INDEPENDENT AUDITOR'S REPORT

Governing Board Dunn County Manning, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Dunn County, Manning, North Dakota, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the county's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the county's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the county's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Dunn County, Manning, North Dakota, as of December 31, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 9, budgeting comparison information on pages 32 through 35, and the schedule of employer's share of net pension liability on page 36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the county's basic financial statements. The schedule of fund activity is presented for additional analysis and is not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is also not a required part of the basic financial statements.

The schedule of fund activity and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of fund activity and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated April 13, 2018 on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the county's internal control over financial reporting and compliance.

DUNN COUNTY

Management's Discussion and Analysis

December 31, 2017

The Management's Discussion and Analysis (MD&A) of Dunn County's financial performance provides an overall review of the county's financial activities for the fiscal year ended December 31, 2017. The intent of the MD&A is to look at the county's financial performance as a whole. It should, therefore, be read in conjunction with the basic financial statements and related notes.

The MD&A is a new element of the Required Supplementary Information specified in the Government Accounting Standards Board's (GASB) Statement No. 34 "Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments". Certain comparative information between the current fiscal year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the year ended December 31, 2017 are as follows:

- * Net position of the county increased \$11,212,235 as a result of the current year's operations.
- * Governmental net position as of the end of the fiscal year totaled \$45,838,926.
- * Total revenues from all sources were \$33,626,702.
- * Total expenses were \$22,414,468.
- * The county's general fund had \$22,412,231 in total revenues and \$3,816,158 in total expenditures. There was a total of \$12,639,523 paid from other financing uses. Overall, the general fund balance increased by \$5,956,550 for the year ended December 31, 2017.

USING THIS ANNUAL REPORT

This annual financial report consists of a series of statements and related footnotes. These statements are organized so that the reader can understand the county as a financial whole. The statements then proceed to provide an increasingly detailed look at financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole county, presenting both an aggregate view of the county's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. These statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the county's general fund, county road and bridge fund and capital improvements fund with all other governmental funds presented in total in one column.

REPORTING ON THE COUNTY AS A WHOLE

Statement of Net Position and Statement of Activities

These statements are summaries of all the funds used by the county to provide programs and activities and attempt to answer the question "How did the county do financially during the year ended December 31, 2017?"

The Statement of Net Position presents information on all the county's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the county is improving or deteriorating.

The Statement of Activities presents information on how the county's net position changed during the fiscal year. This statement is presented using the accrual basis of accounting, which means that all changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (for example, uncollected taxes and earned but unused sick leave and/or vacation leave).

These two statements report the county's net position and changes in that position. This change in net position is important because it tells the reader whether, for the county as a whole, the financial position of the county has improved or deteriorated. The causes of this change may be the result of many factors, some financial and some not.

In the Statement of Net Position and the Statement of Activities, the county reports governmental activities. Governmental activities are the activities where most of the county's programs and services are reported including, but not limited to, general government, public safety, highways and public improvement, health and welfare, culture and recreation, and conservation and economic development.

REPORTING ON THE COUNTY'S MOST SIGNIFICANT FUNDS

Balance Sheet - Governmental Funds

The county uses separate funds to account for and manage money dedicated for particular purposes (e.g. taxes collected from special mill levies and funds received from grants and donations). The fund basis financial statements allow the county to demonstrate its stewardship over and accountability for resources provided by taxpayers and other entities. Fund financial statements provide detailed information about the county's major funds. Using the criteria established by GASB Statement No. 34, the county's general fund, county road and bridge fund and capital improvements fund are considered "major funds".

The county's other funds, which are used to account for a multitude of financial transactions, are summarized under the heading "Other Governmental Funds".

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Table I provides a summary of the county's net position as of December 31, 2017. A comparative analysis of county-wide data is presented for both current and prior year.

As indicated in the financial highlights above, the county's net position increased by \$11,212,235 for the year ended December 31, 2017. Changes in net position may serve over time as a useful indicator of the county's financial position.

The county's net position of \$45,838,926 is segregated into three separate categories. Net investment in capital assets totals \$16,016,865 of the county's total net position. It should be noted that these assets are not available for future spending. The restricted component of net position is \$12,286,416 of the county's total net position and represents resources that are subject to external restrictions on how they must be spent. The remaining unrestricted component of net position is \$17,535,645, which includes (\$2,470,959) relating to the reporting of it's share of the unfunded liability for the North Dakota Public Employees Retirement System as required by GASB Statement No. 68. The net amount of \$20,006,604 is available to meet the county's ongoing obligations.

