# **INDEPENDENT AUDITOR'S REPORT**

To the Board of Education Grafton Public School District No. 3 Grafton, North Dakota

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Grafton Public School District No. 3, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Grafton Public School District No. 3 as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# Other Matters

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule, schedule of District's contributions to the TFFR and NDPERS pension plans, and schedule of District's proportionate share of net pension liability as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining non-major governmental fund statements listed in the table of contents as supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for the purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the financial statements.

The combining non-major governmental fund statements and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining non-major governmental fund statements and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The roster of school officials on page 1 has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

# Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Porady Martz

BRADY, MARTZ & ASSOCIATES, P.C. GRAND FORKS, NORTH DAKOTA

November 11, 2016

The discussion and analysis of Grafton Public School District's financial performance provides an overall review of the District's financial activities for the year ended June 30, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the basic financial statements and related notes to enhance their understanding of the District's financial performance.

# Financial Highlights

Key financial highlights for 2016 are as follows:

- Net position of the District increased \$799,841 as a result of the current year's operations.
- Governmental net position totaled \$4,923,165.
- Total revenues from all sources were \$13,051,290.
- Total expenses were \$12,251,449.
- The District's general fund had \$11,395,542 in total revenues, \$10,981,630 in expenditures, and \$-1,366,122 in transfers. Overall, the general fund balance decreased by \$952,210 for the year ended June 30, 2016.

# Using this Annual Report

This annual report consists of a series of financial statements and related footnotes. These statements are organized so the reader can understand Grafton Public School District No. 3 as a financial whole. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column.

# Reporting the School District as a Whole

# Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did the District do financially during the year ended June 30, 2016?" The Statement of Net Position and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in its net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the District's property tax base, current property tax laws in North Dakota, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

# Reporting the School District's Most Significant Funds

# Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General Fund, Building Fund, Sinking and Interest Fund #9 and the Sinking and Interest Fund #12.

# **Governmental Funds**

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

#### Financial Analysis of the District as a Whole

Recall that the Statement of Net Position provides the perspective of the District as a whole.

Table 1 provides a summary of the District's net position as of June 30, 2016.

As indicated in the financial highlights, the District's net position increased by \$799,841. Longterm liabilities increased by \$1,211,083 for the year ended June 30, 2016. Net position may serve over time as a useful indicator of the District's financial position.

The District's net position of \$4,923,165 is segregated into three separate categories. Net position invested in Capital Assets (net of related debt) represents 224% of the District's entire net position. It should be noted that these assets are not available for future spending. Restricted net position represents 21% of the District's net position. Restricted net position represents resources that are subject to external restrictions on how they must be spent. The remaining unrestricted net position represents -145% of the District's net position. The unrestricted net position is available to meet the District's ongoing obligations.

Total Expenses		12,251,449		11,161,593
Increase in Net Position	\$	799,841	\$	1,273,070

Property taxes constituted 17%, state aid 68%, operating grants and contributions 11%, charges for services made up 3%, and interest income made up less than 1% of the total revenues of governmental activities of the District for fiscal year 2016.

Regular instruction comprised 50% of District expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and other unrestricted revenues.

Business support services and administration include expenses associated with administrative and financial supervision of the District.

Instructional support services include the activities involved with assisting staff with the content and process of teaching to pupils.

Operations and maintenance of plant activities involve maintaining the school grounds, buildings, and equipment in an effective working condition.

Transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil.

Special education includes costs that support the education of students with other needs.

Vocational education includes expenditures that support the teaching of vocational type instruction.

Extra-curricular activities include expenses related to student activities provided by the District, which are designed to provide opportunities for pupils to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Food Services include expenses directly dealing with providing breakfast and lunch service to students and staff of the District.

Interest and fees on long-term debt involves the transactions associated with the payment of interest and other related charges to debt of the District.

### Financial Analysis of the District's Governmental Funds

The focus of the District's governmental funds is to provide information on the near-term inflows, outflows, and balances of available resources. Unassigned fund balance generally may be used as a measure of the District's net resources available for spending at the end of the fiscal year. These funds are accounted for by using the modified accrual basis of accounting. The District's governmental funds had total revenues of \$13,023,206 and expenditures of \$15,937,469 for the year ended June 30, 2016. As of June 30, 2016, the unassigned fund balance of the District's general fund was \$1,046,121.

# **Budget Highlights**

During the course of the 2016 fiscal year, the District received \$609,042 more revenues and incurred \$386,315 more expenditures than budgeted. This is primarily the result of more federal and state income received during the year as well as more capital expenditures incurred than anticipated during the budgeting process.

#### Capital Assets

As of June 30, 2016, the District had \$27,867,674 invested in capital assets, net of accumulated depreciation. Table 4 shows balances as of June 30, 2016 (see Note 4 for details).

Tabl	le	4
------	----	---

Land and Land Improvements	\$ 411,433
Buildings	25,239,194
Equipment	2,066,072
Vehicles	150,975
Total	\$ 27,867,674

# **Debt Administration:**

As of June 30, 2016, the District had \$26,912,616 in outstanding debt. The District increased its debt by \$1,211,083 from June 30, 2015 (See Note 5). See below for a description of the District's debt:

		Balance 7/1/2015		Additions	Retirements	Balance 6/30/2016

Net Pension Liability		7,981,469		3,820,076	(1,784,242)	10,017,303
Total	\$	25,701,533	\$	3,872,480	\$ (2,661,397)	\$ 26,912,616

# For the Future:

The District's average daily membership has shown an increase the last 5 years. The increase is in the lower elementary grades. The district added 4 morning/afternoon half day PreK classrooms. The School District continues to place an emphasis on small class sizes and has maintained and/or added staff.

# **Contacting the District's Financial Management:**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. You may request a copy of this report by contacting Cathi Heuchert, Business Manager, Grafton Public School District, 1548 School Road, Grafton, ND 58237, or email at cathi.heuchert@k12.nd.us.

