 million, with a net premium of \$3.8 million. In fiscal year 2019, UND began making semi-annual interest-only payments through fiscal year 2040. The semi-annual interest-only payments in fiscal years 2019 and 2020 are for capitalized interest paid with bond proceeds. The first principal payment will be due in fiscal year 2041. The certificates mature in fiscal year 2057.

The Series 2018B certificates were issued at a par value of \$16.5 million, with no premium or original issue discount. In fiscal year 2019, UND began making semi-annual interest-only payments through fiscal year 2023. The semi-annual interest-only payments in fiscal years 2019 and 2020 are for capitalized interest paid with bond proceeds. The first principal payment will be due in 2024. The certificates mature in fiscal year 2041.

On August 22, 2019, Williston State College (WSC) entered into a lease-purchase agreement with Johnson Controls, Inc., to fund the costs of certain energy conservation improvements including, but not limited to, renovations to existing heating, ventilation, and air conditioning systems and controls, deferred maintenance improvements. To fund the project, WSC issued Series 2019 Certificates of Participation through the Bank of North Dakota. The certificates have interest rates ranging from 3.0 to 5.0 percent and are subject to annual appropriations by the North Dakota Legislature as part of the general operating appropriations.

The Series 2019 certificates were issued at a par value of \$7.4 million, with a net discount of \$78,000. In fiscal year 2020, WSC will make an interest only payment with semi-annual principal and interest payment beginning FY2021 through FY2048.

The following is a schedule of certificates of participation outstanding at June 30, 2020 (expressed in thousands):

STATE OF NORTH DAKOTA

Assets pledged as collateral totaled \$13.4 million for the year ended June 30, 2020.

* Bonds payable reductions include amortization of premium and discount of \$570,000.

**Included above are amounts classified as Due to Component Units in the Statement of Net Position for the University System as follows, expressed in the thousands.

	Business-Type Activities		Major Component Units	
	Total	Current	Total	Current
Notes Payable	\$ 105	\$ 57	\$ 14,333	\$ 816
Bonds Payable	16,730	1,800	47,501	6,236
Capital Leases Payable	15,861	1,348	1,253	68
Intergovernmental Payable	-	-	546	32
Total	\$ 32,696	\$ 3,205	\$ 63,633	\$ 7,152

Internal service funds predominately serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, internal service funds included in the above amounts consist of \$79,705 of capital leases payable, \$3,354,904 of compensated absences and \$8,685,091 of claims and judgments. In addition, payments on long term debt (notes payable, bonds payable and capital leases payable) for capital leases payable for internal service funds of \$17,148 is included above along with additions to capital leases for internal service funds of \$78,566.

Other governmental activities compensated absences generally have been liquidated by the General Fund (66.9%), the Highway Fund (13.1%), the Federal Fund (9.2%), and other various funds. Other governmental activities claims and judgments have all been liquidated by the Petroleum Release Compensation Fund.

The General Fund, federal fund, state fund, and internal service funds that account for the salaries, wages, and employer pension contributions of the related employees will liquidate the net pension and other post-employment benefit liabilities.

M. ARBITRAGE REBATE PAYABLE

Arbitrage as it applies to government financing refers to the ability of state governments to obtain funds at a tax-exempt rate of interest and to then invest those funds in investments which earn a higher yield, resulting in a profit to the issuer.

The arbitrage rebate rules require that any earnings from the investment of the tax-exempt bond proceeds which exceed the yield on the bonds be remitted to the federal government.

The State had no arbitrage rebate payable to the federal government as of June 30, 2020.

N. DEFERRED INFLOWS OF RESOURCES

GRANTS RECEIVED PRIOR TO TIME REQUIREMENTS

This amount represents unavailable revenue. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

INCREASE IN FAIR VALUE OF HEDGING DERIVATIVES

This amount represents the changes in fair value of futures.

O. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value measurements are used to record fair value adjustments to certain assets, deferred outflows of resources, liabilities and deferred inflows of resources to determine fair value disclosures.

FAIR VALUE HIERARCHY

In accordance with GASB Statement No. 72, assets, deferred outflows of resources, liabilities and deferred inflows of resources are grouped at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1: Valuation is based upon quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

STATE OF NORTH DAKOTA

Level 2: Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3: Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as practical expedient are not classified in the fair value hierarchy.

DETERMINATION OF FAIR VALUE

In accordance with GASB Statement No. 72, fair values are based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the State's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy.

The following is a description of the methodologies used for instruments measured at fair value.

Securities classified in Level 1 are valued using quoted prices in active markets for those securities. Securities classified in Level 2 and Level 3 are valued using methodologies such as various bid evaluations, market averages and other matrix pricing techniques as well as values derived from associated traded securities or last trade data. In instances where inputs used to measure fair value fall into different levels, the fair value is categorized based on the lowest level input that is significant to the valuation.

Investments valued at the net asset value (NAV) per share (or its equivalent) have been classified separately in the table below and include investments considered to be *alternative investments* as defined by the AICPA. The definition includes investments for which a readily determinable fair value does not exist (that is, investments not listed on national exchanges or over-the-counter markets, or for which quoted market prices are not available from sources such as financial publications, the exchanges, or NASDAQ). These types of investments can be held within any of the asset classes used by the State based on underlying portfolio holdings and analysis of risk and return relationships. These investments can be structured in different ways, including limited partnerships, limited liability companies, common trusts and mutual funds. Some are closed-ended with a specific life and capital commitment while others are open-ended with opportunity for ad hoc contributions or withdrawals and termination upon proper notice.

Commingled/Mutual Funds – These types of funds are generally open-ended funds and may be utilized in equities or fixed income asset classes. They are funds made up of underlying securities that have readily available fair values (publicly traded stocks or bonds). The State owns units of these funds rather than the individual securities. Contributions or withdrawals from these funds can be made as needed, generally with daily or monthly liquidity, with a notice period of one to fifteen days. Because they are liquid funds, there are no unfunded commitments for these types of investments.

Private Credit – These investments include loans to private companies, privately placed debt of public companies, or loans backed by real assets. Loan repayment can be derived from either cash flows from an operating company or cash flows generated by a physical or esoteric asset. Private debt is typically secured and has various protections/covenants in place. The debt is customized to the borrower's requirement, thus rendering it illiquid. The State includes these strategies within its global fixed income allocation through limited partnership-type structures. Private credit issuers may be investment grade but are typically below-investment grade and similar in some respect to the syndicated bank loan and high yield markets. The State employs two senior private debt funds, commonly referred to as direct lenders, which are structured as custom managed accounts that are not eligible for redemptions during remaining investment lives of 1 to 2 years, and the unfunded commitments totaled \$191.2 million as of June 30, 2020.

Private Equity - Private Equity investments are typically private interests in corporations across different areas of the capital structure and in different stages of the corporations' development via limited partnership vehicles. Private Equity investments are illiquid and long term in nature (10-12 years), typically held until maturity. Private Equity portfolios generally have a "J-Curve Effect" whereby there are low to negative returns in the initial years due to the payment of investment management fees and initial funding of investments made by the General Partner during a period when investments are typically carried at cost and returns have not been realized. To diversify the program, Private Equity investments are made across business cycles, vintage years, and different strategies. The State has a dedicated sub-asset class for private equity investments within its global equity allocation in the pension pool. The State does not the option to request redemptions from its private equity funds. The General Partner distributes earnings and proceeds from the sale of the underlying investments as transactions occur. The State has \$333.3 million in unfunded private equity commitments as of June 30, 2020.

STATE OF NORTH DAKOTA

Venture Capital – These include investments in companies in a range of stages of development from start-up/seed stage, early stage, and later/expansion stage. Investments are typically made in years one through six and returns typically occur in years four through ten.

Buyouts – These include investments in funds that seek out and purchase underperforming or undervalued companies in order to improve them and sell them or take them public many years later. These funds are also often involved in management buyouts, which are buyouts conducted by the management of the company being purchased, and they often play key roles in leveraged buyouts, which are buyouts that are funded with borrowed money.

Distressed Debt – These include investments in the debt instruments of companies which may be publicly traded or privately held that are financially distressed and are either in bankruptcy or likely candidates for bankruptcy. Typical holdings are senior and subordinated debt instruments, mortgages and bank loans. The State includes these types of investments in its private equity asset class. As of June 30, 2020, unfunded commitments in one of its two distressed debt funds totaled \$90.6 million. The fund is not eligible for redemptions. The other fund is eligible for redemptions with quarterly liquidity and 60 days notice, and has no unfunded commitment.

Mezzanine Debt – This strategy is a hybrid of debt and equity financing. It is basically debt capital that gives the lender the rights to convert to an ownership or equity interest in the company if the loan is not paid back in time and in full. It is generally subordinated to senior debt. The State utilizes this strategy, through a limited partnership structure, in its global fixed income allocation. The two funds in this category are not eligible for redemptions, have remaining lives of 1-4 years, and unfunded commitments of \$8.5 million as of June 30, 2020.

Equity Long/Short – This strategy is a combination of long and short positions, primarily in publicly traded equities. The State utilizes this strategy, through a limited partnership structure, with its global equity allocations. This is an open-ended fund with monthly liquidity with a notice period of 15 days. There was no unfunded commitment as of June 30, 2020.

Real Assets – These investments are intended to provide allocations to tangible assets that are expected to be inflation protected and provide performance above the inflation rate as indicated by the CPI. Investments are generally structured as limited partnerships or limited liability companies. Investments in Real Estate Assets include Real Estate, Timberland and Infrastructure, as discussed below.

Real Estate – includes investments in private vehicles through limited partnerships or commingled vehicles that have an ownership interest in direct real estate properties. The investment strategies may include “value added” strategies, which derive their return from both income and appreciation, “opportunistic”, which derive their return primarily through appreciation, and “alternative” which invest in less traditional types of property. Both domestic and international real estate funds are utilized. The State has a dedicated sub-asset class for these types of investments within global real assets. There are currently 9 different real estate funds in the portfolio. Four of those funds are open-ended vehicles that accept redemption requests quarterly with a 30-90 day notification period. Two of the four open-ended funds had unfunded commitments totaling \$45 million as of June 30, 2020. The remaining five funds are closed-ended limited partnerships that are not eligible for redemptions. Those five funds have a combined unfunded commitment of \$85.1 million as of June 30, 2020.

Timberland – includes investments in limited liability companies that have an ownership interest in properties where the value of the property is derived mainly from income-producing timber but also from the “higher and better use” value of the underlying land. The State includes these assets within its global real asset allocations. There are three funds in the portfolio and they have no unfunded commitments. The funds are not eligible for redemption other than distributions of income and/or proceeds as determined by the investment manager. The funds have remaining lives of 1-6 years.

Infrastructure – includes investments in limited partnerships that have an ownership interest in transportation assets such as toll roads, tunnels and bridges; and regulated assets such as electricity transmission, gas and oil distribution and wastewater collection. Other possible investments would include communication assets and social infrastructure. The State includes these assets within its global real assets allocations. The infrastructure investments in the portfolio as of June 30, 2020, include both open and closed-ended funds. The open-ended funds have no unfunded commitments and are eligible for redemptions quarterly with 90 days notice. There may be a 3-12 month queue for receiving redemptions. The closed-ended funds have unfunded commitments of \$116.3 million at June 30, 2020 and are not eligible for redemptions.

Interest Rate Swap Agreements – Fair values for interest rate swap agreements are based upon the settlement value adjusted by estimated nonperformance risk.

Derivative Instruments – Fair values of the grain future contracts are determined on the Minneapolis Grain Exchange.

STATE OF NORTH DAKOTA

Fair Value

The following table shows the fair value leveling of the State's assets and liabilities at June 30 (expressed in thousands).

NOTE 4 - NET POSITION

The government-wide Governmental Activities Statement of Net Position reports \$6,543,041,908 of restricted net position, of which \$1,002,448,576 is restricted by enabling legislation.

NOTE 5 - FUND BALANCE

The following table on the next page presents further display the fund balances by major purpose.

Included in the General Fund, unassigned fund balance is \$7,025,756,767 for the North Dakota Legacy Fund. The Legacy Fund was established with thirty percent of total revenue derived from taxes on oil and gas production or extraction. The principal and earnings of the Legacy Fund may not be spent until after June 30, 2017, and an expenditure of principal after that date requires a vote of at least two-thirds of the members elected of each house of the legislative assembly. No more than fifteen percent of the principal of the Legacy Fund can be expended during a biennium.

NOTE 6 - RETIREMENT SYSTEMS

A. DESCRIPTION OF PLANS

The State of North Dakota administers four major retirement systems: North Dakota Public Employees' Retirement System, North Dakota Highway Patrolmen's Retirement System, Retirement Plan for the Employees of Job Service North Dakota and the Teachers' Fund for Retirement. The State also administers the North Dakota Defined Contribution Retirement Plan, which was established January 1, 2000. Certain state employees may also participate in a privately administered retirement system: Teachers' Insurance Annuity Association. The following is a brief description of each plan. More detailed information can be found in the plan agreements and the related legislation.

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM (PERS)

The North Dakota Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan covering substantially all employees of the State of North Dakota, its agencies, and various participating political subdivisions (Main System). It also covers Supreme and District Court judges, the National Guard Security Officers and Firefighters, peace officers and correctional officers employed by political subdivisions and as of August 1, 2017, firefighters employed by participating political subdivisions. Effective August 1, 2015, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System. It is not subject to the provisions of the Employee Retirement Security Act of 1974. PERS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

At June 30, 2020, the number of participating political subdivisions in PERS was:

Cities	98
Counties	51
School Districts	129
Other	86
Total Participating Local Political Subdivisions	<u>364</u>

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of PERS. Benefit and contribution provisions are administered in accordance with chapter 54-52 of the North Dakota Century Code.

Responsibility for administration of the three defined benefit pension plans and the defined contribution plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; two members of the legislative assembly appointed by a chairman of the legislative management, three members elected by the active membership of the NDPERS system; and one member elected by the retired public employees.

The costs of administering the plan are financed through the contributions and investment earnings of each plan.

STATE OF NORTH DAKOTA

Benefits

Pension benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equals or exceeds 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The annual pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. For members hired on or after January 1, 2020 the annual pension benefit is equal to 1.75% of their average monthly salary, using the three highest periods of twelve consecutive months employed during the last one hundred eighty months of employment. The Plan permits early retirement at ages 55-64 with five or more years of service.

Supreme and district court judges are entitled to unreduced monthly pension benefits beginning at the normal retirement age (65) or Rule of 85. The monthly pension benefit for Supreme and district court judges is equal to a percentage of average monthly salary using the highest 36 consecutive months out of the last 180 months of service. The percentage is equal to 3.5% of final average monthly salary multiplied by the first 10 years of service, plus 2.80% of the average monthly salary times the second 10 years of service, plus 1.25% of average monthly salary times years of service in excess of 20 years. The judicial retirement formula is only applied to eligible judicial service. Non-judicial service benefits are calculated using the 2.00% multiplier. The plan permits early retirement at ages 55-64, with five or more years of service.

The monthly pension benefit for National Guard at normal retirement age (55). Effective August 1, 2015, the National Guard System will become part of the Law Enforcement System. Members of the Law Enforcement are entitled to unreduced monthly pension benefits at normal retirement age (55) or the rule of 85. The monthly pension benefit for the National Guard/Law Enforcement is equal to 2.00 percent of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 50-55 with three or more years of service for members.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the employee's accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active employee dies with less than three years of service for the Main System and Public Safety, or less than five years of service for Supreme and district court judges, a death benefit equal to the value of the employee's accumulated contributions, plus interest, is paid to the employee's beneficiary. If the employee has earned more than three years of service for the Main System and Public Safety, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the employee's accrued normal retirement benefit, or monthly payments in an amount equal to the employees' accrued 100% joint and survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the employee's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

For judges only who have earned five years of credited service, the death benefit is changed to the greater of (i) lump sum payment of accumulated contributions, and (ii) 100% of the member's accrued benefit (not reduced on account of age), payable for the spouse's lifetime.

Eligible members who become totally disabled after a minimum of 180 days of service receive monthly disability benefits that are equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for "disabled" is set by the Board in the North Dakota Administrative Code.

For Judges only, the disability benefit formula is changed to 70% of final average salary minus social security and workers compensation benefits.

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 65 or does not have three years of service for the Main System and National Guard/Law Enforcement, or five years of service for the Supreme and district court judges, credited for PERS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their

STATE OF NORTH DAKOTA

accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates are set by state statute and are a percentage of salaries and wages.

Members that made a qualifying election under Senate Bill 2015 to move from the Defined Contribution Plan back to the Defined Benefit Plan have a 2% increase on employee contributions. The 2019 Legislative Assembly passed legislation that ended the RHIC plan for new hires after January 1, 2020 and redirected the 1.14% RHIC employer contribution to the retirement account for both the PERS plan as well as the defined contribution plan.

