

## **ND COUNTS Screening & Intervention Pilot**

### **Approved Vendors**

The ND COUNTS Screening & Intervention Pilot is designed to support districts in implementing evidence-based practices that strengthen academic outcomes through early identification and targeted intervention. After a thorough review process, four vendor programs were approved based on specific criteria to ensure quality, effectiveness, and alignment with the pilot's goals. Districts awarded grants for participation will select one of these approved tools to implement and evaluate over the next two school years.

For additional details about the pilot, including eligibility and implementation guidelines, please refer to the [ND COUNTS Pilot FAQs](#).

<b>Program</b>	<b>Vendor</b>