Property taxes constituted 8%, other taxes 62%, unrestricted federal aid 17%, operating grants and contributions 5%, and charges for services made up 6% of the total revenues of governmental activities of the county for the fiscal year ended December 31, 2017.

General government constituted 21%, public safety 12%, highways and public improvement 60%, and health and welfare 2% of total expenses for governmental activities during the fiscal year ended December 31, 2017.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table III shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and other unrestricted revenues.

Total Expenses	22,414,468	18,565,219

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

The purpose of the county's governmental funds is to provide information on the near-term inflows, outflows and balances of available resources. Unassigned fund balance generally can be used as a measure of the county's net resources available for spending as of the end of the fiscal year. These funds are accounted for using the modified accrual basis of accounting. The county's governmental funds had total revenue of \$33,539,508 and expenditures of \$24,918,972 for the year ended December 31, 2017. As of December 31, 2017, the unassigned fund balance of the county's general fund was \$20,175,699 and total unassigned balances for all the county's governmental funds was \$20,137,543.

GENERAL FUND BUDGET HIGHLIGHTS

During the course of fiscal year 2017, the county did not amend the general fund budget.

Actual revenue for the year ended December 31, 2017 was \$3,592,267 more than budgeted. The majority of the budget variance is due to the county receiving more in oil and gas production taxes than the total estimated in the county's budget. Actual expenditures for the year ended December 31, 2017 were under budget by \$119,986.

CAPITAL ASSETS

As of December 31, 2017, the county had \$16,016,865 invested in capital assets. Table IV shows the balances as of December 31, 2017.

Table IV
Capital Assets
(Net of Accumulated Depreciation)
As of December 31, 2017
(With comparative totals for December 31, 2016)

	2017	2016
Land Construction in Progress Buildings Machinery and Vehicles	254,310 3,063,716 6,523,214 6,175,625	254,310 6,623,372 6,298,022
Total (net of depreciation)	16,016,865	13,175,704

This total represents an increase of \$2,841,161 in capital assets from January 1, 2017. During the year, the county began a courthouse renovation project. Also, the county purchased various equipment and vehicles for the sheriff, weed control and highway departments. For a detailed breakdown of the additions and deletions to capital assets, readers are referred to Note 5 to the audited financial statements which follow this analysis.

DEBT ADMINISTRATION

As of December 31, 2017, the county had \$378,981 in outstanding debt. During fiscal year 2017, the county issued no new long-term debt obligations.

For a detailed breakdown of the long-term debt, readers are referred to Note 8 to the audited financial statements which follow this analysis.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our taxpayers and creditors with a general overview of the county's finances and to show the county's accountability for the money it receives. Anyone who has questions about information contained in this report or who is interested in receiving additional information is encouraged to contact Tracey Dolezal, County Auditor/Treasurer, Dunn County, Manning, ND 58642.

Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Position For the Year Ended December 31, 2017

Total Fund Balances for Governmental Funds		32,630,310.48
Total net position reported for government activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and are not reported in the governmental funds.		
Cost of Capital Assets Less Accumulated Depreciation	22,912,665.00 (6,895,800.00)	
Net Capital Assets		16,016,865.00
Property taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and therefore are reported as unavailable revenue in the funds.		41,690.22
The deferred outflows and inflows of resources reported on the statement of net position are the result of changes in resources related to pensions and do not affect current financial resources.		
Total Deferred Outflows of Resources Total Deferred Inflows of Resources	1,426,404.00 (216,922.00)	
Net Deferred Outflows/Inflows of Resources		1,209,482.00
Long-term liabilities applicable to the county's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities -both current and long-term- are reported in the statement of net position. Balances at December 31, 2017 are:		
Compensated Absences Payable Net Pension Liability	(378,980.54) (3,680,441.00)	
Total Long-Term Liabilities	<u></u>	(4,059,421.54)
Total Net Position of Governmental Activities		45,838,926.16