Member contributions are set by state statute and are a percentage of salaries and wages. During the 1983-1985 biennium, the State implemented the employer pickup provision of the IRS code, whereby a portion or all of the required member contributions are made by the employer. The State is paying 4% of the full member contribution. Some of the political subdivisions are paying all or part of the member contributions. Employer contributions are set by statute except the contribution rates for the National Guard/Law Enforcement Plans which are set by the Board. Contribution rates are established as a percent of covered compensation as follows:

	<u>Member Contributions</u>	<u>Employer Contributions</u>
PERS		
Members first enrolled prior to 1/1/20	7.00%	7.12%
Members first enrolled after to 1/1/20	7.00%	8.26%
Members returning to the Defined Benefit Plan as a result of Senate Bill 2015	9.00%	7.12%
Judges Retirement System	8.00%	17.52%
Law Enforcement with previous service		
State – BCI Plan	6.00%	9.81%
State – National Guard	5.50%	9.81%
Political subdivisions	5.50%	9.81%
Law Enforcement without previous service	5.50%	7.93%

The member's account balance includes employee contributions, interest, and the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. Members of the Supreme and District Court Judges are not eligible to vest in the employer contributions if contributing to the deferred compensation plan.

The minimum monthly member contribution is \$25, and the maximum may not exceed certain parameters based upon years of service.

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

The North Dakota Highway Patrolmen's Retirement System is a single-employer defined benefit pension plan covering substantially all sworn officers of the Highway Patrol of the State of North Dakota. It is not subject to the provisions of the Employee Retirement Income Security Act of 1974. NDHPRS issues a publicly available financial report that may be obtained by writing to North Dakota Public Employees Retirement System, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

Administration

The North Dakota Retirement Board was created by the State Legislature and is the governing authority of NDHPRS. See PERS Administration note for composition of the Retirement Board. Benefit and contribution provisions are administered in accordance with chapter 39-03 of the North Dakota Century Code.

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

Benefits

Pension benefits are set by statute. The System has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Members are entitled to unreduced pension benefits upon attainment of age 55 and 10 years of eligible employment or when the sum of age and years of credited service equals or exceeds 80. The annual pension

STATE OF NORTH DAKOTA

benefit is equal to a percentage of average monthly salary using the highest 36 months out of the last 180 months of service. The percentage is equal to the sum of the first 25 years of service multiplied by 3.60% and 1.75% multiplied by years of service in excess of 25, if any. The plan permits early retirement at ages 50-54, with ten or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than 10 years of credited service, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than 10 years of credited service, the surviving spouse, if any, will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50 percent of the member's accrued normal retirement benefit. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to any designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days service receive monthly disability benefits that are up to 70 percent of their final average salary, reduced by workers compensation with a minimum benefit of \$100. To qualify under this section, the member must meet the criteria established by the Retirement Board for being totally disabled and apply for benefits within one year of termination.

Refunds of Member Contributions

Upon termination, if a member is not vested (is not 60 or does not have ten years of service credited for NDHPRS), they will receive the accumulated member contributions plus interest. If an employee has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated employee contribution and is subsequently re-employed, they have the option of repurchasing their prior service.

Contributions

Contribution rates for NDHPRS are set by state statute and are a percentage of covered compensation. The State is paying 4.0% of the member contribution. The member contribution rate is 13.3% and the employer rate is 19.7%.

RETIREMENT PLAN FOR THE EMPLOYEES OF JOB SERVICE NORTH DAKOTA (JSND)

The retirement plan for employees of Job Service North Dakota is a single-employer defined benefit public employee retirement plan administered by PERS. The plan is established under NDCC 52-11-01 with benefit provisions established through the plan document, as amended by the Board. This plan document, as amended, is authorized by the Plan Administrator, who is the Executive Director of the agency. JSND issues a publicly available financial report that may be obtained by writing to Job Service North Dakota, PO Box 5507, Bismarck, North Dakota 58506-5507.

Participation in the plan is limited to employees participating in the plan as of September 30, 1980.

Administration

On August 1, 2003, the administrative authority and the net position of the Retirement Plan for Employees of Job Service North Dakota were transferred from the agency to the Public Employees Retirement System Board. This action was based on the passage of House Bill 1064 by the Fifty-eighth Legislative Assembly of North Dakota. The Retirement Plan for Employees of Job Service has an Actuarial Valuation Report produced annually. Requests to obtain or review this report should be addressed to the Executive Director, NDCERS, 400 East Broadway, Suite 505, Bismarck, North Dakota 58501.

The costs of administering the plan are financed through the contributions and investment earnings of the plan.

STATE OF NORTH DAKOTA

Benefits

Benefits are established through the plan document, as amended by the Board. The System provides a post-retirement cost-of living adjustment each year based on the Consumer Price Index. Employees are entitled to annual pension benefits beginning at normal retirement age (65). Employees may elect optional retirement eligibility at age 62 with 5 years of credited service, at age 60 with 20 years of credited service, or at age 55 with 30 years of credited service. Pension benefits are calculated based on the final average earnings (basic monthly earnings averaged over the highest three consecutive years of basic earnings) of the employee multiplied by the sum of:

- 1.5% times years of credited service up to 5 plus;
- 1.75% times years of credited service between 6 and 10 plus;
- 2.0% times years of credited service in excess of 10.

Death and Disability Benefits

The plan provides retirement, disability and death benefits. If death of a participant occurs prior to their annuity starting date, the surviving spouse who has been married at least two years prior to the participant's death or, if married less than two years is a parent of a child of this marriage, then the spouse shall receive monthly benefits. The amount is the greater of the benefit had the participant retired on the day before they died and elected the Contingent Annuitant Option with 55% of their retirement benefit continued to their spouse or 55% of the smaller of 40% of the deceased participant's average monthly earnings or the deceased participant's normal retirement benefit obtained by increasing their credited service by the period of time between their date of death, and the date they would have attained age 60. Upon remarriage of the surviving spouse before age 60, the death benefit will cease.

If a participant becomes totally disabled, they will be eligible for a monthly disability benefit which shall be equal to the greater of 40% of the participant's average annual earnings or the accrued benefit determined as of their date of disability.

Refunds of Member Contributions

Upon termination, if a member of the JSND System terminates employment before retirement payments begin, participation in the retirement plan will cease. No further additions to retirement income will accrue on the member's behalf, and the member may be paid under one of the following options.

- The member may be paid an amount of retirement income with payments starting at Normal, Optional, or Early Retirement Date. The amount of that income will be equal to the amount provided under the formula according to the member's years of credited service and earnings.
- The member may receive a cash withdrawal benefit equal to the total of the member's contributions and employer contributions made on their behalf, plus 4 percent interest compounded annually. The member may elect this option at any time after withdrawal and before Normal, Optional, or Early Retirement Date, but such benefit shall be in place of all other benefits under the retirement benefits section.

Contributions

Member contributions are 3% and employer contributions are 4% of covered compensation. The funding policy of the plan provides for employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. Effective July 1, 1999, the "scheduled contribution" will be zero as long as the plan's actuarial value of assets exceeds the actuarial present value of projected benefits. The "scheduled contribution" and amortization will be determined when the plan is not in surplus and will be based on a funding policy adopted by the Employer.

TEACHERS' FUND FOR RETIREMENT (TFFR)

The North Dakota Teachers' Fund for Retirement is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Teachers' Fund for Retirement issues a publicly available financial report that may be obtained by writing to the Retirement and Investment Office, 3442 East Century Avenue, P.O. Box 7100, Bismarck, North Dakota 58507-7100.

STATE OF NORTH DAKOTA

At June 30, 2020, the number of participating employer units in TFFR was:

<u>Type</u>	<u>Number</u>
Public School Districts	174
County Superintendents	6
Special Education Units	20
Vocational Education	
Units	4
Other	9
Total	<u>213</u>

Administration

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contributions rates.

Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

Tier 1 Grandfathered – A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or the sum of age and years of service equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 1 Non-grandfathered – A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher, and the member has reached the age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55-64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Tier 2 – A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits

STATE OF NORTH DAKOTA

earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting twelve months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

Contributions

Member and employer contributions paid to TFFR are set by NDCC 15-39.1-09. Every eligible teacher in the state of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% or defer payment until eligible for pension benefits. A nonvested member who terminates covered employment must claim a refund of contributions paid before 70½%. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstance defined by state statute.

EMPLOYEE MEMBERSHIP DATA

The following table summarizes employee membership information by plan at the actuarial valuation date:

	PERS	NDHPRS	JSND	TFFR
Retirees and beneficiaries currently receiving benefits:	12,945	133	181	9,036
Terminated Employees:				
Vested	7,135	26	1	1,715
Nonvested	6,708	17	-	1,132
Active Employees:				
Vested	17,174	74	5	8,216
Nonvested	7,315	80	-	3,131
Total plan membership	<u>51,277</u>	<u>330</u>	<u>187</u>	<u>23,230</u>
Date of annual valuation	July 1, 2020	July 1, 2020	July 1, 2020	July 1, 2020

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

BASIS OF ACCOUNTING

The public employee retirement systems described above are considered part of the State of North Dakota's reporting entity and are included in the State's financial statements as pension trust funds. The financial statements of these systems are prepared using the accrual basis of accounting. Employee contributions are recognized as revenues in the period in which they are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

STATE OF NORTH DAKOTA

INVESTMENT POLICY

The System's Board is responsible for establishing the investment policy for the fund assets, which includes setting investment goals and specifying the percentage of assets to be invested in various types of investments for PERS, NDHPRS and JSND. The investment goals are viewed over the long term. The Board recognizes the plans' performance objectives, benefit projections, and capital market expectations when determining the asset allocation. The SIB is responsible for managing the System's investments in accordance with the investment policy.

The TFFR Board is responsible for establishing investment policy for the fund assets under NDCC 15-39.1-05.2. Benefit payments are projected to occur over a long period of time. This allows TFFR to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. This asset-liability analysis considers both sides of the plan balance sheet, utilizing both quantitative and qualitative inputs, in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting established impact of funded status and contribution rates.

The following was the asset allocation policy as of June 30, 2020:

	Target Allocation			
	PERS and NDHPRS	JSND	TFFR	RHIC*
Domestic equities	30.0%	6.0%	0.0%	39.0%
International equities	21.0%	14.0%	0.0%	21.0%
Private equity	7.0%	6.0%	0.0%	0.0%
Domestic fixed income	23.0%	74.0%	0.0%	40.0%
International fixed income	0.0%	0.0%	0.0%	0.0%
Global real assets	19.0%	0.0%	18.0%	0.0%
Global equity	0.0%	0.0%	58.0%	0.0%
Global fixed income	0.0%	0.0%	23.0%	0.0%
Cash equivalents	0.0%	0.0%	1.0%	0.0%
Total	100.00%	100.00%	100.00%	100.00%

*See note 7 for further details of the RHIC OPEB Plan.

INVESTMENT RATE OF RETURN

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan and OPEB plan investments, net of pension plan and OPEB plan investment expense, was as follows for June 30, 2020:

PERS	3.57%
NDHPRS	3.28%
JSND	3.09%
TFFR	3.37%
RHIC*	5.37%

*See note 7 for further details of the RHIC OPEB Plan.

METHOD USED TO VALUE INVESTMENTS

Investments are recorded at fair value determined by reference to published market data for publicly traded securities and through the use of independent valuation services and appraisals for other investments. The net increase in fair value of investments consists of the realized gains or losses and the unrealized increase or decrease in fair value of investments during the year. Realized gains and losses on sales of investments are computed based on the difference between the sales price and the original cost of the investment sold. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current fiscal year were included as a change in the fair value of investments reported in the prior year(s) and the current year. Unrealized gains and losses are computed based on changes in the fair value of investments between years. Security transactions are accounted for on a trade date basis. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date.

STATE OF NORTH DAKOTA

REALIZED GAINS AND LOSSES

Realized gains and losses on sales of investments are components of net change in fair value of investments and are computed as described in note 1. For the year ended June 30, 2020, the following are the net realized gains (losses):

PERS	\$59,815,789
NDHPRS	1,578,933
JSND	1,125,627
TFFR	50,611,877
Retiree Health Insurance Credit (RHIC)	9,822,393
Defined Contribution Plan	(5,049)
Deferred Compensation Plan	5,491,243

C. FUNDING STATUS AND PROGRESS

NET PENSION LIABILITY OF THE PLANS

The components of the net pension liability of the Plans at June 30, 2020 were as follows (expressed in thousands):

	<u>PERS</u>	<u>NDHPRS</u>	<u>JSND</u>	<u>TFFR</u>
Total pension liability	\$ 6,379,800	\$ 178,229	\$ 64,129	\$ 4,181,036
Plan fiduciary net position	<u>(3,154,351)</u>	<u>(82,185)</u>	<u>(95,251)</u>	<u>(2,650,532)</u>
Net pension liability (asset)	<u>\$ 3,225,449</u>	<u>\$ 96,044</u>	<u>\$ (31,122)</u>	<u>\$ 1,530,504</u>
Plan fiduciary net position as a percentage of the total pension liability	49.44%	46.11%	148.53%	63.40%

ACTUARIAL ASSUMPTIONS

PERS

The total pension liability was determined by an actuarial valuation as of July 1, 2020, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.25%

Salary Increase: 3.50% to 17.75% including inflation

Retirement Age: Age-based table of rates that specify to the type of eligible condition

Mortality Rates: Sex-distinct Pub-2010 tables for General Employees, with scaling based on actual experience. Respective corresponding tables were used for healthy retirees, disabled retirees and active members.

Other Notes: The interest rates on member contributions will decrease from 7.00% to 6.50% effective January 1, 2021.

The benefit accrual rate for members first enrolled on or after January 1, 2020 in the Main and Public Safety Systems is 1.75% (compared to 2.00% for members enrolled before January 1, 2020).

The investment return assumption was updated from 7.50% to 7.00% beginning with the actuarial valuation as of July 1, 2020. Other updates to actuarial assumptions since July 1, 2019 valuation include changes to mortality tables used for the valuation as well as changes to the rates on annual salary increase, separation for active membership, disability, and retirement. The actuary assumptions were based on an experience review for the period July 1, 2014 to July 1, 2019.

STATE OF NORTH DAKOTA

The employer rates to the System are the statutory/Board approved contribution rates of 7.12% of payroll for the Main System (8.26% for members enrolled on or after January 1, 2020), 17.52% for the Judges System, 9.81% for the Public Safety with prior Main System, and 7.93% for the Public Safety without prior Main System service System.

HPRS

The total pension liability was determined by an actuarial valuation as of July 1, 2020, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.25%

Salary Increase: Service-based table for members with less than five years of service and age-based table for members with more than five years of service.

Retirement Age: Age-based table of rates that specify to the type of eligible condition.

Mortality Rates: Pub 2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using MP-2019 scale.

Other Notes: There were no benefit changes during the year.

The assumptions were updated beginning with the actuarial valuation as of July 1, 2020 based on an experience study covering the period July 1, 2014 through July 1, 2019.

The employer rate to the System is the statutory contribution rate of 19.70% payroll.

JSND

The total pension liability was determined by an actuarial valuation as of July 1, 2020, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no assets smoothing)

Inflation: 2.25%

Salary Increase: 3.50%

Retirement Age: Age-based table of rates that specify to the type of eligible condition.

Investment Rate of Return: 4.25%

Cost of Living Adjustment: 2.25%

Mortality Rates: Pub-2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

Other Notes: There were no benefit changes during the year.

The assumptions were updated beginning with the actuarial valuation as of July 1, 2020 based on an experience study covering the period July 1, 2014 through July 1, 2019.

STATE OF NORTH DAKOTA

The System has assets in excess of the present value of future benefits. Therefore, no employer contributions are being made.

TFFR

The total pension liability was determined by an actuarial valuation as of July 1, 2020, using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: 5 year smoothed market

Inflation: 2.30%

Salary Increase (Payroll Growth): 3.80% - 14.80%; varying by service, including inflation and productivity.

Retirement Age: In the 2020 and 2015 valuations, rates of retirement were changed to better reflect anticipated future experience.

Investment Rate of Return: 7.75%, net of investments expense.

Cost of Living Adjustment: None

Mortality Rates: For the July 1, 2020, valuation, the post-retirement healthy mortality table was updated to 104% of the PubT-2010 Retiree table for retirees and to 95% of the PubT-2010 Contingent Survivor table for beneficiaries, both projected with generational improvement using Scale MP-2019. The disabled mortality was updated to the PubNS-2010 Non-Safety Disabled Mortality table projected with generational improvement using Scale MP-2019. The pre-retirement mortality table was updated to the Pub T-2010 Employee table projected with generational improvement using Scale MP-2019. The actuarial assumptions used were based on the results of an experience study dated March 19, 2020.

