~~h. Salary and fringe benefit cost limits, governing the level of state financial participation, may be established by the department by calculating:~~

Section 34. Section 75-04-05-11 is amended as follows:

75-04-05-11. Cost Report Statement of costs allocations.

4.——The ~~cost report~~ statement of costs provides for the identification of the allowable expenditures and basic services subject to reimbursement by the department. When costs are incurred solely for a basic service, the costs must be assigned directly to that basic service. When costs are incurred jointly for two or more basic services, and not able to be directly assigned, the costs ~~will~~ must be allocated as follows:

a.1. Personnel. The total cost of all staff identified in payroll records must be listed by position title and distributed to basic services ~~subject to the approval of staff-to-client ratios by the department.~~ Time studies may be performed for one week at least quarterly for allocation. When no time studies exist, the applicable units must be used for allocation. When there

is no definition of a unit of service, the department ~~will~~ must use the unit of service for billing purposes for residential settings.

- ~~b.2.~~ Fringe benefits. The cost of fringe benefits must be allocated to basic services based on the ratio of the basic service personnel costs to total personnel costs. Personnel costs on which no fringe benefits are paid ~~will be~~ are excluded.
- ~~e.3.~~ Equipment. The total cost of all equipment, whether rented, leased, purchased, or depreciated, must be distributed to basic ~~service~~ services based on usage or applicable units.
- ~~d.4.~~ Real property ~~expense cost~~. The total of all property costs, whether rented, leased, purchased, or depreciated, must be allocated based on direct square footage. When multiple usage of direct use area occurs, the allocation ~~will~~ is first ~~be~~ done by square footage and then by applicable units.
- ~~e.5.~~ Travel. The total of all unassigned travel costs must be included in administrative costs.
- ~~f.6.~~ Supplies. The total of all unassigned supply costs must be included with administrative costs.
- ~~g.7.~~ Food services. The total of all food costs ~~should~~ must be allocated based on meals served. When the number of meals served has not been identified, applicable units must be used.
- ~~h.8.~~ Insurance and bonds. The total of all such costs, except insurance costs representing real property ~~expense costs~~ or vehicle insurance costs applicable to vehicles used for one or more basic services must be included as administrative costs.
- ~~i.~~ ~~Contractual services. The total of all contractual costs must be allocated based upon applicable units or, if appropriate, included as part of the administrative costs.~~
- ~~j.9.~~ ~~General client~~ Indirect program support costs. Total ~~general client expenses~~ indirect program support costs, not including personnel and fringe benefits, must be allocated to basic service categories, exclusive of production, room, and board, ~~supported living arrangements, family support services, and extended services~~ based on actual units of service. When determining the day ~~support~~ habilitation ratio of ~~general client indirect program support~~ costs, total day ~~support~~ habilitation units ~~will be~~ are divided by eight and rounded to the nearest whole number.

~~k.10. Administrative costs. Total administrative expenses may be allocated to all service categories, on time studies done in compliance with subdivision a. If time studies are not available, total administrative expenses costs must be allocated to all service categories, exclusive of residential habilitation room, board, and production, based upon the ratio of the basic service cost to total cost excluding administrative and production costs. The percentage calculated for residential ~~services~~ habilitation must be based on total costs for training, room, and board for the specific residential service with the allocation made only to training direct care costs, direct program support costs, and indirect program support costs.~~

~~2. Identification of the means of financing is to be as follows:~~

~~a. Budget reports require the disclosure of all revenues currently used to finance costs and those estimated to finance future costs, inclusive of the provider's estimate of state financial participation.~~

~~b. Revenues must be distributed on the appropriate budget report by program. When private contributions are used to supplement or enrich services, the sum may be distributed accordingly. When contributions are held in reserve for special purposes, it may be described by narrative.~~

~~c. The disclosure of contract income and production costs is required to establish a rate of reimbursement supplemental to, and not duplicative of, these revenues and costs.~~

~~d. State financial participation in the habilitative costs associated with day supports shall not include production costs.~~

Section 35. Section 75-04-05-12 is amended as follows:

75-04-05-12. Adjustment to cost and cost limitation.

1. ~~Providers~~ Provider agencies under contract with the department to provide services to individuals with developmental disabilities must who provide intermediate care facilities for individuals with intellectual disabilities shall submit to the department, no less than annually, a statement of actual costs ~~on the cost report to the department by October first of each year.~~

2. ~~Providers must~~ Provider agencies shall disclose all costs and all revenues.