			-		•

Reconciliation of Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

For the Year Ended December 31, 2017

Net Change in Fund Balances - Total Governmental Funds		8,620,536.32
The change in net position reported for governmental activities in the statement of activities is different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current year.		
Current Year Capital Outlay Current Year Depreciation Expense	4,104,792.00 (1,348,065.00)	2,756,727.00
Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds.		
Net Increase in Compensated Absences Net Increase to Pension Expense	(1,464.45) (250,758.00)	(252,222.45)
Some revenues reported on the statement of activities are not reported as revenues in the governmental funds since they do not represent available resources to pay current expenditures.		
Net Increase in Taxes Receivable		2,759.63
In the statement of activities, only the gain on the trade-in of capital assets is reported, whereas in the governmental funds, the result of this transaction has no effect on financial resources.		
Thus, the net effect of transactions involving capital assets (i.e., sales, trade-ins) is to increase net position.		84,434.00
Change in Net Position of Governmental Activities		11,212,234.50

Statement of Fiduciary Assets and Liabilities Agency Funds December 31, 2017

	Agency Funds

<u>Liabilities</u> : Due to Other Governments	1,648,806.74

Notes to the Financial Statements December 31, 2017

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Dunn County have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Financial Reporting Entity

The accompanying financial statements present the activities of the county. The county has considered all potential component units for which the county is financially accountable and other organizations for which the nature and significance of their relationships with the county are such that exclusion would cause the county's financial statements to be misleading or incomplete. The Government Accounting Standards Board has set forth criteria to be considered in determining financial accountability. This criteria includes appointing a voting majority of an organization's governing body and (1) the ability of the county to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on Dunn County.

Based on these criteria, the component units discussed below are included within the county's reporting entity because of the significance of its operational or financial relationship with the county.

<u>Discretely Presented Component Units</u>: The component units' columns in the basic financial statements include the financial data of the county's three component units. These units are reported in separate columns to emphasize that they are legally separate from the county.

<u>Dunn County Water Resource District</u>: The Dunn County Water Resource District's governing board is appointed by the county's governing board. The county's governing body has the authority to disapprove, amend, or approve the water resource district budget. The water resource district has the authority to issue its own debt.

<u>Dunn County Job Development Authority</u>: The Dunn County Job Development Authority's governing board is appointed by the county's governing board. The county's governing body has the authority to disapprove, amend, or approve the job development authority budget. The job development authority has the authority to issue its own debt.

<u>Dunn County Airport Authority</u>: The Dunn County Airport Authority's governing board is appointed by the county's governing board. The county's governing body has the authority to disapprove, amend, or approve the airport authority budget. The airport authority has the authority to issue its own debt.

The financial statements of each of the three discretely presented component units are presented in the basic financial statements. Additional information may be obtained from the Dunn County Auditor/Treasurer; 205 Owens Street; Manning, ND 58642.

B. Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities display information about the primary government, Dunn County and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the county's governmental activities. Direct expenses are those that are specifically associated with program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the county's funds including its fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The county reports the following major governmental funds:

General Fund. This is the county's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

County Road and Bridge. This is the county's primary road maintenance fund. It accounts for all financial resources related to highway maintenance, except those required to be accounted for in another fund.

Capital Improvements. This fund accounts for the accumulation of resources, derived mainly from federal mineral royalties used for the planning, construction, and maintenance of public facilities and the provision of public services.

The county reports the following fund type:

Agency Funds. These funds account for assets held by the county in a custodial capacity as an agent on behalf of others. The county's agency funds are used to account for various deposits of other governments.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-wide and Fiduciary Fund Financial Statements: The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus. These financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the county gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The county considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. All revenues are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the county funds certain programs by a combination of specific cost-reimbursements grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted components of net position available to finance the program. It is the county's policy to first apply cost-reimbursement grant resources to such programs, and then by general revenues.

D. Cash and Investments

Cash includes amounts in demand deposits and money market accounts.

Investments consist of certificates of deposit stated at cost and investments in Federal Government Agencies, municipal bonds and commercial paper.

E. Capital Assets

Capital assets include plant and equipment. Assets are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the county as assets with an initial, individual cost of \$5,000 or more. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction phase of capital assets is not capitalized.

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Buildings 40 to 75 years Machinery and Vehicles 5 to 10 years

F. Compensated Absences

Vested or accumulated vacation leave and sick leave are reported in the government-wide statement of net position. The county allows employees to accumulate a maximum of 240 hours of vacation leave and an unlimited amount of sick leave. Regular full-time employees are granted vacation leave based on years of service and are granted 8 hours of sick leave per month. Upon termination of employment, employees are paid for unused vacation benefits and 25% of all unused sick leave through the last day of work.

G. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums, discounts and issuance costs are recognized in the current period since the amounts are not material.

