MILL LEVY SUMMARY FOR 2021-2022

The following is a summary of the taxable valuation and the number of mills levied by school district and by county. Taxable valuation per enrolled student is calculated by dividing the total taxable valuation by K-12 fall enrollment. The statewide average taxable valuation per enrolled student for the current school year is \$46,774.

To determine the amount of revenue that a mill levy will raise, multiply the taxable valuation of the school district by the number of mills levied. (Example: taxable valuation \$1,500,000 x 40 mills / 1000 = \$60,000.)

The type of General Fund levy is denoted by use of the following codes: R = regular mill levy authorized by statute and set by the school board and S = specified mill levy authorized by the electors of the school district.

Of the school districts reporting a mill levy type, 166 districts have a regular mill levy and three districts have a specified levy. Four districts did not make a levy for the 2021-2022 school year. 36 districts levied less than 60 mills for general fund purposes. Four districts made no levy for general fund purposes. The total average levy for 2021-2022 is 105.64 mills.

The county and state totals were determined by totaling the taxable valuations for the school districts and calculating the number of mills required to raise the same amount of revenue if there were only a single county or state levy for each of the funds.

REPORT OF FUND GROUP 1 REVENUE AND EXPENDITURES AND AVERAGE COST PER PUPIL FOR 2020-2021

The following report contains a summary of the revenue by source, total expenditures, the June 30, 2021 ending balance for Fund Group 1 and average cost per pupil by grade level. The column headed local/county revenue contains revenue from county sources including dollars from mineral severance and conversion taxes. The total revenue column may be greater than the total revenue for local, state and federal sources because

revenue from other sources was not listed separately but was included in the total revenue column. The average cost per pupil is computed by dividing the reported costs for instruction, administration, and operation and maintenance of plant for each of the grade levels by the appropriate average daily membership. The value in the last column is the percent the ending balance was of the total Fund Group 1 expenditures.

EXPENDITURE CALCULATION OF AVERAGE COST PER PUPIL FOR 2020-2021

The cost of education (instruction) is calculated by adding the general fund expenditures for regular instructional programs for pre-kindergarten through grade 12, special education, career and technical education (CTE), federal programs, administration, and plant operation and maintenance. The total expenditures including cooperative special education and CTE expenditures for the above functions are then divided by the average daily membership to determine the average cost per pupil.

The average cost for 2020-2021 was as follows: Kindergarten, \$11,812.88; Elementary 1-6, \$13,745.52; Elementary 7-8, \$13,937.52; Elementary 1-8, \$13,796.01; Elementary K-8, \$13,570.67; Secondary 9-12, \$14,664.84; and all pupils \$13,929.16. The rank order of school districts by average cost per pupil is presented in the following tables.
