#### **Independent Auditor's Report**

The Board of City Commissioners City of Valley City, North Dakota

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Valley City, North Dakota (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information as of December 31, 2015 and the respective changes in financial position and, where applicable, cash flows thereof and the General Fund Budgetary Schedule of the City for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Management has omitted a management's discussion and analysis that U.S. generally accepted accounting principles requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting to place the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements. The listing of elected and appointed officials and combining and individual fund schedules are presented for purpose of additional analysis and are not a required part of the financial statements.

The combining and individual fund schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The listing of elected and appointed officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on this listing.

### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated July 25, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Governmental Funds

Reconciliation of the Balance Sheet to the Statement of Net Position

December 31, 2015

| Total Fund Balances - Governmental Funds  | \$<br>7,814,257  |
|---|------------------|
| Amounts reported for governmental activities in the statement of net position are different because:  |                  |
| Capital assets used in governmental activities are not  |                  |
| financial resources and, therefore, are not reported in the funds.  | 38,086,947       |
| Other assets are not available to pay for current-period expenditures and, therefore, are either not recognized as a receivable or are deferred in the funds. | 6,848,851        |
| Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds. In the current period these amounts are:   |                  |
| General obligation bonds  | (45,000)         |
| Special assessment bonds  | (10,391,809)     |
| Sales tax revenue bonds   | (2,550,000)      |
| Capital lease payable   | (449,880)        |
| Compensated absences  | (121,853)        |
| Accrued interest  | <br>(101,436)    |
| Total Net Position - Governmental Activities  | \$<br>39,090,077 |

Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance to the Statement of Activities

Year Ended December 31, 2015

| Amounts reported for governmental activities in the                           |             |
|---|-------------|
| determined of a time in the second becomes                                    |             |
| statement of activities are different because:                                |             |
| Capital outlays are reported as expenditures in governmental funds.           |             |
| However, in the statement of activities the cost of capital assets            |             |
| is allocated over their estimated useful lives as depreciation                |             |
| expense. In the current period these amounts are:                             |             |
| Capital outlay  | 10,395,337  |
| Contribution of capital assets to proprietary fund                            | (2,993,381) |
| Depreciation expense  | (1,161,708) |
| _ · · · · · · · · · · · · · · · · · · ·                                       |             |
| The net effect of the disposal of capital assets is to decrease net position  | (16,072)    |
| Revenues in the statement of activities that do not provide current financial |             |
| resources are deferred and not reported as revenues in the funds.             | (135,222)   |
| In the statement of activities compensated absences are                       |             |
| measured by the amounts earned during the year. In the                        |             |
| governmental funds, however, expenditures for these items                     |             |
| are measured by the amount of financial resources used.                       | (14,997)    |
| Interest payable is reported in the government wide statement                 |             |
| of net position but is not recorded in the governmental funds.                | (46,942)    |
| The issuance of long-term debt provides current financial resources to        |             |
| governmental funds, while the repayment of the principal of long-term         |             |
| debt consumes the current financial resources of governmental funds.          |             |
| Neither transaction, however, has any effect on net position. In              |             |
| the current period these amounts are:   |             |
| Bonds issued  | (4,545,000) |
| Capital lease retirement  | 21,483      |
| Bond principal retirement   | 895,632     |
| Change in Net Position of Governmental Activities \$                          | 6,408,192   |

#### Note 1 - Summary of Significant Accounting Policies

The City of Valley City was incorporated in 1883 and operates under a commission form of government. In 1991, the City passed a resolution for the City of Valley City to adopt a home rule charter. The accounting policies of the City conform to generally accepted accounting principles applicable to governmental units. The water, sewer, and electrical activities of the Valley City Public Works (VCPW) are nonregulated. The more significant of the government's accounting policies are described below.

The basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). The City significant accounting policies are described below:

#### Reporting Entity

The City's financial statements include all funds for which the City is financially accountable.

The City is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Additionally, the City is not included in any other governmental reporting entity.

Component units are legally separate organizations for which elected officials of the primary government are financially accountable. The City is financially accountable if it appoints a voting majority of the organization's governing body and is either:

- 1. able to impose its will on that organization or
- 2. there is potential for the organization to provide specific financial benefits to, or impose financial burdens on the City. The City may be financially accountable if an organization is fiscally dependent on the City.

