## INDEPENDENT AUDITOR'S REPORT

Governing Board  
City of Maddock  
Maddock, North Dakota

### **Report on the Financial Statements**

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Maddock, Maddock, North Dakota, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the city's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the city's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the city's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Maddock, Maddock, North Dakota, as of December 31, 2016, and the respective changes in modified cash basis financial position; and where applicable, cash flows thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

## Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

## Other Matters

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the city's basic financial statements. The management's discussion and analysis, budgeting comparison information, schedule of employer's share of pension liability and the schedule of fund activity arising from cash transactions are presented for additional analysis and are not a required part of the basic financial statements.

The management's discussion and analysis, budgeting comparison information, schedule of employer's share of pension liability and the schedule of fund activity arising from cash transactions are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the management's discussion and analysis, budgeting comparison information, schedule of employer's share of pension liability and the schedule of fund activity arising from cash transactions are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 3, 2017 on our consideration of the city's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the city's internal control over financial reporting and compliance.

CITY OF MADDOCK

Management's Discussion and Analysis

December 31, 2016

The Management's Discussion and Analysis (MD&A) of the City of Maddock's financial performance provides an overall review of the city's financial activities for the fiscal year ended December 31, 2016. The intent of the MD&A is to look at the city's financial performance as a whole. It should, therefore, be read in conjunction with the basic financial statements and related notes.

The MD&A is a new element of the Required Supplementary Information specified in the Government Accounting Standards Board's (GASB) Statement No. 34 "*Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments*". Certain comparative information between the current fiscal year and the prior year is required to be presented in the MD&A.

**FINANCIAL HIGHLIGHTS**

Key financial highlights for the year ended December 31, 2016 are as follows:

- \* Total net position of the city decreased \$165,924 as a result of the current year's operations. Net position of the governmental activities decreased \$240,826 and net position of the business-type activities increased \$74,902.
- \* Governmental net position totaled \$1,928,975 and business-type net position totaled \$2,723,025.
- \* Total revenues from all sources were \$396,201 for governmental activities and \$912,289 for business-type activities.
- \* Total expenses were \$637,027 for governmental activities and \$837,386 for business-type activities.
- \* The city's general fund had \$101,804 in total revenues and \$60,644 in total expenditures. Overall, the general fund balance increased by \$41,160 for the year ended December 31, 2016.

**USING THIS ANNUAL REPORT**

This annual financial report consists of a series of statements and related footnotes. These statements are organized so that the reader can understand the city as a financial whole. The statements then proceed to provide an increasingly detailed look at financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole city, presenting both an aggregate view of the city's finances and a longer-term view of those finances. These statements present information as follows:

- \* Governmental activities - this includes most of the city's basic services which are primarily supported by property taxes, user fees and intergovernmental revenues.
- \* Business-type activities - this includes those services which are intended to recover all or a significant part of their costs through user fees.

Fund financial statements provide the next level of detail. These statements tell how services were financed in the short-term as well as what remains for future spending. Separate statements for each fund category - governmental and proprietary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

#### REPORTING ON THE CITY AS A WHOLE

##### Statement of Net Position and Statement of Activities

These statements are summaries of all the funds used by the city to provide programs and activities and attempt to answer the question "How did the city do financially during the year ended December 31, 2016?"

The Statement of Net Position presents information on all the city's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the city is improving or deteriorating.

The Statement of Activities presents information on how the city's net position changed during the fiscal year. This statement is presented using the modified cash basis of accounting. This basis recognizes revenues and expenses when they result from cash transactions with provisions for depreciation of capital assets, and issuance of and payments made on long-term debt issues.

These two statements report the city's net position and changes in that position. This change in net position is important because it tells the reader whether, for the city as a whole, the financial position of the city has improved or deteriorated. The causes of this change may be the result of many factors, some financial and some not.

In the Statement of Net Position and the Statement of Activities, the city reports governmental and business-type activities. Governmental activities are the activities where most of the city's programs and services are reported including, but not limited to, general government, public safety, streets and public works, culture and recreation and debt service. Business-type activities are where the city's enterprise services are reported including, but not limited to, light operating, water, sewer, garbage and water surcharge.