3. ~~Providers must~~ Provider agencies shall identify income to offset costs when applicable in order that state financial participation not supplant or duplicate other funding sources. Income must be offset up to the total of appropriate allowable costs. If actual costs are not identifiable, income must be offset up to the total of costs described in this section. If costs relating to income are reported in more than one cost category, the income must be offset in the ratio of the costs in each cost category. These sources, and the cost to be offset, must include the following:
- a. Fees, the cost of the service or time for which the fee was imposed excluding those fees based on cost as established by the department.
 - b. Insurance recoveries income, costs reported in the current year to the extent of costs allowed in the prior or current year for that loss.
 - c. Rental income, cost of space in facilities or for equipment included in the rate of reimbursement.
 - d. Telephone and ~~telegraph~~ internet income from ~~clients~~ consumers, staff, or guests, cost of the service.
 - e. Rental assistance or subsidy when not reported as third-party income, total costs.
 - f. Interest or investment income, interest expense.
 - g. Medical payments, cost of medical services included in the rate of reimbursement as appropriate.
 - h. Respite care income when received for a reserved bed, room, board, and staff costs.
 - i. Other income to the provider agency from local, state, or federal units of government may be determined by the department to be an offset to cost.
4. Payments to a provider agency by its vendor ~~will be~~ are considered as discounts, refunds, or rebates in determining allowable costs under the program even though these payments may be treated as "contributions" or "unrestricted grants" by the provider agency and the vendor. However, such payments may represent a true donation or grant, and as such may not be offset against costs. Examples include when:

- a. Payments are made by a vendor in response to building or other fundraising campaigns in which communitywide contributions are solicited.
 - b. Payments are in addition to discounts, refunds, or rebates, which have been customarily allowed under arrangements between the provider agency and the vendor.
 - c. The volume or value of purchases is so nominal that no relationship to the contribution can be inferred.
 - d. The contributor is not engaged in business with the provider agency or a facility related to the provider agency.
5. If an owner or other official of a provider agency directly receives from a vendor monetary payments or goods or services for the owner's or official's own personal use as a result of the ~~provider's~~ provider agency's purchases from the vendor, the value of such payments, goods, or services constitutes a type of refund or rebate and must be applied as a reduction of the ~~provider's~~ provider agency's costs for goods or services purchased from the vendor.
6. If the purchasing function for a provider agency is performed by a central unit or organization, all discounts, allowances, refunds, and rebates ~~should~~ must be credited to the costs of the provider agency in accordance with the instructions above. These ~~should~~ may not be treated as income of the central purchasing function or used to reduce the administrative costs of that function. Such administrative costs are, however, properly allocable to the facilities serviced by the central purchasing function.
7. Purchase discounts, allowances, refunds, and rebates are reductions of the cost of whatever was purchased. They ~~should~~ must be used to reduce the specific costs to which they apply. If possible, they ~~should~~ must accrue to the period to which they apply. If not, they will reduce ~~expenses~~ costs in the period in which they are received. The reduction to ~~expense~~ cost for supplies or services must be used to reduce the total cost of the goods or services for all clients without regard to whether the goods or supplies are designated for all clients or a specific group.
- a. "Purchase discounts" include cash discounts, trade, and quantity discounts. "Cash discount" is for prepaying or paying within a certain time of receipt of invoice. "Trade discount" is a reduction of cost granted certain customers. "Quantity discounts" are reductions of price because of the size of the order.

- b. Allowances are reductions granted or accepted by the creditor for damage, delay, shortage, imperfection, or other cause, excluding discounts and refunds.
- c. Refunds are amounts paid back by the vendor generally in recognition of damaged shipments, overpayments, or return purchases.
- d. Rebates represent refunds of a part of the cost of goods or services. Rebates differ from quantity discounts in that they are based on the dollar value of purchases, not the quantity of purchases.
- e. "Other cost-related income" includes amounts generated through the sale of a previously expensed item, e.g., supplies or equipment.

14. Costs incurred by the ~~provider's~~ provider agency's subcontractors, or by the lessor of property which the provider agency leases, and which becomes an element in the subcontractor's or lessor's charge to the provider agency, if such costs would not have been allowable under this section had they been incurred by a provider agency directly furnishing the subcontracted services, or owning the leased property.

Repealed effective January 1, 2017.