There are no component units reported within these financial statements.

#### Government-Wide and Fund Financial Statements

The goal of government-wide financial statements is to present a broad overview of government's finances. The basic statements that form the government-wide financial statements are the statement of net position and the statement of activities. These two statements report information on all of the non-fiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this rule are charges from the City's electric, water and sewer utilities, and other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported from the various functions concerned. Governmental activities, which are normally financed through taxes and intergovernmental revenues, are reported separately from business-type activities, which are normally financed through user fees and charges for goods or services.

The statement of activities reports gross direct expenses by function reduced by program revenues. This results in a measurement of net revenue or expense for each of the government's activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues are directly associated with the function or business-type activity and include 1) charges for services and 2) operating or capital grants and contributions that are restricted to a particular function. Tax and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are prepared for governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as eligibility requirements imposed by the provider have been met. Although agency funds have no measurement focus, they also use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, special assessments, intergovernmental revenue, permits, charges for services and investment income associated with the current fiscal period are the major revenues that are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent they are collected in 60 days. All other revenue items are considered to be measurable and available only when the City receives cash.

The City reports the following major governmental funds:

- General Fund The general fund is the general operating fund of the City. All financial resources of the general government that are not required to be reported in another fund are accounted for in the general fund.
- 9th Avenue Northwest Fund This fund accounts for related improvements.
- City Sales Tax Economic This fund accounts for the collection sales and use taxes.
- Paving Projects This fund accounts for the resources accumulated and payments made for city paving projects.
- Infrastructure Renewal & Replacement This fund accounts for the resources accumulated and payments made for infrastructure projects.

- Watermain Projects This fund accounts for the resources accumulated and payments made for city watermain projects.
- Debt Service Fund This fund accounts for the resources accumulated and payments made for principal and interest on all general obligation and special assessment bonds of governmental funds.

The City reports the following major proprietary funds:

- Electric This fund accounts for the provision of electric service to the residents of the City.
- Water This fund accounts for the provision of water utility service to the residents of the City.
- Sewer This fund accounts for the provision of sanitary sewer service to the residents of the City.
- Garbage This fund accounts for the provision of sanitation and garbage removal service to the residents of the City.

Amounts reported as program revenues include the following: amounts received from those who purchase, use or directly benefit from a program; amounts received from parties outside the City that are restricted to one or more specific programs; and earnings on investments that are legally restricted for a specific program. Revenues that do not meet the previous criteria are reported as general revenues, including all taxes.

Proprietary funds report operating revenues and expenses separately from nonoperating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### Other Significant Accounting Policies

#### **Budgets and Budgetary Accounting**

An annual budget is adopted only for the general fund. The budget is adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgetary comparisons presented in this report are on this budgetary basis.

Appropriations are authorized by the city commission at the fund level, which is the legal level of budgetary control. Administrative control is maintained through the establishment of more detailed line-item budget

The budget is legally enacted through passage of a budget ordinance no later than October 1.

All unexpended appropriations lapse at year-end.

Any changes in the total budget of each fund must be approved by a majority vote of the city commission.

#### Cash and Cash Equivalents, and Restricted Cash

Cash balances from all funds are combined and invested to the extent available in authorized investments. Earnings from such investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

The City considers cash equivalents to be certificates of deposit, money market funds, and other highly liquid investments with original maturities of three months or less.

Restricted cash consists of amounts that have been restricted to meet bond reserve requirements or set aside as customer deposits.

#### **Inventories**

The costs of inventory items are recognized as expenditures in governmental funds when purchased and as expenses in proprietary funds when used. Proprietary fund inventories are presented on an average cost basis.

#### **Prepaid Items**

Payments made to vendors for services that will benefit periods beyond December 31, 2015, are recorded as prepaid items in both government-wide and fund financial statements.

#### Receivable and Credit Policy

Trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. The receivables are charged a late fee of ½% of the billing amount after 30 days from the invoice date. Payments on trade receivables are applied to the earliest unpaid invoices. The carrying amount of the trade receivables is reduced by an amount that reflects management's best estimate of the amounts that will not be collected.

#### Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), mains and lines, and vehicles are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are not capitalized.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

| Buildings and improvements | 10-50 years |
|----------------------------|-------------|
| Infrastructure             | 10-30 years |
| Machinery and equipment    | 5-20 years  |
| Vehicles                   | 5-10 years  |
| Mains and lines            | 3-50 years  |

#### Compensated Absences

All regular employees are entitled to vacation time with pay based upon length of continuous service. Annual vacation leave may be accumulated a maximum of four weeks. Upon termination, employees are compensated for unused vacation leave.

All regular full-time or regular part-time employees shall accumulate sick leave, which is not a benefit earned by the employee such as annual leave. Temporary and part-time employees are not eligible to accumulate sick leave. Sick leave is to be used for any illness, injury or other medical reasons. Unused sick leave cannot be converted into annual leave hours. Upon reaching five years of employment, employees voluntarily leaving employment with the City will receive payment for accrued sick leave at the current rate of pay at separation as follows:

| 5+ years of employment  | 5%  |
|-------------------------|-----|
| 10+ years of employment | 10% |
| 15+ years of employment | 20% |
| 20+ years of employment | 40% |
| 25+ years of employment | 50% |

Payments received for sick leave balances will receive retirement contributions. Employees accrue one day per month and may accumulate up to 124 days. Historically, employees have not used all sick leave earned.

Accumulated unpaid vested sick leave is accrued when incurred in government-wide proprietary fund financial statements. Such amounts, other than the current portion, are not accrued in governmental funds, but are recorded in the governmental activities in the government-wide statements.

#### Long-Term Liabilities

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deemed to be immaterial.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### **Fund Balance**

The following classifications describe the relative strength of spending constraints:

- Nonspendable fund balance—represents amounts that cannot be spent due to form such as inventories, prepaids, long-term loans, and notes receivable, and property held for resale (unless the proceeds are restricted, committed or assigned).
- Restricted fund balance—represents amounts that exist when constraints are placed on the use of resources
  that are either externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or
  regulations of other governments (or) restrictions imposed by law through constitutional provisions or
  enabling legislation (ie. Emergency fund).
- Committed fund balance—represents amounts that can only be used for specific purposes pursuant to the
  constraints imposed by formal action of the City Commission. These committed amounts cannot be used for
  any other purpose unless the government removes or changes the specified use by taking the same type of
  action it previously employed to commit those amounts. (Example would be legislation, resolution, or
  ordinance). (ie, Sales tax ordinance, budget ordinance)
- Assigned fund balance—represents amounts constrained by the City's intent to be used for a specific
  purpose, but are not restricted or committed. The Commission has delegated the authority to assign these
  amounts to the City Administrator and the City Auditor. Assigned amounts or changes to Assigned amounts
  will later be presented to the Commission for review.
- Unassigned fund balance—represents the remaining residual balances that have not been restricted, committed, or assigned to specific purposes within the General Fund.

The City Commission establishes fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by City Commission through adoption or amendment of the budget as intended for specific purpose.

When both restricted and unrestricted resources are available for use, it is the City's policy to use nonspendable resources first, restricted second, committed third, assigned fourth and unassigned last.

20

#### **Net Position**

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the City's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the net amount of assets, deferred inflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

#### Self-Insurance

The City implemented a self-insurance medical plan in March 1985 which includes a stop-loss provision at \$20,000 per year for any one individual. The Aggregate Stop-Loss Attachment Point is \$689,320. Aggregate claims in excess of this amount are paid by the city's insurer. Maximum administrative fees and conversion coverage costs are \$54,456. Liabilities are recorded when a determinable claim or loss has been incurred and the amount of the loss can be reasonably estimated.

#### Risk Management

The City is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City currently participates in the North Dakota insurance reserve fund, North Dakota fire and tornado fund, state bonding fund and North Dakota Workforce Safety Insurance to cover claims. There have been no settled claims exceeding insurance coverage in any of the past three years.

#### **Deferred Inflows of Resources**

This separate financial statement element is reported in accordance with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which clarifies the use of deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting. Deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, unavailable revenue, reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### Note 2 - Compliance

#### **Deficit Fund Balance**

Fund balance deficits existed in certain individual funds at December 31, 2015, as follows:

| 9th Avenue Northwest              | \$<br>213 |
|-----------------------------------|-----------|
| Paving Projects                   | 578,475   |
| Watermain Projects                | 788,797   |
| Nonmajor Governmental Funds       |           |
| Emergency                         | 310,916   |
| City Share of Special Assessments | 217       |
| Sidewalk, Curb & Gutter Projects  | 600       |
| Storm Sewer Projects              | 44,048    |
| Storm Sewer 32                    | 31,454    |
| Underground Construction          | 107,582   |

No formal action is required or anticipated regarding the deficits. These deficits are expected to be eliminated in future years through future special assessment tax collections, transfers, and sale of bonds.