# **GRAFTON PUBLIC SCHOOL DISTRICT NO. 3** RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2016

Total net change in fund balances - Governmental Funds	\$ (2,914,263)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over the useful lives as depreciation expense. Capital Outlays \$ 3,510,571 Depreciation Expense (600,676)	
Excess of capital outlay over depreciation expense	2,909,895
Loss on Disposal	(10,069)
Some revenues will not be collected for several months after the District's fiscal year end. These revenues are considered "available" revenues in the government funds. These revenues consist of:	
Net change in unavailable property taxes	28,084
Repayment of long-term debt is reported as an expenditure in governmental funds. However, the repayment reduces long-term liabilities in the statement of net position.	839,452
Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. These items consisted of the (increase)/decrease in:	
Early Retirement	(17,235)
Changes in deferred outflows and inflows of resources related to net pension liability	1,996,178
Change in net pension liability	(2,035,834)
Amortization of premiums received from bond issuance	2,534
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. Accrued interest decreased by \$1,099.	1,099
Change in net position - Governmental Activities	\$ 799,841

LIABILITIES Due to Student Groups Due to Grafton PSD - General Fund	\$  212,095 <u>    19,665</u>
TOTAL LIABILITIES	<u>\$ 231,760</u>

# NOTE 1 DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Grafton Public School District operates the public schools in the City of Grafton, North Dakota. There is one elementary school and one junior/senior high school.

Reporting Entity - Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of an organization's governing body and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources. Component units may also include organizations that are fiscally dependent on the District. Fiscal dependence can include the District's approval of the budget, issuance of debt, and/or levying of taxes for the organization.

Based on these criteria, there are no component units to be included within the District's reporting entity.

# NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

#### Basis of Presentation

The District's basic financial statements consist of government-wide statements and fund financial statements.

#### **Government-Wide Financial Statements:**

The government-wide financial statements consist of a statement of net position and a statement of activities. These statements display information about the District as a whole.

The statement of net position presents the financial condition of the governmental activities of the District at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. The statement identifies the extent to which each governmental function is self-financing or drawing from the general revenues of the District. Direct expenses are expenses that are specifically associated with a service, program or department. The direct expenses are clearly identifiable to a particular function. Program revenues include charges to recipients for goods or services offered by the program and grants and contributions that are restricted to meet the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District.

The Government-wide financial statements do not include fiduciary funds of component units that are fiduciary in nature.

### Fund Financial Statements:

In order to aid financial management and to demonstrate legal compliance, the District segregates transactions related to certain functions or activities in separate funds. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The focus of the governmental fund financial statements is on major funds. Each major fund is presented as a separate column in the fund financial statements. Non-major funds are aggregated and presented in a single column. The fiduciary fund is reported by type.

# Fund Accounting

The District's funds consist of the following:

#### **Governmental Funds:**

Governmental funds are utilized to account for most of the District's governmental functions. The reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which the obligation will be paid. Fund balance represents the difference between the governmental fund assets and liabilities. The District's major governmental funds are as follows:

#### General Fund:

This fund is the general operating fund of the District. It accounts for all financial resources except those requiring to be accounted for in another fund.

#### Building Fund:

The Building fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for acquiring school sites, constructing and equipping new school facilities and renovating existing facilities. The special assessment fund is included in this category.

#### Debt Service Funds:

The Debt Service fund is used to account for the accumulation of resources for, and the payments of, general long-term debt principal, interest, and related costs. The sinking and interest fund's #9 and #12 are included in this category.

The District's non-major governmental funds are as follows:

#### Special Revenue Funds:

Special Revenue funds are used to account for the proceeds of certain specific revenue sources that are legally restricted to expenditures for specified purposes. Included in this category are the transactions for the special reserve funds, scholarship funds and the food service fund.

# Debt Service Funds:

The Debt Service fund is used to account for the accumulation of resources for, and the payments of, general long-term debt principal, interest, and related costs. The sinking and interest fund #8 is included in this category.

#### Fiduciary Funds:

The District's only fiduciary fund is an agency fund. The agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations. The District's agency fund consists of the following:

# Student Activity Fund:

The fund accounts for the financial transactions related to the District's student activity programs.

#### Measurement Focus and Basis of Accounting

#### **Measurement Focus:**

#### Government-wide Financial Statements:

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred inflows and outflows of resources, and liabilities associated with the operation of the District are included in the statement of net position.

#### Fund Financial Statements:

The governmental funds are accounted for by using a flow of current financial resources measurement focus. Under this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources and uses of current financial resources.

The current financial resources measurement focus differs from the manner which the governmental activities of the government-wide financial statements are prepared. Due to the difference, the District's financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for government funds.

#### **Basis of Accounting:**

The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

Government-wide financial statements are prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The District's governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of its fiscal year. Expenditures are generally recorded as the related fund liability is incurred.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

# **Revenues - Exchange and Non-Exchange Transactions:**

Exchange transactions are transactions in which each party gives and receives essentially equal value. Under the accrual basis of accounting, revenue for exchange transactions is recorded when the exchange takes place. Under the modified accrual basis of accounting, revenue for exchange transactions is recorded when the resources are measurable and available.

Non-exchange transactions include transactions in which the District receives value without directly providing value in return. Non-exchange transactions include property taxes, grants, entitlements, and donations.

Under the accrual basis of accounting, property taxes are recorded as revenue in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recorded in the fiscal year in which all eligibility requirements have been satisfied. Under the modified accrual basis of accounting, revenue from non-exchange transactions must also be available before it is recorded in the financial records of the District.

Major revenue sources susceptible to accrual include: property taxes, intergovernmental revenues and investment income.

#### **Unearned Revenues:**

Unearned revenue arises when assets are recognized in the financial statements before the revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenues.

On the governmental fund financial statements, receivables that will not be collected during the availability period have been reported as unearned revenue.

#### Expenses and Expenditures:

Governmental funds accounting measurement focus is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recorded in the fiscal year in which the related fund liability is incurred. Under the accrual basis of accounting, expenses are recorded when incurred.