Section 38. Section 75-04-05-15 is amended as follows:

75-04-05-15. Depreciation.

1. The principles of reimbursement for provider agency costs require that payment for services include depreciation on depreciable assets that are used to provide allowable services to clients. This includes assets that may have been fully or partially depreciated on the books of the provider agency, but are in use at the time the provider agency enters the program. The useful lives of these assets are considered not to have ended and depreciation calculated on the revised extended useful life is allowable. Likewise, a depreciation allowance is permitted on assets that are used in a normal standby or emergency capacity. Depreciation is recognized as an allocation of the cost of an asset over its estimated useful life. If any depreciated personal property asset is sold or disposed of for an amount different than its undepreciated value, the difference represents an incorrect allocation of the cost of the asset to the facility and must be included as a gain or loss on the ~~cost report~~ statement of costs. The facility shall use the sale price in computing the gain or loss on the disposition of assets.
2. Special assessments in excess of one thousand dollars paid in a lump sum must be capitalized and depreciated. Special assessments not paid in a lump sum may be expensed as billed by the taxing authority.
3. Depreciation methods:
 - a. A provider agency shall use the straight-line method of depreciation. All accelerated methods of depreciation, including depreciation options made available for income tax purposes, such as those offered under the asset depreciation range system, may not be used. A provider agency shall apply the method and procedure for computing depreciation on a basis consistent from year to year and detailed schedules of individual assets must be maintained. If the books of account reflect depreciation different than that submitted on the ~~cost report~~ statement of costs, a provider agency shall prepare a reconciliation.

b. For all assets obtained prior to August 1, 1997, a provider agency shall compute depreciation using a useful life of ten years for all items except vehicles, which must be depreciated over four years, and buildings, which must be depreciated over twenty-five years or more. For assets other than vehicles and buildings obtained after August 1, 1997, a provider agency may use the ~~American hospital association depreciation guidelines as published by the American hospital publishing, inc., in "Estimated Useful Lives of Depreciable Hospital Assets", revised 2004 edition~~, to determine the useful life or the composite useful life of ten years. ~~A provider may not use an option other than the useful life methodology the provider initially chooses to use without the department's prior written approval~~ For all assets, other than vehicles and buildings, obtained prior to January 1, 2017, a provider agency's prior depreciation schedule must be used. A provider agency shall use a useful life of ten years used for all equipment not identified in the ~~American hospital association depreciation guidelines~~.

c. A provider agency acquiring assets as an ongoing operation shall use as a basis for determining depreciation:

- (1) The estimated remaining life, as determined by a qualified appraiser, for land improvements, buildings, and fixed equipment; and
- (2)
 - (a) A composite remaining useful life for movable equipment, determined from the seller's records; or
 - (b) The remaining useful life for movable equipment, determined from the seller's records.

4. Acquisitions are treated as follows:

a. If a depreciable asset has, at the time of its acquisition, a historical cost of at least five thousand dollars, its cost must be capitalized and depreciated in accordance with subdivision b of subsection 3. A provider agency shall capitalize as part of the cost of the asset, costs incurred during the construction of an asset, such as architectural, consulting and legal fees, and interest.

b. A provider agency shall capitalize major repair and maintenance costs on equipment or buildings if they exceed five thousand dollars per project and will be depreciated in accordance with subdivision b of subsection 3.

5. A provider agency shall maintain records that provide accountability for the ~~fixed~~ capital assets and other assets and also provide adequate means by which depreciation can be computed and established as an allowable client-related cost.
6. The basis for depreciation is the lower of the purchase price or fair market value at the time of purchase.

If the ~~provider's~~ provider agency's cash payment for a purchase is reduced by a trade-in, fair market value will consist of the sum of the book value of the trade-in plus the cash paid.

7. For depreciation and reimbursement purposes, a provider agency may record and depreciate donated depreciable assets based on the asset's fair market value. If the ~~provider's~~ provider agency's records do not contain the fair market value of the donated asset, as of the date of the donation, an appraisal must be made. An appraisal made by a recognized appraisal expert will be accepted for depreciation.
8. Provision for increased costs due to the sale of a facility may not be made.
9. ~~If a provider finances a facility pursuant to North Dakota Century Code chapter 6-09.6, the provider, subject to the approval of the department, may elect to be reimbursed based upon the mortgage principal payments rather than depreciation. Once an election is made by the provider, it may not be changed without department approval.~~

Section 39. Section 75-04-05-16 is amended as follows:

75-04-05-16. Interest expense.

