# **INDEPENDENT AUDITOR'S REPORT**

City Council City of Fairmount Fairmount, North Dakota

#### **Report on the Financial Statements**

We have audited the accompanying modified cash basis financial statements of the governmental activities, business-type activities, and each major fund of the City of Fairmount, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City of Fairmount's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

City of Fairmount's management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, business-type activities, and each major fund, of the City of Fairmount, as of December 31, 2017 and the respective changes in modified cash basis financial position for the year then ended in accordance with the modified cash basis of accounting as described in Note 1.

#### **Basis of Accounting**

We draw attention to Note 1 of the financial statements, which describe the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule – general fund, budgetary comparison schedule – street fund, and notes to required supplementary information, as listed on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

The official directory has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2018 on our consideration of the City of Fairmount's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on internal control over financial report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Fairmount's internal control over financial reporting and compliance.

# MANAGEMENT DISCUSSION AND ANALYSIS Year Ended December 31, 2017

The Management's Discussion and Analysis (MD&A) of the City of Fairmount's financial performance provides an overall review of the City's financial activities for the fiscal year ended December 31, 2017, with comparative data for the fiscal year ended December 31, 2016. The intent of the MD&A is to look at the City's financial performance as a whole. It should, therefore, be read in conjunction with the basic financial statements and related notes.

# **Financial Highlights**

Key financial highlights for the year ended December 31, 2017 are as follows:

The City updated the city hall meeting room by removing paneling and installing sheetrock, new carpet and trim. A grant was approved for the City in the amount of \$10,000 for removal the removal and planting of trees. The water tower stand pipe was replaced for \$59,000 and FUOSV requested to add new LP tanks to their bulk site.

# **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of the following three components:

- 1. Government-wide financial statements provide information for the City as a whole.
- 2. Fund financial statements provide detailed information for the City's significant funds.
- 3. Notes to the financial statements provide additional information that is essential to understanding the government-wide and fund statements.

This report also contains other supplementary information in addition to the basic financial statements.

# **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the City of Fairmount's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information on how the City's net position changed during the most recent fiscal year. This statement is presented using the modified cash basis of accounting which is a basis of accounting other than accounting principles generally accepted in the United States of America. Both the statement of net position and the statement of activities present information as follows:

- 1. Governmental activities this includes most of the City's basic services, which are primarily supported by property and sales taxes, interest income, user fees, and intergovernmental revenues.
- 2. Business-type activities this includes those services which are intended to recover all or a significant part of their costs through user fees.

The government-wide financial statements can be found on pages 9-10 of this report.

# **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Fairmount, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements provide detailed information about the City's significant funds – not the City as a whole. The City's funds can be divided into two categories: governmental funds and proprietary funds.

# **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The governmental fund statements provide a detailed short-term view of the government operations and the basic services it provides, and are reported on the modified cash basis of accounting which focuses on available expendable resources. This allows the reader to evaluate the City's short-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate the comparison between the governmental funds and the government-wide financial statements.

The City maintains two individual governmental funds. Information is presented separately in the governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balance for the general fund and the street fund which are major funds.

The basic governmental fund financial statements can be found on pages 11-14 of this report.

The City adopts an annual budget for the general and street funds. Budgetary comparison statements have been provided to demonstrate compliance. The budgetary comparison schedules can be found on pages 27-28 of this report.

# **Proprietary Funds**

The City maintains one type of proprietary fund. Enterprise funds are used to report activities that charge for services it provides to outside customers. The enterprise funds are presented as business-type activities in the government-wide statements. The City uses enterprise funds to account for its water, sewer and garbage operations. Proprietary funds statements provide the same type of information as the government-wide statements, only in more detail. The water, sewer and garbage funds are considered major funds.

The basic proprietary fund statements can be found on pages 15-17 of this report.

# Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18-26 of this report.

# Financial Analysis of the City as a Whole

Table I provides a summary of the City's net position as of December 31, 2017 and 2016. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Fairmount, net position increased by \$142,473 for the year ending December 31, 2017.

The City's net position at December 31, 2017 is segregated into three separate categories. Net position invested in capital assets (net of related debt) are not available for future spending. Restricted net position represents resources that are subject to external restrictions on how they must be spent. The remaining unrestricted net positions are available to meet the City's ongoing obligations.

# Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the City's financing requirements.

In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current year, the City's governmental funds reported combined ending fund balances of \$289,520.

The general fund is the chief operating fund of the City. At the end of the current year, unassigned fund balance of the general fund was \$289,520. The fund balance of the City's general fund increased by \$76,750.