# Budgets and Budgetary Accounting:

The District's Board follows the procedures established by North Dakota law for the budgetary process. The governing body of each School District, annually on or before the last day of July must levy taxes. The governing body of the School District may amend its tax levy and budget for the current fiscal year on or before the tenth day of October of each year. Taxes for School District purposes must be based upon an itemized budget statement which must show the complete expenditure by program of the District for the current fiscal year and the sources of the revenue from which it is to be financed. The School Board, in levying taxes, is limited by the amount necessary to be raised for the purpose of meeting the appropriations included in the school budget of the current fiscal year, and the sum necessary to be provided as an interim fund, together with a tax sufficient in amount to pay the interest on the bonded debt of the District and to provide a sinking fund to pay and discharge the principal thereon at maturity.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The administration prepares the District's budget. The budget includes proposed expenditures and the means of financing them. The budget is prepared on the modified accrual basis of accounting.
- 2. The Board reviews the budget, may make revisions, and adopts the final budget at the September board meeting to ensure it is adopted before the tenth of October each year. The budget is then filed with the county auditor by October tenth of each year.
- 3. The budget may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared, except no amendment changing the taxes levied can be made after October 10 of each year. The budget amounts shown in the financial statements are the final authorized amounts.
- 4. All appropriations lapse at the close of the District's fiscal year. The balance of the appropriation reverts back to each respective fund and is available for future appropriation.

The General fund expenditures were \$386,315 over budget at June 30, 2016.

# Cash and Cash Equivalents:

The District considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

#### Investments:

Investments are recorded at market value. North Dakota State Statute authorizes school districts to invest their surplus funds in: a) Bonds, treasury bills and notes, or other securities that are a direct obligation of, or an obligation insured or guaranteed by, the Treasury of the United States, or its agencies, instrumentality's, or organizations created by an act of Congress, b) Securities sold under agreements to repurchase, written by a financial institution in which the

underlying securities for the agreement to repurchase are of the type listed above, c) Certificates of Deposit fully insured by the Federal Deposit Insurance Corporation of the state, d) Obligations of the state.

### Fair Value Measurements:

The Organization accounts for all assets and liabilities that are being measured and reported on a fair value basis in accordance with GAAP. GAAP defines fair value, establishes a framework for measuring fair value and expands disclosure about fair value measurements. When fair value measurements are required, various data is used in determining those values. This statement requires that assets and liabilities that are carried at fair value must be classified and disclosed in the following levels based on the nature of the data used.

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- by
- Level 2: Observable market based inputs or unobservable inputs that are corroborated market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

# **Capital Assets:**

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported as assets in the fund financial statements. All capital assets are recorded at cost (or estimated historical cost). The assets are updated for additions and retirements during the District's fiscal year. The District has established a capitalization threshold of \$1,500. Donated fixed assets are recorded at their fair market values at the date received. The District does not have any infrastructure assets. Improvements that significantly extend the useful life of the asset are also capitalized.

The District's land and construction in progress costs are capitalized but are not depreciated. All the remaining capital assets are depreciated over their estimated useful lives on a straightline basis. The District has established the following useful lives:

Buildings and Improvements	50 Years
Equipment and Fixtures	5 to 20 Years
Vehicles	8 Years

# Accrued Liabilities and Long-term Obligations:

All payables, accrued liabilities and long-term obligations are reported in the District's government-wide financial statements. The District's governmental fund financials report only those obligations that will be paid from current financial resources.

# Pensions:

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the North Dakota Public Employee Retirement System (NDPERS) and Teachers' Fund for Retirement (TFFR) and additions to/deductions from NDPERS and TFFR's fiduciary

net position have been determined on the same basis as they are reported by NDPERS and TFFR. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### Fund Balance Classifications:

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

*Restricted* – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed* – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the school board-the District's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the school board removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – This classification reflects the amounts constrained by the District's "intent" to be used for specific purposes, but are neither restricted nor committed. The school board and superintendent have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as non-spendable and are neither restricted nor committed.

*Unassigned* – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, the District's preference is to first use restricted resources, then unrestricted resources—committed, assigned, and unassigned—in order as needed.

The school board has set a General Fund minimum fund balance target at 25% of expenditures and recurring transfers.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will

*not* be recognized as an outflow of resource (expense/expenditure) until then. The District has one item reported on the statement of net position as *cost sharing defined benefit pension plan*, which represents actuarial differences within the NDPERS and TFFR pension plans, as well as amounts paid to the plans after the measurement date.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has two types of items, one which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue – delinquent taxes*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District also has one item reported on the statement of net position *as cost sharing defined benefit pension plan*, which represents the actuarial differences within the NDPERS and TFFR pension plans and is reported on the statement of net position.

# **Net Position**

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the District's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any long-term debt attributable to the acquisition, construction, or improvement of those assets. Restricted Net Position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted Net Position is the net amount of assets, deferred outflows or resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

#### Inter-fund Activity:

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in governmental funds.

Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Inter-fund activities within the District's governmental activities and its business-type activities, is eliminated in the statement of activities.

# **Extraordinary and Special Items:**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the School Board and are either unusual in nature or infrequent in occurrence.

# Estimates:

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

# **Revenue Recognition - Property Taxes:**

Taxes receivable consist of current and delinquent uncollected taxes at June 30, 2016.

Property taxes attach as an enforceable lien on property January 1. A five percent reduction is allowed if paid by February 15. Penalty and interest are added March 15 if the first half-of-the taxes have not been paid. Additional penalties are added October 15, if not paid. Taxes are collected by the county and usually remitted monthly to the School District.

Property tax revenue in the governmental funds is recognized in compliance with National Council of Government Accounting (NCGA) Interpretation 3, *Revenue Recognition - Property Taxes*. This interpretation states that property tax revenue is recorded when it becomes available. Available means when due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Property tax revenue is recorded as revenue in the year the tax is levied in the government-wide financial statements. Property taxes are limited by state laws. All School District tax levies are in compliance with state laws.

# Significant Group Concentrations of Credit Risk:

As of June 30, 2016, the District's receivables consist of amounts due from other governmental units within the State of North Dakota.

# NOTE 3 CASH AND INVESTMENTS

#### Custodial Credit Risk – Deposits

In accordance with North Dakota laws, the District maintains deposits at a depository authorized by the School Board. The depository is a member of the Federal Reserve System.

North Dakota laws require that all public deposits be protected by insurance, surety bond or collateral. The market value of collateral pledged must equal at least 110 percent of the deposits not covered by insurance or bonds.

Authorized collateral includes the legal investments described below, as well as certain first mortgage notes, and certain other state or local government obligations. North Dakota laws require that securities pledged as collateral be held in safekeeping by the District treasurer or in a financial institution other than that furnishing the collateral.

At June 30, 2016, the carrying amount of the District's deposits was \$2,108,982 and the bank balance was \$2,960,463. The entire bank balance was covered by Federal Depository Insurance or by collateral held by the District's Agent in the District's name in amounts sufficient to meet North Dakota legal requirements.