**REPORTING ON THE CITY'S MOST SIGNIFICANT FUNDS**

Balance Sheet - Governmental Funds

The city uses separate funds to account for and manage money dedicated for particular purposes (e.g. taxes collected from special mill levies and funds received from grants and donations). The fund basis financial statements allow the city to demonstrate its stewardship over and accountability for resources provided by taxpayers and other entities. Fund financial statements provide detailed information about the city's major funds. Using the criteria established by GASB Statement No. 34, the city's general fund, sales tax fund and street improvement project - 2016 fund are considered "major governmental funds". The city's light operating fund, water fund and sewer fund are considered "major enterprise funds".

The city's other funds, which are used to account for a multitude of financial transactions, are summarized under the heading "Other Governmental Funds" or "Other Enterprise Funds".

**FINANCIAL ANALYSIS OF THE CITY AS A WHOLE**

Table I provides a summary of the city's net position as of December 31, 2016. A comparative analysis of city-wide data is presented for both current and prior year.

As indicated in the financial highlights above, the city's net position decreased by \$165,924 for the year ended December 31, 2016. Changes in net position may serve over time as a useful indicator of the city's financial position.

As of December 31, 2016, the city's net position of \$4,652,000 is segregated into three separate categories. Net investment in capital assets totals \$3,003,355. It should be noted that these assets are not available for future spending. The restricted component of net position is \$212,435 of the city's net position and represents resources that are subject to external restrictions on how they must be spent. The remaining unrestricted component of net position is \$1,436,210 which includes (\$63,346) relating to the reporting of it's share of the unfunded liability for the North Dakota Public Employees Retirement System as required by GASB Statement No. 68. The net amount of \$1,499,556 is available to meet the city's ongoing obligations.

Total Expenses	637,027	580,630

**FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS**

The purpose of the city's governmental funds is to provide information on the near-term inflows, outflows and balances of available resources. Unassigned fund balance generally can be used as a measure of the city's net resources available for spending as of the end of the fiscal year. These funds are accounted for using the modified cash basis of accounting. The city's governmental funds had total revenue of \$396,201 and expenditures of \$2,158,272 for the year ended December 31, 2016. As of December 31, 2016, the unassigned fund balance of the city's general fund was (\$17,963) and total unassigned fund balances for all the city's governmental funds was (\$165,959).

**GENERAL FUND BUDGET HIGHLIGHTS**

During the course of fiscal year 2016, the city did not amend the general fund budget.

Actual revenue for the year ended December 31, 2016 was \$24,954 more than budgeted. This variance was mainly due to the city underestimating collections for property taxes. Actual expenditures for the year ended December 31, 2016 were under budget by \$24,656. This variance was due to the city overestimating appropriations for general government expenditures.

**CAPITAL ASSETS**

As of December 31, 2016, the city had \$5,496,319 invested in capital assets. The following table shows the balances, for governmental and business-type activities, as of December 31, 2016.

Table IV

Capital Assets  
(Net of Accumulated Depreciation)  
As of December 31, 2016

	<u>Governmental</u>	<u>Business- Type</u>
Land	28,215	42,285
Buildings and Infrastructure	3,778,448	1,548,327
Machinery and Vehicles	99,044	
Total (net of depreciation)	<u>3,905,707</u> =====	<u>1,590,612</u> =====

This total represents an increase of \$1,408,457 in capital assets from January 1, 2016. The increase in buildings and infrastructure was due to a city street project. For a detailed breakdown of the additions and deletions to capital assets, readers are referred to Note 6 to the audited financial statements which follow this analysis.

Capital Assets  
(Net of Accumulated Depreciation)  
As of December 31, 2015

	<u>Governmental</u>	<u>Business- Type</u>
Land	28,215	42,285
Buildings and Infrastructure	2,280,486	1,620,783
Machinery and Vehicles	116,093	
Total (net of depreciation)	<u>2,424,794</u> =====	<u>1,663,068</u> =====

**DEBT ADMINISTRATION**

As of December 31, 2016, the city had \$2,492,965 in outstanding debt of which \$85,937 was due within one year. During fiscal year 2016, the city issued one new long-term debt obligation.

Special Assessment Bonds Payable, in the amount of \$1,750,000. The city issued the Refunding Improvement Bonds of 2016 to fund a street project. These bonds will have a final payment on May 1, 2032,

For a detailed breakdown of the long-term debt, readers are referred to Note 8 to the audited financial statements which follow this analysis.

#### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our taxpayers and creditors with a general overview of the city's finances and to show the city's accountability for the money it receives. Anyone who has questions about information contained in this report or who is interested in receiving additional information is encouraged to contact Pamela Lee, City Auditor, Maddock, ND.

CITY OF MADDOCK  
Maddock, North Dakota

Reconciliation of Governmental Funds Balance Sheet  
to the Statement of Net Position - Modified Cash Basis  
For the Year Ended December 31, 2016

Total Fund Balances for Governmental Funds	219,578.38
--	------------

Total net position reported for government activities in the statement of net position is different because:

Capital assets used in governmental activities are not financial resources and are not reported in the governmental funds.

Cost of Capital Assets	4,660,205.00	
Less Accumulated Depreciation	(754,498.00)	
		3,905,707.00
Net Capital Assets		

The deferred outflows and inflows of resources reported on the statement of net position are the result of changes in resources related to pensions and do not affect current financial resources.

Total Deferred Outflows of Resources	29,696.00	
Total Deferred Inflows of Resources	(17,136.00)	
		12,560.00
Net Deferred Outflows/Inflows of Resources		

Long-term liabilities applicable to the city's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Long-term liabilities -both current and long-term- are reported in the statement of net position. Balances at December 31, 2016 are:

Capital Lease Payable	(37,128.68)	
Bank Loan Payable	(45,768.22)	
Community Facilities Loan Payable	(191,333.75)	
Airport Loan Payable	(108,733.87)	
Special Assessment Bonds Payable	(1,750,000.00)	
Net Pension Liability	(75,906.00)	
		(2,208,870.52)
Total Long-Term Liabilities		

Total Net Position of Governmental Activities	1,928,974.86

CITY OF MADDOCK  
Maddock, North Dakota

Reconciliation of Governmental Funds Statement of Revenues, Expenditures and  
Changes in Fund Balances to the Statement of Activities - Modified Cash Basis  
For the Year Ended December 31, 2016

Net Change in Fund Balances - Total Governmental Funds (50,179.71)

The change in net position reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current year.

Current Year Capital Outlay	1,589,000.00	
Current Year Depreciation Expense	(108,087.00)	1,480,913.00

The proceeds of debt issuances are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the statement of net position, issuing debt increases long-term liabilities and does not affect the statement of activities. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which debt proceeds exceeded repayment of debt.

Debt Proceeds	(1,750,000.00)	
Repayment of Debt	82,941.45	(1,667,058.55)

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds.

Net Increase to Pension Expense		(4,501.00)

Change in Net Position of Governmental Activities		(240,826.26)

The accompanying notes are an integral part of these financial statements.

CITY OF MADDOCK  
Maddock, North Dakota

Notes to the Financial Statements  
December 31, 2016

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Maddock operates under a city council form of government. The financial statements of the city have been prepared on a modified cash basis, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Financial Reporting Entity

The accompanying financial statements present the activities of the city. The city has considered all potential component units for which the city is financially accountable and other organizations for which the nature and significance of their relationships with the city are such that exclusion would cause the city's financial statements to be misleading or incomplete. The Government Accounting Standards Board has set forth criteria to be considered in determining financial accountability. This criteria includes appointing a voting majority of an organization's governing body and (1) the ability of the city to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the city.

Based on these criteria, the component units discussed below are included within the city's reporting entity because of the significance of their operational or financial relationship with the city.

Discretely Presented Component Units: The component units' columns in the basic financial statements include the financial data of the city's two component units. These units are reported in separate columns to emphasize that they are legally separate from the city.

Maddock Business & Technology Center: The city owns the Business & Technology Center. Debt on the Business & Technology Center is ultimately the responsibility of the city. The city has no oversight over the manager and has requested the Business & Technology Center be included as a component unit of the city.

Maddock Multi-Purpose Building: The city owns the Multi-Purpose Building and the city has requested the Multi-Purpose Building be included as a component of the city. This fund accounts for donations received from individuals and businesses for the purpose of construction and maintenance of the Multi-Purpose Building.

The financial statements of the discretely presented component units are presented in the basic financial statements.