1. In general:
 - a. To be allowable under the program, interest must be:
 - (1) Supported by evidence of an agreement that funds were borrowed and that payment of interest and repayment of the funds are required;
 - (2) Identifiable in the ~~provider's~~ provider agency's accounting records;

- (3) Related to the reporting period in which the costs are incurred;
 - (4) Necessary and proper for the operation, maintenance, or acquisition of the ~~provider's~~ provider agency's facilities used therein;
 - (5) Unrelated to funds borrowed to purchase assets in excess of cost or fair market value; and
 - (6) When borrowed for the purpose of making capital expenditures for assets that were owned by any other facility or service provider agency on or after July 18, 1984, limited to that amount of interest cost which such facility or service provider agency may have reported, for ratesetting purposes, had the asset undergone neither refinancing nor a change of ownership.
- b. In cases when it was necessary to issue bonds for financing, any bond premium or discount ~~shall~~ must be accounted for and written off over the life of the bond issue.
2. Interest paid by the provider agency to partners, stockholders, or related organizations of the provider agency is not allowable as a cost ~~except when interest expense is incurred subject to North Dakota Century Code chapter 6-09.6.~~
3. A provider agency may combine or "pool" various funds in order to maximize the return on investment. If funds are pooled, proper records must be maintained to preserve the identity of each fund in order to permit the earned income to be related to its source. Income earned on gifts and grants does not reduce allowable interest expense.
4. Funded depreciation requirements are as follows:
- a. Funding of depreciation is the practice of setting aside cash or other liquid assets to be used for replacement of the assets depreciated or for other capital purposes. This provision is recommended as a means of conserving funds for the replacement of depreciable assets. It is expected that the funds will be invested to earn revenues. The revenues generated by this investment will not be considered as a reduction of allowable interest expense provided such revenues remain in the fund.

- b. The deposits are, in effect, made from the cash generated by the noncash expense depreciation and do not include interest income. Deposits to the funded depreciation account are generally in an amount equal to the depreciation expense charged to costs each year. In order to qualify for all provisions of funding depreciation, the minimum deposits to the account must be fifty percent of the depreciation expensed that year. Deposits in excess of accumulated depreciation are allowable; however, the interest income generated by the "extra" deposits will be considered as a reduction of allowable interest expense.
- c. Monthly or annual deposits representing depreciation must be in the funded depreciation account for six months or more to be considered as valid funding transactions. Deposits of less than six months are not eligible for the benefits of a funded depreciation account. However, if deposits invested before the six-month period remain in the account after the six-month period, the investment income for the entire period will not reduce the allowable interest expensed in that period. Total funded depreciation in excess of accumulated depreciation on client-related assets will be considered as ordinary investments and the income therefrom will be used to offset interest expense.
- d. Withdrawals for the acquisition of capital assets, the payment of mortgage principal on these assets and for other capital expenditures are on a first-in, first-out basis.
- e. The provider agency may not use the funds in the funded depreciation account for purposes other than the improvement, replacement, or expansion of facilities or equipment replacement or acquisition related to client services.
- f. Existing funded depreciation accounts must be used for all capital outlays in excess of five thousand dollars except with regard to those assets purchased exclusively with donated funds or from the operating fund, provided no amount was borrowed to complete the purchase. Should funds be borrowed, or other provisions not be met, the entire interest for the funded depreciation income account will be offset up to the entire interest expense paid by the facility for the year in question.

Section 40. Section 75-04-05-17 is amended as follows:

75-04-05-17. Related organization.

