

# ***Developmental Disabilities Services***

## **Traditional IID/DD Home and Community Based Waiver Services:**

- **Day Supports:** Assists participants with acquisition, retention or improvement in self-help, socialization and adaptive skills; provision of social, recreation, and therapeutic activities to maintain physical, recreational, personal care, and community integration skills. Day Supports are typically furnished in a non-residential setting, separate from the home or facility where the participant resides.
- **Extended Services:** Provides on or off the job employment-related support for individuals needing intervention to assist them in maintaining employment, including job development, or replacement in the event of job loss.
- **Homemaker:** Complete environmental tasks that an individual with a disability is not able to complete in order to maintain that individual's home such as housework, meal preparation, laundry, shopping, communication, and managing money. It is offered to participants living alone or living with an individual that is incapacitated and unable to perform the homemaking tasks.
- **Residential Habilitation:** Assists the participant to acquire, improve, and retain skills in self-help, general household management and meal preparation, personal finance management, socialization and other adaptive areas. Training outcomes focus on allowing the participant to improve his/her ability to reside as independently as possible in the community. Provided in licensed/unlicensed community residential settings that include group homes and homes leased, owned or controlled by individuals.

The following settings are residential habilitation: Congregate Care, Minimally Supervised Living Arrangement (MSLA), Transitional Community Living Facility (TCLF), Supported Living Arrangement (SLA), Individualized Supported Living Arrangement (ISLA), and Family Care Option III (FCO III).

- **Extended Home Health Care:** Is an Extended Medicaid State Plan service and is available when an eligible participant has exceeded the amount of service available under the Medicaid State Plan. This service provides skilled nursing tasks that cannot be delegated to unlicensed personnel. Nursing assessment and care plan are required.
- **Adult Foster Care:** Is provided in a private home licensed to meet the specifications of adult foster care. Services include: preparation of meals; general housekeeping; medication assistance; personal care assistance; and assistance to access the community, and social and leisure activities.

➤ **Self Directed Services**

- ✓ **Behavioral Consultation:** provides expertise, training and technical assistance in natural environments (home, grocery store, community) to assist primary caregivers, and other natural supports to develop an intervention plan designed to address target behaviors.
  - ✓ **Environmental Modifications:** provides modifications such as ramps, widening doorways, automatic door openers and vehicle modifications.
  - ✓ **Equipment & Supplies:** covers purchases for devices, controls or appliances that enable participants to increase their ability to perform activities of daily living.
- **Family Care Option:** Care for a child in a family home setting that meets the minimum licensing requirements for foster home. It may be provided on a part-time or full-time basis for an eligible child under the age of 21, who cannot remain in their natural family home on a full-time basis.
- **In-Home Supports:** Provides relief care (respite) when the primary caregiver is not present or when the primary caregiver is present and needs a second pair of hands to assist the participant in activities of daily living and maintaining health and safety.
- **Infant Development:** Only available to infants/toddlers age birth through two years of age. This service is a home-based, family focused service that provides information, support and training to assist primary caregiver(s) in maximizing the child's development utilizing a parent-coaching model. Infant Development professionals work with primary caregivers to identify and adapt natural learning opportunities that occur during daily family and community routines.
- **Parenting Support:** Assists participants, who are, or will be parents, in developing appropriate parenting skills. Parenting Support is different from other family support programs as the participant is the parent rather than the child.

**Medicaid State Plan:**

- **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID):** A group residential facility licensed as a certified health care facility for individuals with intellectual disabilities and related conditions. The programming provided in this type of residence is for individuals with extensive needs. Direct care staff is on duty 24 hours per day. Each client must receive a continuous active treatment program, which includes an aggressive and consistent program of education, health services, and related services directed toward acquisition of skills for the client to function with as much self-determination and independence as possible.
