

**Voucher for Alternative to Abortion Services**

Presenting this voucher to an approved provider of Alternative to Abortion services entitles you to receive approved services at no cost. There are a variety of organizations providing these services. You may present this voucher for services to any of the providers on the attached list. Your identity will not be revealed when the provider presents this voucher to the North Dakota Department of Human Services for payment. We ask for your birth date and the last four digits of your social security number so we can track the amount of service given to individuals, and where the services are given.

**Right to request alternative provider**

**If you object to the services given by the provider you choose, you have the right to go to any other provider on the Approved Provider list for services. Services from the alternative provider will also be at no charge. Vouchers for service are always available from any provider on the list.**

**Non-discrimination statement**

**None of the Approved Providers may discriminate against a client on the basis of religion, a religious belief, a refusal to hold a religious belief, or a refusal to actively participate in a religious practice. Complaints about discrimination may be reported by calling 1-800-755-2716 and asking for the Alternatives to Abortion Coordinator.**