INVESTMENT RATE OF RETURN

The long-term expected rate of return on investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates to return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the pension plan's target asset allocation as of July 1, 2020 is summarized in the following tables:

<u>PERS and NDHPRS Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>JSND Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>TFFR Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	6.30%	Domestic equities	5.50%	Global equity	6.90%
International equity	6.85%	Core fixed income	7.00%	Global fixed income	1.30%
Private equity	9.75%	Limited duration fixed income	-0.34%	Global real assets	5.00%
Domestic fixed income	1.25%	Global equity	5.24%	Cash equivalents	0.00%
International fixed income	0.00%	Diversified short-term fixed income	-0.21%		
Global real assets	5.01%	Short-term corporate fixed income	-0.89%		
Cash equivalents	0.00%	US high yield	3.11%		
		Emerging market debt	5.26%		

DISCOUNT RATE

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and

STATE OF NORTH DAKOTA

investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 2.45%; and the resulting Single Discount Rate is 4.64%.

For HPRS, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 2.45%; and the resulting Single Discount Rate is 4.09%.

For JSND, the discount rate was 4.25% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2020 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions (for JSND it is assumed no future contribution will be made), the pension plans' fiduciary net position were projected to be available to make all projected future benefit payments for current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

For TFFR, the discount rate was 7.25% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates equal to those based on the July 1, 2020 Actuarial Valuation Reports. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions TFFR's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of July 1, 2020. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

SENSITIVITY OF NET PENSION LIABILITY

The following presents the net pension liability of the Plans as of June 30, 2020, calculated using the discount rate of 4.64% for PERS, 4.09% for NDHPRS, 4.25% for JSND and 7.25% for TFFR, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate

Net Pension Liability (Asset) As of June 30, 2020	1% Decrease (3.64%)	Current Discount Rate (4.64%)	1% Increase (5.64%)
PERS	\$ 4,199,073,080	\$ 3,225,449,178	\$ 2,429,510,424

Plan net pension liability (asset) as a percentage of covered employee payroll	-7443.56%	240.48%

*The 2020 information presented has a measurement date of June 30, 2019.

STATE OF NORTH DAKOTA

JOB SERVICE NORTH DAKOTA (JSND)

Net Pension Asset

At June 30, 2020, the State recorded a net pension asset of \$31,006,306 for all of the Job Service North Dakota pension plan. The net pension asset was measured as of June 30, 2019 and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2020 the State recognized pension expense of (\$115,473). At June 30, 2020 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -	\$ -	\$ -
Changes of assumptions	-	-	-	-
Net difference between projected and actual earnings on pension plan investments	953,488	-	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-	-	-
Employer contributions subsequent to the measurement date	-	-	-	-
Total	\$ 953,488	\$ -	\$ -	\$ -

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2021	\$ 760,767	\$ -
2022	412,451	-
2023	139,772	-
2024	(359,502)	-
Total	\$ 953,488	\$ -

Sensitivity of the State's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension asset calculated using the discount rate of 4.75 percent, as well as what the State's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (3.75 percent) or 1-percentage-point higher (5.75 percent) than the current rate:

	1% Decrease (3.75%)	Current Discount Rate (4.75%)	1% Increase (5.75%)
State's proportionate share of the net pension asset	\$ (24,292,823)	\$ (31,006,306)	\$ (36,982,989)

NORTH DAKOTA HIGHWAY PATROLMEN'S RETIREMENT SYSTEM (NDHPRS)

Net Pension Liability

At June 30, 2020, the State recorded a net pension liability of \$24,899,511 for all of the North Dakota Highway Patrolmen's Retirement System pension plan. The net pension liability was measured as of June 30, 2019 and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date.

STATE OF NORTH DAKOTA

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2020 the State recognized pension expense of \$5,175,123. At June 30, 2020 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 338,360	\$ (497,866)	\$ -	\$ -
Changes of assumptions	4,888,671	-	-	-
Net difference between projected and actual earnings on pension plan investments	482,560	-	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-	-	-
Employer contributions subsequent to the measurement date	2,174,943	-	-	-
Total	<u>\$ 7,884,534</u>	<u>\$ (497,866)</u>	<u>\$ -</u>	<u>\$ -</u>

\$2,174,943 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2021	\$ 1,868,778	\$ -
2022	893,493	-
2023	1,235,170	-
2024	841,261	-
2025	373,023	-
Total	<u>\$ 5,211,725</u>	<u>\$ -</u>

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
State's proportionate share of the net pension liability	\$ 38,662,943	\$ 24,899,511	\$ 13,491,914

E. COST SHARING EMPLOYER PENSION PLANS

NORTH DAKOTA PUBLIC EMPLOYEES' RETIREMENT SYSTEM

Proportionate Share of Net Pension Liability

The North Dakota Public Employees' Retirement System (PERS) provides retirement benefits to employees of the primary government and its discrete component units as well as to other political subdivision subdivisions (Main System). It also covers Supreme and district court judges, the National Guard Security Officers and Firefighters, and as of August 1, 2003,

STATE OF NORTH DAKOTA

peace officers and correctional officers employed by political subdivisions. Effective August 1, 2017, current and newly eligible members of the National Guard System were transferred to the Law Enforcement System.

At June 30, 2020, the State recorded a net pension liability of \$570,357,613 for all of the PERS system. The net pension liability was measured as of June 30, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2019 the State's proportion was 48.64006 percent, which is a decrease of 1.7386 percent from the prior year.

The State's discrete component unit, North Dakota Public Finance Authority, also participates in. At June 30, 2020, the discrete component units recorded a net pension liability of \$191,000 for all of the PERS system. The net pension liability was measured as of June 30, 2019 and the total pension liability and asset used to calculate the net pension liability was determined by an actuarial valuation as of that date. The discrete component units' proportion of the net pension liability was based on their share of covered payroll in the PERS pension plan relative to the covered payroll of all participating employers. At June 30, 2019 the discrete component unit's proportion was 0.0163 percent, which is a decrease of 0.0002 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2020 the State recognized pension expense of \$96,673,459 and the component unit recognized pension expense of \$33,000. At June 30, 2020 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 517,488	\$ (107,445,622)	\$ -	\$ (35,000)
Changes of assumptions	220,089,297	(190,130,988)	71,000	(61,000)
Net difference between projected and actual earnings on pension plan investments	10,456,445	-	3,000	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	8,438,589	(38,266,380)	1,000	(7,000)
Employer contributions subsequent to the measurement date	40,229,883	-	8,000	-
Total	<u>\$ 279,731,702</u>	<u>\$ (335,842,990)</u>	<u>\$ 83,000</u>	<u>\$ (103,000)</u>

\$40,229,883 and \$8,000 reported as deferred outflows of resources related to pensions resulting from State and component unit contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2021	\$ 10,405,080	\$ 4,000
2022	(2,736,072)	-
2023	(27,614,228)	(7,000)
2024	(58,297,057)	(18,000)
2025	(18,098,894)	(7,000)
Total	<u>\$ (96,341,171)</u>	<u>\$ (28,000)</u>

STATE OF NORTH DAKOTA

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
State's proportionate share of the net pension liability	\$ 827,189,964	\$ 570,357,613	\$ 354,495,803
Component's proportionate share of the net pension liability	274,000	191,000	121,000

NORTH DAKOTA TEACHERS' FUND FOR RETIREMENT

Proportionate Share of Net Pension Liability

The North Dakota Teachers' Fund for Retirement (TFFR) provides retirement benefits to North Dakota public teachers and certain other teachers who meet various requirements. At June 30, 2020, the State recorded a net pension liability of \$8,631,145 for all of the TFFR. The net pension liability was measured as of June 30, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on the State's share of covered payroll in the TFFR pension plan relative to the covered payroll of all participating employers. At June 30, 2019 the State's proportion was 0.6270 percent, which is a decrease of 0.0391 percent from the prior year.

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2020 the State recognized pension expense of \$946,221. At June 30, 2020 the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 12,325	\$ (311,502)	\$ -	\$ -
Changes of assumptions	306,765	-	-	-
Net difference between projected and actual earnings on pension plan investments	121,492	-	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	565,271	(832,549)	-	-
Employer contributions subsequent to the measurement date	534,961	-	-	-
Total	<u>\$ 1,540,814</u>	<u>\$ (1,144,051)</u>	<u>\$ -</u>	<u>\$ -</u>

\$534,961 reported as deferred outflows of resources related to pensions resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

	Primary Government	Component Units
2021	\$ 214,223	\$ -
2022	9,381	-
2023	(119,043)	-
2024	(54,068)	-
2025	(95,236)	-
Thereafter	(93,455)	-
Total	<u>\$ (138,198)</u>	<u>\$ -</u>

STATE OF NORTH DAKOTA

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the State's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
State's proportionate share of the net pension liability	\$ 11,656,448	\$ 8,631,145	\$ 6,117,040

F. PENSION SUMMARY

The following is a summary of the pension related items for all plans of the State as of and for the year ended June 30, 2020.

Pension Plan	Net Pension Asset	Deferred Outflows of Resources of Pension	Net Pension Liability	Deferred Inflows of Resources Pension	Pension Expense
Job Service ND	\$ 31,006,306	\$ 953,488	\$ -	\$ -	\$ (115,473)
ND Highway Patrolmen's Retirement System	-	7,884,534	24,899,511	497,866	5,175,123
ND Public Employees' Retirement System	-	279,731,702	570,357,613	335,842,990	96,673,459
ND Teachers' Fund for Retirement	-	1,540,814	8,631,145	1,144,051	946,221
Total	<u>\$ 31,006,306</u>	<u>\$ 290,110,538</u>	<u>\$ 603,888,269</u>	<u>\$ 337,484,907</u>	<u>\$ 102,679,330</u>

G. DEFINED CONTRIBUTION PLAN

The North Dakota Defined Contribution Retirement Plan was established on January 1, 2000, and is administered in accordance with chapter 54-52.6 of the North Dakota Century Code. The Defined Contribution Plan was available to state employees who are in positions not classified by the Human Resource Management Services division of the State of North Dakota. Employees under the judicial branch or the Board of Higher Education and State Institutional under jurisdiction of the Board of Higher Education are not eligible to participate in the plan. The 2013 Legislative Assembly passed legislation to expand eligibility to the plan to include all new state employees hired on or after October 1, 2013 through July 31, 2017. The Defined Contribution Plan had 93 participants as of June 30, 2020.

The administrative costs of the Defined Contribution Plan are funded by forfeitures of non-vested employee contributions and administrative fees charged to individual participant accounts.

Benefits

Benefits are set by statute. Members are entitled to their vested account balance. A participating member is immediately 100% vested in the employee's contributions. A participating member vests in the employer contributions made on the member's behalf as follows:

Upon completion of two years of service	50%
Upon completion of three years of service	75%
Upon completion of four years of service	100%

Members may elect to receive their account balance in a lump sum, lump sum direct rollover, or periodic distribution.

Death and Disability Benefits

Death and disability benefits are set by statute. Upon the death of a participating member or former participating member, the vested account balance of that deceased participant is available to the participant's designated beneficiary(ies). A member who becomes totally and permanently disabled while employed by the State is eligible to receive a distribution of the vested account balance. To qualify under this section, the member must meet the criteria established by the System for being totally disabled.

STATE OF NORTH DAKOTA

Contributions

Contributions are set by state statute and are a percentage of covered compensation. The State is paying 4% of the member contribution. The member contribution rate is 7.00% and the employer rate is 7.12% for members first enrolled prior to January 1, 2020. For members first enrolled after January 1, 2020 the member contribution rate is 7.00% and the employer rate is 8.26%. Pension expense totaled \$479,861 for the year ended June 30, 2020.

The Board, or vendors contracted by the Board, has exclusive authority to invest and manage the assets of the Defined Contribution Retirement Plan. State statute allows each participating employee to direct the investment of the individual's employer and employee contributions and earnings to one or more investment options within the available categories of investment as established by the Board.

H. TEACHERS' INSURANCE ANNUITY ASSOCIATION

The Teachers' Insurance and Annuity Association (TIAA-CREF), a privately-administered defined contribution retirement plan, provides individual retirement fund contracts for eligible employees as defined by the Board of Higher Education in its approved TIAA-CREF retirement resolution. Further information can be obtained by writing to TIAA-CREF, Denver Regional Office, 1700 Broadway, Suite 770, Denver, Colorado 80290 or by calling 800-842-2009.

All benefits vest immediately to the participant. The plan requires employee and employer contributions be based on a classification system and years of service based on the schedule shown below.

Employment Class	Years Of Service	By The Participant	By The Institution	Total
I and III	0 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
II	0 thru 2	3.50%	7.50%	11.00%
	3 thru 10	4.50%	12.50%	17.00%
	over 10	5.00%	13.00%	18.00%
IV	Closed to new participants	4.00%	12.00%	16.00%
President/Chancellor (additional employer contribution)	less than 3	0.00%	0.00%	0.00%
	3 to less than 6	0.00%	4.00%	4.00%
	6 and over	0.00%	8.00%	8.00%

Plan contributions are made on a tax-deferred basis in accordance with section 414(h)(2) of the Internal Revenue Code. All contributions are applied as premiums to retirement annuity contracts owned by the participant. The State has no further liability once annual contributions are made. The State contributed \$43.2 million to TIAA-CREF during the fiscal year ending June 30, 2020.

NOTE 7 - POST-RETIREMENT

A. RETIREE HEALTH INSURANCE CREDIT – PLAN INFORMATION

The Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer other post-employment plan, is administered by the North Dakota Retirement Board (the Board) to provide members that were first enrolled in the plan prior to January 1, 2020 and are receiving retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System and judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit will also be available to apply towards monthly premiums under the state dental, vision and long term care plan and any other health insurance. Effective August 1, 2019, the credit is expanded to also include any dental, vision, and long term care plan. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Regular employees hired under the Retirement Plan for Employees of Job Service North Dakota prior to October 1, 1980 are eligible to participate in the Retiree Health Insurance Credit Fund, a cost-sharing multiple-employer plan, as administered by the Public Employees Retirement Board. The retired employee is provided a credit toward their monthly health insurance premium under a qualifying plan based upon their years of credited service. In accordance with NDCC 54-52.1-03.2, Job Service North Dakota reimburses the Retiree Health Insurance Credit Fund monthly for credit received by members of the retirement plan established by Job Service North Dakota.

STATE OF NORTH DAKOTA

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

Employee membership is as follows:

Retirees receiving benefit	13,092
Active participants	<u>23,495</u>
Total Membership	<u><u>36,587</u></u>

OPEB Contributions

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "*prefunded credit applied*" on the Statement of Changes in Plan Net Position for the OPEB trust funds.

OPEB Benefits

Retiree health insurance credit benefits and death and disability benefits are set by state statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the Public Employees Retirement System, the Highway Patrolmen's Retirement System, or the Defined Contribution Retirement Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving the surviving spouse benefit of if the member selected a joint and survivor option are eligible to receive credit toward their monthly health insurance premium under the state health plan.

The benefits are equal to \$5.00 for each of the employee's , or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health benefit is also available for early retirement with reduced benefits.

Net OPEB Liability of the Plan

The components of the net OPEB liability of the plan at June 30, 2020 is as follows (expressed in thousands):

	<u>RHIC</u>
Total OPEB liability	\$ 229,741
Plan fiduciary net position	<u>(145,621)</u>
Net OPEB liability (asset)	<u>\$ 84,120</u>
RHIC fiduciary net position as a percentage of the total OPEB liability	63.38%

Actuarial Assumptions

Actuarial Cost Method: Entry Age Normal

Asset Valuation Method: Plan Fiduciary Net Position (Market value of assets, no asset smoothing)

RHIC Inflation: 2.25%

Salary Increase: Not applicable

Investment Rate of Return: 6.50%, net of investments expense, including inflation.

Mortality Rates: Pub-2010 Health Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

STATE OF NORTH DAKOTA

Other Notes: RHIC is for the most part a closed plan. There were no benefit changes during the year. The employer rate to the System is the statutory contribution rate of 1.14% of payroll.

Investment Rate of Return

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of RHIC investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2020 is summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Large Cap Domestic Equities	6.10%
Small Cap Domestic Equities	7.00%
International equities	6.45%
Core-Plus Fixed Income	1.15%

Discount Rate

The discount rate used to measure the total OPEB liability was 6.5%. The projection of cash flows used to determine the discount rate assumed plan member and statutory/Board approved employer contributions will be made at rates equal to those based on the July 1, 2020 PERS actuarial valuation reports. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of Net OPEB Liability

The following presents the net OPEB liability of the Plan as of June 30, 2020, calculated using the single discount rate of 6.50%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Net OPEB Liability (Asset) As of June 30, 2020	1% Decrease (5.50%)	Current Discount Rate (6.50%)	1% Increase (7.50%)
RHIC	\$ 110,324,972	\$ 84,119,757	\$ 61,959,773

The benefit provided by the North Dakota Retiree Health Insurance Credit Fund is a fixed dollar subsidy and is not affected by healthcare cost trend. Therefore, a healthcare trend rate was not performed.

B. RETIREE HEALTH INSURANCE CREDIT – STATE'S SHARE

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Proportionate Share of Net OPEB Liability

At June 30, 2020, the State reported a liability of \$39,178,151 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The State's proportion of the net OPEB liability was based on the State's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2019, the State's proportion was 49.7783 percent, which is a decrease of 0.9528 percent from the prior year.

