## GENERAL INSTRUCTIONS FOR COMPLETING LICENSED PERSONNEL FORMS (MIS03 – SFN 9111)

Complete Only One MIS03 Form for Each Staff Member

The accuracy of the information contained in the instructional program section (lines 23-49) is important, as this information is used to verify curriculum offerings (NDCC 15.1-21-02) for approval purposes.

Mission: To provide an education state database which is accurate, current, and appropriate to the state's education system.

**Reporting Requirements**: All contracted professional educational staff members working in North Dakota schools must complete an MIS03 (SFN 9111) form. The two general classifications of employees involved are as follows:

A. <u>Professional Educational Staff Member</u> – A professional educational staff member is a person who is performing activities regarded as professional in the field of education by the laws and regulations governing licensing in the state of North Dakota.

All professional educational personnel employed in an elementary, junior high/middle, and/or secondary school operated by a Local Education Agency (LEA) including public schools, career and technology centers, special education units, schools operated by the BIE, state institution schools, and nonpublic schools must complete an MIS03 form.

Only persons holding the following positions must complete an MIS03 form: assistant director, assistant principal, assistant superintendent, coordinator, director, school counselor, counselor designate, instructional programmer, library media specialist, principal, pupil personnel, school psychologist, speech-language pathologist, superintendent of schools, supervisor, and teachers. **Full-time contracted substitute teachers do not complete an MIS03**. County superintendents and assistant county superintendents are not required to complete an MIS03 form unless they are holding additional position(s) previously listed.

B. <u>Positions Which Do Not Require a Teaching License</u> – Persons assigned to positions not listed in section A above (e.g., social workers) must be listed on the PER02 Non-licensed Personnel Form (SFN 9113) even if they have a license in their area of specialization.

TEACHER AIDES AND PARAPROFESSIONALS must not fill out this form (MIS03) but must be included on the PER02.

<u>Coding</u>: Please use the MIS03 data item codes listed in this manual. Select the most accurate response even though the response may not describe the situation exactly. Item numbers and line numbers in this manual refer to the numbers that appear on the printed record.

The data items that have been preprinted are the data items that were submitted to the Department of Public Instruction last year. *Please review* all data items and if a discrepancy is found or items have been changed or added from last year, make the corrections according to the instructions found in this manual. <u>NOTE</u>: New information for the current year will be displayed in the manual in RED and information to be deleted will be displayed with a STRIKETHROUGH.

<u>Online Forms</u>: These forms are to be completed through the <u>State Automated Reporting System (STARS)</u>. Preprinted information has been provided for all personnel employed in the LEA last year. Add a record for each new employee. Records for personnel no longer employed in your school *must* be deleted.

Preprinted Forms: Collection forms (worksheets) can be generated from the online system to collect data.

<u>Multiple Assignments/Schools</u>: Persons teaching in more than one school or LEA and administrators, including special education unit and ELL/Bilingual program personnel, must *complete only one* MIS03 form. Instructions for persons teaching in *more than one* school and/or LEA, classes that have less than full-time students from another school or are employed in a special education unit are found on page 14, Section C. Examples are found throughout the Instructional Program Section. Section C must be completed for all personnel that provide services in more than one school and/or LEA.

<u>Submission Date/Procedures</u>: Please submit the completed forms to Management Information Systems, Department of Public Instruction *on or before September 19*. Because of shared personnel, failure to report on time delays other schools. Once the online MIS03 forms have been submitted, it is recommended that copies are printed for your files. Copies of the forms may be required by your county superintendent/designee. Please contact that office for instructions. When relevant, graded elementary and rural LEA forms will be processed through the county superintendent's/designee's office.

<u>Personnel/Instructional Program Changes</u>: Please submit revised MIS03 forms to reflect any changes throughout the school year. Personnel revisions include employment of new staff, termination of employment, and assignment changes (e.g., new courses, course cancellations). Use a blank MIS03 form for a new employee. Changes on forms that have been submitted via the online system should be submitted on a revised copy of the MIS03 form. Write REVISED on this form, sign and include date of changes, and whether it is employment of new staff or termination of employment. Send a copy to your county superintendent/designee if required.

