Federal law (Individual with Disabilities Education Act) requires that a reevaluation for the continued determination of eligibility be completed every three years. In order to determine if (student) continues to be a student with a disability and what new skills to target for the next few years, the team needs to conduct a comprehensive reevaluation.

2. Description of the evaluation procedures, tests, records and reports used to make the decision.

A review of (student's) file indicate that a comprehensive evaluation has not been conducted for six years. The team feels there is new information that could be gleaned from conducting a reevaluation

3. Description of options considered prior to this decision and the reason each option was declined.

The team considered not conducting a reevaluation but declined this option because it was felt a comprehensive evaluation would help the team to determine if they are meet all of (student's) needs.

Although the (student) has made much progress in the areas of reading and math, the (student) continues to perform below grade level.
