**MEDICAID AND PRIVATE HEALTH INSURANCE FOR
NORTH DAKOTANS**

BENEFITS OF MEDICAID COVERAGE

While longstanding treaties and laws provide a legal right to health care for Native Americans, many Native Americans lack access to health care coverage while also being at greater risk for chronic conditions. North Dakota's expanded Medicaid program will provide health care coverage for many North Dakotans who did not qualify in the past. This includes many low-income individuals age 19 to 65 – not just pregnant women, people with disabilities, or some adults with dependent children.

**Apply Anytime for the
Medicaid Expansion.**

Native American enrollees will be able to access health services even when an Indian Health Service (IHS) facility is many miles away. IHS and tribally-run health facilities will also benefit because Medicaid will pay first for health services provided to Native American Medicaid participants, and this can free up some IHS funds and resources.

Health Care Coverage Through Medicaid or Private Insurance Brings Peace of Mind:

- ✓ You know you have coverage if you get sick or hurt.
- ✓ Health insurance coverage means you reduce the financial challenges that come with high medical bills.
- ✓ Instead of seeking routine care in the emergency room, receive quality, consistent care from health care providers you know.
- ✓ You will have greater access to preventive health services.
