GENERAL INSTRUCTIONS

Title I Part D, Subparts 1 (State Agency) and Subpart 2 (Local Educational Agency)

For items that request information on the **number of facilities/programs**, report **only** on facilities or programs that received Title I Part D funding during the reporting year.

For items that request information on the **number of students**, report **only** on neglected or delinquent students who received Title I Part D services during the reporting year.

Reporting Year

The reporting year is defined as the school year beginning **July 1 through June 30**.

PROGRAMS AND FACILITIES (2.4.1.1 & 2.4.2.1)

Facility Type – Page 1, Items 1-5:

In the first column, report the number of facilities/programs that received Title I, Part D funding. Indicate the total number of facilities/programs by type, including neglected programs, detention facilities, juvenile correction facilities, and adult correction centers.

In the second column, enter the average length of stay (in days) for students in each type of facility/program. The average should include multiple visits for students who entered a facility or program more than once during the reporting year.

NUMBER OF STUDENTS SERVED (2.4.1.2 & 2.4.2.2)

Pages 1 and 2, Items 6-12:

An unduplicated count counts each student only once, even if the student was admitted to the facility or program more than once within the reporting year.

Long-term students are those who have been enrolled in a program for 90 or more consecutive calendar days. Multiple admissions may not be added together.

The unduplicated count should be equal to the subtotals of each demographic category, and all demographic category counts should be equivalent to each other. For example, if the unduplicated count is 120 students, then the race/ethnicity total should be 120, the gender total should be 120, and the age total should be 120.

ACADEMIC OUTCOMES (2.4.1.3.2 & 2.4.2.3.2)

This section collects the number of students who attained specific academic and vocational outcomes. The reported number should represent unduplicated count of students; report only information on a student's most recent enrollment (e.g., do not double-count a student that earned credits on two separate enrollments). However, students may be counted in more than one outcome category within the same enrollment period (e.g., returned to school, earned high school credits, enrolled in job training programs, and obtained employment).

The total of the numbers reported cannot be greater than the total of Item 6 (Total Unduplicated Students Served) on page 1 of SFN 53733.

Academic and Vocational Outcomes While in the State Agency/LEA Facility:

Items 1-7: Enter the number of students who attained the following academic outcomes *during their time in the program/facility*:

- Earned high school course credits
- Enrolled in a GED program

Academic and Vocational Outcomes Within 90 Calendar Days After Exiting the State Agency Program/LEA Facility

Long-Term Student Performance in Reading (2.4.1.6.1) and Math (2.4.2.6.1)

Report the unduplicated counts of long-term (90 consecutive calendar days or more) Title I Part D students in Neglected programs, Juvenile Corrections, Juvenile Detention, Adult corrections/At Risk, or Other programs, who participated in pre- and post-testing in the supplemental academic program in reading and math. Only provide pre-and-post test information for the programs where your facility offers services. **Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1 to June 30.**

Students who were pre-tested prior to July 1 may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Do not report on pre- and post-test results of different tests were used at pre-test and post-test. Do not include results of GED tests.

The total of the numbers reported cannot be greater than the total of Item 7 (Long-Term Students Served) on page 1 of SFN 53733. The reported numbers should represent unduplicated counts of students; report only information on a student’s most recent testing data.