#### Note 3 - Deposits and Investments

#### **Deposits**

In accordance with the North Dakota Century Code, the City maintains deposits at depository banks covered by Federal Depository Insurance. Century Code requires that all City deposits be protected by insurance, collateral or surety bond. The market value of the collateral pledged must be equal to or greater than 110% of the deposits not covered by insurance or bonds. As of December 31, 2015, the City's deposits include savings accounts, money market funds, and certificates of deposit.

#### Investments

Statutes authorize the City to invest in obligations of the U.S. Treasury Investments and U.S. agencies, bankers' acceptances, certain repurchase agreements, and commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record.

#### Custodial Credit Risk

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned to it. Beyond what is stated in the Century Code, the City does not have a formal policy to further limit exposure to custodial credit risk. As of December 31, 2015, the City's deposits were either fully insured or properly collateralized, and have no custodial credit risk.

#### Interest Rate Risk - Investments

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The following table presents the City's deposit and investment balances at December 31, 2015

|  |                          | Investment Mat | urities (in Years)       |
|--|--------------------------|----------------|--------------------------|
| Туре   | Fair Value               | N/A            | <1                       |
| Cash and cash equivalents  |                          |                |                          |
| Deposits   | \$ 11,691,895            | \$ 11,691,895  | \$ -                     |
| Petty cash   | 1,200                    | 1,200          | -                        |
| Investments  |                          |                |                          |
| Certificates of deposit  | 225,750                  |                | 225,750                  |
|  | \$ 11,918,845            | \$ 11,693,095  | \$ 225,750               |
| Cash and investments are included on the basic fina  | ncial statements as foll | ows:           |                          |
| Cash and cash equivalents - Statement of Net Po<br>Restricted cash - Statement of Net Position | osition                  |                | \$ 11,562,226<br>356,619 |
| Account of the Control of the Control  |                          |                | 330,019                  |
|  |                          |                | \$ 11,918,845            |

#### Note 4 - Property Taxes and Special Assessments

#### **Property Taxes**

Property taxes attach as an enforceable lien on property on January 1. The tax levy may be paid in two installments: the first installment includes one-half of the real estate taxes and all the special assessments; the second installment is the balance of the real estate taxes. The first installment is due by March 1 and the second installment is due by October 15. A 5% discount is allowed if all taxes are paid by February 15. After the due dates, the bill becomes delinquent and penalties are assessed.

Taxes which remain unpaid at December 31 are classified as delinquent taxes receivable and the portion not available within 60 days is fully offset by deferred revenue because it is not available to finance current expenditures. The delinquent taxes receivable represents the past five years of uncollected tax levies.

#### **Special Assessments**

Special assessments are levied against the benefited properties for the assessable costs of special assessment improvement projects in accordance with state statutes. The assessments are collectible over a term of years generally consistent with the term of years of the related bond issue. Collection of annual installments (including interest) is handled by the county and remitted to the City at the same time property tax settlements are made. Property owners are allowed to prepay total future installments plus accrued interest without prepayment penalties. Special assessments are generally collected by the county and remitted to the City at the same time the tax settlements are made. Special assessments receivable include the following components:

- Delinquent amounts billed to property owners but not paid.
- Deferred assessment installments that will be billed to property owners in future years.
- Interfund assessment installments for proprietary fund owned property not yet paid