STATE OF NORTH DAKOTA

Deferred Inflows and Outflows of Resources

For the year ended June 30, 2020 the State recognized OPEB expense of \$5,016,590. At June 30, 2020, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Primary Government		Discrete Component Units	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 967,707	\$ (1,223,546)	\$ -	\$ -
Changes of assumptions	4,668,419	-	-	-
Net difference between projected and actual earnings on OPEB plan investments	43,532	-	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	327,912	(2,085,828)	-	-
Employer contributions subsequent to the measurement date	6,469,810	-	-	-
Total	<u>\$ 12,477,380</u>	<u>\$ (3,309,374)</u>	<u>\$ -</u>	<u>\$ -</u>

\$6,469,810 reported as deferred outflows of resources related to OPEB resulting from State contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Year ended June 30:

	Primary Government	Component Units
2021	\$ 230,787	\$ -
2022	230,787	-
2023	331,497	-
2024	313,854	-
2025	705,441	-
Thereafter	885,830	-
Total	<u>\$ 2,698,196</u>	<u>\$ -</u>

Sensitivity of the State's Proportionate Share of the OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2020, calculated using the discount rate of 7.25%, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
State's proportionate share of the net OPEB liability	\$ 49,309,306	\$ 39,178,151	\$ 30,497,557

C. JOB SERVICE NORTH DAKOTA – MET LIFE INSURANCE BENEFIT

MET LIFE INSURANCE BENEFIT

Job Service North Dakota engaged an actuary to determine the Agency's liability for post-employment benefits other than pensions as of July 1, 2020. The actuary determined the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense the Agency has to record as of June 30, 2020. Requests to obtain or review the actuary report should be addressed to the Finance Manager – P.O. Box 5507 Bismarck, North Dakota, 58506-5507.

STATE OF NORTH DAKOTA

Plan Description

Job Service North Dakota employees who had a Met Life Insurance policy in effect on December 1, 1999, when the Met Life Insurance benefit plan, a single-employer plan, was discontinued for new employees, receive the following benefits: Job Service North Dakota pays 33% of the monthly Basic Met Life Insurance premium of current employees with a Met Life Insurance policy and upon retirement the employees Basic Met Life Insurance premiums are covered 100% by Job Service North Dakota. The Basic Life Insurance Benefits are equal to the employees' annual salary rounded up to the nearest thousand plus two thousand up to a maximum of \$45,000 and are decreased at a rate of 2% per month at age 65 until the benefit is 25% of the original amount but no less than \$10,000. The actuary report of the Met Life Insurance Benefit is the only financial report produced for this benefit and is available as indicated above. Job Service North Dakota has authority to change the funding and benefit policy of this plan.

Membership of the Other Post Retirement Benefit plan consisted of the following at July 1, 2020, the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	155
Terminated employees entitled to benefits but not yet receiving them	-
Current vested employees	5
Total	160

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The Employer reported a liability of \$1,265,603 at June 30, 2020 for its net OPEB liability. The net OPEB liability was measured as of July 1, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

For the year ended June 30, 2020, the Employer recognized OPEB expense of \$(108,390). The Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Changes of assumptions	-	-
Net difference between projected and actual earnings on OPEB plan investments	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-
Total	\$ -	\$ -

Actuarial Assumptions

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>July 1, 2020</u>
Inflation	none
Salary increases	5%
Discount rate	2.66% per annum

Mortality rates were based on the RP-2014 Total Dataset Mortality Table adjusted to based year 2006, projected with Scale MP-2019.

STATE OF NORTH DAKOTA

Sensitivity of the State's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2020, calculated using the discount rate of 2.66%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.66 percent) or 1-percentage-point higher (3.66 percent) than the current rate:

Net OPEB Liability As of June 30, 2020	1% Decrease (1.66%)	Current Discount Rate (2.66%)	1% Increase (3.66%)
Met Life	\$ 1,410,912	\$ 1,265,603	\$ 1,143,427

Schedule of Changes in Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Net Position (b)	Net OPEB Liability (a) - (b)
Balances at 6/30/19	<u>\$ 1,452,692</u>	<u>\$ -</u>	<u>\$ 1,452,692</u>
Changes for the Year:			
Service cost	821	-	821
Interest	36,570	-	36,570
Benefit changes	-	-	-
Experience losses (gains)	(192,150)	-	(192,150)
Changes of assumptions	46,369	-	46,369
Contributions - Employer		78,699	(78,699)
Benefits paid	(78,699)	(78,699)	-
Administrative expenses	-	-	-
Net changes	<u>(187,089)</u>	<u>-</u>	<u>(187,089)</u>
Balances at 6/30/20	<u>\$ 1,265,603</u>	<u>\$ -</u>	<u>\$ 1,265,603</u>

The plan provisions used in the measurement of the net OPEB liability are the same as those used in the Actuarial Valuation as of July 1, 2020.

D. OPEB SUMMARY

The following is a summary of the OPEB related items for all plans of the State as of and for the year ended June 30, 2020.

OPEB Plan	Deferred Outflows of Resources - OPEB	Net OPEB Liability	Deferred Inflows of Resources - OPEB	OPEB Expense
ND Public Employees' Retirement System	\$ 12,477,380	\$ 39,178,151	\$ 3,309,374	\$ 5,016,590
JSND Met Life Insurance Benefit	-	1,265,603	-	(108,390)
Total	<u>\$ 12,477,380</u>	<u>\$ 40,443,754</u>	<u>\$ 3,309,374</u>	<u>\$ 4,908,200</u>

STATE OF NORTH DAKOTA

NOTE 8 - DEFERRED COMPENSATION PLAN

The ND Public Employees Retirement System was given authority by Chapter 54-52.2 to administer an employee deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan allows employees of the State of North Dakota or any of its political subdivisions, institutions, departments, or agencies to participate, providing that the employee has signed a participation agreement, which permits them to defer a portion of their current salary until future years. Each participant may defer the lesser of \$19,500 or 100% of gross annual compensation for calendar year 2020. Participation in the plan is optional. The deferred compensation is not available to the employees until termination, retirement, death or unforeseeable emergency.

All compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights, are held in trust for the exclusive use of the employee or their beneficiary.

The minimum monthly member contribution to the deferred compensation plan is \$25 and the maximum vesting in the employer contributions ranges from 1% to 4% of the monthly salary, or \$25, depending the employees months of service.

The deferred compensation plan had 14,044 active participants as of June 30, 2020.

The related assets of the plan, held in trust, are reported at fair value as follows (expressed in thousands):

Plan Participation By:		
State of North Dakota	\$ 121,097	87%
Other Jurisdictions	<u>18,186</u>	<u>13%</u>
Total Value	<u>\$ 139,283</u>	<u>100%</u>

NOTE 9 - PERS UNIFORM GROUP INSURANCE PROGRAM

The PERS Uniform Group Insurance Program, an enterprise fund, contracts with Sanford Health Plan to provide health care insurance to the employees of the State of North Dakota, or any of its political subdivision, institutions, departments or agencies. The contract for the 2017-2019 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2017-2019 biennium will occur in 2021. In the event of a loss, the system does not have any risk. For this period premiums exceed claims, therefore, a gain of \$6.8 million will be returned to the system and is included as a receivable as of June 30, 2020.

The System again entered into a similar contract with Sanford Health Plan for the 2019-2021 biennium. The contract for the 2019-2021 biennium provides for an accounting of premiums paid and claims incurred during the biennium. The final gain or loss is determined two years after the end of the biennium, which for the 2019-2021 biennium will occur in 2023. In the event of a loss, the system does not have any risk. No other insurance contracts have a gain sharing provision.

STATE OF NORTH DAKOTA

NOTE 10 - SEGMENT INFORMATION

North Dakota Housing Finance Agency maintains two separate funds which account for general agency operations and provide loans to finance construction of rental residential housing and single-family ownership. The two funds are accounted for in a single fund, but investors in home ownership bonds rely solely on the revenue generated by the mortgage loans and assets acquired for repayment. Segment information for the year ended June 30, 2020, was as follows (expressed in thousands):

	Home-Ownership Bond Funds
Condensed Statement of Net Position	
Current assets – other	\$ 266,052
Noncurrent assets – other	1,295,238
Total Assets	1,561,290
Deferred outflow of resources	16,132
Current liabilities – other	65,541
Noncurrent liabilities – other	1,315,440
Total Liabilities	1,380,981
Net position – restricted	196,441
Total Net Position	\$ 196,441

Cash and cash equivalents, beginning of year	213,726
Cash and cash equivalents, end of year	\$ 216,924

NOTE 11 - MAJOR COMPONENT UNIT TRANSACTIONS

BISMARCK STATE COLLEGE AND BISMARCK STATE COLLEGE FOUNDATION

On January 25, 2007, BSC and BSC Foundation entered into a 15-year lease agreement to facilitate the construction of a Mechanical Maintenance building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$1.4 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100. On August 15, 2013, an addendum was made to the lease agreement to facilitate an addition to the facility.

On October 19, 2007, BSC and BSC Foundation entered into a 25-year lease agreement to facilitate the construction of the National Energy Center of Excellence building. Under the agreement, BSC is responsible for payment of all rent, maintenance, and repair of the facility, maintenance of all insurance required under the lease, and restrictions of use of the facility as set forth in the lease. The amount of the rent is tied to the \$5.0 million debt service retirement. Upon payment of all the bonds, BSC will have the option to purchase the premises for \$100.

STATE OF NORTH DAKOTA

BSC Foundation's financial statements include these transactions as a receivable from BSC and a long-term liability. BSC's financial statements include the capitalized asset and a long-term liability due to BSC Foundation.

	BSC	BSC Foundation
NECE Building	\$ 9,548,989	\$ 10,846,116
Accumulated Depreciation	(2,552,561)	(3,198,124)
Net Value of NECE Building	<u>\$ 6,996,428</u>	<u>\$ 7,647,992</u>

On September 26, 2014, BSC and Student Housing, LLC (a wholly owned subsidiary of BSC Foundation) entered into a 30-year Ground Lease to facilitate the construction and development of a student apartment housing complex on approximately 4.67 acres of land owned by BSC. Under the agreement, BSC would enter into a separate operating and lease agreement with LLC for the constructed student housing apartment complex for use as a College student housing facility. There are no separate rent payments to be paid by LLC during the term of the Ground Lease agreement in exchange for use of the land.

On October 14, 2014, BSC and Student Housing, LLC (a wholly owned subsidiary of BSC Foundation) entered into a Memorandum of Understanding (MOU) which sets forth the essential terms of an Apartment Master Lease agreement to be entered into between LLC and BSC, under which LLC will lease to BSC space in the student housing complex to be constructed by LLC on BSC property according to the terms and conditions of the Ground Lease. The 5-year renewable Apartment Master Lease Agreement will address quarterly rent payments by BSC and responsibilities for maintenance, repairs and insurance of the facilities and improvements during the term of the lease.

On August 13, 2015, BSC and Student Housing, LLC entered into a 5-year lease agreement to operate student housing services in the two newly constructed housing units (Ritchie Hall and Gate City Bank Hall). Under the agreement, BSC is responsible for payment of all rent, maintenance, and daily repair/maintenance of the facility, and restrictions of use of the facility as set forth in the lease. Student Housing, LLC is responsible for major repairs/maintenance and property and liability insurance on the facilities. The lease is classified as an operating lease on BSC financial statements and Student Housing, LLC financial statements includes the capitalized asset.

In fiscal year 2019, BSC purchased a building located in Bismarck, North Dakota from the BSC foundation for \$8.2 million. The building will house the BSC nursing school.

As of July 1, 2018, the BSC Foundation gained control of the Bismarck State College National Alumni Association. The BSC Alumni Association financial statements are included in the consolidated financial statements of the Major University System Foundation component units. The change in reporting entity has been applied retroactively to the July 1, 2018 beginning net assets.

DICKINSON STATE UNIVERSITY AND DICKINSON STATE UNIVERSITY FOUNDATION

Arbitration - The Dickinson State University Foundation (DSUF) has ownership interest and/or management responsibilities in various real estate projects by way of its membership in Dickinson Investments, LLC (Dickinson Investments) and other entities. DSUF is involved in a dispute with another member of Dickinson Investments, Granville Brinkman and other Brinkman entities (Respondent). An arbitration claim was filed on December 26, 2013. On September 30, 2014, the arbitrator awarded the Respondent a buy-out of their equity interest in the amount of \$1.260 million. The Respondent was also awarded repayment of a note, prejudgment interest and attorneys' fees and costs. DSUF and Dickinson Investments are jointly and severally liable for the buyout amount.

On October 28, 2014, the arbitrator issued a final arbitration award and ordered:

- prejudgment interest at 6% would commence December 26, 2013,
- the amount of attorney fees and costs to be repaid was \$233,420,
- the note prepayment amount was \$133,600
- the parties shared responsibility for arbitration fees and expenses totaling \$67,620.

The final award exceeds \$1.7 million. Although DSUF has an equity interest of about 6 percent in Dickinson Investments, the arbitrator has ruled that it is jointly and severally liable for the entire award, except the \$133,600 loan for which Dickinson Investments is responsible.

Receivership - At the request of the NDUS Chancellor, on November 21, 2014, the North Dakota Attorney General petitioned the state district court for the appointment of a receiver. On December 3, 2014, the court appointed a receiver for DSUF. The court order included the following directives:

STATE OF NORTH DAKOTA

- The receiver shall take immediate possession, custody, and control of all assets owned or held by DSUF;
- The DSUF board of directors shall be temporarily suspended and have no authority to act on behalf of DSUF;
- The receiver shall gather, protect and oversee DSUF's corporate and charitable assets;
- The receiver shall report to the court; and
- The receiver shall have all the authority necessary to continue the day-to-day activities of the DSUF.

The receiver filed interim reports on a regular basis through September 2016. In the seventh interim report, dated August 31, 2015, the receiver recommended that DSUF be dissolved. This recommendation was based on an inability to negotiate a mutually acceptable settlement of the outstanding Brinkman judgment against DSUF. The report indicates that dissolution should foremost prioritize DSUF obligations to honor restrictions placed on DSUF assets by donors, then address claims made by creditors, employees, and other interested parties. However, DSUF accounting reports indicated that the foundation had total net restricted assets in an amount less than total permanently and temporarily restricted donations.

The Office of Attorney General requested the commencement of dissolution for DSUF. On August 30, 2017, Stark County District Court Judge William Herauf issued an Order that, in part, approved a settlement reached between the Attorney General and the DSUF's major creditors. The Order also resolved all claims against the DSUF, allowing for the distribution of assets and final closure of the issues surrounding the DSUF.

On June 20, 2017, a settlement agreement was signed by the SBHE, DSU and five financial institutions whereby an amount of \$3.1 million will be paid to the financial institutions to repay the outstanding debt related to the Biesiot Activities Center. The 2017 North Dakota Legislative Assembly provided an appropriation to Dickinson State University for the settlement amount. The settlement was paid in July 2017 consistent with the terms of the settlement agreement.

DSUF's Restated Articles of Incorporation state that upon dissolution, remaining assets shall be distributed to the SBHE for the exclusive use and benefit of the Dickinson State University or its direct successors in interest. The receiver recommended that all remaining net assets of DSUF be directed to be turned over to a new 501(c)(3) tax-exempt Foundation in keeping with DSUF's Restated Articles of Incorporation.

There is a cash reserve account remaining in excess of \$300,000 pending the outcomes of resolving claims from the U.S. Internal Revenue Service relating to Charitable Remainder Trusts. All tax returns have been filed by the court appointed Receiver. The U.S. Internal Revenue Service has approved one of the returns and the remainder of the returns are pending review. Once all returns are approved, any remaining cash will be distributed to the DSU Heritage Foundation and a final Receiver's report will be filed to obtain Court approval of the final distribution and closing the receivership dissolution action.

The receivership was closed effective August 6, 2020 through the Court's approval of the Final Receiver's report. The final tax returns have been filed and final fees were paid. The final check was issued to the Dickinson State University Heritage Foundation on August 7, 2020 in the amount of \$337,402. The Receiver has been discharged and the case was closed by the Stark County District Court.

Financial Audit

In fiscal year 2013, The DSUF's independent auditors issued a qualified opinion on the DSUF financial statements because they were unable to form an opinion regarding the proper amount and classification of unrestricted and temporarily restricted net assets. In fiscal year 2014, the DSUF's independent auditors were unable to issue an audit opinion on the DSUF financial statements as a result of the aforementioned arbitration and the overall condition of the DSUF financial records. An audit has not performed since fiscal year 2014.

Additionally, it has been reported that DSUF may have used endowment funds as collateral to obtain financing and to meet monthly operating expenses of the foundation and one of its real estate projects.

NORTH DAKOTA STATE UNIVERSITY AND NDSU RESEARCH AND TECHNOLOGY PARK, INC.

On December 30, 1999, North Dakota State University (NDSU), through the State of North Dakota and North Dakota State Board of Higher Education, entered into a ground lease, whereby the NDSU Research and Technology Park (RTP), Inc. (component unit) leases 40 acres of land for \$1 per year for the next seventy-five years.

