Re: Processing of Inpatient Claims

The Centers for Medicare and Medicaid (CMS) announced it will no longer include service line payment information for inpatient claims on Medicare Part A remittance advices generated on or after July 22, 2013.

In order to accommodate this change, North Dakota Medicaid will no longer require a service line Explanation of Benefits (EOB). An EOB must still be submitted with the claim or it will be denied.

This change will be effective immediately for inpatient claims filed with claim bill types 11X, 18X, and 21X only.