#### **Proprietary Funds**

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was \$157,269.

#### **General Fund Budgetary Highlights**

For the year ending December 31, 2017, general fund revenues were more than budgetary estimates by \$144,713 and expenditures were more than budgetary estimates by \$23,003. Excess revenues from sales taxes and expenditures related to facilities acquisition and construction were the primary difference between budgeted amounts.

Additional information on the City of Fairmount's budget can be found in Note 10 of the audited financial statements that follow this analysis.

#### **Capital Assets**

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2017, amounts to \$1,661,713 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, equipment and infrastructure. For the current year, capital assets increased by \$12,605. Major capital asset events during the current fiscal year included a siren and water tower improvements.

			Cap		III assets er 31,								
	 Government	rnmental Activities Business-Type Activities				ivities	Total						
	 2017		2016		2017		2016		2017		2016

Total Capital Assets	\$ 236,344	\$	233,056	\$	1,425,369	\$	1,4 16,0 52	\$	1,661,713	\$	1,649,108		

Additional information can be found in Note 5 of the financial statements.

#### **Debt Administration**

As of December 31, 2017 the City had \$661,000 of total debt, a decrease of \$105,000 from the previous year.

Table IV Outstanding Debt December 31,									
	Total Ou	tstanding	Due Within One Year						
	2017	2016	2017	2016					
Bonds Payable	\$ 661,000	\$ 766,000	\$ 100,000	\$ 105,000					
Total	\$ 661,000	\$ 766,000	\$ 100,000	\$ 105,000					

For additional information regarding the outstanding debt, readers are referred to Note 8 of the audited financial statements that follow this analysis.

#### For the Future

The City is preparing for new capital expenditures for machinery and street repairs. New signage on the edge of the city is also being discussed to promote business and advertise local events.

# Contacting the City's Financial Management

This financial report is designed to provide a general overview of the City of Fairmount's finances and to show the City's accountability for the money it receives to the citizens of Fairmount. Anyone who has questions about information contained in this report or who is interested in receiving additional information is encouraged to contact the City of Fairmount at 104 1st Street North Fairmount, North Dakota 58030.

# **RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES – MODIFIED CASH BASIS Year Ended December 31, 2017**

Net Change in Fund Balance - Total Governmental Funds	\$ 78,896
The change in net position reported for governmental activities in the statement of activities is different because:	
Governmental funds report capital outlays as expenditures. However, in the	
statement of activities, the costs of those assets with a cost greater than	
\$5,000 is allocated over their estimated useful lives and reported as	
depreciation expense. This is the amount by which capital outlays exceeded	
depreciation in the current year	 3,288
Change in net assets of governmental activities	\$ 82,184

#### NOTES TO FINANCIAL STATEMENTS December 31, 2017

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Fairmount (the City) operates under a Home Rule Charter. The accounting policy of the City is to maintain the accounting records on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

#### Reporting Entity

The accompanying financial statements present the activities of the City of Fairmount. The City has considered all potential component units for which the City is financially accountable and other organizations for which the nature and significance of their relationships with the City such that exclusion would cause the City's financial statements to be misleading or incomplete. GASB has set forth criteria to be considered in determining financial accountability. This criterion includes appointing a voting majority of an organization's governing body and (1) the ability of the City of Fairmount to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the City of Fairmount.

Based on these criteria, there are no component units to be included within the City of Fairmount as a reporting entity.

#### Government-Wide and Fund Financial Statements

Government-wide statements - The statement of net position and the statement of activities display information about the primary government, the City of Fairmount. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund financial statements - The fund financial statements provide reports on the financial condition and results of operations for two fund categories - governmental and proprietary. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The City reports the following major governmental funds:

General Fund - The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

Street Fund - This fund accounts for resources used for street repair and maintenance.

The City reports the following major enterprise funds:

Water and Sewer Fund - This fund accounts for the activity of the water and sewer development. The department operates the water distribution system, sewage pumping stations and collection systems in the City.

Garbage Fund - This fund accounts for the activities of the garbage collection system within the City.

#### Measurement Focus and Basis of Accounting

Government-wide and Proprietary Fund Financial Statements - The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as defined under the "Basis of Accounting."

Government Fund Financial Statements - In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The proprietary fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent, financial, or nonfinancial) associated with their activities are reported. Proprietary fund equity is classified as net position.