1. Costs applicable to services, facilities, and supplies furnished to a provider agency by a related organization shall not exceed the lower of the cost to the related organization or the ~~price of comparable~~ reasonable cost of services, facilities, or supplies purchased elsewhere ~~primarily in the local market.~~ Providers-Provider agencies must identify such related organizations and costs in the ~~cost report~~ statement of costs. An appropriate statement of cost and allocations must be submitted with the ~~cost report~~ statement of costs. For ~~cost reporting~~ statement of costs purposes, management fees ~~will be~~ are considered administrative costs.
2. A chain organization consists of a group of two or more service ~~providers~~ provider agencies which are owned, leased, or through any other device, controlled by one business entity.
3. Home offices of chain organizations vary greatly in size, number of locations, staff, mode of operations, and services furnished to their member facilities. Although the home office of a chain is normally not a provider agency in itself, it may furnish to the individual provider agency, central administration or other services such as centralized accounting, purchasing, personnel, or management services. Only the home office's actual cost of providing such services is includable in the ~~providers~~ provider agency's allowable costs under the program. Any services provided by the home office which are included in cost as payments to an outside provider agency will be considered a duplication of costs and not be allowed.
4. If the home office makes a loan to or borrows money from one of the components of a chain organization, the interest paid is not an allowable cost and interest income is not used to offset interest expense.
5. Payments, to related organizations, by the provider agency shall be limited to the actual and reasonable cost of the service received or the product purchased.
6. Provider agency shall document financial transactions between the provider agency and the related organization. The terms of such transactions must be similar as those obtained by a prudent buyer negotiating at arm's length with a willing and knowledgeable seller.

Section 41. Section 75-04-05-18 is amended as follows:

75-04-05-18. Rental expense paid to a related organization.

1. A provider agency may lease a facility from a related organization within the meaning of the principles of reimbursement. In such a case, the rent paid to the lessor by the provider agency is not allowable as a cost, ~~except for providers subject to chapter 75-04-03, whose.~~ Provider agency's rent payments shall not exceed the actual cost of mortgage payments of principal and interest. The cost of ownership of the facility would, however, be an allowable cost to the provider agency. Generally, these would be costs such as depreciation, interest on the mortgage, real estate taxes, and other property expenses attributable to the leased facility. The effect is to treat the facility as though it were owned by the provider agency. Therefore, the owner's equity in the leased assets is includable in the equity capital of the provider agency.
2. In order to be considered an allowable cost, the home office cost must be directly related to those services performed for individual ~~providers~~ provider agencies and relate to client services. An appropriate share of indirect costs will also be considered. Documentation as to the time spent, the services provided, the hourly valuation of services and the allocation method used must be available to substantiate the reasonableness of the cost.

Section 42. Section 75-04-05-19 is amended as follows:

75-04-05-19. Taxes.

1. **General.** Taxes assessed against the provider agency, in accordance with the levying enactments of the several states and lower levels of government and for which the provider agency is liable for payment, are allowable costs. Tax ~~expense~~ costs may not include fines, penalties, or those taxes listed in subsection 2.
2. **Taxes not allowable as costs.** The following taxes are not allowable as costs:
 - a. Federal income and excess profit taxes, including any interest or penalties paid thereon.
 - b. State or local income and excess profit taxes.

- c. Taxes in connection with financing, refinancing, or refunding operation, such as taxes in the issuance of bonds, property transfers, issuance or transfers of stocks, etc. Generally, these costs are either amortized over the life of the securities or depreciated over the life of the asset. They are not, however, recognized as tax costs.
- d. Taxes from which exemptions are available to the provider agency.
- e. Taxes on property which is not used in the provision of covered services.
- f. Taxes, including sales taxes levied against residents and collected and remitted by the provider agency.
- g. Self-employment (FICA) taxes applicable to persons, including individual proprietors, partners, or members of a joint venture.

1. Each client is allowed to retain a specific monthly amount of income for personal needs. These personal needs include such items as clothes, tobacco, or other day-to-day incidentals. This monthly allowance is not to be applied toward the client's cost of care. Generally, the source of income for personal needs is from social security, veterans' benefits, private income, economic assistance, or supplemental security income.
2. ~~Providers~~ Provider agencies managing client funds must maintain a current client account record in a form and manner prescribed by the department. Copies of the client account record must be provided to the client without charge.
3. The department may conduct audits of client account records in conjunction with regular field audits.
4. Adult client funds may be disbursed with the client's permission in the absence of a ~~guardian~~ client authorized representative or declaration of incompetency.

 - e. Special type wheelchairs, e.g., motorized, permanent leg support, hand-controlled, if needed by client, recommended by the client's attending physician, and if no other payment resource is available.
 - f. Personal clothing, including robes, pajamas, and nightgowns, except for clothing at distinct parts of the state institution for individuals with developmental disabilities certified as intermediate care facilities for individuals with intellectual disabilities, when the ownership of the clothing is retained by the facility or the clothing is included as a part of the individual's plan of care.

minerals may be paid when ordered by the attending physician and the client, ~~parent, guardian, or responsible relative~~ or client authorized representative approves such use of the client's funds.