Note 5 - Capital Assets

Capital asset activity for the year ended December 31, 2015 was as follows:

|   | Beginning<br>Balance  | Increases<br>and Transfers | Decreases and Transfers | Ending<br>Balance |
|---|---|----------------------------|-------------------------|-------------------|
| Governmental activities:                    | - Colonia de la |                            |                         |                   |
| Capital assets, not being depreciated:      |   |                            |                         | •                 |
| Land  | \$ 173,800  | \$ -                       | \$ -                    | \$ 173,800        |
| Construction in progress                    | 4,636,807   | 8,340,804                  | 4,349,655               | 8,627,956         |
| Total capital assets not being depreciated  | 4,810,607   | 8,340,804                  | 4,349,655               | 8,801,756         |
| Capital assets, being depreciated:          |   |                            |                         |                   |
| Infrastructure                              | 28,191,032  | 2,680,697                  | -                       | 30,871,729        |
| Buildings and improvements                  | 2,048,556   | 46,980                     | -                       | 2,095,536         |
| Machinery and equipment                     | 1,505,558   | 102,137                    | 603,680                 | 1,004,015         |
| Vehicles                                    | 2,504,562   | 580,993                    | 50,000                  | 3,035,555         |
| Total capital assets being depreciated      | 34,249,708  | 3,410,807                  | 653,680                 | 37,006,835        |
| Less accumulated depreciation for:          |   |                            |                         |                   |
| Infrastructure                              | 3,259,317   | 771,790                    | -                       | 4,031,107         |

| Business-type activity long-term debt   | \$ 2,615,429   | \$ 180,536                             | \$ 400,672  | \$ 2,395,293   | \$ 394,293   |

General obligation bonds are recorded in the governmental activities in the government-wide statement and are backed by the full faith and credit of the City. These bonds are payable from the debt service funds primarily through property tax levies.

General obligation improvement bonds are also recorded as a liability in the governmental activities in the government-wide statement and are payable from the debt service funds primarily through special assessments levied and collected for local improvements. The City has a commitment relating to a pledge of full faith and credit on the special assessment bonds. The general credit of the City is obligated only to the extent that liens foreclosed against properties involved in the special assessment districts are insufficient to retire outstanding bonds.

General obligation revenue bonds are recorded as a liability in the public utilities fund and are payable from public utility revenues.

The City has pledged future sales tax revenues, net of specified operating expenses, to repay \$2.9 million in sales tax revenue bonds issued in 2013. Proceeds from the bonds were used for economic development and job creation. Principal and interest paid for the current year was \$231,970. Net sales tax revenue totaled \$2,176,307 for the year.

The 2011 Special Assessment Refunding Bonds were special assessment bonds. North Dakota state law requires that these be called refunding bonds because warrants are the first issuance that are refunded with the bond issuance.

The capital lease agreement requires annual lease payments and monthly interest payments, at an interest rate from 3.50%. Payments began June 2014 and will continue through June 2021.

The capital lease consists of a motorgrader for \$509,610 with total accumulated depreciation of \$152,883 as of December 31, 2015. Maturities of principal and interest payments are as follows:

| Years Ending December 31, |    | Capita  | al lease |         |
|---------------------------|----|---------|----------|---------|
|                           | P1 | incipal | I        | nterest |
| 2016                      | \$ | 22,247  | \$       | 15,609  |
| 2017                      |    | 23,038  |          | 14,803  |
| 2018                      |    | 23,857  |          | 13,970  |
| 2019                      |    | 24,706  |          | 13,106  |
| 2020                      |    | 25,585  |          | 12,212  |
| 2021                      | P  | 330,447 |          | 5,929   |
| Total                     | \$ | 449,880 | \$       | 75,629  |

There are a number of limitations and restrictions contained in the various bond indentures. The City is in substantial compliance with significant limitations and restrictions.

The annual requirements to amortize all bonded debt and special assessments outstanding as of December 31, 2015, are as follows:

| Years Ending December 31, | Governmen     | tal Activities | Business-type Activities |              |  |
|---------------------------|---------------|----------------|--------------------------|--------------|--|
|                           | Principal     | Interest       | Principal                | Interest     |  |

During the year the City issued 2015 Improvement Bonds for \$4,545,000. The bond term is 25 years, beginning on April 20, 2015. The bonds will be held with an annual interest rate of 2.00 - 3.25%.

#### **Compensated Absences**

Compensated absences for governmental funds is recorded as a liability in the governmental activities in the government-wide statement. This liability matures only upon qualified retirements or terminations and is paid out of the general fund.

#### Conduit Debt

From time to time, the City has approved issuance of Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2015, there were series of Industrial Revenue Bonds outstanding; the aggregate principal amount payable is \$3,540,000. Neither the State of North Dakota nor the City of Valley City has a central repository. The only requirement for this type of issue is to request the amount needed for City approval, most times this amount is in excess of the actual amount issued. When completely paid or called they must notify the City of this event.