**Records Retention**: It is recommended that forms be retained for the current year and four previous years.

- 17. <u>FULL-TIME EQUIVALENCY</u> Record the percentage of the employment time of a staff member. Do not use a percent sign or decimal point. (Note: The online system automatically calculates the sum of the assignment times.)

Example: A staff member employed five days a week for at least the number of hours per day equal to the number of hours of a regular school day would be considered a full-time staff member and would have a full-time equivalency of 100.

The preprinted license numbers are those which are on file with ESPB. All licensed personnel must exhibit their teaching license to the business manager of the LEA in which they are employed before rendering services (NDCC 15.1-13-18). Note: If a teacher needs to apply for or renew their ND teacher's license, they should access NDTeach (<a href="http://www.nd.gov/espb/">http://www.nd.gov/espb/</a>) to complete and submit their teaching license application. Questions regarding their ND teacher's license should be directed to ESPB (701-328-9641).

MAJORS AND MINORS - The areas which have been preprinted reflect college granted majors and minors only. If your major or minor is incorrect as indicated or if you have received additional college granted majors or minors, contact ESPB (701-328-9641) and supply the correct information. ENDORSEMENTS - Earned endorsements will be added to a current North Dakota teacher's license. Endorsements reflect a change in level of eligibility to teach (e.g., elementary endorsement for a secondary licensed person, etc.). If an earned endorsement is incorrectly indicated on your teaching license, contact ESPB (701-328-9641). Note: If a teacher needs to apply for a new/additional endorsement or renew an existing endorsement, they should access NDTeach (<a href="http://www.nd.gov/espb/">http://www.nd.gov/espb/</a>) to complete and submit their application.

<u>Teachers (1-8) and Specialists (PK-8)</u> - All classroom instructors in grades 1-8 and specialists in music, physical education, art, library, etc. should code *their* schedules (not the student schedules). For instructional purposes, enter the elementary course code number, course name, number of weeks per year, total number of minutes per week, and number of students by grade. *If the instructor teaches two or more sections of the same course, each section is to be coded separately.* Use noninstructional codes for other assignments (e.g., 00072, Instructional Preparation when students are with a specialist). Following are examples of the appropriate coding:

Example (10): Elementary teacher schedule with one grade, 1-8.

## TEACHERS HAVING STUDENTS FROM MORE THAN THEIR HOME SCHOOL Example (16): AND/OR LEA should complete the "Other School" section (section C) for each class in which students are enrolled from another LEA for career and technology courses. School codes are found in section D of the North Dakota Educational Directory (https://www.nd.gov/dpi/data/directory/). Let us assume students from St. Mary's Central High School are taking career and technology classes at Bismarck High School. By inserting St. Mary's school code (08-409-8182), they are given credit for making arrangements for career and technology and other instruction for students enrolled in their school. This example would also apply to LEAs having cooperative arrangements for other courses.

Example (16a): Teachers having students from more than their home school and/or LEA.

## SPECIAL EDUCATION INSTRUCTIONAL PROGRAM Coding Examples

Approved Special Education Instructional Program - All personnel having a special education endorsement and working in a special education program approved by the Education Standards and Practices Board must complete the instructional program section using the codes which follow. Enter the program code, program name, weeks per year, number of minutes per week, and the number of pupils by grade. (See examples 23 and 24.) A teacher's total minutes per week cannot exceed their "instructional day" (example: a 6 ½ hour instructional day equals 1,950 minutes per week).

Example (23): An endorsed special education staff member teaching a class of ID students would complete the instructional program section as follows. Students should be assigned to grade levels by age.

Example (24): The following example is for an endorsed staff member who provides speech and language services in several schools in several LEAs with 49 students. See section D of the North Dakota Educational Directory (https://www.nd.gov/dpi/data/directory/) for school codes.

Testing, planning, and staffing are considered to be a part of the regular program responsibilities.

For students with disabilities identified as Non-categorical Delay (NCD), use the course activities code that matches the endorsements of the teacher providing the services.

<u>Special Education Strategists</u> should complete the MIS03 by breaking out student populations served and make individual entries as necessary for course codes: SLD 19110, ED 19201, and/or ID 19101.

