

IFSP Checklist (0-3)

Initial or Annual IFSP

Client Name _____

IFSP meeting date _____ Due date _____

Date PEIP notified the DDPM of plan done _____

ID auth completed/signed/filed ISP signed/filed

ND Early Intervention Public MA Access signed/filed

Effective dates of the IFSP match the Case Plan service dates (Ind. 7)

Initial IFSP – Runs from meeting date to end date of ISP (year minus a day from eligibility date).

Annual IFSP – Runs the date of the case plan: starts on the meeting date and ends a year minus a day unless the child turns three in that timeframe.

When Periodic Reviews will occur (no more than 6 months between reviews)

Identifies IFSP team members

Medicaid redetermination date _____

Participants at the IFSP

Parents Program Manager

Person(s) directly involved in conducting evaluations or assessments

Person(s) providing services and support (PEIP, consultant, other DD service provider)

If not present how was information provided

Evaluation

2+ disciplines complete evaluation and assessment

Used objective criteria

Initial or annual PAR completed (by DDPM) for children using the waiver

Used multiple measures

AEPS completed and entered into AEPSi for children in services 6+ months (by PEIP)

Functional Skills/Present Level of Performance

Cognition Health Status

Hearing (tested in last year – may be in eval report)

Early Literacy Receptive Language

Expressive Language Self Help/Adaptive

Fine Motor Social Emotional

Gross Motor

Vision (tested in last year – may be in eval report)

Includes Family Interview – If meeting was held late it's documented in this section and verified in administrative notes (agency (illness, oversight, shortage), family, or weather).

Review of pertinent health and medical records (could also be listed above in Health Status section)

Family resources, priorities and concerns. Child's interests, motivators, fears, and dislikes related to participation in the routine are noted. Includes people important to the child and family. Information is connected to the family's everyday routine and activities. There is clear information on family priorities and how they link to the family's concerns, strengths and interests. Identifies supports and services when necessary.

If the child is participating in direct therapy the following statement needs to be listed here or in the outcome area.

"The IFSP team is in agreement that the services provided in the *part C Services* section of the IFSP will support (child) and (his/her) family to meet the outcomes within the IFSP. Additional services that the family has chosen to participate in are listed in the *Services neither required nor funded by Part C* section of the IFSP (list service and frequency)."

Review of the previous IFSP outcomes and services. Each outcome should be reviewed at the meeting and progress listed.

Risk Assessment (DDPM completes in initial. PEIP completes in annual)

Risks in child's environment (linked to outcome/strategies)

Emergency Back-Up Plan when supports are not available

Risks due to child's interactions with environments

Emergency Back-Up Plan for when Caregivers are not available

Outcomes

Outcomes (measurable) – end result, what focusing on and why

Criteria (how you'll know the outcome is met)

Transition outcome added no later than age 2-6.

Includes how you'll prepare the child, family and receiving agency. (Ind. 8a)

Activities (supports to achieve the outcome – integrated routines in natural environments)