### Note 7 - Interfund Receivables, Payables, and Transfers

Interfund receivables/payables are used to record accrued obligations between funds.

A summary of the City's interfund balances at December 31, 2015, is as follows:

|                                      | Due From Other Funds | Due To<br>Other Funds |  |
|--------------------------------------|----------------------|-----------------------|--|

| Total transfers                      | \$ | 2,832,880   | \$ | 2,832,880    |  |

Transfers are made for funding various projects, operational expenses, and meeting debt service requirements.

#### Note 8 - Pension Plan

The City contributes to the self-administered trusteed money purchase pension plan, a defined contribution profit-sharing plan, for substantially all employees. Benefit terms, including contribution requirements, for the plan are established and may be amended by the City's Board. The City is required to contribute, at a maximum, 10% of the employees' recognized compensation. The contributions by the employer are credited to a separate bookkeeping account for each individual who will share in any earnings or loss of the plan. The pension contributions in 2015 and 2014 were \$270,468 and \$217,556, respectively, including Public Works contributions of \$163,664 and \$130,713, respectively. The City had liabilities to the plan at December 31, 2015 and 2014 of \$6,320 and \$4,819, respectively.

#### Note 9 - Commitments

**Litigation and Potential Exposure** – In the ordinary course of its business, the City is party to legal proceedings as a plaintiff or defendant. Management does not believe that the ultimate disposition of any or all of these proceedings will have a material effect on the City's financial position.

Wholesale firm power - Under its wholesale power agreement, the electric utility is committed to purchase its electric power and energy requirements from the Western Area Power Administration (WAPA) until December 31, 2050. The rates paid therefore are reviewed on an as-required basis as determined by WAPA.

Under a supplemental power agreement, the electric utility is committed to purchase its electric power and energy needs that are over and above that available from WAPA from the Missouri River Energy Services until January 1, 2030. This base term may be extended for successive 10-year periods. The rates paid therefore are subject to review annually.

Construction Commitments – The City has active construction projects as of December 31, 2015. A construction commitment for Permanent Flood Protection of \$5,507,520 was applicable as of year-end with the City's cost share equal to twenty percent of that balance or \$1,101,504. An engineering commitment for Permanent Flood Protection University District Construction engineering of \$522,373 was applicable as of year-end. An engineering commitment for Permanent Flood Protection Master Plan of \$267,090 was applicable as of year-end with the City's cost share equal to twenty percent of that balance or \$53,418. The City entered into a contract for a Shared Use Path Along West Main Street and 5<sup>th</sup> Street. The contract amount is \$288,086 with the City's cost share equal to 19.07% of that balance or \$54,938. Construction will begin in 2016.

#### Note 10 - Self-Insurance

The City implemented a self-insurance medical plan in March 1985 which includes a stop-loss provision at \$20,000 per year for any one individual. All aggregate claims in excess of \$841,579 are paid by the city's insurer. Liabilities are recorded when a determinable claim or loss has been incurred and the amount of the loss can be reasonably estimated.

|   | 2015 |                                | 2014 |                                |

#### Note 11 - Issued But Non-Effective Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued several statements not yet implemented by the City. The first statement issued but not yet implemented that will significantly affect the City is statement No. 72, Fair Value Measurement and Application. This statement will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement also will enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. This statement will be implemented at the City in the year ended December 31, 2016.

The second statement issued but not yet implemented that will significantly affect the City is statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. The requirements of this Statement will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and nonemployer contributing entities. This statement will be implemented at the City in the year ended December 31, 2016.

The third statement issued but not yet implemented that will significantly affect the City is statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. The requirements of this Statement will improve financial reporting primarily through enhanced note disclosures and schedules of required supplementary information that will be presented by OPEB plans that are administered through trusts that meet the specified criteria. This statement will be implemented at the City in the year ended December 31, 2017.

The fourth statement issued but not yet implemented that will significantly affect the City is statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). The requirements of this Statement will improve the decision-usefulness of information in employer and governmental nonemployer contributing entity financial reports and will enhance its value for assessing accountability and interperiod equity by requiring recognition of the entire OPEB liability and a more comprehensive measure of OPEB expense This statement will be implemented at the City in the year ended December 31, 2018.