In the fund financial statements, governmental fund types recognize bond premiums, discounts and issuance costs in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

H. Pension

For purposes of measuring net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS); additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

I. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance - Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the county is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

Nonspendable - Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash such as inventories or prepaid expenses) or (b) legally or contractually required to be maintained intact (i.e., endowment funds).

Restricted - Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the county or through external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments (i.e., funds restricted by state statute, unspent bond proceeds, grants earned but not spent, debt covenants or taxes raised for a specific purpose).

Committed - Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the county commission through the adoption of a resolution. The county commission also may modify or rescind the commitment.

Assigned - Fund balances are reported as assigned when amounts are constrained by the county's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned - Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The county reports positive unassigned fund balance only in the general fund. Negative fund balances may be reported in all funds.

Flow Assumptions - When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the county's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the county's policy to use fund balance in the following order:

- * Committed
- * Assigned
- * Unassigned

Net Position - Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the county has not spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted as described in the fund balance section above. All other net position is reported as unrestricted.

J. Interfund Transactions

In the governmental fund statements, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

All other interfund transactions, except reimbursements, are reported as transfers.

In the government-wide financial statements, interfund transactions have been eliminated.

K. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

Note 2 DEPOSITS AND INVESTMENTS

In accordance with North Dakota Statutes, the county maintains deposits at the depository banks designated by the governing board. All depositories are members of the Federal Reserve System.

Deposits must either be deposited with the Bank of North Dakota or in other financial institutions situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, Federal Land Bank bonds, bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investments companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the State of North Dakota, its boards, agencies or instrumentalities or by any county, city, township, school district, park district or any other political subdivision of the State of North Dakota, whether payable from special revenues or supported by the full faith and credit of the issuing body and bonds issued by another state of the United States or other securities approved by the banking board.

At December 31, 2017 the county's carrying amount of deposits was \$34,605,288 and the bank balance was \$34,791,427. Of the bank balance, \$866,880 was covered by Federal Depository Insurance. Of the remaining balance, \$26,459,909 was collateralized with securities held by the pledging financial institution's agent in the government's name and \$7,464,638 was invested in investments authorized by the North Dakota Century Code and are considered uncollateralized.

Credit Risk

The county may invest idle funds as authorized in North Dakota Statutes, as follows:

- (1) Bonds, treasury bills and notes, or other securities that are a direct obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities or organizations created by an act of Congress.
- (2) Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above.
- (3) Certificates of deposit fully insured by the federal deposit insurance corporation.
- (4) Obligations of the State.

At December 31, 2017 the county held certificates of deposit in the amount of \$7,800,000 and \$7,464,638 in other investments as allowed by the century code, which are all considered deposits.

Concentration of Credit Risk

The county does not have a limit on the amount the county may invest in any one issuer.

Note 3 TAXES RECEIVABLE

Taxes receivable represents the past two years of uncollected current and delinquent taxes. No allowance has been established for uncollectible taxes and special assessment receivables.

The county treasurer acts as an agent to collect property taxes levied in the county for all taxing authorities. Any material tax collections are distributed after the end of each month.

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments and the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Most property owners choose to pay property taxes and special assessments in a single payment on or before February 15 and receive the discount on the property taxes.

Note 4 INTERFUND RECEIVABLE/PAYABLE

Interfund receivable/payable is created by a negative cash balances in various funds. The amount shown as interfund payables represent the amount of negative cash in these funds. Interfund receivable/payables for the year ended December 31, 2017 are as follows:

	Receivable <u>Fund</u>	Payable Fund
General Fund Homeland Security Grants Vision West	38,156.13	32,558.19 5,597.94

Note 5 CAPITAL ASSETS

The following is a summary of changes in capital assets for the year ended December 31, 2017:

Governmental Activities:	Balance January 1	Increases	Decreases	Balance December 31
Capital assets not being depreciated:				
Land	254,310			254,310
Construction in Progress		3,063,716		3,063,716
Total	254,310	3,063,716		3,318,026
Capital assets being depreciated:				
Buildings Machinery & Vehicles	7,464,335 11,731,008	1,399,376	1,000,080	7,464,335 12,130,304
Total	19,195,343	1,399,376	1,000,080	19,594,639
Less accumulated depreciation for:				
Buildings Machinery & Vehicles	840,963 5,432,986	100,158 1,247,907	726,214	941,121 5,954,679
Total	6,273,949	1,348,065	726,527	6,895,800
Total capital assets being depreciated, net	12,921,394	51,311	273,866	12,698,839
Governmental Activities Capital Assets, Net	13,175,704	3,115,027	273,866	16,016,865