School Psychologists and Speech-Language Pathologists - School psychologists and speech-language pathologists who do **not** hold a North Dakota teaching license, but are licensed through their respective state boards, should **not** submit an MIS03 form. (The MIS03 is for individuals who hold a North Dakota teaching license only.) These individuals should be included on the PER02 form (for related service personnel and ancillary staff).

ID, SLD, ED, Visually Impaired, Hearing Impaired, and Early Childhood Special Education Consultants (00036, 00037, 00038, 00039, 00041, and 00042) - Special educators who do not directly instruct students in any core academic subjects or who provide only consultation to highly qualified teachers of core academic subjects in adapting curricula, using behavioral supports and interventions, or selecting appropriate accommodations do not need to demonstrate subject-matter competency in those subjects. These special educators could also assist students with study skills or organizational skills and reinforce instruction that the child has already received from a highly qualified teacher in that core academic subject.

<u>Special Education Resource Room 00094</u> - For mixed category enrollments the teacher *must hold an endorsement in one of the two disability categories and must have completed the required course work in the other area of exceptionality.* If a greater number of students from one area of exceptionality than the other area are enrolled, the teacher should hold an endorsement in that area of exceptionality.

In order to comply in this course code area, special education resource room teachers must have an endorsement issued by the Education Standards and Practices Board.

Special Education Supplemental 19104 – Special education teachers that are hired to work with Title I students need to hold a North Dakota teaching license in Special Education and an endorsement in Learning Disability. On the MIS03 assignment section, code Position 70 and Area of Responsibility 116.

## FUNCTIONAL AND COMMUNITY-BASED COURSES FOR STUDENTS WITH UNIQUE LEARNING NEEDS

NOTE: All PK-12 course codes and descriptions can be viewed at <a href="https://www.nd.gov/dpi/districtsschools/course-codes">https://www.nd.gov/dpi/districtsschools/course-codes</a>. Courses are listed on the next page.

Whenever possible, students with unique learning needs should be included in regular course offerings with supplementary aids and services. When the regular curriculum offerings are inappropriate, individualized programming may be designed through an individual education planning process. Specific course offerings should address the unique learning needs of each individual student. The intent of the Applied Topics curriculum is twofold: 1) provide standard credit and instruction for completion of applicable functional course work using the foundation of the local school community partnership; and 2) promote collaboration of general and special educators working together in meeting the individual needs of the students. The Applied Topics Courses are most relevant for those students with intellectual disabilities (ID), significant learning disabilities (SLD), emotional disabilities (ED), or as designated by the student's IEP team. In some individual student situations, the Applied Topics courses may be appropriate for students with autism (AUT), hearing impairments or deafness (HI), and visual impairments (VI). Courses between 19710 and 19944 are for students receiving special education in grades 9-12.

The Applied Topics Courses in English/Language, Math, Science, and Social Studies are for students with disabilities who are assessed using the North Dakota State Assessment and who also require a specially designed curriculum in that core content area to receive credit. The teacher providing the instruction, grade and credit for this course must be highly qualified in the core content area. The Alternative Assessed Core Topics in English/Language, Math, Science, and Social Studies are for students with disabilities who are assessed using the North Dakota State Alternate Assessment and who also require a specially designed curriculum in the core content area to receive credit. The teacher providing instruction, grade, and credit must have an elementary degree and an endorsement in the area of the disability. The Applied Topics Courses in the core subjects of English/Language, Math, Science, or Social Studies must be taught by a teacher highly qualified in that particular subject.

Applied Topics in Health, Daily Living, Recreation/Leisure, Accessing the Community, and Occupational Education are courses that may be taught by special education teachers endorsed in ID, ED, SLD, VI, or HI.

Course code 19844 is a skills course for those students who are learning to use alternative language systems (e.g., sign language or augmentative communication systems) and is taught by an instructor with a background in deaf education or speech-language pathology.

Whenever possible, students with unique learning needs should be included in regular curricular offerings with supplementary aids and services. In these instances in which the curriculum is inappropriate, individualized programming may be designed through an individual education planning process. Specific course outcomes should address the unique learning needs of each individual student.