# Credit Risk

The District may also invest idle funds as authorized by North Dakota laws, as follows:

- a. Bonds, treasury bills and notes, or other securities that are a direct obligation of, or an obligation insured or guaranteed by the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of Congress.
- b. Securities sold under agreements to repurchase, written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above.
- c. Certificates of Deposit fully insured by the Federal Deposit Insurance Corporation or the state.
- d. Obligations of the state.

# **Interest Rate Risk**

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

# Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer.

#### **Custodial Credit Risk - Investments**

The investments are not subject to the credit risk classifications as noted in paragraph 9 of GASB Statement 40.

# **NOTE 4 CAPITAL ASSETS**

The following is a summary of changes in general fixed assets account group during the year:

	Balance 7/1/2015		Additions		Disposals		Balance 6/30/2016
Governmental Activities:							
Capital Assets Not Being Depreciated							
Land	\$	411,433	\$	-	\$	-	\$ 411,433
Construction in Progress		16,185,035		3,268,167	(19,	453,202)	-
Total		16,596,468		3,268,167	(19,	453,202)	 411,433
Capital Assets Being Depreciated							
Buildings		10,724,902		19,453,202		-	30,178,104
Equipment		4,109,991		185,504		-	4,295,495
Vehicles		695,647		56,900		(17,900)	734,647
Total		15,530,540		19,695,606		(17,900)	 35,208,246
Less Accumulated Depreciation							
Buildings		4,574,619		364,291		-	4,938,910
Equipment		2,030,044		199,379		-	2,229,423
Vehicles		554,497		37,006		(7,831)	 583,672
Total		7,159,160		600,676		(7,831)	 7,752,005
Net Capital Assets Being Depreciated		8,371,380		19,094,930		(10,069)	 27,456,241
Net Capital Assets for					<b>.</b>		
Governmental Activities	\$	24,967,848	\$	22,363,097	\$ (19,	463,271)	\$ 27,867,674

In the governmental activities section of the statement of activities, depreciation expense was charged to the following governmental functions:

\$ 563,670
 37,006
\$ 600,676
\$ \$

# NOTE 5 LONG-TERM DEBT

The School District issued bonds to provide funding for the construction of additions and improvements to existing facilities. Long-term debt is as follows:

	 Balance 7/1/2015	Additions Retirement			tirements	Balance 6/30/2016		Due in One Year	
General Obligation State School Construction Fund Bonds of 2010	\$ 600,000	\$	-	\$	-	\$	600,000	\$	-
Grafton Educational Foundation Lease Revenue Bonds of 2013	3,700,000		-		(160,000)		3,540,000	1	60,000
State School Construction Fund Bonds of 2014	13,327,275		-		(679,452)		12,647,823	6	86,246
Premium on Bonds Payable	45,617		-		(2,534)		43,083		2,534
Early Retirement	47,172		52,404		(35,169)		64,407		38,205
Net Pension Liability	 7,981,469		3,820,076	(1	,784,242)		10,017,303		-
Total	\$ 25,701,533	\$	3,872,480	\$ (2	2,661,397)	\$	26,912,616	\$8	86,985

General Obligation State School Construction Fund Bonds of 2010 \$600,000 Issued; Maturing 06/01/2025 Interest Rate is 5.5%.

Grafton Educational Foundation Inc. Lease Revenue Bonds of 2013 \$3,995,000 Issued; Maturing 11/01/2033 Interest Rate is 2% to 4.5%

State School Construction Fund Bonds of 2014 \$14,000,000 Issued; Maturing 6/1/2033 Interest Rate is 1.0%

The 2010 Bonds are considered Qualified School Construction Bonds that the District will get reimbursed for the interest charges. The Bonds will not be paid until they expire in 2025, at which time they will be paid in full. To ensure that sufficient money will be available to pay the Bonds at maturity, the District is to set aside \$40,000 annually for fifteen years to cover the bond issue amount. This is included in the Sinking and Interest Fund #12 restricted fund balance. As of June 30, 2016, the entire \$600,000 has been transferred.

Interest expense was \$301,550 for the year ended June 30, 2016.

The early retirement obligation will be liquidated through the general fund.

Annual debt service requirements to maturity for the long-term debt are as follows:

Year	 Principal Interest		Total		
2017 2018	\$ 686,246 693,109	\$	126,478 119,616	\$	812,724 812,725
2019 2020	700,040 707,040		112,685 105,684		812,725 812,724
2021 2022-2026	714,111 3,679,108		98,614 384,515		812,725 4,063,623
2027-2031	3,866,780		196,842		4,063,622
2032-2033	 1,601,389		24,060		1,625,449
Total	\$ 12,647,823	\$	1,168,494	\$	13,816,317

General Obligation State School Construction Bonds of 2014

#### Lease Revenue Bonds of 2013

<u>Year</u>	Principal	 Interest	Total		
2017 2018 2019	\$ 160,000 165,000 165,000	\$ 133,110 129,447 125,322	\$	293,110 294,447 290,322	
2020 2021 2022-2026 2027-2031	170,000 175,000 975,000 1,180,000	120,710 115,535 469,850 252,288		290,710 290,535 1,444,850 1,432,288	
2032-2033	 550,000	 24,975		574,975	
Total	\$ 3,540,000	\$ 1,371,237	\$	4,911,237	

Required sinking fund payments of \$600,000 have been fully set aside at June 30, 2015 for the General Obligation State School Construction Bonds of 2010. See table below for yearly activity:

Year	Si	nking Fund	Amount Set Aside
2011	\$	40,000	\$ 100,000
2012		40,000	100,000
2013		40,000	400,000
2014		40,000	-
2015		40,000	-
2016		40,000	-
2017-2021		200,000	-
2022-2025		160,000	 -
Total	\$	600,000	\$ 600,000

General Obligation State School Construction Bonds of 2010

The District will receive an interest subsidy each year to offset the \$33,000 of annual interest on the \$600,000 School Construction Bonds of 2010. See below.

