

AUDIOLOGY

This document is subject to change. Please check our web site for updates.

This provider manual outlines policy and claims submission guidelines for claims submitted to the North Dakota Health Enterprise MMIS.

DEFINITIONS

Audiology is the application of principles, methods, and procedures of measurement, testing, evaluation, prediction, consultation, counseling, instruction, habilitation or rehabilitation related to hearing and disorders of hearing including vestibular testing, for the purpose of evaluating, identifying, preventing, ameliorating, or modifying such disorders and conditions in individuals or groups of individuals.

An Audiologist is a person who practices audiology and who holds out to the public by any title or description of services incorporating the words audiologist, hearing clinician, hearing therapist, or any similar title or description of service. A person may not use the term "audiologist" in a personal reference unless all the requirements of this chapter pertaining to audiology are met. Audiologists must meet licensing requirements and is licensed to practice in the state in which the services are provided.

BILLING GUIDELINES

Providers must bill for services using the North Dakota Web Portal using the electronic claims submission web pages or Electronic Data Exchange transaction. The claim must include a valid National Provider Identification number (NPI) and taxonomy code.