## B. Basis of Presentation

*Government-wide Financial Statements:* The statement of net position and the statement of activities display information about the primary government, the City of Maddock and its component units. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the city. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the city's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

*Fund Financial Statements:* The fund financial statements provide information about the city's funds. Separate statements for each fund category - *governmental* and *proprietary* - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are segregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investments earnings, result from nonexchange transactions or ancillary activities.

The city reports the following major governmental funds:

*General Fund.* This is the city's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

*Sales Tax.* This fund accounts for the city's sales tax collections which are used for public works and economic development.

*Street Improvement Project - 2016.* The city issued the Refunding Bonds of 2016 to fund a street improvement project. This fund is used to account for the bond proceeds and the costs of the street project.

The city reports the following major enterprise funds:

*Light Operating.* This fund accounts for the purchase and distribution of electric power throughout the city.

*Water.* This fund accounts for the activities of the city's water distribution system.

*Sewer.* This fund accounts for the activities of the city's sewer collection system.

### C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### Measurement Focus

In the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as defined in item b below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. All assets and liabilities (whether current or noncurrent, financial or nonfinancial) associated with their activities are reported. Proprietary fund equity is classified as net position.

#### Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities and the fund financial statements, governmental and business-like activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund equity, revenues, and expenditures/expenses when they result from cash transactions with a provision for depreciation in the government-wide statements and proprietary fund statements. This basis is a basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the city utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

D. Cash, Cash Equivalents and Investments

Cash and cash equivalents include amounts in demand deposits, money market accounts and highly liquid short-term investments with original maturities of three months or less.

Investments consist of certificates of deposit stated at cost.

E. Capital Assets

Capital assets include land, plant and equipment. Assets are reported in the governmental activities column and the business-type activities column in the government-wide financial statements. Assets are also reported in the proprietary fund statements. Capital assets are defined by the city as assets with an initial, individual cost of \$5,000 or more. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is not capitalized.

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Buildings and Infrastructure	40 to 75 years
Machinery and Vehicles	7 to 20 years

F. Compensated Absences

No liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

Vested or accumulated vacation leave is not reported in the government-wide statement of net position as it is considered immaterial.

G. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums, discounts and issuance costs are recognized in the current period since the amounts are not material.

In the fund financial statements, governmental fund types recognize bond premiums, discounts and issuance costs in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

## H. Pension

For purposes of measuring net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS); additions to/deductions from NDPERS' fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## I. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

**Fund Balance** - Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the city is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

**Nonspendable** - Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash such as inventories or prepaid expenses) or (b) legally or contractually required to be maintained intact (i.e., endowment funds).

**Restricted** - Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the city or through external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments (i.e., funds restricted by state statute, unspent bond proceeds, grants earned but not spent, debt covenants or taxes raised for a specific purpose).

**Committed** - Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the city council through the adoption of a resolution. The city council also may modify or rescind the commitment.

**Assigned** - Fund balances are reported as assigned when amounts are constrained by the city's intent to be used for specific purposes, but are neither restricted nor committed.

**Unassigned** - Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The city reports positive unassigned fund balance only in the general fund. Negative fund balances may be reported in all funds.

**Flow Assumptions** - When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the city's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the city's policy to use fund balance in the following order:

- \* Committed
- \* Assigned
- \* Unassigned

**Net Position** - Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the city has not spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted as described in the fund balance section above. All other net position is reported as unrestricted.

#### J. Interfund Transactions

In the governmental and proprietary fund statements, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

All other interfund transactions, except reimbursements, are reported as transfers.

In the government-wide financial statements, interfund transactions have been eliminated.

#### K. Use of Estimates

The preparation of financial statements in conformity with the special purpose framework (SPF) used by the city requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

#### Note 2 DEPOSITS AND INVESTMENTS

In accordance with North Dakota Statutes, the city maintains deposits at the depository banks designated by the governing board. All depositories are members of the Federal Reserve System.

Deposits must either be deposited with the Bank of North Dakota or in other financial institutions situated and doing business within the state. Deposits, other than with the Bank of North Dakota, must be fully insured or bonded. In lieu of a bond, a financial institution may provide a pledge of securities equal to 110% of the deposits not covered by insurance or bonds.