Depreciation expense was charged to functions/programs of the county as follows:

General Government	19,068
Public Safety	195,600
Highways and Public Improve.	1,052,268
Health and Welfare	23,688
Conser. and Economic Dvlpmnt.	43,226
Other	14,215
Total Depreciation Expense	1,348,065
	========

The following is a summary of changes in capital assets reported in the component unit for the year ended December 31, 2017:

Airport Authority

	Balance January 1	Increases		Balance <u>December 31</u>
Discretely Presented: Component Unit: Capital assets not being depreciated:				
Land Construction in	159,000			159,000
Progress	536,740	74,560	611,300	
Total	695,740	74,560	611,300	159,000
Capital assets being depreciated:				
Buildings and Infrastructure Machinery & Vehicles	5,755,485 15,700	611,300		6,366,785 15,700
Total	5,771,185	611,300		6,382,485
Less accumulated depreciation for:

Total	564,421	588,873		1,153,294
Total capital assets being depreciated, net	5,206,764	22,427		5,229,191
Discretely Presented Component Unit				
Capital Assets, Net	5,902,504	96,987	611,300	5,388,191 ========

Depreciation expense was charged to the discretely presented component unit as follows:

Airport Authority

588,873 ======

Note 6 INTEREST PAYABLE

Interest payable consists of interest on long-term liabilities accrued to December 31, 2017.

Note 7 UNAVAILABLE REVENUE

Unavailable revenue on the fund financial statements consists of amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable but not available and include taxes receivable and prepaid property taxes.

Unavailable revenue on the government-wide financial statements consists of prepaid property taxes.

Note 8 LONG TERM DEBT

Changes in Long-Term Liabilities. During the year ended December 31, 2017, the following changes occurred in liabilities reported in the long-term liabilities - Governmental Activities:

	Balance			Balance	Due Within
	January 1	<u>Increases</u>	Decreases	December 31	One Year
Compensated					
Absences	377,516	1,465	- O	378,981	-0-
		========	========	========	

^{*} The change in compensated absences is shown as a net change because changes in salary prohibit exact calculations of increases and decreases.

Component Unit Debt

Changes in Long-Term Liabilities. During the year ended December 31, 2017, the following changes occurred in liabilities reported in the long-term liabilities - Component Unit:

<u>Jan</u>	uary 1 Inc	creases <u>De</u>	ecreases Decem	ber 31	One Year
Bank Loan Payable 3	75,222	-0-	42,455 33	2,767	39,547

<u>General Obligation Debt</u>. General obligation debt is a direct obligation and pledges the full faith and credit of the government. General obligation debt outstanding at December 31, 2017, is as follows:

<u>Bank Loan Payable</u>. The airport authority has entered into a loan agreement with American Bank Center for the construction of an airport hangar.

\$375,221.68 Bank Loan with American Bank Center, due in annual installments of \$50,000 through June 1, 2026; payments include interest at 3.15%.

332,767.05

The annual payments to amortize the outstanding bank loan payable are as follows:

Year Ending		
December 31	<u> Principal</u>	<u> Interest</u>
	•	
2018	39,546.96	10,453.04
2019	40,635.28	9,364.72
2020	41,933.07	8,066.93
2021	43,272.31	6,727.69
2022	44,654.32	5,345.68
2023-2025	122,725.11	7,296.51
Total	332,767.05	47,254.57
	========	========

Note 9 TRANSFERS

The following is a reconciliation between transfers in and transfers out as reported in the basic financial statements for the year ended December 31, 2017:

Fund	Transfer In	Transfer Out
General Fund Sheriff Grants	265,376.69	265,376.69
County Road and Bridge Farm to Market	21,477.16	21,477.16
Insurance Reserve Group Health Insurance Social Security General Fund	75,759.91 1,082,517.61 760,622.00	1,918,899.52
To close funds.		
County Road and Bridge Special Roads Human Services SW Correction Center Weed Control Disaster Emergency Services General Fund	10,000,000.00 700,000.00 160,000.00 100,000.00 10,000.00 16,000.00	10,986,000.00
Farm to Market County Road and Bridge	4,469.60	4,469.60
To subsidize expenditures.		

