Guiding our Better Together journey toward One Team DHHS

Guiding Principle
North Dakota becomes the healthiest state in the nation by reinforcing the foundations of well-being

Integration Goals

1. Deliver **one streamlined path** to quality and equitable programs and services

2. Continue to improve **quality, effective and efficient** health and human services

3. Create **career growth and development opportunities** for team members and build a new **one-team** culture

Example Objectives

- **Simplify the customer journey to DHHS programs**
- **Improve timeliness and access to services**
- **Define an agreed-upon culture; create the foundation for a workplace that honors autonomy and empowers individuals to contribute**

Over the coming months, we will work together to develop a vision for our unified DHHS.
The six workstreams supporting the integration will embark on more than 50 projects identified to be accomplished by Sept. 1, 2022.
Our approach to designing the future DHHS organizational structure

- Transform health and human services for North Dakotans
- Follow our guiding principle to become the healthiest state in the nation by reinforcing the foundations of well-being.
What’s changing with the future DHHS organizational structure?

DHHS will exist as a unified agency on September 1, 2022.

These four Divisions will integrate current DHS and DoH teams and support the other Divisions as part of DHHS

Please note: This structure only represents changes within divisions. All other team members will continue to report to the same Division leader they currently do.
Team member participation and engagement are key priorities

**Culture pulse survey**
A survey sent to all DoH and DHS team members to gain input about the current culture of the organization and the cultural values they’d like to see moving forward

**Workstream Wednesdays**
Thirty-minute interactive forums that give team members an opportunity to provide ideas and input toward the work of the six workstreams

**Manager toolkits**
This resource provides managers and supervisors with a change toolkit at critical milestones to help guide integration-related conversations