Authorized collateral includes bills, notes or bonds issued by the United States government, its agencies or instrumentalities, all bonds and notes guaranteed by the United States government, Federal Land Bank bonds, bonds, notes, warrants, certificates of indebtedness, insured certificates of deposit, shares of investments companies registered under the Investment Companies Act of 1940, and all other forms of securities issued by the State of North Dakota, its boards, agencies or instrumentalities or by any county, city, township, school district, park district or any other political subdivision of the State of North Dakota, whether payable from special revenues or supported by the full faith and credit of the issuing body and bonds issued by another state of the United States or other securities approved by the banking board.

At December 31, 2016 the city's carrying amount of deposits was \$1,611,227 and the bank balance was \$1,622,431. Of the bank balance, \$500,000 was covered by Federal Depository Insurance. The remaining balance of \$1,122,431 was collateralized with securities held by the pledging financial institution's agent in the government's name.

Credit Risk

The city may invest idle funds as authorized in North Dakota Statutes, as follows:

- (1) Bonds, treasury bills and notes, or other securities that are a direct obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities or organizations created by an act of Congress.
- (2) Securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above.
- (3) Certificates of deposit fully insured by the federal deposit insurance corporation.
- (4) Obligations of the State.

At December 31, 2016 the city held certificates of deposit in the amount of \$1,030,617, which are all considered deposits.

Concentration of Credit Risk

The city does not have a limit on the amount the city may invest in any one issuer.

Note 3 PROPERTY TAXES

The county treasurer acts as an agent to collect property taxes levied in the county for all taxing authorities. Any material tax collections are distributed after the end of each month.

Property taxes are levied as of January 1. The property taxes attach as an enforceable lien on property on January 1 and may be paid in two installments. The first installment includes one-half of the real estate taxes and all the special assessments and the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount on property taxes is allowed if all taxes and special assessments are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Most property owners choose to pay property taxes and special assessments in a single payment on or before February 15 and receive the discount on the property taxes.

Note 4 ACCOUNTS RECEIVABLE

Accounts receivable consist of amounts due from city residents for utility services provided.

Note 5 INTERFUND RECEIVABLES/PAYABLES

Interfund receivables/payables are created by a negative cash balance in various funds. The amount shown as interfund payables represents the amount of negative cash in the funds. Interfund receivables/payables for the year ended December 31, 2016 are as follows:

	<u>Receivable Fund</u>	<u>Payable Fund</u>
General Fund	18,083.24	
Sales Tax	84,354.51	
Municipal Highway	15,518.00	
Library	48,123.26	
State Aid		146,016.32
Special Projects		20,062.69
Light Operating	146,207.45	
Sewer		146,207.45

Note 6 CAPITAL ASSETS

The following is a summary of changes in capital assets for the year ended December 31, 2016:

	<u>Balance January 1</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance December 31</u>
<b>Governmental Activities:</b>				
<i>Capital assets not being depreciated:</i>				
Land	28,215			28,215
<i>Capital assets being depreciated:</i>

Note 7 CAPITAL LEASE PAYABLE

The city has entered into the following lease agreement.

\$88,990.00 lease-purchase of a Caterpillar 930K Wheel Loader, due in annual installments of \$19,375.93 through February 20, 2018; interest is at 2.862%.	37,128.68 =====
---	--------------------

This lease agreement qualifies as a capital lease for accounting purposes (title transfers at the end of the lease term). The following is a schedule of the future minimum lease payments under this capital lease, and the net present value of the minimum lease payments at December 31, 2016:

<u>Year Ending December 31</u>	<u>Governmental Activities Lease Payments</u>
2017	19,375.93
2018	19,375.93
Total minimum lease payments	38,751.86
Less: amount representing interest	(1,623.18)
Present value of future minimum lease payments	37,128.68

Note 8 LONG-TERM DEBT

Changes in Long-Term Liabilities. During the year ended December 31, 2016, the following changes occurred in liabilities reported in the long-term liabilities of the city:

Governmental Activities:

	<u>Balance January 1</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance December 31</u>	<u>Due Within One Year</u>
Capital Lease	54,912		17,783	37,129	18,299
Bank Loan Payable	54,593		8,825	45,768	9,900
Comm. Fac. Loan Payable	196,219		4,885	191,334	4,977
Airport Loan Payable	160,182		51,448	108,734	32,761
Special Assessment Bonds		1,750,000		1,750,000	
Total	465,906	1,750,000	82,941	2,132,965	65,937

Business-type Activities:

	<u>Balance January 1</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance December 31</u>	<u>Due Within One Year</u>
Revenue Bonds	380,000	-0-	20,000	360,000	20,000

Outstanding debt at December 31, 2016 consists of the following:

Governmental Activities:

General Obligation Debt. General obligation debt is a direct obligation and pledges the full faith and credit of the government. General obligation debt outstanding at December 31, 2016, is as follows:

Bank Loan Payable. The city has entered into a loan agreement for the construction of an office building.