The government-wide statement of net position, statement of activities, and the fund financial statements, governmental, and businesstype activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund equity, revenues, and expenditures/expenses when they result from cash transactions with a provision for depreciation in the government-wide statements, and proprietary fund statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the City utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

# Cash and Investments

Cash includes amounts in demand deposits and money market accounts. Cash equivalents on the statement of cash flows consists of highly liquid investments with an original maturity of three months or less.

# Capital Assets

Capital assets include land, buildings, infrastructure and equipment. Assets are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 or more. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and Infrastructure	20-50
Vehicles, Machinery, and Equipment	5-15

#### Long-term Obligations

In the government-wide financial statements and proprietary fund statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are reported as costs in the current period under provisions of GASB 65.

#### Fund Balances and Net Position

GASB Statement No. 54 established new fund balance classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints (restriction or limitations) imposed upon the use of the resources reported in governmental funds.

# Fund Balance Spending Policy

It is the policy of the City of Fairmount to spend restricted resources first, followed by unrestricted resources. It is also the policy of the city council to spend unrestricted resources of funds in the following order: committed, assigned and then unassigned.

# GASB Statement No. 54 Fund Balance Reporting and Governmental Fund Type Definitions

GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions" provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints and the purpose for which resources can be used:

CLASSIFICATION	DEFINITION	EXAMPLES
Nonspendable	Amounts that cannot be spent because they are either(a) not in spendable form or (b) legally or contractually required to be maintained intact.	Inventories, prepaid amounts (expenses), long-term receivables, endowment funds.
Restricted	Fund balance is reported as restricted when constraints are placed on the use of resources that are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.	Funds restricted by State Statute, unspent bond proceeds, grants earned but not spent, debt covenants, taxes raised for a specific purpose.
Committed	A committed fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision- making authority, the School Board. Formal action is required to be taken to establish, modify, or rescind a fund balance commitment.	By city council action, construction claims and judgements, retirements of loans and notes payable, capital expenditures, and self-insurance.

# CITY OF FAIRMOUNT Notes to Financial Statements – Continued

Assigned	Assigned fund balances are amounts that are constrained by the government's intent to be used for specific purposes, but are under the direction of the city council and the city auditor.	By city council, construction claims and judgements, retirements of loans and notes payable, capital expenditures, and self-insurance.
Unassigned	Unassigned fund balance is the lowest classification for the General Fund. This is a fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. A negative unassigned fund balance may be reported in other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.	Available for any remaining general fund expenditure.

The City had only unassigned fund balances reported at December 31, 2017.

#### Net Position

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Net investment in capital assets is reported for capital assets less accumulated depreciation and any related debt used to construct them. The resources needed to repay this related debt must be provided from other sources, since capital assets are not used to liquidate these liabilities. These assets are not available for future spending.

Restrictions of net position shown in the statement of net position are due to restricted tax levies and restricted Federal and State grants/reimbursements. Additionally, restricted net position is shown in the statement of net position by primary function as fund balances are shown in the balance sheet and are restricted for debt, maintenance and replacement expenses.

Unrestricted net position consists of activity primarily related to the general fund. The unrestricted net position is available to meet the City's ongoing obligations.

# Interfund Transactions

In the governmental fund statements, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

All other interfund transactions, except reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers. In the government-wide financial statements, interfund transactions have been eliminated.

# NOTE 2 - DEPOSITS AND INVESTMENTS

In accordance with North Dakota Statutes, the City maintains deposits at the depository banks designed by the governing board. All depositories are members of the Federal Reserve System.

Deposits must either be deposited with the Bank of North Dakota or in other financial institutions situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes, or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, Federal land bank bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investment companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the State of North Dakota, its boards, agencies or instrumentalities or by any county, city, township, school district, park district, or other political subdivision of the state of North Dakota whether payable from special revenues or supported by the full faith and credit of the issuing body and bonds issued by another state of the United States or such other securities approved by the banking board.

At December 31, 2017, the City's carrying amount of deposits was \$676,870 and the bank balances were \$682,577. Of the bank balances, \$250,000 was covered by Federal Depository Insurance. The remaining bank balance of \$405,497 was collateralized with securities held by pledging financial institution's agent in the government's name.

# Credit Risk

The City may invest idle funds as authorized in North Dakota Statues, as follows:

- Bonds, treasury bills and notes, or other securities that are a direct obligation insured or guaranteed by the Treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of congress.
- Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are the type listed above.
- Certificates of Deposit fully insured by the Federal Deposit Insurance Corporation.
- Obligations of the state.

As of December 31, 2017, the City held no certificates of deposit.

# Interest Rate Risk

The City does not have a formal deposit policy that limits maturities as a means of managing exposure to fair-value losses arising from increasing interest rates.

