March 1, 2021 families can receive additional support through the Child Care Assistance Program (CCAP)

ND received additional funding to support both CCAP families and providers during the national emergency. The purpose of this funding is to assist child care providers with paying for costs and increased operating expenses, and to enroll children in an environment that supports the health and safety of children and staff.

Beginning March 2021 Service Month¹

- Co-payments for all CCAP families will be waived
- Payments to providers will be issued at the max state rate for full-time and part-time level of care based on the state rate at time of payment

March 2021 - September 2022

- Activity/Job Search will be an allowable activity at application and review
- Families will be given 3 months of eligibility to find an allowable activity

¹ A service month refers to the month for which child care services were provided.

For more information regarding these changes or eligibility, contact your human service zone office.