General Obligation State School Construction Bonds of 2010

Year	Interest Expense		 Interest Subsidies	Net Interest Payment		
2017	\$	33,000	\$ (33,000)	\$	-	
2018		33,000	(33,000)		-	
2019		33,000	(33,000)		-	
2020		33,000	(33,000)		-	
2021		33,000	(33,000)		-	
2022-2025		132,000	(132,000)		-	
Total	\$	297,000	\$ (297,000)	\$	-	

# NOTE 6 FUND BALANCES

# A. CLASSIFICATIONS

At June 30, 2016, a summary of the governmental fund balance classifications are as follows:

	General Fund		Building Fund		Sinking & Int. #12		Food Service		Special Reserve		Scholarship		Sinking & Int. #8		Sinking & Int. #9		Total	
Restricted for: Debt Service Scholarships Committed to:	\$ -	\$	-	\$	600,000 -	\$	-	\$	-	\$	- 72,173	\$	-	\$	348,824 -	\$	948,824 72,173	
Special Reserve Unassigned	 ۔ 1,046,121	(9,369)			-		(8,328)		62,732		-		-		-		62,732 1,028,424	
	\$ 1,046,121	\$	(9,369)	\$	600,000	\$	(8,328)	\$	62,732	\$	72,173	\$	-	\$	348,824	\$	2,112,153	

Restricted fund balances reflect resources restricted for statutorily defined purposes not accounted for in a separate fund. At June 30, 2016, there were the following accounts:

#### Restricted for Debt Service:

This account represents funds held by the School District available to service long-term debt.

#### Restricted for Scholarships:

This account represents funds donated to the School District for the purpose of student scholarships.

Committed fund balances reflect resources that can be used only for the specific purposes determined by a formal action of the School District's Board of Education. At June 30, 2016, there were the following accounts:

#### Committed for Special Reserve:

This account represents funds, which can be used whenever collections from taxes levied for the current budget are insufficient to meet the requirements of such budget.

## NOTE 7 DEFINED BENEFIT PENSION PLANS – STATEWIDE

Substantially, all employees of the District are required by state law to belong to pension plans administered by Teacher's Fund for Retirement (TFFR) or the North Dakota Public Employee Retirement System (NDPERS), both of which are administered on a statewide basis.

Disclosures relating to these plans follow:

## North Dakota Teacher's Fund For Retirement

The following brief description of TFFR is provided for general information purposes only. Participants should refer to NDCC Chapter 15-39.1 for more complete information.

TFFR is a cost-sharing multiple-employer defined benefit pension plan covering all North Dakota public teachers and certain other teachers who meet various membership requirements. TFFR provides for pension, death and disability benefits. The cost to administer the TFFR plan is financed by investment income and contributions.

Responsibility for administration of the TFFR benefits program is assigned to a seven-member Board of Trustees (Board). The Board consists of the State Treasurer, the Superintendent of Public Instruction, and five members appointed by the Governor. The appointed members serve five-year terms which end on June 30 of alternate years. The appointed Board members must include two active teachers, one active school administrator, and two retired members. The TFFR Board submits any necessary or desirable changes in statutes relating to the administration of the fund, including benefit terms, to the Legislative Assembly for consideration. The Legislative Assembly has final authority for changes to benefit terms and contribution rates.

## Pension Benefits

For purposes of determining pension benefits, members are classified within one of three categories. Tier 1 grandfathered and Tier 1 non-grandfathered members are those with service credit on file as of July 1, 2008. Tier 2 members are those newly employed and returning refunded members on or after July 1, 2008.

## Tier 1 Grandfathered

A Tier 1 grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or the sum of age and years of service credit equals or exceeds 85. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 6% per year for every year the member's retirement age is less than 65 years or the date as of which age plus service equal 85. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

## Tier 1 Non-grandfathered

A Tier 1 non-grandfathered member is entitled to receive unreduced benefits when three or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the three highest annual salaries earned divided by 36 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

## Tier 2

A Tier 2 member is entitled to receive unreduced benefits when five or more years of credited service as a teacher in North Dakota have accumulated, the member is no longer employed as a teacher and the member has reached age 65, or has reached age 60 and the sum of age and years of service credit equals or exceeds 90. TFFR permits early retirement from ages 55 to 64, with benefits actuarially reduced by 8% per year from the earlier of age 60/Rule of 90 or age 65. In either case, benefits may not exceed the maximum benefits specified in Section 415 of the Internal Revenue Code.

Pension benefits paid by TFFR are determined by NDCC Section 15-39.1-10. Monthly benefits under TFFR are equal to the five highest annual salaries earned divided by 60 months and multiplied by 2.00% times the number of service credits earned. Retirees may elect payment of benefits in the form of a single life annuity, 100% or 50% joint and survivor annuity, ten or twenty-year term certain annuity, partial lump-sum option or level income with Social Security benefits. Members may also qualify for benefits calculated under other formulas.

## Death and Disability Benefits

Death benefits may be paid to a member's designated beneficiary. If a member's death occurs before retirement, the benefit options available are determined by the member's vesting status prior to death. If a member's death occurs after retirement, the death benefit received by the beneficiary (if any) is based on the retirement plan the member selected at retirement.

An active member is eligible to receive disability benefits when: (a) a total disability lasting 12 months or more does not allow the continuation of teaching, (b) the member has accumulated five years of credited service in North Dakota, and (c) the Board of Trustees of TFFR has determined eligibility based upon medical evidence. The amount of the disability benefit is computed by the retirement formula in NDCC Section 15-39.1-10 without consideration of age and uses the member's actual years of credited service. There is no actuarial reduction for reason of disability retirement.

## Member and Employer Contributions

Member and employer contributions paid to TFFR are set by NDCC Section 15-39.1-09. Every eligible teacher in the State of North Dakota is required to be a member of TFFR and is assessed at a rate of 11.75% of salary as defined by NDCC Section 15-39.1-04. Every governmental body employing a teacher must also pay into TFFR a sum equal to 12.75% of the teacher's salary. Member and employer contributions will be reduced to 7.75% each when the fund reaches 100% funded ratio on an actuarial basis.

A vested member who terminates covered employment may elect a refund of contributions paid plus 6% interest or defer payment until eligible for pension benefits. A non-vested member who terminates covered employment must claim a refund of contributions paid before age 70½. Refunded members forfeit all service credits under TFFR. These service credits may be repurchased upon return to covered employment under certain circumstances, as defined by the NDCC.