7. Charges by the program for items or services furnished clients will be allowed as a charge against the client or outside sources, only if separate charges are also recorded by the facility for all clients receiving these items or services directly from the program. All such charges must be for direct, identifiable services or supplies furnished individual clients. A periodic "flat" charge for routine items, such as beverages, cigarettes, etc., will not be allowed. Charges may be made only after services are performed or items are delivered, and charges are not to exceed charges to all classes of clients for similar services.
8. A client's private property must be clearly marked by name. The facility must keep a record of private property. If items are lost, the circumstances of disappearance must be documented in the facility's records.

11. Should a disagreement exist as to whether a client is capable of managing the client's own funds, a joint determination will be made by the ~~individual person centered~~ service plan team, parent, guardian, or responsible relative and client authorized representative in settling this dispute. The decision must be documented in the ~~provider's~~ provider agency's records.
12. On discharge, the facility must provide the client with a final accounting of personal funds and remit any balance on deposit with the facility.

75-04-05-23. Staff hours.

- ~~1. A calculation of the total number of employees necessary to meet staff-to-client ratios is made on the basis of a full-time equivalent employee. Assuming that a full-time employee has fifty-two working weeks of five days each, twelve holidays, ten vacation days, and ten sick days per year, the actual number of days worked is two hundred twenty-eight per year. Providers who grant fewer paid absences must use a full-time equivalent calculation which reflects a higher number of working days.~~
- ~~2. Assuming a two hundred twenty-eight day work year:
 - ~~a. Staffing for the three hundred sixty-five day service provided by a residential service provider each year requires 1.6 full-time equivalent staff members for each shift slot to be filled at all times (two hundred twenty-eight times 1.6 equals three hundred sixty-five).~~
 - ~~b. Staffing for the two hundred sixty days of service provided by a day service provider each year requires 1.14 full-time equivalent staff members for each staff required by the ratio (two hundred twenty-eight times 1.14 equals two hundred sixty).~~~~
- ~~3. To calculate the number of duty hours in a week, eight hours per day for five days (day services) and eight hours per night for seven nights (sleep time) are subtracted from the total hours of the week for residential service providers.~~

SECTION 49. Section 75-04-06-01 is amended as follows:

75-04-06-01. Principles of eligibility.

1. The process of determining an individual's eligibility to receive intellectual disabilities-developmental disabilities ~~case-program~~ management services involves the recognition of several criteria and an understanding of expected outcomes as each criterion is applied. Professional judgment is applied to determine the applicability of the provision of intellectual disabilities-developmental disability ~~case-program~~ management services in accordance with chapter ~~75-05-06~~ 75-05-04.
2. The following criteria must be used as the frame of reference for a team of at least three professionals in the human service center, led by the developmental disabilities program administrator or the administrator's designee, for the determination of an individual's eligibility for intellectual disabilities-developmental disabilities case management services.

History: Effective July 1, 1991; amended effective January 1, 1997; July 1, 2012; January 1, 2017.

General Authority: NDCC 25-01.2-18, 50-06-16

Law Implemented: NDCC 25-01.2-02, 50-06-05.3

SECTION 50. Section 75-04-06-02.1 is amended as follows:

75-04-06-02.1. Criteria for service eligibility.

1. An individual is eligible for intellectual disabilities-developmental disabilities ~~case-program~~ management services if the individual has a diagnosis of ~~mental retardation~~ intellectual disability which is severe enough to constitute a developmental disability.
 - a. A diagnosis of the condition of ~~mental retardation~~ intellectual

disability must be made by an appropriately licensed professional using diagnostic criteria accepted by the American psychiatric association.