On July 1, 2002, NDSU and the RTP entered into an agreement for cooperation and assistance between entities. The agreement is an annual agreement, which automatically extends for one-year periods unless cancelled by either party to the agreement.

During fiscal year 2017, NDSU and the RTP entered into renewed agreements, whereby NDSU leases the Research Buildings #1 and #2 through June 30, 2032. During fiscal year 2020, total annual rent of \$312,000 was paid by NDSU for

STATE OF NORTH DAKOTA

these two buildings, in addition to the \$1.8 million of principal and interest paid by NDSU directly to the bond trustee. NDSU reimbursed the RTP \$30,556 for property insurance on the two buildings and directly pays the utility costs under these agreements. The annual rent will be re-adjusted by mutual agreement every two years. These agreements are subject to funding and legislative appropriations.

During fiscal year 2020, NDSU and the RTP entered into an agreement where the RTP creates, maintains, and operates makerspace at the Park to help recruit and educate future leaders in the STEM fields. Under the agreement NDSU will pay the RTP \$90,000 per year. During fiscal 2020, the first year of the agreement, NDSU paid the RTP \$45,000 for this service.

NDSU FOUNDATION

Fargodome Lease and Improvements

In fiscal year 2006, the Foundation financed the construction and equipping of office space, locker rooms, meetings rooms, and related facilities in the Fargodome for use by NDSU through the sale of revenue bonds issued by Cass County. The Foundation has leased the space in the Fargodome from the City of Fargo and subleased the space, furniture, fixtures and equipment to NDSU. Under the agreement, NDSU will pay rent to the NDSUFAA for use of the premises. The amount of the rent is tied to the \$3.5 million debt service retirement plus the Fargodome annual space rent and all costs incurred by the Foundation incident to the lease, less any contributions received by the Foundation for the project. Under this agreement in fiscal year 2020, the Foundation paid the debt service and other fees on behalf of NDSU in the amount of \$331,587.

The facility is included in long-term investments and the debt is included in long-term liabilities on the financial reports of the Foundation. NDSU has also recorded a capital asset and a capital lease payable, reflected as "Due to Component Units" by NDSU, of \$131,000 as of June 30, 2020. Since the foundation is a discretely presented component unit of the University System and the component unit and the University System are reporting the same assets and debt for the Fargodome improvements, a reclassification entry was made to ending balances in the component unit consolidating financial statements to show the appropriate due from primary institution.

Renaissance Hall

The former Northern School Supply building was donated to the Foundation by NDSU alum in December of 2001. During fiscal year 2003 and 2004, the Foundation renovated the building with the intent to lease the facility to NDSU beginning fall 2004. The Foundation transferred nearly the entire ownership of the building to 650 NP Avenue, LLC and Kilbourne Design Group, LLC, for a five-year period in order to achieve tax credits that would ultimately reduce the cost of the building to NDSU. During the five-year tax credit period, NDSU leased the building from the two LLCs, with the lease payments composed of interest and fees. With the five-year tax credit period ending December 31, 2010 (as extended), and the ownership was transferred back to the Foundation, permanent financing was put in place on December 17, 2010, with the issuance of \$5.65 million of 20-year University Facilities Lease Revenue Bonds, Series 2010 (Renaissance Hall Project). The financing structure involving the five-year temporary ownership transfer resulted in achieving tax credits of \$4.9 million which directly lowered the leasing cost to NDSU.

Under this refinanced debt issuance and lease agreement, as approved by the SBHE on December 16, 2010, the property is leased to NDSU for rent equal to the semi-annual principal and interest on the bonds, plus all costs incurred by the Foundation incident to ownership of the property. Ownership of the property will transfer to NDSU when the bonds are repaid in full. NDSU paid the Foundation \$413,000 in fiscal year 2020 for debt service under this agreement. As of June 30, 2020, the outstanding balance on the bonds, reflected as "Due to Component Units" by NDSU, is \$3.6 million.

Barry Hall Business Building and Klai Hall Architecture Building

Effective November 28, 2007, NDSU and the Foundation entered into lease agreements for two buildings in downtown Fargo, formerly known as the "Pioneer Mutual Building" and "Lincoln Mutual building". The Foundation financed the construction of the Barry Hall business building and Klai Hall architecture building projects through the sale of \$18.52 million of 20-year University Facilities Revenue Bonds issue by the City of Fargo, North Dakota. The City has loaned the bond proceeds to the Foundation for payments equal to the sum of the semi-annual interest payments and installments of varying principal amounts on the variable rate bonds and the semi-annual principal and interest payments on the fixed-rate bonds. The principal payments on the variable rate bonds will be funded from payments on donor pledges restricted for the project. Under the terms of the loan, the Foundation is responsible for the real estate taxes, insurance, repairs and maintenance, and other costs incident to ownership of the property. The property is included with property in the financial statements and the bonds have been recorded as a direct obligation of the Foundation. Ownership of the property will transfer to NDSU when the bonds are repaid in full. The bonds are guaranteed by the Foundation. This property is leased to NDSU for rental equal to the sum of the semi-annual interest only payments on the variable term bonds plus the semi-annual principal and interest payments on the fixed-rate bonds for the term of the bonds, plus all the costs incurred by the Foundation incident to ownership of the property.

STATE OF NORTH DAKOTA

In May 2012, the Foundation refinanced the original bonds issued in November 2007. As a result, new leases were executed. Under the terms of the new leases, NDSU pays and recognizes a liability for entire amount of the previously issued bonds. During fiscal year 2020, NDSU paid \$158,000 to the bond trustee on-behalf of the Foundation under the new leases for debt service on Barry Hall & Klai Hall. NDSU has an option to acquire the property upon full payment of the bonds. As of June 30, 2020, the outstanding balance on the bonds, reflected as "Due to Component Units" by NDSU, is \$8.15 million.

Other Transactions

The Foundation provides meeting space rental and database support service to NDSU for an annually negotiated fee. NDSU paid the foundation \$384,000 for the fiscal year ending December 31, 2019.

In addition to the debt service payments on the Fargodome, Renaissance, Barry and Klai Halls, NDSU reimburses the Foundation for other operating expenses related to those buildings, such as property insurance, flood insurance, boiler inspection fees, real estate taxes and bond administrative fees. Those costs totaled \$158,432 during the fiscal year ending December 31, 2019.

Based on an agreement that began January 1, 2015, and automatically renewed annually since then, NDSU pays \$87,592 of annual building rent to the Foundation for use the Criminal Justice and Public Policy building next to the NDSU main campus. This rent was paid again by NDSU during the fiscal year ending June 30, 2020.

The Foundation's fiscal year end is December 31, NDSU year end is June 30. Timing differences in amounts may occur between entity financial statements, due to different year end dates.

UNIVERSITY OF NORTH DAKOTA AND UND AEROSPACE FOUNDATION

The UND Aerospace Foundation (UND AF) recorded expenses reimbursed to UND for salaries, building rent, aircraft rental, and goods and services under an operating agreement aggregating \$9.9 million in fiscal year 2020. This operating agreement has no specific term and is intended to memorialize various operating agreements, rate structures, duties, and obligations each party has to the other. Expenses reimbursed to UND represent actual costs incurred and are included in training expenses in the consolidated statements of activities.

The UND AF recorded revenue for service and hangar, CRJ, 360-degree tower, and aircraft rental to UND of \$2.9 million in fiscal year 2020, which is included in program and event revenue in the Statement of Revenue, Expenses and Changes in Fund Net Assets for Component Units (FASB Basis) – University System Foundation.

As of June 30, 2020, the UND AF had recorded accounts payable to UND of \$2.1 million for reimbursable costs and services. As of June 30, 2020, the UND AF had recorded accounts receivable from UND of approximately \$1.2 million, which are included in accounts receivable in the statement of net assets for component units (FASB Basis) – University System Foundation.

The UND AF entered into a sublease with UND to lease the aircraft storage hangar/ground support equipment facility. The lease term is for 20 years, commencing on July 7, 2003, until July 6, 2023. For the first fifteen years of the sublease, UND will pay the Foundation's monthly minimum payment of \$12,672, beginning on October 1, 2003, subject to actual cost adjustments. At the end of the 15 years of the sublease, rent will be adjusted based upon the interest rate adjustments of the debt incurred by the Foundation in the construction of the hangar. Under this noncancelable sublease with UND, UND AF will receive future minimum rentals of \$1.7 million over the next five years.

UNIVERSITY OF NORTH DAKOTA AND RE ARENA, INC.

RE Arena Inc. and UND, enter into an annual operating agreement from July 1, 2017 to June 30, 2020. The operating agreement sets forth the facility usage, fees and services, ticket administration and revenue allocation, sponsorship sales administration and revenue allocation, and net income disposition. In accordance with this agreement: (i) RE Arena Inc. collects all ticket revenue from ticketed UND athletic events (hockey, football, men's and women's basketball, and volleyball), RE Arena, Inc. retains 52 percent of such ticket revenue and remits 48 percent to the UND, and (ii) RE Arena Inc. collects all sponsorship sales revenue from the UND athletic events at the arena, RE Arena, Inc. retains 64 percent of such sponsorship revenue, net of direct costs, and remits 36 percent to the UND net of direct costs. In addition, UND and RE Arena, Inc. jointly utilize the UND and RE Arena Inc. marketing staff to market and promote the UND athletic events.

RE Arena, Inc. may contract with UND for materials and personnel in service, utility and other areas and will reimburse UND based on separate agreements. Revenue and expense arrangements for all other UND events held at the arena will be negotiated on an event-by-event basis.

STATE OF NORTH DAKOTA

In fiscal year 2020, gross tickets sales were \$4.8 million of which RE Arena, Inc. recognized revenue of \$2.5 million with a net due to UND \$2.3 million. Gross ticket sales for the next athletic season year are recorded in deferred revenue at gross by RE Arena, Inc. for a total of \$2.8 million.

RE Arena, Inc. recognized net sponsorship (advertising) revenue of approximately \$903,000 and the net due UND in sponsorship (advertising) income of approximately \$473,000. In addition, RE Arena, Inc. did not allocate any portion of their net income to the UND Athletic Department. RE Arena, Inc. expensed approximately \$944,000 to UND for utilities, maintenance staff, phone service and other expenses. At the end of the fiscal year RE Arena, Inc. did not have an accounts payable balance to UND for monthly services.

Amounts are reported on the accrual basis of accounting, which may or may not be the same as that used by UND. RE Arena Inc.'s fiscal year end is May 31st, UND's fiscal year end is June 30th. Amounts may differ between entity financial statement because of timing differences due to different year ends.

UNIVERSITY OF NORTH DAKOTA AND UNIVERSITY OF NORTH DAKOTA FOUNDATION

UND is leasing space in the Gorecki Alumni Center in the amount of \$75,000 per year. Additional rental payments consisting of UND's share of the operating and maintenance costs for space used in the Gorecki Alumni Center are calculated annually.

During the year ended June 30, 2020, UND provided approximately \$2.0 million of institutional support for event and database support, annual giving campaign and shared positions. The UND Alumni Association and Foundation (Foundation) manages UND's endowment investments and charged them \$281,000 in investment management fees during the year ended June 30, 2020. These fees and support are reported as operations, fees and miscellaneous revenue on the Statement of Revenue, Expenses and Changes in Fund Net Assets for Component Units (FASB Basis) – University System Foundation.

The Foundation has other receivables with UND related to the renovation of an existing building for the Energy and Environmental Research Center (EERC) and the construction of the Minot Center for Family Practice for \$3.4 million and \$1.8 million, respectively. The Foundation has accounts payable due to UND related to miscellaneous services and payments of approximately \$235,000.

The Foundation is leasing 45,000 square feet of land for the Gorecki Alumni Center from UND. Starting in 2016, the rate is \$0.10 per square foot, per year. The cost in fiscal year 2020 was \$4,500.

On July 24, 2002, the Foundation issued \$8.6 million of tax exempt lease revenue bonds to finance the construction of an office building and the renovation of an existing building for the Energy and Environmental Research Center (EERC) of UND. The Foundation recorded a receivable from UND of \$8.6 million under the direct-financing lease arrangement. On October 18, 2012, the Foundation issued refunding lease revenue bonds in the amount of \$6.4 million to refund its outstanding Lease Revenue Bonds, Series 2002. The Foundation also amended the related lease agreement with UND. Interest accrues on the bonds at rates from 0.75 percent to 4.20 percent depending upon maturity. Annual and principal are due through fiscal year 2027 and as of June 30, 2020 was \$3.4 million. The bonds are secured by a lease with UND. The terms for the repayment are the same as the payment terms of the related bonds. During fiscal year ended June 30, 2020, the Foundation recorded payment of principal and interest of \$415,000 and \$146,000, respectively. The interest is included in operations, fees and miscellaneous income on the statement of activities.

On October 24, 2003, the Foundation issued \$4.4 million of tax-exempt lease revenue bonds to finance the purchase of land and the construction of a facility for the Minot Center for Family Practice in Minot, North Dakota. The center is a department of the School of Medicine & Health Sciences at UND. The Foundation recorded a receivable from UND of \$4.4 million due under the direct-financing lease agreement. In June 2008, the \$3.7 million remaining balance of the 2003 bonds were financed with Lease Revenue Refunding Bonds, series 2008. In April 2018, the \$2.2 million remaining balance of the 2008 bonds was refinanced with Lease Revenue Bonds, Series 2018. The interest rate is fixed at 3.5% until 2028. Payments of \$133,333 are required semi-annually through 2028. The bonds are secured by a lease with UND. Annual principal and semiannual interest payments as of June 30, 2020 was \$266,669.

STATE OF NORTH DAKOTA

NOTE 12 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

BANK OF NORTH DAKOTA

The State, through the Bank of North Dakota, is a party to credit related financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, financial standby letters of credit and guarantees related to loan programs. Those instruments involve varying degrees of credit, elements of credit risk and interest rate risk in excess of the amount recognized in the statement of net position. The contract amounts of those instruments reflect the extent of involvement the State has in particular classes of off-balance-sheet financial instruments.

The State's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and financial standby letters of credit is represented by the contractual amount of those instruments. The State uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments.

	<u>Contract Amount</u> <u>(in thousands)</u>
Commitments to extend credit	\$ 911,809
Financial standby letters of credit	415,755
Guarantees provided	7,889

Commitments to extend credit are agreements to lend as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained by the State upon extension of credit is based on management's credit evaluation of the customer. Collateral held may include accounts receivable, inventory, property, plant and equipment, and income-producing commercial properties.

Financial standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Those letters of credit are primarily issued to support public borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank has segmented this category into three components: (1) letters of credit, (2) confirming letters of credit, and (3) letters of credit pledged for public deposits to North Dakota financial institutions.

Letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party which require this type of facility. The maturities for these letters range from three months to ten years, and the likelihood of funding any of these letters of credit is considered to be remote. The Bank holds collateral supporting those commitments. The Bank also has letters of credit with the North Dakota Public Finance Authority with maturities ranging from seventeen months to twenty nine years. If the letters issued to Public Finance Authority were ever drawn upon, Public Finance Authority is legally obligated to reimburse the Bank from funds legally available, or from any appropriation made available to the Legislative Assembly after certification by the Industrial Commission. The likelihood of funding any of these letters of credit is also considered to be remote. Outstanding issued letters of credit as of December 31, 2019 were \$108,645,000.

Confirming letters of credit are issued to North Dakota financial institutions to support letters of credit they have issued but are still in need of backing from an institution with a long-term, high quality bond rating. In the event these letters were to be drawn upon, based on the terms of the agreement, the Bank would immediately withdraw funds from the institution's correspondent bank account held at the Bank to cover the amount drawn. These agreements generally have terms of 12 months or less. The likelihood of funding any of these confirming letters of credit is also considered to be remote. Outstanding issued confirming letters of credit as of December 31, 2019 were \$3,950,000.

Letters of credit pledged for public deposit to North Dakota financial institutions are issued to support public borrowing arrangements. These letters are fully collateralized by a pool of loans pledged to the Bank. These agreement generally have terms of 12 months or less. Financial standby letters for public deposits by North Dakota banks totaled \$303,160,000 at December 31, 2019. The likelihood of funding any of these letters of credit is also considered to be remote. These letters of credit are authorized form of collateral for public deposits per North Dakota Century Code 21-04-09.

The Bank has not recorded a contingent liability related to off-balance sheet activity as of December 31, 2019.

STATE OF NORTH DAKOTA

INFRASTRUCTURE REVOLVING LOAN PROGRAM

In the normal course of business, the Loan Fund makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$44,929,000 at June 30, 2020.

MEDICAL FACILITY INFRASTRUCTURE LOAN FUND

The Fund's exposure to loan loss is represented by the contractual amount of these commitments. There were two pending loan commitments totaling \$4,300,000 as of June 30, 2020.

NORTH DAKOTA HOUSING FINANCE AGENCY

In the normal course of business, the Agency makes various commitments that are not reflected in the financial statements. These include commitments to extend credit and the debt reduction required when related loan acquisition funds are not drawn down within prescribed time frames set by the specific bond resolution.