Note 10 DEFICIT FUND BALANCES

The following funds had a deficit balance as of December 31, 2017:

Special Revenue Funds
Homeland Security (32,558.19)
Vision West (5,597.94)

The county plans to eliminate these deficit balances with future revenue collections and/or transfers from other funds.

Note 11 RELATED ORGANIZATIONS

The county is also responsible for levying a property tax for the Dunn County Senior Citizens and Dunn County Historical Society. However, the county's accountability for these entities does not extend beyond levying the tax. In 2017, the county remitted \$25,675.00 to the senior citizens and \$15,465.74 to the historical society.

Note 12 RISK MANAGEMENT

Dunn County is exposed to various risks of loss relating to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, state agencies and political subdivisions of the State of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDIRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The county pays an annual premium to NDIRF for its general liability, automobile and public assets insurance coverage. The coverage by NDIRF is limited to losses of \$3,000,000 per occurrence for general liability and automobile; and \$5,497,600 for public assets.

The county also participates in the North Dakota Fire and Tornado Fund and the State Bonding Fund. The county pays an annual premium to the Fire and Tornado Fund to cover property damage to buildings and personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The Fire and Tornado Fund is reinsured by a third party insurance carrier for losses in excess of \$1,000,000 per occurrence during a 12 month period. The State Bonding Fund currently provides the county with a blanket fidelity bond coverage in the amount of \$2,000,000 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

The county has worker's compensation with the Department of Workforce Safety and Insurance; and purchases commercial insurance for employee health and accident insurance.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

Note 13 PENSION PLAN

North Dakota Public Employees Retirement System (Main System)

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the NDPERS plan is financed by investment income and contributions.

Responsibility for administration of the NDPERS benefits program is assigned to a Board comprised of seven members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by active membership of the NDPERS system; and one member elected by the retired public employees.

Pension Benefits

Benefits are set by statute. NDPERS has no provision or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition of disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of covered compensation. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25 and the maximum may not exceed the following:

- 1 to 12 months of service -Greater of one percent of monthly salary or \$25
- 13 to 25 months of service Greater of two percent of monthly salary or \$25
- 25 to 36 months of service Greater of three percent of monthly salary or \$25

Longer than 36 months of service -Greater of four percent of monthly salary or \$25

Pension Liabilities, Pension Expense; and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2017, Dunn County reported a liability of \$3,680,441 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The county's proportion of the net pension liability was based on the county's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2016 the county's proportion was .377637 percent, which was an increase of .006711 from its proportion measured as of June 30, 2015.

For the year ended December 31, 2017 the county recognized pension expense of \$546,302. At December 31, 2017 the county reported deferred outflows of resources and deferred inflows of resources related to pensions, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	55,288	34,078
Changes in assumptions	339,290	182,844
Net difference between projected and actual earnings on pension plan investments	513,475	
Changes in proportion and differences between employer contributions and proportionate share of contributions	e 240,055	
County contributions subsequent to the measurement date (see below)	278,296	
Total	1,426,404	216,922
	=========	=========

\$278,296 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended	
June 30:	
2018	182,365
2019	182,365
2020	294,378
2021	208,563
2022	63,515
Thereafter	0

Actuarial assumptions. The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.50%
Salary increases	4.50% per annum
Investment rate of return	8.00%, net of investment expenses.
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Retiree Morality Table with ages set back one year for males (not set back for females) multiplied by 125%.

The actuarial assumptions used were based on the results of an actuarial experience study completed in 2015. They are the same as the assumptions used in the July 1, 2016, funding actuarial valuation for NDPERS.

As a result of the 2015 actuarial experience study, the NDPERS Board adopted several changes to the actuarial assumptions effective July 1, 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the fund's target asset allocation are summarized in the following table:

Target	Long-Term Expected Real
	Rate of Return
HITOCACEON	Race of Resulti
238	6.90%
218	7 . 55%
5%	11.30%
1.7%	1.52%
5%	0.45%
20%	5.38%
1%	0.00%
	Target Allocation 31% 21% 5% 17% 5% 20%

Discount rate. The discount rate used to measure the total pension liability was 8 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2016, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2016.

Sensitivity of the county's proportionate share of the net pension liability to changes in the discount rate. The following presents the county's proportionate share of the net pension liability calculated using the discount rate of 8 percent, as well as what the county's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7 percent) or 1-percentage-point higher (9 percent) than the current rate:

	1% Decrease (7%)	Current Rate (8%)	1% Increase (9%)
_			
The county's			
proportionate share of the net pension liability	5,220,634	3,680,441	2,382,748

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report.

