The North Dakota Department of Health and Human Services is offering a grant opportunity to each ND Special Education Unit who serves children ages 3-5, to promote or enhance family engagement in communities across our state.

Projects are based on the individual needs of each unit. Funding requests may encompass the following areas:

- The use of evidence based practices for serving children ages 3-5 with disabilities
- Awareness of services in communities
- Family engagement activities and events
- Material development to enhance family and community partnerships
- Purchase of additional family friendly assessments or educational tools
- Innovative projects to support family engagement in Early Childhood
- Training opportunities or professional development aimed at enhancing family engagement