# Concentration of Credit Risk

The City does not have a limit on the amount it may invest in any one issuer.

# NOTE 3 – RESTRICTED CASH

Restricted cash in the Enterprise Funds consists of one checking account and three money market savings accounts. This cash is restricted by the City Council for debt, maintenance and replacement expenses.

# **NOTE 4 – PROPERTY TAXES**

The county treasurer acts as an agent to collect property taxes levied in the county for all taxing authorities. Any material tax collections are distributed after the end of each month.

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments and the second installment is the balance of the real estate taxes.

The first installment is due by March 1 and the second installment is due by October 15. A 5% discount on property taxes is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Most property owners choose to pay property taxes and special assessments in a single payment on or before February 15 and receive the discount on the property taxes.

# **NOTE 5 – CAPITAL ASSETS**

The following is a summary of changes in capital assets for the year ended December 31, 2017:

	Balance January 1, 2017	Additions	Additions Retirements		
Governmental Activities:					
Capital Assets, not being depreciated:					
Land	\$ 25,000	\$ -	\$ -	\$ 25,000

Business-type Activities Capital Assets, net	\$ 1,416,052	\$ 9,317	\$ -	\$ 1,425,369

Depreciation expense was charged to the functions/programs of the City as follows:

Business-type Activities	
Water and Sewer	\$ 64,963
Total Depreciation Expense - Business-type Activities	\$ 64,963

# NOTE 6 – DUE TO/FROM OTHER FUNDS

The composition of due to and due from other funds as of December 31, 2017 are as follows:

	Interfund Receivable		meenuu		 Interfund Payable
Fund General Fund	\$	105,023	\$ -		
Street Fund		-	105,023		
Totals	\$	105,023	\$ 105,023		

The street fund "Due To" represents the amount of negative cash in that fund. The water and sewer fund "Due To" represents the amount that has been paid by the general fund over the years on its behalf.

# NOTE 7 – INDIVIDUAL FUND DEFICIT

The street fund was in a deficit position at December 31, 2017 due to operating losses.

#### NOTE 8 – LONG-TERM LIABILITIES

During the year ended December 31, 2017, the following changes occurred in long-term liabilities of the City:

	Long-term Liabilites at January 1, 2017	Increases	Decreases	Long-term Liabilites at December 31, 2017	Due Within One Year
Business-type Activities Bonds Pavable	\$ 766,000	\$ -	\$ (105,000)	\$ 661.000	\$ 100,000
Total - Business-type Activities	\$ 766,000	\$ -	\$ (105,000)	\$ 661,000	\$ 100,000

Outstanding debt at December 31, 2017, are comprised of the following individual issues:

- 1. Refunding Improvement Bonds, Series 2013 From an original issuance of \$950,000 at rates ranging from .50% to 3.00%, \$555,000 remains outstanding. The principal and interest are payable through May 1, 2027.
- 2. Water Revenue, Bond, Series 2014 From an original issuance of \$121,759 at a rate of 2%, \$106,000 remains outstanding. The principal and interest are payable through September 1, 2034.

The debt service requirements are as follows:

.

(		5, 2013, due serially iannually on May 1s		t)

3/1/2020	2.00%	-	960	960
9/1/2020		5,000	960	5,960
3/1/2021	2.00%	-	910	910
9/1/2021		6,000	910	6,910
3/1/2022	2.00%	-	850	850
9/1/2022		6,000	850	6,850
3/1/2023 -				
9/1/2034	2.00%	79,000	10,620	89,620
		\$ 106,000	\$ 20,200	\$ 126,200

The Series 2014 Bonds shall be subject to redemption and prepayment at the option of the City, with written consent of the North Dakota Public Finance Authority, in whole or in part and if in part, in the manner determined by the City, on any date, at par plus accrued interest to the redemption date.

# NOTE 9 – RISK MANAGEMENT

The City of Fairmount is exposed to various risks of loss relating to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, state agencies and political subdivisions of the state of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDIRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The City of Fairmount pays an annual premium to NDIRF for its general liability, auto, and public assets insurance coverage. The coverage by NDIRF is limited to losses of \$2,000,000 per occurrence for general liability and automobile coverage and to \$98,365 for public assets (mobile equipment and portable property) coverage.