Notes to the Budgetary Comparison Schedules December 31, 2017

Note 1 SUMMARY OF SIGNIFICANT BUDGET POLICIES

Annually, the board of county commissioners provides each office a department budget. The departments complete their budget and file it with the county auditor. Based upon the departmental budget requests and other financial information, the county auditor prepares the preliminary county budget. The budget is prepared for the general and special revenue funds on the modified accrual basis of accounting. The preliminary budget includes the proposed expenditures and the means of financing them. All annual appropriations lapse at year-end.

The board of county commissioners holds a public hearing where any taxpayer may testify in favor or against any proposed expenditures or tax levies requested in the preliminary budget. After the budget hearing and on or before the October meeting, the board adopts the final budget and shall determine the amount of taxes that shall be levied for county purposes and shall levy all such taxes in specific amounts. No expenditure shall be made or liability incurred in excess of the total appropriation by fund, except for transfers as authorized by the North Dakota Century Code Section 11-23-07. However, the board of county commissioners may amend the budget, except for property taxes, during the year for any revenues and appropriations not anticipated at the time the budget was prepared. The budget amendments must be approved by the board and the approval must be noted in the proceedings of the board.

Note 2 LEGAL COMPLIANCE

The governing board approved the following amendments to the county's budget for the year ending December 31, 2017:

	Original Budqet	Amendment	Amended Budget
		Appropriations	
Special Revenue Funds			
Human Services SW Correction Center County Park Group Health Ins.	724,042 269,833 6,500 1,250,000	23,802 42,497 4,873 124,731	747,844 312,330 11,373 1,374,731

Excess of Actual Expenditures Over Budget

Expenditures exceeded budget in the following funds for the year ending December 31, 2017:

Special Revenue Funds	
Insurance Reserve	218,954.63
Social Security	120,888.50
Emergency 911	3,109.45
County Historical Society	1,004.74
Senior Citizens	720.00
* Homeland Security	8,934.56
* Sheriff Grants	20,853.41
* 24/7 Fees	27,304.50
* Vision West	58,083.08

^{*} A budget was not prepared for these funds.

No remedial action is anticipated or required by the county regarding these excess expenditures.

Schedule of Employer's Share of Net Pension Liability ND Public Employees Retirement System Last 10 Fiscal Years*

	2017	2016	2015
County's proportion of the net pension liability	0.377637%	0.370926%	0.332484%
County's proportionate share of the net pension liability	3,680,441	2,522,233	2,110,347
County's covered-employee payroll	3,822,839	3,441,937	3,259,460
County's proportionate share of the net pension liability as a percentage of its covered-employee payroll	96.28%	73.28%	64.75%
Plan fiduciary net position as a percentage of the total pension liability	70.46%	77.15%	77.70%

Schedule of Employer Contributions ND Public Employees Retirement System Last 10 Fiscal Years*

	2017	2016	2015
Statutorily required contribution	272,186	245,066	214,667
Contributions in relation to the statutorily required contribution	(272,186)	(245,066)	(214,667)
Contribution deficiency (excess)	0	0	0
County's covered-employee payroll	3,822,839	3,441,937	3,259,460
Contributions as a percentage of covered-employee payroll	7.12%	7.12%	6.59%

^{*} Complete data for this schedule is not available prior to 2015.

⁻ For changes of assumptions, see Note 13 to the financial statements.

Schedule of Fund Activity For the Year Ended December 31, 2017

	Balance 1-1-17	Revenues	Transfers In	Transfers Out	Expenditures	Balance 12-31-17

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Governing Board Dunn County Manning, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Dunn County, Manning, North Dakota, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the county's basic financial statements, and have issued our report thereon dated April 13, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the county's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the county's internal control. Accordingly, we do not express an opinion on the effectiveness of the county's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the county's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the county's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the county's internal control or on compliance. This is an integral part of an audit performed in accordance with Government Auditing Standards in considering the county's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT

Governing Board Dunn County Manning, North Dakota

Report on Compliance for Each Major Federal Program

We have audited Dunn County's compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the county's major federal programs for the year ended December 31, 2017. The county's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and responses.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to each of its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the county's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the county's compliance.

Opinion on Each Major Federal Program

In our opinion, the county complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2017.

Report on Internal Control Over Compliance

Management of Dunn County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the county's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the county's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