The fifth statement issued but not yet implemented that will significantly affect the City is statement No. 77, Tax Abatement Disclosures. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users. This statement will be implemented at the City in the year ended December 31, 2016.

The sixth statement issued but not yet implemented that will significantly affect the City is statement No. 78, Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. This statement will be implemented at the City in the year ended December 31, 2016.

The seventh statement issued but not yet implemented that will significantly affect the City is statement No. 79, Certain External Investment Pools and Pool Participants. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. This Statement will enhance comparability of financial statements among governments by establishing specific criteria used to determine whether a qualifying external investment pool may elect to use an amortized cost exception to fair value measurement. This statement will be implemented at the City in the year ended December 31, 2016.

The final statement issued but not yet implemented that will significantly affect the City is statement No. 80, Blending Requirements for Certain Component Units—an Amendment of GASB Statement No. 14. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The requirements of this Statement enhance the comparability of financial statements among governments. This statement will be implemented at the City in the year ended December 31, 2017.

Management has not yet determined the effect these pronouncements will have on the City's financial statements.

Additional Reports December 31, 2015

City of Valley City, North Dakota

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards

The Board of City Commissioners City of Valley City, North Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Valley City, North Dakota (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 25, 2016.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but are not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies 2015-A and 2015-B as described in the accompanying schedule of findings to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency 2015-C as described in the accompanying schedule of findings to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of the City's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Governmental Auditing Standards*.

#### The City's Responses to Findings

sde Sailly LLP

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Fargo, North Dakota July 25, 2016

#### Section I – Financial Statement Findings

#### **Material Weakness**

#### 2015-A Segregation of Duties Surrounding Recording and Approval of Journal Entries

**Condition** – The City has a lack of segregation of duties in the area of recording and approving manual journal entries.

Criteria —A good system of internal control requires an adequate segregation of duties so that no one individual has incompatible responsibilities. No one person should have more than one duty relating to the recording and authorization (approval) of journal entries.

Effect – Inadequate segregation of duties could adversely affect the City's ability to detect misstatements in amounts that would be material in relation to the financial statements in a timely period by employees in the normal course of performing their assigned functions.

Cause - The City is continuing to develop procedures and identify all risk areas that require expanded controls.

**Recommendation** – Segregation of formal review of journal entries for enterprise and governmental funds would assist in mitigating the risk of fraud or misstatements to the financial statements.

Management's Response — The City has implemented previous recommendations from the auditors to improve the segregation of duties and internal control structure. Management will implement the additional recommendations with the intent of ultimately alleviating the finding for fiscal year 2016.

#### Material Weakness

#### 2015-B Preparation of Financial Statements

**Condition** – The City does not have an internal control system designed to provide for the preparation of the financial statements being audited. As auditors, we were requested to draft the financial statements and accompanying notes to the financial statements. This included formulating the proposal of necessary adjusting journal entries to convert the fund financial statements in accordance with GASB Statement No. 34.

Criteria – A good system of internal accounting control contemplates an adequate system for recording and processing entries material to the financial statements.

**Effect** – This control deficiency could result in a misstatement to the financial statements that would not be prevented or detected.

Cause – The City does not have an internal control system designed to provide for the preparation of the financial statements being audited.

**Recommendation** – This circumstance is not unusual in a city of your size. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Management's Response — Due to cost constraints, the City will continue to have the auditor's draft the financial statements and accompanying notes to the financial statements, as well as formulate the necessary adjusting journal entries to convert the fund financial statements in accordance with GASB Statement No. 34.

#### Significant Deficiency

#### 2015-C Inaccurate Physical Counts of Inventory in the Water Department

**Condition** – Prior to procedures implemented during the year ended December 31, 2015 there were inadequate procedures in place to allow for accurate counts of inventory.

Criteria – A good system of internal accounting control contemplates an adequate system for accurate counts of inventory.

**Effect** – This control deficiency could result in inaccurate information.

Cause – During the year the City did not have an internal control system designed to identify accurately the counts of inventory in the Water fund.

**Recommendation** — We recommend that the City verify that the procedures implemented in fiscal year 2015 have resulted in physical counts of inventory, throughout the year and at year-end, to be complete and accurate so as to ensure finding is alleviated in the upcoming year.

Management's Response – The City anticipates that efforts have corrected this finding and does not anticipate continued issues in fiscal year 2016.