\$150,000 bank loan with Ramsey National Bank, due in monthly installments of \$1,135.40 through February 1, 2021; payments include interest at 6.75%.

45,768.22  
=====

The annual requirements to amortize the outstanding bank loan payable are as follows:

<u>Year Ending December 31</u>	<u>Principal</u>	<u>Interest</u>
2017	9,900.00	2,700.00
2018	10,575.00	2,025.00
2019	11,250.00	1,350.00
2020	11,925.00	675.00
2021	2,118.22	78.00
Total	45,768.22	6,828.00

Community Facilities Loan Payable. The city has received a Rural Development loan through the United States Dept. of Agriculture for the construction of an office building.

\$250,000 Rural Development loan, due in an initial payment of \$20,358.26, annual installments of \$14,093.64 through May, 2038 and a final payment of \$5,872.35 on May 3, 2039; payments include interest at 4.75%.

191,333.75  
=====

The annual requirements to amortize the outstanding community facilities loan payable are as follows:

<u>Year Ending December 31</u>	<u>Principal</u>	<u>Interest</u>
2017	4,977.19	9,116.45
2018	5,218.83	8,874.81
2019	5,472.18	8,621.46
2020	5,737.88	8,355.76
2021	6,016.42	8,077.22
2022-2026	34,757.48	35,710.72
2027-2031	44,054.46	26,413.74
2032-2036	55,838.23	14,629.97
2037-2039	29,261.08	1,945.68
Total	191,333.75	121,745.81

Airport Loan Payable. The airport has received a bank loan to provide funds for a runway project.

\$305,181.78 bank loan with Ramsey National  
 Bank due in annual installments of \$37,328.78  
 through April 15, 2018 and a final installment  
 of \$43,109.51 on April 15, 2019; payments  
 include interest at 3.8% 108,733.87  
 =====

The annual requirements to amortize the outstanding airport loan payable are as follows:

<u>Year Ending</u> <u>December 31</u>	<u>Principal</u>	<u>Interest</u>
2017	32,760.75	4,568.03
2018	34,441.80	2,886.98
2019	41,531.32	1,578.19
Total	108,733.87 =====	9,033.20 =====

Special Assessment Bonds. The city has issued special assessment bonds to provide funds for the construction and/or improvement of streets. Special assessment bonds outstanding at December 31, 2016 are as follows:

\$1,750,000 Refunding Improvement Bonds of 2016,  
 due in annual installments of \$100,000.00 to  
 \$140,000.00 through May 1, 2032; interest is  
 at 1.25% to 3%. 1,750,000.00

Total	360,000.00	74,875.00
	=====	=====

Note 9 DEFICIT FUND BALANCES

The following funds had deficit balances at December 31, 2016:

General Fund	(17,963.24)
<u>Special Revenue Funds</u>	
Sales Tax	(84,354.51)
Municipal Highway	(15,518.00)
Library	(48,123.26)
<u>Enterprise Fund</u>	
Sewer	(140,677.23)

The city plans to eliminate these deficit fund balances with future revenue collections and/or transfers from other funds.

Note 10 RISK MANAGEMENT

The City of Maddock is exposed to various risks of loss relating to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

In 1986, state agencies and political subdivisions of the State of North Dakota joined together to form the North Dakota Insurance Reserve Fund (NDIRF), a public entity risk pool currently operating as a common risk management and insurance program for the state and over 2,000 political subdivisions. The city pays an annual premium to NDIRF for its general liability, automobile and public assets insurance coverage. The coverage by NDIRF is limited to losses of \$2,000,000 per occurrence for general liability and automobile; and \$326,139 for public assets.