Commitments to extend credit are agreements to fund loans as long as there is no violation of any condition established in the contracts. Commitments require the payment of a reservation fee and generally have a fixed expiration date. Commitments to extend credit total \$73,784,000 at June 30, 2020.

The bond resolutions require that the funds in the loan acquisition accounts be expended within 42 months of the related bond delivery date. Any remaining funds must be used for debt reduction. The loan acquisition funds totaled \$57,420,000 at June 30, 2020.

PUBLIC FINANCE AUTHORITY

In the normal course of business, the Finance Authority (a component unit) makes various commitments that are not reflected in the financial statements. These commitments include commitments to extend credit of \$221,875,000 at December 31, 2019.

NOTE 13 - INTEREST RATE SWAP

BANK OF NORTH DAKOTA

The Bank has outstanding interest rate swap agreements with a notional amount \$545,000,000 to convert variable rate federal funds and variable LIBOR-indexed deposits into fixed-rate instruments over the term of the contract. The following table summarizes the terms of the interest rate swap contracts:

<u>Trade Date</u>	<u>Maturity Date</u>	<u>Notional Amount</u>	<u>Pay Fixed</u>	<u>Receive Variable</u>
June 5, 2014	June 1, 2029	\$50,000,000	2.86%	Fed Funds
April 14, 2015	May 1, 2030	\$50,000,000	1.92%	Fed Funds
August 11, 2016	September 1, 2031	\$50,000,000	1.48%	1 Month LIBOR
April 5, 2017	May 1, 2032	\$50,000,000	2.39%	1 Month LIBOR
June 15, 2017	July 1, 2032	\$50,000,000	1.99%	Fed Funds
March 27, 2018	April 1, 2033	\$50,000,000	2.47%	Fed Funds
June 28, 2018	July 1, 2033	\$50,000,000	2.52%	Fed Funds
April 25, 2019	May 1, 2034	\$50,000,000	2.36%	Fed Funds
September 3, 2019	October 1, 2034	\$50,000,000	1.15%	Fed Funds
October 3, 2019	November 1, 2034	\$50,000,000	1.38%	Fed Funds
December 5, 2019	October 1, 2023	\$45,000,000	1.33%	Fed Funds

Either the Bank or its counterparties may terminate the interest rate swap if the other party fails to perform under the terms of the contract. Termination could result in the Bank being required to make a payment of the fair value of the swap to counterparty.

STATE OF NORTH DAKOTA

The following table summarizes the derivative financial instrument utilized at December 31, 2019:

Swap	Notional Amount	Fair Value		Changes in Fair Value	
		Classification	Amount	Classification	Amount
June 2014	\$ 50,000,000	Other liabilities	\$ (5,468,000)	Deferred outflow	\$ (3,288,000)
April 2015	50,000,000	Other liabilities	(1,278,000)	Deferred outflow	(3,770,000)
Aug 2016	50,000,000	Other assets	1,722,000	Deferred inflow	(4,518,000)
April 2017	50,000,000	Other liabilities	(3,173,000)	Deferred outflow	(4,577,000)
June 2017	50,000,000	Other liabilities	(1,600,000)	Deferred outflow	(4,310,000)
March 2018	50,000,000	Other liabilities	(4,493,000)	Deferred outflow	(4,448,000)
June 2018	50,000,000	Other liabilities	(4,826,000)	Deferred outflow	(4,506,000)
April 2019	50,000,000	Other liabilities	(4,001,000)	Deferred outflow	(4,001,000)
Sept 2019	50,000,000	Other assets	4,003,000	Deferred inflow	4,003,000
Oct 2019	50,000,000	Other assets	2,462,000	Deferred inflow	2,462,000
Dec 2019	45,000,000	Other assets	194,000	Deferred inflow	194,000

At December 31, 2019, the Bank was not exposed to material credit risk because each counterparty is required to fully collateralize the fair value of the swaps within \$250 of daily mark-to-market valuations by depositing funds with the other counterparty.

The Bank is exposed to interest rate risk on its swap agreements. On its pay-fixed, receive variable interest rate swaps, the Bank's net payment increases as the USD-FEDERAL FUNDS-H.15 and USD-1 MONTH LIBOR-BBA interest rates decrease.

Using rates as of December 31, 2019, the interest expense of the variable rate federal funds, variable rate 1 month LIBOR and the net swap payments are as follows. As rates vary, the federal fund and 1 month LIBOR interest expense and the net swap payments will vary.

Year Ended December 31:	Pay Fixed	Receive Variable		Interest Rate Swap, net
	Contract Interest	Federal Fund Interest	1-Month LIBOR Interest	
2020	\$ 10,856,000	\$ 6,898,000	\$ 1,800,000	\$ 2,158,000
2021	10,856,000	6,898,000	1,800,000	2,158,000
2022	10,856,000	6,898,000	1,800,000	2,158,000
2023	10,706,000	6,724,000	1,800,000	2,183,000
2024	10,258,000	6,200,000	1,800,000	2,258,000
2025-2029	51,300,000	31,000,000	9,000,000	11,300,000
2030-2034	27,024,000	18,535,000	3,600,000	4,888,000
	<u>\$ 131,856,000</u>	<u>\$ 83,153,000</u>	<u>\$ 21,600,000</u>	<u>\$ 27,103,000</u>

STATE OF NORTH DAKOTA

NORTH DAKOTA HOUSING FINANCE AGENCY

As a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance, the Agency entered into several cash flow hedges or swaps in connection with various variable-rate housing bond series. The Agency cash flow hedges are pay-fixed. All Agency cash flow hedges are pay-fixed. The intention of these swaps was to effectively change the Agency's interest rate on the bonds to a fixed rate. The Agency also has cash flow hedges that were entered into in connection with variable-rate housing bond series that no longer have bonds outstanding as those bonds have been called. The cash flow hedges that are not connected to a specific bond series hedge the risk related to the Agency's other variable-rate housing bonds that are unhedged.

The bonds and the related swap agreements have a stated issuance and maturity date. Some of the swaps have optional termination dates. Under the swaps, the Agency pays the counterparty a fixed payment and receives a variable payment computed as a percent of the London Interbank Offered Rate (LIBOR) plus a fixed percentage on the swap notional amount. On the other hand, the bond's variable-rate coupons are determined by the remarketing agent. If for any reason the remarketing agent fails to act, the rate shall be the lesser of (i) the TBMA Index plus 0.25% or (ii) the Maximum Rate as defined within the applicable series resolution.

As of June 30, 2020, the Agency no swaps with a positive fair value. Of the swaps with negative fair value, the Agency is not exposed to credit risk. However, the swap exposes the Agency to basis risk should the relationship between LIBOR and TBMA converge, changing the synthetic rate on bonds. The swap counterparty has guaranteed all payments and is rated AAa/AA+/AAA by Moody's Investor Services, Standard & Poor's, and Fitch, respectively. To mitigate potential credit risk, the counterparty has entered into Credit Support Agreements with Bank of New York Mellon, the Royal Bank of Canada and Wells Fargo as a credit enhancement.

The Agency has entered into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements netting provisions permit each party to net the transactions' fair values so that a single sum will be owed by, or owed to, the other party. At June 30, 2020, the Agency owed the swap providers a fixed rate on the notional amount of the swaps of \$2,418,000 and the swap providers owed the Agency a variable rate on the notional amounts of \$148,000 making the net payment that the Agency owed the swap providers \$2,270,000.

Due to the difference in the variable rate indices, the swaps had a net negative fair value of \$16,132,000 as of June 30, 2020. Accordingly, the financial derivative instrument is reported as a liability and the accumulated changes in fair value of the swaps are reported as a deferred outflow at June 30, 2020. The coupon on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. All valuations are as of the valuation date indicated. Mid-Market or indicative unwind valuations may be derived from broker quotations or from proprietary models that take into consideration estimates about relevant present and future market conditions as well as the size and liquidity of the position and any related actual or potential hedging transactions. Valuations based on other models or different assumptions may yield different results.

The swap exposes the Agency to basis risk should the relationship between LIBOR and the actual variable rates converge, changing the synthetic rate on the bonds. The effect of this difference in basis is indicated by the difference between the intended synthetic rate and the synthetic rate as of June 30, 2020. If a change occurs that results in the rates' moving to convergence, the expected cost savings may not be realized.

The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination event." That is, the swap may be terminated if counterparty's credit quality rating falls below "A3" as issued by Moody's Investors Service or "A-" as issued by Fitch Ratings or Standard & Poor's. The swap may be terminated at any time by the Agency or the counterparty with 30 days written notice up to limits specified in the swap agreement. If the swap or swaps were terminated, the variable-rate bonds would no longer carry a synthetic interest rate. Also, if at the time of terminations the swap has a negative fair value, the Agency would be liable to the counterparty for payment equal to the swap's fair value, but in the event the fair value is positive, the counterparty would be liable to the Agency.

The Agency is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to maturity of the hedged debt. When these hedging derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, the Agency will be re-exposed to the risks being hedged by the hedging derivative instrument. The Agency also is exposed to rollover risk on the swaps that mature and the Agency does not call the related variable rate debt.

2031-2035	38,985	2,067	16,451	57,503
2036-2040	60,005	1,451	10,004	71,460
2041-2045	42,245	452	3,553	46,250
2046-2050	9,310	33	562	9,905
2051-2055	260	-	-	260
	<u>\$ 184,425</u>	<u>\$ 8,545</u>	<u>\$ 72,985</u>	<u>\$ 265,955</u>

NOTE 14 - SIGNIFICANT CONCENTRATIONS OF CREDIT RISK

Most of the State's business is with customers within the state. Concentrations of credit are present in the construction and operation of community water facilities, loans to medical facilities for health care construction, loans to students for post-secondary education, loans to owners of homes damaged in the 2011 floods in Barnes, Benson, Burleigh, McHenry, Morton, Ramsey, Renville, Richland and Ward counties, loans to political subdivisions in the state for infrastructure, single-family and multifamily mortgage loans, loans to assist local financial institutions in providing loans to assist very small businesses in their recovery from the impacts caused by the COVID-19 pandemic, loans to provide financing for commercialization of intellectual technology within the State and the agricultural industry. Due to the pervasive nature of agriculture in the economy of the state, all loans, regardless of type, are impacted by agriculture.

NOTE 15 - RISK MANAGEMENT

Several funds accumulate assets to cover risks that the State may incur. Specifically, the State assumes a portion or substantially all risks associated with the following:

THE STATE FIRE AND TORNADO FUND

The State Fire and Tornado Fund, an Enterprise Fund, is financed by premiums charged to the participating funds of the State. All monies collected must be paid into the fund for use only for the purpose outlined in NDCC 26.1-22.02.

All losses occasioned by the hazards provided for in the North Dakota Century Code must be paid out of the fund, with the fund being reimbursed by a third-party insurance carrier for all losses in excess of \$1,000,000 per occurrence. The limit of liability of such reinsurance contract is no less than \$1,000,000 during each twelve month period.

STATE BONDING FUND

The State Bonding Fund, an Enterprise Fund, is financed by premiums charged to each State agency for the bonding of public employees and public officials.

FLEET SERVICES

Fleet Services, an Internal Service Fund, represents the State's fleet of automobiles and is administered by the Department of Transportation. The State is self-insured for substantially all automobile insurance (e.g., comprehensive, collision), with the exception of liability, which is provided by the State's Risk Management Fund (RMF). State agencies are charged premiums to cover Fleet Service's RMF assessment and to pay for those losses that are not covered by RMF. These premium charges are factored into the fees agencies are charged when renting the cars.

STATE OF NORTH DAKOTA

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a State insurance fund and a “no fault” insurance system, covering the State’s employers and employees. WSI is financed by premiums assessed to employers. The rate of such premiums is periodically adjusted to assure the solvency of WSI. The premiums are available primarily for the payment of claims to employees injured in the course of employment. During fiscal year 2020, a total of \$88,374,676 in claims was recognized. The liability of \$1,029,792,000 is the present value of the unpaid claim liability discounted at 4.5% as determined by the actuarial.

RISK MANAGEMENT FUND

Due to the loss of sovereign immunity, the 1995 Legislature established the Risk Management Fund (RMF) to pay money damages for tort claims for which the State is liable. The statutory liability of the State is limited to a total of \$250,000 per person and \$1,000,000 per occurrence. The State purchases commercial insurance for claims in excess of coverage provided by the Fund and continues to transfer liabilities for medical malpractice and aviation to private insurance carriers. Settlements have not exceeded insurance coverage in any of the past three fiscal years.

Revenues to the RMF are generated from contributions required from state agencies, boards and commissions, and the University System. The need for and amount of funding is determined using a projected cost allocation approach. The premise of this plan is that the agencies with greater expected loss costs should contribute more to the funding of the RMF than those agencies with lesser costs. The underlying logic is that contributions should roughly equal loss costs plus the expenses of administering the program over the long term.

The RMF liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Unpaid claim liabilities are based on an actuarial study of the outstanding loss reserve need for the fund and a forecast of ultimate loss and loss expense. These liabilities were determined on an undiscounted expected level of ultimate loss. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrines, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re-evaluated periodically to take in consideration settled claims, the frequency of claims, and other economic and social factors.

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2019 and 2020:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims and Changes In Estimates</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2019	\$ 4,256,394	\$ (175,718)	\$ (313,674)	\$ 3,767,002
2020	3,767,002	979,298	(999,937)	3,746,363

The Risk Management Workers Compensation Program (WCP) was established to consolidate all state entities under one workers compensation account, allowing for transitional duty between entities. The statutory liability of the fund is limited to \$100,000 per claim with Workforce Safety & Insurance, providing excess insurance for claims that exceed the \$100,000 cap. WCP pays separately for this coverage. Since the inception of WCP on July 1, 2001, forty-four claims exceeded coverage by \$13,414,266.

Revenues to WCP are generated from contributions required from state agencies, boards, commissions, and the University System. The amount contributed from each agency is actuarially determined by Workforce Safety & Insurance and based upon the number of employees, the type of work done, and claims history of each entity. Each entity also pays a deductible of \$250 per claim.

The WCP liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities are affected by complex factors including inflation, changes in legal doctrine, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities will be re-evaluated periodically to take into consideration settled claims, the frequency of claims, and other economic and social factors. An actual study was performed for Workforce Safety & Insurance. The liability estimates are based on that study.

STATE OF NORTH DAKOTA

The following table presents the changes in claims liabilities balance for the fiscal years ending June 30, 2019 and 2020:

Fiscal Year	Beginning Balance	Current Year Claims and Changes in Estimates	Claims Payments	Ending Balance
2019	\$ 4,861,686	\$ 2,639,167	\$ (3,142,217)	\$ 4,358,636
2020	4,358,636	3,669,716	(3,089,624)	4,938,728

NOTE 16 - PUBLIC ENTITY RISK POOLS

A. GENERAL

FIRE AND TORNADO AND BONDING FUND

The Fire and Tornado Fund provides property insurance to state agencies, political subdivisions, the International Peace Garden and the Winter Show. The Fire and Tornado Fund has issued 1,175 policies to participating entities for a total building and content coverage of \$16.5 billion. The Bonding Fund is used to provide fidelity bonding of public employees and officials. The Fund has issued 1,890 policies to participating entities. The total coverage for the Bonding Fund is \$728.7 million. If the assets of these funds were exhausted, fund participants would not be responsible for the funds' liabilities.

The Fire and Tornado and Bonding Fund are accounted for on the accrual basis. The Fire and Tornado Fund establishes claim liabilities based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims incurred but not reported. The Bonding Fund establishes claim liabilities based on actual judgments obtained against the fund but not paid prior to fiscal year end. Liabilities for incurred but not reported losses have not been established based on prior year activity. Neither fund incurred any acquisition costs, which should have been capitalized, nor were any liabilities recognized that were discounted. Investment income was not considered in determining the existence of premium deficiencies.

The Fire and Tornado Fund uses reinsurance agreements to reduce its on covered losses in excess of \$2.0 million. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Fund as direct insurer of the risks that are reinsured. The Fire and Tornado Fund does not report reinsured risks as liabilities unless it is probable that those risks will not be covered by reinsurers. There were no pending losses at June 30, 2020 that would reduce the fund's liability.

WORKFORCE SAFETY & INSURANCE

Workforce Safety & Insurance (WSI), an Enterprise Fund, is a state insurance fund and a "no fault" insurance system covering the State's employers and employees. At June 30, 2020, coverage extended to the following employers:

<u>Annual Premium</u>	
\$250 - \$5,000	19,734
\$5,001 - \$50,000	4,124
\$50,001 - \$100,000	370
Over \$100,000	<u>346</u>
Total Employers	<u>24,574</u>

WSI is financed by premiums assessed to the employers doing business in North Dakota. The premiums are available primarily for the payment of claims to employees injured in the course of employment.

The operations of WSI are accounted for on the accrual basis. Liability for incurred loss and loss adjustment expense (LAE) is estimated by WSI's actuary. The estimate is developed by WSI's actuary, taking into consideration past experience of WSI in paying claims, and general conditions of the environment in which WSI operates. The liability is based on the estimated ultimate costs to settle both reported and incurred but not report (IBNR) losses and LAE, and includes the effects of inflation and other societal and economic factors. The actuarial computations also include a 4.5% discount to report this liability at its present value.