## Pension Costs

At June 30, 2016, the District reported a liability of \$9,134,100 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net pension liability was based on the Employer's share of covered payroll in the pension plan relative to the covered payroll of all participating TFFR employers. At July 1, 2015, the Employer's proportion was 0.698403 percent which was an increase of 0.009953 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the Employer recognized pension expense of \$622,407. At June 30, 2016, the Employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 59,855	\$-
Changes in actuarial assumptions	1,025,603	-
Difference between projected and actual investment earnings	-	103,000
Changes in proportion	98,863	-
Contributions paid to TFFR subsequent to the		
measurement date	570,920	-
Total	\$ 1,755,241	\$ 103,000

\$570,920 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	Pension Expense Amount
2017	\$ 121,232
2018	121,232
2019	121,232
2020	329,068
2021	198,941
Thereafter	189,616

## Actuarial Assumptions

The total pension liability in the July 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	4.25% to 14.50%, varying by service,
	including inflation and productivity
Investment rate of return	7.75%, net of investment expenses
Cost-of-living adjustments	None

For active and inactive members, mortality rates were based on the RP-2014 Employee Mortality Table, projected generationally using Scale MP-2014. For healthy retirees, mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table set back one year, multiplied by 50% for ages under 75 and grading up to 100% by age 80, projected generationally using Scale MP-2014. For disabled retirees, mortality rates were based on the RP-2014. For disabled retirees, mortality rates were based on the RP-2014.

The actuarial assumptions used were based on the results of an actuarial experience study dated April 30, 2015. They are the same as the assumptions used in the July 1, 2015, funding actuarial valuation for TFFR.

As a result of the April 30, 2015 actuarial experience study, the TFFR Board adopted several assumption changes, including the following:

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.
- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

		Long-Term Expected Real
Asset Class	Target Allocation	Rate of Return
Global Equities	57.00%	7.53%
Global Fixed Income	22.00%	1.28%
Global Real Assets	20.00%	5.38%
Cash Equivalents	1.00%	0.00%

# Discount rate

The discount rate used to measure the total pension liability was 7.75% as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2015, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2015. The discount rate used to measure the total pension liability changed from 8% to 7.75% based on the investment return assumption change as a result of the April 30, 2015 actuarial experience study.

# Pension Liability Sensitivity

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease in Discount Rate	Discount Rate	1% Increase in Discount Rate
	6.75%	7.75%	8.75%
School's proportionate share of the TFFR net pension liability:	\$ 12,071,145	\$ 9,134,100	\$ 6,684,666

# Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TFFR financial report.

## North Dakota Public Employees' Retirement System

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of seven members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system; and one member elected by the retired public employees. Effective July 1, 2015, the board was expanded to include two members of the legislative assembly appointed by the chairman of the legislative management.

## **Pension Benefits**

Benefits are set by statute. NDPERS has no provision or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). The annual pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

## Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition of disabled is set by the NDPERS in the North Dakota Administrative Code.

## **Refunds of Member Account Balance**

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

## Member and Employer Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of covered compensation. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25 and the maximum may not exceed the following:

1 to 12 months of service – Greater of one percent of monthly salary or \$25 13 to 25 months of service – Greater of two percent of monthly salary or \$25 25 to 36 months of service – Greater of three percent of monthly salary or \$25 Longer than 36 months of service – Greater of four percent of monthly salary or \$25

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the District reported a liability of \$883,203 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2015, the District's proportion was 0.129886 percent which was an increase of 0.008930 from its proportion measured July 1, 2014.

For the year ended June 30, 2016, the District recognized pension expense of \$94,887. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Out	flows of Resources	Deferred Inflo	ws of Resources
Differences between expected and actual economic experience	\$	25,623	\$	-
Changes in actuarial assumptions		-		78,689
Difference between projected and actual investment earnings		-		18,645
Changes in proportion		54,885		1,624
Contributions paid to NDPERS subsequent to the measurement date		119,980		-
Total	\$	200,488	\$	98,958

\$119,980 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	Pension Expense Amount	
2017	\$ (13,218)	
2018	(13,218)	
2019	(13,218)	
2020	25,308	
2021	(4,109)	

# **Actuarial Assumptions**

The total pension liability in the July 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.50%
Salary increases	4.50% per annum
Investment rate of return	8.00%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Mortality Table set back one year for males (no setback for females) multiplied by 125%.

The actuarial assumptions used were based on the results of an actuarial experience study completed in 2015. They are the same as the assumptions used in the July 1, 2015, funding actuarial valuation for NDPERS.

As a result of the 2015 actuarial experience study, the NDPERS Board adopted several changes to the actuarial assumptions effective July 1, 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

		Long-Term Expected Real Rate
Asset Class	Target Allocation	of Return
Domestic Equity	31.00%	6.90%
International Equity	21.00%	7.55%
Private Equity	5.00%	11.30%
Domestic Fixed Income	17.00%	1.52%
International Fixed Inc.	5.00%	0.45%
Global Real Assets	20.00%	5.38%
Cash Equivalents	1.00%	0.00%

# **Discount Rate**

The discount rate used to measure the total pension liability was 8.00 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2015, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2015.

# Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 8.00 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00 percent) or 1-percentage-point higher (9.00 percent) than the current rate:

			1% Increase in Discount
	1% Decrease in Discount Rate	Discount Rate	Rate
	7.00%	8.00%	9.00%
School's proportionate share of the			
NDPERS net pension liability:	\$ 1,354,347	\$ 883,203	\$ 497,721

# Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report.

## NOTE 8 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, state agencies and political subdivisions of the State of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDIRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The District pays an annual premium to NDIRF for its general liability, auto, and inland marine insurance coverage. The coverage by NDIRF is limited to losses on one million dollars per occurrence.

The District also participates in the North Dakota Fire and Tornado Fund and the State Bonding Fund. The District pays an annual premium to the Fire and Tornado Fund to cover property damage to buildings and personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The Fire and Tornado Fund is reinsured by a third party insurance carrier for losses in excess of one million dollars per occurrence during a 12-month period. The State Bonding Fund currently provides the District with blanket fidelity bond coverage in the amount of \$2,000,000 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

The District participates in the North Dakota Worker's Compensation Bureau and purchases commercial insurance for employee health and accident insurance.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

## NOTE 9 CONTINGENT LIABILITIES

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2016, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

# NOTE 10 NON-MONETARY TRANSACTIONS

The District receives food commodities from the federal government to subsidize its hot lunch program. The market value of commodities received for the year ended June 30, 2016 was \$23,790.