The city also participates in the North Dakota Fire and Tornado Fund and the State Bonding Fund. The city pays an annual premium to the Fire and Tornado Fund to cover property damage to buildings and personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the Fire and Tornado Fund. The Fire and Tornado Fund is reinsured by a third party insurance carrier for losses in excess of \$1,000,000 per occurrence during a 12 month period. The State Bonding Fund currently provides the city with a blanket fidelity bond coverage in the amount of \$626,000 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

The city has worker's compensation with the Department of Workforce Safety and Insurance; and purchases commercial insurance for employee health and accident insurance.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

Note 11 PENSION PLAN

North Dakota Public Employees Retirement System (Main System)

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the NDPERS plan is financed by investment income and contributions.

Responsibility for administration of the NDPERS benefits program is assigned to a Board comprised of seven members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by active membership of the NDPERS system; and one member elected by the retired public employees.

**Pension Benefits**

Benefits are set by statute. NDPERS has no provision or policies with respect to automatic and ad hoc post-retirement benefit increases. Members of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016 the Rule of 85 will be replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

## **Death and Disability Benefits**

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition of disabled is set by the NDPERS in the North Dakota Administrative Code.

## **Refunds of Member Account Balance**

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

## **Member and Employer Contributions**

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of covered compensation. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation.

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25 and the maximum may not exceed the following:

- 1 to 12 months of service -  
Greater of one percent of monthly salary or \$25
- 13 to 25 months of service -  
Greater of two percent of monthly salary or \$25
- 25 to 36 months of service -  
Greater of three percent of monthly salary or \$25
- Longer than 36 months of service -  
Greater of four percent of monthly salary or \$25

**Pension Liabilities, Pension Expense; and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At December 31, 2016, the City of Maddock reported a liability of \$75,906 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The city's proportion of the net pension liability was based on the city's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At June 30, 2015 the city's proportion was .011163 percent, which was an increase of .001474 from its proportion measured as of June 30, 2014.

For the year ended December 31, 2016 the city recognized pension expense of \$9,150. At December 31, 2016 the city reported deferred outflows of resources and deferred inflows of resources related to pensions, from the following sources:

	Deferred Outflows of Resources -----	Deferred Inflows of Resources -----
Differences between expected and actual experience	2,202	
Changes in assumptions		6,763
Net difference between projected and actual earnings on pension plan investments	8,771	10,373
Changes in proportion and differences between employer contributions and proportionate share of contributions	9,531	
City contributions subsequent to the measurement date (see below)	9,192	
Total	----- 29,696 -----	----- 17,136 -----

\$9,192 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30: -----	
2017	(141)
2018	(141)
2019	(141)
2020	3,170
2021	626
Thereafter	0

**Actuarial assumptions.** The total pension liability in the July 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.50%
Salary increases	4.50% per annum
Investment rate of return	8.00%, net of investment expenses.
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the RP-2000 Combined Healthy Mortality Table set back two years for males and three years for females, projected generationally using the SSA 2014 Intermediate Cost scale from 2014. For disabled retirees, mortality rates were based on the RP-2000 Disabled Retiree Morality Table with ages set back one year for males (not set back for females).

The actuarial assumptions used were based on the results of an actuarial experience study completed in 2015. They are the same as the assumptions used in the July 1, 2015, funding actuarial valuation for NDPERS.

As a result of the 2015 actuarial experience study, the NDPERS Board adopted several changes to the actuarial assumptions effective July 1, 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31%	6.90%
International Equity	21%	7.55%
Private Equity	5%	11.30%
Domestic Fixed Income	17%	1.52%
International Equity Income	5%	0.45%
Global Real Assets	20%	5.38%
Cash Equivalents	1%	0.00%

**Discount rate.** The discount rate used to measure the total pension liability was 8 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the July 1, 2015, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2015.

Sensitivity of the city's proportionate share of the net pension liability to changes in the discount rate. The following presents the city's proportionate share of the net pension liability calculated using the discount rate of 8 percent, as well as what the city's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7 percent) or 1-percentage-point higher (9 percent) than the current rate:

	1% Decrease (7%)	Current Rate (8%)	1% Increase (9%)
	-----	-----	-----
The city's proportionate share of the net pension liability	116,399	75,906	42,776

**Pension plan fiduciary net position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report.

CITY OF MADDOCK  
Maddock, North Dakota

Notes to the Budgetary Comparison Schedules  
December 31, 2016

Note 1 SUMMARY OF SIGNIFICANT BUDGET POLICIES

Based upon available financial information and requests by the governing board, the city auditor prepares the preliminary budget. The city budget is prepared for the general, special revenue funds and debt service funds by function and activity on the cash basis of accounting. The preliminary budget includes the proposed expenditures and the means of financing them. All annual appropriations lapse at year-end.