Management believes the estimated liability for losses and loss adjustment expense is sufficient to cover the ultimate net cost of incurred losses, but such loss reserves are necessarily based on estimates and the ultimate liability may be greater or less than the amounts estimated. As adjustments to this estimated liability become necessary, such adjustments are reflected in current operations.

STATE OF NORTH DAKOTA

For the year ended June 30, 2020, the consulting actuaries presented an estimate in the form of a range to emphasize the uncertainty for a “long-tailed” liability insurer such as workers’ compensation. These ranges are as follows (expressed in thousands):

	Low	Central Value	High
Full value basis, undiscounted	\$ 1,511,964	\$ 1,629,797	\$ 1,708,841
Present value basis, discounted at 4.5%	956,774	1,029,792	1,079,890

WSI has adjusted the estimated liability for unpaid loss and loss adjustment expense to the actuary’s 4.5 percent discounted expected value of \$1,029,792,000 at June 30, 2020.

While management has recorded amounts that fall within the ranges of estimated liabilities as computed under actuarial assumptions, the high level of uncertainty indicates that actual losses and expenses could be materially higher than the recorded estimated liability.

WSI has entered into a contract with an intermediary for reinsurance coverage for catastrophic coverage. Historically, WSI has had up to four coverage levels, with varying retention limits of \$3 million, \$5 million, \$10 million and \$20 million. Terms, limits and pricing are re-evaluated annually. WSI’s current 2020 calendar year has two coverage levels, with retention limits of \$10 million and \$20 million. For the year ended June 30, 2020 WSI recorded ceded losses of \$4,703,825 and ceded premiums of (\$680,864).

For accident years December 1, 1999 to December 1, 2002, Munich Re provided treaty excess of loss reinsurance to WSI. In fiscal year 2020, Munich Re and WSI agreed to commute the remaining liabilities under these treaties. As a result of this commutation, cash increased by \$50.5 million and approximately \$40 million of ceded liabilities were assumed by WSI.

B. RECONCILIATION OF CLAIMS LIABILITIES

The following is a reconciliation of total claims liabilities, including an analysis of changes in aggregate liabilities for claims and claim adjustment expenses for the current fiscal year and the prior year (expressed in thousands):

	Fire And Tornado		Bonding		Workforce Safety & Ins	
	2020	2019	2020	2019	2020	2019
Unpaid claims and claims adjustment expenses at the beginning of the year	\$ 678	\$ 1,879	\$ 98	\$ 106	\$ 1,090,944	\$ 1,049,386
Incurred claims and claims adjustment expenses:						
Provision for current fiscal year	2,576	2,953	(2)	39	176,999	186,815
Change in provision for prior fiscal year	30	(610)	-	-	(88,508)	(89,573)
Payments and claims and adjustment expenses attributable to:						
Current fiscal year insured events	(2,253)	(3,217)	136	59	(41,898)	(42,252)
Prior fiscal years’ insured events	-	(327)	(98)	(106)	(143,212)	(103,685)
Total Payments	(2,253)	(3,544)	38	(47)	(185,110)	(145,937)
Change in provision for discount	-	-	-	-	35,467	90,253
Total unpaid claims and claims adjustment expenses at the end of the year	<u>\$ 1,031</u>	<u>\$ 678</u>	<u>\$ 134</u>	<u>\$ 98</u>	<u>\$ 1,029,792</u>	<u>\$ 1,090,944</u>

NOTE 17 - BANK OF NORTH DAKOTA

GASB Statement No. 34 requires assets and liabilities of enterprise funds be presented in a classified format to distinguish between current and long-term assets and liabilities. The Bank of North Dakota is the only government-owned bank in the United States. Banks do not present a classified statement of net position because current assets are not matched with current liabilities. Presentation of a classified statement of net position would give the false impression that there is a liquidity problem at the bank. Presentation of a classified statement of net position for the Bank of North Dakota would be misleading to the extent that the financial statements may be materially misstated. Therefore, the statement of net position of the Bank of North Dakota presents assets and liabilities in order of their relative liquidity, rather than in a classified format.

STATE OF NORTH DAKOTA

NOTE 18 - COMMITMENTS AND CONTINGENCIES

A. *LONG-TERM COMMITMENTS*

INDUSTRIAL COMMISSION

The Industrial Commission has entered into various contracts with third parties for the following programs regarding lignite research, oil and gas research, renewable energy and for the outdoor heritage program. As of June 30, 2020, the total outstanding balance on these contracts was \$76.4 million.

MILL AND ELEVATOR

As of June 30, 2020, the Mill had commitments to purchase 2,723,592 bushels of spring wheat and 605,896 bushels of durum.

JOB SERVICE NORTH DAKOTA

As of June 30, 2020, the Agency has commitments to pay \$1,202,226 for purchase orders and contracts awarded for goods, services, software licenses and software support to be provided in future periods, all of which are federally funded.

SCHOOL CONSTRUCTION ASSISTANCE REVOLVING LOAN FUND

As of June 30, 2020, the Fund had one outstanding commitment totaling \$10,000,000 to extend credit.

HOUSING INCENTIVE FUND

The Fund makes various commitments relating to construction projects to meet unmet housing needs across North Dakota. The Fund had \$1,971,308 of signed commitments for construction projects as of June 30, 2020. The Fund had an \$5,935,047 of HIF funds awarded for construction projects as of June 30, 2020. The total paid on these commitments as of June 30, 2020 was \$3,963,739.

DEPARTMENT OF HUMAN SERVICES

As of June 30, 2020, the Department of Human Services had significant commitments for the purchase of various types of services totaling \$415,639,614.

NORTH DAKOTA LOTTERY

The Lottery contracts with a third party to provide an online gaming system and related services through June 30, 2022. Total payment for these services during the year ended June 30, 2020 were \$2.8 million based on 10.473% of ticket sales. The Lottery's future obligation through June 30, 2022 is based on 10.473% of ticket sales, there is no minimum fee or retainer fee.

NORTH DAKOTA DEPARTMENT OF TRANSPORTATION

At June 30, 2020, the North Dakota Department of Transportation (Special Revenue Fund) had non-construction contract commitments of approximately \$65.1 million. Construction commitments at June 30, 2020 totaled approximately \$344.7 million, of which \$188.6 million represents federal programs which are cost reimbursable. These commitments will be funded with future appropriations as work is performed.

NORTH DAKOTA DEVELOPMENT FUND

The board of directors has approved equity investments, loans, grants, and guaranty of collections at June 30, 2020, for which funds have not been disbursed or written agreements entered into in the amount of \$2,985,186.

SMALL EMPLOYER LOAN FUND

The fund has 72 pending loan commitments totaling \$2.8 million as of June 30, 2020.

INNOVATION TECHNOLOGY FUND

The fund has 3 pending loan commitments totaling \$2.35 million as of June 30, 2020.

STATE OF NORTH DAKOTA

NORTH DAKOTA SOYBEAN COUNCIL

As of June 30, 2020, the North Dakota Soybean Council had significant commitments of approximately \$3.6 million. This amount mainly consists of grants for the research and development of soybeans.

STATE WATER COMMISSION

As of June 30, 2020, the State Water Commission had long-term commitments of \$366,839,730 for various water projects.

UNIVERSITY SYSTEMS

Contracts for the construction of various projects on behalf of the University System have been let as follows (expressed in thousands):

	<u>Original Issue</u>	<u>Paid To Date</u>	<u>Amount To Be Paid</u>
BSC	\$ 561	\$ 525	\$ 36
DCB	807	58	749
DSU	607	412	195
LRSC	3,004	545	2,459
MaSU	124	-	124
MiSU	405	67	338
NDSCS	14,451	13,763	688
NDSU	76,168	26,539	49,629
UND	202,190	114,928	87,262
VCSU	18,310	2,257	16,053
WSC	8,432	5,640	2,792
Total	<u>\$ 325,059</u>	<u>164,734</u>	<u>\$ 160,325</u>

OTHER CONSTRUCTION COMMITMENTS

That State has entered into construction commitments. As of June 30, 2020, the following commitment exists on other construction contracts, in thousands:

Office of Management and Budget	\$ 1,615
Secretary of State	214
Legislative Assembly	727
School for the Deaf	57
Health Department	207
Environmental Quality	332
Department of Human Services	20,986
Industrial Commission	2,592
Highway Patrol	1,597
Corrections and Rehab	51
Adjutant General	21,997
Game and Fish	345
Parks and Recreation	236
Department of Transportation	186,272

B. LITIGATION

The estimated loss in all of the litigation against the State in which a loss to the State that is reasonably possible to result in an unfavorable outcome is estimated to be \$500,000.

STATE OF NORTH DAKOTA

C. QUESTIONED COSTS

The State receives federal financial assistance which is subject to review and audit by the Office of the State Auditor and the federal government. This assistance is generally conditioned upon compliance with certain laws and regulations. Disallowed and questioned costs relating to federal assistance could become a liability to the State. The State estimates that the ultimate disallowances pertaining to federal assistance, if any, will be immaterial to its overall financial condition. The single audit of the State of North Dakota for the two-year period ending June 30, 2018, was completed and issued in March of 2019. As a result of this audit, approximately \$1.9 million of identifiable questioned costs were noted. Also, there were several findings which had potentially significant, unknown, questioned costs. The State is cooperating with the federal government to resolve the findings and is optimistic these findings will not have a material impact on the State.

NOTE 19 – TOBACCO SETTLEMENT

In November 1998, the North Dakota Attorney General joined forty-five other states and five territories in a settlement agreement against the nation's largest tobacco manufacturer. The settlement money is intended to compensate the State for costs it has incurred in providing health and other services to its citizens that were necessitated by the use of tobacco products. The Master Settlement Agreement includes base payments to states totaling \$220.6 billion for the next 25 years, and continues in perpetuity. The State has received total payments of \$517.21 million as of June 30, 2020. The State recognized revenue of \$21.16 million of tobacco settlement revenue during the year ended June 30, 2020. The amount of the annual payment is subject to a number of modifications, including adjustments for inflation and usage volumes. Some of the adjustments may result in increases in the payments (inflation, for example), or other adjustments will likely cause decreases in the payments (e.g., volume adjustments). The net effect of these adjustments on future payments is unclear.

NOTE 20 – TERMINATION BENEFITS

UNIVERSITY SYSTEMS

Termination benefits are benefits provided to employees who are involuntarily or voluntarily terminated, as a result of budget reductions. Termination benefits agreements may include contract buyouts, retirement incentives, severance lump-sum payouts and continuing healthcare coverage for a designated period of time or a combination of these benefits. The agreement terms vary by institution. The outstanding liability is measured at the discounted present value and projected increases in health insurance rates.

The University Systems entered into voluntary termination agreements with 79 employees for a cost of \$3.2 million in fiscal year 2020. The terms for these agreements range from one month to eighteen months. The University Systems recorded a liability at June 30, 2020 of \$2.3 million for future payments.

During the same time-period, the University Systems entered into involuntary separation agreements with 28 employees for a cost of \$559,000. The terms for these agreements range from one month to two months. There is no future liability for these arrangements at June 30, 2020.

In fiscal year 2020, the University System incurred \$2.2 million in expenses related to voluntary termination agreements entered into in prior fiscal years for 64 employees. The terms for these agreements range from one month to thirty-eight months. At June 30, 2020, the liability for future payments was \$214,000.

NOTE 21 - SUBSEQUENT EVENTS

BUILDING AUTHORITY

Subsequent to year end, the Authority issued \$88.585 million of bonds payable. The bonds have an interest rate of 5.00% and mature between 2021 and 2040.

BANK OF NORTH DAKOTA

In March of 2020, the COVID pandemic began to spread throughout the world causing major disruptions to world travel and commerce. This pandemic greatly impacted North Dakota businesses, particularly restaurants, bars, hotels, and airlines. It also impacted the energy industry as oil and gas prices plummeted due to the reduction in travel. BND started 2020 with a monthly Provision for Credit Loss of \$400,000. Once the pandemic hit, economic factors within the model changed and BND increased that expense to \$1 million per month in March and then increased the provision again in July to \$2 million per month. In total, BND anticipates adding \$16.8 million to Allowance for Credit Loss in 2020, compared to our original estimate of \$4.8 million.

STATE OF NORTH DAKOTA

The 2015 Legislature authorized a transfer of up to \$100 million from BND to fund an Infrastructure Loan Fund for ND Cities and Counties. They also transferred an additional \$50 million from the Strategic Investment and Improvement Fund to this same revolving loan fund. So far, BND has committed to \$198 million of infrastructure loans. The legislation mandated that the money from the Strategic Investment and Improvement Fund be used to fund the initial \$50 million of commitments and the drawdown of up to \$100 million from BND to fund activity over the initial \$50 million. As of October 31, 2020, BND has transferred \$48 million of its capital to fund its portion of the Infrastructure Loan Fund. In the 2019 Legislature, legislation passed to add up to \$40 million of additional contribution from the Strategic Investment and Improvement Fund should oil tax collections exceed \$755 million. Oil tax collections exceeded \$780 million, which resulted in an additional contribution of \$25 million to the Infrastructure Loan Fund. That \$25 million will be spent prior to drawing the remaining \$52 million from BND's retained earnings.

The 2019 Legislature allowed the Reinsurance Association to establish a credit line at the Bank in the amount of \$25 million to provide reimbursements to member insurers. As of October 31, 2020, the Reinsurance Association has not applied for this line of credit.

Fuel Production Guarantee Program – The 2019 legislature approved \$50 million from the Strategic Investment and Improvement Fund to be used to guarantee loans made under this program. BND received loan applications from 3 borrowers totaling \$29.8 million due to the impact the pandemic had on ethanol production facilities in ND

SMALL EMPLOYER LOAN FUND

Subsequent to year end, the fund received applications for loans under this fund of approximately \$27.2 million.

COVID-19 PACE RECOVERY PROGRAM

As of November 30, 2020, the Bank of North Dakota has received 227 applications totaling \$223.5 million with an interest rate buydown of \$28.3 million for program I and 753 applications totaling \$18.5 million in grants under program II.

NORTH DAKOTA HOUSING FINANCE AGENCY

The Agency issued Series 2020B Housing Finance Program Bonds totaling \$125 million. The bonds have an interest rate ranging from 0.20% to 2.05% and mature between 2021 and 2033. The Agency also issued Series 2015F Housing Finance Program Bonds totaling \$25 million. The bonds have an interest rate of 2.32% and mature between 2021 and 2048.

UNIVERSITY SYSTEMS

On July 2, 2020, VCSU issued \$3.2 million, Series 2020 Housing and Auxiliary Facilities Revenue Bonds. The bonds were issued in December 2019 and are included in these financial statements and notes. The proceeds are held in escrow and were used to refund the existing 2010 bonds on July 2, 2020. The bonds are collateralized by net housing and auxiliary facilities systems and mature in 2046.

NOTE 22 - NEW PRONOUNCEMENTS

The State implemented the following new pronouncement for fiscal year 2020:

GASB 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, which provided temporary relief to governments in light of the COVID-19 pandemic to postpone the effective dates of certain pronouncements.

The State will implement the following new pronouncements for fiscal years ending after 2020:

GASB Statement No. 84, *Fiduciary Activities*, provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to

STATE OF NORTH DAKOTA

recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

GASB Statement No. 90, *Majority Equity Interests*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement provides guidance for reporting when a government has majority equity interest in legally separate organizations. An equity interest is explicit and measurable if the government has a present or future claim to the net resources of the entity and the method for measuring the government's share of the entity's net resources is determinable. If government's holding of that equity interest meets the definition of an investment, as defined by GASB No. 72, the equity interest should be reported as an investment and measured using the equity method and not as a component unit of the government. If a government's holding of a majority interest in a legally separate organization does not meet the definition of an investment, the holding of the majority equity interest results in the government being financially accountable for the organization and therefore, the government should report the legally separate organization as a component unit. This Statement is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Earlier application is encouraged.

GASB Statement No. 92, *Omnibus 2020*, provides additional guidance to improve consistency of authoritative literature by addressing practice issues identified during the application of certain GASB statements. This statement provides accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activity of public entity risk pools, fair value measurements and derivative instruments. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides guidance to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR), most notable, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. This statement provides exceptions and clarifications regarding hedging derivative instruments for such transactions that result from the replacement of IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The statement provides definitions of PPPs and APAs and provides uniform guidance on accounting and financial reporting for transactions that meet those definitions. A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement

STATE OF NORTH DAKOTA

are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 96, *Subscription-Based Information Arrangements* provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. Under this Statement, a government generally should recognize a right-to use subscription asset—an intangible asset—and a corresponding subscription liability. The requirements of this Statement will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* provides additional guidance for determining whether a primary government is financially accountable for a potential component unit. This Statement requires that the financial burden criterion in paragraph 7 of Statement No. 84, *Fiduciary Activities*, be applicable to only defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement No. 67, *Financial Reporting for Pension Plans*, or paragraph 3 of Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, respectively. This Statement (1) requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and (2) clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, are effective immediately. The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021.