The City also participates in the North Dakota Fire and Tornado Fund and the State Bonding Fund. The City pays an annual premium to the Fire and Tornado Fund to cover property damage to buildings and personal property. Replacement coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The Fire and Tornado Fund is reinsured by a third-party insurance carrier for losses in excess of \$2,000,000 per occurrence during a twelve-month period. The State Bonding Fund currently provides political subdivision with blanket fidelity bond coverage in the amount of \$287,000 for the City employees. The State Bonding Fund does not currently charge any premium for this coverage.

The City has worker's compensation with the North Dakota Workforce Safety and Insurance.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

# NOTE 10 – LEGAL COMPLIANCE - BUDGETS

The City's expenditures for capital improvements exceeded budgeted amounts during the current year.

# NOTE 11 – SUBSEQUENT EVENTS

The City has evaluated subsequent events through October 12, 2018, the date on which the financial statements were available to be issued.

# NOTES TO REQUIRED SUPPLEMENTARY INFORMATION December 31, 2017

# NOTE 1 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

# **Budgetary Information**

The City Council adopts an annual budget on the modified cash basis of accounting for the general fund and the special revenue funds.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- The annual budget must be prepared, and City taxes must be levied on or before the 7th day of October of each year.
- The taxes levied must be certified to the county auditor by October 10th.
- The operating budget includes proposed expenditures and means of financing them.
- Each budget is controlled by the City Auditor at the revenue and expenditure function/object level.
- The current budget, except for property taxes, may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared.
- All appropriations lapse at year-end

# NOTE 2 – EXPENDITURES IN EXCESS OF BUDGET

Current year general fund expenditures were in excess of budgeted amounts.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

City Council City of Fairmount Fairmount, North Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to finance audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the modified cash basis financial statements of the governmental activities, the business-type activities, and each major fund, of the City of Fairmount, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City of Fairmount's basic financial statements, and have issued our report thereon dated October 12, 2018.

# **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered City of Fairmount's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Fairmount's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be material weaknesses (2017-001 and 2017-002).

Nadine Julson, LLC

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Fairmount's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with these provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### **City's Response to Findings**

The City of Fairmount's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City of Fairmount's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Nadine Julson, LLC Wahpeton, North Dakota October 12, 2018

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year ended December 31, 2017

# SECTION I - SUMMARY OF AUDITOR'S RESULTS

Financial Statements

Type of Report Issued: Governmental Activities Major Governmental Funds	Unmodified Unmodified			
Internal Control Over Financial Reporting				
Material weakness identified? Significant deficiencies identified not considered to be	X	Yes		No
material weaknesses?		Yes Vos	X x	None reported
Noncompliance material to financial statements noted?		Yes	X	No

# SECTION II - FINANCIAL STATEMENT FINDINGS

#### 2017-001 LACK OF SEGREGATION OF DUTIES

#### Criteria

Proper internal control surrounding custody of assets, the recording of transactions, reconciling bank accounts and preparation of financial statements dictates that there should be sufficient accounting personnel, so duties of employees are properly segregated. More segregation of duties would provide better control over the assets of the City.

#### Condition

As part of obtaining reasonable assurance about whether the City of Fairmount's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with these provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

# Effect

The lack of segregation of duties increases the risk of fraud and the risk of misstatement of the City's financial condition whether due to error or fraud.

#### Recommendation

The accounting functions should be reviewed to determine if additional segregation of duties is feasible and to improve the efficiency and effectiveness of financial management and financial statement accuracy for the City. Segregation of authorization, custody of assets, record keeping, and reconciliation functions would assist in mitigating the risk of fraud or misstatements to the financial statements.

# **Views of Responsible Officials**

There is no disagreement with the audit finding.

# **Indication of Repeat Finding**

This is a repeat of finding 2016-01 from the prior year.

# SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS Year ended December 31, 2017

# 2017-002 MATERIAL JOURNAL ENTRIES

# Criteria

A good system of internal accounting control contemplates an adequate system for the preparation of the financial statements, including recording government wide journal entries in order to reconcile from the fund financials to the government wide financials and ensuring all general ledger accounts are properly reflected on a GAAP basis.

# Condition

The City does not have an internal control system designed to provide for the preparation of the financial statements being audited, including recording government wide journal entries. As auditors, we were requested to draft the financial statements, which include proposing government wide journal entries, and drafting the accompanying notes to the financial statements.

# Effect

Inadequate controls over financial reporting of the City results in more than a remote likelihood that the City would not be able to draft the financial statements and accompanying notes to the financial statements that are materially correct without the assistance of the auditors.

# Recommendation

It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

# Views of Responsible Officials

There is no disagreement with the audit finding.

# **Indication of Repeat Finding**

This is a repeat of finding 2016-02 from the prior year.