The governing board holds a public hearing where any taxpayer may testify in favor of, or against, any proposed expenditures or tax levies requested in the preliminary budget. After the budget hearing and on or before October 7, the board adopts the final budget. The final budget must be filed with the county auditor by October 10. No expenditure shall be made, or liability incurred, in excess of the total appropriation by fund except as authorized by North Dakota Century Code Section 40-40-18. However, the governing board may amend the budget during the year for any revenues and appropriations not anticipated at the time the budget was prepared. The budget amendments must be approved by the board and the approval must be noted in the official proceedings of the board.

Note 2 LEGAL COMPLIANCE

The governing board did not amend the budget during the year ended December 31, 2016.

Excess of Actual Expenditures Over Budget

Expenditures exceeded budget in the following fund for the year ending December 31, 2016:

<u>Special Revenue Fund</u>	
Library	995.34

No remedial action is anticipated or required by the city regarding these excess expenditures.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Governing Board  
City of Maddock  
Maddock, North Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Maddock, Maddock, North Dakota, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the city's basic financial statements, and have issued our report thereon dated February 3, 2017.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the city's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the city's internal control. Accordingly, we do not express an opinion on the effectiveness of the city's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the city's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items II-1 and II-2, that we consider to be significant deficiencies.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the city's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### City's Response to Findings

The city's response to the findings identified in our audit are described in the accompanying *Schedule of Findings and Responses*. The city's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the city's internal control or on compliance. This is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the city's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rath and Mehrer, P.C.

Bismarck, North Dakota

February 3, 2017

CITY OF MADDOCK  
Maddock, North Dakota

Schedule of Findings and Responses  
For the Year Ended December 31, 2016

**SECTION I - SUMMARY OF AUDIT RESULTS:**

Financial Statements

Type of Auditor's Report Issued:

Governmental Activities	Unmodified-Modified Cash Basis
Business-Type Activities	Unmodified-Modified Cash Basis
Discretely Presented Component Units	Unmodified-Modified Cash Basis
Major Governmental Funds	Unmodified-Modified Cash Basis
Major Business-Type Funds	Unmodified-Modified Cash Basis
Aggregate Remaining Fund Information	Unmodified-Modified Cash Basis

Internal control over financial reporting:

\* Material weakness(es) identified?                           Yes              X   No

\* Significant deficiency(ies) identified?              X   Yes                   None Reported

Noncompliance Material to financial  
statements noted?           Yes              X   No

**SECTION II - FINANCIAL STATEMENT FINDINGS:**

Significant Deficiencies

1. Segregation of Duties

*Condition:* The city has one person responsible for most accounting functions.

*Criteria:* There should be sufficient accounting personnel so duties of employees are segregated. The segregation of duties would provide better control over assets of the city.

*Effect:* There is no segregation of duties as one employee is responsible to collect monies, deposit monies, issue checks, send checks to vendors, record receipts and disbursements in journals, maintain the general ledger and prepare financial statements. This increases the risk of misstatement of the city's financial condition.

*Recommendation:* Due to the size of the city, it is not feasible to obtain proper separation of duties and no recommendation will be made.

*Client Response:* No response is considered necessary.

## 2. Financial Statement Preparation

*Condition:* The city's financial statements as of December 31, 2016 are prepared by the city's external auditors.

*Criteria:* A good system of internal controls requires the city to determine that the financial statements are prepared based on the modified cash basis of accounting. This means that the city must maintain knowledge of current accounting principles and required financial statement disclosures.

*Effect:* A control system is not in place to determine that the financial statements are properly stated and in compliance with the modified cash basis of accounting.

*Recommendation:* We recommend the city obtain the necessary knowledge of current accounting principles to prepare financial statements or outsource the preparation of its financial statements.

*Client Response:* It is not cost effective for the city to prepare its own financial statements.