## NOTE 11 COMMITMENTS

## Lease Commitments

The District leases copy machines under a non-cancelable operating lease for five years. The following is a schedule of future minimum rentals under the lease at June 30, 2016:

Year Ending June 30,

2017	\$ 3,995
	\$ 3,995

The Grafton School District leased the Centennial Center from the Grafton Parks and Recreation District for the amount of \$26,000 and \$27,520 for the 2015-2016 and 2016-2017 seasons respectively.

## NOTE 12 LEASE OF VOCATIONAL BUILDING

The District leases a building on an annual basis to the North Valley Career and Technical Center. During the year ended June 30, 2016, the District received payments totaling \$35,000 from the Center. The rent for the 2016-2017 school year has been set at \$35,000. The lease agreement calls for the District to insure the building and for North Valley Career and Technical Center to pay for any structural repairs or improvements. The Center pays all other operating costs including utilities and insurance on contents.

## NOTE 13 VOCATIONAL PROGRAM COSTS

The District is the largest participant in the North Valley Career and Technical Center. For the year ended June 30, 2016, the District's share of the Center's budget was \$193,834. The District's share of the Center's budget for the 2016-2017 school year is expected to be approximately \$214,554.

## NOTE 14 SPECIAL EDUCATION PROGRAM COSTS

The District is the largest participant in the Upper Valley Special Education Cooperative. For the year ended June 30, 2016, the District's share of the Cooperative's budget was \$880,564. The District's share of the Cooperative's budget for the 2016-2017 school year is expected to be approximately \$945,263.

# NOTE 15 TRANSFERS

The transfers as of June 30, 2016 consist of the following:

Transfers In	Transfers Out		Amount	
General Fund	Sinking and Interest Fund #12	\$	5,896	
General Fund	Special Reserve		60,000	
Food Service Fund	General Fund		50,086	
Sinking and Interest Fund #9	Building Fund		160,000	
Building Fund	General Fund		1,243,223	
Sinking and Interest Fund #9	General Fund		138,709	
Sinking and Interest Fund #9	Sinking and Interest Fund #8		1,675	
		\$	1,659,589	

Transfers from the building fund, general fund and sinking and interest fund #8 to the sinking and interest fund #9 were to make debt payments. The transfer from the general fund to the food service fund was to cover the fund balance deficit. The transfer from the general fund to the building fund was related to construction costs. The transfer from the sinking and interest fund #12 to the general fund was to close out the balance in excess of future debt payments.

# NOTE 16 EARLY RETIREMENT

The District has adopted an early retirement policy for teachers who are eligible to retire based on TFFR rules, who have completed fifteen years of total employment at the District and who have worked for the District for the five years immediately preceding the application for retirement. Teachers who choose to retire can receive a retirement payment made in equal payments over a period of two to three years. A teacher's payment is based on the individual's current contract at the time of application based on a starting reduction factor of 80%. If the individual applies for early retirement after their first year of eligibility, they will receive a reduced incentive amount. See Note 5.

# NOTE 17 INTERFUND BALANCES

The District has the following interfund receivables and payables as of June 30, 2016.

	nterfund eceivable	Interfund Payable		
General Fund	\$ 16,667	\$	-	
Food Service Fund	 -		16,667	
	\$ 16,667	\$	16,667	

Interfund balances consist of expenditures paid on behalf of other funds as of June 30, 2016.

# NOTE 18 DEFICIT FUND BALANCES

The following governmental funds had a deficit fund balance as of June 30, 2016:

Fund	 alance at 30/2016
Building Fund Food Service Fund	\$ (9,369) (8,328)
Total Fund Balance Deficits	\$ (17,697)

The total fund balance deficit of \$17,697 will be reduced by future property tax levies, food service revenue, and transfers.

# NOTE 19 NEW PRONOUNCEMENTS

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, Financial Reporting for Pension Plans, and Statement 68 for pension plans and pensions that are within their respective scopes. The requirements of this Statement that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68 are effective for financial statements for fiscal years beginning after June 15, 2016, and the requirements of this Statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of this Statement for pension plans that are within the scope of Statement 67 or for pensions that are within the scope of Statement 68 are effective for fiscal years beginning after June 15, 2015. Earlier application is encouraged.

GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. Earlier application is encouraged.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement is effective for fiscal years beginning after June 15, 2017. Earlier application is encouraged.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, is to identify, in the context of the current governmental financial reporting environment, the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. This Statement is effective for reporting periods beginning after June 15, 2015. Earlier application is permitted.

GASB Statement No. 77, *Tax Abatement Disclosures*, Financial statements prepared by state and local governments in conformity with generally accepted accounting principles provide citizens and taxpayers, legislative and oversight bodies, municipal bond analysts, and others with information they need to evaluate the financial health of governments, make decisions, and assess accountability. This information is intended, among other things, to assist these users of financial statements in assessing (1) whether a government's current-year revenues were sufficient to pay for current-year services (known as interperiod equity), (2) whether a government complied with finance-related legal and contractual obligations, (3) where a government's financial resources come from and how it uses them, and (4) a government's financial position and economic condition and how they have changed over time. This Statement is effective for financial statements for periods beginning after December 15, 2015. Earlier application is encouraged.

GASB Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*, is to address a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. The requirements of this Statement are effective for reporting periods beginning after December 15, 2015. Earlier application is encouraged.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. This Statement is effective for reporting periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk, and shadow pricing. Those provisions are effective for reporting periods beginning after December 15, 2015. Earlier application is encouraged.

GASB Statement No. 80, *Blending Requirements for Certain Component Units, an Amendment of GASB Statement No. 14*, amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criteria require blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. Earlier application is encouraged.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements*, provides recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively. Earlier application is encouraged.

GASB Statement No. 82, *Pension Issues - an Amendment of GASB Statements No. 67 and No. 73*, provides further guidance regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement amends GASB Statements No. 67 and No. 68 to require the presentation of covered payroll to be defined as the payroll on which contributions to a pension plan are based, rather than the payroll of employees that are provided with pensions through the pension plan. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. Earlier application is encouraged.

Management has not yet determined the effect these statements will have on the entity's financial statements.

# NOTE 20 SUBSEQUENT EVENTS

Subsequent to year end, the District entered into a long term lease for printer equipment. Subsequent events have been evaluated through November 11, 2016, which is the date these financial statements were available to be issued.