Management has not yet determined the effect these Statements will have on the State's financial statements.

STATE OF NORTH DAKOTA

Required Supplemental Information Budgetary Comparison Schedule Budget to GAAP Reconciliation General Fund For the Fiscal Year Ended June 30, 2020

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the General Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	2,549,891,716
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	(41,428,409)
Funds considered General funds for GAAP but not for Budget	1,093,615,792
Certain due from other funds are recorded under GAAP, but not Budget	(6,511,787)
Reimbursement activity between state agencies is eliminated only for GAAP	(390,558)
Proceeds are recorded for new capital leases on GAAP, but not for Budget	65,787
Repayment received on loan receivable are revenue for Budget to GAAP	1,942,904
Total revenues, capital lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 3,597,185,445</u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	2,347,140,466
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	(1,302,811)
Funds considered General funds for GAAP but not for Budget	105,139,800
New capital leases are recorded as expenditures for GAAP, but not for Budget	65,787
Certain due to other funds are recorded under GAAP, but not for Budget	3,859,411
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u>\$ 2,454,902,653</u>

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and for the State Fund Expenditures

Sources/Inflows of resources

Actual Amounts (budgetary basis) "total revenue inflows" from the budgetary comparison schedule	1,121,500,763
Differences-Budget to GAAP:	
The period of availability for revenue recognition for budget purposes differs from the GAAP basis.	805,415,275
Total revenues, capital lease acquisitions, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u><u>\$ 1,926,916,038</u></u>

Uses/Outflows of resources

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule	1,121,500,763
Differences-Budget to GAAP:	
Estimated liabilities are recorded as expenditures for GAAP but not for Budget	1,716,307,056
New Loans issued are expenditures for Budget but not for GAAP	1,661,972
GAAP, but not Budget expenditures are reduced by year end inventory balances	283,442
Intrafund activity eliminated for GAAP	(531,624,509)
Certain due to other funds are recorded under GAAP, but not for Budget	(945,822)
Total expenditures, sale of capital assets, and transfers as reported on the statement of revenues, expenditures, and changes in fund balance-governmental funds	<u><u>\$ 2,307,182,902</u></u>

STATE OF NORTH DAKOTA

Note To Required Supplemental Information - Budgetary Reporting For the Fiscal Year Ended June 30, 2020

The Budgetary Comparison Schedules present comparisons of the original and revised legally adopted budgets with actual data on a budgetary basis for major funds. The only major fund with a legally adopted budget is the General Fund. All other funds are budgeted together as "Other Budgeted Funds." A budgetary schedule has been done for these other funds because they include budgeted amounts for the Federal Fund and State Funds, which are major special revenue funds. These amounts are reported on the schedules entitled "Federal Funds" and "State Funds".

North Dakota's Appropriation Acts include a dual legal level of budgetary control - one at the General Fund versus Other Budget Income level for each agency and one at the line item level for each agency. Line items are not separate between General Fund and Other Budgeted Income so that control is not presented in our budgetary comparison schedule for major funds. The legal level of control for all agencies is reported in a publication titled "State of North Dakota 2019-2021 Biennium Budget and Actual Detail (Budgetary Basis) For the Fiscal Year Ended June 30, 2020." This budget information is available through the Office of Management and Budget, 600 East Boulevard Ave Dept. 110, Bismarck, ND 58505. For the 2019-2021 biennium there were general, federal, and special fund supplemental appropriations of \$1,157,610,655.

The Budgetary Comparison Schedule reports expenditures on a budgetary basis. The accounting principles applied for purposes of developing data on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. Reconciliations of the three for the Fiscal Year ended June 30, 2020, for the General Fund, Federal Fund, and State Fund is on the previous pages.

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2020

ND Public Employees Retirement System

Benefit Changes The interest rate earned on member contributions will decrease from 7.00 percent to 6.50 percent effective January 1, 2021 (based on the adopted decrease in the investment return assumption). New Main System and Public Safety members who are hired on or after January 1, 2020 will have a benefit multiplier of 1.75 percent (compared to the current benefit multiplier of 2.00 percent). The fixed employer contribution for new members of the Main System will increase from 7.12 percent to 8.26 percent. For members who terminate after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019 or the average salary earned in the three highest periods of twelve consecutive months employed during the last 180 months of employment. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2019.

Changes of Assumptions The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2020 actuarial valuation:

- The investment return assumption was lowered from 7.5 to 7.0 percent for the July 1, 2020 valuation
- The assumed rate of price inflation was lowered from 2.5 to 2.25 percent for the July 1, 2020 valuation
- The assumed rate of total payroll growth was updated for the July 1, 2020 valuation
- Mortality table updates were made for the July 1, 2020 valuation

All other actuarial assumptions used in the July 1, 2020 are the same as the last actuarial valuation as of July 1, 2019.

Highway Patrolmen's Retirement System

Benefit Changes For members who terminate employment after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019, or the average salary earned in the three highest periods of twelve consecutive months employed during the last one hundred eighty months of employment.

Changes of Assumptions The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2020 actuarial valuation:

- The investment return assumption was lowered from 7.5 to 7.0 percent for the July 1, 2020 valuation
- The assumed rate of price inflation was lowered from 2.5 to 2.25 percent for the July 1, 2020 valuation
- The assumed rate of total payroll growth was lowered from 3.75 to 3.5 percent for the July 1, 2020 valuation
- Mortality table updates were made for the July 1, 2020 valuation

All other actuarial assumptions used in the July 1, 2020 are the same as the last actuarial valuation as of July 1, 2019.

STATE OF NORTH DAKOTA

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2020

TFFR:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization Period	23 years
Asset valuation method	5-year smoothed market
Inflation	2.30%; decrease from 2.75% prior to 7/1/2020 and from 3% prior to 7/1/2015.
Salary increases	3.80% - 14.80% including inflation and productivity; 4.25% - 14.5% prior to 7/1/2020; 4.5% - 14.75% prior to 7/1/2015.
Investment rate of return	7.25%, net of investment expenses, including inflation; rate decreased from 7.75 beginning 7/1/2020 and decreased from 8% beginning 7/1/2015.
Retirement age	In the 2020 and 2015 valuation, rates of retirement were changed to better reflect anticipated future experience.
Mortality	<p>In the 2020 valuation, the PubT-2010 pre-retirement, retiree and contingent survivor tables were adopted and for disabled members, PubNS-2010 tables were adopted; all with generational improvement.</p> <p>In the 2015 valuation, assumed life expectancies were adjusted as a result of adopting the RP-2014 mortality tables with generational improvement. In prior years, those assumptions were based on percentages of GRS post termination non-disabled tables and RP-2000 disabled-life tables.</p>

STATE OF NORTH DAKOTA

STATE OF NORTH DAKOTA

Required Supplementary Information Information About the State's Pension and Other Post Employment Benefit Plans For the Fiscal Year Ended June 30, 2020

Met Life Insurance Plan:

Actuarial Cost Method	Entry age normal actuarial cost method was used in the valuation.
Changes of Assumptions	The following changes were made to the actuarial assumptions and methods effecting July 1, 2020: <ul style="list-style-type: none">• The discount rate is 2.66 percent based on the S&P Municipal Bond 20 Year High Grade Rate Index as of June 30, 2020, compared to the prior discount rate of 2.98%.• Mortality was updated from table RP-2-14 adjusted to 2006 and projected using scale MP-2017 to table RP-2014 adjusted to 2006 and projected using scale MP-2019.

Combining Financial Statements

STATE OF NORTH DAKOTA

Nonmajor Governmental Funds

Permanent Fund

A permanent fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used to for the benefit of the government or its citizens.

956-Coal Development Permanent Fund

The Coal Development Fund reports resources that are constitutionally committed for distribution to other state funds and for making loans to energy impacted entities and school districts.

410-Veterans' Postwar Trust Fund

The Veterans' Postwar Trust Fund reports resources that are constitutionally committed to be utilized for programs which must be of benefit and service to veterans, who are defined by legislative enactment, or their dependents.

Capital Projects Fund

A capital projects fund is used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

BUILDING AUTHORITY

960 - Building Authority Capital Projects Fund Account for the acquisition or construction of buildings primarily for use by the State and making any improvements connected to those buildings.

Debt Service Funds

A debt service fund is used to account for accumulation for resources for, and the payment of, principal and interest on long-term debt.

BUILDING AUTHORITY

919 - Building Authority Debt Service Fund

Account for accumulation of resources for, and the payment of, principal and interest on bonds issued by the North Dakota Building Authority.

DEPARTMENT OF TRANSPORTATION

949 - Department of Transportation Debt Service Fund

Account for accumulation of resources for, and the payment of, principal and interest on bonds issued by the Department of Transportation.

STATE OF NORTH DAKOTA

Nonmajor Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises—where the intent of the State is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the State has decided that periodic determination of net income is appropriate for accountability purposes.

BANK OF NORTH DAKOTA

907 – School Construction Assistance Revolving Loan Fund

Fund used to provide low-interest school construction loans.

909 – Small Employer Loan Fund (SELF)

The Small Employer Loan Fund was established by Bank of North Dakota to assist local financial institutions and certified development corporations in providing loans to assist very small North Dakota businesses in their recovery from the negative impacts caused by the COVID-19 pandemic.

459 (914) – Innovation Technology Loan Fund (LIFT)

Fund used to provide loans for commercialization of intellectual property within the State of North Dakota. Industries eligible for loans include advanced computing and data management, agriculture technology, autonomous and unmanned vehicles and related technology, energy, health care, value-added agriculture, value added energy, and any other industry or area identified by the committee that will contribute to the diversification of the state's economy.

934 – Infrastructure Revolving Loan Fund

Fund used to provide loans to political subdivisions for essential infrastructure projects.

954 - Addiction Counselor Internship Loan Program

Fund used to provide loans to qualified individuals participating in a paid or unpaid internship at a licensed substance abuse treatment facility in North Dakota in order to obtain licensure as an addiction counselor.

984 – Medical Facility Infrastructure Loan Program

Fund used to make loans to medical facilities to conduct construction that improves the health care infrastructure in the state or improves access to existing nonprofit health care providers in the state.

985 – Rebuilders Loan Program

Fund used to make loans to North Dakota 2011 flood-damaged homeowners to provide financial assistance needed to repair their home.

BEGINNING FARMER REVOLVING LOAN

973 - Beginning Farmer Revolving Loan Fund

Fund used to make loans to North Dakota beginning farmers for the purchase of agricultural real estate.

BONDING

210 (924) - State Bonding Fund

Fund used to maintain the bonding of public employees and officials of the state, county, city or other unit of local government.

COMMUNITY WATER FACILITY LOAN

974 - Community Water Facility Loan Fund

Accounts for supplementary financing in conjunction with federal moneys available to improve adequate water supplies.

FIRE AND TORNADO

211 (923) - State Fire and Tornado Fund

Accounts for state agencies and political subdivisions to insure against loss to the public buildings, fixtures and permanent contents therein, through fire, lightning, windstorm, etc.

GUARANTEED STUDENT LOAN

969 - North Dakota Guaranteed Student Loan

Accounts for the revenues and expenses associated with the administration, development and operation of the guaranteed loan program.

HIT PLANNING LOAN FUND

987 – HIT Planning Loan Fund

Fund to provide low-interest loans to health care entities to improve health information technology infrastructure.

INFORMATION TECHNOLOGY DEPARTMENT

408 (903) - Edutech Fund

Fund used for professional development sessions and presentations by the Information and Technology Department.

476 (908) – SW Interoperable Radio Network Fund

Fund used for a radio broadcasting system for the state that enables seamless interoperable communications from local, state, and federal levels.

MILL AND ELEVATOR

970 – Mill and Elevator

Accounts for revenues and expenditures associated with the operation of the Mill and Elevator.

PERS UNIFORM GROUP INSURANCE

980 - Public Employees Retirement System Group Insurance

Accounts for the administrative revenues and expenses associated with this insurance purchasing pool.

ROUGH RIDER INDUSTRIES

926 - Roughrider Industries

Accounts for the revenues and expenses associated with the operation, manufacture and sale of products made by the prison inmates.

STATE FAIR

601 (977) - State Fair

Accounts for revenues and expenditures associated with the operation of the State Fair.

STATE LOTTERY FUND

966 (292) - State Lottery Fund

Accounts for operations of the North Dakota lottery.

STUDENT LOAN

975 - North Dakota Student Loan Trust

Accounts for loans to students in post secondary education. The trust acquires eligible loans guaranteed or insured by the United States government or the North Dakota Guaranteed Student Loan Program.

UNEMPLOYMENT COMPENSATION FUND

967 - Job Service-Expendable Trust Fund

Accounts for State unemployment taxes collected from employers for the purpose of paying unemployment benefits.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the State and to other government units, on a cost reimbursement basis.

790 (927) - Central Services

Accounts for the revenues and expenditures associated with central printing and office supply services to state agencies and the Legislative Assembly; a surplus property program for the acquisition, distribution, and disposition of federal and state surplus property and procurement services for all state agencies not exempt by statute.

700 (918) - Fleet Services

Accounts for costs of operating and maintaining State-owned vehicles. Costs are billed to user agencies and include depreciation on equipment.

780 (929) - Information Technology Department

Accounts used for the procurement and maintenance of data processing equipment and supplies and telecommunications equipment and supplies to provide data processing and telecommunications services to state departments and agencies.

288\275 (912) - Risk Management Fund

Fund provides insurance coverage and loss prevention to all state agencies and the University System for tort liability and employee injury claims. Coverage is provided using an optional combination of self-insurance and private excess insurance.

Accounts for prisoner's personal fund.

993 - Youth Correctional Center Student Accounts

Account for the student's personal funds.

994 - School for the Deaf Students

Account for the students personal funds.

TAX COLLECTION

434 - City Lodging Tax Suspense

Accounts for city lodging tax collected by the State Tax Commissioner.

435 - City Sales Tax Suspense

Accounts for city sales and use taxes collected by the State Tax Commission.

437 - City Motor Vehicle Rental Tax

Accounts for city motor vehicle rental tax collected by the state tax commissioner.

438 - City Restaurant and Lodge Tax Suspense

A city tax, at a rate not to exceed one percent, upon the gross receipts of retailers on the leasing or renting of hotel, motel, or tourist court accommodations within the city and gross receipts of a restaurant from any sales of prepared food or beverages, not including alcoholic beverages for consumption off the premises where purchased is collected by the State Tax Commissioner. Proceeds, net of a 3% administrative fee which is deposited into the general fund, are remitted quarterly to each city collecting the tax.

Pledged revenues include student fees, auxiliary revenues, sales, tax revenue, investment income and debt service grants.

NOTE: Gross revenues include nonoperating interest income. Operating expenses do not include bond interest or depreciation expenses.

Schedule 9
Legal Debt Limit
Fiscal Year Ending June 30, 2020

The state may issue or guarantee the payment of bonds, provided that all bonds in excess of two million dollars shall be secured by first mortgage upon real estate in amounts not to exceed sixty-five percent of its value; or upon real and personal property of state-owned utilities, enterprises, or industries, in amounts not exceeding its value, and provided further, that the state shall not issue or guarantee bonds upon property of state-owned utilities, enterprises, or industries in excess of ten million dollars.

No further indebtedness shall be incurred by the state unless evidenced by a bond issue, which shall be authorized by law for certain purposes, to be clearly defined. Every law authorizing a bond issue shall provide for levying an annual tax, or make other provision, sufficient to pay the interest semiannually, and the principal within thirty years from the date of the issue of such bonds and shall specially appropriate the proceeds of such tax, or of such other provisions to the payment of said principal and interest, and such appropriation shall not be repealed nor the tax or other provisions discontinued until such debt, both principal and interest, shall have been paid. No debt in excess of the limit named herein shall be incurred except for the purpose of repelling invasion, suppressing insurrection, defending the state in time of war or to provide for the public defense in case of threatened hostilities.

The State is in compliance with the Legal Debt Margin.

Source: North Dakota Constitution, Art. X, Section 13.

The State of North Dakota has had no General Obligation Bonded Debt since Fiscal Year 1998. No Schedule of Ratios of General Bonded Debt is being presented.

Schedule 17
Claims Development Information
Last Ten Fiscal Years

The following tables illustrate how the individual funds' earned revenues and investment income compare to related costs of loss and other expenses assumed by the funds as of the end of each of the last ten years. The rows of the tables are defined as follows: (1) This line shows the total of each fiscal year's earned contribution revenues and investment revenues. (2) This line shows each fiscal year's other operation costs of the fund including overhead and claims expense not allocable to individual claims. (3) This line shows the funds' incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year). (4) This section of 10 columns shows the cumulative amounts paid as of the end of successive years for each policy year. (5) This section of 10 columns shows how each policy year's incurred claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received regarding unknown claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known. (6) This line compares the latest re-estimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the tables show data for successive policy years (expressed in thousands).