- b. Determination of whether the manifestation of the condition is severe enough to constitute a developmental disability must be done in accordance with the definition of developmental disability in North Dakota Century Code section 25-01.2-01.
2. An individual is eligible for intellectual disabilities-developmental disabilities ~~case-program~~ management services if the individual has a condition of ~~mental retardation~~ intellectual disability, diagnosed by an appropriately licensed professional using diagnostic criteria accepted by the American psychiatric association, which is not severe enough to constitute a developmental disability, and the individual must be able to benefit from treatment and services purchased through the developmental disability division on behalf of an individual who meets the criteria of subsection 1.
 3. An individual is eligible for intellectual disabilities-developmental disabilities ~~case-program~~ management services if the individual has a condition, other than mental illness, severe enough to constitute a developmental disability, which results in impairment of general intellectual functioning or adaptive behavior similar to that of an individual with the condition of ~~mental retardation~~ intellectual disability, and the individual must be able to benefit from services and intervention techniques which are so closely related to those applied to an individual with the condition of ~~mental retardation~~ intellectual disability that provision is appropriate. Determination of eligibility for individuals described in this subsection requires the application of professional judgment in a two-step process:
 - a. The team must first determine whether the condition is severe enough to constitute a developmental disability. North Dakota Century Code section 25-01.2-01 must be applied in order to determine if a developmental disability is present. The presence of a developmental disability does not establish eligibility for services through the intellectual disabilities-developmental disabilities ~~case-program~~ management services system, but does require the team to consider all assessment data and apply professional judgment in the second step.
 - b. The team must then determine whether services can be provided to an individual determined to have a condition, other than mental illness, severe enough to constitute a developmental disability. The team must have a thorough knowledge of the condition and service needs of the applicant, as well as a thorough knowledge of services that would be appropriate through the developmental disabilities system. When considering if intellectual disabilities-developmental

disabilities ~~case-program~~ management is appropriate, the team must consider factors, including:

- (1) Whether the individual would meet criteria appropriately used to determine the need for services in an intermediate care facility for individuals with intellectual disabilities.
- (2) Whether appropriate services are available in the existing developmental disabilities service delivery system.
- (3) Whether a service, which uses intervention techniques designed to apply to an individual with intellectual disabilities, delivered by staff trained specifically in the field of intellectual disabilities, would benefit the individual.
- (4) Whether a service, designed for an individual with the condition of ~~mental retardation~~ intellectual disability, could be furnished to the individual without any significant detriment to the individual or others receiving the service.

- c. If the team concludes, through the application of professional judgment, that an individual's needs can be met through specific services purchased by the department for individuals who meet the criteria of subsection 1, ~~a~~ an intellectual disabilities-developmental disabilities ~~case-program~~ manager may be assigned. Services may be provided, subject to the limits of legislative appropriation. New services need not be developed on behalf of the individual.

History: Effective January 1, 1997; amended effective July 1, 2012; January 1, 2017.

General Authority: NDCC 25-01.2-18, 50-06-16

Law Implemented: NDCC 25-01.2-02, 50-06-05.3

SECTION 51. Section 75-04-06-04 is amended as follows:

75-04-06-04. Criteria for service eligibility – Children birth through age two.

1. Service eligibility for children from birth through age two is based on distinct and separate criteria designed to enable preventive services to be delivered. Young children may have conditions which could result in substantial functional limitations if early and appropriate intervention is not provided. The collective professional judgment of the team must be exercised to determine whether the child is high risk or developmentally delayed, and if the child may need early intervention services. If a child, from birth through age two, is either high risk or developmentally delayed, the child may be included on the caseload of ~~a~~ an intellectual disabilities-developmental disabilities ~~case-program~~ manager and considered for those services designed to meet specific needs. Eligibility for continued service inclusion through intellectual disabilities-developmental disabilities

case management must be redetermined by age three using criteria specified in section 75-04-06-02.1.

2. For purposes of this section:

a. "Developmentally delayed" means a child, from birth through age two:

(1) Who is performing twenty-five percent below age norms in two or more of the following areas:

- (a) Cognitive development;
- (b) Gross motor development;
- (c) Fine motor development;
- (d) Sensory processing (hearing, vision, haptic);
- (e) Communication development (expressive or receptive);
- (f) Social or emotional development; or
- (g) Adaptive development; or

(2) Who is performing at fifty percent below age norms in one or more of the following areas:

- (a) Cognitive development;
- (b) Physical development, including vision and hearing;
- (c) Communication development (expressive and receptive);
- (d) Social or emotional development; or
- (e) Adaptive development.

b. "High risk" means a child, from birth through age two:

(1) Who, based on a diagnosed physical or mental condition, has a high probability of becoming developmentally delayed; or

(2) Who, based on informed clinical opinion which is documented by qualitative and quantitative evaluation information, has a high probability of becoming developmentally delayed.

SECTION 52. Section 75-04-06-05 is amended as follows:

75-04-06-05. Service availability.

The extent to which appropriate services other than case-program management services are available to eligible clients is dependent upon legislative appropriations and resources. Eligibility for case-program management services does not create an entitlement to services other than case-program management services if resources are not available.