## **GRAFTON PUBLIC SCHOOL DISTRICT NO. 3** NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2016

# NOTE 1– BUDGETARY COMPARISON

## Budgets and Budgetary Accounting:

The District's Board follows the procedures established by North Dakota law for the budgetary process. The governing body of each School District, annually on or before the last day of July must levy taxes. The governing body of the School District may amend its tax levy and budget for the current fiscal year on or before the tenth day of October of each year. Taxes for School District purposes must be based upon an itemized budget statement which must show the complete expenditure by program of the District for the current fiscal year and the sources of the revenue from which it is to be financed. The School Board, in levying taxes, is limited by the amount necessary to be raised for the purpose of meeting the appropriations included in the school budget of the current fiscal year, and the sum necessary to be provided as an interim fund, together with a tax sufficient in amount to pay the interest on the bonded debt of the District and to provide a sinking fund to pay and discharge the principal thereon at maturity. During the current year in the General Fund, actual expenditures exceeded budgeted expenditures by \$386,315.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The administration prepares the District's budget. The budget includes proposed expenditures and the means of financing them. The budget is prepared on the modified accrual basis of accounting.
- 2. The Board reviews the budget, may make revisions, and adopts the final budget before October tenth of each year. The budget is then filed with the county auditor by October tenth of each year.
- 3. The budget may be amended during the year for any revenues and appropriations not anticipated at the time the budget was prepared, except no amendment changing the taxes levied can be made after October 10 of each year. The budget amounts shown in the financial statements are the final authorized amounts.
- 4. All appropriations lapse at the close of the District's fiscal year. The balance of the appropriation reverts back to each respective fund and is available for future appropriation.

# NOTE 2 – CHANGES OF ASSUMPTIONS

## TFFR

Amounts reported in 2016 reflect actuarial assumption changes effective July 1, 2015 based on the results of an actuarial experience study completed in 2015.

- Investment return assumption lowered from 8% to 7.75%.
- Inflation assumption lowered from 3% to 2.75%.
- Total salary scale rates lowered by 0.25% due to lower inflation.
- Added explicit administrative expense assumption, equal to prior year administrative expense plus inflation.

# GRAFTON PUBLIC SCHOOL DISTRICT NO. 3 NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION - CONTINUED FOR THE YEAR ENDED JUNE 30, 2016

- Rates of turnover and retirement were changed to better reflect anticipated future experience.
- Updated mortality assumption to the RP-2014 mortality tables with generational improvement.

# NDPERS

Amounts reported in 2016 reflect actuarial assumption changes effective July 1, 2015 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Grafton Public School District No. 3 Grafton, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2016, and the related notes to the basic financial statements, which collectively comprise Grafton Public School District No. 3's basic financial statements and have issued our report thereon dated November 11, 2016.

# Internal Control Over Financial Reporting

In planning and performing our audit, we considered Grafton Public School District No. 3's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency. See finding 2016-001.

## **Compliance And Other Matters**

As part of obtaining reasonable assurance about whether Grafton Public School District No. 3's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

## The District's Response To Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

# Purpose Of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Porady Martz

BRADY, MARTZ & ASSOCIATES, P.C. GRAND FORKS, NORTH DAKOTA

November 11, 2016

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Education Grafton Public School District No. 3 Grafton, North Dakota

# Report on Compliance for Each Major Federal Program

We have audited Grafton Public School District No. 3's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Grafton Public School District No. 3's major federal programs for the year ended June 30, 2016. The Grafton Public School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

# Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Grafton Public School District No. 3's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, Grafton Public School District No. 3 complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

## **Report on Internal Control Over Compliance**

Management of Grafton Public School District No. 3 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures that are appropriate in each major federal program and to test and report on internal control over compliance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance of deficiencies, in internal control over compliance is a internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# **GRAFTON PUBLIC SCHOOL DISTRICT NO. 3** NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2016

# NOTE 1 - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the Grafton Public School District No. 3 and is presented on the accrual basis. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

## **NOTE 2 - NONMONETARY TRANSACTIONS**

The District receives commodities through the food distribution program and the assistance is valued at the fair value of the commodities received and disbursed.

# NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to requirement. Grafton Public School District No. 3 has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

## NOTE 4 - RECONCILIATION OF FEDERAL REVENUES TO THE SCHEDULE OF FEDERAL AWARDS

## **GRAFTON PUBLIC SCHOOL DISTRICT NO. 3** SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED FOR THE YEAR ENDED JUNE 30, 2016

## SECTION II – FINANCIAL STATEMENT FINDINGS

#### 2016-001 Finding

## Criteria

An appropriate system of internal controls requires that a District make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with accounting principles generally accepted in the United States of America. This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures.

## Condition

The District's auditors prepared the financial statements as of June 30, 2016. In addition, adjusting entries were proposed to bring the financial statements into compliance with accounting principles generally accepted in the United States of American (GAAP). An appropriate system of internal controls requires that a District must make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with GAAP. This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures.

#### Effect

The District currently does not maintain the working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures to make a determination that financial statements are properly stated in compliance with accounting principles generally accepted in the United States of America.

#### Recommendation

Compensating controls could be provided through client preparation of the financial statement preparation and/or review function.

## Management's Response

Management agrees with comment and will implement when it becomes cost-effective.

# SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There are no findings to be reported in this section.

## **GRAFTON PUBLIC SCHOOL DISTRICT NO. 3** SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

## 2015-001 Finding

## Criteria

An appropriate system of internal controls requires that a District make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with accounting principles generally accepted in the United States of America. This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures.

## Condition

The District's auditors prepared the financial statements as of June 30, 2014. In addition, adjusting entries were proposed to bring the financial statements into compliance with accounting principles generally accepted in the United States of American (GAAP). An appropriate system of internal controls requires that a District must make a determination that financial statements and the underlying general ledger accounts are properly stated in compliance with GAAP. This requires the District's personnel to maintain a working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures.

## Effect

The District currently does not maintain the working knowledge of current accounting principles generally accepted in the United States of America and required financial statement disclosures to make a determination that financial statements are properly stated in compliance with accounting principles generally accepted in the United States of America.

## Recommendation

Compensating controls could be provided through client preparation of the financial statement preparation and/or review function.

## Management's Response

Management agrees with comment and will implement when it becomes cost-effective.
